BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Approval of Interconnection,)
Resale and Unbundling Agreement between)
GTE Florida Incorporated and Business)
Telecom, Inc.)
_____)

Docket No.
Filed: February 20, 1998

**PETITION OF GTE FLORIDA INCORPORATED FOR APPROVAL OF
INTERCONNECTION, RESALE AND UNBUNDLING AGREEMENT WITH
BUSINESS TELECOM, INC.**

GTE Florida Incorporated (GTEFL) files this petition before the Florida Public Service Commission seeking approval of an interconnection, resale and unbundling agreement which GTEFL has entered with Business Telecom, Inc. (BTI), attached hereto as Attachment A.

The United States Congress recently passed legislation amending the Communications Act of 1934. This act, referred to as the Telecommunications Act of 1996, requires that any "interconnection agreement adopted by negotiation or arbitration shall be submitted for approval to the State commission." *Telecommunications Act of 1996, §252(e)*. Under the federal act, interconnection/resale agreements can be rejected by the state commission only if the commission finds that the agreement (or any portion thereof) discriminates against a telecommunications carrier not a party to the agreement or if the implementation of that agreement is not consistent with the public interest, convenience and necessity.

DOCUMENT NUMBER-DATE

02453 FEB 20 98

FPSC-RECORDS/REPORTING

WHEREFORE, GTEFL respectfully requests that the Commission approve the attached agreement entered with BTI and that GTEFL be granted all other relief proper under the circumstances.

Respectfully submitted on February 20, 1998.

	GTE/Arbitrated AT&T AGREEMENT TERMS	44B-1

This Interconnection, Resale and Unbundling Agreement (the "Agreement"), is made effective as of _____, 1997, by and between GTE Florida Incorporated, with its address for purposes of this Agreement at 201 N. Franklin Street, Tampa, FL 33602 ("GTE"), and Business Telecom, Inc. ("BTI"), a corporation organized under the laws of North Carolina, in its capacity as a certified provider of local dial-tone service in Florida, with its principal place of business at 4300 Six Forks Road, Raleigh, NC 27609. (GTE and BTI being referred to collectively as the "Parties" and individually as a "Party"). This Agreement covers services in the state of Florida (the "State")

WHEREAS, interconnection between competing Local Exchange Carriers ("LECs") is necessary and desirable for the mutual exchange and termination of traffic originating on each LEC's network; and

WHEREAS, the Parties desire to exchange such traffic and related signaling in a technically and economically efficient manner at defined and mutually agreed upon points of interconnection; and

WHEREAS, the Parties wish to enter into an agreement to interconnect their respective telecommunications networks on terms that are fair and equitable to both Parties; and

WHEREAS, Sections 251 and 252 of the Telecommunications Act of 1996 (the "Act") impose specific obligations on LECs and CLECs with respect to the interconnection of their networks, resale of their telecommunications services, access to their poles, ducts, conduits and rights-of-way and, in certain cases, the offering of certain unbundled network elements and physical collocation of equipment in LEC premises;

WHEREAS, GTE is entering, under protest into certain aspects of this Agreement, as addressed in Article III, Section 44 and Appendices 44A and 44B, that incorporate adverse results from the arbitrated agreements approved by the Commission in this state and is doing so in order to avoid the expense of arbitration while at the same time preserving its legal positions, rights and remedies,

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, GTE and BTI hereby covenant and agree as follows:

ARTICLE I SCOPE AND INTENT OF AGREEMENT

Pursuant to this Agreement, the Parties will extend certain arrangements to one another within each area in which they both operate within the State for purposes of interconnection and the exchange of traffic between their respective end user customers, and reciprocal access to their poles, ducts, conduits and rights-of-way. This Agreement also governs the purchase by BTI of certain telecommunications services provided by GTE in its franchise areas for resale by BTI, the purchase by BTI of certain unbundled network elements from GTE, and the terms and conditions of the collocation of certain equipment of BTI in the premises of GTE. This Agreement is an integrated package that reflects a balancing of interests critical to the Parties. This Agreement will be submitted to the Florida Public Service Commission (the "Commission"), and the Parties

will specifically request that the Commission refrain from taking any action to modify, supplement, suspend or otherwise delay implementation of this Agreement. Except as provided herein, for the term of this Agreement, the Parties shall not advocate before any legislative, regulatory, judicial or other public forum that any terms of this Agreement between the Parties be modified, supplemented, suspended or eliminated. Notwithstanding this mutual commitment, the Parties agree that their entrance into this Agreement is without prejudice to any positions they may have taken previously, or may take in the future, in any legislative, regulatory, judicial or other public forum, including future arbitrations between the parties pursuant to negotiations for subsequent interconnection agreements, addressing any matters, including matters related to the same types of arrangements covered in this Agreement. GTE's execution of this Agreement is not a concession or waiver in any manner concerning its position that certain of the rates, terms and conditions contained herein are unlawful, illegal and improper. BTI's execution of this Agreement is not a concession or waiver in any manner concerning its position that certain of the rates, terms and conditions contained herein are unlawful, illegal and improper.

ARTICLE II DEFINITIONS

- 1 **General Definitions.** Except as otherwise specified herein, the following definitions shall apply to all Articles contained in this Agreement. Additional definitions that are specific to the matters covered in a particular Article may appear in that Article.
- 1.1 **"Access Service Request" (ASR)** means an industry standard form used by the Parties to add, establish, change or disconnect services or trunks for the purposes of Interconnection.
- 1.2 **"Act"** means the Telecommunications Act of 1996, Public Law 104-104 of the 104th United States Congress effective February 8, 1996.
- 1.3 An **"Affiliate"** of a Party means a person, corporation or other legal entity that, directly or indirectly, owns or controls a Party, or is owned or controlled by, or is under common ownership or control with a Party. For purposes of this definition, the term "own" means to have a majority ownership interest in, or have voting control of a majority of the ownership interests in, such corporation or other legal entity.
- 1.4 **"AMA"** means the Automated Message Accounting structure inherent in switch technology that initially records telecommunication message information. AMA format is contained in the Automated Message Accounting document, published by Bellcore as GR-1100-CORE which defines the industry standard for message recording.
- 1.5 **"Applicable Law"** shall mean all laws, statutes, common law, regulations, ordinances, codes, rules, guidelines, orders, permits, and approvals of any Governmental Authority, which apply or relate to the subject matter of this Agreement.
- 1.6 **"Automatic Location Identification/Data Management System (ALI/DMS)"** means the emergency services (E911/911) database containing customer location information (including name, address, telephone number, and sometimes special information from the local service provider) used to process subscriber access records into Automatic Location Identification (ALI) records. From this database, records are forwarded to GTE's ALI Gateway for downloading by local ALI database systems to be available for retrieval in response to ANI from a 9-1-1 call. Also, from this database, GTE will upload to its selective routers the selective router ALI (SR/ALI) which is used to determine to which Public Safety Answering Point ("PSAP") to route the call.
- 1.7 **"Automatic Number Identification" or "ANI"** refers to the number transmitted through the network identifying the calling party.
- 1.8 **"Bellcore"** means Bell Communications Research, Inc., or its successors or assigns.

- 1.9 **"Bill-and-Keep Arrangement"** means a compensation arrangement whereby the Parties do not render bills to each other for the termination of local traffic specified in this Agreement and whereby the Parties terminate local exchange traffic originating from end-users served by the networks of the other Party without explicit charging among or between said carriers for such traffic exchange.
- 1.10 **"Bona Fide Request (BFR)"** process is intended to be used when requesting customized Service Orders for certain services, features, capabilities or functionality defined and agreed upon by the Parties as services to be ordered as Bona Fide Requests.
- 1.11 **"Business Day"** shall mean Monday through Friday, except for holidays on which the U.S. mail is not delivered.
- 1.12 **"Central Office Switch"** means a switch used to provide telecommunications services including (i) **"End Office Switches"** which are Class 5 switches from which end user Exchange Services are directly connected and offered, and (ii) **"Tandem Office Switches"** which are Class 4 switches which are used to connect and switch trunk circuits between and among central office switches. Central office switches may be employed as combination end office/tandem office switches (combination Class 5/Class 4).
- 1.13 **"Centralized Message Distribution System"** (CMDS) means the billing record and clearing house transport system that the Regional Bell Operating Companies ("RBOCs") and other incumbent LECs use to efficiently exchange out collects and in collects as well as Carrier Access Billing System ("CABS") records.
- 1.14 **"CLLI Codes"** means Common Language Location Identifier Codes.
- 1.15 **"Common Channel Signaling"** or **"CCS"** means a high-speed specialized packet-switched communications network that is separate (out-of-band) from the public packet-switched and message networks. CCS carries addressed signaling messages for individual trunk circuits and/or database-related services between Signaling Points in the CCS network using SS7 signaling protocol.
- 1.16 **"Competitive Local Exchange Carrier"** (CLEC) means any company or person authorized to provide local exchange services in competition with an ILEC.
- 1.17 **"Compliance"** means environmental and safety laws and regulations are based upon a federal regulatory framework, with certain responsibilities delegated to the States. An environmental/safety compliance program may include review of applicable laws/regulations, development of written procedures, training of employees and auditing
- 1.18 **"Customer"** may mean GTE or BTI depending on the context and which Party is receiving the service from the other Party.

- 1.19 "Customer Usage Data" means that the local telecommunications services usage data of a BTI customer, measured in minutes, sub-minute increments, message units, or otherwise, that is recorded and exchanged by the Parties
- 1.20 "DS-1" is a digital signal rate of 1.544 Mbps.
- 1.21 "DS-3" is a digital signal rate of 44.736 Mbps.
- 1.22 "Electronic File Transfer" refers to a system or process which utilizes an electronic format and protocol to send/receive data files.
- 1.23 "Exchange Message Record" or "EMR" means the standard used for exchange of telecommunications message information among LECs for billable, unbilled, sample, settlement and study data. EMR format is contained in BR-010-200-010 CRIS Exchange Message Record, a Bellcore document that defines industry standards for exchange message records.
- 1.24 "Exchange Service" refers to all basic access line services, or any other services offered to end users which provide end users with a telephonic connection to, and a unique telephone number address on, the public switched telecommunications network ("PSTN"), and which enable such end users to place or receive calls to all other stations on the PSTN.
- 1.25 "E-911 Service" is a method of routing 911 calls to a Public Service Answering Point that uses a customer location database to determine the location to which a call should be routed. E-9-1-1 service includes the forwarding of the caller's Automatic Number Identification (ANI) to the PSAP where the ANI is used to retrieve and display the Automatic Location Identification (ALI) on a terminal screen at the answering Attendant's position. It usually includes selective routing.
- 1.26 "EIS" or "Expanded Interconnection Service" means a service that provides interconnecting carriers with the capability to terminate basic fiber optic transmission facilities, including optical terminating equipment and multiplexers, at GTE's wire centers and access tandems and interconnect those facilities with the facilities of GTE. Microwave is available on a case-by-case basis where feasible.
- 1.27 "FCC" means the Federal Communications Commission.
- 1.28 "Facility" means all buildings, equipment, structures and other items located on a single site or contiguous or adjacent sites owned or operated by the same persons or person.
- 1.29 "Generator" means under Resource Conservation Recovery Act (RCRA), the person whose act produces a hazardous waste (40 CFR 261) or whose act first causes a hazardous waste to become subject to regulation. The generator is legally responsible for the proper management and disposal of hazardous wastes in accordance with regulations.

- 1.30 "Guide" means the GTE Customer Guide for CLEC Establishment of Services - Resale and Unbundling, which contains GTE's operating procedures for ordering, provisioning, trouble reporting and repair for resold services and unbundled elements. A copy of the Guide has been provided to BTI.
- 1.31 "Hazard Communications" (hazcom) means under 29 CFR 1910.1200, employers must develop, implement and maintain a written hazard communication program which must include a system for labels, Material Safety Data Sheets (MSDS) and employee information and training for employees working with hazardous chemicals.
- 1.32 Hazardous chemical means as defined in the U.S. Occupational Safety and Health (OSHA) hazard communication standard (29 CFR 1910.1200), any chemical which is a health hazard or physical hazard.
- 1.33 Hazardous waste means as described in RCRA, a solid waste(s) which may cause, or significantly contribute to an increase in mortality or illness or pose a substantial hazard to human health or the environment when improperly treated, stored, transported or disposed of or otherwise managed because of its quantity, concentration or physical or chemical characteristics.
- 1.34 Imminent danger means as described in the Occupational Safety and Health Act and expanded for environmental matters, any conditions or practices at a facility which are such that a danger exists which could reasonably be expected to cause death or serious harm or significant damage to the environment or natural resources.
- 1.35 "Incumbent Local Exchange Carrier" (ILEC) means any local exchange carrier that was as of February 8, 1996, deemed to be a member of the Exchange Carrier Association as set forth in 47 C.F.R. §69.601(b) of the FCC's regulations.
- 1.36 "Interim Number Portability (INP)" means the delivery of LNP capabilities, from a customer standpoint in terms of call completion, with as little impairment of functioning, quality, reliability, and convenience as possible and from a carrier standpoint in terms of compensation, through the use of existing and available call routing, forwarding, and addressing capabilities.
- 1.37 "Interconnection" means the physical connection of separate pieces of equipment, transmission facilities, etc., within, between and among networks, for the transmission and routing of Exchange Service and Exchange Access. The architecture of interconnection may include collocation and/or mid-span meet arrangements.
- 1.38 "Interconnection Point" ("IP") means the physical point on the network where the two parties interconnect. The "IP" is the demarcation point between ownership of the transmission facility.

- 1.39 "IXC" or "Interexchange Carrier" means a telecommunications service provider authorized by the FCC to provide interstate long distance communications services between LATAs and authorized by the State to provide long distance communications services.
- 1.40 "ISDN" or "Integrated Services Digital Network" means a switched network service providing end-to-end digital connectivity for the simultaneous transmission of voice and data.
- 1.41 "ISUP" means a part of the SS7 protocol that defines call setup messages and call takedown messages.
- 1.42 "LATA" means Local Access and Transport Area. A LATA denotes a geographic area for the provision and administration of communications service; *i.e.*, intraLATA or interLATA.
- 1.43 "Line Information Data Base (LIDB)" means one or all, as the context may require, of the Line Information databases owned individually by GTE and other entities which provide, among other things, calling card validation functionality for telephone line number cards issued by GTE and other entities. A LIDB also contains validation data for collect and third number-billed calls; *i.e.*, Billed Number Screening.
- 1.44 "Line Side" refers to an end office switch connection that has been programmed to treat the circuit as a local line connected to an ordinary telephone station set. Line side connections offer only those transmission and signaling features appropriate for a connection between an end office and an ordinary telephone set.
- 1.45 "Local Exchange Carrier" or "LEC" means any company certified by the Commission to provide local exchange telecommunications service. This includes the Parties to this Agreement.
- 1.46 "Local Exchange Routing Guide" or "LERG" means the Bellcore reference customarily used to identify NPA-NXX routing and homing information.
- 1.47 "Local Number Portability (LNP)" means the ability of users of telecommunications services to retain, at the same location, existing telecommunications numbers without impairment of quality, reliability, or convenience when switching from one telecommunications carrier to another.
- 1.48 "Local Traffic" means traffic that is originated by an end user of one Party and terminates to the end user of the other Party within GTE's then current local serving area, including mandatory local calling scope arrangements. A mandatory local calling scope arrangement is an arrangement that provides end users a local calling scope beyond their basic exchange serving area. Local Traffic does not include rate packages that permit the end

user to choose a local calling scope beyond their basic exchange serving area for an additional fee.

- 1.49 "MDF" or "Main Distribution Frame" means the distribution frame used to interconnect cable pairs and line trunk equipment terminating on a switching system.
- 1.50 "Meet-Point Billing" or "MPB" refers to an arrangement whereby two LECs jointly provide the transport element of a switched access service to one of the LEC's end office switches, with each LEC receiving an appropriate share of the transport element revenues as defined by their effective access tariffs.
- 1.51 "MECAB" refers to the *Multiple Exchange Carrier Access Billing* ("MECAB") document prepared by the Billing Committee of the Ordering and Billing Forum ("OBF"), which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECAB document, published by Bellcore as Special Report SR-BDS-000983, contains the recommended guidelines for the billing of an access service provided by two or more LECs, or by one LEC in two or more states within a single LATA.
- 1.52 "MECOD" refers to the *Multiple Exchange Carriers Ordering and Design* ("MECOD") *Guidelines for Access Services - Industry Support Interface*, a document developed by the Ordering/Provisioning Committee under the auspices of the Ordering and Billing Forum ("OBF"), which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECOD document, published by Bellcore as Special Report SR-STS-002643, establish methods for processing orders for access service which is to be provided by two or more LECs.
- 1.53 "Mid-Span Fiber Meet" means an Interconnection architecture whereby two carriers' fiber transmission facilities meet at a mutually agreed-upon IP.
- 1.54 "NANP" means the "North American Numbering Plan," the system of telephone numbering employed in the United States and other countries comprising World Numbering Zone 1.
- 1.55 "Network Element" means a facility or equipment used in the provision of a telecommunications service. Network Element includes features, functions, and capabilities that are provided by means of such facility or equipment, including subscriber numbers, databases, signaling systems, and information sufficient for billing and collection or used in the transmission, routing, or other provision of a telecommunications service.
- 1.56 "NID" or "Network Interface Device" means the point of demarcation between the end user's inside wiring and GTE's facilities.
- 1.57 "Numbering Plan Area" or "NPA" is also sometimes referred to as an area code. This is the three digit indicator which is defined by the "A", "B", and "C" digits of each 10-digit

telephone number within the NANP. Each NPA contains 800 possible NXX Codes. There are two general categories of NPA, "Geographic NPAs" and "Non-Geographic NPAs". A Geographic NPA is associated with a defined geographic area, and all telephone numbers bearing such NPA are associated with services provided within that geographic area. A Non-Geographic NPA, also known as a "Service Access Code" or "SAC Code" is typically associated with a specialized telecommunications service which may be provided across multiple geographic NPA areas. 800, 900, 700, and 888 are examples of Non-Geographic NPAs.

- 1.58 "NXX", "NXX Code", "Central Office Code" or "CO Code" is the three digit switch entity indicator which is defined by the "D", "E", and "F" digits of a 10-digit telephone number within the NANP. Each NXX Code contains 10,000 station numbers. Historically, entire NXX code blocks have been assigned to specific individual local exchange end office switches.
- 1.59 "911 Service" means a universal telephone number which gives the public direct access to the PSAP. Basic 911 service collects 911 calls from one or more local exchange switches that serve a geographic area. The calls are then sent to the correct authority designated to receive such calls.
- 1.60 Owner and operator means as used in OSHA regulations, owner is the legal entity, including a lessee, which exercises control over management and record keeping functions relating to a building or facility. As used in the Resource Conservation and Recovery Act (RCRA), operator means the person responsible for the overall (or part of the) operations of a facility.
- 1.61 "POI" means Point of Interconnection designated for routing of local interconnection trunks.
- 1.62 "Pole Attachment" has the meaning as set forth in Appendix I of this Agreement.
- 1.63 "Provider" means GTE and "Customer" means BTI with respect to those services performed by GTE pursuant to Article IV and any services for resale or unbundled network elements provided by GTE pursuant to Articles V and VI. BTI shall be referred to as Provider and GTE shall be referred to as Customer with respect to those services performed by BTI pursuant to Article IV.
- 1.64 "PSAP" or Public Safety Answering Points means an answering location for 9-1-1 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first, Secondary PSAPs receive calls on a transfer basis only, and generally serve as a centralized answering location for a particular type of emergency call. PSAPs are staffed by employees of Emergency Response Agencies ("ERAs") such as police, fire or emergency medical agencies or by employees of a common bureau serving a group of such entities.

- 1.65 "Rate Center" means the specific geographic point and corresponding geographic area that are associated with one or more particular NPA-NXX Codes that have been assigned to a LEC for its provision of Exchange Services. The geographic point is identified by a specific V&H coordinate that is used to calculate distance-sensitive end user traffic to/from the particular NPA-NXXs associated with the specific Rate Center.
- 1.66 "Right-of-way" or "ROW" means the right to use the land or other property of another party to place poles, conduits, cables, other structures and equipment, or to provide passage to access such structures and equipment. A ROW may run under, on, or above public or private property (including air space above public or private property) and may include the right to use discrete space in buildings, building complexes, or other locations.
- 1.67 "Routing Point" denotes a location that a LEC has designated on its network as the homing (routing) point for traffic that terminates to Exchange Services provided by the LEC that bear a certain NPA-NXX designation. The Routing Point is used to calculate airline mileage for the distance-sensitive transport element charges of Switched Access Services. Pursuant to Bellcore Practice BR795-100-100, the Routing Point may be an end office location, or a "LEC Consortium Point of Interconnection." The Routing Point must be in the same LATA as the associated NPA-NXX.
- 1.68 "Service Control Point" or "SCP" is the node in the signaling network to which informational requests for service handling, such as routing, are directed and processed. The SCP is a real time database system that, based on a query from the SSP, performs subscriber or application-specific service logic, and then sends instructions back to the SSP on how to continue call processing.
- 1.69 "Service Switching Point" or "SSP" means a Signaling Point that can launch queries to databases and receive/interpret responses used to provide specific customer services.
- 1.70 "Signaling Point" or "SP" means a node in the CCS network that originates and/or receives signaling messages, or transfers signaling messages from one signaling link to another, or both.
- 1.71 "Signaling System 7" or "SS7" means the signaling protocol, Version 7, of the CCS network, based upon American National Standards Institute ("ANSI") standards.
- 1.72 "Signal Transfer Point" or "STP" means a packet switch in the CCS network that is used to route signaling messages among SSPs, SPs, SCPs and other STPs in order to set up calls and to query databases for advanced services. GTE's network includes mated pairs of local and regional STPs. STPs are provided in pairs for redundancy.
- 1.73 Spill or release means as described under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), it includes, but is not limited to: spilling, leaking, dumping or disposing into the environment of any hazardous chemical, extremely hazardous substance or CERCLA hazardous substance.

- 1.74 "Subsidiary" of a Party means a corporation or other legal entity that is majority owned by such Party.
- 1.75 "Synchronous Optical Network" or "SONET" means synchronous electrical ("STS") or optical channel ("OC") connections between LECs.
- 1.76 "Switched Access Service" means the offering of facilities for the purpose of the origination or termination of traffic to or from Exchange Service customers in a given area pursuant to a switched access tariff. Switched Access Services include: Feature Group A, Feature Group B, Feature Group D, 800 access and 900 access services.
- 1.77 "Telecommunications Services" means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.
- 1.78 Third party contamination means environmental pollution that is not generated by the LEC or CLEC but results from off-site activities impacting a facility.
- 1.79 "Trunk Side" refers to a central office switch connection that is capable of, and has been programmed to treat the circuit as, connecting to another switching entity, for example, to a private branch exchange ("PBX") or another central office switch. Trunk side connections offer those transmission and signaling features appropriate for the connection of switching entities and cannot be used for the direct connection of ordinary telephone station sets.
- 1.80 "Undefined Terms" means the Parties acknowledge that terms may appear in this Agreement which are not defined and agree that any such terms shall be construed in accordance with their customary usage in the telecommunications industry as of the effective date of this Agreement.
- 1.81 "Vertical Features" (including "CLASS Features") means vertical services and switch functionalities provided by GTE, including: Automatic Call Back; Automatic Recall; Call Forwarding Busy Line/Don't Answer; Call Forwarding Don't Answer; Call Forwarding Variable; Call Forwarding - Busy Line; Call Trace; Call Waiting; Call Number Delivery Blocking Per Call; Calling Number Blocking Per Line; Cancel Call Waiting; Distinctive Ringing/Call Waiting; Incoming Call Line Identification Delivery; Selective Call Forward; Selective Call Rejection; Speed Calling; and Three Way Calling/Call Transfer.
- 1.82 "Wire Center" means a building or space within a building that serves as an aggregation point on a LEC's network, where transmission facilities and circuits are connected or switched.

ARTICLE III GENERAL PROVISIONS

1. Scope of General Provisions. Except as may otherwise be set forth in a particular Article or Appendix of this Agreement, in which case the provisions of such Article or Appendix shall control, these General Provisions apply to all Articles and Appendices of this Agreement.
2. Term and Termination.
 - 2.1 Term. This Agreement shall be effective for an initial period of one (1) year and thereafter the Agreement shall continue in force and in effect until the earlier of the following: (i) a new Agreement addressing all of the terms of this Agreement becomes effective between the Parties or (ii) six months after the expiration of the initial period of the Agreement. The Parties agree to commence negotiations on BTI's request, to be conducted pursuant to Section 252 of the Act, on a new Agreement no less than six (6) months before the end of the initial one (1) year period after this Agreement becomes effective.
 - 2.2 Length of Service. GTE agrees to furnish the Services hereunder for a period of up to six (6) months from the date of expiration of the initial period of this Agreement except in cases of termination as a result of either Party's default, or services to new BTI customers; *provided, however*, that if the Commission has delayed its review of the contract and that delay causes an extension beyond the six (6) month period, GTE will continue to provide services until the Commission issues an order.
 - 2.3 Post-Termination Arrangements. Except in the case of termination as a result of either Party's default, for service arrangements made available under this Agreement and existing at the time of termination, those arrangements may continue without interruption under (a) a new arrangement voluntarily executed by the Parties; (b) standard terms and conditions approved and made generally effective by the Commission, if any; (c) tariff terms and conditions made generally available to all CLECs, or (d) any rights under Section 252(i) of the Act.
 - 2.4 Termination Upon Default. Either Party may terminate this Agreement in whole or in part in the event of a default by the other Party; *provided however*, that the non-defaulting Party notifies the defaulting party in writing of the alleged default and that the defaulting Party does not cure the alleged default within sixty (60) calendar days of receipt of written notice thereof. Default is defined to include:
 - (a) A Party's insolvency or the initiation of bankruptcy or receivership proceedings by or against the Party; or
 - (b) A Party's refusal or failure in any material respect properly to perform its obligations under this Agreement, or the violation any of the material terms or conditions of this Agreement.

- 2.5 Liability upon Termination. Termination of this Agreement, or any part hereof, for any cause shall not release either Party from any liability which at the time of termination had already accrued to the other Party or which thereafter accrues in any respect to any act or omission occurring prior to the termination or from an obligation which is expressly stated in this Agreement to survive termination.
3. Amendments. Any amendment, modification, or supplement to this Agreement must be in writing and signed by an authorized representative of each Party. The term "this Agreement" shall include future amendments, modifications, and supplements.
4. Assignment. Any assignment by either Party of any right, obligation, or duty, in whole or in part, or of any interest, without the written consent of the other Party shall be void, except that either Party may assign all of its rights, and delegate its obligations, liabilities and duties under this Agreement, either in whole or in part, to any entity that is, or that was immediately preceding such assignment, a Subsidiary or Affiliate of that Party without consent, but with written notification. The effectiveness of an assignment shall be conditioned upon the assignee's written assumption of the rights, obligations, and duties of the assigning Party.
5. Authority. Each person whose signature appears on this Agreement represents and warrants that he or she has authority to bind the Party on whose behalf he or she has executed this Agreement.
6. Responsibility for Payment. All charges for Services provided under this Agreement will be billed to BTI, including all applicable taxes and surcharges. In addition, the End User Common Line (EUCL) Charge from GTOC Tariff FCC No. 1 is applicable to Resold Services. BTI is responsible for payment of charges billed regardless of any billing arrangements or situation between BTI and its end user customer.
7. Billing and Payment. Except as provided elsewhere in this Agreement and where applicable, in conformance with MECAB and MECOD guidelines, BTI and GTE agree to exchange all information to accurately, reliably, and properly bill for features, functions and services rendered under this Agreement.
- 7.1 Dispute. If one Party disputes a billing statement issued by the other Party, the billed Party shall notify Provider in writing regarding the nature and the basis of the dispute within sixty (60) calendar days of the statement date or the dispute shall be waived. The Parties shall diligently work toward resolution of all billing issues.
- 7.2 Late Payment Charge. If any undisputed amount due on the billing statement is not received by Provider on the payment due date, Provider may charge, and Customer agrees to pay, at Provider's option, interest on the past due balance at a rate equal to the lesser of the interest rates set forth in the applicable GTE/Contel state access tariffs or the GTOC Tariff FCC No. 1, one and one-half percent (1½%) per month or the maximum nonusurious rate of interest under applicable law. Late payment charges shall be included on the next statement.

