(Hearing convened at 10:00 a.m.)

COMMISSIONER KIESLING: Please come to order.

Counsel, would you please read the notice?

MS. O'SULLIVAN: Yes. Pursuant to notice, this time and place has been set for a customer service hearing in Docket No. 950495-WS, application for rate increase and increase in service availability charges by Southern States Utilities.

COMMISSIONER KIESLING: And I'll take appearances.

MR. FEIL: My name is Matthew Feil. I'm here on behalf of Southern States Utilities, Inc. My address is 1000 Color Place, Apopka, Florida.

MR. BECK: Charlie Beck and Jack Shreve, Office of Public Counsel, appearing --

COMMISSIONER KIESLING: I don't think you're on. Is he on?

MR. SHREVE: But I sounded so good. (Laughter)

Jack Shreve and Charlie Beck, Office of the Public Counsel, appearing on behalf of the customers of SSU in opposition of the rate increase, Claude Pepper Building, Tallahassee, Florida.

MS. O'SULLIVAN: Margaret O'Sullivan on behalf of the Commission Staff, 2540 Shumard Oak Boulevard, Tallahassee, Florida.

1 **COMMISSIONER KIESLING:** All right. Good morning. I
2 would like to welcome all of you to this hearing. My name is
3 Commissioner Diane K. Kiesling, and I'll be chairing the panel
4 today. With me is Commissioner Joe Garcia. And I will be
5 conducting this hearing for the purpose of receiving comments
6 from the customers of Southern States Utilities, Inc.,
7 regarding the proposed rate increase. We are particularly
8 interested in the customers' comments about the quality of
9 service rendered by the utility.

10 Your comments today will be recorded by an official
11 court reporter, and they will become a part of the official
12 record of this proceeding. Your comments will be used by the
13 Commission, along with other evidence gathered in the case, to
14 make a decision regarding the requested rate increase.

15 To give you some background information about how
16 the Commission processes a request for rate increase, the
17 process takes about eight months from start to finish. It
18 begins officially when a utility files its petition for a rate
19 increase. This petition, which is a legal document that
20 summarizes the reasons for the increase, is accompanied by a
21 voluminous compilation of financial, engineering, and rate
22 information that supports a utility's request.

23 This case began when Southern States filed an
24 application with the Commission for increased water and
25 wastewater rates. The utility has requested a two-tiered

1 uniform water rate along with a uniform wastewater rate. The
2 utility has requested a final rate increase of up to 49 or --
3 excuse me, 45.9% for water and 20.21% for wastewater. The
4 utility has also requested an interim rate increase.

5 During the pendency of the proceeding, parties who
6 have intervened in the proceeding may solicit further
7 information from the utility through interrogatories and
8 depositions of utility-sponsored witnesses. Intervenor may
9 also sponsor witnesses to give testimony in opposition to the
10 rate increase. Such testimony will be given at the
11 evidentiary hearing. We have set nine days aside for that
12 hearing in Tallahassee beginning January 29, 1996.

13 As part of this rate case process, the Commission is
14 also holding 14 customer service hearings, such as this one,
15 which are specifically designed to gather information about
16 the quality of the service being rendered by the utility.
17 After all of the meetings have been conducted and the hearing
18 in Tallahassee is concluded, the Commission meets once again
19 in a public meeting called an agenda conference to decide the
20 issues of the case.

21 During all of the public hearings, all parties
22 participating in the case are represented. Today the utility
23 is being represented by Mr. Mark Feil (sic), who introduced
24 himself earlier. The utility's customers are represented by
25 the State's Office of Public Counsel, Mr. Jack Shreve, who

1 most of you probably know, and Mr. Charlie Beck.

2 Also appearing today is our Staff counsel,
3 Ms. O'Sullivan. The Commission Staff is also represented here
4 today and functions to make sure that the record of this
5 proceeding is as complete as possible, and that all aspects of
6 the case are explored thoroughly. The Commission Staff has
7 expertise in utility rate setting and is here to assist the
8 Commission in becoming as knowledgeable as possible about the
9 cases that come before it.

10 Also, there are several Staff members in the room
11 who can assist any of you who have a specific problem with
12 your utility service or have any questions about this case.
13 And I'll introduce them and ask them to raise their hand as I
14 do. Mr. Robert Crouch, engineer. Lee Monroe in the back row.
15 Troy Rendell. Next to him, Greg Shafer. We have Margaret
16 Ring in the back, who is with our consumer affairs division.
17 And Sandy Simmons, who is with our clerks' office and helps
18 set up this meeting. So if you have any questions about
19 anything, we may refer you to one of our Staff in order to see
20 if they can then help come up with a solution to your
21 particular problem.

22 I would like to emphasize that our purpose here
23 today is to listen to the concerns expressed by the customers
24 of Southern States Utilities. However, it may be appropriate
25 to allow all of the parties to give a brief, very brief,

1 opening statement of their positions before we begin hearing
2 testimony from the customers, to be able to listen to all the
3 customers. Seeing that there aren't too many, I don't feel a
4 need to limit opening remarks to five minutes. And we will
5 begin opening remarks in a moment, but there is another piece
6 of information that I need to pass on to you.

7 For those of you who are in the -- either Palm
8 Terrace or Zephyr Shores systems, as of a vote yesterday
9 afternoon -- yesterday, was it? No. -- it was Tuesday
10 afternoon by the Commission in response to a decision from the
11 First District Court of Appeal that the rate structure for
12 your utilities has been altered from what you've been paying.
13 And you need to be aware of that, which is, you know, just
14 expand your possible liability for your bills in the future.

15 And pursuant to that decision, for the customers in
16 Palm Terrace, there is a \$52 cap on water bills so that the
17 base facility charge will be \$10.21; the gallonage charge per
18 thousand will be \$4.04 for water.

19 And in Zephyr Shores for water, the base facility
20 charge will be \$5.20 with a gallonage charge of \$2.35. Then
21 for wastewater there will be a cap of \$65 total.

22 And the base facility charge for Palm Terrace will
23 be \$11.90, plus a gallonage charge per thousand of \$3.57.

24 And for Zephyr Shores, the base facility charge will
25 be \$10.13 with a gallonage charge of \$2.51.

1 These do include the pass throughs and index
2 adjustments for 1993 and 1994. I will indicate to you that
3 the decision we made has not even come out in an order yet and
4 that the utility does have an opportunity to appeal that. But
5 I wanted to be sure that those of you who are here understood
6 what had happened in the last two days.

7 So with that explanation, I will pass it to the
8 utility for a brief opening statement.

9 **MR. FEIL:** Thank you, Commissioner. I will attempt
10 to be as brief as possible. My name is Matthew Feil. I'm
11 with Southern States Utilities.

12 Southern States has filed the instant rate case
13 because it's earning less than its allowed rate of return and
14 less than a fair rate of return. Over the last several years,
15 Southern States has invested over \$100 million in additional
16 plant in its facilities throughout the State of Florida. The
17 Company has not been able to earn a rate of return and recover
18 its expenses on that additional plan.

19 Since 1991, SSU has been spending on average
20 approximately \$20 million each year in additional plant, and
21 as a result, been earning approximately 3% of rate of return
22 in 1994. That rate of return will disappear in 1995 and 1996.

23 It could be asked why is SSU spending approximately
24 \$20 million a year on additional planned investment. The
25 short answer is that, for the most part, Southern States has

1 not had a choice. Environmental regulations passed by DEP,
2 the water management districts, and the EPA, require that SSU
3 meet a certain level of service in order to maintain its
4 ability to provide service to the customers, in order to
5 provide good service to the customers, and to ensure that the
6 environment is not harmed.

7 One thing I would like to touch on before turning
8 things over to Mr. Shreve is the comments made by Commissioner
9 Kiesling regarding uniform rates. Recently, the First
10 District Court of Appeals overturned the rate structure that
11 the Palm Terrace and Zephyr Shores' customers were charged at
12 the end of SSU's 1992 rate case. As Commissioner Kiesling
13 said, as of Tuesday, the Commission voted to change those
14 rates from SSU's uniform rate to what has been commonly
15 referred to now as a modified stand-alone rate. This has
16 meant a rate increase for the Zephyr Shores and Palm Terrace
17 customers.

18 In this case, SSU has proposed the uniform rates
19 again. SSU believes that the uniform rate will mean a lower
20 rate for the Palm Terrace and Zephyr Shores customers than
21 would a stand-alone or a modified stand-alone rate.

22 Two groups of customers, in particular those in
23 Sugarmill Woods in Citrus County and those in Spring Hill and
24 Hernando County, oppose the uniform rates. Those customers,
25 interestingly enough, are some of the highest consumers of

1 water among SSU's customers.

2 SSU believes that the customers in Palm Terrace and
3 in Zephyr Shores who use less water, should receive the
4 benefit of the uniform rate, whereas the customers in other
5 service areas which are higher consumers of water, should have
6 to pay a higher charge for their excess consumption. That's
7 all I have.

8 COMMISSIONER KIESLING: Mr. Shreve.

9 MR. SHREVE: Thank you. I'll be very brief. We are
10 here to hear from you this morning, and we welcome your
11 comments on service, as well as the rate case, and the rates,
12 and anything that you want to have to say about this Company
13 or the proceeding. It's exactly what we're here for, is to
14 hear from you.

