We spoke with TECO representatives this morning. Please release the materials to Jim Beasley or Mark Laux (I'm not sure who will be coming by to collect the filing.) They have agreed to keep the information at their Tallahassee office and make it available for our inspection there. Beasley will also withdraw TPS's request for confidential treatment. Let me or Beth know if you have any questions. Thanks.

Thanks, Andrew. I do need just a very brief MEMO stating what you said in your e-mail. In our transmittal letter, we'll include language to the effect that we understand they will retain the material in Tallahassee for review by staff.

Lessor shall have the right to remove from the building all property remaining after the date and hour specified for termination of this Agreement, at the cost, risk and expense of Lessee and to store same at Lessee's cost, risk and expense, or to charge additional rental for such a period of time after the hour specified during which any such property remains on the premises, as Lessor desires.

Any such property left with the Lessor for any reason after the termination of this Agreement may, at the Lessor's option, be deemed to have been abandoned by the Lessee to Lessor, and Lessor may take possession thereof as its own property and store same at the risk and expense of Lessee. Lessee hereby waives any right to claim the value of or any damage to such property and Lessor reserves the right to recover from Lessee the cost of disposing of and/or storing same. If said property is not reclaimed by Lessee within 30 days of date of termination of the Agreement, then said property will be sold at public auction and the proceeds of same will be applied first to the expenses of the action, then to Lessor's expense, and finally to Lessee.

ARTICLE XXVII. Compliance with Federal, State, and Local Laws and Rules:
Lessee shall not do or suffer to be done anything on the premises during the terms of the Agreement in violation of any laws, ordinances, rules and requirements of the United States, the State of Florida, or the City of Jacksonville or any other governmental body or agency having legal jurisdiction and with any regulations or codes.

ARTICLE XXVIII. Successors:
This Agreement shall be binding upon the parties hereto and their successors.

ARTICLE XXIX. Nonassignability:
This Agreement is not assignable by the Lessee without the prior written consent of the Lessor.

ARTICLE XXX. Article and Section Headings:
Article and Section headings appearing herein are inserted for convenience of reference only and shall in no way be construed to be interpretations of text.

ARTICLE XXXI. Non-Waiver:
Failure by either party to insist upon strict performance of any of the provisions hereof, either party's failure or delay in exercising any rights or remedies provided herein or by law, the Lessee's payment for the services or any part or combination hereunder, or any purported oral modification or recision of this Agreement by an employee or agent of either party shall not release either party of any of its obligations under this Agreement, shall not be deemed a waiver of any rights of either party to insist upon strict performance hereof or of any of either party's rights or remedies under this Agreement or by law, and shall not operate as a waiver of any of the provisions hereof.

ARTICLE XXXII. Severability:
Should any provision of this Agreement be determined by the Courts to be illegal or in conflict with any law of the Sate of Florida or of the United States government, the remaining provisions shall not be impaired.

ARTICLE XXXIII. Non-discrimination:

ARTICLE XXXIV. Venue:
Any suit, action, or other legal proceeding arising out of or relating to this Agreement shall be brought in the courts of record of the State of Florida in Duval County, or in the courts of the United States (Middle District of Florida). The Lessee and the Lessor hereby waive any objection each may have to the laying of venue in any such courts.

Parol or extrinsic evidence shall not be used to vary or contradict the express terms of this Agreement, and recourse shall not be had to alleged prior delays, usage of trade, course of dealing or course of performance, to explain or supplement the terms of this Agreement. This Agreement shall not be amended or modified, and no waiver of any provisions hereof shall be effective unless set forth in a written instrument duly authorized and executed with the same formality as this Agreement.
Any remedy granted in this Lease agreement to the Lessor, shall be inclusive of all other remedies available to Lessor in law or equity, and not exclusive thereof.

ARTICLE XXXVI. Remedies Not Exclusive:

comments: I saw in the local press that you are considering a 50% residential increase on each line for FL residents. That is outrageous. Bell South sells these lines like crazy for your computer, your kids, etc. and then bingo they want a per line increase. I will not rest until this is defeated. This time I am going to start to try and get a position on the commission. I do not know what it takes to do it but I will figure it out a lot quicker than you can justify to me any increase in the line service per month. Wh

o do you know that got a 50% increase in their product lately or their income. Do any of you have the money to spread around for fancy building, donations to higher education, etc. with money that you take from customers to do it with I THINK NOT! I could not believe several years ago when I went to a hearing and heard charities, and universities talking about what a good neighbor Southern Bell (then) was and their donations. Those are our dollars the custome!

r that you are letting these people give away to them and then go to their web site and see how they report to their investors. THIS HAS GOT TO STOP!

Harold Durel

Yes, we were crammed.

I inspect all my phone bills carefully, so I noticed the additional services immediately. I called my carrier (Bell South) first who advised me to call the "cramming" agent. I argued a bit because I figured that since my carrier had "allowed" this on my bill, they were responsible for taking care of the problem. Not so, the woman said, and went on to explain that they were "like Kinkos" and only printed the bills. I asked to speak with someone further up the chain, but, she said, no one was available.

So the next day, we (my wife and I) contacted the Public Service Commission. I was impressed with the speed at which the PSC did their business. And my next bill reflected a "credit" from the "cramming" company.

The above is my "experience." I have opinions, as well, but won't share them, yet, unless they are invited, since I am not informed about the intent of the investigation.

Mr Joe Garcia:

I received your letter inviting me to attend a PSC meeting which would investigate the "cramming" practice of certain communication companies. Because I am an airline pilot by profession, it would be next to impossible for me to commit to such a meeting because of scheduling which is often beyond my own control. April 6th is when your committee will be in the Tampa area.

I will therefore send a few thoughts along on this e-mail.

I have two lines at home and make quite a few calls, send faxes, etc. I am one of those citizens that would try a new phone service if it promised to save me money, and because these new long distance services could bill right through my Florida GTE bill, it seemed a convenience as well as a savings.

I generally go over my bills...not always scrupulously, but I at least take a glance at the items for which I am being charged. I had done this with my phone bills...and 6 months went by before I noticed a charge that caught my eye. Because I have two lines, there was a lot of detail on the bill ie....this tax, that tax, this charge, and that. It was easy to bury yet another charge among all of the others that are listed.

