SUMMARY

Tampa Electric Company, by its counsel and pursuant to the Market Disputes Resolution Division's Notice of Complaint, dated March 9, 2006, and Section 1.1407 of the Commission's rules, files this response to the pole attachment complaint of Bright House Networks, LLC, filed February 21, 2006.

The pole attachment complaint filed by Bright House Networks, LLC ("Bright House") is a procedural gambit designed to throw a monkey wrench into a fairly simple Florida state court collections lawsuit. The lawsuit is a breach of contract case in which Tampa Electric Company ("Tampa Electric") seeks payment of the difference between the cable rate Bright House has been paying and the telecommunications rate Bright House should have paid based on use of its attachments for telecommunications since 2001. Bright House filed this complaint as part of a flurry of procedural maneuvering intended to stall discovery and delay collection of the past due amount. While Bright House can certainly challenge Tampa Electric's telecommunications rate before the Commission, it cannot do so in bad faith simply as a means of derailing the collection in state court of past due rent. Bright House's attempt to manufacture a federal VoIP policy issue out of a collections lawsuit that neither addresses VoIP policy nor requires any such policy ruling should be rejected. To the extent the Complaint challenges Tampa Electric's current rates, those rates are correctly calculated and should be upheld.

III. Conclusion	35

I. Statement of Facts

For many years prior to the lawsuit, Bright House had repeatedly assured Tampa Electric that Bright House was not using its pole attachments for telecommunications. *See* Declaration of Kristina Anguilli ("Anguilli Decl.") at § 8. For example, on February 19, 2003, Mr. Eugene White, Bright House's Vice President of Engineering, expressly represented and warranted that Bright House's attachments were not being used for telecommunications. *See* Exh. 1. Similar assurances were made orally and in writing by other Bright House personnel. *See* Anguilli Decl. at § 8. These assurances were relied on by Tampa Electric when it billed Bright House at the cable rate. ¹

In mid-2005, however, Tampa Electric began to suspect Bright House was up to something when it noticed Bright House advertising "telephone service" in the Tampa area. See Anguilli Decl. at ¶ 3. Investigation showed that Bright House had in fact explicitly represented to consumers, to the Florida Public Service Commission and to this Commission that Bright House's "Digital Phone" service was in fact "telephone service" and "telecommunications." See Anguilli Decl. at ¶ 14, 15; see also exhibits referenced in Section II.1. below. At that point, Tampa Electric sent Bright House a letter and met with Bright House to demand an explanation and payment of the proper rate. See Anguilli Decl. at ¶ 17; Exh. 2. Bright House emphatically denied that its attachments were being used for telecommunications and followed up with a letter to that effect. See Exh. 3. Ironically, however, at the same time Bright House was making these denials, its affiliate, Time Warner Telecom, actually proposed to provide Tampa Electric with telecommunications service over Bright House's attachments on Tampa Electric's poles. See

¹ In fact, none of the pole attachment agreements between Tampa Electric and Bright House provided for any attachments other than cable attachments. Tampa Electric had provided Bright House in October, 2003 with an updated agreement that covered telecommunications. Bright House had agreed to negotiate that agreement no later than June, 2004, but never responded to Tampa Electric's efforts to do so. In December, 2005, Bright House finally expressed willingness to negotiate, so perhaps that will lead to something.

Anguilli Decl. at ¶ 17. Investigation into this proposal revealed that Bright House for many years had allowed Time Warner Telecom to provide telecommunications services to customers throughout the Tampa area over Bright House's attachments, and that all that time Bright House had chosen to conceal it. See Anguilli Decl. at ¶ 19.

Once these facts came to light, Tampa Electric concluded that the only way to uncover the truth and remedy Bright House's misconduct was through the courts. In filing the lawsuit, Tampa Electric was mindful that the FCC has jurisdiction over the reasonableness of rates, terms and conditions of pole attachments, but was equally mindful that the FCC has specifically disclaimed jurisdiction over payment disputes. Accordingly, Tampa Electric brought a breach of contract complaint against Bright House in the Circuit Court of Hillsborough County, Florida, together with initial discovery requests. See Exh. 4, 5, 6.

Once the lawsuit was filed, Bright House confessed that it was indeed using its attachments for telecommunications. Without explanation or apology, Bright House sent a letter from its counsel acknowledging use of its attachments for telecommunications, but claiming that such use was limited to only 7,375 attachments. See Exh. 7. Bright House refused, however, to respond to any discovery requests. See Exh. 8. In other words, having been caught concealing the way its attachments were being used for telecommunications, Bright House has asked Tampa Electric to simply trust Bright House as to how much telecommunications use it had been concealing. At the same time, Bright House claimed without inquiry or evidence that Tampa Electric's rate calculation was wrong and sent a separate letter asking for Tampa Electric's telecommunications rate calculation and supporting data. See Exh. 9. Four days later, without waiting for the data, Bright House filed this pole attachment complaint challenging Tampa Electric's rates and attempting to turn the case into a national VoIP policy dispute. On the same

day, Bright House moved to dismiss or stay the lawsuit based on the pendency of this pole attachment complaint. See Exh. 10. That motion is scheduled for hearing on June 22, 2005. See Exh. 11.

II. Argument and Citation of Authority

Analyzing Bright House's complaint requires some untangling of issues from non-issues. Bright House is quite correct that the Commission has jurisdiction over pole attachment rates, as well as over the question of whether VoIP is or is not telecommunications. But those issues are not what Tampa Electric's Florida lawsuit asks the state court to decide. Those issues are red herrings that unnecessarily complicate a simple case.

With respect to the VoIP issue, Tampa Electric's collections suit is based solely on facts that do not depend in any way on whether Bright House is or is not using VoIP or on whether VoIP is or is not telecommunications. In other words, the Commission's ruling on the regulatory status of VoIP will not affect the outcome of the collections lawsuit, and the lawsuit will require no finding by the Florida court as to the regulatory status of VoIP. The reason is that Bright House itself, by its own actions and statements, has established and concluded that its attachments are being used for telecommunications under existing Commission and United States Supreme Court precedents, without regard to either Bright House's choice of technology or the regulatory status of VoIP. The key facts in this connection are the use (now admitted) of Bright House's attachment by third party telecommunications providers, as well as Bright House's election to market, sell and deliver its "Digital Phone" service to its Tampa customers explicitly as "telephone service" and "telecommunications."

With respect to rates, the lawsuit does not ask the court to determine what is or is not a just and reasonable rate. Instead, the suit simply seeks to collect payment at Tampa Electric's published rate, precisely as this Commission has previously ruled Tampa Electric should do.

The Commission certainly has jurisdiction over the reasonableness of the current rate. Bright House may challenge the calculation of that rate, and if the Commission determines the rate should be different then that rate will apply prospectively. But no such ruling should apply retroactively or otherwise affect past-due amounts that are the subject of the lawsuit.

Tampa Electric's Florida Lawsuit Does Not Ask or Require the Court to Address the Regulatory Status of VoIP

Bright House's effort to turn Tampa Electric's collections suit into a VoIP regulatory policy issue is a red herring. There is literally no reference to VoIP in Tampa Electric's pleadings, nor does the lawsuit rely in any way on anything relating to Bright House's choice of technology. Instead, the complaint relies exclusively on the evidence created by Bright House itself that its pole attachments are being used, and have been used for many years, for telecommunications, regardless of the regulatory status of VoIP. See Exh. 4. The lawsuit claims that Bright House's attachments have been used for telecommunications in at least two ways. First, Bright House has allowed its own affiliate, Time Warner Telecom, and possibly others to use Bright House's attachments for telecommunications. Second, Bright House has itself used its attachments for telecommunications, in particular by means of its "Digital Phone" service.

Although Bright House steadfastly denied for many years that its attachments were being used for telecommunications, Bright House has now admitted in the face of irrefutable evidence that it has in fact been allowing Time Warner Telecom to use Bright House's attachments for telecommunications for the entire period covered by the lawsuit. See Exh. 7. That admission, if nothing else, shows that Tampa Electric's lawsuit has merit. It also shows that nothing short of a

lawsuit would have uncovered the truth. Of course, because Bright House has refused to respond to any discovery whatsoever, we still do not know the full extent of Time Warner's usage or whether other carriers similarly used Bright House's attachments. The answers to these questions presumably will come to light as the case progresses. What is clear, however, is that those telecommunications activities have nothing whatsoever to do with the Commission's VoIP policy. Bright House's attempt to stall the litigation based on its VoIP red herring appears driven largely by its desire to avoid the state court discovery process. The Commission should not become a party to that effort.

With respect to Bright House's "Digital Phone" service, Bright House has refused to respond to any discovery, which leaves Tampa Electric and the Commission only with Bright House's unsubstantiated assertions about the technology involved and the network architecture. Given Bright House's lack of candor regarding the use of its attachments, Tampa Electric respectfully notes that Bright House's statements about "Digital Phone" cannot be taken at face value. Bright House's difficulty with basic facts is illustrated rather starkly by the contradictions between Mr. White's sworn declaration in this proceeding that Bright House began offering "Digital Phone" in January 2005, and Bright House's compliance letter in WC Dockets 05-196 and 04-36 stating that it began offering service in summer 2004. Compare White Decl. at ¶ 16 with Exh. 12. These contradictions are further compounded by the Florida Public Service Commission's consumer activity report for "telecommunications providers" which shows Bright House customer complaints in 2003 and 2004 (see Exh. 13), by Bright House's ALEC Regulatory Assessment Fee Return showing \$1,161,240.16 in Basic Local Services telecommunications revenue in 2004 (see Exh. 14), and by Bright House's FCC Form 477, which shows 15,270 voice telephone customers as of December 31, 2004 (see Exh. 15). Indeed,

Bright House's published Florida tariffs show that telecommunications service has been continuously offered since late 2001. See Exh. 16.

Even assuming, however, that "Digital Phone" is indeed a VoIP service, the Supreme Court's decision in National Cable & Television Ass'n v. Brand X Internet Services, U.S.____, 125 S.Ct. 2688, 2703 (2005), indicates that the technology used is not as important for purposes of regulatory classification as the ultimate "end product" that the consumer perceives is being offered by the relevant service provider. The Supreme Court affirmed the Commission's test that whether a particular service constitutes a "telecommunications service" turns on the nature of the service functions the "end user" is being offered. Id. In other words, as seen from the "consumer's point of view," is the service being offered a classic telephone service involving the transmission of information without any change in form or content or is it something different? Id. In the present case, Bright House has gone to great lengths to market and advertise its digital telephone service as virtually indistinguishable from conventional, everyday telephone service. Because the targeted consumer necessarily must perceive Bright House's digital telephone service in the same manner as it is being marketed or presented, and because the regulatory classification of such service turns again on how the product is perceived by this consumer, Bright House's own marketing characterization of its digital telephone offering as routine telephone service necessarily casts this product for regulatory purposes as a "telecommunications service."

a. Bright House Assures That Customers See Digital Phone as a Traditional Telephone Service

To its customers, Bright House portrays its Digital Phone service as "a residential telephone service," which operates "[i]ust like conventional telephone service" whereby a customer is able to "[m]ake and receive calls the same way as you would with any other telephone service." See Exh. 17. Bright House advertises that customers may retain their existing telephones and telephone numbers, and makes clear that no additional equipment must be purchased. Id. At no additional charge, Caller-ID and Call Waiting services are offered. Directory Assistance, E911 service, and international calling options all are accessible via Digital Phone. Id. VoIP is not even mentioned to "Digital Phone" customers, nor is it described as Internet service. Instead, Bright House specifically differentiates "Digital Phone" from its cable television and Internet offerings by labeling and pricing them separately. See Exh. 18, 19. Bright House specifies that the customer will be charged for E911 service, the federal Universal Service Fund, and the federal Telecommunications Relay Service Fund, which Bright House notes must be collected by "telecommunications providers" and "providers of telecommunications services." See Exh. 17. Bright House's customer agreement specifically prohibits the customer from seeking telephone services from any other provider: "You expressly agree that you will not have the option of subscribing to a 'local only' or 'long-distance only' service, nor will you be able to subscribe to a separate local, toll or long distance provider for use in conjunction with Bright House Networks Digital Phone." See Exh. 18. Bright House further permits itself the right to disconnect such services, or to splice into such service: "In order to provide you with Digital Phone, Bright House networks will physically disconnect your existing service to the local telephone company. By accepting Digital Phone, you agree that Bright

House Networks may disconnect your existing service to the local telephone company, and that we may disconnect, rearrange, splice or otherwise manipulate the existing telephone wiring on your premises on your behalf in order to connect the premises to Digital Phone." *Id.* In other words, Bright House has taken great pains to assure that consumers see and use "Digital Phone" as *nothing but* a telecommunications service, and that Bright House is the customer's exclusive telecommunications service provider.

b. Bright House Has Consistently Portrayed Digital Phone as a Telecommunications Service to the Commission

Bright House's filings with the Commission consistently take the position that Bright House is providing a telecommunications service. They include Bright House's certifications that it is indeed providing telecommunications services in Florida and that it is collecting Universal Service fees from its customers. See Exh. 19. Federal law is clear, of course, that such fees apply only to telecommunications, a fact Bright House actually points out to customers in its website terms and conditions of service, in which it revealingly refers to itself as a "telecommunications provider." See Exh. 17, 18.

In addition, in comments filed in the IP-Enabled Services proceeding, Time Warner Telecom and Time Warner Inc. filed telling comments regarding the regulation of IP-enabled telephone services. Time Warner Telecom urges the Commission to "classify as telecommunications services those VoIP services that offer customers the capability to exchange voice communications in real-time in a manner that is transparent to the end user and that utilize telephone numbers. This definition captures those VoIP services that are functionally similar to traditional telephone service." See In the Matter of IP-Enabled Services, Comments of Time

Warner Telecom, WC Docket No. 04-36, at 17 (filed May 28, 2004). In fact, Time Warner Telecom, in over 20 pages of comments on this classification issue, makes a compelling case for why VoIP telephony, presumably including Digital Phone, "offers customers transmission that is essentially 'transparent' to the customer," which, as Time Warner Telecom notes, "is the *sine qua non* of telecommunications." *Id.* at 20.

Perhaps the most interesting regulatory filing, however, is one made before the Commission on March 1, 2006 by Time Warner Cable, which is one of Bright House's two owners. In a Petition For Preemption challenging South Carolina's denial of a CLEC certificate for "Digital Phone" service, Time Warner presents a cogent and through analysis of exactly why Bright House is a telecommunications carrier and why "Digital Phone" is a telecommunications service. See In the Matter of Petition of Time Warner Cable for Preemption Pursuant to Section 253 of the Communications Act, WC Docket No. 06-05 (filed March 1, 2006). Among other things, Time Warner's description of "Digital Phone" shows quite clearly that "Digital Phone" is indistinguishable from plain old telephone service from the customer's point of view, and that "Digital Phone" also involves providing wholesale telecommunications services to other carriers. Id. at 17. (Tampa Electric suspects that Bright House is already using its attachments for wholesale telecommunications services and expects to explore that usage in discovery. For the moment, Bright House is refusing to comply with those discovery efforts.)

² The South Carolina applicant, Time Warner Cable Information Services (South Carolina), LLC, seems to be the South Carolina counterpart of Bright House Network Information Services (Florida), LLC, discussed *infra*.

c. Regardless Of Whether "Digital Phone" Is A Telecommunications Service, The

Transport Of "Digital Phone" By A Separate CLEC Is Unquestionably A

Telecommunications Service

Bright House appears to have created a two-tiered structure in which one company, Bright House Network Information Services, LLC (Florida) ("BHNIS"), is a certificated CLEC that provides transport services to the cable company, Bright House Network, LLC. In response to a 2005 CLEC Data Request from the Florida Public Service Commission, BHNIS stated that "[t]he intent of Bright House Network Information Services is the transport of its affiliate, Bright House Networks, LLC's, VoIP service." See Exh. 20. It also appears that BHNIS has an interconnection agreement with Verizon Florida, Inc., by means of which BHNIS transports BHN traffic to and from the public switched telephone network. See Exh 21. BHNIS has filed reports showing revenues, presumably for this transport business, of more than \$1 million for 2004, and more than \$40 million for 2005. See Exh 14, 22.

In offering this type of transport, BHNIS is admittedly providing a telecommunications service and has been reporting it as such to state and federal regulators. See Exh 14, 19, 20, 22. The Commission recently stated that the transmission component of a wireless broadband Internet access service is a telecommunications service if the following condition is met: "the entity that provides the transmission voluntarily undertakes to provide it as a telecommunications service." Appropriate Framework for Broadband Access to the Internet over Wireline Facilities, 20 F.C.C.R. 14853, 14910-11 (2005). There appears to be no question that BHNIS is providing its transport service voluntarily. Therefore, regardless of whether or not Bright House's "Digital Phone" service is itself the provision of a telecommunications service, BHNIS's transport service to Bright House is unquestionably a telecommunications service. That service is being

conducted over Bright House's pole attachments, which alone would entitle Tampa Electric to collect the telecommunications rate.

In summary, the regulatory status of VoIP is a non-issue for three separate reasons. First, Time Warner Telecom's usage is telecommunications and has nothing to do with "Digital Phone" or VoIP. Second, Bright House has unequivocally positioned Digital Phone as a telecommunications service in the eyes of consumers, regulators and other carriers. Under Brand X, that is sufficient for purposes of this case: having established its product in the marketplace as a telecommunications service, Bright House must accept that that is exactly what it is and cannot pretend "Digital Phone" is not also a telecommunications service for purposes of pole attachment rates. Third, regardless of whether "Digital Phone" is itself a telecommunications service, BHNIS's transport services for Bright House's "Digital Phone" or other traffic clearly are telecommunications services.

If the Commission determines at some point that VoIP is not telecommunications, Bright House may indeed find itself in a pickle, but only because *Brand X* teaches that Bright House's efforts to position "Digital Phone" as telecommunications would create a conflict between Bright House's actions and federal policy. By the same token, until the Commission makes a ruling, if Bright House changes its position and stops representing that "Digital Phone" is telecommunications and taking advantage of the benefits of treating it as such, and if BHNIS ceases its transport service over Tampa Electric's poles, and if Time Warner Telecom ceases its use of Tampa Electric's poles, then Bright House would have an argument that its attachments are not being used for telecommunications. Regardless, the Commission's ultimate ruling on VoIP will not be constrained, predetermined, or otherwise affected by a Florida state court decision regarding Bright House's past-due rent for 2001-2005.

 If the Commission Endeavors to Explore Technology Used for "Digital Phone" as a Basis for Applying the Telecommunications Rate, It Must Order an Evidentiary Hearing

Because the record is clear that Digital Phone is offered by Bright House as a traditional telecommunications service and is viewed by customers, and acts in every way for those customers, as a traditional telephone service, the Commission need not even examine the functioning of "Digital Phone" or other technological issues in this proceeding. The fact that Bright House must be deemed a telecommunications provider in the collections lawsuit simply by virtue of its own statements and filings does not require the Commission to make any determination regarding "Digital Phone" technology or VoIP in general. So long as the state court is merely finding facts and ruling on them under established law, it will not be infringing on the Commission's jurisdiction and should be left to do its job. However, to the extent the Commission seeks to investigate or rule on the "Digital Phone" technology, it must establish an evidentiary hearing in this case. 47 C.F.R. § 1.1411 (2006); see also Arkansas Cable Telecommunications Assoc. of Arkansas, Inc., EB Docket No. 06-53 (rel. March 2, 2006) (designating pole attachment complaint for hearing).

To be sure, consistent with advertising itself as a traditional telephone service, Bright House has shielded the technological nature of its offering from Tampa Electric, the public, and the Commission. In advertisements, Bright House never identifies "Digital Phone" as a VoIP service and avoids technical specifics, instead claiming only that it is "residential telephone service." *See* Exh. 17, 18.

Bright House has provided no responsive information to document requests propounded upon it by Tampa Electric in the state court proceeding that would serve to confirm that "Digital Phone" is a VoIP service or that would otherwise illuminate how "Digital Phone" is offered. On this scant record, the Commission must, if it endeavors to determine the technical nature of "Digital Phone" to decide if attachments used to provide the telephone service are subject to the telecommunications rate, commence an evidentiary hearing into this matter.

Tampa Electric would be prejudiced in this case if it were required to argue from a technical standpoint that Bright House's "Digital Phone" service is a telecommunications service without any access to the technical specifications Bright House possesses. Accordingly, if the Commission believes such an inquiry is required, Tampa Electric seeks a full evidentiary hearing, including the grant to it of full discovery privileges, so that it may learn the true nature of Bright House's "Digital Phone" service and may respond to Bright House's claims that "Digital Phone" is not a telecommunications service. Such a hearing would not be required, however, if the Commission were to conclude that Bright House and its affiliates have made sufficient showing, on their own accord and via advertisements, press releases, and the like, that "Digital Phone" is at its root traditional telephony and that the provision of that telephony subjects the Bright House network attachments to the telecommunications rate.

3. The Commission Should Not Address the Calculation of Tampa Electric's

Telecommunications Rate as it Affects the Past Due Amounts That are the Subject

of the Collections Lawsuit

While the Commission clearly has jurisdiction to review the reasonableness of Tampa Electric's telecommunications rate prospectively, Bright House should not be permitted to

challenge prior rates that applied while Bright House was violating the Commission's rules in order to evade these very rates. The telecommunications rates billed to Bright House by Tampa Electric are the same rates charged to all of Tampa Electric's other telecommunications attachers from 2001 to 2005. See Anguilli Decl. at ¶ 12. Bright House never challenged these rates during the period in which they were applicable because it chose instead to hide the telecommunications use of its attachments. Bright House seems to think it can conceal the telecommunications use of its attachments in violation of Commission rules, then make a series of false statements designed to cover up that use, and then, years later when its efforts are discovered, try to avoid responsibility once again by claiming the rates it never paid were too high anyway. That would be inequitable. If Bright House had wanted to challenge the rates, it could have done so years ago when it should have reported the telecommunications use of its attachments, which is when the rates were due. By choosing instead to violate the law and try to evade paying the rates altogether, Bright House waived its opportunity to challenge those rates. See, In re: AT&T, 95 F.C.C.2d 1097 (1983) (applying "unclean hands" doctrine to deny relief where a party sought relief from the effects of its own violation of the Commission's rules).

Recognizing that Bright House's hands are unclean is consistent with the Commission's rule that a pole attachment complaint may seek redress of a rate only on a prospective basis. Specifically, the Commission's rules provide for refunds for the difference between the amount paid and "the amount that would have been paid under the rate, term, or condition established by the Commission from the date that the complaint, as acceptable, was filed plus interest." 47 C.F.R. § 1.1410(c) (emphasis added). Commission precedent is clear that pole attachment rate relief thus applies on a prospective basis, beginning with the date of filing of the complaint. See, e.g, Texas Cable and Telecommunications Ass'n, 14 F.C.C.R. 2975 (1999) (denying cable

association's request to calculate refunds from the date of imposition of the rate in favor of refunds of overcharges paid since the date the complaint was filed); *TeleCable of Piedmont, Inc.* 10 F.C.C.R. 10898 (1995), (granting refund for the 60-day period of July 1, 1990 through August 29, 1990 because Duke failed to provide a required 60-day notice of a rate increase, but refusing to grant refunds for August 30 to November 14 period because the complaint was not filed until Nov. 15, 1990); *Heritage Cablevision Associates of Dallas, L.P. and Texas Cable TV Ass'n.*, 6 F.C.C.R. 7099 (1991), *Tele-Ception of Winchester, Inc.*, 1985 FCC LEXIS 3855 (1985) (both granting cable company requests for refunds from the date the complaints were filed); *American Television & Comm. Corp.*, 1984 FCC LEXIS 2431 (1984) (stating that refund of excess payments retroactive to the date of the filing of the complaint, plus interest, is a suitable remedy which advances the Congressional goals set forth in the legislative history associated with the 47 U.S.C. § 224); *Cable Information Services, Inc.*, 81 F.C.C.2d 383 (1980) (same).

These rules make sense because the attaching entity and pole owner are required to deal with one another on an open, honest and good faith basis. Bright House has not done that. Thus, although Bright House should be free to challenge the telecommunications rate going forward from the date of its filing of its Complaint, Bright House should not be permitted to challenge the rate for prior years when it hid the true nature of its attachments. Had Bright House wished to take issue with the telecommunications rate for those years, it should have alerted Tampa Electric that it was offering telecommunications services, as required by the Commission's Rule 1.1403, and negotiated or challenged the resulting rate at that time. It cannot have it both ways now.

4. The State Court is the Proper Forum for Collecting Past-Due Pole Attachment Fees

The Commission's jurisdiction over the reasonableness of a pole attachment rate is not at odds with the Florida state court's jurisdiction over Bright House's liability for failing to pay past-due pole attachment fees. Commission precedent is clear that it will defer to local courts for resolution of disputes involving breach of contract and non-payment of pole attachment fees:

Although the Commission's jurisdiction encompasses certain practices growing out of a contractual relationship between a utility and a cable operator, it does not extend to adjudication of the legal impact of the failure of a party to fulfill its contractual obligations, nor to the determination of what contact rights exist once a party has unilaterally moved to terminate an agreement. In other words, as we read both the legislative history and the statute itself, Congress has nowhere expressed its intent that this Commission be accorded the authority to preempt local jurisdiction in such matters. Rather, such matters are left to the existing state law governing breach of contract, whether express or implied, and questions of unjust enrichment. For these reasons, Appalachian must pursue in state courts any complaint that Capitol has continued to use its poles without paying for these services.

Appalachian Power Co., 49 RR 2d 574, 578 (1981); see also Kansas City Cable Partners, 14 F.C.C.R. 11599, 11601 (1999) (Commission "will not assert its jurisdiction merely to enforce the terms of a pole attachment agreement. The Commission's authority under Section 224 does not supplant that of the local jurisdiction when the issue between the parties is a breach of contract not involving unjust or unreasonable contractual terms, rates, or conditions."); Marcus Cable Assocs., L.P., 12 F.C.C.R. 110362, 10365-66 (1997) ("The authority conferred by Section 224, however, does not supplant that of the local jurisdiction when the issue between the parties is a breach of contract not involving unjust or unreasonable contractual rates, terms, or conditions."); Cable Texas, Inc., 14 F.C.C.R. 6647, 6653 (1999); Cablecom-general, Inc., 50 Rad. Reg. 2d (P&F) 473 (1981); Tele-Ception of Winchester, Inc., 49 Rad. Reg. 2d (P&F) 1572 (1981); Texarkana TV Cable Co., 49 Rad. Reg. 2d (P&F) 1043 (1981).

The same determination has been made by courts, which have held that breach of contract and collection actions regarding pole attachment agreements are matters for state courts. See, e.g., Public Serv. Co. of Colorado v. FCC, 328 F.3d 675, 679 (D.C. Cir. 2003), citing Appalachian Power ("the collection of unpaid fees is a matter for state courts."); Massachusetts Electric Co. v. Granby Telephone & Telegraph Co., 17 Mass.L.Rptr. 525 (Mass. Super 2004) (deferring jurisdiction until after FCC determined if rate was reasonable: "the Court does have jurisdiction of the causes of action set forth in the complaint namely breach of contract, quantum meruit and trespass").

In adjudicating Tampa Electric's breach of contract claims, the Florida state court will not be required to make determinations of federal telecommunications law or policy. On the contrary, as explained in Section II.1 above, Tampa Electric's collections lawsuit is based only on (1) Bright House's own explicit representations about its telecommunication activities; and (2) use of Bright House's attachment by third parties that even Bright House concedes constitutes telecommunications. Tampa Electric has not asked and will not ask the state court to determine how VoIP or some other technology should be treated as a matter of regulatory policy. The court will only determine whether Bright House breached its pole attachment agreements, and if so, what damages it must pay Tampa Electric for its breach and unjust enrichment. As it has done repeatedly, the Commission should decline to assert jurisdiction over this purely state action.

