Re: Docket No.
GTE Florida Incorporated's Request for Confidential Treatment
of Annual Demand and Facility Data

Dear Ms. Bayo:

Please find enclosed for filing an original and fifteen copies of GTE Florida Incorporated's Request for Confidential Classification in the above-referenced matter. Service has been made as indicated on the Certificate of Service.

If you have any questions, please contact the undersigned at 813-228-3094.

Very truly yours,

Kimberly Caswell

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: GTE Florida Incorporated's Request)
for Confidential Treatment of Annual)
Demand and Facility Data)
_____)

Docket No.
Filed: March 1, 1996

**GTE FLORIDA INCORPORATED'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION**

Under Commission Rule 25-22.006, GTE Florida Incorporated (GTEFL) seeks confidential classification and a protective order for its central office demand and facility data report, which the Commission requires to be filed annually as part of its Schedule 21, pursuant to Rule 25-4.0185. While a ruling on this Request is pending, GTEFL understands that the information at issue is exempt from Florida Statutes section 119.07(1) and Staff will accord it the stringent protection from disclosure required by Rule 25-22.006(3)(d).

Highlighted, unredacted copies of the confidential material are attached to only the original of this Request as Exhibit A. Redacted copies of these items are attached to this Request as Exhibit B.

All of the information for which GTEFL seeks confidential treatment falls within Florida Statutes section 364.183(3)(e), which defines the term, "proprietary confidential business information," to include "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information."

The confidential information covered in this filing includes GTEFL's access line counts for each of its central offices. These data are expressed in terms of in-place quantity, which represents the installed lines or total switch capacity; assignable quantity,

DOCUMENT NUMBER - DATE

02550 MAR -1 96

FPSC-RECORDS/REPORTING

which is the number of lines available for end-user assignment (as opposed to GTEFL administrative use); in-use quantity, or the actual end-user customer lines in service; and forecast quantity, the number of end-user lines in service forecast for the given years.

These detailed demand and facility data will be very valuable in the competitive local exchange market sanctioned by last year's major revisions to Chapter 364. With this information, alternative local exchange carriers (ALECs)—a number of which have already been certified—can discern the current line capacity of each of GTEFL's central offices, along with existing and forecasted use for that location. They will know GTEFL's level of presence in the specified areas. Moreover, because this information is provided annually, its ongoing public disclosure would allow GTEFL's competitors to determine growth trends in GTEFL's specific exchange areas. With this knowledge, competitors can tailor their marketing, entry, and expansion plans accordingly, avoiding much of the trial and error that is the hallmark of an openly competitive marketplace.

In a competitive business, any knowledge obtained about a competitor can be used to the detriment of the entity to which it pertains, often in ways that cannot be fully anticipated. This unfair advantage skews the operation of the market, to the ultimate detriment of the telecommunications consumer.

The following line-by-line justification specifically describes the confidential data at issue in this Request.

Central Office Exchange Demand and Facility Annual Data

<u>Page</u>	<u>Column</u>	<u>Line</u>	<u>Reason</u>
1-209	B	1-3	In-place quantity of lines by central office
1-209	D	1-3	Assignable line quantity by central office
1-209	E	1	In-use quantity of lines
1-209	F	1-3	Forecast quantity of end-user lines in service

Respectfully submitted on March 1, 1996

By:

Anthony P. Gillman
