Docket No. 990649-TP
Request for Confidential Classification
Page 1 of 1
9/26/01

REQUEST FOR CONFIDENTIAL CLASSIFICATION OF BELL SOUTH'S RESPONSE
TO AT&T AND MCI'S JOINT FIRST REQUEST FOR PRODUCTION OF
DOCUMENTS INTERROGATORY NOS. 2 AND 4 AND REQUEST FOR
PRODUCTION, ITEM NO. 1 FILED SEPTEMBER 6, 2001
IN FLORIDA DOCKET NO. 990649-TP

One Highlighted Copy

MR 36-07 (entire document)
DECLASSIFIED
CONFIDENTIAL

appeal

This confidentiality request was filed by or
for a "telco" for DN 12160-01. No ruling
is required unless the material is subject to a
request per 119.07, FS, or is admitted in the
record per Rule 25-22.006(8)(b), FAC.

(X-ref. 11128-01)

Chapter 1

Introduction to Scheduling

Overview

Introduction

The Outside Plant Construction Management (OSPCM) Scheduling application consists of the scheduling and maintenance of the following items:

- activities
- commitment dates
- priorities
- resource availability
- material availability
- roadblocks
- work sequences
- completion dates.

Activities are scheduled into twenty one-week periods that can be viewed based upon user needs.

The OSPCM Job Entry application configuration process places substeps into logical groups called activities. The configuration process also assigns resources and creates priority and completion dates based on user-controlled tables. Activities are scheduled based on priorities, commitment dates, commitment types and resource availability.

Overview, Continued

Chapters in this Manual

This guide consists of task oriented chapters which address a specific topic. Each chapter uses a consistent structure to make this information easily accessible.

Chapter 1 — Introduction to Scheduling provides overview information about using OSPCM. New users should read this chapter carefully before using Scheduling. Advanced users may want to review this material to ensure they are aware of all OSPCM functionality. Chapter 1 provides the same information in every OSPCM User Guide, with some information specific to each application.

The rest of the chapters in this guide address a specific part of Scheduling.

- Chapter 2 — Scheduling Options
- Chapter 3 — 20 Week Limited Schedules
- Chapter 4 — Current Scheduling Period (Week 1)
- Chapter 5 — Next Scheduling Period (Week 2)
- Chapter 6 — 20 Week Unlimited Schedules
- Chapter 7 — Maintaining Activities
- Chapter 8 — Displaying Resource Workloads
- Chapter 9 — Printing Scheduling Reports

Each chapter consists of a chapter overview and an introduction to each procedure. Each procedure provides step by step instructions with sample screens.

Refer to **Audience** to determine which chapters are relevant to your position.

Conventions

The following conventions are used to describe the procedures in this guide. Make sure you understand these conventions before using this guide.

Terms

click	press your left mouse button once
double-click	press your left mouse button twice in quick succession
choose	click to access a menu item
select	1) click a grid item to highlight it 2) place your cursor on a radio button or check box and click to mark it 3) double-click on a grid item 4) chose an item from a drop down list

Notations

Keyboard characters are represented in bold. Example: **Tab** and **Ctrl**.

Menu selections are often represented by their corresponding button or icon.
Example: Select Save.

Special Information

Look for these markers for special information.

Note:	provides helpful information
	provides important Methods and Procedures information that may cause liabilities or have procedural implications

Overview, Continued

Audience

Review this chart to see which chapters address procedures associated with your position and job responsibilities. See the Table of Contents for a detailed list of procedures addressed in each chapter.

Position	2	3	4	5	6	7	8	9
Core Staff	✓	✓	✓	✓	✓	✓	✓	✓
State Contract Coordinator	✓	✓	✓	✓	✓	✓	✓	✓
Material Service Coordinator	✓	✓	✓	✓	✓	✓	✓	✓
Construction Supervisor	✓	✓	✓	✓	✓	✓	✓	✓
Maintenance Supervisor	✓	✓	✓	✓	✓	✓	✓	✓
Engineer	✓	✓	✓	✓	✓	✓	✓	✓
Telco Clerical	✓	✓	✓	✓	✓	✓	✓	✓
Contractors	✓	✓	✓	✓	✓	✓	✓	✓
Plant Contract Supervisor	✓	✓	✓	✓	✓	✓	✓	✓
Information Tech Manager	✓	✓	✓	✓	✓	✓	✓	✓
Managers	✓	✓	✓	✓	✓	✓	✓	✓

Note: All procedures assume you have completed an Introduction to Windows class and appropriate OSPCM training.

Installation/Setup

Introduction In order to access OSPCM Scheduling, you need the appropriate setup and installation.

See [Getting Started with OSPCM](#).

About the OSPCM Guide

Introduction

The OSPCM Guide is the “launching pad” for all OSPCM applications. When you access the OSPCM Guide, the following processes occur “in the background” to ensure that OSPCM applications run correctly.

- Sets the database to Production or Training
- Performs security validation based on your Common User Identifier (CUID) and OSPCM password
- Loads environment variables to ensure that OSPCM applications work correctly
- Replicates (copies) portions of the database from the server to the database on your PC (your local database)
- Initializes the applications you are authorized to use
- Displays the OSPCM Guide so you can open OSPCM applications

When the processes are complete and the OSPCM Guide displays, you can open the OSPCM applications you need. You can also perform the following tasks.