15 We disagree totally with Southern States. We do not
16 think they are entitled to the rate increase, and we're
17 contesting that. We filed motions to dismiss. We do not
18 think the information that has been filed by them is accurate
19 or complete, and we'll be heard on that at some time in the
20 future by the Public Service Commission. We are here opposing
21 the case. Thank you.

22 COMMISSIONER KIESLING: All right. Before we begin
23 hearing from the customers, I want you to know that there are
24 certain formalities that must be adhered to in order for the
25 customer testimony to become part of the record of this

1 proceeding. For example, all witnesses must be sworn before
2 they testify. Please don't let this intimidate you. We want
3 you to give us your input so that we can reach an informed
4 decision. And we do not wish to have this procedure keep any
5 of you from telling us your thoughts on the quality and
6 service of this utility.

7 Those of you who wish to testify have signed a list
8 that Mr. Shreve has. Mr. Shreve will call you when it's your
9 turn to testify. At that time please come forward to the
10 podium and state your name and address. If your name is
11 something other than a simple one, please spell it. And,
12 also, tell us which system you are with.

13 I would first like to swear in the witnesses who
14 wish to testify. If you would please stand and raise your
15 right hand?

16 (Customers sworn collectively.)

17 COMMISSIONER KIESLING: Mr. Shreve, you may call
18 your first witness.

19 MR. SHREVE: Thank you, Commissioner. Mr. Wyatt?

20 - - - - -

21 ALBERT WYATT

22 was called as a witness on behalf of the Citizens of the State
23 of Florida and, having been duly sworn, testified as follows:

24 WITNESS WYATT: Ladies and gentlemen, I'll get right
25 down to the basis of --

1 **COMMISSIONER KIESLING:** Please tell us your name,
2 your address, and what utility system you are with.

3 **WITNESS WYATT:** Albert J. Wyatt, 7805 Ironbark
4 Drive, Port Richey, Palm Terrace subdivision.

5 **COMMISSIONER KIESLING:** And what was your first
6 name? I'm sorry.

7 **WITNESS WYATT:** Albert.

8 **COMMISSIONER KIESLING:** Albert, thank you. Proceed.

9 **WITNESS WYATT:** I received this Monday morning in
10 the mail from Southern States. Now, it has the rate structure
11 for the different facilities that I have to use at home. I
12 also read the front page where it said that they would receive
13 an average of 10.2% profit on their rates. I can't see how
14 they figure that out.

15 I will start out first with the base facility
16 charge, which is the water meter, 5/8 by 3/4 meter. At
17 present they charge 5.13 a month and the final rate which will
18 be 8.46 after the hearings are all over, which is a 60%
19 increase. Nobody gets a 60% increase in their savings or
20 anything like that. That's just for the water meter.

21 And they don't buy it one or two or three at a time.
22 They get their meters by the truck and carloads in the
23 hundreds at a time for all the different water districts. So
24 I'm certainly sure that their meters don't even run \$100 or
25 more apiece. So that their payment on the meter is received

1 within a year-and-a-half, 15 months to 18 months, and those
2 meters are good for 10 to 15 years. So after that, it's pure
3 simple profit all those years for that meter.

4 I feel that the charge of the meters should be
5 lowered from the present rate of 5.13.

6 Now, the base facility charge for wastewater, at
7 present it's 12.67. Their final increase would be 17.21 at
8 the end of the hearings if they would receive it. That's a
9 45% increase. Again, I can't see how they say they'll be
10 getting 10.2% in profit on it when it's a good 45% increase.

11 I feel that -- all right, the waste plant has to be
12 repaired, things have to be replaced; but like everybody else
13 in Florida here, the few million people that do get a 2.5%
14 increase a year on the cost of living, that's what it should
15 be offered to SSU on the wastewater plant. They want an
16 increase? Give them a 2.5% increase, just what the people are
17 getting. Not take it all. Their whole yearly increase in
18 less than one month, and that's what would happen.

19 Of their usage per 1,000 gallons of water, waste,
20 they charge \$3.66. I'll give you an example, 18 days ago a
21 pipe burst in my bathroom. I had almost 1,000 gallons flooded
22 in my home, which had to be sponged, mopped, and vacuumed.
23 Now, that didn't go into the waste system. The people that
24 use pools don't go into the waste system. The people that
25 water their lawns, don't go into the waste system; water their

1 flowers, doesn't go into the waste system. I feel if they
2 want to get paid for that, they should charge no more than
3 what we pay per 1,000 gallons receiving water from the county,
4 which would be 65% less than what they're getting now.

5 A lot of, lot of, hundreds, hundreds of gallons
6 every month from the 1,200 homes where I live in does not go
7 into the waste system, and that's an enormous clear profit.
8 And they do not deserve an increase. In fact, it should be
9 decreased to the amount -- what they pay per 1,000 gallons
10 what they get from the county.

11 I have my last month's bill just to show you. 2,060
12 gallons. It cost me \$28.37. That's \$14.00 a thousand
13 gallons. That is ridiculous. Thank you very much.

14 **COMMISSIONER KIESLING:** All right. Would you stay
15 at the podium to see if there are any questions? Mr. Shreve,
16 do you have any questions?

17 **MR. SHREVE:** Yes, if I may. Was this the first
18 notice you received of this meeting?

19 **WITNESS WYATT:** Yes, this is the first notice.

20 **MR. SHREVE:** You got it yesterday?

21 **WITNESS WYATT:** I got it Monday morning. I got this
22 Monday morning.

23 **MR. SHREVE:** All right, sir. And you indicated --
24 and I have not seen this notice, but you indicated that they
25 were asking for 10-point-something percent. Did you realize

1 that they are requesting as a return on their investment
2 either 12.5% or 12.25%?

3 WITNESS WYATT: No, I did not know. It says right
4 in here, "The opportunity to earn an overall rate of return of
5 10.32."

6 MR. SHREVE: Okay. On their equity.

7 WITNESS WYATT: On their equity.

8 MR. SHREVE: On their equity they are asking for
9 either 12.25 or 12.5. Okay. Thank you very much, sir.

10 WITNESS WYATT: Thank you.

11 COMMISSIONER KIESLING: Any questions?

12 MS. O'SULLIVAN: No.

13 COMMISSIONER KIESLING: All right. You may recall
14 your next witness.

15 MR. SHREVE: Thank you. Mr. Grover?

16 - - - - -

17 BARRY GROVER

18 was called as a witness on behalf of the Citizens of the State
19 of Florida and, having been duly sworn, testified as follows:

20 WITNESS GROVER: My name is Barry Grover. I live at
21 11316 Yellowwood Lane, Port Richey, Florida. That is Palm
22 Terrace as well.

23 I just have a few things I'd like to go over. I
24 have a problem with the proposed interim rates to be collected
25 before the final request is approved or denied. I just don't

1 see how they can possibly charge something that's not been
2 approved yet.

3 COMMISSIONER KIESLING: That's a statute that
4 requires that they receive an interim --

5 MR. SHREVE: Commissioner, I think maybe it's just a
6 difference in semantics. But I think their statute requires
7 that you take up their interim, not that you grant it. It
8 does not require that they be given one.

9 COMMISSIONER KIESLING: No, that's absolutely true.

10 MR. SHREVE: Yes.

11 COMMISSIONER KIESLING: But they have the right
12 under statute to ask for it. And when we make a decision on
13 it, they may be granted interim of some other amount; or they
14 may be granted none at all; or they may be granted the whole
15 amount. But their right to ask for it is a statutory matter.

16 WITNESS GROVER: Okay. That's fine. I can
17 understand that.

18 COMMISSIONER GARCIA: But you can comment on it.

19 COMMISSIONER KIESLING: Yeah. I'm not saying you
20 can't tell me that you don't like it.

21 COMMISSIONER GARCIA: Right, you can tell us. And I
22 think we have a hearing on it sometime next week.

23 MS. O'SULLIVAN: October 6th.

24 COMMISSIONER KIESLING: October 6th, yes.

25 COMMISSIONER GARCIA: October 6th.

1 **COMMISSIONER KIESLING:** We'll be deciding whether
2 they're entitled to interim. And if so, how much.

3 **COMMISSIONER GARCIA:** Yeah, you can tell us if you
4 like it or if you don't like it.

5 **WITNESS GROVER:** I don't like it honestly, but --

6 I have one slight problem. I seem to be one of the
7 first homes that gets the water after it's been treated. I do
8 have a very high smell of chlorine. Many mornings when I go
9 to work I smell like I just got out of the pool; I don't even
10 own a pool.

11 I have asked the gentleman from SSU that comes, and
12 he does run my water every morning, sometimes at 10 minutes at
13 a length. And I've asked him why he does that, and he tells
14 me he does do that to test the water to make sure the chlorine
15 levels are not too high for the remainder of the neighborhood.
16 Now, I do pay for that. It's like I said, sometimes he'll run
17 my water up to 10 minutes which goes against --

18 **COMMISSIONER GARCIA:** Your water?

19 **WITNESS GROVER:** It's my water. Plus, now, if they
20 are going to raise the rates again, I definitely do not want
21 them running my water to test to make sure their system is
22 working properly.