When I noticed a long distance service that I had never heard of making a "service charge" of \$10 on one of my lines, I then looked at the paperwork for the other line. Indeed, there was a \$10 service charge on my second line as well. I then searched through back bills, and discovered that I had been charged an extra \$10 on one of my lines for the previous 6 months. The culprits had gotten greedy, and decided to charge me a service charge on both my lines...and it caught my attention.

I called GTE and they had a general response that it was not their responsibility. They had no liability for this. This was their general "party line", yet as I queried further, I got a lot of co-operation from one of their customer service reps on the phone. He gave me the telephone number and address of the "company" that was tacking this cramming charge on my bill.

He also hooked me up with the company and listened in on the conversation.

In my conversation, as I remember it, I was treated rudely by the cramming company's rep, the name of which I do not remember.

I communicated rather sharply to the company, and at the same time to GTE. In addition, I communicated with the PSC and my name was added to a list of consumers that had been ripped off as I had been.

From my conversations with GTE, I got the impression that if I wanted to be a crook, I could just fill out a few papers with GTE, start my "boiler room" operation in a garage somewhere, and I could start the process of having GTE bill random customers for services that were never performed. GTE would simply accept my word for the charges, and would bill their customers and forward me the money. It seems like an easy scam, and I can get a legitimate company to do my dirty work.

I believe that some system must be set up by a local phone company where any long distance company must put up a bond, must meet certain levels of character quality and experience before being allowed to make phone charges through GTE.

I believe strongly in competition and in the free enterprise system, but not without restraints and guardrails to keep citizens from being ripped off, using a very legitimate enterprise like GTE, who themselves were being used by unscrupulous "crooks".

I also believe that such deliberate scams should be punished severely. It takes a lot of thinking, planning, and deliberation to come up with and implement a scam such as this. These are not "accidents". These bogus operations need to be stopped. The penalties/fines should be based on their total gross revenue that the offending company has brought in. The records would be available through GTE and any other local phone companies. Then double or triple that amount as a fine/penalty. In addition, a nice prison term would be most appropriate as well.

I hope that these comments and suggestions will be of some help as you try to put a stop to these scam operations.

Thanking you for your attention, I am,

Very truly yours,

Dearf Mr. Garcia:

Thank you for your kind invitation to attend the above. I'm sorry
that I will be unable to do so - hence the following observations:

For me, this whole kettle for fish started boiling when I
listened to a solicitation (about the 10th) from At+T (with a \$100.00 check
enclosed) encouraging me to switch from MCI to At+T. AS I recall, this was
in early May 1998, and after diligently weighing the pros and cons, I de-
posited their \$100.00 check (found money for a recent widower) and enrolled
in their "Simple Minutes Plan."

Big mistake! Their acknowledgment started off by saying "Thank you
for adding AT&T Local Toll Service to your existing AT&T Long Distance
Service." But - I never authorized that change - only Long Distance from MCI.
Things got worse from there.

Soon I was getting phone bills that were astronomical from companies
I never heard of - and ALL OF THEM glibly denied knowing anything about cram-
ming or jamming - just like AT&T. I called Bell South and complained
to them and they denied knowing anything about why I was getting switched
around like I was, yet MCI wrote me 11/19/98 that the local carrier handles
the billing of long distance charges.

COAST INTERNATIONAL TELECOM on 11/27/98 routinely disavowed respon-
sibility for having charged ME for 800 telephone service ordered by someone
named Nativida Charles.

I could go on and on - but this much I want to leave you with:

RECORDS AND
REPORTING

Dear People:

Thank you for the invitation to the hearings on 'cramming'. I will be unable to attend.

What ever legislation it takes should be completed immediately so that this practice becomes illegal and highly penalized when done.

I, previously, forwarded an abstract of my experience. If that is no longer available, I'd be happy to try to reconstruct it.

In general my take on the issue is this:

It should not be permitted.

The utility, in my case Bell South, should not be allowed to sell names to other services without assuming responsibility for outcomes.

Public utilities, as such, represent the public and obtain a certain amount of trust in so doing from the public.

When public utilities claim that they have no responsibility for 'cramming' and the issue is completely between the 'crammer' and the 'crammee' that trust is violated.

The utility sells the name, the utility cooperates in providing billing services, the utility assists with providing quality of service and the utility provides contact information to the other services. Therefore they must be caused to assume part of the responsibility for 'cramming'.

That responsibility could take the form of: disconnecting the service for those not longer wishing it, notifying the service provider of the difficulty(ies) and providing billing correction assistance.

Thank you for your efforts in correcting this practice. It is so very hurtful and dishonest to those who have complete trust in the billing practices of the public utilities, are inexperienced in challenging and spotting illegal billing, and are hesitant for fear of loosing their

Attention: Joe Garcia

Dear Mr. Garcia:

This is in response to your notice to telephone customers who have been crammed. Unfortunately, I will not be able to attend any of the public hearings.

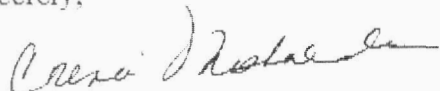

You have a record of my file in your office Case #2180881. On my May 29th bill there was a charge from American Nortel (Integretal, Inc) for long distance charges. This was never authorized by me. After calls to American Nortel, At&T and Bell South. I called PSC.

There was another charge again on my July phone bill. This time I went directly to PSC. I have received all credits due, thanks to the efforts of the PSC.

It is interesting that each phone company had a different story. American Nortel said AT&T probably sold my service, AT&T said I had to look to BellSouth because they do the billing. BellSouth said it wasn't their responsibility. The public needs to be made aware that they only way to get the matter cleared up is through the Public Service Commission

Thanks again for all your help.

Dear Mr. Garcia:

As we are unable to attend the public hearing regarding telephone cramming, we did wish to have a say, to prevent this from happening to others. In fact it continues to be a problem for us.

Since July, 1997 when a charge had been added to our phone bill for a service we did not request, we have been unsuccessfully trying to have the charge remove. This is the second time we have been scammed. We have called multiple times, weekly, monthly, multiple people. Sometimes it requires calling additional companies such as the first time we had long distance problems, again for a service we did not request.

The present charges for an answering service we did not request, remains on our phone bill. Each time we have contacted the companies and the public service commission. We have tried many avenues. We now pay only the charges we owe minus the amount of \$10.93 incorrectly added to our bill. We considered paying it. However its not the amount due, its the principle of the whole issue. We never requested this service.