- Change your state default
 - Refresh your local database
 - Set training mode
 - Set display options
 - Display the Select Database window at login
 - Change your OSPCM password
-

Continued on next page

About the OSPCM Guide, Continued

Accessing the OSPCM Guide

Use the following procedure to access the OSPCM Guide.

Step	Action
1.	From the Windows desktop, double-click on the OSPCM icon.  The OSPCM Program Group window displays. 
2.	Double-click on the OSPCM Guide icon.  OSPCM Guide The Select Database dialog box displays. 

Continued on next page

About the OSPCM Guide, Continued

Accessing the OSPCM Guide (continued)

3.	To use the production database, select the Production radio button. To use the training database, select the Training radio button. Note: To prevent the Select Database dialog box from displaying when you log in to OSPCM, select the Do not show this screen check box.																								
4.	Select OK. The BellSouth Security Login dialog box displays.  The dialog box titled "BellSouth Security - Login" has a dark background. It contains two text input fields: "User Name:" and "Password:". To the right of the "User Name:" field is an "OK" button, and to the right of the "Password:" field is a "Cancel" button.																								
5.	Enter your CUID and password. Select OK. The OSPCM Guide splash screen displays with the following information in the title bar. • Loading Environment Variables • Replicating Database • Initializing Applications When these activities are complete, the OSPCM Guide displays with the applications you are allowed to access.  The splash screen titled "OSPCM Guide" has a menu bar with "File", "Options", and "Help". Below the menu bar is a grid of application icons and labels: <table border="1"><tr><td>BSW LookUp</td><td>Bid and Award</td><td>Billing and Reporting</td><td>CS Job Entry Editor</td><td>CS Materials Editor</td><td>CS Pricing Editor</td></tr><tr><td>CS Reference Editor</td><td>Complaint</td><td>Configuration Editor</td><td>Daily Expectations</td><td>Employee Editor</td><td>Holiday</td></tr><tr><td>Inspections</td><td>Job Entry</td><td>Job Entry Other</td><td>Location Editor</td><td>Management Reports</td><td>Materials Management</td></tr><tr><td>Operations Profile Editor</td><td>Pricing</td><td>Regional Contracts</td><td>Scheduling</td><td>Workstation</td><td></td></tr></table>	BSW LookUp	Bid and Award	Billing and Reporting	CS Job Entry Editor	CS Materials Editor	CS Pricing Editor	CS Reference Editor	Complaint	Configuration Editor	Daily Expectations	Employee Editor	Holiday	Inspections	Job Entry	Job Entry Other	Location Editor	Management Reports	Materials Management	Operations Profile Editor	Pricing	Regional Contracts	Scheduling	Workstation

About the OSPCM Guide, Continued

Changing Your State Default

Use the following procedure to change your state default server. (The initial setting is Alabama.) The state server determines what information you see in OSPCM applications. For example, if Tennessee is your default state server and you are using the Scheduling application, all information shown in Scheduling comes from the Tennessee server.

Step	Action
1.	On the OSPCM Guide, select the File menu, then choose Select State. The following dialog box displays. 
2.	Select a default state server from the OSPCM State drop-down list box.
3.	Select OK. The system returns to the OSPCM Guide.

Continued on next page

About the OSPCM Guide, Continued

Refreshing Your Local Database

Use this procedure to refresh the database stored on your PC (your local database) with current data stored on the server. The system automatically refreshes your local database on the following occasions.

- The first time you log in to OSPCM each day
- When you change between the Training and Production servers
- When you log in to OSPCM with a different CUID

Step	Action
1.	On the OSPCM Guide, select the File menu, then choose Refresh Local Database.
2.	The OSPCM Guide splash screen displays while the system copies (replicates) data from the server to your local database.  The image shows a splash screen for the OSPCM Guide. At the top, it says 'Replicating Database...'. Below that is a logo consisting of stylized letters 'O', 'S', 'P', 'C', 'M' arranged in a grid. To the right of the logo, it says 'OSPCM Guide'. Below the logo, it says 'Version 2.0'. At the bottom, there is a small copyright notice: 'Copyright © 1995, 1996 BellSouth. All Rights reserved. NOTICE: Not for use or disclosure outside BellSouth without written permission.'
3.	When the process is complete, the system returns to the OSPCM Guide.

Continued on next page

About the OSPCM Guide, Continued

Setting Training Mode

Use this procedure to run OSPCM with the training database. (The initial setting is the Production database.)

The training database enables you to learn new procedures without corrupting important live data on the production database. When the training database is selected, a check mark displays next to the Training Mode option on the File menu and OSPCM applications use test data rather than live data. OSPCM continues to run with the training database until you change it back to the production database.

Note: To verify and/or select the database each time you log in to OSPCM, see **Displaying the Select Database Dialog Box**.

Step	Action
1.	On the OSPCM Guide, select the File menu, then choose Training Mode. The following message displays. 
2.	Select Yes to switch to the training database. (To return to the OSPCM Guide without switching to the training database, select No.) The OSPCM Guide splash screen displays while the system validates your CUID, switches to the training database, and replicates data to your local database. When the process is complete, the system returns to the OSPCM Guide.
3.	To return to the production database, select the File menu, then choose Production Mode. The following message displays. 