23 I've lived in the neighborhood a little over two
24 years now. I've seen my bills go from roughly \$23 a month to
25 my last bill was \$50 a month. I'm a two-person household. I

1 don't have a pool. I have a well that I use to water my own
2 lawn. I work roughly 50 to 55 hours a week, so it's not like
3 I'm sitting around all day running the bath or the shower.

4 They have taken an increase in sewer rates in the
5 last two years, and I just -- I oppose the increase in the
6 water rates as well. And that's basically all I had. Thank
7 you.

8 COMMISSIONER GARCIA: Hang on a second.

9 COMMISSIONER KIESLING: I was going to say before
10 you leave --

11 WITNESS GROVER: Yes.

12 COMMISSIONER KIESLING: -- would you get with one of
13 our Staff, and they'll be able to assist you. It'd be
14 Mr. Crouch right here. And he'll be able to get more
15 information about the chlorine, as well as the running of your
16 water. And we will be able to look into it and try to find a
17 solution for you.

18 WITNESS GROVER: Okay, great. Thank you.

19 COMMISSIONER KIESLING: And are there any other
20 questions?

21 MR. SHREVE: Did you receive a notice of this
22 hearing?

23 WITNESS GROVER: Yes, I did. It's postmarked
24 September 20th.

25 MR. SHREVE: Is that the only notice you've received

1 of this hearing?

2 WITNESS GROVER: That I'm aware of.

3 MR. SHREVE: Okay.

4 WITNESS GROVER: I have nothing else that I've
5 gotten at home.

6 MR. SHREVE: Okay. Thank you very much.

7 WITNESS GROVER: Thank you.

8 COMMISSIONER KIESLING: Mr. Feil, do you have any
9 questions?

10 MR. FEIL: One question, if I may, Mr. Grover. You
11 said that an SSU person has been running your water. For the
12 sake of clarity, can you say where exactly? Has it been at a
13 spicket at your house?

14 WITNESS GROVER: Yes, it's on the outside spicket.
15 And I have gone up and asked him why he was doing this, and he
16 did inform me he wanted to make sure the chlorine levels were
17 not too high for the rest of the neighborhood, which I can
18 understand. That's fine. You need to test your water to make
19 sure that you're not harming the general public. But I do pay
20 for that.

21 MR. FEIL: And it's a spicket just outside your
22 house?

23 WITNESS GROVER: Correct.

24 MR. FEIL: Okay. Thank you.

25 COMMISSIONER GARCIA: I would assume that you would

1 have a claim against the Company if that is the case, so I
2 would suggest that you get with our Staff. You may have some
3 reimbursement coming to you. Who knows?

4 WITNESS GROVER: Thank you.

5 COMMISSIONER KIESLING: You may call your next
6 witness.

7 MR. SHREVE: Mr. Cavalieri?

8 - - - - -

9 SALVATORE CAVALIERI

10 was called as a witness on behalf of the Citizens of the State
11 of Florida and, having been duly sworn, testified as follows:

12 WITNESS CAVALIERI: Salvatore Cavalieri, 10924
13 Maplewood Avenue, Port Richey. I'm in Palm Terrace, also. I
14 don't have a sewer; I have septic tanks.

15 Well, I like the X's I see here on Page 1: "The
16 Commission cited certain deficiencies in the application, and
17 Southern States corrected these deficiencies." I would like
18 to know what those deficiencies was, because they're not
19 listed here.

20 And second, why is it that the areas of Buenaventura
21 Lakes, Hernando and Hillsborough and Polk County are not
22 involved in the rate increase? I would like to know that,
23 also. Why? And another area here is getting reverse osmosis
24 for their water.

25 Now, I come from New York. I moved here in '92. I

1 took a drink of water from my house, I spit it out. I thought
2 something was wrong with it because the taste was horrible,
3 the smell. My wife says it's not the plumbing; it's the
4 water. So I had to invest 900,000 in Culligan water softener,
5 plus every year it costs me \$100 in salt, plus the electric
6 that the unit uses.

7 So they said they spent \$100 million, I'd like to
8 know how. First of all, the water stinks. It tastes
9 horrible. Most people in my area buy bottled water so,
10 really, I'm paying for water that's not even treated. I don't
11 know what they treat it with, but it's terrible. Even with
12 the Culligan unit, the water is -- sometimes doesn't taste
13 right.

14 You just had mentioned something before about Palm
15 Terrace, that they just got okay'd for -- what is it -- \$4.50
16 per --

17 I'm surprised. As I was reading something on the
18 last page which says \$2.16, that's what they want to increase
19 it to from \$1.23. To me that's a 93 cent increase which is
20 like 80% not 49%. See, I don't understand this part at all.

21 COMMISSIONER KIESLING: I'll try to explain that to
22 you.

23 WITNESS CAVALIERI: You can explain --

24 COMMISSIONER KIESLING: I'll try to.

25 WITNESS CAVALIERI: -- Palm Terrace, right?

1 **COMMISSIONER KIESLING:** Yes, Palm Terrace.

2 **WITNESS CAVALIERI:** \$4.50 a gallon, is it?

3 **COMMISSIONER KIESLING:** Per thousand gallons.

4 **WITNESS CAVALIERI:** You know what I don't

5 understand, too? And then comes this service now. Last year,
6 two houses down, the water pipe, a hole broke out in the water
7 pipe. They came down to fix this pipe, but they couldn't fix
8 it because there was too much water in the hole. So they put
9 a water pump to take it out. I wouldn't use that water pump
10 to take the water out of my kitchen sink; that's how bad it
11 was. They started using shovels.

12 Finally, after two hours, they couldn't even take
13 the water out. They had to call another truck. They brought
14 another pump down. Both pumps were antiquated. I asked them,
15 "How come you're using such pumps that are old, antiquated?"
16 He says, "This is what they give us." So when you said about
17 the money they spent, what are they spending this money on?

18 The water doesn't taste good. It has an odor to it.
19 I'm probably the only one with a Culligan unit on my block,
20 plus I have a pool. I don't have a sewer; but if I did, I
21 would complain about the same thing.

22 Where does my water go in the sewer when I use it
23 for the pool and the sprinkler system? You know, I don't have
24 a sewer so I can't really complain about that. But about the
25 service, it took them four or five hours to fix a hole in a

1 pipe that was so small because they didn't have the proper
2 equipment to take the water out of this hole. So I'd like to
3 know where all this money is going to. How are they treating
4 this water? With what?

5 I come from New York. The water there tastes good.
6 Down here, everybody buys bottled water. So why are people
7 buying bottled water if they're spending so much money?

8 And second, why should certain counties have reverse
9 osmosis? How are they entitled to it? I have to go and buy
10 one myself, and yet they're getting it for free? Why? I'd
11 like to know why they're being treated different, and why is
12 Hernando County and these other counties not getting an
13 increase? Why? Because they took it to court, and they have
14 more power than us? Those are the questions I would like
15 answered, please.

16 COMMISSIONER KIESLING: Well, I'll give you a try on
17 what happened with the former case and what I was talking
18 about earlier.

19 Back in 1993 a panel of the Public Service
20 Commission instituted uniform rates for Southern States
21 Utilities, and Palm Terrace was one of the systems that had
22 their bills lowered because of the uniform rate structure.
23 That was taken to court; and recently within the last two or
24 three months, the First District Court of Appeal, entered an
25 order that said that uniform rates, the way they were

1 implemented in that case, were not proper.

2 And that meant that we had to -- as the full Public
3 Service Commission, had to go back and put in some other kind
4 of rate structure. But it had to be based on the evidence
5 that was taken in that case two years ago.

6 WITNESS CAVALIERI: I received no notice of it. I
7 would like to know when it was. How do they end up winning
8 such cases?

9 COMMISSIONER KIESLING: Who?

10 WITNESS CAVALIERI: Is there a reason for it?

11 COMMISSIONER KIESLING: Is there a reason for it?

12 WITNESS CAVALIERI: I mean -- you know.

13 COMMISSIONER KIESLING: I mean, you know, appellate
14 courts enter decisions.

15 WITNESS CAVALIERI: Three years later?

16 COMMISSIONER KIESLING: Yeah.

17 WITNESS CAVALIERI: Two years later, all right.

18 COMMISSIONER KIESLING: And so, therefore, when we
19 got the remand from the First District Court of Appeal, we had
20 to go back and examine the rate structure and the rates from
21 that old case. And on Tuesday we entered -- because we had to
22 from the District Courts' order -- a new rate structure which
23 will raise Palm Terrace's rates right now. It has nothing to
24 do with this rate case yet.

25 WITNESS CAVALIERI: When you say "right now," this

1 \$4.50 that you're talking about, is that going to be a
2 permanent increase, or -- I don't understand. I still don't
3 understand what -- here it says one thing; and you're citing
4 something else. I don't understand.

5 COMMISSIONER KIESLING: That's why I told you.

6 COMMISSIONER GARCIA: There's a good chance that we
7 may have to do some of these over because you don't know the
8 full extent of your exposure. But what occurred is that the
9 court basically overturned our uniform rates.

