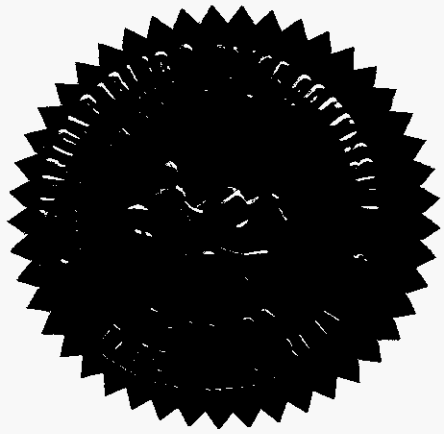
BEFORE THE
FLORIDA PUBLIC SERVICE COMMISSION

In the Matter of	**DOCKET NO. 950495-WS**
Application for a rate increase and increase in service availability charges by SOUTHERN STATES UTILITIES, INC. for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.	



PROCEEDINGS: **FORT MYERS SERVICE HEARING**

BEFORE: CHAIRMAN SUSAN F. CLARK
COMMISSION J. TERRY DEASON
COMMISSIONER JULIA L. JOHNSON
COMMISSIONER DIANE K. KIESLING
COMMISSIONER JOE GARCIA

DATE: **Thursday, February 8, 1996**

TIME: Commenced at 10:00 a.m.
Concluded at 1:35 p.m.

PLACE: Sheraton Harbor Place
Ballroom
2500 Edwards Drive
Ft. Myers, Florida 33901.

REPORTED BY:
JOY KELLY, CSR, RPR
Chief, Bureau of Reporting

P R O C E E D I N G S

(Hearing convened at 10:00 a.m.)

CHAIRMAN CLARK: Ladies and gentlemen, we're ready to start the hearing. There are a few formalities we have to go through as we begin this customer hearing, this first of which is the reading of the notice. Mr. Pellegrini, will you please read the notice for this hearing.

MR. PELLEGRINI: Yes, Madam Chairman.

Pursuant to notice this time and place has been designated for a customer service hearing in Docket No. 950495-WS, application for a rate increase and for an increase in service availability charges of Southern States Utilities.

CHAIRMAN CLARK: We'll take appearances, starting with you, Mr. Hoffman.

MR. HOFFMAN: Thank you, Madam Chairman. My name is Kenneth A. Hoffman. My address is 215 South Monroe Street, Suite 420, Tallahassee, Florida, and I'm appearing this morning on behalf of Southern States Utilities.

CHAIRMAN CLARK: Mr. Twomey.

MR. TWOMEY: My name is Mike Twomey, Route 28 Box 1264, Tallahassee, Florida 32310. I'm appearing today on behalf of the Concerned Citizens of

Lehigh Acres and the East County Water Control District, as well as four other civic associations around the state of Florida. (Applause)

UNIDENTIFIED SPEAKER: Have them stand up.

CHAIRMAN CLARK: I need to ask everyone up here to stand up because they can't see you unless you do stand up.

MR. SHREVE: Jack Shreve, Public Counsel, representing the Citizens of the State of Florida, specifically in this case the customers of Southern States Utilities in opposition to the rate increase. (Applause)

MR. PELLEGRINI: Charles Pellegrini appearing on behalf of the Staff.

CHAIRMAN CLARK: Thank you very much.

At this time I'd like to introduce the Commissioners. To my right is Commissioner Terry Deason. To his right is Commissioner Diane Kiesling. To my left is Commissioner Julia Johnson, and Commissioner Joe Garcia will be seated to her left. We expect him any minute now.

As you know, this is a customer hearing in Southern States Utilities' rate increase request case. This case began when the Utility filed a petition for a rate increase. This petition was accompanied by

voluminous information regarding the financial, engineering and rate justification for the requested rate increase.

This Utility has requested a two-tier uniform water rate along with a uniform wastewater rate. The Utility has requested a final rate increase of up to 45.9% for water and 30.21% for wastewater.

The Utility has also requested an interim rate increase, and on January 4th of this year the Commission granted in part that request for an interim rate increase. The revenues from that interim rate increase are subject to refund, depending on the outcome of the case.

We have held numerous customer hearings in this case, such as this one. When we are completed, we will have held over 20 customer hearings. On April 29th we will begin the technical hearings in Tallahassee. That is the time we will take the testimony and evidence from the Company regarding the rate increase. We will likewise hear from the intervenors and their witnesses and the evidence they put on in opposition to the rate increase.

But this hearing today is designed to hear from you, the customers. We're interested in your comments regarding the quality of service you receive

from this company and your comments regarding the rate increase.

It has been our custom in these hearings, although they are primarily to hear from you, to allow the parties who have intervened and the Utility to make brief opening statements. And at this time I'll ask Mr. Hoffman to make a brief opening statement on behalf of the Utility. Then we'll hear from Mr. Twomey, and finally from Mr. Shreve.

Gentlemen, I'd like to remind you that you have five minutes. Please do not go beyond five minutes, and please stand up.

MR. HOFFMAN: Thank you, Madam Chairman.

Ladies and gentlemen, the rates you currently pay are based on 1991 plant and expenses. Now, beginning in 1992, and running through the end of this year, the Company will have placed in service approximately $100 million of additional plant for which it has not earned one penny of return or profit. Over half of this new plant in service is attributable to the requirements imposed on Southern States to meet ever increasing environmental laws as well as quality of service improvements. As a result, in 1994 Southern States earned less than a 3% return on its plant in service.

Because the Company is spending approximately $20 million per year on the facilities necessary to provide quality service, which meets the standards of the Department of Environmental Protection, that 3% return in 1994 has been diminished, so the Company is presently in the position of losing money unless rate relief is granted.

The Company will present witnesses at the technical hearing who will provide testimony under oath as to prudency of its investments and expenses in support of the rate relief we seek.

This is the second time that the Company has appeared before you at a customer service hearing. I'd like to briefly comment on some of the issues you raised at the last service hearing.

First of all, you raised the issue of whether there should be an adjustment to the Company's rate base arising out of the purchase of the utility in 1991. In the last rate case evidence was presented on that issue and the Commission held that no adjustment was appropriate. You also raised an issue concerning whether the Lehigh Corporation real estate and the Lehigh Utility facilities were properly valued at the time of acquisition. Again, evidence was

presented on that issue in the last rate case, and the Commission found that no adjustment to the Utility's rate base was appropriate.

Issues were also raised in the last rate case concerning the monies that had been placed in an escrow account by lot owners from New York and Michigan pursuant to an escrow agreement between the Lehigh Corporation and the states of New York and Michigan. The issue essentially was whether these monies, which were placed in escrow to ensure the availability of funds for utility connections, whether those monies should serve to reduce the Company's rate base. Once again evidence was presented on the issue and the Commission found that no adjustment was appropriate.

Now, in this case we expect to have an issue concerning the sale of the company's Sarasota County facilities at a net profit of $12 million. As in a prior situation involving our St. Augustine Shores facilities in St. Johns County, because of the sale of those facilities that we owned in Sarasota County, we have lost those assets, we have lost those customers and we have lost the revenues from those customers forever.

Those assets have never been paid for

through the rates charged to Southern States customers who are under the jurisdiction of this Commission.

Commission precedent and policy, affirmed by the First District Court of Appeal, is that when there is a gain or loss experienced under that type of situation, that gain or loss is not to be factored into the calculation of the rates for the customers, such as you, who are under the jurisdiction of the Commission.

The last issue I want to talk to you about is rate structure. The Public Counsel represents all of the customers in this rate case and takes no position, as I understand it, on rate structure. Mr. Twomey represents a number of customer groups who oppose uniform rates.

Southern States supports uniform rates and we have provided testimony in this case in support of a uniform rate structure. In this case we have sent a notice to the customers in our service areas of Burnt Store, Lehigh and Deep Creek. And I can tell you that if you assume -- if you assume that you use the average amount of water, number of gallons per month based on 1994 consumption, and that if you assume that this Company's rate request is granted in full, your rates will be lower under the uniform rate structure

as compared to the stand-alone rate structure.

So with that, I will conclude my comments and I look forward to hearing from you. Thank you.

CHAIRMAN CLARK: Mr. Twomey, I'm sure I don't need to remind you, but keep that microphone close so people can hear you.

MR. TWOMEY: Yes, ma'am. Thank you, ladies and gentlemen. I'll be brief.

I want to talk about who the judges are going to be in this case.

Frank Kane, Fred Schlosstein and others will talk about some of the specifics in the case and how you were wronged in the previous case, notwithstanding the experts and the people under oath. Remember Mark Furman out in the OJ trial, he was under oath, okay? It doesn't mean they'll always tell the truth.

Now, these are the judges that are scheduled to hear your trial. It's a trial. Administrative hearing. $18.1 million is at issue; perhaps more when you consider that they got too much the last time.

They're going to be the judges, they're going to decide the facts, the conclusions of law. We want to change that and let me tell you why.

Commissioners are appointed by the Governor of the state of Florida. They go through an initial

process of being selected by a committee, but when it comes down to it, the Governor has the final call, he has the only vote.

Back when Chairman Clark as appointed the first time, the Governor's son, Bud, bragged to the Miami Hearld he was responsible for her selection. Now, Commissioner Clark says she's never met Bud; that she didn't know about this. But still the Governor's son bragged that he helped get her on the Commission.

Commissioner Kiesling, who the Nominating Council tried to keep out, essentially, the Governor had to fight for her and went so far as to go to the Supreme Court of the state of Florida to see that she was appointed. That's fine.

Now, we think that Commissioner Kiesling is biased for other reasons and have asked her to step down. She refused. The full Commission refused to have her sit down and we're taking that on appeal now to the First District Court of Appeals.

Aside from that, these five people are the ones that will decide the case. They hold some of the most powerful, prestigious jobs in the state of Florida. They are paid in excess of $97,000 a year plus benefits. They decide some $20 billion worth of rates every year. They are important positions;

they're powerful positions.

Now, the problem I have sitting in this case is we think they have been put in the position by the Governor's Office of being unduly influenced. Not that they would not hear the case properly, but that given the facts we know, they are in a position where we suspect they would have in the back of their minds that they might have to go with the Utility instead of on you people on a narrow call because of pressure that's been put on them by the -- and I say unfairly, it's not their fault -- the Governor's Office of the state of Florida has put pressure on these five. We don't think it can be cured. I don't have much time.

Back in August SSU's president and his general counsel, not Mr. Hoffman, but another fellow, and Tracy Smith who is back there someplace, met with the Lieutenant Governor -- this is the Lieutenant Governor's calendar -- they met -- with those three was a fellow who is a lobbyist of SSU and is intimate with the Governor's circle, a guy named Jeff Sharkey. They met 15 minutes. The rest of us don't go to the Governor's Office and meet. This utility and their lobbyist do. Later, President Cirello sent the Governor a letter thanking him for the meeting and talking about how they were going to use utility rates

to move the land development around.

Now, you all probably know, living in Lehigh Acres, they're in land development big time. They are in other places in the state. It has nothing to do with utility rates.

More importantly, the Lieutenant Governor wrote a letter to Commissioner Clark and the other Commissioners back in December 21st of last year, and put pressure on these people. They say they were asking for information. They put pressure on them in favor of SSU.

I discovered, through a public records demand of the Governor's Office, that the letter the Lieutenant Governor sent in every essential sense was a draft supplied to him by the Utility's lobbyist, okay. And he had the guts to send it over on a fax and say, "I'd like to see if the Lieutenant Governor would send a letter to this effect to Susan Clark." Okay. That's it. He wrote the letter. They either did it or had their lobbyist do it to put pressure on the PSC against you folks. Pure and simple.

They like to try to make the distinction that the Lieutenant Governor was pressuring these people on an old case that only involved $9 million; not this case that involves 18. It doesn't matter.

It's irrelevant.

They did the same thing. They did precisely the same thing with the Commerce Secretary Charles Dusseau. He wrote Chairman Clark a letter pressuring in favor of SSU. Sharkey, the lobbyist, the Governor's son's Buddy, gave Dusseau a deadline: get it to them by January 3rd, 1996. Do you know why, ladies and gentlemen? Because on January 4th, 1996, was the scheduled vote on whether you'd have to pay an interim rate increase.

You know what, not saying they were affected by these letters -- and Dusseau got his letter there one day ahead of time, January 2nd. So they were pressured by the Lieutenant Governor, Dusseau. On January 4th they gave a $6 million interim rate increase.

My time is about up.

We're going to take the deposition of Secretary Dusseau and Jeff Sharkey next Friday. We're going to find out more information. Either shortly before that deposition or after it I'm going to file a document that I previously gave the Commissioners about ten days ago asking them to sit down from this case and transfer it to an administrative law judge of the Division of Administrative Hearings. Not because

they've done anything wrong. I'm not suggesting they have. The Governor of the state of Florida and the Lieutenant Governor and his office, notwithstanding their bizzare comments and explanations on the subject, have put undue pressure on this body. They are not in a position to make a fair hearing of it, and we want to have the case transferred.

So support your local groups here, Lehigh Concerned Citizens. Write your legislators, write the Governor's Office and tell them to stay out of this case. Write your legislators and say you want to see this thing transferred. And get up today, if you've got bad water, say so. If the rates are too high, which they are, of course, say so. Tell these Commissioners -- they'll listen -- how it impacts your budgets and the rest of your life.

Thank you very much. (Applause)

CHAIRMAN CLARK: Mr. Shreve.

MR. SHREVE: Thank you, Madam Chairman. I'll be brief. We've all been here before and you've all heard this before. I'll just touch on a couple of things Mr. Hoffman said.

He's right, we raised the fact that Southern States did not pay as much for Lehigh Acres in the last case as they were given in the rate base. They

have bought the country club, golf course, motel, wrote everything -- practically like a bankruptcy sale, wrote everything down to about 40% except the utilities. And Mr. Hoffman is right, the Public Service Commission let them have a return and depreciation on money they did not pay for. Mr. Hoffman pointed that out.

They took it to appeal. The appellate court upheld the Public Service Commission. If the Public Service Commission goes with you and gives them a return on what they actually invest rather than on a phantom investment, the appellate court will uphold that, too. So we're raising it again and we hope it will be coming out right this time and get the pot right so that you're not having to pay on something that they did not invest.

Same thing with Sarasota County. Mr. Hoffman is right, in the last case we raised the sale of St. Augustine Shores where there was a $6 million profit. They don't still have the system in Sarasota County, they don't get the revenues. They just don't have it anymore. Of course, they made about a $19 million profit on the sale of it and they walked away with the money. It didn't go to the people of the state of Florida.

I don't care what your reasoning is on it, what Mr. Hoffman and Southern States says, but it wasn't under the jurisdiction of this Commission. They got the money and walked away with it and sent it to Minnesota Power. That's not right. Keep it here in the state of Florida. It was supported by the citizens of the state of Florida. If not by anyone under this Commission, it was money here in the state of Florida. Either give it back to those people or put it against the rate base so that they don't walk away with the money.

When you go through this case and you hear Southern States' explanations, you really never get the true picture of what is going on.

In Lehigh Acres, they purchased it, came into the '92 case. At the time they were coming in their revenues were approximately $1.6 million in water rates from Lehigh Acres customers. Coming out from this case, they want 2.8 million. For sewer, when they came into the '92 case right after they purchased it, they were bringing in total revenue of about $1.5 million. Coming out of this case they want approximately $3.2 million; more than double the revenues than they purchased it.

It's the same situation across the state.

You get all sorts of explanations about the different rates, but what the Public Service Commission should do is take each and every system and cut it down to a reasonable rate. It's not a reasonable rate for Chuluota to have to pay $170 for sewer service for 6,000 gallons. No matter who pays for it, Southern States should not get that kind of money.

Our testimony is going to show that there should not be a rate increase at all, but that there should be a rate decrease across the board.

Thank you very much.

CHAIRMAN CLARK: Thank you, Mr. Shreve.

Mr. Hoffman, do you have the Affidavit of Proof of Publication and the affidavit on the sending of the Notice to the Customers.

MR. HOFFMAN: Yes, ma'am. I've provided the court reporter and the parties with a copy of the Affidavit of Publication of the Customer Notice as well as Southern States' Affidavit of Mailing of the Notices, and ask those document be admitted into the record.

CHAIRMAN CLARK: Those documents will be mark as Exhibit 53.

(Exhibit No. 53 marked for identification.)

CHAIRMAN CLARK: Before I get to the

customer testimony, I would like to introduce members of our Staff who are here today to help you.

Many of you have met them before, but let me reintroduce them. I'd like to start with Mr. Marshall Willis, who is a bureau chief in our Division of Water and Wastewater. Next to him is Mr. Charlie Pellegrini, one of our staff attorneys working on this case who has introduced himself as he made his appearance. Next to Mr. Pellegrini is Mr. Troy Rendell, who is a supervisor in our Division of Water and Wastewater. And behind him is Mr. Bob Crouch, an engineer in our Division of Water and Wastewater. The lady who was at the sign-in table when you arrived with with our Consumer Affairs Department, Ms. Margaret Ring. And we also have our clerk with us today, Ms. Blanca Bayo, and also our court reporter today is Joy Kelly.

I'd also like to point out my aide is in the back of the room, Mr. Billy Stiles, and he's also available to help you if you have any questions that you'd like to ask us individually.

We will be swearing you in. This is because we want to be able to rely on your testimony that you give today. I should tell you that if you testified in the last customer hearing, you need not testify

again. That will continue to be part of the record and continue to be available to us and the parties to rely on in making our decision in this case.

Again, I'd like to ask you when you come to the podium, will you please give us your name, tell us from what system you receive service, and if you would spell your last name, that would be helpful, too.

We will call you in the order you have signed up. Mr. Shreve will call -- he has the sign-up information and he will be calling you in the order that you signed up.

At this time I'd like to ask everyone who has signed up to speak, if you would please stand and raise your hand and I will swear you in all at once.

(Witnesses collectively sworn.)

CHAIRMAN CLARK: Thank you very much. You may be seated.

Mr. Beck.

MR. BECK: Thank you, Commissioner. Mr. Ken Barnes.

