RE: Contacts Regarding Employment

Four attorneys in my office have recently received contacts from the Office of Public Counsel regarding potential employment by that agency. This is my recommendation under Section 5.02(C)(1)(b) regarding changes in work assignments and/or notification to parties in dockets involving OPC to which these lawyers are assigned.

1. Jennifer Brubaker declined to pursue the opportunity with OPC. I therefore recommend no change in work assignments and no notice to parties in any of the dockets to which she is assigned.

2. Felicia Banks is assigned to only one docket to which OPC is a party (Docket No. 030869-TL). That case is now on appeal and Ms. Banks does not have any responsibility for the appeal. I therefore recommend no change in work assignments and no notice to parties to that docket.

3. Marlene Stern is assigned to the four dockets to which OPC is a party. I recommend no change in work assignments, but do recommend that notice of the contact be given to the parties to those four dockets:

I further recommend that the notice simply state that Ms. Stern "has advised the Commission that she was contacted by the Office of Public Counsel regarding her interest in being considered for employment to fill a vacancy in that office."

4. Adrienne Vining is assigned to three dockets to which OPC is a party. I recommend no change in work assignments, but do recommend that notice of the contact be given to the parties to those three dockets:

Docket No. 000694-WS

Petition by Water Management Services, Inc. for limited proceeding to increase water rates in Franklin County

Docket No. 040001-EI

Docket No. 040007-EI

I further recommend that the notice simply state that Ms. Vining "has advised the Commission that she was contacted by the Office of Public Counsel regarding her interest in being considered for employment to fill a vacancy in that office."

Please let me know if you would like to discuss these recommendations.

RE: Contact with the Office of Public Counsel

Section 5.02.C of the Administrative Procedures Manual requires that an employee, who exercises regulatory responsibility, report any contact with a party to a proceeding, when that contact is related to employment by the party. Harold McLean, the Public Counsel, recently contacted me about employment in the Office of Public Counsel. The Office of Public Counsel is a party to the following open dockets to which I am assigned:

1. Docket No. 040007-EI – Environmental Cost Recovery Clause (ECRC);
2. Docket No. 040582-EI – Petition by Florida Power & Light for Approval of Recovery Through the ECRC of Costs Associate With Section 316(b) of the Clean Water Act; and,
3. Docket No. 040472 - Petition by Progress Energy Florida for Approval of Recovery Through the ECRC of Costs Associate With Section 316(b) of the Clean Water Act.

Docket No. 040007-EI is the docket for the annual hearing in the Environmental Cost Recovery Clause. The other two dockets are PAA dockets pertaining to the ECRC.

If you need additional information on this contact with the Public Counsel, or the dockets listed above, please let me know.

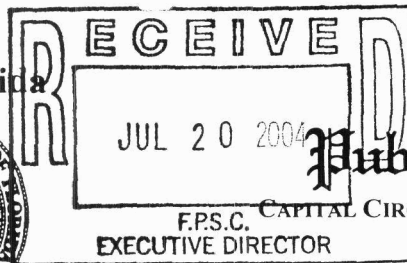

Blanca:

Please notify parties to any dockets on which Ms. Stern is assigned.

I just went through the document page by page and found a total of 8 instances. We'll get those redacted and re-inserted in the PDF.

Matilda, bank account numbers are visible on these pages:

Please redact those pages and have them rescanned.

Marguerite, please reinsert the pages in the document when they've been redacted.

Subject: Bank account numbers

Hi Kay

To follow up on our conversation of last week public record document 06982-04 includes among the working papers some bank account numbers. As we discussed, will your office review this material and redact those bank account numbers only? I found bank account numbers listed on invoices a utility provided to our auditors. While our auditors will need access to bank account information while conducting an audit, bank account numbers should be retained within the working papers only in exceptional circumstances.

Denise Vandiver has informed me that while the bulk of the material in document 06982-04 should be kept, the bank account numbers are not needed and should be redacted, removing them from public access.

If you would like my assistance on this matter please let me know.

Progress energy asking for another rate increase of 5.5% from \$89.00 per 1000kilowatts to \$99.00 per 1000 kilowatt is getting out of control,those who are left with no power or as result of Hurricanes and or limited fixed incomes should not have to bear the burden of the managements responsibility to compliance with highest standards for the sake of the shareholders.The cost of living is incomarable to these constant rate increases.We hope and urge you to oppose their agenda on this subject.

