

Florida Public Service Commission

SPECIAL REPORT

JULY 2004 NO. 6

Application for a Rate Increase by Florida Public Utilities Company

On May 10, 2004, Florida Public Utilities Company (FPUC or the company) filed a petition for approval of a permanent rate increase with the Florida Public Service Commission (PSC or Commission). The utility is requesting the Commission's approval of a permanent rate increase of \$8,186,989 on an annual basis. The Commission last granted FPUC a rate increase by Order No. PSC-95-0518-FOF-GU issued April 26, 1995.

The current rate case is being processed under the PSC's "Proposed Agency Action" (PAA) procedure. Under the PAA process, the case will not be set for a formal hearing unless a timely protest to the Commission's proposed agency action is filed.

FPUC requested this increase because of rising costs and in order to continue to provide safe, adequate, reliable and efficient service to customers. Specifically, the company has stated the following reasons for its requested rate increase: (1) it has experienced increased operating costs, plant replacement costs, and the need for additional plant; (2) its pension costs, medical costs, medical insurance, property and liability insurance costs have increased, as well as, costs associated with environmental cleanup and compliance programs and maintenance; and (3) it will need to invest in new facilities and replacement programs.

While the proposed increase to residential customers will vary based on therm usage, the residential customers, except for those in the New Smyrna Beach District, who use an average of 20 therms per month would pay an additional \$3.83 per month under the proposed rates. The residential customers in the New Smyrna Beach District who use 20 therms per month would only pay an additional \$0.20 per month.

The staff of the PSC has scheduled two customer meetings in the utility's service area to provide customers an opportunity to comment and ask questions regarding the company's proposed rate increase.

The company requested an interim increase of \$1,490,980. The interim rate increase is subject to refund, with interest, until after the Commission has completed its investigation. On July 6, 2004, the PSC is scheduled to consider whether to suspend the utility's current permanent rates, and approve an interim rate increase.

PSC staff is scheduled to file its proposed agency action recommendation to the Commission on October 7, 2004, and the Commission's consideration and vote on this matter is scheduled for October 19, 2004.

CUSTOMER MEETINGS

DOCKET NO. 040216-GU

The meetings will begin as scheduled and will continue until all customers have been heard. If no customers are present, the meetings may be adjourned early. All persons desiring to comment on the utility's requested increase are urged to appear at the beginning of the meeting.