10 The concept of uniform rates is similar to that
11 which we use for electric companies. In other words, it
12 doesn't matter where in the state --

13 WITNESS CAVALIERI: And how long is this rate going
14 to last? This \$4.50?

15 COMMISSIONER GARCIA: This rate is the Company's
16 rate right now.

17 WITNESS CAVALIERI: But, see, it was \$1.23 per
18 thousand gallons.

19 COMMISSIONER GARCIA: Correct.

20 WITNESS CAVALIERI: And they wanted to raise it to
21 2.16. And yet, now, it's \$4.50.

22 COMMISSIONER KIESLING: \$4.04 per thousand gallons.

23 COMMISSIONER GARCIA: And the reason that that's
24 happened is, as I was trying to explain, uniform rates take
25 into account the areas that have cheaper water and raise their

1 rates. And areas that have more expensive water, like yours,
2 are lowered by that subsidy provided by the cheaper areas so
3 that everybody sort of pays, more or less, the same thing.
4 The problem is that the court didn't feel that we justified
5 that properly and so overturned that decision.

6 And what's happened is you are paying what it costs.
7 You're paying a closer amount to what it costs to get you
8 water. That's the actual cost.

9 And places like Hernando are paying what it costs
10 them, which is much, much less. Before, they were subsidizing
11 your water. That, the court overturned. And so you are
12 paying a price that is more commensurate with the cost of
13 providing you that water. It's not that we've decided to give
14 you that rate.

15 WITNESS CAVALIERI: I know, the court did.

16 COMMISSIONER GARCIA: Excuse me?

17 WITNESS CAVALIERI: The court.

18 COMMISSIONER GARCIA: The court basically said that
19 uniform rates did not apply and, therefore, we had to adopt a
20 rate structure that was specific to your area. And that's
21 what you've got.

22 WITNESS CAVALIERI: How about the other --

23 COMMISSIONER KIESLING: The other what?

24 WITNESS CAVALIERI: The \$100 million that they
25 spend? I mean, on what?

1 **COMMISSIONER GARCIA:** Let me explain that to you,
2 unless Staff wants to do it also.

3 That's what the Company is proposing to build into
4 the rate structure that they're applying for now, for the rate
5 increase that you saw. That is yet to be determined by our
6 Staff whether those expenses will be allowed in that rate
7 structure. Some of those are expenses that the Company made;
8 some are expenses that the Company has proposed to make. And
9 all those expenses will be analyzed by our Staff to see if
10 those expenses can be built into the rates or not.

11 If they can't be built into the rates, you won't be
12 charged for it. If they can, then there's a very good chance
13 that they'll be built into the rate structure.

14 **WITNESS CAVALIERI:** How come certain counties get
15 reverse osmosis? I would like to know why.

16 **COMMISSIONER GARCIA:** Because certain counties have
17 that system there.

18 **WITNESS CAVALIERI:** They had to pay for it? They
19 pay for it?

20 **COMMISSIONER GARCIA:** Yeah.

21 **WITNESS CAVALIERI:** But why --

22 **COMMISSIONER GARCIA:** They pay for it because --

23 **WITNESS CAVALIERI:** How much? I'd like to know what
24 difference is their price with mine? Maybe it's cheaper to be
25 on that system, and I wouldn't have to spend all this money on

1 salt and Culligan. You know, I would like to have it, too.

2 COMMISSIONER GARCIA: I'm not arguing whether that
3 system is better or worse.

4 WITNESS CAVALIERI: Without a raise here, don't put
5 it here.

6 COMMISSIONER GARCIA: The problem is the system that
7 you have is associated with the area that you're in. In other
8 words, there is no competing water company in this
9 particular -- in any case. And so the system that you have
10 presently is the system you had when you acquired the property
11 that you're on.

12 WITNESS CAVALIERI: When I just bought it or
13 something?

14 COMMISSIONER GARCIA: Right.

15 WITNESS CAVALIERI: It's been there a long time.

16 COMMISSIONER GARCIA: Right.

17 COMMISSIONER KIESLING: And I think you would
18 recognize that different areas of Florida have different water
19 quality when they pump it out of the ground. People who
20 choose to live in costal areas have, by and large, a much less
21 high quality water product that they pump out of the ground so
22 that it requires a lot more treatment to make it of acceptable
23 drinking water quality.

24 WITNESS CAVALIERI: I go along with it 100%, but why
25 is that these two counties or these two towns, whatever they

1 are --

2 COMMISSIONER KIESLING: What two?

3 WITNESS CAVALIERI: -- have reverse osmosis? Why
4 can't we have reverse osmosis? I mean, I'm just trying to --
5 you know. What's it cost?

6 COMMISSIONER GARCIA: Maybe the water company can
7 address --

8 WITNESS CAVALIERI: Could they explain, you know,
9 why don't we have it?

10 COMMISSIONER GARCIA: I happen to think reverse
11 osmosis is much more expensive --

12 WITNESS CAVALIERI: How much does it cost?

13 COMMISSIONER GARCIA: -- than probably what he's
14 getting.

15 Let me just tell you that reverse osmosis would
16 probably increase your costs significantly as a general rule.

17 WITNESS CAVALIERI: We're being increased anyway,
18 so --

19 COMMISSIONER GARCIA: Right. But maybe much, much
20 more.

21 WITNESS CAVALIERI: What are they paying?

22 COMMISSIONER GARCIA: Maybe the Company can address
23 it or our Staff can address the reverse osmosis question.

24 MR. CROUCH: Right now I believe the area in Marco
25 Island and Burnt Store are the two that you're referring to.

1 **WITNESS CAVALIERI:** Right.

2 **MR. CROUCH:** Those are coastal. Of course, Marco
3 Island being out on an island, the water that they get is
4 extremely brackish, has very high mineral content. Reverse
5 osmosis plants are extremely expensive to operate. They use a
6 high amount of electricity to force this water through the
7 membranes.

8 **WITNESS CAVALIERI:** Right.

9 **MR. CROUCH:** You can buy a very small home reverse
10 osmosis system and put in there instead of a filter system,
11 but even those are expensive.

12 Now, they saw fit at Marco Island and at Burnt
13 Store, the water utilities there, to put in a reverse osmosis
14 system to treat that water, to give them the highest quality
15 they possibly could. Those expenses are going to be high, and
16 we have isolated those two.

17 One of the things we are looking at is having a
18 completely different rate structure for Marco Island and Burnt
19 Store, the places that have reverse osmosis. Their rates
20 would be considerably higher because of the reverse osmosis.

21 **WITNESS CAVALIERI:** The only thing is they didn't
22 list the rates here, and that's what I wanted. You know, I
23 was just curious how much they were paying per thousand
24 gallons of water. If they're paying 50 cents more than me,
25 well, I'd like have to have it, too. And, you know, that's

1 why I'm trying to make out.

2 COMMISSIONER GARCIA: All right. So what we should
3 do for Mr. Cavalieri is get him what the rates are in Marco
4 Island so he's aware of it, and provide that to him.

5 WITNESS CAVALIERI: I would appreciate that.

6 COMMISSIONER GARCIA: And we'll mail them to you.
7 You nodded your head that you were also having chlorine
8 problems at your house?

9 WITNESS CAVALIERI: Well, the smell. He's right
10 about the smell sometimes. I mean, even with my system and
11 everything, I can't understand why the water has this odor
12 sometimes. And then it goes away. So there must be times
13 when it happens and it doesn't happen. I don't know. I have
14 no idea why.

15 COMMISSIONER GARCIA: All right. Why don't you get
16 together with the engineer and discuss it with him and maybe
17 we can check that out.

18 WITNESS CAVALIERI: Thank you. I appreciate that.

19 COMMISSIONER KIESLING: Any questions?

20 MR. SHREVE: You had some good questions on that, on
21 the rates that you had been sent in the notice.

22 WITNESS CAVALIERI: Yes.

23 MR. SHREVE: First of all, is this the first notice
24 you've received?

25 WITNESS CAVALIERI: Yes, first notice.

1 **MR. SHREVE:** Nothing before this talking about this
2 hearing?

3 **WITNESS CAVALIERI:** No.

4 **MR. SHREVE:** I have not seen this, but the numbers
5 that we are talking about in here in their rate request, they
6 request about a 77% increase in customer's water rates.

7 The rates that I think are in this notice now are
8 not the ones that are in effect as Commissioner Kiesling with
9 Garcia explained to you.

10 **WITNESS CAVALIERI:** I was surprised by that, right.

11 **MR. SHREVE:** Now, what's going to happen in the
12 future as far as the 77% increase, we don't know where that's
13 going to be placed. The Company wants the money regardless of
14 who pays it. So the rates that you have and the rates that
15 Zephyr Shores has may not be representative of what they
16 really are going to come out with or ask for in the future in
17 this case. And that concerns me greatly because I think you
18 have a lot of people who are not aware of how high their rates
19 might go at this point.

20 **WITNESS CAVALIERI:** I agree with that.

21 **MR. SHREVE:** And I think it's a real problem because
22 then the public doesn't have an opportunity to really express
23 their dissatisfaction with the increase in the rates.

24 **WITNESS CAVALIERI:** Like the gentleman said, most of
25 us live on fixed incomes.

1 **MR. SHREVE:** And particularly when I think there has
2 been a requirement ordered by the Commission that these
3 hearings be noticed properly. And, evidently, they were not
4 from what you said.

5 **WITNESS CAVALIERI:** Thank you.

6 **COMMISSIONER KIESLING:** Anything else, Mr. Shreve?

7 **MR. SHREVE:** I don't think so.

8 **COMMISSIONER KIESLING:** All right. Staff?

9 **MR. SHAFER:** Commissioner Kiesling, just one thing
10 I'd like to clarify.