PROBLEM INFORMATION

11/2/2004

Problem Type: Other Complaints

Complaint Detail: I wish to file a complaint concerning the upcoming fuel surcharge request that FPL has filed with the Florida PSC. Approximately 3 years ago FPL was granted a 21% increase in the fuel surcharge and the additional surcharge appeared on some of my customer's bills which are municipal governments. That request was designed to cover cost increases both past and future and was put in place on a permanent basis. I believe that it is very important that FPL be held to the same truth and documentation standard that the rest of us are held to: 1) Document that the cost of fuel has exceeded this 21% increase in any one year since the last increase was approved. 2) Document what the four fuels available to FPL, oil, natural gas, coal and nuclear have risen in price over that period of time. I believe that over the past three years some of these fuels have risen in price, some have remained steady and one, coal, may have decreased in price. Electric consumers in Florida, due to the lack of de-regulation, should not be subjected to further increases in fuel surcharges or other cost increases unless FPL can conclusively prove the following: 1) That their bulk and longterm buying of these fuels saves them and us money. 2) That they are taking other steps to reduce costs before they are permitted a fuel surcharge increase. I would further recommend that if the Florida PSC approves an increase due to fuel cost increases, that these increases be liable for rollbacks if any of the fuels used by FPL has cost decreases. Thank you. David A.L. Smith A-Net Utility Auditors (561) 840-8866

Subject: Fuel Charges FPL

040001

Dear Sir/Madam:

I am writing to voice my opposition to Florida Power and Light's request for a fuel charge increase. By granting them an increase, you are sending FP&L the message that they do not need to research more efficient power production methods. Oil prices are projected to decline and I do not believe that the increase is merited for a short term rise.

Sincerely,

Re: Claim 0014956

Gentlemen:

I wrote you a letter on October 27, 2004 concerning Florida Power & Light.

A couple of days ago I read in the Palm Beach Post Times, our local newspaper, that Florida Power & Light is asking for a rate increase.

In my previous letter I sent you information about the company. I am sure that you are well aware of the all the financial data concerning Florida Power and Light but I want this letter to be entered into your records that I am against any rate increase for this company due to the fact that their company is financially able to sustain any fuel costs without asking the general public for an increase in their power bills.

I trust that you will acknowledge my letters and that they will be made a part of your decision regarding Florida Power & Light.

Yours very truly,

Betty Phillips

Comments:

I encourage you to deny ANY rate increase for FPL. With quarterly revenues of \$3 Billion and a net margin exceeding the industry average (9.3% vs. 7.2%), I find it hard to feel any empathy for FPL. I understand the cost of fuel is up (for their customers, too) and they had exrtraordinary expenses due to the hurricane season (but so do I). Furthermore, I don't have the option of buying my electricity elsewhere. No rate increase for FPL. Pass it on!

Fuel Adjustments Set For Electric Utilities

TALLAHASSEE — Annual fuel adjustment charges approved by the Florida Public Service Commission (PSC) and their impact on residential customers of investor-owned utilities are listed below.

These adjustments reflect fluctuations in the price paid by utilities for fuel and will become effective during the January 2005 billing cycle. The Commission allows utilities to recover fuel-related costs that are prudently incurred. The following monthly amounts are based on 1,000 kilowatt-hours (kWh) of use:

- Residential customers of Florida Power & Light Company will pay \$89.92 for 1,000 kWh of electricity. This reflects an increase of \$3.49 when compared with the current amount of \$86.43.
- A residential customer of Progress Energy Florida will pay \$94.43 for 1,000 kWh of electricity, which is \$5.32 more than the current level of \$89.11.
- Residential customers of Tampa Electric Company will pay \$98.07 for 1,000 kWh of electricity. This reflects a decrease of \$0.94 when compared with the current amount of \$99.01.
- A residential customer of Gulf Power Company will pay \$85.13 for 1,000 kWh of electricity, which is \$5.05 more than the current level of \$80.08.
- Customers of Florida Public Utilities Company's (FPUC) Marianna division will pay \$69.56 for 1,000 kWh of electricity. This reflects an increase of \$3.07 when compared with the current amount of \$66.49. FPUC's Fernandina Beach division customers will pay \$62.22 for 1,000 kWh instead of the current amount of \$55.09, an increase of \$7.13.

COMMISSION
CLERK

Dear Sirs:

In regard to the rate increase being asked for by ALL the electric companies:

First of All, they have had 44 years to prepare for what has happened, and instead of practising good budgeting, they have spent the money earned on corporate salaries, dividends, etc. when they should have been putting more money back for emergencies.

It is bad enough that FPL charges me \$ 8.37 a month "bookkeeping fee" to process my statement to me. I am in business too, and I would not have the gall to bill my clients an extra amount, simply for sending them a monthly statement.

After the storms, I found that I had a very large oak tree which although it stood looking strong and tall, actually was split completely down the middle. If it fell, one side would have taken out the house, and the other would have taken out the barn. It cost me \$ 1600.00 to have it removed. There was NO ONE I could go to, to help pay that expense. I had to go to my savings.