In my opinion the company doing the billing for these types of services, should be held responsible for doing business with dishonest companies. They should have stopped the billing as soon as the first complaint was made by a consumer and conducted an investigation.

Sincerely,

Sincerely,

 Judith Jaroszewski

RE: Cramming

I will not be attending any of the seminars on cramming but can tell you my experience was very disturbing.

What concerns me most is that the phone company, which I understand is also under your jurisdiction, can put charges on a phone line without the authorization of the person to which that line is registered.

AND – give you a hard time about removing those charges when you have never authorized them.

It seems a simple solution would be for the phone company to require written verification by the person /company to whom the phone is registered. Legitimate companies who want to market a service surely wouldn't be unwilling to send the information in writing (similar to how yellow pages does it) and have it verified and forwarded to the phone company before any charges can be made.

My experience, briefly, is as follows: I got a call from some company. They offered me a "free website design". I told them if they wanted to design a website for me and send it for my approval, that was up to them, but I wanted something in writing that said there would NEVER be any charges related to that design. At no time did I agree to have a website set up. At no time did I ever see the design they CLAIM to have set. Nor have any information provided as to the address of such website. When the first charge appeared on my bill, I called the company immediately and asked them to cancel and reverse any previous charges since I had never authorized such charges. They said I had. I told them to cancel. Wrote them to cancel. Then wrote to the PSC. Only then did I start getting some remedy.

Even more importantly, as a registered representative of a brokerage firm, I am not permitted to do ANY advertising without the format being reviewed by the firm's compliance department, and depending on what is included, certain disclaimers are REQUIRED.

Again, what really concerns me is that the phone company will take the word of some company that I have authorized charges without checking with me first.

Dear Mr. Garcia

I am sorry I will not be able to attend your meeting in Tallahassee (the closest one to me), I will be out of the state that week. I would like to attend because I am still hot under the collar about this!

An unexplained charge of approximately \$32 showed up on my telephone bill. It was listed on a separate sheet marked Hold Billing, but was included in the Bell South total. We called to get it cleared up and got a run-around, finally we were told that the charge was for a web page. We assured the customer service rep that we had not contracted for a web page. We were then told that within ten days someone would call to tell us who authorized the charge.

When we didn't get a call, we assumed they had found that it was an error and rectified it. The next phone bill came showing the first \$32 as being "under investigation" We had been charged the \$32 again, plus an additional \$10 for another web page - bringing the total to over \$70. We had also been charged a late fee because we held our previous phone bill while we tried to get this cleared up.

Several more phone calls later, we received our third bill on which we had been credited part of the amount, but not all.

Several more phone calls and e-mails and we finally got the charges removed from our bill, but the cost in time and aggravation was considerable.

We were finally given the name of the person who had "authorized the charge." My daughter called him to try to clarify how such an error was made - such as very similar modem numbers or something. This individual doesn't even have Internet access, much less need for a web page.

In the final phone call, I was given a new total less bogus charges and late fees, but when I asked for an amended bill showing the correct amount, I was told that was not possible.

I hold Bell South 100% responsible, even though they tried to say it wasn't their fault because the charges were not theirs. My contract is with Bell South and Bell South only. At that time AT&T was our long distance carrier, and that billing was authorized. But otherwise, I have not authorized them to tack anyone else's billing (bogus or otherwise) on my phone bill. My trust has been violated. I now wonder how many times I have been fraudulently charged smaller amounts that didn't catch my attention.

We changed long distance carriers to simplify our Bell South billing, so that it will be easier to spot rip-offs! I would not do business with Bell South at all, if that was an option.

I have recently received a mailing regarding public hearings regarding cramming. While attention to cramming is worthwhile, I would like to address another issue-access by minors to inappropriate 'Sex lines'.

Background- In order to prevent my teenage son and/or his friends (at one time we encouraged them to use our house as a 'base'- it gave us an added insight into what was happening) we had put a block on 900 numbers, and on international numbers. I was shocked when we then received another exorbitant bill for a similar type of call.

Problem- As it was explained to me, there are instances where you can dial a toll free number, where you will hear something to the effect of "If you would like this call to continue, pres 1-2-3-4. " In fact, pressing these numbers routes your call internationally, whereby you do start racking up per minute charges (even though initiated thru a toll-free number). As these rates have emanated from another country, they are not subject to FTC regulations.

Proposed solution- I have asked my carrier for a 'password code' that would be necessary before my telephone line would be capable of incurring additional charges. I can't help but think this would not be technologically challenging-it's effectively done on the internet. I have been advised this cannot be done.

In closing then, let me ask for the assistance of the PSC in this matter.

Thank you.

Last year , I was "crammed" by a company in California, who claimed to
have had a recording of my voice agreeing to sign up for "voice mail".
This wasn't true as I have no use for voice mail. This was a very
aggravating experience, as the company was called every month after my
bill was received and each time, I was assured that the matter was
resolved. The following month, the same thing happened . It was three
months after contacting PSC before this matter was cleared.

I am replying because of the notice you mailed me. I will be unable to attend any of your meetings on this subject, but I would like to provide some comments. Below is a copy of the email I sent you on 27 Apr 98 concerning my experience of being crammed. Who is authorized to place charges on my account? Can I call up the phone company and bill my long distance phone calls to you? I think that the phone company "checks" this authorizations before they bill it, why don't they do the same with this "cramming" practice? And when they finally do get caught cramming, it can take up to 2 or 3 billing cycles before a refund is issued! Talk about a free interest loan! No punishment was given for what happened to me, not even a payment of interest due on the money taken from me. Right now, it seems that there is no motivation to stop this practice. The phone company has no motivation because they will get paid, no matter what, so why should they make an effort to verify charges! The company that crammed me got free money and no fine, or even had to pay interest on my money they took, so why should they stop?

I was the recent victim of fraud where a company billed me for services that I never requested. PANTEL Communication (800) 936-9000, and HOLD Billing Services (800) 879-4653 billed me for monthly calling card services because they said that "Tony Speed" sent in a signed request. I do not know "Tony Speed", "Tony Speed" does not even have the same last name as me! How can someone, especially someone whose name is not the same as the name on the account have authorization to bill my number? Why aren't there any checks or balances on this (besides some policy on paper that you can't enforce)?