11 **COMMISSIONER KIESLING:** You're going to have to get
12 awfully close to the mike.

13 **MR. SHAFER:** Just one thing I wanted to clarify
14 about the effective date of the new rates. The utility has
15 yet to file tariffs for those.

16 **COMMISSIONER KIESLING:** Right.

17 **MR. SHAFER:** Or if they have, they haven't been
18 processed yet. And they'll be required to file notice before
19 the rates can take effect.

20 **COMMISSIONER KIESLING:** Yes.

21 **MR. SHAFER:** So even though the vote was Tuesday,
22 it'll be a few days before that actually gets implemented.

23 **COMMISSIONER KIESLING:** I agree. I probably
24 misspoke a little when I said these are the rates now. I
25 meant now pursuant to our order, not now that you are going to

1 get in your next bill. And, also, they could be appealed.

2 WITNESS CAVALIERI: I misunderstood you. I thought I
3 was going to get it right now.

4 COMMISSIONER KIESLING: No, no, no. I meant now --
5 well --

6 Mr. Shafer is absolutely correct.

7 WITNESS CAVALIERI: All right.

8 COMMISSIONER KIESLING: There will be some time lag,
9 but in order for you to understand, you know, what the
10 possible range of things were, I needed to tell you all that
11 that decision was made just Tuesday afternoon, so it couldn't
12 have made it to you in a notice.

13 WITNESS CAVALIERI: That's what I was saying; it was
14 a surprise. All right. Thank you.

15 MR. SHREVE: Thank you, sir. That's all the cards
16 we have.

17 COMMISSIONER KIESLING: All right. Is there anyone
18 else who wishes to speak? If not, do we need to do the
19 notice, or --

20 MR. FEIL: Yes, Commissioner. As an aside matter
21 here, we have proof of the publication notice of the hearing;
22 proof of the customer notice for this service hearing, as well
23 as the proofs for the Jacksonville and Kissimmee service
24 hearings. I'm not sure whether or not you would want those
25 identified as one composite or exhibit or have them identified

1 separately for each service hearing.

2 At this time the initial customer notice, the 10- to
3 12-page document, I do not have with me the affidavit proving
4 notice of that. That is being complied at the present.

5 COMMISSIONER KIESLING: All right. Well, since I
6 didn't chair the Kissimmee or the Jacksonville hearings, I
7 thought that those were already marked.

8 MR. FEIL: It's my understanding that they were not.

9 MS. O'SULLIVAN: They're not listed as being marked
10 on our list.

11 COMMISSIONER GARCIA: I think that they had left
12 them in the car last time.

13 MS. O'SULLIVAN: That's true.

14 COMMISSIONER GARCIA: And they said they would
15 provide them. It was late. It was 10:30. He was willing to
16 run out to his car, but we weren't willing to stay.

17 COMMISSIONER KIESLING: Well, Mr. Shreve?

18 MR. SHREVE: Let me know something. I wasn't real
19 clear on what Mr. Feil was saying. You don't have the
20 affidavit for the case notice?

21 MR. FEIL: The initial case notice, the one that is
22 required to be done within 50 days.

23 MR. SHREVE: That they have just received?

24 MR. FEIL: Yes, sir.

25 MR. SHREVE: All right. Do you have the affidavit

1 showing that the -- customer notice of this hearing? Do you
2 have that for this and Jacksonville?

3 MR. FEIL: And Kissimmee, yes, sir.

4 COMMISSIONER KIESLING: Well, I'll mark them.

5 MR. SHREVE: We won't object to any of that coming
6 in because it's obvious from customer testimony and customer
7 input that we received after the Jacksonville hearing that the
8 customers had not received that notice.

9 MS. O'SULLIVAN: Commissioner, I believe they were
10 being identified at this point, not moved into evidence.

11 COMMISSIONER KIESLING: That was my point. I will
12 go ahead and mark them for identification. And let's do each
13 location separately. What was the last number.

14 MS. O'SULLIVAN: We're on No. 8 right now. No. 7
15 was the last number.

16 COMMISSIONER KIESLING: All right. We'll do the
17 notices for this hearing, mark them as Exhibit 8 for
18 identification. And Exhibit 9 will be the notices for the
19 Kissimmee hearing. And for identification, Exhibit No. 10
20 will be the notices for the Jacksonville hearing.

21 (Exhibit Nos. 8 through 10 marked for
22 identification.)

23 MR. FEIL: Commissioner, one thing I would like to
24 point out is the affidavits do not have a complete customer
25 list attached to the affidavits. The reason for that being we

1 would like to protect the privacy of the customers so that
2 their names and addresses are not all spelled out on the
3 record. We have a second affidavit with the customer list
4 attached available, but the document we will be introducing
5 will not have that list.

6 **MR. BECK:** Commissioner, if I may, first of all, I
7 would like to object to that. As we are speaking here, I'm
8 trying to go through this list to see the customers who spoke
9 today are on here, and I can't locate two out of three. Now,
10 maybe with some more time, we'll be able to.

11 But first of all, I'm going to object to not having
12 the customers' names because there appears to be a real
13 problem that customers are not getting proper notice of the
14 hearings. After the Jacksonville hearings, we received
15 I-don't-know-how-many calls in our office from people saying
16 they didn't get a notice. You've heard the same thing here
17 today that people are not getting timely notice. So without
18 the customer names attached, they'll be nobody to verify
19 whether the proper notice has gone out.

20 I secondly object to the contents of the notice
21 itself because it doesn't tell people the extent to which
22 their substantial interest would be affected by this
23 proceeding.

24 **COMMISSIONER KIESLING:** That objection has already
25 been raised, and we will deal with it. Right now we're

1 marking them for identification.

2 Mr. Feil, recognizing that the Company is trying to
3 help maintain the privacy of its customers, it would appear to
4 me that you will need to attach a list, even if you just do a
5 list of the names, so if there's a question, you can cross
6 reference to the addresses, because there are statements by
7 the witnesses that they didn't get notice. And the only way
8 to verify that is going to be to look at the list and see who
9 they were mailed to.

10 MR. FEIL: If that is the case, we'll submit revised
11 affidavits as a late-filed exhibit with the addresses deleted?

12 COMMISSIONER KIESLING: They won't be late-filed,
13 will they? I mean --

14 MR. FEIL: Well, I have one copy with names and
15 address here with me today. So if you want to delete the
16 addresses, we can do that; but I will need time in order to do
17 that.

18 COMMISSIONER KIESLING: Well, I've just marked them
19 for identification. I haven't moved them in. And if you need
20 to supplement, then we'll do that.

21 MR. FEIL: Very well.

22 COMMISSIONER KIESLING: But until they are admitted,
23 it's not really an issue. Mr. Shreve?

24 MR. SHREVE: And, Commissioner, I would object to
25 deleting the addresses or phone numbers or any information

1 they have that can be held confidential if that's needed. But
2 we need to be able to talk to the customers and find out if
3 they, in fact, received those. So we object to that being
4 deleted. There's no reason that's wholly confidential.

5 COMMISSIONER KIESLING: Okay. I was just attempting
6 to protect the privacy of the customers. Because once that is
7 an exhibit, unless there is a motion for protective order for
8 confidentiality, they'll be out there. So I'm just trying to
9 protect peoples' privacy.

10 MR. SHREVE: I understand that, but we, also -- we
11 are finding some real problems with notice. It started in
12 Kissimmee. We didn't even know there was a problem in
13 Jacksonville until the next day when all the customers started
14 calling saying that day they had received a notice. And,
15 obviously, at least from the three people that testified here,
16 there was no notice. It may explain why we don't have more
17 people here. And I'm very interested in their affidavit that
18 says a notice was sent to all these people.

19 COMMISSIONER KIESLING: All right. We will leave
20 these notices marked. And as soon as you are able to
21 supplement them with the complete names and addresses, we'll
22 do that.

23 MR. SHREVE: Thank you, Commissioner.

24 MR. FEIL: We will do that.

25 COMMISSIONER KIESLING: All right. Anything else

1 that we need to take care of? All right. Then this
2 proceeding is concluded. Thank you for coming.

3 (Thereupon, the hearing concluded at 10:50 a.m.)

LEGAL NOTICE

**BEFORE THE FLORIDA PUBLIC
SERVICE COMMISSION
NOTICE OF SERVICE HEARING
DOCKET NO. 950495-WS**

Docket No. 950495-WS — Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Pasco County(ies) will be held at the following time and place:

September 28, 1995

10:00 a.m.

City of New Port Richey

Commission Chambers

5919 Main Street

New Port Richey, FL 34652

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the basic facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

A new approach

Change in owners brings change in focus for Lehigh Corp.

By EDO'DONOGHUE
News-Press Staff Writer

The seeds of change sown a year ago by the new owners of Lehigh Corp. are starting to sprout.

Builders and real estate brokers who focus on the 65,000-acre development east of Fort Myers say home and lot prices for the most part have stabilized; business is good considering the weak economic times; and Lehigh is shedding its image as an out-of-the-way retirement community.

Through various prior administrations, Lehigh Corp. has had a checkered past. It was started in the mid-1950s by Chicago millionaire Lee Ratner, and marketed primarily in northern states as a retirement mecca throughout the 1960s and 1970s.

