Note:

1. The City of Tallahassee electric system has a total of 236 Solar PV Installations, some Solar PV systems do not have a net metering agreement, therefore only 198 PV systems are reported.
2. The Customer count listed in this table is 198 with some entries listed as 0 for KW capacity (dc) and Gross Power Rating (AC) and N/A in the Interconnect Date. This is due to meter changeout during the year, duplicate customer net metering agreements (customer increased the size of their system), and/or the customer removed the system.
