

**Florida Power & Light Company Report as Required by
FPSC Rule 25-6.065 Interconnection and Net Metering of Customer-Owned
Renewable Generation**

(a) Total number of customer-owned renewable generation interconnections as of the end of the previous calendar year.

As of December 31, 2008, FPL had 262 customer-owned renewable generation interconnections.

(b) Total kW capacity of customer-owned renewable generation interconnections as of the end of the previous calendar year.

As of December 31, 2008, the total kW capacity of FPL customer-owned renewable generation interconnections was 1,072.27 kW (AC).

(c) Total kWh received by the interconnected customers from the electric utility, by month and by year for the previous year.

(d) Total kWh of customer-owned renewable generation delivered to the electric utility, by month and by year for the previous calendar year.

	(C)	(D)
	Total kWh Received from the Utility	Total kWh Delivered to the Utility
January	2,560,749	6,754
February	2,387,748	9,983
March	2,490,057	19,774
April	2,531,545	22,843
May	2,574,245	26,380
June	2,959,018	22,785
July	3,057,290	14,349
August	3,036,589	19,227
September	3,559,619	15,616
October	3,264,623	27,292
November	2,689,192	33,448
December	2,780,063	41,529
2008 Total	33,890,738	259,980

(e) Total energy payments made to interconnected customers for customer-owned renewable generation delivered to the electric utility for the previous calendar year, along with total payments made since the implementation of this rule.

The total energy payments made to interconnected customers for customer-owned renewable generation delivered to the electric utility for 2008 is \$10,901.25.

The total payments made to interconnected customers since net metering became effective on Oct. 1, 2008 is \$294.59.

(f) For each individual customer-owned renewable generation interconnection:

1. Renewable technology utilized
2. Gross power rating
3. Geographic location by county
4. Date interconnected