In the 1980s, its owners defaulted on bank loans and Lehigh Corp.'s assets were taken over by the Security Savings & Loan Co. of Phoenix. In 1987, that thrift failed, and the Lehigh holdings fell under the control of the Resolution Trust Corp.

Last year, a Minnesota utilities company stepped in and, for \$40 million, acquired the company and its holdings — which included approximately 10,000 unsold lots and 6,000 acres of undeveloped land, a hotel, a construction company, a building supplies dealership, and water and sewer utilities.

It was the latter that attracted the Minnesota company's interest. While the old Lehigh Corp. focused on selling land, the new company is focusing on development of a large customer base for the utilities it intends to continue to run.

While Lehigh Acres currently has more than 12,000 dwellings — it now has a population of more than 30,000 — the community eventually could have more than 100,000 homes.

A new focus

William I. Livingston, who took over as Lehigh Corp. president in early July 1991, said that legally and economically his administration could not continue the marketing practices of its predecessor.

"Because the operation was driven by the sale of land, there was little incentive for the company to provide services and community amenities, unless it had to."

"We don't want to be in the business of selling land, building homes or operating golf courses," he said. "Currently, we're looking for qualified people to buy those operations or enter a joint-venture with us to run them."

Minnesota Power, he said, has been buying and building utility systems in Florida for the past decade, and currently controls hundreds of them.

He said Minnesota Power bought Lehigh Corp. as a long-term investment. "It's not looking for a big margin of profit, and we can afford to take time to develop a well thought-out plan for growth," he said.

KENT JOHNSON/News-Press

William Livingston, president of Lehigh Corp., stands in front of the new visitor information center now under construction on Lee Boulevard. The new center is a sign of changed attitudes in the company, as it will serve as a sales center for outside builders working in the development.

"We don't want to be in the business of selling land, building homes or operating golf courses."

William Livingston
President, Lehigh Corp.

homes in the \$50,000 to \$75,000 range, three or four in the \$70,000 to \$100,000 range, and three or four building homes from \$100,000 on up," he said.

"We're starting to get more and more (buyer) traffic out of Fort Myers and Cape Coral," he said.

A new center

To give the Lehigh Corp.-approved builders an advantage over other home contractors, the development company is opening a visitor information center at its western-most reaches.

"The sales center has always been in the middle of Lehigh Acres — 13 miles from I-75," Livingston said. It helped foster the idea Lehigh Acres was far removed from other sections of Lee County.

"The new center is 2½ miles from the interstate, and visitors will be able to get a feel for the community before they drive into it."

The company also is scrapping old marketing signs along Lehigh Acres' roads, replacing them with ones that provide directions to community facilities.

Once the contractors' program is rolling, Livingston said, he projects that 500 to 1,000 new homes can be built and sold in Lehigh annually.

See LEHIGH / E

last summer was to reduce the animosity between his company and the scores of builders and real estate agencies that have set up business in Lehigh Acres.

"Because of the way the old Lehigh Corp. approached business, it was trying to sell house lots at \$10,000 or \$11,000 — when lots on the resale market were commanding only \$3,000 or \$4,000."

During the past year, Livingston said, his company has repriced most of the 9,600 undeveloped house lots it still controls to reflect their true value. Along with that, for the first time, Lehigh Corp. has turned to independent real estate agencies to sell new property in the development.

A new attitude

That change has not gone unnoticed among real estate brokers, with whom Lehigh Corp. used to fight for every commission.

"The most noticeable difference is in

the company's attitude to open things up and welcome broker participation," said Roger Bevington, residential manager of the south Lee County office of Century 21/AALM Realty Group.

To Wanda Adams, who has both lived in Lehigh and marketed real estate there for the past 15 years, "Lehigh Corp. has become very community-minded, very cooperative with real estate brokers and very receptive to suggestions."

Until the change in owners last year, Adams said, Lehigh Corp. had virtually no business with agencies like her Cameo Realty.

Livingston said his company also has reduced its home-building activities. While Lehigh Corp. still has a building division, the company is in the process of designating a dozen independent contractors as preferred builders.

"And there are plenty of others who will be working out here," he said.

"What we are trying to do is sign up three or four who can offer completed

Hotel companies hope to polish time-sharing's image

By JACQUELINE L. SALMON
The Washington Post

Quick: What do you think of when you hear the words time share?
A "free weekend" if you endure a two-hour sales pitch beforehand? A prize of a "free yacht" that turns out to be a plastic toy? Glossy pictures of an idyllic vacation retreat the sales representative tells you is yours for a "special discounted rate" available only for today?

Well, some big companies want to change your mind about time sharing.

Attracted by the healthy demographics — the average time-share purchaser has a household income of \$49,700 — and the \$3 billion time-share consumers spend

each year at resorts, the major entertainment and hotel companies in the United States are betting they can hurdle the time-share industry's somewhat unsavory reputation and attract vacationing families to lavish facilities in Colorado; California; Florida; Barbados; Hilton Head, S.C., and other vacation destinations.

"We see tremendous potential," said Bill McCreary, senior vice president of Westin Hotels and Resorts, which is just beginning its foray into time-sharing. "It's probably going to be a very successful line of business for many years to come."

Leading the way

Marriott Corp. was the first major hotel company to venture into the time-share business when it purchased an existing operation in 1984.

Since then, Marriott Ownership Resorts Inc. has grown to include 18 resorts from Barbados to California and more than 400,000 owners. It expects sales to exceed \$100 million in 1992.

Attracted by Marriott's success, other big hotel and resort operators have begun to flock to the business.

In December, Walt Disney Co. opened its first time-share facility at Walt Disney World in Orlando, Fla., and has sold 2,500 memberships in its Disney Vacation Club.

"We watched the time-share business explode in Orlando outside our park and we said, 'Hey, that's something we ought to take a look at,'" said Mark Pacala, senior vice president of the Disney Vacation Club.

Westin Hotels and Resorts is "tip-toeing in" with an initial project in Orlando, McCreary said, but plans to expand shortly.

Hilton Hotels Corp. has begun to

develop an international chain of time-share resorts under a subsidiary, Hilton Grand Vacations Co.

"Vacation ownership continues to improve its credibility and has extremely favorable demographic prospects for the '90s and beyond," said Barron Hilton, chairman of Hilton Hotels Corp.

Expansion avenue

The reason for the enthusiasm is that hotel operators see time-sharing as a way to expand their businesses beyond the "sheets and keys" basics of catering to business travelers and to attract visitors who stay longer and come back year after year.

"We're all looking at the pre-paid vacation program as what customers are telling us they want," said Robert Miller, executive vice president of Marriott Ownership Resorts.

What all these companies are chasing is that lucrative slice of

Americana — the relatively affluent family vacationer who wants to load the spouse and kids onto a plane and go somewhere for a pre-planned, activity-filled week.

In the United States, the number of households owning time-shares has risen 18 percent to 1.4 million households since 1990, according to a study sponsored by the American

Resort Development Association.

The basic principle behind time-sharing is that a buyer purchases a certain period of time each year — usually a week — in a resort facility.

The average purchase price for a week is \$9,500 in the United States. With many time-shares, owners can then trade their weeks for stays in other destinations.

LEHIGH: Increasing interest inspires future

From Page 1E

In recent years, about 300 or 400 homes have been built at Lehigh annually. During 1991, for instance, about 350 new telephone lines were installed there.

"But I don't expect us to reach those numbers for a couple of years, and not before the general economy improves," he said.

A new access

For Larry Cook, whose Gulf Bay Homes builds 30 to 40 homes in Lehigh each year, the changes announced by Lehigh Corp.'s administration are welcome — but it is still too early to know what benefits they will bring.

"You hear a lot, but I haven't seen a lot of concrete changes yet," he said.

However, Cook said he has noticed an increase in public interest in Lehigh.

"It's no longer considered re-

mote, with the new roads there and the (Westinghouse) Gateway community nearby," he said.

Bevington agrees: "The opening of Colonial Boulevard has changed everything. It's now only 15 minutes from downtown Fort Myers, and closer to the malls and shopping centers," he said.

Similarly, Lehigh Acres is convenient to the Southwest Florida Regional Airport and, if the midpoint bridge is ever built, residents of Lehigh Acres will have a direct route to Cape Coral.

Bevington, whose agency markets real estate throughout Lee County, said he believes Lehigh Acres has reached the point in growth where Cape Coral was 15 years ago.

"The image of Lehigh being a retirement community is being phased out," he said. "We see the market there now as one of young families — three-bedroom, two-bath homes in the \$60,000 to \$70,000 range."

Developer thriving through years of growing pains

By LAURA RUANE
News-Press staff writer

Forty years ago this month, Chicago millionaire Lee Ratner was persuaded to remake his ranch into a land development outfit.

Ads proclaimed, "For \$10 down, \$10 a month, you can own a lot in fabulous Florida."

Checks poured in. And eventually, people, not cattle, came in droves to Lehigh Acres in eastern Lee County.

The development company - now known as Lehigh Corp. - has weathered its share of storms over four decades, including a 1959 flood, numerous water-control battles, questions about its marketing tactics, an insolvent owner and more.

It's survived, and continues to be a money-maker for Duluth, Minn.-based Minnesota Power & Light, which purchased the firm roughly three years ago for \$40 million.

