FLORIDA PUBLIC SERVICE COMMISSION

In the Matter of	**DOCKET NO. 950495-WS**
Application for a rate increase and increase in service availability charges by SOUTHERN STATES UTILITIES, INC. for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.	

PROCEEDINGS: **KISSIMMEE SERVICE HEARING**

BEFORE: CHAIRMAN SUSAN F. CLARK
COMMISSIONER J. TERRY DEASON
COMMISSIONER JULIA L. JOHNSON
COMMISSIONER DIANE K. KIESLING
COMMISSIONER JOE GARCIA

DATE: **Monday, January 29, 1996**

TIME: Commenced at 6:00 p.m.
Concluded at 8:40 p.m.

PLACE: City of Kissimmee Civic Center
Ballroom
201 E. Dakin Avenue
Kissimmee, Florida

REPORTED BY: JOY KELLY, CSR, RPR
Chief, Bureau of Reporting
Official Commission Reporter

P R O C E E D I N G S

(Hearing convened at 6:00 p.m.)

CHAIRMAN CLARK: Ladies and gentlemen, we're ready to call the hearing to order. Ms. O'Sullivan, will you please read the notice.

MS. O'SULLIVAN: Yes. Pursuant to notice this time and place has been set for a customer service hearing in Docket No. 950495-WS, application for rate increase and increase in service availability charges by Southern States Utilities, Incorporated.

CHAIRMAN CLARK: Thank you. We'll take appearances starting with you, Mr. Shreve.

MR. SHREVE: Jack Shreve and Charlie Beck, Office of Public Counsel, appearing on behalf of the citizens of the state of Florida; representing the customers in opposition to the rate increase.

MR. FEIL: Matthew Feil, 1000 Color Place Apopka, Florida, on behalf of Southern States Utilities, Inc.

MS. O'SULLIVAN: Maggi O'Sullivan on behalf of the Commission Staff.

CHAIRMAN CLARK: My name is Susan Clark. I'm the Chairman of the Public Service Commission and with me tonight are all of the Commissioners that serve on the Public Service Commission.

To my right is Commissioner Terry Deason, to his right is Commissioner Diane Kiesling, to my left is Commissioner Julia Johnson and to her left is Commissioner Joe Garcia.

This is a service hearing in the Southern States rate increase request. This proceeding was started by Southern States filing a petition to increase its rates for water and wastewater services for its systems throughout the state of Florida.

They filed that petition and along with it they sent numerous documents outlining the financial accounting, engineering data that they feel justifies their rate increase request.

The Utility has requested a two-tier uniform water rate along with a uniform wastewater rate. The Utility has requested a final rate increase of up to 45.9% for water and 30.21% for wastewater. The Utility also requested an interim rate increase. We granted part of that increase on January 4th. It is subject to refund pending the final outcome of this case.

Other parties have intervened in this case. You have met Mr. Shreve who has intervened on behalf of the Citizens. We also have another intervenor who is not here with us tonight, Mr. Mike Twomey, who has

intervened on behalf of various homeowners associations. They are represented by their attorneys and they, too, will present documents and other evidence and testimony in opposition to the rate increase requested.

I'd also like to introduce the Staff we have with us here tonight. They are available for you to ask them questions or for you to get information from them. They'll assist you in any way they can.

I'd like to start with Mr. Bill Lowe who is the assistant director of our Water and Wastewater Division. Next to him is Mr. Stan Rieger, who is our engineer in the Water and Wastewater Division. Sitting at the table with Maggi O'Sullivan is Mr. Marshall Willis, who is the Bureau Chief of the Bureau of Economic Regulation. To Ms. O'Sullivan's left is Troy Rendell who is a rate supervisor in the Division of Water and Wastewater. Also in the back of the room is Ms. Sandy Simmons. She's with our clerk's office. She's assisting us tonight. And at the table is Ms. Margaret Ring, she's with our Consumer Affairs Department. We also have a court reporter here today, Joy Kelly.

As I indicated these people are here to help you. If you have any questions you don't wish to ask

us in a public forum, they are available for you to ask those questions.

We will have technical hearings involving this rate increase request starting on April 29th. In connection with this petition for an increase in rates, we've held numerous customer service hearings such as this one.

Our purpose is to hear from you regarding the quality of service you get from this utility and your comments about their requested rate increase.

After we have held all of the service hearings, had the technical hearings, we will meet again in what is called an agenda. The Staff will make its recommendation as to whether and to what extent a rate increase is justified.

We will begin our proceedings by having the parties represented tonight give a brief opening statement; that will be Mr. Shreve and Mr. Feil. I've limited them to five minutes because we do wish to hear from you. And at this point, we'll take that opening statement from you, Mr. Feil.

MR. FEIL: Thank you, Commissioner.

Good evening, ladies and gentlemen, my name is Matthew Feil. I'm here a behalf of Southern States Utilities, Inc.

Southern States Utilities filed the rate case now under consideration because it was unable to earn a reasonable profit from the rates in effect prior to this case being filed.

Since SSU's last consolidated rate case, SSU invested, and will invest, an additional $100 million in additional plant. Rates in SSU's last rate case were set using 1991 information, so SSU's additional investments since that time, roughly $20 million a year, were not considered. SSU submitted information to the Commission showing that in 1994, under present rates, it earned less than a 3% return on its investment. Because of the plant additions I just mentioned, that return there disappears in 1995 and 1996 and SSU will lose money.

Despite poor returns, SSU has continued to invest in plant additions primarily because it is required to do so by the Department of Environmental Protection, the EPA, Water Management District and other governmental agency rules, regulations, permits and orders.

Specifically, I would note that as to Buena Ventura Lakes, since Orange-Osceola Utilities last rate case, the amount of money invested in utility plant has doubled, from $11 million to $22 million.

With increased investments caused by increased regulation and service requirements comes the need for revenue adjustments.

Electric utilities experience higher investment requirements and higher revenues in the early 1980's such that it's not unusual for an electric bill to be $100 a month. Water and wastewater utilties have been experiencing similar pressure since the mid-1980s.

What I've just described is one of the large general issues in this rate proceeding, which is total revenues. The second major issue in the proceeding is rate structure. Total revenues concerns the total amount of money that the Utility will be allowed to collect through rates. Rate structure concerns which customer groups will have to pay which portion of total. SSU has requested what is called a uniform rate at the conclusion of this case.

Basically a uniform rate reflects a pooling of all revenue requirements for all of the service areas throughout the state where SSU would have one rate for most of its customers. A possible alternative to the uniform rate structure is what is called a stand-alone rate, where revenue requirements for each locality served are calculated separately and

rates, even among customers in a single county, may vary widely.

How these different rate structures affect you can be illustrated by the interim rates which Commissioner Clark referenced. The interim rates should appear in your next bill. And interim rates are rates which the utility is allowed to collect by law during the pendency of a rate case and they are subject to refund, as Commissioner Clark said.

Because SSU's acquisition of Buena Ventura Lakes was pending when this case was filed, Buena Ventura Lakes has no interim rates, your rates are the same as they were under Orange-Osceola's ownership.

The interim rates as Commission approved in the case for customers other than BVL customers followed a version of the stand-alone rate structure. As a result of a rate structure decision, every residential customer in Orange-Osceola counties, with the exception of University Shores customers in Orange County, will pay interim rates higher than the uniform rates SSU has requested at the conclusion of this case based on the customer's average usage in 1994.

This is so despite the interim rates being based on 1994 information and the final rates being based on 1996 information, which reflects additional

investment.

For example, if you live in Bay Lakes Estates to Osceola County, the bill SSU has requested you pay at the conclusion of this case will be some $15 a month lower than the interim rates now coming into effect; in Lake Ajay, approximately $30 a month lower. Why? Again because of the rate structure issue.

Some customer groups oppose uniform rates because their stand-alone rates in the shortrun would be lower than uniform rates. One of those groups are customers in Sugarmill Woods in Citrus County. Sugarmill Woods customers are among the highest users of water of all of SSU's service areas, and are not willing to pay even $1 for 1,000 gallons of water, even though some of you are being asked to pay as much as $3.50 for a 1,000 gallons of water. In University Shores and Buena Ventura Lakes the uniform rates SSU has requested at the end of this case are close to what the stand-alone rates would be at the end of the case on a combined water and wastewater bill.

SSU favors uniform rates for its customers because it is providing the same service to the same customers and because uniform rates serve as an insurance against future rate spikes resulting from

high investment requirements in one locality.

Thank you for your attention.

CHAIRMAN CLARK: Mr. Shreve.

UNIDENTIFIED SPEAKER: That was brilliant.

MR. SHREVE: Thank you. You know, you sit here and you listen to these talks and they are different every time you go to a different group of customers and things just start popping out of there, like he mentioned a minute ago that some of you are being forced to pay $3.56 for a 1,000 gallons of water. You're being forced to pay it to Southern States. You're not buying the water from anybody. They are getting the water. It's because their costs have gone through the ceiling and are different from someone else.

They talk about their loss of money, in their calculations -- and everybody knows this -- the Public Service Commission in the last case allowed them a return on a lot of money they don't have invested. $9 million in the Deltona case; they paid $9 million less than they were given in the rate base. Significant difference in the Lehigh Acres case where they bought that. They made $6 million in the sale of St. Augustine Shores, which was a part of the Deltona case. No customer in the state of Florida got any

credit for that. Southern States-Minnesota Power got the money. $19 million profit they made on a case, a sale of a system in Sarasota County. They don't count all of that money when they start talking about they're making less than 3% and going to lose money next time. It begins to boggle the mind as to what they are trying to do.

You get to the point you can't even cover everything. But let me tell you a couple of rates and revenues that they have gone up -- and they talk about uniform rates or they stand alone and that's all they would like for everybody to think about. They don't want anybody thinking about the amount of money they are getting now as opposed to what they got before they bought the system or before the last rate case.

The Fountains, a relatively small system right here. Before the last rate case, Southern States was getting $4,600 from the system per year. Now they want $51,000 from the system.

Now, they're not saying that the Fountain's customers should necessarily pay that but that's the amount of money they want, and they're doing it across the board with all of the systems in the state of Florida.

Intercession City actually had 256 customers

before the last rate case and they went down to 244 customers, so they have fewer customers now. The revenue that they had before they came into the '92 rate case as $51,000. Now they want $104,000, with the population going down. And you wonder why your rates are going up? It's not because somebody else is using water over 200 miles from here and they come in and say somebody else over there is using a lot of water and is going to raise your rates. It doesn't even make any sense. They want the money.

Get away from the revenues, go to the rates. Fountain's rates before the 1992 case would have produced $19.65 for 6,000 gallons of water, would be the cost. That would be at 5.67 base facility charge and 2.33 per thousand gallons. Now they want $166.68 out of the system. They want to take that much out of pot regardless of who pays for it.

The rates are supposed to be fair, just and reasonable, and that should mean Southern States doesn't get money from the people of the state of Florida that isn't fair, just and reasonable regardless of where they get it from.

It just boggles the mind, and I think our case is going to show they not only do not deserve any rate increase, they deserve a rate decrease and go

back and start over -- (applause) -- get the pot right and quit shipping the money out of Florida to Minnesota Power.

Thank you very much.

CHAIRMAN CLARK: Thank you, Mr. Shreve.

(Applause)

We're at the point now that we're ready to take customer testimony. If you wanted to testify, you should have signed up at the table as you came in.

One thing I should tell you, if you don't wish to testify, you can always send your comments to us by using the sheet on the back of this handout that you have. You can mail it to the Public Service Commission.

Mr. Shreve will begin calling the witnesses in the order that they signed up. At this time I would like all of the people that signed up to testify to stand and raise your right hand and I will swear you in. We swear you in so we can rely on the testimony you give today in making our decision. Please raise your right hand.

(Witnesses collectively sworn.)

CHAIRMAN CLARK: I'm just going to ask Mr. Shreve to call the first witness. What I'd like to do is please give us your full name, spell your last

name, give us your address and tell us the system you receive service from. Go ahead, Mr. Shreve.

MR. SHREVE: Mark Douglas.

- - - - -

MARK DOUGLAS

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS DOUGLAS: My name is Mark Douglas, D-O-U-G-L-A-S. I live in BVL.