5. Tampa Electric's Pole Attachment Rates are Just and Reasonable

Bright House alleges, first, that Tampa Electric *may* have imposed an excessive rental rate for cable attachments and, second, that Tampa Electric has imposed an excessive rental rate

Complaint fails even to establish a *prima facie* case because its own calculations actually *support* Tampa Electric's rates. For that reason alone, the complaint should be denied. In anticipation that Bright House might now try to introduce new arguments or evidence, or change its calculations, or otherwise do something to which Tampa Electric would not have an opportunity to respond under the Commission's rules, Tampa Electric has included below a more detailed explanation of its rates than is actually necessary to refute the complaint. Tampa Electric must emphasize, however, the Commission can properly consider only the complaint as it stands and as Tampa Electric must respond to it. Any attempt by Bright House to re-craft or supplement its Complaint with new arguments or evidence would be highly improper and prejudicial to Tampa Electric and would violate both the Commission's rules and the requirements of due process. *See* 47 C.F.R. §§ 1.45, 1.726(a); *RCN Telecom Serv. Of Philadelphia, Inc.*, 16 F.C.C.R. 11857, 11858 (2001). *See also Nelson v. Adams*, 529 U.S. 460, 466 (2000) ("the opportunity to respond, fundamental to due process, is the echo of the opportunity to respond to original pleadings").

a. Bright House Has Failed to Establish a Prima Facie Case that Tampa Electric's Cable Rates are Unjust or Unreasonable

The Commission should deny Bright House's Complaint out of hand because the *prima* facie evidence offered by Bright House actually supports the validity of Tampa Electric's cable rental rate. In footnote 11 of its Complaint, Bright House states that it has calculated what it regards as the proper cable rental rate and found it to be 3 cents *higher* than the rate actually charged by Tampa Electric. Thus, on the facts alleged, Bright House has failed to establish a *prima facie* case that Tampa Electric's cable rental rate is excessive.

Bright House simply ignores the inconvenient fact that Tampa Electric's cable rental rate is 3 cents lower than the maximum reasonable rate calculated by Bright House. Instead Bright House speculates that it may yet be able to show that Tampa Electric's cable rental rate is too high. At footnote 11, Bright House promises to "revise its calculation" when it receives more information. Tampa Electric submits that a complainant should not be permitted to "revise its calculation" when it has failed to allege an improperly high rate in the first place.

Bright House's promise of additional proffers of evidence is troubling and fails to conform to the procedural requirements of the Commission's rules. Section 1.1404(g) of the Commission's rules requires a complainant to support an allegation of unjust or unreasonable rates with data and information to support that allegation. If the information is not in the possession of the complainant, the utility is required to provide it, pursuant to Section 1.1404(j) of the Commission's rules, upon the reasonable request of the cable or telecommunications company.

Indeed, on February 17, 2006, one business day before it filed the instant complaint, Bright House requested Tampa Electric to provide it with information relevant to Tampa Electric's calculation of rental rates, the current number of poles in service and investments booked to FERC Account 364 relating to property other than poles, anchors and guys. See Exh. 9. A response was requested by March 20, 2006 and the response was indeed made on March 20, 2006. See Exh. 23.

Rather than waiting for the response from Tampa Electric, which would provide Bright House with the information needed to calculate the rental rate, Bright House filed its compliant immediately, its rental rate allegation supported only by speculation as to what might come to light: perhaps the actual number of poles might yield a result more to its liking; perhaps the 15%

downward adjustment to FERC Account 364 might be too low. In other words, the cable rental rate allegation in the complaint is merely a placeholder for what Bright House hopes to file later.

Bright House's complaint regarding the cable rate is nothing short of frivolous. From a procedural standpoint, this approach wastes the Commission's time and deprives respondents of the ability to answer a complainant's actual allegation. Moreover, it forces Tampa Electric to expend the resources to defend against a complaint that is unsupported on its face. The Commission's rules provide a mechanism for complainants to obtain the information they need to support their complaints. Here, the complainant has ignored this procedure and filed a complaint that, incredibly, supports the justness and reasonableness of the utility's cable rental rate.

If the situation were reversed and the utility had failed to cooperate with the information request, the attaching entity no doubt would demand that the Commission credit the allegations made by the complainant and resolve all ambiguities against the utility. The complainant here should be held to the factual allegations it chose to make at the time of its complaint. These facts show that Tampa Electric's cable rental rate is just and reasonable and the Commission should so find.

Bright House implies that it will revise its placeholder cable rate argument, depending on what the actual number of poles in service is. Bright House used the number 330,000 for its calculation. As Bright House has been informed, the actual current number of poles in service is 305,042. See Exh. 23. However, the number that must be used for purposes of this discussion is the actual number that went into Tampa Electric's cable rate calculation. As shown in the materials provided to Bright House on March 20, 2006, Tampa Electric used the number 303,837, which was the number at the time of its rental rate calculation, resulting in the \$5.63

³ Cf. Teleport Communications Atlanta, Inc, 17 F.C.C.R. 19859 (2002).

rental rate. *Id.* Thus, even if the Commission were to permit Bright House to revise its complaint, there would still not be an issue pertaining to the cable rental rate.

b. The Appurtenance Deduction Cannot Be Challenged

Bright House implies further, however, that Tampa Electric's rate may be too high because the 15% reduction in the Gross Pole Investment factor in the rental formula may not be enough. Without ever saying why it believes it can challenge the 15% reduction, Bright House suggests – again without any facts to back it up – that the reduction should be more like 25% or 40%. Tampa Electric submits that the 15% factor cannot be challenged.

One of the elements in the Commission's formula for determining the maximum just and reasonable pole rental rate is the Net Investment in Bare Poles. This factor is determined by examining the utility's Gross Pole Investment, as reported in FERC Account 364, and subtracting from that amount depreciation and accumulated deferred income taxes. The remainder is further reduced by 15% to adjust for crossarms and other appurtenances that do not relate to the pole itself. The result is the Net Investment in Bare Poles.

There was a time when the 15% was considered to be a rebuttable presumption. See Pole Attachment Order, 2 F.C.C.R. 4387, 4390 (1987). However, the rebuttable nature of the 15% reduction has effectively been repealed by the Commission. In the Consolidated Partial Order on Reconsideration, 16 F.C.C.R. 12103 (2001), the Commission closely examined the contents of FERC Account 364. In this rule making, utilities were arguing that accounts in addition to 364 should be included in the determination of the Net Pole Investment. The Commission disagreed, saying:

Account 364 includes the cost of installed poles, towers, and appurtenant fixtures used for supporting overhead distribution conductors and service wires. Specific

items include: 1. Anchors, head arm, and other guys, including guy guards, guy clamps, strain insulators, pole plates, etc.; Brackets; Crossarms and braces; Excavation and backfill, including disposal of excess excavated material; Extension arms; Foundations; Guards; Insulator pins and suspension bolts; Paving; Permits for construction; Pole steps and ladders; Poles, wood, steel, concrete, or other material; Racks complete with insulators; Railings; Reinforcing and stubbing; Settings; Shaving, painting, gaining, roofing, stenciling, and tagging; Towers; Transformer racks and platforms. Even with the 15% reduction for non-pole appurtenances such as crossarms, this is still a very generous account, including the cost of towers, transformer racks and platforms. *Id.* at 12161.

Clearly the Commission is well aware of the appurtenances that are included in Account 364 and has approved the inclusion of these appurtenances as a consciously "generous" approach to determining the Net Pole Investment. While the Commission did not explicitly state that the 15% reduction is no longer just a rebuttable presumption, by explicitly approving the inclusion of this litany of appurtenances in the Gross Pole Investment factor, reduced by 15%, the Commission has effectively done so.

The evidence that this is the case can be found in the statement of the pole rental rate formula for cable attachments, contained in Appendix D-2 to the Consolidated Partial Order on Reconsideration. There, the 15% reduction (actually, an equivalent multiplication factor of .85) has become a fixed term in the rental rate formula itself. Appendix D-2 mentions rebuttable presumptions for other variables, namely space occupied and usable space, but it mentions nothing about the .85 multiplication factor as being a rebuttable presumption.

Bright House apparently believes that it can still challenge the 15% reduction factor. In light of the Commission's discussion of the contents of FERC Account 364 in 2001, such a challenge would be out of bounds and should not be allowed.

In any event, the point is moot because, as Bright House was informed on March 20, 2006, when Tampa Electric responded to Bright House's request for data, Tampa Electric does not have a breakdown of the amounts that are booked to Account 364 for cross arms and other

appurtenances. Rule 1.1404(g)(1)(ii) requires the account information to be provided "if available." 47 C.F.R. § 1.1404(g)(1)(ii). Tampa Electric has made a good faith effort to identify this information, regardless of Tampa Electric's position that a further reduction of the Account 364 amount is inappropriate, and determined that the information is not available. See Anguilli Decl. at ¶ 25; see also Exh. 23.

In light of the above, Bright House has failed to establish a *prima facie* case that Tampa Electric's cable rental rate is unjust and unreasonable. Pursuant to Section 1.1409(d) of the Commission's rules, Bright House's complaint as to this issue must be denied.⁴

c. The Rental Rate for Telecommunications Attachments is Just and Reasonable

(i) The Appurtenance Deduction Cannot be Challenged

With regard to the rental rate for telecommunications attachments, Bright House again reserves the "right" to challenge the 15% reduction for appurtenances. For the reasons stated above regarding this argument in the context of the cable rental rate, Tampa Electric contends that the 15% reduction is no longer a rebuttable presumption and cannot be challenged.

Moreover, despite a good faith effort by Tampa Electric to determine the itemized contents of FERC Account 364, the figures pertinent to this argument simply are not available.

Accordingly, there should be no further discussion of whether the appurtenance deduction should be greater.

⁴ Section 1.1409(d)states: 'The Commission shall deny the complaint if it determines that the complainant has not established a prima facie case, or that the rate, term or condition is just and reasonable, or that the denial of access was lawful." 47 C.F.R. § 1.409(d).

(ii) Tampa Electric's Telecom Rate Calculation Is Supported by Bright House's Own Calculations

Bright House relies on Exhibit 7 to its Complaint to show that Tampa Electric's rate calculation for the 2005 rental period, \$17.87, is too high. Bright House contends that, based on its calculations from available information, the maximum rate is \$8.56 and perhaps lower, if the additional information it received from Tampa Electric requires a lower rate. Bright House's allegations with respect to prior years are simply derived from the five-year phase-in percentages of its calculated \$8.56 rate, looking back five years. Thus, for purposes of the Complaint, it is sufficient for all years in question to analyze the propriety of Tampa Electric's 2005 rate calculation, \$17.87, from which Bright House's argued amounts for the other years is derived.

Tampa Electric has already argued above that it is improper practice for Bright House to file a contingent rate complaint, to be later supplemented – or not – depending solely on Bright House's discretion. Tampa Electric's argument is renewed here, but not repeated, in the interest of not burdening the record.

Using Bright House's own Exhibit 7, but substituting the correct average number of attaching entities, Tampa Electric will show that Tampa Electric's calculated rate is within pennies of the amount it has billed Bright House.

(iii) Tampa Electric Has Conclusively Rebutted the Commission's Presumed Average Number of Attaching Entities

The telecommunications rental rate formula is set forth in Appendix E-2 to the

Consolidated Partial Order on Reconsideration. One of the factors in the formula is "Number of

Attaching Entities," which is stated in Appendix E-2 to be, "3 (non-urbanized) and 5 (urbanized) (presumed, but rebuttable)." For guidance with respect to the Number of Attaching Entities factor, one must consult Section C.4.b., paragraphs 62-72, of the Consolidated Partial Order on Reconsideration.

In paragraph 62 of the Consolidated Partial Order on Reconsideration, we are informed that the words "urbanized" and "non-urbanized" as used in Appendix E-2 have reference to areas that have been defined by the U.S. Census Bureau. "Urbanized" areas refer to a central city and closely-settled urban fringe having a population of 50,000 or more. "Non-urbanized" simply means an area that is not within the definition of an urbanized area.

In paragraph 66 of the Consolidated Partial Order on Reconsideration, the Commission states: "We will require utility pole owners to calculate an average number of attaching entities by service area." The requirement is not absolute, however, because the Commission also says that the default averages, i.e., 5 for urbanized and 3 for non-urbanized, can be used if the utility has not developed the actual averages. The Commission cautions, however, that, "If any part of a specific service area, as identified by the utility, is urbanized, then all that service area would be considered urbanized for pole attachment purposes."

Tampa Electric believes that its entire service territory is "urbanized" for pole attachment purposes. *See* Anguilli Decl. at ¶ 21. Tampa Electric serves four counties in Florida: Hillsborough, Pasco, Pinellas and Polk. According to U.S. Census Bureau data, the population of Hillsborough County is 1,101,261⁵; the population of Pasco County is 407,799⁶; the population of Pinellas County is 928,537⁷; and the population of Polk County is 524,389⁸.

⁵ Hillsborough County QuickFacts from the US Census Bureau, visited March 22, 2006.

⁶ Pasco County QuickFacts from the US Census Bureau, visited March 22, 2006.

⁷ Pinellas County QuickFacts from the US Census Bureau, visited March 22, 2006.
⁸ Polk County QuickFacts from the US Census Bureau, visited March 22, 2006.

Moreover, according to the U.S. Census Bureau data, each county includes an urbanized area. See Exh. 24. Hillsborough County (combined by the U.S. Census Bureau with Pinellas Country) includes the Tampa-St. Petersburg urbanized area, population 2,062,339. Pasco County includes the Zephyrhills urbanized area, population 53,979. Polk County includes the Winter Haven urbanized area, population 153,924. *Id.*

Accordingly, following the Commission's guidance contained in paragraph 66 of the Consolidated Partial Order on Reconsideration, Tampa Electric's entire service territory must be classified as urbanized. The default average number of attaching entities would be 5 in any area where a telecommunications carrier wished to attach, if Tampa Electric did not establish the actual number of attaching entities. However, Tampa Electric has established the actual average number of attaching entities.

Tampa Electric has pole data at a granular level. Tampa Electric's data are not based on a survey or representative sampling of poles but instead reflect complete pole-by-pole information that Tampa Electric has gathered and maintained for its entire pole system. As Tampa Electric informed Bright House on March 20, 2006, Tampa Electric maintains data as to the attachments on each of its 305,042 poles. See Exh. 23; see also Anguilli Decl. at ¶ 24. With reference to the calculations of the rental formulas for 2005, when the total number of poles was 303,837, these data show that the average, system-wide, number of attaching entities was 2.08. Id. Tampa Electric includes itself as one of the attaching entities. See Anguilli Decl. at ¶ 24. For the 2005 timeframe, there were only 750 poles in Tampa Electric's entire system that actually had as many as 5 attachments, the Commission's default for urbanized areas. Id. More than half of the poles in Tampa Electric's entire system, 186,868, had 2 or fewer attachments.

Having compiled the actual pole data for its service area, Tampa Electric has rebutted the presumed default number of attaching entities. Accordingly, it is appropriate to recalculate Bright House's Exhibit 7 telecom formula using not 5 as the number of entities, but 2.08.

(iv) Recalculation of Bright House's Exhibit 7 Justifies Tampa Electric's Telecom Rental Rate

Set forth below is the calculation shown in Bright House's Exhibit 7, showing the effect of using 2.08 as the number of attaching entities, rather than 5. For the sake of this calculation and without conceding the appropriateness of the other numbers used by Bright House, Tampa Electric has used all of the other numbers used by Bright House.

Table 1. 2006 Telecom Rate Calculation Showing the Effect of Using 2.08 Rather than 5 as the Number of Attaching Entities

Net Investment Per Bare Pole *Carrying Charges *Charge Factor = MAXIMUM RATE	Bright House Calculation \$237.73 32.15% 7.41% \$5.66 5 Entities	Tampa Electric Calculation \$237.73 32.15% 7.41% \$5.66 2.08 Entities
Allocation of Pole Space		
Total Pole Space	37.5	37.5
Total Unusable Pole Space	24	24
Total Usable Space	13.5	13.5
Usable Space Occupied	1	1
Unusable Space Allocated to Telecom		
Total Unusable Pole Space	24.00	24.00
*Statutory Apportionment Factor (2/3)	0.67	0.67
=Unusable space to be Allocated	16	16
/ Number of Entities	5	2.08
=Unusable Space	3.20	7.69
Total Space Allocated to Telecom		
Usable Space Allocated to Telecom	1.00	1.00

⁹ Computing the average based on Tampa Electric's service area, rather than on some other basis such as Bright House's service area or Bright House's specific attachments, is consistent with the rest of the Commission's formula and avoids inconsistencies among rates for attaching entities.

+Unusable Space Allocated to Telecom	3.20	7.69
= Total Space Allocated to Telecom	4.20	8.69
Allocation of Annual Carrying Costs		
Space Allocated to Telecom	4.2	8.69
/ Total Pole Space	37.5	37.5
Charge Factor	11.20%	23.17%
Maximum Telecom Rate in 2006		
Net Investment Per Bare Pole	\$237.73	\$237.73
* Carrying Charges	32.15%	32.15%
* Charge Factor	11.20%	23.17%
= Maximum Telecom Rate	\$8.56	\$17.71

Note that using the actual average number of attaching entities, 2.08, instead of the default average, 5, results in a telecom rental rate of \$17.71 that is within 16 cents of the rate that Tampa Electric actually billed Bright House for the 2005 rental period. The 16-cent discrepancy is to be expected because no other factors in Bright House's calculations were changed in this exercise. For example, Bright House's calculation uses the Net Investment Per Bare Pole figure of \$237.73, which Bright House arrived at in its *pro forma* calculation of the maximum cable rate, contained in Bright House's Exhibit 6. However, substituting 303,837 as the number of poles for the estimate of 330,000 poles in Bright House's Exhibit 6, the result is a Net Investment Per Bare Pole of \$258.20. Using this figure in Bright House's Exhibit 7, telecom rate calculations in the above table, the resulting maximum telecom rental rate is \$19.23, which is actually \$1.36 more than Tampa Electric actually charged.

The above analysis illustrates the folly of allowing a rate complaint based on hypothetical, *pro forma* or estimated data. Tampa Electric has demonstrated above that the use of the actual data results in a *higher* rate than Tampa Electric has charged. More to the point, however, is the fact that Tampa Electric's calculations in support of its cable and telecom rental rates, which have been supplied to Bright House, fully conform to approved FCC methodology and fully justify the rates billed to Bright House. *See* Exh. 23.

As noted above, Bright House's complaint regarding the telecom rate charged for years prior to 2005 was based on hypothetical rates derived by applying five-year phase-in percentages to the 2005 telecom rate estimated by Bright House. Thus, the validity of Tampa Electric's 2005 telecom rental rate, demonstrated above, inescapably leads to the conclusion that its rates for prior years are equally just and reasonable. Nonetheless, Tampa Electric's calculations of the cable and telecom rental rates for the prior years are attached hereto. *See* Exh. 23.

In light of the above, Bright House has failed to establish a prima facie case that Tampa Electric's telecom rental rate is unjust and unreasonable. Pursuant to Section 1.1409(d) of the Commission's rules, Bright House's complaint as to this issue must be denied.

6. Bright House Must Pay the Telecommunications Rate for All of its Attachments.

Bright House also contends that the Commission must decide whether, and which of, Bright House's particular attachments are providing telecommunications service. (Complaint at ¶ 35-38.) This is simply not the case. Common sense and applicable law dictate that in service areas where Bright House telephone service is offered, all attachments are subject to the telecommunications rate regardless of whether a particular home or business actually subscribes to the telephone service.

The law is clear that the telecommunications rental rate applies: (1) "to attachments to poles by any . . . cable operator providing telecommunications service" and (2) "to attachments to poles by any telecommunications carrier" 47 C.F.R. § 1.1409(e)(2). The Commission's regulation simply tracks the relevant federal statutory provisions. With regard to cable companies providing telecommunications services, Section § 224(d) provides that upon the effective date of the telecommunications rate provision of Section 224(e), February 8, 2001, the

cable rate no longer applies to such cable companies; instead, the telecommunications rate applies. 47 U.S.C. § 224(d). This is because Congress planned for precisely the situation Bright House seeks to avoid here – competitively equal regulatory treatment for pole attachments by cable companies moving into the telephony business. The Commission also planned for this situation, requiring by regulation that "Cable operators must notify pole owners *upon offering* telecommunications services." 47 C.F.R. § 1.1403(e) (emphasis added). With regard to telecommunications carriers, they simply must all pay the telecommunications rate for all of their attachments. 47 U.S.C. § 224(e)(1).

In short, the regulatory backdrop became clear, effective February 8, 2001: the longstanding "cable rental rate" applies to cable companies providing solely cable services; where a cable company branches out and offers telecommunications services or becomes a telecommunications carrier, it must immediately notify the pole owner and begin to pay the so-called "telecom rental rate" for all of its attachments in a service area. Thus, it is the nature of the entity and its service offering – as either a cable company offering telecommunications services or a telecommunications carrier – that is determinative. This conclusion as to the applicability of the telecommunications rental rate is consistent not only with the statutes and regulations above, but with the position of the cable industry and the teaching of the United States Supreme Court that it is the nature of the entity and not the nature of the attachment that matters under Section 224. See National Cable & Telecommunications Ass'n v. Gulf Power Co., 534 U.S. 327 (2002). It is also consistent with the sound public and Commission policy of regulatory parity for competitors providing functionally equivalent services. ¹⁰

¹⁰See, e.g., In the Matters of Appropriate Framework for Broadband Access to the Internet over Wireline Facilities, Report & Order and Notice of Proposed Rulemaking, CC Docket No. 02-33, 36 Communications Reg. (P&F) 944, 2005 WL 234773 (rel. Sept. 23, 2005) (bringing regulatory parity to provision of DSL and cable modem Internet access services); see also Implementation of Sections of the Cable Television Consumer Protection and

Bright House may argue that, despite the plain meaning of the law, the nature of Bright House's service offerings as an entity is not determinative, and that it should only pay the telecommunications rate based upon an attachment-by-attachment determination that a specific attachment is providing telecommunications service. Even assuming for the sake of argument that this is the correct analysis, Bright House must pay the telecommunications rate for its entire network of pole attachments.

Section 224(d)(3) establishes that upon its effective date, Section 224(e)(1) provides the applicable telecommunications rate for "any pole attachments used by a cable system . . . to provide any telecommunications service." 47 U.S.C. § 224(d)(3) (emphasis added.) Similarly, Section 224(e)(1) establishes the telecommunications rental rate "for pole attachments used by telecommunications carriers to provide telecommunications services." Id. § 224(e)(1) (emphasis added.) "Telecommunications service" means the "the offering of telecommunications for a fee directly to the public . . . regardless of the facilities used." Id. § 153(46). Thus, the relevant statutes require Bright House to pay for "any attachment used" to provide or offer telecommunications service. Both in terms of common sense and practical reality, as well as in technological terms, Bright House uses all of its attachments in the relevant areas to provide or offer telecommunications.

Practically speaking, Bright House must deploy a telecommunications network in all areas where it proposes to offer or provide telecommunications services. A wireline telecommunications provider simply does not have the luxury of deploying poles only at its current subscribers' locations. The logical inconsistency with evaluating service type on a pole-

Competition Act of 1992: Rate Regulation, 9 FCC Rcd. 4119, ¶ 24 (1994) ("We also believe that, as the cable and telephone industries converge, it is important to treat them with as much regulatory parity as possible.").

by-pole basis is shown by the fact that Bright House, like every other cable company, pays the cable rental rate for all of its cable attachments to Tampa Electric's poles. Bright House has never contended that it should only pay rent for cable attachments that are immediately adjacent to customers that subscribe to its cable service. Such a contention would lend to an obviously absurd result: In a neighborhood of 300 homes requiring 100 poles to serve all homes, of which 70% are cable subscribers, a percentage allocation would lead to the result that Bright House would pay for only 70 of the 100 poles to which it is attached. Exactly the same kind of absurdity would result if the applicable rate were based on the fraction of poles that are immediately adjacent to its telephone subscribers, changing as customers come and go. The point is that Bright House's network is an integrated unit. Once Bright House began offering telecommunications, its network became a telecommunications network just as it previously became a cable network as soon as Bright House began to offer cable service to its first cable customer.

Assessing the rate on a per-customer rather than network basis would also be inconsistent with the Commission's treatment of non-cable providers of telecommunications. Commission precedent provides that the *offering* of telecommunications, and not the actual activation of a particular customer, triggers the telecommunications rate. The Commission has made clear that the construction of a telecommunications network over cable facilities that provides the attacher the ability to offer such services, even if parts of the network are not used, raises the rental rate for such attachments from the cable rate to the telecommunications rate. For example, an entity that pays *only* the telecommunications rate would be obligated to pay that rate for every attachment in its network, regardless of its number of customers. Bright House has offered no

rationale, law or policy showing why it should be treated differently from other telephone providers under Section 224.

Finally, a pole-by-pole application of the telecommunications rate would be inconsistent with the Commission's analysis of how Section 224 applies to a utility's pole network. Section 224(a)(1) subjects utilities to the pole attachment regulatory regime if their poles are used "in whole or in part" for wire communications. *Id.* § 224(a)(1). The Commission affirmed in the *Local Competition Order* that a utility is not subject to pole attachment requirements if it has refused to permit "any" use of its poles for wire communications. But if the utility has made any use of any pole for wire communications, its entire pole network is subject to the pole attachment regime. *Local Competition* Order, 11 F.C.C.R. 15499, 16079 (1996). Bright House's advertising and regulatory filings irrefutably establish, and Bright House now admits, that at least some of its attachments carry telecommunications traffic. Accordingly, its entire network of attachments is subject to the telecommunications rate.

7. The Commission Should Impose Sanctions Against Bright House for Repeated and Willful Violation of Commission Rules

Bright House is subject to sanctions for willfully violating the Commission's rule requiring notice to Tampa Electric of the use of Bright House's attachments for telecommunications. The Commission's regulations require that "[c]able operators must notify pole owners upon offering telecommunications services." 47 C.F.R. § 1.1403(e). Although Bright House has now admitted its attachments were being used for telecommunications since at least 2001, and Bright House has had tariffs in place offering telecommunications service since late 2001, Bright House never notified Tampa Electric of such activities. *See* Anguilli Decl. at

¶¶ 8, 10. Indeed, until the Florida lawsuit was filed, Bright House did its best to keep Tampa Electric in the dark.

Section 503(b)(1) of the Communications Act of 1934, as amended (the "Communications Act"), provides that any person who is determined by the Commission to have willfully or repeatedly failed to comply with any provision of the Communications Act or any rule, regulation, or order issued by the Commission shall be liable to the United States for a monetary forfeiture penalty. 47 U.S.C. § 503(b)(1). The guidelines for assessing forfeitures under section 503(b) stipulate that a cable company's violation of pole attachment rules is subject to a forfeiture amount of \$7,500 per violation per day. 47 C.F.R. § 1.80(b)(4).

Moreover, the Commission's rules note that Section 503 forfeitures are subject to an "upward adjustment" in certain circumstances including situations where there has occurred (i) egregious misconduct, (ii) an intentional violation or (iii) a repeated or continuous violation. *Id.* (the Commission and its staff retain the discretion to issue a higher or lower forfeiture than provided in the guidelines). As a cable television operator, Bright House is subject to a maximum \$32,500 forfeiture for each day of an intentional or continuing violation of the pole attachment rules. *Id.* § 1.80(b)(1).

Section 312(f)(1) of the Communications Act defines willful as "the conscious and deliberate commission or omission of [any] act, irrespective of any intent to violate" the law. 47 U.S.C. § 312(f)(1). The legislative history to Section 312(f)(1) of the Act clarifies that the definition of willful applies to both Sections 312 and 503(b) of the Act, H.R. Rep. No. 97-765, 97th Cong., 2d Sess. 51 (1982), and the Commission has so interpreted the term in the Section 503(b) context. See Nextar Broadcasting, Inc., 20 F.C.C.R. 18160, at *6 (2005). The word "repeated" means that the act was committed or omitted more than once, or lasts more than one

day. *Id.* In *Nextar Broadcasting* the FCC raised the forfeiture amount imposed upon a cable company from \$7,500 to \$20,000 for each violation based on the "willful" and "repeated" nature of the violation. *Id.* at *8.

Bright House's false statements to Tampa Electric and the length of time that has elapsed since Bright House first began to violate Rule 1.1403 indicate that Bright House's violation has been both willful and repeated. Tampa Electric therefore requests that the Commission order Bright House to come into immediate compliance with the Communications Act and pole attachment rules and also impose sanctions, including fines of up to \$32,500 as the Commission finds appropriate for each day of Bright House's deliberate, repeated, and willful violation of the Commission's pole attachment rules.