- 7.3 **Due Date.** Payment is due 30 calendar days from the bill date or 20 calendar days from receipt of bill whichever is later.
- 7.4 **Audits.** Either Party may conduct an audit of the other Party's books and records pertaining to the Services provided under this Agreement, no more frequently than once per twelve (12) month period, to evaluate the other Party's accuracy of billing, data and invoicing in accordance with this Agreement. Any audit shall be performed as follows: (i) following at least thirty (30) Business Days prior written notice to the audited Party; (ii) subject to the reasonable scheduling requirements and limitations of the audited Party; (iii) at the auditing Party's sole cost and expense; (iv) of a reasonable scope and duration; (v) in a manner so as not to interfere with the audited Party's business operations; and (vi) in compliance with the audited Party's security rules.
8. **Binding Effect.** This Agreement shall be binding on and inure to the benefit of the respective successors and permitted assigns of the Parties.
9. **Compliance with Laws and Regulations.** Each Party shall comply with all federal, state, and local statutes, regulations, rules, ordinances, judicial decisions, and administrative rulings applicable to its performance under this Agreement.
10. **Confidential Information.**
- 10.1 **Identification.** Either Party may disclose to the other proprietary or confidential customer, technical, or business information in written, graphic, oral or other tangible or intangible forms ("Confidential Information"). In order for information to be considered Confidential Information under this Agreement, it must be marked "Confidential" or "Proprietary," or bear a marking of similar import. Orally or visually disclosed information shall be deemed Confidential Information only if contemporaneously identified as such and reduced to writing and delivered to the other Party with a statement or marking of confidentiality within thirty (30) calendar days after oral or visual disclosure.
- Notwithstanding the foregoing, all orders for Services or network elements placed by BTI pursuant to this Agreement, and information that would constitute customer proprietary network information of BTI end user customers pursuant to the Act and the rules and regulations of the FCC, as well as recorded usage information with respect to BTI's end user, whether disclosed by BTI to GTE or otherwise acquired by GTE in the course of its performance under this Agreement, and where GTE is the NANP Number Plan Administrator, BTI information submitted to GTE in connection with such responsibilities shall be deemed Confidential Information of BTI for all purposes under this Agreement whether or not specifically marked or designated as confidential or proprietary.
- 10.2 **Handling.** In order to protect such Confidential Information from improper disclosure, each Party agrees:

(a) That all Confidential Information shall be and shall remain the exclusive property of the source;

(b) To limit access to such Confidential Information to authorized employees who have a need to know the Confidential Information for performance of this Agreement,

(c) To keep such Confidential Information confidential and to use the same level of care to prevent disclosure or unauthorized use of the received Confidential Information as it exercises in protecting its own Confidential Information of a similar nature;

(d) Not to copy, publish, or disclose such Confidential Information to others or authorize anyone else to copy, publish, or disclose such Confidential Information to others without the prior written approval of the source;

(e) To return promptly any copies of such Confidential Information to the source at its request; and

(f) To use such Confidential Information only for purposes of fulfilling work or services performed hereunder and for other purposes only upon such terms as may be agreed upon between the Parties in writing.

10.3 Exceptions. These obligations shall not apply to any Confidential Information that was legally in the recipient's possession prior to receipt from the source, was received in good faith from a third party not subject to a confidential obligation to the source, now is or later becomes publicly known through no breach of confidential obligation by the recipient, was developed by the recipient without the developing persons having access to any of the Confidential Information received in confidence from the source, or that is required to be disclosed pursuant to subpoena or other process issued by a court or administrative agency having appropriate jurisdiction, provided, however, that the recipient shall give prior notice to the source and shall reasonably cooperate if the source deems it necessary to seek protective arrangements.

10.4 Survival. The obligation of confidentiality and use with respect to Confidential Information disclosed by one Party to the other shall survive any termination of this Agreement for a period of three (3) years from the date of the initial disclosure of the Confidential Information.

11. Cooperation on Fraud Minimization. Each Party assumes responsibility for all fraud associated with its end user customers and accounts. Neither Party has responsibility for, nor is it required to investigate or make adjustments to the other Party's account in cases of fraud. The Parties agree that they shall cooperate with one another to investigate, minimize and take corrective action in cases of fraud. The Parties' fraud investigation, minimization and corrective action procedures are to be cost effective and implemented so as not to unduly burden or harm one Party as compared to the other.

12 Dispute Resolution

12.1 Alternative to Litigation. Except as provided under Section 252 of the Act with respect to the approval of this Agreement by the Commission, the Parties desire to resolve disputes arising out of or relating to this Agreement without litigation. Accordingly, except for action seeking a temporary restraining order or an injunction related to the purposes of this Agreement, or suit to compel compliance with this dispute resolution process, the Parties agree to use the following alternative dispute resolution procedure as their sole remedy with respect to any controversy or claim arising out of or relating to this Agreement or its breach; *provided, however*, that either Party may elect, before filing the claim or response in arbitration (as the case may be) to submit an otherwise arbitrable dispute to a Commission or court which would have jurisdiction were it not arbitrable.

12.2 Negotiations. At the written request of a Party, each Party will appoint a knowledgeable, responsible representative to meet and negotiate in good faith to resolve any dispute arising out of or relating to this Agreement. The Parties intend that these negotiations be conducted by non-lawyer, business representatives. The location, format, frequency, duration, and conclusion of these discussions shall be left to the discretion of the representatives. Upon agreement, the representatives may utilize other alternative dispute resolution procedures such as mediation to assist in the negotiations. Discussions and correspondence among the representatives for purposes of these negotiations shall be treated as confidential information developed for purposes of settlement, exempt from discovery and production, and shall not be admissible in the arbitration described below or in any lawsuit without the concurrence of all Parties. Documents identified in or provided with such communications, which are not prepared for purposes of the negotiations, are not so exempted and may, if otherwise admissible, be admitted in evidence in the arbitration or lawsuit.

12.3 Arbitration. If the negotiations do not resolve the dispute within sixty (60) days of the initial written request, the dispute shall be submitted to binding arbitration by a single arbitrator pursuant to the Commercial Arbitration Rules of the American Arbitration Association except that the Parties shall select an arbitrator outside American Arbitration Association rules upon mutual agreement. A Party may demand such arbitration in accordance with the procedures set out in those rules. Discovery shall be controlled by the arbitrator and shall be permitted to the extent set out in this section. Each Party may submit in writing to a Party, and that Party shall so respond to, a maximum of any combination of thirty-five (35) (none of which may have subparts) of the following: interrogatories, demands to produce documents, or requests for admission. Each Party is also entitled to take the oral deposition of up to three individuals of another Party. Additional discovery may be permitted upon mutual agreement of the Parties. The arbitration hearing shall be commenced within sixty (60) Business days of the demand for arbitration. The arbitration shall be held in Tampa, Florida. The arbitrator shall control the scheduling so as to process the matter expeditiously. The Parties may submit written briefs. The arbitrator shall rule on the dispute by issuing a written opinion within thirty (30) days after the close of hearings. The times specified in this section may be extended

upon mutual agreement of the Parties or by the arbitrator upon a showing of good cause. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction. Arbitration under this paragraph shall be governed by the United States Arbitration Act, 9 U.S.C. secs 1-16.

- 12.4 Costs. Each Party shall bear its own costs of these procedures. If a Party believes that a discovery request is unreasonable or unduly burdensome, it may seek protection from the Arbitrator, including in the form of cost reimbursement, rescheduling or limitation on same. The Parties shall equally split the fees of the arbitration and the arbitrator.
- 12.5 Continuous Service. The Parties shall continue providing services to each other during the pendency of any dispute resolution procedure, and the Parties shall continue to perform their obligations (including making payments in accordance with Article IV, Section 4) in accordance with this Agreement.
13. Entire Agreement. This Agreement constitutes the entire agreement of the Parties pertaining to the subject matter of this Agreement and supersedes all prior agreements, negotiations, proposals, and representations, whether written or oral, and all contemporaneous oral agreements, negotiations, proposals, and representations concerning such subject matter. No representations, understandings, agreements, or warranties, expressed or implied, have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
14. Expenses. Except as specifically set out in this Agreement, each Party shall be solely responsible for its own expenses involved in all activities related to the subject of this Agreement.
15. Force Majeure. In the event performance of this Agreement, or any obligation hereunder, is either directly or indirectly prevented, restricted, or interfered with by reason of fire, flood, earthquake or like acts of God, wars, revolution, civil commotion, explosion, acts of public enemy, embargo, acts of the government in its sovereign capacity, labor difficulties, including without limitation, strikes, slowdowns, picketing, or boycotts, unavailability of equipment from vendor, changes requested by Customer, or any other circumstances beyond the reasonable control and without the fault or negligence of the Party affected, the Party affected, upon giving prompt notice to the other party, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis until the delay, restriction or interference has ceased); *provided however*, that the Party so affected shall use diligent efforts to avoid or remove such causes of nonperformance and both Parties shall proceed whenever such causes are removed or cease.
16. Good Faith Performance. In the performance of their obligations under this Agreement, the Parties shall act in good faith. In situations in which notice, consent, approval or similar action by a party is permitted or required by any provision of this Agreement, such action shall not be unreasonably delayed, withheld or conditioned.

17. Governing Law. This Agreement shall be governed by and construed in accordance with the domestic laws of the state where the Services are provided or the facilities reside and shall be subject to the exclusive jurisdiction of the courts therein.

18. GTE Standard Practices. The Parties acknowledge that GTE shall be implementing industry standard approaches to various requirements hereunder applicable to BTI's industry which will be added in the Guide. BTI agrees that GTE may implement such industry standard practices upon reasonable notice to satisfy any GTE obligations under this Agreement to which such GTE standard practices apply.

19. Headings. The headings in this Agreement are inserted for convenience and identification only and shall not be considered in the interpretation of this Agreement.

20. Independent Contractor Relationship. The persons provided by each Party shall be solely that Party's employees and shall be under the sole and exclusive direction and control of that Party. They shall not be considered employees of the other Party for any purpose. Each Party shall remain an independent contractor with respect to the other and shall be responsible for compliance with all laws, rules and regulations involving, but not limited to, employment of labor, hours of labor, health and safety, working conditions and payment of wages. Each Party shall also be responsible for payment of taxes, including federal, state and municipal taxes, chargeable or assessed with respect to its employees, such as Social Security, unemployment, workers' compensation, disability insurance, and federal and state withholding. Each Party shall indemnify the other for any loss, damage, liability, claim, demand, or penalty that may be sustained by reason of its failure to comply with this provision.

21. Law Enforcement Interface.

21.1 Except to the extent not available in connection with GTE's operation of its own business, GTE shall provide seven day a week/twenty-four hour a day assistance to law enforcement persons for emergency taps, assistance involving emergency traces and emergency information retrieval on customer invoked CLASS services, including, without limitation, call traces requested by BTI.

21.2 GTE agrees to work jointly with BTI in security matters to support law enforcement agency requirements for taps, traces, court orders, etc. Charges for providing such services for BTI Customers will be billed to BTI.

21.3 GTE will, in non emergency situations, inform the requesting law enforcement agencies that the end-user to be wire tapped, traced, etc. is a BTI Customer and shall refer them to BTI.

22. Liability and Indemnity.

22.1 Indemnification. Each Party agrees to release, indemnify, defend, and hold harmless the other Party from all losses, claims, demands, damages, expenses, suits, or other actions, or

any liability whatsoever, including, but not limited to, costs and attorney's fees, whether suffered, made, instituted, or asserted by any other party or person, for invasion of privacy, personal injury to or death of any person or persons, or for losses, damages, or destruction of property, whether or not owned by others, proximately caused by the indemnifying Party's negligence or willful misconduct, regardless of form of action. The indemnified party agrees to notify the other Party promptly, in writing, of any written claims, lawsuits, or demands for which it is claimed that the indemnifying Party is responsible under this Section and to cooperate in every reasonable way to facilitate defense or settlement of claims. The indemnifying Party shall have complete control over defense of the case and over the terms of any proposed settlement or compromise thereof. The indemnifying Party shall not be liable under this Section for settlement by the indemnified Party or any claim, lawsuit, or demand if the indemnifying Party has not approved the settlement in advance, unless the indemnifying Party has had the defense of the claim, lawsuit, or demand tendered to it in writing and has failed to assume such defense. In the event of such failure to assume defense, the indemnifying Party shall be liable for any reasonable settlement made by the indemnified Party without approval of the indemnifying Party.

- 22.2 End User and Content-Related Claims.** Each Party agrees to release, indemnify, defend, and hold harmless the other Party, its affiliates, and any third-party provider or operator of facilities involved in the provision of Services, unbundled network elements or facilities under this Agreement (collectively, the "Indemnified Parties") from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, suffered, made, instituted, or asserted by either Party's end users against an Indemnified Party arising from Services, unbundled network elements or facilities. Each Party further agrees to release, indemnify, defend, and hold harmless the Indemnified Parties from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, suffered, made, instituted, or asserted by any third party against an Indemnified Party arising from or in any way related to actual or alleged defamation, libel, slander, interference with or misappropriation of proprietary or creative right, or any other injury to any person or property arising out of content transmitted by the Indemnified Party or such Party's end users, or any other act or omission of the Indemnified Party or such Party's end users. The provisions of this section 22.2 shall not exculpate Provider from judgment for liability arising out of its willful misconduct.
- 22.3 DISCLAIMER.** EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT, PROVIDER MAKES NO REPRESENTATIONS OR WARRANTIES TO CUSTOMER CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, UNBUNDLED NETWORK ELEMENTS OR FACILITIES PROVIDED UNDER THIS AGREEMENT. PROVIDER DISCLAIMS, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.

- 22.4 Limitation of Liability. Provider's liability, whether in contract, tort or otherwise, shall be limited to direct damages, which shall not exceed the pro rata portion of the monthly charges for the Services, Unbundled Network Elements or facilities for the time period during which the Services, Unbundled Network Elements or facilities provided pursuant to this Agreement are inoperative, not to exceed in total Provider's monthly charge to Customer. Under no circumstance shall Provider be responsible or liable for indirect, incidental, or consequential damages, including, but not limited to, economic loss or lost business or profits, damages arising from the use or performance of equipment or software, or the loss of use of software or equipment, or accessories attached thereto, delay, error, or loss of data. In connection with this limitation of liability, the Parties recognize that Provider may, from time to time, provide advice, make recommendations, or supply other analysis related to the Services, unbundled network elements or facilities described in this Agreement, and, while Provider shall use diligent efforts in this regard, Customer acknowledges and agrees that this limitation of liability shall apply to provision of such advice, recommendations, and analysis. The cap that applies to direct damages quoted above will not apply in cases of injury caused by a Party's willful misconduct, provided that all other provisions of this subparagraph 22.4 (including limitation to direct damages) will apply.
- 22.5 Intellectual Property. Neither Party shall have any obligation to defend, indemnify or hold harmless, or acquire any license or right for the benefit of, or owe any other obligation or have any liability to, the other based on or arising from any claim, demand, or proceeding by any third party alleging or asserting that the use of any circuit, apparatus, or system, or the use of any software, or the performance of any service or method, or the provision or use of any facilities by either Party under this Agreement constitutes direct or contributory infringement, or misuse or misappropriation of any patent, copyright, trademark, trade secret, or any other proprietary or intellectual property right of any third party; *provided however*, that this provision shall not apply to intellectual property that was developed by and is owned by (and not obtained through license to) the allegedly infringing Party.
23. Multiple Counterparts. This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, but all of which shall together constitute but one and the same document.
24. No Offer. Submission of this Agreement for examination or signature does not constitute an offer by Provider for the provision of the products or services described herein. This Agreement will be effective only upon execution and delivery by both Parties and approved by the commission in accordance with Section 31 of Article III of this Agreement. If the Commission provides by rule or order for an earlier effective date based upon the date of filing, then the provisions of the Commission's rule or order shall control as to the effective date.
25. No Third Party Beneficiaries. Except as may be specifically set forth in this Agreement, this Agreement does not provide and shall not be construed to provide third parties with any remedy, claim, liability, reimbursement, cause of action, or other right or privilege.

26. **Notices.** Any notice to a Party required or permitted under this Agreement shall be in writing and shall be deemed to have been received on the date of service if served personally, on the date receipt is acknowledged in writing by the recipient if delivered by regular U.S. mail, or on the date stated on the receipt if delivered by certified or registered mail or by a courier service that obtains a written receipt. Notice may also be provided by facsimile, which shall be effective on the date received if received before 5:00 p.m. local time on a Business Day and which otherwise shall be effective on the next Business Day following the date of receipt. Any notice shall be delivered using one of the alternatives mentioned in this section and shall be directed to the applicable address indicated below or such address as the Party to be notified has designated by giving notice in compliance with this section:

If to GTE:	GTE Florida Incorporated Attention: Regional Director- Regulatory & Industry Affairs 201 N. Franklin Street Tampa, FL 33602
Copies to:	GTE Carrier Markets Attention: GTE Florida Incorporated 201 N. Franklin Street Tampa, FL 33602
If to BTI:	BTI, Inc. Attention: Mr. Anthony M. Copeland 4300 Six Forks Road Raleigh, NC 27609 Facsimile Number: (919) 510-7120

27. **Protection.**

- 27.1 **Impairment of Service.** The characteristics and methods of operation of any circuits, facilities or equipment of either Party connected with the services, facilities or equipment of the other Party pursuant to this Agreement shall not interfere with or impair service over any facilities of the other Party, its affiliated companies, or its connecting and concurring carriers involved in its services, cause damage to their plant, violate any applicable law or regulation regarding the invasion of privacy of any communications carried over the Party's facilities or create hazards to the employees of either Party or to the public (each hereinafter referred to as an "Impairment of Service").
- 27.2 **Resolution.** If either Party causes an Impairment in Service, the Party whose network or service is being impaired (the "Impaired Party") shall promptly notify the Party causing the Impairment of Service (the "Impairing Party") of the nature and location of the problem and that, unless promptly rectified, a temporary discontinuance of the use of any circuit, facility or equipment may be required. The Impairing Party and the Impaired Party agree to work together to attempt to promptly resolve the Impairment of Service. If the

Impairing Party is unable to promptly remedy the Impairment of Service, then the Impaired Party may at its option temporarily discontinue the use of the affected circuit, facility or equipment.

28. Publicity. Any news release, public announcement, advertising, or any form of publicity pertaining to this Agreement, provision of services pursuant to it, or association of the Parties with respect to provision of the services described in this Agreement shall be subject on 48 hours' notice to the prior written approval of both GTE and BTI. This paragraph shall apply only to publicity as described above and shall not apply to publicity for services offered by BTI to its end user customers where the publicity does not pertain to this Agreement and other items described above.
29. Regulatory Agency Control. This Agreement shall at all times be subject to changes, modifications, orders, and rulings by the Federal Communications Commission and/or the applicable state utility regulatory commission to the extent the substance of this Agreement is or becomes subject to the jurisdiction of such agency.
30. Changes in Legal Requirements. GTE and BTI further agree that the terms and conditions of this Agreement were composed in order to effectuate the legal requirements in effect at the time the Agreement was produced. Any modifications to those requirements will be deemed to automatically supersede any terms and conditions of this Agreement.
31. Effective Date. If this Agreement is fully negotiated, and if the Agreement or changes or modifications thereto are subject to approval of a regulatory agency, the "effective date" of this Agreement for such purposes will be ten (10) Business Days after such approval, or if the Commission provides by rule or order for a different effective date, then it shall be effective on the date so provided.
32. Regulatory Matters. Each Party shall be responsible for obtaining and keeping in effect all their own FCC, state regulatory commission, franchise authority and other regulatory approvals that may be required in connection with the performance of its obligations under this Agreement. BTI shall reasonably cooperate with GTE in obtaining and maintaining any required approvals for which GTE is responsible, and GTE shall reasonably cooperate with BTI in obtaining and maintaining any required approvals for which BTI is responsible.
33. Rule of Construction. No rule of construction requiring interpretation against the drafting party hereof shall apply in the interpretation of this Agreement.
34. Section References. Except as otherwise specified, references within an Article of this Agreement to a Section refer to Sections within that same Article.
35. Service Standards.

- 35.1 The Parties shall meet applicable quality of local service standards imposed by the Commission and will provide a level of services to each other under this Agreement in compliance with the nondiscrimination requirements of the Act
- 35.2 GTE and BTI agree to implement the performance measures defined in Appendix L under the terms and conditions set forth in Appendix L.
- 35.3 GTE shall provide BTI with reasonable notice of any new or changed feature, functionality or price pertaining to pre-ordering, ordering/provisioning, maintenance and billing for "Services" and notice by posting on a website shall be deemed adequate to meet this subsection.
- 35.4 The Parties will alert each other to any network events that can result or have resulted in service interruption, blocked calls, and/or changes in network performance.
- 35.5 GTE will adhere to the nondiscrimination requirements of the Act.
36. Severability. If any provision of this Agreement is held by a court or regulatory agency of competent jurisdiction to be unenforceable, the rest of the Agreement shall remain in full force and effect and shall not be affected unless removal of that provision results, in the opinion of either Party, in a material change to this Agreement. If a material change as described in this paragraph occurs as a result of action by a court or regulatory agency, the Parties shall negotiate in good faith for replacement language. If replacement language cannot be agreed upon within a reasonable period, either Party may terminate this Agreement without penalty or liability for such termination upon written notice to the other Party.
37. Subcontractors. Provider may enter into subcontracts with third parties or affiliates for the performance of any of Provider's duties or obligations under this Agreement.
38. Subsequent Law. The terms and conditions of this Agreement shall be subject to any and all applicable laws, rules, regulations or guidelines that subsequently may be prescribed by any federal, state or local governmental authority. To the extent required by any such subsequently prescribed law, rule, regulation or guideline, the parties agree to modify, in writing, the affected term(s) and condition(s) of this Agreement to bring them into compliance with such law, rule, regulation or guideline.
39. Taxes. Any state or local excise, sales, or use taxes (excluding any taxes levied on income) resulting from the performance of this Agreement shall be borne by the Party upon which the obligation for payment is imposed under applicable law, even if the obligation to collect and remit such taxes is placed upon the other Party. The collecting Party shall charge and collect from the obligated Party, and the obligated Party agrees to pay to the collecting Party, all applicable taxes, except to the extent that the obligated Party notifies the collecting Party and provides to the collecting Party appropriate documentation that qualifies the obligated Party for a full or partial exemption. Any such taxes shall be shown as separate items on applicable billing documents between the Parties. The obligated Party may contest the same in good faith, at its own expense,

and shall be entitled to the benefit of any refund or recovery, provided that such Party shall not permit any lien to exist on any asset of the other Party by reason of the contest. The collecting Party shall cooperate in any such contest by the other Party.

- 39.1 **Tax** - A charge which is statutorily imposed by the state or local jurisdiction and is either (a) imposed on the seller with the seller having the right or responsibility to pass the charge(s) on to the purchaser and the seller is responsible for remitting the charge(s) to the state or local jurisdiction or (b) imposed on the purchaser with the seller having an obligation to collect the charge(s) from the purchaser and remit the charge(s) to the state or local jurisdiction.

Taxes shall include but not be limited to: federal excise tax, state/local sales and use tax, state/local utility user tax, state/local telecommunication excise tax, state/local gross receipts tax, and local school taxes. Taxes shall not include income, income-like, gross receipts on the revenue of a provider, or property taxes. Taxes shall not include payroll withholding taxes unless specifically required by statute or ordinance.

- 39.2 **Fees/Regulatory Surcharges** - A charge imposed by a regulatory authority, other agency, or resulting from a contractual obligation, in which the seller is responsible or required to collect the fee/surcharge from the purchaser and the seller is responsible for remitting the charge to the regulatory authority, other agency, or contracting party.

Fees/Regulatory Surcharges shall include but not be limited to E911/911, E311/311, franchise fees, Lifeline, hearing impaired, and Commission surcharges.

40. **Trademarks and Trade Names**. Except as specifically set out in this Agreement, nothing in this Agreement shall grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, or trade names of the other for any purpose whatsoever. Nothing contained herein shall preclude BTI from truthfully representing that GTE is the underlying carrier for all or a particular part of its service.

41. **Waiver**. The failure of either Party to insist upon the performance of any provision of this Agreement, or to exercise any right or privilege granted to it under this Agreement, shall not be construed as a waiver of such provision or any provisions of this Agreement, and the same shall continue in full force and effect.

42. **Environmental Matters**. The Parties agree that the Agreement shall contain language addressing environmental matters, and that the Parties shall negotiate in good faith and reach agreement upon final language for this provision within forty-five (45) days after the date the Agreement is filed with the Commission for approval as a negotiated agreement. Failing agreement within that time period, either Party may take the Environmental Matters provision to arbitration (without any further time or requirement of negotiation) under Section 12 of Article III of this Agreement; provided, however, that either Party may elect, before filing the claim or response in arbitration (as the case may be), to submit the dispute to the Commission on matters that would fall within the jurisdiction of the Commission if it were not otherwise arbitrable under

this Section. The arbitrator or Commission, in that proceeding, shall also decide the effect of the resulting Environmental Matters provision on the period when this Agreement may have been in effect prior to the determination of the language of the Environmental Matters provision by said arbitrator or Commission. The Parties shall incorporate the resulting Environmental Matters provision into this Agreement in place of the provisions of this Section 42

43. **TBD Prices.** Numerous provisions in this Agreement and its Attachments refer to pricing principles. If a provision references prices in an Attachment and there are no corresponding prices in such Attachment, such price shall be considered "To Be Determined" (TBD). With respect to all TBD prices, prior to BTI ordering any such TBD item, the Parties shall meet and confer to establish a price. If the Parties are unable to reach agreement on a price for such item, an interim price shall be set for such item that is equal to the price for the nearest analogous item for which a price has been established (for example, if there is not an established price for a non recurring charge (NRC) for a specific network element, the Parties would use the NRC for the most analogous retail service for which there is an established price). Any interim prices so set shall be subject to modification by any subsequent decision of the Commission. If an interim price is different from the rate subsequently established by the Commission, any underpayment shall be paid by BTI to GTE, and any overpayment shall be refunded by GTE to BTI, within 45 Business Days after the establishment of the price by the Commission.

