Re: Docket No. ~~920662~~ WS - Petition of Southern States
Utilities, Inc., Deltona Utilities, Inc., and United Florida
Utilities Corporation for Approval of Restructuring

Dear Mr. Tribble:

Pursuant to Commission Order No. 25575 issued January 7, 1992, enclosed are an original and three copies of the proposed tariff of Southern States Utilities, Inc. and Deltona Utilities, Inc. The tariff contains two changes from the existing tariffs of these companies which have a potential revenue impact: (1) a change to uniform application of the Staff Advisory Bulletin No. 13 miscellaneous service charges for all systems and (2) a change in the methodology for calculating bills of Deltona and former United Florida customers.

It is our belief that the request to establish miscellaneous service charges consistent with Staff Advisory Bulletin No. 13 for all of our systems can be processed administratively. We also request that Southern States and Deltona be authorized to change the methodology for billing the customers of Deltona and former United Florida customers to allow monthly billing according to actual usage. Currently, customers of Deltona and the former United Florida

receive bills which are calculated by rounding the meter reading down to the nearest 1,000 gallons. This billing method has been a perpetual source of customer confusion and billing complaints in the past. We further believe that the tariffs enclosed herewith, which reflect the new proposed methodology, have a revenue neutral impact on our customers on an annualized basis and, therefore, this change also may be processed administratively. However, we are aware that the Commission has required adherence to a formal approval process regarding similar requests by other utilities in the past. Therefore, if this change must be approved formally, we request that the approval process be initiated. We also would be glad to provide on an expedited basis any further information necessary to the approval process. Finally, we request that the Commission approve the remainder of the tariff provisions.

Also in compliance with the Commission's order, please be advised that certificates of authorization numbered 211-W, 379-W, 326-S, 501-W, 435-S and 476-W which previously were issued by the Commission to United Florida Utilities Corporation were attached to the original petition filed by Southern States, Deltona and United Florida in this docket. United Florida's certificate no. 156-S was filed with the Commission by letter dated June 25, 1991.

Thank you for your consideration of these requests. Kindly acknowledge the filing of this information by date stamping the enclosed copy of this letter and returning it in the enclosed postage paid, self addressed envelope.

Very truly yours,

Brian P. Armstrong

IV. SPECIAL PROVISIONS

This section is the result of FPSC Docket No. 22307 and is applicable in the situations described herein. An outcome of Docket No. 22307 approving the transfer of ownership of Deltona Corporation's utility operations to Topeka Group Inc., (TGI) was the delineation of several service availability extension situations depending on the timing and terms of property sales contracts related to lots in the certificated area. The reason for such delineation by the Commission was to ensure that people who bought lots in long-term installment sales contracts, and to whom the Deltona Corporation implied that utilities would be provided as part of the real estate transaction would not be adversely affected by the transfer.

Policy provisions are separated into three categories: (1) Contracted lots sold by Deltona Corporation or its successors under contracts prior to September 1, 1989 which generally excluded from the sales price, the cost of extending mains and related utility facilities; (2) Unsold lots sold by Deltona Corporation under contracts after September 1, 1989 which generally include as part of the cost of extending mains and provisions for the buyer to pay a Utility Service Fee and; (3) Any properties not covered in sub-sections IV(1) or IV(2) including properties which are added to the certificated area as a result of territory expansions. These categories are described in more details as follows:

- (1) **Contracted lots sold by Deltona Corporation or its successors under contracts prior to September 1, 1989.**
 - (a) Extensions will be made as soon as reasonably practical following:
 - 1. receipt from the Applicant of a completed Application for Service form, and