- - - - -

KEN BARNES

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS BARNES: Good morning Commissioners, and Staff. I guess you know I got here very early in order to be first on the list. But you can sit back and relax, I'm not going to say anything mean about you all.

CHAIRMAN CLARK: Can you give us your last name and spell your last name.

WITNESS BARNES: My last name is Ken Barnes, it's spelled B-A-R-N-E-S.

COMMISSIONER GARCIA: Mr. Barnes, could you tell us the system you're part of?

WITNESS BARNES: I'm a director of the Property Owners Association, PGI, Section 23, affectionately known as Deep Creek.

CHAIRMAN CLARK: Go ahead, Mr. Barnes.

WITNESS BARNES: The directors of the association represent 3,343 property owners, and I'm here today in their behalf.

The directors met and discussed and cussed the stand-alone system, the modified stand-alone and the uniform rate structure. And we unanimously came

to an agreement that the best and fairest system would be the uniform rate structure.

They instructed me to come down here and meet with you all and bring the statement that I will now give to you. I quote: "We ask the Florida Public Service Commission to adopt the most fairest of the three plans, the uniform rate structure."

I thank you for letting me appear before you. I don't want to take your time and give to you all the discussions that went on in our meetings. But again thank you.

And if you missed the point, I represent 3,343 property owners, and we would like you to adopt the uniform rate structure. Thank you very much.

CHAIRMAN CLARK: Thank you, Mr. Barnes.

COMMISSIONER GARCIA: Can you tell me about the quality of the water in your system?

WITNESS BARNES: The quality of the water.

COMMISSIONER GARCIA: Yeah.

WITNESS BARNES: The quality of the water to us is first rate. We've had no complaints whatsoever regarding the quality of the water.

COMMISSIONER GARCIA: Great. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Barnes.

MR. SHREVE: Mr. Morton.

DAVID MORTON

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS MORTON: Madam Chairman and members of the PSC, my name is David Morton, spelled M-O-R-T-O-N. I'm a resident of Lee County residing in the Burnt Store service area of SSU. I'm appearing before you as manager of the Marina South Shore Condominium Association, where I reside, as well as a private citizen.

When I last appeared before you during the meeting which was held on November 28th, I appealed to you to the basis of fairness noting the large amount of increases that SSU was asking for. I now appear before you as a confused and somewhat angry citizen who has but a few questions to ask after a brief statement.

I, speaking for myself and for most other confused citizens, do not understand why a Commission with a name "Public Service Commission," who I believe is charged with looking at both sides of a rate question before making a determination of a fair rate, and is not solely in existence to guarantee a rate of return to a public monopoly.

On November 28th, 1995, the proposed interim rate for base facility was $6.71 for the Burnt Store facility, with a proposed final rate of $23.62. A proposed gallonage charge of $1.61 interim versus $3.27 per thousand gallon final rate propose. An interim charge of $33.58 for one-and-a-half inch meters versus a final of $118.10 for a final, and on and on.

We were told at that time that the PSC had thrown out the interim rate proposed, and on February 8th, 1996, there would be a hearing regarding the final rates. In January of 1996, we were advised by SSU that the PSC, armed with quote "new information from SSU," heard requests from SSU for a new interim rate increase, and granted it on January the 4th. And that these rates would be effective January 23rd. So much for both sides being heard.

I must tell you that I'm from a condominium association. And a condominium association has a fiduciary responsibility to propose budgets and act upon budgets over a four-year period.

Interim rates such as this do not react favorably with an association which has a fixed budget. I know that's not your problem, but it does create a problem with the users of this utility,

especially when one comes -- and I believe it was unannounced, folks. We never heard of this January 4th hearing. We never got a notice on it. But the rate structure came through in the mail and we're expected, as of this month, to start paying on that. We don't have it in our budget. What do we do? Call a special assessment because these folks decided they wanted an interim rate?

What I'm suggesting is that perhaps there should be a phased increase in rates rather than throw it upon us all at one time.

To add insult to injury, the rates approved were in most cases much -- and I highlight that -- much higher than the original interim rates that SSU asked for and that you folks threw out.

To give you an example, the base facility increase in interim basis was asked for at $13.53. Much lower than what was approved as an interim rate. Gallonage, the final rate was $3.85. We have an interim rate that is higher than that.

You don't mention, or whoever produced this circular that was handed out at the doorway today, whether it was the PSC or SSU, does not even mention the meter charges. And we're getting a meter charge, an increase of two or three times what it was before.

In the case of the gallonage, as I said, it was higher than the final rate requested.

These actions and others such as the Lieutenant Governor's office, which was well publicized, this is not something that we're making up, or the Lieutenant Governor himself, an elected official by the public, not the Utility, pleading the case of the Utility directly to the PSC, does not speak for the credibility of the PSC or the system in general. (Applause)

We, the citizens, are outraged at the cavalier way we're being treated. That being said, I ask the following three questions: Why were interim rate increases granted higher than previously asked for without input from the public? Question number one. Will there be higher rates granted in the interim rates or will they be lowered to a reasonable level? According to this circular, I don't see any reductions. Will the Burnt Store service area be granted an independent counsel to represent them as the Public Counsel states that he has a conflict of interest? Probably very true, and will not be able to represent Burnt Store, leaving us without the same rates as the rest of SSU's customers.

We have been notified through the grapevine

that the Public Service Commission has said, "No, you can't have an independent counsel." Well, in Boston several hundred years ago a bunch of tea was thrown in the ocean because of taxation without representation. Utility rates, or the Public Service Commission's power to act upon those, is a form of taxation. And at the present time, as I understand it, we do not have representation.

We're waiting your answers. Thank you very much.

CHAIRMAN CLARK: Thank you, Mr. Morton, I will start with your first question with regard to the interim rates.

When they first asked for interim rates, they asked for interim rates on their uniform basis and they also did it on a projected test year. We indicated to them that we found that unsatisfactory and we also felt constrained by the court case that indicated we could not set -- use uniform rates without a finding of functionally related. And under the interim statute we are required to set a rate structure based on the last rate case. So we felt we could not use the proposed uniform rates.

Because we could not use the uniform rates, that's why you find their proposed interim may have

been less than what was finally imposed on your system. The overall revenue that they requested and the overall revenue that we granted was less than what they had requested, although it affects customers in different systems differently.

We also are constrained with respect to interim rates to act within 60 days of their filing a request for interim rates. No hearing is held on those interim rates. It is something that we must do quickly and no hearing is provided for.

Those revenues will be subject to refund. It does not mean that if you paid a higher rate and when we finally conclude this case, if a lower rate is allowed, that does not necessarily mean there will be a refund to your particular customers.

Now, you asked me about higher or lower final rates? Whether or not they will be higher or lower than your interim rates will depend on what is proven to be needed by this Company. And assuming they prove a need for a rate increase, we will then have to decide how to structure those rates. So whether or not the final rates are higher or lower than the interim rates will depend both on the amount of increase, if any, is granted and how the rates are structured.

With respect to the independent counsel, we're constrained to operate within the statutes that grant us power. We heard, on Tuesday, the arguments from Public Counsel, from the Company and the advice from our Staff regarding our ability to appoint or suggest that counsel be appointed. And the request was, from Mr. Shreve, that that counsel be authorized by the Commission and funds to pay for that counsel be paid out of any rate case expense we allow.

We believe that we did not have the statutory authority to make that kind of decision regarding counsel, and that was the basis for our decision. That does not mean that you cannot hire counsel like other homeowners association have done. But let me tell you this: We have instructed our Staff, and we expect our Staff to explore all of the ramifications of all of the various rate designs presented. And I'm confident that after going to these public hearings and hearing from our Staff, we will have a good idea of the pros and cons of the various rate structures. Do you want to follow up on any questions, Mr. Morton?

WITNESS MORTON: I just want to state one thing, if I might --

MR. SHREVE: Mr. Barnes --

CHAIRMAN CLARK: No, this is Mr. Morton.

MR. SHREVE: Mr. Morton, I'm sorry. I don't want to interrupt you, but do you mind if I make a couple of comments on the answers you got to your questions. I'm Jack Shreve, the Public Counsel.

WITNESS MORTON: Yes, I know you, Mr. Shreve. I remember you from the last hearing. Yes, you may, but I'd like to reserve the right to stand here and make a comment myself, if I could.

MR. SHREVE: Sure. You're exactly right in what you said. I feel -- and as you know and most of the people here know -- I have been contacted by both sides to represent them. I'm representing everybody to keep the rates down, so you expressed that exactly right.

My feeling was we're in a situation where the Public Service Commission has a duty to make sure that there's due process afforded to all of customers. We weren't asking Southern States to pay for it. We were asking the the counsel be provided and it come out of rate case expense so that all of the customers would pay a certain amount. Southern States certainly has no qualms about spending your money and your rate case expense when it furthers their needs. They did oppose it and the Public Service Commission went along

with them on that so that there will be no counsel provided in that way.

I will tell you that I will continue to try and find some way to make sure that counsel is provided to both sides on that because at this point -- prior to this certain sides -- one side would have been represented more by the Public Service Commission and Southern States. That has changed because when the Public Service Commission ordered a refund, Southern States then said, "If we have to make it, we want to take it from the customers who are paying uniform rates and were being subsidized." So I'll commit to you that I will continue to try that, but we're going to have to try and do something else. Thank you, sir.

CHAIRMAN CLARK: Go ahead, Mr. Morton.

WITNESS MORTON: Well, I'm going to address the same issue and that is, again, the independent counsel.

As I understand it, and I will repeat again, it seems that the Burnt Store Marina area is without Public Counsel in this particular issue. And the Public Service Commission has decided that it's not within their power to grant an independent counsel.

I believe I have been advised differently

from counsel. And what I can't understand is how the rest of the universe, so to speak, as far as SSU is concerned, is granted or afforded Public Counsel being paid for either by the citizens of Florida or the Public Service Commission, or wherever those funds come by, and we're being excluded for whatever reason. Whether it's not within your power -- that may be possible, but it's got to be within somebody's power, dear, that it just can't be that a certain segment, or that one utility, or the customers of that one utility is not granted Public Counsel. I feel that's a wrong that really needs to be addressed and addressed before the rate is approved or denied.

Otherwise, you're leaving yourself wide open for some court to reverse your structure. And I don't think it's right for you folks to spend all of that time and get shot down in the future. All we're asking for is a fair hearing, just like everybody has got it, with counsel provided just like everybody else has. If there's a conflict of interest, there must be some mechanism to right that wrong.

Thank you very much. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Morton.

COMMISSIONER GARCIA: Mr. Morton, could you come up just a second. I wanted to ask you about the

meter charges.

WITNESS MORTON: Yes.

COMMISSIONER GARCIA: Could you tell me what is going on there just so I have an idea.

WITNESS MORTON: Well, we just received a new blue notice from who I don't know. I don't know whether it's from SSU or from the Public Service Commission --

CHAIRMAN CLARK: Mr. Morton, we produced that.

WITNESS MORTON: Excuse me?

CHAIRMAN CLARK: We produced that flier.

WITNESS MORTON: Okay. There is no mention of meter charge in that schedule there.

And what I'm saying there's a different charge for each meter, whether it's a half inch or three-quarters. And there are enormous increases being granted in those meter charges, be it they are not mentioned in your brochure.

CHAIRMAN CLARK: Mr. Morton, we try to make this as straightforward and simple as we can. And to the extent we put a lot of information in there, it tends to confuse people.

WITNESS MORTON: Absolutely.

CHAIRMAN CLARK: It's already a confusing

situation that we have here. But we're well aware of the fact that there are different charges for different meter sizes.

WITNESS MORTON: Well, the only statement I make in that regard is it doesn't really cost all that much more to add one piece of paper so everybody has the full picture of it. And that's a considerable amount of money when it is raised 20-some-odd-dollars up to $188, as an example. That's a large increase. And when with here -- in the newspaper, for instance, oh, there's going to be an 8% increase. Well, I don't know where they get their figures from, but certainly our figures -- when our water gallonage is raised three times over it's not 8%. And when our meters are raise from 20-some-odd-dollars to $188, that's certainly not 8%. So I suggest if they're coming out of the Fort Myers schools, perhaps we need to revise our education or get the facts straight.

Thank you very much.

CHAIRMAN CLARK: We'll continue to work on that. (Applause)

COMMISSIONER DEASON: Mr. Morton, I may be a little confused. I'm trying to understand your concern about the independent counsel and your concern that there are other groups that have independent

counsel that is being provided to them by someone.

WITNESS MORTON: Every other group, as I understand it, throughout the state is, first of all, represented by Public Counsel, which is what the law allows. But our Public Counsel has told us that he can't represent us fairly because he has a conflict of interest. Therefore, what we're asking, and as I understand in the statutes, it does provide for independent counsel to be granted with those funds to be paid. Yes, I know we can go out and hire somebody for twenty or thirty or $50,000. But what we're asking for is equal treatment under the law so that we may receive a paid-for counsel just like every other utility's counsels or customers are being paid, or have available to them, in the rest of SSU's area.

COMMISSIONER DEASON: Well, I guess I took your comments to mean that it was your belief that somehow the Commission had authorized independent counsel for some customer groups and not for others.

WITNESS MORTON: I did not make that statement.

COMMISSIONER DEASON: See, that's what I was just trying -- I was confused.

WITNESS MORTON: I haven't the faintest idea whether they have or not. I do know that that avenue

is available through somebody's powers. And we're asking for that ability to have an independent counsel so that we may be under the same general structure as the rest of SSU's customers. That's all we're asking for.

COMMISSIONER JOHNSON: Mr. Morton, you're obviously a very bright man and I'd just like to continue the dialogue a bit to better understand your position.

WITNESS MORTON: Thank you.

COMMISSIONER JOHNSON: With respect to -- they can't see me in the back.

With respect to the independent counsel issue, and I have been listening to everything you have said and considering it, my question is where do we draw the line?

We understand that Jack Shreve has done an excellent job representing all of you on the revenue requirement issue. And their argument is that in total dollars, that the utility deserves a decrease and opposed to an increase, and they will represent you zealously on that issue. But on the issue of rate structure, right now we have two positions being proposed: the stand-alone and the uniform rates. And I glean from what you're saying is we should have

independent counsel on each of those issues: someone to represent stand-alone and someone to represent uniform rates.

And what about other rate structures? What would happen if we said, "Okay, we will give you independent counsel," and that money will come from you because it will be a part of the general rate case expense, what happens if there's a third group that says, "Well, we want reverse rate structure." Do we then appoint them a counsel? And, practically, how would we implement that? And I understand you think that we have the legal authority to do that and that's something I have been trying to deal with, whether first we have the legal authority, and, then two, whether it can be done in a practical way. What would you suggest that we do and where do we draw the line?

WITNESS MORTON: Ms. Johnson, I can't honestly deal with "what ifs", okay, because we can "what if" ourselves to death.

COMMISSIONER JOHNSON: Right now we have three rate structures.

WITNESS MORTON: We're presented with a situation wherein the counsel that are supposed to represent us fairly in front of you, as our advocate, has stated he can't do so, okay?

It's my understanding that the reason there is a Public Counsel is that in the structure of the Public Service Commission, as it stands in Florida, he is the advocate for all clients of that -- or that utility, okay? He said he can't be. So where do we stand there? We have no representation.

So what we're asking from you is relief in this particular case. Not in "what if" if there's a third structure for fourth structure, we're only dealing with what we have been faced with right now. And that is that we're being faced with large increases without representation. That's our problem as I see it.

COMMISSIONER JOHNSON: With respect to the rate structure issue -- (applause) -- the people that you represent would want representation on which rate structure?

WITNESS MORTON: Are you talking about the three structures that were offered? Frankly, that's the first time I've seen that was this morning, okay. I cannot speak for our group on that, although I will tell you that from the meetings that we have had on this subject, that we support the uniform structure or the uniform rates structure. And I'm confused as how your latest thing -- you've got three structures in

there, a stand-alone, a modified stand-alone and a uniform. And I've heard another speaker just before me say they support the modified and then they said they support the uniform. Well, that's two different things, according to your brochure. Maybe it isn't, but that's the way I read it and I did have a fairly good reading rate.

COMMISSIONER JOHNSON: You're absolutely right and that's where some of the confusion occurs.

COMMISSIONER GARCIA: Let me make a distinction because I would have to make a distinction -- and Mr. Shreve will probably back me up.

Mr. Shreve has not said that he cannot represent you. What Mr. Shreve cannot represent you in is in terms of the rate structure. And the perfect example, if we had the discretion legally, is your case, your company's case. Because yours brings the third alternative that -- if I'm reading the numbers correctly, and I didn't go to school in Fort Myers so I don't know how that would qualify -- but if I'm reading numbers correctly, you would benefit most, or the most favorable solution apparently is the modified.

WITNESS MORTON: No, I don't believe so, as

I read it.

COMMISSIONER GARCIA: In what I'm reading here, you get a gallonage charge of 8.86 and you get a base facility charge of 13.39 as opposed to a base facility charge under uniform of 23.62.

WITNESS MORTON: What's the gallonage charge?

COMMISSIONER GARCIA: And the gallonage charge is --

WITNESS MORTON: $3.85 versus $8 and something.

COMMISSIONER GARCIA: No, no. It's 3.27 as opposed to 3.86.

WITNESS MORTON: You said 8 something just a minute ago, that's where you're getting confused.

COMMISSIONER GARCIA: Oh, I'm sorry. Forgive me for that. Maybe I did go to school in Fort Myers. (Laughter)

The problem is -- and I want you to understand, and maybe Mr. Shreve can clarify that, because I understand, and I fervently believe that we should try to do everything possible to give as much process. And I think this Commission has gone way beyond trying to give process. I believe this is the second time we have been here on this particular case.

Some places we have been three times. And it's all in the effort of giving process. But I want you to understand that in no way does that mean that there is not an advocate for a position to stand against the Company. What there is not an advocate for is the position of rate structure, in other words, one of the issues in the case.

