FOR IMMEDIATE RELEASE

NextEra Energy reports 2017 fourth-quarter and full-year financial results

- NextEra Energy achieves strong 2017 results; increases financial expectations and extends outlook by an additional year through 2021
- FPL will reduce customer bills by using federal tax savings to forgo recovery of the approximately \$1.3 billion Hurricane Irma restoration cost – saving each of FPL's nearly 5 million customers an average of \$250 and potentially avoiding a base rate increase for up to two years
- NextEra Energy Resources executes record year for wind and solar origination, adding approximately 2,700 megawatts to its contracted renewables backlog and 700 megawatts to its repowering backlog

JUNO BEACH, Fla. - NextEra Energy, Inc. (NYSE: NEE) today reported 2017 fourth-quarter net income attributable to NextEra Energy on a GAAP basis of \$2.155 billion, or \$4.55 per share, compared to \$966 million, or \$2.06 per share, for the fourth quarter of 2016. On an adjusted basis, NextEra Energy's 2017 fourth-quarter earnings were \$590 million, or \$1.25 per share, compared to \$566 million, or \$1.21 per share, in the fourth quarter of 2016.

For the full year 2017, NextEra Energy reported net income attributable to NextEra Energy on a GAAP basis of \$5.378 billion, or \$11.38 per share, compared to \$2.912 billion, or \$6.25 per share, in 2016. On an adjusted basis, NextEra Energy's full-year 2017 earnings were \$3.165 billion, or \$6.70 per share, compared to \$2.884 billion, or \$6.19 per share, in 2016, which represents year-over-year growth in adjusted earnings per share of 8.2 percent.

Adjusted earnings for these periods exclude the effects of non-qualifying hedges, the impacts of tax reform, an impairment charge, gains on disposal of a business/assets, the net effect of other than temporary impairments (OTTI) on certain investments, operating results from the Spain solar projects and merger-related expenses.

NextEra Energy's management uses adjusted earnings, which is a non-GAAP financial measure, internally for financial planning, analysis of performance, reporting of results to the board of directors and as an input in determining performance-based compensation under the company's employee incentive compensation plans. NextEra Energy also uses earnings expressed in this fashion when communicating its financial results and earnings outlook to analysts and investors. NextEra Energy's management believes that adjusted earnings provide a more meaningful representation of NextEra Energy's fundamental earnings power. A reconciliation of historical adjusted earnings to net income attributable to NextEra Energy, which is the most directly comparable GAAP measure, is included in the attachments to this news release.

"Our performance during 2017 was strong both financially and operationally with outstanding execution on our initiatives across the board," said Jim Robo, chairman and chief executive officer of NextEra Energy. "We grew 2017 adjusted earnings per share by 8.2 percent and delivered a total shareholder return of more than 34 percent, outperforming both the S&P 500 and the S&P 500 Utilities Index by a wide margin. Last week, NextEra Energy was ranked No. 1 overall among electric and gas utilities on Fortune's 2018 list of the 'Most Admired Companies' for the 11th time in 12 years. This is a testament to our employees' passion, hard work and relentless commitment to excellence each and every day. At FPL, we grew regulatory capital employed approximately 10.3 percent by making significant progress on our major initiatives, including advancing one of the largest solar expansions ever in the eastern U.S., while keeping electric bills low, maintaining high reliability and delivering superior customer service. NextEra Energy Resources had a record year, adding approximately 2,700 megawatts to its contracted renewables backlog and 700 megawatts to its repowering backlog, while commissioning roughly 2,150 megawatts of wind and solar projects, including repowering. Additionally, the federal tax reform outcome is positive and will immediately benefit FPL customers while being accretive to NextEra Energy shareholders. Overall, NextEra Energy is as well-positioned as it's ever been with excellent prospects for growth and one of the strongest balance sheets in the sector. We are extremely proud of our long-term track record of providing value creation for our shareholders and are poised to continue that track record going forward. With this in mind, we are increasing our financial expectations to reflect the approximately 45 cents per share 2018 benefit from tax reform and extending them by an additional year through 2021."