2. receipt from the Applicant of satisfactory evidence that construction of a building is scheduled to commence and,
 3. the lot is served by an asphalt paved street or road which abuts such lot and,
 4. receipt of payment for all applicable fees.
- (b) TGI will fund, in accordance with a refundable advance for construction agreement, all extensions of less than one-half ($\frac{1}{2}$) mile.
- (c) If the extension is over one-half ($\frac{1}{2}$) mile but less than one (1) mile, TGI may try to exchange lots. Otherwise, TGI will fund, in accordance with a refundable advance for construction agreement.
- (d) If the extension is over one (1) mile, Deltona Corporation, TGI and/or the Company may try to exchange lots; or TGI and/or Deltona Corporation will fund, in accordance with a refundable advance for construction agreement; or Deltona Corporation may provide alternative utility services until the Company has its services within one mile.
- (2) **Unsold lots sold by Deltona Corporation or its successors under contracts after September 1, 1989.**
- (a) through (d) as in IV(1) above and,
- (e) Properties sold by Deltona Corporation or its successors include as part of the sales agreement, provisions for the buyer to pay a Utility Service Fee. The Utility Service Fee, which are subject to periodic adjustments, are currently set at \$500.00 for water service and \$1,000.00 for wastewater service, and

- (f) Lot owners may not demand service until the contract period (usually 1½ to 10 years) provided in the land purchase agreement has expired.
- (3) Any properties not covered in IV(1) or IV(2) including properties which are added to the certificated area as a result of territory expansions. The remaining rules are applicable for all situations other than those described in items II(1) and II(2) above. Charges to these customers may include one or more of the following:
 - (a) **Predetermined Service Availability Charges.** The tariffed charges, described in this portion of the tariff as Service Availability Charges, and whose amounts are listed in the rates portion of this tariff, apply if the main is already installed.
 - (b) **Main Extension Charges.** If the main is not in place, the costs associated with the necessary extension of, for example, off-site facilities apply as described more fully under Service Availability Charges below; and as ratified in a Service Contract, a Developer's Agreement and/or a Refundable Advance Agreement which are discussed more fully under **SPECIAL CONDITIONS**.
- V. **MAIN EXTENSION RULES** Where there is not an existing main available, the Company will extend its main to provide service, except for lots described in Parts IV(1) and IV(2) of the **SPECIAL PROVISIONS** section, provided the Applicant has first entered into a Commission-approved Service Contract, Developer's Agreement or Refundable Advance Agreement with the Company.
 - (1) **Applications for Main Extensions** Whenever an extension to one of the Company's mains is involved, it shall be in accordance with the following rules:

- (3) Rules for Extending Mains to Developer Facilities Service to a developer requiring an extension of the Company's facilities will be conducted under the terms and conditions of a Developer's Agreement or a Refundable Advance Agreement wherein the Company will negotiate with the developer whether it will design, construct and install extensions from existing facilities to the property to be served or have the developer undertake these activities. If the company installs the necessary facilities, it will prepare a Developer's Agreement detailing the cost estimate and other items necessary for such extensions to be made. If the developer is to perform the design, construction and installation, the developer must obtain approval of the Company as outlined in the Commission's Rules. Developer's Agreements are subject to the approval of the Commission and shall be in accordance with the following:

- (a) Existing facilities to a development. If the request is for service to a development, and the provision of service will be by the extension of existing facilities through Company investment, the Company shall be responsible for all engineering, planning, design, and construction.
- (b) Developer providing facilities. If the request is for service to a development and the developer will be providing the necessary facilities for the extension, or will be paying for the construction of the facilities, the developer shall be responsible for the planning, design, and development of construction drawings needed to extend the existing facilities to serve the proposed development. The plans, designs and development drawings shall be in accordance with applicable laws or ordinances. The Company will furnish general construction specifications, an estimate of all costs to be borne by the developer (including all applicable Service Availability Charges) that are in addition to the costs of the facilities the developer is to construct, and a quotation of advances to be made upon execution of a Developer's Agreement. By way of further explanation, the Developer will be responsible for the following:

- (1) Plant Capacity Charges The Company will collect a fee, designed to defray a portion of the cost of the facilities not covered in other Service Availability Charges.