III. Conclusion

For the foregoing reasons, Tampa Electric respectfully requests as follows:

- 1. The Bright House's complaint be denied.
- That if Bright House attempts to modify or supplement its complaint with new
 arguments or evidence, such arguments and evidence either be stricken or Tampa
 Electric be given a reasonable opportunity to respond.
- That the Commission impose such sanctions as it finds appropriate against Bright House for its willful and repeated violations of Rule 1.1403.

Respectfully submitted this 29th day of March, 2006.

TAMPA ELECTRIC COMPANY,)
Respondent,)))

DECLARATION OF KRISTINA ANGUILLI

- My name is Kristina Anguilli. I am the Manager, Energy Delivery Construction Services for Tampa Electric Company. My business address is 2200 East Sligh Avenue, Tampa, Florida 33610. I am over 18 years of age and have personal knowledge of all matters set forth herein.
- 2. As Manager, Energy Delivery Construction Services, I am responsible for negotiating and administering pole attachment agreements between Tampa Electric and attaching parties.
- 3. Tampa Electric has in place several pole attachment agreements with Bright House

 Networks, LLC, as successor to Time Warner Cable and various other entities. Those
 agreements all apply by their terms only to the use of attachments for cable television service.
- 4. Because many of those agreements are quite old some dating to the 1960's they are not uniform, do not reflect changes in applicable law that have occurred in recent years, and are not consistent with Tampa Electric's current standard terms and conditions for pole attachments.

- 5. On February 18, 2003, when Bright House became a party to those agreements, Bright House and Tampa Electric entered into an agreement to combine all of the old agreements into a single, new agreement. This February 18, 2003 agreement specifically committed Bright House "to immediately begin negotiations in good faith with Tampa Electric to establish a new agreement governing all Bright House attachments within Tampa Electric Company's service territory by June 1, 2004."
- 6. At the time of the February 18, 2003 agreement, neither Bright House nor its predecessors had ever notified Tampa Electric of any telecommunications use of any of Bright House's attachments. The agreements themselves did not provide for any such use.
- 7. In the February 18, 2003 agreement, Bright House specifically stated as follows:

 BrightHouse, LLC understands that the Agreement does not authorize attachments for telecommunications purposes, and represents and warrants that the attachments shall not and until such time as it has entered into a new agreement with Tampa Electric, consistent with Tampa Electric's standard terms for such attachments, use the attachments for delivery of telecommunications services.
- 8. In addition to this formal confirmation that Bright House's attachments were not being used for telecommunications, I also received oral and emailed assurances at various times between 1998 and 2004 from Stan McGinnis and Barry Beaty, my primary contacts at Bright House, to the same effect.
- 9. Bright House did not comply with its February 18, 2003 promise to negotiate a new agreement. After hearing nothing for many months, I emailed Stan McGinnis and sent him an electronic version of Tampa Electric's standard agreement. Neither he nor anyone else at Bright House ever responded regarding the standard agreement, nor did they furnish any proposal of their own.

- 10. At no time did Bright House ever notify Tampa Electric that Bright House's attachments were being used for telecommunications.
- 11. I have read paragraph 12 of the Declaration of Eugene White in which he states that Bright House made Tampa Electric aware of a "fiber optic capacity arrangement that BHN has with a commercial customer" in 1998. I have investigated this claim and, if Mr. White is referring to any arrangement involving Bright House's attachments on Tampa Electric's poles, then I am convinced Mr. White is incorrect. Not only do we have no record or recollection of any such communication, but we were explicitly told by Mr. White in 2003, Mr. McGinnis in 2003 and 2004, and Mr. Barry Beaty in 1998 that there was no telecommunications use of their attachments. If Bright House had ever told us its attachments were being used for telecommunications, we would have billed them at the telecommunications rate. I discussed that point with Messrs. McGinnis and Beaty and they were well aware of their obligation to notify us of any telecommunications use.
- 12. Tampa Electric has charged other attaching parties the telecommunications rates that are the subject of Bright House's complaint. Since 2001, those rates have been public and available for review. At no time had Bright House ever challenged any of these rates. In fact, I do not recall Bright House ever asking to review them.
- 13. In late 2004 or early 2005 I began to notice advertising by Bright House for a "Digital Phone" service. All of the advertising I saw referred to the service explicitly as "telephone service".
- 14. After a review of Bright House's advertisements and website, I concluded that Digital Phone certainly looked like telephone service. In fact, Bright House was clearly going to a lot of trouble to emphasize that Digital Phone was indistinguishable from any other telephone

service. I was then asked to investigate whether or not Bright House's Digital Phone service meant Bright House should be paying the telecommunications rate for pole attachments.

After looking into Bright House's advertising, customer contracts, filings with the Florida Public Service Commission and Federal Communications Commission, it was obvious Bright House had positioned its service as telecommunications in every conceivable way, except when it came to the pole attachment rate. We concluded that Bright House should be paying the telecommunications rate.

- 15. Based on its advertising and what we have been able to learn locally, Bright House is offering its telecommunications services to every home passed by Bright House's network in the Tampa Electric service territory.
- 16. Relationships with other Tampa-area businesses are important to Tampa Electric. We generally enjoy good relationships with the cable and telecommunications companies who attach to our poles, including, we thought, Bright House. It was disturbing to me and to our senior management that Bright House would not have told us about its activities.

 Accordingly, we decided to give Bright House an opportunity to explain its position in person. Our Vice President, Energy Delivery, Mr. Tom Hernandez, scheduled a meeting with Bright House's president, Dick Rose, on November 21, 2005.
- 17. At the meeting, Mr. Hernandez delivered a letter outlining Tampa Electric's findings and a bill for past-due fees at the telecommunications rate. In a follow-up letter dated December 8, 2005, Mr. Rose stated that Bright House did not have to pay the telecommunications rate.
- 18. At about the same time we received Mr. Rose's letter, I learned that our Tampa Electric internal telecommunications department were in discussions regarding a proposal by Time

- Warner Telecom to furnish telecommunications service to Tampa Electric. When our personnel inquired about Time Warner's network, they were told that Time Warner was using fiber on Tampa Electric's own poles. This came as quite a surprise.
- 19. Time Warner Telecom does not have a pole attachment agreement with Tampa Electric. We determined though a field investigation that Time Warner was using Bright House's pole attachments through overlashing and possibly also through interconnection with Bright House's cable lines.
- 20. In the course of investigation Time Warner Telecom's facilities, we also determined that Bright House was interconnecting its cable facilities to one or more telecommunications carriers, including Verizon. As a result of those interconnections, Bright House's cable facilities are carrying the telecommunications traffic of those telecommunications carriers.
- 21. Following the Commission's official guidance, Tampa Electric's entire service territory must be classified as urbanized. The default average number of attaching entities would be 5 in any area where a telecommunications carrier wished to attach, if Tampa Electric did not establish the actual number of attaching entities. Tampa Electric, however, has established the actual average number of attaching entities and therefore is entitled to rebut the Commission's presumptive average.
- 22. Tampa Electric has pole data at a granular level and maintains an extensive database that provides information as to all of the attachments on each of our poles. Our data are not based on a survey or representative sampling of poles, but instead reflect complete pole-by-pole inspection information that we have gathered and maintained for our entire pole system. Our distribution pole count comes from our property records and I maintain a record of each and

- every pole location along with its corresponding GPS coordinate, grid number, asset tag number and pole size, height and type.
- 23. We did a 100% pole count in 2001. We have since been tracking new additional pole installations and adjust our pole counts each year when establishing the formula components. We have also been tracking new attachment counts as we process new requests to attach. The average number of attaching entities is our system wide average. Below is the breakdown by pole counts for 2005:

Poles with only one attachment (Tampa Electric only) $100,299 \times 1 = 100,299$

Poles with two attachments (Tampa Electric + 1) $86,569 \times 2 = 173,138$

Poles with three attachments (Tampa Electric + 2) $108,889 \times 3 = 326,667$

Poles with four attachments (Tampa Electric + 3) 7,331 x 4 = 29,324

Poles with five attachments (Tampa Electric + 4) $750 \times 5 = 3,750$

Totals: 303,837 poles, 633,178 attachments

Weighted Average = 633,178/303,837 = 2.083939

24. Thus, with reference to the calculations of the rental formulas for 2005 when the total number of poles was 303,837, our calculations show that the average, system-wide number of attaching entities was 2.08. We include ourselves as one of the attaching entities.

Governmental attachments are included as well. All data required for each component of the formula comes from Tampa Electric's FERC Form 1, which is a public record. We believe we have followed the FCC rules regarding individual components in the formula.

25. In connection with Bright House's February 17, 2006 letter requesting a breakdown of amounts booked to Account 364 for crossarms and other appurtenances, we determined that such data is not available. In Florida, pursuant to the Florida Administrative Code, Section 25-6.0142, utilities maintain their accounts according to "retirement units." For poles and pole-related expenses, Tampa Electric has only three retirement units: 1, poles and fixtures: 2. foundations and pilings; and 3. pole reinforcing. Virtually no distribution poles are built with foundations or pilings. Pole reinforcing includes measures that are taken to extend the life of a pole that would otherwise have to be replaced. In short, there is no breakout of the crossarms and other items that are booked to FERC Account 364. We considered whether this information could be derived from other sources, but concluded that there simply is no source from which complete and correct information could be derived.

I declare under penalty of perjury that the statements contained in this declaration are true and correct.

Kristina Anguilli

RE: MOFFAT COMMUNICATIONS/SHAW ASSIGNMENT

Dear Mr. White

Tampa Electric agrees to transfer the attachment rights of Moffat Communications/Shaw for CATV attachments to BrightHouse, LLC under its Hillsborough County agreement, previously Paragon Cable, provided that Bright House makes the following representations and covenants in favor of Tampa Electric:

- 1. Within 30 days of signing this letter, BrightHouse, LLC will supply a copy of the transfer of franchise for the above attachments from the governing body able to grant such authority, such as Pasco County and the City of Dade City. This document will verify that BrightHouse, LLC has met all County and City requirements to maintain and operate a CATV system in the territories covered by the Moffat Communications/Shaw agreement.
 - 2. BrightHouse, LLC represents and warrants that it has and shall maintain all necessary and appropriate power, authorization, skill and financial wherewithal to meet all of Moffat Communication's/Shaw's obligations under the Agreement.
 - 3. BrightHouse, LLC understands that the Agreement does not authorize attachments for telecommunications purposes, and represents and warrants that the attachments shall not and until such time as it has entered into a new agreement with Tampa Electric, consistent with Tampa Electric's standard terms for such attachments, use the attachments for delivery of telecommunications services.
 - 4. BrightHouse, LLC agrees to immediately begin negotiations in good faith with Tampa Electric to establish a new agreement governing all BrightHouse attachments within Tampa Electric Company's service territory by June 1, 2004.

- 5. BrightHouse, LLC represents that it is presently a member of the National Joint Use Notification System, and shall maintain membership in good standing during the life of the Agreement and shall use this system for all notices under the Agreement.
- 6. BrightHouse, LLC shall provide Tampa Electric with the certificate described in Article X of the old Paragon agreement within thirty days of the signing of this letter.

By signing and returning this letter, and in consideration of the foregoing representations, warranties and covenants, Tampa Electric Company hereby consents to the transfer of attachment rights by Moffat Communications/Shaw to Bright House, LLC under the Bright House, LLC agreement governing Hillsborough County and BrightHouse hereby consents to the representations and covenants herein.

Re: New Pole Attachment Agreement and Bright House's Telecommunication Service

Dear Mr. Rose:

I am writing to request the negotiation of a new pole attachment agreement between our two companies as was committed by Gene White, Vice President Engineering, Bright House, in a letter dated and signed by Mr. White on February 19, 2004. In that letter, Mr. White agreed to negotiate a new pole attachment agreement that would consolidate the ten contracts we currently have dating back to August 4, 1965, and to do so by June 1, 2004. We are well beyond this commitment and would like your assurance that this will now be addressed. I am also requesting the immediate payment of all pole attachment rental fees that Bright House has incurred, but failed to disclose, by virtue of its use of attachments to Tampa Electric Company's poles for telecommunications service. As you know, Bright House is required to pay a higher rate for telecommunications attachments than it does for CATV attachments. Bright House previously warranted to Tampa Electric that it would not use its pole attachments for telecommunications without entering into a new agreement, for such use. However, it has come to our attention that Bright House is providing telecommunication service in Tampa Electric's service territory and has been doing so since 2001. Specifically, we have learned that:

- Bright House's Digital Phone service is explicitly advertised as "residential telephone service".
- Bright House's advertising and other communications with its customers refer to Bright House as a telecommunications provider and to Bright House's service as a telecommunications service.
- Bright House has certified to the FCC that it is providing telecommunications services in Florida.

170

TAMPA ELECTRIC COMPANY RC. 80X 11: TAMPA, FL 33601:0111 813-228-4495 FAX 813-228-4290 TLHERNANDEZ@TECQENERGY.COM Page Two
Mr. Dick Rose
Vice President - Finance
Bright House Networks Information Services, LLC

- Bright House assesses the Universal Service Charge on its customer invoices, a charge applicable only to telecommunications service.
- Bright House is and has been a certificated telecommunications provider with the Florida PSC since 2001, certification #8015.
- Bright House's Digital Phone service is routed to Public Switched Telephone Network.

In short, Bright House is holding itself out to the public and acting in every way as a provider of telecommunications service. Bright House is believed to have numerous telephone subscribers in the areas serviced by Tampa Electric, yet Bright House has not reported or paid for any attachments at the telecommunications rate. In fact, Bright House has attempted to avoid such payments by denying to Tampa Electric that it has any telecommunications attachments whatsoever. This failure to comply with your legal obligations, and the resulting loss of revenue to Tampa Electric, is of great concern to Tampa Electric. We look forward to discussing a quick resolution of this situation if Bright House is serious about trying to resolve it. If not, we intend to vigorously pursue all available remedies.

We look forward to our discussions and your response in a timely manner to the establishment of a new pole attachment agreement and receiving payment for the telecommunications services outline in the attached invoice.

Sincerely,

Enclosure

December 8, 2005

Via Certified United States Mail. Return-Receipt Requested

Mr. Thomas Hernandez Vice President—Energy Delivery Tampa Electric Company P.O. Box 111 Tampa, FL 33601-0111

Re: Consolidated Pole Attachment Agreement and Rental Fees

Dear Mr. Hernandez

I am writing in response to your November 21, 2005 letter regarding the negotiation of a consolidated pole attachment agreement and the payment of certain invoices for "telecommunications" attachments on Tampa Electric's ("TECO") poles. We agree that it makes sense to begin negotiating a consolidated pole attachment agreement to replace the 10 existing agreements. To that end, please forward to me TECO's current pole attachment agreement, and any other necessary information, so that we can review and comment. We will contact you about establishing a schedule to undertake and complete negotiations promptly.

With respect to the invoice attached to your letter, however, Bright House Networks ("BHN") is under no obligation to pay the "telecommunications rate" for any of its attachments on TECO poles. Contrary your claim that BHN uses its attachments to offer "telecommunications services," BHN's Digital Phone service utilizes Voice over Internet Protocol ("VoIP") technology over a proprietary network. The Federal Communications Commission ("FCC") is currently considering the proper regulatory classification of all VoIP services, including cable voice services like BHN's Digital Phone, and has never classified VoIP as a "telecommunications services." In fact, another cable system operator is currently challenging a power company at the FCC for its

unreasonable attempt to charge the telecommunications rate for VoIP attachments.1

Moreover, BHN only began its Digital Phone offering in 2004, not 2001, as TECO claims. In addition, while an affiliate of BHN in the past has been certified as a CLEC in Florida, that certification is irrelevant for pole attachment rate purposes.

In sum, unless and until cable VoIP is classified as a 'telecommunications service' for pole rate purposes, BHN is not required to pay the telecommunications rate for its pole attachments. I would therefore submit that we discuss the issue of the increased telecom rate after the FCC resolves the regulatory classification of VoIP.

Feel free to contact me if you would like to discuss this matter further. We look forward to working with you on the consolidation of the existing pole attachment agreements.

Sincerely.

Dick Rose

Vice President, Finance

See Charter Communications Inc. v. Union Electric Co., d/b/a/ AmerenUE, Complaint, File No. EB— (filed in the Market Disputes Resolution Division, Nov. 30, 2005) ("AmerenUE may not require Charter to pay a telecommunications rate on any attachments used to provide VoIP.").

EXHIBIT 4.

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT IN AND FOR HILLSBOROUGH COUNTY, FLORIDA

TAMPA ELECTRIC COMPAN a Florida corporation,	Y,)	
Plaintiff, v.))) Case No.	06 00819
BRIGHT HOUSE NETWORKS)	DIVISION B
LLC,)	RECEIVED AND FILED
Defendant.)	IJAN 3 0 2006
	COMPLAINT	CLERK OF CIRCUIT COURT HILLSBOROUGH COUNTY, FL

Tampa Electric Company, a Florida corporation ("Tampa Electric") files this Complaint against Bright House Networks, LLC ("Bright House"), and alleges as follows:

Parties

1. Plaintiff Tampa Electric is a Florida corporation with its principal place of business in Florida. Tampa Electric is an electric power company serving Tampa, Florida and the surrounding area. Tampa Electric maintains utility poles within its service territory, including in the Tampa area. Communications lines can be attached to these poles in order to provide telecommunications services and cable television services to businesses and residents within the Tampa Electric service territory.

2. Upon information and belief, Defendant Bright House is a Delaware corporation with its principal place of business located in Florida. Bright House may be served with process through its registered agent, C T Corporation System, 1200 South Pine Island Road, Plantation, Florida 33324. Bright House provides telecommunication services and cable television services to subscribers in Tampa, Florida, and otherwise conducts business in Hillsborough County, Florida.

Jurisdiction and Venue

- 3. This is an action for damages in excess of Fifteen Thousand and no/100 dollars (\$15,000). This Court also has subject matter jurisdiction pursuant to the Florida Constitution, Art. 5, § 5.
- 4. This Court has personal jurisdiction over Bright House pursuant to Fla. Stat. § 48.193(1). Bright House operates and conducts business in the State of Florida and, as alleged below, breached a contract in this state by failing to perform acts required by the contract to be performed in this state.
- 5. Venue is proper in this Court pursuant to Fla. Stat. § 47.011. Bright House maintains one or more agents and representatives in Hillsborough County, Florida. Also, as alleged below, Bright House breached its contract with Tampa Electric in Hillsborough County, Florida.

Statement of Facts

- 6. Bright House owns or operates communications lines that are used by Bright House and others to provide two distinct services that are relevant to this lawsuit to subscribers in the Tampa, Florida area: (1) cable television services and (2) telecommunications (i.e., telephone) services.
- 7. Many of these communications lines are attached to utility poles that are owned and operated by Tampa Electric. In exchange for the use of Tampa Electric's utility poles, Bright House pays "pole attachment rental fees" to Tampa Electric.
- 8. The amount of pole attachment rental fees that Bright House must pay to Tampa Electric depends upon whether the communications lines are being used for cable television service or telecommunications service. The pole attachment rental fee for cable television service is currently \$5.63 per attachment per year, and the pole attachment rental fee for telecommunications service is currently \$17.67 per attachment per year.
- 9. Since the 1960's, Tampa Electric and Bright House and/or Bright House's predecessors have entered into a series of "pole attachment agreements" under which Tampa Electric allowed Bright House and/or its predecessors to attach communications lines attached to Tampa Electric's poles for the purpose of delivering cable television service. (See Pole Attachment Agreements dated Aug. 4,

1965, Sept. 30, 1969, Oct. 21, 1970, Nov. 25, 1970, Jan. 8, 1974, Aug. 1, 1974, Nov. 1979, Feb. 27, 1980, July 30, 1980, Jan. 23, 1981, Sept. 1, 1982, Sept. 27, 1982, and May 10, 1983, which are incorporated herein and copies of which are collectively attached hereto as Ex. A.)

- 10. Bright House's pole attachment agreements with Tampa Electric have always contemplated the use of Bright House's attachments only for delivery of cable television services, and have never contemplated delivery of telecommunications services. (See id.) Consequently, Tampa Electric has charged Bright House only the lower cable television services rental fee.
- 11. Bright House has represented orally and in writing to Tampa Electric on multiple occasions that Bright House's attachments are not used for delivery of telecommunications service. For instance, in a February 18, 2003 letter to Tampa Electric concerning pole usage, (which is incorporated herein and a copy of which is attached hereto as Exhibit B), Bright House expressly represented and warranted that, until the parties explicitly contracted to do so, Bright House's attachments would not be used for the delivery of telecommunications services.
- 12. Upon information and belief, notwithstanding its promises, agreements, representations and warranties, Bright House's attachments have in fact been used to provide telecommunications services for many years. Bright House has never notified Tampa Electric of this usage, and has in fact denied such usage.

Bright House has never paid Tampa Electric the appropriate telecommunications services fee for this usage. Instead, Bright House has always paid Tampa Electric only the lower cable television services fee.

- 13. For instance, upon information and belief, Bright House's attachments have been used to carry telecommunications services provided both by Bright House to its customers and by Bright House's affiliate, Time Warner Telecom ("Time Warner"), to its customers.
- 14. Additionally, or alternatively, and upon information and belief, Bright House's attachments have been used by Time Warner and Bright House to furnish telecommunications services to or on behalf of each other.
- 15. Time Warner does not have a pole attachment agreement with Tampa Electric. Nevertheless, based on information and belief, Time Warner has been using Bright House's attachments for delivery of telecommunications service with Bright House's knowledge and consent. Bright House has never disclosed to Tampa Electric that Bright House's attachments were being used for delivery of telecommunications service by Time Warner. Based on information and belief, Bright House withheld this information, and in fact denied any use of the attachments for telecommunications, in order to induce Tampa Electric to continue to charge Bright House only the lower cable television rental fee.

- 16. Ironically, although Bright House has repeatedly denied that its pole attachments are ever used for telecommunications, Time Warner's use of Bright House's attachments came to light when Time Warner proposed to provide telecommunications services to Tampa Electric and, in connection with that proposal, represented to Tampa Electric that it provides telecommunications services to customers throughout the Tampa area over a network that utilizes Bright House attachments on Tampa Electric's poles.
- 17. In addition to the foregoing, there are several other indications that Bright House and Time Warner use Bright House's attachments to deliver telecommunications services, including but not limited to the following:
 - a. Bright House is marketing itself to customers as a "residential telephone service provider";
 - b. Bright House's telecommunications services are branded and advertised to the public as "Digital Phone," and described as a "residential phone service" that is "as simple and easy to use as [a customer's] existing phone service";
 - c. Bright House charges customers who use its "Digital Phone" service a "Federal Universal Service Fund Contribution", which is applicable only to telecommunications services;

- d. The phone bills that Bright House sends to its "Digital Phone" customers also include a contribution to the "Telecommunications Relay Service Fund," which exists solely to assist people with hearing and speech impairments to communicate with telecommunications services providers;
- e. "Digital Phone" customer service agreements on Bright House's website, http://tampabay.mybrighthouse.com, explicitly refer to Bright House's "Digital Phone" service as "telephone" service;
- f. Bright House's "Digital Phone" service operates through the "Public Switched Telephone Network," a concentration of the world's public circuit-switched telephone networks;
- g. Bright House and Time Warner certified to the Federal Communications Commission and Florida Public Service Commission that they are providing telecommunications services in Florida;
- Bright House and Time Warner have applied for and received one or more certificates from the Florida Public Service Commission to provide telecommunications services in Florida;
- i. In various field installations, Bright House has adopted the practice of labeling certain items of equipment with a telephone symbol, which on information and belief is done to enable Bright House personnel to

- distinguish it from Bright House's cable television equipment, which is labeled as such;
- j. Based on information and belief, Bright House's predecessor, Time Warner Cable, entered into a July 1, 1998 "Capacity License Agreement" with Time Warner Telecom, which provided that Time Warner Telecom would use Time Warner Cable's fiber optic communications lines in the Tampa area for delivery of telecommunications service. Based on information and belief, Bright House is a party to that or a similar agreement and the fiber optic communications lines referenced therein are located, in whole or in part, on Tampa Electric's poles; and
- k. Bright House and Time Warner have each filed tariffs with the Florida Public Service Commission describing their respective telecommunications services.
- 18. In the February 18, 2003 letter to Tampa Electric, Bright House also agreed to immediately begin good faith negotiations to establish a new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory no later than June 1, 2004. The February 18, 2003 letter stated that the new agreement would provide for use of Bright House's attachments for telecommunications, consistent with Tampa Electric's standard terms.

- 19. Although Tampa Electric attempted to engage Bright House in such negotiations and provided Bright House with Tampa Electric's standard terms (which are incorporated herein and a copy of which is attached as Exhibit C), Bright House failed to execute Tampa Electric's standard terms or to negotiate an alternative agreement.
- 20. Bright House's failure to pay Tampa Electric the telecommunications services rental fee for its attachments has resulted in a significant loss of revenue to Tampa Electric.
- 21. All conditions precedent to maintenance of this action have occurred or have been performed.

Count I - Breach of Contract

- 22. Tampa Electric incorporates by reference the allegations of paragraphs 1-21 as if set forth fully herein.
- 23. Tampa Electric and Bright House, or Bright House's predecessors, entered into valid written agreements as shown in Exhibits A and B, under which Bright House agreed, inter alia:
 - a. that its attachments to Tampa Electric's utility poles would not be used for delivery of telecommunications services;
 - b. that its attachments would be used for cable television service only; and

- c. to immediately begin good faith negotiations to establish a new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory by June 1, 2004, pending which no telecommunications use would be made of any facilities attached to Tampa Electric's poles. (Ex. B.)
- 24. Bright House committed material breaches of these contracts by, inter alia:
 - a. using or allowing use of its attachments for delivery of telecommunications services;
 - b. failing to pay the higher telecommunications service rental fee while using, or allowing use of, its attachments for delivery of telecommunications service and instead paying Tampa Electric the lower cable television services rental fee; and
 - c. failing to engage in good faith negotiations to establish a new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory by June 1, 2004.
- 25. Tampa Electric has been damaged by Bright House's material breaches of the contracts shown in Exhibits A and B. This is so because telecommunications services have been delivered using Bright House's attachments while Bright House paid only the cable television services rental fee, instead of the

higher telecommunications services rental fee that Tampa Electric was entitled to receive from Bright House. Tampa Electric has thus been deprived of and damaged in the amount of the revenue that it would have received if Bright House had paid it the higher telecommunications services rental fee, as Bright House was required to do.

WHEREFORE, Tampa Electric demands judgment against Bright House for actual damages, consequential damages, pre-judgment interest, post-judgment interest, costs, and such other relief as the Court determines is just and proper.

Count II - Breach of Implied-In-Fact Contract

- 26. Tampa Electric incorporates by reference the allegations of paragraphs 1-21 as if set forth fully herein.
- 27. In the alternative, an implied contract exists between Tampa Electric and Bright House that requires Bright House to pay Tampa Electric the telecommunications rate in exchange for using, or allowing the use of, Bright House's attachments to Tampa Electric's poles for telecommunications purposes.
- 28. The pole attachment agreements shown in Exhibit A did not contemplate any delivery of telecommunications services through Bright House's attachments. (See Ex. A.) Instead, these agreements provided only that Bright House and its predecessors could use the attachments to deliver cable television services. (Id.)

- 29. Under the February 18, 2003 letter, attached as Exhibit B, Bright House agreed not to use its attachments to deliver telecommunications sources until it entered into a new agreement with Tampa Electric providing for same. Bright House agreed to immediately begin negotiations to establish a new agreement with Tampa Electric governing all of Bright House's pole attachments within Tampa Electric's service territory. (Ex. B.) The February 18, 2003 contract also specifically stated that the new agreement would provide for use of Bright House's attachments for telecommunications services, consistent with Tampa Electric's standard terms. (See Ex. B.)
- 30. Notwithstanding the foregoing February 18, 2003 letter, Bright House used its attachments, or allowed its attachments to be used, to deliver telecommunications services.
- 31. Because Bright House obviously knew that use of its attachments to Tampa Electric's utility poles to deliver telecommunications services would require entry into a new agreement that would be consistent with Tampa Electric's standard terms for attachments of this type, and because Bright House proceeded nevertheless to use its attachments, or allowed its attachments to be used, to deliver telecommunications services, an implied-in-fact contract was created that requires Bright House to pay Tampa Electric the telecommunications services rental fee in exchange for using, or allowing use of, Bright House's attachments for delivery of

to pay Tampa Electric the higher pole attachment fee commensurate with tele-communications services attachments can be inferred from the foregoing circumstances, and from Bright House's conduct and the parties' relationship. Also, as expressly stated in the February 18, 2003 letter, the terms of this implied-in-fact contract are consistent with Tampa Electric's standard terms; accordingly, the terms of the implied-in-fact contract include Tampa Electric's standard terms as set forth in Exhibit C.

