**CERTIFICATE OF SERVICE**

I HEREBY CERTIFY that the original and seven copies of the Notice of Filing Affidavits have been furnished by U.S. Mail this 21st day of November, 1996 to Blanca Bayo, Director, Division of Records and Reporting, Florida Public Service Commission, 2450 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, and a copy of the foregoing has been furnished to Rosanne G. Capeless, Attorney for the Staff of the Florida Public Service Commission, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, and to Harold McLean, Esquire, Office of Public Counsel, c/o The Florida Legislature, 111 W. Madison Street, Room 812, Tallahassee, Florida 32399-1400, by U.S. Mail, this 21st day of November, 1996.

  
Attorney

2. 21

STATE OF FLORIDA )  
COUNTY OF DUVAL ) SS

BEFORE ME, the undersigned authority, this day personally appeared MUNIPALLI SAMBAMURTHI, who, after being by me first duly sworn, deposes, and says that:

1. My name is Munipalli Sambamurthi, and I am the Vice President of United Water Florida Inc.
2. I am over the age of eighteen, of sound mind, capable of making this Affidavit, and I am fully competent to testify to the matters stated herein.
3. As Vice President of United Water Florida Inc., I have actual knowledge of the facts and representations set forth in this Affidavit.
4. Upon the filing of the Application by United Water Florida Inc. for Adjustment of Rates ("Application") in Docket No. 960451-WS, I caused copies of the Application together with a statement that, upon request, a copy of the Minimum Filing Requirements ("MFRs"), when accepted by the Florida Public Service Commission ("Commission"), could be obtained from United Water Florida Inc. to be mailed to the chief executive officer of each municipality and county within the service areas included in the Application ("Municipal and County Officers"). Copies of the enclosure letters and the list of Municipal and County Officers provided by the Commission are attached hereto as Schedules 1 and 2, respectively.
5. That on October 3, 1996, I caused copies of the Synopsis of Application by United Water Florida Inc. For Adjustment of Rates ("Synopsis") to be mailed to the Municipal and County Officers and to be placed at all locations where the Application and MFRs were placed. A copy of the Synopsis is attached as Schedule 3.
6. That on October 3, 1996, I caused copies of the Application, MFRs, and Synopsis to be made available for public

access at three public libraries, one in each of the three counties in United Water Florida Inc.'s service area. Copies of the enclosure letters are attached as Schedule 4.

FURTHER AFFIANT SAYETH NOT.

4. The Commission may modify the proposed rates so as to increase or decrease the proportionate amounts allocated to the base facility charge (the fixed minimum monthly amount regardless of usage) and the gallonage charge (which will vary with actual usage). The Commission may also modify the rates so as to allocate revenue

among the various meter sizes in a different manner than that proposed by United Water Florida.

5. United Water Florida has requested approval of a late payment charge of \$3.00. The use of a late charge would create an incentive for customers to pay on time and cause those customers who do not pay on time to incur the additional costs of collecting their payments.

6. United Water Florida's position is that its water and wastewater facilities are one hundred percent (100%) used and useful. In the event that the Commission determines that any of United Water Florida's facilities are not one hundred percent (100%) used and useful, United Water Florida has requested that it be allowed to charge and collect an Allowance for Funds Prudently Invested ("AFPI") in an amount sufficient to cover all water and wastewater plant amounts.

7. United Water Florida has not requested a change in its service availability charges as a part of its rate request. However, the Commission will be reviewing United Water Florida's service availability charges in the pending rate case and the Commission may adjust United Water Florida's service availability charges. Service availability charges and AFPI charges are designed to pay for the growth of the utility system and are paid by new, and not existing customers.

8. United Water Florida has requested that the Commission grant it interim rate relief. Specifically, United Water Florida has requested that it be allowed to increase its present water and wastewater service rates to the proposed interim rates set forth above until the Commission issues its final order concerning United Water Florida's Application

and any permanent rate increase approved by the Commission becomes effective. The Commission has not ruled on this request for interim relief.

9. United Water Florida is a water and wastewater utility company regulated by the Commission. United Water Florida is seeking an increase in its water and wastewater rates because its present rates do not provide sufficient revenues to permit it an opportunity to earn a fair return on its investment in facilities used and useful in furnishing water and wastewater service to the public.

10. A statement of the anticipated major issues involved in this rate case are as follows:

- a. In the event that the Commission approves the proposed rates, whether the increase in rates should occur in stages, or whether the entire increase should be immediately implemented.
- b. United Water Florida is not aware of any other major issues at the time of preparing this Synopsis, because issues are generally raised by parties questioning or opposing an application for adjustment of rates, and no such parties exist at this time. However, United Water Florida anticipates that its investment in water and wastewater facilities added since its last rate case will be closely examined by the Commission in this proceeding. In addition, the Commission is expected to review and determine United Water Florida's quality of service, rate base, cost of capital, net operating income, revenue requirements, and, ultimately, the rates and charges for service.

11. A description of the ratemaking process and the time schedule established for the rate case are as follows:

The Commission requires that certain information be filed in applications for adjustment of rates. The requirements are referred to as Minimum Filing Requirements ("MFRs"). United Water Florida has filed its application and satisfied the MFRs for the base

year ended December 31, 1995, and the projected test year ended December 31, 1997. United Water Florida's Application and its schedules propose an increase in its utility operating income to \$2,971,278 for its water facilities and \$5,941,692 for its wastewater facilities, both of which would provide for a return of 9.89% on the rate bases of the water facilities of \$30,043,254 and the wastewater facilities of \$60,077,777.

