**Subject:** RE: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Good Afternoon, Mr. Leeper.

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Dear Clerk Florida PSC Clerk,

I understand that you will be setting energy savings goals for the state's largest utilities that will dictate the scale of efficiency programs I and my neighbors are offered for the next ten years. I urge you to stand up for customers by adopting goals that will meaningfully help families cut energy waste and save money on bills.

All it takes is the WILL to be more energy efficient. I am not a millionaire, but in the last few years I have built two solar powered ICF homes in NW Florida that produce more electricity than they use. We MUST require more energy efficient building codes and incentives for renewable energy and better insulation and do whatever it takes to encourage all citizens to help create a sustainable energy future. The alternatives are dire and urgent action is needed. We need your leadership. Stop listening to the voices that are costing millions of our rate payer fees that go to high priced fake research and lobbyists and put some pressure on to save energy.

Thank you for your consideration,

Sincerely,  
John Leeper  
Defuniak Springs, FL 32435