44. **Amendment of Certain Rates, Terms and Conditions.** The Parties agree as follows with respect to modification of the rates, terms and conditions initially provided for herein:

The rates, terms and conditions that are specified in Appendix 44A (the "GTE Terms") may be replaced by certain rates, terms and conditions from that single particular Commission-approved arbitrated Interconnection, Resale and Unbundling Agreement between GTE and the Arbitrated AT&T agreement that BTI has elected to refer to for the arbitrated rates, terms and conditions (the "Arbitrated AT&T Agreement"), respectively, whose subjects are specified in Appendix 44B. GTE and BTI agree that if the "Arbitrated AT&T Terms" are deemed to be unlawful, or are stayed, enjoined or otherwise modified, in whole or in part, by a court or commission of competent jurisdiction, then this Agreement shall be deemed to have been amended accordingly, by modification of the "Arbitrated AT&T Terms" or, as appropriate, the substitution of "GTE Terms" for all stayed or enjoined "Arbitrated AT&T Terms," and such amendment shall be effective retroactive to the Effective Date of the "Arbitrated AT&T " (except that if the body that is reviewing those "Arbitrated AT&T Terms" establishes a later date or makes no provision for retroactivity, then that body's determination as to retroactivity or decision not to provide for retroactively shall apply, subject to all appeals).

GTE and BTI further agree that the terms and conditions of this Agreement reflect certain requirements of the FCC's First Report and Order in CC Docket No. 96-98. The terms and conditions of this Agreement shall be subject to any and all actions by any court or other governmental authority that invalidate, stay, vacate or otherwise modify the FCC's First Report and Order, in whole or in part. (The foregoing sentence is not triggered by the action of a court or other governmental authority that does not have authority to invalidate, stay, vacate or otherwise modify the FCC's orders. Nothing in this clause shall prevent the Parties from arguing

the precedential value of any decision by such authority.) To the extent warranted by any such subsequent action, the Parties agree that this Agreement shall be deemed to have been modified accordingly as in the first paragraph of this Section 44. The Parties agree to immediately apply all terms and conditions that are affected by such subsequent action in a manner that is consistent with such subsequent action, and within a reasonable time incorporate such modified terms and conditions in writing into the Agreement. BTI acknowledges that GTE may seek to enforce such subsequent action before a commission or court of competent jurisdiction. GTE does not waive any position regarding the illegality or inappropriateness of the FCC's First Report and Order. BTI acknowledges that GTE may seek to enforce such subsequent action before a commission or court of competent jurisdiction. GTE does not waive any position regarding the illegality or inappropriateness of the FCC's First Report and Order.

The rates, terms and conditions (including rates which may be applicable under true-up) specified in both the "GTE Terms" and the "Arbitrated AT&T Terms" are further subject to amendment, retroactive to the Effective Date of the Agreement, to provide for charges or rate adjustments resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation. The amendment shall be retroactive to the date, if any, that is determined in any future Commission or other proceedings to be the date of retroactivity concerning the charges or rate adjustments addressed by this subparagraph.

If the Commission (or any other commission or federal or state court) in reviewing this Agreement pursuant to applicable state or federal laws, including Section 252(e) of the Telecommunications Act of 1996, deletes or modifies in any way this Section 44, then the Parties agree that they will reopen negotiations within ten (10) days after receipt of the final decision making such deletion or modification in order to attempt to craft the new provision that will provide substantially the same protections to GTE and BTI as this Section 44. If the Parties cannot reach agreement on such a provision within twenty (20) calendar days thereafter, the Parties agree that this entire Agreement is void and will not become effective, and BTI agrees to withdraw this Agreement from consideration by the Commission (or any other commission or federal or state court). In such event, each Party shall have 25 days following the close of the 20-day negotiation period within which to file a petition for arbitration before the Commission under Section 252(e) of the Telecommunications Act of 1996 of the issues that remain in dispute under this paragraph, and that 25th day shall be deemed to be day 160 of the arbitration period set out in Section 252(e).

ARTICLE IV
INTERCONNECTION AND TRANSPORT AND TERMINATION OF TRAFFIC

1. Services Covered by This Article

- 1.1 Types of Services. This Article governs the provision of inter-network facilities (*i.e.*, physical interconnection services and facilities), meet point billing by GTE to BTI or by BTI to GTE and the transport and termination and billing of Local, IntraLATA Toll, optional EAS traffic and jointly provided Interexchange Carrier Access between GTE and BTI. The services and facilities described in this Article shall be referred to in this Article IV as the "Services."
- 1.2 Service Locations for Interconnection Services and Facilities. Appendix A, Service Matrix, attached to this Agreement and made a part hereof, sets forth the Services and each location in the State where a Service shall be provided (the "Service Locations") and the Interconnection Point ("IP") for such Services.
- 1.3 Additional Services or Service Locations. If, during the term of this Agreement, the parties determine that additional services are needed in the State, or existing Services will be offered in new locations in the State, the Parties shall execute an amendment to this Agreement substantially in the form of Appendix B attached to this Agreement and made a part hereof, incorporating the additional locations and/or any additional terms necessary for the additional services. Upon the effective date of the amendment, and continuing through the remaining term of this Agreement, the new services shall be deemed part of the Services provided pursuant to this Article and/or the new locations shall be deemed part of the Service Locations.

2. Billing and Rates.

- 2.1 Rates and Charges. Customer agrees to pay to Provider the rates and charges for the Services set forth in the applicable appendices to this Agreement. GTE's rates and charges are set forth in Appendix C attached to this Agreement and made a part hereof.
- 2.2 Billing. Provider shall render to Customer a bill for interconnection services on a current basis. Charges for physical facilities and other non-usage sensitive charges shall be billed in advance, except for charges and credits associated with the initial or final bills. Usage sensitive charges, such as charges for termination of Local Traffic, shall be billed in arrears. Until such time as the Parties implement combined (single) trunk groups pursuant to Section 4.3.3 of this Article, charges for traffic that has been, for whatever reason, routed over a jurisdictionally inappropriate trunk group (*e.g.*, local traffic carried over trunks used for Switched Access Traffic) shall reflect the appropriate compensation arrangement for the appropriate jurisdiction and shall be handled as a post-billing adjustment to bills rendered. Additional matters relating to billing are included in Appendix C attached to this Agreement and made a part hereof.

3. Transport and Termination of Traffic.

3.1 Types of Traffic. The Parties shall reciprocally terminate Local, IntraLATA Toll, optional EAS and jointly provided Interexchange Carrier Traffic originating on each other's networks utilizing either Direct or Indirect Network Interconnections as provided in Section 4 or Section 5 herein. To this end, the Parties agree that there will be interoperability between their networks. Only traffic originated by or terminating to the Parties' end user customers is to be exchanged. The Parties also agree to exchange traffic associated with Third-Party LECs, CLECs and Wireless Service Providers if an agreement has been made between the originating carrier and both the tandem company and the terminating company. In addition, the Parties will notify each other of any anticipated change in traffic distribution.

3.2 Compensation For Exchange Of Traffic.

3.2.1 Mutual Compensation. The Parties shall compensate each other for the exchange of Local Traffic in accordance with Section 3.2.2 of this Article. Charges for the transport and termination of intraLATA toll and interexchange traffic shall be in accordance with the Parties' respective intrastate or interstate access tariffs, as appropriate. Optional extended area service (EAS), where applicable, will be classified as toll traffic. Mandatory EAS will be classified as local traffic.

3.2.2 Bill-and-Keep. With respect to transport and termination, the Parties shall assume that Local Traffic is roughly balanced between the parties unless traffic studies indicate otherwise. Accordingly, the Parties agree to use a Bill-and-Keep Arrangement with respect to termination of Local Traffic only. After six months, either Party may request that a traffic study be performed no more frequently than once every quarter. Should such traffic study indicate, in the aggregate, that either Party is terminating more than 60 percent of the Parties' total terminated minutes for Local Traffic, either party may require mutual compensation upon written notice. GTE's rates are set forth in Appendix C of this Agreement. BTI's rates are to be determined. Until such time as the Parties agree on BTI's rates, which the parties must negotiate no later than 30 days after mutual compensation is implemented, BTI will use GTE's rates as applicable to the functionality provided by BTI. If the parties fail to agree on BTI's rates within this time, the dispute will be resolved by petition to the Commission. Nothing in this section 3.2.2 shall be interpreted to (i) change compensation set forth in this Agreement for traffic or services other than Local Traffic, including but not limited to internetwork facilities, access traffic or wireless traffic, or (ii) allow either Party to aggregate traffic other than Local Traffic for the purpose of compensation under the Bill-and-Keep Arrangement described in this section 3.2.2, except as set forth in section 3.2.1 above.

3.2.3 Sharing of Access Charges on Calls to Ported Numbers. Until permanent number portability is implemented, the Parties agree that switched access termination to a

ported number will be billed by the party providing interim number portability and that the party billing the switched access will share the switched access revenue with the other party. After permanent number portability is implemented, the Parties agree to renegotiate sharing of access charges to ported numbers in accordance with permanent number portability requirements. In lieu of actual measurements of minutes and/exchange of billing records for this traffic the Parties agree that the Party providing the ported number will pay the other Party the rate per line/per month as specified in Appendix D.

- (a) The number of lines/talk paths per ported number that are subject to compensation will be determined at the time the end user customer's local service is changed from one party to the other. The number of lines per number eligible for the shared revenue arrangement described in this section will be limited to the number of lines in service on the date of conversion plus a 10% growth margin. After conversion the number of lines per number available for compensation can only be increased by mutual consent of the parties.
- (b) The Parties agree that the compensation rate in paragraph 3.2.3 may change as a result of changes in access rates, traffic volume or for other reasons and agree to renegotiate the rate if a significant event occurs. At a minimum, the parties agree to reevaluate the rate on an annual basis.
- (c) The Parties agree that terminating switched access calls ported via interim number portability may appear to the receiving party to be a local call and that the implementation of reciprocal compensation for terminating local calls may result in overcompensation for ported switched access calls. Therefore, the Parties agree to renegotiate the terminating shared access compensation rate if reciprocal compensation for local calls is implemented.

3.2.4 Reciprocal Compensation Arrangements for Call Termination Reciprocal compensation arrangements for call termination using unbundled network elements shall be as provided in Appendix K attached hereto.

3.3 Tandem Switching Services. The Parties will provide tandem switching for traffic between the Parties' end offices subtending each other's access tandem, as well as for traffic between either Party's end users and any Third Party which is interconnected to the other Party's access tandems as follows:

- 3.3.1 The originating Party will compensate the tandem Party for each minute of originated tandem switched traffic which terminates to a third party (e.g., other CLC, ILEC, or wireless service provider). The applicable rate for this charge is identified in Appendix C.

3.3.2 The originating Party also assumes responsibility for compensation to the company which terminates the call.

3.3.3 Services Provided. Tandem switching services provided pursuant to this Section 3.3 shall include the following:

- (a) signaling;
- (b) screening and routing;
- (c) recording;
- (d) access to AIN functionality, in accordance with the terms and conditions of Article VII and Article VIII of this Agreement;
- (e) access to operator services and directory assistance, in accordance with the terms and conditions of Article V and Article VII of this Agreement;
- (f) support of all trunk interconnections;
- (g) access to PSAPs, in accordance with the terms and conditions of Article VII of this Agreement; and
- (h) transit of traffic to and from third parties in accordance with the terms and conditions of this section.

3.4 Inter-Tandem Switching. The Parties will only use inter-tandem switching for the transport and termination of traffic originating on each other's network at and after such time as either (i) BTI has agreed to and fully implemented an existing intraLATA toll compensation mechanism such as IntraLATA Terminating Access Compensation (ITAC) or a functional equivalent thereof or (ii) generally accepted industry signaling standards and AMA record standards support the recognition of multiple tandem switching events

4. Direct Network Interconnection.

4.1 Network Interconnection Architecture. BTI may interconnect with GTE at any of the minimum technically feasible points required by the FCC. Interconnection at additional points will be reviewed on an individual case basis. Where the Parties mutually agree following a bona fide request to directly interconnect their respective networks, interconnection will be as specified in the following subsections. The "IPs" shall be set forth in Appendix A attached to this Agreement and made a part hereof. Based on the configuration, the installation time line will vary considerably, however, GTE will work with BTI in all circumstances to install "IPs" within 120 calendar days absent extenuating circumstances. Inter-network connection and protocol must be based on industry standards developed consistent with Section 256 of the Telecommunications Act of 1996.

- 4.1.1 Subject to mutual agreement, the Parties may use the following types of network facility interconnection, using such interface media as are (i) appropriate to support the type of interconnection requested and (ii) available at the facility at which interconnection is requested. For each "IP" set forth in Appendix A, the Parties shall specify the type of interconnection used at that "IP."
- (a) A Mid-Span Fiber Meet within an existing GTE exchange area whereby the Parties mutually agree to jointly plan and engineer their facility "IP" at a designated manhole or junction location. The "IP" is the demarcation between ownership of the fiber transmission facility. Each party is individually responsible for its incurred costs in establishing this arrangement.
 - (b) A Virtual IS or physical collocation arrangement at a GTE wire center subject to the rates, terms, and conditions contained in GTE's applicable tariffs.
 - (c) A special access arrangement and/or switched transport terminating at a GTE wire center subject to the rates, terms, and conditions contained in GTE's applicable tariffs. These facilities will meet the standards set forth in such tariffs.
- 4.1.2 Virtual EIS and physical collocation arrangements are governed by appropriate GTE tariffs, except as provided in Article IX.
- 4.1.3 The Parties will mutually designate at least one POI on GTE's network within each GTE local calling area for the routing of Local Traffic. Recording and billing of traffic routed over these facilities shall be as provided in Section 3.4 of this Article.
- 4.2 Compensation. The Parties agree to the following compensation for inter-network facilities, depending on facility type.
- 4.2.1 Mid-Span Fiber Meet: GTE will charge special access (flat rated) transport from the applicable intrastate access tariff and will rate charges between the "IP" and GTE's interconnection switch. Charges will be reduced to reflect the proportionate share of the facility that is used for transport of traffic originated by GTE. BTI will charge flat rated transport to GTE for BTI facilities used by GTE. BTI will apply charges based on the lesser of, (i) the airline mileage from the "IP" to BTI switch; or (ii) the airline mileage from the GTE switch to the serving area boundary.
 - 4.2.2 Collocation: GTE will charge Virtual IS or Physical collocation rates from the applicable GTE tariff. BTI will charge GTE flat rated transport to reflect the proportionate share of the facility that is used for transport of traffic originated by GTE. BTI will apply charges based on the lesser of, (i) the airline mileage from

the "IP" to BTI switch; or (ii) two (2) times the airline mileage from the GTE switch to the serving area boundary.

- 4.2.3 Special Access and/or Switched Access: GTE will charge special access and/or switched access rates from the applicable GTE intrastate access tariff. Charges will be reduced to reflect the proportionate share of the facility that is used for transport of traffic originated by GTE.

4.3 Trunking Requirements

- 4.3.1 The Parties agree to establish trunk groups of sufficient capacity from the interconnecting facilities such that trunking is available to any switching center designated by either Party, including end offices, tandems, 911 routing switches, and directory assistance/operator service switches. The Parties will mutually agree where one-way or two-way trunking will be available.
- 4.3.2 BTI shall make available to GTE trunks over which GTE shall terminate to end users of BTI-provided Exchange Services, Local Traffic and intraLATA toll or optional EAS traffic originated from end users of GTE-provided Exchange Service.
- 4.3.3 BTI and GTE shall, where applicable, make reciprocally available, by mutual agreement, the required trunk groups to handle different traffic types. BTI and GTE will support the provisioning of trunk groups that carry combined or separate Local Traffic and intraLATA toll and optional EAS traffic. GTE requires separate trunk groups from BTI to terminate interLATA calls and to provide Switched Access Service to IXCs. To the extent BTI desires to have any interexchange carriers (IC) terminate traffic to BTI's IC transiting trunks, BTI will arrange for such IC to issue an ASR to GTE instructing GTE to route such traffic over the appropriate trunk group. Until GTE receives and processes such ASRs, the traffic will be blocked.
- 4.3.3.1 Each Party agrees to route traffic only over the proper jurisdictional trunk group.
- 4.3.3.2 Each Party shall only deliver traffic over the local interconnection trunk groups to the other Party's access tandem for those publicly-dialable NXX Codes served by end offices that directly subtend the access tandem or to those wireless service providers that directly subtend the access tandem.
- 4.3.3.3 Neither party shall route Switched Access Service traffic over local interconnection trunks, or local traffic over Switched Access Service trunks.

- 4.3.4 BTI and GTE will reciprocally provide PLU factors to each other on a quarterly basis to identify the proper jurisdiction of each call type that is carried over the required trunks.
- 4.3.5 Reciprocal traffic exchange arrangement trunk connections shall be made at a DS-1 or multiple DS-1 level, DS-3, (SONET where technically available) and shall be jointly-engineered to an objective P.01 grade of service.
- 4.3.6 BTI and GTE agree to use diligent efforts to develop and agree on a Joint Interconnection Grooming Plan prescribing standards to ensure that the reciprocal traffic exchange arrangement trunk groups are maintained at consistent P.01 or better grades of service. Such plan shall also include mutually-agreed upon default standards for the configuration of all segregated trunk groups.
- 4.3.7 Signaling System 7 (SS7) Common Channel Signaling will be used to the extent that such technology is available.
- 4.3.8 The Parties agree to offer and provide to each other B8ZS Extended Superframe Format ("ESF") facilities, where available, capable of voice and data traffic transmission.
- 4.3.9 The Parties will support intercompany 64 kbps clear channel where available.
- 4.4 Network Redesigns Initiated by GTE. GTE will not charge BTI when GTE initiates its own network redesigns/reconfigurations.
- 5. Indirect Network Interconnection. Neither Party shall deliver traffic destined to terminate at the other Party's end office via another LEC's end office. In addition, except as provided in 3.5 above, neither Party shall deliver traffic destined to terminate at an end office subtending the other Party's access tandem via another LEC's access tandem. Either Party may deliver traffic destined to terminate at the other Party's end office via another LEC's tandem provided that the Parties have established compensation agreement(s) specific to this arrangement.
- 6. Number Resources.
 - 6.1 Number Assignment. Nothing in this Agreement shall be construed to, in any manner, limit or otherwise adversely impact BTI's right to employ or to request and be assigned any NANP number resources including, but not limited to, Central Office (NXX) Codes pursuant to the Central Office Code Assignment Guidelines. Any request for numbering resources by BTI shall be made directly to the NANP Number Plan Administrator. Except with respect to those areas in which GTE is the NANP Number Plan Administrator, GTE shall not be responsible for the requesting or assignment of number resources to BTI. The Parties agree that disputes arising from numbering assignment shall be arbitrated by the NANP Number Plan Administrator. BTI shall not request number resources to be assigned to any GTE switching entity. In the event that the NANP Number Plan

Administrator limits the assignment of NXX codes within a particular NPA, the Parties will work cooperatively to develop temporary alternative arrangements to permit the efficient use of numbering resources until NPA relief can be effectuated

- 6.2 Rate Centers. For purposes of compensation between the Parties and the ability of GTE to appropriately apply its toll tariff to its end user customers, BTI shall adopt the Rate Center areas and Rate Center points that the Commission has approved for the incumbent LEC and shall assign whole NPA-NXX codes to each Rate Center.
- 6.3 Routing Points. BTI will also designate a Routing Point for each assigned NXX code. BTI may designate one location within each Rate Center as a Routing Point for the NPA-NXX associated with that Rate Center; alternatively BTI may designate a single location within one Rate Center to serve as the Routing Point for all the NPA-NXXs associated with that Rate Center and with one or more other Rate Centers served by BTI within an existing GTE exchange area. BTI shall use diligent efforts to designate at least one Routing Point in GTE's exchange area for all NPA-NXXs associated with GTE's Rate Centers.
- 6.4 Code and Numbers Administration. The Parties will comply with code administration requirements as prescribed by the FCC, the Commission, and accepted industry guidelines. Where GTE is the NANP Number Plan Administrator, GTE will administer number resources, and charge for such administration in accord with applicable rules and regulations. GTE will administer numbering resources in a competitively neutral manner, and process requests for NXX codes in a timely manner and in accord with industry standards. The Parties shall protect BTI proprietary information that may be submitted to GTE in connection with GTE's responsibilities as NANP Number Plan Administrator.
- 6.5 Programming Switches. It shall be the responsibility of each Party to program and update its own switches and network systems pursuant to the Local Exchange Routing Guide ("LERG") guidelines to recognize and route traffic to the other Party's assigned NXX codes at all times. Neither Party shall impose any fees or charges whatsoever on the other Party for such activities.
7. Number Portability (NP). Each Party shall provide the other Party with INP for the purpose of allowing end user customers to change service-providing Parties without changing their telephone number. GTE shall provide its INP to BTI using remote call forwarding ("RCF"). The GTE rates for INP service using RCF are set out in Appendix D attached to this Agreement and made a part hereof. If BTI wishes to use Direct Inward Dialing ("DID") to provide INP to its end users, BTI may purchase DID service from GTE at the wholesale rate set out in GTE's tariff. BTI shall provide INP to GTE at the rates specified for BTI in Appendix D. BTI may obtain for its end users the same location portability that GTE provides to its customers within the same wire center. At such time as Permanent Number Portability becomes available in any of the exchange areas being served by the Parties, the Parties will work cooperatively to migrate from SPNP to Permanent Number Portability arrangements with the minimum of any interruption of service to end users.

- 7.1 If BTI orders NP/RCF as part of an unbundled loop installation, GTE will coordinate implementation of NP/RCF between 12:01 A.M. and 7:00 A.M. on the due date with the loop installation. If BTI has ordered SPNP via RCF with the installation of at least twenty (20) loops for a single end user at the same service location, GTE will coordinate the implementation of SPNP with the loop conversion. The parties will consider this a project. The project will be assigned a number and an agreed upon due date will be established by the Parties. The due date will be more than five (5) working days from the receipt of an acceptable/valid LSR. The LSR must specify BTI's request for coordination. Supporting documentation can also be found in the Guide (Book 1, Section 5, Page 1, issued December 12, 1996).
- 7.2 If BTI has ordered SPNP via RCF with the installation of nineteen or fewer loops for a single end user at the same service location, GTE will perform the remote call forwarding end office activities necessary for an interim number portability conversion between 12:01 am and 7:00 am on the due date. GTE will perform the end office activities necessary for an unbundled loop conversion between 7:00 am and 9:00 am on the due date. If field work is required for an unbundled loop conversion, GTE will perform these activities between 8:00 am and 5:00 pm on the due date. If an unbundled loop and INP were identified on the same LSR for the same customer at the same location and GTE is unable to perform all aspects of the desired conversion on the same due date, then GTE will contact BTI to communicate the jeopardy condition or delayed order report condition. After being contacted by GTE, BTI may either accept any work already completed or may reestablish a due date via an LSR supplement. BTI agrees to provide advance notification to its end user customers that temporary service outages may occur while the Parties are cutting over service from GTE to BTI.

GTE recognizes BTI's request for coordinated conversions within a two (2) hour window on the due date (where the two-hour window begins at the appointment time and is between 8 am and 5 pm, Monday through Friday). GTE is currently developing these procedures. GTE will implement these procedures and make them available to BTI within sixty (60) days of the effective date of this agreement. BTI recognizes that GTE may assess additional charges for such coordination. BTI also recognizes that coordinated conversions are considered an appointment and that there may be limited due date availability.

8. Meet-Point Billing.

8.1 Meet-Point Arrangements.

- 8.1.1 The Parties may mutually establish Meet-Point Billing ("MPB") arrangements in order to provide Switched Access Services to Access Service customers via a GTE access tandem in accordance with the MPB guidelines adopted by and contained in the Ordering and Billing Forum's MECAB and MECOD documents, except as modified herein and as described in Section 3.2.3 for Interim Portability

- 8.1.2 Except in instances of capacity limitations, GTE shall permit and enable BTI to sub-tend the GTE access tandem(s) nearest to BTI Rating Point(s) associated with the NPA-NXX(s) to/from which the Switched Access Services are homed. In instances of capacity limitation at a given access tandem, BTI shall be allowed to sub-tend the next-nearest GTE access tandem in which sufficient capacity is available.
- 8.1.3 Interconnection for the MPB arrangement shall occur at the "IP".
- 8.1.4 Common Channel Signaling shall be utilized in conjunction with MPB arrangements to the extent such signaling is resident in the GTE access tandem switch.
- 8.1.5 BTI and GTE will use diligent efforts, individually and collectively, to maintain provisions in their respective federal and state access tariffs, and/or provisions within the National Exchange Carrier Association ("NECA") Tariff No. 4, or any successor tariff, sufficient to reflect this MPB arrangement, including MPB percentages.
- 8.1.6 As detailed in the MECAB document, BTI and GTE will, in a timely fashion, exchange all information necessary to accurately, reliably and promptly bill Access Service customers for Switched Access Services traffic jointly handled by BTI and GTE via the meet-point arrangement. Information shall be exchanged in Electronic Message Record ("EMR") format, on magnetic tape or via a mutually acceptable electronic file transfer protocol.
- 8.1.7 BTI and GTE shall work cooperatively to coordinate rendering of Meet-Point bills to customers, and shall reciprocally provide each other usage data and related information at the appropriate charge.

8.2 Compensation

- 8.2.1 Initially, billing to Access Service customers for the Switched Access Services jointly provided by BTI and GTE via the MPB arrangement shall be according to the multiple-bill method as described in the MECAB guidelines. This means each Party will bill the portion of service they provided at their appropriate tariff, or price list.
- 8.2.2 Subsequently, BTI and GTE may mutually agree to implement one of the following options for billing to third parties for the Switched Access Services jointly provided by BTI and GTE via the MPB arrangement: single-bill/single tariff method, single-bill/multiple tariff method, or to continue the multiple-bill method. Should BTI prefer to change among these billing methods, BTI shall notify GTE of such a request in writing, ninety (90) Business Days in advance of the date on which such change is desired to be implemented, such changes then

may be made in accordance with MECAB guidelines and if GTE mutually agrees, the change will be made.

9. Common Channel Signaling

- 9.1 Service Description. The Parties will provide Common Channel Signaling ("CCS") to one another via Signaling System 7 ("SS7") network interconnection, where and as available, in the manner specified in FCC Order 95-187, in conjunction with all traffic exchange trunk groups. The Parties will cooperate on the exchange of all appropriate SS7 messages for local and intraLATA call set-up signaling, including ISUP and Transaction Capabilities Application Part ("TCAP") messages to facilitate full interoperability of all CLASS Features and functions between their respective networks. Any other SS7 message services to be provided using TCAP messages (such as data base queries) will be jointly negotiated and agreed upon.
- 9.2 Signaling Parameters. All SS7 signaling parameters will be provided in conjunction with traffic exchange trunk groups, where and as available. These parameters include Automatic Number Identification ("ANI"), Calling Party Number ("CPN"), Privacy Indicator, calling party category information, originating line information, charge number, etc. Also included are all parameters relating to network signaling information, such as Carrier Information Parameter ("CIP"), wherever such information is needed for call routing or billing. GTE will provide SS7 via GR-394-SS7 and/or GR-317-SS7 format(s).
- 9.3 Privacy Indicators. Each Party will honor all privacy indicators as required under applicable law.
- 9.4 Connection Through STP. BTI must interconnect with the GTE STP(s) serving the LATA in which the traffic exchange trunk groups are interconnected. Additionally, all interconnection to GTE's 800/888 database and GTE's LIDB shall, consistent with this section, take place only through appropriate STP pairs.
- 9.5 Third Party Signaling Providers. BTI may choose a third-party SS7 signaling provider to transport messages to and from the GTE SS7 network. In that event, that third-party provider must present a letter of agency to GTE, prior to the testing of the interconnection, authorizing the third party to act on behalf of BTI in transporting SS7 messages to and from GTE. The third-party provider must interconnect with the GTE STP(s) serving the LATA in which the traffic exchange trunk groups are interconnected.
- 9.6 Multi-Frequency Signaling. In the case where CCS is not available, in band Multi-Frequency ("MF"), wink start, E & M channel associated signaling with ANI will be provided by the Parties. Network signaling information, such as CIC/OZZ, will be provided wherever such information is needed for call routing or billing.
10. Service Quality and Performance. Each Party shall provide Services under this Article to the other Party that are equal in quality to that the Party provides to itself, its Affiliates or any

other entity. "Equal in quality" shall mean that the Service will meet the same technical criteria and performance standards that the providing Party uses within its own network for the same Service at the same location under the same terms and conditions.

