Re: Notice of Application for an Extension of Water and Wastewater Service Area  
Section 13, Township 23 S., Range 26 E

Dear Director:

We are in receipt of the above Notice of Application, which includes our legal description. Please accept this letter as our formal objection to the extension of water and wastewater service.

We live in a rural area of southeast Lake County that is zoned for 5-10 acre tracts only and includes agricultural property, nurseries, and horse farms. Our custom home was built 2 1/2 years ago and included the applicable septic tank and an extensive water system with appropriate filters, holding tanks, etc.

It should be understood that this application is in line for the large amount of growth in South Lake County to include the subdivisions approved, but the large estate homes on the 5-10 acre properties should be excluded. We not only live in this rural area, but also have a very large piece of property directly behind us, which is owned and used by Water Conserve (Orange County and the City of Orlando) for spraying of reclaimed water and citrus groves. The above legal description does not include the typical residential subdivision and commercial environment.

Sincerely,

Tammy Viviani