WITNESS MORTON: I understand that. There are more than just one other issue --

COMMISSIONER GARCIA: And you stated also that every other utility has gotten it. This issue is a conflict for Mr. Shreve in this entire case, because there is a huge portion of people in this case who do not benefit from uniform rates. And they've hired very capable counsel in Mr. Twomey in some cases. Some of them have not hired counsel, and, of course, they're being represented by Mr. Shreve. But I don't want you to think that you're dangling out there in the wind.

I think you have counsel. And the Chairman has pointed out that our Staff is going to look at this case and present all of the alternatives to us as they do this case. So I want you to feel at least secure in that fact.

WITNESS MORTON: Mr. Garcia, I appreciate

what you're saying but I have to look at it like a piece of pie, and I love pie, okay, probably evidenced --

COMMISSIONER GARCIA: Probably both do.

WITNESS MORTON: Unfortunately the piece of pie is divided in three, four or five sections. And yes, you're correct, we're represented in one section. But there are three or four other sections within this rate case which we're not represented in. And they are just as important. They may mean more in the long run as far as what our clients are eventually charged than what the rate, individual rates that are being proposed are. And you all know what those are just as well as I do and I'm not going to bore the audience with it, because each one has their own agenda. But there are three to four additional sections within this rate increase or rate case which directly impact the people that live in the Burnt Store service area that we will not be represented by Mr. Shreve. That's what we're concerned with. Not just how many dollars are involved in gallonage. And with that -- unless there are any other questions I'm through.

CHAIRMAN CLARK: Thank you.

MR. SHREVE: Thank you, Mr. Morton. Audry Seay.

AUDRY SEAY

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

CHAIRMAN CLARK: S-E-A-Y, right?

WITNESS SEAY: That's correct.

CHAIRMAN CLARK: It's nice to see you again, Ms. Seay.

WITNESS SEAY: Thank you very much.

To the honorable members of the Florida Public Service Commission and guests and Staff, my name is Audry Seay, S-E-A-Y. I'm a member of the Board of Directors of the Deep Creek Civic Association, and I'm here to represent the residents of Deep Creek, and in particular the Deep Creek Civic Association.

We are primarily here to support the uniform rates as requested by SSU. We have had good service from SSU despite the problems we have had with water rates from Charlotte County. SSU has made the effort to increase the water flow into Deep Creek, which had experienced tremendous growth rate over the past six years. They worked with Charlotte County for permitting to enlarge the water meter, which is hopefully to be installed in a few months.

The water quality in Deep Creek has been excellent, and we are satisfied with the service that Southern States has provided.

We believe that balancing the costs by establishing uniform rates relieves all customers from experiencing large increases resulting from special needs in a given district. Spreading the costs throughout all the service systems helps to reduce the overall costs. Stand-alone rates are not desirable to us.

Today we have brought a large number of Deep Creek residents -- (audience stands) -- they all wanted to be seen. (Laughter)

We have brought a large number of Deep Creek residents who want you to know that 4,000 homeowners and residents encourage you to improve the uniform rates.

By the way, our group has a bus rented and we'll have to leave before the end of this hearing, so when you see a bunch of us leaves it's not because we're angry, it's because we have to catch our bus.

Oh, I wanted to add to make sure you did understand, that many of our rate increases have come about not from Southern States, but have come about because Charlotte County has made some decisions in

the operating of their Charlotte County Utilities which has detrimentally affected all of us in Deep Creek.

Thank you very much.

COMMISSIONER GARCIA: Let me ask you a question. You stated that there's been large growth in Deep Creek.

WITNESS SEAY: Yes, in the last six years.

COMMISSIONER GARCIA: In the last six years. In the last two, give me a percentage. 25%?

WITNESS SEAY: I wish you hadn't asked me about the last two because things haven't gone well in the last two years.

COMMISSIONER GARCIA: The last three or four, a 25% increase?

WITNESS SEAY: No, we have had about a 15% increase, 15% to 20% increase, but it's gone down after that because all building has gone down in Charlotte County.

COMMISSIONER GARCIA: And what you were alluding to in the costs that are being passed on through Charlotte County Utilities to Southern States Utilities, Charlotte County, has been increasing those costs?

WITNESS SEAY: Dramatically.

COMMISSIONER GARCIA: Those have been affecting all of the people of Charlotte County.

WITNESS SEAY: That has been affecting the residents of Charlotte County, excluding Punta Gorda, which has its own water facility.

COMMISSIONER GARCIA: Just out of curiosity, if you can indulge me for a second, that's based on as Charlotte County has had increase in operational costs or development costs, and they are just spreading them out to all of the citizens of the county.

WITNESS SEAY: They purchased General Development Utilities, and had a bond issue which had to be shared among the residents of Charlotte County and the users of the Charlotte County -- well, that's who it was; not the residents but the users of Charlotte County water. Southern States purchases its water from Charlotte County Utilities.

COMMISSIONER GARCIA: Thank you.

CHAIRMAN CLARK: Thank you, Ms. Seay.

MR. TWOMEY: I have a question.

Ms. Seay, colloquial terms, Charlotte County got taken by General Development, didn't they? My point is, is they were incompetent in their purchase of that system and the bond issuance, would you agree with in me?

WITNESS SEAY: That's a low blow.

The Charlotte County Commission purchased General Development at a price that was higher than it should have been purchased.

MR. TWOMEY: In my words, they got taken.

Now, you said, ma'am -- and as a consequence of that, isn't it true, what you're saying is that the rates had to go up from Charlotte County to pay for that bond issuance, right? And that, in turn, has resulted in a succession of rate increases from Charlotte County to SSU being passed on to you; is that correct?

WITNESS SEAY: Yes.

MR. TWOMEY: Okay. Now, you can vote -- you live in Charlotte County, right?

WITNESS SEAY: Yes, I do.

MR. TWOMEY: And you can vote for the county commission officials, right?

WITNESS SEAY: Yes, I do.

MR. TWOMEY: So if you're not happy with their efficiency and competency in purchasing utilities, you can vote them out of office if you wish.

WITNESS SEAY: I have one vote.

MR. TWOMEY: Yes, ma'am.

Now, your point, is it not -- and I'm not critical of you for this -- isn't your point that you like uniform rates because it spreads those increased costs from Charlotte County to all of SSU's customers, including my clients; that's why you like uniform rates?

WITNESS SEAY: May I comment on that, which I gave in my little prepared words.

We believe that balancing the cost of establishing uniform rates relieves all customers -- all -- I didn't say just Deep Creek, I said all customers -- from experiencing large increases resulting from special needs in a given system.

So if other systems had large increases, we would have to share that, too. But, again, that sharing of the cost is spread across everyone. And when you start sharing costs with a lot of different people, then nobody pays a lot, and that's what we feel.

MR. TWOMEY: Yes, ma'am, but I want to be clear on is this: You do understand, do you not, that in order for you to get a reduction in your rates, that somebody else has to pay for it? That is, that there's not a free lunch in this. You understand that, don't you?

WITNESS SEAY: I never said there was a free lunch. I said the costs in every system would have to be shared.

MR. TWOMEY: Yes, ma'am. And lastly I want to ask you, would you concede with me that my clients that live in Collier County, and my clients that live in Duval County and Citrus County and Hernando County cannot vote to affect the decisions made by the Charlotte County Commission. You concede that, right?

WITNESS SEAY: You are here to represent your people. I am here to represent mine. I will do everything that I can to help my people, just as you do everything you can to help yours.

MR. TWOMEY: Sure. (Applause)

But, again, you concede, do you not, that my people that don't live in Charlotte County do not have the franchise to vote to affect the competency of the officials there that got taken by General Development on that purchase.

CHAIRMAN CLARK: Mr. Twomey, I don't think we need to get into this kind of questioning. I think that we can note that if you -- (applause) -- do not live in Charlotte County, you do not have the opportunity to vote for the County Commissioners. I think we can take that as a fact.

MR. TWOMEY: Yes, ma'am. And I wanted -- I think I was entitled to an answer.

Now, you may think I'm bullying this witness and everybody else in this room may, but the point I want to get across here, to the extent that it is not made to these people in all of the literature handed out by SSU, and all of the propaganda handed out by SSU, as well as the literature handed out by this Commission, is that there is no free lunch, Madam Chair. If these people get lower rates to make up for the higher rates they pay because of the incompetence of their public officials, or whatever the reason is, the incompetence of this utility, it comes out of the pockets of other people. And I want to make --

CHAIRMAN CLARK: Mr. Twomey, that's why we gave you an opening statement, is to make those points. We're here to hear from the customers, not badger the customers.

MR. TWOMEY: I understand that and I'm not badgering the witness.

THE AUDIENCE: Yeah you are.

WITNESS SEAY: I would agree with the Commission. I think that you are badgering, sir. It is my humble opinion that you really are badgering.

MR. TWOMEY: Yes, ma'am.

WITNESS SEAY: I think we both stated our points. I've stated mine and you've stated yours and I really don't think there's more to be said on that.

MR. TWOMEY: Fine. (Applause)

CHAIRMAN CLARK: Mr. Shreve?

MR. SHREVE: Frank Weikel.

- - - - -

FRANK WEIKEL

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

CHAIRMAN CLARK: Go ahead.

WITNESS WEIKEL: Thank you. My name for the record is Frank Weikel. I'm a resident of Deep Creek and a board member of the Deep Creek Civic Association.

CHAIRMAN CLARK: Would you spell your last name?

WITNESS WEIKEL: W-E-I-K-E-L.

CHAIRMAN CLARK: Go ahead.

WITNESS WEIKEL: In the interest of brevity, and because some of the other speakers -- and Audrey has already touched on a lot of them, I'm going to direct my comments mainly to the uniform rate proposal.

This proposal could be boiled down to two main issues. The first is a matter of economics to the subscribers.

I can tell you that in recent years our community has seen an increase of over 300% in their rate bill. Now, many living in the Deep Creek community moved here after retirement and are on fixed incomes. The current rate system is a burden that hits them in the pocketbook. Even those who are not retired and employed find problems making payments on the current charges.

The second issue is simply fairness, and fairness can only be accomplished by granting Deep Creek inclusion into the uniform rate system.

On behalf of those who are now in a grossly unfair system, we ask a positive decision on the uniform rate request. And on behalf of the subscribers who are already in the uniform rate increase, we're willing to accept a burden if their Commissioners or their attorney makes an unwise decision that raises their rate. The fairness is in a uniform rate and we respectfully ask that you approve it.

Thank you very kindly.

CHAIRMAN CLARK: Thank you, Mr. Weikel.

(Applause)

WITNESS NADLE: The person from Burnt Store has expressed my opinion --

CHAIRMAN CLARK: You need to come to the microphone. You can adopt that testimony but we need to be able to hear you through the reporting system.

- - - - -

STEPHEN NADLE

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS NADLE: My name is Stephen Nadle. Stephen with a P-H, Nadle is spelled N- as in Nancy, A- as in adorable, D-L-E.

I'm yielding my time to Mr. Morton. We didn't get a chance to rehearse our comments. The only thing I would ask is that you blend in a little more anger about a 313% interim rate increase on our water bill. We happen to be believe in uniform rates. We support the Deep Creek people. And I'm throwing away my prepared comments and just say you'll make up my time with some other speaker.

Thank you.

CHAIRMAN CLARK: Thank you, Mr. Nadle.

(Applause)

MR. SHREVE: Thank you, sir. Mr. Schlosstein.

CHAIRMAN CLARK: While he is coming up here, let me announce that we have found a library book if the Lehigh Acres Public Library entitled "Vital Signs." My aide has that book if you've lost it.

- - - - -

FRED SCHLOSSTEIN

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS SCHLOSSTEIN: Madam Chairman, members of the Public Service Commission, my name is Fred Schlosstein, S-C-H-L-O-S-S-T-E-I-N. I live at 1411 Irondale Street, Lehigh Acres, Florida.

On November 28th, at the prior hearing in this matter, I appeared and testified as the vice-Chairman of the Concerned Citizens of Lehigh Acres. This morning I appear as the vice president and treasurer of the East County Water Control District, a public body, as an intervenor, by an unanimous vote of the Board of Supervisors. Inasmuch as my previous testimony is in the record, I will not -- it will not be repeated here and now.

It is sufficient to say that the issues

being raised are so unusual and extraordinary that the Commission's rule for not reexaming acquisition costs will permit such a review. My testimony will be limited to further evidence that the $40 million allocation of the purchase price of Lehigh Acres and all of its subsidiaries was totally arbitrary and based on appraisals that were incomplete.

Fair and equitable utility rates are to be based on all evidence. This Commission was not apprised of all of the facts. Had they been brought forward in the beginning of the transfer, we would not be here today.

First, I submit copies of your letter to me under date of April 19, 1994, and point specifically to Paragraph 3. The sentence reading quote "Land developments, fill contracts, taxes levied the East County Water Control District and escrow funds may not be transactions which are regulated by the Commission. Consequently, the Commission may not have the authority to use these transactions to lower Lehigh's rates." Unquote. The use of the words "may not" indicates some caution on the part of the writer and be quite misleading, when, in fact, it is absolutely imperative for the Commission in meeting its legislative mandate under Chapter 350 to be made aware

of all unusual circumstances bearing on its rate setting obligations.

The fourth paragraph of this letter to me states "In Order No. PSC 93-0301-FOF-WS the Commission did not adjust the rate base in determing the Utility's final rates." Unquote. That is exactly the point of contention in this entire matter. It should have done so.

Seminole Utilities was sheltering a taxable gain from the 1990 condemnation proceedings against it by the City of Winter Springs. In this matter the city offered $8 million for the facility, but finally settled for a price of $12.3 million. The provisions of Section 1033 of the Internal Revenue Code defer the tax on any such gain but require that the basis of the property acquired be reduced by the unrecognized gain.

The entire matter is further complicated by the fact that in a second transaction Seminole Utilities is then acquired by another subsidiary corporation of the Topeka Group, Southern States Utilities within a very short time, and second exchange, to shelter further taxable gains of SSU.

The basis for a rate setting should be based on the fair apportionment of the value of all assets purchased in the $40 million sale by the Resolution

Trust Corporation at the same discount of 60%. However, the fair value of all of those assets should have been increased by those undisclosed assets that the professional appraisers missed completely.

To be perfectly clear on this matter, Lehigh Corporation, Lehigh Development Corporation, Lehigh Building Corporation, Lehigh's own newspaper publishing corporation, its hotel and golf courses as well as the East County Water Control District controlled by Lehigh, all were engaged in the same endeavor: The development of Lehigh Acres.

The existence of the East County Water Control District as a Cinderella sister corporation, in this sale by the Resolution Trust Corporation, is not simply incidental to this sale; it is absolutely vital. Sine qua non. Without the drainage, there is no septic tank. Water lines would have to be dug in water-saturated sand and sewer lines run to someplace where water would drain to someplace else.

To obtain potable water, the aquifer has to be protected and recharged. The utility company in Lehigh Acres did not do that at any time in this development. Its existence is completely dependent on the continued operation of the water control district and the public support of its taxpayers.

This is absolutely not a normal situation. The East County Water Control District is a hybrid operation unlike any other, and does not fit into any mold in the state of Florida. Its financial debt to aid in the development of Lehigh Acres so lots can be sold, homes built and utilities provided must be considered as an asset by the purchaser, a value attached to it and not ignored as though the same situation exists in any other place in the state. It does not. It's duplicate could not even be created today and the Public Service Commission must fully appreciate its unique role.

Secondly, I have submitted already to your Staff further documents in support of our claim that the East County Water Control District and the developer acted with a common purpose and goal. I will enumerate that evidence.

1: Articles from the Fort Myers News Press dated April 7, 1994, the halfway pond reference bears upon the plan to create the Mirror Lakes project for which the East County Water Control District paid over $2 million to dredge.

2: The original plot plan for the Mirror Lakes project which failed to become permitted in its original form was approved by the County on June 13th,

1973.

3: A copy of the agreement dated December 22nd, 1971, between Lehigh Acres Development, Inc. and East County Water Control District for excess spoil, signed in both instances by one, Edward Shapiro.

4: Copies of pages 52 and 53 of the 1987 audit of the report of the Attorney General relative to this excess spoil.

5: Copy of the promotional sales map showing the proposed Lehigh Acres yacht club marina at the northern terminus of the East County Water Control District's canal system.

6: Copies of the stipulation agreement in Case No. 85-5843-CAEO, Twentieth Circuit Court, Lehigh Corporation versus Lee County, wherein Lehigh Corporation appears to speak for both the Utility and the Drainage District.

7: Copies of the stipulation and agreement in Case No. 91-2488-CA, Lehigh Corporation versus Lee County, wherein Lehigh Corporation and the County agree to settle further issues relative to the vested rights of the corporation.

8: Copies of the Fort Myers News Press, dated July 17th, 1992, and September 25, 1994, provide another basis for public information. They confirm

common knowledge.

9: A preliminary official statement dated June 3rd, 1994, providing public information relative to the series 1994 refunding bonds of the East County Water Control District in the sum of $22,970,000, explaining our debt, the history and why.

10: Copies of the page taken from the 1993 Annual Report of Minnesota Power & Light emphasizing the connection between the developer, the utility company and their common goal. It ignores its Cinderella sister corporation, the East County Water Control District.

11: Copy of a letter dated June 24, 1991, from Mr. Richard Fitzgerald of the Land Resources Corporation relative to a March 15, 1991 -- March 15th transfer of the stock of Lehigh Utilities, Inc. It also states that it would be transferred again on July 1 to Seminole Utility Company. I cannot explain a Land Resources Corporation letter on a Resolution Trust Corporation letterhead.

12. Copy of a letter to me by the same Resolution Trust Corporation claiming no knowledge of a transaction involving Southern States Utilities, but then stating that the Resolution Trust Corporation played a part in the negotiated sale of Lehigh to the

Topeka Group. Too anxious to unload, perhaps, a potentially embarrassing holding.

13. Copy of an agreement between the State of Florida, Department of HRS and Lehigh Corporation, relative to the installation of sewer facilities, dated January 20, 1983, and signed by Mr. Edward Shapiro.

14. Copy of a letter dated July 17, 1991, from Lehigh Utilities, Inc. to Mr. Joseph H. Barker of the Florida Department of HRS, relative to the change of ownership.