Continued on next page

About the OSPCM Guide, Continued

Setting Training Mode (continued)

4.	Select Yes to switch to the production database. (To return to the OSPCM Guide without switching to the production database, select No.) The OSPCM Guide splash screen displays while the system validates your CUID, switches to the production database, and replicates data to your local database. When the process is complete, the system returns to the OSPCM Guide.
----	---

Setting Display Options

The OSPCM Guide enables you to set the following display options.

- Select whether the OSPCM Guide is "always on top"
- Select the number of columns displayed on the OSPCM Guide

Always On Top

By selecting Always On Top from the Options menu, you can keep the OSPCM Guide displayed even if you access other application windows. When this option is selected, a check mark displays next to Always on Top on the Options menu.

If you do not need to display the OSPCM Guide at all times, you can turn off Always On Top by selecting it from the Options menu.

Columns Displayed

By selecting Columns Displayed from the Options menu, you can display the application icons in a set number of columns. When you select Columns Displayed, a drop-down list displays for you to select 3, 4, 5, or 6 columns. (The currently selected number has a check mark next to it.)

Note: The number of columns cannot exceed the number of application icons available. For example, if you only have two application icons and you attempt to set the number of columns to six, the system defaults to the number of icons available.

Continued on next page

About the OSPCM Guide, Continued

Displaying the Select Database Dialog Box

Use this procedure to display the Select Database dialog box each time you log in to OSPCM. (The initial setting is active.)

When Select Database is active, a check mark displays next to Database Screen on the Options menu. Each time you log in to OSPCM, a dialog box displays so you can select the training or production database.

Note: To switch between the production and training databases from the OSPCM Guide, see **Setting Training Mode**.

Step	Action
1.	On the OSPCM Guide, select the Options menu, then choose Database Screen.
2.	When Database Screen is selected, the following dialog box displays when you log in to OSPCM. 
3.	You can prevent the Select Database dialog box from displaying when you log in to OSPCM by performing either of the following tasks. • On the Select Database dialog box, select the Do not show this screen check box. • On the OSPCM Guide Options menu, select Database Screen.

Continued on next page

About the OSPCM Guide, Continued

Changing Your OSPCM Password

Use this procedure to change your OSPCM password.

Step	Action
1.	On the OSPCM Guide, select the Options menu, then choose Password. The Change Password dialog box displays. 
2.	Enter your CUID in the Cuid field and press Tab .
3.	Enter your old password in the Old Password field and press Tab .
4.	Enter your new password in the first New Password field and press Tab .
5.	Re-enter your new password in the second New Password field.
6.	Select OK. Your password is changed. The system returns to the OSPCM Guide. To return to the OSPCM Guide without changing your Password, select Cancel.

Accessing OSPCM Scheduling

Introduction

Access the Scheduling application functions from the OSPCM Scheduling window, hereafter known as the Scheduling desktop.

1.	From the OSPCM Guide window, double-click on the Scheduling icon.  Scheduling The Choose State and CMC dialog box displays. 
2.	Enter or select a state from the State drop-down list box.
3.	Enter or select a Construction Management Center (CMC) from the CMC drop-down list box.

Continued on next page

Accessing OSPCM Scheduling, Continued

Introduction (continued)

4.	Select OK. The Scheduling desktop displays.  Note: If you cannot display the desktop, contact your OSPCM support group.
5.	To exit from the Scheduling application select Cancel,  double-click on the control menu,  or select the File menu and choose Exit.

Setting User Screen Preferences

Introduction

OSPCM Scheduling provides the ability to change screen preferences. The following capabilities are provided.

- Select display attributes
- Select the state, Construction Management Center (CMC) and inventory site where you work
- Save your settings on exit so that your selections are displayed each time you use the Scheduling application
- Select View menu attributes

When you first use the application, the message level is set to Novice. This means that error and message boxes are prominently displayed. You can change the message level to Advanced, but then errors and warnings are displayed at the bottom of the display, and they are not as obvious. You should be very familiar with the system before changing the message level to Advanced.

Once new user preferences are set, they display whenever you use OSPCM Scheduling.

Continued on next page

Setting User Screen Preferences, Continued

Select Display Attributes Use the following procedure to select display attributes.

Step	Action
1.	From the Scheduling desktop, select the Options menu and choose Preferences. The Preferences dialog box displays with the OSPCM tab shown.  This display shows the default settings provided by OSPCM when you first sign on.
2.	In the Save Settings on Form Exit area, select any of the following check boxes. • Save Column Width Settings • Save Row Height Settings • Unchangeable Grids
3.	In the Message Level area, select the Novice or Advanced radio button.
4.	In the Toolbar area, select the appropriate radio button to position the OSPCM toolbar, or select the Moveable Toolbar check box to provide a moveable toolbar. The default setting is Align Top, and that is currently the only option available.
5.	In the Screen Position area, select Main Form and/or Child Windows.

To set the state and Construction Management Center (CMC) see the next procedure, **Select Default Settings**.

Continued on next page

Setting User Screen Preferences, Continued

Select Default Settings

Use the following procedure to select default settings for state and CMC. This procedure assumes that you have the Preferences dialog box displayed with the OSPCM tab shown.

Step	Action
1.	Single-click on the Defaults tab. The Defaults tab displays. 
2.	Select your preferences for State and CMC from the appropriate drop-down list box.
3.	Select OK. The Scheduling desktop displays. To return to the Scheduling desktop without saving changes: Select Cancel. 