11. Network Outages. GTE shall work with BTI to establish reciprocal responsibilities for network outages and reporting. Each party shall be responsible for network outage as a result of termination of its equipment in GTE wire center or access tandem. BTI shall be responsible for notifying GTE of significant outages which could impact or degrade GTE switches and services.

12. Technical Descriptions and Forecasts. GTE and BTI will periodically exchange technical descriptions and forecasts of their interconnection and traffic requirements in sufficient detail to assure traffic completion to and from all customers within the appropriate calling areas.

ARTICLE V RESALE OF SERVICES

1. **General.** The purpose of this Article V is to define the Exchange Services and related Vertical Features and other Services (collectively referred to for purposes of this Article V as the "Services") that may be purchased from GTE and resold by BTI and the terms and conditions applicable to such resold Services. Except as specifically provided otherwise in this Agreement, provisioning of Exchange Services for resale will be governed by the GTE Customer Guide for BTI Establishment of Services - Resale and Unbundling (the "Guide"), which Guide may be amended from time to time by GTE as needed. GTE shall provide reasonable advance notification to BTI of any changes to the Guide. GTE will make available to BTI for resale any Telecommunications Service that GTE currently offers, or may offer hereafter, on a retail basis to subscribers that are not telecommunications carriers, except as qualified by Section 2.2 below.
2. **Terms and Conditions.**
 - 2.1 **Quality and Performance.** The Services that GTE provides to BTI under this Article shall be equal in quality and performance standards to the same Services provided by GTE to its own end user customers.
 - 2.2 **Restrictions on Resale.** The following restrictions shall apply to the resale of retail services by BTI.
 - 2.2.1 BTI shall not resell Basic Exchange Residential Service.
 - 2.2.2 BTI shall not resell to one class of customers a service that is offered by GTE only to another class of customers in accordance with State requirements (e.g., R-1 to B-1, disabled services or Lifeline services to non-qualifying customers).
 - 2.2.3 BTI shall not resell public pay telephone lines.
 - 2.2.4 BTI shall not resell semi-public pay telephone lines.
 - 2.2.5 BTI shall not resell promotional offerings.
 - 2.3 **Restrictions on Discount of Retail Services.** The discount specified in Section 5.3 herein shall apply to all retail services except for the following:
 - 2.3.1 BTI shall resell services that are provided at a volume discount in accordance with terms and conditions of applicable tariff. BTI shall not aggregate end user traffic in order to qualify for volume discount.
 - 2.3.2 BTI shall resell ICB/Contract services without a discount and only to end user customers that already have such services.

- 2.3.3 BTI shall resell COCOT coin or coinless line but no discount applies.
- 2.3.4 BTI shall resell Lifeline services and services for the disabled but no discount shall apply and they shall only be resold to end user customers who qualify under GTE's tariffs and state/Commission rules, orders and regulations.
- 2.3.5 BTI shall resell special access but no discount applies.
- 2.3.6 BTI shall resell Operator Services and Directory Assistance as specified in Section 5.7 herein; however, no discount applies.
- 2.4 Resale to Other Carriers. Services available for resale may not be used by BTI to provide access to the local network as an alternative to tariffed switched and special access by other carriers, including, but not limited to; interexchange carriers, wireless carriers, competitive access providers, or other retail telecommunications providers.
3. Ordering and Billing.
- 3.1 Local Service Request. Orders for resale of Services will be placed utilizing a standard Local Service Request ("LSR") form. A complete and accurate LSR (containing the requisite end user information as described in the Guide) must be provided by BTI before a request can be processed.
- 3.2 Certificate of Operating Authority. When ordering, BTI must represent and warrant to GTE that it is a certified provider of local dial-tone service. BTI will provide a copy of its Certificate of Operating Authority or other evidence of its status to GTE upon request.
- 3.3 Letter of Authorization. A Letter of Authorization ("LOA") will be required before resold Services will be provided in cases in which the subscriber currently receives Exchange Service from GTE or from a local service provider other than BTI. Such LOA may be a blanket LOA or such other form as agreed upon between GTE and BTI, provided, however, that BTI complies with the requirements for a signed LOA from the end user as specified in Section 3.4 when requesting information from GTE end user customer accounts.
- 3.4 Services Ordered. BTI shall specify each specific GTE Service ordered for each BTI end user customer: *i.e.*, GTE will not transfer Services "as is." GTE will not release information to BTI on GTE end user customer accounts unless BTI first provides a written Letter of Authorization, signed by the end user customer, authorizing the release of such information to BTI.
- 3.5 Nonrecurring Charges. BTI shall be responsible for the payment of all nonrecurring charges ("NRCs") applicable to resold Services (e.g., installation, changes, ordering charges) in accordance with the applicable tariff referenced on Appendix E. No discount applies to nonrecurring charges.

- 3.6 Transfers Between BTI and Another Reseller of GTE Services. When BTI has obtained an end user customer from another reseller of GTE services, BTI will inform GTE of the transfer by submitting a standard LSR to GTE. Such LSR must contain the code of the displaced reseller, indicating that BTI has advised the displaced reseller that the end user has chosen BTI as their new local service provider.
- 3.7 Responsibility for Payment. All charges for Services provided for resale under this agreement will be billed to BTI, including all applicable taxes and surcharges, as well as the End User Common Line ("EUCL") Charge from GTOC Tariff FCC No. 1. BTI is responsible for payment of charges billed, regardless of any billing arrangement or situation between BTI and its end user customer.
- 3.8 Fraud. Except as provided in Article III, Section 11, BTI assumes responsibility for all fraud associated with its end user customers and accounts. GTE takes no responsibility, will not investigate and will make no adjustments to BTI's account in cases of fraud.
- 3.9 Local Calling Detail. Except for those Services and in those areas where measured rate local service is available to end users, monthly billing to BTI does not include local calling detail. However, BTI may request and GTE shall consider developing the capabilities to provide local calling detail in those areas where measured local service is not available for a mutually agreeable charge.
- 3.10 Customer Contact and Referral. BTI will provide GTE with a number for referral of inquiries from BTI end user customers. GTE will refer to BTI all inquiries or other calls from BTI's end user customers. GTE will also provide BTI with a number for referral of inquiries from GTE end user customers, to which BTI will refer all inquiries or other calls from GTE's end user customers.
- 3.11 Procedures. An overview of the procedures for preordering, ordering, provisioning and billing for resold services are outlined in Appendix G, attached hereto and made a part hereof.
- 3.12 LIDB. For resale services, GTE's service order will generate updates to the LIDB for validation of calling card, collect, and third number billed calls.
- 3.13 OLN. Upon request, GTE will update the database to provide Originating Line Number (OLN) Screening which indicates to an operator the acceptable billing methods for calls originating from the calling number (e.g., penal institutions, COCOTS).
4. Maintenance.
- 4.1 Maintenance, Testing and Repair. GTE will provide repair and maintenance services to BTI and its end user customers for resold Services in accordance with the same standards used for such services provided to GTE end user customers. GTE will not initiate a maintenance call or take action in response to a trouble report until such time as trouble is

reported to GTE by BTI. BTI must provide to GTE all end user information necessary for the installation, repair and servicing of any facilities used for resold Services according to the procedures described in the Guide.

- 4.2 Specifics and Procedures for Maintenance An overview of the procedures for maintenance of resold services and additional matters agreed to by the Parties concerning maintenance are set forth in Appendix G.
5. Services Available for Resale
- 5.1 Description of Local Exchange Services Available for Resale Resold basic Exchange Service includes, but is not limited to, the following elements;
- (a) Voice Grade Local Exchange Access Line - includes a telephone number and dial tone.
 - (b) Local Calling - at local usage measured rates if applicable to the end user customer.
 - (c) Access to long distance carriers
 - (d) Access to GTE Operator Services
 - (e) Access to GTE Directory Assistance
 - (f) E-911 Emergency Dialing
 - (g) Access to Special Access Codes - e.g., 800, 888, 900
 - (h) Listing of telephone number in appropriate "white pages" directory; and
 - (i) Copy of "White Pages" and "Yellow Pages" directories for the appropriate GTE service area
- 5.2 List of Services Available for Resale The type of Services listed on Appendix E, attached hereto and made a part of this Agreement, are available for resale by BTI. Subject to the limitations on resale enumerated in this Article, any new services that GTE offers in the future at retail to customers who are not telecommunications carriers shall also be available to BTI for resale under the same terms and conditions contained in this Agreement. Additional regulations, terms and conditions relating to the type of Services listed on Appendix E can be found in the appropriate intrastate local, toll and access tariffs referenced on Appendix E of this Agreement. Terms, conditions and other matters concerning rate applications, technical parameters, provisioning capability, definitions and feature interactions contained in such tariffs are applicable to the type of Services offered under this Agreement and are incorporated herein by reference. Modifications to Services

listed on Appendix E shall be provided to BTI in accordance with GTE's practices and procedures.

- 5.3 Rates. The prices charged to BTI for Local Services shall be calculated as follows:
- (1) An Avoided Cost Discount (set forth in Appendix E) shall apply to all retail services except those services listed in Section 2.2 and Section 2.3 herein.
 - (2) The discount dollar amount calculated under Step 1 above will be deducted from the retail rate.
 - (3) The resulting rate is the Wholesale Rate.
 - (4) This discount dollar amount in Step 2 above shall not change during the Term of this Agreement, even though GTE may change its retail rates.

For resold business lines, GTE shall assess BTI a charge for lost contribution associated with intraLATA toll if GTE does not provide the intraLATA toll associated with the line as specified in Appendix C.

- 5.4 Grandfathered Services. Services identified in GTE Tariffs as grandfathered in any manner are available for resale only to end user customers that already have such grandfathered service. An existing end user customer may not move a grandfathered service to a new service location.
- 5.5 ICB Services. Services provided by GTE to its end users established as an ICB (Individual Case Basis) service are available for resale. However, no discount applies to ICB Services.
- 5.6 Access. GTE retains all revenue due from other carriers for access to GTE facilities, including both switched and special access charges.
- 5.7 Operator Services (OS) and Directory Assistance (DA). Where GTE provides access to GTE Operator Services for local and toll assistance (for example, call completion, busy line verification and emergency interruption) and Directory Assistance (e.g., 411 calls routed to GTE's DA operator centers) as an element of Exchange Services offered for resale, BTI will be billed in accordance with Appendix E. GTE will provide its existing OS and DA to BTI at the same quality and in a nondiscriminatory manner as the service GTE's end users receive.
- 5.7.1 Where Customized Routing is available (see Article VII) and BTI so requests, GTE will offer unbranded OS and DA or rebranded OS and DA with BTI brand. GTE will provide such unbranding or rebranding on a switch-by-switch basis, subject to capability and capacity limitations. Upon receipt of an order for

unbranding or rebranding, GTE will implement within 90 business days when technically capable.

5.7.2 BTI will be billed for unbranding or rebranding and Customized Routing. Upon written request from BTI, GTE will provide BTI with terms and conditions for providing Customized Routing and branding, plus the applicable charges.

5.7.3 For those offices that BTI has requested GTE to rebrand and/or unbrand OS and DA, BTI shall continue exclusively to use GTE branded and/or unbranded OS and DA for the duration of the Agreement. Live operators handling OS and DA calls from BTI local service customers will identify themselves as BTI operators; where such rebranding is not technically feasible, live operator response will be provided on an unbranded basis. BTI agrees to withdraw its request for branding of OS and DA for calls that are handled by automated systems until these systems are capable of rebranding.

5.8 Discount. No discount applies to operator services/ directory assistance.

ARTICLE VI UNBUNDLED NETWORK ELEMENTS

1. General. The purpose of this Article VI is to define the unbundled network elements that may be purchased by BTI from GTE. Unless otherwise specified in this Agreement, provisioning of unbundled network arrangements will be governed by the GTE Customer Guide for BTI Establishment of Services - Resale and Unbundling. Additional procedures for preordering, ordering, provisioning and billing of unbundled network elements are in Appendix G.

2. Unbundled Network Elements

2.1 Categories. There are several separate categories of Network Components that shall be provided as unbundled network elements by GTE:

- (a) Network Interface Device or NID
- (b) Loop Elements
- (c) Port and Local Switching Elements
- (d) Transport Elements
- (e) Signaling Elements
- (f) Data Switching
- (g) Digital Cross Connect System (DCS)

2.2 Prices. Individual unbundled network elements and prices are identified on Appendix F attached to this Agreement and made a part hereof, or under the appropriate GTE tariff as referenced in this Article. Nonrecurring charges relating to unbundled elements are also listed on Appendix F. The port element consists of two components, termination and usage (*i.e.*, minutes of use). Additional switch features may be purchased in bulk at a price to be agreed upon by the Parties, or switch features may be purchased individually as Services pursuant to Article V.

2.2.1 Reciprocal Compensation Arrangements for Call Termination. Reciprocal compensation arrangements for call termination shall be as provided in Appendix K attached hereto.

2.3 Interconnection to Unbundled Elements. BTI may lease and interconnect to whichever of these unbundled network elements BTI chooses, and subject to technical feasibility, may combine these unbundled elements with any facilities or services that BTI may itself provide, subject to the following terms:

- 2.3.1 Interconnection shall be achieved via expanded interconnection/collocation arrangements BTI shall maintain at the wire center at which the unbundled services are resident.
- 2.3.2 BTI may order transport from the wire center at which the unbundled elements (e.g., loop, port) are located to the GTE wire center where BTI has established an interconnection/collocation arrangement.
- 2.3.3 Each loop or port element shall be delivered to BTI collocation arrangement over a loop/port connector applicable to the unbundled services through other tariffed or contracted options.
- 2.3.4 BTI shall perform for itself the combining of unbundled network elements with its own facilities, whether its right to use those facilities is through ownership, lease, or other legal means. GTE has no obligation to combine any network elements for BTI. BTI may not use unbundled network elements to provide solely interexchange service or solely access service to an interexchange carrier for any particular customer or for all customers.

3. Network Interface Device.

- 3.1 Direct Connection. BTI shall be permitted to connect its own Loop directly to GTE's Network Interface Device or NID in cases in which BTI uses its own facilities to provide local service to an end user formerly served by GTE, as long as such direct connection does not adversely affect GTE's network. In order to minimize any such adverse effects, BTI shall follow the procedures in Sections 3.1.1, 3.1.2 and 3.1.3 below.
 - 3.1.1 When connecting its own loop facility directly to GTE's NID for a residence or business customer, BTI must make a clean cut on the GTE drop wire at the NID so that no bare wire is exposed. BTI shall not remove or disconnect GTE's drop wire from the NID or take any other action that might cause GTE's drop wire to be left lying on the ground.
 - 3.1.2 At multi-tenant customer locations, BTI must remove the jumper wire from the distribution block (i.e., the NID) to the GTE cable termination block. If BTI cannot gain access to the cable termination block, BTI must make a clean cut at the closest point to the cable termination block.
 - 3.1.3 GTE agrees to offer NIDs for lease to BTI but not for sale. BTI may remove GTE identification from any NID which it connects to a BTI loop, but BTI may not place its own identification on such NID.
- 3.2 NID to NID Connection. Rather than connecting its loop directly to GTE's NID, BTI may also elect to install its own NID and effect a NID to NID connection to gain access to the end user's inside wiring.

- 3.3 **Removal of Cable Pairs** Removal of existing cable pairs required for BTI to terminate service is the responsibility of BTI.
- 3.4 **Maintenance** When BTI provides its own loop and connects directly to GTE's NID, GTE does not have the capability to perform remote maintenance. BTI can perform routine maintenance via its loop and inform GTE once the trouble has been isolated to the NID and GTE will repair (or replace) the NID, or, at BTI's option, it can make a NID to NID connection, using the GTE NID only to gain access to the inside wire at the customer location.
4. **Loop Elements**
- 4.1 **Service Description** A "Loop" is an unbundled component of Exchange Service. In general, it is the transmission facility (or channel or group of channels on such facility) which extends from a Main Distribution Frame ("MDF") or functionally comparable piece of equipment in a GTE end office or wire center to a demarcation or connector block in/at a subscriber's premises. Traditionally, Loops were provisioned as 2-wire or 4-wire copper pairs running from the end office MDF to the customer premises. However, a loop may be provided via other media, including radio frequencies, as a channel on a high capacity feeder/distribution facility which may, in turn, be distributed from a node location to the subscriber premises via a copper or coaxial drop facility, etc.
- 4.2 **Categories of Loops** There are three general categories of loops:
- 4.2.1 "2-wire analog voice grade" loops will support analog transmission of 300-3000 Hz, repeat loop start or ground start seizure and disconnect in one direction (toward the end office switch), and repeat ringing in the other direction (toward the end user). This loop is commonly used for local dial tone service;
- 4.2.2 "4-wire analog voice grade" loops conform to the characteristics of a 2-wire voice grade loop and, in addition, can support the simultaneous independent transmission of information in both directions;
- 4.2.3 "DS-1" loops will support the transmission of a digital signal rate of 1.544 mbps to provide the equivalent of 24 incoming trunk type Exchanges Services.
- 4.2.4 "DS-3" loops will support the transmission of isochronous bipolar serial data at a rate of 44.736 Mbps. This DS-3 type of loop provides the equivalent of 28 DS-1 channels.
- 4.3 **Loops for Digital Services** BTI may also lease 2-wire or 4-wire Loops that have been conditioned to transmit the digital signals needed to provide services such as ISDN, ADSL, HDSL and DS-1 level signals, subject to the limitations indicated in Sections 4.6 and 4.7. The price for such conditioned Loops shall be the price for the basic 2-wire or 4-wire loop, as applicable, that is listed in Appendix E, plus the applicable charge for the

special conditioning as provided for in the appropriate GTE intrastate special access tariff. Prices for DS-3 grade Loops are the prices set forth in the appropriate GTE intrastate special access tariff.

- 4.4 Features, Functions, Attributes, Etc. To the degree possible, all transport-based features, functions, service attributes, grades-of-service, installation, maintenance and repair intervals that apply to the bundled services will apply to unbundled loops.
- 4.4.1 GTE will not perform routine testing of the unbundled loop for maintenance purposes. BTI will be required to provision a loop testing device either in its CO, Network Control Center or in its collocation arrangement to test the unbundled loop. GTE will perform repair and maintenance once trouble is identified by BTI.
- 4.4.2 All Loop facilities furnished by GTE on the premises of BTI's end users and up to the network interface or functional equivalent are the property of GTE. GTE must have access to all such facilities for network management purposes. GTE employees and agents may enter said premises at any reasonable hour to test and inspect such facilities in connection with such purposes or, upon termination or cancellation of the Loop facility, to remove such facility.
- 4.4.3 GTE will provide loop transmission characteristics to BTI end users which are equal to those provided to GTE end users.
- 4.4.4 If BTI leases loops which are conditioned to transmit digital signals, as a part of that conditioning, GTE will test the loop and provide recorded test results to BTI. In maintenance and repair cases, if loop tests are taken, GTE will provide any recorded readings to BTI at time the trouble ticket is closed in the same manner as GTE provides to itself and its end users.
- 4.5 Digital Loop Carrier. Where GTE utilizes integrated digital loop carrier ("IDLC")* technology to provision the Loop element, GTE will take the necessary affirmative steps to provide unbundled Loops. The basic Loop provided will support voice grade services. Loop capabilities beyond voice grade (i.e., ISDN, ADSL, etc.) will be provided under the terms and conditions, and at the prices indicated in Section 4.3.
- * See Bellcore TR-TSY-000008, Digital Interface Between the SLC-96 Digital Loop Carrier System and Local Digital Switch and TR-TSY-000303, Integrated Digital Loop Carrier (IDLC) Requirements, Objectives and Interface.
- 4.5.1 GTE will permit BTI to collocate digital loop carriers and associated equipment in conjunction with collocation arrangements BTI maintains at a GTE wire center for the purpose of interconnecting to unbundled Loop elements.
- 4.6 Unbundled Loop Facility Certification.

- 4.6.1 Before deploying any service enhancing copper cable technology (e.g., HDSL, ISDN, etc.) over unbundled 2-wire analog voice grade loops leased from GTE, BTI shall notify GTE of such intentions to enable GTE to assess the loop transport facilities to determine whether there are any existing copper cable loop transport technologies (e.g., analog carrier, etc.) deployed within the same cable sheath that would be interfered with if BTI deployed the proposed service enhancing copper cable technology. If there are existing copper cable loop transport technologies already deployed within the same cable sheath, or if GTE already has existing near term (within 18 months of the date of facility certification) plans to deploy copper cable loop transport technologies that would be interfered with as described above, for which GTE can demonstrate a specific commitment by producing engineering plans. GTE will so inform BTI and BTI shall not be permitted to deploy such service enhancing copper cable technologies. GTE will charge BTI the reasonable costs for engineering time and labor.
- 4.6.2 If BTI fails to notify GTE of its plans to deploy service enhancing copper cable technology and obtain prior certification from GTE of the facilities, if BTI's deployment of such technology is determined to have caused interference with existing or planned copper cable loop transport technologies deployed by GTE in the same cable sheath, BTI will immediately remove such service enhancing copper cable technology and shall reimburse GTE for all incurred expense related to this interference.

4.7 Unbundled Loop Facility Notification

- 4.7.1 GTE reserves the right to deploy within its network at its sole discretion any and all copper cable loop transport technologies, subject to the restrictions addressed by Section 4.7.3 in the event of an interference with technology deployed by BTI. If GTE plans to deploy copper cable loop transport technology within a cable sheath in which such technology was not previously deployed, GTE will provide notice to BTI of such planned deployment, indicating all service enhancing copper cable technologies that would cause interference with the technology to be deployed, or that would be interfered with by the deployment of such technology. Such notice will be provided at least ninety (90) days in advance of the planned deployment. If procedures required in section 4.7.3 are not followed and BTI has deployed any technologies within the same cable sheath that would interfere with, or be interfered with, by the technology GTE plans to deploy, BTI shall remove such interfering technology.
- 4.7.2 If BTI fails to comply with GTE's notification pursuant to section 4.7.1 and remove the interfering technology when required under section 4.7.1, and the other Party's deployment of such technology is determined to have actually caused interference with the copper cable loop transport technologies deployed by GTE in the same cable sheath, a second notification will be sent to BTI. If BTI fails to comply with such second notification by immediately removing such service

enhancing copper cable technology, GTE will take the necessary action to isolate the interfering technology from its network. In that event, BTI shall reimburse GTE for all incurred expense related to these activities.

- 4.7.3 Prior to GTE deploying service enhancing copper cable technology, as described above, GTE will validate, through a search of its facility assignment records, that BTI has not deployed technologies within the same cable sheath that would be interfered with by those planned by GTE. Should such incompatibility exist, GTE will not deploy such technology that would interfere with those already deployed by BTI.

Should GTE deploy service enhancing copper cable technology that is determined to interfere with technology previously deployed by BTI and BTI can demonstrate that it had complied with GTE's Unbundled Loop Facility Certification procedure, GTE will remove the interfering technology from the cable sheath and reimburse BTI for all incurred expenses related to this interference or will not install the interfering technology.

- 4.8 End Office. On each unbundled network element order in a wire center, GTE will perform the end office activities necessary for an unbundled loop conversion between 7:00 a.m. and 9:00 a.m. on the due date. If field work is required for an unbundled loop conversion, GTE will perform these activities between 8:00 a.m. and 5:00 p.m. If GTE is unable to perform any aspect of the desired conversion, GTE will contact BTI as soon as reasonably practical.

4.9 Subloops.

- 4.9.1 GTE will provide as separate items the loop distribution, loop concentrator and loop feeder on a case-by-case basis pursuant to a Bona Fide Request ("BFR"), when technically feasible and when BTI pays the cost of such separate provision.
- 4.9.2 GTE will design and construct loop access facilities (including loop feeders and loop concentration/multiplexing systems) in accordance with standard industry practices as reflected in applicable tariffs and/or as agreed to by GTE and BTI.
- 4.9.3 Transport for loop concentrators/multiplexers services not supported by embedded technologies will be provided pursuant to applicable tariffs or as individually agreed upon by GTE and BTI. The Parties understand that embedded loop concentrators/multiplexers are not necessarily capable of providing advanced and/or digital services.
- 4.9.4 GTE will provide loop transmission characteristics as specified in Section 4.4.3 herein.

5. Port and Local Switching Elements.

- 5.1 Service Description. "Port" is an unbundled component of Exchange Service that provides for the interconnection of individual loops to the switching components of GTE's network. In general, it is a line card and associated peripheral equipment on GTE end office switch that serves as the hardware termination for the end user's Exchange Service on that switch and generates dial tone and provides the end user access to the public switched telecommunications network. The port does not include such features and functions that are provided as part of local switching. Each port is typically associated with one (or more) telephone number(s), which serve as the end user's network address.
- 5.2 Types of Ports. There are two basic types of port services, line-side and trunk-side, each of which provide certain types of functions;
- 5.2.1 Line-side Ports provide the following types of functions;
- On-hook and off-hook detection
 - Dial tone
 - Digit reception and interpretation (dial pulse or dual tone multi frequency)
 - Network call routing to the called telephone number
 - Audible ringing and power ringing
 - Automatic message accounting (AMA) recording
 - Disconnect detection
 - Access to GTE switch based services and functions
- 5.2.2 Trunk-side Ports provide the following types of functions;
- Digit pulsing (DP), dual tone multi frequency (DTMF) and multi frequency (MF)
 - Digit reception and interpretation
 - Network routing toward terminating telephone number
 - Answer detection and supervision signaling
 - Access to GTE switch based services and functions
- 5.3 Ports Available as Unbundled Network Elements. There are four types of Ports available as unbundled network elements;
- 5.3.1 "2-wire analog line" Port is a line side switch connection employed to provide basic residential and business type Exchange Service.
- 5.3.2 "2-wire ISDN digital line" Port is a Basic Rate Interface (BRI) line side switch connection employed to provide ISDN Exchange Services.
- 5.3.3 "DS-1 digital trunk" Port is a direct inward dialing (DID) trunk side switch connection employed to provide the equivalent of 24 analog incoming trunk type Exchange Services.