15: Copy of a letter dated August 16, 1991, from the HRS and reply.

16: Copy of a letter from Lehigh Utilities, Inc. to the Department of HRS, mentioning cooperation of one, Gary Long. Mr. Long had been superintendant of Lehigh Utilities, Inc, and until November 1989 had also been president of the Board of Supervisors of the East County Water Control District while the plans for reclamation were being formulated by that board.

17: Copy of the 2-13-86 special report relative to the anticipated construction.

18: Copy of that portion of a plan showing that the oldest, most thickly populated sections of Lehigh Acres, are still without sewers while the sewer

plant is constantly expanding into newly developed sections of Lehigh Acres.

We will omit copies of the early minutes of the old three-member board of supervisors meetings held in the quote "living room", the so-called name for the special room in the corporate offices of the developer.

Ordinarily a utility company not engaged in land development would service the old established sections before undertaking new expansions. That did not happen here in Lehigh.

In conclusion, it would be our hope that the Public Service Commission will use its statutory powers to penetrate the many corporate veils, the so-called arms-length transactions, and the corporate control to set fair water and sewer rates in Lehigh Acres. If not, please send the matter up for review by an administrative law judge.

Thank you very much. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Schlosstein.

Mr. Schlosstein, I think I have all of that material here and I'd like to go ahead and mark it as a composite exhibit and I think it's Exhibit 54.

WITNESS SCHLOSSTEIN: I'll leave my copy with you Staff, Madam Chairman.

CHAIRMAN CLARK: Okay. Aren't these the exhibits that you've given to them?

WITNESS SCHLOSSTEIN: Yes, ma'am.

CHAIRMAN CLARK: And then you're going to give us the listing so we're sure we have it right.

WITNESS SCHLOSSTEIN: I'll do that.

CHAIRMAN CLARK: Thank you very much.

(Exhibit No. 54 marked for identification.)

MR. SHREVE: Mr. Schlosstein, on these issues that you've discussed before, I want you to know that we've tried to pursue this; that three months ago we asked for a letter from Laura Holquist to Ron Sorrenson discussing the status of escrow funds relating to Lehigh Utility Corporation and they refused to give us those. We filed a Motion to Compel three months ago and have not had a ruling on that yet.

We also asked that our testimony be delayed until we -- by the same amount of time that they delayed giving that to us. Right now we're going to be forced to file our testimony next week. We still do not have the letter and do not have a ruling on it.

The same situation with the income tax returns. We filed asking for the income tax returns which we feel might throw some light on this subject

four-and-a-half months ago. We do not have them. Commissioner Kiesling ordered the Company to give them to us and they asked for reconsideration over two months ago. We still do not have the returns, but we're forced to file our testimony, sir.

WITNESS SCHLOSSTEIN: Mr. Shreve, I'm not surprised because I experienced the same thing with the Southern States Utilities spokesman when I asked for information relative to how Section 1033 was used in the transfer, and all I got was the ruling of the Commission. In effect it said it was none of my business. It was a closed issue.

MR. SHREVE: Thank you, sir. We wish we could get those documents and use them in our testimony but apparently we're not going to be able to.

COMMISSIONER GARCIA: I noticed in one of the newpapers that you submitted to us it speaks about Lehigh's great growth. Can you speak to that over the last two years, what kind of growth has been experienced by Lehigh?

WITNESS SCHLOSSTEIN: The growth has been relatively good in the last couple of years. I think probably we have about 10,000 customers in Lehigh Acres now. However, the growth has all been expanding

in newly developed areas owned by the development corporation.

The individual lots that were sold years ago in Lehigh Acres probably contribute 64% of Lehigh's tax base to the drainage district, vacant lots owned mostly by people who are out of residence in Lehigh Acres. The growth in Lehigh probably amounts to a population of about 27,000 people right about now.

But the thing that probably should cause us most concern is the fact that the center district of the community doesn't have the sewers. That's where we get 60% of our water. Six of the ten wells come right out of that sewered section.

COMMISSIONER GARCIA: Let me ask you ballpark -- you don't have to be specific. I know Mr. Shreve always comes up with the specific numbers after, but they are on the record. But I want to hear it from you: Ballpark, how much has that growth been in terms of last two to three years in residents? Because you stated two different --

WITNESS SCHLOSSTEIN: I really can't answer that.

COMMISSIONER GARCIA: I'm sure it's on the record.

Let me also ask you, do you happen to know

what the charges are for new customers in terms of hook up?

WITNESS SCHLOSSTEIN: I bought an old house that was there 30 years. But the hookup runs approximately $3,000 to hook up into the water and sewer.

COMMISSIONER GARCIA: Is that a county impact or is that Lehigh Acres?

WITNESS SCHLOSSTEIN: Southern States Utilities charges that to these new home connections strictly in Oakwood. I saw the bill.

COMMISSIONER GARCIA: Okay. Very good. Thank you.

CHAIRMAN CLARK: Thank you Mr. Schlosstein, and I would like your listing. Mr. Shreve, would you call the next witness.

MR. SHREVE: Mr. Frank Kane.

- - - - -

FRANK KANE

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS KANE: My name is Frank Kane, K-A-N-E. I live on the 1208 East 3rd Street. I'm the Chairman of the Concerned Citizens of Lehigh Acres.

On your question, Mr. Garcia, the 1990 census listed Lehigh Acres as having 20,000 people. In 1995 the county estimated the population at 35,000 people.

COMMISSIONER GARCIA: Great. Thank you. I appreciate that.

WITNESS KANE: As Mr. Schlosstein indicated, Lehigh Acres is unique. It's a hybrid. And we feel, and feel very strongly, that the Public Service Commission did a disservice to the ratepayers by lumping 150 systems into one rate hearing, because, as I said, we're unique. We're a hybrid.

Now, I've pointed out to you before and I'm sure you have it in your files, the Raymond James Associates Due Diligence Study for the Acquisition of the Lehigh Utilities, as well the other assets in Lehigh Acres. And I'd like to quote from Page 8. It says "Lehigh Utilities is being allocated a purchase price of $6 million. Minnesota Power is basing this allocation on what it would have paid separately or what it believes a third party would have paid for Lehigh Utilities.

"Lehigh Utilities would appear to be a very marketable company if it were to be sold. Factors which we believe make Lehigh Utilities an attractive

acquisition candidate are: One, Lehigh Utilities has an exclusive franchise to provide water, sewer -- " they didn't use wastewater in those days; I'm going back to 1990, quoting from their report -- "to provide water, sewer, gas, and garbage services in Lehigh Acres.

"Two, the company has been consistently profitable with a pretax earnings in the $1 million range over the last several years.

"Three, the outlook for Lehigh Utilities is favorable. Revenue growth has averaged 7% per year over the last five years and is anticipated to grow at least this fast into the foreseeable future."

So what Mr. Schlosstein said, and what I'm saying as the Chairman of the Concerned Citizens, is that they got a bargain basement deal when they acquired that utility. They acquired a utility with unlimited potential.

And I pointed out to you before, in the 1992, 1993 and the 1994 Annual Report of Minnesota Power, that Lehigh Acres itself has severely impacted on their earnings and their growth to the point where without Lehigh in 1993 Minnesota Power would have had less earnings than the previous year.

So we are impacting. We do feel, as I say,

that it's unfair that you've lumped 150 rate cases together and heard at one time without giving us the benefit of all of the information we have as to why the rates that they're asking for are grossly unfair.

They made money. Lots of money in 1990. I'm talking Lehigh Utilities before it was acquired by SSU. Now it's acquired by SSU. And among the Concerned Citizens, we've got a gentleman named Pete Dobbs. Pete are you here? Pete is here. Pete has his records from 1982 to 1995 what he paid for electricity, what he paid for garbage, what he paid for water and sewer; it's there. It's delineated.

Well, between 1990, when it was owned by Lehigh Utilities, in 1990 he paid $293 for his water and his wastewater. In 1994, four years later, he paid $476, an increase of $173, or 60% over a four year period.

Now, I don't have to tell you, ladies and gentlemen, that as you look out into an audience, I would suspect that probably 85% of them or 90% of them are on a fixed income. They're retired from wherever they worked, depending on Social Security. Don't have cost of living -- they have cost of living with their Social Security, but their Social Security when up 12% in the four-year period. Their water and wastewater

rates went up 60%. And now they're asking for a unconscionable increase of $45.9 million for water and $30.2 million for wastewater.

We think it's wrong and we hope that you can look at the facts and we're hoping before you have that final hearing -- and by the way, I'd like to invite to Lehigh Acres for that final hearing. We'll provide you a free hall and we'll even give you free motel rooms. We'll have coffee for you at the meeting. So give it some thought. (Applause)

MR. SHREVE: Thank you, Mr. Kane. We'll be glad to accept that. (Laughter)

CHAIRMAN CLARK: Mr. Kane, just let me point out, you may have not heard me correctly or I may have misspoke. I meant with respect to the increase, they have asked for a final increase over all of 45.9% for water and 30.21% for --

WITNESS KANE: You used the million figure but --

CHAIRMAN CLARK: Excuse me.

WITNESS KANE: I stand corrected.

MR. SHREVE: Their rate increase that they have requested from the customers is 77% for water; 34% for sewer. That is their rate increase from the customers they've asked for.

THE AUDIENCE: Boo. Boo.

CHAIRMAN CLARK: Mr. Shreve, we can get into why my figures are that way.

MR. SHREVE: Ask Mr. Willis.

CHAIRMAN CLARK: This is what I've gotten from the Staff.

WITNESS KANE: Mr. Willis, can you help us?

CHAIRMAN CLARK: I'll check with them at a break. I was just giving the percentage increases, and what is clear, Mr. Kane -- I must have misspoken if I said million, it was a percentage.

WITNESS KANE: You're welcome. It brings up a good point which I was going to address later. From our perspective --

COMMISSIONER GARCIA: Before you get off of that, Lehigh is an interesting scenario because you're asking for stand-alone, if I'm not mistaken. You would favor a stand-alone.

WITNESS KANE: I would say Mr. Garcia, that we have received so much misinformation -- half information, stand-alone, modified stand-alone, uniform -- we're very confused. But certainly in the United States of America I think that we, in Lehigh, would want to pay our fair share of what it costs to generate the water for us and to treat the wastewater

for us. And that's all we're asking.

Here's a utility that was acquired for $6 million, and you know the kind of figures they're using to justify their increases with running lines, here, there and wherever. And you all know that they're running lines to developments that they own to appreciate their properties, to make more money for Minnesota Power, and they're doing it on the backs of these folks that are behind me.

COMMISSIONER GARCIA: I understand that. But I just want to discuss this real quick with you because --

WITNESS KANE: I'm sorry.

COMMISSIONER GARCIA: Lehigh is interesting, the rate structure, because you stated you would be in favor of stand-alone.

WITNESS KANE: Who said that, sir?

COMMISSIONER GARCIA: I thought you had.

WITNESS KANE: No. No. When you asked the question I talked about misinformation, half information, false information.

COMMISSIONER GARCIA: All right. Forgive me.

WITNESS KANE: And we're very confused. I don't think anybody has ever defined to us, "Lehigh,

if you own that utility that cost $6 million, here's what it costs us to produce the water that you drink, here's what it costs you to treat the wastewater that you put into our plant, here's your cost." Nobody has ever given us that cost.

COMMISSIONER GARCIA: Okay. Then it was a misunderstanding on my part. I was under the impression that your group favored that.

WITNESS KANE: Our group has taken no position but issue, but we're certainly leaning to paying for what it costs us to bring the water to the consumer and to pay for the sewage. That's what Lehigh is in favor of -- Lehigh Acres, I'm sorry

COMMISSIONER GARCIA: You read from something, and I'm certain that you stated at the beginning and I just wanted to make sure that what you read from I can go into the record later and find. Because I remember when you spoke the first time you also alluded to some documents. And when I say you spoke the first time, I mean the last time we had the great pleasure of being in this part of the state. I think you submitted something to Staff, or it's part of the record, so what you read from I can find in the record?

WITNESS KANE: Yes, sir. It's the Raymond

James Associate, Inc. Interoffice Correspondence, re: Lehigh Acquisition File from Charles Uhrag, U-H-R-A-G, and Gary Downing, D-O-W-N-I-N-G. Subject: Lehigh Utilities Purchase Price Allocation Dated 19 August 1991. And it's 17 pages.

COMMISSIONER GARCIA: Let me ask you, how long -- did you move into a new house in Lehigh when you came in?

WITNESS KANE: No, sir, I bought into a house that was built 15 years before.

COMMISSIONER GARCIA: All right. Thank you for your figure at the beginning. I appreciate that.

COMMISSIONER JOHNSON: Mr. Kane, I have one question for you while there is this interruption here.

WITNESS KANE: Yes, ma'am.

COMMISSIONER JOHNSON: You stated that Lehigh Acres was an unique situation, a hybrid. That you don't necessarily want to be lumped together with all of the other systems. And forgive me for my confusion here, because you and the other representatives from the area have done an excellent job of providing us with information.

Now, if I can understand your greatest concern, is your greatest concern that we have not had

an opportunity to adequately look at Lehigh Acres, not necessarily stand-alone rates but in a stand-alone way to determine what the cost factors are and to adequately set a rate, and that you need us to do that before you could even make an opinion on stand-alone --

WITNESS KANE: We've never received that information. We've tried to get it but we have not. It's just as Public Counsel said earlier, he's requested the income taxes for SSU, Minnesota Power. You have ordered that this information be given to us. SSU is now saying, well, they want you to reconsider. You can see how it compromises our case because I can tell you, we have been stonewalled, stonewalled, stonewalled. And the same thing is happening today.

And I hope that you will give our attorney, Mr. Twomey, and Public Counsel, Jack Shreve, more time so that they can get the information they need so you can make intelligent discussions because there is a credibility gap.

COMMISSIONER GARCIA: Mr. Twomey, have you filed for any of the information that they would need on this, or that you would need on this? Have you filed for request for discovery?

MR. TWOMEY: No, I haven't. You mean

duplicate requests for what Jack Shreve has already filed? I have not.

COMMISSIONER GARCIA: Okay. But there's nothing additional in that, right?

MR. TWOMEY: Nothing they haven't given to me. He's speaking to what Jack Shreve has given --

WITNESS KANE: I work with Jack Shreve. He gives me information; I give it to Mike Twomey. We don't want to be paying Mike if I can get it from Jack for free. So Jack has requested the information. I told Mike Jack has requested it. We'll get it but we're not getting it. Does that answer the question?

COMMISSIONER GARCIA: Yes.

COMMISSIONER JOHNSON: I appreciate that.

WITNESS KANE: We think you five people are honest, sincere, hard working, dedicated officials. And we hope that when you consider all of the facts that you have been presented, that you'll come to the same conclusion that we have, that these rate increases are just unjust.

They can't document them for Lehigh Acres. I can't talk about the other 149 systems. I don't know that one. I do know Lehigh Acres.

But I would respectfully request that you share -- and Mr. Garcia you said anything we needed at

the last meeting, if we didn't get it, you would be happy to intervene for us. And we did have your engineer come down and meet with us and for that we thank you, Mr. Garcia.

But I have a letter here dated August 24th, 1990, and it's to Mr. Charles Hill, your director. And it's from the Topeka Group. And in this letter -- this is prior to the acquisition -- Mr. Donnie Crandell, the author of the letter -- and Mr. Crandell, by the way, is a vice president of Minnesota Power. He has an office in Lehigh Acres. He's the big, big boss. He tells the president of Lehigh Corporation what to do.

COMMISSIONER GARCIA: Who is the letter from, to who?

WITNESS KANE: It's from Donnie R. Crandell, C-R-A-N-D-E-L-L.

COMMISSIONER GARCIA: And he's writing to?

WITNESS KANE: He's writing to Mr. Charles Hill, Director of the Florida Public Service Commission.

COMMISSIONER GARCIA: I've got you. I'm sorry, I missed it.

WITNESS KANE: That was in 1990, prior to the acquisition of Lehigh Utilities by Topeka Group,

Southern States Utilities, Minnesota Power.

And he talks about discussions he had with John Williams from your Staff, Noreen Davis from your Staff. They talk, you know, about how Minnesota Power is going to acquire this utility and how we can work with the Public Service Commission. And maybe that's what you have to do in these acquisitions.

I can tell you, it's no secret, I think you're well aware, there's a major credibility gap between the citizens of Lehigh Acres and Lehigh Acquisition Corporation and Minnesota Power. We don't trust them.

I would like, with your permission, to ask Mr. Hill, Mr. Williams and Ms. Davis to come to Lehigh and meet with us and let us share things from our perspective so that they have a little different view of just what they're hearing from, and you know the lobbyist, I don't have to tell you about that.

COMMISSIONER GARCIA: Right. But let me ask you to hear from you in terms of quality of service, or the way they've treated you, or information that you're lacking --

WITNESS KANE: We want to show them the two golf courses and the motel that were flipped for $5 million profits, you know, that were all part of

what we're talking about, how did we acquire. We want to show them where these lines -- that the water and wastewater lines are being run out to Mirror Lakes for land that was worth maybe $1,200, $1,500 an acre; now for a half acre you're going to get $25,000 because you have water and wastewater. It's an improved lot.

CHAIRMAN CLARK: Mr. Kane, if I'm recalling from the last hearing it's your viewpoint that the profits received by Minnesota Power having to do with their land development should be used to offset some of the expenses in their water and wastewater system; is that correct?

WITNESS ASCHENBRENNER: I'm saying very definitively that the Public Service Commission should not consider any monies, whether you call it capital outlay, whether it's monies they've borrowed to improve land they own, should be considered when you increase the rates for the folks that stand behind me.

CHAIRMAN CLARK: Okay.

COMMISSIONER GARCIA: Let me just ask, since I've got you here and you mentioned it, Mr. Shreve, what information is pending that needs to come before us for you to have your complete information to this case? You've stated you have been waiting a few months on some information.

I don't know who is responsible, but I'm just worried that you should have everything before you before we get started. I know we still have time. This doesn't get started, if I'm not mistaken, until April --

MR. SHREVE: Our testimony is due Monday.