To save your settings when you exit Scheduling, see the next procedure, **Save Settings on Exit**.

Continued on next page

Setting User Screen Preferences, Continued

Save Settings on Exit

The columns and rows on OSPCM windows (and the windows themselves) are set to a certain size by the program. This is known as the default setting. However, OSPCM enables you to resize columns and rows (and windows).

Using the mouse, you can make columns and rows on a window smaller or larger by single-clicking on a grid line and dragging it until the column or row is the size you want. You can drag horizontal and vertical grid lines to make rows wider or narrower.

In addition to resizing columns and rows, you can resize the windows themselves by single-clicking on the window border and dragging it until the window is the size you want or by using the control boxes in the top right corner to enlarge and reduce windows.

Save Settings on Exit enables you to keep windows the way you sized them. Each OSPCM program has an Options pull-down menu that includes Save Settings on Exit. When Save Settings on Exit is active, a check mark (✓) displays and windows, columns and rows remain the way you sized them. When Save Settings on Exit is inactive, no check mark displays and windows, columns and rows return to their default settings.

Each time you open a program, OSPCM defaults Save Settings on Exit to active.

Select View Menu Attributes

The View menu allows you to choose whether or not to display the following attributes of the desktop.

- Toolbar
- Status Line

When you first access Scheduling, the status line and toolbar display. When you select the View menu, a check mark (✓) displays next to the item that is active. By selecting one of the items from the View menu, you turn the attribute off, and the check mark no longer displays.

It is recommended that you leave the toolbar and status line displayed.

Using OSPCM Scheduling

Introduction

The following design features are provided to help you perform OSPCM tasks.

- Online Help
- Short Cut Keys
- Highlighted Required Fields
- Navigation Features
- Scrolling Capability
- Error Messages

Online Help

OSPCM Help provides information about fields, windows, dialog boxes and procedures. It also provides a glossary of commonly used terms, a search feature and information about Microsoft Help.

The following table provides a quick reference for using Help within OSPCM Scheduling.

If you	You can
Need to find information	Choose one of the following. • Contents from the Help menu • The Help button from the tool bar  • A help topic from of a list of green-colored links • Search from the Help menu
Need help about a field	Choose one of the following. • Move your cursor to the field and press F1 • The Field topic in the non-scrolling area • Search from the Help menu
Need to perform a task	Choose one of the following. • Cue Cards from the Help menu, then select a procedure topic from the displayed list • The Procedure topic in the non-scrolling area of a window or dialog box • Search from the Help menu
Need to exit Help	Choose one of the following. • The Exit button on the Help tool bar • Press the Esc key

Continued on next page

Using OSPCM Scheduling, Continued

Online Help (continued)

Need to access web site	Single-click the OSPCM web site  icon on the Contents or Overview help topic.
Need to view user guide	Single-click the OSPCM web site  icon on the Overview help topic.

Using Shortcut Keys

Like most Windows programs, OSPCM gives you a choice about how to perform certain actions. For some actions, you can either single-click on a toolbar button using the mouse or press keyboard keys, depending on your preference.

Keyboard shortcuts involve pressing two or more keys at the same time. For example, **Ctrl + P** means that you press **Ctrl** and **P** at the same time.

Use the following table to learn about the keyboard shortcuts available in Scheduling.

Toolbar Button	Shortcut Key	Description
	Ctrl + S	<u>Save</u> Saves any changes that you made on a window or dialog box.
	Ctrl + L	<u>Save and Close</u> Saves any changes that you made on a window or dialog box, and returns you to the desktop.
	Ctrl + R	<u>Refresh</u> Refreshes the current display.
	Ctrl + E	<u>Cancel</u> Closes the current window.
		<u>Search</u> Displays the Search dialog box. This allows you to search for an activity by job name.
		<u>Run Report</u> Displays the Print dialog box, allowing you to select and print reports.

Continued on next page

Using OSPCM Scheduling, Continued

Using Shortcut Keys (continued)

	Ctrl + P	<u>Print</u> Displays the Print dialog box which provides options for printing.
		<u>Print Preview</u> Displays the Print dialog box which allows you to select, preview and print selected reports.
	Ctrl + M	<u>Change State/CMC</u> Displays the Chose State and CMC dialog box, which allows you to change your state and CMC at any time during the session.

Highlighted Required Fields

On all windows and dialog boxes within OSPCM Scheduling, all required fields are underlined. These fields must be completed or an error message displays when you try to exit the window or dialog box.

Navigation Features

You can navigate through OSPCM Scheduling windows and dialog boxes using the following methods.

- Mouse
- Tab Forward
- Shortcut Keys (an initial capitalized letter on a field name combined with the **Alt** key (e.g., **Alt + S**))

Procedures within this user guide explain how to use OSPCM using the mouse to navigate. You may desire to use another method.

Scrolling Capability

On many of the windows and dialog boxes that contain grid areas, horizontal and vertical scroll bars are provided. Use these scroll bars to view all fields within the grid area.

Expanding Columns

The Scheduling application provides the capability to expand columns and rows on all displayed schedules. Expanding the columns or rows may make it easier to read data, and allows full view of the column headings.