I want to say the water is not drinkable. We get no service from OOU and I don't expect anything to be better from SSU. I don't think that utilities should be privately owned; they should be publicly owned or owned by the people who live in the area. It should not be a profit-making thing; it should be a break-even thing. There should be one flat rate of $20 residential, $10 water and $10 waste; and $40 for commercial, $20 water, $20 waste. That's the fairest way to charge for water.

They're just putting the extra rates in their pocket. They don't want to be in the business of a water company and they should not complain about the money they are losing. If you go in business you expect to lose some money. And if you don't want to

make any investment, then they should get out of the business and let someone who wants to be in the business give drinkable water that doesn't destroy pipes, plumbing and shower tile to the customers.

The customers is a base. Customers should not have to pay for no service. I didn't get any service on OOU.

Like I said, I had pipes that were destroyed, the connecting pipes destroyed, under my kitchen sink. I had to replace them because of the water. They were jammed because of ten years of water going through the pipes and the minerals adding up that destroyed the pipes under my sink. And like I said, my bathroom, shower tiles are destroyed in the little area because of the water dissolving the cement that kept the tiles on.

$47 and change was my last bill, before that I had over $50 one time. You can't water your plants because you have to pay for it. You can't water anything. I had irrigation, my neighbor destroyed my irrigation and they refused to fix it; OOU and the Commissioners said they don't do anything about that.

Now, all SSU wants to do is pocket the money, and that's all I really have to say right now.

CHAIRMAN CLARK: Thank you, Mr. Douglas.

Questions, do you have a question, Mr. Shreve? Go ahead.

MR. SHREVE: You mentioned you didn't expect anything better from SSU. I don't know if you have been to any of their meetings or anything that they've had --

WITNESS DOUGLAS: I was at a meeting they had at a hotel a week or so, and the owner, or whoever was there said he wouldn't drink the water.

(Laughter)

MR. SHREVE: I don't know if they indicated that you, as customers now, would benefit from the better management practice and everything that Minnesota Power and SSU would bring in. But for your information, when they purchased it from the other owner, their O&M, operation and maintenance expenses went up immediately by $500,000, from them to the new owners. So you can look forward to at least higher O&M expenses.

WITNESS DOUGLAS: But they should have known that going in and not made the bid if they knew their prices were going up.

MR. SHREVE: When they came into this state it was a business decision. Every one of the systems they bought was a business decision. And the

customers of the state of Florida should not have to pay for a bad business decision. (Applause)

WITNESS DOUGLAS: That's what I said, we shouldn't have to pay for their mistakes.

CHAIRMAN CLARK: Thank you, Mr. Douglas.

MR. SHREVE: Helen Manahan.

- - - - -

HELEN MENAHAN

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MENAHAN: Mark Douglas is my son. And he was talking about the water not being drinkable.

COMMISSIONER KIESLING: Excuse me, ma'am, you have to use the microphone.

WITNESS MENAHAN: My son was just telling you about the water not being drinkable. I have proof of that.

We moved down here ten years ago from New York where we drank water from the spout; no problem. And we paid a flat fee every month. I had a tea kettle. I had used it for several years in New York and it was good; good condition. No problem. I took it with me. Now, using it here, just for water, look

what happened? Would you drink water from this? (Shows tea kettle) I've shown this around. People think I'm crazy. I just hold this. I just keep this as a sample to show you the quality of the water here.

Why do we have to pay for the water here if we can't use it? I would appreciate -- I had my son try to put a filter in under the sink, which he can't do it. Send someone down to put a filter in for us at least, filter the water; maybe that would be drinkable.

Senior citizens move down here from different states because of the climate, because of the conditions, etcetera. We live on a fixed income. If we're going to buy our water and buy filters etcetera, etcetera, you're taking food out of our mouths. That's it. So would you drink water from this?

CHAIRMAN CLARK: Could you tell us your name, please?

CHAIRMAN CLARK: Mrs. Menahan.

COMMISSIONER KIESLING: Would you spell it?

WITNESS MENAHAN: M-E-N-A-H-A-N, Helen.

COMMISSIONER KIESLING: Thank you.

MR. SHREVE: Okay. That's it. (Applause)

Jo Turner.

SUZY J. TURNER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS TURNER: My name is Suzy J. Turner, T-U-R-N-E-R. I live at 119 Tuxpan in BVL.

I abhor -- I can't understand how you can just go in and take over a company and you want to double our rates. What are you giving us? Nothing. You're giving us absolutely nothing.

We work hard. I had a $60 water bill. $100 electric bill. Now you're telling me my water is going to double, my water is going to be more than my electric? Who are you? Who are you?

I work very hard and I am not going to pay that kind of bill. I will move. And I will move where SSU does not go. Because I refuse to pick up a third job so I can have running water. I'm sorry. I am from Indiana, we can dig a well. Thank you.

(Applause)

CHAIRMAN CLARK: Thank you.

MR. SHREVE: Daniel Poirier.

- - - - -

DANIEL POIRIER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

MR. POIRIER: My name is Daniel Poirier, P-O-I-R-I-E-R. I live in Intercession City.

My observations living there with SSU water is that the quality of the water is good; the pressure is good and the service seems to be good. However, looking at your proposed rate increase shocks everyone. The modified stand-alone rates that you have been approved for are a two-and-a-half times increase in basic service for us and three times increase in gallons per usage charge. It seems a little bit high to me and everyone else I've talked to.

There's a lot of inconsistency in the information that has been sent to us, not only by SSU but some of the feedback that I've gotten from the Public Service Commission representatives I've talked to.

Everyone seems to be consistent in that they prefer the uniform rate, that that would give us the fairest rate of all. I've talked with Representive Irlo Bronson, Bud Bronson. He is in favor of the

uniform rate. I've talked with the County Commissioners; they're in favor of the uniform rate. But everybody notices that the uniform rate, even in the handout that you have tonight, is an 80% increase in the uniform rate.

Some of the questions that come to my mind are how does SSU's cost for water compare with other states? As a business major I also asked how was their management structure? How efficient are they? What do they do to cut costs and all sorts of questions like that.

I think that as a customer, and if I were sitting on that Commission, I would be looking at these things and try to be fair with the people and call SSU to accountability. Thank you.

MR. SHREVE: Walt Jung.

- - - - -

WALT JUNG

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS JUNG: I'm Walter Jung, that's J-U-N-G. I live in BVL.

One thing this gentlemen over here just mentioned was that as I understood that BVL or

Orange-Osceola represented an investment of about $11 million. It's now before anything, except Southern's taking over, is $22 million. That means to get this return on investment you're asking for, a considerable amount right there.

Irrigation meters aren't even mentioned in here. Someone mentioned that some of these increases were 45%. I guess that's proposed or approved for BVL. When you get over the potential rates it's 70%.

The other thing -- I can see in a great many places that as compared to stand-alone rates or modified, this proposed uniform rate is a much better deal for them, but that isn't the case for BVL. And I notice that in almost every instance the -- would say go from $1.23 to 2.16, that's per 1,000 gallons, that seems to me that's one heck of an increase. Are we going to get that much better water or what's the deal? Thank you.

CHAIRMAN CLARK: Thank you, Mr. Jung.

MR. SHREVE: Thank you, sir. Mr. Harold Millard.

- - - - -

HAROLD MILLARD

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MILLARD: My name is Harold Millard. I spell that M-I-L-L-A-R-D. I live in Buena Ventura Lakes.

There are several questions I have. I don't have the same complaints as some do, because very soon after we moved here in 1981 we had a water treatment system installed which was supposed -- and I think probably did remove most of the chemicals that had a deteriorating effect upon water lines. However, it did not remove all the sand. And we have found that sand has accumulated -- we have a kitchen faucet, for example, which is one of these types that does not have washers; it's supposed to last a lifetime. In a very relatively short time it got plugged up. We ended up by having to get a new -- to have a plumber come and clean it out and redo it a couple of times. This is expensive.

We haven't had quite the trouble as some others because of this water treatment system, which has made the water potable as far as we're concerned. We don't, again, have that same problem as far as the

drinking water. But the question I would like to ask primarily, and this is what came to my mind originally: Orange-Osceola Utilities' rates, we've always felt, of course, as far as the sewer rate was concerned was way out of line in relation to the water. Two or three times as high as the water rate. However, we haven't heard, at least recently, that Orange-Osceola was demanding double rates. What I'd like to know is what the SSU is going to do? Are they going to use the same system? If they're going to use the same system, what's the reason for the great increase in rates? If they're going to put in a completely new system, that's something else and we've heard nothing about that.

This uniform rate which they want to impose upon all of their customers throughout the state, I do not believe in at all. I think that the rate should be determined by the system, and the cost of that system, which would mean apparently that other systems under SSU are paying much higher rates already and they're trying to bring ours up to them. This I think is completely unfair. I can't say about the legality, but certainly it's not fair. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Millard. Questions?

MR. SHREVE: Mr. Munyon.

- - - - -

JOHN MUNYON

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MUNYON: My name is John Munyon. I also live in BVL. And I actually have a comment, but also some questions

CHAIRMAN CLARK: Is that M-U-N --

WITNESS MUNYON: M as in Mary, U-N-Y-O-N.

There's a history to SSU's purchase of this system, is there not? I mean obviously there is. There were two other bidders for the system. And wasn't the sale just complete recently?

CHAIRMAN CLARK: Mr. Munyon, I don't know. Can you answer that?

MR. FEIL: The closing was December 1st.

WITNESS MUNYON: December 1st. Am I also correct in assuming that for the disputed fees we're talking about, that last year approximately $75 million was collected in gross receipts for the sewer and water? I'm reading directly from the Notice I received dated September 12th, 1995.

CHAIRMAN CLARK: From whom? From SSU?

WITNESS MUNYON: Yes.

CHAIRMAN CLARK: And it refers to gross receipts tax?

WITNESS MUNYON: Yes, it is. The first paragraph, final rates proposed, amended application generated total amount of revenues, 44 and change, and 31 and change, for wastewater. Total about $75 million; is that right?

MR. FEIL: Commissioner, he is reading from the initial customer notice from September, and that is what it says, yes.

CHAIRMAN CLARK: Okay.

WITNESS MUNYON: And you, having owned this system since December 31st, and according to this document, the $100 million of improvement commenced in 1992, so you were well aware of this before you bid on this system.

MR. FEIL: I'm sorry, I'm trying not to testify since I'm only the attorney.

WITNESS MUNYON: I'm sorry, but I think one of the problems here --

MR. SHREVE: Commissioner, I have no objection at all to the Company trying to answer some questions that are out here. Don't have to be testimony. Everybody knows what it is.

CHAIRMAN CLARK: Mr. Munyon, if you would be specific in the questions you want answered, we'll answer them the best we can, and I don't take what Mr. Feil says as testimony in any way.

WITNESS MUNYON: I guess what I think a number of people here -- I hope I'm not alone -- I feel like I'm in a Louis Carrol novel. This is "Alice in Wonderland." (Applause)

You've got a situation here -- and I would have to defer to the engineers -- because I sure am not going to take Southern States' word that they are going to put $100 million into this system. I mean, you know, you can make numbers dance.

CHAIRMAN CLARK: Mr. Munyon, we do not take their word for it. Mr. Shreve looks into that and our Staff looks into that to verify whether they've done it and whether they should have done it, too.

WITNESS MUNYON: I don't want to get into the forest here, or the trees, I should say. Let's stay with the forest.

It seems to me if $75 million is what your net revenues are for the previous year, and that this $100 million worth of improvement, I presume to adhere to certain EPA standards, all of which can be documented, and I am not going to share with this

other gentlemen the idea that you're not entitled to a profit, I believe you are. If it's reasonable. But you're going to generate in 15 months time, by doubling the rates, that $100 million. I've got a great idea: Why don't you issue all of us preferred or common stock in SSU, and then in perpetuity we'll be able to cash in on this. I'd love an investment like this. Are you going to drop the rates? (Applause) Are you going to drop the rates? Are you going to give us -- we have a CPA up here; Mr. Deason I read your resume. Can somebody explain to SSU what amortizing is? I mean we're talking about a $100 million raised in 15 months. This is a license to print money. Where do I go to get some of this stuff? And I'm embarrassed to say I've been living down here for five years and I'm from Minnesota, good people up there. What books are you guys reading? This is outrageous. You should be ashamed of yourself.

I cannot believe -- and I presume all of you were appointed by either Martinez or by Governor Lawton Chiles; is that correct?

