Re: Docket No. 971478-TP

Dear Mr. Horton:

This will acknowledge receipt of a complaint of WorldCom Technologies, Inc. against BellSouth Telecommunications, Inc. for breach of terms of the Florida Partial Interconnection Agreement under Sections 251 and 252 of the Telecommunications Act of 1996, and request for relief, which was filed in this office on November 12, 1997 and assigned the above-referenced docket number. Appropriate staff members will be advised.

Mediation may be available to resolve any dispute in this docket. If mediation is conducted, it does not affect a substantially interested person's right to an administrative hearing. For more information, contact the Office of General Counsel at (850) 413-6078 or FAX (850) 413-6079.

Re: Notification of Address Changes/Modifications

Dear Ms. Bayo:

Recently the Florida Public Service Commission received copies of modifications to addresses and representatives for certain entities of MCI WorldCom. The Company has subsequently changed its e-mail address. Also, staff has brought to my attention that not all of the changes have been incorporated.

To avoid any confusion, attached is the most current list of the entities, and the information required by the Commission, including the company liaison, and how to contact him or her. Please note the correct zip code for the regulatory contact for BLT Technologies, Inc., and Southernnet Systems, Inc., and the change in regulatory liaison for LDDS WorldCom, ATC Long Distance, and Biz Tel Corporation.

Thank you for your assistance in this matter. If you have any questions, please do not hesitate to contact me at your earliest convenience.

Sincerely,

Donna C. McNulty

Ms. Hong Wang
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, Florida 32399

Dear Ms. Wang:

A few weeks ago, I exchanged e-mail with some of the commission staff regarding changing the attorney list that the CASR faxes were sent to. My e-mails were forwarded to you and I subsequently spoke with you on the phone. You asked me to put my request in writing and fax it to you. Please make the following changes:

Docket Nos.	Remove	Add
960833	Robin Cohn	Michael Sloan
971478	Richard Rindler	Michael Sloan
990649	Tom Lotterman Russell Blau Marc Rothschild Robert Ridings	Keep Michael Sloan
010960	Jennifer Schneider	Michael Sloan
981444	Jim Falvey/Rindler	Michael Sloan

If you have any questions about this request, please feel free to call me at (202) 424-7604.

Sincerely,

Celia Petrowsky

To: Florida's Public Service Commission

VIA: Fax # (850) 413-6362

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

To whom it may concern;

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,
Kevin J. Schevers

I read in the newspaper that BellSouth has proposed that local calls for internet access be subject to long distance charges.
I am outraged at this greedy sugestion. As a practicing physician, I use the internet every day to research difficult conditions or find the latest developments in therapies. I communicate with colleagues regularly through the internet. I have four telephone lines and pay hugh phone bills for both local and long distance service. My colleagues and I are fighting a losing battle to keep our offices open because of the assault of managed care on the health care provider. We cannot afford to increase our overhead with added phone bills.
Please put an end to this greedy proposal. Make your decision in favor of the public and not the phone company.
Thank you for your time and attention to this matter.
Sincerely,
Scott Basto, DC

• I understand that BellSouth is proposing to charge long distance rates for local calls to Internet service providers so that they can charge by the minute for Internet usage. I think this is an outrage. Why should the phone company be able to decide how much to charge me based on who I am calling?

I urge you NOT to allow BellSouth to become PIRATES to plunder and loot the general public in this manner.

Re: Metered charges for local calls

Dear Sir/Madam,

I have learned that BellSouth has filed with the Public Service Commission to charge users by the minute for calls to local Internet Service Providers. I find this unacceptable. The call is a local call and the tariffs in the State of Florida state that there are no metered charges for local calls.

Since BellSouth enjoys a monopoly it is not possible to turn elsewhere for service. We must therefore rely on the Public Service Commission to protect our interests. I hope you will do so by preventing BellSouth from imposing an unnecessary hindrance to the use of the Internet.

Sincerely,

Ronald M. Siani

March 12, 1998

Dear Users,

BellSouth wants to try and charge you long distance to call us, Florida Internet, even if it is local call. This way they can make you pay by minute when you surf the Net. According to an article in yesterday's Sun Sentinel, they are the FIRST phone company in the USA to try this stunt. There will be a hearing in Tallahassee by the Public Service Commission (PSC) to review their request.

Let the PSC know there is NO WAY you will stand for BellSouth to do this. You can send a fax to the PSC at 1-850-413-6362 (850 is the new area code for Tallahassee). Or you can call their complaint line at 1-850-413-6100.

Regards,
Chris J. Terry, President

PSC

The idea of charging for local calls to connect to an internet provider is absurd!! Bellsouth has the exclusive right of our dail tone service, this does not allow us to have a choice of another service. According to FCC regulations local area calls cannot be charged a per minute rate unless ALL users in that area are charged. THAT WOULD MAKE A LOT OF PEOPLE HAPPY WOULDN'T IT??.

Public Service Commission,

I am writing to show my opposition to long distance rates charged to use the Internet. I am a frequent Internet user, I use a local Freenet to access the Internet and would no longer be able to use the Internet if long distance charges were applied. We have now connected most of the world by the Internet, bringing information and understanding to cultures that have never had it before. The Internet may well be the greatest tool of world peace, please don't assist in it's destruction.

Re: **BellSouth Charge to Internet Provider**

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. This is totally unacceptable. The call is a *local* call. The tariffs in the State say that there are *no* metered charges for local calls. As BellSouth has a lock on local dial tone, it is impossible for me to get my service elsewhere.

You should not allow BellSouth to make such a change, when there is nowhere else for the consumer to go. As the Public Service Commission, you must protect the consumer and stop this motion of BellSouth.

If you would like to discuss this further, please feel free to contact me at (561)882-0092.

Sincerely,

Lisanne DiNapoli

Please DO NOT allow Bell South to charge by the minute for local calls to my internet service provider.

When I bought my computer I had a seperate phone line installed for that specific purpose. I already pay two phone bills plus the fee to my internet provider and I certainly feel that Bell South is getting their fair share.

I wonder how many people have paid the service charge for installation and monthly fees for computer hook-up? I definately would not have a second line in my home if it were not SPECIFICALLY for my computer use. If those fees are not enough then Bell South should wage war on computer users!!!!

Subject: Bell So Being allowed to Chg. By the minute for local Internet Service

Because you have filed to Chg. By the minute for my Internet Calls to my local service provider, I am writing to let you know that I feel this is TOTALLY Unacceptable!

This call is a local Call period. The tariffs in this state say there are NO metered Charges for local calls.

Because Bell So has a lock on local dial tone, it is impossible for me to get my service anywhere else. You cannot allow Bell So to be a mondopoy and make such outlandish charges when there is nowhere else the Consumer can go. As PSC you must protect the Consumer — STOP Bell So.

Finally wonderful things have open for me from my home - at a minimal cost - this Internet access is something that belongs to all of us - Americans. If the cost goes up it will not be available to Shut-ins, Education for Children or Elderly who are creating a whole new excitment in the retirement years. Please fight for the common person right —

Thank you, Valerie Brown (561-967-3716)

Public Service Commission

RE: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear Public Service Commission:

It was brought to my attention as a small business owner that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the Public Service Commission you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at 561-694-9469.

Sincerely,

Bruce M. Schatz, MAI, SRA

Subject: Bellsouth bid to charge by the minute for local calls to my Internet Service Provider.

I have read in the paper today that BellSouth has initiated this proposal. THIS SHOULD NOT BE ALLOWED. I call a local number which has never been subject a metered call rate. Don't let this happen.

Bell South i s a monopoly which means I have no other way of contacting my ISP. It's up to your Commission to protect us.

By the way you ought to get after Bell South for the terrible service they provide in our area. Lines are so bad that we are unable to take advantage of the latest technologies.

Sincerely:

MEMORANDUM

March 18, 1998

From: Gary Varney
10 Seneca Court
Royal Palm Beach, FL 33411

To: Public Service Commission

Subject: **DO NOT ALLOW BELL SOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!**

Dear PSC,

It has been brought to my attention that Bell South has filed to charge by the minute for me to call my local Internet Service Provider. **THIS IS TOTALLY UNACCEPTABLE.** The call is local, period. The tariffs in the State say there are **NO** metered charges for local calls. Because Bell South has a lock on local dial tone, it is impossible for me to get my service somewhere else. You cannot allow Bell South to make such outlandish changes when there is NOWHERE else the consumer can go. As the PSC you must protect the consumer. **STOP BELL SOUTH!**

I would be more than happy to discuss the issue further if necessary. I can be contacted at the number below.

Sincerely,

Gary Varney

Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC;

I have never written a letter to anyone to complain about abuse of power by a Public Utility Company. This is the first time. I am outraged at the suggestions brought forth to allow this massive utility company to overcharge for a service that I can ill afford to pay for if they are allowed to charge for a local call as being a long distance call to my Internet Service Provider.
THIS IS TOTALLY UNACCEPTABLE TO ME. The call is a local call, period. You then charge every telephone user in my area .25 for each time they call anyone when they pick the phone to make a telephone call.

The tariffs in the State of Florida say there are NO metered charges for local calls. Because BELL SOUTH has a lock on local dial tone it is impossible for me to obtain my service somewhere else. It appears that this an American On Line conspiracy to have my local internet server go out of business because of the outrages charges they want to charge.

You cannot in any way permit BellSouth to make such outlandish changes when there is NO where else the consumer can go.

As my the PSC you must protect the consumer -and stop BIG BROTHER BELL SOUTH FROM MAKING MONEY AT THE EXPENSE OF THE SMALL CONSUMER.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Yours truly,

Lawrence D Jurgensen

Re: Proposed charge by Bellsouth to my internet provider.

Dear Public Service Commission:

It has come to my attention that BellSouth has filed to charge by the minute for me to call my local internet Service Provider. This is a local call. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone, it is impossible for me to get service somewhere else.

Please, please do not allow BellSouth to make such outlandish charges when there is NO where else the foncumer can go.

If BellSouth is allowed to levey a per minute charge for this use, it will elliminate average Jane Does like myself from using the internet. I simply cannot afford and additional charge. I am already paying BellSouth for a second line dedicated to my computer, so they are already being paid for the use of this line. Now, they want to charge me again! Rubbish!

As the PSC you must protect me, the consumer! I would be more than happy to discuss this issue further with you. You can contact me at 904/396-6038 if you would like additional input.

Sincerely,

Vivian L. Heath

FAX MAIL FOR IMMEDIATE DELIVERY

To: Public Service Commission
From: Lee E. Branscome
Date: Tue, 17 Mar, 1998
Total No. of Pages (incl. this cover): 1

Dear Commissioners:

It has come to my attention that BellSouth has filed to charge its customers by the minute for local phone calls to local Internet Service Providers. It is my understanding that metered charges on local calls are not permitted. If BellSouth is allowed to charge by the minute for these local calls, it would have a very unfair advantage over its competitors in the Internet service market. My company, and many others like it, would be forced to switch to BellSouth Internet service. Our business critically depends on low-cost access to the Internet and we would be severely damaged if BellSouth is permitted to charge for these calls.

I urge you to protect the consumers and the competitive Internet marketplace. Please deny BellSouth's request.

Please contact me if you have any questions. Thank you for your consideration.

Sincerely,

Lee E. Branscome, Ph.D., C.C.M.

Sub: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR CALLS TO MY INTERNET SERVICE PROVIDER.

1. This is a local call, there are no metered charges for local calls. I do not have any option to get telephone service from anyone else.

2. If you approve these charges you will eliminate my ablity to use the internet, I CANNOT AFFORD it.

3. The internet allows myself and my family to access information I can get noware else. Today this information is a necessity not a luxury, and of course there is allways a greedy money grubber trying to rape the american public.

4. You were elected to prevent this type of in justice, now do your job and STOP BELLSOUTH from destroying something that works.

Sincerely,

George F. Moran

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Peter Scheren

Dear Member:

I would like to have my objection noted to Bell South's request to charge long distance rates on local calls regarding internet users. This makes no more sense than charging long distance rates to all local users.

Please vote no on this request from Bell South.

Yours Very Truly,

MEMORANDUM

Date: March 16, 1998

MCI MS.

From: Raymond Bergsten, R. Ph., 1831 Evergreen Drive, Lake Clarke Shores, Florida 33406

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer— STOP BELLSOUTH.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Raymond Bergsten, R. Ph.

13 March 1998

Public Service Commission
Tallahassee, FL

Dear PSC:

I have heard BellSouth wants to charge me by the minute for signing on to my internet service provider Florida Internet. The call is a local one, so in my opinion, this is totally unacceptable.
Making it even more unacceptable is the fact I have no alternative, no other source of making local calls.
Please do the right thing and do not allow this outrageous abuse of BellSouth's lock on local dial tone.

Thank you,

Chris Douglas

From: System Administrator <sysadmin@shell.flinet.com>
To: allusers@shell.flinet.com

0158

March 12, 1998

Dear Users,

BellSouth wants to try and charge you long distance to call us, Florida Internet, even if it is local call. This way they can make you pay by minute when you surf the Net. According to an article in yesterday's Sun Sentinel, they are the FIRST phone company in the USA to try this stunt. There will be a hearing in Tallahassee by the Public Service Commission (PSC) to review their request.

Let the PSC know there is NO WAY you will stand for BellSouth to do this. You can send a fax to the PSC at 1-850-413-6362 (850 is the new area code for Tallahassee). Or you can call their complaint line at 1-850-413-6100.

Regards,
Chris J. Terry, President
Florida Internet Corporation

Subject::	BellSouth attempt to charge by the minute for local calls to my internet provider	
Date:	March 16, 1998	
Time:	11:52 AM	Pages: 1 (including this one)

To the Commission:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. **THIS IS TOTALLY UNACCEPTABLE!!** The call is local. The tariffs in Florida say that there are NO metered charges for local calls. Since BellSouth has a monopoly on local dial tone, it is impossible for me to get my service elsewhere. As the PSC, you must protect the consumer. **DENY THE BELLSOUTH REQUEST.**

I will be more than happy to discuss this issue further with you. Please contact me at the number above.

Re: Proposed charges on local line calls to Internet Service Providers by Bell South;

Gentlemen:

STOP BELL SOUTH AND STOP THEM NOW!

If what I read is true, I cannot believe the outrageous gall of those mercenary bastards at Bell South in attempting to "surcharge" local access to the Internet. There is no local dial out competition thus users are subjected to an inexorable victimization by any Bell South levy. What gives Bell South the right to invidiously "tax" Internet users as opposed to all other local users or to specially assess *any* local use whatever the purpose of the call.

The Internet is the greatest development in communication and exchange of information since the invention of paper. The right to free and untrammeled access to the Internet with out the chilling effect of special governmental taxes and utility charges is damned near equivalent to our First Amendment right to free speech and association. It is easy to see, now that the government and utilities have suddenly become aware of the incredible growth of the Internet, every little unit and agency will want a piece of the action. Too Bad! Our right as citizens to access to the free exchange of information at the ***lowest*** *cost* possible is something we will absolutely not negotiate. As **my** representative you have the moral and legal obligation to immediately and in no uncertain terms put an end, once and for all, to this unseemly grasping of Bell South .