The income tax returns is one thing that we definitely feel we need. Commissioner Kiesling ordered them to produce them. They asked for reconsideration and that was asked for over two months ago and we haven't heard anything since.

This is primarily Lehigh Acres we're talking about here. There's a letter that we've asked for that discusses the escrow funds that we want. They refuse to give it to us and we moved to compel over three months ago and we need the information.

CHAIRMAN CLARK: Go ahead, Mr. Kane.

WITNESS KANE: Thank you. Madam Chairman.

I'm sure you can understand why there's confusion on the part of the ratepayers, because even the Commission saying the increase for water is a 45.9%, Mike Twomey is saying it's 77%, Jack Shreve is saying it's 77% and we haven't heard what SSU is saying. So it just seems to me that not only is it a chaotic situation that we're considered among 150,

when we are a hybrid and unique, it's now 11:00, you're not that many months away from making a determination, and we still don't know is it 45.9% or is it 77% or is it somewhere in between?

CHAIRMAN CLARK: Mr. Kane, let me see if I can answer that. I was speaking in terms of overall revenues. And I can ask Mr. Shreve if he's speaking with respect to rates in particular areas. For some people it is --

MR. SHREVE: No. Overall their increase that they're requesting for rates is 77% in the water. They are saying that won't produce that much revenue. But the people would pay 77% higher rates overall for water, and approximately 34% higher rates overall for sewer rates.

Now, they're saying -- probably because the people won't be able to afford to use that much water that would hold it down -- but that is the increase in rates.

CHAIRMAN CLARK: Okay.

WITNESS KANE: Okay. I've taken a lot of time and I'll sum it up very quickly.

You've heard much about the letter from Lobbyist Sharkey to Lieutenant Governor MacKay, lieutenant Governor MacKay to Ms. Clark, the chairman

of the Public Service Commission. There have been no denials. I think it's been established that what has been reported is in essence true.

I think there's a question of accountability. I have been in the position -- you are on a regulatory body and I think the last thing you want is any degree of impropriety.

I'm saying to you that I think you should transfer this case to an administrative law judge, even before our attorney files a petition that you do that, because it's the proper thing to do. (Applause)

I think that the mere fact that you are appointed by the executive branch, the Governor and his office now has interfered in a quasi-judicial process, it has to be very difficult for you to be completely objective. And I'm sure you will be completely objective but there's going to be that little element of doubt. And I think for you to avoid that, do the honorable thing. Don't wait for Mr. Twomey to file a petition to transfer it to an administrative law judge. Do it on your own.

Thank you, and do you have any questions?

CHAIRMAN CLARK: No, Mr. Kane. Thank you very much.

Ladies and gentlemen, we have been going for

about a hour and 45 minutes. We have one court reporter, so we're going to take a ten-minute break and come back in ten minutes and resume this hearing.

(Brief recess.)

- - - - -

CHAIRMAN CLARK: Ladies and gentlemen, we're ready to reconvene our service hearing.

Ladies and gentlemen, Mr. Paul Marks has asked me to announce that the bus to Lehigh will be leaving at the front door at 1:00.

Mr. Beck, are you ready to call the next witness?

MR. BECK: Yes, Madam Chairman. Mr. Mark Collins.

CHAIRMAN CLARK: Mark Collins.

MR. BECK: Is Mr. Mark Collins here? Daryl McCarn.

CHAIRMAN CLARK: Would you say that last name again?

MR. BECK: MR. McCarn.

- - - - -

DAROL CARR

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS CARR: My name is Darol Carr. I'm an attorney in Charlotte County, Florida. I'm with the law firm of Far, Far, Everett, Syfrett, Hackett & Carr. I have been asked to come speak to you today on a number of issues that concern the Burnt Store area.

The first one I'd like to speak about is the issue of private counsel. This matter came to me when one of my clients came and said, "We don't understand what is going on. They are about to triple our rates for both usage and triple our rates for base rate. They asked me to start investigating this matter on their behalf.

I should note for the record that I have not intervened as an attorney at this point, and at this point do not know if I am going to. However, we are currently in the process of evaluating whether or not we should retain our own independent counsel. We were waiting for your decision, which I believe was taken yesterday, on whether or not you were going to give independent counsel to anybody in this matter. Let me address this issue and how I became aware of it.

When I first called Mr. Shreve's office I started discussing with him the status of the case. He informed me that at that time there was a motion pending before Ms. Kiesling to indicate whether or not there should be independent counsel because of his perceived conflicts.

It was my understanding that was asked for reconsideration in front of the full board and through a motion, I believe, made by Mr. Garcia, and then adopted by two others to go to full consideration. And that occurred, I believe, on the 6th. And at that time you fully considered that based upon the arguments from the people in front of you as to whether or not there should be independent counsel for each of these. Obviously a number of groups were waiting for that determination to determine whether they should hire their own independent attorneys.

Quite frankly, I'm concerned, and I believe it should concern all of you since I know that four of you are attorneys all from Florida law schools, and one of you is a CPA. You're all familiar with the ethics of the Florida Bar. You're all familiar with what it takes to remain as a member of the Florida Bar and your ethics requirements.

I'll be honest with you, it's almost

incredible to me that an attorney could come before you, indicate to you that he has an absolute diametric conflict of interest relative to the representation of certain groups, and four of you as attorneys, and practicing in the state of Florida, would not recognize that.

I'm not certain because I did not attend --

CHAIRMAN CLARK: Mr. Carr, just a minute. I don't think it's true that we did not recognize that.

WITNESS CARR: Well, I'm going to go that. I'm not certain because I didn't attend the hearing as to the basis by which you did not allow there to be independent attorneys. I believe you made the point earlier, Ms. Clark, that you felt that one of the reasons you could not was that there was no statutory authority for that purpose.

I've reviewed the statutes and I'm looking at Florida Statute 350, which deals with the Florida Public Service Commission.

We should understand here that the reason that there's Public Counsel to start with is that so all of these individuals sitting behind me, and those they represent, receive due process through the course of this action.

We are, as a group, pitted against a large

corporation that has tremendous financial backing, that is going to throw all kinds of monies, attorneys and experts at this matter. None of these individuals have that. The state recognizes that. That's why when you have one independent utility, that utility, by law, is given counsel, Public Counsel through Mr. Shreve.

What we have in this particular case, though, is you have 150 utilities coming before you. They all happen to be owned by one group but you have 150.

What you've said is, is that "I don't think he has authority." But what we do know is that the statute says that he has certain duties. And I'm quoting from Florida Statue 350.061 as to what his duty is, and that is "to provide legal representation for the people of the state in proceedings before the Commission." He's come before you and told you he cannot do that. And yet you've come to the conclusion that we cannot have independent counsel.

I note in reviewing Florida Statute 350.0613 where it deals with Public Counsel, the employees and the receipt of pleadings, that it says that the committee, that being the committee for, I think it's the Joint Legislative Auditing Committee, has the

authority -- and it says, and I quote, "The committee may, from time to time, authorize retention of services of additional attorneys or experts to the extent that the best interest of the people of the state will be better served."

It is incredible that an attorney could come before four other lawyers and tell you, "I have a direct diametric conflict of interest," and somebody has not looked at what his duty is to represent us. And, two, has not either gone back to the Legislative Audit Committee or petitioned the Governor, or done something to petition the legislature in what you would all admit is a unique case, where a utility has come in and said, "We've got 150 of these and we'd like to make them all the same." And not gone back to either amend your statute to make a recommendation, or find some means that these individual groups could have representation.

CHAIRMAN CLARK: Mr. Carr, let met just point out to you, I think you've made the point upon which we made our decision, and that is, it's up to Public Counsel and the Joint Legislative Management Committee for them to resolve that conflict.

We did not find in our grant of authority, and by that I mean the Public Service Commission, the

authority to appoint counsel. I hope you have a copy of the Prehearing Officer's order, and you can request a copy of the order. It's just a matter of whether we thought we had the authority to do it. And one of the reasons we felt we did not, or at least I felt we did not, was the fact that it was specifically provided for in the statute, and it was specifically provided that it is a decision of the Joint Legislative Management.

WITNESS CARR: Chairman Clark, you would agree with me, would you not, that this is a unique case and that this is the first time that this Commission has had an owner of 150 separate utilities come before you and say that, "We want uniform rates." It's unique in that circumstance.

If we start with the phrase that "you are a Public Service Commission," that is, to serve the public, it would seem to me it would behoove those that you serve to seek a means by which they could have adequate legal counsel, however you go about that.

CHAIRMAN CLARK: Well, Mr. Carr, it seems to me the statutes have provided for that.

WITNESS CARR: And who would that be, Mr. Shreve?

CHAIRMAN CLARK: He has the ability to request that from the Joint Legislative Management Committee.

MR. SHREVE: I think I know more about what I can request from the Joint Legislative --

CHAIRMAN CLARK: Yes, I do, I agree with that.

MR. SHREVE: -- Committee, and I've done this for 18 years. There has never been a situation like this. And you have to understand that if I hire somebody, I can't hire two lawyers to represent two different sides of a case; it can't be done.

Now, I'm going to continue to pursue this. I thought the best way to do this was have the Public Service Commission to have that allocated, with Southern States going along with it. Of course, they opposed it even though they are spending money like it's going out of style, all of the customers' money, to represent themselves. I felt that was the best way to do it.

I'm going to pursue it and I'll work with you on it. We've talked, and we'll do what we can on it. But it's not a typical situation. I'm there to represent the general body of ratepayers, and as you understand, I can't hire two lawyers in my office to

represent two different sides.

WITNESS CARR: I appreciate that. And normally what would occur -- and I happen to be civil trial lawyer, and I don't know if any of you have functioned in that field or not as attorneys. But what happens in civil cases or criminal cases is that when you recognize that the body that's appointed to represent the defendants, that is, say, the Public Defender, has a conflict because there are two individuals involved in the same crime, then what happens is the judge simply appoints separate alternate counsel to represent those different groups. You're telling me you don't have that authority.

I'm saying that it would be a Public Service and what you should do here is examine whether or not you should stay this entire matter until this can be decided either by the legislature or by the courts of this state as to whether these independent groups, however you identify them, are entitled to independent counsel. (Applause)

Thank you.

Obviously that is the requirement, that is what has been requested by Mr. Shreve. The only person I know that's opposed that is the person that is seeking the rate increase, and that's SSU.

You should come back and find a means where these people, who are confronted against a multimillion dollar corporation, that's simply a step-child of a billion dollar corporation, how they could possibly get attorneys to represent them.

When I have Mr. Shreve standing there telling me on the telephone, "Yes, Mr. Carr, my statutory duty under 350.061 is to represent all of the people. But I have a conflict because, yes, I can represent them with regard to the rate amount, and I'll go in and do battle before the PSC against SSU on rate amount. But I cannot, and will not, go before them to discuss with them rate structure," you have a problem. You have an attorney that's supposed to have a duty under the statutes to do something and he's telling you he's not going to do it. He's abandoned these individuals. It's like going up there and saying in a criminal matter, "I'm going to represent you at trial, but when it comes to the sentencing phase, forget it, you're going to be all on your own." It doesn't work that way. That's not what the legislature intended.

You need to find a way, even if it's to file your own petition with the courts, to see if you have the authority and any means to do so, as opposed to

making the decision unilaterally as a Public Service Commission.

I would then go to a couple of other things. I've spoken with Mr. Shreve, and I'll be honest with you, my knowledge of his case is nowhere near the depth of you or the individuals here. But one thing I've come to my understanding in my discussions with him is not only don't we have attorneys with regard to whether or not the structure is correct, but we don't have any experts that are retained independently to represent the various groups to determine whether it would be to their benefit or not to their benefit to be part of something. So now we're going into a trial with no lawyers and no experts and you're going to make the decision. But who does have the lawyers and who does have the experts is SSU.

No criminal trial functions that way. I've tried hundreds of lawsuits, hundreds of them. In every case they had legal counsel, and if we needed experts, we were able to retain them. You need to find a way, as the PSC, to see that these people have adequate legal representation and experts.

I would submit to you that that's particularly true with regard to the individuals that I represent and are standing here before you in the

Burnt Store area. Understanding what you're doing to these people. You're going to put in a 300% rate increase; you're going to move their rate 250%. You're going to take $9 rates and move them to $20 rates. You're going to take gallonage fees and move them up even higher.

I'd submit to you that in those circumstances you need to go back and say, "Yes, in those circumstances where the increase is that dramatic, where they're going to have that kind of basis put against them that they are going to have adequate legal counsel and the appropriate experts.

That is the first part of my discussions and I would again reiterate those things.

Specifically I want to now address a second concern. Burnt Store is one of the unique ones, or what is categorized as a unique system here. It is called a reverse osmosis system. My understanding from reviewing some pleadings that I have is that we have a reverse osmosis and we have conventional.

Somebody has come before you, and that somebody is Southern States Utility, and convinced you that a rate structure that is uniform is the appropriate way to go forward. But then they said, "Wait a minute, these two groups over here, these RO

people, Marco Island and Burnt Store, we don't want to make them part of that. We don't want you to agree with their philosophy as to standardized rate structures when it comes to something that's just a little bit more expensive.

Let me tell you, they can't take one position on one day and another position on the next page. Have you reviewed the testimony that's been given to you about that? I don't know if the time has come. I asked Mr. Shreve to send it to me. I would tell you that it's pitiful. Just absolutely pitiful. I wouldn't walk into a courtroom and try a case on that for anything. You have got some guy that walks up and says, "Yeah, I kind of support them being separated simply because they're a different kind of system and it's a little more expensive." Well, when we look at this system here what we say is that, "Yes, anytime you have an uniform rate structure there's going to be mean mark, and there's going to be people on the high end of it and there are going to be people on the low end of it. And, yes, somebody is going to be subsidizing somebody. But how then do you come in and justify but those that are on the far end of that mean should be taken out simply because of the basis upon which their water is created? How do you justify

that? They're trying to justify it simply on cost. But they have not gone in and segregated out something that's more expensive, say -- and I'm taking this theoretically -- Charlotte County -- because I really don't know the rate structure -- where Charlotte County has a problem with regard to the base amount of water. That's okay. We're going to let that be averaged in. But we're not going to let -- just because you have a diffeent format, that one to be averaged in.

I would submit to you that that is categorically unfair and diametrically opposite of the argument they placed before you.

I would then go to one other thing and that's the amount of the money, and this kind of goes back into the area that I talked about on an expert.

When I spoke with Mr. Shreve -- and I hope I'm not disclosing something that he told me in confidence, I don't believe it is -- he simply told me that this case is overwhelming. He's looking at 150 different utilities. I asked him, I said, "Well, have you gotten an expert with regard to each utility so that you can go down and look at it from a baseline level and say when they come in for a rate justification -- when you look at just Burnt Store or

when you look at just Deep Creek or when you look at Lehigh Acres, anywhere, can you tell me that you have an expert out there, Mr. Shreve, that says, 'Yes, I've looked at the Burnt Store area and I know that that is a rate increase there,' and then put them all in a pot and average them out?" His response was -- and you can correct me if I'm wrong -- was, "No. We simply don't have the ability within our office to do that." Is that correct, sir?

MR. SHREVE: Absolutely correct.

WITNESS CARR: So now if we were standing alone here and we were utility customers, and we were the members of just one utility, and I happen to be serviced by Punta Gorda Utility. It's one utility. And if that had come before you, what would I have? I would have a Public Counsel. I would have experts and they could go and do battle for me vis-a-vis the Punta Gorda Utility. Now these people, all of them, everyone standing out here, does not have the expert and does not have the attorney.

What they can't do, what my Public Counsel can't do, the one that represents all of these individuals, is he simply cannot get an arm around this case and hire the experts to go and do a baseline evaluation and to attack Southern States.

Southern States just walks up and says, "This is what we need to make a profit." The person that's supposed to defend us doesn't have the simple wherewithal. I don't mean this in any slight whatsoever. I simply mean the capabilities within his office to fight SSU. And you've come back and said don't give it to him either. That's categorically unfair.

What I'd like you to come back and tell me is that we've gone out and we've hired experts to examine each utility. Not somebody that SSU has put up, but somebody independent that say, "We've examined SSU's each utility, and now we're going to say can they justify the rate increase?" And until they do that, until they go to that baseline, I don't believe you can make an adequate decision here. (Applause)

Finally, one other point that I'll make then I'm going to sit down again because, again, my knowledge of this is modest.

But in speaking with a number of people here, one was Mr. Twomey and some experts; I spoke with Mr. Shreve and some other folks, my understanding is that SSU's forte is to go out and buy a utility. And when that utility is in place, it's usually a utility that services an area with a lot of lots that

are undeveloped, that has a lot of pipe in the ground and that pipe has not been paid for. That is they paid a lot of money for the company -- maybe sometimes a little bit because they usually bought them from developers that were going under -- and they paid a small amount of money, vis-a-vis the value of that pipe in the ground.

Now, what they're coming back and telling you is, "Wait a minute. We've got miles and miles of pipe out here. We want a percentage return on all of this pipe we have in the ground." I don't think that's fair to tax the individuals that are current users of the system for pipe that was put in the ground ten years ago, and now the people that are here are going to pay when they're not even using it.

(Applause)

If they made a bad business decision when they bought a utility -- and, again, I'm going to use Burnt Store because it's the one I know -- there are hundreds, literally thousands of vacant lots out there. This company, with all of the business judgment they could muster, went out and said, "We'll pay X dollars for this utility." They were banking on a certain growth rate in that area. That is a certain number of houses would be built; they would get a

certain return on the money by a certain time by the sale of the water. Unfortunately, economic downturns occurred, there is not as much growth as has been projected in the past.

Now all of a sudden they don't have this cash flow that is coming from gallonage, usuage of water. And they are saying, "That's okay, let's charge the guys that are there now for the pipe that we bought because we simply made an bad business judgment." That's categorically unfair. (Applause)

In conclusion, I want to highlight the things I've said. These people need lawyers. I wouldn't let any of them walk in front of a courtroom without a lawyer or without an expert.

Two. There's no reason and no basis in which you can justify uniform rates if you have RO and conventional. If you buy the baseline theory they put forward, that is SSU, you can't then take just two systems and say, "No, we're going to push them out." You need more justification than four lines of testimony that have been presented to you already.

