JULY 2005 NO. 7

Petition for Realignment of Exchange Boundaries of St. Johns, St. Augustine, Ponte Vedra Beach, Jacksonville, and Green Cove Springs, and for Consolidation of Julington Exchange with St. Johns Exchange by

## **BellSouth Telecommunications, Inc.**

In March of 2005, BellSouth Communications, Inc. (BellSouth or the company) filed a petition with the Florida Public Service Commission (PSC or Commission) for approval to realign some of the exchange boundaries in St. Johns county. If the PSC approves the petition, the realignment would require approximately 4,000 customers in the area to change their seven-digit telephone numbers. In its petition, BellSouth states that St. Johns County is experiencing increased development with high growth. BellSouth's proposal would create a larger St. Johns exchange that would encompass most of north St. Johns County.

BellSouth's proposal would consolidate all customers in the Julington exchange into the new St. Johns exchange. However, the Julington exchange customers would not incur a telephone number change. BellSouth's proposal would also shift some customers from the Ponte Vedra Beach exchange (west of the Intracoastal Waterway), Jacksonville exchange (customers located around Bartram Plantation Development), Green Cove Springs exchange (east of the St. Johns River) and north St. Augustine exchange to the new St. Johns exchange. These customers would be required to change their telephone number. This group of customers may choose to retain their old calling scope and rates for a period of two years. However, grandfathered customers would still be required to change their telephone number even though they select to retain their old rates and calling scope for the two-year period.

BellSouth's proposal for realignment would consist of five phases: Phase 1: a) move approximately 120 customers from Ponte Vedra Beach Exchange to the St. Johns Exchange, b) move a portion of the Jacksonville Exchange to the St. Johns Exchange (no customers are currently in this area), c) move approximately 2,500 customers from the St. Augustine Exchange to the St. Johns Exchange;

Phase 2: a) move a portion of the Julington Exchange to encompass a portion of the Green Cove Springs Exchange (no customer impact – consolidates subdivision in a single wire center); Phase 3: a) move approximately 15 customers from the Jacksonville Exchange to the Julington Exchange; Phase 4: a) move approximately 840 customers from the Green Cove Springs Exchange to the St. Johns Exchange; Phase 5: a) consolidate the Julington Exchange into the St. Johns Exchange.

The PSC has scheduled three customer meetings to provide customers an opportunity to comment on the quality of service BellSouth provides and the proposed realignment. In accordance with Florida Statutes, the PSC will consider the utility's quality of service and other matters in this case.
