(Hearing convened at 6:00 o'clock p.m.)

- - -

COMMISSIONER DEASON: Ladies and Gentlemen, if I could have your attention, please, and ask you take your places, we'll go ahead and call this evening's hearing to order.

Thank you.

We will begin by having the notice read.

MR. JAEGER: Pursuant to notice, this time and place has been designated for a customer service hearing in Docket No. 950495-WS, the application for a rate increase and increase in service availability charges by Southern States Utilities, Incorporated.

COMMISSIONER DEASON: Thank you.

We'll take appearances at this time.

MR. HOFFMAN: Thank you, Commissioner Deason.

Ladies and Gentlemen, my name is Kenneth A. Hoffman. I'm with the law firm of Rutledge, Ecenia, Underwood, Purnell & Hoffman. The address is Suite 420, Tallahassee, Florida, 215 South Monroe Street, 32302, and I'm appearing this evening on behalf of the utility, Southern States Utilities.

MR. TWOMEY: Ladies and Gentlemen, I'm Mike Twomey, Route 28, Box 1264, Tallahassee, Florida

32310. I'm appearing this evening on behalf of a number of consumer organizations; first, the Harbour Woods Civic Association, the Sugarmill Woods Civic Association, which is in Citrus County, the Marco Island Civic Association, Inc., which is in Collier County, Lehigh Concerned Citizens -- or the Concerned Citizens of Lehigh Acres in Lee County, and the Spring Hill Civic Association, Inc., in Hernando County, Florida. All together these groups total about 45,000 families or customers of the utility and we're opposed to the rate increase in its entirety.

MR. SHREVE: Jack Shreve and Charlie Beck, Office of the Public Counsel, representing the citizens of the State of Florida in opposition to the rate increase.

MR. JAEGER: Ralph Jaeger, on behalf of the Commission Staff, 2540 Shumard Oak Boulevard, Tallahassee, Florida.

MR. JACOBS: My name is Buddy Jacobs. I'm an attorney in Fernandina Beach, Florida, here on behalf of consumers in opposition to the rate increase. The consumers are people located on Amelia Island in Nassau County, Florida.

COMMISSIONER DEASON: Thank you.

Ladies and Gentlemen, I want to take this

opportunity to welcome you all to the hearing this evening concerning the application for a rate increase that has been filed by Southern States Utilities, Incorporated.

In the way of introductions, my name is Terry Deason. I'll be chairing the hearing this evening. To my immediate left is Commissioner Julia Johnson, to my far left is Commissioner Joe Garcia, and to my right is Commissioner Diane Kiesling.

We also have a number of staff personnel from the Public Service Commission here this evening. I want to introduce them to you so that if you have any questions or problems of concerns that you want to talk about to someone, they will be here to assist you in that regard.

Mr. Jaeger just introduced himself earlier. He's an attorney with the Public Service Commission. Seated to his right is Mr. Troy Rendell, seated to his left is Mr. Lee Willis -- I'm sorry -- Mr. Marshall Willis. There's an attorney that practices before the Commission and his name is Lee Willis, and I apologize for that, and about as tall. And seated behind Mr. Willis is Ted Davis.

These gentlemen would be glad to assist you with any questions you may have.

The purpose of this hearing this evening is to hear from you, the customers of Southern States Utilities. We're here to hear your comments concerning the pending rate increase that has been applied for. We are here to hear your concerns about the quality of service, about the rate structure of the utility, about the operations of the utility, and about the revenue requirements of the utility.

As you entered the room this evening there was a blue information sheet that has been made available to you. This does contain some of the essential background information on this rate request. The last page of this handout has been designed so that it can be detached. This can be done for those persons who do not wish to actually speak tonight but who do wish to make comments to the Commission, you may write your comments on that sheet, fold it, and mail it to the Public Service Commission.

As many of you probably know, this is the second hearing that we've had in Jacksonville. We have scheduled this hearing in addition to the earlier one because there was some question about the adequacy of the notice concerning the first hearing. We want those of you to know that if you attended the first hearing and you gave testimony, that testimony is

valid. It is part of the official record in this proceeding. It is not necessary for you to say the same things again, but if you wish to take advantage of the opportunity to address us about other matters, we certainly invite you to do that and you're certainly welcome to do that.

I'd like to review for just a moment the procedure that we're going to follow this evening. In a moment after we get through some of the preliminary matters, I'm going to ask all those members of the public who have signed up and wish to testify this evening to stand and be sworn in. This is necessary so that your testimony can become part of the official record in this proceeding.

We do have a court reporter here this evening who is transcribing this hearing; therefore, your statement will become part of the official record and will be evidenced in this case and can be relied upon by the Commission in making its final decision in this matter.

In just a moment I'm going to give the parties to this proceeding, that is, the attorneys which have introduced themselves earlier, an opportunity to make a brief opening statement. I'm going to remind them to keep their statements brief so that we will have

adequate time to hear from you, the customers.

I'm going to ask the parties now if there are any preliminary matters which we need to address before we proceed into opening statements.

(No response.)

COMMISSIONER DEASON: Mr. Hoffman, is there a proof of publication concerning this hearing that you wish to have identified as an exhibit?

MR. HOFFMAN: Thank you, Commissioner Deason.

Yes, we have affidavits of publication of the customer notice as well as the affidavit of Mr. Steven Gallis of Southern States attesting to the mailing of the customer notices to the customers who were provided notice of this service hearing tonight and we would ask that those be admitted as an exhibit into the record. Copies have been provided to the court reporter and I will provide a copy to all counsel who are here this evening.

COMMISSIONER DEASON: The copy has already been provided to the court reporter?

MR. HOFFMAN: Yes, sir.

COMMISSIONER DEASON: It will be identified as Exhibit No. 35. Without objection, that exhibit will be admitted into the record.

MR. HOFFMAN: Thank you.

(The document last above referred to was entered into evidence as Exhibit No. 35.)

COMMISSIONER DEASON: After we conclude opening statements, which we're about to get to, Mr. Shreve, the Public Counsel, will be calling persons from the public to testify. When he calls your name, we ask that you please come forward to the podium directly in front of the Commission and to begin by giving us your name and your address and identifying which system from Southern States you receive your service.

As I indicated earlier, this hearing is being transcribed. To get the record accurate, you may wish to spell your name for the benefit of the court reporter and for the benefit of the Commission.

When you conclude your statement, you may wish to stand at the microphone for just a moment because there may be some questions concerning the points that you raise in your testimony.

I am not imposing any time limits on the presentations. The only thing that I ask is that you be mindful that there are a number of people here who wish to make a statement and obviously they will be waiting, so just be courteous, tell us everything that you want us to know, but please be mindful that others are waiting as well.

And with that we will proceed into opening statements. We'll begin with your statement, Mr. Hoffman.

MR. HOFFMAN: Thank you, Commissioner Deason.

Ladies and Gentlemen, as I said before, my name is Ken Hoffman and I represent Southern States Utilities.

Let me begin by telling you that the rates that you currently pay are based on a test year - and that's rate-making lingo - the test year, using 1991, plant in service and expenses.

Beginning in 1992, Southern States has and will by the end of this year have placed in service over one hundred million dollars of additional facilities and equipment necessary to provide service. The company has not earned one penny of return or profit on this plant.

And what have been the results of these large expenditures with no return?

Southern States has filed testimony with this Commission establishing that it has earned less than a three percent return on its plant in service in 1994. Because the company is spending approximately twenty million dollars on necessary utility facilities each year, even the three percent from 1994 has been

diminished so that the company currently finds itself losing money unless rate relief is provided by the Commission.

Now, you may ask yourself why is Southern States spending approximately twenty million dollars per year for additional equipment if it is earning so little or actually losing money. The answer is in large part because the company is required to do so. The company has a statutory obligation to provide service in its service areas and, in doing so, the company is required to meet ever increasing environmental standards and rules intended to protect the public health. These environmental regulations as well as quality of service improvements account for over half of the new plant in service that I referred to before.

This rate case will provide a full and open forum for the parties who have intervened in opposition to the rate increase to fully explore and question any and all of this new plant in service that I have just referred to. These issues will be addressed by witnesses under oath and ultimately resolved by the Commissioners.

I believe that our witnesses will demonstrate to this Commission that Southern States has invested wisely and prudently and in a manner required to

protect the health of our customers and protect the quality of our environment.

Now let me give you an example of one issue that may be raised in this case. You may have heard that Southern States has made a multi-million-dollar profit on the sale of some of its facilities in 1994, and that is exactly right. Against the company's wishes, Sarasota County decided that it wanted to purchase the company's facilities. Southern States lost its assets, lost its customers and lost its revenues from that customer group forever.

This forced sale involved assets that have never been paid for through rates charged to our customers who are under the jurisdiction of this Commission. Commission precedent is very clear that, in such a case, the gain or loss on such a sale, and in this case it was a gain, is not to be factored into the final determination of rates for our customers that the Commission does have jurisdiction over, customers such as you.

The last issue that I want to talk about is rate structure. In our last rate case, the Commission ordered the company to implement what is known as a uniform rate structure. The company had requested what is known as a modified stand-alone rate

structure, but the Commission ordered uniform rates and those were the rates that the company implemented.

An appeal of that decision was taken and the Court of Appeals reversed. As a result of that reversal, the case was sent back to the PSC and the PSC decided that the company needed to move off of the uniform rates into a modified stand-alone rate structure.

Where does that put us today? Essentially where we are at now is that the Commission has recently approved an interim rate increase for Southern States based on that modified stand-alone rate structure, and the company has filed tariffs to implement that rate increase, but the company still maintains in this rate case that uniform rates are appropriate. We have presented evidence in this proceeding which will permit the Commission to make the finding that the Court of Appeals says it needs to make; that is, that all of our land and facilities are functionally related.

I should also point out to you that that very finding that all of this utility's land and facilities are functionally related has already been made by the Commission by an order issued in July of 1995, an order that also has been appealed.

What you need to keep in mind that all the company does in a rate case is propose a rate structure. The rate structure decision ultimately lies with the Commission.

Now in talking about uniform rates, I also want to point out to you that the company was involved in a separate comprehensive proceeding in 1994 which focused primarily on the issue of uniform rates, and in that case the Commission issued an order confirming that a uniform rate structure is the most appropriate rate structure for Southern States Utilities.

Speaking to you, a uniform rate structure would immediately produce lower rates and a lower bill for 15 of the 18 customer groups who were provided notice of this service hearing when such rates are compared with rates under a so-called stand-alone or modified stand-alone rate structure. In the long term, uniform rates provide the best means to ensure that all of the company's customers pay reasonable rates and will be protected from significant rate shock.

Uniform rate structure --

COMMISSION DEASON: Mr. Hoffman, you need to wrap it up.

MR. HOFFMAN: Thank you, Commissioner.

I'll wrap up by telling you that the uniform rate

structure is the very same type of rate structure that is employed by electric and telephone utilities and by counties throughout this state who own and operate their own water and wastewater utilities.

And the last thing I'll say, Commissioner Deason, is Dave Denney, who is the regional manager for this area, as well as Steve Bailey, who is an engineer with the company, are here tonight to respond to any questions or issues concerning quality of service.

Thank you very much.

COMMISSIONER DEASON: You may wish to have those individuals raise their hand in case a customer would like to know who they are and ask them a question.

MR. HOFFMAN: Mr. Denney, and Mr. Bailey is in the back of the room.

COMMISSIONER DEASON: Thank you, Mr. Hoffman.

MR. HOFFMAN: Thank you.

- - -

COMMISSIONER DEASON: Mr. Twomey.

MR. TWOMEY: Thank you, Mr. Chairman.

Ladies and Gentlemen, I took off my jacket here, because I'm hot. Okay? I'm not warm, I'm mad.

Now, I want to start with something Mr. Hoffman just said. It wasn't multi-million dollars, it was $19.1 million this company made on the

sale, on the $37-million sale, over half of it was profit and they stuck it in their pockets and took it back to Minnesota. Okay?

All the rest of this stuff about they were made to sell it, lost their customers, and this kind of stuff, they made $19 million, they hid it off the books on what they file with these people and now they're claiming they're losing $400,000, not making any money. Garbage.

Now, uniform rates is good for you? How many of you folks are from Beacon Hills, how many from Amelia Island, how many from Woodmere? Okay?

The last time they ordered uniform rates -- and Commissioner Clark isn't here. She was the only one that did it to you, along with Tom Beard, who excused himself from the PSC -- over 28 months, those of you from Amelia Island are due, through action my clients financed and myself won the case in the First DCA, Amelia Island people are entitled to $672,000 in refunds. The state ordered it. They refuse to pay today.

Those of you from Beacon Hills, you're entitled to $1,092,000 in refunds. They haven't paid it yet and it remains to be seen whether they'll make them do it.

Woodmere, you're entitled to $58,000.

Under uniform rates, you'll pay annual subsidies for Amelia Island of ninety-six -- I'm sorry -- $961,000 a year; Beacon Hills, $825,000; and Woodmere, a hundred and forty-four.

All this stuff he gave you about it's the best kind of thing is absolute total rubbish.

Now, the Chairman is probably going to try and stop me on this stuff, but I've got a scandal to tell you about and I'm going to ask him to give me a little bit of leave and not gag me on something that's very important for you to hear and they don't know about it either.

I was at the Governor's Office this morning going through his files, Lieutenant Governor's, actually. I filed with the Commission or presented to them Monday in Marco Island a petition or a motion asking them to transfer this case to an administrative -- independent administrative law judge, because I don't think and my clients don't think that we can leave the case here, because the Governor's Office has exerted undue influence on these people; undue influence.

What did I find? I went to the Governor's Office this morning and found that on August 30th,

Lieutenant Governor's calendar, he met in the afternoon of August 30th with one John Cirello, who is the president of Southern States Utilities, one Brian Armstrong, who is the General Counsel of Southern States Utilities, one Tracy Smith -- Tracy will have to give us -- he's back here -- have to give us his title, he's in public relations, governmental stuff -- and one Jeff Sharkey, who is a former business partner of the Governor's son, Bud, who is in public relations lobbying, facilitating, call it what you want, he's their lobbyist, Southern States' lobbyist, Jeff Sharkey. He got him in the Governor's Office.

You people are out here buying their filthy water that most of you last time said you wouldn't feed to your dogs, paying rates that are running you out of your homes, and they're in having little meetings with the Lieutenant Governor. What's your chance of getting in?

The lobbyist later sent a note faxed to the Governor's Office, and he said -- he says -- and this is all new, Ladies and Gentlemen -- to Lieutenant Governor's Chief of Staff -- he says, "Karl," his name is Karl Koch -- "I would like to see if the Lieutenant Governor would send a letter to this effect to Susan Clark in response to the attached letter from the CEO

of Minnesota Power."

That's the parent company of SSU, Ladies and Gentlemen, Minnesota Power, and SSU's financial difficulties.

"I will talk with you. Thanks, Jeff"; Jeff Sharkey.

Attached to that was the letter, Ladies and Gentlemen, a draft, and I'm here to tell you that with the exception of splitting one paragraph into two and changing two minor words, the Lieutenant Governor took that lobbyist facilitator's letter and he put his signature on it and sent it to this Commission in an improper ex parte communication. It is wrong.

And when he was asked by the press, that is, the Lieutenant Governor was asked by the press what he was doing, he said he was just looking for information. Okay?

Now, I'm not going to call the Lieutenant Governor a liar, but what his answer was was false. Okay? And I would like to remember what the Democratic party executive said about being unintentionally not truthful. That's what it was. Okay? It's rotten.

The same guy, Jeff Sharkey, writes the Commerce Department's secretary, he calls him Charles, Charles

Dusseau.

"Charles, here is the letter from the PSC regarding the financial situation of Southern States Utilities. The situation is critical."

Do you know what that means, Ladies and Gentlemen? It means in his mind these folks didn't give those folks enough of your money.

Now, you probably think they're taking enough money already. They're saying, the Commerce Secretary of the State of Florida is saying, "This is critical, this is a critical situation. Please let me know if you can send it. I have provided the backup letter from the CEO. Thanks, Jeff."

That was December 13th.

Now, this Commission have already ruled adversely to this company when they had asked for some $12 million of interim rate relief. They've knocked them down.

Jack Shreve over here and myself on your behalf generally said, "One bite of the apple is enough, they don't deserve a second chance." They gave them -- they said they'd have a second chance. Okay?

They came back later. The vote, Ladies and Gentlemen, was scheduled for January 4th, this year, the first part of this month. Secretary Dusseau

dilly-dallies around for about a week, maybe he was traveling. His people cut up -- his people cut up Sharkey's letter a little bit and made some corrections to it. Okay? The Lieutenant Governor didn't bother doing that.

They have some internal memos talking about whether they should do this or not. They say, "We shouldn't do it as a general policy, but we'll do it this time."

Finally, Sharkey is getting nervous. He pushes and he sends another fax memo to Charles Dusseau, Secretary of Commerce, and he said, "Charles: Here is the revised letter for Southern States Utilities as we discussed. Let me know if this is okay. Have a good holiday. Thanks, Jeff."

At the bottom, Ladies and Gentlemen is a handwritten notation that says, "Deadline is January 3rd."

Now, do you recall I just told you that the second vote on interim rates for you folks is January 4th. Somebody said you've got to get it in to these people before they take the vote, and he did. He made the deadline. He sent it in on January 2nd. And do you know what happened on January the 4th? They voted -- I'm not saying they were influenced by the

Lieutenant Governor, I'm not saying they were influenced by Secretary Charles Dusseau -- they voted to give these people six million dollars more of your money. When I said they shouldn't have had the second chance, he said they shouldn't have had the second chance, they got six million more dollars.

And I'm going to wrap it up real quick, Mr. Chairman, but there is one -- three of these Commissioners sitting here are up for reappointment before Governor Chiles steps down the end of '98. They make $97,000 a year, which is a good state job, but one person -- there's one vote that decides whether they stay or go, and it's the Governor of the State of Florida. Okay?