To expand columns or rows, position the mouse pointer on a row or column border. Hold down the left mouse button and drag the column or row to the desired height or width.

Continued on next page

Using OSPCM Scheduling, Continued

Error Messages

Messages communicate information about the OSPCM system. For each message type there is a corresponding sign or icon as shown in the table below.

For a message type of...	The following sign is displayed....
Error	
Warnings	 or  (Question marks are used when the message is in the form of a question, such as Are you sure you want to delete this information?)
Informational	

Continued on next page

Using OSPCM Scheduling, Continued

Scheduling Navigation Toolbar

On the left side of the Scheduling desktop display is a navigation toolbar.

This toolbar is a permanent part of the Scheduling desktop, and can not be moved or minimized. It displays for all available schedules, and all tabs related to a schedule.

The following table explains the operation of each navigation toolbar button.

Toolbar Button	Name	Meaning
	Home	Scrolls to the top of the displayed schedule
	Page Up	Scrolls up one page (20 records)
	Up one record	With a scheduling record selected, moves up one record and selects it.
	Bookmark	When selected, marks a record on the displayed schedule until another record is marked. In addition, Bookmark marks the same record on all related tabs for the displayed schedule
	Find Bookmark	When selected, displays the last saved Bookmark
	Down One Record	With a scheduling record selected, moves down one record and selects it.
	Page Down	Scrolls down one page (20 records)
	End	Scrolls to the last record of the displayed schedule

Continued on next page

Using OSPCM Scheduling, Continued

Using the Navigation Toolbar

As a suggestion, when you are scheduling a job, select Bookmark when you select a job from any schedule.

That way, if you check the substeps or activities for that job and you return to the schedule, you can simply select Find Bookmark to locate the selected job.

Note: Be careful when you select Find Bookmark. Since the Bookmark button is adjacent to it, if you select the Bookmark button by mistake, a new bookmark is selected, and you will lose your place.

Firming Pricing for a Job	5-2

Chapter 1

Introduction to Pricing

Overview

Introduction

Pricing allows you to add, adjust, firm and track cost associated with a job. Pricing has five main areas.

- Cost Adjustments
 - Detailed Added Costs
 - Expenditure Classifications
 - Reporting
 - Job Firming
-

Cost Adjustments

The Cost Adjustments window enables you to make cost adjustments to a job. You can specify a global adjustment percentage for the total cost of a job. You can also enter labor and engineering cost adjustments for a specific FRC.

For information about cost adjustments, see **Chapter 3, Entering Pricing Information**.

Detailed Added Costs

The Detailed Added Cost window enables you to enter miscellaneous costs that were not captured during the encoding process but are components of an OSPCM job.

For information about detailed added costs, see **Chapter 3, Entering Pricing Information**.

Expenditure Classification

The Expenditure Classifications window enables you to enter component costs for a job into categories that the BellSouth Construction Activities System (BCAS) can identify. The three categories are capital defaults, retirement defaults, and expenditure exceptions.

For information about expenditure classifications, see **Chapter 3, Entering Pricing Information**.

Continued on next page

Overview, Continued

Reporting

Pricing enables you to run the following reports.

Detailed Cost Report (502)
Threshold Exceeded Report (503)
Cost Tracking Report (504)

After you run a report, you can view it on the screen or print a hardcopy.

The 502 - Detailed Cost Report enables you to generate and review information about added costs, including how materials, labor, engineering and contractor resources will be priced for each substep. 502 reports are available for firmed and preliminary jobs.

The 503 - Threshold Exceeded Report enables you to generate and review information about jobs that will potentially exceed firmed costs for a CMC. Any job that exceeds the cost tracking threshold appears on the 503 report.

The 504 - Cost Tracking Report provides cost tracking detailed by FRC and cost type for jobs that are currently under construction.

For information about reports, see **Chapter 4, Running Pricing Reports**.

Job Firming

The Job Firming window enables you to firm pricing for a preliminary OSPCM job.

For information about job firming, see **Chapter 5, Firming Job Pricing**.

About this User Guide

This guide consists of task oriented chapters which address a specific topic. Each chapter uses a consistent structure to make this information easily accessible.

Chapter 1 — Introduction to Pricing provides overview information about using OSPCM. New users should read this chapter carefully before using Pricing. Advanced users may want to review this material to ensure they are aware of all OSPCM functionality. Chapter 1 provides the same information in every OSPCM User Guide, with some information specific to each application.

The rest of the chapters in this guide address a specific part of Pricing.

- Chapter 2 — Opening a Job
- Chapter 3 — Entering Pricing Information
- Chapter 4 — Running Pricing Reports
- Chapter 5 — Firming Job Pricing

Each chapter consists of a chapter overview and an introduction to each procedure. Each procedure provides step by step instructions with sample screens.

Refer to **Audience** to determine which chapters are relevant to your position.

Conventions

The following conventions are used to describe the procedures in this guide. Make sure you understand these conventions before using this guide.

Terms

single click	press your left mouse button once
double click	press your left mouse button twice in quick succession
choose	click to access a menu item
select	1) click a grid item to highlight it 2) place your cursor on a radio button or check box and click to mark it 3) double click on a grid item 4) chose an item from a drop down list

Notations

Keyboard characters are represented in bold. Example: **Tab** and **Ctrl**.