- 5.3.4 "4-wire ISDN digital DS-1 trunk" Port is a Primary Rate Interface (PRI) trunk side switch connection employed to provide the ISDN Exchange Services
- 5.4 Port Prices. Prices for 2-wire analog and DS-1 Ports are listed in Appendix F. 2-wire ISDN line side Ports and 4-wire ISDN trunk side Ports shall be provided at a price to be agreed to by the Parties.
- 5.5 Service Parity. To the degree possible, all service attributes, grades-of-service and installation, maintenance and repair intervals which apply to the bundled service will apply to unbundled Ports.
- 5.6 Future Interfaces. GTE will make available as unbundled network elements any interfaces that are deployed within its switches and which it provides to its own end user customers. GTE will interface with BTI using standard industry interfaces and support future interfaces that are deployed within the GTE switch.
- 5.7 Local Switching. Local switching provides the basic switching functions to originate, route and terminate traffic and any signaling deployed in the switch. GTE will not offer individual core switch functions and features on an a la carte basis. Vertical features and CLASS services are not part of Local Switching. GTE will only provide switch features and functions of which the particular switch is capable and inherent to the particular switching platform used (e.g., DMS, SESS, GTD5).
- 5.8 BTI must purchase Local Switching with the line-side Port or trunk-side Port, if applicable.
- 5.9 BTI shall only order unbundled elements and it will be the responsibility of BTI to make arrangements for the delivery of interexchange traffic and routing of traffic over interoffice transmission facilities, if applicable.
- 5.10 GTE will provide tandem switching capability at GTE access tandems for traffic between BTI and GTE end offices subtending the GTE access tandem and for traffic between BTI and non-GTE end offices subtending GTE access tandems. GTE will provide the features and functions that are centralized in tandem switches including but not limited to call recording, the routing of calls to operator services when technically feasible, and signaling conversion features.
6. Transport Elements.
- 6.1 Service Description. Transport is an unbundled component of Exchange Service. In general, it is the transmission facility (or channel or group of channels on such facility) which extends from a Main Distribution Frame (MDF) or functionally comparable piece of equipment in a GTE end office or access tandem to either (i) another MDF or functionally comparable piece of equipment in a GTE end office or access tandem, or (ii) a meet point with transport facilities of BTI or another carrier. Transport may be provided over a

variety of media, including, but not limited to, copper cables, radio frequencies or channels on a high capacity facility.

- 6.2 Categories/Types. Unbundled transport is provided under rates, terms and conditions of the applicable GTE special access tariff or local private line tariff.

7. SS7 Transport and Signaling. SS7 signaling and transport services in support of BTI's local exchange services shall be provided in accordance with the terms and conditions of appropriate tariffs.

8. LIDB Services. Access to GTE's LIDB shall be provided in accordance with the rates, terms and conditions of GTE's switched access tariff, GTOC Tariff FCC No. 1, Section 8.

9. Database 800/888 Services. Access to GTE's 800/888 database shall be provided in accordance with the rates, terms and conditions of GTE's standard 800 Data Base Carrier Selection Service Agreement.

10. Data Switching.

10.1 Access. GTE will provide unbundled access to GTE data switches to BTI at the user network interface ("UNI") and network to network interface ("NNI") level subject to mutual agreement on technical standards.

10.2 Nondiscrimination. Data switching features and functionalities provided to BTI will be without discrimination with respect to the way GTE provides them to GTE end users. In the event of overflow or congestion conditions on the data switching network, BTI's data traffic carried on GTE facilities will be equal priority to GTE data traffic.

10.3 Interface. To the extent a standard interface is available in a GTE switch, it will be made available to BTI.

10.4 Testing, Monitoring, Administration and Maintenance. Testing, monitoring, administration and maintenance will be performed by GTE in a nondiscriminatory manner.

11. Digital Cross Connect System (DCS).

11.1 Access. GTE will provide unbundled access to the DCS element, which shall provide automated cross-connection (with CNC), facility grooming, bridging (MJU-digital), point to multipoint connections (DMB-analog), broadcast and automated facility test capabilities. These functionalities will be provided consistent with that which is provided to GTE end users. BTI shall submit a Bona Fide Request to GTE specifying these functionalities.

11.2 Optional Characteristics. The DCS element may include multiplexing, format conversion, signaling conversion and manual cross connection wiring.

- 11.3 Alternate Provisioning. Where no automated DCS capability exists, the cross connection function will be provided manually by GTE through the combination of DSX patch panels and D4 banks or DS0 (or higher capacity) equipment.
- 11.4 Elements. BTI will have access to the following DCS elements:
- (a) DS0 with DS1 interface (CNC)
 - (b) DS1/VT1.5 with DS1, DS3 and SONET interfaces (CNC and Titan 5500)
- 11.5 Capabilities. The DCS elements will provide the following capabilities:
- (a) Real-time configuration (with CNC)
 - (b) Real-time access to integrated test equipment (with React and Customer Service)
 - (c) SONET asynchronous gateway functionality (with Titan 5500 only)
 - (d) Compliance with Bellcore and industry standards.
- 11.6 Protection and Performance. The unbundled DCS elements provided to BTI will have equipment/interface protection, redundant power supply and/or battery backup and performance/availability consistent with that provided to GTE end users.
- 11.7 Provisioning, Administration and Maintenance. GTE will provide provisioning, administration and maintenance of the DCS elements at parity with GTE as well as real time access to performance monitoring and alarm data affecting BTI traffic (with CNC). GTE is not required to keep software updated to the "current available release" in every instance.
12. Operator Services (OS) and Directory Assistance (DA). GTE will provide OS and DA to BTI in accordance with the terms set forth as follows:
- 12.0.1 Where Customized Routing is available and BTI so requests, GTE will offer unbranded OS and DA or rebranded OS and DA with BTI brand. GTE will provide such unbranding or rebranding on a switch-by-switch basis, subject to capability and capacity limitations. Upon receipt of an order for unbranding or rebranding, GTE will implement within 90 Business Days when technically capable.
 - 12.0.2 BTI will be billed an element charge for OS and DA and a charge for unbranding or rebranding and Customized Routing as set forth in 12.1.
 - 12.0.3 For those offices that BTI has requested GTE to rebrand and/or unbrand OS and DA, BTI shall continue exclusively to use GTE rebranded and/or unbranded OS

and DA for the duration of the Agreement. Live operators handling OS and DA calls from BTI local service customers will identify themselves as BTI operators; where such rebranding is not technically feasible, live operator response will be provided on an unbranded basis. BTI agrees to withdraw its request for branding of OS and DA for calls that are handled by automated systems until these systems are capable of rebranding.

- 12.1 Customized Routing. Where technically feasible and upon receipt of written request from BTI, GTE agrees to provide customized routing for the following types of calls:

- 0-
- 0+Local
- 0+411
- 1+411
- 0+HNPA-555-1212 (intraLATA, only when intraLATA presubscription is not available)
- 1+HNPA-555-1212 (intraLATA, only when intraLATA presubscription is not available)

- 12.1.1 GTE will provide BTI a list of switches that can provide customized routing using line class codes or similar method (regardless of current capacity limitations). BTI will return a list of these switches ranked in priority order. GTE will return to BTI a schedule for customized routing in the switches with existing capabilities and capacity.

- 12.1.2 Upon written request from BTI, GTE will provide BTI with applicable charges, and terms and conditions, for providing OS and DA, branding, and Customized Routing.

- 12.1.3 Subject to the above provisions, GTE will choose the method of implementing customized routing of OS and DA calls.

- 12.1.4 The use of customized routing will require the purchase of a trunk side port and dedicated facilities between the GTE end office and the designated OS/DA platform.

13. Advanced Intelligent Network Access (AIN). GTE will provide BTI access to GTE AIN functionality from GTE's AIN SCP via GTE's local switch or BTI's local switch.

14. Nondiscrimination Provision and Support. GTE agrees to provide unbundled network elements in a timely manner considering the need and volume of requests. GTE will provide unbundled network elements in a non-discriminatory manner and shall provide power to such elements on the same basis as GTE provides to itself.

15. Advance Notification of Network and Technology Changes GTE will establish quarterly reviews of network and technology plans and will notify BTI six (6) months in advance of changes that would impact BTI's provision of services.

16. Provisioning Intervals GTE agrees to provide unbundled network elements in a timely manner considering the need and volume of requests, pursuant to agreed upon service provisioning intervals.

ARTICLE VII
ADDITIONAL SERVICES AND COORDINATED SERVICE ARRANGEMENTS

1. Bona Fide Request Process.

1.1 Intent. The Bona Fide Request process is intended to be used when BTI requests customized Service Orders for certain services, features, capabilities or functionality defined and agreed upon by the Parties as services to be ordered as Bona Fide Requests

1.2 Process.

1.2.1 A Bona Fide Request shall be submitted in writing by BTI and shall specifically identify the need to include technical requirements, space requirements and/or other such specifications that clearly define the request such that GTE has sufficient information to analyze and prepare a response.

1.2.2 Although not expected to do so, BTI may cancel a Bona Fide Request in writing at any time prior to BTI and GTE agreeing to price and availability. GTE will then cease analysis of the request.

1.2.3 Within two (2) Business Days of its receipt, GTE shall acknowledge in writing the receipt of the Bona Fide Request and identify a single point of contact and any additional information needed to process the request.

1.2.4 Except under extraordinary circumstances, within ten (10) Business Days of its receipt of a Bona Fide Request, GTE shall provide a proposed price and availability date, or it will provide a detailed explanation as to why GTE is not able to meet BTI's request. If extraordinary circumstances prevail, GTE will inform BTI as soon as it realizes that it cannot meet the ten (10) Business Day response due date. BTI and GTE will then determine a mutually agreeable date for receipt of the request.

1.2.5 Unless BTI agrees otherwise, all proposed prices shall be consistent with the pricing principles of the Act, FCC and/or the Commission. Payments for services purchased under a Bona Fide Request will be made upon delivery, unless otherwise agreed to by BTI, in accordance with the applicable provisions of the Agreement.

1.2.6 Upon affirmative response from GTE, BTI will submit in writing its acceptance or rejection of GTE's proposal. If at any time an agreement cannot be reached as to the terms and conditions or price of the request, the Dispute resolution procedures described above in this Article may be used by a Party to reach a resolution.

- 1.2.7 If GTE responds that it cannot or will not offer the requested item in the Bona Fide Request and BTI deems the item essential to its business operations, and deems GTE's position to be inconsistent with the Act, FCC or Commission regulations and/or the requirements of this Agreement, the Dispute resolution procedures described above in this Article may be used by a Party to reach a resolution.

2. Transfer of Service Announcements. When an end user customer transfers service from GTE to BTI, or from BTI to GTE, and does not retain its original telephone number, the Party formerly providing service to the end user will provide, upon request and if such service is provided to its own customers, a referral announcement on the original telephone number. This announcement will provide the new number of the customer, and will be available for the same period of time as the Party provides such referral announcements for its own end user customers.

3. Coordinated Repair Calls. The Parties will employ the following procedures for handling misdirected repair calls:

- 3.1 The Parties will educate their respective customers as to the correct telephone numbers to call to access their respective repair or customer care centers.
- 3.2 To the extent that the correct provider of service to the customer is identifiable, the Parties will refer customers that make misdirected repair calls to the other Party to the telephone number provided by the provider of service to that customer. Such referrals will be made in a courteous manner and at no charge to the other Party. Communications with end users of the other Party during such misdirected calls other than referral to the correct number are prohibited.
- 3.3 In responding to misdirected calls, neither Party shall make disparaging remarks about each other, nor shall they use these calls as a basis for internal referrals or to solicit end users or to market services.
- 3.4 The Parties will provide their respective repair/customer care contact numbers to one another on a reciprocal basis.

4. 911/E911 Arrangements.

- 4.1 Description of Service. Where BTI does not provide its own connections to a PSAP, BTI will install a minimum of two dedicated trunks to GTE's 911/E911 selective routers (i.e., 911 tandem offices) that serve the areas in which BTI provides Exchange Services, for the provision of 911/E911 services and for access to all subtending PSAPs. The dedicated trunks shall be, at minimum, DSO level trunks configured as a 2-wire analog interface or as part of a digital (1.544 Mbps) interface. Either configuration shall use CAMA type signaling with multifrequency (MF) tones that will deliver ANI with the voice portion of the call. GTE will provide BTI with the appropriate CLLI codes and specifications of the tandem office serving area and the 10-digit POTS number of each PSAP.

- 4.2 Transport. If BTI desires to obtain transport from GTE to the GTE 911 selective routers, BTI may purchase such transport from GTE at the rates set forth in GTE's intrastate switched access tariff or in GTE's intrastate special access tariff.
- 4.3 Cooperation and Level of Performance. The Parties will work together to facilitate the prompt, reliable and efficient interconnection of the other Party's systems to the 911/E911 platforms, with a level of performance that will provide the same grade of service as that which GTE provides to its own end users.
- 4.4 Updates to MSAG. It shall be the responsibility of BTI to ensure that the address of each of its end users is included in the Master Street Address Guide ("MSAG").
- 4.5 Updates to Database. GTE and BTI will work together to develop the process by which the 911/E911 database will be updated with the other Party's end user 911/E911 information.
- 4.6 Compensation. In situations in which GTE is responsible for maintenance of the 911/E911 database and can be compensated for maintaining the other Party's information by the municipality, GTE will seek such compensation from the municipality. GTE will seek compensation from BTI only if and to the extent that GTE is unable to obtain such compensation from the municipality. GTE shall charge BTI a portion the cost of the shared 911/E911 port.
5. Information Services Traffic.
- 5.1 Routing. Each Party shall route traffic for information services (e.g. 900, 976, N11, weather lines, sports lines, etc.) that originates on its network to the appropriate information services platforms connected to the other Party's network over the Local/IntraLATA trunks.
- 5.2 Recording. The Party on whose network the information services traffic originated (the "Originating Party") shall provide the recorded call detail information to the Party to whose information platform the information services traffic terminated (the "Terminating Party").
- 5.3 Rating. The Terminating Party shall provide to the Originating Party all rating information necessary to bill the information services traffic to the Originating Party's end users pursuant to the Terminating Party's agreements with each information provider.
- 5.4 Billing and Collection. The Originating party shall bill and collect such information service charges and shall remit the amounts collected to the Terminating Party less:
- (a) a mutually agreed upon fee for providing billing and collection of the information service charges; and

(b) any uncollectibles reserve, which shall be calculated based on the uncollectibles reserve in the Terminating Party's billing and collection agreement with the applicable information services provider; and

(c) any customer adjustment provided by the Originating Party.

5.5 Blocking. Nothing in this Agreement shall restrict either Party from offering to its end user customers the ability to block the completion of information service traffic.

6. Directory Assistance (DA) and Operator Services (OS). Where BTI is providing local service with its own switch, upon BTI's request GTE will provide to BTI rebranded or unbranded directory assistance services and/or operator services pursuant to separate contracts to be negotiated in good faith between the Parties. If BTI so requests directory assistance services and/or operator services, such contracts shall provide for the following:

6.1 Directory Assistance Calls. GTE directory assistance centers shall provide number and addresses to BTI end users in the same manner that number and addresses are provided to GTE end users. If information is provided by an automated response unit ("ARU"), such information shall be repeated twice in the same manner in which it is provided to GTE end users. Where available, GTE will provide call completion to BTI end users in the same manner that call completion is provided to GTE end users. GTE will provide its existing services to BTI end users consistent with the service provided to GTE end users.

6.2 Operator Services Calls. GTE operator services provided to BTI end users shall be provided in the same manner GTE operator services are provided to GTE end users. In accordance with GTE practices and at GTE rates, GTE will offer to BTI end users collect, person-to-person, station-to-station calling, third party billing, emergency call assistance, calling card services, credit for calls, time and charges, notification of the length of call, and real time rating. GTE operators shall also have the ability to quote BTI rates upon request but only if there is appropriate cost recovery to GTE and to the extent it can be provided within the technical limitations of GTE's switches. GTE will provide its existing services to BTI end users consistent with the service GTE provides to its own end users.

7. Directory Assistance Listings Information. GTE will include listings in its directory assistance database for BTI end users in the same geographic area as GTE provides directory assistance for GTE end users as specified on the LSR.

7.1 GTE shall provide to BTI, at BTI's request, for purposes of BTI providing BTI-branded directory assistance services to its local customers, within sixty (60) Business Days after an order for such tape is received, all published DA listings for that specific state via magnetic tape. Changes to the DA Listing Information shall be updated on a daily basis through the same means used to transmit the initial list. DA Listing Information provided shall indicate whether the customer is a residence or business customer. The rate to be paid by BTI to GTE will be reasonable and mutually agreed.

- 7.2 The Parties will not release DA Listing Information that includes the other Party's end user information to Third Parties without the other Party's approval. The other Party will inform the Releasing Party if it desires to have the Releasing Party provide the other Party's DA Listing Information to the Third Party, in which case, the Releasing Party shall provide the other Party's DA Listing Information at the same time as the Releasing Party provides the Releasing Party's DA Listing Information to the Third Party. The rate to be paid by the Releasing Party to the other Party shall be no more than the direct costs of compiling such information. The other Party shall be responsible for billing the Third Party.
- 7.3 The Parties will work together to identify and develop procedures for database error corrections.
8. Directory Listings and Directory Distribution. BTI will be required to negotiate a separate agreement for directory listings and directory distribution, except as set forth below, with GTE's directory publication company.

Listings. BTI agrees to supply GTE on a regularly scheduled basis, at no charge, and in a mutually agreed upon format (e.g. Ordering and Billing Forum developed), all listing information for BTI's subscribers who wish to be listed in any GTE published directory for the relevant operating area. Listing information will consist of names, addresses (including city, state and zip code) and telephone numbers. Nothing in this Agreement shall require GTE to publish a directory where it would not otherwise do so.

Listing inclusion in a given directory will be in accordance with GTE's solely determined directory configuration, scope, and schedules, and listings will be treated in the same manner as GTE's listings.

As described in the Directories Agreement, BTI's end users primary listings will be included in the GTE white pages as well as GTE's Directories Assistance database. BTI's business end users listings also will be included in all appropriate GTE yellow pages or classified directories.

GTE will also list in the information pages of the appropriate directories. BTI's critical customer contact numbers (e.g. business office, repair service, billing) in accordance with the terms and conditions of the Directories Agreement.

Distribution. Upon directory publication, GTE will arrange for the initial distribution of the directory to service subscribers in the directory coverage area at no charge.

BTI will supply GTE in a timely manner with all required subscriber mailing information including non-listed and non-published subscriber mailing information, to enable GTE to perform its distribution responsibilities.

9. Busy Line Verification and Interrupt. Each Party shall establish procedures whereby its operator assistance bureau will coordinate with the operator assistance bureau of the other Party to provide Busy Line Verification ("BLV") and Busy Line Verification and Interrupt ("BLVI") services on calls between their respective end users. Each Party shall route BLV and BLVI inquiries over separate inward operator services trunks to the operator services switch. Each Party's operator assistance bureau will only verify and/or interrupt the call and will not complete the call of the end user initiating the BLV or BLVI. Each Party shall charge the other for the BLV and BLVI services at the rates contained in Appendix E, or if there is no applicable rate listed in Appendix E, at the rates in their respective tariffs.

10. SAG. GTE will provide to BTI upon request the Street Address Guide at a reasonable charge. Two companion files will be provided with the SAG which lists all services and features at all LSOs, and lists services and features that are available in a specific LSO.

11. Dialing Format Changes. GTE will provide reasonable notification to BTI of changes to local dialing format, i.e., 7 to 10 digit, by end office.

12. Operational Support Systems (OSS). GTE shall provide OSS functions to BTI for ordering, provisioning and billing that are generally available as described in Appendix G attached to this Agreement. BTI shall pay GTE for access to GTE's OSS functions.

ARTICLE VIII
GENERAL RULES GOVERNING RESOLD SERVICES AND UNBUNDLED ELEMENTS

1. General. General regulations, terms and conditions governing rate applications, technical parameters, service availability, definitions and feature interactions, as described in the appropriate GTE intrastate local, toll and access tariffs, as referenced in the third column of Appendix E (the "GTE Retail Tariff"), apply to retail services made available by GTE to BTI for resale and unbundled network elements provided by GTE to BTI, when appropriate, unless otherwise specified in this Agreement. As applied to services or network elements offered under this Agreement, the term "Customer" contained in the GTE Retail Tariff shall be deemed to mean the other Party as defined in this Agreement.
2. Liability of GTE.
 - 2.1 Inapplicability of Tariff Liability. GTE's general liability, as described in the GTE Retail Tariff, does not extend to the other Party's customers or any other third party. Liability of GTE to BTI resulting from any and all causes arising out of services, facilities, network elements or any other items relating to this Agreement shall be governed by the liability provisions contained in this Agreement and no other liability whatsoever shall attach to GTE. GTE shall be liable for the individual services, facilities or elements that it separately provides to BTI and shall not be liable for the integration of components combined by BTI.
 - 2.2 BTI Tariffs or Contracts. BTI shall, in its tariffs or other contracts for services provided to its end users using services, facilities or network elements obtained from GTE, provide that in no case shall GTE be liable to BTI's end users or any third parties for any indirect, special or consequential damages, including, but not limited to, economic loss or lost business or profits, whether foreseeable or not, and regardless of notification by BTI of the possibility of such damages and BTI shall indemnify and hold GTE harmless from any and all claims, demands, causes of action and liabilities based on any reason whatsoever from its customers as provided in this Agreement. Nothing in this Agreement shall be deemed to create a third party beneficiary relationship with BTI's end users.
 - 2.3 No Liability for Errors. GTE is not liable for mistakes that appear in GTE's listings, 911 and other information databases, or for incorrect referrals of end users to BTI for any ongoing BTI service, sales or repair inquiries, and with respect to such mistakes or incorrect referrals, BTI shall indemnify and hold GTE harmless from any and all claims, demands, causes of action and liabilities whatsoever, including costs, expenses and reasonable attorney's fees incurred on account thereof, by third parties, including BTI's end users or employees. For purposes of this Section 2.3, mistakes and incorrect referrals shall not include matters arising out of the willful misconduct of GTE or its employees or agents.
3. Unauthorized Changes.

3.1 Procedures. If BTI submits an order for resold services or unbundled elements under this Agreement in order to provide service to an end user that at the time the order is submitted is obtaining its local services from GTE or another LEC using GTE resold services or unbundled elements, and the end user notifies GTE that the end user did not authorize BTI to provide local exchange services to the end user, BTI must provide GTE with written documentation of authorization from that end user within three (3) business days of notification by GTE. If BTI cannot provide written documentation of authorization within such time frame, BTI must within three (3) business days thereafter:

- (a) notify GTE to change the end user back to the LEC providing service to the end user before the change to BTI was made; and
- (b) provide any end user information and billing records BTI has obtained relating to the end user to the LEC previously serving the end user; and
- (c) notify the end user and GTE that the change back to the previous LEC has been made; and
- (d) pay GTE fifty dollars (\$50.00) per affected line to compensate GTE for switching the end user back to the original LEC.

3.2 Option to Restrict Changes Without Evidence of Authorization. The other Party's or GTE's end users may request that GTE permit changes of their provider of local exchange services only upon notification from the end user to GTE that the end user wishes to change the end user's provider of local exchange services. In such a situation, GTE will not change an end user's provider of local exchange services without such notification. A unique pass code may be given to such an end user.

4. Impact of Payment of Charges on Service. BTI is solely responsible for the payment of all charges for all services, facilities and elements furnished under this Agreement, including, but not limited to, calls originated or accepted at its or its end users' service locations. If BTI fails to pay when due any and all charges billed to BTI under this Agreement, including any late payment charges (collectively, "Unpaid Charges"), and any or all such charges remain unpaid more than forty-five (45) days after the due date of such Unpaid Charges, GTE shall notify BTI in writing that it must pay all Unpaid Charges to GTE within seven (7) business days. If BTI disputes the billed charges, it shall, within said seven (7) day period, inform GTE in writing of which portion of the Unpaid Charges it disputes, including the specific details and reasons for the dispute, immediately pay to GTE all undisputed charges, and shall pay disputed charges into an interest bearing escrow account. If BTI and GTE are unable, within thirty (30) days thereafter, to resolve issues related to the disputed charges, then either BTI or GTE may file a complaint with the Commission to resolve those issues. The Commission may direct the release of any or all funds (including any accrued interest) in the escrow account, plus applicable late fees, to be paid to GTE and or BTI. If BTI fails to pay any undisputed Unpaid Charges, BTI shall, at its sole expense, within five (5) business days notify its end users that their service may be disconnected for the other Party's failure to pay Unpaid Charges, and that its end users must select a new

provider of local exchange services. If BTI fails to provide such notification or any of the other Party's end users fail to select a new provider of services within the applicable time period, GTE will provide local exchange services to the other Party's end users under GTE's applicable end user tariff at the then current charges for the services being provided. In this circumstance, otherwise applicable service establishment charges will not apply to the other Party's end user, but will be assessed to BTI. GTE may discontinue service to BTI upon failure to pay undisputed charges as provided in this Section 4, and shall have no liability to BTI or their end users in the event of such disconnection.

5. Unlawful Use of Service. Services, facilities or unbundled elements provided by GTE pursuant to this Agreement shall not be used by BTI or its end users for any purpose in violation of law. BTI, and not GTE, shall be responsible to ensure that BTI and its end users use of services, facilities or unbundled elements provided hereunder comply at all times with all applicable laws. GTE may refuse to furnish service to BTI or disconnect particular services, facilities or unbundled elements provided under this Agreement to BTI or, as appropriate, BTI's end user when (i) an order is issued by a court of competent jurisdiction finding that probable cause exists to believe that the use made or to be made of the service, facilities or unbundled elements is prohibited by law or (ii) GTE is notified in writing by a law enforcement agency acting within its jurisdiction that any facility furnished by GTE is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law. Termination of service shall take place after reasonable notice is provided to BTI, or as ordered by the court. If facilities have been physically disconnected by law enforcement officials at the premises where located, and if there is not presented to GTE the written finding of a court, then upon request of BTI and agreement to pay restoral of service charges and other applicable service charges, GTE shall promptly restore such service.

6. Timing of Messages. With respect to measured rate local service or other usage sensitive services provided under this Agreement, chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network.

7. Procedures For Preordering, Ordering, Provisioning, Etc. Certain procedures for preordering, ordering, provisioning, maintenance and billing and electronic interfaces for many of these functions are described in Appendix G. All costs and expenses for any new or modified electronic interfaces BTI requires that GTE determines are technically feasible and GTE agrees to develop will be paid by BTI. The schedule for implementation of any new or modified electronic interfaces will be developed by GTE according to industry standards and will be based upon the amount of work needed to design, test and implement the new or modified interface.

8. Customer Contacts. Except as otherwise provided in this Agreement or as agreed to in a separate writing by BTI, BTI shall provide the exclusive interface with BTI's end user customers in connection with the marketing or offering of BTI services. Except as otherwise provided in this Agreement, in those instances in which GTE personnel are required pursuant to this

Agreement to interface directly with BTI's end users, such personnel shall not identify themselves as representing GTE. All forms, business cards or other business materials furnished by GTE to BTI end users shall bear no corporate name, logo, trademark or trade name other than BTI's. In no event shall GTE personnel acting on behalf of BTI pursuant to this Agreement provide information to BTI end users about GTE products or services.

