DOCKET NO. 20180001-EI
ORDER NO. PSC-2018-0376-CFO-EI
ISSUED: July 30, 2018

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
AMENDED FIRST REQUEST FOR EXTENSION OF CONFIDENTIAL
CLASSIFICATION (DOCUMENT NO. 02461-2018)

On March 21, 2018, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed its first request for extension of confidential classification (Request) for materials provided pursuant to Audit No. 16-020-4-2 (Audit) (Document No. 02461-2018). Confidential classification of Audit No. 16-020-4-2 was initially granted by Order No. PSC-16-0403-CFO-EI, issued on September 21, 2016. FPL amended its request for confidentiality of Audit No. 16-020-4-2 on July 20, 2018, to request confidentiality for a 36 month period.

Request for Confidential Classification

FPL contends that portions of the materials provided pursuant to Audit No. 16-020-4-2 continue to be proprietary confidential business information under Sections 366.093(3)(c), (d) and (e), Florida Statutes (F.S.). FPL has submitted revised Exhibits A, B and C, which reflect the deletion of some materials originally granted confidentiality by Order No. PSC-16-0403-CFO-EI. The remaining materials consist of internal auditing controls, the reports of internal auditors for 2015, and contract pricing and bid information for long and short term capacity and energy wholesale transactions. Further, the materials include information describing security services provided by third party vendors to comply with North American Electric Reliability Corporation Critical Infrastructure Protection requirements. FPL contends that nothing has occurred since the issuance of Order No. PSC-16-043-CFO-EI to render this information stale or public. Finally, FPL states that it has consistently maintained the confidentiality of this information and requests that confidential treatment be extended for another 36 months.

Ruling

Section 366.093(1), F.S., provides that records the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

- (c) Security measures, systems, or procedures

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information described above and in Attachment C appended to FPL's Request appears to be "internal auditing controls and reports of internal auditors", "security measures, systems or procedures", "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, the information identified in Document No. 02461-2018 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order unless good cause is shown to grant protection from disclosure for a longer period. Currently the Commission retains audit reports for a period of seven years at which time the audit materials are returned to FPL unless Commission staff or another affected person requests that these audit materials continue to be retained. The nature of these materials will not change in the next three years. Therefore, it is administratively efficient at this time to grant confidentiality classification for a period of 36 months. At the conclusion of this 36-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

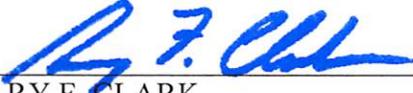

Based on the foregoing, it is

ORDERED by Commissioner Gary F. Clark, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 02461-2018 is granted, as set forth herein. It is further

ORDERED that the information in Document No. 02461-2018 for which confidential classification has been granted shall remain protected from disclosure for a period of 36 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Gary F. Clark, as Prehearing Officer, this 30th day of July, 2018.