I would like to register a formal complaint against PANTEL Communication, HOLD Billing Services, and BellSouth for this activity. My account number with BellSouth is 407-578-9400 650

RE: PUBLIC HEARING ON TELEPHONE CRAMMING

Dear Mr. Garcia,

At this time, I do not know if I will be able to attend the Tampa meeting of Telephone Customers who have been crammed", as I'm in the process of moving when my lease expires around that time.

If not, I wanted to write you concerning my experiences as follows:

- 1) My experience was with free calls to the Psychic Hotline.
- 2) It turns out, the calls were not free as advertised! It involved a psychic named Kenny Kingston and his organization. Another one was a TV show called the Psychic Hotline.
- 3) Once you call the toll-free number (800) you are referred to other numbers and told you will get so many minutes of free calls, yet when you get your phone bill, you were billed at \$2.99-\$3.99 per minute.
- 4) The psychics also try to drag out the conversation to up the charges, or tell you things such as call me back for more information as someone is trying to harm you, etc.

Needless to say, these fraudulent practices need to be stopped, so I hope my comments have been helpful to you. Thank you for your assistance in the past with my phone bill, as I appreciate it!

Most sincerely yours,

Eileen A. Nece

Dear Mr. Garcia:

Because I cannot attend any of the meetings regarding "cramming" enclosed are the materials as evidence of such a fraud.

1. A letter to The Public Service Commission describing the copies of the billing from Sprint and the various statements by individuals during my inquiry into the situation.
2. The reply by Kate Smith.

The scam , as is pointed out, is an outright intent by USP&G to perpetuate a fraud. Also, this foul act is supported by Sprint, unknowingly perhaps, but directly as it was received as part of their billing.

Regarding this matter, is there something that can be done to these crammers in this case of outright fraud?

Sincerely,

Don Pothul

Dear Sir or Madam:

RE: Our recent telephone bill, etc. (see attached pages).

With specific reference to page 7 it is a first time statement. Because of this, and because there are NO details for the charges, I called Sprint on 7/24. "Pat" who could not find any information concerning USP&C suggested I call them.

Upon doing so "Obina" informed me that USP&C "provides a service". Upon further inquiry he stated "a conversion type of service". Because of the total absence of details and because we never ordered any such service I told him that I was not going to pay the bill. After a speedy referral with his supervisor he told me that I did not have to pay the bill. Why then was I charged for something so apparently unauthorized?

On 7/27 I was told by "Brandon" of USP&C that "the four initials did not stand for anything". And, that they (USP&C) "were not affiliated with Sprint". Why then was their statement a part of the bill from Sprint?

On 7/29 "Valerie" of AT&T, our long distance carrier (page9), tried to locate any type of information pertaining to USP&C to no avail.

Because of the above it may appear that USP&C may be an unauthorized operation, and to some degree they are being sponsored by Sprint.

It would be appreciated if your services would allow you to investigate this situation and inform me accordingly.

Sincerely,

CUSTOMER INFORMATION AREA

Your bill has two changes. The FCC has altered the way long distance carriers pay access fees to local phone companies. AT&T is now recovering some of its average per customer access costs in the form of a monthly Carrier Line Charge of \$0.85/account. Also, the FCC extended the Universal Service Fund not only to help provide affordable phone service but also to give schools and libraries access to the Internet. AT&T must contribute to this Fund and is assessing a monthly Universal Connectivity Charge of \$0.93/account instead of the previously announced 5%. For info, call 1 800 532-2021.

Dear Mr. Pothul:

This is a follow-up to your recent inquiry concerning unauthorized charges on your telephone bill. I certainly understand your concerns.

Documentation provided by Union Tel indicates that a credit of \$44.80 has been issued. This should appear on your bill within the next two to three billing cycles.

The Florida Public Service Commission (PSC) has issued a warning about an emerging telephone service scam known as "cramming" -- when charges for telephone services are added or "crammed" on to phone bills without the subscriber's knowledge or consent.

"We must be on the lookout for and take action against cramming," said PSC Chairman Julia L. Johnson. "We have heard from consumers about all kinds of phone charges mysteriously popping up on their bills."

Similar to slamming (when a company changes a consumer's telephone company without permission), cramming occurs when consumers are charged for optional phone services without prior agreement. These services (like voice mail, pagers, personal '800' numbers, information and entertainment calls) are offered by unregulated third-party providers and are frequently billed through local phone companies.

The PSC has recently proposed the nation's strictest rule amendments designed to reduce slamming. The Commission will also consider rule amendments which will provide additional safeguards to subscribers by making a "billing block" option available to prevent unauthorized cramming charges on their local phone bills.

Here are some quick tips consumers should use to avoid being crammed:

- *Carefully read the fine print before filling out a contest form or coupon offer. You may be agreeing to new or additional phone services.*
- *Carefully review your phone bill each month. Look for company names you do not recognize, charges for calls you did not make and charges for services you did not authorize.*
- *Educate your children and other individuals who make phone calls from your telephone that calls placed to information and entertainment services may result in a charge to your telephone account even if the caller does not dial a '900' number.*

I hope this has been of some assistance to you. If you have any questions or need further assistance, please contact me toll free at 1-800-342-3552, by fax toll free at 1-800-511-0809, or by e-mail at ksmith@psc.state.fl.us.

Dear sirs:

First, I tried calling your 800 number. When you choose an option (ie 2), or if you do nothing, it goes to a busy signal. Very frustrating!

Now, the main question. In the 2-17-99 Gainesville Sun there is an article about a \$500,000 fine against AT&T for slamming. However, they actually only have to pay \$300,000 to Florida.

The PSC staff initially recommended \$5.5 million according to this article. HOW DOES A \$5.5 MILLION FINE GET NEGOTIATED DOWN TO ONLY \$300,000? Does the PSC think that a multi-national company the size of AT&T really even blinks at \$300,000??

Slamming will not stop until very large financial penalties are imposed on the guilty parties. Don't you think that AT&T might have made more in profits from the customers it slammed, than they are now paying Florida? It's just a rational business decision for them!!!

I would appreciate honest answers to these questions. We consumers of Florida deserve better than this!

Don Robertson

Dear Mr. Borda:

We have received correspondence from Mr. William E. Webb, Sr., a customer and a rental property owner, addressing the utility's request for payment of a tenant's bill.