ARTICLE IX COLLOCATION

1. **Physical Collocation.** GTE shall provide to BTI physical collocation of equipment necessary for interconnection or for access to unbundled network elements, provided that GTE may provide virtual collocation in place of physical collocation, or in some cases deny a particular collocation request entirely, if GTE demonstrates that physical collocation, or perhaps even virtual collocation, is not practical because of technical reasons or space limitations, as provided in Section 251(c)(6) of the Act. GTE will provide such collocation for purposes of interconnection or access to unbundled network elements pursuant to the terms and conditions in the applicable GTE federal and state collocation tariffs. If virtual collocation is denied, GTE agrees to file amended tariffs which reflect that the location is not available for collocation.
2. **Existing Virtual Collocation.** If, on the effective date of this Agreement, BTI is virtually collocated in a GTE premise, BTI may (i) elect to retain its virtual collocation arrangement in that premise or (ii) unless it is not practical for technical reasons or because of space limitations, convert its virtual collocation arrangement at that premise to physical collocation. If BTI elects the latter option, BTI's request shall be treated as a new physical collocation request and BTI shall pay GTE at the applicable tariff rates for construction and rearrangement of BTI's equipment as well as all applicable tariffed physical collocation recurring charges.

ARTICLE X
ACCESS TO POLES, DUCTS, CONDUITS AND RIGHTS-OF-WAY

To the extent lawfully required by the Act, GTE and BTI shall each afford to the other access to the ducts, conduits and rights of way it owns or controls on terms, conditions and prices pursuant to the agreements set forth in Appendix I.

IN WITNESS WHEREOF, each Party has executed this Agreement to be effective as of the date first above written.

APPENDIX B
INTERCONNECTION, TELECOMMUNICATIONS SERVICES
AND FACILITIES AGREEMENT

BETWEEN

GTE FLORIDA

AND

BUSINESS TELECOM, INC.

AMENDMENT NO. _____

THIS AMENDMENT (herein so called) is made effective as of _____, 1997, by and between GTE Florida Incorporated ("GTE") and Business Telecom, Inc. ("BTI"). GTE and BTI are sometimes referred to herein collectively as the "Parties" and individually as a "Party." Either GTE or BTI may be referred to as "Provider" or "Customer" as the context requires.

WHEREAS, Provider is providing to Customer and Customer is purchasing from Provider those Services described in that certain Interconnection, Telecommunications Services and Facilities Agreement for the State of Florida by and between GTE and BTI dated effective as of _____, 199__ (the "Agreement"); and

WHEREAS, the Parties desire to amend the Agreement as provided in this Amendment.

NOW, THEREFORE, in consideration of the terms and conditions contained in this Amendment, the Parties agree as follows:

1. Additional Services

- 1.1 Provider agrees to provide to Customer and Customer agrees to purchase from Provider the following services under the terms and conditions set forth in the Agreement and within the service attachment listed below and attached to this Amendment:

Service Attachment _____ - _____

- 1.2 As of the effective date of this Amendment, and continuing through the remaining term of the Agreement, _____ is made a part of the Services provided under the Agreement and Service Attachment _____ shall be deemed to be a Service Attachment to the Agreement.

- 1.3 As of the effective date of this Amendment, and continuing through the remaining term of the Agreement, Appendix A, Service Matrix, to the Agreement is hereby deleted and Appendix A, Service Matrix, to this Amendment is hereby inserted in lieu thereof to reflect the additional Services and related Service Locations.
2. Provider agrees to provide to Customer and Customer agrees to purchase from Provider the following Services in the following locations:

Service Location (identified by tandem <u>serving area</u>)	IP (identified by <u>CLLI code</u>)	Services (identified by Service <u>Attachment Number</u>)
--	--	--

- 2.1 As of the effective date of this Amendment, the locations set forth in Section 3.1 above shall be deemed Service Locations under the Agreement.
- 2.2 As of the effective date of this Amendment, and continuing through the remaining term of the Agreement, Appendix A, Service Matrix, to the Agreement is hereby deleted and Appendix A, Service Matrix, to this Amendment is hereby inserted in lieu thereof to reflect additional Service Locations.
3. **Interpretation**
- All capitalized terms used but not defined herein shall have the meanings ascribed to such terms in the Agreement.
4. **Effect**
- Except as modified herein, the Agreement shall remain in full force and effect.
5. **Authority**
- Each person whose signature appears below represents and warrants that he or she has the authority to bind the Party on whose behalf he or she has executed this Amendment.

6. Multiple Counterparts

This Amendment may be executed in multiple counterparts, each of which shall be deemed an original, and all of which shall constitute but one and the same instrument.

7. No Offer

Submission of this Amendment for examination or signature does not constitute an offer by Provider for the provision of the products or services described herein. This Amendment will be effective only upon execution by both Provider and Customer.

IN WITNESS WHEREOF, the Parties have executed this Amendment on the date or dates written below effective as of the date first above written.

**APPENDIX C
RATES AND CHARGES FOR
TRANSPORT AND TERMINATION OF TRAFFIC**

General. The rates contained in this Appendix C are the rates as defined in Article V and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's interim Universal Service Support Surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

Each Party will bill the other Party as appropriate:

- A. The Local Interconnection rate element that applies to Local Traffic on a minute of use basis that each Party switches for termination purposes at its wire centers. The local interconnection rate is **\$0.0053073**.
- B. The Tandem Switching rate element that applies to tandem routed Local Traffic on a minute of use basis. The tandem switching rate is **\$0.0013681**.
- C. The Common Transport Facility rate element that applies to tandem routed Local Traffic on a per minute/per mile basis. The Common Transport Facility rate is **\$0.0000021**.
- D. The Common Transport Terminal element that applies to tandem routed Local Traffic on a per minute/per termination basis. The Common Transport Termination rate is **\$0.0001357**.

APPENDIX D
RATES AND CHARGES FOR LOCAL NUMBER PORTABILITY USING RCF

General. The rates contained in this Appendix D are as defined in Article V, Section 7, and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's interim Universal Service Support Surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

In addition, as defined in Article IV, Section 3.2.3, the Party providing the ported number will pay the other Party the rate per line per month for each ported business line and the rate per line per month for each ported residential line for the sharing of Access Charges on calls to ported numbers.

Business Rate Per Line Per Month:	\$ 4.69
--	----------------

Residential Rate Per Line Per Month:	\$ 2.54
---	----------------

Service Number Portability

Remote Call Forwarding	\$ 5.10 line/month
-------------------------------	---------------------------

Simultaneous Call Capability	\$ 3.10 path/month
-------------------------------------	---------------------------

Non-recurring for Portability	\$10.50
--------------------------------------	----------------

**APPENDIX E
SERVICES AVAILABLE FOR RESALE**

General. The rates contained in this Appendix E are based upon an avoided cost discount from GTE's retail rates as provided in Article V, Section 5.3 of the Agreement to which this Appendix E is attached and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's interim Universal Service Support Surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

Non-Recurring Charges for Resale Services

Initial Service Order, per order	\$41.50
Subsequent Service Order, per order	\$24.00
Installation, per line	\$23.75
Outside Facility Connection Charge, per order *	\$Tariffed

*This charge will apply when field work is required for establishment of new resale service. The terms, conditions and rates that apply for this work are described in GTE's retail local service tariffs.

APPENDIX F **PRICES FOR UNBUNDLED ELEMENTS**

General. The rates contained in this Appendix F are the rates as defined in Article VI and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's interim Service Support Surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

APPENDIX G OPERATIONS SUPPORT FUNCTIONS

1. Service Ordering, Service Provisioning, and Billing Systems Generally. The following describes the operations support systems that GTE will use and the related functions that are available in the short term to BTI for ordering, provisioning and billing for resold services, interconnection facilities and services and unbundled network elements.

1.1 Operations Support Systems for Trunk-Side Interconnection

- 1.1.1 BTI will be able to order trunk-side interconnection services and facilities from GTE through a direct electronic interface over the GTE Network Data Mover ("NDM") in a nondiscriminatory manner. Orders for trunk-side interconnection will be initiated by an Access Service Request ("ASR") sent electronically by BTI over the NDM. ASRs for trunk-side interconnection will be entered electronically into GTE's Customer Access Management System ("CAMS") to validate the request, identify any errors, and resolve any errors back to BTI. CAMS is a family of GTE systems comprised of EXACT/TUF, SOG/SOP, and CABS.
- 1.1.2 The use of CAMS to support BTI's requests for trunk-side interconnection will operate in the following manner: GTE will route the ASR through its data center to one of two National Access Ordering Centers ("NAOC"). The ASR will be entered electronically into the EXACT/TUF system for validation and correction of errors. Errors will be referred back to BTI. BTI then will correct any errors that GTE has identified and resubmit the request to GTE electronically through a supplemental ASR. GTE then will translate the ASR into a service order for provisioning and billing. In order to convert the ASR into a service order, GTE personnel must apply the necessary elements to provision the service and include the billable elements necessary for GTE to bill BTI for the services provided. This application also requires a determination of the access tandem to end office relationships with the service requested.
- 1.1.3 At the next system level, translated service orders will be distributed electronically through the SOG/SOP systems to several destinations. The SOG/SOP system will begin the actual provisioning of the service for BTI. Other GTE provisioning systems are CNAS and ACES. The GTE Database Administrative Group ("DBA") and the Special Services Control Center ("SSCC") will be the two most important destinations at this level. The DBA location will identify codes for the appropriate GTE switch in order to provide the functions required by the ASR. The SSCC will provide the engineering for the facilities over which the services will be handled. Information from these two groups (and others) then will be transmitted electronically to GTE's field service personnel (Customer Zone Technicians or "CZTs") who will establish the trunks and facilities, thus connecting the GTE facilities to a connecting company, if one is required, and to BTI. GTE's

CZTs also will contact BTI directly to perform testing, and upon acceptance by BTI, will make the necessary entries into the GTE system to complete the order. The completed orders then will pass to GTE's Carrier Access Billing System ("CABS") which will generate the bill to BTI. The billing process under CABS requires coordination with several other systems.

- 1.1.4 Billing for transport and termination services cannot be accomplished without call records from GTE's central office switches. Records of usage will be generated at GTE's end office switches or the access tandems. Call usage records will be transmitted electronically from GTE's switches through GTE's Billing Intermediate Processor ("BIP"). This system will collect the call records, perform limited manipulations to the record and transfer them to a centralized data center where they will be processed through the Universal Measurement System ("UMS") to determine the validity and accuracy of the records. UMS also will sort the records and send them to the CABS billing system, from which GTE will produce a bill and send it to BTI.

1.2 Operations Support Systems for Resold Services and Unbundled Elements

- 1.2.1 BTI will also be able to order services for resale and unbundled network elements, as well as interim number portability, directly from GTE through an electronic interface. To initiate an order for these services or elements, BTI will submit a Local Service Request ("LSR") from its data center to GTE's Data Center using the same electronic NDM interface used for trunk-side interconnection. If BTI chooses not to use the electronic NDM, GTE will accommodate submission of LSR orders by facsimile, E-mail, internet or a dial NDM arrangement. An LSR is very similar to an ASR, except that it will be used exclusively for line-side interconnection requests. GTE will transfer LSRs to GTE's NOMC centralized service order processing center electronically. For CLECs who decide not to use an electronic interface to reach GTE's data center, or who do not have data centers similar to BTI's, GTE will accept requests for service through other forms or media directly to the NOMC.
- 1.2.2 Most LSRs will be used either to transfer an existing GTE customer to BTI or to request service for a new customer who is not an existing GTE customer. Depending on the situation, different information will be required on the LSR. LSRs for a conversion of a GTE local customer to BTI must include information relating to all existing, new and disconnected services for that customer, including the customer's name, type of service desired, location of service and features or options the customer desires. For service to a new customer who is not an existing GTE customer, the LSR must contain the customer's name, service address, service type, services, options, features and ALEC data. If known, the LSR should include the telephone number and due date/desired due date.

- 1.2.3 While BTI would have its own customer information and the SAG/GTE products on tape from GTE, BTI would not have the due date or new telephone number for new customers since that information is contained in GTE's systems. Therefore, a process is required to provide this information to BTI. GTE itself does not have uniform access to this information electronically. Until there is agreement on electronic interfaces, BTI has agreed that an 800 number is the method that will be used. The 800 telephone number will connect BTI directly to GTE's NOMC service representatives. When BTI receives a request for service from a new local service customer, BTI will call GTE's NOMC through the 800 number, and, while the new customer is on hold, GTE will provide the due date for service and the new telephone number for that customer. At the same time, BTI will give GTE the new customer's name, service address and type of requested service (e.g., R1, B1, etc.). GTE will enter that information into its SORCES or SOLAR service ordering systems to be held in suspense until BTI sends the confirming LSR. BTI will then return to its customer holding on the line and provide the due date and new telephone number.
- 1.2.4 After concluding the telephone call with the new customer, BTI will complete a confirming LSR for the new service and send it electronically to GTE's data center for processing. Upon receipt, GTE will match the LSR with the service order suspended in GTE's system, and if there is a match, GTE will process the LSR. After the LSR is processed, GTE will transmit confirmation electronically to BTI through the NDM that the LSR has been processed, providing a record of the telephone number and due date. Of course, GTE cannot hold the LSR in suspension forever. Thus, BTI will be required to submit the confirming LSR by 12:00 p.m. each day local time, as defined by the location of the service address. If BTI fails to submit the LSR in a timely manner, the suspended LSR will be considered in jeopardy, at which time GTE will assign a new due date upon receipt of the delayed LSR for such customer requests and notify BTI of the change.
- 1.2.5 Number assignments and due date schedules for services other than single line service will be assigned using the standard Firm Order Confirmation ("FOC") report sent electronically to BTI over the NDM, thereby providing a record of the newly established due date. An exception would be a multi-line hunt group, for which the pilot number will be provided by the 800 number. The other numbers then will be provided through the normal electronic confirmation process.
- 1.2.6 The processing of specifically requested telephone numbers (called "vanity numbers") is as follows. GTE will work with BTI on a real time interface to process vanity numbers while BTI's customer is still on the line. If a number solution can be established expeditiously, it will be done while the customer is still on the line. If extensive time will be required to find a solution, GTE service representatives will work with BTI representatives off line as GTE would for its own customers. For all of this, the basic tariff guidelines for providing telephone numbers will be followed.

- 1.2.7 Once the order for line-side interconnection service is established, it is moved for provisioning to the next system level. Here, GTE will validate and process the LSR to establish an account for BTI and, if GTE continues to provide some residual services to the customer, GTE will maintain a GTE account. In GTE's system, GTE's account is called the Residual Account and BTI's account is referred to as the ALEC Account. If any engineering for the service is necessary, the account would be distributed to the SSCC. Otherwise, it will be distributed for facility assignment.
- 1.2.8 With the account established and any engineering and facility assignment complete, GTE then will transmit electronically a record to GTE's CZT field personnel if physical interconnection or similar activity is required. The CZTs will provision the service and then electronically confirm such provision in the SOLAR/SORCES system when completed. The accounts then will be transmitted to GTE's Customer Billing Services System ("CBSS"). Call records for actual service provided to BTI's customers on GTE facilities will be transmitted from GTE's switches through some usage rating systems (BIP, UMS), screened and eventually delivered to CBSS for the generation of bills.
- 1.2.9 CBSS is a different system than CABS, and it is the one that GTE will utilize to produce the required bills for resold services, unbundled elements and local number portability. CBSS will create a bill to BTI for resold services and unbundled elements along with a summary bill master. Daily unrated records on BTI's accounts also will be generated and transmitted electronically to BTI. CBSS is the same system that generates GTE's own end user bill for GTE local and residual services.
- 1.2.10 In addition to the LSR delivery process, BTI will distribute directory assistance and directory listing information (together sometimes referred to hereafter as "DA/DL information") to GTE's Data Center over the NDM. GTE will sort the data containing this information and process it to GTE's directory publication company and its directory assistance bureaus.

2. Maintenance Systems:

2.1 General Overview

- 2.1.1 The maintenance operations support systems which GTE will use for BTI are essentially the same as those GTE uses to provide its own local repair service. If BTI requires maintenance for its local service customers, BTI will initiate a request for repair (sometimes referred to as a "trouble report") by calling GTE's Customer Care Repair Center. During this call, GTE service representatives will verify that the end-user is an BTI customer and will then obtain the necessary information from BTI to process the trouble report. While BTI representatives are still on the

line, GTE personnel will perform an initial analysis of the problem and remote line testing for resale services. If engineered services are involved, the call will be made to the GTE SSCC for handling. If no engineering is required and the line testing reveals that the trouble can be repaired remotely, GTE personnel will correct the problem and close the trouble report while BTI representatives are still on the line. If on-line resolution is not possible, GTE personnel will provide BTI representatives a commitment time for repair and a trouble ticket number, and the GTE personnel then will enter the trouble ticket into the GTE service dispatch queue. BTI's repair service commitment times will be within the same intervals as GTE provides to its own end users.

- 2.1.2 Repair calls to the SSCC for engineered services will be processed in essentially the same manner as those by the GTE Customer Care Center. GTE personnel will analyze the problem, provide BTI representative with a commitment time while they are still on the line, and then place the trouble ticket in the dispatch queue.
- 2.1.3 GTE then will process all BTI trouble reports in the dispatch queue along with GTE trouble reports in the order they were filed (first in, first out), with priority given to out-of-service conditions. If, at any time, GTE would determine that a commitment time given to BTI becomes in jeopardy, GTE service representatives will contact BTI by telephone to advise of the jeopardy condition and provide a new commitment time.
- 2.1.4 Trouble reports in the dispatch queue will be transmitted electronically to GTE CZT service technicians who will repair the service problems and clear the trouble reports. For cleared BTI trouble reports, GTE service technicians will make a telephone call to BTI directly to clear the trouble ticket. GTE service technicians will make the confirmation call to the telephone number provided by BTI. If BTI is unable to process the call or places the GTE technician on hold, the call will be terminated. To avoid disconnect, BTI may develop an answering system, such as voice mail, to handle the confirmation calls expeditiously.
- 2.1.5 GTE will not provide "on-line" access to GTE's maintenance support systems to "status" trouble tickets and close them except by special request on a per event basis.
- 2.1.6 GTE will resolve repair requests by or for BTI local service customers using GTE's existing repair system in parity with repair requests by GTE end users. GTE will respond to service requests for BTI using the same time parameters and procedures that GTE uses. BTI then would call GTE's Customer Care Center or SSCC while the customers were on hold.

APPENDIX H
RESERVED FOR FUTURE USE

APPENDIX I
CONDUIT OCCUPANCY AGREEMENT

1 Parties.

This agreement ("Agreement") is between GTE FLORIDA INCORPORATED, having its principal office at 201 N. Franklin Street, Tampa, FL 33602 ("GTE"), and BUSINESS TELECOM, INC., a corporation of the State of North Carolina, having its principal office at 4300 Six Forks Road, Raleigh, NC 27609 ("Licensee").

2 Definitions.

- 2.1 "GTE's conduit(s)" or "GTE conduit(s)" means any reinforced passage or opening in, on, under/over or through the ground capable of containing communications facilities.
- 2.2 "Telecommunications Services" means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.
- 2.3 "Cable Television Services" means the transmission to subscribers of off-the-air pickup of broadcast signals or the transmission, without separate charge, of locally originated closed circuit television to the subscribers of off-the-air service.
- 2.4 "Conduit" or "Duct" means a single enclosed raceway used to house Innerduct.
- 2.5 "Innerduct," unless otherwise specified or approved by GTE, shall mean a single enclosed raceway 1" or 1-1/4" in diameter, placed within duct and used for housing communications facilities.
- 2.6 "Facilities" means all communication facilities, including, but not limited to, cables, equipment and associated hardware, owned and utilized by the Licensee which occupy an innerduct.
- 2.7 "Make-Ready Work" means all work, including, but not limited to, rearrangement, removal, or transfer of existing facilities, placement, repair, or replacement of duct or innerduct, or any other changes required to accommodate the Licensee's Facilities in a conduit.
- 2.8 "Manholes" and "handholes" mean subsurface enclosures which personnel may enter and use for the purpose of installing, operating and maintaining communications facilities.
- 2.9 "Hazardous Materials" means (i) any substance, material or waste now or hereafter defined or characterized as hazardous, extremely hazardous, toxic or dangerous

within the meaning of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, or any similar law, ordinance, statute, rule or regulation of any governmental body or authority, (ii) any substance, material or waste now or hereafter classified as a contaminant or pollutant under any law, ordinance, statute, rule or regulation of any governmental body or authority or (iii) any other substance, material or waste, the manufacture, processing, distribution, use, treatment, storage, placement, disposal, removal or transportation of which is now or hereafter subject to regulation under any law, ordinance, statute, rule or regulation of any governmental body or authority.

- 2.10 **"Occupancy Fee"** means the fee paid by Licensee to GTE per linear foot for each innerduct occupied by Licensee's Facilities in GTE's Conduit(s).
- 2.11 **"Communications Act"** means the Communications Act of 1934 as amended by the Telecommunications Act of 1996, Pub. L. No. 104-104 §101(a), 110 Stat. 70 codified at 47 U.S.C., as now and hereafter amended, and all orders, rules, regulations and guidelines issued by the Federal Communications Commission ("FCC") or any state regulatory agency with jurisdiction over either party hereto.
- 2.12 **"Easements and Permits"** means all of the easements and/or rights-of-way in which GTE's conduits, manholes or handholes covered by this Agreement are currently or proposed to be located and all permits, approvals, licenses and authorizations issued by any governmental authority or private individual or entity to GTE or for GTE's benefit for GTE's conduits, manholes and/or handholes or relating in any way to GTE's use of GTE's conduits, manholes and/or handholes.
- 2.13 **"Law"** means any and all federal, state and local laws, statutes, codes, regulations, rules, orders, decisions, tariffs and guidelines issued by or emanating from any legislative, regulatory, administrative or judicial entity, in effect now or in the future, including but not limited to the Communications Act.

3 **Purpose.**

- 3.1 Licensee represents to GTE that Licensee has a need to occupy, place and maintain communications facilities within GTE's conduit(s) for the purpose of providing Telecommunications Services.
- 3.2 GTE agrees to permit Licensee to occupy, place and maintain its Facilities within GTE's conduit(s) as GTE may allow pursuant to the terms of this Agreement.

4 **Grant of License.**

GTE grants to Licensee and Licensee accepts from GTE a non-exclusive revocable license to occupy, place and maintain in a designated space in specified GTE conduits Licensee's Facilities pursuant to the terms and conditions set forth herein. Licensee shall have no

further right, title, or other interest in connection with GTE's conduit(s) except as provided by Law or agreement of the parties. GTE shall have the right to grant, renew or extend privileges to others not parties to this Agreement to occupy, place or maintain facilities in or otherwise use any or all GTE conduit(s), subject to Licensee's rights under Law.

5 Term.

5.1 This Agreement, if not previously terminated in accordance with the provisions hereof, shall continue in effect for a term of two (2) years and thereafter for successive one-year periods until terminated as provided herein. The Agreement may be terminated at the end of the third year or at the end of any annual renewal term thereafter by either party giving to the other party at least ninety (90) days prior written notice. Within ninety (90) days from the date this Agreement is terminated by either party, Licensee shall cause all of Licensee's Facilities to be removed from all of GTE's conduits; provided, however, that: (1) if Licensee notifies GTE that Licensee wishes to continue occupying GTE's conduit(s) pursuant to the terms and conditions of a new or modified agreement, the parties will begin good-faith negotiations of such agreement, and this Agreement will continue on a month-to-month basis until either the new agreement is executed or the rights and obligations of the parties regarding access are otherwise determined in accordance with (2); or (2) if within such 90 days, Licensee or GTE seeks a formal determination of the rights and obligations of the parties regarding the access available to Licensee from any regulatory or judicial authority having jurisdiction over such matters, this Agreement shall continue in effect until such regulatory or judicial authority has made its determination. In the event Licensee's Facilities are not removed as required by this section, GTE shall have the option to remove all such Facilities and store them in a public warehouse or elsewhere at the expense of and for the account of Licensee without GTE's being deemed guilty of trespass or conversion, and without GTE's becoming liable for any loss or damages to Licensee's Facilities occasioned thereby. In such event, all costs incurred by GTE to remove Licensee's Facilities in accordance with this Agreement shall be reimbursed to GTE by Licensee upon demand by GTE.

5.2 Licensee may at any time request removal of its Facilities from any GTE conduit, by giving written notice to GTE at least ninety (90) days prior to the time Licensee desires such removal. If GTE advises Licensee that GTE shall remove Licensee's Facilities, Licensee shall pay to GTE the cost of said removal and no credit or refund of any rental shall be allowed Licensee on account of such removal. If GTE requires, Licensee shall pay to GTE the cost of removing Licensee's Facilities in advance. If GTE permits Licensee to remove Licensee's Facilities, Licensee shall do so at its own expense, and shall reimburse GTE for any expenses GTE may incur as a result of such removal.

6 Conduit Occupancy Requests.

- 6.1 Licensee shall submit a written Conduit Occupancy Request ("COR") to GTE specifying the GTE conduits within which it desires to place Facilities. Each COR shall be in a form specified by GTE and may be revised from time to time at GTE's sole discretion upon prior written notice to Licensee. No Facilities shall be placed in any GTE conduit(s) identified in a COR until that COR has been approved by GTE. Upon the approval of the COR, GTE shall return one copy thereof to Licensee bearing an endorsement acknowledging GTE's authorization. All Facilities placed in GTE's conduit pursuant to an approved COR shall become subject to all of the terms and conditions of this Agreement. Licensee may submit subsequent CORs for approval by GTE as needed.
- 6.2 GTE shall provide Licensee a response to a COR within 30 days of receiving such COR. Any denial of a COR by GTE shall be in writing and delivered by GTE to Licensee within such 30-day period; any such denial shall specify in detail the reasons for such denial, and include all relevant evidence and other information supporting such denial as may be required by Law.
- 6.3 Licensee shall pay GTE a fee for processing a COR to compensate GTE for actual administrative costs as well as the actual engineering costs reasonably incurred. The fee for engineering costs shall be computed by multiplying the fully loaded hourly rate for an engineer times the number of hours reasonably required by each engineer to inspect the GTE conduits included in the COR. GTE will charge its then current rates for administrative and engineering costs, as may be changed from time to time by GTE to remain consistent with prevailing costs. GTE shall provide Licensee with an estimate of the total administrative and engineering costs needed to process Licensee's COR. Within fifteen (15) days after receiving such estimate from GTE, Licensee shall notify GTE either (1) that Licensee shall reimburse GTE all costs actually incurred to perform the work and shall pay the total estimated amount to GTE at least ten (10) days prior to the date the work is to begin or (2) that it desires to cancel its COR.
- 6.4 Upon receiving an approved COR, Licensee shall have the right, subject to the terms of this Agreement, to place and maintain Licensee's Facilities described in the COR in the innerducts of the GTE conduits identified therein.
- 6.5 In the event it is necessary to rearrange any facilities (including facilities of third parties) in or to reinforce, replace or add support equipment to any one or more of the conduits included in a COR in order to accommodate Licensee's Facilities, GTE shall notify Licensee of such fact and provide Licensee with an estimate of the total cost of such Make-Ready Work needed to accommodate Licensee's Facilities. Within fifteen (15) days after receiving such notice from GTE, Licensee shall notify GTE either (1) that Licensee shall pay all of the costs actually incurred to perform the Make-Ready Work and shall pay the total estimated amount to

GTE at least ten (10) days prior to the date the Make-Ready Work is to begin or (2) that it desires to cancel its COR.