- 32. Bright House breached this implied-in-fact contract by failing to pay Tampa Electric the appropriate telecommunications services rental fee, and by instead paying the lower cable television services rental fee.
- 33. Tampa Electric has been damaged by Bright House's material breach of this implied-in-fact contract. This is so because Bright House's attachments have been used for telecommunications services while Bright House only paid the cable television services rental fee, instead of the higher telecommunications services rental fee that Tampa Electric was entitled to receive from Bright House. Tampa Electric has thus been deprived of and damaged in the amount of the revenue that it would have received if Bright House had paid it the higher telecommunications services rental fee, as Bright House was required to do.

- 34. Tampa Electric has also been damaged because it has been forced to pay attorney's fees to redress the breach of this implied-in-fact contract. Tampa Electric's standard terms, which establish the terms of the implied-in-fact contract, include provisions requiring Bright House to pay Tampa Electric any attorney fees incurred in redressing Bright House's failure to act in accordance with the terms of the contract. (Ex. C.)
- 35. Tampa Electric has retained counsel to represent it in connection with this matter and has agreed to pay counsel a reasonable fee.

WHEREFORE, Tampa Electric demands judgment against Bright House for actual damages, consequential damages, pre-judgment interest, post-judgment interest, costs, attorney's fees, and such other relief as the Court determines is just and proper.

Count III - Unjust Enrichment

- 36. Tampa Electric incorporates by reference the allegations of paragraphs 1-21 as if set forth fully herein.
- 37. Tampa Electric conferred upon Bright House, and Bright House received, a benefit when Bright House used, or allowed the use of, its attachments to Tampa Electric's poles to deliver telecommunications service.
- 38. Bright House appreciated this benefit: Bright House was able to use, or allow the use of, its attachments to deliver telecommunications service for a

much lower pole attachment rental fee than Bright House should have paid. Specifically, Bright House should have paid Tampa Electric—and has benefited by not paying—the telecommunications service rental fee.

- 39. Bright House has accepted and retained this benefit under circumstances that make it inequitable for Bright House to do so without paying Tampa Electric the difference between the cable television service rental fees that it paid to Tampa Electric and the telecommunications service rental fees that it should have paid. Specifically, it is inequitable for Bright House to have been able to use, or allow the use of, its attachments for delivery of telecommunications service while paying Tampa Electric the lower, inappropriate cable television service rental fees. Bright House should not be allowed to retain the difference between the cable television service rental fees that it paid to Tampa Electric, and the telecommunications service rental fees that it should have paid to Tampa Electric.
- 40. Bright House has thus been unjustly enriched in the forgoing amount, and should be required to pay Tampa Electric this amount.

WHEREFORE, Tampa Electric demands judgment against Bright House for actual damages, consequential damages, pre-judgment interest, post-judgment interest, costs, and such other relief as the Court determines is just and proper.

Count IV - Breach of the Implied Covenant of Good Faith and Fair Dealing

- 41. Tampa Electric incorporates by reference the allegations of paragraphs 1-21 and 23-24 as if set forth fully herein.
- 42. The contracts between Tampa Electric and Bright House shown in Exhibits A, B and C contained an implied covenant that each party would deal with the other party fairly and would perform the contracts in good faith.
- 43. Bright House's good faith cooperation with the terms of such contracts was a condition precedent to the performance of the contracts.
- 44. Bright House therefore had a good faith duty to honor the terms of such contracts by, inter alia:
 - a. refraining from using its attachments, or allowing its attachments to be used, for delivery of telecommunications service;
 - b. engaging in good faith negotiations to establish a new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory by June 1, 2004; and
 - c. paying Tampa Electric the telecommunications service rental fee.
- 46. Bright House breached the implied covenant of good faith and fair dealing with respect to the above-mentioned contracts by denying, knowingly concealing, or failing to disclose the information that Bright House's attachments were being used for delivery of telecommunications services, by paying Tampa Electric

the cable television service rental fee instead of the telecommunications service rental fee, and by intentionally failing to engage in good faith negotiations to establish a new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory.

WHEREFORE, Tampa Electric demands judgment against Bright House for actual damages, consequential damages, pre-judgment interest, post-judgment interest, costs, and such other relief as the Court determines is just and proper.

Respectfully submitted this 30 day of January, 2006.

ATTORNEYS FOR TAMPA ELECTRIC COMPANY

EXHIBITS

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT IN AND FOR HILLSBOROUGH COUNTY, FLORIDA

TAMPA ELECTRIC COMPANY, a Florida corporation,)	
Plaintiff,)	
v.)	Case No. 06-00819 Division B
BRIGHT HOUSE NETWORKS,)	
LLC,)	
Defendant.)	

TAMPA ELECTRIC COMPANY'S FIRST REQUEST FOR PRODUCTION OF DOCUMENTS TO BRIGHT HOUSE NETWORKS, LLC

Tampa Electric Company, a Florida corporation ("Tampa Electric") hereby requests that, within 45 days after service of the Summons and Complaint in this action, Defendant Bright House Networks, LLC produce and permit Tampa Electric or persons acting on its behalf to inspect and copy the documents designated hereinafter. The production, inspection, copying, and all acts necessarily related thereto shall take place at the offices of Tampa Electric's counsel of record, *i.e.*, Michael S. Hooker, Glenn Rasmussen Fogarty & Hooker, P.A., 100 S. Ashley Drive, Suite 1300, Tampa, FL 33602, commencing at a mutually convenient time. Should you consider any document described herein as privileged, Tampa Electric requests that each such document be identified.

These Requests are continuing and, if at a time after you have produced the requested document or otherwise responded hereto, further documents called for in these Requests and not previously produced come into your possession and control, then you are requested to respond further and to produce said documents at the aforesaid location, but in no event later than the date of trial.

DEFINITIONS AND INSTRUCTIONS

The following definitions and instructions apply to this Request for Production.

- A. As used herein, the term "Bright House Networks, LLC," and any synonym and/or derivative thereof is intended to and shall embrace and include the above-named Bright House Networks, LLC and all of its respective agents, attorneys, servants, associates, employees, representatives, private investigators, parent corporations, subsidiary corporations, affiliates, predecessors, and others that are or have been in possession of or may have obtained information for or on behalf of Bright House Networks, LLC in any manner with respect to any matter referred to in the Complaint in the above-styled case.
- B. As used herein, the term "Time Warner Telecom" and any synonym and/or derivative thereof is intended to and shall embrace and include the above-named Time Warner Telecom and all of its respective agents, attorneys, servants, associates, employees, representatives, private investigators, parent corpora-

tions, subsidiary corporations, affiliates, predecessors, and others that are or have been in possession of or may have obtained information for or on behalf of Time Warner Telecom in any manner with respect to any matter referred to in the Complaint in the above-styled case.

- C. As used herein, the term "Tampa Electric" is intended to and shall embrace and include the above-named Tampa Electric Company, a Florida corporation, and all of its respective agents, attorneys, servants, associates, employees, representatives, parent corporations, subsidiary corporations, affiliate corporations, and predecessors.
- D. "Person" means any natural person, firm, partnership, association, proprietorship, joint venture, corporation, government agency, or other organization or legal or business entity.
- E. "Document" means any written, typed, recorded, or graphic matter, however produced, of any type or description, whether sent or received, including both sides of originals, known identical copies, and drafts, and including, without limitation, papers, books, letters, correspondence, telegrams, bulletins, notices, announcements, instructions, charts, manuals, brochures, schedules, cables, telex messages, memoranda, notes, notation, accountants' working papers, transcripts, minutes, agendas, reports, and recordings of telephone or other conversations, of interviews, of conferences, or of other meetings, affidavits, statements, summaries, opin-

ions, seconds, report studies, analyses, evaluations, contracts, agreements, journals, statistical records, desk calendars, appointment books, diaries, lists, tabulations, sound recordings, computer printouts, data processing input and output, microfilms, and other records kept by electronic, photographic or mechanical means, and things similar to any of the above, however denominated by, and any other documents within the meaning of Rule 1.340, Florida Rules of Civil Procedure.

- F. "Relating to" means concerning, respecting, referring to, summarizing, digesting, embodying, reflecting, establishing, tending to establish, derogating from, tending not to establish, evidencing, not evidencing, comprising, connected with, commenting on, responding to, disagreeing with, showing, describing, analyzing, representing, constituting, or including.
 - G. "All" includes the word "any," and "any" includes the word "all."
- H. "Each" includes the word "every," and "every" includes the word "each."
- I. To the extent you refuse to produce any documents requested, state the reason for your refusal, the circumstances upon which you rely in support of your refusal, and, if you claim that a document is privileged, provide the following identifying information:
 - 1. the date of such document;
 - 2. the author thereof;

- 3. the addressee or recipient;
- the names of all persons who received the original or a copy of the document;
- 5. a brief description of the subject matter and form of the document and attachments, if any, including the number of pages; and
- 6. a statement of the basis upon which the privilege is claimed.

DOCUMENTS TO BE PRODUCED

- All documents relating to pole attachment rental fees paid by Bright House Networks, LLC to Tampa Electric.
- 2. All documents, including, but not limited to, correspondence of any kind, concerning Bright House Networks, LLC's rendition of telecommunications or telephone services of any kind within the city limits of Tampa, Florida, and/or also within Hillsborough County, Florida, Pasco County, Florida, Polk County, Florida, and/or Pinellas County, Florida.
- 3. All pole attachment agreements or any other contracts relating to pole attachments that have been entered into, at any time, by Bright House Networks, LLC and Tampa Electric.
- 4. All documents, including, but not limited to, correspondence of any kind, relating to Time Warner Telecom's rendition of cable television services

and/or telecommunications services within the city limits of Tampa, Florida, and/or within Hillsborough County, Florida, Pasco County, Florida, Polk County, Florida, and/or Pinellas County, Florida.

- 5. All documents relating pole attachment rental fees paid by Time Warner Telecom to Bright House Networks LLC or Tampa Electric.
- 6. All documents relating to any proposal by Time Warner Telecom to provide telecommunications or telephone services to Tampa Electric.
- 7. All documents relating to any network, agreement, or understanding between Time Warner Telecom and Bright House Networks, LLC concerning the rendition of telecommunications or telephone services within the city limits of Tampa, Florida, Hillsborough County, Florida, Pasco County, Florida, Polk County, Florida, and/or Pinellas County, Florida.
- 8. All documents, including, but not limited to, all advertising or marketing materials, in which Bright House Networks, LLC refers to itself as a "residential telephone service provider" or mentions "residential phone service."
- 9. All documents, including, but not limited to, all advertising or marketing materials, in which Bright House Networks, LLC refers to or mentions "Digital Phone" or telephone services.
- 10. All documents, including, but not limited to, all advertising or marketing materials, relating to Bright House Networks, LLC's charging of a

"Federal Universal Service Fund contribution" to customers within the city limits of Tampa, Florida, and/or within Hillsborough County, Florida, Pasco County, Florida, Polk County, Florida, and/or Pinellas County, Florida.

- 11. All documents, including, but not limited to, all bills, invoices, and/or advertising or marketing materials relating to Bright House Networks, LLC's charging of a "Telecommunications Relay Service Fund contribution" to customers within the city limits of Tampa, Florida, and/or within Hillsborough County, Florida, Pasco County, Florida, Polk County, Florida, and/or Pinellas County, Florida.
- 12. All form service agreements or contracts presented to prospective customers by Bright House Networks, LLC that refer to "Digital Phone" service and/or the rendition of telephone services.
- 13. All documents relating to Bright House Networks, LLC's relationship with or use of the "Public Switched Telephone Network."
- 14. All documents relating to all of Bright House Networks, LLC's or Time Warner Telecom's representations or certifications to the Federal Communications Commission and/or the Florida Public Service Commission and/or any other federal or state governmental entity concerning the rendition of telecommunications or telephone services and/or cable television services in the State of Florida.

- 15. All documents relating to Bright House Networks, LLC's or Time Warner Telecom's application to the Florida Public Service Commission and/or any other federal or state governmental entity to provide telecommunications services within the State of Florida.
- 16. All documents relating to Bright House Networks, LLC's practice of labeling any of its equipment in the State of Florida with a telephone symbol.
- 17. All documents relating to "Capacity License Agreements" entered into, at any time, including, but not limited to, July 1, 1998, by either Time Warner Telecom or Bright House Networks, LLC.
- 18. All documents relating to negotiations (whether prospective or contemplated negotiations, or negotiations that actually took place) concerning pole attachments between Bright House Networks, LLC and Tampa Electric pursuant to any contract, including, but not limited, to a letter dated February 18, 2003.
- 19. All documents of Bright House Networks, LLC relating to Tampa Electric's "standard terms and conditions," attached as Exhibit C to the Complaint.
- 20. All documents relating to any contracts, agreements, and/or negotiations between Bright House Networks, LLC and Time Warner Telecom that concern or evidence Time Warner Telecom's use of Bright House Networks, LLC's utility pole attachments within the city limits of Tampa, Florida, and/or

within Hillsborough County, Florida, Pasco County, Florida, Polk County, Florida, and/or Pinellas County, Florida.

21. All documents relating to any contracts, agreements, and/or negotiations entered into between Bright House Networks, LLC and any federal or state governmental agency that concern Bright House Networks, LLC's efforts or attempts to obtain authorization to market and/or sell its "Digital Phone," telecommunications, or telephone service within the State of Florida.

Respectfully submitted this 6th day of February, 2006.

ATTORNEYS FOR TAMPA ELECTRIC COMPANY

00004-071^D REQUEST FOR PRODUCTION 2-2-06

EXHIBIT 6

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT IN AND FOR HILLSBOROUGH COUNTY, FLORIDA

TAMPA ELECTRIC COMPANY, a Florida corporation,)
Plaintiff,)
v.) Case No. 06-00819) Division B
BRIGHT HOUSE NETWORKS, LLC,)
Defendant.) _)

TAMPA ELECTRIC COMPANY'S FIRST REQUEST FOR ADMISSIONS TO BRIGHT HOUSE NETWORKS, LLC

Pursuant to Rule 1.370, Florida Rules of Civil Procedure, Tampa Electric Company, a Florida corporation ("Tampa Electric") requests Bright House Networks, LLC ("Bright House") to admit or deny the following request for admissions within 45 days after service of the Summons and Complaint in this action:

- 1. Admit that Bright House is using attachments to Tampa Electric utility poles to provide telecommunications services to Bright House's customers.
- 2. Admit that Bright House is advertising its telephone service as a traditional telecommunications service.
- 3. Admit that Bright House is advertising the availability of its telecommunication service throughout its service territory in Florida.

- 4. Admit that Bright House offers its digital telephone service to customers in combination with other services, including digital cable television and high speed Internet service.
- 5. Admit that Bright House advertises its digital telephone service as part of a package service known as "Digital Combo Plus."
- 6. Admit that Bright House advertises its digital telephone service as providing unlimited local and long distance calling within the United States.
- 7. Admit that Bright House advertises its digital telephone service as providing free voice mail.
- 8. Admit that Bright House advertises its digital telephone service as providing free caller I.D.
- 9. Admit that Bright House advertises its digital telephone service as providing free call waiting.
- 10. Admit that Bright House advertises its digital telephone service as providing free call forwarding.
- 11. Admit that Bright House advertises its telecommunications services on its website.
- 12. Admit that Bright House describes its telecommunications services on its website.

- 13. Admit that "Digital Phone" customer service agreements on Bright House's website, http://tampabay.mybrighthouse.com, explicitly refer to Bright House's "Digital Phone" service as "telephone" service.
- 14. Admit that Bright House is marketing itself to customers as a residential telephone service provider.
- 15. Admit that Bright House brands its telecommunications services product as "Digital Phone."
- 16. Admit that Bright House's telephone service does not require the use of any special telephone.
- 17. Admit that Bright House's telephone service does not require its customers to purchase any additional equipment to use the service.
- 18. Admit that Bright House's telephone service will work with telephones that customers already have, including touchtone phones.
- 19. Admit that customers who use Bright House's telephone service can make phone calls the same way they made phone calls before acquiring Bright House telephone service.
- 20. Admit that Bright House intends that its telephone service be perceived by its customers as a traditional telecommunications service.
- 21. Admit that Bright House's billing to its customers includes universal service charges.

- 22. Admit that Bright House Networks Information Services is registered with the Federal Communications Commission (the "FCC") as a telecommunications carrier providing interstate telecommunication service.
- 23. Admit that the FCC's report on Universal Service Funds shows Bright House Networks Information Services as a "telecommunications carrier."
- 24. Admit that the FCC's report on Universal Service Funds confirms that Bright House has paid universal service fund collections into the Universal Service Fund registry.
- 25. Admit that Bright House Networks Information Services is a certificated telecommunications provider with the Florida Public Service Commission.
- 26. Admit that Bright House's "Digital Phone Welcome Guide" states that customer billing will include a "Federal Universal Service Fund" contribution, which is to recover the amount the telecommunications providers must contribute to the Federal Universal Service Fund.
- 27. Admit that the telephone bills that Bright House sends to its digital phone customers include a contribution to the "Telecommunications Relay Service Fund."
- 28. Admit that the Telecommunications Relay Service Fund referred to in the immediate preceding paragraph exists solely to assist people with hearing and speech impairments to communicate with telecommunications services providers.

- 29. Admit that Bright House's "Digital Phone" service operates through the "Public Switched Telephone Network," a concentration of the world's public circuit-switched telephone networks.
- 30. Admit that Bright House has no pole attachment agreement with Tampa Electric that allows for telecommunications attachments.
- 31. Admit that the amount of pole attachment fees that Bright House must pay to Tampa Electric depends on whether the communication lines are being used to provide cable television service, or telecommunications service.
- 32. Admit that the pole attachment fee that Bright House must pay to Tampa Electric for attachments to Tampa Electric poles that are being used to provide cable television service is currently \$5.60 per attachment per year.
- 33. Admit that the pole attachment fee that Bright House must pay to Tampa Electric for attachments to Tampa Electric poles that are being used to provide telecommunications service is currently \$17.67 per attachment per year.
- 34. Admit that Bright House is obligated to pay Tampa Electric a higher rate for attachments to Tampa Electric's utility poles that are used to provide telecommunications, versus cable television, services.
- 35. Admit that Bright House has repeatedly denied to Tampa Electric that its attachments to Tampa Electric's utility poles are ever used to provide telecommunications services.

- 36. Admit that Bright House has represented orally to Tampa Electric on multiple occasions that Bright House's attachments are not used for delivery of telecommunications service.
- 37. Admit that Bright House has represented in writing to Tampa Electric on multiple occasions that Bright House's attachments are not used for delivery of telecommunications service.
- 38. Admit that since the 1960's, Tampa Electric and Bright House and/or Bright House's predecessors have entered into a series of pole attachment agreements under which Tampa Electric allowed Bright House and/or its predecessors to attach communications lines to Tampa Electric's poles for the purpose of delivering cable television services.
- 39. Admit that the pole attachment agreements referred to in the immediate preceding paragraph are attached to the complaint in this action as Exhibit A.
- 40. Admit that the pole attachment agreements with Tampa Electric referred to in the immediately preceding paragraph have always contemplated the use of Bright House's attachments exclusively for delivery of cable television services.
- 41. Admit that the pole attachment agreements with Tampa Electric referred to in the immediately preceding paragraph have never contemplated delivery of telecommunications services.

- 42. Admit that Bright House considers itself to be bound by the pole attachment agreements referred to in the immediately preceding paragraph.
- 43. Admit that in a February 18, 2003 letter to Tampa Electric, attached to the complaint in this action as Exhibit B, Bright House expressly represented that, until the parties explicitly contracted to do so, Bright House's attachments would not be used for the delivery of telecommunications services.
- 44. Admit that Bright House agreed in the February 18, 2003 letter referred to in the immediately preceding paragraph, to immediately begin good faith negotiations to establish a new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory no later than June 1, 2004.
- 45. Admit that Bright House agreed in the February 18, 2003 letter referred to in paragraph 43 above, that the new agreement governing all of Bright House's pole attachments within Tampa Electric's service territory would provide for use of Bright House's attachments for telecommunications, consistent with Tampa Electric's standard terms and conditions.
- 46. Admit that the standard terms and conditions referred to in the immediately preceding paragraph are attached to the complaint in this action as Exhibit C.

- 47. Admit that Tampa Electric attempted to engage Bright House in negotiations to establish a new agreement to govern all of Bright House's pole attachments within Tampa Electric's service area no later than June 1, 2004.
- 48. Admit that Tampa Electric provided Bright House with Tampa Electric's standard terms that are attached to the complaint in this action as Exhibit C.
- 49. Admit that Bright House failed to execute Tampa Electric's standard terms referred to in the immediately preceding paragraph.
- 50. Admit that Bright House failed to negotiate an alternative agreement governing all of Bright House's pole attachments within Tampa Electric's service area by June 1, 2004.
- 51. Admit that Bright House's attachments to Tampa Electric's utility poles have been used to provide telecommunication services for years.
- 52. Admit that Bright House has never notified Tampa Electric that Bright House's has used its attachments to Tampa Electric's utility poles to provide telecommunication services.
- 53. Admit that Bright House has never notified Tampa Electric that Bright House has allowed its attachments to Tampa Electric's utility poles to be used to provide telecommunications services.
- 54. Admit that Bright House has never paid Tampa Electric the appropriate telecommunication service fee for using Bright House's attachments to Tampa

Electric utility poles to provide telecommunication service to Bright House customers.

- 55. Admit that Bright House has never paid Tampa Electric the appropriate telecommunication service fee for allowing Bright House's attachments to Tampa Electric's utility poles to be used to provide telecommunication service to Bright House customers.
- 56. Admit that Bright House's attachments to Tampa Electric's utility poles have been used to carry telecommunications services provided by both Bright House to its customers and by Bright House's affiliate, Time Warner Telecom ("Time Warner"), to its customers.
- 57. Admit that Bright House's attachments to Tampa Electric's utility poles have been used by Time Warner to furnish telecommunications services to Bright House.
- 58. Admit that Bright House's attachments to Tampa Electric's utility poles have been used by Bright House to furnish telecommunications services to Time Warner.
- 59. Admit that Bright House's attachments to Tampa Electric's utility poles have been used by Time Warner and Bright House to furnish telecommunications services on behalf of each other.

- 60. Admit that Time Warner does not have a pole attachment agreement with Tampa Electric.
- 61. Admit that Time Warner has been using Bright House's attachments to Tampa Electric's utility poles to deliver telecommunications services to Time Warner's customers with Bright House's knowledge and consent.
- 62. Admit that Bright House has never disclosed to Tampa Electric that Bright House's attachments to Tampa Electric's utility poles have been used for delivery of telecommunications service by Time Warner.
- 63. Admit that Bright House has never disclosed to Tampa Electric that Bright House's attachments to Tampa Electric's utility poles were being used for delivery of telecommunications service by Time Warner.
- 64. Admit that one of Bright House's predecessors, Time Warner Cable, entered into a July 1, 1998 "Capacity License Agreement" with Time Warner Telecom, which provided that Time Warner Telecom would use Time Warner Cable's fiber optic communications lines in the Tampa area for delivery of telecommunications services.
- 65. Admit that Bright House is a party to the agreement referred to in the immediate preceding paragraph or to a similar agreement.

- 66. Admit that the fiber optic communications lines referenced in the agreement referred to paragraph 64 above are located, in whole or in part, on Tampa Electric's poles.
- 67. Admit that Bright House withheld notifying Tampa Electric that Bright House's attachments were being used to deliver telecommunications services so as to induce Tampa Electric to continue to charge Bright House the lower cable television rental fee, versus the higher telecommunications rental fee.
- 68. Admit that in various field installations, Bright House has adopted the practice of labeling certain items of equipment with a telephone symbol.
- 69. Admit that Bright House has adopted the practice of labeling certain items of equipment in various field installations so as to enable Bright House personnel to distinguish them from Bright House's cable television equipment.
- 70. Admit that Bright House has filed a tariff with the Florida Public Service Commission describing its telecommunications services.
- 71. Admit that Time Warner has filed a tariff with the Florida Public Service Commission describing its telecommunications services.
- 72. Admit that Tampa Electric conferred upon Bright House a benefit when Bright House used, or allowed the use of, its attachments to Tampa Electric's poles to deliver telecommunications service.

- 73. Admit that Bright House received a benefit when Bright House used, or allowed the use of, its attachments to Tampa Electric's poles to deliver telecommunications service.
- 74. Admit that Bright House accepted a benefit when Bright House used, or allowed the use of, its attachments to Tampa Electric's poles to deliver telecommunications service.

Respectfully submitted this 6th day of February, 2006.

RE: Bright House Networks And Tampa Electric Company

Dear Mr. Hooker.

As you may be aware, this firm is counsel to Bright House Networks ("BHN"), which is currently in the process of addressing issues raised in the action recently filed in Florida state court styled Tampa Electric Company v. Bright House Networks, LLC, Case No. 06-00819, Division B in the Circuit Court of the Thirteenth Judicial Circuit in and for Hillsborough County, Florida

You have identified in your complaint that there are certain BHN facilities attached to the poles of Tampa Electric Company ("TECO") used by one of BHN's customers, telecommunications carrier Time Warner Telecom ("TWT"), that TWT is using to provide telecommunications services. For those poles, we believe that TECO may be entitled to charge the FCC's telecommunications rate.

BHN has identified that there are presently 7,875 such poles and is prepared to compensate TECO for these poles for the difference between the maximum rate calculated under 47 U.S.C. § 22-1(e) ("telecom rate"), for the years 2001-2005, and the rate that TECO has charged BHN for the use of these poles.

We do not believe, however, that TECO has correctly calculated the telecommunications pole attachment rate. Rather than the \$17.87 rate TECO has asserted, we believe that the proper rate for the current year is no greater than \$8.56 per pole, and may in fact be less. Nevertheless, in the interest of simplifying and narrowing the dispute between BHN and TECO, BHN is prepared to pay TECO the amount of \$67,791.20 we calculated as set forth in the attached schedule A. If we ultimately agree — or if a tribunal of competent authority ultimately decides — that the amounts owed for these 7,375 poles is

greater, or lesser, than the amounts set forth in schedule A. BHN would be agreeable to a true up of such amounts.

Thank you for your consideration. I look forward to speaking with you.

Sincerely,

J. D. Thomas

EXHIBIT'S

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT IN AND FOR HILLSBOROUGH COUNTY, FLORIDA

TAMPA ELECTRIC COMPANY, a Florida corporation,

Plaintiff.

v.

Case No.: 06-00819

BRIGHT HOUSE NETWORKS, LLC.

Defendant.

BRIGHT HOUSE NETWORKS, LLC'S OBJECTION TO PLAINTIFF'S DISCOVERY

Defendant, Bright House Networks, LLC ("Bright House"), through its undersigned counsel, Ruden, McClosky, Smith, Schuster and Russell, P.A., hereby objects to Plaintiff's request for production and request for admissions dated February 6, 2006. The primary basis of the objection is that Bright House has moved to dismiss and/or stay this case based on lack of subject matter jurisdiction because the subject matter of this suit is presently the subject of a pending rulemaking and multiple complaint proceedings before the Federal Communications Commission, which has exclusive and primary jurisdiction to resolve the issue of national communications policy on which all of Plaintiff Tampa Electric Company's claims turn. In further support thereof, states as follows.

- 1. On January 30, 2006 Plaintiff filed its complaint against Bright House.
- 2. Contemporaneously with the serving of its complaint on Bright House, Plaintiff served its first request for production and first request for admissions. Plaintiff's admissions total seventy-four (74)¹ and Plaintiff's request for the production of documents spans no less than

DEGETYED MAR 17 2006

¹ Notably, the Florida Rules of Civil Procedure provide that a "request for admission shall not exceed 30 requests, including all subparts." Fla. R. Civ. P. 1.370(a). Plaintiff has not been granted leave (nor has it

twenty-one (21) broad categories of documents. Thus, Plaintiff's discovery is hardly insubstantial.