CHAIRMAN CLARK: Yes, we were.

WITNESS MUNYON: How can you guys look at this with a straight face? This is bizarre. This is

beyond the pale. And I'll tell you another thing, folks. I talked to five of my neighbors today. Not one of them knew this was happening. You know why? Because we are deluged in the world we live in with this mumbo-jumbo language here. And I hear SSU telling me uniform rates and all of that -- not a word about this poor lady's teapot and what the water did to it. What are you going to do for us SSU? You want the hundred million, I'll talk. I'll pick up your banner. You tell me why you deserve it. And then you spread it out over 20 years. Give yourself a nice little profit. I don't have a problem.

This is beyond the pale, really outrageous. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Munyon. Mr. Munyon, Mr. Shreve would like to ask you a question.

MR. SHREVE: You asked the question about -- I believe, I guess the figures you're using, part of it, is from Mr. Feil saying they had doubled the investment in the last few years or something out there -- not SSU, but that the rate base had been doubled since their last rate case or something like that.

To me -- and we've talked about this since

he made the statement and don't understand exactly what he's saying -- but they just finished the purchase and they received the rate base, so whatever investment was made was up to that point. So how they are justifying your rate increase, I have no idea. And they're talking about a significant rate increase even for you.

One of the things that possibly they should go back and look at, maybe the Commissioners would like to review some of their past decisions even before SSU got into it, where there were in-house transactions which built the rate base up from in-house land sales to their own corporations, which put in your rate base in the first place, that probably shouldn't be there.

WITNESS MUNYON: I'd like to know, as long as you called me back here, I have a question: I want to know a little more of the history of SSU buying this water system. It is my understanding, correct me if I'm wrong, that the two other bidders were the City of Kissimmee and Osceola County, is that correct? And I understand your bid was way, way above their's.

UNIDENTIFIED SPEAKER: They can afford it.

WITNESS MUNYON: The hell you say. That's why we're here.

CHAIRMAN CLARK: Ladies and gentlemen, we have a court reporter and she can hear only what comes through the mikes.

WITNESS MUNYON: I'm sorry. My question is what was the corporate strategy? Obviously you got a half million dollars more and your management opts to hire guys like you -- no offense, I'm sure you're a terrific attorney -- so that your strategy must have been one that said, "We can afford to pay so much more than these other two bidders for the system because we're going to get it back by gouging the users." (Applause) "Or we're going to try." And I'm here to tell you, there's five more of my neighbors that don't know anything about this, and when they do -- it's not going to be a pretty sight, Commissioners. It's not going to be pretty. And that's unfortunate.

The onus is on them to read their mail. But they knew nothing about this. I bet you people in the audience know others just like them. I mean they are going to be marching. In this day and age, decentralizing power from the federal government to the state and local, these meetings are going be to become essential. No more skating through this stuff. People are angry.

If you can justify the increase, well and

good, and put a nice profit in there for you. No problem for me. But this is ridiculous.

CHAIRMAN CLARK: Thank you, Mr. Munyon. (Applause) Mr. Shreve.

MR. SHREVE: Mr. David DeMond.

DAVID DEMOND

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS DEMOND: My name is David Demond, D-E-M-O-N-D. I live at 2445 Carne Court, St. Cloud. I live in Bay Lake Estates.

I got this notice that my water bill was going to go from $5.13 up to $16.40.

The subdivsion, the water lines were laid back in the early '70s. They have absolutely nothing to do there except to provide us with water.

The water is drinkable; the pressure is not bad. I can't imagine what in the world -- why they would want $16 -- we're a very small utility. I don't think there's probably 60 customers in the unit; possibility it might get up to 80 over 90 units if it was ever built out. But they have nothing to give me. Everything is there. What in the world do they want to triple my rates? The only thing they do is if the

power strikes the water pump, they come in and put a new pump in and that's it. I can't imagine what they wanted to do.

And, you know, I've listened, I've heard everybody's questions that are basically the same. They made some bad decisions and we shouldn't have to pay for them.

CHAIRMAN CLARK: Thank you, Mr. Demond.

MR. SHREVE: You mentioned your rates.

Southern States, in your situation, and you had one calculation, mine is on 6,000 gallons, a little different, before the 1992 rate case your bill would have been $9.62. Now, on a stand-alone justified basis for you, it would be $39.79.

Now, the point we're trying to make here is there are some totally unreasonable rates out there that Southern States should not get the money regardless of who is paying it.

In the last case coming into the 1992 rate case -- you're wondering why your rates are so high, $8,360 was the revenue brought in by the customers for that year on water. In that rate case your rates went up -- no, the revenues that Southern States got went up to 24,000 from 8,000. Now, you're on uniform rates so you didn't feel it quite as much, but Southern

States got the money. Now they just want to justify $40,000 a year from you.

So you see, I think somebody has to back off and say what's going on here? No matter who is paying it, Southern States should not get an unreasonable amount of money from any customer in the state of Florida, regardless. Thank you, sir.

COMMISSIONER GARCIA: Can I ask you a question? Could you tell me the system again, I missed it when you said it.

WITNESS DEMOND: Bay Lake Estates.

COMMISSIONER GARCIA: You stated that was a small development.

WITNESS DEMOND: Yes, a very a small development.

COMMISSIONER GARCIA: About how many would you say?

WITNESS DEMOND: Probably 80 sites.

COMMISSIONER GARCIA: Is that growing by any chance? Is it sold out?

WITNESS DEMOND: Maybe two, three units a year.

COMMISSIONER GARCIA: Is it hooked up to any other system?

WITNESS DEMOND: No, we're all by ourselves.

Out in the country. When I first moved there my water bill was $3 a month, and I still have the same wells, same lines are there. And the rates keep going up and up.

COMMISSIONER GARCIA: Is that manned by anyone, that station there?

WITNESS DEMOND: If the water goes down, you have to call them. It's just a little corner of the subdivision.

COMMISSIONER GARCIA: And the quality of the water there is good.

WITNESS DEMOND: It's not great but it's drinkable. It's a lot better than their water.

MR. SHREVE: Commissioner, in answer to your question, nine-customer increase, '62 -- '92 that dates me and I hadn't done that for a long time -- from '92 to '96, a total of nine customer increase, according to Southern States.

CHAIRMAN CLARK: Thank you, Mr. Shreve.

MR. SHREVE: Raymond Corbett.

- - - -

RAYMOND CORBETT

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS CORBETT: My name is Raymond Corbett. I live in BVL.

CHAIRMAN CLARK: Is that C-O-R-B-E-T-T?

WITNESS CORBETT: That's correct. A lot of people here, they're getting like a little bit off the track.

I was out at the meeting they had out at Main Gate West. They sent everybody a little card just about this size (indicating) and then they wondered why they had a room with only about 20 seats in it, but they wanted to give us a meeting.

Well, at the meeting they told us the figure that you're talking about, they're based on, for BVL 5,134 gallons. You're not talking about 10,000 gallons or 20,000; they are basing their rate on 5,134 gallons. They are the people that made this sheet up: SSU. Not me. They did.

Now, first of all I wanted to know why did they hold that meeting out there and in such a small spot? They held it because they didn't want anybody to go there so they could come back and say they had

no opposition. That's what I feel.

And another thing, the man was talking about the water. Their own engineer was out there and he told us that the water in BVL and in the outlying area meets the Florida standards from the government. And so they will not change the water.

So I asked them why are you raising rates? The meeting ended up, breaking up, anyhow, because they got no satisfaction from anybody.

Then afterwards they talk about the sewer system. They want to get a base rate on the sewer system. I mean they're getting a base rate on the water. Now they want a base rate on the sewer system also. That isn't right neither. Why should we even get an increase on that?

And our own county did not want to buy the water company from Osceola-Orange Utilities. Not one of them wanted to buy it. Nobody agreed to it but SSU came and purchased it. And they purchased it at a high price. Higher than it was even worth. They bought it on December 1st, 1995; December the 2nd they told everybody they are losing money. I mean that's ridiculous. They hadn't even owned the company two months yet and they are telling you how they are going in the hole already. Why did they even buy it? Why

didn't they just leave us alone? (Applause)

Southern States Utilities, they have about 160 or 170 services that they give out, that they supply water to. And also some of them are as small as 28 homes. Now, they want us in BVL, if they have to spend money to increase their homes where the 28 are, and if it costs $1 million to, they want us to pay the freight. No, that's not right. They bought it. They knew before they bought it what it is. All the companies that they have, they have 28 homes, 70 homes, 85 homes, 239 -- the largest one they have before they bought us was 539 homes. That's all that they had.

I mean these are their own figures. Not mine. That's their figures. For when them came into BVL, then they took over 7,000 homes. Now they figure well, we can pay the bill. So now they want us all to raise the rates and all.

BVL -- I'm getting ahead of myself. We should not get any type of an increase. Not even one single penny should we pay because we're paying enough the way it is. And now they want us to pay for everybody else's and I don't think it's fair to do that.

And I also don't think that's -- there's an

old saying that I used to hear all the time in the Navy when I was in it: "If it ain't broke, don't fix it." I mean, that's what I heard.

So what I feel in closing and all like that, is that these people, if they bought the company and they think they're losing money, they should have never bought it in the very beginning.

We paid our dues in BVL. We have a system. We only just -- I think about three years ago or something, they built a whole new sewer system down there. They moved it from one spot to another spot and they upgraded it and all, and it meets all of the federal standards so they aren't going to put any money into your sewer system. I don't know where they are going to spend all of this money. You don't know.

So as far as I'm concerned, they're not entitled to any money at all. I wish they had never bought the place, and I wish they'd all go back to Apopka where they come from and leave us alone. We were doing very good. (Applause)

But I asked the question before, why did they hold the meeting way out here -- this is the county of Osceola County. We live over by here. They held the meeting in the farthest northwestern part of Osceola County. Let them answer that question why

they did it.

THE AUDIENCE: Psychology.

WITNESS CORBETT: Anybody going to answer it?

CHAIRMAN CLARK: Mr. Corbett --

WITNESS CORBETT: Or are you going to blame it on the low man on the totem pole, some secretary or somthing. That's what they told us when I went out. I went to the meeting and they broke up the meeting because they got no satisfaction.

That's all I have to say, gentlemen, and I do hope you'll take into consideration what I have to say. We shouldn't have to pay anything more than what we're paying now.

CHAIRMAN CLARK: Thank you. Mr. Shreve.

MR. SHREVE: A question about the card or the notice that you received from SSU. Do you know if any of your neighbors felt that receiving that card --

WITNESS CORBETT: It was junk.

MR. SHREVE: -- that perhaps that was the meeting, instead of this one, so they didn't come to this meeting?

WITNESS CORBETT: I got no idea. It ain't even the size of a postcard, if you'll look at it.

MR. SHREVE: But that meeting is past now,

and if anyone thought that was "the meeting", then they wouldn't be here tonight.

COMMISSIONER GARCIA: Can I ask you a question? The other map you held up, did that come with that notice? No, right?

WITNESS CORBETT: No. This is my own because I wanted to find out where it was. Five miles past Disney way out at Main Gate West, almost in Polk County out there. That's ridiculous. This involves BVL. We have a community house --

COMMISSIONER GARCIA: Mr. Shreve asked you a question that I want you to think about for a second. When the company sent you that, do you think that persons who went there thought that by going to that they didn't have to come to this?

WITNESS CORBETT: No.

COMMISSIONER GARCIA: In other words, that that was the same thing or they got a completely different idea.

WITNESS CORBETT: No. They didn't say it but we found out when we got out there, it was just an informative meeting. And we asked them how come all these other meetings which they were supposed to have were cancelled?

THE AUDIENCE: What about those?

WITNESS CORBETT: That's right. They blamed all of you people.

THE AUDIENCE: Certainly did.

COMMISSIONER GARCIA: Precisely what did they say at that -- they said that the PSC is the one that granted --

WITNESS CORBETT: Yes. They said you people cancelled all the meetings. They did not. Because I said why are you waiting until now and then to call it. And I asked them and there were --

COMMISSIONER GARCIA: Let me explain that to you.

WITNESS CORBETT: I'd like to know, did you cancel the meetings?

COMMISSIONER GARCIA: No. There were a series of meetings. We did not cancel this one here. In fact, we did have this one here.

WITNESS CORBETT: No. There were a few other notices that we got. We got notices of meetings. Then we got a notice on top of that from SSU.