- 6.6 Licensee is not authorized and shall have no right to place facilities in any GTE conduit(s) unless that GTE conduit(s) is identified in an approved COR.
- 6.7 Existing conduit maps will be made available for viewing by Licensee for the purpose of pre-order planning at the GTE area engineering offices during normal business hours, subject to reasonable advance notification considering the size of the order and complexity of the planning process and documentation. While a formal written request will not be required in connection with the first request by Licensee to view conduit maps, GTE reserves the right to refuse any subsequent viewing request or require written justification for the request if Licensee has demonstrated that it does not have a good faith intention to submit a COR. If the availability of specific point-to-point conduits can be determined at the time of viewing conduit maps, maps reflecting such point-to-point conduits may be made available for copying. Licensee shall pay to GTE a fee for making such copies available sufficient to cover the general administrative costs incurred. **IN MAKING CONDUIT MAPS AVAILABLE, GTE WILL BE MAKING NO EXPRESS OR IMPLIED WARRANTY REGARDING THEIR ACCURACY OTHER THAN THAT THEY ARE THE SAME CONDUIT MAPS USED BY GTE IN ITS DAY-TO-DAY OPERATIONS.**

7 Authority to Place Licensee's Facilities.

- 7.1 GTE shall not unreasonably intervene in or attempt to delay the granting of, any rights of way, easements, licenses, authorizations, permits and consents from federal, state or municipal authorities or private property owners that may be required in addition to the Easements and Permits already received by GTE for Licensee to place its Facilities in GTE's conduits. GTE shall, upon request by BTI, provide a letter of introduction suitable for BTI to use to identify itself and its purpose to landowners whose property is burdened by relevant easements.
- 7.2 In the event additional Easements and Permits must be obtained in order for Licensee to utilize GTE's conduits under this Agreement, GTE shall provide Licensee with copies of its Easements and Permits along with any reports, maps and documents related thereto, to assist Licensee in applying for the additional Easements and Permits and shall fully cooperate with Licensee, including promptly providing any consent forms which Licensee may request to facilitate obtaining such additional Easements and Permits.
- 7.3 Upon notice from GTE to Licensee that the cessation of the use of any one or more of GTE's conduits is necessary for reasons of safety or has been compelled by any judicial or regulatory authority, permission to occupy, place and/or maintain Licensee's Facilities in such conduit(s) or conduit(s) shall terminate immediately

and Licensee promptly shall remove its Facilities; subject to Licensee's relocation rights under Law. Should Licensee fail to remove its Facilities within the time frame ordered by the judicial or regulatory authority or one hundred twenty (120) days of receiving notice to do so from GTE, whichever is less, GTE shall have the option to remove all such Facilities and store them in a public warehouse or elsewhere at the expense of and for the account of Licensee without GTE's being deemed guilty of trespass or conversion, and without GTE's becoming liable for any loss or damages to Licensee's Facilities occasioned thereby. All costs incurred by GTE to remove Licensee's Facilities shall be reimbursed to GTE by Licensee upon demand by GTE.

8 **Placement of Licensee's Facilities.**

Licensee shall, at its own expense, place and maintain and replace Licensee's Facilities in GTE's conduit(s) in accordance with (i) such requirements and specifications as GTE shall from time to time prescribe in writing, (ii) all rules or orders now in effect or that hereafter may be issued by any regulatory agency or other authority having jurisdiction, and (iii) all currently applicable requirements and specifications of the National Electrical Safety Code, and the applicable rules and regulations of the Occupational Safety And Health Act. Licensee agrees to comply, at its sole risk and expense, with all specifications included in Exhibits 1 through 13 hereto, as may be revised from time to time by GTE.

9 **Failure of Licensee to Occupy Conduit Space.**

Once Licensee has obtained an approved COR, Licensee shall have sixty (60) days from the date the COR is approved to begin the placement of its Facilities in the GTE conduit(s) covered by the COR. If Licensee has not begun placing its Facilities within that sixty (60) day period, Licensee shall so advise GTE with a written explanation for the delay. If Licensee fails to advise GTE of its delay, with a written explanation therefor, or if Licensee fails to act in good faith by not making a bona fide effort to begin placing its Facilities within the sixty (60) days prescribed by this section, the previously approved COR shall be deemed rescinded by GTE and Licensee shall have no further right to place Facilities pursuant to that COR.

10 **Occupancy Fees.**

10.1 Licensee shall pay to GTE an Occupancy Fee, as specified in Appendix A hereto, for each linear foot of duct or innerduct (as the case may be) occupied by Licensee's Facilities in GTE's conduit(s). If Licensee's Facilities occupy more than one innerduct, a separate Occupancy Fee shall be paid by Licensee for each innerduct occupied. Unless otherwise specified in Appendix A, this Occupancy Fee specific in Appendix A hereto is the fee applicable to 1" or 1-1/4" diameter innerduct. GTE reserves the right to charge a higher fee for innerduct of greater diameter. The Occupancy Fee may be increased by GTE from time to time as permitted by law upon (30) days written notice to Licensee.

10.2 Occupancy Fees shall become due and payable on the date that a COR is approved by GTE, and all necessary make-ready work by GTE, and all third parties occupying relevant conduit(s), is completed, for all innerducts identified in that COR on a pro rata basis until the end of the calendar year and thereafter on an annual basis within thirty (30) days of the receipt of a statement from GTE specifying the fees to be paid. Any payment after thirty (30) days shall bear interest at the rate of eighteen percent (18%) per annum or the maximum rate allowed by law, whichever is less. In no event, however, shall any Occupancy Fee, or any other charge, cost, expense or fee to be paid by Licensee hereunder, exceed that amount permitted or directed under any applicable law, order, rule, regulation, or tariff. Licensee shall not be permitted to begin placing Facilities on any of the GTE conduit(s) identified in the COR until the corresponding Occupancy Fees have been paid.

10.3 GTE shall maintain an inventory of the total linear footage of innerduct occupied by Licensee's Facilities in GTE's conduit(s) based upon the cumulative linear footage per innerduct from all CORs approved by GTE. GTE may, at its option, conduct a physical inventory of Licensee's Facilities under this section. It shall be Licensee's sole responsibility to notify GTE of any and all removals of Licensee's Facilities from GTE's conduit(s). Except as provided in Section 5 of this Agreement in connection with the termination of this Agreement, such notice shall be provided to GTE at least thirty (30) days prior to the removal of the Facilities. Each Notice of Removal shall be in a form specified by GTE and may be revised from time to time at GTE's sole discretion. Licensee shall remain liable for all Occupancy Fees until Licensee's Facilities have been physically removed from GTE's conduits.

11 Modifications, Additions or Replacements to Licensee's Facilities.

11.1 Licensee shall not modify, add to or replace Licensee's Facilities in any GTE conduit(s) without first notifying GTE in writing of the intended modification, addition or replacement at least thirty (30) days prior to the date the activity is scheduled to begin. The required notification shall include: (1) the date the activity is scheduled to begin, (2) a description of the planned modification, addition or replacement, (3) a representation that the modification, addition or replacement will not require any space other than the space previously designated for Licensee's Facilities, and (4) a representation that the modification, addition or replacement will not impair the structural integrity of the GTE conduit(s) involved.

11.2 Should GTE determine that the modification, addition or replacement specified by Licensee in its notice will require more space than that allocated to Licensee or will require the modification, replacement or reinforcement of the GTE conduit(s) involved in order to accommodate Licensee's modification, addition or replacement, GTE will so notify Licensee, whereupon Licensee will be required to

submit a COR in compliance with this Agreement in order to obtain authorization for the modification, addition or replacement of its Licensee's Facilities. Licensee's proportionate share of the total cost shall be based on the ratio of the amount of new space occupied by Licensee to the total amount of new space occupied by all of the parties joining in the modification.

- 11.3 Access to GTE's conduit(s) for repairs, modifications, additions, or replacements required in emergency situations shall be governed by the provisions of this Agreement.
- 11.4 Licensee acknowledges that at some point in the future it may become necessary to rearrange Licensee's Facilities in order to create space to accommodate the facilities of another licensee. Licensee agrees that in such event Licensee will cooperate in good faith with such other licensee to come to a mutually agreeable understanding regarding the manner in which the rearrangement of Licensee's Facilities will be achieved.

12 Unauthorized Facilities.

- 12.1 The parties agree that because it would be impracticable and extremely difficult to determine the actual amount of damages resulting from Licensee's unauthorized Occupancy of GTE's conduit(s), a charge equal to three (3) times the amount of the then current Occupancy Fee shall be paid by Licensee to GTE for each unauthorized Occupancy in a GTE conduit(s). Licensee also shall pay GTE an Occupancy Fee for each unauthorized Occupancy accruing from the date the unauthorized Occupancy first began. In the event that the date the unauthorized Occupancy first began cannot be determined, such date shall be deemed the date of the last physical inventory made in accordance with this Agreement or, if no physical inventory has been conducted, the date the first COR from Licensee was approved in accordance with this Agreement. Licensee also shall pay to GTE all costs incurred by GTE to rearrange any unauthorized Occupancy(s) of Licensee if such rearrangement is required to safeguard GTE's Facilities or to accommodate the Facilities of another party whose Attachment(s) would not have required a rearrangement but for the presence of Licensee's unauthorized Occupancy(s). Licensee shall also pay to GTE all costs incurred by GTE to reinforce, replace or modify any GTE conduit(s), which reinforcement, replacement or modification was required as a result of the unauthorized Occupancy of Licensee. The Occupancy Fee referenced in this subsection 12.1 shall be determined in the same manner as such fee would have been determined if the Occupancy had been authorized by GTE. BTI will indemnify GTE from any activities resulting from unauthorized Occupancy.
- 12.2 Once GTE has notified Licensee of an unauthorized Occupancy, the Licensee can submit a COR to request an authorized Occupancy. A COR submitted per this provision will be treated like any other COR subject to this agreement. Licensees

will be responsible for all fees associated with a COR (as identified in this agreement). If a COR is not received by GTE within ten (10) business days of Licensee's receipt of an unauthorized Occupancy notification, then Licensee has sixty (60) days from the date of its receipt of the initial unauthorized Occupancy notification to vacate the conduit(s).

12.3 For purposes of this section, an unauthorized Occupancy shall include, but not be limited to:

12.3.1 An Occupancy of a GTE conduit(s) which conduit(s) is not identified in any COR approved in accordance with this Agreement;

12.3.2 An Occupancy that occupies more space than that allocated to Licensee by GTE;

12.3.3 An Occupancy that is not placed in accordance with the provisions of this Agreement or the appropriate COR issued pursuant to this Agreement;

12.3.4 An addition or modification by licensee to its pre-existing Occupancy(s) that impairs the structural integrity of the involved GTE conduit(s);

12.3.5 An Occupancy placed by Licensee that is owned or controlled in whole or in part by an entity other than Licensee.

13 Surveys and Inspections of Facilities.

13.1 Upon written notice to Licensee, the total number and exact location of Licensee's Facilities in GTE's conduit(s) may be determined, at GTE's discretion, through a survey to be made not more than once per calendar year by GTE. If so requested, Licensee and/or any other entity owning or jointly owning the conduit(s) with GTE may participate in the survey. The costs incurred by GTE to conduct the survey shall be reimbursed to GTE by Licensee upon demand by GTE. If the Facilities of more than one Licensee are surveyed, each such Licensee shall contribute a proportionate share of the costs reimbursed to GTE.

13.2 Apart from surveys conducted in accordance with this section, GTE shall have the right to inspect any Facility of Licensee in GTE's conduit(s) as conditions may warrant upon written notice to Licensee. Licensee shall, upon demand by GTE, reimburse GTE all costs incurred to conduct its inspection. No joint survey or inspection, or lack thereof, by GTE shall operate to relieve Licensee of any responsibility, obligation or liability assumed under this Agreement.

14 Notice of Modification or Alteration of Conduit(s) by GTE.

- 14.1 In the event GTE plans to modify or alter any GTE conduit(s) in which Licensee has Facilities, GTE shall provide Licensee notice of the proposed modification or alteration at least thirty (30) days prior to the time the proposed modification or alteration is scheduled to take place. Should Licensee decide to modify or alter its Attachments on the GTE conduit(s) to be modified or altered by GTE, Licensee shall so notify GTE in writing. In such event, Licensee shall bear a proportionate share of the total costs incurred by GTE to make such conduit(s) accessible to Licensee.
- 14.2 In the event GTE is required by a federal, state, or local authority to move, replace or change the location of any GTE conduit(s), Licensee shall concurrently relocate Licensee's Facilities. GTE and each Licensee required to relocate its attachments shall bear its own costs for such relocation.
- 14.3 Except as required by law, Licensee shall not bear the costs of relocating any of its Facilities, if such relocation is required as a result of an additional placement or the modification of an existing placement sought by any other entity, including GTE.

15 Disclaimer of Warranties.

EXCEPT AS SPECIFICALLY SET FORTH IN THIS AGREEMENT, GTE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

16 Default and Remedies.

- 16.1 The occurrence of any one of the following shall be deemed a Material Default by Licensee under this Agreement:
- 16.1.1 Failure by Licensee to pay any fee or other sum required to be paid under the terms of this Agreement and such default continues for a period of ten (10) business days after receipt of written notice thereof to Licensee;
- 16.1.2 Failure by Licensee to perform or observe any other term, condition, covenant, obligation or provision of this Agreement and such default continues for a period of thirty (30) days after written notice thereof from GTE (provided that if such default is not curable within such thirty (30) day period, the period will be extended if Licensee commences to cure such default within such thirty (30) day period and proceeds diligently thereafter to effect such cure);
- 16.1.3 Licensee's voluntary or involuntary bankruptcy;

16.1.4 The filing of any tax or mechanic's lien against GTE's conduit(s) which is not bonded or discharged within ninety (90) days of the date Licensee receives notice that such lien has been filed; or

16.1.5 Licensee's intentional use or maintenance of its Facilities in violation of any law or regulation, or in aid of any unlawful act or undertaking.

16.2 In the event of a Material Default, GTE, without any further notice to the Licensee (except where expressly provided for below or required by applicable law) may do any one or more of the following to the extent permitted by Law:

16.2.1 Perform, on behalf and at the expense of Licensee, any obligation of Licensee under this Agreement which Licensee has failed to perform and of which GTE shall have given Licensee notice, the cost of which performance shall be paid by Licensee to GTE upon demand;

16.2.2 Terminate this Agreement by giving notice of such termination to Licensee, in which case the provisions of Section 5.1 as to removal will apply, and remove Licensee's Facilities and store them in a public warehouse or elsewhere at the expense of and for the account of Licensee without GTE being deemed guilty of trespass or conversion, and without GTE becoming liable for any loss or damages to Licensee's Facilities occasioned thereby; or

16.2.3 Exercise any other legal or equitable right or remedy which GTE may have.

16.3 Upon termination of this Agreement by GTE because of a material default by Licensee, Licensee shall remain liable to GTE for any and all fees, other payments and damages which may be due or sustained prior to such termination.

16.4 All rights and remedies of each party set forth in this Agreement shall be cumulative and none shall exclude any other right or remedy, now or hereafter allowed by or available under any Law, either at law or in equity, or both. Neither party shall be deemed to have waived any right under Law unless such waiver is expressly identified as a waiver herein.

17 Indemnification.

17.1 Licensee shall compensate GTE for the full actual loss, damage or destruction of GTE's property that in any way arises from or is related to this Agreement or activities undertaken pursuant to this Agreement (including, without limitation, the installation, construction, operation or maintenance of Licensee's Facilities).

17.2 Licensee will further indemnify, defend and hold harmless GTE and GTE's agents, officers, employees and assigns, from any and all losses, damages, costs, expenses

(including, without limitation, reasonable attorneys' fees), statutory fines or penalties, actions or claims for personal injury (including death), damage to property, or other damage or financial loss of whatever nature in any way arising out of or connected with this Agreement or activities undertaken pursuant to this Agreement (including, without limitation, the installation, construction, operation or maintenance of Licensee's Facilities), except to the extent caused by the willful misconduct or breach of this Agreement or violation of the Law on the part of GTE or GTE's agents, officers, employees and assigns. Licensee expressly assumes all liability for actions brought against GTE and GTE's agents, officers, employees and assigns, by Licensee's agents, officers or employees and Licensee expressly waives any immunity from the enforcement of this indemnification provision that might otherwise be provided by workers' compensation law.

- 17.3 Without limiting the foregoing, Licensee expressly agrees to indemnify, defend and hold harmless GTE and GTE's agents, officers, employees and assigns from any and all claims asserted by customers of Licensee in any way arising out of or in connection with this Agreement or Licensee's Facilities, except to the extent caused by the willful misconduct or breach of this Agreement or violation of the Law on the part of GTE or GTE's agents, officers, employees and assigns.
- 17.4 Notwithstanding anything to the contrary in this Agreement, Licensee further shall indemnify and hold harmless GTE, its agents, officers, employees and assigns from and against any claims, liabilities, losses, damages, fines, penalties and costs (including, without limitation, reasonable attorneys' fees) whether foreseen or unforeseen, which the indemnified parties suffer or incur because of: (i) any discharge of Hazardous Waste resulting from acts or omissions of Licensee or the Licensee's predecessor in interest; (ii) acts or omissions of the Licensee, its agents, employees, contractors or representatives in connection with any cleanup required by law, or (iii) failure of Licensee to comply with Environmental, Safety and Health Laws.
- 17.5 In no event shall either party be liable to the other party for any special, consequential or indirect damages (including, without limitation, lost revenues and lost profits) arising out of this Agreement or any obligation arising hereunder, whether in an action for or arising out of breach of contract, tort or otherwise.
- 17.6 Licensee shall indemnify, protect and hold harmless GTE from and against any and all claims for libel and slander, copyright and/or patent infringement arising directly or indirectly by reason of installation of Licensee's equipment in GTE's conduit(s) pursuant to this Agreement.

18 Insurance.

- 18.1 Licensee shall carry insurance, at its sole cost and expense, sufficient to cover its indemnification obligations as set forth in Section 17 of this Agreement. Such

insurance shall include, but not be limited to, coverage against liability due to personal injury or death of persons in the amount of \$500,000 as to any one person and \$1,000,000 as to any one accident; coverage against liability due to property damage in the amount of \$500,000 as to each accident and \$500,000 aggregate; and coverage necessary to fully protect both it and GTE from all claims under any worker's compensation laws that may be applicable.

- 18.2 All insurance required of Licensee under this Agreement shall remain in force for the entire life of this Agreement. The company or companies issuing such insurance shall be approved by GTE and GTE shall be named as an additional insured in each such policy. Licensee shall submit to GTE certificates by each insurer to the effect that the insurer has insured Licensee for all potential liabilities of Licensee under this Agreement, and that it will not cancel or change any policy of insurance issued to Licensee except upon thirty (30) days notice to GTE. In the event Licensee's insurance coverage is to be canceled by reason of non-payment of premiums due, GTE shall have the option of paying any amount due and Licensee shall forthwith reimburse GTE the full amount paid by GTE.
- 18.3 Licensee shall promptly advise GTE in writing of any and all claims for damages, including, but not limited to, damage to property or injury to or death of persons, allegedly arising out of or in any manner related, directly or indirectly, to the presence or use of Licensee's Facilities.
- 18.4 Licensee shall furnish bond or satisfactory evidence of contractual insurance coverage, the terms of which shall be subject to GTE's approval, in the amount of ten thousand dollars (\$10,000) to guarantee the payment of any sums which may become due to GTE for rentals, inspections or for work performed by GTE for the benefit of Licensee under this Agreement, including the removal of Licensee's Facilities and equipment pursuant to any of the provisions hereof. All bonds must specify that the GTE be notified thirty (30) days prior to the expiration or cancellation of the policy.

19 Emergency Restoration Procedures

- 19.1 The parties acknowledge that in the event of an emergency, services provided by the parties and other joint users to their respective customers may be interrupted, that it may not be possible for all service providers with facilities in GTE's conduit(s) to restore service to all customers at the same time, that disputes may arise between the parties concerning the manner in which emergency repairs shall be made, that it is essential that decisions be made quickly, and that it is highly desirable that all service providers utilizing GTE's conduit(s), ducts, manholes or handholds enter into appropriate arrangements relating to emergency repairs and service restoration. It is expected that disputes will be immediately resolved at the site among the affected parties based upon the criteria set forth in Section 19.2 of this Agreement.

19.2 When notice and coordination are practicable, GTE, Licensee, and other affected parties shall coordinate repair and other work operations in emergency situations involving service disruptions. Disputes will be immediately resolved at the site by the affected parties in accordance with the following principles.

19.2.1 Emergency service restoration work requirements shall take precedence over other work operations;

19.2.2 Except as circumstances may otherwise dictate, restoration of lines for emergency services providers (e.g., 911, fire, police, and hospital lines) shall be given the highest priority and temporary occupancy of the maintenance duct (and, if necessary, other unoccupied ducts) shall be assigned in a manner consistent with this priority. Secondary priority shall be given to restoring services to the local service providers with the greatest numbers of local lines out of service due to the emergency being rectified. The parties shall exercise good faith in assigning priorities and shall base their decisions on the best information then available to them at the site in question.

19.2.3 GTE shall determine the order of precedence of work operations and assignment of duct space in the maintenance duct (and other unoccupied ducts) only if the affected parties are unable to reach prompt agreement; provided, however, that these decisions shall be made by GTE on a nondiscriminatory basis in accordance with the principles set forth in this section.

20 Damage Suspected to Licensee's Facilities Only.

20.1 In the event Licensee receives information that Licensee's Facilities are damaged, Licensee shall notify GTE of said damage at 1-800-483-4100. This is a 24-hour, 7 days per week notification number. Licensee shall provide GTE all information known to it regarding the damage to Licensee's Facilities.

20.2 In the event GTE receives notice that Licensee's Facilities are damaged, GTE will notify Licensee of said damage by telephone at the Licensee's emergency telephone number. GTE shall provide Licensee all information known to it regarding the damage to Licensee's Facilities.

20.3 After the giving of such notice by either Licensee or GTE, Licensee shall be authorized to perform emergency restoration maintenance activities in connection with Licensee's Facilities, subject to the provisions of this Agreement.

20.4 Without limiting any other indemnification or hold harmless provisions of this Agreement, Licensee agrees that any decision by GTE regarding access to

Licensee's Attachments, or any action or failure to act by GTE, appropriately or inappropriately, under this section shall not be the basis for any claim by Licensee against GTE for any damage to Licensee's Facilities or disruption of Licensee's services, or any other direct or indirect damages of any kind whatsoever incurred by Licensee and Licensee shall indemnify and hold GTE harmless from any such claim.

21 Access to GTE's Manholes/Handholes.

- 21.1 GTE will allow Licensee to audit manholes/handholes that are included in any COR submitted to GTE to confirm usability. Licensees shall give GTE at least fourteen (14) days advance written notice of its desire to audit and shall obtain all authorizations from appropriate authorities required to open the manholes/handholes. GTE shall have the right to have a GTE employee or agent present when its manholes/handholes are being opened. Such GTE employee or agent shall have the authority to suspend Licensee's activities in and around GTE's manholes/handholes if, in the sole discretion of said employee or agent, any hazardous conditions arise or unsafe practices are being followed by Licensee's employees, agents, or contractors. Licensee agrees to reimburse GTE the cost of having GTE's employee or agent present. Such charge shall be GTE's fully loaded labor rates then in effect.
- 21.2 For purposes other than to audit usability, GTE's manholes/handholes shall be opened only as permitted by GTE and only after Licensee has obtained all necessary authorizations from appropriate authorities to open manholes/handholes and conduct work operations therein. GTE shall have the right to have a GTE employee or agent present at any site at which its manholes/handholes are being opened. Such GTE employee or agent shall have the authority to suspend Licensee's work operations in and around GTE's manholes/handholes if, in the sole discretion of said employee or agent, any hazardous conditions arise or any unsafe practices are being followed by Licensee's employees, agents, or contractors. Licensee agrees to reimburse GTE the cost of having GTE's employee or agent present. Such charge shall be GTE's fully loaded labor rates then in effect. The presence of GTE's authorized employee or agent shall not relieve Licensee of its responsibility to conduct all of its work operations in and around GTE's conduit(s) in a safe and workmanlike manner, in accordance with the terms of this Agreement.

22 Abandonment.

Nothing in this Agreement shall prevent or be construed to prevent GTE from abandoning, selling, assigning or otherwise disposing of any conduit(s) or other GTE property used for Licensee's Facilities; provided, however, that GTE shall condition any such sale, assignment or other disposition subject to the rights granted to Licensee pursuant to this Agreement. GTE shall promptly notify Licensee of any proposed sale,

assignment or other disposition of any conduit(s) or other GTE property used for Licensee's Facilities.

23 Notices.

Any written notice to be given to a party to this Agreement shall be in writing and given or made by means of telegram, facsimile transmission, certified or registered mail, express mail or other overnight delivery service, or hand delivery, proper postage or other charges prepaid, and addressed or directed to the respective parties as follows:

To Licensee: BUSINESS TELECOM, INC.
4300 Six Forks Road
Raleigh, NC 27609

To GTE: Regional Director-
Regulatory and Industry Affairs
GTE FLORIDA INCORPORATED
201 N. Franklin Street
Tampa, FL 33602

Any notice given by personal delivery shall be deemed to have been given on the day of actual delivery and, if given by registered or certified mail, return receipt requested, on the date of receipt thereof and, if given by facsimile transmission, on the day of transmittal thereof if given during the normal business hours of the recipient and on the next business day if not given during normal business hours.

24 Non-Waiver of Terms and Conditions.

No course of dealing, course of performance or failure to enforce any term, right, condition or other provision of this Agreement shall constitute or be construed as a waiver of any term, right or condition or other provision of this Agreement.

25 Compliance With Laws.

Notwithstanding anything to the contrary in this Agreement, each party shall ensure that any and all activities it undertakes pursuant to this Agreement shall comply with all applicable laws, including, without limitation, all applicable provisions of (i) workers' compensation laws, (ii) unemployment compensation laws, (iii) the Federal Social Security Law, (iv) the Fair Labor Standards Act, (v) all laws, regulations, rules, guidelines, policies, orders, permits and approvals of any governmental authority relating to environmental matters and/or occupational safety, and (vi) all Law.

26 **Force Majeure.**

Except for payment of the Occupancy Fees and other amounts payable under this Agreement, neither party shall have any liability for its delays or its failure in performance due to fire, flood, explosion, pest damage, power failures, strikes or labor disputes, acts of God, the Elements, war, civil disturbances, acts of civil or military authorities or the public enemy, inability to secure raw materials, transportation facilities, or fuel or energy shortages.

27 **Assignment.**

27.1 The rights and obligations of Licensee under this Agreement shall not be assigned, transferred or sub-licensed, in whole or in part, without the prior written consent of GTE, which consent shall not be unreasonably withheld, conditioned or delayed; except that this Agreement can be assigned in its entirety to an affiliate or corporate successor upon prior written notice to GTE. An assignment, transfer or sub-license of this Agreement by Licensee shall not relieve Licensee of its obligations under this Agreement. Any assignment attempted without the prior written consent of GTE shall be void.