- (c) **Long Service** - Tapping into the main line, which would be located on the opposite side of "paved" road of property to be served. Putting in the service line by method of jacking or boring the service line under the street.
- (4) **Main Extension Charges** The Company will collect a fee to offset a portion of the cost of the mains. Where there is an existing main available, the charges to the Applicant will be the charges as provided in this tariff. VII. **SPECIAL CONDITIONS** Under certain circumstances, as outlined below, special funding arrangements will be necessary or have been arranged for payment of the charges described in this Service Availability Policy.

- (1) **Refundable Advances** Where extensions are required for contiguous properties for which service has not yet been provided (hereinafter "Qualified Property") and, where the Company determines that an extension is economically justified or is appropriate to improve system reliability or enhance the quality of service to existing customers; a separate Refundable Advance Agreement may be undertaken by the Applicant and the Company, at the time of the request for service, temporarily defray the cost of any off-site extension of mains and other facilities necessary to provide service to the Applicant's property.
 - (a) **Basis of Refundable Advance.** The amount of the refundable advance will be based on the actual cost of the off-site mains and other facilities. Such facilities shall be designed and constructed in accordance with the Company's plans for service to the immediate surrounding area.
 - (b) **Charges paid by the Applicant.** Charges paid by the Applicant over and above the Applicant's hydraulic share of the facilities shall be refunded, interest free, in accordance with the terms and conditions of a Commission-approved Refundable Advance Agreement which the Company will execute with the Applicant.
 - (c) **Prorated Share of the Capacity.** The Company will collect fees from other Applicants of the Qualified Property based upon their prorated hydraulic share of the facilities. Within sixty (60) days of collection of said fees by the Company, a refund of said fees shall be made to the Applicant in accordance with the Refundable Advance Agreement.

In no event shall an Applicant recover an amount (without interest) greater than the difference between the capitalized cost of such improvements and the Applicant's own hydraulic share of the cost of such improvements.
- (2) **Topeka-Deltona Agreement** Agreements between the Company, Deltona Corporation and the Topeka Group set forth certain responsibilities of these parties for funding construction costs related to extending water mains to serve certain lots sold by Deltona Corporation. DEPOSIT:

Deposits are necessary to protect paying customers from losses caused by those who do not pay. Deposits earn interest annually. Customers with deposits on account will receive interest credits on the bill received after their 12 month annual anniversary date and each year thereafter during that same period. The timely manner in which payments are made will directly affect the deposit. *Failure to pay before the delinquent date shown on the monthly statement may necessitate an increase in the amount of the deposit to cover two months' average billing and delay the refunding of the deposit.*

Deposits guarantee the payment of any indebtedness for water, sewer, and/or gas service which may be or become due to the Company by the Customer. Customer agrees that the deposit may be applied in discharge of any indebtedness of the Customer to the Company whatsoever and that the Company may use the deposit as if the Company were the absolute owner thereof. Upon discontinuance of service covered by this deposit the Company agrees to refund to the Customer the deposit less any amounts then due the Company.

Receipt of the deposit by the Company shall not preclude the Company from discontinuing for non-payment the service covered by this deposit regardless of the sufficiency

of the deposit to cover any indebtedness for service.

By the signing of this agreement, the Customer recognizes and agrees to abide by all existing policies, Tariffs, Rules and Regulations of the Company, and any amendments thereto. Copies of said Rules and Regulations, and amendments thereto, are available for inspection at the utility office.

The Customer agrees that the duly authorized agents of the Company shall have access at all reasonable hours to the premises of the Customer for the purpose of installing, maintaining, testing, inspecting or removing Company property, reading meters and other purposes incident to performance under or termination of the Company's agreement with the Customer, and in such performance, the Company shall not be liable for trespass.

The Customer further agrees that all bills for water, sewer, and/or gas charges will be paid on or before the due date, and if not so paid, the Company will have the right to disconnect service and charge a fee for reconnecting the service.

It is further understood and agreed that the sale of water and/or gas to the Customer occurs at the meter and the Company has no responsibility relative to service after the water and/or gas reaches the Customer's side of the meter.