I would like to go on record as being totally opposed to the phone company charging by the minute for local calls. This simply is an initiative of the phone company to target internet users as an "easy mark". Several years ago, the same whining was heard when dollars had to be allocated for lines & equipment to handle fax machine users. The fact is, these fax and computer customer(s) lines have turned quite a nice profit for the phone company and will for some time to come. Unfortunately, before we realized what a long term profit item these lines would be for them, some petitions to boost rates were successful. Please do not let this happen again.

Thank you for your time.

Sincerely,

Harold Marting

Dear Sirs Attn: Consumer Complaints

I am enclosing an article that appeared in the Sun Sentinal two days ago. I am very disturbed at the contents. I should say I am very angry. Bell South is trying to get in the back door to gouge consumers and charge them for long distance calls or international calls. If they had fair long distance rates, consumers would not have changed to discount carriers such as MCI, Sprint, etc.

There is not a single state in the USA or any country overseas that charges consumers more than a local call for E-mail

It would be an economic disaster for consumers such as ourselves who have family and friends all over the country and some countries overseas. It would mean that our son in California can send us email for a local call and we would be required to pay for a long distonce call to reply. This would also be true for our daughters in Massachusetts and Israel as well as friends in other states.

BellSouth's request would be an economic disaster for Florida consumers and their request should be denied. I urge you to contact the appropriate agencies looking into this matter and stress that this would be a disaster for Florida consumers. Also please take whatever appropriate action is necessary to prevent Bell South in succeeding in gouging consumers. We pay a monthly fee to our internet provider and should not be expected to pay a large additional fee on top of that.

This problem not only applies to individuals but businesses as well. If Bell south had not gouged consumers in the past, MCI, Sprint and others would never have succeeded.

Yours Truly

Florence & Herman Leeds

Re: Bell South attempt to charge toll call rates for all internet usage

Gentlemen/Ladies:

We have heard through our internet provider that Bell South is proposing to force all who use the internet to pay long distance phone charges for all usage of the internet even if it is a local call to be connected. We are very much opposed to this proposal as we and countless other business's are using the internet to try and bolster our business and to be forced into paying long distance phone charges for every minute we are on the net would add a tremendous financial burden to us.

We currently use approximately 50 hours per month on the internet and if we had to pay even ten cents per minute for this usage it would add $300.00 per month to our expenses plus taxes on top of our $20.00 per month for our connection to the internet. This is totally UNFAIR!

Please DO NOT allow Bell South to get this proposal passed!

Thank you for your assistance in this matter.

Sincerely,

William F. Mann
Controller

MEMORANDUM

Date: March 16, 1998

From: Richard Theiss
2002 SW Golf Lane
Boynton Beach, FL 33426

To: Public Service Commission

Subject: PLEASE DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER (ISP)

Dear Public Service Commission

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local (distance about ten miles). This is a local call for me. In fact, I call twenty to thirty miles beyond my ISP location and the call is still a local call for me. I understand that the tariffs in the State of Florida say there are NO metered charges for local calls.

Because BellSouth obviously has a lock on local dial tone customers (an uncompetitive monopoly to say the least) it would be an undo hardship for me to get my service somewhere else. I would be forced out of using my computer for any potential income via the communications surcharges. Many users beside myself would no longer be able to afford the BellSouth charges and could not survive in today's competitive market.

You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. Is the FTC aware of these proposals? Where is the consumers rights or platform?

As the Public Service Commission, you must protect the consumer PLEASE---LET THIS GO NO FURTHER.

Sincerely,

Richard Theiss

Subject: PROPOSAL BY BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH! The ramifications are far reaching.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Ronald Lentini

Subject: Bell South Internet charges

It has been brought to my attention that BellSouth has filed to charge by the minute for me to make a LOCAL call to my internet service provider. It is absolutely unacceptable for them to attempt to charge me additional fees for a local call. Since I have no options other than BellSouth for local service, it is up to the PSC to protect me from such vulture tactics at BellSouth. I urge you to let BellSouth know that such practices are not in the public interest and just another way to collect additional unreasonable fees.

I would be more than happy to discuss the issue further. Please call if you have any questions on this issue.

Sincerely

W. L. Collins

Subject: BELLSOUTH CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER AND THEIR EXTORTION CHARGES FOR NOT HAVING A LD CARRIER DESIGNATED!!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge bythe minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

As a second issue, Bell South is charging me for **NOT** having a designated long distance carrier. WHY?

Over a year or two ago, I was getting fraudulent charges tacked onto my phone bill by a variety of ABC named phone companies for calls to numbers I never dialed. As I investigated these fraudulent charges I learned quite a bit about their schemes and elected to terminate a designated long distance carrier. Surprise Surprise... there were no more phony calling charges added to my bill.

Now, after all of this peace and solitude, I now must pay for NOT having a long distance carrier or designate a LD carrier and suffer a potential repeat of the past. I totally object to having Bell South FORCE me into taking a LD carrier when I don't want one or having to pay them a fee for not having a LD carrier.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Richard A. & Donna L. Marks

MEMORANDUM

TO: Public Service Comission (1-850-413-6362)

FROM: Howard W. Meridy, M.D.
8251 Muirhead Circle
Boynton Beach, FL 33437

SUBJECT: Don't Allow BellSouth to Charge By the Minute for Loca; Calls to My Internet Service Provider

DATE: March 13, 1998

It has been brought to my attention that BellSouth has filed to charge by the minute for me to make a local call to my Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE TO ME. I pay BellSouth for an extra service line for internet connection and now they want to charge me by the minute. The tariffs in Florida say that there is NO metered charge for local calls. Because BellSouth has a monopoly on the the local dial tone doe not mean that they can change the rules to suit themselves and not the provider. New computer technology sets new competitive arenas. Now a monopoly wants to cash in on it because it doesn't include them. This is America with a free market economy. BellSOuth's actions are side-stepping this and you as the regulator and protector of public domain should not let this happen.

Sincerely and troubled,

Howard W. Meridy

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Lloyd Bastian

Attention: Public Service Commission

Re: BellSouth petition to charge by the minute for local calls to Internet providers

If the PSC grants this request, an unbearable financial burden will be placed on all Florida users of the Internet.

BellSouth is itself an Internet provider. Do they mean to charge their own Internet customers by the minute for a local call? I think not.

How much foolishness can we put up with when it pertains to this company that has a lock on local phone service. And even if they did not, your approval of this request would be devastating to PC users of the Internet.....**and even to members of the PSC that use the Internet.**

Please do not permit this petition to result in squeezing every user of the Internet.

MEMORANDUM

Date : March 15,1998

From : Michael A Sirucek
1680 Old Cypress Trail
WPB FL 33414

To: The Public Service Commission

Subject : **DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR MY LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!**

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my Internet Service Provider. This is totally unacceptable. The call is local, period. (To a Florida Business at that.)

I use the internet to help me and others like myself who are sticken with a chronic illness. The internet allows me and others like myself to communicate with and support each other in a way that would be almost impossible to achieve as economically and as efficiently any other way. There was a time when I could not even leave my bed let alone venture into public because of my physical condition and appearance and I know of many more who were or are in the same situation. The day to day challenges along with the medical costs that accompany chronic conditons is very stressful on mind, body and finances. Being able communicate with people locally and far beyond the boundaries of one's own town is a very welcome breath of fresh air and quite often a source of inspiration.
The tariffs in the state say there are no metered charges for local calls. Because Bellsouth has a lock on local dial tone it is impossible to get my service somewhere else. You cannot allow Bellsouth to make such outlandish changes when there is no where else the consumer can go.

Please protect the consumer--Stop BellSouth.

I would be happy to discuss the issue further with you and can be contacted at the number below.

Sincerely,

Public Service Commission
March 12, 1998

I have heard recently that BellSouth Telephone Company is petitioning to charge long distance rates for local Internet connections. I would like to register my protest against any company charging long distance rates for local Internet connections. Many Internet providers offer a local number for their customers to access the Internet. It would be unfair to charge long distance rates for a local phone call because of the nature of the call. This would also mean that the consumer would have to pay both the Internet provider and the telephone companies for the same service! I agree with charging long distance rates for those who dial a long distance number for any reason, including Internet connections. Please refuse the request of any long distance provider wishing to charge long distance rates for local Internet connection calls. Thank you for your kind attention.

Sincerely,

Mary Ann Alligood

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Edward Dunne

RE: Bell South

Ladies and Gentlemen,

Will you really let Bell South charge us by the minute for a *local* call to my local Internet Service Provider ????

Bell South has a monopoly and thus no competition.

Will you protect us?? Please do.

Thank you.

With respect,

John F. Donovan

March 13, 1998

Florida Public Service Commission
Tallahassee, FL

I read in yesterday's newspaper that BellSouth has filed with you to allow them to charge long distance rates for me to call my local internet service provider. I can not believe that they would even propose such a preposterous plan. A local call is a local call!!!! My internet service provider assures me that the tariffs in Florida do not allow metered charges for local calls. BellSouth has a monopoly on local calls for me so I would have no other way to contact my internet service provider should their plan receive your approval. Your charter is to protect the Florida consumer, especially from such outrageous plans to improve the bottom lines of the already highly profitable telephone companies.

My internet connection is through my employer, the Town of Palm Beach. The main use of this connection is to gain access to the Division of Purchasing's State Term Contracts so that my employer can save taxpayer dollars for their constituents. Allowing BellSouth to institute their ridiculous charge would end up as an additional tax bill for our citizens. You must not allow this plan to go forward.

I would be more than happy to discuss this problem with you, should you wish to do so. Please contact me at my address below.

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PCS,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, PERIOD! The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Stephen M Rodgers

Re: Stopping BellSouth from charging by the minute for local calls to my Internet service provider - Florida Internet

Dear PSC:

It has been brought to my attention via an article in yesterday's Sun Sentinel, that BellSouth has filed a charge by the minute for me to call my local Internet Service Provider. **THIS IS TOTALLY UNACCEPTABLE - THE CALL IS LOCAL!**

BellSouth is the first phone company in the USA to try this stunt. Imagine paying by the minute while on the NET, which we use for business five days a week from 9a.m to 5p.m.

The tariffs in the State say there are **NO** metered charges for local calls. BellSouth has a lock on local dial tone and it is impossible for me to get my service somewhere else.

You cannot allow BellSouth to make such outlandish changes when there is ***NOWHERE*** else the consumer can go. As the Public Service Commission I employer you, to protect the consumer and to **STOP** BellSouth.

I will be available to discuss this issue further, I may be contacted me at (561) 775-9528.

Sincerely,

Thomas Tracy

MEMORANDUM

Date: March 12, 1998

0279

From: Nina Fay Lynch
1558 Velvet Place East
West Palm Beach, FL 33417

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. **THIS IS TOTALLY UNACCEPTABLE**. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Nina F. Lynch

Gentlemen:

It has been brought to my attention that Bell South has filed with you to try and charge me and all others by the minute (as in long distance) for me to call my local internet service provider. This is an unacceptable request. The call is local, PERIOD... I understand that the tariffs in the State of Florida say that there are NO metered charges for local calls. Because Bell South is the only source for me to get local service I can't "shop around" and find service somewhere else. You must not approve Bell South's attempt to levy such charges. Part of your job is to protect the consumers of this state from the money grubbing likes of companies like this.

Sincerely,

Tom Schmidt

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Alan Rosensweig

From:

John Cohn
1020 Gulfstream Way
Singer Island, FL 33404

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go.

I also feel this would be very unfortunate for our youth and totally contradicts our Presidents undertakings and expectations as far as our youth's education is concerned. This would also adversely affect all our Senior Citizens, who are exclusively dependent on their social security benefits, but would like to still broaden their horizons and sharpen their brains.

As the PSC you must protect the consumer..... STOP BELLSOUTH! I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

John Cohn

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Charles C. Rayside

According to an article in the *Sun Sentinel*, BellSouth has filed to become the first phone company in the United States to charge by the minute for me to call my local Internet Service Provider. This is wrong. There is no where else for me to get my local service, and there currently isn't, and should not be, a charge for a local call.

Please do not allow BellSouth to make this change.

According to an article in the *Sun Sentinel*, BellSouth has filed to become the first phone company in the United States to charge by the minute for me to call my local Internet Service Provider. This is wrong. There is no where else for me to get my local service, and there currently isn't, and should not be, a charge for a local call.

Please do not allow BellSouth to make this change.

Port Saint Lucie, Fl. 34984

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

David R. Kieffer

Re: Do not allow Bellsouth to charge by the minute for local calls to internet service providers!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for calls local Internet Service Providers. This is totally unacceptable. This proposal will significantly hurt our ability to do business internationally. We are a small company manufacturing scuba equipment, yet almost 50% of our business is international and much is conducted over the internet.

The Bell proposal would single out this mode of conducting business. Since there is no competitor or competing technology, you would be opening the floodgates to this type of abuse.

In addition, the quality of my service has dropped significantly! Within the last few weeks, I've had to make 5 or 6 attempts to get a line with sufficient quality to get a connect in the first place, and since this is a business, I am paying for each failed attempt as it is.

I would have no objection to paying slightly more for a better level of service, i.e. a higher bandwidth line but clearly, Bell South is only offering higher rates for increased income.

Since the future of computing seems to be heading towards greater and greater levels of internet access, it would appear that Bell South is well behind the times in implementing telephone technology that meets the needs of tomorrow's consumers. A rate change is totally unacceptable and is a Band-Aid approach to their lack of planning and foresight.

I would be more than happy to discuss the issue further with you, please Contact me at your convenience.

Sincerely,

Bob Denton

MEMORANDUM

Date: March 12, 1998

From: William B. Brown

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

As an ISDN user I believe that I am a very conservative user of the system, I never log on for much time, because my connect time is so short (2-3 sec vs. 30 sec for analog modem). However, I pay a HUGE sum of money for my ISDN line, over $80/month and per minute charges on top of that is outrageous. On the otherhand, if BellSouth wants to charge my Data calls per minute and charge my phone line at Tennessee rates ($15/month) then we can talk.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number listed above.

Sincerely,

Elizabeth McElroy

Public Service Commission

We are VERY concerned that Bell South wants to charge by the minute for us to call our local Internet Service Provider. THIS IS TOTALLY, ABSOLUTELY UNACCEPTABLE. The call is local...end of story!

The tariffs in the state say there are NO metered charges for local calls. With Bell South having a lock on local dial tone, it would be impossible for us to get our service anywhere else.

YOU CANNOT ALLOW BELL SOUTH to make such outlandish changes when there is no where else the consumer can go. PLEASE, PSC, PROTECT US -- THE CONSUMERS! DO NOT LET BELL SOUTH CHARGE US BY THE MINUTE FOR LOCAL CALLS TO OUR INTERNET SERVICE PROVIDER!

If you would like to discuss this issue further, please contact us at (561) 582-6745. Thank you.

Sincerely,

David and Donna True

I also feel this would be very unfortunate for our youth and totally contradicts our Presidents undertakings and expectations as far as our youth's education is concerned. This would also adversely affect all our Senior Citizens, who are exclusively dependent on their social security benefits, but would like to still broaden their horizons and sharpen their brains.

As the PSC you must protect the consumer..... STOP BELLSOUTH! I would be more than happy to discuss the issue further with you, please contact me at the number below.

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET PROVIDER!