Now, his office has leaned on these people, and what I'm saying, and I've said in my pleading and what ought to concern you, Ladies and Gentlemen, that it is undue influence, it is dirty, it requires an investigation by somebody in this state or the federal government about what the quid pro quo might have been, what the Governor's Office is getting out of it, but to get back for the moment, these people have been leaned on and, I say to you, they can't forget the pressure that the Governor's Office has exerted on them, and, as a consequence, they must -- they are

required to transfer this case to an independent law judge who has job protection through Career Service. If they don't --

COMMISSIONER DEASON: Mr. Twomey, I've been --

MR. TWOMEY: Yes, sir. I may have --

COMMISSIONER DEASON: You've gone four minutes over. I'm going to ask you to wrap it up.

MR. TWOMEY: I'm finishing right now.

If they don't, Ladies and Gentlemen, while you may have some doubts now about what's happening to you, you better have some serious concerns.

Thank you.

(Applause.)

- - -

COMMISSIONER DEASON: Mr. Jacobs.

MR. JACOBS: Thank you, Commissioner Deason. I'm, as I said earlier, here on behalf of various groups on Amelia Island in Nassau County, that's the Sandpiper Condominium Group, the Amelia Island Property Owners Association, the Residents Sanctuary, and others that use this utility.

First, I want to say that I'm glad to be here, Ladies and Gentlemen. At my age I'm glad to be anywhere.

It's a smaller crowd than we had the last hearing

and it's to the Public Service Commission's credit that we've had two hearings here. You may be interested to know that last night they were in Citrus County, this morning in Ocala, and they're here tonight. They travel the state and do their best to talk to users of utilities and the citizens around the state to get the bottom of all the things.

We are here in opposition to the rate increase on behalf of the folks in Amelia Island. We think there ought not to be any increase at all and maybe they ought to give us some money back.

What this means to us, and I'm hopeful that the Commission will listen to this, and so you understand, they're talking about uniform rates and stand-alone rates. This utility company came to Florida and they purchased different utility companies. I know the Amelia Island Utility Company was doing real well or it obviously wouldn't have been purchased. I'm sure they didn't want to buy a bad utility company, they bought a good one, and, as a stand-alone utility company, it made sense. We have good density there of users, we have a good contribution in aid of construction that made it a good utility company. So they came along and made a good purchase.

But what they want us to do is to be part of a

uniform rate base where we then subsidize other utility companies in other parts of the state. And I think this probably holds true for some of the utility companies in Duval County, too.

So you understand that they want to take your utility company, which was operating perhaps pretty well, perhaps not, and they want to make it then perhaps subsidize other utility companies around the state for a uniform rate base.

What they're seeking in their application on the uniform rate base procedure is they want a return on equity of 12.25 percent and a rate of return of 10.32 percent.

If they were to do that, just in Nassau County alone and to the Amelia Island Company, or to the Amelia Island Utility Company, the required revenue adjustment would be that they should refund us $122,000 for water and refund us $68,000 for sewer.

Their requested rate adjustment generates $374,000 more for sewer -- $394,000 more for sewer and $374,000 more for water. And so their revenue request for us is about $500,000 for water and about $463,000 for sewer.

If they want -- if they were to accomplish whatever it is they want to do in this particular

thing, if they just filed the rate increase alone just for us in our company, then we'd get that reduction, not an increase.

So if you take the rate of return they're seeking just for our utility company, and if it's granted, it's projected that Southern States Utility Company's returns from just our little utility company - and that's all I'm here about, I care about you-all too, but that's the only one that's paying me to be here, and I'm a user, I live there - their rate of return on water would be 94.33 percent, 94 percent rate of return. Their sewer would be 35 percent return on equity and rate of return would be 43 percent for water and 19 percent for sewer.

I submit to you and to the Commission that this is not a reasonable rate of return on their investment, and I know they bought the thing and it's part of their overall conglomerate, but I'm hopeful that the Commission will look at each one of these legs that they stand on and make sure that there's not a weak underpinning.

It seems to me that if you were to treat us fairly as a utility company that you would deny the uniform rate structure, and if they want to get that percentage of return on our utility, that you would

have them refund us money and cut it down to where it's in a more manageable basis.

And, again, I'm grateful that you allow me to talk to you tonight and I'm personally not too -- I'm not involved in politics, I'm just here on behalf of my client, and I would submit to you that we have, I think, a very good argument and I'm hopeful that as we go through the process, and I know this won't be finalized probably until next August or September, that you will take into consideration that there are people like us who are subsidizing or asked to subsidize everyone else, and there are other people out here that are in the same position. And I know you'll consider this and I hope that you will render them a reasonable rate of return, they're entitled to that, but don't do it on the backs of those people who will be carrying a heck of a lot more - and excuse the pun - water than everybody else.

Thank you very much.

- - -

COMMISSIONER DEASON: Mr. Shreve.

MR. SHREVE: Thank you, Mr. Chairman. I will be brief.

I'm not going through all the examples because we've got a lot of people here to hear from and you've

heard most of the arguments already.

Mr. Hoffman made a few statements that left out a few facts. They talk about the low amount that they earn. They talked about the $19 million. Now, that's the first time they've mentioned the $19 million, because I've been mentioning it every time, but now I guess they've started mentioning it to try and justify it. That's $19 million after taxes in profit for the sale of a system in Sarasota County.

He mentioned the '94 test year. That was in the '94 test year. The '94 test year was what they just used to get the interim granted. That was the example they used. But they didn't count the $19 million.

Now, with the $19 million, would they have needed anything? Maybe an interim rate reduction.

Same thing happened in the last case. They sold a system down here in St. Augustine Shores and made a $6 million profit. Now, we argued that that profit on the sale of that system, the system that had been supported by the customers, the customers paid the taxes, the customers paid the interest. The customers paid them a return on their investment a lot more than their investment.

But the $6 million was not counted in the revenue that the company was entitled to. It did not bring

down your rates at all.

The figures that he came out with are not calculated on their investment. When they purchased the Deltona system, the Public Service Commission allowed them to have a rate base of approximately $9 million more than they paid for it. They're getting a return on $9 million they didn't pay. That would be neat if you could put the money in the bank and get twice as much for it.

Lehigh Acres was the same situation. They paid it, they got it at a bankrupt sale price, paid 40 percent of the value, wrote everything down, the country club, the golf course, the lots, wrote it all down to the 40 percent, but the utility, Lehigh Acres, is paying that. Now that's in this case to be passed on to the other people.

One other point that I want to make. There's a legitimate argument from two sides on the uniform rates and the stand-alone. People who benefit from the stand-alone prefer the stand-alone; people who benefit from the uniform prefer the uniform.

What I don't like is Southern States being able to charge outrageous rates or profits from a system.

Chuluota, a little system in Orange County, if they take their calculations on what Chuluota's sewer

bill should be for 6,000 gallons would be about $260. That's an outrageous figure. The rates are supposed to be fair, just and reasonable. The first thing the Public Service Commission should do is say what's a reasonable rate for Chuluota and cut it down and not let Southern States walk away with the money.

Same thing with other systems. You've got them right here in Keystone Heights, I think it is. They want to take their rates from before they took them over from $14.99 for water for 6,000 gallons to $91.86. That's unreasonable. Let's get the rates down. Don't just pass the charge on to someone else. Cut it down in the first place so that Southern States doesn't walk away with the money the way they have in the past and the way they want in the future. We think our case that we're going to put on for the people of the State of Florida is not only going to show that there should not be any increase but there should be a decrease in rates and get back to where the pot is right and where it should be in the first place.

Thank you very much.

(Applause.)

- - -

COMMISSIONER DEASON: We've now reached the

point of the hearing to hear from you, the customers. I'm going to ask all of those persons who wish to testify to please stand and raise your right hand.

(Whereupon, all witnesses present were sworn in by Commissioner Deason.)

COMMISSIONER DEASON: Thank you. Be seated.

Mr. Shreve, you may call your first witness.

MR. SHREVE: Yes, sir.

David Myn-ott (pronouncing).

MR. MYNATT: Myn-att.

MR. SHREVE: Myn-att. Are you sure you're pronouncing that right?

MR. MYNATT: I hope so. It's been Myn-att for 54 years.

MR. SHREVE: Okay.

- - -

DAVID MYNATT,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS MYNATT: Good evening, Members of the Commission.

May I approach and place items in evidence in front of you?

COMMISSIONER DEASON: You have something you wish

to present to us?

WITNESS MYNATT: WITNESS: Yes, sir.

COMMISSIONER DEASON: Yes, sir, please come forward.

WITNESS MYNATT: My name is David Mynatt. That spelling is M-y-n-a-t-t, double "t." I reside at 4523 Breakwater Row, West, Jacksonville, Florida 32225-1008. We are served -- I'm sorry, let me back up.

I'm here representing myself and the Homeowners Association known as Harbour Woods Civic Association. We receive our water from the Beacon Hills plant.

Before I start on the items of evidence here, I would like to say that I learned about the letter to the Lieutenant -- or to the Governor and the letter from the Lieutenant Governor and the Secretary of Commerce a few days ago and I was appalled that members of the Governor's Office would intervene with the PSC in favor of an out-of-state corporation, Minnesota Power, against the citizens of Florida.

That was before I heard what Mr. Twomey had to say here tonight. Now I am incensed and I think everybody here, as citizens of Florida, should be too.

You have in front of you there a petition which the Homeowners Association has signed. It's a combination petition and survey. The first page is the petition and it

states that we request the Florida Public Service Commission to deny the rate increase request as not being fair, just and reasonable.

The bottom part of that petition is the survey portion where we asked our members various questions such as how many times has your water heater been replaced, how many times has different parts of your plumbing system been replaced, things like that.

Pages 2 and 3 are derivatives of those two questions there. We felt that an indication of a corrosive effect of the water was the high replacement of water heaters and parts of our plumbing.

As you can see on Pages 2 and 3 -- let me explain those first. At the left column is the year that the home was built, the second column is the homeowner's name, the third column is the number of years that particular or present homeowner has resided there, the next ten columns are the ten years, '86 through '95, the X's indicate where a water heater was replaced, and then on the other Page 3, the X's indicate where parts of or total plumbing systems in homes were replaced.

As you can see, reading from left to right, the X's become greater in number as we get up to the year '95. This I don't believe, and neither do the fellow homeowners at Harbour Woods is a statistical anomaly. We feel that it

is a direct indication of the corrosive nature of the water, which, by the way, SSU has admitted to in their latest letter, which we received the other day, where they said they were going to be adjusting the pH to reduce the corrosive nature of the water.

Page 4, the results of the testing of the water from SSU prior to coming onto my property.

At the last hearing, I expressed to you my concern with the lead content of the water. When I finished speaking, I was approached by a representative of SSU which he tried to convince me that the amount of lead in their water should not be of a great concern. He said, "Anyway, the lead in the water comes from your plumbing system." I said, "Okay, why don't we prove that? I want you to come out to my house, disconnect the pipe from the supply side of the meter so we'll test your water?"

As a way of credit, the gentleman agreed to do that. What you see in front of you are the results from where I sent a sample to this company in North Carolina. They called me back, oh, three weeks later when they got their results from their testing company and they said that the test agreed with each other.

Now, in fairness to them, the extremely high rate on the first draw, I believe, was due to the fact that the gentleman who set up the test used a faucet that was new

and had not had any water run through it at all. You see there that it was greater than 240 parts per billion. That is astronomical.

The purged line, after we let it run for well over two minutes, shows 4.3 parts per billion. That totally refutes their saying that they do not provide through their distribution system any lead into any of our homes, that it all comes from our plumbing.

You see in front of you, Mr. Deason, two glasses. If you'll pick them up and look at them through the light, I don't think you will have any trouble figuring out which glass has been washed almost every day by SSU water and which glass is not really used all the time. The one that's used all the time and washed all the time has this etching which you've heard about before. That's the one you're holding up right now, Ms. Johnson. You can see that plainly, can't you?

Thank you.

The mason jar you see in front of you, Mr. Deason, is a sample of Georgia white lightning, which you-all might want to take after you get through with this hearing here tonight. Really, it is a sample of water from my home supplied to me by SSU. I would invite each of you to take a drink of that water. I provided cups there for you. If you are hesitant to do that, I'll be glad to take

a drink along with you that, you know, it's not poison or anything like that, but I would warn you that it does contain excessive amounts in my opinion of lead and copper and it is highly corrosive, which we have proven.

COMMISSIONER DEASON: Let the record reflect it also contains a spider.

WITNESS MYNATT: Is there a spider in there?

COMMISSIONER DEASON: There's a spider in there.

WITNESS MYNATT: Oh, my goodness. I didn't see that. I would like to see that. I didn't see the spider before.

COMMISSIONER DEASON: It may have been in the jar before you poured the water in, I don't know, but there is definitely a spider in there.

WITNESS MYNATT: In that case, I won't ask you to drink it.

MR. SHREVE: Commissioner, if it's okay, I'll volunteer for Mr. Hoffman, the attorney for SSU, to drink it.

WITNESS MYNATT: But if it did not have a spider in it, would you take a drink of it?

Have you ever drank any of the water supplied to us from Beacon Hills?

COMMISSIONER DEASON: Not to my knowledge, I've never drank any of the water.

WITNESS MYNATT: I really think you people should.

One last statement. In 54 years I have lived in seven states counting Florida. I have never had to replace but one time a water heater. That water heater was seven years old. I have never seen so many water heaters have to be replaced as I have here in Florida or in the SSU area. I've lived in Tennessee, Alabama, Ohio, Kansas, Georgia, Virginia, up and down the East Coast and the Midwest. This is the worst water I have ever seen in my life.

I thank you for your attention.

Are there any questions?

COMMISSIONER DEASON: Any questions?

COMMISSIONER GARCIA: Let me ask you about the test. Who did you do this with at SSU?

WITNESS MYNATT: It was a gentleman named Gene Manning who approached me after the last meeting and authorized the test. As a little addendum, when I spoke with Gene later and he acknowledged that the first draw was extremely high and probably due to the fact that they had used a brand-new water faucet and hadn't purged it, he said that he would like to redo the test, to which I gladly acquiesced, and he said he would get in touch with me after the first of the year. It is now, what, the 25th of January? I

haven't heard from anybody yet.

The name of the gentleman who did the test was Donnie Holcomb, an employee of SSU, a very nice young man.

COMMISSIONER GARCIA: We'll have Mr. Holcomb then get back to you on that. And he said that another test was done, and, if you do have it so we can -- so that he can --

WITNESS MYNATT: Another test has not been done.

COMMISSIONER GARCIA: Oh.

WITNESS MYNATT: They just said they wanted to do one and I would gladly ask them to do it.

It was interesting that when they called me to find out the results from the people that I sent my samples to that they did not want to tell me what their results were. I would like to know what those were, Commissioner Garcia, if you could arrange that.

You will?

COMMISSIONER GARCIA: Yes, I will.

WITNESS MYNATT: I appreciate that.

COMMISSIONER GARCIA: Mr. Hoffman, if you can get us the results for him.

MR. HOFFMAN: Yes, sir.

WITNESS MYNATT: And also a second test, in fairness to all concerned?

COMMISSIONER GARCIA: Yes.

WITNESS MYNATT: Thank you.

COMMISSIONER GARCIA: I don't think there will be a problem with that.

WITNESS MYNATT: Thank you very much.

COMMISSIONER GARCIA: I'm sure the company would do that.

WITNESS MYNATT: Any other questions?

COMMISSIONER DEASON: Yes.

Do you wish to have the survey/petitions identified as an exhibit in this proceeding?

WITNESS MYNATT: Yes, I sure do. In fact, I should state that the petition says, "In an effort to persuade the Florida Public Service Commission to deny SSU's application for a rate increase and an increase in service availability charges, we wish that a copy of all these signed forms be submitted and accepted by the PSC as a petition and that copies of the survey information will be submitted for inclusion in the correspondence file of Docket No. 9050495-WS as additional information in the matter of public record."

Will you accept those?

COMMISSIONER DEASON: Yes. I will assign Exhibit No. 36 to them.

WITNESS MYNATT: No. 36?

COMMISSIONER DEASON: 36.

WITNESS MYNATT: Thank you.

COMMISSIONER DEASON: And I will get this to the court reporter to include as an exhibit that was identified at this hearing.

(The document last above referred to was received into evidence as Exhibit No. 36.)

MR. JAEGER: Commissioner Deason, was that the Harbour Woods Civic Association? Is that the name on the petition or is that --

COMMISSIONER DEASON: Yes.

MR. JAEGER: Thank you.

COMMISSIONER GARCIA: Mr. Willis, if I could ask you real quick, what is the standard? Do you know by any chance? I imagine that 40 parts is probably in violation, but is this level high or low in terms of what the state standard is?

MR. WILLIS: Commissioner, I don't know, but my staff engineers do.

COMMISSIONER GARCIA: Okay.

MR. WILLIS: One of my staff -- I would like to point out that one of my staff engineers is going to be calling the gentleman next week and they can discuss that with him along with his other concern

that they're calling him about.

COMMISSIONER GARCIA: Okay.

Just so you know, for everyone else who speaks, just because you ask questions and we don't tell someone to please answer, everything you're saying is being written down and we will get back to you on certain questions, staff will get back to you, if it's something that we can objectively define for you.

WITNESS MYNATT: Thank you.

MR. HOFFMAN: Commissioner Deason, may I ask a couple of questions?

COMMISSIONER DEASON: Yes, Mr. Hoffman.

MR. HOFFMAN: Thank you.

Mr. Mynatt, I just have a couple of questions.

I took a look at the copy of the exhibit that you gave the court reporter, and my first question is, can I get a copy of that exhibit from you at some point?

WITNESS MYNATT: You certainly may. There's an extra copy right there.

MR. HOFFMAN: Thank you.

And, secondly, the first page of that exhibit contains some text and then there's an attachment to that first page, can you tell me who drafted the first page of that exhibit?