United Water Florida submitted its MFRs on July 30, 1996, and deficiencies were corrected as of September 3, 1996. When the MFRs were filed with and accepted by the Commission, the official date of filing was established, and a statutory time clock began. The official date of filing for this case is September 3, 1996. The Commission has 60 days from that date during which it may officially suspend, deny, or approve the requested rates. Generally, the requested rates are suspended because further investigation is needed. During the first 60 days following a petition for interim rates, the statute requires the Commission to determine whether to authorize an interim rate increase, subject to refund, to go into effect while the case is pending, if the MFRs indicate the utility company is earning less than the last authorized rate of return on investment. United Water Florida's proposed interim rates are set forth in paragraphs nos. 2 and 3 of this Synopsis.

The Commission has a professional staff that specializes in reviewing and analyzing the data submitted by a utility company in support of its rate request. An audit of United Water Florida's accounting records will be made, with the company's financial operations carefully reviewed. Engineering personnel will make a detailed study of the utility company's physical facilities including on-site investigations. The staff engineer will also review the utility company's compliance with local, state, and federal environmental agencies' rules.

The issues in this case will be determined through a formal hearing process. The Commission has issued a schedule setting tentative dates for various matters related to the rate setting process, including the filing of testimony by any intervenors, the Staff of the Commission, and United Water Florida. This time schedule proposes that a prehearing conference be held on January 6, 1997, in Tallahassee and that a formal hearing be held on January 27 - 31, 1997, in Jacksonville, Florida. At the formal hearing, United Water Florida will present its case for an increase in its rates. At the formal hearing, the Commission will accept testimony from the customers concerning the quality of water and wastewater utility service provided by United Water Florida and its request for a rate increase. The Commission will ultimately decide the disposition of United Water Florida's request for a permanent rate increase based on the facts presented at the hearing. Any party substantially affected by the Commission's final order will have an opportunity to request a reconsideration or file an appeal, or both.

A list of the current proposed time schedule is as follows:

Re: Application by United Water Florida Inc.  
("United Water Florida") for Adjustment of  
Rates, Docket No. 960451-WS ("Application")

Dear Ms. Hirschi:

As we have discussed, the Florida Public Service Commission ("Commission") requires that certain documents be made available for public inspection in connection with applications for rate adjustments. Accordingly, enclosed please find one copy of the following:

- a. Application by United Water Florida Inc. for Adjustment of Rates
- b. Synopsis by United Water Florida Inc. for Adjustment of Rates
- c. Minimum Filing Requirements ("MFRs"). Please note that the MFRs consist of a five (5) volume set of 3-ring binders together with a notebook entitled Response to Deficiency Letter.

Please make the above-mentioned materials available for public inspection as reference material at your library.

A notice to the customers of United Water Florida is in the process of being prepared and will include a reference to the locations of such materials and the time for inspection. The reference to your library is as follows, including hours available for inspection:

NOTICE OF APPLICATION BY UNITED WATER FLORIDA INC.

FOR ADJUSTMENT OF RATES

FLORIDA PUBLIC SERVICE COMMISSION DOCKET NO. 960451-WS

Date Issued: October 23, 1996

1. Notice is hereby given pursuant to Rule 25-22.0407, Florida Administrative Code ("FAC"), that United Water Florida Inc. ("United Water Florida") has applied to the Florida Public Service Commission (the "Commission") for an increase in its water and wastewater rates in Duval, Nassau, and St. Johns Counties, Florida.

2. United Water Florida is a water and wastewater utility company regulated by the Commission. United Water Florida is seeking an increase in its water and wastewater rates because its present rates do not provide sufficient revenues to permit it an opportunity to earn a fair return on its investment in facilities used and useful in furnishing water and wastewater service to the public.

3. Following are the present, proposed interim, and proposed final water service rates. Any interim rate increase granted would be subject to refund, with interest, pending the final determination of the case.

5. The Commission may modify the proposed rates so as to increase or decrease the proportionate rate amounts allocated to the base facility charge (the fixed minimum monthly amount regardless of usage) and the gallonage charge (which will vary with actual usage). The Commission may also modify the rates so as to allocate revenue among the various meter sizes in a different manner than that proposed by United Water Florida.

6. United Water Florida has requested approval of a late payment charge of \$3.00. The use of a late charge would create an incentive for customers to pay on time and cause those customers who do not pay on time to incur the additional costs of collecting their payments.

7. United Water Florida's position is that its water and wastewater facilities are one hundred percent (100%) used and useful. In the event that the Commission determines that any of United Water Florida's facilities are not one hundred percent (100%) used and useful, United Water Florida has requested that it be allowed to charge and collect an Allowance for Funds Prudently Invested ("AFPI") in an amount sufficient to cover all water and wastewater plant amounts.

8. United Water Florida has not requested a change in its service availability charges as a part of its rate request. However, the Commission will be reviewing United Water Florida's service availability charges in the pending rate case and the Commission may adjust United Water Florida's service availability charges. Service availability charges and AFPI charges are designed to pay for the growth of the utility system and are paid by new, and not existing customers.

9. The following dates have been established to govern the key activities of this case.