- 3. Plaintiff's suit, however, is not a simple contract or collections case as it might appear at first blush.
- 4. Instead, its claim that Bright House has failed to pay the proper pole-attachment rate for attachments used to provide Voice over Internet Protocol ("VoIP") service strikes at the heart of complex and nuanced matters of national communications policy within the exclusive jurisdiction of the expert agency that Congress designated to regulate pole-attachment rates, terms and conditions: The Federal Communications Commission ("FCC"). Specifically, Plaintiff's entire lawsuit turns on the proper regulatory classification of VoIP service provided by cable television operators like Bright House. That fundamental legal and policy question i.e., whether VoIP service is a "cable service," a "telecommunications service," an "information service" or something else altogether is currently before the Commission in multiple adjudicatory and rulemaking proceedings and its resolution must precede any determination concerning the pole-attachment rental rate under Sections 224 of the Communications Act, 47 U.S.C. § 224(d) and (e), appropriate for cable television system attachments used for VoIP service.
- 5. Accordingly, on February 21, 2006, Bright House filed its motion to dismiss or stay this action explaining in detail the federal regulatory matters at issue and the FCC's exclusive jurisdiction under the Federal Pole Attachment Act to address them. 47 U.S.C. § 224(d).

even sought leave) to exceed the maximum number of admissions allowed. Bright House further objects to Plaintiff's request for admissions on this ground.

- 6. Bright House noticed its motion to dismiss for hearing on the first date that the Court had sufficient time available to address this complex matter and this hearing is presently set for June 22, 2006. A copy of the notice of hearing is attached hereto as Exhibit A.
- 7. Given the significant and complex federal issues involved, Bright House should not be required to respond to Plaintiff's discovery until its pending motion to dismiss is resolved in a few weeks.
- 8. Plaintiff will suffer no prejudice by having to wait until the June 22, 2006, hearing, especially in light of the fact that Plaintiff concedes in its complaint that this alleged dispute between the parties has been ongoing for several years now and can hardly be characterized as an emergency. To the extent Plaintiff may claim that this matter has suddenly become urgent, such urgency would be outweighed by the potential undue prejudice of forcing Bright House to engage in substantial discovery in an inappropriate forum and in advance of the FCC's consideration of the very issue underlying Plaintiff's Complaint. In fact, the Commission is considering this issue in the context of this very dispute. On February 27, 2006, Bright House filed a Pole-Attachment Complaint with the FCC pursuant to Section 224 of the Federal Communications Act, 47 U.S.C. § 224, regarding the same issues raised by Plaintiff's Complaint. Plaintiff must answer that Complaint by March 29, 2006.

RE: Tampa Electric Company

Dear Mr. Hooker:

As counsel to Bright House Networks ("BHN"), and pursuant to 47 C.F.R. 1.1404(j), the purpose of this letter is to request that Tampa Electric Company ("TECO") provide me with copies of TECO's rate calculations—including all source data—for pole-attachment rentals it seeks to charge BHN. In addition, please provide us with TECO's continuing property records as may pertain to TECO's pole and pole-related investments, its current total number of utility poles in service, and any and all records and other material indicating the amounts that TECO has booked to FERC Account 864 that consists of equipment other than poles, anchors and guys for the years 2000, 2001, 2002, 2003, 2004 and 2005.

Please forward the requested information to me at your earliest convenience, but in no case later than March 20, 2006.

Sincerely,

J. D. Thomas

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT IN AND FOR HILLSBOROUGH COUNTY, FLORIDA

TAMPA ELECTRIC COMPANY, A Florida Corporation

Plaintiff;

CASE NO. 06-00819

V

BRIGHT HOUSE NETWORKS, LLC

Defendant.

COPY MAILED TO CLIENT

DEFENDANT'S MOTION TO DISMISS OR STAY

Pursuant to Florida Rule of Civil Procedure 1.140, see Fla. R. Civ. P. 1.140(b), Defendant Bright House Networks, LLC ("BHN"), moves to dismiss or stay the four-count complaint that Plaintiff Tampa Electric Company ("TECO") filed in this Court on January 20, 2006. The basis for this motion is that this Court lacks subject matter jurisdiction over this dispute and, even if it has jurisdiction, the Court should decline to exercise it and instead defer to administrative rulemaking and complaint proceedings at the Federal Communications Commission ("Commission" or "FCC") addressing the exact issue raised by TECO's complaint. If the Court concludes that it lacks subject matter jurisdiction, it must dismiss TECO's suit with prejudice. But if it finds that it has jurisdiction, it should nevertheless dismiss TECO's complaint without prejudice or suspend these proceedings until the related FCC matters are concluded.

1. TECO's suit is not a simple contract or collections case, but a matter touching on complex and nuanced matters of national communications policy exclusively under the jurisdiction of the FCC. This case turns on the central federal question of the proper FCC regulatory classification of Voice over Internet Protocol ("VoIP") services provided by cable

TPA:418643:1 \\\DC-87498/011 - 2259980 +1 DEGEOVE FEB 2 2 2006 television operators like BHN. More specifically, it turns on what pole-attachment rental rate under the federal Communications Act, 47 U.S.C. § 224(d) and (e), should apply to cable television system attachments used for such service. TECO alleges that BHN has failed to pay the proper rental amount for certain attachments made to its utility poles to deliver communications services based on its theory that, because BHN uses its attachments to TECO's utility poles to provide a "Digital Phone" offering, those attachments are subject to the higher "telecommunications" pole-attachment rental formula established under 47 U.S.C. § 224(d) and FCC implementing regulations. But whether VoIP service is properly classified for regulatory purposes as a "cable service," a "telecommunications service," an "information service" or something else, let alone what pole attachment rate applies to cable system pole attachments carrying such service, is not a question that this or any court yet can answer.

2. The Federal Pole Attachment Act confers on the FCC – and the FCC alone – exclusive jurisdiction over the regulation of pole attachment matters, including whether VoIP service, such as BHN's "Digital Phone" service, is a "telecommunications service" subject to the higher "telecommunications" pole attachment rate. The Communications Act provides that "the FCC shall regulate the rates, terms, and conditions for pole attachments to provide that such rates, terms, and conditions are just and reasonable," 47 U.S.C. § 224(b)(1), but also contains a reverse pre-emption mechanism allowing a state to replace the Commission's jurisdiction if the state's public utility commission certifies that it regulates pole attachment matters. See 47 U.S.C. 224(c); 47 C.F.R. § 1.1414. Florida's Public Service Commission, however, is not among the small number of States that have so certified. Accordingly, the FCC retains jurisdiction over utility pole attachment practices in this State. See States That Have Certified That They Regulate Pole Attachments, 7 FCC Rcd. 1498 (1992).

The FCC's jurisdiction over pole attachment disputes is robust and long-standing. The Commission is empowered to strike down pole attachment rates, terms or conditions that it determines to be unjust or unreasonable – even ones set forth in otherwise enforceable agreements. See Mile Hi Cable Partners, L.P. v. Pub. Serv. Co. of Colo., 17 FCC Rcd. 6268, ¶2 (2002), review denied sub nom. Pub. Serv. Co. of Colo. v. FCC, 328 F.3d 675 (D.C. Cir. 2003); Amendment of the Rules & Policies Governing the Attachment of Cable Television Hardware to Util. Poles, Memorandum Order & Opinion on Reconsideration, 4 FCC Rcd. 468, 471 (1989). The Commission has the power to invalidate excessive bills or charges levied on attaching parties or, alternatively, to order refunds. See Cable Texas, Inc. v. Entergy Servs., Inc., 14 FCC Rcd 6647, ¶9 (1999). And it even allows the FCC to entertain issues of contract interpretation – such as the one made by TECO – that involve an unjust or unreasonable rate, term or condition of pole attachment.

3. As the expert agency that Congress designated to regulate the rates, terms and conditions of pole attachments and to oversee our national communications policy, the answer to the question whether cable VoIP service such as "Digital Phone" constitutes a "cable service," a "telecommunications service," or an "information service," as those terms are defined by the Telecommunications Act of 1996, must come from the Commission – not this or any other state or federal court. And that question – i.e., the proper classification of cable VoIP service for regulatory purposes and the pole attachment rate to be applied to cable system attachments providing such service – is one that the FCC is currently addressing, in both rulemaking and adjudicatory matters.

For example, the Commission has ongoing a comprehensive rulemaking proceeding to consider the regulatory classification all Internet Protocol-enabled services, including VoIP

service. See In the Matter of IP-Enabled Services, Notice of Proposed Rulemaking, 19 FCC Red 4863 (2004). The proper pole attachment rate for cable VoIP service in particular has also been joined in multiple pole-attachment complaints currently pending before the Commission, including one filed by BHN against TECO concerning the same subject matter as its Complaint in this docket. See Bright House Networks, LLC v. Tampa Elec. Co., File No. EB-MD-__ (filed Feb. 21, 2006); Charter Communications Inc. v. Union Electric Co d/b/a AmerenUE, File No. EB-05-MD-030 (filed Nov. 30, 2005).

- 4. TECO nevertheless seeks to bypass the FCC's consideration of this important issue by asking this Court be the first authority to decide it. But this Court must not. Because the FCC alone is entrusted with both the responsibility for regulating the rates, terms and conditions of pole attachments and for setting national communications policy through implementation and enforcement of the Communications Act, its exclusive jurisdiction over the issue underlying the current dispute between BHN and TECO supplants the subject matter jurisdiction of this Court over TECO's compleint. In any event, this Court lacks subject matter jurisdiction for the additional reason that the Communications Act preempts TECO's state law claims.
- 5. Alternatively, pursuant to the doctrine of primary jurisdiction, this Court should dismiss TECO's Complaint, or, at a minimum, stay this proceeding until the FCC has issued an order in its IP-enabled service rulemaking proceeding or has resolved BHN's complaint now pending before it. Because TECO's complaint rests on policy-laden issues implicating technical, economic, legal as well as public policy considerations, deferring to the FCC's expertise and experience adjudicating pole attachment disputes and related federal considerations will promote consistency and uniformity in federal communications law and policy. To do otherwise would

compromise the Commission's ability to resolve the dispute between TECO and BHN currently pending before it, similar disputes between other parties, as well as frustrate its broader national pole-attachment and communications policy objectives.

WC Docket No. 05-196

E911 COMPLIANCE LETTER

Bright House Networks, LLC ("BHN") hereby files its E911 Compliance Letter, as required in the Commission's recent order regarding interconnected voice over Internet protocol ("VoIP") E911 requirements.\(^1\) The foremost concern of the Commission in adopting its order was to address the specific challenges in providing E911 service in the context of "portable" or "nomadic" VoIP services. As explained in more detail in its August 10th Subscriber Notification Report, however, BHN's operations are so different from the portable services which were the focus of the order that it is not readily apparent that the order's requirements actually apply to BHN.\(^2\) (A copy of BHN's August 10th report is attached hereto.) Nonetheless, out of an abundance of caution, BHN submits this filing.

In Re IP-Enabled Services, E911 Requirements for IP-Enabled Service Providers, First Report and Order and Notice of Proposed Rulemaking, 20 FCC Rcd 10245 (FCC rel. June 3, 2005) (hereinafter "Order") at ¶ 50-51; Enforcement Bureau Outlines Requirements of November 28, 2005 Interconnected Voice Over Internet Protocol 911 Compliance Letters, Public Notice, DA 05-2945 (EB rel. Nov. 7, 2005) (hereinafter "Public Notice").

² In Re IP-Enabled Services, E911 Requirements for IP-Enabled Service Providers, Subscriber Notification Report, Bright House Networks, LLC (filed Aug. 10, 2005) (hereinafter "August 10th Report).

I. BHN HAS PROVIDED E911 SERVICES SINCE LAUNCH

BHN has provided E911 service—and has provided its subscribers with ample information regarding its E911 service—since the launch of its VoIP service in the summer of 2004. BHN's VoIP customer agreement specifically states that if the customer moves his or her service without notifying BHN, that emergency services may be dispatched to the original service address, and that the Digital Phone service is not separately powered. The customer must acknowledge these E911-specific provisions by signing the customer agreement. In sum, BHN long ago addressed the policy objectives of the order without prompting from the Commission.

II. SPECIFIC RESPONSES TO THE PUBLIC NOTICE

In the Public Notice, the Enforcement Bureau asked VoIP providers to provide the information in bold text below. BHN has responded to these items in the order listed in the Public Notice.

1. 911 Solution: This description should include a quantification, on a percentage basis, of the number of subscribers to whom the provider is able to provide 911 service in compliance with the rules established in the VoIP 911 Order.

BHN is able to provide 911 service in compliance with the rules established in the VoIP 911 Order to 100% of its subscribers.

- 2. The detailed description of the technical solution should include the following components:
 - 2.a. 911 Routing Information/Connectivity to Wireline E911 Network: A detailed statement as to whether the provider is transmitting, as specified in Paragraph 42 of the VoIP 911 Order, "all 911 calls to the appropriate PSAP, designated statewide default answering point, or appropriate local emergency authority utilizing the Selective Router, the trunk line(s) between the Selective Router and the PSAP, and such other elements of the Wireline E911 Network as are necessary in those

areas where Selective Routers are utilized." If the provider is not transmitting all 911 calls to the correct answering point in areas where Selective Routers are utilized, this statement should include a detailed explanation why not. In addition, the provider should quantify the number of Selective Routers to which it has interconnected, directly or indirectly, as of November 28, 2005.

BHN transmits all 911 calls to the appropriate public safety answering point ("PSAP"), designated statewide default answering point or appropriate local emergency authority, and in so doing, utilizes the Selective Router, the trunk line(s) between the Selective Router and the PSAP and other elements of the Wireline E911 network as necessary in areas where Selective Routers are used. In other words, BHN transmits all 911 calls in accordance with paragraph 42 of the Commission's Order. Finally, BHN has interconnected with sixteen Selective Routers as of November 28, 2005.

2.b. Transmission of ANI and Registered Location Information: A detailed statement as to whether the provider is transmitting via the Wireline E911 Network the 911 caller's ANI and Registered Location to all answering points that are capable of receiving and processing this information. This information should include: (i) a quantification, on a percentage basis, of how many answering points within the provider's service area are capable of receiving and processing ANI and Registered Location information that the provider transmits; (ii) a quantification of the number of subscribers, on a percentage basis, whose ANI and Registered Location are being transmitted to answering points that are capable of receiving and processing this information; and (iii) if the provider is not transmitting the 911 caller's ANI and Registered Location to all answering points that are capable of receiving and processing this information, a detailed explanation why not.

BHN transmits, via the wireline E911 network, the 911 caller's ANI and Registered Location to all answering points that are capable of receiving and processing this information. 100% of the answering points in BHN's service area are capable of receiving and processing ANI and Registered Location information transmitted by BHN.

BHN E911 Compliance Letter

The ANI and Registered Location information of 100% of BHN subscribers are transmitted to the answering points in BHN's service area that are capable of receiving and processing this information.

2.c. 911 Coverage: To the extent a provider has not achieved full 911 compliance with the requirements of the VoIP 911 Order in all areas of the country by November 28, 2005, the provider should: 1) describe in detail, either in narrative form or by map, the areas of the country, on a MSA basis, where it is in full compliance and those in which it is not; and 2) describe in detail its plans for coming into full compliance with the requirements of the order, including its anticipated timeframe for such compliance.

BHN has achieved full 911 compliance with the requirements of the VoIP 911

Order in all areas of the country.

3. Obtaining Initial Registered Location Information: A detailed description of all actions the provider has taken to obtain each existing subscriber's current Registered Location and each new subscriber's initial Registered Location. This information should include, but is not limited to, relevant dates and methods of contact with subscribers and a quantification, on a percentage basis, of the number of subscribers from whom the provider has obtained the Registered Location.

BHN has obtained the Registered Location for 100% of its subscribers. Since the launch of its VoIP service in the summer of 2004, the subscriber's initial Registered Location is obtained at the time of installation, by filling out the BHN work order. All subscribers were notified via the work order that they must notify BHN of any change of address for E911 purposes. See detailed description of work order in August 10th report at 4. Moreover, BHN subscribers can update their Registered Location at any time by calling the general customer service telephone number, or through the BHN website.

4. Obtaining Updated Registered Location Information: A detailed description of the method(s) the provider has offered its subscribers to update their Registered Locations. This information should include a statement as to whether the provider is offering its subscribers at least one option for updating their Registered Location that permits them to use the same equipment that they use to access their interconnected VoIP service.

BHN subscribers can update their Registered Location at any time by calling the general customer service telephone number, which provides subscribers a means of updating their Registered Location information that involves the use of the same equipment they use to access their BHN Digital Phone service, *i.e.*, their cable modem, multimedia terminal adapter and telephone. As noted above, subscribers may also update their Registered Location information by filing out a form on the BHN website.

5. Technical Solution for Nomadic Subscribers: A detailed description of any technical solutions the provider is implementing or has implemented to ensure that subscribers have access to 911 service whenever they use their service nomadically. Providers should include in their November 28, 2005, Compliance Letters a detailed statement as to whether and how they have implemented measures such as AT&T, MCI and Verizon's automatic location detection mechanisms.

As explained above and in BHN's August 10th report, BHN does not provide a "nomadic" VoIP service. Nomadic providers specifically market their services as being easily moved to a new physical location.³ Quite to the contrary, BHN requires its subscribers (through a condition imposed in the subscriber agreement) not to move their VoIP service without prior notice to BHN. In any case, BHN is not aware of any subscriber moves without prior notice to BHN; BHN has provided ample subscriber notice, as set forth in its previous reports to the Commission, regarding the importance of

Order at ¶ 25.

BHN E911 Compliance Letter

keeping current the subscriber's Registered Location information;4 and BHN has provided subscribers with multiple ways of updating their Registered Location information as discussed above. For these reasons, BHN has no current plans to implement an automatic detection technology, which is still being developed by the industry. That being said, BHN is actively monitoring the development of these technologies because they have real potential to reduce BHN's administrative costs in updating address information.

SUBSCRIBER NOTIFICATION REPORT

Bright House Networks, LLC ("BHN") hereby files its E911 Subscriber Notification Report, required as a condition of extending to August 29, 2005 the deadline for the subscriber acknowledgement requirements set forth in the Commission's recent order regarding interconnected voice over Internet protocol ("VoIP") E911 requirements. In order to qualify for the extension, interconnected VoIP providers must file a report by August 10 detailing the actions they have taken to (1) advise subscribers of any limitations of their E911 service, (2) obtain subscriber acknowledgement that the subscriber received and understood the advisory, and (3) distribute the required warning stickers.²

In addition, this filing provides important information about BHN's operations that distinguishes it from the "portable" interconnected VoIP providers that were the focus of

In Re IP-Enabled Services, E911 Requirements for IP-Enabled Service Providers, First Report and Order and Notice of Proposed Rulemaking, 20 PCC Red 10245 (PCC rel. June 3, 2005) (hereinafter "Order") at \$\mathbb{M}\$ 47-49 (requiring interconnected VoIP providers to provide a subscriber advisory and obtain subscriber acknowledgment of the advisory); Enforcement Bureau Provides Guidance to Interconnected Voice over Internet Protocol Service Providers Concerning the July 29, 2005 Subscriber Notification Deadlines, Public Notice, DA 05-2085 (PCC rel. July 26, 2005) at 2 (extending the deadline for obtaining subscriber acknowledgement to August 29, 2005).

² Id. BHN has provided this specific information beginning at page 3 herein.

the Commission's order. Indeed, BHN's operations are so different from the portable services described in the order that it is not readily apparent that the order's requirements actually apply to BHN. Nonetheless, out of an abundance of caution, and in order to provide the Commission with additional information about the diversity of VoIP services now being offered in the market, BHN submits this filing.

L BHN'S VOIP SERVICE IS NOT A "PORTABLE" SERVICE

address the challenges posed by "portable" VoIP services, which specifically market their services as being easily moved to a new physical location.³ These services pose certain challenges for the proper functioning of E911 service. BHN's Digital Phone VoIP service, on the other hand, is not a "portable" service. While it is technically possible for a BHN subscriber to move his or her cable modem and other VoIP customer premise equipment to an address other than the original service address, it is relatively rare for BHN subscribers to do so. In any case, BHN requires its subscribers (through a condition in its subscriber agreement) not to move their service without prior notice to BHN, and BHN is not aware of any subscriber moves without prior notice to BHN. Finally, BHN's Digital Phone service is not marketed as a portable service. Vonage, on the other hand, expressly markets the ability of its customers to easily and frequently move its service to different locations, even on a short-term basis.⁴ Thus, the risk of improper handling of E911 calls from BHN subscribers is minimal.

Order at \$25 (finding that "portable" VoIP services can be used from any broadband connection and that providers of these services "often have no reliable way to discern from where their customers are accessing the VoIP service.") The Commission has found that Vonage, for example, offers a "portable" VoIP service. Id at \$20. As explained herein, however, BHN's service is very different from Vonage's.

service. Id. at ¶ 20. As explained herein, however, BHN's service is very different from Vonage's.

*Vonage website at http://www.yonage.com/features.php?feature=traveling (last visited Aug. 3. 2005) (advising customers that "[w]hen visiting family, going on vacation or traveling for business, you can make

The Commission was also concerned about interconnected VoIP providers that offered no E911 service at all. BHN has provided E911 service—and has provided its subscribers with ample information regarding its E911 service—since the launch of its VoIP service in the summer of 2004. BHN's VoIP customer agreement specifically states that if the customer moves his or her service without notifying BHN, that emergency services may be dispatched to the original service address, and that the Digital Phone service is not separately powered. The customer must acknowledge these E911-specific provisions by signing the customer agreement. In sum, BHN long ago addressed the policy objectives of the order without prompting from the Commission.

II. SPECIFIC RESPONSES TO THE COMMISSION'S PUBLIC NOTICE

In its VoIP E911 Public Notice, the Commission asked filing VoIP providers to provide the information in bold text below. BHN has responded to these items in the order listed in the Public Notice.

1. A detailed description of all actions the provider has taken to specifically advise every subscriber, prominently and in plain language, of the circumstances under which E911 service may not be available through the interconnected VoIP service and/or may be in some way limited by comparison to traditional E911 service. This information should include, but is not limited to, relevant dates and methods of contact with subscribers (i.e., e-mail, U.S. mail).

BHN has provided the requisite B911 advisory to its subscribers by the following means: the work order agreement presented at the time of installation; mailings consisting

and receive calls from one convenient Vonage number. Vonage gives you unparalleled choice and control over where and how you use your phone.")

of a flyer and return postcard; stickers; email; direct phone contact (beginning August 22, 2005); and the BHN website.

BHN work orders, presented at the time of installation, have contained E911 advisory language since the launch of its VoIP service in the summer of 2004. BHN work orders will now contain the language quoted below to ensure that the advisory language is plain and prominent across all company divisions. The new BHN work orders contain the following language above the signature line:

I (the customer)...ACKNOWLEDGE THAT I HAVE CAREFULLY READ THE FRONT AND BACK OF THIS FORM, AND THAT IF I AM A DIGITAL PHONE CUSTOMER I EXPRESSLY ACKNOWLEDGE THAT I HAVE READ AND UNDERSTAND BHN'S E911 NOTICE ON THE BACK OF THIS FORM...

The back of the new work order provides more details regarding BHN's E911 service. Specifically, it states:

DIGITAL PHONE E911 NOTICE

I am aware that Enhanced 911 (E911) is a required feature of Bright House Networks Digital Phone. I expressly acknowledge that the Digital Phone is not a powered service. This means that in the event of an extended electrical power failure and/or if Bright House Networks cable network is not operating, then access to E911 services will not be available. I understand that the address associated with an E911 call is the authorized address where service was originally provided. If: I move my voice-enabled modern to another location, I understand that I must notify Bright House Networks of my new address. I expressly acknowledge that if I move my voice-enabled modern to a different address, without first notifying Bright House Networks, then all E911 calls that I make may result in emergency services being dispatched to my original service address. I understand that if my Digital Phone service is disconnected for any reason, then my E911 service will also be disconnected.

In order to ensure that subscribers were properly advised in accordance with the Commission's orders, certain subscribers were also sent via U.S. mail on July 29, 2005 a one page flyer/return postcard advising them of the following:

- E911 is designed to give emergency operators the exact location where urgent calls originate. These capabilities have been available to you since installation of Digital Phone
- Moving your modem from the original service address without notifying us could
 result in dispatching emergency services to the wrong location. Please contact
 Bright House Networks before moving the modem to a new address
- If there is no dial tone due to an extended electrical power failure and/or a network outage, E911 services will not be available
- If your Digital Phone service is disconnected for any reason, E911 service will also be disconnected

The subscriber is provided with an acknowledgment form at the bottom of the page on which this language appears. The acknowledgement form states "[b]y signing below, I acknowledge that I have received and reviewed this information and understand the E911 notice stated above." It then asks the subscriber to provide his or her name, signature, date of the signature and BHN phone number. The acknowledgement form then detaches from the advisory, thereby becoming a self-addressed, U.S. mail postage-paid postcard for return to BHN. Subscribers are instructed to detach, sign and mail the postcard to BHN. On the opposite side of the flyer, BHN included the following language in large, bold font "IMPORTANT The FCC has issued new 911 requirements. Your immediate response is required."

BHN has also distributed the required warning stickers to subscribers via U.S. mail.

The stickers measure three-by-one inches and include the following warning:

E911 INFORMATION

- Contact Bright House Networks if you plan to move the Digital Phone modern to a different address. Failure to do so may result in emergency services being dispatched to the wrong address.
- E911 service may not be available during power or network outages.

Just above the sticker, BHN included language instructing subscribers to "[p]lace this label on or near your Digital Phone modem."

BHN also sent emails to subscribers from whom it had not received acknowledgement by August 9, 2005, and will contact by phone the remaining non-responsive subscribers beginning August 22, 2005 to provide an oral advisory and record an oral acknowledgement.⁵

BHN's website has also provided subscribers with information on E911 since launch of the service. Subscribers may provide acknowledgement via the website.

A quantification of how many of the provider's subscribers, on a
percentage basis, have submitted an affirmative acknowledgement, as of
the date of the report, and an estimation of the percentage of subscribers
from whom they do not expect to receive an acknowledgement by August
29, 2005.

As of August 10, 2005, BHN estimates that it has received an affirmative acknowledgement from approximately 63% of its subscribers in the form of a signed work form, a returned postcard, or via its website as described above. By August, 29, 2005, BHN estimates that it will have received an affirmative written or oral acknowledgement from approximately 80% of its subscribers. For the remaining 20% of subscribers, BHN will continue to try to obtain written or oral affirmation before the August 30 disconnection deadline.

BHN obtains prior consent from the subscriber to record the conversation.

The acknowledgement form is found at http://e911.mybrighthouse.com/911/.

3. A detailed description of whether and how the provider has distributed to all subscribers warning stickers or other appropriate labels warning subscribers if E911 service may be limited or not available and instructing the subscriber to place them on and/or near the customer premises equipment used in connection with the interconnected VoIP service. This information should include, but is not limited to, relevant dates and methods of contact with subscribers (i.e., e-mail, U. S. mail).

BHN distributed appropriate warning stickers to all VoIP subscribers via U.S. mail on August 2, 2005. As described above, the stickers measure three-by-one inches and include the following warning:

E911 INFORMATION

- Contact Bright House Networks if you plan to move the Digital Phone modem to a different address. Failure to do so may result in emergency services being dispatched to the wrong address.
- E911 service may not be available during power or network outages.

Just above the sticker, BHN included language instructing subscribers to "[p]lace this label on or near your Digital Phone modem."

4. A quantification of how many subscribers, on a percentage basis, to whom the provider did not send the advisory described in the first bullet above and/or to whom the provider did not send warning stickers or other appropriate label as identified in the bullet immediately above.

To BHN's reasonable belief and knowledge, 0% of its subscribers did not receive the advisory described above, and 0% were not provided warning stickers.

5. A detailed description of any and all actions the provider plans on taking towards any of its subscribers that do not affirmatively acknowledge having received and understood the advisory, including, but not limited to, disconnecting the subscriber's VoIP service with the Company no later than August 30, 2005.

As described above, if BHN did not receive a signed work order, signed postcard or website acknowledgement from the subscriber, it sent a follow up email. If by August 22, 2005 the subscriber still has not provided acknowledgement, BHN will call the subscriber to obtain oral acknowledgement, and will continue to do so before the August 30, 2005 disconnection deadline.

6. A detailed description of how the provider is currently maintaining any acknowledgements received from its subscribers.