COMMISSIONER GARCIA: If you'll listen to me for a second, and to some degree this was your counsel, Public Counsel, did that also, participate in that -- we wanted to make sure that when you came here

you had an idea of what your exposure was. And because the Company wasn't providing all of the figures -- and I know it's exceedingly confusing now because you have so much information -- but our view was it would be better to come here when you had all of the facts before you, as opposed to us coming in here and then telling you what your exposure was and then you say, "Well, if my neighborhood would have known that, they would have come in." So it was our feeling at that time, and the Commission voted on it, to cancel it until you had an idea of what your exposure was and to some degree that was there.

COMMISSIONER KIESLING: We didn't cancel it. We held this one.

COMMISSIONER GARCIA: No. Staff is saying we did cancel one. (Simultaneous conversation)

CHAIRMAN CLARK: Just a minute.

COMMISSIONER GARCIA: I was pretty certain we came here and did have a meeting here before.

MS. O'SULLIVAN: Yes, we did. September 19th.

WITNESS CORBETT: It did cancel.

COMMISSIONER GARCIA: No. No, no.

CHAIRMAN CLARK: We had the hearing --

MS. O'SULLIVAN: Orange-Osceola had some

noticing problems. I'm sorry.

WITNESS CORBETT: And another thing, the meeting was held at 5:30 on a Friday afternoon.

COMMISSIONER GARCIA: Are you talking about that notice you received?

WITNESS CORBETT: Yes.

COMMISSIONER GARCIA: That notice has absolutely nothing to do with us. That's a notice that the Company had, and a meeting that the Company had to try to explain their rates. They're not required to do that. They did that on their own volition. It has nothing to do with what it required.

WITNESS CORBETT: Well, at that meeting they told us they were looking for a 70% increase. That's what they have told us. Now when they talk to the newspaper people and all, they watered it down a little bit and they said it's only a 50% increase. And if you'd have seen some of these figures here, because this is a paper they gave us, and if you look at them, they are not the figures that they gave the newspaper or anybody else, because they realized that the few people that went out there, like myself, I'm retired so I took the ride out there. And a bunch of other people, about 20 other people I think -- but the room, they never expected to even find ten people in

that room. Believe me. That's how small the room was. Take a ride out to Main Gate East -- I mean Main Gate West and you'll see the room they held for us. There wasn't even a place to go to the bathroom, there wasn't even a place to have a drink. They brought soda in for us or something. I mean, that's no way to have a meeting, any kind of a meeting.

CHAIRMAN CLARK: Thank you, Mr. Corbett.

(Applause)

MR. SHREVE: Mr. Costanzo.

- - - - -

TONY COSTANZO

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS COSTANZA: Tony Costanzo, BVL. That's K-O-S-T-A-N-Z-O.

Now that this company purchased Orange-Osceola facilities, I feel they should base it only on Orange-Osceola facilities. You bought that plant and that plant is supposed to be in very good condition. I feel we shouldn't have to carry the burden because we're a large development. That seems to be the feeling of everybody once they go in business, run out to BVL, open up a business and

there's plenty of people out there, we can just raise the price a little bit higher and that will pay the bills for all our failing businesses.

It's your business, you're in the water business. You purchased whatever you purchased. You purchase this plant, this plant is in good shape. You're getting a fair rate for it. We're paying a decent rate for the water. And as far as the quality goes, since I have been out here in Florida, I have a filter system in my home. I never could drink the water. And it's no different now. If you wash your car on a sunny day and the water dries on the windshield, you need a hammer and chisel to get the sulfur off. I don't know if that's going to improve in years to come, but there's sulfur in the water, and all you can do -- you've got to live with it.

But I feel this plant should be separated from the rest of the problems. If we have a problem, we'll pay for it, but if there's no problems at our plant, we shouldn't be attached with the other expenses. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Costanzo.

MR. SHREVE: Thank you, sir. Edith Thatcher. That the that the my name is Edith Thatcher, T-H-A-T-C-H-E-R?

EDITH THATCHER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS THATCHER: My name is Edith Thatcher, T-H-A-T-C-H-E-R. I live in BVL. And when I moved here in 1981 I thought the water was not palatable. I have a filter system. I've filtered my water ever since.

I looked up my bills from the past year and tried to come up with some percentages here.

I notice that -- first of all, I wanted to ask, why did SSU purchase Orange-Osceola water and sewer company if they didn't intend to make a huge profit? I mean, you know, they're supposed to be business people. I don't understand why they even bought it and then immediately start raising the prices.

I find that the base facility charge for water is multiplied at least twice for the sewer charge. I also find that the gallon charge for water is multiplied three and a third times as much. I don't understand that.

I do not understand, also, why I have to pay a base facility charge even when I'm up north. I

still am charged all of this even when I'm not using any water at all. But that's the way it is. Someone asked if we could give a comparison of what this is in accordance to where other places are.

I happen to know that the Metropolitan St. Louis sewer system charges a rate of $5.32 per month for my water, and in comparison SSU charges me $16.09 per month. That's three and a half times of what I would have to pay in Missouri.

So in looking over the my last bill from SSU, I noticed that if I multiplied that by 12 to get a cost rate for the year, it would still be much more than what I paid for the whole year in Orange-Osceola water and sewer company. And then you say you're not making any extra money. That doesn't seem reasonable and I have a hard time believing it. Thank you.

CHAIRMAN CLARK: Thank you, Ms. Thatcher.

(Applause)

MR. SHREVE: Thank you. Gerald Harrell.

- - - - -

GERALD HARRELL

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS HARRELL: Gerald Harrell, H-A-R-R-E-L-L, 22 Country Cove Way. I'm also the president of the Country Cove Homeowners Association.

COMMISSIONER GARCIA: What water system? What water system do you belong to?

WITNESS HARRELL: Orange-Osceola, SSU now. I don't know whether that's Gestapo or what.

But everybody is asking the question: Why did SSU buy, or are buying or have bought all of these water companies? The answer is simple: Monopoly. Once we get a monopoly, folks, we can set our own prices anytime we want to and we dictate to each and every body. This is what I'm asking: What SS stands for?

It's simple; they would buy Kissimmee utility if it wasn't a public utility and was for sale, they would buy it or anybody else's utility. This is why they're going out reaching and grabbing everything at any price regardless.

Now, they have learned people over here called engineers, CPAs, everything at their fingertips

to tell them whether it's a good business proposition or not.

I have been in business all my life and I've bought business I made money with and I bought businesses I lost money with. I didn't expect the public to pay for my mistakes. And that's what we're doing right here, folks. (Applause)

Now you either make a good business judgment or not. And this to me -- they went into it with their eyes wide open. Let the chips fall where they may. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Harrell.

MR. SHREVE: Thank you, sir. Bernie Schelmety.

- - - - -

BERNIE SCHELMETY

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNES SCHELMETY: Hi folks. My name is Bernardo Schelmety, S-C-H-E-LM-E-T-Y. That's German but I'm Puerto Rican. It's a shame that we don't have that many Puerto Ricans over here today. But let me tell you, I'm going to represent them.

SSU is making the bigger mistake in raising

this. I'm sorry, but my friends, they're disappointed and we're going to move out. We're going back to our country. We can't pay that kind of money. Even before it was too high. And I got the impression that people there try to make a living and have kids, grandchildren. Myself, I'm going to retire pretty soon and I can't afford it with with social security and a little bit money extra to pay that kind of rates. Thank you very much.

CHAIRMAN CLARK: Thank you, Mr. Schelmety.

(Applause)

MR. SHREVE: Mr. Mondini.

- - - - -

ED MONDINI

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MONDINI: The name is Ed Mondini. M-O-N-D-I-N-I. 37 West Marbrisa Way, Kissimmee. Orange-Osceola Utilities now owned by "simply stinking utilities," whatever, SSU.

I've got some pretty hard acts to follow. I'll try. First I want to read you the comments, customer comments that I sent to -- I don't know if it was the PSC or SSU, but I brought to them -- Silver

Park Villas were built on an old sewer treatment plant site. The roadways are a mess. The sewer lines are always backing up and the road, Oakwood Drive, keeps collapsing where the lines cross the road.

The water tastes and smells foul most of the time. People get sick from the water and can't drink it. There is sediment in the water when left standing overnight. Winn Dixie is always sold out of bottled water. The machine out front always has a line to buy filtered water day and night. If the water is so good from Southern States Utilities, why then are so many people spending so much money for other water? Winn Dixie is going a land-office business selling water. The water has so much junk in it that if I or my neighbors -- I and my neighbors had to replace L's and T's on hot water heaters because the water would no longer run when the taps were turned on. I have the old parts as proof for the PSC. I'd like to turn it over to you people. You can pass it around and see what kind of junk is coming through the lines, why I have to spend $125, $150 to have to replaced. Maybe they'll reimburse me or take it off my water bill. Let me hand this over. (Hands items to Mr. Shreve.)

Now that I said that, I have some questions I would like to ask. Pertaining to the wastewater

where you water the grass or we wash our cars, we have to pay the sewage charge. I don't think that's right. They're not treating the water. In fact, it gets filtered through the ground; getting filtered free for them.

Another question: Why should we buy a pig in a poke? Why must I pay you in advance for something that you're going to do for me. You claim you're going to make it better. I don't go in the store and buy something on a promise. I pay for what I want and I shouldn't have to pay in advance for what you guys are promising and your rates are going to be outrageous anyway. And you couldn't -- just couldn't pass mustard with the people.

I don't know why -- other people said it probably better taken I -- why buy a failing business, if it was so bad you have to put all of this money into it, why buy it and then try to raise the rates? It seems to me it's pretty stupid on your part. Not you in particular but those that you represent.

And you said something about 1991 rates, that you're still working on those rates and you need an increase. Well, my interest rates have not gone up since 1991. I'm still getting the same interest, or probably even less than I was geting in 1991, yet you

guys, you want three times what we're paying now. I don't know, maybe you want to take notes. If you want, I'll go over these questions now. You can write them down and maybe you can answer some of them.

That's all I have to say if anybody wants to give me any answers at all.

CHAIRMAN CLARK: Thank you, Mr. Mondini.

(Applause)

MR. SHREVE: Thank you, sir. Mr. Reinhold Trzewik.

- - - - -

REIHOLD TRZEWIK

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS TRZEWIK: It's T-R-Z-E-W-I-K. I live in BVL. It's like the water company, you know, it was okay. But now, you know, these people are going to double our rates? My income doesn't double or triple just because I'd like it. I'd like it everyday to have my employer say, "Hey, I'm going to double your salary," but that's not going to happen.

BVL, on our block there's at least 10, 15 retired people that are going to have to come up with $60, $80, $100 a month. Where are they going to come

up with it? And, you know, what new services are we going to get that's going to help me or, you know -- I don't see there's any improvement for us. And, you know, what am I paying for?

CHAIRMAN CLARK: Thank you. (Applause)

MR. SHREVE: Thank you, sir. Mr. Allen Sweeny.

- - - - -

ALLAN SWEENY

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS SWEENY: My name is Allen Sweeny and I live in Lake Ajay Village. Last name is spelled S-W-E-E-N-Y. I'd first like to --

COMMISSIONER GARCIA: What system?

WITNESS SWEENY: Lake Ajay Village. I'd like to dispute the representive from Southern States' numbers.

He used Lake Ajay Village as an example in his opening remarks and stated that the price of water in Lake Ajay Village would actually go down under these uniform rates. However, looking at the numbers they've provide us here in the brochure, the rates will double. Our cost of water will double. So I

don't know where he comes up with these figures. That makes me suspect a lot of the other numbers they are passing out here tonight.

I'd like to echo the comments of a couple of other individuals that have already spoken. I'd certainly be glad to pay the increased rates if we got something for it, but as one individual mentioned, these are only promises and I wouldn't go into a store and buy a pair of shoes, pay for them and then try them on, and then not get a refund if they didn't fit. This situation is just as absurd a situation as buying shoes in that method.

I've tested the water on multiple occasions in my house using a simple test for chlorine as you would for a swimming pool. And more often than not the water has come out to a condition where even swimming pool people say you shouldn't even swim in the water, never mind drink it.