Mr. Webb submitted a copy of a letter from Lindrick Services dated February 19, 1999, stating that the tenant did not pay before leaving and as a homeowner the bill becomes the responsibility of the property owner. The bill lists Eileen Templeton as the customer.

In the utility's tariff, "customer" is defined as any person, firm or corporation who has entered into an agreement to receive service from the company (Lindirck Service Corporation) and who is liable for the payment of that service. According to the copy of the tenant's bill, the tenant is the party who received the service, therefore the tenant (Eileen Templeton) and not Mr. Webb (property owner) is liable for the final bill of \$60.37.

If you have any questions, please call me at (850) 413-6962.

A relatively easy means of discouraging this practice --

1. Credit the victim with the full amount of fees
2. As a penalty to the company, the victim is also awarded three times the fees involved. This money comes from the carrier that billed the customer. The carrier may withhold this amount from the proceeds they would otherwise turn over to the company. This is a MUST because there is no leverage the customer has with regard to the company. The carrier would include this provision as part of their contract.
3. The carrier performing the billing may institute a service charge against the company for the additional work and services performed in processing credits back to the customer.
4. The billing carrier notifies the PSC of EACH infraction and the amount involved.
5. On a monthly basis, the offending company must pay for advertising space in the 10 largest Florida newspapers indicating how many infractions they have had reported, if the total exceeds 20 for the previous month. This advertising space MUST be clear as to what is being printed and MUST not contain any type of solicitation for new business. The size of the insert may not be less than 25% of the page size.
6. If a company continues this practice for more than three months in a nine month period, they must pay to the State of Florida 50% of the amounts involved in items 1 and 2 above.

At the present time there does not appear to be any incentive to correct the situation. This should provide more incentive to do what is

Thank you for holding a workshop in Orlando.

Suggestions:

1. Provide a basic service for Seniors and low income families
2. Do Not add "access" fees, surcharges, and other fees to a basic service — including taxes.

This all adds up.

Please note on my accompanying "Cramming" statement of Total fees from my Mar. 25 Bill So, A.T.T. bill of 9.65. This is more than my \$7.00⁰⁰ monthly social security increase for 1999. I have to live on \$548⁰⁰ a month as a 70 years young, 75% disabled person and 50% blind. No one here's facts like me. You have to do something to stop all these fees.

CUSTOMER COMMENTS

I spoke to the FPSC on 4/7/1999 in Orlando. I went on record in favor of eliminating third party billing through the telephone companies entirely.

This does not serve in the public interest. I don't believe that it could be regulated to the public's satisfaction.

This billing practice has spawned a great deal of new businesses that can only exist through this practice.

We all know that many people do not look closely at their bills. Since many businesses depend on that, allowing them the means to do so is unconscionable

Mi Comentario es que si vds. han investigado 1853 casos y le han economizado \$81,439.61 al consumidor, están haciendo un buen trabajo. Ahora bien los papeles investigar las claves de AT&T, que cuando ofrecen sus especiales por telefono dan un precio, y cuando envian la factura, quieren de todas maneras cobrar otro precio más elevado.

People's Gas, si uno se va un mes de vacaciones, siempre cobra lo mismo que si uno estuviera en casa y no estaran en pagones. Si no paga lo que ellos dicen, te amenazan con cortar el servicio del Gas. Yo quisiera saber por que ellos cobran \$7.00 mensuales, de customer charge y si en verdad la Ley lo autoriza a cobrarlos. muy pronto les escribire enviándoles más datos.

Re: Lindrick Service Corporation

Dear Mr. Munroe:

Thank you for taking the time and meeting with me last week concerning our utility company. We have started implementing the following items:

1. Daily work orders are being done on the computer; a copy of the form that we are using is attached for your perusal. As you stated, this way all the orders will be put into the customers' account immediately. I have also asked that all phone calls for questions be placed on the account information also.
2. When customers' are not home we will leave door-hanging notes to identify work completed.
3. We have cleaned up the office to give it a much more professional appearance for the customers when they come in.
4. I have instructed the maintenance men to notify H2O the day the request for repair comes in, will and issue a P.O. for any/all jobs that cannot be handled in house.
5. We are preparing a monthly calendar for routine flushing of all water lines.
6. I spoke to Mr. Borda about getting a public relations type of person for Lindrick Service. We are looking into this item at the present time.
7. We have checked our zero (0) meters, and have issued work orders to replace all malfunctioning meters for occupied structures only (ie: will continue our prior system of meter replacement).

I have left a message for Paulette Dewberry to call me regarding charging deposits and fees for turn on/turn off service.

I will be personally monitoring the above items to make sure our personnel adhere to them.

Should you have any questions regarding this matter, please feel free to call me.

Very truly yours,

Dear Mr. Patterson:

Let me apologize for not responding in a more timely manner. There was some confusion in our response because of the volume of letters concerning this case, and the fact that you wrote two letters addressing separate issues. It is our policy to respond to each and every customer letter.

Staff engineer Lee Munroe has been working with Lindrick to improve their quality of service especially in response to the type of wastewater spill you described in your letter with included pictures. Enclosed is a letter utility policy changes that are to be implemented. Mr. Munroe will be monitoring this utility to make sure these changes and others if necessary are effectively implemented.

If you have any questions call Lee Munroe at (850) 413-6954.

Mr. Paul Schaffer, Senior Engineer
Gulf Power

Dear Mr. Schaffer:

Thank you for your recent inquiry about Federal and State of Florida laws concerning beachfront lighting and sea turtles. We have forwarded your request for information to the Florida Department of Environmental Protection. Specifically, you requested information regarding the responsibility and liability of Gulf Power when installing lighting along Gulf of Mexico beachfront in Bay, Walton, Okaloosa, Santa Rosa, and Escambia counties, Florida.

Artificial lighting has been documented to disorient sea turtle hatchlings and to deter adult females. The emergence from the nest and crawl to the sea is one of the most critical periods of a turtle's life. Hatchlings that do not quickly make it to the sea become food for ghost crabs and birds, or become dehydrated and may never reach the sea. Some types of beachfront lighting attract hatchlings, and lead them away from their destination to the sea. Adult female sea turtles have a tendency to avoid stretches of brightly illuminated beach. Researchers and sea turtle monitoring personnel have also observed that highly developed beaches with excessive lighting are devoid of nests relative to adjacent areas. Our goal is to reduce beachfront lighting problems so that hatchling turtles have a better chance of reaching the sea, and adult female turtles have suitable habitat in which to lay nests.