Florida Power & Light Company

NextEra Energy's principal rate-regulated electric utility subsidiary, Florida Power & Light Company (FPL), reported fourth-quarter 2017 net income on a GAAP basis of \$344 million, or \$0.73 per share, compared to \$371 million, or \$0.79 per share, for the prior-year quarter. For the fourth quarter and full year 2017, FPL is excluding as a tax reform-related item from adjusted earnings the \$50 million after-tax net impact that results primarily from the shortfall of available reserve amortization to offset the Hurricane Irma cost recovery expense. On an adjusted basis, FPL's earnings for the fourth quarter of 2017 were \$394 million, or \$0.84 per share, compared to \$371 million, or \$0.79 per share, for the fourth quarter of 2016. For the full year 2017, FPL reported net income on a GAAP basis of \$1.880 billion, or \$3.98 per share, compared to \$1.727 billion, or \$3.71 per share, in 2016. On an adjusted basis, FPL's earnings for the full year 2017 were \$1.930 billion, or \$4.09 per share, compared to \$1.727 billion, or \$3.71 per share in 2016.

FPL's growth was driven by continued investments in clean, efficient, modernized generation, as well as a stronger and smarter grid, to further improve the already outstanding efficiency and reliability of its system. FPL's capital expenditures were approximately \$1.5 billion in the fourth quarter of 2017, bringing full-year capital investments to approximately \$5.3 billion. Regulatory capital employed in 2017 grew approximately 10.3 percent, compared to the prior year. During the fourth quarter, FPL's average number of customers increased by approximately 55,300 from the prior-year comparable quarter.

FPL continued to deliver a customer value proposition that includes high reliability, award-winning customer service, a clean emissions profile and a typical residential customer bill that is among the lowest in Florida and the nation. In 2017, FPL achieved its best-ever service reliability performance, and was named the winner of the 2017 ReliabilityOne™ Award for Outstanding Reliability Performance in the Southeast U.S. by PA Consulting Group, Inc. for the fourth consecutive year.

In 2017, FPL responded to Hurricane Irma – one of the largest, most powerful storms to ever hit Florida – and the company's response was unprecedented both in scale and the speed of power restoration. FPL had previously announced its intention to begin recovering the approximately \$1.3 billion restoration cost by implementing a surcharge on customer bills through 2020. Instead, FPL plans to reduce customer bills by using federal tax savings to forgo recovery of the Hurricane Irma restoration cost, which will save each of FPL's nearly 5 million customers an average of approximately \$250. In addition, FPL may be able to

use future federal tax savings to continue operating under the current base rate agreement beyond the initial term, which covers through 2020, for up to two additional years, potentially avoiding base rate increases to customer bills in 2021 and 2022. FPL believes this is the fastest way to begin passing tax savings along to customers and the most appropriate approach to keeping rates low and stable for years to come.

FPL continued to make significant progress on its major initiatives in 2017, including advancing one of the largest solar expansions ever in the eastern U.S. Construction on four solar energy centers, totaling approximately 300 MW, was completed on schedule and under budget. An additional four 74.5-MW solar energy centers are being built across FPL's service territory and are all on track to begin providing cost-effective energy to FPL customers this quarter. Development continues on an additional 1,600 MW of solar projects planned for beyond 2018, and FPL has secured potential sites that could support more than 5 gigawatts of FPL's ongoing solar expansion.

Construction on the state-of-the-art, natural-gas fueled FPL Okeechobee Clean Energy Center remains on schedule and on budget. The approximately 1,750-MW project, expected to begin operation in mid-2019, will be one of the cleanest, most efficient plants of its kind in the world. Additionally, progress continues to advance on the 1,200-MW FPL Dania Beach Clean Energy Center. The facility, which will be highly efficient and fueled by clean-burning natural gas, is expected to begin operation by mid-2022 and produce more than \$335 million in projected net savings for FPL customers over its operational life.