WITNESS MYNATT: Are you speaking of this one

right here?

MR. HOFFMAN: Exhibit -- the one that's been marked as Exhibit 36, yes, sir.

WITNESS MYNATT: Yes, sir. I did.

MR. HOFFMAN: Okay. Thank you.

Sir, that's all I have. Thank you.

COMMISSIONER DEASON: Any other questions?

MR. TWOMEY: I have a question, sir, Mr. Chairman.

COMMISSIONER DEASON: Sure.

MR. TWOMEY: Sir, do you have any awareness of how your neighbors, that is surrounding neighborhoods that receive water from the City of Jacksonville, what the quality of their water is?

WITNESS MYNATT: The same, poor, very poor. I've attended at least one other formal meeting of an association adjacent to ours and listened to their comments and it's the same that you hear all the time everywhere.

MR. TWOMEY: City water.

WITNESS MYNATT: Oh, city water. No, not city water, just Beacon Hills water. I'm sorry.

MR. TWOMEY: Okay. What is the comparison? Are there people near you that you know that have city water?

WITNESS MYNATT: Not to my knowledge.

MR. TWOMEY: Okay. Thank you.

MR. SHREVE: Sir, in all these states that you named where you had, you said, much better quality of water than you have here from Southern States Utilities, but in those states and for those systems, you really didn't have the benefit of the expertise of Minnesota Power and the expertise of Southern States in holding the rates down, did you?

WITNESS MYNATT: Not to my knowledge, no. Thank goodness.

MR. SHREVE: Thank you.

COMMISSIONER DEASON: Thank you, sir.

(Witness excused.)

- - -

COMMISSIONER DEASON: Mr. Shreve, you may call your next witness.

MR. SHREVE: Mr. Gallagher.

TERRY GALLAGHER,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS GALLAGHER: Good evening. My name is Terry Gallagher, G-a-l-l-a-g-h-e-r. I reside at 6050 Shadow Oak Court. I'm serviced by the Woodmere Substation.

My concerns tonight are not so much the quality of water but justifying the rates not only that have already been approved in the interim but with the increases that are soon to come with the example that's already been set with the interim being passed.

There's three areas that are affecting us here, the first being the PSC. One problem I have with them is they have not investigated outside utilities or utilities within the industry to see if the rates that SSU is charging are comparable for like services or like instances that we are receiving.

As counsel for SSU stated for the argument for uniform rates is that if the property and resources are the same, then the uniform rates would be the same. Well, why aren't our rates as low as JEA?

Apparently they have not given the PSC the adequate information to judge whether these rates that they're proposing are within line with other utilities of the same industry.

Our current rates now are going to be going up 23 percent with the interim increase, me as a Woodmere resident.

At the modified stand-alone or the uniform rate, which hopefully will not be passed, we're looking at a 42 to 43 percent increase over rates that are already higher

than what the JEA has for the same service, and also we've heard problems of the quality of service.

The second section is SSU. It doesn't seem that they have been diligent in their efforts to master profitable ventures and they've smoke-screened the management practices. If SSU instead has been managing their business in seeking how to -- instead of seeking how to pay for these increases in the environmental costs, which don't drop out of the sky all at once, these things have to be planned in like any other business, they're seeking ways to manage the PSC of how to get us to pay for it.

The idea of the uniform rates, again other municipalities or localities subsidizing areas other than their own and the fact that these areas are -- of course, living in different areas, there's going to be different reasons for different costs.

But the argument of the uniform rates versus stand-alone shouldn't be the argument at all. The argument of the rates should be the amount of the increases, which are 42 percent, is in great excess to anything out there right now.

As far as the people, we know that rates do have to go up sometimes, but we need to make sure that we contact the PSC and let them know of our concerns, contact

your neighborhood, your associations, and now from what we hear the Governor and Lieutenant Governor's Office.

And these costs as they come in to us in higher -- and these costs will also affect local businesses in our area and, in turn, we're going to see increased cost in services to us by people recouping the cost of the water service to themselves.

A suggestion for everybody is, next month when you have to pay the extra 23 percent is to pay it in person and pay it in pennies so they can do something to earn the increase.

And we also need to know that you have to concern yourself not only with the quality of the water but with the quality of the people that manage the water.

That's all I have.

Any questions?

COMMISSIONER DEASON: Mr. Hoffman?

MR. HOFFMAN: Thank you, Commissioner Deason.

Just to comment, Mr. Gallagher, I wanted to let you know that in that separate proceeding that I mentioned that took place in 1994 where the PSC took a look at Southern States' rate structure and centered on the issue of whether uniform rates were the best rate structure, there was a survey in evidence submitted in that proceeding that the Commissioners

did consider which showed a comparison of Southern States' proposed uniform rates or existing uniform rates at that time as compared to the rates of other utilities across the state of similar size. If you'd like, I can get you that information, but I did want to let you know that they looked at that type of information in 1994.

WITNESS GALLAGHER: And, again, the concern was that as I have spoken with the PSC counsel at the last meeting and they had said that they had looked in state. But the question is, you also manage by now the state concern and there's other out-of-state utilities that have gone through the same environmental impacts, and these organizations have not been looked at or how these rate increases could have been handled differently.

MR. HOFFMAN: Thank you. That's all I have.

MR. SHREVE: Mr. Gallagher, if Mr. Hoffman is going to furnish you something like that, it probably would be good if he would furnish you something that would show the rates that would be justified to use -- that Southern States would use to justify to compare those around the state, because I do not remember a Public Service Commission for the last 18 years granting any utility rates in the amounts that they

are extracting from individual systems and then masking that horrendous increase by spreading it over. Consider the uniform rates or the stand-alone, but you ought to get the pot right first. All I'm saying is, you ought to be comparing what some of those outrageous rates are to the other systems are around the state and I would imagine Southern States is right up there.

WITNESS GALLAGHER: Right now with the stand-alone increase, they're going to be 27 percent higher than my same bill if I was under the JEA. So if there was a comparison, it wasn't looked at adequately.

One last concern is that as the PSC looks into these organizations and these utilities, instead of full profit industries and utilities, look for not-for-profit a situation as possibly a possibility to alleviating the need for the bottom line, so to speak.

Any other questions?

COMMISSIONER DEASON: There are no other questions. Thank you, sir.

(Witness excused.)

- - -

MR. SHREVE: Commander Roberts.

COMMANDER ALFRED M. ROBERTS, JR.,
having been previously sworn as a witness, testified as follows:

WITNESS ROBERTS: I'm Commander Roberts and I've been a property owner in Palm Valley for over 40 years.

What I have a hard time seeing is how they could spend over a million and a half dollars on the water system to 199 customers.

When I first went to Palm Valley, shortly after I had been there, the then existing water system offered to sell it to me for $11,000. I refused. I didn't want the responsibility.

The water down there is sulfur, quite strong, but if you aerate it, the sulfur, which is in a gaseous form bubbles out so you get some pretty good water after you aerate it. So I put in an artesian well, an aerator, aerated the water and I've had no problem.

I have five houses down there on five lots and I supply water to them them from an artesian well. It's very hard, though, for me to understand how anyone could raise the price of their commodity by six, six times what they were charging.

Thank you.

COMMISSIONER DEASON: Any questions?

(Applause.)

COMMISSIONER GARCIA: Sir, let me ask you something. You said you were from Palm Valley?

WITNESS ROBERTS: Palm Valley, that's correct.

COMMISSIONER GARCIA: And you said you supply water to those houses, but that's for irrigation purposes; correct? You said you have five houses and you supply water to them?

WITNESS ROBERTS: I have five houses and I supply them from an artesian well after it goes through an aerator.

COMMISSIONER GARCIA: For drinking purposes?

WITNESS ROBERTS: Yes, for all purposes.

COMMISSIONER GARCIA: And so what -- do you live in one of those houses, or why are you in opposition?

WITNESS ROBERTS: I did for a long time, yes.

COMMISSIONER GARCIA: Okay. So you're -- but the house you currently live in is not supplied by a well, is that the point?

WITNESS ROBERTS: I have a condo at the beach.

COMMISSIONER GARCIA: Oh, okay.

MR. SHREVE: Sir, I have one question.

I'm not sure if you've been able to decipher it from the information sent to you, but if the rates -- I'm taking it off the blue sheet passed out by the Public Service Commission -- for just 6,000 gallons,

and that's the calculation I did, you get some included in your base facility charge, don't you, 3,000 gallons? So would your rate for 6,000 gallons be about $12.17 before Southern States?

WITNESS ROBERTS: Well, I don't get any water from the system. I have my own artesian well.

MR. SHREVE: All right, sir.

WITNESS ROBERTS: However, I do have stock in Minnesota Power & Light. They're selling at a PE ratio of about 11 and they pay a little over 6 percent. So somewhere along the line a lot of money is disappearing.

MR. SHREVE: Yes, sir. But what I was wondering was --

(Applause.)

MR. SHREVE: (Continued) Maybe we could get some of that back and lower the rates.

But the point I was trying to make, it looks like your rates go from $12.17 for 6,000 gallons to $91.86 for 6,000 gallons according to their calculations out of this rate case.

Thank you, sir.

MR. HOFFMAN: Commissioner Deason --

COMMISSIONER DEASON: Yes.

MR. HOFFMAN: I think Mr. Shreve is mistaken, and

during the next break I'll take a look, but I think the $91.86 represents the 1994 average residential water use for that particular system, and, in fact, if the company's request was granted in full under a uniform rate, the bill for the Palm Valley customer would be $29.

MR. SHREVE: That's the fallacy of this whole thing when you talk about uniform rates for each system. Southern States walks away with the full bill as though it were on stand-alone rates. Regardless of where they get the money, they walk with the money. And my calculation was on 6,000 gallons based on Southern States' request.

MR. HOFFMAN: Well, I was just trying to --

COMMISSIONER DEASON: Mr. Hoffman, you can pursue it with Mr. Shreve at the break. Right now we're here to hear the witnesses.

MR. HOFFMAN: I just wanted the record to be clear, Commissioner.

MR. SHREVE: You-all have been really good about keeping it clear.

(Witness excused.)

- - -

MR. SHREVE: Mr. Maylin.

RONNIE MAYLIN,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS MAYLIN: My name is Ronnie Maylin. I live at 13 North Roscoe in Palm Valley, Florida.

COMMISSIONER DEASON: I'm sorry, sir, your name again?

WITNESS MAYLIN: Palm Valley, Florida.

Ronnie Maylin, M-a-y-l-i-n.

COMMISSIONER GARCIA: Mr. Maylin, you have to get really close there.

WITNESS MAYLIN: Okay.

I appreciate the opportunity to address the Commission.

My rates are going to increase 560 percent according to the information on this sheet. For one drop of 3,000 gallons is going from $9.35 to $61.83.

I'll submit to you that we could contract with Perrier or the Transatlantic Pipeline in and get designer water cheaper than that.

I work for municipal utilities that you regulate, so I know something about infrastructure and long-term financing and capital projects. They say that they put an infrastructure down there, I think it was a million two

hundred thousand dollars in a four-mile straight line. I question that figure based on prices I've obtained for PVC pipe and other things.

It seems like they should have to advertise the rate increases over a 20-year period just like a lot of the electric utilities that you regulate.

And I'd also like to ask you if Florida Power & Light and Florida Power Corporation which serves in multiple counties and has infrastructure set up in the various counties all over the state, are they forced to have a uniform rate structure?

COMMISSIONER DEASON: Well, they do have a uniform rate structure.

WITNESS MAYLIN: They do have a uniform rate structure.

So they're really not any different than Southern States Utilities are.

COMMISSIONER DEASON: Well, that's a debatable issue and that's part of --

WITNESS MAYLIN: I'm sure it is. But, essentially, I think they're basically the same.

So -- of course, I'm a fan of the uniform rate structure because it's a whole lot less than the $61 a month that I would be paying.

I've done some mathematics also, but I'm not

going to submit it to you in detail, but over a 20-year period, if the rates were increased from the $9 a month, the base rate, to about $19 a month, which would be a little over a hundred percent increase there, and the gallonage increase went from 94 cents, which it is now for a thousand gallons over three thousand, to about $2.94, they would be able to recoup their investment that they say they have, that I disagree that they do have, over a 20-year period and, you know, if that's the way it's got to be, that's fair and equitable. But for them to come in here and ask for it, I have to admit it will recoup those expenditures in such a short period of time. I just don't understand how they could operate like that.

Like I say, I work for an electric utility that you people regulate and I can assure you, if we went in front of the Commission and asked for a ten percent rate increase, we'd get run out of Tallahassee. I promise you that would happen.

And another thing, we're -- and I know that you-all are aware of this, we're going to have to operate probably in a competitive environment in a few years and we're doing everything we can, along with the other electric utilities in the state, to downsize, rightsize, whatever you want to call it, we've also got -- we've got capital improvement expenditures that are recurring every

year. We haven't had a rate increase in our utility in probably seven or eight years. We're very competitive for a nongenerating utility. So I do have a little experience in the utility business. And what these people are asking for is so far out of line, 650 (sic) percent increase is unconscionable.

If the Attorney General was here, I would suggest to him that he take the drug dealers and the bank robbers and have the State of Florida set them up in business and they wouldn't have to do any more crime -- the crime problem would be solved -- and make all the money they could and it would all be legal.

And I agree with the gentleman that sat over here. I think maybe the investigation on Whitewater ought to be dropped. It ought to be Southern States water.

I thank you for your time.

(Applause.)

MR. SHREVE: Wait, sir. Can I ask you a question?

COMMISSIONER DEASON: Go ahead, Jack.

MR. SHREVE: Sir, you made a really good point there that I hadn't thought about before. Southern States -- when the uniform rate argument is made that, okay, Florida Power & Light and Florida Power and all of them and the telephone companies have uniform

rates, and that's fine.

If Florida Power & Light sold a piece of property and made a profit on it that had been in the rate base that had been supported by the customers, I'll guarantee you, and it's been done a lot of times, the customers would receive the benefit of it, and Florida Power & Light accepts that. Florida Power is the same way, but not Southern States. They walked away with the $19 million and the $6 million.

WITNESS MAYLIN: Absolutely. I agree with that.

MR. HOFFMAN: Mr. Chairman, I'm going to object. I think that what we're allowed to do is to ask questions to the witnesses. We've already made our opening statements. I think that you've already instructed us if we want to take up a point later on, we can take it up off the record. But Mr. Shreve did not ask a question. He's making more opening statement, he's making more argument. I happen to disagree. I'm not going to respond, because I think that part of the hearing is over. And I just want to note my objection for the record.

MR. SHREVE: Let him have it for the record, but I'd like to respond to his objection.

We're here to inform the customers --

COMMISSIONER DEASON: Mr. Shreve, just a second.

Your objection is noted.

I'm going to allow you to respond, Mr. Shreve --

MR. SHREVE: Thank you, sir.

COMMISSIONER DEASON: -- but we really need to get on to hearing the witnesses.

MR. SHREVE: Yes, sir.

We are here to inform the customers of Southern States Utilities, and Southern States has done more to mislead the customers of this state than any other utility I have ever seen, and the Chairman can stop me any time he wants to if he thinks it's inappropriate, but until that time, I am going to tell them what I consider to be the truth that Southern States has not told them.

(Applause.)

COMMISSIONER GARCIA: Sir, I wanted to ask you. You said that the company had made some expenditures to your system and you stated that they had done a four-mile pipe or -- what exactly is it that they did in your system and that they charged off? What was it, a million-plus dollars? What was the requirement?

WITNESS MAYLIN: The press release said $1,200,000. I have to believe the press release because that's the only information I have. It was a $1,200,000 infrastructure. It was a four-mile

straight line down one road and maybe four blocks up another road.

COMMISSIONER GARCIA: And they replaced what was there before or --

WITNESS MAYLIN: They replaced existing pipes with new pipes.

COMMISSIONER GARCIA: Okay.

WITNESS MAYLIN: So when I run my figures, I gave them the benefit of the doubt and I took high-pressure six-inch and four-inch water lines, which last month consisted through the whole thing, because they decreased it to get the pressure up on the end of the system, but just being generous to them, I cannot come up with -- that leaves about $700,000 for labor and it's not there. It doesn't exist.

COMMISSIONER GARCIA: Sir, is there growth in that area?

WITNESS MAYLIN: No, sir. The area that they serve is almost built out. I'd say there's probably maybe ten vacant lots in that area.

COMMISSIONER GARCIA: Okay.

WITNESS MAYLIN: And it's not going to get any bigger.

And I could be on the other side of the fence

against uniform rate structures. If I were over there, I could probably present a case for it, but a 560 percent increase, I've got to be on the side of uniform rates. That's just --

Thank you.

COMMISSIONER GARCIA: Thank you, sir.

MR. SHREVE: Thank you, sir.

(Applause.)

(Witness excused.)

- - -

MR. SHREVE: Mr. Phil Caldwell.

PHIL CALDWELL,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS CALDWELL: Good evening. My name is Phil Caldwell, C-a-l-d-w-e-l-l. I live at 13 Willow Pond Road, Fernandina Beach, and I'm served by the Nassau or the Amelia Island operation of this SSU.

I wanted to give you two little anecdotes and then I've got a question for you-all.

First, I came into the area in 1992 and my introduction to Southern States Utilities was along these lines: I had made a $120 deposit with the utility company and in the process of moving didn't receive mail for a

while. I was forty dollars -- I had a $40 utility bill with Southern States that wasn't paid, so with a $120 deposit and a $40 utility bill, they turned my water off.

I think that that illustrates the type of mentality that Southern States has. They're not interested in the customer service.

And the other --

(Applause.)

WITNESS CALDWELL: (Continued) And the other little anecdote that I would like to tell you is when I go away for a month and come back, my water smells so bad of sulfur that it's unbelievable. I can smell people taking a shower two doors away. It's terrible.

