Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

I would like FPL to pass some savings on to us the actual consumers and the ones who pay to keep the corporation alive. It's stated purpose is to help customers with excellent service for a low cost I would imagine, vs to help non producing stock holders reap more profits from a windfall that actually should be used to help customers and aid FPL in future planning. I cannot imagine giving money away that should be put in to future expansion and saving for emergencies at the very least. WE as the CUSTOMERS should be benefiting from this windfall both now and in the future as some of the cash goes to us and to improvements in the company.

Thank you, Iris Ramirez

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Dr. Iris Ramirez