If these rates go through, as has been requested by Southern States, I will seriously consider drilling my own well in my back yard, as will many of my neighbors in Lake Ajay Village. Now, if that happens, obviously Southern States isn't going to get the revenue that they would have if everybody in the neighborhood -- and that's about 100 houses --

would be paying towards their water bill. I would suspect that in that situation Southern States would abandon the well, or at least decrease services, whatever they are now.

I ask you to consider what would that do to the people who could not or would not drill their own well. Either wouldn't have any water or the services would be drastically decreased. Thank you very much.

COMMISSIONER GARCIA: Go ahead. Go ahead.

MR. SHREVE: You had a couple of questions there about the numbers you were giving in the beginning.

One of the statements that Mr. Feil said was that the Public Service Commission had given a great many of you more in interim rates than they had requested. And I hadn't mentioned it before now but I think it deserves to be mentioned, even though they put out the notice that gave the uniform rates and make it appear that the Public Service Commission had actually granted them more than they had asked for, they had put in their filing figures to try and justify on their part that. So at the time they put that out it really was -- and we filed something at the time saying it was misleading and that the Public Service Commission was going to appear to do that and

that's what actually happened but that's another matter now.

As far as Lake Ajay Estates, you had some increase in population; went from -- '92, in the first rate case, 35, to roughly 100 projected for '96, according to Southern States. Your revenues before --

COMMISSIONER GARCIA: Jack, could you go back on that? What did you say because I didn't catch it.

MR. SHREVE: According to the filing, 35 were the customers before the '92 case, up to 100; so roughly triple there. Your revenues coming into the '92 case were $12,000, that's what you were having to pay to Southern States at that time. Coming out of this case they want $97,000 out of Lake Ajay. That would -- to your rates cover you for -- now this is on 6,000 gallons. When they do their calculation they use different figures and I've tried to stay with one figure -- at 6,000 gallons your water would have been, prior to the '92 rate case, approximately $18.57. Coming out of this rate case, whether you pay it or someone else pays it, they say your system has justified from 18 to 68.87. Now, that's unreasonable and unjust and should be cut down on each and every system before they get a penny.

WITNESS SWEENY: The other comment I'd like to make is this same brochure, as we seem to indicate is not entirely correct, the same brochure indicates that Southern States is requesting a 10% return on their money. My goodness, I wish I could get that kind of guarantee on my business.

CHAIRMAN CLARK: Mr. Sweeny, just a moment.

MR. FEIL: I just wanted to ask one question. When you said you didn't understand, or the numbers that I recited didn't match the numbers that you understood, were you referring to the numbers in the blue sheet?

WITNESS SWEENY: Yes, sir.

MR. FEIL: The numbers in the blue sheet where it says "present rates" are the prerate-case filing rates. I was referring to the interim rates which are not listed on that blue sheet.

WITNESS SWEENY: Wait a minute. That's not true, sir. If the recorder would like to read that back, what you said.

You said that the amount of money that I pay for water will go down. If you look at this, both the basic facility charge and the gallonage charge for Lake Ajay Village will go up. There's no way if both rates go up that I will pay less for water unless I

stop drinking water.

CHAIRMAN CLARK: Thank you, Mr. Sweeny.

(Applause)

MR. SHREVE: Thank you, sir. Mr. Ruiz.

- - - - -

JAIME RUIZ

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS RUIZ: Good afternoon. Jaime Ruiz, J-A-I-M-E. R-U-I-Z is the last name.

I wanted to tell you about the water that I drink before in Chicago. I lived over there 20 years and I lived in Puerto Rico and Puerto Rico for such an island, I think it has a whole lot better water than what we're drinking here compared to this place we're here. I think the water we drink around here everyday, I can't even reach my mouth with it because it tastes awful. And you people are now trying to raise the payment on the water for double the amount and it's ridiculous. I think it's too much.

I think you people should think about it a little bit more and try to get a better quality of the water before you start raising the water price. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Ruiz.

MR. SHREVE: Thank you, sir. Mr. Jim Scott.

- - - - -

JIM SCOTT

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS SCOTT: Jim Scott from BVL.

I want to know why they're picking on BVL to double the rates. And I don't think it's fair. Our rates are high enough now and we should not be forced to pay for other places that need a fixing. Our sewer plant and the water plant is in good shape as far as I know. There's no reason why you guys should have in here, a utility that wants to double the rates of BVL. What are we going to do, carry the whole county or the whole water system you guys own?

COMMISSIONER KIESLING: Wait a minute. We don't own anything.

WITNESS SCOTT: Well, whoever owns it.

COMMISSIONER KIESLING: They do. (Laughter)

WITNESS SCOTT: What is he looking for, a big raise? I mean what's the answer to it?

MR. FEIL: What did you ask?

WITNESS SCOTT: Why are you doubling the

rates in BVL? We're paying a high enough rate. We're paying a rate now that's good enough to take care of BVL. We shouldn't have to worry about the people outside of BVL no more than they should have to worry about us.

CHAIRMAN CLARK: Mr. Scott, they have made a request, they filed a petition asking for those rates. We are going through this process, and we will hold a technical hearing to evaluate whether or not it's justified. And we will look at why they're asking for a rate increase.

WITNESS SCOTT: How much did they pay for this water place?

CHAIRMAN CLARK: I'm not sure. Staff, Mr. Feil, do you know what the purchase price was?

MR. FEIL: It is 13.5 million, roughly,

WITNESS SCOTT: Why did you pay 13.5 when it was going for 11.5, answer me that question?

MR. FEIL: Sir, that's a business decision and I did not make that decision, so it's difficult for me to answer your question.

WITNESS SCOTT: There's got to be somebody that can answer it. Out of all the people here, nobody can answer it?

MR. FEIL: I'm sure it will be dealt with at

the hearing.

CHAIRMAN CLARK: Mr. Scott, we will be holding a technical hearing in April and at which time the company officials will be called to explain that and I'm sure Mr. Shreve will explore that issue when it comes to the technical hearing.

WITNESS SCOTT: See, because, when the guys first come out to us, when they give us a spiel out in BVL -- I forget who they were -- they come out and told us our rates were high and there was no reason to raise our rates anymore. But as soon as they got the company, they went caput, and I don't think they are giving the public a fair shake.

CHAIRMAN CLARK: Thank you, Mr. Scott.

(Applause)

MR. SHREVE: Thank you, sir. Mr. Kurt Trzewik.

CHAIRMAN CLARK: Mr. Shreve, do you want to try that again.

MR. SHREVE: Kurt. T-R-Z-E-W-I-K.

Commissioner Garcia, I told you that wasn't the way to pronounce it.

COMMISSIONER GARCIA: Sorry. (Laughter)

MR. SHREVE: Mr. Richard Matta.

CHAIRMAN CLARK: If you will, spell your

last name for us. That would be helpful.

- - - - -

RICHARD MATTA

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MATTA: M-A-T-T-A, Matta.

I don't have a bunch of figures or facts or anything like that.

CHAIRMAN CLARK: Mr. Matta, from what system do you get service?

WITNESS MATTA: I live at 119 West Cedarwood Circle. That's my home in BVL.

CHAIRMAN CLARK: Thank you.

WITNESS MATTA: I don't have a bunch of numbers and stuff like that to throw around, but as one of these gentlemen said, he was in business. I'm sure all of us made investments and we all like to hit double digits. That's a hell of a good thing. This past year was mighty good in the stock market, too, but these guys are going for the lottery. They're going all the way. (Laughter)

My wife was born in Miami so I'm a yankee so I stayed down here a long time ago.

In Dade County, Florida, I don't know who --

I think the city runs the water, you only get a bill every three months. Every three months you get a billing for water. And to the best of my memory it never, never exceeded $30 for three months. Three months total, flat. And that was raising children. Now my wife and I, you know, we're alone in the house and I think one lady was by herself using very little water -- when you get hit for so much a gallon and then two or three times the amount for sewage, it's pretty heavy, and then get a notice like this, that they're going to tack on, they're going to triple it -- boy, just like the other guy said, I want to buy some stock. If you guys get this, let me get some of that stock, because that's where I want to put my money.

This is -- I mean, it's outrageous. Also think of the effect to some of these people that are getting older and may die off, then their children want to sell the house. Who in the hell is going to pay that -- who is going to pay a utility like that? They won't even come in there. We have some problems now but we want to add a big weight like this around our neck? That's impossible.

Just check the Florida rates, just go in Florida. Take an average of Florida rates. You'll

never hit any kind of figures like this, never.

CHAIRMAN CLARK: Thank you, Mr. Matta.

MR. SHREVE: Thank you, sir. Mr. Joseph Manglard.

- - - - -

JOSEPH MANGLARDI

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MANGLARDI: To be correct on my --

CHAIRMAN CLARK: Mr. Manglardi, will you spell your last name for us and tell us where you get your water from.

WITNESS MANGLARDI: Just a minute please. I will. I want to show five letters and one postal card received by mail. Also, my speech is based on general condition of living and not on a single agency or person, but all words are meaning and connecting in tonight's case.

Ladies and gentlemen, good evening. My name is Joseph Manglardi. M-A-N-G-L-A-R-D-I. I live in the Bedford Cove, a subdivision of 300 residential homes near UCF.

Tonight this is my very first time participating in this hearing.

Yes, in the past I have been receiving many similar notices, but for my finances and health condition are forcing me to remain home.

In the past two months I received from the SSU Utility five letters and one postcard. For the same case proposal of an increased revenue and water/sewer service and hearing date. I'll be honest to say all of this mail notice totally confused me at the level to raise my blood pressure. This is the reason to be here tonight, for express my feeling and to try to understand in more details.

Ladies and gentlemen, please accept my apology for my English. It's what I learned by experience in 45 years in this great country.

In my opinion I regret to say all of this unbalance and incorrect charge is due to the wrong system. Aggravation, unstabilized economy, loss of middle class incredibility, lost to the government -- lost to the trust in government is due to the wrong system. Increase in poverty, increase in criminals, loss of family value and control is due to the wrong system.

I believe for the past 25 years the politicians and lawmakers have been driving us in the wrong direction. In the past 25 years with the wrong

systems we got a tremendous increase in poverty in this country. Increased cost of living and taxation out of control brought to life in many good people the outlaw.

Vandalism, cheaters, liers, fraud, kill, kidnap, suicide, rapes and epidemic deadly AIDS all caused by the wrong system. I'd like to emphasize our place in tonight hearing.

Due to the wrong systems, the water company that wasted a few million dollars by sending to the customer all this mail to inform them of the new proposal. Well, an example, each of this letter use 26 cents postal stamp. My estimate at very low, low cost to the Company, I say 30 cents each time five letters, total $1.50 for each customer. And as I state in the letter, they are serving in the 23 counties, that altogether may add to millions of homes. At $1.50 you figure out the total cost of million dollars, a waste of money that they could use -- (applause) -- that they could use for their service or other plants.

Yes, it's a total waste of money to be blamed on the wrong system. Yes, the consumer has the right to know but this can be simplified with a short note; mail it with our monthly bills and also to

notify for any hearing date.

I am asking our Public Service Commission what is the necessity of this hearing? By now anyone should know the public is tired, is disgusted for taxes and high cost of any service. So the answer is a uniform voice: Absolutely no increase. (Applause)

And, of course, the final decision is only by you, Commissioners. You are there to represent, serve and defend us taxpayers. So call us is like a joke, only to cover up your duty you need us to decorate and frame your decision right or wrong. Also this is due to the wrong system.

Another example. On January 18, 11 days ago, I received a letter to inform that on January 4, '96, the Commission approved interim revenue increase effective on or after January 23, '96, means from last Tuesday. So this showed a joke on the importance of this hearing. It looks like the SSU Utility was in the state of bankrupt and was urging to give and interim approved to increase the rate six days before tonight's hearing. Again is due to the wrong system.

Also the interim rate collected are subject to refund with interest by the final conclusion of the Commission on August 15, '96.

Now, I want to specify that the SSU Utility

knowing, and what will go against to, they insist last November 5th, '95 they refile a new interim request which at this time the Commission did approve.

I am asking the SSU Utility, at first they request an increase of revenue to fulfill the expansion of their service. Why they request for an interim rate? They must like gambling. If by date, August 15, '96, the proposal been denied, they are refund the money collected plus interest. Is this wise? In this case, I may answer myself: The water company do not need more revenue. They have plenty of millions on the end to waste. Now I'd like to pass on my personal complaint.

The water bill, I am a very conservative and well balanced person. Full experience in most field of life as approved -- of this I will read my water bill for the past two months, which I have.