The thing though that most concerns me is the amount of this rate increase. I'm a retired Corps of Engineers officer and I know that the Army figures that the average soldier in garrison uses 90 to 100 gallons of water per day. If I take that 90 to 100 gallons of water per day and I -- say a family of two living on Amelia Island would be paying their new rates, it would be $55 a month for water. That is absurd in my mind.

And my next question to you folks is that at what point do you say this utility company is just totally inefficient? We've got to do something about the utility company and give the people some sort of a break. Can you

do anything? Can you?

COMMISSIONER DEASON: If we find that the company is inefficient in their operations and we find that costs are not prudently incurred, we can disallow those costs and not allow them an opportunity to recover those costs, that we have that authority to do that, if we have evidence to make that finding.

WITNESS CALDWELL: Well, I hope that that will be one of the considerations, because I cannot -- I came from Virginia down here. I grew up in Florida. I'm a gator and I'm coming back home. But my utility -- my water bill in Virginia was $30 a quarter, which is one-sixth of what I'm going to be paying here. The water was good. They had problems up there with water, but ten dollars a month versus fifty-five, that's ridiculous.

COMMISSIONER DEASON: Questions?

No questions.

Thank you, sir.

(Witness excused.)

- - -

MR. SHREVE: Mr. Brewer.

CHARLES BREWER,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as

follows:

WITNESS BREWER: My name is Charles Brewer. I also live on Amelia Island, Fernandina Beach, at 8 Willow Pond Road.

COMMISSIONER GARCIA: Repeat the address, please, and speak up right into the mike.

WITNESS BREWER: (Continued)

8 Willow Pond Road, Fernandina Beach, Florida, 32034.

I have been a Southern States customer for some 15 years. I've replaced a hot water heater. When I came there I insisted on copper plumbing, which has now been replaced at 12 years with plastic pipe.

In looking at these rates, it looks like the household, the small consumer, is subsidizing the big users. The ratio of the base facility charge for a household and a ten-inch meter, which I assume is an industrial concern or a big consumer of some sort, the ratio is about 180 there. But the costs are only about half that. It looks like the big consumers are profiting from the households. I wonder if this is a reasonable assumption.

Thank you. Any questions?

COMMISSIONER DEASON: Questions?

(No response.)

COMMISSIONER DEASON: I believe not. Thank you, sir.

(Witness excused.)

- - -

MR. SHREVE: Mr. Tyndall.

ROGER TYNDALL,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS TYNDALL: Roger Tyndall, T-y-n-d-a-l-l, 11 Willow Pond Road, Fernandina Beach, Florida 32034.

We're served by SSU up in Nassau County, and since we're served by a monopoly where the rates are excessive, we look to you for help and relief from these excessive rates.

Thank you.

COMMISSIONER DEASON: Thank you, sir.

(Applause.)

MR. SHREVE: Thank you, sir.

(Witness excused.)

- - -

MR. SHREVE: Mr. Glover Scott.

GLOVER SCOTT,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as

follows:

WITNESS SCOTT: Good evening, my name is Glover Scott. I reside 12909 --

COMMISSIONER KIESLING: You're going to have to get right up to the mike, get the mike up.

WITNESS SCOTT: Jupiter Hill Circle North, Jacksonville, Florida 32225, located inside of Hidden Hills Country Club. I am the president of the Hidden Hills Country Club Homeowners Association. We're currently a community of just over 300 homes with an expected total of nearly 500 homes upon the completion of the community.

I feel compelled to tell the Public Service Commission about our rates and how they have increased over time.

I've heard counsel for the SSU talk about rates and they go back to 1991. I'm glad he did that, because I based all of my data on 1991 rates.

COMMISSIONER GARCIA: May I ask you before you continue, what system is it?

THE WITNESS: Oh, I'm sorry. It's the Beacon Hills subdivision.

COMMISSIONER GARCIA: Beacon Hills. Thank you.

WITNESS SCOTT: Today's rates compared to 1991 are up 39 percent -- excuse me -- 42 percent on just the

basic water charge.

The gallon charge percentage increase today since 1991 is 44 percent.

Basic sewage charge is down 10 percent. That's the only minus figure I'll use all night long. But, to offset that, the gallonage sewage charge is up a hundred percent today compared to 1991.

If the proposed uniform rate increase goes into effect, which they are pulling for, we'll see an increase of 82 percent since 1991. That seems a little bit outrageous in a four to five-year time frame.

The gallon charge on water is 232 percent, basic sewage charge is 18 percent, and the basic gallon charge on sewage increase is 31 percent.

As you can see just from the percentage changes from 1991 to the present and also into the future, it's a hard figure to swallow. No pun intended.

The residents of our community are fed up with the increasing cost of water and the decrease in service. It is a sad day in our community when I hear senior citizens talking to the cashier at Publix about they have to sell their home because they can't afford to pay for the SSU water.

On a personal note, I have copies of my SSU water bill and my local utility's electric bill. And these

are the most recent ones. My current SSU utility bill, which I paid January 10th, I backed out all taxes so we can deal with apples and apples. My water bill right now is $98.08. My light bill for the same month was $79.63.

The month before, my water bill was $85.91, my light bill was $86.59.

I challenge every one of the members up here on the Commission and ask each one of you tonight if you budget more water -- more money for your water than you do your electricity. If you do, you're probably also a customer of SSU.

(Applause.)

WITNESS SCOTT: The quality of our water keeps going down. When my family moved into the area Thanksgiving Day, 1991, we rarely had problems with our water having a smell to it. Now routinely we have problems with the stench of our water. I thought it to be funny when we called an SSU customer service agent on a weekend and complained about our water having a terrible stench, and she replied, "This was caused because of high demand for water."

I doubt very seriously many people in the community were washing cars, watering grass, since every night that weekend the temperatures were in the twenties.

Later in the week my wife stopped an SSU serviceman, and he responded, "Somebody at the plant closed the wrong valve causing the water to go unchlorinated.

Several other members of the community have called me, being the president of the Hidden Hills Country Club Homeowners Association, to see if I could do anything to help resolve the problem, and I could not get any help from SSU.

I have asked members of the community to gather information about water quality so that we can have an independent company to test our water to be sure nobody in our community is being harmed, especially our children.

On a personal note, since building my home in 1991, I've had to replace shower plumbing, three of the innards inside of our commodes, and I currently have a kitchen faucet that just sprang a leak, and I wish I'd have taken it off to bring it with me tonight, and it's all due to corrosion.

I've also noticed in the past year, just about every garment I pull out of my washer, there's all sorts of stains on it. I was convinced maybe my washing machine is just old, worn out. Went to Sears, bought a brand-new washer and I'm still getting the same. So I figured, well, let's go get a brand-new dryer. I've got a brand-new dryer and I'm still getting the same stains.

I was fed up, I got tired of it, and I called SSU, I said, "I've got a garbage bag full of ruined clothes on my front porch, feel free to come and get it, and while you're here, take this bottle of water and sample it."

I wrote a nasty letter to them and requested a refund of $75 and I want it paid in ten days, otherwise, I'll seek other action. Guess what? I got my seventy-five bucks, but no letter attached telling me exactly what the $75 was for. I will consider it hush money.

SSU has not been responsible enough to deserve an increase of this magnitude in water of sewage rates. The Hidden Hills Country Club Homeowners Association believes SSU to have a uniform rate would cause abuse from SSU and promote inefficiencies in other utilities.

What is there to keep SSU from acquiring an old worn-out utility and pumping money into these utilities received from us, the customer, under the new uniform rate and turn around and sell it just like they did the Marco Island plant, I believe it was, and made loads of money for it.

By doing this, they can pass all the capital improvement costs right on to the customer. This is just like what Robin Hood did, rob the rich and pay the poor.

Let capitalism dictate the rate, not socialism; in other words, the uniform rate.

The community of Hidden Hills Country Club requests that the Public Service Commission allow a stand-alone rate, and, under no circumstances, agree to the requested uniform rate. I ask the Public Service Commission to be our first line of defense so that the members of our community, as well as other communities, will not have to resort to other means.

Stop SSU in their current track and say no to uniform rate, yes to the interim stand-alone rate, and no to any price increases, and, I say again, no price increases.

We, the customer, are already paying too much for an inferior product.

Thank you very much, Glover Scott, along with the other 300-plus families of the Hidden Hills Country Club Homeowners Association.

Do you have any questions for me?

MR. TWOMEY: I do, unless you want to go first.

MR. HOFFMAN: No, Mr. Twomey, you may go right ahead.

MR. TWOMEY: Mr. Glover --

WITNESS SCOTT: The last name is Scott, Mr. Scott.

MR. TWOMEY: I'm sorry, Mr. Scott.

WITNESS SCOTT: That's okay.

MR. TWOMEY: You were comparing your SSU water bill to your power company bill. Who is your power company?

WITNESS SCOTT: To what bill?

MR. TWOMEY: Your power -- your electric bill.

WITNESS SCOTT: Jacksonville Electric Authority.

MR. TWOMEY: Okay. Do you know who regulates them?

WITNESS SCOTT: They regulate themselves, basically.

MR. TWOMEY: Right.

WITNESS SCOTT: They're the city.

MR. TWOMEY: Do you buy bottled water or do you drink the water?

WITNESS SCOTT: Both.

MR. TWOMEY: Okay. I want to read a sentence to you and I want to see if if it's consistent with your concern about SSU buying dilapidated systems, or however you described it, this is the fourth page of the Minnesota Power CEO letter that the Lieutenant Governor sent out of concern for SSU to the Commission, and he's complaining about things that aren't going to happen now that they don't have uniform rates and have to give you a refund, if they ever do. And one of the things he complains about is,

he says -- listen to this and see if it's consistent with your concern.

He says, "FSU is being forced to relinquish its role as receiver of Enterprise Utilities Corporation because of the approximately one million dollars needed to provide a new adequate means for effluent disposal and the impact such an investment would have on customers."

Do you understand that?

WITNESS SCOTT: I believe you're playing into -- in other words, we can spread the costs among all the consumers of all the utilities outside there now.

MR. TWOMEY: What he's saying, if I read it correctly, is that we can't do this. We can't be the receiver because we can't have that extra million dollars without uniform rates. Now, if that's what he's saying, is that consistent with your concern about what uniform rates will cost?

WITNESS SCOTT: Yes.

MR. TWOMEY: Okay. Thank you very much.

COMMISSIONER DEASON: Mr. Shreve, hang on. We're going to take a ten-minute break and you can ask your questions.

(Short recess.)

COMMISSIONER DEASON: Ladies and gentlemen, if I

could have your attention, please, and ask you to take your places, we'll call the hearing back to order.

Mr. Scott, I apologize for interrupting your testimony. I believe Mr. Shreve has a question for you.

MR. SHREVE: Did you receive any cards or notices from Southern States about any of their meetings that would come just before this meeting? The reason I ask that, in the last few cases, last few hearings we've had this morning, last night, they've been sending out little cards. Have you received anything in this area about that?

WITNESS SCOTT: Yes, I have. It was a letter. I think have a copy of it.

MR. SHREVE: No, no, that's a different one.

WITNESS SCOTT: Okay.

MR. SHREVE: This was about a meeting that they were having to explain -- something like this.

WITNESS SCOTT: No, I did not receive that.

MR. SHREVE: Okay. So your group didn't receive these?

WITNESS SCOTT: No.

MR. SHREVE: Thank you.

(Witness excused.)

- - -

COMMISSIONER DEASON: Mr. Shreve, before you call the next witness, let me ask, are there any customers who have come in after the beginning of the hearing, after we swore witnesses in, who wish to testify? If there are customers who have not yet been sworn, I'm going to ask you to stand and raise your hand if you do wish to testify.

(Whereupon, additional witnesses were sworn in by Commissioner Deason.)

COMMISSIONER DEASON: Thank you. Please be seated.

MR. SHREVE: Mr. Schunk.

DONALD SCHUNK,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS SCHUNK: Good evening. I'm Donald Schunk. That's S-c-h-u-n-k. I reside at 11320 Portside Drive, Jacksonville, Florida, in a subdivision known as The Harbor.

I receive water and sewer service from SSU Beacon Hills plant.

I appeared before this Commission on September 20, 1995 representing The Harbor Civic Association.

I feel I must give kudos to SSU for their ability

to utterly confuse me concerning their proposed rate schedules, i.e., present rates, interim rates, final rates, stand-alone rates, modified stand-alone rates, uniform rates and ad infinitum.

I have, however, been able to compile some statistics. I moved to my present residence in 1991. Utilizing the monthly gallonage figure of 12,487, which SSU states is the average in my area, the rate of increase from 1991 prior to the interim rate change effective 1/23/96, was 63 percent, the present interim modified stand-alone rate, 54 percent, the proposed final stand-alone rate, 80 percent, the final modified stand-alone rate, 102 percent, and the final uniform rate, 143 percent.

In this period of time, inflation has hovered at the annual rate of about three percent.

At the September 20th, 1995 meeting, I was under the impression that based on a ruling by the First District Court of Appeal that Beacon Hills would have a stand-alone rate and that customers would be receiving a refund. I have heard nothing subsequent.

It appears that the position of SSU is call the rates what you will. No matter what the rate is called, we'll raise it to the level we desire.

SSU is a private water company and it is natural to assume that they will ask for all the money they can

get. They are interested in their bottom line, not the customers.

You, the Public Service Commission, on the other hand, are charged with representing us, the public; and, in that capacity, I implore you to represent the citizens of Florida, not SSU, and put a stop to their unwarranted excessive rate increases.

Beacon Hill residents desire a stand-alone rate. Reasonable water rates was one of the reasons we purchased homes in that area. We do not wish to subsidize other areas.

Thank you.

(Applause.)

COMMISSIONER GARCIA: Mr. Schunk -- sir, I just want to clarify something that --

WITNESS SCHUNK: Pardon me?

COMMISSIONER GARCIA: Over here.

I just wanted to clarify something that you stated about all the different rates that are in there, that was required by the Commission so that you could have a better understanding of the possibilities. I don't testify to the rest of the language that they may have given you at other times, but the reason you have all those different rate structures in there is that we wanted you to

understand, and Mr. Shreve asked us to make the company do that so that you could get a full understanding of what your exposure was. That's the reason that all those different rates -- I know it may have that effect to confuse you, but that wasn't our intention.

MR. TWOMEY: But, sir, isn't your greater confusion the fact that you thought - if I heard you correctly - that you thought if the District Court of Appeals said that uniform rates couldn't be applied that you thought you'd go back to the stand-alone rates at some point?

WITNESS SCHUNK: Yes. I thought after the First District Court of Appeal made that decision that we would get a roll-back in rates with a refund.

MR. TWOMEY: Right.

WITNESS SCHUNK: And it hasn't happened yet.

MR. TWOMEY: That's right. Now, I think you understand that the Commission has ordered that, don't you? They've ordered a change in rates and they've ordered the refunds, but they're seeking reconsideration from the Commission and I think that will be done in February.

WITNESS SCHUNK: Thank you.

MR. SHREVE: Commissioner Garcia is exactly right

about the rates that were sent out. We petitioned the Commission, and the reason we did it was because we honestly felt that the information that SSU had put out up to that point did not properly inform the customers as to what their real exposure was, what the possibility of the rates was, and the customers should know that, and we felt it tended to cut down on the interest of the people.

So Commissioner Garcia is exactly right, the notice that was approved by the Commission.

Now, Southern States has put out some other letters that we don't know all about.

COMMISSIONER GARCIA: Correct.

MR. SHREVE: But the notice that was approved by the Commission, we thought, fairly clearly laid out the different exposures for each one of the systems. But we petitioned for that and the Commissioner is correct.

WITNESS SCHUNK: Thank you.

COMMISSIONER GARCIA: Thank you.

(Witness excused.)

- - -

MR. SHREVE: Lisa Noe.

LISA NOE,

called as a witness on behalf of the Citizens of the State

of Florida, and having been duly sworn, testified as follows:

WITNESS NOE: My name is Lisa Noe, N-o-e. I live at 11575 Arbor Lake Circle South, 32225. I'm served by the Beacon Hills water system.

When I moved into my subdivision in 1986, my water rates were -- the total bill was roughly $48 a month -- excuse me -- $48 a quarter. Somewhere along the lines, that means that SSU has already managed to get over 300 percent increase on my water rates as they stand right now.

Being the president of the Valley Homeowners Association, we have 300 homes. We've tried to conserve water in the Valley. All of the irrigation is fed off of a lake water system that we pump our water out of the lake.

I would also like to complain again like Mr. Schunk did about the paperwork. Somewhere along the lines we had one rate where they based it on 8500 gallons, another time it was based on 9,000 gallons, the next time it was based on 12,500 gallons of usage.

I also want to complain about the timing of the letters that were sent. If they wanted people to show up to this meeting, I wouldn't have had that letter come out that said the rate had been approved and increased on January 23rd, 1986 (sic). They also said that the plant changes cost them a million dollars. Well, I think my 300

percent rate increase has covered that already.

Also I'd like to complain about the modified stand-alone. The stand-alone, the interim rate, it is one gigantic confusion that these general people do not understand. They just look at it and they say "I don't understand" and they throw it away.

Most of them won't come here because they feel like this is a done deal.

Mr. Twomey mentioned that the Governor had sent letters. Somewhere along the line the Commission has got to remember that they're supposed to be on our side too, and that even though these people do not show up to this meeting that they deserve the right to have your fair opinion.

That's all I have to say.

MR. TWOMEY: Ms. Noe --

WITNESS NOE: Yes.

MR. TWOMEY: Didn't in fact that communication, and I don't know if you have it from SSU, but if you do, maybe you can refer to it, but didn't it say that SSU said it was going to commit a million dollars in improvements to your plant?

WITNESS NOE: I thought -- maybe I didn't read it correctly, but I thought it said that they had spent a million dollars in plant improvements.

MR. TWOMEY: It didn't. It said "commit," and I'd ask you to look at that. Maybe we can find one so you can come back and so we can help get the Commissioners clear on it that -- as to whether or not it said "committed," because committed and what they have said in their filings and their testimony to date has generally meant what they're promising and what they say they're going to spend through the end.