27.2 GTE shall have the right to assign this Agreement and to assign its rights and delegate its obligations and liabilities under this Agreement, either in whole or in part. GTE shall provide notice to Licensee of any assignment which shall state the effective date thereof. Upon the effective date and to the extent of the assignment, GTE shall be released and discharged from all obligations and liabilities under this Agreement.

27.3 Neither this Agreement nor any term or provision hereof, nor any inclusion by reference shall be construed as being for the benefit of any person or entity not a signatory hereto.

27.4 This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

28 **Applicable Law.**

This Agreement, and the rights and obligations contained in it, shall be governed and construed under the laws of the State of Florida without regard to its conflicts of laws provisions.

29 **Law.**

The terms and conditions of this Agreement shall be subject to all Law that is currently in force or that may be prescribed by any federal, state or local governmental authority. Any such Law shall automatically supersede the provisions hereof and the parties agree to

modify in writing the affected term(s) and conditions(s) of this Agreement to bring them into compliance with such Law. Should any terms of this Agreement be determined by a court or other entity with competent jurisdiction to be unenforceable, all other terms of this Agreement shall remain in full force and effect.

30 Headings.

All headings contained in this Agreement are for convenience only and are not intended to affect the meaning or interpretation of any part of this Agreement.

31 Nondiscriminatory Fees.

Notwithstanding anything included in this Agreement to the contrary, in no event shall Licensee be required to pay any fee, charge, cost, expense or compensation, or perform any service or obligation, that is not permitted by Law. GTE agrees that it shall adhere to the nondiscrimination requirements of the Telecommunications Act of 1996 with respect to the administration of this Conduit Occupancy Agreement.

32 Entire Agreement.

The terms and conditions of this Agreement supersede all prior oral or written understandings between the parties and constitute the entire agreement between them concerning the subject matter of this Agreement. There are no understandings or representations, express or implied, not expressly set forth in this Agreement. This Agreement shall not be modified or amended except by a writing signed by the party to be charged.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement through their authorized representatives.

APPENDIX J
RECIPROCAL COMPENSATION FOR CALL TERMINATION

1. This document describes the reciprocal compensation arrangements between BTI and GTE for Local Tariff, Toll and Switched Access Services. The Parties shall compensate each other for transport and termination of such traffic at the rates provided in the appropriate Parties' Switched Access Tariff.
2. Compensation for Call Termination
 - A. Reciprocal compensation does not apply in a resale environment.
 - B. The following compensation terms shall apply in all cases where BTI purchases GTE's unbundled Local Switching:
 1. For local intra-switch calls between lines connected to GTE's switch where BTI has purchased GTE's unbundled Local Switching, the Parties agree to impose no call termination charges on each other. GTE's Local Switching charge will apply as described below where the call is:
 - (a) Originated by BTI's customer and completed to a GTE customer:
 - (1) (For use of the local switch): Local Switching charge at the originating office will apply to BTI.
 - (b) Originated by BTI's customer and completed to the customer of a third party LEC (not affiliated with BTI) using GTE's unbundled Local Switching:
 - (1) (For use of the local switch): Local Switching charge at the originating office will apply to BTI.
 - (c) Originated by BTI's customer and completed to another BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the originating office will apply to BTI.
 - (d) Originated by a GTE customer and terminated to BTI's customer using GTE's unbundled Local Switching.
 - (1) No Local Switching charge will apply.

- (e) Originated by the customer of a third party LEC (not affiliated with BTI) using GTE's unbundled Local Switching and terminated to BTI's customers using GTE's unbundled Local Switching

- (1) No Local Switching charge will apply to BTI.

- 2. For Local inner-switch calls where BTI has purchased GTE's unbundled Local Switching.

GTE's charges will apply to BTI described below where the call is:

- (a) Originated from BTI's end-user customer using GTE's unbundled Local Switching and completed to a GTE customer.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BTI uses GTE's transport.
 - (3) (For call termination): Charges for local interconnection/call termination, when applicable.
- (b) Originated from BTI's customer using GTE's unbundled Local Switching and completed to a third party LEC (not affiliated with BTI) customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BTI uses GTE's transport.
- (c) Originated from BTI's customer using GTE's unbundled Local Switching and completed to the interconnected network of a third party LEC (not affiliated with BTI).
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BTI uses GTE's transport, and mileage shall be measured between the originating office and the POI of the third party's network.

- (d) Originated from BTI's customer using GTE's unbundled Local Switching and completed to BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BTI uses GTE's transport.
 - (3) (For use of the local switch): Local Switching charge at the terminating office.

- (d) Originated by a GTE customer and terminated to BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use at local switch): Local Switching Charge at the terminating office.
 - (2) (For call termination): BTI shall charge GTE for local interconnection/call termination, when applicable.

- (f) Originated by a customer of a third-party LEC (not affiliated with BTI) using GTE's unbundled Local Switching and terminated to BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.

- (g) Originated by a customer of the interconnected network of a third-party LEC (not affiliated with BTI) and terminated to BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.

- 3. For intraLATA toll calls where BTI has purchased GTE's unbundled Local Switching, charges per Unbundled Network Element pricing shall apply as follows:
 - (a) Originated by BTI's customer and completed to a GTE customer.
 - (1) (For use of the local switch): Local Switching charge plus RIC and CCLC (Residual Interconnection Charge) at the originating office.

- (2) Shared transport charge between the two offices will apply when BTI uses GTE's transport.
 - (3) (For call termination): End Office Switching charge at the terminating office (Switched Access Rate).
 - (4) RIC and CCLC at the terminating office.
- (b) Originated by BTI's customer and completed to the customer of a third-party LEC (not affiliated with BTI) using GTE's unbundled Local Switching in a distant end office.
- (1) (For use of the local switch): Local Switching charge plus RIC and CCLC at the originating office.
 - (2) Shared transport charge between the two offices will apply when BTI uses GTE's transport.
- (c) Originated by BTI customer and completed to the network of a third-party LEC (not affiliated with BTI) interconnected with GTE's network.
- (1) (For use of the local switch): Local Switching charge, plus RIC and CCLC, at the originating office.
 - (2) Common transport charge will apply when BTI uses GTE's transport, and mileage shall be measured between the originating office and the POI of the third party's network.
 - (3) Tandem Switching, where applicable.
- (d) Originated by BTI's customer and completed by another of BTI's customers being served through GTE's unbundled Local Switching in a distant office.
- (1) (For use of the local switch): Local Switching charge plus RIC and CCLC at the originating office.
 - (2) Shared transport charge between the two offices will apply when BTI uses GTE's transport.
 - (3) (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.
- (e) Originated by a GTE customer and terminated to BTI's customer using GTE's unbundled Local Switching.

- (1) (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.
 - (2) (For call termination): BTI will charge GTE Local Switching at the terminating office (Switched Access Rate).
 - (3) (For call termination): BTI will charge GTE NIC and CCLC at the terminating office.
- (f) Originated by the customer of a third-party LEC (not affiliated with BTI) using GTE's unbundled Local Switching in a distant end office and terminated to BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.
- (g) Originated by a customer of the network of a third-party LEC (not affiliated with BTI) interconnected with GTE's network and terminated to BTI's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.
- 4. For intrastate Switched Access calls where BTI is using GTE's unbundled Local Switching for calls originated from or terminated to an IXC for completion:
 - (a) For calls originated from BTI's customer to BTI's own IXC switch (or that of an affiliate) for completion.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (2) Originating RIC and CCLC.
 - (3) GTE will charge BTI's IXC affiliate the following Switched Access elements on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge BTI's IXC affiliate the following Switched Access elements on a meet-point basis:
 - a. Originating RIC and CCLC;

- b. Local Switching.
- (b) For calls originating from BTI's customer to an IXC's switch not affiliated with BTI.
 - (1) (For use of the local switch): BTI's customer to an IXC's switch not affiliated with BTI.
 - (2) Originating RIC and CCLC.
 - (3) GTE shall charge the non-affiliated IXC for the following originating Switched Access on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge the non-affiliated IXC for the following Switched Access elements on a meet-point basis:
 - a. Originating RIC and CCLC;
 - b. Local Switching.
- (c) For calls terminating to BTI's end-user customer from BTI's own IXC switch (or that of an affiliate) for completion.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (2) Terminating RIC and CCLC.
 - (3) GTE will charge BTI's IXC (affiliate) the following Switched Access elements on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge BTI's IXC (affiliate) for the following Switched Access elements on a meet-point basis:
 - a. Terminating RIC and CCLC.
 - b. Local Switching.

- (d) For calls terminating to BTT's customer from an IXC switch not affiliated with BTI.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (2) Terminating RIC and CCLC.
 - (3) GTE shall charge the IXC for the following terminating Switched Access on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge IXC for the following Switched Access elements on a meet-point basis:
 - a. Terminating RIC and CCLC;
 - b. Local Switching.
- 5. For interstate Switched Access calls where BTI is using GTE's unbundled Local Switching for calls originated from or terminated to an IXC for completion:
 - (a) For calls originated from BTT's customer to BTT's own IXC switch (or that of an affiliate) for completion.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) Originating Residual Interconnection Charge (RIC) and CCL.
 - (3) GTE shall charge BTT's IXC affiliate for the following originating Switched Access on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge BTT's IXC affiliate the following Switched Access elements on a meet-point basis:
 - a. Originating RIC;

- b. Originating CCLC;
 - c. Local Switching.
- (b) For calls originated from BTI's customer to an IXC's switch not affiliated to BTI.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (2) Originating RIC and CCLC.
 - (3) GTE shall charge the IXC for the following originating Switched Access on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge IXC the following Switched Access elements on a meet-point basis:
 - a. Originating RIC;
 - b. Originating CCLC;
 - c. Local Switching.
- (c) For calls terminating to BTI's customer for BTI's own IXC switch (or that of an affiliate) for completion.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (2) Terminating RIC and CCL.
 - (3) GTE will charge BTI's IXC (affiliate) the following Switched Access elements on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge BTI's IXC affiliate the following Switched Access elements on a meet-point basis:

- a. Terminating RIC;
 - b. Terminating CCLC;
 - c. Local Switching.
- (d) For calls terminating to BTI's customer from an IXC switch not affiliated with BTI.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (2) Terminating RIC and CCL.
 - (3) GTE will charge the non-affiliated IXC for the following terminating Switched Access on a meet-point basis:
 - a. Local Transport;
 - b. Tandem Switching.
 - (4) BTI will charge IXC the following Switched Access elements on a meet-point basis:
 - a. Terminating RIC;
 - b. Terminating CCLC;
 - c. Local Switching.

APPENDIX K GTE PERFORMANCE MEASURES (PM)

Pursuant to Article III, Section 35 of this Agreement, the following terms and conditions shall apply regarding the performance measures set forth in Exhibit 1 to this Appendix L. The Parties recognize that these performance measures are new and evolving, and as further evolution is made by GTE, the parties will discuss the changed procedures, including new standard processes and procedures, if any, for the purpose of applying them to and incorporating them in this Agreement.

GTE's Performance Measures (PMs) as set forth in Exhibit 1 hereto implement standards to measure the quality of services supplied by GTE with respect to pre-ordering, order/provisioning, maintenance and billing that is equivalent in equality to what GTE provides to itself. GTE's PMs contain measures for both GTE and BTI with the measures for BTI being considered an essential element for GTE meeting customer expectations.

GTE's PMs are conditioned upon a 150 order per month minimum requirement as described below for Service Units, as a threshold for providing Financial Incentives for certain PMs. The 150 order per month requirement for Service Units was developed to provide a statistically valid sample size to measure GTE's performance for BTI in relationship to the level of performance GTE provides to its own customers. Service Units are defined to include unbundled loops, unbundled ports, resold local service lines, INP ported numbers, and interconnection trunks.

The Parties agree that the 150 order per month requirement for Service Units, referred to in this appendix as a threshold for providing Financial Incentives for certain Performance, is intended to provide a statistically valid sample size to measure GTE's performance for BTI in relationship to the level of performance GTE provides to its own customers. The Parties recognize that the 150 order threshold may not be reasonably attainable for small sized telecommunications carriers. Therefore, the Parties agree to work cooperatively to develop alternative methods of measuring performance for pre-ordering, ordering, and provisioning that will allow small sized telecommunications carriers (should BTI continue to be such a small CLEC) to be eligible for Financial Incentives while continuing to insure the measurement process accurately represents GTE's performance.

GTE will begin recording of performance data in the first full month in which it receives the first official order from BTI. GTE's report of performance measures to BTI, however, will begin after 6 months of data recording; *i.e.*, for data recorded in the seventh full month. Each month's report will then be reported as a rolling 3-month result (*i.e.*, July's report will actually include May, June, July data). The calculation of BTI performance will be based on this 3 month rolling average of actual performance unless otherwise specified.

Reporting will be available monthly, or at a longer interval, as requested by BTI. The details of report delivery shall be agreed upon between BTI and the appropriate GTE Account Management group.

Forecasting Performance Measurement - GTE's PMs are conditioned upon the requirement, as described more fully below, that BTI submit timely and accurate forecasts. The Forecasting PM includes provisions that measure the accuracy of BTI's forecast by comparing forecasted Service Units to ordered Service Units for the same period.

BTI shall furnish a quarterly forecast of service order volumes and quantities of resold local services, unbundled network elements, and interconnection trunks on a State-wide basis, identifying these volumes/quantities by month, for each month included in the quarter. These forecasts shall be received by GTE at least one month before the beginning of the quarter covered by the forecast. Should the first month of the next quarterly forecast be greater than ten (10%) percent of the last month of the current quarterly forecast, BTI shall notify GTE promptly of the increased order volume. Notification shall be made to the appropriate GTE Account Management group in order to allow sufficient "lead time" to ensure staffing levels are available to support the increased order volumes.

BTI must agree to comply with the requirements of the Forecasting PM as the basis for the application of Financial Incentives described below. If BTI chooses not to comply with the Forecasting PM, Financial Incentives will not apply. For purposes of applying Financial Incentives the accuracy of forecasts will be determined at the state level.

The measurement and reporting of GTE's PMs will still be made available as stated above regardless of BTI's election for the Forecasting PM.

Financial Incentives - When BTI agrees to the Forecasting PM described above, Financial Incentives will begin concurrently with reporting of individual BTI performance data except as specified below for the Pre-Ordering/Ordering/Provisioning and Interconnection PMs.

Financial Incentives will apply to Maintenance/Repair PMs without restriction other than BTI's participation in the Forecasting PM.

Financial Incentives will apply to Pre-Ordering/Ordering/Provisioning and Interconnection PMs subject to BTI's participation in the Forecasting PM and the required per month ordering threshold. BTI must place a 150 orders per month minimum for Service Units, by state, for three (3) consecutive months (hereafter the "150-order requirement"). Once BTI's order volume reaches the "150-order requirement", a ninety (90) day grace period will begin wherein data will be accumulated and reviewed. At the end of that ninety (90) day grace period, applicable Financial Incentives shall apply. The three (3) consecutive months and the subsequent ninety (90) day grace period may be concurrent with all or part of the beginning six (6) month period after recording of official data begins, between initial order activity and the implementation of performance reporting (*i.e.*, month 7 data).

For purposes of applying Financial Incentives to the Forecasting PM, if BTI's actual order activity for Service Units in a given month is below the forecast for that month by more than 10%, Financial Incentives will apply only to the incremental Service Units that were forecasted but not

ordered; *i.e.*, the difference between the actual quantity ordered and the quantity which reflects the forecast less 10%.

For purposes of applying Financial Incentives to the Pre-ordering/Ordering/Provisioning and Interconnection PM, if BTI's actual order activity for Service Units in a given month exceeds the forecast for that month by more than 10%, Financial Incentives will not apply. The Parties recognize that whether Financial Incentives do not apply at all as stated in the last sentence if order volumes exceeds forecasts by more than 10% may impinge upon small sized telecommunications carriers, and BTI has requested consideration of that matter. Therefore (should BTI continue to be such a small CLEC), the Parties agree to work cooperatively to investigate alternative means for applying Financial Incentives that will apply to the case posed by the first sentence of this paragraph, while continuing to insure that GTE's PM program retains its integrity and properly imposes incentives upon the small CLEC.

Average Non-Recurring Charges - The averages are calculated by dividing the sum of all non-recurring charges applied to service orders issued by BTI to GTE by the total number of orders or the total number of Service Units ordered. These calculations will be made by service activity and service category: Business (Single/Multi-line, Centranet, PBX, Trunks), Residence, etc.. The average Non-Recurring Charges will be separately calculated for field work and non-field work orders. These averages and a weighting factor for field and non-field work will be calculated during a study period to be mutually agreed between the Parties. The initial average Non-Recurring Charge calculation will occur within three (3) months of BTI's initial issuance of official orders. The average Non-Recurring Charge shall be recalculated annually as mutually agreed between the Parties.

Average Recurring Charges - The averages are calculated by dividing the sum of all recurring charges applied to service orders issued by BTI to GTE by the total number of orders or Service Units ordered. These averages will be calculated during a study period to be mutually agreed between the Parties. These calculations will be made by service activity and service category, Business, Residence, etc. The initial average Recurring Charge calculation will occur within three (3) months of BTI's initial issuance of official orders. The average Recurring Charges shall be recalculated annually as mutually agreed between the Parties.

**Exhibit 1 to Appendix L
GTE Performance Measures
with Financial Incentives**

PRE-ORDERING/ORDERING/PROVISIONING

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
1	GTE	National	Prompt transmission of Customer Service Record (CSR) Information	85% of CSR's sent to CLEC by the close of business on business day following receipt of request	5% of average NRC incurred by CLEC for the number of CSR's for which the Quality Standard is not met in the reported month
2	GTE	National	Prompt transmission of Local Service Confirmation (LSC)	85% of LSC's sent to CLEC by the close of business on business day following receipt of request	20% of average NRC incurred by CLEC for the lines ordered for which GTE failed to meet the Quality Standard in the reported month
3	GTE	State	Due Date commitments met	Percent of CLEC customer install, transfer, and change service orders for which service is installed by close of business on the committed due date is not more than 2.5% below the percent of GTE customer install, transfer, and change service orders	Waiver of the average NRC installation charges for the number of lines by which GTE fails to meet the Quality Standard in the reported month

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
4	GTE	State	% reporting trouble within 30 days of the date installed	Percent of CLEC customer install, transfer, and change service orders which are followed by a customer trouble report within 30 days of service order completion date is not more than 2.5% worse than the percent GTE customer install, transfer, and change service orders which are followed by a customer trouble report within 30 days of service order completion	One month's average MRC per trouble report exceeding the Quality Standard in the reported month (not to exceed one month's credit per customer line month)
5	GTE	State	Service Order discrepancy: LSR's issued without material errors	80% of LSR's initiated by CLEC's do not contain an order discrepancy or error: 90% in 12 months. Final target - 95%	Payment by CLEC to GTE equal to 20% of the average NRC installation charges for the number of lines which CLEC fails to meet the Quality Standard in the reported month

INTERCONNECTION

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
1	GTE	State	Trunk orders completed on or before the Committed Due Date	Percent of trunk orders by CLEC completed by GTE on or before the commitment date is not more than 10% below the percent of FG B/D Switched access orders by all ordering companies completed by GTE on or before the commitment date	Waiver of 100% of average NRC for trunks ordered from which GTE failed to meet the Quality Standard in the reported month
2	GTE	National	Firm Order Confirmation (FOC) on time delivery	Percent of trunk orders by CLEC completed by GTE on or before the commitment date is not more than 5% below the percent of FG B/D Switched access by all ordering companies for which GTE sends FOC (within 5 days, or longer, as requested by CLEC)	Waiver of 20% average of average NRC installation for trunks for which GTE failed to meet the Quality Standard in the reported month

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
3	CLEC	National	Service Order discrepancy: ASR's issued without material errors	80% of ASR's initiated by CLEC do not contain material error or result in discrepancy, 90% in 12 months. Final target 95%	Charge equal to 20% of average NRC installation of trunks ordered for which CLEC failed to meet the Quality Standard in the reported month

MAINTENANCE/REPAIR

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
1	GTE	State	Percent Commitments Met	Percent of CLEC customer Network trouble reports where commitment was met more than 2.5% worse than the percent of GTE's customer Network trouble reports where commitment was met (excluding reports which are cleared CPE, CLEC customer error)	One month's flat rate average MRC per line out of service for which Quality Standard is not met in the reported month
2	GTE	State	Average clearing time - Out of Service (OOS) - Designed	Average repair time (total number of elapsed hours/minutes for OOS CLEC customer Network trouble reports divided by total number OOS customer Network trouble reports) for CLEC customers is more than 10% of the average repair time for GTE customers (includes only "Designed" services)	One month's flat rate average MRC per line OOS for which Quality Standard is not met in the reported month

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
3	GTE	State	Average clearing time - Out Of Service (OOS) - Non-Designed	Average repair time (total number of elapsed hours/minutes for OOS CLEC customer Network trouble reports divided by total number OOS customer Network trouble reports) for CLEC customers is more than 10% of the average repair time for GTE customers (includes only POTS and circuits which do not require a design)	One month's flat rate average MRC per line OOS for which Quality Standard is not met in the reported month
4	GTE	State	Percent reports per 100 (Failure Frequency)	Percent of CLEC customers making trouble reports (total number of CLEC customer Network trouble reports divided by the total access lines multiplied by 100) is not worse than .5 percent points of the percentage of GTE customers making trouble reports	Within six (6) months of effective date, GTE will have established a minimum access line threshold. One month's flat rate average MRC per line OOS for which Quality Standard is not met in the reported month.

Issue No.	Obligation	Data Level	Performance Measure(PM)	Quality Standard	Financial Incentive
5	GTE	State	Percent repeat reports in 30 days	Percent of CLEC customer repeat trouble reports (total number of CLEC customer Network trouble reports which had a previous Network trouble report within the last 30 days divided by the total of customer Network trouble reports multiplied by 100) is not more than 2.5% worse than the percent of GTE customer repeat trouble reports	One month's flat rate average MRC per line OOS for which Quality Standard is not met in the reported month

Note: Outage Credits: Local Service and Unbundled Network Elements: Outage Credits apply to interruptions of Local Services and Unbundled Network Elements in accordance with applicable state Public Service Commission requirements. If a Local Service or Unbundled Network Element is interrupted, CLEC will be entitled to outage credits. An interruption period begins when CLEC reports to GTE that a Local Service or Unbundled Network Element is interrupted (or GTE has knowledge that an interruption has occurred through service monitoring or other means). An interruption period ends when the Local Service is repaired and returned to the CLEC. A Local Service or Unbundled Network Element is considered to be interrupted when there has been a loss of continuity, the Local Service or Unbundled Network Element does not operate in accordance with the applicable service standards, or it is otherwise unavailable for use by CLEC. This definition is not intended to conflict with State Public Utility Commission requirements.

FORECASTING

Issue No.	Obligation	Data Level	Performance Measurement(PM)	Quality Standard	Financial Incentive
1	CLEC	State	Service Units requirements accurately forecast all volumes for each month contained in the quarterly report.	Volume of CLEC's Service Units requirements in a month is not greater than 10% below the amount forecast by CLEC in it's most recent quarterly forecast (which shall have been made not later than 30 days prior to the quarter in question)	20% of the average NRC for the number of service units below the forecast when the actual volumes are greater than 10% and less than or equal to 30% under forecast. 40% of the average NRC for the number of service units below the forecast when the actual volumes are greater than 30% and less than or equal to 40% under the forecast. 50% of the average NRC for the number of service units below the forecast when the actual volumes are over 40% under the forecast

**APPENDIX 44A
GTE TERMS**

Pursuant to Section 44 of Article III of the GTE/BTI Interconnection Agreement, and subject to all of the terms and conditions of that Section 44, each of the following rates or terms may be replaced or supplemented by the correlative rate or term set forth in the GTE/Arbitrated AT&T Agreement listed in Appendix 44B under the conditions prescribed by Section 44.

1. Substitute each rate and charge for Reciprocal Compensation in Appendix C with the rate or charge that may be indicated for the same items in Appendix 44B, (Attachment 14, Appendix 4 of the AT&T Agreement).
2. Substitute the reference to the specific tariff, referenced in Appendix D, with the rate or charge for Local Number Portability that may be indicated for the same items in Appendix 44B, (Attachment 14, Appendix 1, Annex 1 of the AT&T Agreement).
3. Substitute the Avoided Cost Discount in Appendix E with the resale discount rate(s) that may be indicated in Appendix 44B, (Attachment 14, Appendix 1, Annex 1 of the AT&T Agreement).
4. Substitute the list of services excluded from resale under Section 2.2 of Article V to remove those services to be made available for resale that may be indicated in Appendix 44B, (Sections 24 and 25 - General Terms and Conditions of the AT&T Agreement and Appendix 1, Annex 2 of Attachment 14 of the AT&T Agreement).
5. Substitute the list of services available for resale but not at a discount under Section 2.3 of Article V to remove those services to be made available for resale at a discount that may be indicated in Appendix 44B, item 5.
6. Substitute the prohibition against "as is" transfers under Section 3.4 of Article V with the provision that may be indicated for the same point in Appendix 44B, item 6 (Section 25.1.1 of the General Terms and Conditions of the AT&T Agreement).
7. Substitute each rate and charge for Unbundled Network Elements in Appendix F with the rate or charge that may be indicated for the same items in Appendix 44B, item 7 (Attachment 14, Appendix 2 of the AT&T Agreement).

APPENDIX 44B
GTE/Arbitrated AT&T AGREEMENT TERMS

Pursuant to Section 44 of Article III of this Agreement, and subject to all of the terms and conditions thereof, and after notice as called for in Section 44, the following terms as written in the "GTE/Arbitrated AT&T Agreement" referred to in Section 44 will be substituted for the GTE Terms which are set out in Appendix 44A .

The Parties shall modify this Appendix by replacing the descriptions of subjects below with the specific rates and terms of the GTE/Arbitrated AT&T ("Arbitrated AT&T ") Agreement that describes those precise points.

1. The rates or charges set forth in Attachment 14, Appendix 4 of the "Arbitrated AT&T " Agreement that were established by order of the arbitrator for the specific rates and charges that are listed in Appendix C.
2. The rates or charges set forth in Attachment 14, Appendix 5 of the "Arbitrated AT&T " Agreement that were established by order of the arbitrator for the specific rates and charges that are referenced in Article IV, Appendix D.
3. The resale discount percentage(s) set forth in Attachment 14, Appendix 1, Annex 1 of the "Arbitrated AT&T " Agreement that was ordered by the arbitrator to apply to the services that will be provided under Article V of this Agreement for resale at a discount.
4. The services set forth in Attachment 14, Appendix 1, Annex 2 and Sections 24 and 25 of the General Terms and Conditions of the "Arbitrated AT&T " Agreement that were ordered by the arbitrator to be made available for resale which would otherwise be excluded from available resale services under Article V of this Agreement.
5. The services set forth in Attachment 14, Appendix 1, Annex 2 and Sections 24 and 25 of the General Terms and Conditions of the "Arbitrated AT&T " Agreement that were ordered by the arbitrator to be made available for resale at a discount which would otherwise be made available but not at a discount.
6. The provisions set forth in Resale Sections 24 and 25 of the General Terms and Conditions of the "Arbitrated AT&T " Agreement that were ordered by the arbitrator regarding "as-is" transfers which would otherwise be prohibited under this Agreement.
7. The rates or charges set forth in the UNE "Arbitrated AT&T " Agreement that were established by order of the arbitrator for the specific rates and charges that are referenced in Appendix F.