Service date from October 15, '95 to November 14, '95, water used 6,800 gallons. From November 15 to December 13, '95, 6,860 gallons. A difference of 60 gallon in a month. I believe is a very good balanced budget. Reason: Living in the house is me and my wife. Both of us on social security with a monthly income of $781 and plus $400 my wife income on part time job. Total, less of $200.

Out of this I pay a house mortgage $620, and with a balance of $580 we're living on and pay insurance plus three major water bills.

Now you figure out if I am right to scream when I see an increase, especially on the water. Consider that is the first element for living.

(Applause)

All politicians in their debate, they name the poor, poor here, poor there and no concrete resolution come out.

Back on the water bill system. In my eye, this bill is wrong; is false; is illegal. Even though the law authorize the charge according to the gallonage used, but still I say it is wrong.

My complaint is the gallonage sewer charge as the same amount of water use is incorrect. If you will recall in the past month, October, November, December, we did not get a drop of rain. And to keep my -- the lawn, flowers, bushes alive I had to water every evening. I used one three-quarter inch hose for one hour to an hour and a half for watering around the house, and there are at least 4,000 gallons of water a month in the ground and not in the sewer, and this goes on most all year round. So I feel cheated by our own system of law.

Charge me for sewer $1,000 -- 1,000 gallon wastewater that I don't use. For this I make a suggestion and proposal: To reverse this system. Example, charge as follows: Water, for base facility, 697, 7, 8 whatever your decision it is on the new rates. Then from one gallon to 3,000 gallon give a free charge for your customer. Yes. At least 3,000 gallon. Then from 3,001 to the total you charge on the regular rate what it's supposed to be.

The sewer. For the base facility in my opinion the charge is reasonable to be only $15. I don't think they need any more than $15. The gallonage use from 1 to 5,000. Again, free charge. From 5,001 to 12,000 cap -- not 6,000, 12,000 cap, at the regular rate; over 12, free charge.

Now, I don't know if I'm going to read a few lines which is important to us about the Commission raise the water bill -- and this is in the Sanford, Seminole County.

Only I want to say that the county has 25,000 water customers who use a total of 10 million gallon a day. Look at the difference. The 6 million gallon of sewer produced daily. Now, that's the difference. In Seminole they give a credit to their customer 4 millions of gallon a day at least. From

10,000 gallon, what they use, 10,000 million gallon what they use on water, only been charged for 6 million gallon on the sewer. I don't want to continue on this.

So here we are at SSU Utility with a million customer, think an increase of their profit, and have no mercy on their poor customer.

In conclusion, I appeal to our Commission and the SSU Utility to consider my request. I believe it is correct system. It is humanitarian to have the lower income people and give the opportunity to the citizen and Social Security with the minimum income to buy an extra loaf of bread or filling a doctor prescription that has been put on the side.

Also, we'll eliminate a lot of contradiction from the public, and you will save money and time and regain credit and respect from the public.

I hope tonight's time won't be totally lost. I thank you very, very much. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Manglardi.

MR. SHREVE: Thank you, sir. Beulah Farguharson.

- - - - -

BEULAH FARQUHARSON

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS FARQUHARSON: My name is Beulah Farquharson, F-A-R-Q-U-H-A-R-S-O-N. I live in BVL as well and I'm served by Orange-Osceola Utilities, well, now SSU.

I'm not here to mirror everybody because everybody that got up here and spoke, I hope you listen to. They all had something relevant to say in reference to their water conditions. I kind of think they all seem to have forgot that the bad water conditions that we're having is not SSU's fault. It's the state of Florida's bad water. And I think that has a lot to do with poor planning in the beginning of our leaders' vision on what the situation of the crowd of people on the water position that we have now.

Land Star, who owns Orange-Osceola Utilities, as far as I'm concerned, when they built BVL they made it equipped with its water. We're not a septic; we're fully totally complete with our water systems as opposed to all of the rest of the people that SSU serve, that 90% of everybody outside of Buena Ventura Lakes uses septic and well water.

Here this paper that they gave us as we came in, it states that SSU states in the application that the necessity for a rate increase arises from the fact that it did not earn a fair and reasonable rate of return for the year ending December 31st, 1994.

They obviously earned a good rate because they pay probably twice what they should have for Orange-Osceola Utilities out of the money they didn't have any profit on. So somewhere along the line somebody is lying to us, simply because there had to be money for them to not make a return and buy a whole new water system. So there is money there.

(Applause)

Besides the fact, I currently get a water bill right now between $60 and $75 a month. I have three children as well as a husband. You heard some of these elderly people in here whose water bills are close to mine, $40 and $45, and they are living alone, one and two people. That's very bad.

Based on the meeting that I went to a couple of weeks ago, or last week, that they had, totally as a few people mentioned, away from BVL. There are 6,000 homes in BVL; almost 20,000 people who they will be servicing water. The biggest power of water that they have purchased. And they had a meeting for us

two miles from Clermont, which is totally out of our district, out of our everything; they were way down at the end.

At that meeting they couldn't answer any questions, as stated earlier they blamed it all on you guys. Everything was based on your rules, your this, your that. They had no decision-making power. They can just ask for an increase. The rest was in your hands.

Well, since I have lived in BVL in the last five years, every single year Orange-Osceola Utilities got a rate increase. You need to take that into consideration. It has been increasing every year; water, sewer, everything. And this is only an added increase by SSU at this point.

Unfortunately, it's your fault that you made a bad business decision, as we've all said here before, and none of us should pay for that bad decision that you made because water is essential. God made this earth. He put water here and without water all of us would die. So there's no reason that -- it is not like the telephone company where AT&T had a monopoly. We cannot have a monopoly on water. Because if we have a monopoly on water, everybody is going to be walking around here like

zombies because we're all going to be dead if somebody doesn't want to give us enough to drink. So that should not be the case.

Unfortunately, for some of the people here in BVL, as far as I'm concerned, if things were to happen with our development before, we wouldn't be in this position because we probably would have condemned this water company and bought it for a dollar, if it was the only water that our city could have needed. But that didn't happen. So now we're stuck with people who paid twice the price for that water and we don't want to pay their price. They need to make a profit. And their opinion, as far as I'm concerned, water should be given -- run by governments in cities simply because it is a necessity to every single person's livelihood. (Applause)

It's not in the profit-making business. It shouldn't be. Nobody should profit whether I get a gallon -- I mean, a glass of the water is what everyone of us should drink, based on doctor's orders; eight glasses of water a day. You go into BVL and you do a survey at our three supermarkets -- Winn Dixie is not the only one that is out of water and lines are long. I mean the water -- the problem with the water, it truly is not SSU's fault. All of Florida water has

a color, has a taste, and has an odor. That's just a known fact. I don't care where you live in Florida unless you have got -- buying better water filters. If you check with any of the water filter companies in the state of Florida, they make a mint of money setting appointments coming out to our houses and giving us free tickets to Red Lobster to buy a water filter because they know they are going to have a sale. The water is that bad. So that's not SSU's fault.

But now that SSU has taken upon themselves to buy a water company that is self-contained; they should not have to pay for Lake Ajay, they should not have to pay for Bay Lake Estates -- BVL should not have to pay for anybody, because if they wouldn't have bought us, we would still be self-contained. And nobody else's problems should become ours. We have enough of our own in our community. And we should not be sharing everybody's burden.

First of all, we shouldn't be paying this amount of money for water, and we shouldn't be paying more money because SSU decides they need to build all of these extra plants and all of these extra pieces and all of this extra stuff that they need that has no pretension to BVL. Because as far as we're concerned,

we are self- contained. Our water system will do very fine for what we have.

At the other meeting the other night, they distinctly let us know that all of this money that they are collecting is not going for BVL because we don't have the problems that all of the rest of their locations have; that are mandated by state laws where they have to put this in, they of to put that in. Well, if all of these people that live off wells or septic because of their answer little development, it didn't make sense to take $2 million, of course, and build a water plant in a development that only has 80 homes in it. It will never pay for itself, and if we don't want them to think that that's what they should do now and pass the buck on to us. So they need to revamp their situation. Maybe think about trying to sell it back to Land Star, City of Kissimmee, Osceola County or hopefully one day the city of BVL, and get this out of their profit bracket, because we're not in this for them to make a profit. We all have to have water to survive.

So, in closing, being we are the largest subdivision that they do presently own right now from what we understand, at least from what I understand they're not making any quick motions to go out there

and buy any other subdivisions any time soon, because they're trying to get tremendous rate increases off of us. So we urge you to please go home, reconsider, study these informations that you were given here by everybody, with everybody testimony today. It's very, very important to a lot of people's livelihood that they have water. And we don't think we need to be given SSU any more money than they already get. Thank you. (Applause)

CHAIRMAN CLARK: Thank you. Mr. Shreve, how many more people do we have signed up?

MR. SHREVE: Six.

CHAIRMAN CLARK: Ladies and gentlemen, we have been going for just about a little bit before two hours. We have one court reporter. We need to give her a ten-minute break, and we'll come back at 8 o'clock and finish up with the six people who have signed up.

(Brief recess taken.)

- - - - -

CHAIRMAN CLARK: Ladies and gentlemen, I think we have six more people who have signed up to testify. Let me ask those six people if they have been sworn in. Is there anyone who signed up in has not been sworn in?

When you come up to testify, remind me I need to swear you in, all right? Mr. Shreve, would you go ahead and call your next witness.

MR. SHREVE: David Blagoue.

- - - - -

DAVID BLAGOUE

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS BLAGOUE: My name is David Blagoue, last name spelled B-L-A-G-O-U-E. And I live out in BVL. Lived there for 15 years.

I really didn't start getting involved in this at all I got a couple of notices, but I'm a working person, you know, sometimes I wish I was retired so I could be a lot more active in these sorts of things.

But I want to take issue with SSU's meeting, first of all. It was 5:30 on a working today and they know where the base of their customers -- they knew the location of the base their customer's geographic location and it wasn't at all convenient. I'm telling you right now it's a 30 minute ride from BVL. Most people don't get off work until at 5:00, 5:30 anyhow.

(Applause)

It was held in a very small conference room. I guess they didn't feel they had to rent anything much bigger than what they rented. But They actually filled it; it was a pretty good turn out.

And the speakere preached about uniform rates. It was a real sales job, that's the way I saw it. A real sales job. Uniform rates. We must share in these costs together. We're brothers and sisters in this utility world, you know.

But I'll tell you what, the way I see it is BVL, Orange-Osceola Utilities was in compliance. I don't see any rate increase in BVL justified. I really don't.

COMMISSIONER GARCIA: When you say "was in compliance," is that because they told you were?

WITNESS BLAGOUE: Yes. Absolutely.

COMMISSIONER GARCIA: They told you at the meeting that all of the rate increases -- none of it had to do with you.

WITNESS BLAGOUE: Exactly.

COMMISSIONER GARCIA: Thank you.

WITNESS BLAGOUE: Okay. Now, that's all the speaker spoke of, was take the environmental regulations were changing practically, quote, "on a daily basis. But we're in compliance, so go talk to

somebody else. It doesn't effect us."

Now I put some facts together and I think we can draw some pretty straightforward conclusions from these.

Southern States Utilities took a rather large loss over the last year to the tune of a couple few million. That's a fact. Another fact, Orange-Osceola Utilities has been under compliance. Kissimmee looked at buying Orange-Osceola Utilities and felt it was a little bit too expensive. Yet Southern States Utilities overpaid for it. Southern States Utilities will nearly double BVL's water sewage rates. And, you know, when I say double, I don't need mean the water rates, the gallonage charge of the water rates, that's not what I'm talking about. I'm talking about these base rates for water, base rates for sewage, okay. We're talking about 100%. That's what they want. But they told us in the meeting, "Well, we really expect about 70." God, of course, you can always ask a little bit more than what you really expect.

COMMISSIONER GARCIA: Did the Company literally say that at the customer meeting?

CHAIRMAN CLARK: Joe, your mike is not on.

WITNESS BLAGOUE: Yes. You betcha.

COMMISSIONER GARCIA: Let me say it again so it can go in the record. When you went the Company said, "We've asked for this, but we expect to get about 70% of what we ask."