Dear Psc,

It has been brought to my attention that Bellsouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because Bellsouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow Bellsouth to make such outlandish changes when there is no where else the consumer can go. As the PSC you must protect the consumer—STOP BELLSOUTH.

I am available to discuss this matter with you; you can contact me at the numbers listed above.

Sincerely,

Jeffery L. Easton

Public Service Commission
State of Florida
Tallahassee, FL

Dear PCS :

DENY BELL SOUTH'S PETITION TO CHAARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET PROVIDER!!

I have just learned that Bell South has filed a petition to charge by the minute for me to call my *local Internet Service Provider*...this petition is totally wrong. The call is a local call, absolutely local...no question about it.

The tariff regulations in Florida state that there are NO metered charges for local calls .Bell South has a lock on the local dial tone. This means that it is impossible for me to secure phone service elsewhere.

You just cannot allow Bell South to use their monopolistic habits to install such a charge.

As protector of my rights, you the PSC must disallow any such request by Bell South.

Thank you for your attention.

MEMORANDUM

Date: March 12, 1998

From: Paul Rosen
2530 Emerald Way North
Deerfield Beach, FL 33442

To: Public Service Commission, the State of Florida

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY
INTERNET SERVICE PROVIDER!

Dear PSC:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

BELLSOUTH is grinding more that one axe here. BELLSOUTH is itself an Internet provider. I wonder whether it is positioning itself to force other providers like my own (Florida Internet) out of business by imposing extra costs on consumers choosing to use an Internet provider other than BELLSOUTH. I am a captive consumer who pays BELLSOUTH its legal entitlement under the present tariffs. I want protection by your office against monopolistic activities implied by these BELLSOUTH proposals. Thank you.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Paul Rosen

Dear Florida Public Service Commission,

I was truly amazed to find out BellSouth is trying to charge by the minute for local calls to connect to Internet Service Providers. BellSouth has figured every way possible to get into my pocket, but I ask you to please not allow them to do this. I will have no other choices for a local call connect. Please do the job we trust you to do and protect the consumers of Florida from this end run to turn local calls into metered charge calls. My family and I thank you for your kind attention to this matter. Please contact me with any questions or if I can be of any assistance.

Very truly yours,

To: Public Service Commission

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provide. I find this an unacceptable request from a public utility which holds a monopoly. The tariffs in the State say there are no metered charges for local calls. I pay a service charge for unlimited local calls. If this is granted to BellSouth, it is in the public interest to break their monopoly in the area I live.

I am available at (561)624-0614. Thank you for your attention.

NOTE:

DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,
It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE! The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dialtone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NOwhere else the consumer can go! As the PSC you must protect the consumer--STOP BELLSOUTH!

Sincerely,

March 12, 1998

Florida Public Service Commission
Tallahassee, Florida

Dear Sirs,

Our company has been informed that BellSouth has filed with you to charge by the minute for us to call our local Internet Service Provider. This action is **TOTALLY INAPPROPRIATE**. The call is a local call; nothing more, nothing less. Our understanding of the tariffs in the State indicate there are **NO** metered charges for local calls.

Because BellSouth has a virtual monopoly on local telephone service it is impossible for my company to go to a competing service somewhere else. It is imperative that we maintain status quo on this issue by disallowing BellSouth's request. To make such outlandish changes when there is NO where else the consumer can go flies in the face of public interest. We know that the PSC acts in a very responsible manner and request that you do similarly in this situation by protecting the consumers interests.

I would be more than happy to discuss the issue further with you, please I can be contacted at the number below.

Sincerely,

Gordon Jacobs

MEMO TO: PSC

Please note that it has just been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. Please be advised that this is NOT ACCEPTABLE.

According to the State, the tariffs say there are NO METERED CHARGES FOR LOCAL CALLS. Since BELLSOUTH has a lock on local dial tone, it is impossible for me to get my service somewhere else.

Who will protect the consumer if you allow BellSouth to make these ridiculous changes? Your job as PSC is to protect the consumer, not to allow the consumer to be a "captive audience".

Please feel free to contact me if you have any questions or if you wish to discuss this further.

Sincerely,

MEMORANDUM

March 13, 1998

From: Alan Jacobson

To: Public Service Commission

Subject: BELL SOUTH AND THE INTERNET

Bell South has filed a request to charge by the minute when I call my local Internet Service Provider. This is OUTRAGOUS and TOTALY UNACCEPTABLE! This is a local call. Period. There can not be metered charges for local calls under the current tariffs. For you to even consider Bell South's request is BEYOND BELIEF! I have no choice but to use Bell South as my local service provider. The PSC must protect the consumer in this matter. The PSC must DENY Bell South any changes to local call charges.

Sincerely,

Alan Jacobson

Subject: DON'T ALLOW BELL SOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere
else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELL SOUTH! This is an outrage! I use the internet for looking up specific articles (e.g., homework for school, recipes, ref data for work). I might use the service for 10 hours per month. How dare they try and jump on the bandwagon and charge me an extra fee for making a local call. To me that sounds like an illegal monopoly. They are attempting to strong arm the public into paying more. This is rape! I am outraged! We need to prevent all crimes and I feel this would be one.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the state say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at (561)684-9400x4300.

Sincerely,

Houman Etemadi

Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

Dear Sirs and Madams of the Public Service Commission:

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS WOULD BE TOTALLY UNACCEPTABLE. The call is physically a local call. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a monopoly on local phone service, it is impossible for me to get
a modem connection somewhere else. You cannot allow BellSouth to make these
changes when there is NO where else the consumer can go. As the PSC you must protect the consumer.

Furthermore, it is my opinion that BellSouth has a conflict of interest in this regard, since they want to get into the non-voice information technologies themselves.

I would be more than happy to discuss the issue further with you, please

contact me at the number below.

Sincerely,

Dirk Wyle

Subject: BELLSOUTH

DEAR PSC:

I REQUEST THAT YOU STOP BELLSOUTH FROM CHARGING ME AND ALL OTHER CUSTOMERS FOR ACCFES TO OUR INTERNET SERVICE PROVIDERS (ISP). THE CALL THAT IS MADE IS A LOCAL CALL. BELLSOUTH HAS NO RIGHT TO CHARGE FOR IT BY THE MINUTE JUST BECAUSE I CALL THE NUMBER OF THE ISP NOT A FRIEND OR RELATIVE. THANKS FOR YOUR SUPPORT.

DONNA STELLA

Dear PSC,

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS IS TOTALLY UNACCEPTABLE. The call is physically a local call. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make these changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Kevin J. Scanlon

About Bell South getting greedy and charging extra for the internet. I already pay $20.00 for internet acces and $18.00 for a second phone line that is only used for the internet. If Bell South does this I will cancel my second line and I will also disconect overprice first phone line. I would rather use just my Cell phone and to hell with the Internet. When the cable company privides internet access I will hook it up again.

Corporate Greed is running rampid in Florida.

Long distance charges for local calls is just plain wrong. These restrictions on the accessibility of the internet goes against one of the main ideas of the world wide web, accessibility for all. It will hurt the telecommunications industry as a whole for the soul purpose of making bell south a few extra bucks.

DEAR PSC:

I REQUEST THAT YOU STOP BELLSOUTH FROM CHARGING ME AND ALL OTHER CUSTOMERS FOR ACCFES TO OUR INTERNET SERVICE PROVIDERS (ISP). THE CALL THAT IS MADE IS A LOCAL CALL. BELLSOUTH HAS NO RIGHT TO CHARGE FOR IT BY THE MINUTE JUST BECAUSE I CALL THE NUMBER OF THE ISP NOT A FRIEND OR RELATIVE. THANKS FOR YOUR SUPPORT.

DONNA STELLA

Dear PSC,

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS IS TOTALLY UNACCEPTABLE. The call is physically a local call. The tariffs

in the State say there are NO metered charges for local calls. Because

BellSouth has a lock on local dial tone it is impossible for me to get

my service somewhere else. You cannot allow BellSouth to make these changes when there is NO where else the consumer can go. As the PSC you
must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please
contact me at the number below.

Sincerely,

Vernon F. Johnson

To: The Public Service Commission,
Tallahassee, FL

It has been brought to my attention that BellSouth has filed to charge by the minute for access to any local Internet Service Provider (ISP).

THIS IS TOTALLY UNACCEPTABLE! These calls are local, not long distance, so long as the ISP has a number within the local calling area. The tariffs in the State say that the are NO metered charges for local calls. Because BellSouth has a lock on local dial service, it would be impossible to obtain Internet service elsewhere. You cannot allow BellSouth to make such outlandish charges when there is nowhere else the consumer can go. As the PSC, you MUST protect the consumer.
Please -- STOP BELLSOUTH!

I am already being overchargeded because I have a second line in my home. The access rates and other FCC fees are double for the second line, even though I do NOT want nor use long distance access on that line.

Should I have to pay toll charges to access my ISP's local number, I and many others would seriously have to consider discontinuing Internet use. So would libraries, schools, municipalities, etc., whose budgets could simply not absorb the additional costs.

I would be more than happy to discuss the issue further with you. Please feel free to contact me at 407-452-9119.

Sincerely,

L James Wallace

If Southern Bell, or any other telephone company, is allowed to charge a usage tax or fee for internet usage, it would undermind the technological advance in communication.

First of all, communication through the internet, as advanced as it is, still does not compare with the ease and convenience of the telephone for communication.

Secondly, any tax or fee based on internet usage by any company would allow that company to profit from the works and innovation of others. The internet has become a communications system designed primarily by ARPA and Universities around the world and later expanded and improved by both commercial and non-commercial organizations around the world. No single enitity has had a hand in creating the internet as we know it today and to suggest a tax or fee based on usage is an outrage; especially by a local telephone compan
y such as Southern Bell who has been receiving extra revenue by the installation and use of extra digital and analog line and by also unfairly providing internet connectivity.

About Bell South getting greedy and charging extra for the internet. I already pay $20.00 for internet acces and $18.00 for a second phone line that is only used for the internet. If Bell South does this I will cancel my second line and I will also disconect overprice first phone line. I would rather use just my Cell phone and to hell with the Internet. When the cable company privides internet access I will hook it up again.

Corporate Greed is running rampid in Florida.

To: The Public Service Commission,
Tallahassee, FL

It has been brought to my attention that BellSouth has filed to charge by
the minute for access to any local Internet Service Provider (ISP).
THIS IS TOTALLY UNACCEPTABLE! These calls are local, not long distance,
so long as the ISP has a number within the local calling area. The tariffs in the State say that the are NO metered charges for local calls.
Because BellSouth has a lock on local dial service, it would be impossible
to obtain Internet service elsewhere.
You cannot allow BellSouth to make such outlandish charges when there in
nowhere else the consumer can go. As the PSC, you MUST protect the consumer. Please -- STOP BELLSOUTH!
Should I have to pay toll charges to access my ISP's local number, I and
many others would seriously have to consider discontinuing Internet use.
So would libraries, schools, municipalities, etc., whose budgets could simply not absorb the additional costs.
I would be more than happy to discuss the issue further with you. Please

feel free to contact me at 954-481-2357.

Sincerely,
Mort Pevzner, Deerfield Beach, FL

Dear PSC,

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS IS TOTALLY UNACCEPTABLE. The call is physically a local call. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make these changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH PLEASE!

I will leave the Internet if I have to pay an additional fee for calling a local call to get online to the world. I pay enough to get online!

Sincerely,

Sean Pierre

Dear PSC It was just brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS IS NUTS!!!! First of all I am a student in grade 9 at Homestead Senior High School. Students should be given time on the internet for reserch and other topics. Now they want to increase the charge!!! IT IS UNACCEPTABLE!!! This is a local call we are talking about here. Who cares if we are connected to the world. It is still a LOCAL CALL!!!! Therefore, please stop BELLSOUTH with this OUTRAGIOUS IDEA.

Thank You,

Maddog (Jeff)

BellSouth wants to charge us for using the internet? I already pay them for having 2 lines into my home, plus all the
other charges they get away with. Pay them AGAIN to access the Internet per minute? I THINK NOT.

What can *I* do to help stop this?

MEMORANDUM

Date: March 12, 1998

C4999

From: T. Scott Schuesler
1523 Spindrift Cir W
Neptune Beach, Fl. 32266

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

T. Scott Schuesler

Dear members of the Florida Public Service Commission:

Do not even think of letting Bellsouth re-classify local calls that people make to dial into their Internet provider as interstate long-distance calls! It is purely an unconscionable money grab attempt by Bellsouth, and MUST NOT be allowed! If the Federal Communications Commission rules such calls as local, and not interstate, you should also. Give Bellsouth an education in true service, irregardless of all the kissing-up by Spiro Canton.

CC: Governor Chiles, Local State Legislators

Sincerely,

JERROLD R. NIXON

1109 Green Pine Blvd. B-1
West Palm Beach, Fl 33409

To: Public Service Commission

Subject: DON'T ALLOW BELL SOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

I'm sure this will not be the first notice you will receive from the public regarding Bell South's attempt to charge long distance charges for what would normally would be a local call. I understand that a business's main goal is to make a profit. That's what our free enterprise system is all about. There's nothing wrong with a company making a profit. There is, however, something terribly wrong when that company's attempt to increase profits would have a devastating affect on not only the public, but other businesses as well. The Internet is a great means of letting people, and businesses, communicate with one another on a truly global basis. It allows people to communicate with others whom they might not otherwise have a chance. In short, it brings people and their ideas together. When you begin to put constraints on that ability to communicate, to share ideas, you impede the progress of a developing world, a world that needs to communicate. While the subject matter, at the present time, does not encompass a global issue, it does entail a small part of that global neighborhood. If allowed to breed here, it could spread like a scourge throughout the rest of the "community", the affects of which could be catastrophic. No other phone service in the United States has been allowed to do this. Does Florida want to be known as the state that unleashed a monster? I hope not. Please do not grant Bell South this request. IT'S WRONG! IT'S WRONG! IT IS WRONG!

Sincerely,

Robert Frank Mitchell

Date: March 12, 1998

From: Jay Marshall
4553 Happy Landings Street S.
West Palm Beach, Florida 33415

To: Public Service Commission

Subject: **DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!**

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, and does not warrant added fees. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH! If this is allowed you will put many ISPs out of business for no one will want to pay for this unwarranted fee and unlawful. Will they also charge me by the minute for me to call my mom as well?

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Thank you for keeping the Public at the top of you concerns!

Subject: DENY BELLSOUTH's FILING TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear Public Service Commission,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a legal monopoly on local dial tone it is impossible for me to get my service from another provider as there is no competitor. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. Telephone service is already too high. The PSC is the consumers bulwark against unwarranted profiteering by the utilities---- **you must protect the consumer and deny BellSouth's request.**

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

D G. Speigner

RE: BellSouth Proposal for Internet Service Providers

It has been brought to my attention through various sources that BellSouth has filed with you to charge by the minute for local calls to internet service providers.

WHAT?

Long distance charges for local phone line use? A local line is exactly that, a local line.

Since BellSouth has a lock on the local lines, it is impossible for me to use any other service.

It is not in the best interest of Floridians to have this unfair cost forced upon them. I'm sorry that BellSouth feels threatened by internet usage but this is not an acceptable way for them to catch up with technology.

DO NOT ALLOW THIS ASSAULT TO INTERNET ACCESS!

