RE: Rule 25-6.065 FAC

Dear Mr. Futrell and Ms. Marr,

The City of Wauchula currently does not have any net metered customers. We are working with the Florida Municipal Electric Association to develop a net metering policy and standardized interconnection agreements for small customer-owned renewable generation.

City staff is planning on presenting a resolution to the City Commission in 2010 to approve the Net Metering Rate Schedule as well as the Application for Interconnection. We will send that to you upon approval.

Please contact me if you have any questions.

Sincerely,

James A. Braddock  
Finance Director (including utilities finance)  
City of Wauchula