This month, FPL retired the St. Johns River Power Park in Jacksonville, Florida, an approximately 1,300-MW coal-fired power plant co-owned with JEA. Closure of the plant is projected to prevent more than 5.6 million tons of carbon dioxide emissions annually and save FPL customers an estimated \$183 million.

NextEra Energy Resources

NextEra Energy Resources, the competitive energy business of NextEra Energy, reported a fourth-quarter 2017 contribution to net income attributable to NextEra Energy on a GAAP basis of \$1.894 billion, or \$4.00 per share, compared to \$360 million, or \$0.77 per share, in the prior-year quarter. On an adjusted basis, NextEra Energy Resources' earnings for the fourth quarter of 2017 were \$230 million, or \$0.49 per share, compared to \$191 million, or \$0.41 per share, for the fourth quarter of 2016. For the full year 2017, NextEra Energy Resources reported net income attributable to NextEra Energy on a GAAP basis of \$2.963 billion, or \$6.27 per share, compared to \$1.125 billion, or \$2.41 per share, in 2016. On an adjusted basis, NextEra Energy Resources' earnings for the full year 2017 were \$1.230 billion, or \$2.61 per share, compared to \$1.090 billion, or \$2.33 per share, for the full year 2016.

This quarter's adjusted results exclude a \$1.925 billion gain related to a reduction in deferred tax liabilities resulting from tax reform and a charge associated with the Duane Arnold Energy Center. In late 2017, the company concluded that it is unlikely that the facility's primary customer will extend the current contract after it expires in 2025. Without a contract extension, the facility would likely close at the end of 2025 despite being licensed to operate until 2034. As a result, during the fourth quarter, Duane Arnold Energy Center's book value and asset retirement obligation were reviewed and an after-tax impairment of \$258 million was recorded, reflecting the company's belief that it is unlikely the project will operate after 2025. NextEra Energy Resources continues to pursue a contract extension that would enable Duane Arnold Energy Center to continue operations.

NextEra Energy Resources' contribution to adjusted earnings per share in the fourth quarter of 2017 increased by \$0.08 against the prior-year comparable period. The business' results were primarily driven by contributions from new investments and increased contributions from existing generation assets as a result of repowering, partially offset by lower contributions from the gas infrastructure business.

For the full year 2017, NextEra Energy Resources' contribution to adjusted earnings per share increased \$0.28 from the prior-year comparable period. Growth was driven by continued new additions to its renewables portfolio, including the roughly 2,500 MW of new wind and solar projects commissioned in

2016, which are included in new investments during the first 12 months of operation, as well as contributions from new natural gas pipeline investments.

NextEra Energy Resources achieved another record year of origination with approximately 1,700 MW of new wind projects and more than 1,000 MW of new solar projects, including the largest combined solar and storage facility in the U.S. announced to date, and added roughly 700 MW of wind repowering to its backlog. In addition, the company commissioned approximately 2,150 MW of wind and solar in the U.S., including the first approximately 1,600 MW of its repowering program.

Both the Sabal Trail and Florida Southeast Connection natural gas pipeline projects successfully achieved commercial operation on budget and on schedule. Additionally, the Mountain Valley Pipeline made excellent progress over the year, receiving its first limited notice to proceed from the Federal Energy Regulatory Commission this week, and it remains on track to achieve a year-end 2018 commercial operation date.

Corporate and Other

In the fourth quarter of 2017 on a GAAP basis, Corporate and Other earnings decreased \$0.68 per share, compared to the prior-year quarter. On an adjusted basis, Corporate and Other earnings for the fourth quarter of 2017 decreased \$0.09 per share, compared to the prior-year quarter. During the fourth quarter of 2017, the company capitalized on the ongoing favorable financing market conditions and completed several refinancing initiatives. The combined financings, which have roughly a \$165 million after-tax net present value benefit on a cash basis, resulted in a net income reduction of approximately \$33 million, or \$0.07 per share. For full year 2017, Corporate and Other earnings increased \$1.00 per share on a GAAP basis, compared to 2016, due to a gain on the sale of FiberNet in early 2017. On an adjusted basis, full-year 2017 Corporate and Other earnings decreased \$0.15 per share year-over-year, primarily reflecting the costs related to fourth quarter 2017 refinancing initiatives.