But Lehigh Acres no longer is a company town: It's a full-fledged community, complete

with its own high school, which opened this fall. And Lehigh Corp. no longer is the controlling parent figure.

With the company's sale in 1991, new management restructured operations, selling off businesses incidental to its twin goals of land development and selling water and sewer service.

More crucial for the community, Lehigh Corp. loosened its grip on its land holdings, courting greater commercial and residential development by outsiders.

"This is not our kid," CEO William I. Livingston said in a 1993 News-Press interview. "We'll help it. But we can't be everything to the community or tell the community what to do."

Following are some impressions of the old - and the new - Lehigh Corp.

Home stampede

Miami adman Gerald Gould had convinced Ratner that land development would be more exciting - not to mention more profitable -

than expanding his Lucky Lee Ranch in Southwest Florida. But even he wasn't prepared for the response to test ads appearing in Midwestern newspapers and television markets.

Scores of folks mailed in their \$10 down-payments, for lots they hadn't seen - and even hadn't been platted.

One couple, Oran and Mildred Gibbs of Detroit, sent \$14,000 for a model home depicted in a 1954 company brochure.

"We didn't have a building company then," Gould recalled. "We didn't have anything." Gould phoned Gibbs, urging him to be patient. Three or four months later, Gould got a call from the ranch manager: "There's this guy with a truckload of furniture, looking for his house."

The company put up the Gibbsses at the Edison Motel on Cleveland Avenue in Fort Myers. A few months later in 1955, they moved into their two-bedroom, one-bath,

BUSINESS

LEHIGH: Company built its first house for couple from Detroit

From Page 1D
concrete block-and-stucco home on Leeland Heights Boulevard. They lived in Lehigh Acres until their deaths; Mildred Gibbs died in the last couple of years.

That first home, near the heart of the business district, has a sales contract pending in the \$40,000 range, said real estate agent Lucy Wilson. The prospective buyers see it as rental property, rather than a retirement haven.

'Blow it up'
Ratner, the founder of Lehigh Corp., "didn't like all the details and the follow-through. But he loved getting something started," said Gould, who became the company's first president.

Ratner's penchant for taking charge almost led to blows with Gould in the summer of 1959. Although Lehigh Acres has some of the highest ground in the county, the community got 22 inches of rain in less than 72 hours that season. When Gould and Ratner flew in from out of state, "all of Lehigh was under water. The water was within inches of the homes," Gould said.

Ratner, wearing handmade alligator-skin boots, ranch wear and a cowboy hat, quickly took charge. When told a too-small culvert along Leeland Heights Boulevard might be contributing to the flooding, he said, "blow it up," thus destroying the main road to Lehigh," Gould said.

Gould and engineers were particularly alarmed by the primitive temporary bridge Ratner OK'd for the culvert site. "We were concerned about liability, but he wouldn't listen," Gould said.

"Finally the two of us were standing in front of the motel, nose to nose — almost spitting at each other. I was so mad, I called him a few names, and knocked off his cowboy

hat. Lee was husky, and could have crushed me. But he just stalked off."

The culvert was blown up; the makeshift bridge worked fine.

Ratner and his wife, Esther, in their 70s, live on Florida's east coast. They don't do interviews. Company oldtimers can't agree whether Ratner has even set foot in the community the last 10 years.

Gould defended his longtime friend and associate. "He's the dearest man I know. And for the first six years of this development, nothing happened that Lee wasn't involved in."

New kids in town

By the late 1960s land sales were getting less profitable for the firm, then named Lehigh Acres Development Co. Rising mortgage rates discouraged buyers, Gould said.

The rate of return on advertising dollars also lessened. Port Charlotte and Cape Coral land developers got started shortly after Lehigh Acres. "Soon, everyone had a piece of the pie," Gould said.

Faced with a dwindling cash flow, the company could either go public or find a buyer. It was acquired in 1969 in a \$35.8 million stock swap, by Arizona-based Land Resources Corp.

Gould stayed on as CEO for about two years, then departed. "I did not agree with the new owners on how the company should be run." Subsequently, he helped develop Sun City Center, south of Tampa, among other projects.

But this year, he's back to plan another venture — an assisted living retirement community.

"I think the new guys (with Minnesota Power) have done an excellent job. They've completely revitalized the community."

Water wars

In its early years, Lehigh Corp. and farmers locked horns over company land-drainage projects. The company accused some of sabotaging its canals at night. Some growers and environmentalists called company officials irresponsible. "They had grossly overdrained the land so that it wasn't economically feasible to have an agricultural operation in close proximity," said Jim English, an east Lee County farmer and real estate broker.

The water wars took a different twist in the mid-1980s, when state Rep. Keith Arnold, D-Fort Myers, challenged company control of Lehigh Acres' drainage district.

According to district bylaws, only landowners of 1 acre or more had a vote. That shut out single-lot holders.

As the biggest landowner, the company held sway over water district policies and fees. "They would charge a per-lot fee for drainage," Arnold said. "It was taxation without representation."

Even more troubling was Arnold's suspicion that drainage district funds were being diverted to other aspects of development. A state audit was ordered. "There were tens of millions of dollars, which they could not track," Arnold said.

No charges were filed. But Arnold and State Rep. Vernon Peoples, D-Punta Gorda, launched a protracted legislative battle to change the district rules from one vote per acre to one vote per landowner. The change was signed into law twice; the first time it was overturned in court.

Since its purchase by Minnesota

Power, Arnold has a different opinion of the company. "They have a very good reputation throughout the state."

Town for sale?

In 1987, an article in The Washington Post said Lehigh Acres was for sale, because the company's insolvent Security Savings & Loan of Scottsdale, Ariz., had been taken over by federal regulators.

Truth was, the town wasn't for sale — just Lehigh Corp.'s sizeable holdings.

Lehigh Corp. always was profitable, said James Fortana, a senior vice president and 35-year employee. And if the community looked a little threadbare by the late '80s, it was because federal regulators "wouldn't give us any money to spruce things up."

Change started almost immediately after Minnesota Power bought the company. Under the direction of Livingston, the company downsized and restructured — "getting out of businesses we didn't know much about."

According to Livingston, the focus now is on land development — and the providing of water and sewer services through Southern States Utilities, which also is owned by the parent company.

Within six months of the ownership change, Realtor Frank D'Alessandro brokered the sale of Lehigh Corp. land for a new Kmart on Homestead Road. A Wal-Mart now is under construction nearby.

"The old Lehigh Corp. did not believe in selling off assets," D'Alessandro said. "The new company is willing to work with other developers."

At time of its sale, Lehigh Corp. owned about 8,000 residential lots, 6,000 undeveloped acres and 600 acres with commercial zoning. Since then, the company has sold less than 100 acres of the commercial acreage

and about 2,000 acres of unimproved parcels. About 360 developed lots are sold yearly; the company's goal is to sell 500 a year, said Livingston, CEO.

The company has more than 10 new neighborhoods on the drawing board; some such as Bethany Trace off of Homestead Road, already have broken ground. Perhaps 10 years in the future, there'll be a lake-laced community near the former Lucky Lee Ranch. The ranch was razed in 1991. Excavations for fill make it a good site for waterfront development, Livingston said.

Working with the new neighborhoods is Lehigh Corp.'s preferred builder program. The company itself is an investor in Homes at Lehigh Inc., a franchise of the upscale Arthur Rutenberg Homes.

Bob and Rosemary McKeen of Defiance, Ohio, last November moved into a new Rutenberg-built home near Mirror Lakes Country Club. They've watched the community grow up, as they made visits to Rosemary's mother.

"Gradually, we came to like it more and more," Rosemary McKeen said.

Of Lehigh Corp., she has only hazy impressions. She's heard many things about the company, not all of them positive. "But I haven't been here long enough to sort things out."

Willie Battle of Dunbar Development Inc. is no newcomer to Lehigh; he's built more than 300 homes or other structures there since the late '70s. He's in the company's preferred builders program, and credits it with giving him the opportunity to build upscale homes.

Battle built some 50 homes in Lehigh Acres in the last year, and is about to start his second model. Of the corporation, he said: "I think they're doing real well. And Lehigh is going to grow."

Toward the future

As an investment, Lehigh Corp. seems to be working for Minnesota Power. Company earnings contributed 24 cents per share of Minnesota Power stock, which had a per-share earnings of \$2.20 earnings in 1993, according to Piper Jaffray, a Minneapolis-based brokerage firm. This year, Lehigh Corp. earnings are expected to chip in 25 cents per share of the stock, which the same report estimated at \$2.08 per share.

Minnesota Power trades on the New York Stock Exchange under the symbol MPL. It is listed in the News-Press as MinnPL. As of Thursday, it was trading at \$25 1/4 per share, up an eighth.

Lehigh Corp. may not be a long-term core investment for Minnesota Power, said Jeanne Rosengren, Piper Jaffray vice president. "The real estate asset really is not a strategic fit."

Minnesota Power is a diversified company involved in coal-mining, paper-making and marine equipment leasing. Utilities, however are its strong suit. Rosengren said that at the time of acquiring Lehigh Corp., the parent company had a 10-year plan to sell off the real estate holdings.

But Livingston dismissed a suggestion that Lehigh Corp. might be for sale again or out of business within the next five to 10 years. Companies tend to announce plans only in five- to 10-year increments, he said. "We could stay in business another 20 years, just developing the major parcels."