WITNESS NOE: I could have misread the --

COMMISSIONER GARCIA: Mr. Twomey, could you explain what you're saying because I didn't understand?

MR. TWOMEY: Yes, sir. The point is this, she says she thought they said they spent a million dollars in plant in service. One of the other customers out here before the start of the meeting showed me the same letter, I think, that she's referring to, and it said "committed," that SSU --

COMMISSIONER GARCIA: Why don't we just require Mr. Hoffman to give us that letter so we can -- I think that's part of the filing, though. Mr. Shreve has asked for all the correspondence that's been sent out, so we'll get that sooner or later.

MR. TWOMEY: Yes, sir. I don't want to belabor this, I just want to make it clear that there is a

distinction between whether they spent a million bucks so far and whether they're promising to spend a million bucks through the end of this year, that it's a major distinction, and that if the customers don't understand it and if you-all don't understand it, it's something that needs to be understood. But I'll get the letter -- I'm going to go out there and find one -- a witness now.

COMMISSIONER DEASON: Well, if there is a witness who's going to be coming up that has the letter, maybe they can clarify that for us. If not, I know that at today's hearing, Mr. Fowler (phonetic) committed to Mr. Shreve to provide him all of the correspondence that has been provided to customers and others in this proceeding.

MR. SHREVE: Customers, governmental, everybody.

COMMISSIONER DEASON: So we will definitely have a copy of that submitted somewhere during the course of this proceeding and obviously during the revenue requirements phase of this hearing we're going to be looking into dollars that have been spent versus dollars that are committed to be spent.

MR. SHREVE: And, Commissioner, we'll do that as soon as we can and would like to coordinate that with your Commission staff and we'll go down and get those.

WITNESS NOE: Yes, it does say over a million dollars has been committed this year to improve your service.

MR. TWOMEY: Okay.

UNIDENTIFIED SPEAKER: And what was the date of the letter, Ms. Noe?

WITNESS NOE: January 18, 1996 was the date they have on the top of it. I did not receive it until -- I believe it was January 22nd.

COMMISSIONER DEASON: Thank you, Ms. Noe, and we appreciate that clarification.

Any other questions from Ms. Noe?

Thank you.

(Applause.)

(Witness excused.)

- - -

MR. SHREVE: Chuck Mitzel.

CHUCK MITZEL,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS MITZEL: My name is Chuck Mitzel and I reside at 319 North Roscoe Boulevard, Ponte Vedra Beach, Florida 32082.

I'm new at this. I just came -- this is my first

meeting.

COMMISSIONER GARCIA: Could you tell us what system you take water from?

WITNESS MITZEL: Palm Valley.

COMMISSIONER GARCIA: Palm Valley? Thank you.

WITNESS MITZEL: I'm new at this, but there's a lot of things I don't understand. I'm looking at some rate sheets here that one was postmarked December 18th, 1995. It says, "Proposed interim rates for a five-eighths and three-quarter-inch meter, $12.24."

The next one was postmarked 12/29, "Commission approved interim rate, $61.83."

How do we get up from $12 to $61? Who asked for it? Who approved it? You undoubtedly did, but did you change the rates or did they? I mean I'm talking eleven days they went up $51. Somebody has got to answer my question.

COMMISSIONER DEASON: I'll be glad to answer your question. The Commission approved the interim increase. It was based upon a revenue requirement, that is total dollars, from customers to the company less than what they requested, but we approved a stand-alone -- a modified stand-alone rate structure which this Commission felt was the requirement from the District Court of Appeal decision and that rate

structure -- changing from a uniform rate structure, that rate structure changed the company's request for each individual system and that's the reason that there are fluctuations from the actual rates that the company requested versus the rates that were approved on interim.

Now, that's my understanding. If I'm incorrect, I'll have staff correct me, but that's my basic understanding.

They need some clarification on that, Mr. Willis, if you could amplify.

MR. WILLIS: There needs to be a little bit more clarification to it.

The rates for Palm Valley were never under the uniform rate structure prior to this case. They were under the nonjurisdictional or non -- systems that were not included --

COMMISSIONER DEASON: They were not part of that hundred and twenty-seven from the previous --

MR. WILLIS: That's correct. The rates the company requested for interim were based on a uniform rate, which included all systems, and the rate that was set for Palm Valley was a stand-alone, pure stand-alone rate.

COMMISSIONER DEASON: So that accounted for the

difference?

MR. WILLIS: That's correct. This is a system that had about one million dollars worth of infrastructure put in since it was purchased.

COMMISSIONER DEASON: According to the company's filing?

MR. WILLIS: According to the company's filing.

WITNESS MITZEL: How long have you-all been working on this?

COMMISSIONER DEASON: Hold on just one second.

Mr. Shreve, do you want to say something at this point?

MR. SHREVE: Well, just -- I don't disagree with anything you or Marshall has said. That was the notice that we objected to because we felt it was the interim request that had already been turned down, and SSU insisted on sending one out and we felt it was going to be misleading and make the customers think that the Commission had granted more than they actually requested, and SSU has at some of their hearings told the customers exactly that.

WITNESS MITZEL: This is an eleven-day lie is what it is, and I'm not afraid to say "lie." It's an eleven-day lie. You would have had all of Palm Valley down here tonight if that eighteenth said $61. You've

been working on this for years and you can come up here and tell me that between the 18th of December and the 29th of December that rate had to jump $51? I don't believe so. I don't believe him and I don't believe you.

COMMISSIONER DEASON: Well, sir, I can't say anything to make you believe me. All I can tell you --

WITNESS MITZEL: I know you can't.

COMMISSIONER DEASON: -- is that it's my understanding of the factual situation as the way that it happened, and that is, as explained by the staff, and my understanding, that is what has happened. It is a difference in the rate structure --

WITNESS MITZEL: Okay. I have another question.

COMMISSIONER DEASON: -- that accounted for that difference.

WITNESS MITZEL: I have another question. What did you pay for the Palm Valley system, sir? What did SSU pay for the Palm Valley system? Was it given to you?

MR. HOFFMAN: I don't know the answer to that.

WITNESS MITZEL: Well, I think it was given to you.

MR. HOFFMAN: I don't know if that's true or not.

WITNESS MITZEL: (Continued) Okay. Here again, corporate America -- I don't have a problem with corporate America, but you take up dilapidated systems to build revenue no matter what you do with it.

I built a house during a period of time that the EPA came out there and put a meter on the house, on the water line to this house, and said to me, in June of 1992, in the next 30 days if that dropped below 20 pounds per square inch of pressure, you can't get a certificate of occupancy to your house. So do you know what the county did? The county says you can have wells now. Come down and get your permit. I was dumb. I didn't do it.

This is a farce. It's a farce on their side and it's a farce on the State of Florida on your side if you approve anything like this.

We have people out there in the Valley -- it's an old place, it's a nice place to live -- some of the ladies are back here right now -- they can't afford that, can't afford it at all. So somebody picked out of the sky $61 for 3,000 gallons. These people cannot afford it. They have a hard time holding onto their property that's beautiful property, it's escalated in value so much that their taxes are so high they can't hardly hold onto it. But let that go in there, they're paying half of their electric rates. This Commission is wrong to approve

anything like that whatsoever.

They buy dilapidated systems, yeah, they put a million dollars into it. Let me tell you what, they want that system to grow their income base and they knew that they could get what they did. That's all they're doing is going around buying old things that are run down so they could increase -- 12.25 percent they want a return on equity, huh? Okay. You give me any corporation and after -- am I right -- after tax of 10.32 percent? Well, you're about 80 percent higher than any top Fortune 500 company, and that's pretty pathetic.

And that's all I've got to say.

(Applause.)

MR. SHREVE: Sir, you asked if it was twelve -- if it was ten point something after taxes. They want 12.25 on their in- -- well, it's not even their investment -- after taxes. It's not the ten-something, it's 12.25.

(Witness excused.)

- - -

MR. SHREVE: Mr. Bartlett.

BARON BARTLETT,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS BARTLETT: Thank you, Mr. Chairman. My name is Baron Bartlett, B-a-r-o-n B-a-r-t-l-e-t-t, 187 North Roscoe, Palm Valley, Florida.

It's easy to point out the system that I'm in. It's the one with the highest rate increase and that's why I'm here.

I also have the dubious honor of being one of the few attorneys involved in the acquisition of the Palm Valley water system, and even though I am an attorney, I'm not being paid tonight like the rest of these guys, but I was involved from day one with the acquisition of the Palm Valley water system by SSU.

I also have some considerable personal experience in working with the Department of Environmental Protection, the EPA, and professional experience in negotiating consent orders and utility orders that involved Southern States Utilities.

And for the record let me state that my involvement in the sale of the utility from Ravens Wood Forest to Mr. Hoffman's company, Southern States Utilities, involved a purchase price of $55,000.

It also -- and I challenge you to equate 70 -- let's see -- $61 a month for 200 customers, I think you could see pretty quickly the stand-alone rate repeats their initial investment plus the investment that they

purportedly made in the improvement of the system.

At the time of the sale in the early '90s, the system was dilapidated and part of the requirement by the St. Johns County Commissioners and the existing jurisdictional agencies required that SSU upgrade the system, and at that point they represented in writing and on record that those total estimated charges will be approximately $550,000.

Ladies and Gentlemen, if you go dig a hole in my front yard, that PVC pipe is not PVC, it must be gold, because they're claiming now it cost them a million five to get these improvements done.

My point in going back to the 1980 and 1990 system addresses two issues: Firstly, SSU came to town with a "Gee, let us fix your system and we'll do everything we can to hold the rates down," and a number of us met with SSU, we had public hearings, and we also drew the county in in an attempt, St. Johns County, in an attempt to assist us in trying to get some relief from the water issue. We had serious water quality issues at the time, water pressure issues and availability of water.

In negotiating with the county, St. Johns County, and also in negotiating with SSU and the Department of Environmental Protection, consent orders were entered into requiring SSU to update immediately the system to bring it

to a point that the water pressure was correct and also the water quality was upgraded, and, in so doing, they were required to enter into an interconnect and a warehousing agreement, if you will, a wholesale agreement with another utility in order to provide service.

The utility agreement with Intercoastal Utilities dated April 7th, 1993, and approved by all jurisdictional parties at that time, including the PSC, noted in the agreement itself, and I'm reading Docket No. 930009 dated April 7, 1993 of the St. Johns County Water and Sewer Utility Authority that -- in Paragraph D, "Further analysis and proceedings are necessary before the Authority can make a determination on the reasonableness of the wholesale rate and the pass-through of future increases to SSU customers."

I spoke with the executive director of the St. Johns Water and Sewer Authority, what were their thoughts when they were delaying the issue of rate increase. He said, "Well, jurisdictionally, we feel that the Public Service Commission will handle that for us and those rates will be set."

At the time this hearing, Ladies and Gentlemen, was commenced and concluded, we had no less than four or five public hearings evaluating this, and in each and every public hearing Charles Sweat, his attorney, or some of his representatives represented to us that we would have a

uniform rate structure and that a stand-alone rate structure was out of the question, that we could not swallow a $500,000 improvement for 200 people in this area.

We believed them. We believed that they would do everything, we believed that the Public Service Commission would do everything to keep and protect us against stand-alone rates that would come in and literally turn our water off.

Paragraph F of this same document states, and I quote, "SSU shall not pass through any portion of the wholesale rate or any increases thereof to retail customers without prior approval of order by the Board of County Commissioners."

So we had a little mini Board of County Commissioners mandate thinking that our public officials, who we elected, will be watching over SSU. To the contrary, SSU went directly to the Public Service Commission and initiated and started its process of rate increases. To the contrary, from that day forward, contrary to their representations to us, we have been inundated by applications for rate increases including the rate increases that you have here tonight.

I'm concerned that we have nowhere to go. I'm especially concerned that now we can't even go to our

Governor to inquire as to how this is happening to us.

My comment to Mr. Hoffman and his company is that surely something is awry if they can come into this business, acquire a $55,000 system, purportedly spend a million dollars on it, turn right back around and stick us with 500 percent rate increases no less than two years later, three years later, and get away with it.

Now who do we go to? We can't go to the courts, we can't go to the Board of County Commissioners, we come to you people, the Public Service Commission. The Public Service Commission is charged with the responsibility to hold these bandits down, and at some point you're going to have to look at the way these people do business and at some point you're going to have to help the retired people that are on limited income or at some point the State of Florida or the county administrators will be required to provide us with water.

You've got to get this under control, Ladies and Gentlemen, it's rampant, it's through the state, and this is no exception.

Now, in this particular case, I challenge you and I challenge your attorneys to go back through the consents that were made, the representations that were made to us, written and under order, under court order, I might add,

and I'll be happy to provide the Department of Environmental Protection consent order and the orders by St. Johns County Board of County Commissioners, that put us in this situation. We had hoped for some protection, and now, once again, here we are again disappointed, disallusioned, and, frankly, I'm disgusted with this whole thing.

Thank you.

(Applause.)

MR. TWOMEY: Sir, sir, a friendly face, hopefully, when did Charles Sweat promise you uniform rates?

WITNESS BARTLETT: When we first -- when the system was first acquired by Southern States. Our biggest concern was that the enormous increase in improvements, the $500,000 that was represented to us, would be immediately turned right back around and passed on to us. As a result of that, the Chairman of the County Commission held several meetings, public meetings, that specifically addressed that issue. The stand-alone rate was an issue that we were absolutely scared of at the time.

MR. TWOMEY: I'm sure of that. But what month and year was that, do you recall?

WITNESS BARTLETT: I do not have my litigation

file with me, but I can provide that to you.

MR. TWOMEY: Would you, please?

WITNESS BARTLETT: Yeah. And I'll provide you with copies of the correspondence and I'll provide you with the entire file.

MR. TWOMEY: Okay.

WITNESS BARTLETT: It stunk.

MR. TWOMEY: I'd like to see that. I'll give you my card before you go.

Now, let me ask you this: You said you couldn't go to your County Commission; right?

WITNESS BARTLETT: The County Commission takes the position that the jurisdictional issues involving rate involve the Public Service Commission, but they are governed -- I have yet to challenge that issue -- but they are governed, in my estimation, "they" being the utilities, are governed by the St. Johns Board of County Commissioners through its water and sewer authority.

MR. TWOMEY: Yes, sir.

WITNESS BARTLETT: They overlooked this.

MR. TWOMEY: My question -- I'm sorry to interrupt. My question to you is, are you aware that the reason that you can't go to your County Commission about this utility on rates is because this

Commission entered an order on a declaratory petition by Southern States Utilities taking that authority forcefully, involuntarily from your county, or did you know that?

WITNESS BARTLETT: No, I didn't know that.

MR. TWOMEY: Well, I will get that for you. Thank you, sir.

COMMISSIONER DEASON: Mr. Twomey, any other question?

MR. SHREVE: Mr. Bartlett, one question. Charles Sweat assured you that you would stay under uniform rates. Did you realize that Southern States is making quite a point right now that they did not request uniform rates in the last rate case?

WITNESS BARTLETT: I don't know how anyone that can count can understand how you can assess a 200-member utility with the improvements and the cost of --

MR. SHREVE: No, sir. What I'm saying is, they are making the point that they did not -- they're saying they did not request the uniform rates in the last rate case that brought up the entire controversy.

And I'd like very much to get with you and talk to you about the filing that they have.

WITNESS BARTLETT: If they didn't request the uniform rate, how did we get hit with the stand-alone rate?

MR. SHREVE: The uniform rate came out of the last case, then the court acted on that and the PSC set the stand-alone, the interim.

WITNESS BARTLETT: Is that correct?

COMMISSIONER DEASON: Well, yes, that's true.

MR. SHREVE: That was in this case, though.

WITNESS BARTLETT: I understand.

COMMISSIONER KIESLING: Do you want to clarify or do you want me to?

COMMISSIONER DEASON: Go right ahead.

COMMISSIONER KIESLING: We set the modified stand-alone rate because the First District Court of Appeal told us that our uniform rates were not acceptable and that we had to do that.

WITNESS BARTLETT: Mr. Chairman, may I address the Commissioner?

COMMISSIONER DEASON: Surely.

WITNESS BARTLETT: If that's the case, why haven't you -- I assume you've appealed that order. Why didn't you pending the appeal wait till they appeal to the Supreme Court on that issue before addressing the rate structure? Were you required by

the order to address the rates?

COMMISSIONER KIESLING: Yes, and the Supreme Court turned down cert on that.

WITNESS BARTLETT: But you do have another case pending, as I understand it, going back again to the Supreme Court on this issue.

MR. TWOMEY: No.

COMMISSIONER KIESLING: I don't know which case you're referring to.

WITNESS BARTLETT: Perhaps I misunderstood counsel.

MR. TWOMEY: They have other cases.

WITNESS BARTLETT: Are there no other issues pending appeal on the setting of this uniform rate?

MR. TWOMEY: Yes. There are several cases pending appeal at the First DCA, none of them pending before the Florida Supreme Court.

And, pardon me for interrupting, but I think what you're probably referring to is that your uniform rate investigation order which decided that uniform rates were appropriate because -- they were appropriate is on appeal, and, likewise, they have yet another order in which they defended taking jurisdiction away from the counties that wanted to keep it where they decided that this system was functionally related, which is

also on appeal.

WITNESS BARTLETT: Mr. Chairman, if I may just for the record, I've been practicing law over 20 years. I've been in court the majority of that. And, as an attorney, I'm confused as hell as to what you got and where you're going with this thing. I hate to think what these people out here think.

But where are you going with the uniform rate case that was denied on the DCA level with respect to the appeal -- I understand cert was denied -- where are you going with any issue regarding SSU and the other utilities that fought to stop the uniform rate?