Outlook

Based on the tax reform benefit, which is expected to be approximately 45 cents in 2018, NextEra Energy is increasing its financial expectations ranges and now expects adjusted earnings per share to be in the range of \$7.45 to \$7.95 for 2018. With the certainty provided by the new tax reform legislation and the anticipated continued strength of the investment opportunities at both FPL and NextEra Energy Resources, NextEra Energy is also extending its longer-term growth outlook to 2021. The company expects a compound annual growth rate in adjusted earnings per share to be in a range of 6 to 8 percent through 2021, off a revised base at the midpoint of the new 2018 range, or \$7.70 per share. In 2019, the company now expects adjusted earnings per share to be in the range of \$8.00 to \$8.50. For 2020 and 2021, the company now expects adjusted earnings per share to be in the range of \$8.55 to \$9.05 and \$9.20 to \$9.75, respectively.

NextEra Energy's adjusted earnings expectations exclude the cumulative effect of adopting new accounting standards, the effect of non-qualifying hedges, the effects of tax reform, the net gains related to the investment in NextEra Energy Partners, LP, as well as unrealized gains and losses on equity securities and net OTTI losses on debt securities held in NextEra Energy Resources' nuclear decommissioning funds, none of which can be determined at this time. Adjusted earnings expectations also exclude the operating results from the Spain solar projects and merger-related expenses. In addition, adjusted earnings expectations assume, among other things: normal weather and operating conditions; continued recovery of the national and the Florida economy; supportive commodity markets; current forward curves; public policy support for wind and solar development and construction; market demand and transmission expansion to support wind and solar development; market demand for pipeline capacity; access to capital at reasonable cost and terms; no divestitures other than to NextEra Energy Partners, LP or acquisitions; no adverse litigation decisions; and no changes to governmental tax policy or incentives. Please see the accompanying cautionary statements for a list of the risk factors that may affect future results.

As previously announced, NextEra Energy's 2017 fourth-quarter and full-year earnings conference call is scheduled for 9 a.m. ET today. Also discussed during the call will be the 2017 fourth-quarter and full-year financial results for NextEra Energy Partners, LP (NYSE: NEP). The listen-only webcast will be available on NextEra Energy's website by accessing the following link: www.NextEraEnergy.com/investors. The news release and slides accompanying the presentation may be downloaded at www.NextEraEnergy.com/investors, beginning at 7:30 a.m. ET today. A replay will be available for 90 days by accessing the same link as listed above.

This news release should be read in conjunction with the attached unaudited financial information.

NextEra Energy, Inc.

NextEra Energy, Inc. (NYSE: NEE) is a leading clean energy company with consolidated revenues of approximately \$17.2 billion, operates approximately 46,790 megawatts of net generating capacity and employs approximately 14,000 people in 33 states and Canada as of year-end 2017. Headquartered in Juno Beach, Florida, NextEra Energy's principal subsidiaries are Florida Power & Light Company, which serves approximately 5 million customer accounts in Florida and is one of the largest rate-regulated electric utilities in the United States, and NextEra Energy Resources, LLC, which, together with its affiliated entities, is the world's largest generator of renewable energy from the wind and sun. Through its subsidiaries, NextEra Energy generates clean, emissions-free electricity from eight commercial nuclear power units in Florida, New Hampshire, Iowa and Wisconsin. A Fortune 200 company and included in the S&P 100 index, NextEra Energy has been recognized often by third parties for its efforts in sustainability, corporate responsibility, ethics and compliance, and diversity, and has been ranked No. 1 in the electric and gas utilities industry in Fortune's 2018 list of "World's Most Admired Companies." For more information about NextEra Energy companies, visit these websites: www.NextEraEnergy.com, www.FPL.com, www.NextEraEnergyResources.com.