All sea turtles that nest on the beaches of Bay, Walton, Okaloosa, Santa Rosa, and Escambia counties are threatened or endangered species. Sea turtles, their eggs, and nests are provided protection under the Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531-1543), and by regulations promulgated there under (50 CFR Part 17). Section 9 of this Act and the implementing regulations make it unlawful for any person subject to the jurisdiction of the United States to "take" any endangered or threatened species within the United States (16 U.S.C. 1538(a)(1)(B)). Further, the Act defines take to mean "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct" (16 U.S.C.

1532(19)). The term "harm" has been further defined in the implementing regulations as "an act which actually kills or injures wildlife." Such acts may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns including breeding, feeding or sheltering" (50 CFR Part 17.3). The regulations define the term "harass" as "an intentional or negligent act or omission which creates the likelihood of injury to wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to breeding, feeding or sheltering" (50 CFR Part 17.3). Therefore, any activity, including disorientation of nesting and hatchling sea turtles by artificial beachfront lighting that significantly alters the behavior of sea turtles or results in injury or death to sea turtles may constitute a violation of Section 9 of the Act.

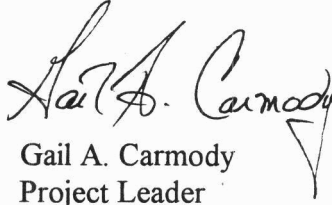

As an entity that installs lights on beachfront property and roadways adjacent to nesting sea turtles' habitat, your company is responsible for ensuring that the lights installed and maintained by Gulf Power will not be harmful to sea turtles or any other listed species. The prohibitions against take apply to all "persons." The term "person" means "an individual, corporation, partnership, and/or trust. Association, or any other private entity; or any officer, employee, agent, department, or instrumentality of the Federal government, of any State, municipality, or political subdivision of a State; or any other entity subject to the jurisdiction of the United States." Courts reviewing this definition have found that municipalities and county governments are liable for "takings" under Section 9 of the Act (see *Loggerhead Turtle v. Volusia County, Florida*, 896 F. Supp. 1170 (S.D. Fla. 1995); *Strahan v. Coxe*, 127 F. 3d 155 (1st Cr. 1997)).

As you know, a collaborative effort to address coastal roadway lighting issues has involved the electric industry, transportation officials, regulators (including the Fish and Wildlife Service), biologists, and local governments. We have previously provided you a copy of the Coastal Roadway Lighting Manual. The manual provides guidance for installing roadway or similar lighting on or adjacent to sea turtle nesting beaches. Although some of the recommendations in the manual do not result in 100 percent reductions in lighting disorientation, they are currently the most reasonable solutions based on the best currently available scientific and commercial information.

In addition, we are aware that Gulf Power would have to receive approval from the Florida Public Service Commission (PSC) before being able to provide the currently best known sea turtle compatible lighting - low pressure sodium lights. However, there are other options that Gulf Power could consider in the interim. They include: 1) turning lights off seasonally, 2) relocating or redirecting light fixtures, 3) installing light shields, 4) changing a drop globe fixture to a cutoff style fixture, 5) removing a fixture, and/or 6) selectively installing colored lenses. If Gulf Power is unable to implement any of these alternatives, the property owner may elect to install their own light fixture that is sea turtle compatible and not subject to PSC's approval. The State of Florida has prepared the report: Understanding, Assessing, and Resolving Light-Pollution Problems on Sea Turtle Nesting Beaches to address this need. A copy of the document has been provided to you previously and additional copies may be obtained from the State of Florida.

We appreciate Gulf Power's past commitment and cooperation in working with us to resolve identified sea turtle lighting concerns. We look forward to continued partnership in this effort. Please contact Lorna Patrick of this office at ext. 229 if you have any questions.

Sincerely,

Gail A. Carmody

Re: Outstanding Discovery Matters

Dear Scheff and Jay:

At our meeting Tuesday we spent considerable time going through OGC's discovery responses and addressing how FPL felt they were less than complete. We worked through all the interrogatories but only part of the requests for production. I agreed to get back to you about the remaining requests for production. That is the purpose of this letter.

We had worked through request 19 on FPL's first request, so I will begin with request 20 and address each of the remaining requests about which we have concerns.

- 21. Are there no OGC or PG&E projections responsive. If there are, what terms and conditions are proposed for review?
- 24. What is the status of the effort to secure a nondisclosure arrangement with ABB? We are interested in terms and conditions for such an agreement.
- 25. Are there PG&E or other affiliates documents responsive? If so, under what terms and conditions may FPL review them?
- 26. What is the status of the effort to secure a nondisclosure arrangement with ABB? We are interested in terms and conditions for such an agreement.
- 27. Is there nothing more than the response to request for production 9?
- 30-33. We expect to respond to you Monday regarding your proposed "terms" for review of Altos documents.
- 36. It appears there are other documents responsive to this request in the possession of OGC's parent or other affiliates that should be produced. Please identify any PG&E or other documents withheld on confidentiality grounds and state the terms and conditions proposed for FPL's access to them.

Second Request for Production

37. The entire file identified is not responsive. Which subfiles are responsive?
38. Which subfiles are responsive?
40. As we understand your supplemental response, you have identified all specific documents relied upon. If not, please identify any remaining documents.
43. It appears there are other documents responsive to this request in the possession of OGC's parent or other affiliates that should be produced. Please identify any PG&E or other documents withheld on confidentiality grounds and state the terms and conditions proposed for FPL's access to them.
44. It appears there are other documents responsive to this request that are in the possession of OGC's parent or other affiliate and should be produced.
45. Was there no reliance on PG&E or other affiliates' documents?
46. Are all the documents identified in your supplemental response documents Mr. Vaden relied upon to conclude that it was unlikely OGC or other merchant plants will export outside of Florida?
47. Are the all the documents identified in your supplemental response documents Mr. Kordecki relied upon to conclude that it was unlikely OGC or other merchant plants will export outside of Florida?
- 49-50. Neither of the documents provided show the UCNSB's resources available to serve load beyond 2002. Such information appears to be necessary to answer the response. Is there nothing else responsive?
52. In regard to the second paragraph of the response, which specific responsive documents are being withheld? As to the ABB documents, what is the status of securing a nondisclosure agreement? As to "Internal Project Performance," please identify all responsive documents and whether each is an OGC document or a PG&E document. Additionally, please specify the terms and conditions proposed for FPL's access.
53. What is the status of securing an ABB nondisclosure agreement?
56. What is the status of securing a nondisclosure agreement with Gulfstream regarding the confidential documents identified in this response. Do we need to secure an order compelling disclosure to facilitate securing such an agreement, or can OGC and Gulfstream reach an agreement short of that?
58. What is the status of securing an ABB nondisclosure agreement?
59. Are these the only responsive documents?