Lehigh Corp. remains valuable to its parent, Livingston said, "because it can control the growth of its own utility, by being in land development."

EXHIBIT A

PAGE 1 OF 1

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
DOCKET NO. 950495-WS
NOTICE TO CUSTOMERS OF SERVICE HEARING**

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

DATED: August 29, 1995

Notice is hereby given that the Florida Public Service Commission will conduct service hearings to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for customers in Orange and Osceola County(ies) will be held at the following time and place:

**September 19, 1995
6:00 p.m.
City of Kissimmee Civic Center
Ballroom
201 E. Dakin Avenue
Kissimmee, FL 34741**

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

INVESTMENTS

A sizable portion of Minnesota Power's earnings comes from financial investments other than utilities and utility-related businesses. The investments include a \$329 million portfolio that contains a variety of securities as well as ownership in a financial guaranty reinsurance company.

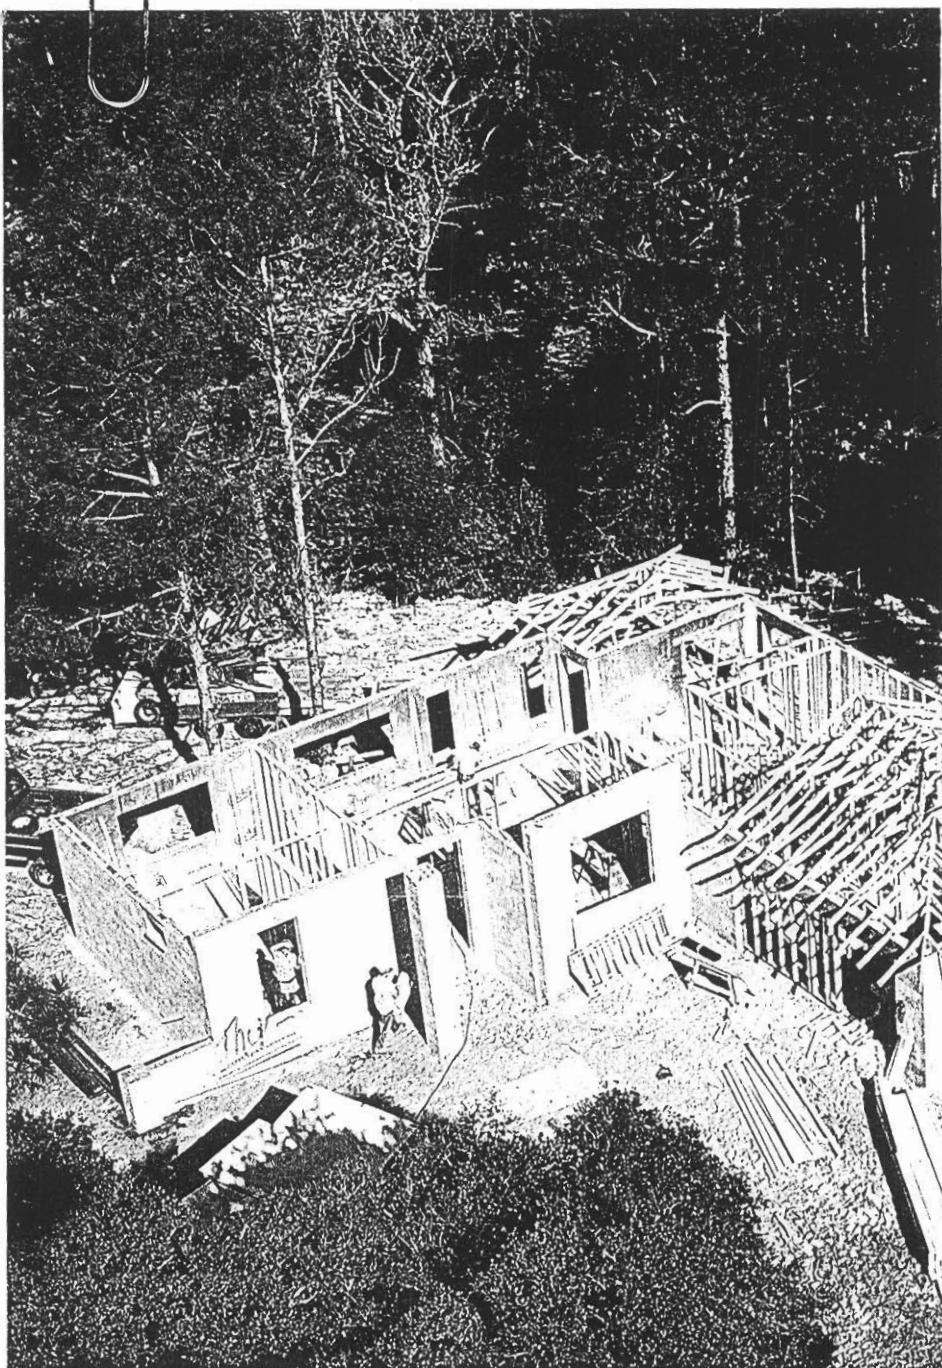

About half the securities in the portfolio are preferred stocks and common stocks of other electric utilities. The portfolio is managed to earn a consistent return while preserving funds for potential reinvestment in our existing businesses or acquisition of new businesses. Some investments are hedged to lessen the portfolio's sensitivity to changes in interest rates and market conditions.

Lehigh Acquisition Corp.

Investments also include real estate holdings in southwest Florida. The Company acquired the real estate in 1991 along with a utility system it purchased in a package deal. Initially our Topeka Group subsidiary owned two-thirds of Lehigh Acquisition Corp., with the remainder owned by two Florida businessmen experienced in real estate. In June 1993 Topeka Group increased its ownership to 80%.

Lehigh's real estate consists of 7,000 undeveloped home sites and 5,500 acres of unimproved property, including commercial, residential and agricultural land. The plan is to sell the Lehigh property over the next several years as profitable opportunities arise.

Lehigh's income comes mainly from the sale of real estate property and interest income related to installment lot sales. Selling Lehigh's properties dovetails with expansion goals for our Florida utilities, which serve the Lehigh properties. In addition to profit on each lot sale, we gain another utility customer.

When a new home is sold in Lehigh, Fla., our affiliated utility companies gain a customer. Last year Lehigh Corp. sold 425 developed lots, many of them to builders who construct and sell homes to families interested in southwest Florida's balmy winter temperatures.

Lehigh's sales strategy includes selling lots at reasonable prices to builders, who build and sell the homes. The lots come with water and sewer service. Lehigh homes, built to be affordable, have modern design and interior features. Another marketing plus is Lehigh's hometown touch. Unlike many Florida developments, Lehigh

an established community offering many quality-of-life features as well as diversity of family types and ages. A new Welcome Center, dedicated in 1993, introduces prospective homebuyers to benefits of living in Lehigh and showcases the work of the 11 builders who

DOCKET NO. 950495-WS**

Docket No. 950495-WS - Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Hernando, Collier, Duval, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns County(ies) will be held at the following time and place:

September 20, 1995

6:00 p.m.

**Prime Osborn Convention Center
Ballroom South
1000 Water Street
Jacksonville, FL 32204**

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION NOTICE OF SERVICE HEARING DOCKET NO. 950495-WS

Docket No. 950495-WS—Application by Southern Utilities, Inc. for rate increase and increase in service availability charges for Orange County Utilities, Inc. in Orange County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns County(ies) will be held at the following time and place:

September 20, 1995
8:00 p.m.
Prime Outlets Convention Center
Ballroom South
1800 Water Street
Jacksonville, FL 32204

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and pass-through charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1995. The application also indicates that the majority of these plant additions were required by the environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

AFFIDAVIT

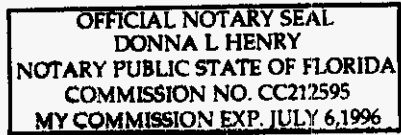

GLORIA WISHART, having been duly sworn, states as follows:

1. I am an Office Services Clerk in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.
2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.
3. On August 25 and 30, 1995, in my presence and under my supervision, SSU personnel mailed to SSU customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns Counties a copy of the document identified as "Notice To Customers of Service Hearing" attached hereto and marked "Exhibit A."
4. The names and addresses of the aforesaid customers were previously obtained by SSU from SSU Information Services Customer Address Files. A copy of the list of customer names and addresses is attached hereto and marked "Exhibit B."
5. On August 25 and August 30, 1995, SSU personnel and I machine postmarked the envelopes containing copies of the aforementioned document(s) and hand delivered the envelopes to a representative of the United States Postal Service for delivery.
6. Attached hereto and marked "Exhibit C" is a copy of the relevant pages of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit C contains information pertinent to the aforementioned mailing, to wit: on August 25, 1995, SSU mailed 7120 pieces of mail fitting the description of the "SSU Billing Jacksonville Hearing Letter," on August 30, 1995, SSU mailed 5250 pieces of mail fitting the description of "Jacksonville Hearing Letters With Labels," and on August 30, 1995, SSU mailed 779 pieces of mail fitting the description of "Jacksonville Customer Hearing Letter." I personally made these entries into the logbook, and the recordations therein coincides with my personal observation.

GLORIA WISHART

The foregoing instrument was acknowledged before me this 19th day of September, 1995, by GLORIA WISHART, who is personally known to me and who did take an oath.