Cautionary Statements and Risk Factors That May Affect Future Results

This news release contains "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (NextEra Energy) and Florida Power & Light Company (FPL) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy's and FPL's control. Forward-looking statements in this news release include, among others, statements concerning adjusted earnings per share expectations and future operating performance, and statements concerning future dividends. In some cases, you can identify the forward-looking statements by words or phrases such as "will," "may result," "expect," "anticipate," "believe," "intend," "plan," "seek," "potential," "projection," "forecast," "predict," "goals," "target," "outlook," "should," "would" or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance. The future results of NextEra Energy and FPL and their business and financial condition are subject to risks and uncertainties that could cause their actual results to differ materially from those expressed or implied in the forward-looking statements, or may require them to limit or eliminate certain operations. These risks and uncertainties include, but are not limited to, the following: effects of extensive regulation of NextEra Energy's and FPL's business operations; inability of NextEra Energy and FPL to recover in a timely manner any significant amount of costs, a return on certain assets or a reasonable return on invested capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory and economic factors on regulatory decisions important to NextEra Energy and FPL; disallowance of cost recovery by FPL based on a finding of imprudent use of derivative instruments; effect of any reductions or modifications to, or elimination of, governmental incentives or policies that support utility scale renewable energy projects of NextEra Energy Resources, LLC and its affiliated entities (NextEra Energy Resources) or the imposition of additional tax laws, policies or assessments on renewable energy; impact of new or revised laws, regulations, interpretations or other regulatory initiatives on NextEra Energy and FPL; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy and FPL; effects on NextEra Energy and FPL of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy and FPL to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal regulation of their operations and businesses; effect on NextEra Energy and FPL of changes in tax laws, guidance or policies as well as in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy and FPL of adverse results of litigation; effect on NextEra Energy and FPL of failure to proceed with projects under development or inability to complete the construction of (or capital improvements to) electric generation,

