October 2, 2019

11:29 am

Mrs. White in Vero Beach (772) 559-6013 left a message on the Mainline regarding the PSC meeting on October 3 regarding the perhaps increase to consumers for electricity. She said they already pay a storm fee to FPL and she feels that is sufficient. They (FPL) collected money before they purchased Vero Beach electric in South Florida for projects, tree trimming etc. that was not done for storm fees that were collected.

She said I'm against them (FPL) and with PSC staff agreeing with them, she feels unless FPL does the work first then perhaps the costs can be passed on. However, FPL is a for profit-corporation and the consumer has no where else to go.

She appreciates the PSC really concentrating on the consumers for these increases.

Appreciate it so much. God bless you and have a beautiful day!

Mrs. White  
Vero Beach, FL
