Kelly, I have the order to issue in this docket and notice a discrepancy in rule number(s) in CMS and in order. When the docket was opened, it was for violation of Rules 25-4.0161 and 25-24.480, but the recommendation and order both do not mention 25-24.480. What happened to that rule? Should we have been told to revise the docket title? Kay