Acknowledgements received in the form of work orders and returned postcards are scanned into electronic files and the paper copies are stored in a warehouse. Acknowledgements received through the website are saved in electronic files. Oral advisories and acknowledgements are recorded and saved in electronic files. BHN's billing database also keeps a record of the manner in which the subscriber provided acknowledgement (i.e., work order, postcard, website, oral).

7. The name, title, address, phone number, and e-mail address of the person(s) responsible for the Company's compliance efforts with the VoIP E911 Order.

The person responsible for BHN's company-wide compliance efforts with the Commission's interconnected VoIP E911 order is:

.iS

TARIFF FORMAT SHEETS

- A. Sheet Numbering Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the FPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.

2.1.

2.1.1.

2.1.1.A.

2.1.1.A.1.

2.1.1.A.1.(a).

2.1,1,A,1.(a).I. 2.1,1,A,1.(a).L(i).

2.1.1.A.1.(a).L(i).(1).

D. Check Sheets – When a tariff filing is made with the FPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

۵S

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

1.2 Definition of Terms

Access Line - An arrangement which connects the customer's location with the Customer's network switching center.

Authorization Code – A numerical code, one or more of which are available to a customer to enable him to access the carrier, and which is used by the carrier both to prevent unauthorized access to its faculties and to identify the customer for billing purposes.

Authorized User – A person, firm or corporation, or any other entity authorized by the customer to communicate utilizing the Company's services.

Commission - The Florida Public Service Commission.

Company or Carrier - Time Warner Cable Information Services (Florida), LLC

Customer – The person, firm, corporation, or other entity which orders service and is responsible for payment of charges due and compliance with the Company's tariff regulations.

Day - From 8:00 AM up to but not including 5:00 PM local time Sunday through Friday.

End User – Any customer that is not a carrier, except that a carrier (other than a telephone company) shall be deemed to be an "end user" when such carrier uses a telecommunications service for administrative purposes.

Evening - From 5:00 PM up to but not including 11:00 PM local time Sunday through Friday.

Exchange – The entire telephone plant and facilities used in providing telephone service to subscribers located in an exchange area.

SECTION 1 – TECHNICAL TERMS AND ABBREVIATIONS

1.2 Definition of Terms (cont'd)

Facilities – Supplemental equipment, apparatus, wiring, cables and other materials and mechanisms necessary to or furnished in connection with communications service.

Holidays - The Company's recognized holidays are New Year's Day, July 4th, Thanksgiving Day, Christmas Day.

Local Access and Transport Area (LATA) – A geographic area established for the provision and administration of communications service. It encompasses one or more designated exchanges, which are grouped to serve common social, economic and other purposes.

Long Distance Call – Any call extending beyond the exchange of the caller which is rated on a long distance schedule by a long distance provider.

Message - A completed telephone call.

Monthly Rate - A recurring charge, for a period of thirty days, made in conjunction with the provision of a service.

Night/Weekend - From 11:00 PM up to but not including 8:00 AM Sunday through Friday, and 8:00 AM Saturday up to but not including 5:00 PM Sunday.

Nonrecurring Charge – A one-time charge made under certain conditions to recover all or a portion of the cost of installing facilities or providing service.

Personal Account Code - See "Authorization Code."

Recurring Charge - The monthly charge to the customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

User - A customer, or any other person authorized by a customer to use service provided under this Price List.

SECTION 2 - RULES AND REGULATIONS

2.3 Liabilities of the Company

2.3.1 General

The liability of the Company for any claim or loss, expense or damage, due to any interruption, delay, error, omission, or defect in any service, facility, or transmission provided under this tariff shall not exceed an amount equivalent to the proportionate charge to the customer for the period of service or the facility provided during which such interruption, delay, error, omission, or defect occurs. In no event will the Company be liable for any indirect, consequential, or special damages, or for any lost profits, even if advised of the possibility of the same.

2.3.2 Terms and Conditions

- A. The Company shall not be liable for any claim or loss, expense or damage, due to any interruption, delay, error, omission, or other defect in service, facility, or transmission provided under this tariff, if caused by any person or entity other than the Company, any malfunction of any service or facility provided by any other carrier, act of God, fire, war, civil disturbance, act of government or by any other cause beyond the Company's control.
- B. The Company shall not be liable for and shall be fully indemnified and held harmless by the customer against any claim of loss, expense, or damage, including indirect, special, or consequential damage for:
 - Defamation, libel, slander, invasion of privacy, infringement of copyright or patent, unauthorized use of any trademark, trade name or service mark, unfair competition, interference with or misappropriation, or violation of any contract, proprietary or creative right, or any other injury to any person, property, or entity arising from the material, data, information, or content revealed to, transmitted, processed, handled or used by the Company under this tariff;
 - 2. Connecting, combining, or adapting the Company's facilities with the customer's apparatus or systems;

SECTION 2 - RULES AND REGULATIONS

2.3 Liabilities of the Company (cont'd)

- 2.3.2 Terms and Conditions (cont'd)
- B. (cont'd)
 - 3. Any act of omission by the customer, or
 - 4. Any personal injury or death of any person or for any loss of or damage to a customer's premises or any other property, whether owned by the customer or others, caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, presence, use, or removal of equipment or wiring provided by the Company, if not caused by gross negligence of the Company.
- C. No agent or employee of any other carrier shall be deemed to be an agent or employee of the Company.
- D. The Company makes no warranty regarding the provision of service pursuant to this Tariff, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.
- E. The Company shall not be liable for any claim, loss or refund as a result of loss or theft of authorization codes or personal account codes issued for use with the Company's services.

SECTION 2 - RULES AND REGULATIONS

2.4 Interruption of Service

2.4.1 Credit Allowance

- A. Credit allowance for the interruption of service which is not due to the Company's testing or adjusting, negligence of the customer, or to the failure of channels or equipment provided by the customer, are subject to the general liability provisions set forth in 2.3.1 herein.
- B. It shall be the customer's obligation to notify the Company immediately of any service interruption for which a credit allowance is desired. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission by the customer within his control; or by any equipment or facilities furnished by the customer and connected to the Company's facilities.
- C. No refund or credit will be made for the time that the Company stands ready to repair the service and the subscriber does not provide access to the Company for such restoration work.
- D. No credit shall be allowed for an interruption of a continuous duration of less than twenty-four (24) hours after the subscriber notifies the Company.
- E. The customer shall be credited for an interruption of more than twenty-four hours as follows:

Credit Formula:

 $Credit = A/720 \times C$

"A" - outage time in hours

"720" - total hours in month

"C" - total monthly charge for affected facility

SECTION 2 - RULES AND REGULATIONS

2.5 Disconnection of Service by Carrier

2.5.1 Disconnection of Service

- A. The Company, upon five (5) working days written notice to the customer, may discontinue service or cancel an application for service without incurring any liability for any of the following reasons:
 - Non-payment of any sum due to the Company for any service provided by the Company as provided in Section 2.10.
 - 2. A violation of any regulation governing the service under this tariff.
 - 3. A violation of any law, rule, or regulation of any government authority having jurisdiction over such service.
 - 4. The Company has given the customer notice and has allowed a reasonable time to comply with any rule, or remedy, and deficiency as stated in Rule 25-4.113, F.A.C., Refusal or Discontinuance of Service by Company.
 - 5. Service may be disconnected without notice for tampering with Company equipment, for interfering with the service to other customers, for fraud, or in the event of a hazardous condition.

SECTION 2 - RULES AND REGULATIONS

2.6 Deposits

The Company does not require a deposit from the customer.

2.7 Advance Payments

For customers from whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service. This will be applied against the next month's charges and if necessary a new advance payment will be collected for the next month.

2.8 Billing and Collection of Charges

- A. If any portion of the payment is received by the Company more than (7) days after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available, then a late payment penalty of \$4.50 shall be due to the Company.
- B. The customer will be assessed a charge of twenty dollars for each check submitted by the customer to the Company which a financial institution refuses to honor.

2.9 Disputed Bills

If the customer has questions about or seeks to dispute charges on the bill, the customer should contact the Company at the address, telephone number, or e-mail address provided on the bill.

SECTION 2 - RULES AND REGULATIONS

2.10 Discontinuance of Service

- A. If payment is not received within twenty-five (25) days of the due date, a disconnect notice will be sent to the customer. If payment still has not been received within forty-five (45) days of the due date, service will interrupted and the account will be disconnected.
- B. If the customer's account is disconnected due to non-payment, services may be reconnected only by paying all past due amounts, a reconnection fee, and the first month of service in advance.

2.11 Taxes

The customer is responsible for payment of any federal, state or local sales, use, gross receipts, access or other taxes, charges, surcharges (however designated), franchise and permit fees, and all taxes, fees, and other exactions imposed on the Company or its services by governmental jurisdictions, other than taxes imposed generally on the Company's net income. All such taxes, fees, and charges shall be separately designated, and are not included in the price listed rates,

SECTION 3 - SERVICE DESCRIPTION

3.1 Message Telecommunication Service

3.1.1 Application

- A. Message Telecommunication Service (MTS) applies to all toll calls made between two or more rate centers and furnished or made available by the Company over facilities within the state.
- B. MTS provides telecommunication beyond the local service area. MTS charges cover the service furnished between the calling and called stations.

3.1.2 Terms and Conditions

A. Scope

- 1. MTS is that of furnishing facilities for telecommunication between station lines in different local service areas in accordance with the terms, conditions, and rates specified in this Tariff.
- 2. The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for communications.

B. Use

1. Use of Service

The service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that such use shall be subject to the provisions of this Tariff.

3.1.2 Terms and Conditions (cont'd)

- B. Use (cont'd)
 - 2. Abuse and Fradulent Use

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- (a) The use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for service;
- (b) The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain MTS, by rearranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charges for such service;
- (c) The use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment, or harass another;
- (d) The use of profane or obscene language;
- (e) The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

- 3.1.2 Terms and Conditions (cont'd)
- B. Use (cont'd)
 - 3. Unlawful Purposes

The service is furnished subject to the conditions that it will not be used for an unlawful purpose. Service will be discontinued, upon five days written notice, if any law enforcement agency acting within its jurisdiction, advises that such service is being used or will be used in violation of law. If the Company receives other evidence giving reasonable cause to believe that such service is being or will be so used, it will deny the service or refer the matter to the appropriate law enforcement agency.

4. For nonpayment of any sum due the Company, or for abuse or fraudulent use of the service, the Company may either suspend, terminate without suspension, or refuse service without incurring any liability.

AS

SECTION 3 - SERVICE DESCRIPTION

3.2 MTS Service Offerings

3.2.1 Class of Calls

Charges apply according to the class of call the calling person selects as defined below.

A. Dial Station

Applies when the calling person dials the desired telephone number without the assistance of a Company operator and the call is billed to the calling number. This includes calls forwarded by call forwarding equipment.

- B. The Dial Station class also applies when the operator.
 - Records the calling telephone number for areas without automatic recording equipment.
 - Reaches the called telephone number because of trouble on the network or because dial completion is not available.
 - Places a call for a calling party who is identified as being disabled and is unable to dial the call because of that disability.
 - Reestablishes a dialed call when there is a service fault that interrupts a call after the called person has been reached.

C. Operator-Assisted Person-to-Person

Applies when a calling station names the particular party to be reached by an operator. Person-to-Person also applies when the calling party cannot speak to the intended person or station but agrees to speak to someone else or requests an operator to make arrangements with a person to receive a call at a specified time.

SECTION 3 - SERVICE DESCRIPTION

3.2 MTS Service Offerings (cont'd)

3.2.1 Class of Calls (cont'd)

D. Collect Calls

Charges for Person-to-Person and Operator-Assisted Station-to-Station telephone calls may be billed against or collected from the called line (i.e., charges may be reversed), if the charges are accepted by the called party. This collect call may be billed to a calling card or third party number, unless restricted from accepting this call type.

E. Third Party

Denotes a billing arrangement by which a call may be charged to an authorized customer line, as determined by the Company, other than the line originating the call or the line where the call is terminated.

F. Operator Assisted Charges

Operator assisted charges will apply when a customer requests a time and charges quote for a toll call.

SECTION 3 - SERVICE DESCRIPTION

3.2 MTS Service Offerings (cont'd)

3.2.2 Timing of Calls

- A. On Dial Station and Operator-Handled Station calls, the timing of a call begins when the called party picks up the receiver (i.e., when 2-way communication, often referred to as "conversational time" is possible). When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network.
- B. On Person-to-Person calls, the timing of a call begins when the calling person is connected to a specified person, station or an agreed upon alternate.
- C. Chargeable time ends when the connection is terminated at any point.
- D. The timing of a call does not include time lost because of service faults or defects that are reported to the Company. No charge applies for incomplete calls where a connection is not made.
- E. The chargeable time for Time Warner Cable Information Services (Florida) long distance services is determined by the duration of the call, billed in whole minute intervals. Partial minutes of use will be rounded up to the next whole minute.
- F. The chargeable time for Time Warner Cable Information Services (Florida) calls is determined by the duration of the call, billed in whole minute intervals.

3.2.3 Determination of Mileage

A. Rates for Message Telecommunications Service are not distance sensitive.

3.2 MTS Service Offerings (cont'd)

3.2.4 Minimum Call Completion Rate

A. A customer can expect a call completion rate (number of calls completed / number of calls attempted) of not less than 90% during peak use periods for all Feature Group D services ("1+" dialing).

3.2.5 Determination of Charges

- A. The charges for MTS calls are determined by the:
 - Class of call
 - Duration of call
- B. The total amount of the call will be rounded to the nearest cent if the computed rate of the call results in a fractional charge.

3.2.6 Billing Increments

The minimum call duration for billing purposes is 1 minute for a connected call and calls beyond 1 minute are billed in 1 minute increments.

3.2.7 Uncompleted Calls

There shall be no charges for uncompleted calls.

SECTION 4 - RATES

4.3 Determining Applicable Rate in Effect

For the initial minute, the rate applicable at the start of chargeable time at the calling station applies. For additional minutes, the rate applicable is that rate which is in effect at the calling station when the additional minute(s) begin. That is, if chargeable time begins during the Day Period, the Day Rate applies to the initial minute and to any additional minutes that the call continues during the rate period. If the call continues into a different rate period, the appropriate rates from that period apply to any additional minutes occurring in that rate period. If an additional minute is split between two rate periods, the rate period applicable at the start of the minute applies to the entire minute.

4.4 Special Promotions

The company will, from time to time, offer special promotions to its customers waiving certain charges. These promotions will be approved by the FPSC with specific starting and ending dates, and be made part of this tariff.

SECTION 4 ~ RATES

4.5 Special Rates for the Handicapped

4.5.1 Directory Assistance

There shall be no charge for up to fifty calls per billing cycle from lines serving individuals with disabilities. The Company shall charge the prevailing tariff rates for every call in excess of 50 within a billing cycle.

4.5.2 Hearing and Speech Impaired Persons

Intrastate toll message rates for TDD users shall be evening rates for daytime calls and night rates for evening and night calls.

4.5.3 Telecommunications Relay Service

For intrastate toll calls received from the relay service, the Company will when billing relay calls discount relay service calls by 50 percent off of the otherwise applicable rate for a voice nonrelay call except that where either the calling or called party indicates that either party is both hearing and visually impaired, the call shall be discounted 60 percent off of the otherwise applicable rate for a voice nonrelay call. The above discounts apply only to time-sensitive elements of a charge for the call and shall not apply to per call charges such as a credit card surcharge.

Thank you for choosing Bright House Networks as your new residential telephone service provider. We are confident you will enjoy the value and convenience of Bright House Networks Digital Phone.

As a new customer, you will experience the many benefits of Bright House Networks Digital Phone:

- * Digital Phone is a multi-feature, residential phone service available from Bright House Networks. This is as simple and easy to use as your existing phone service.
- * Even better, Bright House Networks Digital Phone offers unlimited local and long distance calling anywhere in Florida, the U.S. (including Alaska and Hawaii, Guam, Puerto Rico, the U.S. Virgin Islands and the Northern Mariana Islands) and Canada for one low price. Plus, there are no local toll charges.
- Digital Phone offers the most popular calling features and benefits at no extra charge.
 Voice Mail, so you can store and retrieve messages.

Call Waiting, so you never miss an important call.

Caller ID, so you can find out who's calling before you answer.

Call Waiting with Caller ID, so you can find out who's calling before you accept the call.

Call Forwarding, so you can get your calls, even away from home.

611 — a dedicated phone number for 24/7 local Digital Phone Customer Care. (When away from your home, call 1-888-275-5887 for Digital Phone Customer Care.)

One convenient statement for all your services from a company you know and trust.

We are confident you will appreciate the value and convenience of Digital Phone. Bright House Networks is proud to offer you solutions for all of your home entertainment and communications needs, including Cable Television, High Speed Internet and Digital Phone.

Sincerely,

Bright House Networks

Never miss a call again. Voice Mail records messages when you are not available.

Set up Voice Mail

It will take a few minutes to set up your Voice Mail account. Once set-up is complete, your Voice Mail will be ready to receive messages.

- Dial your Digital Phone telephone number, then press *5 during the welcome message to access your Voice Mail.
 - (You can also just dial the Voice Mail access number, 407.702.1500.)
- 2. Enter your Bright House Networks Digital Phone 10-digit telephone number, then press #. (Just press # if you are calling from your home telephone.)
- The Voice Mail system will ask for your temporary Personal Identification Number (PIN). Enter the temporary PIN, which is the last four digits of your Digital Phone telephone number.
- 4. The Voice Mail system will prompt you to select a four-digit PIN. Enter the new PIN and press #.
- 5. The system will then ask you to verify your PIN. Enter it a second time and press #.
- 6. The Voice Mail system will prompt you to state your name and press #. This creates a recording that will be heard when retrieving and forwarding messages.
 - To use the recording of your name, press 1.
 - To listen to the recording of your name, press 2.
 - To record your name again, press 3.
- 7. The Voice Mail system will ask you to record a greeting and then press #. This is the greeting callers will hear when you are unable to answer the phone.
 - To use the recording of your standard greeting, press 1.
 - To listen to the recording of your standard greeting, press 2.
 - To record your standard greeting again, press 3.
- Once your Voice Mail account set-up is complete, you will have the opportunity to listen to the main menu, or, if you are finished, simply hang up to exit. You may also exit by pressing #.

Retrieve messages

You can retrieve messages from your Bright House Networks Digital Phone at home or, while you are away from home, using any touch-tone phone.

- Dial your Digital Phone telephone number, then press *5 during the welcome message to access your Voice Mail.
 - (You can also just dial the Voice Mail access number, 407.702.1500.)
- 2. Enter your Bright House Networks Digital Phone 10-digit telephone number, then press #. (Just press # if you are calling from your home telephone.)
- 3. Enter your PIN followed by #. The Voice Mail system will tell you how many messages you have.
- 4. Press 1 to listen to Voice Mail messages.
 - Note: For faster access, program your Digital Phone number or the Voice Mail access number in speed dial.

Manage Voice Mail

SAVE A MESSAGE

Once you have retrieved a message, you have the option of saving it by pressing # at the conclusion of the message. The next message will begin immediately.

REPLAY A MESSAGE

Once you have listened to a message, you have the option of replaying it by pressing 1 at the conclusion of the message.

REPLY TO A MESSAGE

- To reply to a retrieved message, press 2 immediately at the conclusion of the message.
- The Voice Mail system will prompt you to ensure that you want to reply to the Voice Mail message. When you hear the prompt, press 2 again.
- The Voice Mail system will ask you to record your reply. Record your message after the tone and press # when completed and ready for delivery.
- 4. Press 1 to send the reply Voice Mail message.
- Press 1 again to confirm that you want to send the reply message with the standard delivery options.
- 6. Your reply message has been sent to the original caller.

NOTE: You can only send a reply message to another Digital Phone Voice Mail user.

ERASE A MESSAGE

Once you have retrieved a message, you have the option to erase it by pressing 3 immediately at the conclusion of the message.

RETRIEVE ERASED MESSAGES

- If you have accidentally erased a Voice Mail message, press and 7 to back up to
 the previous message until you reach the message you deleted. If you are in the
 main menu, press 1 to listen to your saved messages. The system identifies the
 message as deleted.
- After listening to the previously retrieved and erased message, you can manage it as described by the Voice Mail system, or re-save the message by pressing #.

NOTE: You can retrieve any message that you deleted during the same Bright House Networks Digital Phone Voice Mail session.

MARK A MESSAGE AS NEW

Once you have retrieved a message, you have the option of marking the message as new. You may also mark messages that you have previously saved as new.

To mark a message as new, press 6 immediately after listening to the message. The next time you access Voice Mail, the message will be retrieved as though it were a new message.

REWIND A MESSAGE

To rewind a message several seconds anytime during message playback, press 7.

ADVANCE A MESSAGE

To advance a message several seconds during message playback, press 9.

FORWARD A MESSAGE

Once you have retrieved a Voice Mail message, you have the option of forwarding the message to another Bright House Networks Digital Phone subscriber.

- 1. To forward the message, press 4 immediately at the end of the message.
- Enter the Bright House Networks Digital Phone 10-digit telephone number of the person to whom you wish to forward the message, and then press #.
- The Voice Mail system will confirm receipt of the Bright House Networks Digital Phone number of the person to whom you are forwarding the Voice Mail message. Press # again.
- Press 1 to forward the Voice Mail with a personal comment. The Voice Mail system will prompt you to record your personal message. Record a message and press #.
 Press 2 to forward the message without a personal comment.
- 5. Press 1 to forward the message.
- 6. Press 1 again to confirm that you want to forward the message with the standard delivery options.

Your message has been forwarded. You can now manage the message as you like.

See who's calling before you answer the phone. If your telephone is equipped with Caller ID functionality, the name and telephone number associated with an incoming call will appear on your display screen.

Caller ID requires the lease or purchase of a display telephone or add-on display unit.

How to use Caller ID

When you receive a call, wait until your telephone completes the first ring. The telephone number and the name associated with that number automatically appears on your Caller ID screen.

If a letter "P" or "Private" appears on your display after the first ring, the caller may have blocked the display of their name and number by pressing *67 before placing the call.

If "unknown name," "unknown number," "out of area," or "0" appears, the caller is in an area that does not support Calling Number services.

Block Caller ID

To block your name and number from appearing when you make a call, press *67 (or dial 1167 on a rotary) before making the call.

You can use your telephone without missing other calls. When another caller is trying to reach you, a special tone alerts you to a waiting call. The person calling you hears normal ringing. If you have Caller ID functionality, the name and number associated with the waiting call will appear on the screen.

The second section of the second section is a second section of

Answer a waiting call

To answer a waiting call or to alternate between callers, simply press and quickly release the **RECEIVER** or **FLASH** button on your phone. While you talk with one caller, the other caller will automatically be placed on hold. Each conversation remains private.

To end either call, hang up the phone while connected to the call you want to end. Your phone will automatically ring. When you answer, you'll be connected with the other caller.

Disable Call Waiting

To disable Call Waiting for the duration of a call, press *70 during the incoming call.

You can forward all your calls to an alternate phone number using Call Forwarding.

While Call Forwarding is active, your phone will ring once as a reminder, but you cannot answer calls. However, you can place calls from your telephone in the normal manner.

Set up Call Forwarding

To set up Call Forwarding, lift the handset. When you hear the dial tone, press *72. When you hear the dial tone again, dial the telephone number to which you would like your calls forwarded. When the call is answered, Call Forwarding is activated for subsequent calls.

To forward calls to a destination that does not answer, is busy or has a "do not disturb" feature activated, repeat the Call Forwarding procedure again within two minutes of the first attempt. This second attempt will be followed by a confirmation tone to indicate successful feature activation.

Cancel Call Forwarding

To cancel Call Forwarding, lift the handset. When you hear the dial tone, press *73. There will be a confirmation tone, indicating that the forwarding has been cancelled, followed by the normal dial tone. Replace the handset.

Customers want an alternative to their traditional phone companies. We believe Bright House Networks has a better solution. With convenient flat-rate billing, there are no surprises on your statement, or confusion over hidden charges. You have the freedom to call whom you want, when you want, and talk as long as you like with Digital Phone.

- Will the provided a detailed breakdown of my call activity with Digita Phone?
- You can access your call detail through the Digital Phone Statement at cft.mybrighthouse.com

Terms of Service

Digital Phone local and long distance plan

With Bright House Networks Digital Phone you can call anyone, anytime, anywhere in the United States as often as you would like,

for one low monthly price. Customers can keep their same phone number, and Bright House Networks Digital Phone works with existing phones and outlets.

Digital Phone features

Voice Mail allows you to retrieve and save messages.

Call Waiting alerts you when there's another incoming call.

Caller ID identifies incoming callers so you know who is calling before you answer the phone. (Caller ID requires a telephone equipped with Caller ID functionality.)

Call Forwarding allows you to forward your incoming phone calls to another telephone number.

International calls

You can make international calls with Bright House Networks Digital Phone the same way you do with the service you have now. Simply dial as you normally would. (Example: 011+ country code + city code + the number of the person or company you are trying to call). Calls to international locations other than Canada, Guam, Puerto Rico, U.S. Virgin Islands and Northern Mariana Islands are not included in your monthly plan, but rates are competitive with other major providers. Country codes and international rates are available on the Bright House Networks website: cfl.mybrighthouse.com/services/digitalphone/callingrates

Directory Assistance and Operator Services

Calls to Directory Assistance (411) and Operator
Services (0) are offered at an extra charge and will be
listed on a separate line of your Bright House Networks
statement. Current rates for Directory Assistance and
Operator Services are as follows:

Directory Assistance Local (411): \$.60 per call
Directory Assistance National: (1- area code -5551212): \$.95 per call

Directory Assistance International (00); \$6.50 per call Person-to-Person: I\$5.50 per call and \$.80 per minute. Station-to-Station: \$5.00 per call and \$.80 per minute. As of 6/1/04, Surcharge and cost per minute rates subject to change.

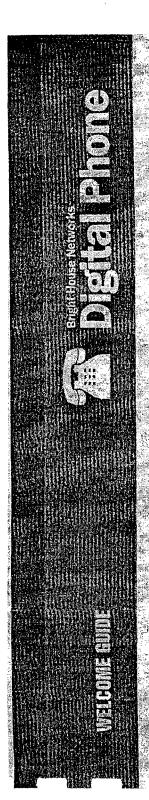

Billing

In addition to listing charges for your other Bright House Networks services, your statement will also include a line item for your Bright House Networks Digital Phone, and an additional line item for any charges that may result from Directory Assistance, Operator Services and calls to international locations. You will not be charged for disconnection or termination of your Bright House Networks Digital Phone.

Additional billing information and call detail can be viewed at cfl.mybrighthouse.com/myaccount, including details relating to your local, intrastate, and interstate calls, as well as calls to international locations, Directory Assistance and Operator services.

Should you wish to receive a particular month of call detail records in the mail, contact Bright House Networks by dialing 611 using your Bright House Networks Digital Phone, or call 1-888-275-5887. All charges listed on your Bright House Networks statement, including your existing services and charges associated with your Bright House Networks Digital Phone, will be payable and due on the due date indicated on the statement. It is the customer's responsibility to report billing errors immediately upon receipt so that the service levels can be verified. Bright House Networks is not responsible for disputed service charges not reported within 90 days of initial billings. To receive credits or rebates for interruption of service, call Customer Service or send a written request.

Additional late charges may be levied for Cable or Internet service not paid in full by the due date on your Bright House Networks statement. All services must be current to avoid disconnection, and nonpayment of any portion of your Bright House Networks statement for Cable, High Speed Internet, and Bright House Networks Digital Phone will result in disconnection of all services including Bright House Networks Digital Phone. Account holders are liable for all services rendered by Bright House Networks prior to customer's request to terminate service. All equipment remains the property of Bright House Networks. Finally, nonpayment of any portion of your statement charges for Cable television, High Speed Internet, and/or Bright House Networks Digital Phone will result in disconnection of all of these services. In addition to these items, your Bright House Networks statement will include new regulatory fees associated with your Bright House Networks Digital Phone. On your statement you will see an Enhanced 911 Surcharge, which is a charge billed on behalf of the municipality in which you live. Your local government asks that you pay this small charge each month to help provide for emergency services to your community. In addition, a your statement will include a Federal Universal Service Fund contribution, which is to recover the amount that telecommunications providers must contribute to the Federal Universal Service Fund, a fund that helps keep

local phone rates affordable. Finally, although it does not appear separately on the statement, the price of your Bright House Networks Digital Phone Includes a contribution to the Telecommunications Relay Service fund, which assists the hearing and speech impaired to communicate with providers of telecommunications services.