FROM: Philip E. Davis

RE: BellSouth's proposed tariff change of local call to long distance calls to my Internet service provider.

Pages: 1 including cover sheet.

Dear PSC,

It has come to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. This is unacceptable and unmerited.

BellSouth encouraged this to happen and now wants to change the rules. I suspect it is their inability to compete fairly as an Internet Service Provider that has prompted this action. Free local call access allows everyone to use the Internet. If BellSouth is allowed to assess toll fees it will limit or prevent many people from using what has become an economic necessity for business, education and the free dissemination of information. The highly touted Information Highway will be closed to those who can't afford the toll calls.

The tariffs in the State say there are no metered charges for local calls. Because BellSouth has a lock on the local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such anti-competitive changes when there is no where else the consumer can go. As the PSC you must protect the consumer, please stop BellSouth from changing their rates.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

FROM A FLORIDA INTERNET ACCOUNT HOLDER

TO THE PUBLIC SERVICE COMMISSION

0516

It has come to my attention that BellSouth wants to try and charge me a long distance per minute rate when I call my LOCAL Internet service provider to go online, so that they can make more money - -ILLEGALLY!

I think this request is absolutely, ridiculously criminal. How can they even begin to think that they can charge a per minute rate to call a local company (I mean 10 miles down the road for crying out loud). Don't the tariffs in the State of Florida say there are NO metered charges for local calls??? I can't help that BellSouth has a lock on local dial tones, but does this really give them a right to commit a crime on its customers??

It seems to me they think they're missing out on the Internet Band Wagon, and maybe they are, but for heaven's sake do it another-*legal*-way. Don't make the mass population pay for their greed, because this is all that this is. PURE GREED.

I THINK THE PUBLIC SERVICE COMMISSION SHOULD PROTECT US, THE CONSUMERS, AND DENY THIS PREPOSTEROUS REQUEST BY BELLSOUTH.

I would be more than happy to discuss the issue further with you, please contact me at the number below.

MEMORANDUM March 14, 1998-03-14

FROM:
Pirkko and Rainer Pelkonen
850 NE Spanish River Blvd
Boca Raton, FL 3e3431

TO: Public Service Commission

Subject: **Do not allow BellSouth to charge by the minute for local calls to my Internet Service Provider!**

Dear Public Service Commission,

It has been brought to our attention that BellSouth has filed to charge by the minute for us to call ou local Internet Service Provider. **This is totally unacceptable.** The call is local, period. The tariffs i the State say there are **no metered charges for local calls.** Because BellSouth has a lock on dial ton it is impossible fo us to get our service somewhere else. You cannot allow BellSouth to make suc outlandish changes when there is **nowhere else** the consumer can go. As the Public Servic Commission you must protect the consumer – ***so stop BellSouth!***

We would be more than happy to discuss this issue further with you, please contact us at the numbe below.

Subject: BELLSOUTH's plan to charge by the minute for calls to my Internet Service Provider!

Dear Public Service Commission,

I have just learned that BellSouth has filed to charge "by-the-minute" for my family and I to call our local Internet Service Provider. I VERY STRONGLY OBJECT. This is totally UNACCEPTABLE, and is just another scheme to get around recent legistlative action that has prohibited Public Service utilities from charging surcharges to their customers.My daughter has become very dependent upon the internet service, provided locally, to research much of her assignments given to her by her teachers at a local high school. If BellSouth is allowed to get away with this scheme to "tax" us consumers on the Local calls to our Internet Service Provider,

the real effect will be felt in
our schools, and on the students, which are just now beginning to use the internet to greatest
advantage.All calls within the local calling area should be just that: LOCAL calls. If these tariffs
are allowed on Local calls to Internet Service Providers, it will be next to impossible for me to get my
service somewhere else without paying an arm and a leg. You must allow the State of Florida to take
a moralistic stand on this issue, and say that there will be NO metered charges for local calls.

Consider, what if BellSouth were to "waiver" the "by-the-minute" charges to the local number of
"their" Internet Service? Are you ready to sanction supporting a private company intent on possibly
"extorting" our the citizens of this community into signing up for the BellSouth Internet Service
Provider? Can you say, MONOPOLY??

I feel that you must protect us consumers against this perpetration of a near monopolistic local
phone company.

Please, STOP BELLSOUTH! I would be more than happy to discuss the issue further
with you, please contact me at: 904-633-3920 (work) OR 904-384-3792 (home).

Subject: BellSouth wants to charge you LONG DISTANCE to call your ISP!
Date: Thu, 12 Mar 1998 17:08:16 -0500 (EST)

March 12, 1998

Dear Users,

BellSouth wants to try and charge you long distance to call us, your own ISP, even if it is local call. This way they can make you pay by minute when you surf the Net. According to an article in yesterday's Sun Sentinel,
they are the FIRST phone company in the USA to try this stunt. There will be
a hearing in Tallahassee by the Public Service Commission (PSC) to review
their request.

Let the PSC know there is NO WAY you will stand for BellSouth to do this.
You can send a fax to the PSC at 1-850-413-6362 (850 is the new area code
for Tallahassee). Or you can call their complaint line at
1-850-413-6100.

E-mail at CONTACT@PSC.STATE.FL.US

Steve Rothman wrote:

It has come to my attention that BellSouth wants to place a per minute charge on use of local lines to call my internet provider, Florida Internet, in West Palm Beach.

If this request is allowed to go through, it will force me out of business. I provide financial and health articles to a variety of publications and rely on the internet for obtaining a large amount of my research materials.

My average time online runs into four to six hours daily in gathering, and waiting to gather, information needed for my work.

Because BellSouth has a lock on local phone service, I have no opportunity find some other company that might not charge me that kind of fee. I also believe that BellSouth is a rich enough company already and doesn't need this extra, and I might say, not earned income.

The next step will be to place a per minute call on people who talk to relatives in the local community as well. I see no difference in charging a per minute price for internet use and charging a per minute use for people like the woman who cares for my mother who sits on the phone for hours at a time.

I hope the commission is smart enough to see through this latest scam by BellSouth. What is ironic about all this, is that I am shareholder in BellSouth and should be supporting the company's effort to make me richer.

I can do without the extra dividends. I can't do without my free and untrammeled access to my internet provider.

Please do not let BellSouth get away with this scam.

FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local INTERNET Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else.

You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

To Whom It May Concern:
I am outraged that Southern Bell is trying to obtain a long distance fee from me for dialing a local number to my internet access provider. This is like saying we want to change the rules in the middle of the game! Please keep the public aware of the outcome. I cannot believe that the PCS is even allowing a hearing concerning this matter!
Respectfully,
Douglas Higgins

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

Sincerely,

William Petersen

Subject: BELLSOUTH HAS GOT TO BE KIDDING

MEMORANDUM

Date: March 14, 1998

From: Steven Maginnis(your name here)
4455 Confederate Point Road, Apt 21J
Jacksonville, FL 32210
E-Mail: phoenix@dockingbay.com

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

I TRULY HOPE THAT THE PUBLIC SERVICE COMMISSION IS NOT EVEN CONSIDERING SOUTHERN BELL'S REQUEST TO CHARGE LONG DISTANCE RATES OR EVEN PER MINUTE CHARGES ON MY INTERNET SERVICE PROVIDER!!

WHAT!, WITH THE PRESIDENT OF "OUR" UNITED STATES OF AMERICA ATTEMPTING TO HAVE OUR "YOUTH", YOUNG AND OLD, USE THE INTERNET IN AN ATTEMPT TO BETTER EDUCATE THEMSELVES!! I FIND IT HARD TO BELIEVE THAT SOUTHERN BELL WOULD EVEN ATTEMPT SOMETHING LIKE THIS!!!!!

Do not allow Bell South to charge people extra to access the internet.
That is how I get my information on what the government is doing. To
charge me extra to find this info is against the spirit of the Constitution.

Subject: BellSouth / Internet / Charge by the Minute

Dear PSC,

I have learned that Bell South has filed to charge by the minute for my Florida friends to call their local Internet Service Provider. This is totally unacceptable. The call is local.

I am concerned for my Florida friends. I understand the tariffs in the State say there are NO metered charges for local calls. Since BellSouth has a lock on local dial tone, sounds like muscle to me, please STOP BELLSOUTH.

Sincerely,

Wayne J. Pluckhan

Dear Commissioners,
I read in the Sunday Tallahassee Democrat that BellSouth wants the PSC to approve charging internet customers not for the local call to connect to the ISP, but long distance rates if the "server farm" is far away.
This sounds very confusing to me, and is probably something better left alone. If the customer dials a local number, then let's just call it a local call and leave it at that. Incidentally, I am not one of those people who tries to "talk" on the internet by using it as a phone line. I have three phone lines: one for the computer, one for the fax, and one for the phone, and I make all my long distance phone calls on a regular phone.
Please do not approve local ISP calls as anything but local.

Thank you.

Gentlemen:

I've been informed that BellSouth is asking to charge me by the minute for the
time I use my local internet service provider. Is this true?

If so, I would like to protest. A local call is just that, regardless of how or
why it's made. If this is passed, there is nowhere else I can go for local service.

There are no metered charges for local calls. Let's keep it that way.

I am writing in regard to Bell South's request to the Public Service Commission to make charges for local internet service. It would be so expensive that the everyday citizen would not be able to access the internet with the ease and frequency that we now enjoy.

I hope that your responsibility to the public is still more important than corporate wishes and kick backs that they may offer.

After 50 years of dedication to Bell South (Southern Bell), not waivering to utilize other phone services, we find you are acting like a whore.

We would like to register a protest against legislation being considered that would permit increases in Telephone Rates by local companies (which we have previously written about) and Water Rates. We oppose any water rate increase intended to fund expansion by obviating the need for the utility to properly use their Capital Accounts as normal within the industry, such as required of Florida Power. We have had first hand experience. Our share of the construction of our 1st class water utility was paid for when we bought our property here in Sugarmill Woods. We have had 1st hand experience with Southern States, now Florida Water. In that instance they bought our system and immediately began raising rates. Using profits from our system and others they began buying and upgrading smaller utilities solely for profit increases. We have lived here for over 17 years and are sure that Southern States will never pay us the hundreds of dollars we are due by court order. We can assure th
at giving the utility industry any relief as being proposed by the legislature is going to be more of a problem than encountered with phone rate increases. We believe that if the Republican legislature continues to force these issues on the public there will definitely be a change in the mix come next November. We would appreciate the email address of Rep. Joe Arnell, if he has one.

Thanks

George & Frances Harbin

MEMORANDUM

To: *Florida Public Service Commission,*
contact@PSC.state.fl.us

From: Daniel J. Quitter ("Danny")
3747 Rogero Road
Jacksonville, FL 32277-2024

Subject: Please Do Not Allow BellSouth to charge "By the Minute" for Local Calls
to my Internet Service Provider!

Honorable Commissioners,

It has been brought to my attention that BellSouth has filed a request to charge all their customers "by the minute" to place a LOCAL call to a LOCAL Internet Service Provider.

THIS IS TOTALLY UNACCEPTABLE. Florida's schedule of tariffs say there are to be NO metered charges for local calls. And when I call "Jax-Inter.net," my local ISP, the call is a LOCAL call! But because BellSouth has a lock on the local dial tone in Northeast Florida, it is impossible for me to get my service from somewhere else.

Further, I worry that if BellSouth were allowed to make such a move, it would severely impact local ISPs throughout the state, thus creating undesirable economic ripples. If charged by the minute, most consumers would significantly curtail their online "surfing." Many would "pull the

plug" altogether, and simply end their use of computers "online." The economic impact would then be felt by more than the ISPs. A host of businesses and independent entrepreneurs would feel the economic effects and may be forced to cease operations.

Think, too, of the economic hardships such a per-minute charge would cause to those who seek to further their education. My own wife is working toward her Master's degree in Library Sciences from Florida State University while still living and working here in Jacksonville. While there have been varying degrees of local classroom instruction, there always has been a requirement to perform some of her school work for each semester over the Internet. These sessions can be as short as just a few minutes to exchange emailed assignments and completed homework. But more frequently these sessions online must run well over an hour, several nights a week, for completion of online forms and for simulated-classroom "chat sessions" among several students and instructors. I know my wife and I may be forced to end her school work if she must pay BellSouth by-the-minute to go to school online!

PLEASE DO NOT allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As our Public Service Commission, you must act to protect Florida consumers. PLEASE, STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you. Feel free to contact me at one of the numbers, or the email address below. Thank you.

Sincerely,

Daniel J. Quitter ("Danny")

DATE: March 18th, 1998

Dear PSC,

I am an ISP in Northern California and have become distressed by Bell South's attempt to charge Internet users a by-the-minute fee for Internet usage.

As an ISP I already pay my local service for the usage my clients and I use. The term double-duty comes to mind. I hope and pray that you have already recognized this fact.

It is inconceivable to believe that Bell South is not getting a just compensation for the usage of their bandwidth, if you don't believe that come and take a look at our Pac-Bell bills.

To keep it brief: Bell South is already being adequately compensated and the fact that they want more is unacceptable. Your own tariffs, as I understand them, say that there are NO metered charges on local calls. Please stop this MOB-Like action of Bell South.

Sincerely,

Name WINSLOW, LESLIE P.

To: Public Service Commission

I understand that Bell South is attempting to circumvent The State of Florida tariff laws, by filing for permission to charge by the minute for local calls to local (in town) Internet Service providers. You must not allow Bell South to establish a monopoly, in this Florida test case. Even the Federal Government has declined not to tax the Internet, in favor of better
advertisement and free commerce. I personally use the Internet to find products
available within Florida, that are not available to me in Jacksonville or to check out pricing within a reasonable driving range. I also use it to check out the current prices of camping sites in Florida. having spent week in Key West last year.
If I have to pay by the minute for local Internet Connections, then there is no reason for me to connect to the Internet, to find interesting places in Florida in which to go camping. This would also apply to people out of State, that plan to come here for their vacations. You must remember that this state depends of the Tourism dollars for income and tax revenues.
Your help in this matter, would be greatly appreciated.

The telephone companies have already been authorized to double the price of phone lines over the next 5 years, to stimulate competition, Why on earth would they need to have a per minute charge on data lines other than to fatten their pockets even more..

I think their request is TOTALLY out of line and I hope that you will NOT allow them to gouge the public more than they are already..

This could also be a ploy to increase their own on line service if they are not planning to make these charges for the customers of "BellSouth.Net", something you might want to check on, that would definatly give them an advantage over the other on line providers..

P.S.
Would this have any affect on old fashoned BBS's?? I have been running a BBS since Dec. 1990, Charlie's BBS (904)396-4931, if it will include them then I will have to take it down rather than try to comply with a lot of new rules and regulations..

Dear PSC.
It has been told to me that Bell south wants to charge me for my call on the Internet. This is outrageous as they hold a monopoly on the local service. They also have a Bellsouth.Net which is in direct competition with all the other net services in town and it would appear to me that they are trying to dry up any competition that is a jeopardy to them. I urge you to turn down any requests they put to you for payment increases for any type of service.

Sincerely

MEMORANDUM

Date: March 13, 1998

From: Randal Toskin
8468 Trambley Dr. N.
Jacksonville, Fl. 32221

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL
CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a
lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, pleasecontact me at the number below.