COMMISSIONER DEASON: The only case pending before the Commission where the uniform rate issue is going to be addressed is the case that's right now before us. Counsel is correct that there is a matter that is on appeal as a result of an investigation docket looking into whether uniform rates, stand-alone, or some other rate is the appropriate rate structure. The Commission made a decision in that case. That has been appealed. That is out of our jurisdiction now and that is pending before the Court.

Before that decision has been made by the Court, Southern States saw fit to file another rate case with

this Commission, and that rate case is pending, and in that rate case they have once again requested uniform rates, and apparently it is their position that they feel that they can comply with the requirements as set forth in the District Court of Appeals decision to address those deficiencies that the Court found in our previous decision and make it lawful for this Commission to make the necessary findings to make the uniform rate lawful and that would survive any appeal of that. That's where we stand right now.

WITNESS BARTLETT: Mr. Chairman, logic escapes me. SSU has purported to be able to handle and pass along the uniform rate; correct?

COMMISSIONER DEASON: That is their position, yes.

WITNESS BARTLETT: And you have voted to the contrary to assess in the interim a stand-alone rate?

COMMISSIONER DEASON: That is correct, and our reading of the District Court of Appeal order, to be consistent with and comply with that order, that was the Commission's decision.

And that was a -- that District Court of Appeal was a reversal of the Commission's previous decision to implement uniform rates.

I know it's confusing. It is confusing to me as

well. The problem is that there are a number of cases that have been opened that are in various stages of appeal and that there's another rate case that is now pending, which is the subject of this hearing, which is being processed while all these other cases are still pending at the Court. That is, we're required to process the rate case within the statutorily mandated period of time and that's what we are trying to do is to comply with our enabling statute.

WITNESS BARTLETT: Thank you.

MR. HOFFMAN: Mr. Bartlett, if I could, one question.

WITNESS BARTLETT: Certainly.

MR. HOFFMAN: Have you seen any improvements in the quality of your water at Palm Valley since Southern States purchased the system and made the improvements to the system?

WITNESS BARTLETT: If I may be allowed to elaborate, I'll answer that question.

My first introduction to SSU came about as a result of my youngest son nearly dying from an intestinal virus that he kept catching. He spent sixteen days in intensive care. We learned from a separate water analysis that fecal matter, Giardia and other anti -- bacterial agents were in our water. So

I have been a diligent and forceful eye on the SSU utility, and I will tell you candidly to this day, my son is four, and he will not be allowed to drink any water from that system.

So the quality of the water, sir, I will not argue with you about that.

The pressure and the delivery of the water to us has been excellent in the last two years.

MR. HOFFMAN: Thank you.

(Witness excused.)

- - -

MR. SHREVE: Letricia Stroup.

LETRICIA STROUP,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS STROUP: Hi, I'm Letricia Stroup, the president of the Harbor Civic Association, L-e-t-r-i-c-i-a S-t-r-o-u-p. I live at -- did I tell you the address? 11257 Portside Drive. I'm serviced by the Beacon Hills.

And I don't know what court case this is or what exactly hearing this is that we are at today, but my water bill has gone up from like 35 bucks to $88, which is going to be more than my electric bill will be. So the main thing is that like he said his son had problems from

drinking the water, ours had had problems and got a stomach virus and was in the emergency room because of the water that he drank, so he no longer drinks the water there.

And as mothers and fathers and people -- I'm sure you-all are mothers and fathers, and we just really need to do something about the quality of the water plus the price of the water. I mean, it's outrageously expensive.

And, you know, the Governor is getting faxes from me, probably will get about 300 faxes tomorrow morning about this whole case tonight and all the other stuff that we have heard about that's happened at the Governor's Office.

So, I mean, if you can give me any suggestions on what we should do as a community for you-all to see, you know, what's going on, because I'm not sure if you-all are seeing what's happening and if you-all are going to do anything about what's happening. So, if you have any suggestions that you could give us what else can we do.

COMMISSIONER DEASON: Well, you're doing the correct thing by being here this evening and expressing your concern about the level of the rates and the quality of the service. That's the reason for this hearing.

Our professional staff, our engineers and our

auditors will be reviewing the financial records and the quality of the service that is being provided. They'll follow up with complaints that are being made by citizens like you and all this will be incorporated into our hearings when we try to determine what is a reasonable rate for this company. That's the process that we follow and we try to incorporate citizens' input into that process, and that's why we're here tonight.

WITNESS STROUP: And if I may ask, if we are due a refund, which we were supposed to get a couple of years ago for $275, if they could give that to us all in one lump sum so maybe we could buy some Minnesota stock in the company, get that all at one time instead of spread it out within a three-year or two-year period, whatever they want. You know, it's not going to be much of a difference if it's a couple of dollars this month.

Like whenever my meter broke the other day, a couple of months ago, my water bill was $17. I felt, well, I've been raising so much hell that they're going to give me a deal, you know, for seventeen bucks for this, and the next month it was $17. So I thought I'll be a nice citizen and call them and tell them that, you know, hey, there's something wrong, I'm

having a $17 a month water bill, and so they sent me a letter saying that they came out and fixed the water meter and now you need to pay within a two-month period this extra $30 a month along with your monthly bill. So I did that and I get a notice saying they're going to cut my water off because they gave me two months to pay it, the extra sixty or eighty dollars that they wanted, and then they cut -- they give me a cut-off notice because I didn't pay the full amount of the bill.

So, I mean, you know, their ethics are not right either.

COMMISSIONER DEASON: Well, to answer your question, the Commission has ordered the company to refund, to make the refund within a 90-day period, but the effect of our order has been stayed because the order has been appealed to the Court, and the Court will have to make a final decision as to whether our order telling them to refund the money is correct. And that's the reason that the refund has not yet been made.

If our order is upheld, they will have to make the refund within 90 days.

MR. TWOMEY: Mr. Chairman, may I correct something?

COMMISSIONER DEASON: I'm sorry, am I misspeaking?

MR. TWOMEY: Yes. And, again, all this is very confusing.

COMMISSIONER DEASON: It's the reconsideration that's still pending. I apologize.

MR. TWOMEY: It's before you for reconsideration and I think that will be decided -- you're going to take it up in February sometime perhaps, and then --

COMMISSIONER DEASON: Thank you for correcting me.

MR. TWOMEY: -- something will happen after that.

COMMISSIONER DEASON: You're absolutely correct. I misspoke. I was correct that the order has been made and we ordered them to do it within 90 days, but the effect of that is because the company is seeking reconsideration, which is their legal right to do, and pending that reconsideration, there will not be a refund. We will reconsider that order. We may change our mind or we may not, and then if we do not change our mind, the company then would be free to file an appeal which would have the effect of staying the refund while the Court looked as to whether our order was correct.

WITNESS STROUP: So this could be ten years down

the road? It's not going to be any time soon; right?

COMMISSIONER DEASON: I wouldn't expect that check tomorrow, no, ma'am. It's going to be -- it's going to be a pros- -- when do we take up the reconsideration? Is it in February?

We will take up the reconsideration in February and I cannot say what the Commission's decision will be. I don't know what the decision will be, but I do know that if we do not change our decision, the company would be free to appeal that, and while it was pending at the Court, the refund could be stayed, and that would be something that we would have to take up as to whether the refund would be stayed or not.

So it's going to be at least until February, and if it goes to the Court after that, it could be months longer.

WITNESS STROUP: Okay. Is there any way that we can -- I don't know anything about the legal term -- can we write letters to the judges or anything to state our opinion? No?

COMMISSIONER DEASON: I don't think that you can -- I don't think the judges are allowed, as we are, to consider customer input into this process. They are supposed to review it strictly on the legalities involved and that is not something that is subject to

customer input.

WITNESS STROUP: So they won't get any of the testimonies or anything?

COMMISSIONER DEASON: Well, the record is already complete. They will review the record which has already been compiled.

WITNESS STROUP: From people who have testified about the water, from residents?

COMMISSIONER DEASON: It was all customer testimony in the previous case. It's part of the record which could be subject to the Court's review.

But I don't want to mislead you. The testimony that is being given tonight is in a different docket, not the docket that's going to be on reconsideration in February. But there were customer hearings done in the previous -- in the previous case, so there is a record there. There is a record that could be before the Court, but, in all honesty, when that customer testimony was taken, there was not a question of a refund at that point. No one knew that there ultimately would be a refund involved. That's just the situation that we're faced with.

WITNESS STROUP: Well, just one last thing. As being president of the Harbor Civic Association, all the homeowners associations -- all the homeowners,

would like pretty much, you know, ask you-all that we would really like the stand-alone rates and to see what you-all can do about this.

COMMISSIONER GARCIA: Ma'am, if your group would like to write letters, they can write us letters.

WITNESS STROUP: Right. Can we fax you-all --

COMMISSIONER GARCIA: That's part of the record and it's entered in part of the record and it can be there. And you've got the address on the back of this blue sheet.

WITNESS STROUP: And I'll have everybody do that.

MR. TWOMEY: I don't want to ask you a question, but I'd like to meet with you. What I want to say to you is if you want to do something that will really help you, the only thing that's really going to help you is help the other people that are my clients fight this issue, and I'll talk to you about that later.

WITNESS STROUP: Okay. Let me just say one more thing.

My problem is that we have Public Service that are here that the Governor, of course, appoints, who's going to be coming up for reelection who will be getting a million letters from, you know, people that I know, and I talked to him personally on the phone the other day and I will speak to him probably again

as soon as I get him out of the Capitol meeting tomorrow morning, or whatever the case may be.

I'm not sure if we as homeowners -- it's not that I don't like you, don't get me wrong. I think you're a great lawyer. I say we should probably hire you. But I don't think that we need to hire a lawyer. I don't think it's even a point that we should hire a lawyer just because, you know, we're being literally messed up here, and it's a shame that we have to hire a lawyer, spend our extra money when we have Public Service here that could do something about it.

MR. TWOMEY: Ma'am, you're exactly right. It's a real shame that you should have to hire anybody, but the bottom line -- the answer is is that Mr. Shreve has a conflict, declared conflicts, professional conflict, of defending between uniform and the stand-alone people that are benefitting or hurt by it.

The Public Service Commission, not these people but the two predecessors are the ones that ordered uniform rates against you. I'm the person that got them reversed.

Now, we don't want to take our time about this and their valuable time, but I'll talk to you afterwards, but let's talk.

WITNESS STROUP: All right. Thank you.

MR. JAEGER: Ms. Stroup, you said Harbor Civic Association?

WITNESS STROUP: Uh-huh.

MR. JAEGER: What SSU facility is that?

WITNESS STROUP: Beacon Hills.

MR. JAEGER: Beacon Hills?

WITNESS STROUP: Uh-huh.

Thank you.

MR. SHREVE: Thank you.

(Witness excused.)

- - -

MR. SHREVE: Angie Futch.

ANGIE FUTCH,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS FUTCH: My name is Angie Futch, I live at 12836 Nearfield Boulevard South, Jacksonville 32225, and I'm served by Beacon Hill.

I'm here as a housewife. I've been a housewife for two years. Before that I worked since I was seventeen, and I can tell you now, I wouldn't get a raise if I wasn't providing what I was being paid for in the first place.

I've got here an exhibit, if you wouldn't mind.

COMMISSIONER DEASON: Please.

WITNESS FUTCH: I brought some ice that I collected two weeks ago when our water --

COMMISSIONER KIESLING: You have to talk into a mike.

COMMISSIONER DEASON: If you're not at a mike, she can't hear you.

COMMISSIONER GARCIA: So wait till you get back.

WITNESS FUTCH: That is the ice from my icemaker that I cannot use any longer because, as you can see, it's nice and gray. And I called SSU starting about a year and half ago because I was concerned about the quality of the water. They're really nice on the phone, but when you're really having a problem is when you really can't get anything done.

My son, I took him to the hospital two months ago because he had a bacterial infection. HRS called me a week later and wanted to know what foods he ate. My husband and I and my son ate the same identical foods. We did not go to any restaurants. My husband and I drink bottled water. I buy bottled water ever since -- I have bought bottled water ever since we started the problem over a year and a half ago, but I have caught him drinking out of the faucet. I'm sorry to say, you know, I can't watch him 24 hours a day and I am very concerned about his health. He's ten years old.

I called SSU, like I said. It mostly happens during the weekend, the big problems that we have. The last one lasted for two days. I called the 1-800 number, the only one that you can call, it's an answering service, they told me that the gentleman who was working there did not want to be bothered again unless it was an emergency. I finally contacted him again Sunday, or called the number again, and told them it was an emergency. He called me back. He said there was nothing he could do about it. I said, "You mean to tell me we've had terrible water smelling -- it's smelling water, and not only smelling but that grayish looking for two days and there's nothing you can do about it?"

And that's all he kept saying, there was nothing he could do about it.

COMMISSIONER GARCIA: Ma'am, just so you know, on this sheet here, the blue sheet that they handed out, on the front page where it says Division of Consumer Affairs in the bottom right-hand corner, there's a 1-800 number. If you ever want to complain, you can call that number. It's toll free.

WITNESS FUTCH: Is that SSU?

COMMISSIONER GARCIA: No, that's us. But they have to respond to us.

WITNESS FUTCH: Oh, okay.

COMMISSIONER GARCIA: You file a complaint and they --

WITNESS FUTCH: I have called several numbers and, in fact, that weekend I was so upset about the water, I went through the list in the phone book.

But I have also asked SSU to come and test my water during the time of the problem. I understand that they have to have their water checked two or three times a month, but they do it when there's someone working. No one is working on Saturdays and Sundays, so they don't know if there's too much chlorine or not enough chlorine.

I asked them to send somebody at my home when my water is gray and smelling like rotten eggs, because I want to be assured that there is no bacteria in there. They told me they would send someone.

On a Monday morning some nice fellow finally came over, but by the time he came, he even admitted to me he had to chlorinate the water first and flush out the lines. Well, that's not helping me on proving that the quality of water that they're providing me is not dangerous to our health.

So I think the concern is really that they should be providing us quality water. We cannot afford their water to run through our household. We just repiped our house. It cost us thirty-four hundred -- $3,400.

My water heater, we've had to replace it. We've only been in our home seven years.

Our clothes are being ruined. When we wash our clothes, there's too much chlorine and there's no one around to check it.

I can't use my icemaker, my washing machine, I can't use my dishwasher. As the fellow showed you, all my dishes come out dirty, so I have to wash my dishes by hand.

More importantly, I'm worried about my son's health and that's why I'm here today.

Thank you.

(Applause.)

MR. SHREVE: Thank you.

(Witness excused.)

- - -

MR. SHREVE: Mr. Christenson.

CARL W. CHRISTENSON,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS CHRISTENSON: My name is Carl W. Christenson, 4127 Leeward Point, Jacksonville 32225. That's in The Harbor and that's handled by Beacon Hills.

May I give a sample for your study because you

said that you were going to take all of this and put it all together.

COMMISSIONER DEASON: Please. You may give it to us.

WITNESS CHRISTENSON: I would like this put in.

The piece of pipe was installed by me in May of last year, May of last year, 1994. I just removed that this weekend at midnight when my five-year-old hot water heater went.

THE REPORTER: I'm sorry, I can't hear you.

WITNESS CHRISTENSON: I removed the piece of pipe in May of '94 and replaced it last weekend when my hot water heater that was five years old was replaced. The hot water heater, I'd like to put into as an exhibit if you would like. It is in the gutter outside my driveway. I was going to bring it tonight but, out of respect for the Commission, I'm sure they didn't want to hall that off. But it is available. The garbage company was called to pick that up along with a few other in the neighborhood.

That's it.

MR. SHREVE: Thank you.

(Applause.)

(Witness excused.)

- - -

MR. SHREVE: Ray Gabler.

COMMISSIONER DEASON: Mr. Shreve, just a second. We need to identify this piece of pipe. I assume that the witness wanted it as part of his evidence. We usually don't take physical evidence, but I assume evidence is evidence and we can assign it an exhibit number.

I believe the next exhibit number is 36; is that correct?

COMMISSIONER GARCIA: 37.

COMMISSIONER DEASON: 37? Okay.

COMMISSIONER GARCIA: The petition of Harbour Woods was 36.

COMMISSIONER DEASON: Okay.

(The piece of pipe referred to was received into evidence as Exhibit No. 37.)

COMMISSIONER DEASON: Please proceed, sir.

RAY GABLER,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS GABLER: Good evening. My name is Ray Gabler, R-a-y G-a-b-l-e-r. I live at 4398 Fern, F-e-r-n, Creek Drive, Jacksonville 32277. I'm in the Woodmere service district. I'm here just in my own interest tonight.

I appreciate the opportunity to testify to you. I work fairly long hours and some of the other hearings that you've had I was unable to attended. Tonight suited and I appreciate the opportunity to thank you for coming out.

I'm opposed to higher rates, period, any higher rate. I've been paying now for nine years premium rates. I've gotten anything but premium service.

I spent part of my working life with a company that was regulated similar to the water company and part in the unregulated free market atmosphere.

I'm here to tell you, if SSU had to present, had to give to the public the service and product that they have in a free marketplace, they wouldn't be around long enough to make the first annual report.

(Applause.)

WITNESS GABLER: Now, I don't know much about uniform rates and stand-alone rates and what I did wasn't helped any by those letters that they sent out. But there's one thing I'm old enough to know about now and that's a money grab. That's all this is. Take more money, don't give us anything more, and they haven't given us very much to begin with.

I had an experience similar to the gentleman from Virginia when I moved here from Maryland. My highest water

bill in Maryland was $27 a quarter. That was the third quarter when we had a lot of drought and I watered heavily during July and August. The absolute lowest water bill I've had here was just a little over $54 for the month.

Now, some of this or some of the high bills that I've had are because of increased use of water. That doesn't count. I understand that. It so happens that lowest one is in January when I don't use much more water than just what we need around the house, not much need to water the lawn in January. So we're talking about a factor of six.