Thank you very much for your time. Do you have any questions? (Applause)

CHAIRMAN CLARK: Thank you, Mr. Carr.

I do want to point out two things to you.

We have a Staff that's assigned to this case. They audit the plant and the books and records of the utility and the 150 systems.

I would also point out that -- there was one other factor you mentioned and I can't think of what it is. I do want you to know that we do have Staff that looks into these things, and we do have on -- oh, the experts. And we will be presenting -- I understand the Staff is presenting witnesses on the various issues that have come up, too.

As the Commission, we have the responsibility whether there are lawyers on the other side or not -- and I can tell you there are cases where we don't have Public Counsel intervening, when we just have the utility coming in, and they are generally small cases -- but we go out and audit and explore. We don't just take the utility's word for it. When we need to, we put on our own experts to give a better picture of what is going on.

WITNESS CARR: Yes, ma'am. And I appreciate those positions. And first let me respond to the fact --

CHAIRMAN CLARK: Let me put it this way: I don't want to get into a debate with you because I'm real concerned about hearing from the rest of the

customers, because we have a bus leaving. I'm just giving you that information. And I'd be happy to follow up with it in some other form. But I'm just concerned about hearing from the people.

MR. SHREVE: I'd like to hear something else, if you don't mind -- and I think we certainly do need to go to the other people but this is important.

One, the Staff of the Public Service Commission is an advocate of margin of reserve, which is nothing more than something requiring the present customers to pay future customers' growth.

WITNESS CARR: Absolutely.

MR. SHREVE: -- a part of it, to support it.

The Staff has supported the Company position on this as an advocate on acquisition adjustment. They have fought for years and argued for years, and I have been with Chuck Hill before the legislators when he was trying to justify it, so the Staff cannot be depended on on that. I would never allow them to represent the customers on that situation.

I have -- I don't have it with me -- the Staff recommendation I think left out some authority that's in the Public Service Commission's authority, and I will fax you a copy of that when I got back. I think they did have the statutory authority, as almost

any judge would, to make sure that due process was served in this.

WITNESS CARR: Absolutely.

MR. SHREVE: And I'll fax that to you. We had not discussed that one before but I'll get that to you.

The Staff of the Public Service Commission is the one that first came in with uniform rates and that serves some of the people here. But you can't have the Staff working as an advocate for either side. That's not right. I'll be glad to get back with you. I think you make excellent points. You did not say anything that was in confidence. You're saying the same things I've said for years. As a matter of fact, I think one thing that's a little strange, the decision was made to move Burnt Store over with Marco Island out of the rest of it. Who made that?

WITNESS CARR: I assume SSU did.

MR. SHREVE: Well, I don't know. I mean it's not just because of the rates because there are people paying rates and I'm not -- yours are too high -- but there are people that are in the uniform side that have higher rates than that. Why were they not pulled out? I mean I don't know why Burnt Store was pulled out, except for some reason this one area

of reverse osmosis is the key. It wasn't the overall cost or anything like that.

WITNESS CARR: Yes, sir. And I reviewed the testimony that you sent to me that's already been filed. As a courtesy you mailed it to me and I reviewed it, and as I indicated to the Commission, I was stunned by the modicum, the small amount of testimony that even comes close to justifying segregating out some -- only two places out 150 simply because of the process by which they make water.

MR. SHREVE: You're absolutely right. I wish we could dig into every system. But what I have been telling the Public Service Commission, they should look at each and every system; not just the numbers, but say are these fair, just and reasonable rates? Then cut Southern States down on an individual system. Then add the money up; make a decision as to what they're going to do on the rate structure.

WITNESS CARR: He's absolutely correct, and I'd doubt to say that of 300 or 400 people here that one of them would disagree with that decision. That you should go in and look at each utility independently and then make a decision as to how to set your structure.

I agree with you, Mr. Shreve, dramatically

that Staff and the Staff of the PSC -- and I think you should recognize this as conscientious members of the Public Service, that your Staff, as does anybody, whether it's the staff at my office or your staff, comes at every problem with certain perceptions and certain prejudices. And when they come before you they're going to make certain recommendations. I don't want to rely on your Staff. The statutes say that these people don't have to rely on your Staff. The statutes say that we get to rely on his office and his experts, and he should have the ability to retain them to do it.

Thank you very much.

MR. SHREVE: Excellent, Mr. Carr. Thank you. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Carr. Mr. Shreve.

MR. SHREVE: Mr. Ercolino.

- - - - -

NICK ERCOLINO

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS ERCOLINO: Madam Chairman, Commissioners, my name is Nick Ercolino, E-R-C-O-L-I-N-O.

I'm not here as a ratepayer. I'm here as a concerned citizen. I live in Lehigh Acres. At the present time I'm president of the Board of Directors at the Lehigh Acres Senior Center.

There are many, many people who come to my center. In fact, right now we have a membership of over 2600. And the majority of them are ratepayers of Lehigh.

COMMISSIONER GARCIA: Forgive me, but you are a citizen of Lehigh Acres?

WITNESS ERCOLINO: Yes, I am. I live in the undeveloped area where we don't have water and sewage.

Now, the reason I'm here is because a lot of these elderly widows who are living on fixed income have come to me and said, "Nick, what are we going to do? Our water rates and sewage rates have gone up so high that sometimes I don't have money for the medication."

Now, when things like this happen, you should be aware of what your decision is going to be when you make these rate increases part of their problem.

I had one woman come to me and say, "You know, I sat down and I figured out what it was going to cost me every time I flushed my toilet." She said, "45 cents." Now if it's going to cost you 45 cents to flush your toilet, how many times are you going to flush it? Not that many. So there is a problem.

And I was one of the earlier ones here -- I don't know why I'm being called on now; I probably should have been called on second -- but I want to thank Mr. Shreve simply because I didn't know this whole situation was so mind boggling.

Now, how can you people set rates, put them all together -- you have 150 different utilities, how can you do it? As Freddie Schlosstein and Frank Kane said, we have an unique situation in Lehigh Acres. No one can understand what is happening. How could they lay lines for two miles and go buy property that's been in Lehigh for 25, 30 years that does not have lawyer and sewage? They go right by them.

I had one guy come to me and said, "When they put Mirror Lakes in, they went right by my

house." And he said, "I requested to have my sewage and water hooked up to my house and I was told no, they cannot do it."

So we have a problem and ours is -- listening to this gentlemen before from Burnt Store and from Deep Creek, they do have problems. Everybody has a problem, so you cannot judge all of them together and say let's have a uniform rate. It would not be fair.

And after reading and listening to Mr. Twomey, and reading the Newspress and our News Star in Lehigh Acres, I come to the decision that you cannot make this decision. It should be given to an administrative judge who can really go into this thing and look it all over. I mean you might listen to all of this testimony, but it's mind boggling.

COMMISSIONER GARCIA: May I ask you, you said that they ran the sewer line right across the front of your house and they wouldn't let you --

WITNESS ERCOLINO: Not my house, but another person. They ran right by his house going out to Mirror Lakes, and he has a fairly new home. And when he requested a hook in, he was told they couldn't do it.

COMMISSIONER GARCIA: Could you have that

person call our Staff.

WITNESS ERCOLINO: I sure would. I sure would.

It's hard to understand but this has happened in a lot of cases. They put a new development in in Oakwood, nice section --

COMMISSIONER GARCIA: Who is they?

WITNESS ERCOLINO: The corporation, Lehigh Corporation, which is SSU.

There was a house just outside, a guy built a brand-new house on a corner lot, he had to put septic and well in, and yet the water line was less than 150 feet away from his home and he was told he could not hook in it. So there are problems out there and it's something you should investigate.

That's all I have to say. Thank you for your time.

CHAIRMAN CLARK: Thank you, Mr. Ercolino. I think Mr. Twomey has a question.

MR. TWOMEY: Just a request. In addition to giving that gentlemen's name to the PSC Staff, would you give it to me, and anybody else that you've described --

WITNESS ERCOLINO: Sure. We'll do it through Concerned Citizens. Okay?

MR. TWOMEY: Thank you, sir. (Applause)

MR. SHREVE: Mr. Hofrichter.

- - - - -

JOSEPH HOFRICHTER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS HOFRICHTER: I'm sorry, folks. When you're an old man you know how it is, you have to run pretty quickly to the mens' room, and frequently, I might add. (Laughter)

As I was saying to Susan Clark, and to the Commission, to all of you --

CHAIRMAN CLARK: Give us your name.

WITNESS HOFRICHTER: Wow, what a mess you have on your hands.

My name is Joseph Hofrichter, H-O-F-R-I-C-H-T-E-R.

CHAIRMAN CLARK: Go ahead.

WITNESS HOFRICHTER: Everybody's kind of stole my thunder, particularly the attorney; he was dynamite. (Applause)

What I would like to say is this, some basic things, and I'm sure you know them, but just to remind you.

Number one, it's no secret that water is a natural resource. It's no secret that it's a precious commodity that we all need to live. Furthermore, I don't think we have to be rocket scientists to determine that we must have that water at reasonable and affordable rates regardless of where we live. (Applause)

I have lived here for two years and it's only within the last week and a half some semblance of what has been going on with the water rates and how it is adjusted. I still don't understand it but I have a bit of a grasp.

I do know from my experience and from what I hear from other people that the current rate structures provide a tremendous burden and a great inequity upon all citizens in the southwest area of Florida who are served by southwest -- SSU rather. I have no quarrel with SSU except I wish the heck they could raise our pressure, our water pressure. They're doing a fine job.

Every business is entitled to a reasonable profit. Unless they have that, they can't possibly operate. So you have to give them the opportunity to make profits. But whoever is milking us down the road with these absolutely ridiculous rates, those are the

people we've got to find and eliminate. I don't know who it is. All I know, since 1993 Deep Creek has had a 319% increase in rates, in water rates; sewer is included.

SSU supports the uniform rate. Without being experts, without knowing what really should be done, all we can say is based on what we know as residents of Deep Creek, we certainly support uniform rates. To me this seemed to justify -- you take the total cost of whatever comes into the county, whatever, and you prorate it over the total number of people. And when you do that, nobody is taking a big hit. But when you take a specific area and they are crucified by ungodly rates, for whatever reasons I think the Commission needs to look into that and determine why. And hopefully, and I beg of you, please give us some consideration and do the fairest thing you possibly can. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Hofrichter. Let me see. Any questions? Thank you. Go ahead, Mr. Shreve.

MR. SHREVE: Ms. Ferrante.

- - - - -

JOSEPH FERRANTE

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

CHAIRMAN CLARK: Hello Mr. Ferrante. How are you doing?

WITNESS FERRANTE: I'm doing great.

CHAIRMAN CLARK: Would you spell your last name again for us?

WITNESS FERRANTE: F-E-R-R-A-N-T-E. Joseph R. Lehigh Acres.

I'm not going to be my usual self today.

COMMISSIONER GARCIA: I don't know whether that's good or bad.

WITNESS FERRANTE: It's bad. It's bad, believe me.

Ladies and gentlemen, before I go into -- I just have a few notes. I'm going to be very quick.

The Public Service Commission is a governmental body of the state of Florida?

CHAIRMAN CLARK: Yes, sir.

WITNESS FERRANTE: I'm a dinosaur and I'm very old fashioned. I don't see the American flag anywhere in this room. And I really think it should be here, seriously.

I read today that the interim rate you say was 5.9% -- 5.9 million. In the News Press it said today that the rate was 8.2 million increase. I don't know which is correct.

CHAIRMAN CLARK: I believe if you combine the water and wastewater it is about 5.2 million; is that correct, Mr. Willis?

WITNESS FERRANTE: Mr. Shreve?

MR. SHREVE: I've gone over the figures.

CHAIRMAN CLARK: This is the interim.

WITNESS FERRANTE: Interim rate.

MR. SHREVE: If you start with the revenue that the Company had for each one of the groups, water, uniform water, nonuniform sewer, uniform sewer nonuniform, you come up with an initial revenue of $40,145,000; come out at the end of $48,328,000 or an additional increase for those customers of $8,183,000. I don't see how it can be any different. That to me is the simplest way to take it is what they start with, how much you add and how much they end up with, for the customers that were given an interim rate increase.

CHAIRMAN CLARK: Well, Mr. Shreve, maybe your office and my office need to get together and look at it, because I believe the Order says --

perhaps it's not written yet but the recommendation had indicated these figures.

MR. SHREVE: I think they went from 40 million to 48 million rather than --

CHAIRMAN CLARK: That's not the figures I have.

WITNESS FERRANTE: Get together, but leave SSU out of it because you're not going to get accurate figures from them. You're only going to get balloned and inflated and figures that don't tell the truth. They have no credibility. (Applause)

Now, effective January 12th of this year I became part of the SSU Customer Advisory Committee. I don't work for SSU; nonsalaried, no expenses involved for me. What I am in effect is an ombudsman for the people, the users, to SSU. They're going to want to hear from me all of the problems these people have.

I think they are going to eventually regret they ever appointed me to that position because if anybody is going to break their horns it's going to be Joe Ferrante.

I agree with what Fred Schlosstein, Frank Kane, Nick Ercolino, everyone said from Lehigh Acres. The rates are exorbitant. They're ludicrous. The rates are ludicrous.

They're looking for a 10.32% increase. They really shouldn't get any kind of an increase because they're doing pretty good right now. They're doing great, in fact. In fact, I think they should get a decrease in what they're charging us. (Applause)

So now I'm going to get off that subject.

It has been brought to my attention -- this concerns the system -- that all commercial, and people who own pools and heat recovery units have to have a sophisticated check valve; it's known as a pressure regulator. Okay. Now, this is included in the cost of purchasing a new home. It's in there. And it's also -- there's a maintenance fee of anywhere from $35 to $70 a year. And what it does, in fact, is go on the theory of what you learned in high school, that water seeks its lowest level.

If the system breaks down in the street, not in your residence but in the street, SSU's system, this check valve prevents anything from going into their system. That's great. But what they're doing is placing the financial burden on the resident owner, the user, to insure their system -- and this is ununderstandable to me and it doesn't make sense.

Incidently, this regulator can be put in front of the meter; serve the same purpose. But no,

it has to be put in back of the meter. And if you look -- because when this was first brought to my attention I went looking in the area -- guess what residences and pools don't have the meter? Lehigh Corporation. None of their buildings have it. But these people that have heat recovery units, you know, they don't have it.

By the way, it's not a law that is mandated by the state or the government. It's their own law. They make up these "own laws", these people, like they change underwear. I guess that's 12 a year.

Not you. Not you. I wouldn't want to be in your shoes for all of the money in the world because what you said this morning, I know you meant it but the words were hollow; they didn't come out right.

So that is basically what I'm here for. You kow, no rate increase; give them nothing. They don't deserve it.

As far as the water quality, in the back there they have water -- they had water. They're not part of SSU. This water tasted better than the water we drink; that's the water you're drinking right now. It tastes better than what we're drinking. So I'm not even going to give them credit for good quality. If they've got good quality in Deep Creek and Burnt

Marina, terrific, but we don't have it. They can improve our quality. They can improve everything for us. And this guy in Minnesota, it's like God Almighty what they're doing --

Would you believe it, that's about it. And I didn't take a shot at any one of you.

CHAIRMAN CLARK: Thank you, Mr. Ferrante.

WITNESS FERRANTE: And John Gotti took the -- he perjured himself in two cases.

COMMISSIONER CLARK: I'm glad you clarified. That was a discussion we had last time.

WITNESS FERRANTE: Yeah. I talk about they're under oath, but Leona Helmsly was under oath. Ivan Bosky. Furman, of which I had a similar type position as him, was under oath. In other words, I was in law enforcement.

In my neighborhood we all were in law enforcement; some were on the good-guy side and some were on the bad-guy side. I'm not going to determine who was the good and the bad. But I became a police officer and the other guys became criminals. And as a boy my father said to me, "Don't become a criminal." He says, "Don't ever become a criminal." He says, "What you do is you get yourself involved with a utility gun; you don't need the gun -- a utility

company. You don't need the gun. You can steal their money just by being a utility company." Thank you. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Ferrante.

MR. SHREVE: Mr. Aschenbrenner.

- - - - -

BERT ASCHENBRENNER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS ASCHENBRENNER: My name is Bert Aschenbrenner, A-S-C-H-E-N-B-R-E-N-N-E-R. I live in Burnt Store Marina. My wife and I are year-round residents there. I've lived there for over two years.

I was also here at the last meeting in this room and, therefore, your approval of the interim rates for Burnt Store Marina on January 4th, and their implementation as of January 23rd, came as a surprise to me in view of the comments which I recall were made by you at the last meeting -- I don't have it verbatim but something to the effect like, quote, "You'll have another chance to comment on the rate increases in the next hearing." Needless to say, we were counting on this. We were surprised to get the increase prior to that meeting.

CHAIRMAN CLARK: Mr. Aschenbrenner, I just want to make a distinction I may not have made at that time. We have to act on a request for interim rates, and that's what we did. The final rates, and those interim rates, the revenues from those rates are subject to refund. I'm not saying if your rates change as a result of our final decision that you will get a refund, but we will not make a decision on the final rates until sometime in August, I believe. And so we are hearing from you again before those final rates. And I apologize if I had misled you before.

WITNESS ASCHENBRENNER: I understand that. But with regard to believing in the refund, it's like believing in the tooth fairy. (Applause)

I would like to put that particular increase, as well as the other increases with regard to final rate, with a uniform or stand-alone rate, into a simple context.

Both my wife and I receive Social Security. Early in January we got an increase in our Social Security check, which amounted to $43 in the bank more every month. The increase that you approved is going to, according to SSU's rates of the average consumption, which is very typical, that increase is going to use up 39% of that $43 which Social Security

increased. The final proposed rate alternative, which is based on uniform rates, will use up 82% of that Social Security increase. And the final proposed rate alternative on a stand-alone rate will use up 93% of that Social Security increase. I think that puts it into a very specific context for you to think about.