I want to go on record opposing the proposed internet charges. THIS IS TOTALLY UNACCEPTABLE. These calls are strictly local, and we are allready paying for them.
I have 2 phone lines one is dedicated to the computer. I have to pay for that line, and for my internet service.
Why do I have to pay more?
I will be glad to discuss this further.

Public Service Commission March 21 1998

Subject: Stopping Bell South from charging by the minute for Local Call to my Internet Servide Provider.

It's looks like Bell South has filed to charge by the minute for local access calls to Internet Service Providers. This is very unfair to be charging time for local access numbers.

I believe that Teriff laws in the state say that there will be no metered charges for local calls when a customer can not get dial tone service from any other provider and as a result BELLSOUTH should be stopped for the protection of the consumer.

BELLSOUTH is also a internet provider who's service is very limited on local access numbers.
One would think that the local phone would be the best for providing local access numbers for their internet service and this is not the case. they are one of the poorest as far as providing local access numbers. It appears that this is another way to get more money out of the consumer.

This is also the reason that I went with a different internet service provider that could provide a true local access number. Now BELLSOUTH is still trying to get me and other consumers
that don't use their internet service. THEY SHOULD BE STOPPED!!!!!

Thank you for your time.

Public Service Comission
By FAX

SUBJECT: Don't allow BellSouth to charge by the minute for local calls to Internet service providers

To allow BellSouth to meter local calls to Internet providers will let them be the first to charge for use of the Internet. This system is changing the world and until now has been entirely free for anyone with a connection. To let BellSouth profit from the Internet is unacceptable. They have been trying to get metered service for local calls for years and this will just let them get a foot in the door and later seek to extend it to all local calls.

Subject: **DON'T ALLOW BELLSOUTH TO CHANGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET PROVIDER!!!!!!!**

Dear PSC,
It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. **THIS IS TOTALLY UNACCEPTABLE.** The call is local, period. The tariffs in the State say there are **NO** metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You can not allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer—STOP BELLSOUTH!
I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

James and Susan Williams

Subject: Don't Let BellSouth Charge for Internet Connection

Dear Sirs,

I really do not feel that it is fair for BellSouth or any other telephone company to charge its customers for making a local call to their isp in order to connect to the Internet. They are already receiving a fee from the ISP in order for them to have the line. What more do they want!!!! We must keep the Internet as reasonable as possible in order for everyone to have access to it. When most people are on the Internet, they are on for several hours at a time. If we were to have to pay a long distance charge for this access, we would not be able to use the Internet.

Let's be reasonable. BellSouth is doing just fine without this additional revenue.

Sincerely,

Paul R. Williams

Subject: BELLSOUTH MUST NOT BE ALLOWED TO CHARGE PER MINUTE FOR LOCAL CALLS TO AMERICA ONLINE OR ANY OTHER ISP.

Dear PSC,

I've just found out BellSouth has applied for the right to charge by the minute for my calls to America Online. These are local calls and must not be charged like long distance. The plan is TOTALLY UNACCEPTABLE. The tariffs in the State say there are NO metered charges for local calls.

Since BellSouth has a monopoly on local service, it is impossible for customers like me to acquire service with any other provider. If we could, BellSouth would not be so bold and avaricious as to propose these charges. But we cannot find an alternate. This is why you must fulfill your responsibility to protect consumers like me from these arbitrary and unfair charges.

I will be following the progress of this proposal closely, as will all internet users. If you do your duty to the citizens of Florida, and don't buckle to the monetary might of BellSouth, I'm certain you'll not allow this to go any further.

Sincerely,
Dave Montgomery >>

Subject: GTE - degradation of phone service
Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

Dear Sir,

Approximately 1 month ago I had GTE install a second phone line at my residence. I explained to them that I needed the second line for my computer. When the second line was installed, my connection rate dropped from 31.2k to 24k on both the original line and the new line. I have called different personell at GTE on several occasions and no one is willing to help. I believe the problem is in the equipment they used to connect the service to my residence. They fed one pair of wires to service both numbers. There suould be a separate pair for each line. I am now paying twice the monthly rate for degraded service. Can you help me?

Sincerely,

Pete McMahon

Subject: Utility complaint/GTE
Priority: normal

To whom it may concern:

I would like to register a complaint against GTE. Last week, a GTE technician came to install a phone line in the house next door to mine. In order to do this, he had to make changes to how my 2 phone lines connect to the GTE network. According to him and others at GTE with whom I've spoken, this was necessary because there are not enough wire pairs to accomodate 2 lines in every house.

Since this time, I am unable to use my computer modem to the extent I had been using it since I moved into my house in June of 1996. Prior to this happening, my modem would consistently connect at a much higher baud rate than what I am now able to use.

This has become a major inconvenience for me. I feel that GTE should have planned better, or that there should be some resolution to my problem. GTE has offered no resolution. I have been told that the area in which I live will be updated at some time in the future, but no one can tell me when.

Can you direct me in obtaining resolution on this matter?

Thank you.

Subject: Bell South's Request & Filing to Charge Me By The Minute To Call My Local Internet Service Provider When There Is No Where Else The Consumer Can Go

It has been brought to my attention that Bell South has filed to charge by the minute for me to call my **local** Internet Service Provider. **This is just not acceptable**.. These calls are **local** and the tariffs in the State say there are no metered charges for local calls. In addition, It is my understanding that this inflationary and costly method has not been permitted in any other state and it is not possible to go to another provider since BellSouth has a "lock" on the current dial tone. It is certainly not right for you, as the one group that is responsible for protecting the rights of the consumer, to allow this to happen, particularly when there is **NO alternative.**

I would be more than happy to discuss this issue further with you. Please contact me at the number listed above.

Sincerely,

Subject: Local Internet Calls to have a toll charge.

Dear PSC,

I am writing to voice my strong objection to Bell South's recent plan to turn local internet access calls into toll calls. This is an outrageous act by Bell South to gouge a captive group of subscribers. Such a plan would have far reaching consequences resulting in a strong negative impact on business, education and other sectors throughout the United States.

For the sake of all internet users, please do not allow Bell South to charge a toll for local calls to my internet service provider.

Sincerely yours,

J. F. Carver

Subject: The inclosed letter does not need much elaborating.

Some years ago MA BELL was split into 3 parts..."DEREGULATION" was "SUPPOSED" to bring on "COMPETITION". A look at one's phone bills from before and after is proof that most of us were "SHAFTED"

When tomatoes, lettuce etc go up too much we don't buy...Ditto for on line computing...there is a satification when we snub tomatoes, lettuce etc. It will be the same with phone computing. ....I am NOT the only one who feels this way.
Neither carrier serves me now but I am sure if this is resolved in favor of Bell South, it will be only a short while before the rest follow the leader.

Your decesion should not forget the words on the door of your office.

R.E.Kowalski

P.S. Perhaps some of my statements are not in order...PLEASE be aware that my pocketbook(regarding phone) is in DISORDER

TALLAHASSEE, Fla.–Mar. 11–Is logging on to the Internet a long-distance call with the meter running or a free local call?

That's at the center of a contract dispute between two of the country's giant phone companies – WorldCom and BellSouth. And it could end up re-shaping how much consumers pay for Internet service in Florida.

Since the Internet was invented, nearly all users have paid the cost of a local call to reach their Internet service provider. For most people, that's no cost beyond what they pay for local phone service.

BellSouth hopes to change that in Florida and re-classify the calls that people make to dial into their Internet provider as inter-state long-distance calls, calls that would no longer be essentially free.

If state regulators side with BellSouth, they would be the first regulators in the country to do so.

The issue came up before the Florida Public Service Commission Tuesday during a billing dispute between WorldCom and BellSouth. The two companies have a reciprocal compensation agreement for local phone traffic that originates on one company's network and terminatees on the other's.

Since August 1997, BellSouth has refused to pay WorldCom for any traffic which terminates at an Internet service provider saying the calls are not local but inter-state.

It says that calls to an Internet Service Provider (ISPs) may start out only as seven-digit local calls but the calls do not end there, instead the calls continue to tie up a line for hours while the person may be communicating with California, Europe or China. WorldCom argues that the ISP calls have always been treated as local calls and that no other state has ever classified them as interstate toll calls. It argues that the Federal Communications Commission and othe state commissions have ruled that the calls are local.

And, WorldCom argues, BellSouth charges its own Internet service provider customers local business line rates that allow people to access the Intenret via a local call, not an interstate call.

At Tuesday's hearing on the dispute, the commission decided to hold a separate hearing to address the WorldCom-BellSouth dispute.

"This will be a precedent setting hearing because it will clarify whether the calls are local or interstate," said commission spokesman Terry Read.

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

Re: BellSouth and Internet Service Provider

Dear PSC,

I hear that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. In as much as I pay a special higher rate for unlimited Florida Long Distance calls, I believe this proposed measure would effectively allow BellSouth to **DOUBLE COLLECT.**

Because BellSouth has a lock on the local dial tone it is impossible for me to get my service somewhere else. Please do not alllow them to make such changes where there is NO where else I can go.

I will be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Marge Blackstone

COMMENTS

RE BELLSOUTH PROPOSAL TO IMPOSE TOLL CHARGES FOR INTERNET USAGE

Please refuse the petition by BellSouth to impose per-minute toll charges on internet connections. There must be hundreds or thousands of retired people in Florida, as well as students or the handicapped who have limited resources and depend on the internet for their quality of life. It would be a tragedy to deprive these people of the social, informational and pleasurable aspects of the internet because they are unable to afford the connection and tolls. Please do not allow BellSouth to put the internet financially out of reach for so many.

March 23, 1998
John Hufschmid
376 NW Sherry Lane
Port St. Lucie, Fl 34986-2192

To: Public Service Commission

I am sending this E-mail on behalf of The Kings Isle Computer Club of which I am the president.

The proposed request from BellSouth to charge local Internet access calls as toll calls is very unfair.
These local calls made thru BellSouth's equipment are the only way we can access the Internet. There is no other local phone service available to use.

Our club is made up of over 100 members who live in the Kings Isle Adult Retirement Complex. As the name implies we are retired seniors who live on Social Security and our Pensions. The Internet gives our seniors the ability to communicate with family members and friends around the world. The Internet also has opened a whole new world for these folks and per minute toll charges would price all of us out of using it. Also most of our club members have installed a 2nd phone for Internet access.

We are requesting The Florida Public Service Commission to deny BellSouths request and keep this
service available in its present state.

I am available to discuss this matter with you, please contact me at 561-340-3018.

MEMORANDUM

Date: March 12, 1998

0654

From: Mary Renaud
1017 Bucida Road
Delray Beach, FL 33483

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Mary Renaud

The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer – STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Florida Public Service Commission
Ms. Julia Johnson, Chairperson
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850
Fax # 1-800-511-0809

Dear Ms. Johnson,

We respectfully request that you somehow stop or at least delay the implementation of the new ten digit dialing in our area code (305). This new requirement has come as a surprise to us and to everyone that we talk to. We (our immediate circle of friends) didn't hear about this until after the papers announced its coming implementation. Nobody likes it!!!

Certainly, there are other ways of dealing with this supposed problem? Has research been done? Are we being used as experimental rats? While out in California, 2 days ago, I read an editorial, which I enclose to you. Maybe there are alternatives? Maybe cell phones, beepers, 2nd telephone lines used for faxes & modems could be assigned a different area code? With just a little bit of thought, maybe a not so devastating method could be devised, that would benefit the public instead of hurting it.

Please advise us if there is anything that we can do to stop this. We appreciate your time and efforts and look forward to hearing from you.

Sincerely,

William T. Martin III

Subject: ***DO NOT ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER***

Dear PSC:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THE IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer—STOP BELLSOUTH!!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Donna J. Patton

This would ruin the internet as we know it...I make a local call I want to pay for a local call...Bell South has zero investment involving the bandwidth used by the backbone providers carrying internet traffic.

I am A Miami Springs, Florida resident and I vote absolutely NO !!

Owen F. Gay

BellSouth would like to charge you long distance charges for your Internet Usage even though you are dialing a local number. The premise is based on their theory that when you are dialing an Internet Service Provider you are in essence connecting to the rest of the world and therefore should be charged long distance for the call. This comes from an article in the Sun Sentinel that came out on March 11, 1998. The Public Service Commission will be reviewing this issue to see if Bell South should be able to charge for these types of calls.

The following has come to my attention

>>>>BellSouth would like to charge you long distance charges for your Internet Usage even though you are dialing a local number. The premise is based on their theory that when you are dialing an Internet Service Provider you are in essence connecting to the rest of the world and therefore should be charged long distance for the call. This comes from an article in the Sun Sentinel that came out on March 11, 1998. The Public Service Commission will be reviewing this issue to see if Bell South should be able to charge for these types of calls.
<<<<

This is absolutely OUTRAGEOUS if true and I will not stand for this. I have told every person I know to resist this measure if you attempt to do this. They all concur and will be notifying immediately.

Dear PSC,

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS IS TOTALLY UNACCEPTABLE. The call is physically a local call. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make these changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Mohamed Ben jelloun

Just a kind suggestion that trying to make us pay for long distance charges for the Internet Highway is not only pathetically rude and greedy, but will not be tolerated.....With the millions of people in America fighting you...a revolution against the phone company can only be a short distance away...I, for one, will glady join to fight against your tactics....

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS
TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth wants to charge me per
minute
long distance charges for my local internet access. THIS IS TOTALLY
UNACCEPTABLE. The call is physically a local call. The tariffs in the State
say
there are NO metered charges for local calls. Because BellSouth has a lock
on
local dial tone it is impossible for me to get my service somewhere else.
You
cannot allow BellSouth to make these changes when there is NO where else the
consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please
contact
me at the number below.

Sincerely,

Buck Carhart

To Whom It May Concern,

It was brought to mt attention what Bell South is trying to do. I think it's not only
unfair but they saw the internet coming
and now they are like cry babies, it will
hurt them more then the consumer, which I do not think they understand,
the consumer has been ripped off by all the phone companies for many many years,
now it's our turn, if they go through with this they will lose 50% of their customer base overnight, and that's just a start.

I don't know if your aware of a company called I-Link, their stock symbol is ilnk,
you should take a look at this as they have the tecnology now to offer
not only the lowest rates, but within about 6 months
they will be able to offer a flat rate of about $29.95 unlimited long distance calls, and more. If this goes through with
Bell South I will being a distributor of i-link
consentrate in Fla first along with the thousands of other distributors
to offer their service, which as mentioned is unbeatable, they should leave the internet
alone, as either way they will lose.

Thanks for your time.....

Dear PSC:
We are already being hammered enough by the monopolistic baby Bellsouth. Please don't allow Bellsouth to charge by the minute for local calls to my internet service provider. These calls are local in nature. State tariffs state that there are to be no metered charges for local calls. Since Bellsouth is a monopoly, and as consumers we would have no alternative, this would be an extreme detriment to the consumer and a windfall to Bellsouth. Your job is to protect the consumer. SAY NO TO BELLSOUTH!