The house I lived in in Maryland when I left was 45 years old. It still had had the original copper tubing for plumbing. Since I've lived in Jacksonville, I've had five slab leaks in nine years, I've replaced three water heaters and on a couple of other ones I think I replaced elements. And when I moved in one of the things the house needed was a refrigerator, so we got one and they offered us a three-year service policy. I said, "Why do I want a service policy for a brand-new refrigerator?" And he said, "You ought to get it. Your icemaker will be replaced before the three years are out around here."

And they were right, during the second year, almost at three, the water deteriorated the icemaker enough that I had to have it replaced. So I made out because I

would have paid more if I didn't have the service policy.

One little piece of homework I'd offer you Commissioners, sit down with the yellow pages here in Jacksonville and look under plumbing and see how many of the plumbers offer repiping. About 90 percent, 94, give or take. The next time you're going through Atlanta on an airplane and you have a little chance between flights, sit down with the yellow pages in Atlanta or the city where you arrive and look for the same information. It's reversed. About five to ten percent go for repiping there.

When I got my first water bill after I moved down here, and it was a lot bigger than $54, to try and get a little handle on things, I called the customer service department of Southern States. Of course, the woman there pointed out, well, do you have a sprinkler system and some of the obvious things.

I said, "Well, I'm trying to get a handle on this. I'm just curious. Do you have maybe some average numbers that you know about the company there for what a family a four would consume in terms of water? I'd just like to get a little an idea of what I was doing here."

"Well, we don't give that out."

I said, "You don't have some averages that I can at least get a ballpark on this?"

"Oh, well," she said, "we can't give out

information about other people's bills."

I said, "I'm not asking you to give out about anybody's bills, just a little average to help me understand what I'm doing here, maybe conserve some water even."

Of course, it cut down my water bill.

No, they didn't have anything like that, wouldn't give it out. That's how much interest they had in their customer. Just more money grab.

I've done a little bit of testing of the water. I'm sorry I didn't make some notes when this first one happened, but I'll tell you about it, and then I have an exhibit here I'll hand out. I would say it was probably 1991, but give or take a year, the water was especially bad one time. So just for the heck of it, I took a swimming pool kit and tested it. The chlorine wasn't too bad. The pH was 7.9. That's almost pure lye. Now, I understood why the water wasn't tasting too so good. I use bottled water or drink ice tea, which of course we boil first. We make it with hot water.

Then just for the heck of it, in recalling that when I knew I was going to come tonight, I went ahead and drew some water out of the spigot, outside spigot, ran it through the same test here Tuesday evening. I've got a piece of paper here. You can see there by looking at it,

I've compared my test with what the normal swimming pool should be. The pH has improved since the last time I tested it. I don't know if that's by coincidence or if they've done a little something to make it better.

But look at the chlorine, free active. Now, I've been told -- I'm not a water chemist, you understand, but I've been told by the pool outfits, and I test my pool every Sunday during the season to try and keep it in some kind of shape, I've been told that the thing you need is a free active chlorine. That's what kills whatever contaminates your water, including bacteria.

I've also been told you'll probably never have the health commission come and look at your pool, but if you do and it's under three parts per million, they'll probably shut it down as unhealthy.

When I tested that water the other night, Wednesday -- Tuesday evening, the water is supposed to turn red if it has chlorine in it, I couldn't get it to budge. Now maybe zero is the wrong number. Maybe it's .00001 part per million. I don't know. I can't say zero for sure. But I can tell you there was not a trace of red and I had a neighbor witness it.

So if you people are wondering about intestinal viruses, maybe that's part of the answer.

Maybe the best test you have for the water is

another simple one. I've got a neighbor's dog. The neighbor gives him all the water he wants out of the spigot, but he never misses an opportunity to come in and get water out of my pool. And there's two neighborhood cats that I have seen, they're not mine, that find their way through a small hole in the fence, the dog can't make the small hole, and they go over and crouch down on the edge and lean on the tile and drink water. And what that tells me and what my test of the pool told me on two different incidences is that while it's a little repulsive to me to think about drinking my swimming pool water, if I got in a bind, I'm probably better off drinking that than the water out of the faucet.

And that's a sad commentary, Southern States, a sad one, for the money we pay you that you can't deliver a product that's safe to drink. This is nothing more than a money grab. That's what I called it when I started and that's still what I say it is.

I might mention that I'm not opposed to a water company making a profit. I work in the private sector. I think that's a great deal. But to allow it a profit was supposed to be related to the service and products you delivered. You're not supposed to get one when you deliver what you're delivering, and why the Commission would agree to more, I'll never understand, because you're nothing more

than our representative making a free marketplace atmosphere on this outfit. You haven't convinced me you're doing that.

I'm opposed to a rate increase until these people start doing something that shows us they're deserving of the rate we pay now, then we'll talk about more.

Thank you.

(Applause.)

MR. SHREVE: Thank you, sir.

COMMISSIONER DEASON: I'm going to identify this water test result as Exhibit No. 38.

(The document last above referred to was received into evidence as Exhibit No. 38.)

(Witness excused.)

- - -

MR. SHREVE: Garry Haralambou.

GARRY HARALAMBOU,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS HARALAMBOU: Good evening. My name is Garry Haralambou. It's two "r's" in my first name, H-a-r-a-l-a-m-b-o-u. I reside at 11548 Ashley Manor Way, that's Jacksonville 32225. It's the Riverwood subdivision

next to Beacon Hills and I assume that's where we get our water from.

I bought my house about eight years ago, brand-new, thinking I would never have -- I wouldn't in 20 years have to deal with plumbing problems. That was one reason why I bought the house. About five years on in the house, it started springing leaks here and there.

I want to give you a piece of pipe. I have other pipes at home but I just thought I'd bring one. This is a good example of what the water is doing to my house, my neighbors' homes. Some of my neighbors I know have completely replumbed. I have four kids. I do a joint at a time, or whenever happens I fix a little bit here and a little bit there, but I'd like to give you this.

You can see the holes in it and how it's eaten up the pipe.

COMMISSIONER KIESLING: Would you repeat that into the mike so --

WITNESS HARALAMBOU: I said you can see all the holes and how it's eaten up the pipe. That's just one example. I don't even call -- I haven't changed my water heater, but I have changed my elements at least four or five times. I go down to Home Depot and I get new elements and I put elements in.

I have something else I would like to show you.

I complained to Southern States. I had an entire washload ruined because the chlorine came out of the pipes so strong. They sent me a $50 check. Of course, like the other gentleman, they did not, I don't believe, wrote on here or anywhere what the money was for. In my opinion, it did not cover what the cost of the clothing was but I was satisfied to get something better than nothing.

COMMISSIONER GARCIA: Can I just ask you while you're there, did you call them and complain and a $50 check showed up, or did you say I lost $150?

WITNESS HARALAMBOU: No, they gave me the check. No, I knew what it was.

COMMISSIONER GARCIA: But I'm saying did you ask for fifty or did you ask for a hundred?

WITNESS HARALAMBOU: No, they told me that's what they were going to give me. They kept my clothes. I have since then had other clothes ruined.

COMMISSIONER GARCIA: They kept your clothes? They came to pick up your clothes and then --

WITNESS HARALAMBOU: No, I brought the clothes to their office. They have since closed their office. They say they closed their office, which was on Monument Road, to conserve costs. I believe they closed their office because they got tired of people coming right to their face and complaining to them.

(Continued) Anyway, let me finish a couple of these points here. I've seen many of my neighbors replacing, completely replacing their plumbing. It scares me the cost of what that is.

Again -- also I buy drinking water, about four gallons a week, 80 cents a gallon approximately, 52 weeks a year the eight years I've been there. Some nights the chlorine just comes out of the tap -- I mean, the water comes out of the tap it smells just like Clorox bleach.

I know what it's doing to my pipes, I know what it's doing to my clothes. It fades clothes faster than anything. I can only wonder what it's doing to our health.

I feel strongly that a health study should be initiated immediately. I feel that customers should be informed about what are the dangers when chlorine is very high and when chlorine is very low. I have on occasion smelled that rotten egg smell.

I also want to say that I missed -- if the attendance is low, I can say that I missed a meeting because I got a letter from Southern States Utilities telling me about a meeting. The postmark on the envelope was two days after the meeting had occurred. I wonder if other people had that problem.

I also called the Commission. I don't have the person's name who I talked to. I faxed them a copy of the

letter and I faxed them a copy of the envelope.

COMMISSIONER GARCIA: At the Commission? You called someone at the Commission?

WITNESS HARALAMBOU: I believe so. And if you want to call me at 798-1594, I'll rummage through my papers at work and see if I still have that person's name.

(Continued) One other thing too is I think Southern States Utilities knows that people water their lawns. We're being charged for sewage not getting a break when you have to water your lawn and they're raising the rates and sewage rates too, I believe. Is that not correct?

Anyway, I think with the quality of the water, to give them a rate hike, to approve a rate hike at this time would add insult to injury. I feel, on the other hand, they should be responsible for all the costs that the community has incurred. I'm surprised and I would certainly welcome a class action suit against them for trying to recover some of the damages that the water has damaged.

Again, I would like to close by saying I believe that they should be investigated and if -- and restitution made, and I think that if they -- judging from all the people who have spoken tonight, if they are so mismanaged

-- I mean, the idea of a unified rate is only -- is only -- and raising rates rather is just going to reward their incompetence.

I would like you to explore the possibilities of this, of SSU selling that facility back to -- or to the City of Jacksonville. I don't know if that's a possibility or not. Is it? I mean, they seem to be so inefficient in handling it and making improvements. Is that a possibility?

COMMISSIONER GARCIA: The City of Jacksonville --

WITNESS HARALAMBOU: Yes.

COMMISSIONER GARCIA: -- can buy the water system if they pay the price for it. They have to buy it from Southern States.

WITNESS HARALAMBOU: Okay. Let me ask you one other question, and no one was able to answer this question for me when I called. But why aren't residents allowed to put their own wells in? I mean --

COMMISSIONER GARCIA: That has to do with your local -- your local government. You should ask them. Right? In this particular case.

COMMISSIONER KIESLING: It's also against the law, the statutes.

WITNESS HARALAMBOU: See, they have a monopoly

and we have no recourse it seems like.

And that's all I want to say. Except that if anybody is going downtown, I need a ride. I didn't realize the train stopped running.

COMMISSIONER DEASON: Sir, do you wish -- you gave us that pipe to keep?

WITNESS HARALAMBOU: Yes, I did.

COMMISSIONER DEASON: And what about the copy of this check?

WITNESS HARALAMBOU: Yes, you can have that too.

COMMISSIONER DEASON: Okay. The piece of pipe will be Exhibit 39, and the copy of the check will be Exhibit --

WITNESS HARALAMBOU: I believe there was another gentleman tonight who also got paid $75 and it was not written on the check what it was for, but he knew what it was for.

COMMISSIONER DEASON: The copy of the check will be Exhibit 40.

(The piece of pipe referred to was received in evidence as Exhibit No. 39.)

(Copy of the check referred to was received in evidence as Exhibit No. 40.)

Thank you very much.

MR. HOFFMAN: Commissioner, if I could direct a comment?

COMMISSIONER DEASON: Yes.

MR. HOFFMAN: Mr. Haralambou, I just wanted to direct a comment to what has been a problem and has been a problem raised by a number of other customers in connection with pH levels, and I wanted to let you know that my understanding of that situation is that the DEP adopted a rule in either 1994 or 1995 requiring utilities to test the water at the tap for pH levels, and there was a problem with respect to your service area and the company had until, I think, January of 1997 to install a remedial device, a corrosion inhibitor. I think it's called a caustic fee. And I wanted to let you know that as of this past Monday that facility had been installed.

WITNESS HARALAMBOU: Thank you.

(Witness excused.)

- - -

MR. BECK: Ms. Fannie Daniels.

(No response.)

MR. BECK: Ms. Susan Caruso.

(No response.)

MR. BECK: Mr. Wilbur Burnett.

WILBUR BURNETT,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS BURNETT: Good afternoon, Gentlemen. There's not a whole lot more I can add to what has been said. I need to get back, I guess, and introduce myself.

I'm Wilbur Burnett, and I live at 110 Canal Boulevard in Palm Valley, or Ponte Vedra, 32082.

There's been quite a bit said here tonight and there's not a whole lot more that I can add to it, especially since this interim rate for the Palm Valley area has already been approved.

My question is, if we have these people over here that can set up and make a rate suggestion like this and we have the PSC come along and approve it, what recourse do we as a consumer have?

The county will not allow us to go out and drill a well. If they did, I would hire me a contractor tomorrow and drill my own well.

So I want to know what kind of recourse I, as an individual and consumer, have when we have the kind of help that we have at the Commission?

So that's a question if anybody can answer it.

COMMISSIONER DEASON: The only thing I can tell you is that the interim rate that has been approved is not a final rate, and to the extent that the final decision is less than the interim rate, there would be a refund of the difference.

WITNESS BURNETT: Then you come along and confuse us with this potential final rate increase, which is -- the interim rate and the potential final rate is so far apart. I can't imagine anybody that could ever suggest to be a fair and a justifiable rate increase of 560 percent or is there some other commission that would even approve it.

So I just wanted to voice my opinion, Gentlemen. I appreciate your time. If you have any questions, I'll be glad to answer it.

COMMISSIONER DEASON: Any questions?

(No response.)

COMMISSIONER DEASON: Thank you.

MR. BECK: Richard Healer.

RICHARD HEALER,

called as a witness on behalf of the Citizens of the State of Florida, and having been duly sworn, testified as follows:

WITNESS HEALER: My name is Richard Healer, I live at 752 Nottingham Forest Circle. I'm serviced by the

Remington Forest plant.

I don't have any fancy material because everything that I had got blown out of the water when I received the second sheet that said -- you know, had all the different rates on it. So everything that we had figured out was different now. So that had to be thrown away.

Basically what I want to say is I'm an honest man. I work for a living. I don't know when the last time any of you have made twelve dollars an hour, how long ago that may have been, but I know you darn sure don't make it now. I'm going to apologize right now if any four-letter words slip out. I don't mean to, but accident. It's a bad habit.

My wife and I, we searched for two years for a home that we could fit into. We looked for our best investment --

COMMISSIONER GARCIA: Sir, you've got to speak right into the mike or she can't hear you.

WITNESS HEALER: My wife and I, we searched for two years looking for a home, to build a home, we wanted a subdivision, we wanted to build our own home, didn't want to buy something that someone else had built.

We finally ticked off about 50 contractors because we didn't build their homes and we settled into the

Remington Forest Subdivision. We found that that was our best value for the lot, the home, the utilities.

Three or four months after we moved into the home, we found out that our rates were being increased. It was only three dollars. We didn't think nothing of it. We weren't notified of it, period, ever. Now all of a sudden we're notified a few months ago that we're getting another increase and then we received that notice when I came home from work one day and I found out I was already a half hour late to the meeting. So we were notified on the day of the meeting a half hour after it started.

We then received another notice a couple of months ago that there would be another meeting on this date, so we started putting our material together, everyone in our subdivision.

Then we got another notice just a couple of weeks ago and all the rates were changed, all the requested and whatever rates, they had all been changed. So we're pretty much lost on everything here. I'm trying to figure out -- go back through and run through all of this.

Me, personally, I'm really confused on how the Commission let this get to the point where it's at right now. It should have been stopped a long time ago. A lot of people are upset. I'm speaking on behalf of our subdivision. We don't have an official association. We

try to work things out amongst ourselves.

The Commission, I don't think, is working very hard on this. They're not showing us, the people that they're supposed to be serving, just what they're able to do. I know they're able to do a lot more than this. I don't think they've done enough. Personally, in all the businesses I've worked in, I'd fire every one of you.

I'm going to get hostile here in a minute, so I think I'm just going to end it right here.

COMMISSIONER DEASON: Questions?

MR. HOFFMAN: No questions.

COMMISSIONER DEASON: Thank you.

(Witness excused.)

- - -

MR. BECK: Joe Goodwin.

(No response.)

MR. BECK: Commissioner, let me just try to -- I have a whole series of names that nobody answered.

Bill Hook, Fannie Daniels, Susan Caruso, Joe Goodwin?

That's everybody who signed up ahead of time.

COMMISSIONER DEASON: Thank you, Mr. Beck.

I will take this opportunity to thank everyone that came out this evening to provide input to the Commission as we deliberate on this very important

matter.

Do any of the parties have anything to bring before the Commission before we adjourn?

(No response.)

COMMISSIONER DEASON: Hearing nothing, this hearing is adjourned.

Thank you all.

(Whereupon, at 9:15 o'clock p.m., the hearing was adjourned.)

- - -

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
NOTICE OF SERVICE HEARING
DOCKET NO. 950495-WS

Docket No. 950495-WS – Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc., in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns County(ies) will be held at the following time and place:

January 25, 1996
6:00 p.m.
Prime Osborn Convention Center
1000 Water Street
Jacksonville, FL 32204

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) or 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly $100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval for the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposed plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

in the matter of NOtice of Service Hearing _____

Docket # 950495-WS _____

in the _____ Court,

was published in THE FLORIDA TIMES-UNION in the issues of _____

January 4, 1996 _____

Affiant further says that the said The Florida Times-Union is a newspaper published at Jacksonville, in said Duval County, Florida, and that the said newspaper has heretofore been continuously published in said Duval County, Florida, The Florida Times-Union each day, has been entered as second class mail [illegible] in Jacksonville, in said Duval County, Florida, for a period of one year next

board to probe the shooting of an unarmed bystander at a motorcycle repair shop was met with skepticism yesterday.

The Dec. 7 shooting death of Jerry Jackson, 23, by a plainclothes Atlanta police officer, apparently the result of a sequence of mistaken identities, has touched off public charges of a cover-up and calls for a Justice Department review.

Campbell announced his decision to re-create the dormant Civilian Review Board on Tuesday. State Rep. Tyrone Brooks, D-Atlanta, questioned whether a city-appointed board would have the credibility to quell public unrest ignited by the recent shooting.