With regard to the various letters that were written to Governor Chiles, and by the Lieutenant Governor to you, Ms. Clark, I just want to say that the letter that particularly offended me was the letter from the Chairman and CEO of Minniapolis Power & Light, Mr. Sandbulte.

This is a combination of saber rattling, table pounding, threatening to take the Commission to court; telling the Governor, quote, on Page 3 "Governor, I don't believe we are whiners." This, from the chairman of a company which has revenues in excess of $600 million, and income of over $60 million, and these comments being made at a point in time very close to when Value Line Ratings and Reports, on Page 722, dated January 12th, 1996, says in their review of the stock for Minneapolis Power and Light, quote "Utility investors interested in a high yield might want to consider the stock. The yield is more than one percentage point above the industry

average and the dividend is secure."

It goes on to say "We tentatively estimate that the directors will increase the dividend at the board meeting later this month. That would be the 26th consecutive annual boost for MP, Minnesota Power." This is the same company that Mr. Sandbulte is crying about.

Another interesting point with regard to Minneapolis Power and Light is that in the report to stockholders there was a letter -- this was 1994 and I got that out of Moody's Public Utility Manual 1995, Volume 2, Page 2839. He stated the following: "What are the company's financial goals? Our goal is to increase earnings to a minimum of 3.25 per share by the year 2000." That statement was made when the earnings per share were $2, and then the prior year a little bit over $2. "We expect the earnings to come approximately one-third each from electric utility operations, water operations and other investments." Two-thirds of their operations are utilities.

That may look like a stretch but I'm confident we can do it. If you look at what is required to go from $2 to 3.25 in the time period that he stated, that is a compounded annual increase of the earnings per share of over 7% per year. That's pretty

nifty. And getting that kind of an increase in earnings per share in a corporation which is two-thirds utility, there's only one way you can get that: Beg for more revenue; ask for rate increases.

I think you can see why as the average consumer you get the feeling that as an individual you have on the other side of the negotiating table an 800 pound gorilla.

I would just like to close by saying that I hope that inspite of that letter writing frenzy and arm twisting attempts that Minneapolis Power & Light and SSU were engaged in recently, that the Public Service Commission will continue to scrutinize the revenues which SSU and Minneapolis Power & Light could claim they need. Not just worry about the rate structure and how you apportion it, but please look at the revenues. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Aschenbrenner. You've made some good point. Are there any questions?

UNIDENTIFIED SPEAKER: Would you announce that the Lehigh bus is leaving at 1:00.

CHAIRMAN CLARK: I will. I'll do that again.

It's ten minutes to one, and I have just

been asked to announce again that the Lehigh bus is leaving at 1:00. Go ahead, Mr. Shreve.

MR. SHREVE: Mr. Barken. Mr. Joseph A -- I believe it's B-A-R-K-I-N or "K" -- Joseph A. 357 Joel Boulevard, Lehigh.

Mr. Coutcher. Mr. Coutcher. Mr. Orlo Coutcher?

Mr. Brunovsky? Mr. Anthony Brunovsky?

Mr. Peter Dobbs.

- - - - -

PETER DOBBS

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS DOBBS: My name is Peter Dobbs, D-O-B-B-S, and my bus is going to leave in a couple of minutes.

I'm just one of the thousands of seniors who would like to share with you some of our thoughts and worries.

And I'd like to thank you for the opportunity to present something to you, some figures which bear on this case. Since 1982 I kept meticulous records of my utility payments, and from these let me present the other side of the story.

I've divided these into three different parts. From 1987 to 1989 I paid Lehigh Corporation $870 for those three years. The next three years, from 1990 to 1992, I paid a total of $933, and that's an increase of 7%. Now, from 1993 to 1995, inclusive, I paid a total of $1,332, and that's a 42.8% increase.

Enough is enough. When will it stop? I'm not going to recount what was in the News Press and so forth. We'll just skip that.

Now, because of the illegal action of the lobbyist, no one will believe that you can be impartial. To protect the integrity of this Commission, even though you're not guilty, I would like to have you seriously consider some actions, which if you follow, are calculated to prove your impartiality.

First, revoke the $6 million temporary increase. That's a necessity.

Next, relinquish your right to hear this case and refer the case to the impartial administrative judge. If you do this, you will not only clear our Governor and his staff, but also you'll send a message, a strong message, that lobbyist pressure will not work because it's illegal, clearing your good name. Referring this case to the impartial

judicial system will make you a winner. Do yourself a great favor. Do it because it's the right thing. Do it because it's a wise move, not only for Lehigh but also for Florida. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Dobbs.

(Applause)

MR. SHREVE: Thank you, sir. Mr. Potter. E. G Potter.

UNIDENTIFIED SPEAKER: He has gone home.

MR. SHREVE: Thank you, sir. Mr. Foley. Howard Foley? Caywood Circle.

- - - - -

HOWARD FOLEY

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS FOLEY: My name is Howard J. Foley. 1437 Caywood Circle North, Lehigh Acres.

Thank you very much for the opportunity to speak for you. I wanted to speak to you at the last meeting but I was on one of those buses that left so I drove down today.

You know, in coming to this meeting I walked around the house. I've got the same damn water meter that I had when I bought the house four years ago.

They haven't put any pipes in my street. In fact, SSU has done nothing to improve my service. It's good service. I'm not complaining about the service. But it's not one damn bit better than the service I got from Lehigh Utilities Corporation when I bought my house.

I go driving out to Buckingham, out there, and I wish I were in the blue-pipe business. Because wherever you go around Lehigh, miles and miles of blue pipe laying at the side of the road, to apparently be buried and give water to a bunch of armadillos, alligators and chipmunks, because you're going way out into the woods; you're not going near any house or anything else.

And I guess this rate increase I'm supposed to help pay for them. I mean I heard somebody say that you shouldn't have to pay for pipes in the ground that nobody is using. I don't think I should pay for the pipes before they get into the ground or after they get into the ground, if it's not doing me any good.

Thank you very much. (Applause)

CHAIRMAN CLARK: Thank you, Mr. Foley.

MR. SHREVE: Thank you, sir. Mr. Charles Boley. Mr. Boley.

Mr. Marks. Paul Marks.

UNIDENTIFIED SPEAKER: He went on the bus.

MR. SHREVE: Thank you, sir. Robert Kahler.

- - - - -

ROBERT KAHLER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS KAHLER: Good afternoon, Madam Chairman and Commissioners, my name is Robert Kahler. It's spelled K-A-H-L-E-R. I reside at 2814 Sixth Street West. I'm a member of the Concerned Citizens and also Commander of our local Veterans of Foreign Wars Post 4174.

What we have, in the opinion of most of our members, which number approximately 500, including auxiliary, is that these rates are high enough now. Any increase in the rates will be exorbitant.

Most of my members are on fixed incomes. And it's a tremendous hardship on these members. So we feel this rate is entirely unnecessary.

Another thing that has come to my attention listening to these hearings is we're always talking water quality in Florida. And yet as you hear about these new lines going to outside developments, outside

of the general populated area of Lehigh, which a vast amount of that does not have any sewer, these septic systems that are being used now are totaly inadequate, outmoded. So what do you have? You're, in a sense, polluting the water table, which means more treatment, more cost.

The only reason these lines are going to outlying development areas is because the corporation is controlling these areas, and myself, being in real estate, that increases the value of those lots that are sitting out there like some of the others have been telling you. And it's not fair. I think they should be taking care of the public in Lehigh before they go running miles and miles out putting new lines in, like the last gentlemen has just said, and forgetting Lehigh.

Our Post itself, the Post home itself is sitting in a position at the -- on Homestead Road. We have a septic system in, which is very old. The Knights of Columbus next to us have had to replace their whole septic system. Now there's no reason that we shouldn't have sewage down in that area, because we are concerned about that system.

So let's get working on something that will benefit most of the people in Lehigh, not just the

corporation. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Kahler.

(Applause)

MR. SHREVE: Mr. Meledy.

- - - - -

JOHN MELEDY

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

MR. MELSON: My name is John Meledy, M-E-L-E-D-Y. I live in Lehigh.

And I watched, everybody left and heard everybody speak. Obviously everybody has said everything I was going to say but I'm going to say it anyway.

You do get a good impression here. I appreciate your -- the Public Service Commission. You look better as I sit and listen to your program. So what I'm going to say is not personal at all.

I wrote this when I came in here. And I almost tore it up and said, "No, the heck with it. It's already said." And I shouldn't say it probably but somebody told me, "Say it anyway."

In light of the accusations made about the conflict of interest regarding the Governor's Office,

the "Perfect Service Commission," Jeff Sharkey's lobby and the SSU, it would seem politically sound to request that the administrative legal law judge hear the SSU's plea for higher rates. Even if the charges are untrue, which I have doubts, another board would answer these charges and would ease the minds of the customers.

Thank you very much. (Applause.)

CHAIRMAN CLARK: Thank you, Mr. Meledy.

MR. SHREVE: Thank you, sir. Mr. William Looa or Loga; L-O-O-A, or L-O-G-A. 218 Burnside Street.

Mr. Jeff Gerber.

- - - - -

JEFF GERBER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

CHAIRMAN CLARK: Hello Mr. Gerber, how are you?

WITNESS GERBER: Still not happy. My name is Jeff Gerber and I have been in Lehigh Acres, Florida, customer of Minnesota Power, SSU, Lehigh Utilities, Lehigh Corporation, whatever you want to call them, Topeka -- to me they're all one outfit.

They have the same ownership. If I pay money to one of them, it can end up in the pockets of the other one and to me they're working as a team against them. This is my opinion.

And I have been paying utilities to them since 1978 and I'm disgusted with the gigantic rate increases. And now they want to raise them still higher.

And I believe, it's my opinion, that the relationship between your Staff and the utility company is just too cozy. I do not trust your Staff. And my personal opinion is a judge should definitely be involved in this decision. That's what I believe.

As to the rates, I think definitely you should consider the gigantic, king-size profits that the SSU-Minnesota Power bunch made when they took over Lehigh. Their profits should definitely be counted against any rate increase request that they made. They did get everything from swimming pool to the motel, to you name it, the golf course; they got everything at a really bargain price. Yet you're giving them utility rate increases based on an amount that they didn't pay. If they're paying 40 cents on the dollar for the utility alone, their rate increases should be based on 40 cents on the dollar. You're

giving them an unconscionable increase.

They practically got that utility company for next to nothing. And the Utility was profitable. But because the rest of Lehigh Corporation was part of a bankruptcy thing involving the Resolution Trust Company, and things out in Arizona and stuff that had nothing to do with the Utility business, it was all thrown in as a package deal.

And when they get a utility, a profitable utility, for next to nothing, they are guaranteed profits. They don't have to nearly double my rates -- which they've already done, and now they want to shove the rates still higher.

In Consumer Reports magazine, December issue, which is only a few months old, Page 757, is talking about the federal government putting in $1 billion in loans and grants, which do not have to be repaid, to small water utility systems. I want to know if that money comes through, are we going to get a rebate from what, in my opinion, are the criminals at SSU, who have been ripping us off? Are you going to lower the rates on us when that happens, if it happens? I hope it does happen.

Also, when it comes to where we stand on refunds, none of us in Lehigh are going to hold our

breath waiting to get a full refund back. As far as we're concerned, this is a crooked done deal. It will be a miracle of biblical proportions if we ever get the total amount of this interim increase refunded to us. I have to see it first before I believe it.

As to the rates that we used to have, the interim rates, the stand-alone rates, the modified stand-alone and the proposed uniform final rates, they've got this thing rigged so that it looks like we have to support the uniform rate. Otherwise, we're going to have to pay even more the other way. This is a trick to con us into going behind the uniform rate system.

I'm going to give specific examples, and I'm using your own literature here against you. This is your own literature.

On water we were at $2.40 for our gallonage charge. Under stand-alone you want to raise it to 4.72; nearly double. On modified stand-alone it's still a gigantic increase for 4.31. Compared to 2.40 that's a big difference. But this is the carrot-and-stick approach to try and trick us.

The gallonage charge under the uniform is down to 2.16. Now, obviously we'd save a fortune by going with the uniform rates. However, we'd be

utterly at your mercy on future rate increases. See, we pretty much know what Minnesota Power, SSU and all their other outfits -- they have 20 names -- are doing in Lehigh. We can measure, see with our own eyes, these guys are putting in pipes or made an improvement to their water treatment plant or wastewater plant or whatever. We can watch the construction. We have an idea what we're getting in exchange for any increases in rates.

When you tie us to people at the other end of the state of Florida, we don't have the foggiest notion what somebody's utility 300 miles away from us is doing. We are being tied into 150 combined utilities and we're only one of them. And you can claim something went wrong in St. Johns County or Washington County or Volusia County, or who knows where, and we're not in a position to judge. So in the future we won't be able to fight any rate increases because we won't have any foggiest notion if the rate increase is justified or not, because we don't know what is happening the other end of the state.

This opens up an avenue for rate increase, after rate increase, after rate increase that is not going to benefit us. In fact, it may not benefit

anybody in the state. Because there's places where the Utility should be spending money, and it would be justified, and I wouldn't mind the increase but they're not doing it. Now, I'm going to give specific examples.

Number one, the population of Florida is going up. And since I have been here it's doubled. And projections are eventually it's going to double again.

People are using huge amounts of water. The rainfall is not doubling. The amount of water in the aquifer underground is not doubling. We're heading toward a day -- it might not be tomorrow, it might be ten years from now, but we're heading for the day that Florida is going to have gigantic water shortages.

Now, if these, in my opinion, disgusting criminals have been ripping us off from SSU-Minnesota Power in cahoots with the Public Service Commission and their Staff, if they were charging us an increase now, but putting that money into guaranteeing that we're not going to be hurt in the future with gigantic water shortages that will be used as an excuse to maybe multiply our rates maybe tenfold in the future.

For example, if they were getting into a massive desalinization program, so that in future

years they could take huge amounts of saltwater from the Gulf of Mexico or the Atlantic Ocean and turn it into pure drinking water. Now that would be something I could maybe stomach when it comes for a rate increase.

Instead, they're going to wait until Florida is just about out of water. And then they're going to say it's an emergency. And then they're going to want to really choke us with rate increases then. It's a lot cheaper if they start construction now, at today's low prices, than wait many, many years, with inflation and all, and the prices are going to be way higher then for construction of these plants. But they have never given a damn about the public.

They'll sing a song about how nice they are, and how they love us and they are doing this for our benefit. My opinion is that's a bunch of hogwash and lies.

They have concealed -- and I'm talking about SSU and that whole bunch -- they have concealed information. We don't have the foggiest notion about their income tax returns or their escrow funds. The Public Service Commission, through their Staff, is doing nothing. They're not supplying us in Lehigh with this info. They're not jumping down the throats

of the criminals over at SSU and demanding that they turn over this information or else you're going to reduce their rates. You guys have the power to reduce the rates. You can punish them for concealing this information.

Now, before I lose my temper I'm going to get out of here. But I know what's going on. The people in Lehigh Acres know what is going on. And they think it is disgusting.

And you might remember last time I was here I brought up the deliberate waste of money by -- I'm a gas customer, I was a garbage collection customer -- the same Minnesota Power-SSU-Lehigh Utilities bunch. Not just a water and sewer customer, I was a customer for all of their utilities, and they owned a lot of utilities. And they would send -- in the old days they sent me one bill on one sheet of paper with postage paid once to pay all of my utilities. Now, they want to divide it up and send me separate bills and pay separate postage and separate bookkeeping and separate accounting.

Now, you'll say that only amounts in Lehigh to a few thousand wasted dollars every year. True. But it's an example of the kind of waste they probably have throughout their entire utility empire.

COMMISSIONER GARCIA: Mr. Gerber, you did say the last time you only sent them one check?

WITNESS GERBER: I fought them. The other customers didn't. I have told them to drop dead. I'm going to pay one check. I refused give them a whole bunch of checks. I always used to give them one check and I'm going to stick with it. And they correctly credited my account with no problems. But with everybody else, they're demanding it be done the new, expensive, wasteful throw-the-money-down-the-sewer way.

Now, when I raised this complaint last time, when the meeting was over, somebody -- I'm not going to mention any names, I don't want to embarrass anybody, but it's his word against mine and he's liable to lie. So I'm not going to mention names.

But someone from your Staff approached me and explained why the Public Service Commission wants these things to be done the more expensive way. And he said that they want to make it easier on the Public Service Commission. The gas and garbage utility business, which you don't regulate, to be totally separate for bookkeeping and accounting purposes.

And my reply was, "How come for years and years everyone in town, in Lehigh, gave them one check

and they had no trouble at all marking down that half the check is for water and sewer, and a quarter is for gas, and, you know, whatever for the other." And they're computerized. They could figure it out to the penny if they wanted to. They are probably ten times better in mathmatics than I am. They have college degrees.

When I heard that the Public Service Commission was thrilled with this waste of money; that you would even, according to your Staff member, pressure the utility company to do it the expensive way, I didn't want to hit the guy in the nose and go to jail on assault and battery charge, so I didn't push it. But you have a public here which is dissatisfied. John Q Public, Jane Doe Public do not trust you anymore.

If they say these uniform rates are so fair, why don't you give us the uniform rate on water but separate us from the rest of the state so when the utilities in future years want to justify a rate increase, they'll have to justify it on the conditions in Lehigh.

I love their $2.16 gallonage charge under the uniform rates. I just don't trust them to keep it. Did anyone have any questions before I leave?

CHAIRMAN CLARK: Thank you, Mr. Gerber.

MR. SHREVE: Yes, sir. (Applause)

I think you hit the nail on the head, what Southern States wants is the total amount of money regardless of how it is paid.

WITNESS GERBER: Divide and conquer. Excuse me. They can play off one bunch of consumers and customers against another this way. Because when it's uniform rates, nobody knows what is going on, and somebody is going to benefit at the expense of somebody else. Someone is going to get a reduction in their rate and somebody else is going to have a giant increase, and that way the utility company don't have to fight all of the customers. They can only fight those that got king size increases.

MR. SHREVE: Yes, sir. It's about 50/50.