WITNESS BLAGOUE: They said anytime somebody was referring to -- like I said where the rates were increasing 100% -- I'm sorry I came to meeting unprepared -- I had everything calculated down to the decimal. And basically they said that, "Those are what we ask for. But, you know, in the past, you know, really utilities only get about 70%." So they'd be satisfied with just a 70% increase, I guess. Okay. I'm sure they want you to hear that.

COMMISSIONER GARCIA: Thank you.

WITNESS BLAGOUE: Sure.

Now, the base rates for both water and sewage are proposed to go up approximately 100% each. Keep in mind that once again Orange-Osceola Utilities is in compliance, where in regards to BVL in Orange-Osceola Utilities any base rate increase that Southern States Utilities asks for is net profit. What else is it? It's net profit. What happened to conservation? This has nothing to do with water, sewage, conservation or anything. It has nothing to do with it. This has to do with raising immediate

money to the -- certainly not to the benefit of those that they're getting the money from.

SSU is quite obviously using BVL with its utility, which was once again in compliance, to raise the much needed revenues for themselves. And I don't charge SSU with poor business practices. I really don't. For their loss, that could have very well been a paper loss, who knows. I believe they know exactly what they're doing.

I charge them with grand theft against the people. (Applause) And the Commission as their accomplices if they let these rates increase. That's all I have to say. (Applause)

MR. SHREVE: Thank you. Margaret Honan? H-O-N-A-N. Honan

Mr. Daniel Davies? Mr. Davies? Mr. Cushman.

- - - -

JIM CUSHMAN

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS CUSHMAN: Jim Cushman, 25 Lake Villa Way in BVL, I guess we call it. I actually come from Boston and live in Boston. I think one of the highest water rates in the country, not in defense of anything that is going on, because we have to pay to clean up the harbor.

I want to start off by saying, Madam Chairperson -- I guess we could say in Boston, not chairman, certainly -- and members of the Commission and ladies and gentlemen assembled here at the front table I want to thank you for giving us an opportunity to be here and to speak on, I guess, a lot of -- a number of issues and most importantly the rate increase that the new order of SSU wants to put upon the customers at BVL.

I think one of the problems you have, and I just talked to the attorney and had an interesting conversation with him; he was very cordial and very nice -- talking about the Orange-Osceola water company which was never very user-friendly to begin with, in my opinion.

I think that SSU was certainly starting off on the wrong foot by holding a meeting to speak with the customers or the users of their products, some 25 or 18 miles from the nearest customer that would be affected in BVL. I think that was mistake number one that SSU, a long with a lot of others, I suppose one might say.

I, first of all, will adopt the testimony of all of the previous speakers. When we talk about the users of the product, I think you become aware, the Commissioners have, as is the case, I think, in Florida are on fixed income, along with some of the speakers here who are here on a very, very low income and probably as they are for, say, you can't get blood out of a stone at some point are we going to affirm that in the case of senior citizens that maybe the water will be terminated; a necessity of life that one of the speakers spoke of will suddenly become unavailable and we could find out that some very, very difficult circumstances prevail.

But I want to just point out one other thing to the BVL residents who are still here: We must not forget that the owner of that Orange-Osceola water company sold us those homes to begin with. And they're the ones that took us for the ride. And

they're the ones that planning screwed us, you might say, because they should have given the water companies to the city and the county because they made their money on all of those homes, for which all of us here, that were here before, have paid for a long time ago, and now they want to screw us, as one might say.

I wrote a lot of things down here and my notes are not as good as they ought to be. Why do I live in Boston? Why do I own a home? I own a villa up in Lake Villa Way. My mother, who is now 78 years of age, resides there.

One of the problems that I discussed with the attorney, and again with the Public Service Commission, I think I called them in Tallahassee from Boston some two, three years back and spoke before the Osceola County Commissioners on an issue where I was a customer in good standing, and when we get back to the user-friendly issue with the Orange-Osceola water, who every single month from a period of 1981, really '82 to sometime in '91 or '92 paid my water bill when it came without any questions. And sometime in 1992, while I was vacationing in the state of Florida with my mother in BVL, the water bill came to the home and some one week later, when I arrived back in Boston, Boston got hit with some heavy snow, as we're having

again this year, and those of us who come from the north are familiar with the damage with what that does.

But Logan airport, under unusual circumstances, was closed for some three, four days. I mailed the check the day I arrived in Boston to that water company, the same water company I did business with for so many years. And I was in business myself many years ago and I always thought that the customer was always right. And I get a card of some three, four days later, once the airport is open, and on the card it clearly says, "We're going to shut your water off in several days, five days, or four days. And if you have sent the money, please disregard this letter."

I assume that it meant what it said. And I did what the obvious thing to do -- it was a card, not a letter -- I disregarded it, only to find out some several days later on the very day -- and I had the information, the very day that that company cashed my check, they turned that water off on a 75-year-old woman, who is today 78 years of age, living there. And I think that's a problem that this Commission should address in dealing on a fair basis with the water companies with the users of the service when

you're talking about dealing with people who are up in years.

And in this case I suggested ways and I think two of the attorneys for SSU, that they could probably be more user friendly if they sent a card not only to the occupant of the building, in the case of tenants where landlords don't pay the water bill when they are supposed to. Instead of going in and discontinuing the service to a tenant who could go over to the company, make some kind of deal to keep that service on. Or in my case, my mother would have called my home, not crying as she did, she would have called my home and we would have met, called the company and been able to prevent that from happening. So you're going into an area of BVL, in my opinion, that the Orange-Osceola Utilities company has been anything but user friendly.

So I would suggest to the gentlemen here, and he was very cordial to me, that you start off -- and you've already started off with the meeting being some distance from here -- start off by being more friendly towards the customer, the person that certainly pays the cost to make you produce a profit that you want to.

I look down my notes here -- I don't know --

as far as drinking the water goes, I can say and I know it's not proper English -- but I don't drink the water and I won't drink the water, I guess, one might say. I guess all Florida water is not the same kind of water we take from Boston Harbor.

If you come to Boston the harbor is much cleaner now than it was some five, six, seven years ago. The cost of the water used because of our Governor --

COMMISSIONER GARCIA: Can I ask just a question, out of curiosity, how much did you pay there for your water because of those environmental --

WITNESS CUSHMAN: Because of the environmental clean up?

COMMISSIONER GARCIA: Right.

WITNESS CUSHMAN: I am probably paying in a two-family house that I own -- in Massachusetts, by the way, you're not allowed to pass the cost of the water on to the occupant of the building. In this case, whoever owns the building is required to pay for the water. I probably pay somewhere close to $800 a year for the use of the water.

But again, as the elder gentlemen spoke, I do have a considerable lawn and use a lot of water, which goes down the sewer as well, because I don't --

they have what they call an -- I think we use it in BVL, at Lake Villa Way they have a sewer use meter, or whatever you call it, a sewer meter. But in Boston they know a way of getting around that by charging you $150 to read it each year, and I think $200 to install it. So the cost you would save over a long period of time I probably would be dead by now. Person who owned the house -- in answer to your question, more carefully said -- you might be talking in excess of $800. And we're talking about a tremendous increase this year. Water is a problem in this country no matter where we go. I, maybe wrongfully, believe as I watch in the various housing developments around the area, they seem to dig a hole and water seems to come from somewhere; it seems to fill up.

Someone once referred to the state of Florida as a pancake that's just laying on top of the water. I don't know, that's not a good way to refer to it with everybody here.

But I will answer any question I can. I don't know if I made a lot of sense, but I think that certainly I would prevail upon you to take into consideration all of those who spoke tonight. And if and when you adopt some form of an increase -- and I speak of the case of BVL and I sympathize with all of

the others in the area as well -- to take into consideration -- we understand that they are entitled to make a profit, but are they entitled to make it over the long period of time for their investment? Are they entitled to make it all this first year and more the next and next and next?

Here's a company -- I don't know, I hear them saying in back that they lost money last year. Did they lose money because they put it in the purchase of this company? And if they did, maybe it's unfair to pass that on as well to the other companies. That's a question that might be asked of them. I don't have an answer. I don't come here with a lot of answers. But certainly being a businessman myself in the past, we all know it costs you money to buy any kind of business, and you base the cost over a period of time and not try to pick it all up in the -- over that period of time.

Does anyone have any questions I could answer? By the way, thank you very much. You spoke very well for the --

MR. SHREVE: Thank you, sir. I appreciate that. With regard to Commissioner Garcia's question, the answer you gave, you were paying for the cost of the cleanup for Boston Harbor.

WITNESS CUSHMAN: What happened -- just history, just quickly, I don't know if any of you care about Boston. We like the city and I like this city, love downtown Kissimmee as well as Orlando -- I hope I'm not saying the wrong thing -- but what happens, in 1973 or '4 we had a guy who we're all familiar, who ran for president of the United States, a guy name Michael S. Dukakis, and he was Governor of the Commonwealth of Massachusetts. He was first elected in 1974. And the Congress of the United States appropriated billions of dollars in environmental cleanup debts are as high today as they are today. One of the many reasons. And Mike Dukakis, because it was not an issue that the public was aware of, actually turned down the money to clean up Boston Harbor. And many years later when he was still Governor, because he got defeated in 1978 and we had a new governor for four years, and then he came back. And Massachusetts, up until this term, with Bill Wells, you can run only two terms like Florida. It's a good idea.

He later took the heat on that, when he was running for president because he turned the money down. And the only way to clean it up on the order of a superior court judge, a judge name Garrity, ordered

them to clean the harbor up and pass it on to the users of the service.

MR. SHREVE: But those rates you quoted included the cost of cleaning up Boston Harbor.

WITNESS CUSHMAN: They included the cost of cleaning up the harbor directly on the ratepayer, absolutely. With a few he -- we sneak -- Tip O'Neil -- I was there -- did a better job than those who were there today. Thank you very much.

(Applause)

DAVID MAYHEW

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MAYHEW: Good evening. It's late and we've heard a lot of talk. I don't think there are many people in the room other than the attorneys, probably some of the people in the back from SSU that's in favor of this rate increase. I rise in opposition to any rate increase as well as the uniform rate structure.

COMMISSIONER KIESLING: Could you tell us your name and where you're from and address ?

WITNESS MAYHEW: I'm David Mayhew, M-A-Y-H-E-W and I'm from Buena Ventura lakes.

The City of Kissimmee looked into buying the Utility, Orange-Osceola Utility, and found that if anything was paid over $9 million, it would certainly require a rate increase. They didn't feel it was fair to buy it at that the price. And along come SSU and outbid the City of Kissimmee, as well as the county. The county looked into buying it, too, and they felt the price was too high. Orange-Osceola Utility comes along and pays them -- I have been to two hearings with SSU -- it won't be called hearings -- public information meetings.

One of them was at Buena Ventura Lakes at the time they were acquiring the utility, and I rose and asked the question, "Could we expect a rate increase?" And the representatives from SSU assured us that we would not get a rate increase. I asked the question, due to the price of the acquisition of the Utility, was that going to require any rate increase? We were told no, absolutely not.

I went to a meeting that's been referred to out at the other end of 192 back a week ago. And certainly it wasn't convenient, 5:30 in the afternoon and everybody knows 192 is pretty busy traffic-wise. And it became obvious when we got there to look at the size of room that they didn't anticipate a great deal

of people to show up to it.

As David had said earlier, one of the points they made that I thought was very interesting is "don't be alarmed over the rates that you see on this form because we always ask for considerably more than we expect to get because the Commission never ever, ever gives us what we ask for." So they did point that out to us. And at the time I guess that they were in the process of buying the utility, when they told us at BVL that they had no intention of raising the rates, I don't know what the date of the request is for the rate increase; it was probably at the same time. They closed on the deal on the 1st of December, I believe. And I'm sure the rate increase was requested significantly before they closed on the deal. But they did tell us we shouldn't worry about the rate increases.

The city of Kissimmee today, on a 5,000 gallon usage, the bill for water and sewer would be $27.19. Currently, at BVL, that same 5,000 gallon was 41.82; based on the new rate increase that SSU has asked for it would be 61.17.

And I'm not sure that 5,000 gallons is a good number to look at. But that's what they had told us out there would be a good number to plan and work

with.

I don't think that SSU really should get a rate increase. I think that to go to the uniform rate and ask BVL to pay for all of the other utilities, and possibly pay an increased rate, based on the people paying much more than the utility was worth is fair to the rate users. When I started talking to the SSU people I was told this was a rate case. And now that I've gotten into it further, I hate to tell you, but I believe it's the SSU rape case. Thank you very much.