Thanks, Bill Murphy JD, MBA

In this morning's Tallahassee Democrat, I read with great concern about Bell South's argument that local calls to ISP's amount to long-distance interstate calls.
I can guarantee you that private users such as myself will immediately disconnect from the Internet if we are forced to pay long-distance charges for local calls. Many companies, those who do on-line business, and those like aol whose lifeblood is the local call, will be irrevocably damaged. PSC would severely damage the Florida business climate if it accepts BellSouth's argument.
Finally, the democratic nature of the Internet would end as only those with significant financial ability would use it, to the possible detriment of the rest of us.
Thank you for your time.

I am writing regarding the following article:
INTERNET RATES DEBATED
Long-distance status sought by Bellsouth

by Patricia Horn, business writer

TALLAHASSEE-Is logging on to the Internet a long-distance call with the meter running or a free local call?

That's at the center of a contract dispute between two of the countries giant phone companies-WorldCom and BellSouth. And it could end up reshaping what consumers pay for Internet service in Florida.

Since the Internet was invented, nearly all users have paid the cost of a local call to reach their Internet Service Provider. For most people, that's no cost beyond what they pay for local phone service.

BellSouth hopes to change that in Florida and re-classify the calls that people make to dial into their Internet provider as interstate long-distance calls, calls that would no longer be essentially free.

If state regulators side with BellSouth, they would be the first regulators in the country to do so.

The issue came up before the Florida Public Service Commission Tuesday during a billing dispute between WorldCom and Bellsouth. The two companies have a reciprocal compensation agreement for local phone traffic that originates on one company's network and terminates on the other's.

Since August 1997, BellSouth has refused to pay WorldCom for any traffic which terminates at an Internet service provider saying that calls are

not local but interstate.

BellSouth says that calls to an Internet service provider may start out only as seven-digit local calls but the calls do not end there; instead the calls continue to tie up a line for hours while the person may be communicating with California, Europe or China.

WorldCom argues that calls to Internet service providers have always been treated as local calls and that no other state has ever classified them as interstate toll calls. It argues that the Federal Communications Commission and other state commissions have ruled that the calls are local.

And, WorldCom argues, BellSouth charges it's own Internet service provider customers local business line rates that allow people to access the Internet via a local call, not an interstate call.

At Tuesday's hearing on the dispute, tha commission decide to hold a separate hearing to address the WorldCom-BellSouth dispute.

"This will be a precedent-setting hearing because it will clarify whether the calls are local or interstate," said commission spokesman Terry Read.

If your offices allow this it will be a sad day in this country. Bellsouth already has a monopoly on the phone lines, it's not like we can go anywhere else. Not only will the private consumer be affected, but businesses, schools and even government stand to make an industry which is already large even larger and it will affect the economy as well. The other option, BOYCOTT the internet bellsouth and all others one month of inactivity should make them reconsider their positions.
Please do not allow this!!!

Pam,

Stories on the internet can last for an almost infinite period of time. It is my belief that this "per minute charge" story has been around for a long time and that the "request" was denied a long time ago. Still, it doesn't hurt to let the PSC know again and again that we are opposed to such an idea.

I believe that our state legislature has been considering a "trade-off" that would allow Bell South to approximately double the monthly flat-rate charge for local lines. The "tradeoff" would supposedly

result in lower long distance rates by reducing Bell South access charges to long distance carriers.

However, in addition to the unlikely (probably impossible) prospect that my long distance bill could go down anywhere close to the cost of doubling the rates for our two local lines, the lower access rates for long distance companies would probably become meaninginglessless in light of the almost certain advent of 3 cent per minute high quality long distance calls over the internet, which would be placed through our local telephone lines rather than through long distance lines. This is probably why Bell South would like to double local service charges

If passed, as I see it, the rate changes, as proposed by Bell South, would be a "trick" and the local customer would be soaked.

What we need is real competition for local phone service. So far, Bell South, and other big local phone service providers around the country have been successful at keeping competition out, but this may soon be overcome by innovative technology.

Fax machines and computers made the Soviet Union model of society completely incompatible with economic growth. The same thing could be happening here in America. That is, one of the best hopes for the decline of big government in the United Sates is the advance of technolgy, which is allowing innovation to destroy the regulatory power of government by making government as we know and fear it largely irrelevant.

This does not mean that we can ignore the threat of big government, by any means. The urge by people in government to prosper through the control of our lives is an illness that needs to be "cured." They need to be put "at risk."

The "end of this age" may ultimately be determined by what happens in the middle east, where events are more likely than anywhere else in the world to take place based on factors that we can't reason with and that are ultimately beyond the control or influence of any politician.

I see nothing that would convince me that the "end" will not come exactly as described in Scripture. Anyone who wants to shake their fist at God unrepentedly will suffer incalcuable consequences. The one and only Creator of the universe has made in abundantly clear that bodies of flesh and blood will not be present in ages to come (although they will be present in the very soon to be arriving, radically transformed, millennial age).

I heard in the local news last night that Bellsouth has proposed some sort of
rate increase or charge for internet usage on home telephone lines. I don't know if it was reported correctly or not.

Any additional fees will serve no other purpose than to stifle the use of this
new technology. I assume that there has been increased usage of home residential lines with the advent of home computers and the internet. If they
can show a financial burden or loss of income they should be entitled to recoup those losses. Question, have they imposed or asked for rate increases for families with teenage children who are notorious phone hogs? My point is,
is this simply a readily visible form of telephone line usage and thus a good
target for generating more revenue or are they expending more revenue to support the increased demand, if any?

I am one consumer who would have to seriously consider whether or not I would
continue to access the internet in the face of additional charges.

Thanks,

Jim Cummings

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE
FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,
It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

It is also my belief that the decades of profits taken by BellSouth and its previous "mother" Bell, have not been invested in the public interest. The public is attempting to utilize Year 2000 technology over an antiquated system. They have been very comfortable living with the present infrastructure because its costs them little to maintain it, compared to raw profits they receive. The internet and its users have pushed Bell South into making technology leaps such as digital phone lines and fiber optics that I believe, they would not make on their own because it is not in their interest. Both of these technologies are over 15 years old yet most of Bell South's system still consists of noisy, analog, copper wire only system. Death, taxes, and a bill to Bell south every month should not include long distance charges to my provider across town.

I would be more than happy to discuss the issue further with you, please contact me at the number below.
Sincerely,

David Berry

I would like to say that Bell South is CLEARLY not a public spirited company. This is a blatant attempt to gouge their clients. They are a monopoly and need to be stopped! Their plan to charge long distance rates for connection to an ISP is THIEVERY.

Please do your duty and prevent this outrage!!!!!

I am writing in regards to BellSouth's request to charge internet users long distance fees rather than the local charge for dialing their ISP. This is totally unfair!!! As consumers, we don't even have the option of choosing another phone company. BellSouth gets enough of my paycheck per month already and they won't get anymore. If it is gonna cost me as much to chat online as it will to call my friends and family, then I'll just call and AT&T can have my money.

This proposal is outlandish! I can't even believe that the PSC is even willing to listen to this absurd request. I certainly hope you consider the consumer when reviewiing this case.

I would just like to let you know of my displeasure at learning of the treachery of Bell South. This is a clear attempt to gouge the public. These charges proposed by Bell South are wholly unjustified and would represent unconscionable profits. YOU MUST NOT APPROVE THEM. It is clearly a LOCAL call when I call my ISP and it should be billed as such.

Please do your duty and protect the public as you have sworn to do. DO NOT ALLOW THIS MADNESS TO OCCUR!!!!

It is an outrage that there is only one local phone carrier. Now Bell South wants to intervere with the internet? This is unbelievable. I call Bell South "Hell South". They make a killing off of local service (just look at any residential bill!), mobile service, pay phones, pagers and bellsouth.net. What more do they want? Nobody, not even the FCC, regulates the internet - why should Bellsouth?

Subject: Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY
Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Markum Schnebly

As a Florida resident, taxpayer, voter, and user of internet services, I am writing to put in my two cents worth to this debate. As I understand it, BellSouth wants to make local calls to Internet providers be classified as interstate long-distance calls. I oppose this request for the following reasons:

1) When I connect to an internet provider, I am making a local call. The numbers assigned to internet providers are the same ones assigned to any local consumer. I am using only local lines and switching services to access that company. Now obviously, that company charges me to access the internet and is therefore already paying whatever fees are necessary to access computers throughout the net. I must assume that as a customer of their services, I too am already paying for this access. And the internet providers are able to make a profit or they would raise rates (or get out of the business).

2) Realistically, there is no competition for local telephone service. If BellSouth were allowed to make my access to the internet a "long-distance" call, to whom could I turn? Could I find another local service telephone system that would NOT charge long-distance rates for this access? I don't think so.

3) The internet is rapidly expanding into an incredible new source of information transfer and business opportunity. Allowing a company to charge long-distance rates for ISP connections will stifle that industry. Floridians will suffer. ISP's will be slow to build new connections. Fewer low income families will be able to afford access to the internet and the educational opportunities it provides for their children, thus widening the cultural and financial gap between rich and poor.

I urge you to deny this request by BellSouth.

Thank you,

In this morning's Tallahassee Democrat, I read with great concern about Bell South's argument that local calls to ISP's amount to long-distance interstate calls.
I can guarantee you that private users such as myself will immediately disconnect from the Internet if we are forced to pay long-distance charges for local calls. Many companies, those who do on-line business, and those like aol whose lifeblood is the local call, will be irrevocably damaged. PSC would severely damage the Florida business climate if it accepts BellSouth's argument.
Finally, the democratic nature of the Internet would end as only those with significant financial ability would use it, to the possible detriment of the rest of us.
Thank you for your time.

Dear Sir or Madam:

As a former university educator and full-time Florida resident, I strongly deplore the efforts of Bell South or any other local phone company operating within this state to impose additional fees on customers who use internet service providers. I urge the Public Service Commission to summarily reject such fee requests.

As a parent, I know that children frequently spend hours at a time on the phone after school, talking with one another. Why should children or their parents who spend the same time in educational pursuits (accessing the internet) be subjected to higher tariffs?

The State of Florida has provided that local phone companies make available toll-free calling within prescribed local service areas -- and it is unconscionable that any phone company should seek a broad exception just because users are transmitting or receiving data rather than voice communications.

I respectfully ask that you deny any such tariffs.

Errol J. Queen, Ph.D.

I have been encouraged by my local internet provider to write in in protest of the current plan by Bellsouth to charge a long distance fee for using the internet. In one way, I am not surprised that a company with a history for trying to monopolize phone services has the audacity and gall to even propose such a blatantly greed-based fee when they have absolutely no business interfering in internet service. I think this is a gross injustice that they are even allowed to have a hearing on the matter. If they are given anything more than an obligatory consideration for this ludicrous venture, I will be ashamed of the system that allowed this issue to go beyond a snicker. In other words, I think it sucks! I think the idiots at Bellsouth who came up with this idea were very shortsighted, because just hearing of the notion of their stupid intentions has made me want to get sick and vomit, and most importantly forever lose any respect I might have had for Bellsouth. They have forever sickened me to the mention of the word Bellsouth.

Sincerely,

Josh Mitchell --- josh@dockingbay,com

I invite any response from Bellsouth - but expect none!

To Whom It May Concern:

I am a internet user of The Dockingbay Inc.and they have informed me that bellsouth is planning to charge us internet users long distance charges while we are online,even if it is not long distance to call the internet provider.I have been a bellsouth customer for some years now and have not had a problem with their service or rates in the past, but there is no way in hell i'm going to pay them long distance rates for a local call.

They are the only way around here to have telephone service and i think it is totally unfair if you allow them to get away with this.I for one will drop my internet provider and bellsouth before i will pay them long distance rates for a local call.Telephone's are a convience not a nessecity so if they want to lose a customer than so be it.

I sincerly hope you will take this matter in serious consideration.Bellsouth is the only source for telephone service in this area and i don't even think it should be legal for them to pull some crap like this.

I have two phone lines and pay my internet provider a monthly fee,so why should i have to pay bellsouth even more money for a local call.

sincerly

Subject: Do Not Allow Bellsouth to Charge by the Minute for Local Calls to
My Internet Service Provider!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere
else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Roberta Wassmuth

I am writing to state my opposition to any attempt by Bell South to impose long distance fees on my calls to my ISP. I feel this is in direct violation of basic free market principles and will seriously inhibit growth of the Internet's ability to provide transmittal of information to all regardless of financial status. Think of the educational projects such as Guttenburg, whose growth will be inhibited and probably curtailed if costs are enhanced by such charges demanded by Bell South soley to prohibit competition for their systems. Thank you.brinkstarr@parkave.net

To Whom It May Concern,

I am horrified that Bell South would consider charging a fee to use the internet. I would hope that you will not allow this practice to occur. The internet it the wave of the future and is necessary for my children in this day and age. I would not be able to afford my children the priviledge of using the internet if we were charged by the minute. We bearly scrape by and have scrounged to pay for the computer to help our children in school. Is this fair treatment for the working family? Is this a way of controlling what we can and cannot have? Are you punishing my children for not having rich parents? Let's not forget the schools that are working hard to provide our children with quality education which includes using the internet. How will the schools be able to budget this?

I hope that you will look long and hard over this issue and stand up to Bell South. It's about time that someone did.

NO LONG DISTANCE CHARGES FOR INTERNET USE!!!!!!!!!!!!!!!!!!!!

I wish to register a complait regarding Bell South's plan to charge for calls providing internet access currently being reviewed.

If this is passed All elected officials involved in the passing will be identified and their names will be sent throughout the internet as someone not to vote for for re-election.

I do not support the current bill.

Regards,

Emmett Osborn

Bell South's proposal to attach a fee to every call made to an Internet Provider is just another way to monopolize the market, and do more profiteering. I'm adamantly apposed to it, and if passed will close my business and move it out of the state of Florida.
We've been in business here since 1983!

Not only will I move my business, but I will re-register the Corporation in another state. Florida would loose the income!

A written copy of this letter will go to the Governor's office!

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Sheldon Greenbaum

Subject: BellSouth Petition for By-Minute Internet Charges
Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

It is my understanding that BellSouth has filed a petition to charge me "by the minute" for Internet calls placed through my Internet Service Provider. I am currently paying BellSouth a monthly fee of over $25 for a second telephone line that is used for connecting to the Internet. Many, many people have had second lines installed in their homes and places of business which are used only for the Internet. It appears to me that BellSouth is already benefitting greatly from Internet usage and there is no need to put more money in their pockets.

I believe that this is an issue where BellSouth is attempting to abuse its position as a monopoly on the local telephone market. It is up to the Public Service Commission to protect my interests as a consumer and I ask that you do this by rejecting their proposal.

Thank-you for your attention to this matter. If you wish to discuss the issue with me, I will be more than happy to do so. You can contact me by e-mail or at 561-575-3372.

Yours truly,
Ruth Ann Mahoney, C.P.A.

Dear Sir or Madam,

Bell South has already way too much of a monopoly down here. Charging long distance for internet access won't do ANY good.
Nobody would stick with the service or find servers via 1-800 numbers and so go around Bell South. They should rather participate in the immense internet business opportunities through advertising etc., rather than KILL them!!!