Menu selections are often represented by their corresponding button or icon.
Example: Select Save.

Special Information

Look for these markers for special information

Note:	provides helpful information
	provides important Methods and Procedures information that may cause liabilities or have procedural implications.

Overview, Continued

Audience

Review this chart to see which chapters address procedures associated with your position and job responsibilities. See the Table of Contents for a detailed list of procedures addressed in each chapter.

Position	2	3	4	5
Core Staff	✓	✓	✓	✓
State Contract Coordinator	✓	✓	✓	✓
Material Service Coordinator	✓	✓	✓	✓
Construction Supervisor	✓	✓	✓	✓
Maintenance Supervisor	✓	✓	✓	✓
Engineer	✓	✓	✓	✓
Telco Clerical	✓	✓	✓	✓
Plant Contract Supervisor	✓	✓	✓	✓
Managers	✓	✓	✓	✓

Note: All procedures assume you have completed an Introduction to Windows class and appropriate OSPCM training.

Installation/Setup

Introduction

In order to access OSPCM Pricing, you need the appropriate setup and installation. For information, see *Getting Started with OSPCM*.

About the OSPCM Guide

Introduction

The OSPCM Guide is the “launching pad” for all OSPCM applications. When you access the OSPCM Guide, the following processes occur “in the background” to ensure that OSPCM applications run correctly.

- Sets the database to Production or Training
- Performs security validation based on your Common User Identifier (CUID) and OSPCM password
- Loads environment variables to ensure that OSPCM applications work correctly
- Replicates (copies) portions of the database from the server to the database on your PC (your local database)
- Initializes the applications you are authorized to use
- Displays the OSPCM Guide so you can open OSPCM applications

When the processes are complete and the OSPCM Guide displays, you can open the OSPCM applications you need. You can also perform the following tasks.

- Change your state default
 - Refresh your local database
 - Set training mode
 - Set display options
 - Display the Select Database window at login
 - Change your OSPCM password
-

About the OSPCM Guide, Continued

Accessing the OSPCM Guide

Use the following procedure to access the OSPCM Guide.

Step	Action
1.	From the Windows desktop, double-click on the OSPCM icon.  OSPCM The OSPCM Program Group window displays. 
2.	Double-click on the OSPCM Guide icon.  OSPCM Guide The Select Database dialog box displays. 

Continued on next page

About the OSPCM Guide, Continued

Accessing the OSPCM Guide (continued)

3.	To use the production database, select the Production radio button. To use the training database, select the Training radio button. Note: To prevent the Select Database dialog box from displaying when you log in to OSPCM, select the Do not show this screen check box.
4.	Select OK. The BellSouth Security Login dialog box displays.  The dialog box titled "BellSouth Security - Login" contains two input fields: "User Name:" and "Password:". To the right of the "User Name:" field is an "OK" button, and to the right of the "Password:" field is a "Cancel" button.
5.	Enter your CUID and password. Select OK. The OSPCM Guide splash screen displays with the following information in the title bar. • Loading Environment Variables • Replicating Database • Initializing Applications When these activities are complete, the OSPCM Guide displays with the applications you are allowed to access.  The splash screen titled "OSPCM Guide - Training" shows a grid of application icons. The icons are arranged in four rows and five columns. The first row includes: "PSW LookUp and Award", "Billing and Reporting", "CS Job Entry Editor", "CS Materials Editor", and "Employee Editor". The second row includes: "CS Pricing Editor", "CS Reference Editor", "Complaint", "Configuration Editor", and "Job Entry Other". The third row includes: "Holiday", "Inspections", "Job Entry", "Job Entry Other", and "Location Editor". The fourth row includes: "Management Reports", "Materials Management", "Operations Profile Editor", "Pricing", and "Regional Contracts". At the bottom, there are two more icons: "Scheduling" and "Workstation".
6.	To exit the OSPCM Guide, double-click on the control menu. (You can also select the File menu and choose Exit.)  The control menu icon is a small square button with a horizontal line through it, located in the top-left corner of the application window.

About the OSPCM Guide, Continued

Changing Your State Default

Use the following procedure to change your state default server. (The initial setting is Alabama.) The state server determines what information you see in OSPCM applications. For example, if Tennessee is your default state server and you are using the Bid & Award application, all information shown in Bid & Award comes from the Tennessee server.

Step	Action
1.	On the OSPCM Guide, select the File menu, then choose Select State. The following dialog box displays. 
2.	Select a default state server from the OSPCM State drop-down list box.
3.	Select OK. The system returns to the OSPCM Guide.

Refreshing Your Local Database

Use this procedure to refresh the database stored on your PC (your local database) with current data stored on the server. The system automatically refreshes your local database on the following occasions.

- The first time you log in to OSPCM each day
- When you change between the Training and Production servers
- When you log in to OSPCM with a different CUID

Step	Action
1.	On the OSPCM Guide, select the File menu, then choose Refresh Local Database.
2.	The OSPCM Guide splash screen displays while the system copies (replicates) data from the server to your local database. The image shows a splash screen for the OSPCM Guide. At the top, a black bar contains the text 'Replicating Database...'. Below this, on the left, is a logo consisting of the letters 'OSPCM' in a stylized, blocky font. To the right of the logo, the text 'OSPCM Guide' is displayed in a large, bold, sans-serif font. Below the logo, the text 'Version 2.0' is shown. At the bottom of the splash screen, there is a small line of text: 'Copyright © 1995, 1996 BellSouth. All Rights reserved. NOTICE: Not for use or disclosure outside BellSouth without written permission.'
3.	When the process is complete, the system returns to the OSPCM Guide.