WITNESS SHREVE: Could I ask you a couple of questions? When you were at that meeting, did they talk to you much about the rate increase or did they talk to you much about the uniform rates as opposed to stand-alone? Most of you would be opposed to the uniform rates.

WITNESS SHREVE: They were really pushing for the uniform rates. And they told us that the reason that they had the meeting out there was because they had looked at the eight utilities, and if that was on a map, that was center to where the eight utilities were. I raised the question, seven of the utilities represented 1200 users, and Buena Ventura Lakes which was the furthest away, I believe it was 6,800 users, and you didn't have to be rocket

scientist to figure out that the hearing should have been at Buena Ventura Lakes.

MR. SHREVE: And this was on the edge of Osceola County, wasn't it?

WITNESS MAYHEW: Yes. It's about four miles the other side of Disney. 5:30 in the afternoon; not a convenient time to get out there.

MR. SHREVE: I'm not sure if you have been given this figure, but on 6,000 gallons, rather than 5, with the calculations I have on 6,000 gallons, if SSU received from your system what they are asking for, for your system, your total would be 8,318 rather than the 40 or 60?

WITNESS MAYHEW: Yes, sir. That's why it's the rape case.

MR. SHREVE: Thank you, sir.

CHAIRMAN CLARK: Thank you, Mr. Mayhew.

MR. SHREVE: Mr. Anthony Fahmie. F-A-H-M-I-E.

(Sworn in by Chairman Clark)

- - - - -

ANTHONY FAHMIE

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS FAHMIE: Well, I didn't come very well prepared.

CHAIRMAN CLARK: Give us your name.

WITNESS FAHMIE: F-A-H-M-I-E. I didn't come especially prepared.

CHAIRMAN CLARK: Where do you take service from?

WITNESS FAHMIE: BVL.

Again, like so many have said, I don't want to keep on repeating, but even this meeting at 6 o'clock was a bit early. If you get off work at 5:00, takes you 45 minutes to get home, you grab a fast bite before you come out, 6 o'clock was too early. I feel there may have been twice as many people here if it was at 7. Okay?

CHAIRMAN CLARK: Mr. Fahmie, just for your information, we have people who are concerned about it if we hold it that late. They don't like driving late at night and we were concerned that we need to hold it early enough so they can get home.

We try to please as many people as we can

but we don't always do that.

WITNESS FAHMIE: Well, okay. That may be the case. But I really stand up for our -- some of our senior citizens here and retirees, that they get out and do what they are doing to raise questions.

But if you're out there working, like I say, until 5:00, trying to support a family of two, three kids, it's hard, too. Okay.

I guess our bill is somewhere around $60 something a month. We're pretty conservative, I believe, with the water. I have two children and my wife. To get an increase, double that, is going to be very, very hard to meet. I don't call it unfair. I call it thievery, as the word was said before.

You will not only -- you -- it would be stealing not only from the poor -- that's the word I'm going to use, "stealing" -- from the poor, you would be stealing from the middle class and retired and maybe even a little upper class.

But most of BVL is, I would say, probably about middle class. We just cannot simply afford this and raise a family. Either we'd have to move out like somebody said, or we'd have to start drilling wells.

We moved down here from up north where everything was crazy high. But as many have said, our

water bills weren't anywhere near this. So we came down here to get away from some of that crazeiness up north, with all of the high bills and everything. And now we're getting hit again and even worse as far as the water is concerned.

And as someone else has said -- and I'll just ditto it, this is nothing but a monopoly that is wanting to get bigger and at everybody else's expense, and it's not fair. It's not fair. It's more than not fair. It's thievery. I guess that was about all I want to say.

CHAIRMAN CLARK: Thank you, Mr. Fahmie.

MR. SHREVE: That's all.

CHAIRMAN CLARK: Ladies and gentlemen, nobody else has signed up to give any testimony? Is there anyone who would like to speak who did not sign up? I don't see any hands.

I'd like to thank you all for coming out.

WITNESS SCHEUER: Can I speak. You'll need to give us your name.

(Sworn in by Chairman Clark.)

- - - - -

KIM SCHEUER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS SCHEUER: I was also there --

CHAIRMAN CLARK: Give us your name.

WITNESS SCHEUER: My name is Kim Scheuer. S-C-H-E-U-E-R. I live in BVL. And I, too, was at the meeting last week.

That was at a very bad time. And also to be -- I mean those people were so condescending to us, like we did not know anything. And then telling us that the utility was in compliance but yet we're getting this rate increase. And then to just be so condescending.

And then what was even worse about everything, after it was over, they stood outside in their little group and just laughed and carried on and stuff while we were walking out. I just want to make that public record. Like we were a bunch of jokes. That the poor people that took the time to make it out there, they even came in late and -- I really commend these people. They are working so hard to try to make this -- and they are just tearing up the American people for nothing. (Applause)

COMMISSIONER GARCIA: If I could ask a question of the Company, so we can do it on the record. I wanted to ask a question of the Company.

Has Public Counsel -- or maybe I'll just ask Public Counsel, has Public Counsel been noticed on these meetings?

MR. SHREVE: Absolutely not. I think we need -- I would love to know what the Company has told the customers at all of these different meetings. We have been not been there, the Staff has not been there. They're able to say exactly what they want to. And we know that they have given different -- in the past, different correspondence to different groups; probably different explanations at the hearings of different groups. We have no information. I would love to have a tape of each one of these meetings and see exactly what the situation is because we're -- this whole case has been set up by Southern States to pit one group of customers against another. And when I see them giving notice to the BVL people, who are on one side and at a place so far away where then they go and have a hearing or meeting with the people, that so-called would be on their side making it totally convenient. I think the whole thing is a plan and a ploy and I think somebody needs to look into it.

COMMISSIONER GARCIA: Madam Chairman, maybe I could ask you this question, still on the record -- maybe ask I could just ask it of Mr. Feil as a courtesy and we wouldn't have to vote on it.

I don't know how many more of these are left and I don't know if the Company is going to have any more customer meetings, but could you, from this point forward, also notice everyone who is on this case as representing someone about these meetings?

MR. FEIL: Do you mean prior to their occuring?

COMMISSIONER GARCIA: Yeah. (Laughter) yes.

MR. FEIL: I asked because at the last service hearing Mr. Shreve asked that we provide all communications given to customers and elected officials and we intend to do that.

I don't know, sitting here right now, whether or not prospectively any additional customer meetings will be held.

COMMISSIONER GARCIA: If there's going to be any more, definitely since Mr. Shreve represents the public in general on this, the ratepayers specifically, if you could just -- I guess as a courtesy to myself, since we don't necessarily get to

do it as a Commission, or I don't know if we can -- I'd like you to inform him so he can be there with his clients when you put on your demonstration.

I understand, at least in correspondence, Mr. Shreve can raise the issue later on before us, of what information was given and what wasn't given and how the public has been informed.

In this type of format I think the customer goes in unrepresented and there's no way for Public Counsel to figure out how many people are affected, or there's no way for them to get back to them. So if I could ask as a courtesy, that you notice all of the parties that have filed.

MR. FEIL: Commissioner, I can't give you an answer right now again, because I'm not sure whether or not any additional meetings are scheduled or are going to be held. I'm sorry, I can't make a commitment with regard to that.

THE AUDIENCE: They show seven more meetings.

CHAIRMAN CLARK: No, I need to make a distinction for you.

The meetings that are list are the meetings the Public Service Commission calls and the Public Service Commission runs. We have nothing to do with

the meeting that was held up in of the corner of Osceola County. That was something the Company did.

And what Commissioner Garcia is asking is that if the Company would give notice to the other parties if they -- if and when they intend to hold another customer hearing, that is their hearing, not these hearings.

CHAIRMAN CLARK: Mr. Corbett, you need to come to the microphone.

WITNESS CORBETT: We have a community center and it's quite large. The room, it holds all of these people. They could have came there anytime. But they didn't hold the meeting. That's all I'm saying. That was the only thing we're asking. If they do have future meetings, hold it there. And then like you said just a moment ago, some people, they can't drive at night, they're old. They're right there in the community; they could even walk there to the community house.

CHAIRMAN CLARK: Mr. Corbett, I want everyone to understand, though, that we have scheduled hearings, we have scheduled customer hearings at which you will be represented and the Utility will be represented. And apparently the Utility is holding other meetings to talk to their customers.

Commissioner Garcia has asked that other parties be noticed. And, Mr. Feil, I would expect you to get back to Commissioner Garcia as to your intention.

MR. FEIL: Yes, ma'am.

CHAIRMAN CLARK: Thank you.

MR. SHREVE: Commissioner, along Commissioner Garcia's question -- we requested the correspondence last week. I don't know if the Company has had any opportunity to put that together yet or not, concerning everything, and where it went and when it was sent and everything.

MR. FEIL: I have some of the information put together but it's not ready to transmit yet.

MR. SHREVE: Thank you.

CHAIRMAN CLARK: Thank you.

Ladies and gentlemen, I do want to thank you once again for coming out and participating in this hearing. We appreciate your testimony, and we're going to adjourn this hearing.

MR. FEIL: Commissioner, if I may, one final matter. The Proof of Publication and the Noticing Affidavit, I believe the next exhibit is 41.

CHAIRMAN CLARK: Thank you, Mr. Feil. We will label as Exhibit 41 the Proof of Publication and

the Affidavit of sending the notice. Thank you.

(Exhibit No. 41 marked for identification.)

COMMISSIONER GARCIA: Are we going to file the pipe or whatever?

CHAIRMAN CLARK: No. We'll return that.

All right with that, this hearing is adjourned. Thank you very much.

(Whereupon, the hearing concluded at 8:40 p.m.)

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION NOTICE OF SERVICE HEARING DOCKET NO. 950495-WS

362773101

Docket No. 950495-WS – Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Orange and Osceola Counties will be held at the following time and place:

January 29, 1996
6:00 p.m.
City of Kissimmee Civic Center
Ballroom
201 E. Dakin Avenue
Kissimmee, FL 34741

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly $100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

hotels, motels, inns, condos, B&B's and resorts in all price ranges. Plus itineraries, activity appendixes and maps. Whether you're planning a family vacation, a romantic weekend or a business trip, this book will help you find the perfect place to match your style, budget and interests. STATE OF FLORIDA)
COUNTY OF ORANGE)
_____)

AFFIDAVIT

STEVEN M. GALLIS, having been duly sworn, states as follows:

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.

2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.

3. In my presence and under my supervision, SSU personnel mailed to the customers in Orange and Osceola Counties a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."

4. The names and addresses of the aforesaid customers were obtained by SSU from SSU's Information Services Customer Address Files. A copy of the list of SSU customer names and addresses used to print the mailing labels for customers in the aforesaid county is attached hereto and marked "Exhibit B." "Exhibit C" attached hereto, is the presorting report printed from SSU's Information Services Customer Address Files to prepare the mailing.

5. On January 2, 1996, my staff and I machine postmarked the labeled envelopes containing copies of Exhibit A and hand delivered the envelopes to a representative of the United States Postal Service for delivery.

6. Attached hereto and marked "Exhibit D" is a copy of the relevant pages of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit D contains information pertinent to the aforementioned mailing, to wit: (1) on January 2, 1996, SSU mailed 4,626 total batch items, which included mail fitting the description of "BVL Letter - Kissimmee Meeting;" (2) on January 2, 1996, SSU mailed 5,160 total batch items, which included mail fitting the description of "Customer Service Hearing - Orange, Osceola Co. - Kissimmee Meeting;" and (3) on January 2, 1996, SSU mailed 4,468 total batch items, which included mail fitting the description of "Customer Service Hearing - Orange-Osceola, Kissimmee BVL." I personally made these entries into the logbook, and the recordations therein coincide with my personal observation.

7. The total batch count on the logbook included 14,357 pieces of mail as listed in Exhibit C mailed to those persons listed in Exhibit B. If applicable, any logbook totals which are

less than Exhibit B & C totals reflect automation malfunctions in copying and sorting. In such cases, envelopes were reprocessed by hand and metered separately for mailing the same day.

Steven M. Gallis
STEVEN M. GALLIS

The foregoing instrument was acknowledged before me this 24th day of January, 1996, by STEVEN M. GALLIS, who is personally known to me and who did take an oath.