Sincerely yours,
A.Simon

Dear Sirs,
It has come to my attention that Bell South is planning to make calls to an Internet Service Provider a "charge by the minute call." This intention is purely unacceptable. I will participate in any way I can to prevent this action from being allowed to happen. What happens next? Now they will decide to make all calls to my mother in Lake Worth a toll call because of the length of time I am on the phone. This selective "tolling" is opportunistic and an insult to current Bell South customers. I pay for basic service that allows me unlimited local callng and to come back later and say that there will now be a charge to my ISP because we can, is absurd. Please do not allow this to happen. Please email me if you have any questions concerning this subject.

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

Sincerely,

P. Muller

Dear Sir or Madam
I ama concerned that Bell South is attempting to charge for per minute usage of intenet. Would this not be taxation without representation when I would be charged by bellsouth
when I am already paying a monthly phone bill? Has greed completely taken over the country? My wife and I use Bell South in Tennessee (2 Lines) and one additional BellSouth line at our place in Panama City Beach, Florida where we plan on retiring.

When will the telephone and utility executives quite bleeding middle and lower income people while those same executive make millions annually in salaries and bonuses.

I work for a manufacturing company that has gone through tough times the past several years competing with the global market. We can not go to the State or Federal government to get more funds automatically . We must compete on open term in order to survive. I thought the baby bells were created in order to make them competitive? Are the phone companies afraid to compete against a new competitor that may be more efficient for the customers? Are they afraid that they will become the next pony express of which they rep
laced? When the internet goes to using satelites instead of telephone lines because of the addeed cost, will they then try to get a little of that pie also?

I know they will pump a lot of money into this movement in order to politically enfluence some public officials. I only hope there are enough officials left that will fight the honest battle " To represent the people". This move will virtually kill the internet system as we know it and its ability to move us into the next century, and to stimulate the minds of our youth. Please do not let the money mongers win this battle !!!!

Thank You !

Content-Type: text/plain; charset="us-ascii"

Dear Sirs at PSC,

I have recently learned that BellSouth has filed to charge by the minute
for me to call my local Internet Service Provider. I cannot understand on what basis they even consider this to be acceptable: the call is LOCAL, and the tariffs in the State of Florida indicate there are no metered charges for local calls. Moreover, as a consumer, I cannot protest this move and terminate my service with BellSouth, since there is nowhere else I can go.

I sincerely hope you will see the interest of the consumer and will not allow BellSouth to go through with this change.

Sincerely,
Holly E. Scoates, Jacksonville, FL.

I oppose any changes to the rates currently charged Internet Service Providers and their customers.

I don't think charging a long distance fee is in the best interest of this country.

Thank You,
Jerry Fordham

Subject: loss of a portion of my phone service
Message-ID: <19980310.172240.3438.0.plant_killer@juno.com>
X-Mailer: Juno 1.49
X-Juno-Line-Breaks: 0,7-8,10-15
From: plant_killer@juno.com (William I Brink)

Dear sirs:

Today I found that I could not Dial my own phone number from my phone. I had called the problem into the Sprint repair service which services my area and received a response from a repair technician, who proceeded to inform me that the capability to ring my phone from itself had been removed because my number had been changed to a new central processing unit. I was also told that the capability can not be returned.

I do not appreciate this loss of service and I would like to know exactly what I can do about having the capability returned!

Awaiting Your Answer;

William Brink

==========

Dear FPSC,

We have learned that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider, Florida Internet.

This is ABSOLUTELY UNACCEPTABLE - the call is a local call and should remain a local call. It is my understanding that the tariffs in the State say that there are NO METERED CHARGES FOR LOCAL CALLS. Simply because BellSouth has a monopoly on local dial tone, it is impossible for me to obtain alternative servicesomewhere else, which action I would very quickly take were it available to me.

Please do not allow BellSouth to make such charges when there is NOWHERE ELSE THAT THE CONSUMER CAN GO. As the FPSC we look to you to protect the consumer - please stop this latest action by BellSouth.

I would be more than happy to discuss this issue further as would many of my friends, so please feel free to contact me at the number below,

Subject: BellSouth & Internet Fees
Date: Fri, 20 Mar 1998 16:49:40 -0500

It has come to my attention that BellSouth would like the PSC to approve long distance charges for anyone who uses the internet, even though the Internet Service Provider supplys a local phone number and is paying BellSouth for fees connected with that number.

I would like to vigorously object! If the PSC approves this request, many people will be forced off the internet. We are already paying our Internet Service Provider a fee [$19.95 to $21.95] to log on. If BellSouth's plan goes into effect, even at a modest 10Á a minute, the fees will become unreasonable.

From my perspective, BellSouth is already making money off the ISPs because they are charged for the use of lines locally. Secondly, a long distance company is making money off the lines going to the ISP's server. Why should a local call to a modem be billed at long distance rates.

I trust that you will forward my comments to the leadership of the House and Senate. Needless to say, we internet users will be watching how our reps vote on this issue. And, we have long memories.

Thank you for the opportunity to comment.

Subject: DO NOT ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!!!!!!!!!
Date: Fri, 20 Mar 1998 16:28:44 -0500
X-Priority: 3
MIME-Version: 1.0
X-Mailer: Internet Mail Service (5.0.1458.49)
Content-Type: text/plain

Dear Public Service Commision:

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. THIS IS TOTALLY UNACCEPTABLE. The call is physically a local call and should not be charged per minute. The tariffs in the State of Florida say there are no metered charges for local calls. BellSouth has a lock on the local dial tone which makes it impossible for me to get my service somewhere else. Please, you can not allow BellSouth to make these changes as there is noone else to provide local service. As the Public Service Commission will be reviewing this situation and must protect the consumer---Please Stop BellSouth!!!!!!!

I would be more than happy to discuss the issue further with you, please contact me @ the number below

I have learned that BellSouth has filed to charge a by minute charge for LOCAL internet service charges. BellSouth has a monopoly. It is imperative that they not get away with this. Local charges are not to be metered. You must protect us from this highhanded request. Thank you.

Dear Public Service Commission

It has come to my attention that BellSouth is attempting to get permission to charge a toll per minute for any call placed on an Internet Service Provider. This seems to me to be a very unfair charge since the call is to a local number. It is bad enough that I have to pay a toll to call from one end of my area code (561) to the other end. Now I'm being threatened with a charge for making a very local call within my own county. I pay enough per month to have unlimited service. Now the unlimited service is being threatened. What else is BellSouth with their monopoly over local calls, going to charge for service.

This charge is also a threat to the entire public use of the internet system. It would make the cost for John Q. Public prohibitive. Most people that I know that use the internet, including myself, are on and off the system many times a day for one reason or another. I am retired, have to watch my expenses, and have some health problems and using the internet is one of my entertainments and ways of keeping up with the world. By the way this PC was given to me. Any added expense could very well push out of using the PC for communication. Many of my neighbors that have PC's had them given to them by one of their family members.

We look to you as a public commission to protect the public. This toll sounds to me as just another way to increase profits. It seems to me that the cost of processing a local internet call is no more than a regular local call.

As I understand the set-up, once the local call to the ISP is made, the ISP

system takes the brunt of the cost of service, not BellSouth. If I am right,
where does BellSouth come in for an extra charge?

Sincerely yours, Walter Arnold E-mail WArnold680@AOL.com

Dear Sir or Madam,

I have recently found out that Bellsouth intends to ask for a per-minute fee from internet users. This is on top of the recent local pay phone rate hike to $.35, and the recent increases in local home service.

This e-mail to you was made on a local phone number, as if I had piked up the phone and dialed my next door neighbor. The rate per month for local calls is about $25.00, and it's for unlimited calls. The internet is also a local call, but if this proposed "charge-it-the-same-as-long-distance" bill goes into effect, who will be able to tell the difference between local and internet numbers? Couldn't the call to my neighbor also be on a "per-minute" fee?

The internet was made out years ago exactly as it is now, virtually free. It's just an information provider, a travel agency, a chat forum, a place where people can mingle and associate freely, and now Bellsouth thinks it's a great idea to charge people for it. That's greed, plain and simple. And right now, it also violates the First Amendment.

Is there a statement in the First Amendment that says we have to pay first, to excercise our rights? Leave the internet alone.