About the OSPCM Guide, Continued

Setting Training Mode

Use this procedure to run OSPCM with the training database. (The initial setting is the Production database.)

The training database enables you to learn new procedures without corrupting important live data on the production database. When the training database is selected, a check mark displays next to the Training Mode option on the File menu and OSPCM applications use test data rather than live data. OSPCM continues to run with the training database until you change it back to the production database.

Note: To verify and/or select the database each time you log in to OSPCM, see **Displaying the Select Database Dialog Box**.

Step	Action
1.	On the OSPCM Guide, select the File menu, then choose Training Mode. The following message displays. 
2.	Select Yes to switch to the training database. (To return to the OSPCM Guide without switching to the training database, select No.) The OSPCM Guide splash screen displays while the system validates your CUID, switches to the training database, and replicates data to your local database. When the process is complete, the system returns to the OSPCM Guide.
3.	To return to the production database, select the File menu, then choose Production Mode. The following message displays. 

Continued on next page

About the OSPCM Guide, Continued

Setting Training Mode (continued)

4.	Select Yes to switch to the production database. (To return to the OSPCM Guide without switching to the production database, select No.) The OSPCM Guide splash screen displays while the system validates your CUID, switches to the production database, and replicates data to your local database. When the process is complete, the system returns to the OSPCM Guide.
----	---

Setting Display Options

The OSPCM Guide enables you to set the following display options.

- Select whether the OSPCM Guide is “always on top”
- Select the number of columns displayed on the OSPCM Guide

Always On Top

By selecting Always On Top from the Options menu, you can keep the OSPCM Guide displayed even if you access other application windows. When this option is selected, a check mark displays next to Always on Top on the Options menu.

If you do not need to display the OSPCM Guide at all times, you can turn off Always On Top by selecting it from the Options menu.

Columns Displayed

By selecting Columns Displayed from the Options menu, you can display the application icons in a set number of columns. When you select Columns Displayed, a drop-down list displays for you to select 3, 4, 5, or 6 columns. (The currently selected number has a check mark next to it.)

Note: The number of columns cannot exceed the number of application icons available. For example, if you only have two application icons and you attempt to set the number of columns to six, the system defaults to the number of icons available.

About the OSPCM Guide, Continued

Displaying the Select Database Dialog Box

Use this procedure to display the Select Database dialog box each time you log in to OSPCM. (The initial setting is active.)

When Select Database is active, a check mark displays next to Database Screen on the Options menu. Each time you log in to OSPCM, a dialog box displays so you can select the training or production database.

Note: To switch between the production and training databases from the OSPCM Guide, see **Setting Training Mode**.

Step	Action
1.	On the OSPCM Guide, select the Options menu, then choose Database Screen.
2.	When Database Screen is selected, the following dialog box displays when you log in to OSPCM.
3.	You can prevent the Select Database dialog box from displaying when you log in to OSPCM by performing either of the following tasks. • On the Select Database dialog box, select the Do not show this screen check box. • On the OSPCM Guide Options menu, select Database Screen.

Continued on next page

Changing Your OSPCM Password

Use this procedure to change your OSPCM password.

Step	Action
1.	On the OSPCM Guide, select the Options menu, then choose Password. The Change Password dialog box displays. 
2.	Enter your CUID in the Cuid field and press Tab .
3.	Enter your old password in the Old Password field and press Tab .
4.	Enter your new password in the first New Password field and press Tab .
5.	Re-enter your new password in the second New Password field.
6.	Select OK. Your password is changed. The system returns to the OSPCM Guide. To return to the OSPCM Guide without changing your Password, select Cancel.

Accessing OSPCM Pricing

Introduction You access Pricing functions from the OSPCM Pricing window, known as the Pricing desktop.

Accessing Pricing Use the following procedure to access the Pricing application.

Step	Action
1.	From the OSPCM Guide, double-click on the Pricing icon.  The Pricing desktop displays.  Note: If you cannot display the desktop, contact your OSPCM support group.
2.	To exit from Pricing, select Cancel  You can also double-click on the control menu  or select the File menu and choose Exit.

Setting User Screen Preferences

Introduction

OSPCM Pricing provides the ability to change screen preferences. The following capabilities are provided.

- Select display attributes
- Select the state and CMC where you work
- Save your settings on exit so that your selections are displayed each time you use Pricing
- Select View menu attributes

When you first use the application, the message level is set to Novice. This means that error and message boxes are prominently displayed. You can change the message level to Advanced, but then errors and warnings are displayed at the bottom of the display, and they are not as obvious. You should be very familiar with the system before changing the message level to Advanced.

Once new user preferences are set, they display whenever you use Pricing.

Continued on next page

Setting User Screen Preferences, Continued

Select Display Attributes Use the following procedure to select display attributes.

Step	Action
1.	From the Pricing desktop, select the Options menu and choose Preferences. The Preferences dialog box displays with the OSPCM tab shown.  This display shows the default settings provided by OSPCM when you first sign on.
2.	In the ToolBar area, select the appropriate radio button to position the OSPCM toolbar, or select the Moveable Toolbar check box to provide a moveable toolbar.
3.	In the Message Level area, select the Novice or Advanced radio button.
4.	In the Remember Size and Position area, select Application Window and/or Child Windows.

