Subject: Docket # 201901131 REQUEST FOR FULL HEARING

Dear Chair Graham,

The Florida Public Service commission should provide Florida utility customers a fair determination based upon a complete record by allowing a full evidentiary hearing on proposed rules 25-6.030 and 25-6-031.

The hearing is being rushed for no apparent reason . This is a complex matter and the rules have not been fully vetted. The Office of Public counsel to do their job representing the citizenry of Florida needs to be allowed to present a full and unlimited record for you to consider in your decision making process. Florida citizens need full transparency. Only full transparency in the rule making process will allow Florida citizens to understand the storm hardening projects they will pay for for many years.

I request these rules be reconsidered to ensure that more citizens be allowed to participate in these game changing rules that burden citizens with paying upfront for storm hardening projects and allow shareholders to profit from it.

Forty three years as an attorney has taught me one firm rule. A deliberative body never errs by having to much information.

Thank You.