Chuluota -- and I bring out some specific examples because they are high -- sewer rates for 6,000 gallons would be $265.95. That's what they would want out of the system, and increase their revenue by that much. That's an unjust rate no matter how you say it, and Southern States should not get that kind of money from anybody.

WITNESS GERBER: They are ripping us off.

I'll give some specific examples in here.

That, raising us -- which their threat under the stand-alone, to go from a gallonage charge from 2.40 to 2.72, that's nearly 100% increase. That is totally -- I mean when people in Lehigh read that, it was like to the old people that are on pensions and to the huge number of people that are working for chicken feed wages, this was a real blow.

On the sewer, they call them residential wastewater -- to me I'm used to the old name -- our gallonage charge before the interim increase was $3.86. Under the modified stand-alone they wanted to go to 6.88; from 3.86 to 6.88 is nearly double. This is on top of all of the huge increases they have given us in the past few years.

It's unconscionable. It's disgusting. It makes the public hate you. And the other people were into being polite. But I just can't stomach this anymore.

CHAIRMAN CLARK: Thank you, Mr. Gerber.

(Applause)

MR. SHREVE: Mr. Foster. Edward Foster.

EDWARD FOSTER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS FOSTER: My name is Edward Foster, F-O-S-T-E-R. I'm am resident of Lehigh.

Quite a few of the items I had listed in my points here have been taken care of, but I'd like to turn around and just reemphasize several.

Again as I say the majority --

COMMISSIONER GARCIA: Mr. Foster, some people in the back can't hear you.

WITNESS FOSTER: I'll reiterate in a sense some of their concerns.

The majority of the people in Lehigh again are retired. And as they say, they haven't much money. Well, the total increases have come out to be almost 17% per year if you go over the past eight years. Now this starts when Lehigh Utilities was operating, and for that you paid $3.69 for the base water and 1,000 gallons.

At the present time with the new interim rates, you paid $10.53 and $2.80 for that first thousand gallons of water. So you're coming off to $12, $13 from less than $4. And that, as I say goes

from the time, we started down here in 1988 to the bill this coming month.

Now, we're not on sewer. We have water. It's almost a completely populated area between the resort and the commercial area. And, again, they're all on septic systems.

The water has been run along the canal to take the effluent to the golf course, and when questions -- would sewage go into the same trench, perhaps go back to the sewage plant? At that time, no. But nevertheless, those lines are in the right of way of the East County Water Control District and go to the Lehigh Resort, North Course Golf Course.

But again, when we talked about the -- I didn't have the figures back then, my actual figures, but from 1991, when the first base was set, the sewer base was set at 5.40 and 2.63 a thousand gallons, and, again, that's going up there to 18.37, plus 4.59. So basically $23 from the original one on here of $7.

Now, in a rough -- but 17% per year increase. And I don't know whether even medical costs have gone up 17% per year, but that's besides that.

Mr. Gerber's comments with regard to uniform rates I agree with. And perhaps one indication of an attempt, or intent, with the Burnt Store being broken

off separately. Burnt Store is reverse osmosis. I'm an engineer. Reverse osmosis may be the only -- desalinization in reality -- may be the only source of water in another 25 years. We put -- we have trouble in Florida, but I think northern, central United States will probably have more.

I was project engineer for the design of the largest wastewater treatment on the east coast. And there they take 620 million gallons of water out of North Jersey, through the sewage system, and dump it into the Atlantic Ocean. Every single day. And at the present time that plant is being expanded. So where that water is going to come from, I don't know. And Florida is in the same situation.

In the Virgin Islands, many have been there, they used to have big cisterns, huge concrete platforms basically on a hill, with grooves cut in them. And when it rained, that water was taken into underground cisterns. Now the majority of the water is done by reverse osmosis. It's expensive. It's a new process.

Here the breakout of Burnt Store could be considered an attempt to rid themselves of it. If it becomes sufficiently expensive, the people, someone will turn around and try to turn around and get out of

the SSU. And when they do, SSU won't have to worry about them. But they won't have to turn around and go into further, let's say, development of alternate sources of water.

Now, the -- again, I say I spoke of the smallest amount, and I believe Mr. Aschenbrenner spent the thing -- just noted that 1994 MPL had $480 million worth of net profit. They had 407 in '92.

I requested at a meeting they had here in the Sheraton on the 22nd, I believe, for perhaps a list of expenses that the Company had, let's say, entered, into their books anyway, for Lehigh. And I received that.

Now, in 1993 they spent $309,000 on transmission and distribution lines. At that time the Oakwood area I mentioned here was put in. It was a development. Of course, at the same time that also we didn't know that Wal-Mart would move in. But those, the Oakwood development by Lehigh Corporation shall, or their subsidiaries, was put in and their water and sewer. Those lines went from the business area of Lehigh, perhaps, two miles. In 1994 they charged 611,424, 611,000 on that. At that time the transmission lines were placed along Lee Boulevard for some two and a half miles.

Now, Lee Boulevard is the main entry route into Lehigh. And they ended up in the area of the new Lehigh Acres High School. But there are hundreds of homes on the area from Oakwood to Gunnery Road and the Lehigh High School, and as far as I know, none of them have water and/or sewage.

The 1995, $2,209,940 was expended, again, for transmission lines and distribution lines. All of this was charged to growth. Oakwood grew as an after the lines were in. The Lehigh High School came in about the same. They had to get the water to get to the school.

The next item here, this 2 million, from Gunnery, those lines have been extended on places both sides of Lehigh Boulevard or Lee Boulevard, and partially -- they are both sewer and water lines. Some said, oh, well they are just other lines. All you have to do is look at the brown pipe and blue pipe as they go across a bit of the bridge across the canal. These lines at the present time have no valid use. Now, there may be some, but I haven't been able to determine any valid use. They will go to the Lehigh Industrial Center, which was projected to have at big APC Corporation, that fell through. But, again, we have at least two and a half, maybe three

miles. And Averant Boulevard they installed what is apparently an underground pump station, because they had to go in and bore it out and put it in. I didn't examine the construction. This is also listed in the thing.

In 1996, as of yet, they've only spent $220,000. The development south of the area where they -- I won't say ended, but where they crossed Lee Boulevard with their lines, is the new Westminister Development. At the present time there's an excavation in the center of it is half the size of this building, of this room.

As I say, I'm an engineer involved with sewage work. It is probable -- I asked the fellow and he sayd he didn't know, it was going to be something they had to put there. My assumption is it must be the main collector for the sewage system that will be put in at Westminister.

But what I'm bothered about, I don't believe that any of these figures -- in other words, he's talking about transmission lines, I do not believe that any of these should be included in the base. This is an investment that SSU, or Topeka, or Seminole or Minneapolis Power should pay for if they wish to turn around and have it as a new income producing

item.

There doesn't seem to be any idea -- I haven't been able turn around and talk to quite a few people, and I haven't even gotten so much as a hint as to whether or not the development corporation has paid for any of this.

It's either a matter of, let's say, a capital future investment by Minneapolis Power or it should be -- the other item it talked about, be applied to something else.

That's about -- the other thing, the same thing that Frank Kane said, I was in a position where -- in a public body at one time, and we were doing our best. I got out of two companies because I didn't like the ethics. But I was in a position, and I felt very, very uncomfortable. I turned around and voted no on a particular thing. But a tremendous amount of pressure was put on me and I don't know whether later -- well, I really can't say -- I was dumped because of the vote. But it was an elected position. But a tremendous amount of publicity and everything else came up so that I lost it. And when decisions come up like that, I'd much rather turn around and give them to someone else over there who is either not elected, let's say, doesn't have to turn

around and fuss with his feelings.

But that's all. Thank you.

CHAIRMAN CLARK: Thank you, Mr. Foster.

MR. SHREVE: Thank you, sir. Mr. Collins. Mr. Collins.

Mr. Paul Anderson? Mr. Anderson? That's all that we have right now.

CHAIRMAN CLARK: Thank you, Mr. Shreve.

I'd like to thank everyone who came and gave testimony. I realize a lot of people have left. Please convey my thanks to them and I appreciate all of you who have stayed.

This hearing is adjourned.

CLASS-16

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
NOTICE OF SERVICE HEARING
DOCKET NO. 950495-WS

Docket No. 950495-WS--Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties. Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Lee and Charlotte County(ies) will be held at the following time and place:

February 8, 1996
10:00 a.m.
Sheraton Harbor Place, Ballroom
2500 Edwards Drive
Ft. Myers, FL 33901

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly $100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

FLORIDA PUBLIC SERVICE COMMISSION
DOCKET NO. 950495-WS EXHIBIT NO. 53
COMPANY/
WITNESS:
DATE: 7/29/96

STATE OF FLORIDA)
COUNTY OF ORANGE)
_____)

AFFIDAVIT

STEVEN M. GALLIS, having been duly sworn, states as follows:

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.

2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.

3. In my presence and under my supervision, SSU personnel mailed to the customers in Lee and Charlotte Counties a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."

4. The names and addresses of the aforesaid customers were obtained by SSU from SSU's Information Services Customer Address Files. A copy of the list of SSU customer names and addresses used to print the mailing labels for customers in the aforesaid counties is attached hereto and marked "Exhibit B." "Exhibit C" attached hereto, is the presorting report printed from SSU's Information Services Customer Address Files to prepare the mailing.

5. On January 8, 1996, my staff and I machine postmarked the labeled envelopes containing copies of Exhibit A and hand delivered the envelopes to a representative of the United States Postal Service for delivery.

6. Attached hereto and marked "Exhibit D" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit D contains information pertinent to the aforementioned mailing, to wit: on January 8, 1996, SSU mailed 12,736 total batch items, which included mail fitting the description of "Customer Hearing Letters - Lee and Charlotte Counties (Ft. Myers)," and on January 8, 1996, SSU mailed 151 total batch items, which included mail fitting the description of "Customer Hearing Letters - Lee and Charlotte - Canada & Foreign." I personally made these entries into the logbook, and the recordations therein coincide with my personal observations

7. The total batch count on the logbook included 12,256 pieces of mail as listed in Exhibit C mailed to those persons listed in Exhibit B. If applicable, any logbook totals which are

less than Exhibit B & C totals reflect automation malfunctions in copying and sorting. In such cases, envelopes were reprocessed by hand and metered separately for mailing the same day.

Steven M. Gallis

STEVEN M. GALLIS

The foregoing instrument was acknowledged before me this 30th day of January, 1996, by STEVEN M. GALLIS, who is personally known to me and who did take an oath.

copy for staff

Exhibit 54

Madam Chairman, members of the Public Service Commission, my name is Fred Schlosstein. I live at 1411 Irondale St., Lehigh Acres, Florida.

On November 28th at the prior hearing on this matter I appeared and testified as the vice-chairman of the Concerned Citizens of Lehigh Acres. This morning I appear as the Vice-President and Treasurer of the East County Water Control District, a public body, as an Intervenor by a unanimous vote of the Board of Supervisors. Inasmuch as my previous testimony is in the record it will not be repeated. It is sufficient to say that the issues being raised are so unusual and extraordinary that the Commission's rule for not re-examining acquisition costs will permit such a review. My testimony will be limited to further evidence that the $40 million allocation of the purchase price was totally arbitrary and based on appraisals that were incomplete. Fair and equitable utility rates are to be based on all evidence. This Commission was not apprised of all the facts. Had they been brought forward in the beginning of the transfer we would not be here today.

First, I submit copies of your letter to me under date of April 19, 1994 and point specifically to paragraph 3. The sentence reading,"land developments, fill contracts, taxes levied by the East County Water Control District and escrow funds may not be transactions which are regulated by the Commission. Consequently the Commission may not have the authority to use these transactions to lower Lehigh's rates". The use of the words, "may not" indicates some caution on the part of the writer and can be quite misleading when, in fact, it is absolutely imperative for the Commission in meeting its legislative mandate under Chapter 350 to be made aware of all unusual circumstances bearing on its rate setting obligations.

FLORIDA PUBLIC SERVICE COMMISSION
DOCKET NO. 950495 EXHIBIT NO. 54
COMPANY/
WITNESS:
DATE: 4/25/96

The PSC as an arm of the legislative branch of government, while permitting the Governor to make limited appointments to it you must still in justice and equity, be responsive to the people of the State of Florida.

The fourth paragraph of this letter to me states; "In Order NO. PSC 93-0301-FOF-WS, the Commission did not adjust the rate base in determining the utility's final rates." That is exactly the point of contention in this entire matter. It should have done so. Seminole Utilities was sheltering a taxable gain from the 1990 condemnation proceedings against it by the City of Winter Springs. In this matter the City offered $8 million for the facility but finally settled for a price of $12,300,000. The provisions of Section 1033 of the Internal Revenue Code defer the tax on any such gain but require that the basis of the property acquired be reduced by the unrecognized gain. The entire matter is further complicated by the fact that in a second transaction Seminole Utilities is then acquired by another subsidiary corporation of the Topeka Group, Southern States Utilities, within a very short time frame in a second exchange to shelter further taxable gains of SSU.

The basis for rate setting should be based on the fair apportionment of the value of all the assets purchased in the $40 million sale by the RTC at the same discount of 60%. However, the fair value of all those assets should have been increased by those undisclosed assets that the professional appraisers missed completely. To be perfectly clear in this matter Lehigh Corporation, Lehigh Development Corporation, Lehigh Building Corporation, Lehigh's own newspaper publishing corporation, its hotel and golf courses as well as the East County Water Control District, controlled by Lehigh, all were engaged in the same endeavor; the development of Lehigh Acres.

The existence of the ECWCD as a "Cinderella sister corporation" in this sale by the RTC is not simply accidental to the sale.

It is absolutely vital, the "sine qua non". Without drainage there could be no septic tanks. Water lines would have to be dug in water-saturated sand and sewer

lines run to some place where water would drain to some place else. To obtain potable water the aquifer has to be protected and recharged. The utility company in Lehigh Acres did not do that at any time in this development. Its existence is completely dependent on the continued operation of the Water Control District and the public support of its taxpayers. This is absolutely not a normal situation. The ECWCD is a hybrid operation unlike any other and does not fit any mold in the State of Florida. Its financial debt to aid in the development of Lehigh Acres so lots can be sold, homes built and utilities provided must be considered as an asset by the purchaser, a value attached to it, and not ignored as though the same situation exists in any other place in the State. It does not. Its duplicate could not even be created today and the PSC must fully appreciate its unique role.

Secondly I submit further documents to you in support of our claim that the East County Water Control District and the developer acted with a common purpose and goal.

1. Articles from the Ft. Myers News Press dated April 7, 1974. The Halfway Pond reference bears upon the plan to create the Mirror Lakes project and for which the ECWCD paid over $2 million to dredge.

2. The original plot plan for the Mirror Lakes project which failed to become permitted in this original form was approved by the County on June 13, 1973.

3. A copy of the agreement dated Dec. 22, 1971 between the Lehigh Acres Development, Inc. and the East County Water Control District for excess spoil signed in both instances by one Edward Shapiro.

4. Copies of pages 52 and 53 of the 1987 audit report of the Auditor General relative to excess spoil.

5. The copy of a promotional sales map showing the proposed Lehigh Acres Yacht Club Marina at the northern terminus of the ECWCD's canal system.

6. Copies of the stipulation agreement in case No. 85-5843 CA-EOF 20th Judicial Circuit Court, Lehigh Corporation vs. Lee County. wherein Lehigh Corporation appears to speak for both the utility and the drainage district.

7. Copies of the stipulation and settlement agreement in case No. 91.2482 CA, Lehigh Corporation vs. Lee County wherein Lehigh Corporation and the county agree to settle further issues relative to vested rights.

8. Copies of the Ft. Myers News-Press dated July 17, 1992 and September 25, 1994 provide another basis of public information. They confirm common knowledge.

9. A preliminary official statement dated June 3, 1994 providing public information relative to the Series 1994 refunding bonds of the East County Water Control District in the sum $22,970,000 explaining our debt history and why.

10. Copies of the page taken from the 1993 annual report of Minnesota Power & Light emphasizing the connection between the developer, the utility company, and their common goal. It ignores its "Cinderella sister corporation" ECWCD.

11. Copy of a letter dated June 24, 1991 from Mr. Richard Fitzgerald of LRC relative to a March 15, 1991 transfer of stock of Lehigh Utilities, Inc. It also states that it would be transferred again on July lst to Seminole Utility Company. I can't explain a Land Resources Corp. letter on a Resolution Trust letterhead.

12. Copy of a letter to me by the same RTC claiming no knowledge of transactions involving Southern States Utilities but then stating RTC played a part in the negotiated sale of Lehigh to the Topeka Group. Too anxious to unload perhaps a potentially embarrasing holding?

13. Copy of an agreement between the State of Florida, Dept. of H.R.S. and Lehigh Corporation relative to the installation of sewer facilities dated Jan. 20, 1983 and signed by Mr. Edward Shapiro.

14. Copy of a letter dated July 17, 1991 from Lehigh Utilities, Inc. to Mr. Joseph H. Barker of the Florida Department of H.R.S. relative to a change of ownership.

15. Copy of a letter dated August 16, 1991 from H. R. S. in reply.

16. Copy of a letter from Lehigh Utilities, Inc. to Dept. of H.R.S. mentioning cooperation from one Garry Long. Mr. Long had been superintendent of Lehigh

Utilities, Inc. and until Nov. 1989 had also been President of the Board of Supervisors of the East County Water Control District while the plans of reclamation were being formulated by that Board.

17. Copy of the 2/13/86 Special Report in re anticipated construction.

18. Copy of that portion of a plan showing that the oldest, most thickly sections of Lehigh Acres are still without sewers while the sewer plant is constantly expanding into newly developed sections of Lehigh Acres.

We will omit copies of early minutes of the old 3 member Board of Supervisors meeting in the "living room", the so-called name for the special room in the corporate offices of the developer.

Ordinarily a utility company not engaged in land development would service the old established sections before undertaking new expansions. That did not happen here.

In conclusion it would be our hope that the Public Service Commission will use its statutory powers to penetrate the many corporate veils, the so-called arms-length transactions and corporate control to set fair water and sewer rates in Lehigh Acres. If not please send the matter up for review by an administrative law judge.

THANK YOU