Regulators send inquiries to Hillary Clinton

WASHINGTON — First lady Hillary Rodham Clinton's work for her former Whitewater partner's savings and loan is prompting another wide-ranging list of questions she must answer for federal regulators.

The inquiries come as deputy White House counsel Bruce Lindsey and former associate White House counsels William Kennedy and Neil Eggleston face Senate Whitewater Committee subpoenas to testify next week, a White House official said on condition of anonymity.

India: Bomb attack kills 6 in bazaar

NEW DELHI — A bomb exploded in a packed shopping bazaar in the Indian capital yesterday, killing at least six people and injuring 31 others.

The Jammu-Kashmir Islamic Front claimed responsibility for the blast outside a row of shops in Sadar Bazaar.

Britain: Diana reported ready to divorce Charles

LONDON — Princess Diana has reluctantly agreed to divorce Prince Charles, according to a tabloid newspaper published last night.

The Daily Express, quoting unidentified sources close to the princess, reported that Diana will begin talks with her legal advisers next week about a divorce.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
NOTICE OF SERVICE HEARING
DOCKET NO. 950495-WS

Docket No. 950495-WS — Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in the Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns County (ies) will be held at the following time and place:

January 25, 1996
6:00 p.m.
Prime Osborn Convention Center
1000 Water Street
Jacksonville, FL 32204

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly $100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

House historian officially retires at age 86

TALLAHASSEE (AP) – After nearly 40 years as a journalist, 20 years as clerk of the state House and 10 years as House historian, Allen Morris is ready to try something different: retirement.

But Morris, 86, said he isn't about to give up work entirely. He plans to continue compiling the annual handbook he's published since 1947. He also wants to keep working on collections of essays and anecdotes about state government.

Over the decades, the Florida Handbook has been used by an estimated 4 million school children and thousands of lawmakers, lobbyists and reporters to look up virtually anything about state government and history from the structure of the Cabinet to how the town of Two Egg got its name.

"Allen is our institutional memory," Mallory Horne, a former House speaker and former Senate president, said last week.

Morris retired Monday as House clerk emeritus/historian. As a consultant on procedural rules since 1945 and House clerk from 1966 to 1986, Morris had a greater role than any House member in laying the parliamentary foundation of state government.

Largely self-educated, Morris also had a hand in drafting the court section of the Florida Constitution and is widely credited with helping turn the understaffed, low-paid and poorly informed Legislature of the 1940s into a modern, computerized operation.

NOTICE OF SERVICE HEARING
DOCKET NO. 950495-WS

Docket No. 950495-WS - Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns County(ies) will be held at the following time and place:

January 25, 1996
6:00 p.m.
Prime Osborne Convention Center
1000 Water Street
Jacksonville, FL 32204

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly $100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

STATE OF FLORIDA)
COUNTY OF ORANGE)
_____)

AFFIDAVIT

STEVEN M. GALLIS, having been duly sworn, states as follows:

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.

2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.

3. In my presence and under my supervision, SSU personnel mailed to the customers in Duval, Clay, Nassau, Putnam, Bradford and St. Johns Counties a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."

4. The names and addresses of the aforesaid customers were obtained by SSU from SSU's Information Services Customer Address Files. A copy of the list of SSU customer names and addresses used to print the mailing labels for customers in the aforesaid county is attached hereto and marked "Exhibit B." "Exhibit C" attached hereto, is the presorting report printed from SSU's Information Services Customer Address Files to prepare the mailing.

5. On December 26, 1995, my staff and I machine postmarked the labeled envelopes containing copies of Exhibit A and hand delivered the envelopes to a representative of the United States Postal Service for delivery.

6. Attached hereto and marked "Exhibit D" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit D contains information pertinent to the aforementioned mailing, to wit: on December 26, 1995, SSU mailed 19,753 total batch items, which included mail fitting the description of "Customer Service Hearing - Duval, Clay, Nassau, Putnam, Bradford, St. Johns." I personally made this entry into the logbook, and the recordation therein coincides with my personal observation.

7. The total batch count on the logbook included 9,233 pieces of mail as listed in Exhibit C mailed to those persons listed in Exhibit B. If applicable, any logbook totals which are less than Exhibit B & C totals reflect automation malfunctions in copying and sorting. In such cases, envelopes were reprocessed by hand and metered separately for mailing the same day.

Steven M. Gallis
STEVEN M. GALLIS

The foregoing instrument was acknowledged before me this 23rd day of January, 1996, by STEVEN M. GALLIS, who is personally known to me and who did take an oath.

DOCKET NO. 950495-WS
NOTICE TO CUSTOMERS OF SERVICE HEARING

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

DATED: December 26, 1995

Notice is hereby given that the Florida Public Service Commission will conduct service hearings to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for customers in Bradford, Clay, Duval, Nassau, Putnam and St. Johns County(ies) will be held at the following time and place:

January 25, 1996
6:00 p.m.
Prime Osborn Convention Center
1000 Water Street
Jacksonville, FL 32204

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly $100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

SURVEY/PETITION

RE: ~~SSU Service /~~ Water Quality and Their Application For Rate Increases

In an effort to persuade the Florida Public Service Commision to deny SSU's application for (1) a rate increase and (2) an increase in service availability charges, please complete this form and place in your mailbox after 4:00 PM this Friday. It will be picked up before noon on Saturday. A copy of all signed forms will be submitted to the PSC as a petition. Copies of the survey information will be submitted for inclusion in the correspondence file of Docket #9050495-WS as additional information and as a matter of public record with the PSC.

Thank you for your cooperation.

Paul Mauer, President, Harbour Woods Civic Association

By signing below I/We protest SSU's application for a rate increase and increase in service availability charges on Docket #950495-WS and request the Florida Public Service Commission to deny same as not being "fair, just and reasonable".

ead Test Results

Dear Friend:

The UNC-Asheville's Environmental Quality Institute has completed lead analysis of you tap water samples. Your results are given below in parts per billion (ppb), which is equivalent to micrograms per liter (ug/l).

TAKEN 10/27/95

	Lead	
First Draw	7240	ppb
Purged Line	4.3	ppb

sample had particulates

SEE OTHER SIDE →

The Environmental Quality Institute's detection limit for lead is 2.0 ppb. **If your results say < 2.0 (less than 2.0 ppb) it means that the laboratory did not find lead in you water.**

A growing number of medical and scientific professionals feel that lead levels above 10 ppb represent a health threat, especially to infants and young children. In 1991, the Environmental Protection Agency (EPA) issued new federal lead regulations that require municipal water suppliers to take corrective action, such as instituting corrosion control measures to reduce lead leaching, if more than 10 percent of the high risk homes on their systems have first draw lead levels above 15 ppb.

Clean Water Lead Testing offers the following guidelines for interpreting the laboratory test results of your tap water.

1. **If your laboratory results say "< 2.0 ppb"** (less than 2.0 ppb) for lead it means that the laboratory did not find lead in your water. Congratulations!

2. **If the lead content of your "First Draw" sample is greater than 30 ppb**, you have a severe lead contamination problem. A first draw between 10 and 30 ppb also indicates a contamination problem. If your "Purged Line" sample is below 10 ppb, this is fairly definitive evidence that the contamination is being caused by some part of your plumbing system.

3. **If the lead content of your "First Draw" sample is above 10 ppb and your "Purged Line" is below 3 ppb**, this indicates that your lead contamination problem can essentially be avoided by always making sure that you purge the lines before drawing water for drinking and cooking. The most efficient way of dealing with this in terms of water use would be to keep a bottle of "Purged Line" water in your refrigerator for drinking and cooking.

You may also consider correcting the problem at the source by checking your plumbing system for the source of the lead contamination. Lead pipes can be replaced with non-leaded substitutes, as can fixtures with significant amounts of lead or lead soldering on copper piping. If you are on a private well some of the lead may also be from the submersible pump in the bottom of the well which is

(Please turn to back of page)

commonly made of a leaded brass alloy. If you are having this work done, we suggest you instruct your plumber in writing to use lead-free materials, and check to see that those instructions are followed. THIS APPLIES TO SSU - NOT HOMEOWNER

4. **"Purged Line" concentrations in the 3 to 10 ppb range** represent a grey area as to the best course of action. It is unclear whether this water will result in any long-term health problems for you and your children. You should consider whether anyone in your household needs special protection from lead: pregnant women, infants, children under six or those with high blood levels of lead, or anyone who is exposed to lead at work. You may want to use bottled water, a water filter, or even replace lead pipes, soldered joints, plumbing fittings or the submersible well pump in your plumbing system to improve the margin of safety, particularly if your "Purged Line" water is near the top of this range. If you are on a private well and your purged line concentration is high, your submersible well pump is the most likely source of this lead.

5. **If your "Purged Line" sample is above 10 ppb of lead,** line purging will not work as a method of avoiding lead exposure from your water system. It also suggests that either your plumbing system takes an extraordinarily long time to purge (which might occur in a large apartment building) or that your water is being contaminated by lead before it reaches your pipes, perhaps by plumbing in your town's water distribution system or from your submersible pump, if you are on a private well. You can contact your water utility about the distribution system and find out what actions officials may be taking to help lower lead levels in the system. In the short run, your options include using bottled, distilled or spring water for drinking and cooking, or mounting an ion-exchange filter, which removes lead directly, on your tap. Ion-exchange or reverse osmosis filters to remove lead can be obtained from many larger plumbing supply dealers. Be aware that not all water treatment devices remove lead. Before purchasing a filter, you should ask the manufacturer for verification that it removes lead. More information on water filters may be found at your local public library.

The Environmental Quality Institute's studies show that high "First Draw" lead concentrations may come not only from solder in the plumbing lines, but also from the faucet fixture itself. For this reason, it is a good idea to test each cold-water tap from which you drink. Environmental Quality Institute's research also indicates that, because incoming water is considerably colder in the winter, "First Draw" lead concentrations may increase by two or three times in summer months. If your "First Draw" reading is borderline during a winter test, you may wish to retest your water during the summer. Remember that this test is a snapshot of the lead content of your water only at the time the test was taken. Conditions may change, so it is good insurance to have your water tested periodically. Also, if your samples showed significant lead contamination, you should consider requesting your doctor to test lead blood levels in any young children or pregnant women in your family.

Sincerely,

Diane Morgan

TOO HARD

TOO MUCH CHLORINE

BAD TASTE

High Cost.

SURVEY/PETITION

RE: SSU Service / Water Quality and Their Application For Rate Increases

In an effort to persuade the Florida Public Service Commision to deny SSU's application for (1) a rate increase and (2) an increase in service availability charges, please complete this form and place in your mailbox after 4:00 PM this Friday. It will be picked up before noon on Saturday. A copy of all signed forms will be submitted to the PSC as a petition. Copies of the survey information will be submitted for inclusion in the correspondence file of Docket #9050495-WS as additional information and as a matter of public record with the PSC.

Thank you for your cooperation.

Paul Mauer, President, Harbour Woods Civic Association

By signing below I/We protest SSU's application for a rate increase and increase in service availability charges on Docket #950495-WS and request the Florida Public Service Commission to deny same as not being "fair, just and reasonable".

Please list any complaints/concerns with SSU-supplied water ~~on reverse of this~~ BELOW! page:

In the last four years, we've had a water pipe leak where the pipe goes into the house and also a slab leak in a bedroom. We've been told it's a matter of time before we have to re-plumb the whole house due to the corrosiveness of the water. I'm constantly scrubbing the sinks, showers, etc., to keep from having a permanent green stain. In the last four years (after several water rate increases already) I have yet to see any improvement!

The water, by SSU's admission, is naturally corrosive. Why couldn't SSU treat (neutralize) this when they treat for other conditions. There would be much less opposition to rate increase if SSU provided a quality product.

In an effort to persuade the Florida Public Service Commision to deny SSU's application for (1) a rate increase and (2) an increase in service availability charges, please complete this form and place in your mailbox after 4:00 PM this Friday. It will be picked up before noon on Saturday. A copy of all signed forms will be submitted to the PSC as a petition. Copies of the survey information will be submitted for inclusion in the correspondence file of Docket #9050495-WS as additional information and as a matter of public record with the PSC.

Thank you for your cooperation.

Paul Mauer, President, Harbour Woods Civic Association

By signing below I/We protest SSU's application for a rate increase and increase in service availability charges on Docket #950495-WS and request the Florida Public Service Commission to deny same as not being "fair, just and reasonable".

John Williams **Date** 1-13-96

Julie Williams **Date** 1-13-96

Homeowner(s)/ SSU Customer Name(s) John + Julie Williams

Address: 11360 Woodsong Loop North
Jacksonville, Florida 32225

Year home built - 1986 **# of years in residence -** 1 year (10 yrs. in the SSU delivery area).
# of times water heater replaced - not known **Year(s) replaced -**
Have you had any of your plumbing system replaced ? - Yes **Year replaced -** total replacement 6/95.
Have you had your water tested for copper/lead ? - No
What were the results ? -
Do you/your family consume the water provided by SSU ? - No too much Cholorine
Do you filter your SSU-supplied water prior to consumption ? - water softener
Has anyone consuming your SSU-supplied water exhibited signs of lead poisoning ? - We do not drink the water
Do you buy bottled water ? - Yes
Please list any complaints/concerns with SSU-supplied water ~~on reverse of this~~ BELOW! **page:**

the rates are way too high. SSU should become more efficient. Additionally, it was reported at a recent public meeting that a gain on the sale of a service area by the SSU investors is not counted or figured into rate determination. Gain's on the sale of utilities can be significant and the gain (appreciation) should be used to reduce the burden on the users.

Katie Tidwell **Date** 1-14-96

Homeowner(s)/ SSU Customer Name(s) Dale M. Tidwell

Address: 11425 Woodsong Loop South
Jacksonville, Florida 32225

Year home built - 1980 **# of years in residence -** 4
# of times water heater replaced - 3 **Year(s) replaced -** 1984, 1992, 1995
Have you had any of your plumbing system replaced ? - Yes **Year replaced -** 1992 (entire system replaced)
Have you had your water tested for copper/lead ? - No
What were the results ? - n/a
Do you/your family consume the water provided by SSU ? - No
Do you filter your SSU-supplied water prior to consumption ? - Yes - in past ½ yrs ago)
Has anyone consuming your SSU-supplied water exhibited signs of lead poisoning ? - Not sure - Don't think so - (stopped using it for drinking
Do you buy bottled water ? - Yes — a lot !
Please list any complaints/concerns with SSU-supplied water ~~on this page~~: BELOW!

1) Taste — strong mineral/metallic taste
2) Odor — alternates between strong Chlorine smell and [redacted] odor of rotten eggs (when demand is heavy due to dry spell)
3) Water is very corrosive to plumbing
4) SSU office is very customer unfriendly — their motto should be "The customer is → (over)

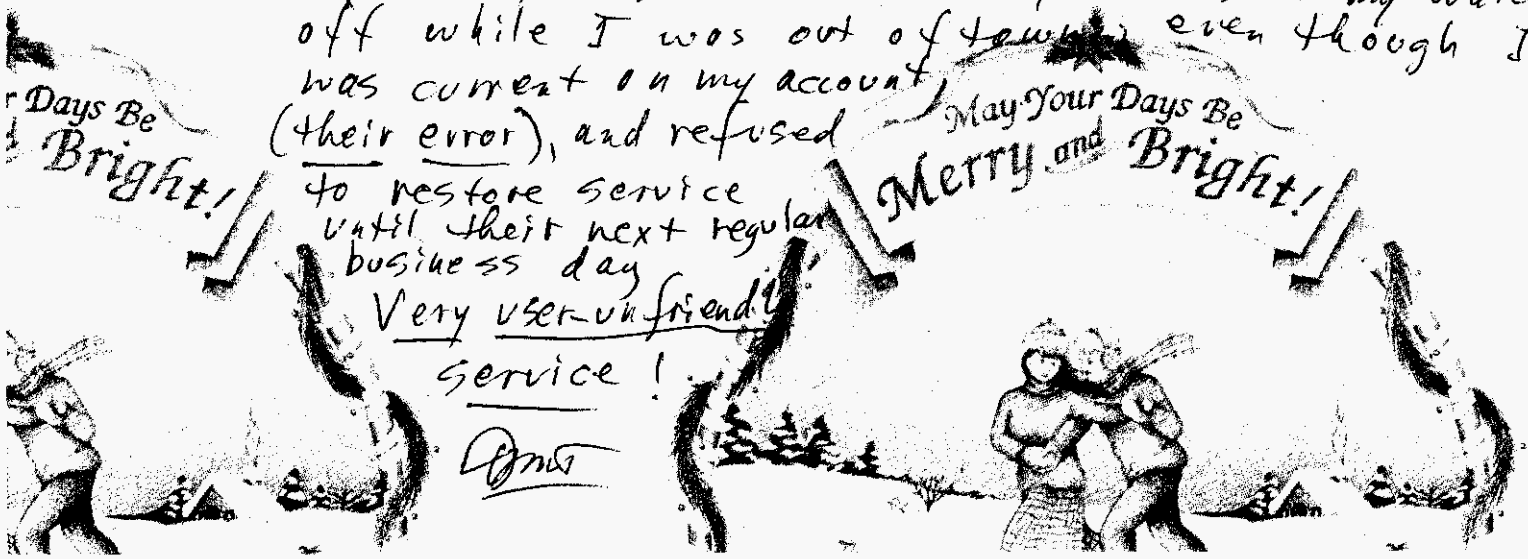

4. (cont.) always wrong." I've had problems with them for over 1 yr. because their meter was stuck for 8 months. We wrangled over how much extra each month I should pay to compensate for this - They wanted to base it on average usage from two years back, rather than current usage (three ~~months~~ months after meter replaced), even though I made it clear I had used SSV water for the lawn then, but not now - billing

Also, they never got the computer print-outs correct on the payback arrangement, even though I repeatedly requested it. They even shut my water off while I was out of town, even though I was current on my account (their error), and refused to restore service until their next regular business day.

Very user-unfriendly service!