Other terms

Bright House Networks may disconnect your Bright House Networks Digital Phone upon twenty (20) days notice. In addition, please note that Bright House Networks Digital Phone is not a powered service, so in the case of a power outage it will continue to work as long as the battery in the modem remains charged. Once the battery is no longer charged, the Bright House Networks Digital Phone, including the ability to access emergency 911 and E911 services, will not be available.

Bright House Networks will wire your alarm service to Digital Phone at your request, but cannot guarantee the reliability of residential alarm connection with Bright House Networks Digital Phone. We recommend that you have your alarm company inspect the set up after your Bright House Networks Digital Phone installation. Alternatively, you may choose to maintain a separate basic phone line from your existing phone provider dedicated exclusively to your security system. Upon your receipt of this information, you may, for any reason, cancel your order for Bright House Networks Digital Phone without any penalty or further obligation. As with all Bright House Networks products, you're also eligible for a 30-day, money-back guarantee. Additional services incurred during the first 30 days, such as International calls, Directory Services and Operator Assistance, are independent of this guarantee and will be billed and due in the event. of cancellation.

Finally, your Bright House Networks Digital Phone is governed by the Subscription Agreement you received with your installation materials; the Subscriber Privacy Notice in this booklet, and your Cable Modem Subscription Agreement.

We. as your local Bright House Networks cable operator ("Operator," "we" or "us"), are providing this Notice to inform you of our practices regarding personally identifiable information that may be collected in the course of providing services to you over our cable system, including cable programming services, ISP Services, and Digital Phone services ("cable-based services"). This Notice is being provided in accordance with the Cable Communications Policy Act of 1984 (the "Cable Act"). In addition to the Cable Act, this Notice also makes reference to the Electronic Communications Policy Act of 1986, as amended ("ECPA"), and the Online Copyright Infringement Liability Limitation Act of 1998 ("Copyright Act"), which are also applicable if you are a subscriber to an ISP service provided by us over our cable system (an "ISP Service").

This Notice pertains to personally identifiable information about you that you have furnished to us, or that we have collected, in connection with the provision of cable-based services to you. Personally identifiable information does not include aggregate data that does not identify you.

The Cable Act's subscriber privacy provisions apply to cable operators, as defined in the privacy provisions of the Cable Act ("Cable Operators"), providing cable and other services over their systems.

Subscriber Privacy Notice

ISPs available over our cable system may provide subscribers with other information concerning their general privacy practices through additional policies and notices, which will continue to apply unless inconsistent with this Notice. You may wish to review these additional policies and notices.

You should also be aware that most of the content and applications provided through your ISP Service are provided by third parties, and that by accessing the online content of these third parties you may cause or enable the transmission by the system to them of personally identifiable information. The policies described in this Notice do not apply to such third parties: As noted above, these third parties may have their own privacy policies, which you may also want to review.

Seven areas are covered by this Notice:

- The nature of personally identifiable information collected about you and the way such information is used:
- The nature, frequency, and purpose of any disclosure that may be made of such information;
- Disclosure of information to governmental entities and through legal process;
- The period of time such information will be maintained:
- 5. Your online communications on your ISP Service;
- The times and place you may have access to the Information collected; and
- 7. Your rights under the Cable Act.

Technical information, including information about your computer system, its software and modern, and your geographical location;

Other subscriber information, including preference and other information you provide when you use or personalize your use of your ISP Service, information you publish on the ISP Service, and information from other sources (for example, publicly available supplementary data).

The information collected by ISPs provided over our cable system in connection with your use of their ISP Services may be used in connection with the provision and maintenance of the relevant ISP Service and to prove your online experience, or as otherwise necessary in the course of their businesses (for example, in audits, billing matters, or research). Such ISPs may also use this information to provide advertising and other offers preferences you may select when using their ISP Services. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of the ISPs vices. If you are a subscriber to one or more of auch in thormation for the uses described above.

Cable Operator is not responsible for the performance of ISPs provided over our cable system in regards to their privacy policies or privacy requirements under federal or state law.

3, DISCLOSURE OF INFORMATION TO GOVERNMENT ENTITIES AND OTHER LEGAL PROCESS

Under lederal law, the government may require Operator or your ISP to disclose subscriber record information (but not cable program selections or the content of communications) pursuant to a warrant, court order, subpoens, or other legal process without any notice to you and without your consent.

Under ECPA, a governmental entity may obtain basic subscriber information pursuant to an administrative subpoena, including; name; address; local & long distance telephone connection, records, or records of service; session times and durations; length and types of service; relephone or instrument number or other subscriber network address (e.g., IP address); and means and retwork address (e.g., IP address); and means and source of payment for such service (including any credit card or bank account number). Other subscriber information (not including cable program selections and the mation (not including cable program selections and the contents of communications) may be obtained by the government pursuant to a court order or search warrant in addition, under the Cable Act, the government may be obtain a court order to react may

In addition, under the Cable Act, the government may obtain a court order requiring Operator to produce a subscriber's cable programming records and notify the subscriber that it has produced them. To obtain the contents of emails, the government must obtain a warrondents of emails, the government must obtain a warrant if the email has been stored 180 days or less, or a

Also upon reasonable request, personally identifiable information is conable request, personally identifiable information is legal entities related to us when they have a legal right to inspect our books and records.

In addition, if you are an ISP Service subscriber, information, including personally identifiable information, may be shared between us and your ISP in providing the ISP Service. The types of persons to whom information about you may be disclosed in the course of providing an ISP Service to you may include, in addition to those persons Service to you may include, in addition to those persons listed above, your ISP and its employees or other entities listed above, your ISP service.

Information for billing purposes is generally provided by us on a monthly basis to billing vendors; Information for other purposes is provided by Operator as it is needed. Unless you object by written notice to us, the Cable Act also permits Cable Operators to disclose personally identifiable information to others, such as advertisers.

subpoena or court order, with notice by the government to the subscriber, if the email contents have been stored more than 180 days. In addition, pursuant to an administrative subpoena, state welfare agencies may obtain the names and addresses of individuals as they appear in the subscriber records of cable companies with respect to those who owe, or are owed, welfare support.

If you subscribe to an ISP Service, a private party may use a subpoena under the Copyright Act to obtain information about you in order to protect its copyright against infringement, without any notice to you.

In your Subscription Agreement, you have agreed that Operator and ISPs provided over our cable system may also disclose any information in its possession to protect its rights, property and/or operations, or where circumstances suggest that individual or public safety is in peril.

4.TIME PERIOD THAT WE RETAIN PERSONALLY IDENTI-Fiable information

Operator maintains personally identifiable information about subscribers for as long as it is necessary for business purposes. This period of time lasts as long as you are a subscriber and up to fifteen additional years so that we can comply with tax and accounting requirements. When information is no longer necessary for these purposes, we destroy the information unless there is a legitimate outstanding request or order to inspect the information.

5. YOUR ONLINE COMMUNICATIONS ON AN ISP SERVICE

In addition to the situations described in Section 3, ECPA provides for other exceptional circumstances under which Operator and/or your ISP may be compelled to disclose information about you or your communications; or are permitted to disclose such information. For example, such information may be disclosed to law enforcement if it appears to be evidence of child por-

nography, or was inadvertently obtained and appears to pertain to a crime. Such disclosure is also permitted to an addressee or intended recipient (or his or her agent), or to a person involved in forwarding such information to its destination; when it is necessarily incident to providing service or to protect our rights or property; to others with your consent or the consent of an addressee or intended recipient (or his or her agent) of communications sent by you; or as otherwise provided for by law. In your Subscription Agreement, you have agreed that Operator may disclose any information in their possession to protect their rights, property and/or operations, or where circumstances suggest that individual or public safety is in peril.

6. ACCESS TO RECORDS

Under the Cable Act, you have the right to inspect the records of a Cable Operator that contain personally identifiable information about you and correct any errors in such information. If you wish to inspect these records, please notify Operator in writing and an appointment at our local business office will be arranged during our regular business hours.

7. YOUR PRIVACY RIGHTS UNDER THE CABLE ACT

The Cable Act provides you with a cause of action for damages, attorneys' fees and costs in Federal District. Court should you believe that any of the Cable Act's limitations on the collection, disclosure, and retention of personally identifiable information have been violated by a Cable Operator. Your Subscription Agreement contains your agreement that, to the extent permitted by law, any claims that you have under the Cable Act will be decided in arbitration and attorneys' fees and punitive damages will not be available.

Residential Digital Phone Agreement

Bright House Networks Information Services, LLC ("Bright House Networks") is pleased to provide you with a Bright House Networks Digital Phone. Below are the terms and conditions that will apply to you as a Bright House Networks Digital Phone customer. Your use of Bright House Networks Digital Phone will be deemed acknowledgment that you have read and agreed to these terms of service.

1. DEFINITIONS

- (a) "Agreement" means this Bright House Networks Digital Phone Agreement, as it may be amended from time to time by Bright House Networks.
- (b) "Bright House Networks Equipment" or "Equipment" is defined in Section 4(c).
- (c) "Bright House Networks Parties" means Bright House Networks and its corporate parents, affiliates and subsidiaries and their respective directors, officers, employees and agents.
- (d) "Service" means the Bright House Networks Digital Phone.
- (e) "Software" means the computer software, if any, licensed by Bright House Networks to you to access Bright House Networks Digital Phone, or licensed by Bright House Networks to you to facilitate installation or distribution of Bright House Networks Digital Phone.
- (f) "Subscriber Materials" means the handbooks, manuals and other guide materials provided by Bright House Networks to you regarding use of Bright House Networks Digital Phone.
- (g) "Subscriber Privacy Notice" means the Subscriber Privacy Notice described in Section 11, as it may be amended from time to time by Bright House Networks.

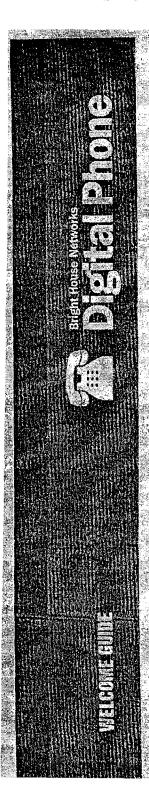

- (h) "Terms of Use" means all rules; terms and conditions described in this Agreement or otherwise established now or hereafter by Bright House Networks regarding permissible or impermissible uses of, or activities related to, Bright House Networks Digital Phone.
- (i) "You" or "your" means the subscriber account holder authorized by Bright House Networks to access and use Bright House Networks Digital Phone.
- (j) "We" or "us" means Bright House Networks.

2. GENERAL

- (a) This Agreement, in addition to the Subscriber Privacy Notice and the price list and/or any applicable tariff(s) we have filed at the Florida Public Service Commission, which are incorporated into this Agreement by reference, provide the terms and conditions governing Bright House Networks' provision of its Digital Phone to you. We are not bound by any other representation, warranty, term or condition, or statements or agreements made by any employee or agent of Bright House Networks, other than as specifically described in this Agreement. Either you or Bright House Networks may terminate Bright House Networks Digital Phone at any time for any reason.
- (b) Bright House Networks Digital Phone as offered and provided under this Agreement is available only to residential customers of Bright House Networks. You agree that except as otherwise expressly provided in this Agreement, all terms and conditions of the Cable Modem Subscription Agreement (including, without limitation, the disclaimer of warranty in that agreement) will also govern Bright House Networks Digital Phone, to the extent applicable, and the terms of the Cable Modem Subscription Agreement are incorporated into this Agreement by reference.
- (c) The Bright House Networks Digital Phone is not a powered service. Under certain circumstances, including if the electrical power and/or Bright House

- Networks cable network or facilities are not operating, Bright House Networks Digital Phone, including the ability to access emergency 911 and E911 services, will not be available.
- (d) Enhanced 911 (E911) is a feature of Bright House Networks Digital Phone. Please note that the address associated with an E911 call is the authorized address where service was originally provided. If you move your cable modem to another location, you must notify Bright House Networks of the address change in order for that new-address to be automatically sent to E911 services in the event that someone dials "911" from your Bright House Networks Digital Phone. The Bright House Network system will continue to send the original service address until you contact us to change the address for transmittal to E911 services.
- (e) You expressly agree that you will not have the option of subscribing to a "local only" or "long distance only" service, nor will you be able to subscribe to a separate local, toll or long distance provider for use in conjunction with Bright House Networks Digital Phone.
- (f) All non-voice communications equipment, including, but not limited to, home security systems that are not set up to make automatic phone calls, fax machines, and medical monitoring devices may not be compatible with Bright House Networks Digital. Phone, in order to maintain these functions, you may be required to maintain a separate telephone wire connection to the local telephone company.
- (g) Bright House Networks has the right at any time to add to, modify, or delete any aspect, feature or requirement of Bright House Networks Digital Phone. This includes (but is not limited to) equipment and system requirements. We also have the right to add to, modify, or delete any provision of this Agreement.

- any Terms of Use established by us, the Subscriber Privacy Notice, and the price list and/or any applicable tariff(s) we have filed at the Florida Public Service Commission at any time. An online version of this Agreement, the Subscriber Privacy Notice, and the price list and/or any applicable tariff(s) filed by Bright House Networks at the Florida Public Service Commission, are accessible at mybrighthouse. com. We may revise the Agreement, the Subscriber Privacy Notice, the price list and/or any applicable tariff(s) from time to time, and we may change the online location of these documents periodically. In accordance with any applicable law, Bright House Networks will notify you of any significant change in these documents. If you continue to use the Service after we change any of these documents and provide you notice of the changes, you will be deemed to have consented to the changes. If you do not agree to any changes, you should stop using the Service and notify Bright House Networks that you are terminating the subscription to Bright House Networks Digital Phone.
- (h) You represent and warrant that you are at least 18 years of age.
- (i) You are responsible in all respects (including payment obligations) for all use of the Service under your account, whether or not you actually authorized the use. Your responsibility includes all calls to pay-per-call services, whether or not you actually authorized the call. You will be responsible for ensuring that all use of the Service under your account fully complies with this Agreement.
- (j) You may not transfer all or a portion of your account, Bright House Networks Digital Phone or the Bright House Networks' Equipment to any other person or entity, or to a new residence or other location.

3. CHARGES

- (a) You agree to pay Bright House Networks for the following: (i) your recurring, monthly subscription fees for Bright House Networks Digital Phone, (ii) all usage based charges (including but not limited to charges for international calls, directory assistance, and/or Bright House Networks assisted calls), and (iii) installation charges, if any. Charges for these items are provided in the price list and/or any applicable tariff(s) on file at the Florida Public Service Commission, and are subject to change. You also agree to pay all applicable local, state and federal fees and taxes. All charges are payable on the due date specified on the statement.
- (i) Recurring monthly Bright House Networks Digital Phone charges will be billed monthly in advance.
- (ii) Charges based upon actual use of the Service (including but not limited to charges for international calls, directory assistance; and/or Bright House Networks assisted calls) will be billed in the next practicable monthly billing cycle following such use, or as otherwise specified in the price list and/or any applicable tariff(s).
- (b) If you do not pay by the due date on the statement, we can charge you a late fee, Payment for Bright House Networks Digital Phone must be received by Bright House Networks on or before the due date stated on the statement. Fallure to deliver payment by the due date is a breach of this Agreement. You agree that each time you fail to pay, it causes Bright House Networks to suffer damages in an amount that is difficult to ascertain with certainty. Bright House Networks has made a reasonable estimate to determine the damages caused by late payments generally and has used this estimate to set a late fee amount. The current late fee is listed in the list of charges on the price list and/or any applicable

- tariff(s) can be provided upon request. Bright House Networks reserves the right to change the late fee amount at any time in the future upon notice to you of the new amount.
- (c) The availability of Bright House Networks Digital Phone is dependent upon you maintaining current accounts with Bright House Networks for cable modern service and, if applicable, cable television service. If your Bright House Networks Digital Phone account or any other account with Bright House Networks is past due, Bright House Networks may terminate Bright House Networks Digital Phone upon notice to you as required by applicable law. If Bright House Networks temporarily disconnects your Bright House Networks Digital Phone because you failed to pay for the service, Bright House Networks will provide the same level and quality of any 911 or E911 services you had access to prior to the temporary disconnection. If you continue to fail to pay, your service will be permanently discontinued and Bright House Networks will stop providing you with 911/E911 service.
- (d) If your account is past due and Bright House Networks sends a collector to your premises, a field collection fee may be charged. The current field collection fee is listed in the list of charges on the price list and/or any applicable tariff(s) and can be provided on request.
- (e) If you cancel Bright House Networks Digital Phone or the cable modern service, or if we discontinue either service for any reason including non-payment, and you wish to reconnect either service, you may be required, in addition to payment of all outstanding balances on all accounts with Bright House Networks, to pay a reconnect charge or trip charge (where applicable) before reconnection.

- (f) Bright House Networks may verify your credit standing with credit reporting agencies in accordance with applicable laws and require a deposit based on your credit standing. Regardless of credit standing, Bright House Networks may require a bank or credit card, or account debit authorization from you.
- (g) Bright House Networks may charge a service fee for all returned checks and account debit, bank card or charge card chargebacks. The current service fee is listed in the price list and/or any applicable tariff(s) or can be provided on request.
- (h) You will also be responsible for all other expenses (including reasonable attorneys' fees) incurred by Bright House Networks in collecting any amounts due under this Agreement that you have failed to pay.

4. INSTALLATION: EQUIPMENT AND CABLING

- (a) If self-installation is available and you elect to install the Service yourself, Bright House Networks will provide kits and instructions for self-installation.
- (b) In order to provide you with Digital Phone, Bright. House Networks will physically disconnect your existing service to the local telephone company. By accepting Bright House Networks Digital Phone, you agree that Bright House Networks may disconnect your existing service to the local telephone company, and that we may disconnect, rearrange, splice or otherwise manipulate the existing telephone wiring on your premises on your behalf in order to connect the premises to Bright House Networks Digital Phone. You authorize Bright House Networks to make any preparations to the premises necessary for the installation, maintenance, or removal of equipment.
- (c) Any equipment provided by Bright House Networks to you will be considered "Bright House Networks Equipment" (also referred to in this Agreement as "Equipment") and will be subject to Section

- 4(h) below. Any cabling installed by Bright House Networks will remain the property of Bright House Networks except as otherwise required by applicable
- (d) We have no obligation to install, support, maintain, repair or replace any computer, cable modem, cabling or other equipment that is not Bright House Networks Equipment.
- (e) Bright House Networks and its authorized agents may enter your premises, access Bright House Networks Equipment and access your computer(s) periodically during the term of this Agreement and after its termination to install, connect, inspect, maintain, repair, replace or after the Equipment, to install or deliver the Software, or to disconnect and remove the Equipment.
- (f) Bright House Networks will have the right to upgrade, modify and enhance the Bright House Networks Equipment and Software from time to time through "downloads" from our network or otherwise.
- (g) If you are not the owner of the premises at which Equipment and Software are to be installed, you warrant that you have obtained the consent of the owner of the premises for Bright House Networks personnel and/or its agents to enter the premises for the purposes described in this Section 4. You will indemnify and hold Bright House Networks harmless from and against any claims of the owner of the premises arising out of the performance of this Agreement.
- (h) Bright House Networks Equipment and Cabling.
 - (i) The Bright House Networks Equipment is and at all times will remain the sole and exclusive personal property of Bright House Networks.

 You will acquire no ownership or other interest in this Equipment by virtue of payments made pursuant to this Agreement or the attachment of

- any portion of themEquipment to your residence or otherwise.
- (ii) You will not open, alter, misuse, tamper with or remove the Bright House Networks Equipment, and you will leave it as it was and where it was when Bright House Networks installed it. You will not remove any markings or labels from the Equipment indicating Bright House Networks ownership or serial or identity numbers. You agree to safeguard the Bright House Networks Equipment from loss or damage of any kind, and (except for any self installation procedures approved by Bright House Networks) will not permit anyone other than a Bright House Networks authorized representative to perform any work on the Bright House Networks Equipment.
- iii) If and when your Bright House Networks Digital Phone is disconnected or cancelled (for whatever reason) you agree that you no longer have the right to keep or use the Bright House Networks Equipment. In such event, you must return the Equipment in the same condition as when received, ordinary wear and tear excepted. You will promptly return the Equipment or notify us to come pick it up. If you do not promptly return the Equipment or schedule a pick-up, Bright House Networks may enter any premises where the Bright House Networks Equipment may be located for the purpose of disconnects. ing and retrieving the Bright House Networks Equipment, Failure of Bright House Networks to remove its Equipment does not mean that we have abandoned the Equipment. If you fail to return the Equipment, you will pay any expenses we incur in retrieving it. Bright House Networks may charge you a continuing monthly fee until any remaining Equipment is returned, collected by Bright House Networks or fully paid for by you

- in accordance with Section 4(h)(iv). The current fee is listed in the list of charges on the price list and/or any applicable tariff(s) or can be provided on request.
- (iv) If the Bright House Networks Equipment is damaged, destroyed, lost or stolen while in your possession, you are liable for the cost of repair or replacement of the Equipment. If the Equipment is not returned to or retrieved by Bright House Networks as described in Section 4(h)(iii) upon termination of Bright House Networks Digital Phone, you will pay Bright House Networks, on demand, the collection fee for unreturned Bright House Networks Equipment provided in the price list and/or any applicable tariff(s) (without any deduction for depreciation, wear and tear or the physical condition of the Equipment):
- (v) If you fail to return the Equipment, Bright House Networks can charge your bank account or credit card (if debit authorization has been obtained from you) the amounts described in Sections 4(h)(iii) and 4(h)(iv), in addition to any other remedies or collection efforts. If Bright House Networks charges you a security deposit, our obligations regarding the security deposit will be governed by the terms of the deposit receipt provided to you at the time the deposit was collected.
- (vi) If and when your Bright House Networks Digital Phone is disconnected or cancelled, Bright House Networks may (but is not obligated to), remove any cabling installed by Bright House Networks on your premises, subject to applicable laws and regulations.
- (i) Software if we license any Software to you, you may only use this Software as described in this Agreement. You will not do, or allow anyone else to do, any

of the following: any additional copying; any translation, reverse engineering or reverse compiling; or disassembly or modification of or preparation of any derivative works based on the Software. All of these activities are prohibited. If your Service is cancelled or disconnected, you will promptly return or destroy all Software provided by Bright House Networks and any related written materials.

5. SUBSCRIBER CONDUCT

- (a) Bright House Networks Digital Phone is a residential service offered for your personal, non-commercial use. The Service may only be used by you and members of your immediate household. You will not reself or redistribute (whether for a fee or otherwise) Bright House Networks Digital Phone, or any portion of the Service. You will not otherwise charge others to use Bright House Networks Digital Phone, or any portion of the Service. You agree not to use Bright House Networks Digital Phone for any enterprise purpose whether or not it is a for-profit enterprise.
- (b) You will not use Bright House Networks Digital. Phone for any unlawful purpose, or for any use which you have not obtained all required governmental approvals, authorizations, licenses, consents and permits, Bright House Networks may disconnect your Bright House Networks Digital Phone, without prior notice, if we find, in our sole judgment, that your use is unauthorized or fraudulent.
- (c) Bright House Networks may disconnect your Bright House Networks Digital Phone, without prior notice, if we find in our sole judgment, that your use of the service is causing interference to others or you have tampered or allowed others to tamper with Bright House Networks Equipment We may also disconnectnyour Bright House Networks Digital Phone, without prior notice, if there exist hazardous

- conditions that would make your continued use of the service unsafe.
- (d) You may not assign, or transfer in any manner, the Service or any rights associated with the Service without the prior written consent of Bright House Networks. Bright House Networks will permit you to transfer your Service to another person or entity if you have paid all charges owed to Bright House Networks. Such a transfer will be treated as a disconnection of existing Service and installation of new Service, and the non-recurring installation charges provided in the price list and any applicable tariff(s) will apply.

6. REVIEW AND ENFORCEMENT

- (a) Bright House Networks may suspend your account, or cancel your account with notice as required by applicable law if Bright House Networks determines in its discretion that you have violated this Agreement or any of the Terms of Use. We may suspend or cancel your account even if you have only violated this Agreement or the Terms of Use once. If your account is suspended, you will not be charged for that period of time. If your account is canceled, you will be refunded any pre-paid fees minus any amounts due Bright House Networks.
- (b) You agree that Bright House Networks will have the right to take any action that Bright House Networks deems appropriate to protect Bright House Networks Digital Phone or Bright House Networks facilities and Bright House Networks equipment.

7. SUPPORT; SERVICE AND REPAIRS

Bright House Networks will repair damage to or, at our option, replace Bright House Networks Equipment, and otherwise attempt to correct interruptions of Bright House Networks Digital Phone, due to reasonable Equipment wear and tear, or technical malfunction of the Bright House Networks system or network, at our

expense. The Subscriber Materials contain details on contacting Bright House Networks for this support.

We have no other responsibility for support, maintenance or repair of any equipment, software or service, whether provided by a third party or you. For assistance with other technical problems, you should refer to the Subscriber Materials or the price list and/or any applicable tariff(s) for Bright House Networks Digital Phone. If any other support services are available from Bright House Networks, such services will be at additional charges as described in the Bright House Networks price list and any applicable tariff(s).

8. SERVICE INTERRUPTIONS; FORCE MAJEURE

We will credit your account for interruptions in Service that are not due to (i) your negligence or noncompliance with this Agreement and/or your noncompliance with the price list and/or any applicable tariff(s) or (ii) the operation or malfunction of the facilities, power, or equipment that you have provided. Such credits will be provided according to the credit policy described in the price list and/or any applicable tariff(s) for the part of the service that the interruption affects. Any such credit will be refunded on the next practicable statement for Bright House Networks Digital Phone issued by Bright House Networks to you. The Bright House Networks Parties will have no liability, including as described in this Section 8, for interruption of Bright House Networks Digital Phone due to circumstances beyond its control. including (without limitation), acts of God, flood, natural disaster, regulation or governmental acts, fire, civil disturbance, strike or weather.

Elight House Networks | Digital Phone

9. DISCLAIMER OF WARRANTY; LIMITATION OF LIABILITY

(a) You agree that Bright House Networks Digital Phone is provided by Bright House Networks on an "as is" and "as available" basis without warranties of any kind, either express or implied, including but not limited to warranties of title or noninfringement or implied warranties of merchantability or fitness for a particular purpose, other than those warranties that are implied by, and incapable of exclusion, restriction, or modification under, the laws applicable to this agreement. Bright House Networks makes no warranty that Bright House Networks Digital Phone will be uninterrupted or error free. You further agree that all use of Bright House Networks Digital Phone is at your sole risk.

Without limiting the foregoing:

None of the Bright House Networks parties makes any warranties as to the security of your communications via Bright House Networks facilities or Bright House Networks Digital Phone, or outside the service to the internet, or that third parties will not gain unauthorized access to or monitor your computer(s) or phone communications. You agree that none of the Bright House Networks parties will be liable for any such unauthorized access. You have the sole responsibility to secure your computer and phone communications.

(b) You understand that the installation, use, inspection, maintenance, repair, replacement or removal of Bright House Networks Digital Phone, equipment and software may result in damage to your computer(s) or other hardware, including software and data files stored thereon. You will be solely responsible for backing up all existing computer files prior to the performance of any of the foregoing activities. None of the Bright House Networks parties will have any liability, and each expressly disclaims any responsibility whatsoever, for any damage to or loss or destruction of any software, hardware, data or files.

- (c) Except for the refund or credit as expressly provided in sections 6(a) and 8 respectively, in no event (including negligence) will any Bright House Networks party or any person or entity involved in providing Bright House Networks Digital Phone or equipment be liable for any direct, indirect, incidental, special or consequential damages arising out of the use of or inability to use Bright House Networks Digital Phone, including the use or inability to access emergency 911 services, any action taken to protect Bright House Networks Digital Phone, or the breach of any warranty.
- (d) You hereby agree that the provisions of this section 9 will apply to all services included in, or accessible through, Bright House Networks Digital Phone, and are for the benefit of, and may be enforced by, all of the Bright House Networks parties.

10. INDEMNIFICATION.

You agree to defend, indemnify and hold harmless Bright House Networks from and against any and all claims and expenses, including reasonable attorneys' fees, arising out of or related in any way to the use of Bright House Networks Digital Phone by you or otherwise arising out of the use of your account or any equipment or facilities in connection therewith, or the use of any other products or services provided by Bright House Networks to you.

