Subject: Support Solar Development in Florida
Date: Friday, June 19, 2015 9:31:04 AM

To FL. Public Service Com.

I and all of my family and friends support the growth, expansion and maintenance of one of the most successful, industries today! Solar Panels! Stop taking bribes and kickbacks from your Oil and Energy conglomerates, it's illegal and immoral. As the Military has stated, Solar is this country's best hope for Defense, and energy independence, and to keep holding it back for your criminal buddies means Your commission are Traitors to your Country, State, and community, and you will be Judged accordingly.

Sincerely,

Thomas van de Steeg