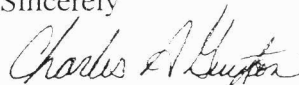

Mr. Wright and Mr. LaVia

Third Request for Production

65. What terms and conditions are proposed for FPL's review?

Gentlemen, I believe that, along with the concerns voiced Tuesday, this letter addresses most of FPL's concerns regarding outstanding discovery. While it appears that there will be matters for the Prehearing Officer to address, we are hopeful that we can work through a number of these concerns. We look forward to your response.

Dear Sir or Madam:

I recently received a notice of application for a transfer of majority organizational control pursuant to chapter 367.071 (1) Florida Statutes from United Water Florida. This states that Lyonnaise American Holding, Inc. will acquire the remaining shares of United Water Resources, Inc. that it does not already own.

While this notice states that this action will not produce another rate increase, I'm afraid I do not believe it. United Water Florida has not missed a single opportunity to raise their rates. My water bill is now between \$45 and \$55 a month. There are only 2 people living in this house and I do not water my yard with this water. The rates have increase, however slightly, every 6 months since 1987. I cannot comment on the time before that because I did not own a house and did not pay a water bill. As far as I am concerned, their rates are outrageous. I hope they have made some provision for the elderly on a fixed income so they won't have to live without water because they cannot afford it.

I did not go to any meetings and object because I truly did not think it would do me a bit of good. No one with the power to raise rates ever thinks about the people who have to pay the bill. I do not expect this letter to make one iota of difference in the outcome of this transfer, or anything else United Water comes up with for that matter. It just amazes me how they get away with these things. If this transfer does not raise the rates, I do not object.

Very truly yours,

Harriet Moore

Re: Notification by International Exchange Communications, Inc., d/b/a
IE COM and North American Telephone Network, L.L.C. of
Asset Transfer Agreement

Dear Sir or Madam:

On behalf of International Exchange Communications, Inc. ("IE COM") d/b/a IE COM and North American Telephone Network, L.L.C. ("NATN") this letter is to advise the Commission of an Asset Transfer Agreement (the "Agreement") which the companies propose to consummate. It is our understanding, based upon review of the applicable statutes and regulations, that this transaction does not require prior Commission approval. Accordingly, absent written notice to the contrary within thirty (30) days of the date of this letter, the parties will proceed to consummate the transaction in a timely fashion.

IE COM and NATN propose to consummate the Agreement whereby IE COM will purchase, and NATN will sell, all of the telecommunications assets of NATN, including all customer accounts (the "Acquisition"). A copy of the Agreement is available for inspection and review upon request by the Commission.

IE COM is a Delaware corporation which is a wholly owned subsidiary of Pacific Gateway Exchange, Inc., a Delaware corporation which is publicly traded on the NASDAQ National Market (hereinafter "PGEX"). IE COM's principal offices are located at 533 Airport Blvd., Suite 505, Burlingame, CA 94010. IE COM is a non-dominant carrier that resells domestic interstate and international long distance service purchased from various facilities-based carriers pursuant to the FCC's *Competitive Carrier* policies. IE COM is a certificated carrier in this State.¹

NATN is a privately held Georgia limited liability company with principal offices located at 4151 Ashford Dunwoody Road, Suite 675, Atlanta, GA 30319. NATN is a non-dominant carrier that resells domestic interstate and international long distance service purchased from various facilities-based carriers pursuant to the FCC's *Competitive Carrier*

¹IECOM is a certificated carrier in this State, pursuant to authority granted in Docket #981377-TI, granted March 10, 1999.

policies. NATN is a certificated carrier in this State.²

The proposed Acquisition will accomplish the following:

- a. IE COM will buy, and NATN will sell, transfer and assign to IE COM, all of NATN's right, title and interest in and to NATN's assets, as defined in the Agreement;
- b. In consideration for the above transfer and sale of assets, IE COM will pay to NATN the purchase price as described more fully in the Agreement; and
- c. The assets to be sold to IE COM include, to the extent permitted by this Commission, the transfer of all of NATN's customer accounts.

IE COM proposes to acquire and consolidate the customer accounts of NATN in order to create a single, larger long distance carrier operating in a greater number of states. By virtue of these transactions, IE COM will realize significant economic, marketing and administrative efficiencies.

Following consummation of the transaction discussed above, IE COM will transfer all of the present customer accounts of NATN to IE COM, and continue to service these customers through and pursuant to the certification previously obtained by IE COM in this State. Prior to consummation of the proposed transaction, IE COM intends to notify all current end users of NATN of the event and also of any change in rates, by either a separate mailing or by a bill insert. To the extent that any present NATN rate products are not included in IE COM's Tariffs, IE COM will amend its Tariffs accordingly. As such, the transaction should not cause any inconvenience or confusion to the pre-existing customers of either NATN or IE COM. In no event will any transferred customers be charged higher rates as a result of the proposed transaction.

The technical, managerial and financial personnel of IE COM will assist with the integration and consolidation of the transferred accounts after the transaction, and will serve both the existing IE COM customers and the transferred NATN customers with the same high level of expertise.

Critical to the proposed transaction and consolidation of customer accounts is the

need to ensure the continuation of high quality service to all customers currently served by both IE COM and NATN. The proposed transaction will serve the public interest for the following reasons:

- a. It will enable IE COM to provide a streamlined level of service for all involved customers by creating a single, larger operation to provide long distance service to the customers in this State as well as other states. The transaction will enhance the operating efficiencies, including market efficiencies, of IE COM.
- b. It will increase the appeal to present and potential customers because of IE COM's larger size and greater variety of service offerings as well as enhance the ability of IE COM to appeal to and serve national accounts.
- c. It will result in cost savings as the result of discounts on quantity ordering of materials and services.
- d. Accordingly, the requested transaction and consolidation will serve to create a heightened level of operating efficiency which generally will serve to enhance the overall capacity of IE COM to compete in the marketplace and to provide telecommunications services for a greater number of consumers of this State at competitive rates.
- e. Additionally, IE COM will possess a greater customer account base as the result of the proposed purchase of assets, and will thus be a stronger carrier to provide high quality service to all customers presently serviced by both IE COM and NATN.