It is time all of our utility companies start practising a little fiscal responsibility. The reason they don't is because they know that they can always run to the PSC and get bailed out.

For this reason, I am asking you to give this a lot of thought. So many of us little guys were affected by the storm too, and we need a little respite.

I am very disterbed that you folks have given F.P.L. permission to rase the rates again. They continue to complain that they are using a lot of power and loosing money, well If they were to clean up there act and clean the insulatores they would not be loosing so much power. I personally noted that when in the area of there lines I get an unusial amount of static. I know this from reading up on this subject.It is very evident around this small comunity of Venice...Sooooo what is it like thru out the rest of the state.....????? Comments:

I am totally disgusted with the Florida PSC after reading that they granted FPL a 4% increase due to the increases in fuel charges, with the potential for future increases coming. When will it end? I read a story in the Florida Today that spoke about the increase being passed on to only the residential customers. Is this correct and if so, why wasn't the increase passed on the business accounts? Why isn't FPL just taking out a business loan to cover their expenses? In today's economy, I am given a 3% increase in my salary and on top of the 4% that you gave to FPL, my medical insurance went up by 10% and my home owner's insurance is asking for an increase even though I never filed for damage recovery. I can only assume that they city where I live will be asking for a tax increase to refill the city treasury. When is enough enough? I am now bringing home less money that I was bringing home last year due to all of these increases.

I know that I am wasting my time by sending this to you as you are not looking out for the best interest of the people of Florida in your actions.

Sincerely, Brett Williams

Subject: Progress Energy rate increases

Thanks for nothing. You apparently lack the understanding that wage concessions, layoffs, or admitting that the company's problems may need to be rebuilt from the executive officers down to customer service either there health care, or security, or management is ill advised that shareholders are not the only people with concerns, of basic needs like rent, mortgage, insurance, food and necessary living expenses.

February 12, 2004, Andersons Inc and TOPCAT HOLDINGS LLC completed acquisition of rolling stock and leasing assets from the Railcar, Progress Rail Services Corp \$82.4 million.

Inevitable if you don't allocate, capping price control, cost efficient or some strong measures then the energy will run out of control and amok.

We ask you to consider not approval until further study and compliance are completed. If the company is unable to become responsible or accountable then breakout is necessary to reorganize or structure some feasible reasonable alternative fuels or selling off assets, if needed, the customers are right, but the sacrifice includes everyone from the top down.

Thank you

Complaint Detail: Today, November 11 at approximately 8:30 am I called the Progress Energy Builder Express Line to get information about three phase power for a new residence. I was put on hold the computerized recording said there was a three minute hold. After being on hold for ten minutes I finally hung up. I previously requested the information on November 3rd. Cuts in service staff and field staff to improve company's profit margins result in delay costs to businesses and residents throughout the state. These delay costs should be considered when reviewing requests for rate increases.

Subject: Progress Energy rate increase

Dear reader:

Having read articles recently concerning the requested rate increase of I believe 10% in our electric bills I wish to ask the following be considered.

Part of the requested increase is the claim by Progress Energy that fuel costs were higher due to the number of hurricanes that passed across Florida during August and September of this year. It seems a bit odd that with all the power outages numbering in the hundreds of thousands that took days and as much as a couple of weeks to restore could have caused higher fuel costs.

Actually, I would think that Progress Energy would have spent less in fuel costs during that period due to reduced power consumption. I am asking the Florida Public Service commission to take a hard look at the rate increase requests made by Florida utilities especially where fuel costs due to the recent hurricanes were concerned. I have noticed quite a difference in the cost of my electric bill in just the past year. I hope that the Florida Public Service Commission will act to keep utility costs down as that will help to attract new business growth and residents to our wonderful state.

Thank you so much,
Jim Ellsworth

We read in today's newspaper(The Naples Daily News) that the PSC has given approval to Florida electric companies to increase charges to customers beginning in January. We find that inconsistent with the news story(same paper) on October 22 saying the "Court upholds FPL rate cut, allows group to pursue bigger reduction."

We report this because our FPL bill in late August/September was over \$100.00 more than we normally pay. We have been in contact with FPL and they did a survey of our usage, only to find everything normal except they can't account for at least \$30.00 of the charges. We firmly believe FPL tacked on extra charges to recover from losses as a result of the hurricanes.

We are seniors on fixed income and find FPL uncooperative to show proof beyond a doubt that charges should be much higher than a year ago. Also, we have been daily checking our usage and find it the same or less than a year go.

We would like to hear from the Public Service Commission about what was reported less than a month ago and now seemingly reversed.