transmission and distribution facilities, gas infrastructure facilities or other facilities on schedule or within budget; impact on development and operating activities of NextEra Energy and FPL resulting from risks related to project siting, financing, construction, permitting, governmental approvals and the negotiation of project development agreements; risks involved in the operation and maintenance of electric generation, transmission and distribution facilities, gas infrastructure facilities and other facilities; effect on NextEra Energy and FPL of a lack of growth or slower growth in the number of customers or in customer usage; impact on NextEra Energy and FPL of severe weather and other weather conditions; threats of terrorism and catastrophic events that could result from terrorism, cyber attacks or other attempts to disrupt NextEra Energy's and FPL's business or the businesses of third parties; inability to obtain adequate insurance coverage for protection of NextEra Energy and FPL against significant losses and risk that insurance coverage does not provide protection against all significant losses; a prolonged period of low gas and oil prices could impact NextEra Energy Resources' gas infrastructure business and cause NextEra Energy Resources to delay or cancel certain gas infrastructure projects and for certain existing projects to be impaired; risk to NextEra Energy Resources of increased operating costs resulting from unfavorable supply costs necessary to provide NextEra Energy Resources' full energy and capacity requirement services; inability or failure by NextEra Energy Resources to manage properly or hedge effectively the commodity risk within its portfolio; effect of reductions in the liquidity of energy markets on NextEra Energy's ability to manage operational risks; effectiveness of NextEra Energy's and FPL's risk management tools associated with their hedging and trading procedures to protect against significant losses, including the effect of unforeseen price variances from historical behavior; impact of unavailability or disruption of power transmission or commodity transportation facilities on sale and delivery of power or natural gas by FPL and NextEra Energy Resources; exposure of NextEra Energy and FPL to credit and performance risk from customers, hedging counterparties and vendors; failure of NextEra Energy or FPL counterparties to perform under derivative contracts or of requirement for NextEra Energy or FPL to post margin cash collateral under derivative contracts; failure or breach of NextEra Energy's or FPL's information technology systems; risks to NextEra Energy and FPL's retail businesses from compromise of sensitive customer data; losses from volatility in the market values of derivative instruments and limited liquidity in OTC markets; impact of negative publicity; inability of NextEra Energy and FPL to maintain, negotiate or renegotiate acceptable franchise agreements with municipalities and counties in Florida; occurrence of work strikes or stoppages and increasing personnel costs; NextEra Energy's ability to successfully identify, complete and integrate acquisitions, including the effect of increased competition for acquisitions; NextEra Energy Partners, LP's (NEP's) acquisitions may not be completed and, even if completed, NextEra Energy may not realize the anticipated benefits of any acquisitions; environmental, health and financial risks associated with NextEra Energy Resources' and FPL's ownership and operation of nuclear generation facilities; liability of NextEra Energy and FPL for significant retrospective assessments and/or retrospective insurance premiums in the event of an incident at certain nuclear generation facilities; increased operating and capital expenditures and/or result in reduced revenues at nuclear generation facilities of NextEra Energy or FPL resulting from orders or new regulations of the Nuclear Regulatory Commission; inability to operate any of NextEra Energy Resources' or FPL's owned nuclear generation units through the end of their respective operating licenses; effect of disruptions, uncertainty or volatility in the credit and capital markets on NextEra Energy's and FPL's ability to fund their liquidity and capital needs and meet their growth objectives; inability of NextEra Energy, FPL and NextEra Energy Capital Holdings, Inc. to maintain their current credit ratings; impairment of NextEra Energy's and FPL's liquidity from inability of credit providers to fund their credit commitments or to maintain their current credit ratings; poor market performance and other economic factors that could affect NextEra Energy's defined benefit pension plan's funded status; poor market performance and other risks to the asset values of NextEra Energy's and FPL's nuclear decommissioning funds; changes in market value and other risks to certain of NextEra Energy's investments; effect of inability of NextEra Energy subsidiaries to pay upstream dividends or repay funds to NextEra Energy or of NextEra Energy's performance under guarantees of subsidiary obligations on NextEra Energy's ability to meet its financial obligations and to pay dividends on its common stock; the fact that the amount and timing of dividends payable on NextEra Energy's common stock, as well as the dividend policy approved by NextEra Energy's board of directors from time to time, and changes to that policy, are within the sole discretion of NextEra Energy's board of directors and, if declared and paid, dividends may be in amounts that are less than might be expected by shareholders; NEP's inability to access sources of capital on commercially reasonable terms could have an effect on its ability to consummate future acquisitions and on the value of NextEra Energy's limited partner interest in NextEra Energy Operating Partners, LP; and effects of disruptions, uncertainty or volatility in the credit and capital markets on the market price of NextEra Energy's common stock. NextEra Energy and FPL discuss these and other risks and uncertainties in their annual report on Form 10-K for the year ended December 31, 2016 and other SEC filings, and this news release should be read in conjunction with such SEC filings made through the date of this news release. The forward-looking statements made in this news release are made only as of the date of this news release and NextEra Energy and FPL undertake no obligation to update any forward-looking statements.

Cash, cash equivalents and restricted cash at end of year	\$ 174	\$ 871	\$ 938	\$ 1,983

⁽¹⁾ Corporate & Other represents other business activities, consolidating income tax adjustments and eliminating entries, and may include the net effect of rounding. Corporate & Other allocates a portion of corporate interest expense to NEER. Interest expense is allocated based on a deemed capital structure of 70% debt and, for purposes of allocating corporate interest expense, the deferred credit associated with differential membership interests sold by NEER subsidiaries is included with debt. Residual corporate interest expense is included in Corporate & Other.