Hi Friends,
I called the Florida Public Service Commission this morning and YES, this is all true! No meeting date has been set, as this is very EARLY in the process. I have added the EMAIL address for the PSC in the body of the following letter. Since the newspaper article last week the PSC has received hundreds of letters, calls and emails. Read on,
Robin
~~~~~~

Subject: Fwd: BELLSOUTH CHARGES

3/16/98

Subject: BELLSOUTH CHARGES

Widest Possible Dissemination Possible: This affects ALL ISPs, AOL, COMPUSERVE, Netcom, WorldLink, etc.

March 13, 1998

Dear Users,

BellSouth wants to try and charge you long distance to call your internet provider (AOL, etc.), even if it is local call. This way they can make you pay by the minute when you surf the Net. According to an article in yesterday's (3-12) Sun
Sentinel, they are the FIRST phone company in the USA to try this stunt.

There will be a hearing in Tallahassee by the Public Service Commission (PSC) to review their request. Let the PSC know there is NO WAY you will stand for BellSouth to do this.

You can send a fax to the PSC at 1-850-413-6362 (850 is the new area code for Tallahassee). Or you can call their complaint line at 1-850-413-6100.
Or email them at: contact@PSC.state.fl.us.

Regards,
Chris J. Terry, President
Florida Internet Corporation

Besides I just read in morning paper that BellSouth is doing a rebate in June
if they are so Poor how can they do this rebate, they already have a Monopoly
and they went into the internet business themselfs if the unlimited is not good for them why did they give unlimited access to there customers.

Sincerely,

Dan E Gregory

Dear PSC

It has been brought to my attention that Bellsouth has filed to charge by the
minute for me to call my local Internet Service Provider.

The tariffs in Florida say that there are no metered charges for local calls so their request is totally unacceptable.

Because of Bellsouth's monopoly in the dial tone area, I do not have any option except to use their services.

Please do your job as a consumer advocate and prevent this from happening.

Sincerly

If I have to start paying extra charges I will discontinue my subscription to Dockingbay or anyone else. I do not need the service all that bad.. It is nice to be able to use the service for E-mail, research, getting weather data etc. But count me gone if rates are increased due to taxation or phone charges.

Thank you,

Chuck Gates - a new customer

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear Public Service Commission:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone, it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NOwhere else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you. If desired, please contact me at the number below.

Sincerely,

Ronda Shaer

To whom it may concern;
I feel that Bell South's claim that they should charge by minute charges for internet usage is the most ludicrous claim and unfair for the consumer. It does not cost them any more money to put anyone to hook up to a local server, and what they are trying to do is monopolize the internet industry, by putting the local small ISP companies out of business.
It seems to me that they are just sore losers, because their efforts to provide internet services are not bringing enough to the bottom line. Every day I read about another way This company is squeezing me the everyday consumer for money. A good example is the recent increase in pay phone rates. Every time that I have to pay $.35 for a telephone call I usually don't have a dime, so it costs me fifty cents. If there are 10,000 using pay phones in one hour (which is not an unacceptable figure) and they all put in fifty cents, that is $1500 that is clean profit for them, and as far as I concerned it's another way Bell South has gouged me! This by minute charging for internet access is totally unacceptable, and I feel that if it is passed it will be a grave injustice to all internet users and internet service providers, as well as severely affecting the growth of the internet commerce that is evolving today. There will be several small businesses that are starting to grow with this platform of business that will be put out of business before they even start.

Sincerely
Mark A. Stevens

Please fax or e-mail ASAP...
If Bell South wins this battle, local telephone providers across the USA will join them in charging LONG DISTANCE rates for LOCAL calls to internet providers.

BellSouth wants to try and charge you long distance to call your internet provider, even if it is a local call. This way they can make you pay by minute when you surf the net. Accoridn to an article in yesterday's Ft. Lauderdale's Sun Sentinel, they are the FIRST phone company in the USA to try this stunt. There will be a hearing in Tallahassee by the Public Service Commission (PSC) to review their request.

Let the PSC know there is NO WAY you will stand for BellSouth to do this. You send send a fax to the PSC at 800/342-3552 or call at 800/342-3552. PSC's e-mail address is: contact@psc.state.fl.us

Attached is a fax form to cut and paste to reduce your time in voicing your opinion.

This is about the Bell South/World Comm deal with charging long distance charges for dialing in to a local ISP.

Well, in a nut shell, they need to cram it up there A$$ and stop trying to get more money as if they don't get enough already. The cost of having a phone in your home is outrageous enough with out their wanting to charge more.

What is it really? Are they jealous to the fact that the internet is a strong financial gain and they just want in on it? Don't they know how much they are charging these ISP's for phone lines and access to the internet? It is sky high.

They need to stop being so worried about money. They need to worry about fixing the sh*tty lines that are in the ground and in the air before they start asking for more money. They already have enough of mine and I am not giving them anymore. That is all there is to it.

Oh yeah, if you all pass this thing it will be the end of the Internet as we know it.
DO YOU WANT THAT????

My regards

We would like to register a protest against legislation being considered that would permit increases in Telephone Rates by local companies (which we have previously written about) and Water Rates.
We oppose any water rate increase intended to fund expansion thus obviating the need for utilities to properly use their Capital Accounts as normal within industry, such as required by Florida Power. We have had first hand experience. Our share of the construction of our first class water facility was paid for when we bought our property here in Sugar Mill Woods. We have also had first hand experience with Southern States, Now Florida Water. In that instance they bought our facility and immediately began raising rates . Using profits from our system and others they began buying and upgrading smaller, less efficient, facilities solely for expansion and excess profit. We have lived here in Sugarmill Woods for over 17 years and are sure that Southern States will never pay us the hundreds of dollars they owe us by court order.
We can assure that giving utilities relief as being proposed by the Legislature is going to be more of a problem than encountered to date. We believe that if the Republican legislators continue to force these issues on the public there will definitely be a change in the mix come November.
Thank You Honorable Senator Cowin and Honorable Senator Jennings.
George & Frances Harbin

Subject: Bell South's per minute charges.
Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

Dear Sirs:

I have been made aware of a proposal by Bell South regarding a per minute internet charge to be placed on all local calls to internet providers for internet access. Most, if not all, of these calls are placed to browse the web or for e-mail, not telephone communication. ATT has become one the most agressive members of the "US internet web-backbone" inorder to earn a profit on internet-growth. Maybe Bell South should think of expanded service to earn profits not legislative tactics.

I hope that the Public Service Commission will deny Bell South's unlawful attempt to monopolize all local internet access. I find it interesting that Bell South will fight for competition on the "long-distance" side of telecommunication and have a closed-market opinion when it comes to "local-service."

Sincerely,

J. Irving

Dear PSC,

It has been brought to my attention that BELLSOUTH wants to charge me per minute charges for my local internet access. The call is physically a local call. The tarrifs in the State say there are NO metered charges for local calls. It seems BELLSOUTH has a monopoly on local dial tone it is impossible for me to go somewhere else.

Sincerely,

Rodrigo Castano

I just heard about BELLSOUTH'S PROPOSAL to charge internet users with a long distance per minute charge even if they are using a local dial-up connectionto get on the web. This is WRONG and it is HYPOCRITICAL for BELLSOUTH to charge me long distance rates to make a local phone call especially since I am a BELLSOUTH RESIDENTIAL SUBSCRIBER. Please do everything possible to deny bellsouth this outrageous act of communication piracy. To me this looks like bellsouth is trying to put a strangle hold on the common man and
not even allow him the right to have a voice in the decision and he is the one who has to pay for it.

I was made aware of the following info via my ISP....

Bellsouth has filed a petition with the public service commsion to charge local intra-state charges (LongDistance per minute rates) to connect to an ISP(Internet Service Provider) even if it is a local call.

DO NOT ALLOW IT! It is ridiculous to charge long distance rates to make a simple local call down the road.
It is pitiful that anyone would think of such a thing!! A person already pays for the ISP service and now the phone company wants to charge extra to call it? I thought that was what your phone bill covered! If you are paying a bill to the phone company for unlimited local calls, there should be no reason to charge extra just because it's an ISP.
That's how I feel about the subject.

Thank You
Brandon Patton

To whom it may concern:

It has come to my attention that Bell South is trying to charge long distance rates on local calls made by individuals like myself to ISPs. As I understand it, is based on their theory that when you are dialing an Internet Service Provider you are in essence connecting to the rest of the world and
therefore should be charged long distance for the call.

This is a ludicrous greed-inspired theory! I and other Internet users will not stand for it! Bell and other carriers already charge for the local call to the ISP and they charge the ISP for the data circuit(s) used as a point-of-presence on the Internet. Indeed, Bell South provides point-of-presence services. As owners of most local fiber, Bell gets a cut of most internet related data and voice circuit revenues already. They should not, therefore, be allowed to lay additional long-distance charges for service and qua
lity of service they do not specifically provide nor guarantee. The simple fact is, I make a LOCAL call. My ISP leases their data lines. And Bell can only guarantee the integrity of my LOCAL service. HOW DARE THEY CHARGE ME FOR USAGE BEYOND THEIR NETWORK!!! What a mess this would cause. You cannot allow Bell to arbitrarily charge for use of a third party's data circuit. If User A moves data across my circuit, and Bell charges for this usage, aren't I entitled some royalty from Bell or the user or maybe the ISP?

I EMPLORE YOU, STOP THIS RIDICULOUS TRAVISTY NOW!!!

an article in the Sun Sentinel that came out on March 11, 1998. The Public Service Commission will be reviewing this issue to see if Bell South should be able to charge for these types of calls.

HELL NO DONT DO IT. Our country is at the fore front of this new technology and florida is a leader to so. america. Bell South has a monopoly on local calls for the foreseable future. More people are adding lines for local internet, fax and cell phone calls. They have and will continue to benefit from an increase in the average number of phone lines per house hold and the addition of monthly service charges for everything from caller id to 3 way conf and call waiting.

You want to give the Bells something. Give them local competition.

It has been brought to my attention that BellSouth wants to charge me per minute charges for my local internet access. This is completely unfair. The call is a local call. The tariffs in the state say there is no metered charges for local calls. It is impossible for me to get my service elsewhere because BellSouth has a lock on local dial tone. You can't allow BellSouth to make these changes where there is nowhere else a consumer can go. Please help protect the consumer.

If you would like to contact me on this issue, feel free to call me at the number below.

Yours truly,

Daniel Ramirez

To Whom It May Concern:

Please do not permit Bell South to charge Internet Users at long distance rates.

I am a Stock holder of Bell South but feel that the internet should be kept for everyone's use not just those that can afford to Pay extremely high long distance rates.

Keep the Internet for everyone, regardless of their economic situation.

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear Public Service Commission:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you. If desired, please contact me at the number below.

Sincerely,

Dr. Wilbur M. Wishner

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

My business and customer base relies soley on the internet. If toll charges were required for local dialup accounts this would affect my business negatively. The use of the internet and it's resources are fueled by its affordability. If you remove that attraction, it's practical use is negated.

I would be more than happy to discuss the issue further

City: Tallahassee, FL 32312-3754

Bell South must NOT be permitted to charge for internet connections, at least not for residential and public school lines. Charges for business lines are probably justified.
Charging for long distance telephone service at even $0.05 per minute would be prohibitively expensive and would deny access to most individuals.

These days many school children, shut-ins, concerned citizens, etc. are dependent upon the internet for information concerning local and national government and educational research to mention just two activity areas, and communication (e-mail) with legislators, families and friends.

This is an EXTREMELY important issue for most individual internet users, which is a large and growing segment of your constituents.

LAWTON CHILES
GOVERNOR

STATE OF FLORIDA

Dear Thomas:

Although I am glad to have the opportunity to review your recent E-mail, the agency you should contact to address your concerns is the Public Service Commission (PSC). The PSC was created by the legislature and is by Florida Statute an arm of the legislative branch of government.

I have forwarded your letter to the PSC. I feel sure you will hear from them soon. If you have interim questions, call toll-free the PSC's Division of Consumer Affairs at 1-800-342-3552 or write to them at the address indicated below. If you would like to bring this issue to the attention of someone other than the PSC, you should contact either your state senator or representative.

If I can be of assistance on any issue or concern that comes under my jurisdiction, please do not hesitate to contact me.

With kind regards, I am

Sincerely,

Lawton Chiles

Subj: Proposal by BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL AREA INTERNET SERVICE PROVIDER CALLS

08464

I most strongly protest the proposal by BELLSOUTH to charge by the minute fees for local internet calls. IF THE CALL IS LOCAL -- IT IS LOCAL.. THE TARIFF RULES STATE THERE IS NO METERED CHARGE FOR LOCAL CALLS.. You cannot permit BELLSOUTH -which is a monopoly in my area- to exploit the public like this...It is time the Public Service Commission stopped this exploitation by monopolistic enterprises and began to protect the ordinary consumer..

Thank you for your consideration.

Re: Attempt by BELLSOUTH to 'sock-it-to-us'

Dear Commissioners:

If my memory serves me right, the AT&T conglomerate was ordered split with the reasoning that it had become a monopoly. If BELLSOUTH is allowed to charge us by the minute to call our local Internet Service Provider....and we shop around to find another phone company.....who do we go to? There isn't any other Company! No competition! As I see it, this amounts to a monopoly. Using the AT&T breakup as a precedent, BELLSOUTH should not and can not be allowed the request. I'm already charged 25¢ each time I hook up to AOL for my call to Ft. Pierce. I think we should rename BELLSOUTH to BELLGREED.

Other Phone Companies across the Nation will be watching this action, and if the request is granted you will establish a national monster.

You bear the banner for the Consumer. Please don't let us down!

Respectfully,

Joseph J. Durkin, Sr.

Re: BellSouth should not charge me by the minute for local Internet Service Provider Calls.

I have heard that BellSouth is planning to charge me by the minute for local calls to my Internet Service Provider. I find this totally unacceptable. The tariffs in our state says that there are NO metered charges for local calls. How is BellSouth allowed to charge such outlandish charges when it is a LOCAL call? As the Public Service Commission I urge you to stop BellSouth from these practices. Please STOP BellSouth!

If you would like to contact me about this issue further, please contact me at your earliest convenience.

Sincerely,

Harold D Cardwell Jr, Ann E Cardwell

Subj: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER

Dear PSC:

Do your job and disallow the subject theft to be foisted on us senior citizens, as well as school children, who need to learn to be able to function in the future. I signed up with a provider that has 800 lines so that I could afford to try and learn the internet and now the phone companies want to charge for the air that we breathe.

Bellsouth is already a monopoly and needs to be put in their place of making a fair profit off of their customers, without gouging.

Please do your job and protect us consumers. I would be glad to discuss further, if you would call me so that I do not have to call long distance. Social Security makes one try and be frugal.

Thanking you in advance, I am

Sincerely,

B.J. Escue

To whom it may concern;

I read in our local newspaper, The Sun Sentinel, that Bell South wants to charge long distant rates instead of local rates for the use of Internet. No state regulators has allowed this and that is the way it should be. I and asking you to vote against any change.

Any change would be most distressful to the many, many people who use Internet and have Bell South as their carrier. I and my wife own stock in Bell South but we against any change even though it may benefit us as stockholders.

We already pay for service through A.O.L. or other carriers.

Again please vote against any change in rates!!!

Very truly yours,

Bernard J. Gordon

Re:	DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL

I understand Bellsouth has filed to charge by the minute for my local calls to my Internet Service Provider. I DO NOT ACCEPT THIS. You cannot allow Bellsouth to make these charges when there is no other phone service for me to go to. A LOCAL CALL IS A LOCAL CALL.

TO THE PUBLIC SERVICE COMMISSION:

Please do not grant BellSouth permission to charge long distance for local Internet Provider numbers.

The telephone companies were broken up to prevent monopolies and the telephone industry. If they get their greedy hands on internet provider numbers it will only be the tip of the iceberg.

DO NOT GRANT BELLSOUTH THEIR REQUEST.
BE TRUE TO THE LITTLE GUYS IN THIS COUNTRY.

Should you wish to discuss this further with me, please feel free to contact me. Thank you.

We have recently learned that BellSouth is going to try and charge us for a long distance call when we telephone our local internet provider. We already pay our local internet provider for their services and so why should we have to pay BellSouth to make a local call to our provider!

This is insane. Please do not approve BellSouth's request. It's like taxing your taxes.

I want to let you all know that I support the overlay plan. As a business owner with most of my customers outside of the area, this will cause a great deal of difficulty. Additionally, I believe it will work to split the bay area apart just when real progress being made to reduce cross bay hard feelings. Dialing an extra three digits is really not a big deal.

Robert Swain
2130 Fairway Av. S.
St. Petersburg, FL 33712

Thanks,

JD

March 12, 1998

Dear Users,

BellSouth wants to charge you long distance to call us, Florida Internet, even if it is local call. This way they can make you pay by minute when you surf the Net. According to an article in yesterday's Sun Sentinel, they are the FIRST phone company in the USA to try this stunt. There will be a hearing in Tallahassee by the Public Service Commission (PSC) to review their request.

Let the PSC know there is NO WAY you will stand for BellSouth to do this. You can send a fax to the PSC at 1-850-413-6362 (850 is the new area code for Tallahassee). Or you can call their complaint line at 1-850-413-6100. You can also send e-mail to complain to contact@psc.state.fl.us

Regards,
Chris J. Terry, President
Florida Internet Corporation

To: The Public Service Commission

Subject: DON'T ALLOW BELL SOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY
INTERNET SERVICE PROVIDER

Dear Commissioners,

It has been brought to my attention that Bell South has filed to charge by the
minute for me and others to call our Internet Service Provider. This is unwarranted and totally unacceptable. These calls are local calls. The tariffs in our state as you are aware say, "There are no metered charges for local service." Since Bell South has a lock on local dial tone making it impossible for me to get my service elsewhere, we then are captives to their whims and greed. And face it, this is nothing more than greed. How about something for the consumer for a change? Isn't it enough that these same swell guys want to increase the basic charges for monthly phone service under
the guise it will help reduce long distance charges? I have dealt with phone
companies throughout my working career as well as at home and I have never in
35 years ever seen a cost for phone service decrease. So who is kidding who?

As our only voice, I hope you in the PSC will protect us, the consumer.

Very truly yours,
Walter J. Robbins

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

Sir Phillip Tubell

Subject: Bell South is trying to screw its users

Dear all:

Some potentially damaging news for all Internet access providers is coming
from Bell South. BellSouth wants to treat any call to an ISP as an intra-state long distance charge. That means potentially that you will have to pay by the minute on top of the $9.95, $19.95, or $24.95 monthly fee. That will kill alot of the Big Planet vision for e-commerce and other
internet related stuff when you are being billed by the minute.

IF BELLSOUTH IS ALLOWED TO GET AWAY WITH THIS OUTRAGE OTHER PHONE COMPANIES
MAY FOLLOW SUIT, EFFECTIVELY CRIPPLING THE INTERNET. THEREFORE, IT IS NOT ONLY A PROBLEM FOR US IN FLORIDA!

Here is the information that Florida Internet sent out to its customers. Florida Internet is an ISP as is Big Planet's Internet Service, AOL, MSN, CompuServe, and even WebTV.

The best thing to do at this point is to get your voice heard to let them know you won't stand for Bell South and their plan to rip people off.

I protest to your even thinking about letting Bell south make a rate per minute for using the net. I am an older senior and am on a fixed income. The net is a way of connecting with others, shopping, etc. And if you let these rates go through, you would deprive the older prople, and the younger people also trying to eal out a living , having to have both parents work to support their lifestyle. VOTE NO! Jean Bish

Dear Sir or Madame:

It sure doesn't sound fair and it sounds like an outlandish change to charge by the minute to be on the internet.

We better write to Bill Gates to hurry it up and get this show on the road and get it on CABle. It sounds very unfair for Bell South to do this to their customers.

Sincerely,

Muriel

I would like to voice my opinion against BellSouth charging for long distance Internet access. I already pay a lot of money for regular long distance and phone service.

Please do whatever is in your power to prevent such charges.

Thank you.

RE: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear Commissioner:

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go.

Bellsouth has take lots of foolish action to harm us. For an example, if we rent a ISDN with their territory, they are going to limit us to use by certain hours. In that case, if I use an ISDN for unlimited use in sprint territory, it only cost us $76. but with Bellsouth, it will cost $800!!! Is that rediculious?

We have gone to an information age. We can not go back. The age of being exploited by this local company is over!!! They try to get every penny from people and make big profit. They help crookers cheat people and provide poor service to people and we can do nothing about it. The age is over!!!

Nobody can stop the new technology! Nobody!! People now getting smarter. It is open fair competetion! Most ISPs lose money all the time, and few of them make very little profit. If every local company acts like Bellsouth, all the ISPs will be out of business. And we have to go back to the old age!!!!!

So stop it!!! as we do NOT want go back and continuouly being screwed up by someone like BELLSOUTH!

As the PSC you must protect the consumer--STOP BELLSOUTH! I would be more than happy to discuss the issue further with you, please contact me at the number below.

Sincerely,

George

I do not think Bell South should be able to charge long distance rates for on line users/internet access. A local number is dialed and there are no costs/overhead to Bell South. They have increased their prices on ALL their services dramatically and lowered what they provide with each charge. They make a mint on Yellow Page advertising. They have a market within the internet already. Let them compete with all the other internet providers at the same level. They have the South Florida market with the telephone service with NO competition. They do a good job, but we are already paying enough to them. Please consider the consumers when you make your decision.

THIS IS JUST TO VOICE MY DISAGREEMENT WITH THE OVERLAY CONCEPT RECOMMENDED BY GTE FOR THIS AREA. MAKES LITTLE SENSE TO ME AND I WOULD THINK IT WOULD BE VERY COMPLICATED.

To: Public Service Commission

Subject: DON'T ALLOW BELLSOUTH TO CHARGE BY THE MINUTE FOR LOCAL CALLS TO MY INTERNET SERVICE PROVIDER!

Dear PSC,

It has been brought to my attention that BellSouth has filed to charge by the minute for me to call my local Internet Service Provider. THIS IS TOTALLY UNACCEPTABLE. The call is local, period. The tariffs in the State say there are NO metered charges for local calls. Because BellSouth has a lock on local dial tone it is impossible for me to get my service somewhere else. You cannot allow BellSouth to make such outlandish changes when there is NO where else the consumer can go. As the PSC you must protect the consumer--STOP BELLSOUTH!

I would be more than happy to discuss the issue further with you, please contact me at 561-804-9500.

Sincerely,

Jennifer Kearney