The parties are forwarding this letter to the Commission for informational purposes, to be included in the appropriate files. Absent receipt of written notification to the contrary within thirty (30) days of the date of this letter, we will proceed under the understanding that no approval or other formal action is required by the Commission prior to consummation of the proposed transaction.

Enclosed are the original and twelve (12) copies of this letter. Please return the additional copy of this letter file-stamped the envelope provided. If you need any further information or have any questions, please do not hesitate to contact the undersigned. Thank you for your assistance in this matter.

Respectfully submitted,

Re: Complaint against Bell South

To Whom It May Concern:

It was just recently brought to my attention that I should have contacted your agency weeks ago regarding a problem I was having with Bell South. I realize there probably isn't anything you can do for me, at this time, however I feel you should be aware of the situation Bell South put our family and business through.

My husband owns a building company in Wellington, Florida East Coast Development, Inc., and I work with him. We are temporarily working in a new house we moved into, until our new office is completed in March.

In early October I contacted Bell South about our move on Nov. 18th, for our two business lines and two residential lines in our new home. It was arranged that all four lines would be transferred on Nov. 18th which was our moving date. Since we move frequently, I have learned to give plenty of advance notice to all of our utility companies, in hopes of avoiding delays.

On Nov. 18th a note appeared on the front door saying there was a cable problem and we would be "updated" within four days. I could not believe the note so I immediately spoke to a representative regarding the residential and business lines. It seems they needed to install new cables and I was put on a wait list with a cable company, since Bell South subs out this work. They did not know how long it would take.

original
I explained the urgency in giving us at least a business line, since we cannot work without a phone. It was suggested that I keep the business lines at the old location, since I had a few days until I had to be out of the office. With that in mind, I agreed. I felt I could run back and forth to the old location and retrieve my messages and make my return calls. I did not have furniture, however, at least I still had contact with customers and the messages.

Unfortunately, I lost my memory call. I made several calls to Bell South, but the problem was never corrected. On Nov. 29th, we had to relocate phone service from the old office and Bell South did not know when they could connect the new service. It was Bell South's suggestion that I have one business line transferred to my mobile phone, with Bell South Mobility. I knew this would be a costly move for me, however, we had no choice. You cannot run a building company without phones. I agreed to this change and it was done.

My husband and I were very concerned about the cost of running our business from two portable phones. At that time, I changed my minutes from 750 to 2000 since we felt it would be cheaper this way. I got memory call and call waiting as well. During one of my many calls to Bell South, I spoke with a woman to see if they would consider paying some of the bill and she said yes. However, it was never mentioned what portion of the bill they would pay or that I should not alter my existing portable phone service.

Two more weeks went by without service in our home or business, other than the portable. I could not use my fax machine, my family did not have a phone at home when I left during the day and my husband and I communicated all day on our portables. There were times we could not talk since the batteries had to be charged. As far as our personal phones, Bell South did not do anything for us. If you tried to call us personally the phone just rang.

On Friday, December 10th, a Bell South engineer came and installed our lines. He said it was inexcusable that it took so long and that as a business we weren't given a priority for at least one line. He said the engineering department is always given the blame. This past Monday, our memory call went out again and on Tuesday it was corrected.

To say the very least, we have incurred large phone bills, a lack of all personal contact with people calling us at home and a loss of business. In real estate, if a realtor cannot reach you and wants to show you home, they go to the next house on the list. I lost all memory of the phone calls that occurred between Nov. 18th and Dec. 10th, on our personal and business lines. We do not know what our loss is and have no way of knowing. It was a very unprofessional way for us to run our business. I had to pay for faxes to be sent or go to offices of our friends.

On Dec. 10th I placed a call to Zena Durr, who is one of the people I spoke to previously. She has a big position with Bell South. When I called her number a recorder said that due to the large volume of calls she might not get back to the caller for a few days. On Wednesday she called me back and we discussed my phone bills. It was agreed that the installation of the business line would be paid and that I should send her the portable phone bills, which I did. Zena called me back and said she could not pay for the portable bill since I changed my service contract minutes. I explained that it was done to keep the bill at a minimum. She argued with me, was rude and would not give me a chance to speak so I said I was hanging up and calling the PSC. She said I should do that. I spoke to one of your representatives and she suggested I document the entire occurrence, which is what I am doing now.

At this point, I probably have lost all chance of any reimbursement from Bell South. This past month has been a very stressful month for us, not to mention a terrible inconvenience for us

personally as well as professionally. Bell South should not be yelling at me on the phone. They should be doing everything they can to make up for what they did to us. They are very unprofessional and obviously understaffed.

It is very unfair that they have a monopoly on the phones and we can't seek service elsewhere. Each time I called them I would have to wait for 10 minutes or longer, while on a portable phone, to speak to someone. Several times I asked to speak to a manager and was told there was nobody else to go to for help. This experience has made me very angry and I felt I needed to place a complaint against them so that perhaps it doesn't happen to somebody else.

At this time my husband is going to attempt to call Zena Durr, since I refuse to, to see if she will still take care of the business installation charges. She did say that she could give us \$100. towards our portable bill. They claim they do not help with personal lines. My portable bill was \$354.52 and my husband's was 179.09, a lot more than usual.

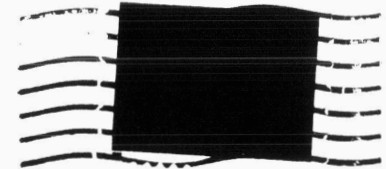

We will be moving again in March and if I have the slightest problem I will be contacting your office. I will never go through a situation again like this one. There must be someone in a higher position at Bell South that can act in a more professional and helpful manner than the woman I dealt with.

Thank you for taking the time to read this lengthy letter. I tried to shorten it but could not. Should you have any information for me, I would appreciate hearing from you.

Sincerely,

A handwritten signature in cursive script, reading "Deborah E. Piconcelli".