To set the state and Construction Management Center (CMC) see the next procedure, **Select Default Settings**.

Continued on next page

Setting User Screen Preferences, Continued

Select Default Settings

Use the following procedure to select default settings for state and CMC. This procedure assumes that you have the Preferences dialog box displayed with the OSPCM tab shown.

Step	Action
1.	Single-click on the Default Locations tab. The Default Locations tab displays. 
2.	Select your preferences for State and CMC from the appropriate drop-down list box.
3.	Select OK. The Pricing desktop displays. To return to the Pricing desktop without saving changes, select Cancel. 

To save your settings when you exit Pricing, see the next procedure, **Save Settings on Exit**.

Continued on next page

Setting User Screen Preferences, Continued

Save Settings on Exit

The columns and rows on OSPCM windows (and the windows themselves) are set to a certain size by the program. This is known as the default setting. However, OSPCM enables you to resize columns and rows (and windows).

Using the mouse, you can make columns and rows on a window smaller or larger by single-clicking on a grid line and dragging it until the column or row is the size you want. You can drag horizontal and vertical grid lines to make rows wider or narrower.

In addition to resizing columns and rows, you can resize the windows themselves by single-clicking on the window border and dragging it until the window is the size you want or by using the control boxes in the top right corner to enlarge and reduce windows.

Save Settings on Exit enables you to keep windows the way you sized them. Each OSPCM program has an Options pull-down menu that includes Save Settings on Exit. When Save Settings on Exit is active, a check mark (✓) displays and windows, columns and rows remain the way you sized them. When Save Settings on Exit is inactive, no check mark displays and windows, columns and rows return to their default settings.

Select View Menu Attributes

The View menu allows you to choose whether or not to display the following attributes of the desktop.

- Toolbar
- Status Line

When you first access Pricing, the status line and toolbar display. When you select the View menu, a check mark (✓) displays next to the item that is active. By selecting one of the items from the View menu, you turn the attribute off, and the check mark no longer displays.

It is recommended that you leave the toolbar and status line displayed.

Using OSPCM Pricing

Introduction The following design features are provided to help you perform OSPCM tasks.

- Online Help
- Short Cut Keys
- Highlighted Required Fields
- Navigation Features
- Scrolling Capability
- Error Messages

Online Help OSPCM Help provides information about fields, windows, dialog boxes and procedures. It also provides a glossary of commonly used terms, a search feature and information about Microsoft Help.

The following table provides a quick reference for using Help within OSPCM Pricing.

If you	You can
Need to find information	Choose one of the following. • The Help button from the tool bar  • Contents from the Help menu • A help topic from a list of green-colored links • Search from the Help menu
Need help about a field	Choose one of the following. • Move your cursor to the field and press F1 • The Field topic in the non-scrolling area • Search from the Help menu
Need to perform a task	Choose one of the following. • Cue Cards from the Help menu, then select a procedure topic from the displayed list • The Procedure topic in the non-scrolling area of a window or dialog box • Search from the Help menu
Need to exit Help	Choose one of the following. • The Exit button on the Help tool bar • Press the Esc key

Using OSPCM Pricing, Continued

Online Help (continued)

Need to access web site	Single-click the OSPCM web site  icon on the Contents or Overview help topic.
Need to view user guide	Single-click the OSPCM web site  icon on the Overview help topic.

Using Shortcut Keys

Like most Windows programs, OSPCM gives you a choice about how to perform certain actions. For some actions, you can either single-click on a toolbar button using the mouse or press keyboard keys, depending on your preference.

Keyboard shortcuts involve pressing two or more keys at the same time. For example, **Ctrl + P** means that you press **Ctrl** and **P** at the same time.

Use the following table to learn about the keyboard shortcuts available in Pricing.

Toolbar Button	Shortcut Key	Description
	Ctrl + E	<u>C</u> ancel Closes the current window.
	Ctrl + R	<u>R</u> efresh Refreshes the current display.
	Ctrl + P	<u>P</u> rint Displays a Print dialog box which provides options for printing.
	Ctrl + S	<u>S</u> ave Saves information in the current window to the database.
	Ctrl + L	<u>S</u> ave and <u>C</u> lose Saves information in the current window to the database and closes the window session.

Continued on next page

Using OSPCM Pricing, Continued

Navigation Features

You can navigate through OSPCM Pricing windows and dialog boxes using the following methods.

- Mouse
- Tab Forward
- Shortcut Keys (an initial capitalized letter on a field name combined with the **Alt** key (e.g., **Alt + S**))

Procedures within this user guide explain how to use OSPCM using the mouse to navigate. You can choose another method.

Scrolling Capability

On many of the windows and dialog boxes that contain grid areas, horizontal and vertical scroll bars are provided. Use these scroll bars to view all fields within the grid area.

Error Messages

Messages communicate information about the OSPCM system. For each message type there is a corresponding sign or icon as shown in the table below.

For message type of...	The following sign is displayed....
Error	
Warnings	 or  (Question marks are used when the message is in the form of a question, such as Are you sure you want to delete this information?)
Informational