11. PRIVACY

- (a) Your privacy interests, including your ability to limit disclosure of certain information to third parties, are addressed by, among other laws, the Communications Act and the Electronic Communications Privacy Act. Personally identifiable information that may be collected, used or disclosed in accordance with applicable laws, is described in our Subscriber Privacy Notice. You acknowledge receipt of the Subscriber Privacy Notice.
- (b) Bright House Networks may collect (whether automatically or otherwise) and share (with other Bright House Networks Parties) information of the type described in the Subscriber Privacy Notice (some of which may be deemed personally identifiable information as that term is used in the Communications Act of 1934) relating to you that Bright House Networks may acquire as a result of the provision of Bright House Networks Digital Phone. You hereby expressly consent to the collection by, and sharing between, Bright House Networks and other Bright House Networks Parties of such information.
- (c) In addition to actions and disclosures specifically authorized by law or statute or authorized elsewhere in this Agreement, Bright House Networks will have the right (except where prohibited by law notwithstanding your consent), but not the obligation, to disclose any information to protect its rights, property and/or operations, or where circumstances suggest that individual or public safety is in peril. By accepting Bright House Networks Digital Phone, you consent to such actions or disclosures.

EXHIBIT 18

Welcome (1)

bright house

Thank you for choosing Digital Phone, the residential telephone service from Bright House Networks. We are confident that you will enjoy the great value and convenience of Digital Phone service, which offers unlimited local and long distance calling anywhere in the U.S., Puerto Rico and Canada, as well as the most popular calling features at no extra charge.

Digital Phone works just like your regular phone. You will be able to use the phones you already have, and in most cases you will be able to keep your existing phone number. For answers to all of your Digital Phone questions, go to tampabay.mybrighthouse.com/digitalphone. You can call us at 611 from your Digital Phone or 813-436-2325 in Hillsborough and 813-377-0228 in East Pasco from any other phone.

Following are several **Frequently Asked Questions**, and a **How-To Guide**. For **Troubleshooting Tips**, turn to the back page of this booklet.

Thank you))

Hillsborough/E. Pasco

Calling Feature Instructions

· Unlimited local calls · In-State Calls · Long Distance in the U.S.

Frequently Asked Questions

- Q: What, exactly, is my calling area?
- A: With Bright House Networks Digital Phone you can call anyone, anytime, anywhere in the continental U.S., Alaska, Hawaii, Puerto Rico, Guarn, the U.S. Virgin Islands, the N. Mariana Islands and Canada as frequently as you would like, for one low monthly price.
- Q: Can I connect all the phones in my home to Bright House Networks Digital Phone?
- A: Yes. All of your phones can be connected to the same Digital Phone number, and the service works with your existing phones.
- O: Can I use my Digital Phone while using the Internet?
- A: Yes, as long as you are using a Broadband connection (not dial-up).
- Q: Can I call 911 using Bright House Networks Digital Phone?
- A: Yes, absolutely. Enhanced 911 (E911) services are supported. In case of a power outage, 911 access and other Bright House Networks Digital Phone features may not be available.
- Q: Will my Digital Phone work during a power outage?
- A: Only if your Digital Phone modem is equipped with a battery-power backup. If your phone equipment requires electric power to operate, then you will also need battery-power backup for that equipment.
- O: What is the charge for Digital Phone?
- A: \$39.95 per month if you subscribe to Standard Cable and High Speed Internet or Digital Cable and High Speed Internet; \$44.95 per month if you subscribe to Standard Cable or Digital Cable or High Speed Internet; and \$49.95 per month if you subscribe only to Digital Phone, or to Digital Phone and Basic Cable. Taxes and fees are additional. These prices are for unlimited local and long-distance calling anywhere in the U.S., Puerto Rico and Canada. The calling area includes Alaska, Hawaii, Guam, the U.S. Virgin Islands and the N. Mariana Islands.

- Q: What are the charges for international calls?
- A: Country codes and international rates are available at tampabay.mybrighthouse.com/digitalphone
- Q: Will I be charged for service calls or repair calls?
- A: No. Not as long as the work is related to the reasonable wear and tear, or technical malfunction of the Bright House Networks system or network.
- Q: Can I view my statements online?
- A: Yes. Simply go to tampabay.mybrighthouse.com/digitalphone/myaccount to view details on all of the calls made on your Bright House Networks Digital Phone, including calls made to Directory Services and Operator Assistance.
- Q: Can telemarketers be blocked?
- A: Yes. Simply register with the National Do Not Call Registry at www.donotcall.gov and your Digital Phone number will be excluded from most telemarketing calls for five years.
- O: What should I do if I have additional questions about my Digital Phone?
- A: For your convenience, this booklet includes a Quick Start Guide, a detailed How-To Guide and, on the last page of this booklet, a Troubleshooting Guide. You can also visit tampabay.mybrighthouse.com/digitalphone, or call 611 from your Bright House Networks Digital Phone to talk to our friendly service people.

How-To Guide

• Set Up Your Voice Mail

If you haven't already set up your Voice Mail using the Quick Start Guide, please follow these simple instructions:

- 1. Dial (813) 383-5300. Next, press pound (#).
- 2. As a first-time user, you will be prompted to enter a temporary PIN the last four digits of your phone number.
- 3. Follow the prompt to select a permanent four-digit PIN. Press pound (#). Confirm your new PIN by pressing pound (#).
- 4. Say your name and press pound (#).
- 5. Record your greeting and press pound (#).
- 6. Once set-up is complete, you can return to the main menu. Exit by hanging up, or by pressing pound (#).
- Retrieve Voice Mail Messages

When at Home

A stuttering dial tone will alert you to waiting messages.

- 1. Dial (813) 383-5300.
- 2. At welcome message, press pound (#).
- 3. Enter your PIN and press pound (#).
- 4. Press 1 to hear your messages.

While Away from Home

- 1. Dial your home phone number, wait for voice mail to answer and then press star (*) 5.
- 2. At welcome message, enter your 10-digit home phone number and press pound (#).
- 3. Enter your PIN and press pound (#).
- 4. Press 1 to hear your messages.
- Save a Voice Mail Message

Press pound (#) at the end of the message. Voice Mail will save the message and play the next message automatically.

- Replay a Voice Mail Message
- Press 1 when the message is complete.
- Rewind a Voice Mail Message

Press 7 during playback, and the message will rewind several seconds and play again.

- Fast Forward a Voice Mail Message
 Advance the message several seconds by pressing 9.
- Erase a Voice Mail Message

- Forward a Voice Mail Message with a Personal Comment to another Bright House Networks Digital Phone Voice Mail user
- 1. When the message concludes, press 4.
- 2. Enter the number (all 10 digits) of the forward-to party, and press pound (#).
- 3. Voice mail will confirm receipt of the forwarded-to number. Press pound (#) again.
- 4. To attach a personal comment, press 1. Record your personal message and press pound (#) .
- 5. Press 1 to forward the message.
- 6. Press 1 again to confirm that you want to forward the message with the standard delivery options,

OTHER FEATURES

• Caller ID

If your telephone is Caller ID-ready, the name and number of your caller will be displayed after the first ring. If "P" or "Private" is displayed, the name and number may have been blocked by the caller. If "Unknown Name," "Unknown Number," "Out Of Area" or "O" appear, the call is from an area that doesn't support Caller ID services.

- · Call Waiting
 - A special tone alerts you to a waiting call; your caller hears regular ringing. To answer, press and release the "Receiver" or "Flash" buttons, and the first caller will be placed on hold. To end either call, hang up. Pick up the automatic ring, and you'll be connected with the new caller.
- Cancel Call Waiting Press star (*) 70 to disable Call Waiting for the duration of your call,
- Call Waiting ID (Combines Caller ID and Call Waiting features)
 You hear a special tone, and the name and number of your caller is displayed.
- Calling Number Blocking
 Press star (*) 67 each time you dial a number to keep it from appearing on others' Caller ID displays at the time you call. The feature will automatically reset once you hang up.
- · Call Forwarding
- Press star (*) 72, wait for the dial tone and enter the number where you'd like your calls to be forwarded. If the number is not valid, you will hear a busy signal. If the feature is not activated, repeat the above procedure within two minutes of the first attempt. Calls normally answered by your Voice Mail will go to the forward-to number. Calls will be forwarded until the feature is deactivated. To cancel, dial star (*) 73. REMINDER: Charges generated by calls forwarded to international numbers will be the customer's responsibility. Minutes used during calls forwarded to cell phones will be charged against the customer's wireless plan.
- Directory Assistance with Call Completion*
 If you dial Directory Assistance, you will be asked if you would like to have the call completed by the operator.
- · Anonymous Call Reject*
 - Press star (*) 77 to activate, and wait for confirmation tone. Unidentified callers, including those labeled as "Anonymous" or "Unavailable," will be automatically blocked. Rejected callers will hear a message asking them to hang up, release their Caller ID number and then redial. The feature will remain in force until you press star (*) 87 to deactivate.
- Speed Dial*
 Press star (*) 74, listen for the stuttering dial tone and press a digit between 2 and 9. Enter the 7- or 10-digit number (dial 1 first when applicable) that you would like to store in speed dial. To speed dial your chosen number, press your selected digit (between 2 and 9) and pound (#).
- *May not be available in all areas.

Terms of Service

Terms of Service

Welcome to Bright House Networks Digital Phone! Below is additional information about your service.

Additional Charges

You can make international calls with Bright House Networks Digital Phone. (Example: O11 + country code + city code + the number of your calling party). Calls to international locations are not included in your monthly plan, but rates are competitive with other major providers. Country codes and international rates are available on the Bright House Networks website:

tampabay.mybrighthouse.com/digitalphone

Directory Assistance and Operator Services

Calls to Directory Assistance (411) and Operator Services (0) are offered at an extra charge and will appear on your Bright House Networks statement.*

Service Description	Surcharge	On at 11 485 41
Directory Assistance Local/National (411)	\$0.99 per call	Cost per Minute N/A
Includes call completion at no additional charge	•	7.,
Directory Assistance International (00)	\$9.50 per call	N/A
Person-to-Person	\$15.00 per call	\$1.40
Station-to-Station	\$7.95 per call	\$1.40
Operator Assisted Calls	\$4.20 per call	Charges may apply

^{*}Rates effective as of July 1, 2005. Surcharge and cost per minute rates subject to change.

Your Bright House Networks billing statement will include new regulatory fees associated with your Digital Phone service. On your statement you will see an Enhanced 911 Surcharge, billed on behalf of the municipality in which you live. Your local government asks that you pay this small charge each month to help provide for emergency services to your community. In addition, your statement will include a Federal Universal Service Fund contribution, which is to recover the amount that telecommunications providers must contribute to the Federal Universal Service Fund, a fund that helps keep local phone rates affordable. Finally, although it does not appear separately on the statement, the price of your Digital Phone service includes a contribution to the Telecommunications Relay Service fund, which assists the hearing and speech impaired communicate with providers of telecommunications services.

Billing

You will not be charged for disconnection or termination of your Digital Phone service. In addition to charges for other Bright House Networks services, your statement will include charges for the Digital Phone plan, and an additional line item for any charges that may result from Directory Assistance and Operator Services and calls to international locations.

Additionally, you will be able to view all of the call details made on your Digital Phone service on a secure web site, which you may access at tampabay.mybrighthouse.com/digitalphone/myaccount. This includes details relating to your local, intrastate, and interstate calls, in addition to calls to international locations, Directory Services and Operator Assisted calls. Should you wish to receive a previous month's call detail, you may contact Bright House Networks at tampabay.mybrighthouse.com/digitalphone/myaccount, or by dialing 611 using your Bright House Networks Digital Phone service, or at the local number found on the back page of this booklet. As with your existing Bright House Networks services, charges associated with your Digital Phone service will be payable and due on the due date indicated on the statement. It is the customer's responsibility to report billing errors immediately. Bright House Networks is not responsible for disputed service charges not reported within 90 days of initial billings. To receive credits or rebates for interruption of service, contact Customer Service. All services must be current to avoid disconnection. Account holders are liable for all services rendered by Bright House Networks prior to customer's request to terminate service. All equipment remains the property of Bright House Networks. Bright House Networks may disconnect your Digital Phone service upon five (5) days notice.

Other Terms

Digital Phone is not a powered service. Under certain circumstances, such as an electrical power outage and/or when Bright House Networks cable network or facilities are not operating, Digital Phone may not be available. This would include the ability to access emergency 911 and E911 services.

In addition, Bright House Networks cannot guarantee the reliability of residential alarm connection with Digital Phone. We recommend that you have your alarm company inspect the set-up after your Bright House Networks Digital Phone installation. Alternatively, you may choose to maintain a separate basic phone line from your existing phone provider dedicated exclusively to your security system. Upon your receipt of this information, you may, for any reason, cancel your order for Bright House Networks Digital Phone without any penalty or further obligation. As with all Bright House Networks products, you're also eligible for a 30-Day money back guarantee. Additional services incurred during the first 30 days, such as calls to international locations, Directory Services and Operator Assistance are independent of this guarantee and will be billed and due in case of cancellation. All prices and terms subject to change.

Information for billing purposes is generally provided by us on a monthly basis to billing vendors information for other purposes is provided by Operator as it is needed.

Unless you object by written notice to us, the Cable Act also permits Cable Operators to disclose personally identifiable information to others, such as advertisers and direct mail or telemarketers, for non-cable related purposes. Under the Cable Act, any disclosures for purposes other than as described in the first three paragraphs of this Section 2 and in Section 3 of this Notice is limited to the following "mailing list information"; your name, address and the particular services to which you subscribe (e.g., HBO or other premium channels or tiers of service). In addition, we may add to our mailing list publicly available information about subscribers that is obtained from third parties. Mailing list information cannot include the extent of your viewing or use of a particular service, including the extent of your use of any ISP Service, or the nature of any transaction you make over the cable system. We may disclose such mailing list information to others from time to time. If you wish to have us remove you from our mailing list, please notify us in writing at the main office of your local Operator.

In addition to any disclosures permitted in the first paragraph of this Section 2, ISPs provided over our cable system may also disclose, pursuant to the consent you granted in your Subscription Agreement, the personality identifiable information described in Section 1 in connection with the provision of services to you, in order to fulfill transactions that you request, to personalize your online experience, to comply with criminal or civil legal process (including as described in Section 3 of this Notice), and as otherwise necessary in the ordinary course of their businesses. For example, such ISPs may disclose your personally Identifiable Information routinely to their employees, agents and contractors to maintain, market, provide, and audit your ISP Service; to outside auditors to check their records; to attorneys and accountants as necessary to render services to such ISPs; and to merchants from whom you make purchases. The frequency of such disclosures varies according to business needs. The names and addresses of subscribers to ISPs provided over our cable system may also be disclosed to selected companies in order to provide you direct mail product and service offers, subject to the marketing preferences you may select when using your ISP Service. In disclosing name and address information for such purposes, such ISPs may combine these lists with publicly available information (such as census and household information), or segment them (i.e., create separate sub-lists) based on such publicly available information or on other information (such as when the subscriber began using the ISP service, or the subscriber's computer type).

3. Disclosure of information to Government Entities and Other Legal Process
Under federal law, the government may require Operator or your ISP to disclose subscriber record information (but not cable program selections or the content of communications) pursuant to a warrant, court order, subpoena, or other legal process without any notice to you and without your consent.

Under ECPA, a governmental entity may obtain basic subscriber information pursuant to an administrative subpoena, including: name; address; local & long distance telephone connection records, or records of session times and divistions; length and types of service; telephone or instrument number or other subscriber number or identity, including any temporarily assigned network address (e.g., IP address); and means and source of payment for such service (including any credit card or bank account number). Other subscriber information (not including cable program selections and the contents of communications) may be obtained by the government pursuant to a court order or search warrant.

In addition, under the Cable Act, the government may obtain a court order requiring Operator to produce a subscriber's cable programming records and notify the subscriber that it has produced them. To obtain the contents of emails, the government must obtain a warrant if the email has been stored 180 days or less, or a subpoena or court order, with notice by the government to the subscriber, if the email contents have been stored more than 180 days. In addition, pursuant to an administrative subpoena, state welfare agencies may obtain the names and addresses of individuals as they appear in the subscriber records of cable companies with respect to those who owe, or are owed, welfare support.

If you subscribe to an ISP Service, a private party may use a subpoena under the Copyright Act to obtain information about you in order to protect its copyright against infingement, without any notice to you.

in your Subscription Agreement, you have agreed that Operator and ISPs provided over our cable system may also disclose any information in its possession to protect its rights, property and/or operations, or where circumstances suggest that individual or public safety is in perfi.

4. Time Period That We Retain Personally Identifiable Information

Operator maintains personally Identifiable Information about subscribers for as long as it is necessary for business purposes. This period of time lasts as long as you are a subscriber and up to fifteen additional years so that we can comptly with tax and accounting requirements. When information is no longer necessary for these

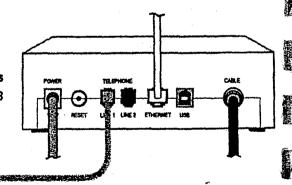

Try these self-help steps.

- Static can be eliminated, in most cases, by moving the cordless station away from the phone modern.
- To check for an in-house wiring problem (no dial tone, clicking, static), remove the phone line from the wall jack and put it directly into the Line 1 port located at the back of your phone modern. If this resolves the problem, you may need assistance with your in-house wiring. Please call our Support Desk to schedule a free service appointment by dialing 611.
- If the problem persists, try resetting the phone modern.
 You can do this by pressing the reset button at the back of the modern. You will need to use a toothpick or the point of a pencil. Within a few minutes, your dial tone should be restored or other problem resolved. Reconnect your phone line to the wall jack.
- If you still don't hear a dial tone after resetting, notify our Support Center for a free service appointment by dialing your local customer support number (see back cover).
- If you are unable to call or accept specific numbers:
 Call our Support Center by dialing 611. Please have information available about the numbers you called, as well as the dates and times.
- If your phone indicates that a message is waiting, but you can't retrieve it:
 From the Voice Mail main menu, press 1 and then press 3 to release the system. This will allow you to retrieve your messages.
- If you experience a loss of Internet service:
 Press the standby button located on the front or the top of your Digital Phone modem (depends on manufacturer). Connectivity should be restored.
 If this does not resolve your problem, try resetting the modem as described above.
- If a power outage occurs:
 If the phone modern has backup battery, plug a corded phone directly into the back of the modern (Line 1) to make and receive phone calls.
- Always connect the cable before connecting power.

If you still need to call repair, dial 611 on your Bright House Networks Digital Phone or 813-436-2325 in Hillsborough and 813-377-0228 in East Pasco from any other phone.

APPENDIX A^{1 2} V1.7

- I. Rates and Charges for Transport and Termination of Traffic³
 - A. Reciprocal Compensation Traffic Termination

Reciprocal Compensation Traffic End Office Rate: \$0.0022574 per minute of use.

Reciprocal Compensation Traffic Tandem Rate: \$0.0040108 per minute of use.

B. The Tandem Transit Traffic Service Charge is \$0.0016723 per minute of use.

Transit Service Billing Fee – Five percent (5%) of the Tandem Transit Traffic Service Charges assessed during the billing period for Tandem Transit Traffic exchanged with the relevant third party carriers.

Transit Service Trunking Charge (for each relevant third party carrier) –For each DS1 equivalent volume (or portion thereof) of Tandem Transit Traffic exchanged with the relevant third party carrier during a monthly billing period: an amount equal to the total monthly rate for 24 channels (DS1 equivalent) for Switched Access, Access Tandem Dedicated Trunk Port DS1, as set forth in Verizon Tariff FCC No. 14, as amended from time to time.

C. Entrance Facility and Transport for Interconnection Charges: See Intrastate Special
Access Tarlff

This Appendix may contain rates for (and/or reference) services, facilities, arrangements and the like that Verizon does not have an obligation to provide under the Agreement (e.g., services, facilities, arrangements and the like for which an unbundling requirement does not exist under 47 U.S.C. Section 251(c)(3)). Notwithstanding any such rates (and/or references) and, for the avoidance of any doubt, nothing in this Appendix shall be deemed to require Verizon to provide a service, facility, arrangement or the like that the Agreement does not require Verizon to provide, or to provide a service, facility, arrangement or the like upon rates, terms or conditions other than those that may be required by the Agreement.

UNE rates and charges set forth in this Appendix that are marked with a (*) are pursuant to FL Order No. PSC-02-1574-FOF-TP, Docket No. 990649B-TP. These UNE rates became effective on August 5, 2003 for seventeen (17) named CLECs (per FL Order No. PSC-03-0896-PCC-TP) and became effective on December 8, 2004 for other CLECs.

All rates and charges set forth in this Appendix shall apply until such time as they are replaced by new rates and/or charges as the Commission or the FCC may approve or allow to go into effect from time to time, subject however, to any stay or other order issued by any court of competent jurisdiction. In addition to any rates and charges set forth herein, Verizon, effective as of March 11, 2005, may, but shall not be required to, charge (and BHN shall pay) any rates and charges that apply to a CLEC's embedded base of certain UNEs pursuant to the FCC's Order on Remand, Unbundled Access to Network Elements; Review of the Section 251 Unbundling Obligations of incumbent Local Exchange Carriers, WC Docket No. 04-313, CC Docket No. 01-338 (FCC rel. Feb. 4, 2005) (the "TRRO"), the foregoing being without limitation of other rates and charges that may apply under subsequent FCC orders or otherwise. In addition, as set forth in Industry Notices, surcharges may apply to certain rates contained herein in order to apply a rate equivalent to the resale discount rate for certain facilities and arrangements that are no longer available as unbundled network elements or combinations thereof.

Unless a citation is provided to a generally applicable Verizon tariff, all listed rates and services are available only to BHN when purchasing these services for its use in the provision of Telephone Exchange Service, and apply only to Reciprocal Compensation Traffic and local Ancillary Traffic. Verizon rates and services for use by BHN in the carriage of Toli Traffic shall be subject to Verizon's tariffs for Exchange Access Service. Adherence to these limitations is subject to a reasonable periodic audit by Verizon.

³ All rates and charges specified herein are pertaining to the Interconnection Attachment.

A CCS busy hour equivalent of 200,000 combined minutes of use.

II. Services Available for Resale

The avoided cost discount for all Resale services is 13.04%.

UNE-P Pricing⁶

MRCs. The MRC for a UNE-P will generally be equal to the sum of the MRCs for the combined UNEs (e.g. the total of the UNE loop charge plus the UNE port charges in the Agreement (see Note A) plus: UNE local switching (per minute originating usage plus T/O factor to determine terminating minutes) based on UNE local switching rates in the Agreement plus UNE shared transport and tandem switching (based on factors for percent interoffice and tandem switch usage, plus assumed transport mileage of 10 miles and 2 terms) based on UNE shared transport rates in the Agreement plus UNE Vertical Services charges (optional per line charges, if allowed by the Agreement), less \$1.39 to account for the cost saving from using IDLC technology. (Note A): UNE platforms are available in four loop/port configurations as shown below. If the price for any component of these platforms is not set forth herein, Verizon will use the ICB process to determine the appropriate price and TBD pricing shall apply.

UNE Basic Analog Voice Grade Platform consists of the following components: UNE 2-wire Analog loop; and UNE Basic Analog Line Side port

UNE ISDN BRI Platform consists of the following components: UNE 2-wire Digital loop; and UNE ISDN BRI Digital Line Side port

UNE ISDN PRI Platform consists of the following components: UNE DS1 loop; and UNE ISDN PRI Digital Trunk Side port

UNE DS1 Platform consists of the following components: UNE DS1 loop; and UNE DS1 Digital Trunk Side port

NRCs. Optional NRCs will apply as ordered by the CLEC including such charges as Expedites, Coordinated Conversions, loop Conditioning, etc.

EEL Pricing⁶

MRCs. The MRCs for an EEL will generally be equal to the applicable MRCs for UNEs and Multiplexing that comprise an EEL arrangement (e.g. UNE Loop, IDT, CDT, Multiplexing, & Clear Channel Capability).

For the avoidance of any doubt, in addition to any rates and charges set forth herein, Verizon, effective as of March 11, 2005, may, but shall not be required to, charge (and BHN shall pay) any rates and charges that apply to a CLEC's embedded base of certain UNEs pursuant to the TRRO, the foregoing being without limitation of other rates and charges that may apply under subsequent FCC orders or otherwise; in addition, as set forth in Industry Notices, surcharges may apply to certain rates contained herein in order to apply a rate equivalent to the resale discount rate for certain facilities and arrangements that are no longer available as unbundled network elements or combinations thereof.

Line Splitting⁷

Except as noted in the following paragraph, the provider of voice services in a Line Splitting arrangement ("VLEC") will be billed for all charges associated with the Network Elements and other Verizon services, facilities and arrangements, used in conjunction with the Line Splitting arrangement ("Line Splitting Arrangement"), regardless of which CLEC in the Line Splitting Arrangement orders the Network Elements or other Verizon services, facilities or arrangements. These charges include, but are not limited to, all applicable non-recurring charges and monthly recurring charges related to such Line Splitting Arrangement, including but not limited to UNE-P (2-wire digital UNE loop or 2-wire ADSL capable UNE loop, UNE switch port, UNE local switching usage, UNE local transport and usage rates), testing, pre-qualification, OSS, line conditioning, CLEC account establishment and misdirected trouble charges.

The CLEC with the applicable collocation arrangement will be billed for splitter establishment and collocation related charges.

⁷ Rates for the individual line splitting components are contained in existing terms for Unbundled Network Elements and Collocation.

Application of NRCs

Preordering:

CLEC Account Establishment Is a one-time charge applied the first time that BHN orders any service from this Agreement.

Customer Record Search applies when BHN requests a summary of the services currently subscribed to by the end-user.

Ordering and Provisioning:

Initial Service Order (ISO) applies to each Local Service Request (LSR) and Access Service Request (ASR) for new service. Charge is Manual (e.g. for a faxed order) or Semi-Mechanized (e.g. for an electronically transmitted order) based upon the method of submission used by the CLEC.

Subsequent Service Order applies to each LSR/ASR for modifications to an existing service. Charge is Manual or Semi-Mechanized based upon the method of submission used by the CLEC.

Advanced ISO applies per LSR/ASR when engineering work activity is required to complete the order.

Exchange ISO applies per LSR/ASR when no engineering work activity is required to complete the order.

Provisioning – Initial Unit applies per ISO for the first unit installed. The Additional Unit applies for each additional unit installed on the same ISO.

Basic Provisioning applies to services that can be provisioned using standard network components maintained in inventory without specialized instructions for switch translations, routing, and service arrangements.

Complex Provisioning applies to services that require special instruction for the provisioning of the service to meet the customer's needs.

Examples of services and their Ordering/Provisioning category that applies:

Exchange-Basic: 2-Wire Analog, Standard Sub-Loop Distribution, Standard Sub-Loop Feeder, Drop and NID.

Exchange-Complex: Non-loaded Sub-Loop Distribution, Non-load Sub-Loop Feeder, Loop Conditioning, Customized Routing, ISDN BRI Digital Line Side Port and Line Sharing.

Advanced-Basic: 2-Wire Digital Loop, 4-Wire Digital Loop, 4-Wire Analog

Advanced-Complex: DS1 Loop, DS3 Loop, Dark Fiber, EELs, and ISDN PRI Digital Trunk Side Port

Conditioning applies in addition to the ISO, for each Loop or Sub-Loop UNE for the installation and grooming of Conditioning requests.

DS1 Clear Channel Capability applies in addition to the ISO, per DS1 for the installation and grooming of DS1 Clear Channel Capability requests.

Changeover Charge applies to UNE-P and EEL orders when an existing retail, resale, or special access service is already in place.

Service Inquiry – Dark Fiber applies per service inquiry when a CLEC requests Verizon to determine the availability of dark fiber on a specific route.

EELs

The NRCs that generally apply to an EEL arrangement are applicable ordering & provisioning charges for EEL Loops, IDT, CDT, Multiplexing and Clear Channel Capability.

Custom Handling (These NRCs are in addition to any Preordering or Ordering and Provisioning NRCs):

Service Order Expedite applies if BHN requests service prior to the standard due date intervals and the expedite request can be met by Verizon.

Coordinated Conversion applies if BHN requests notification and coordination of service cut-over prior to the service becoming effective.

Hot Coordinated Conversion First Hour applies if BHN requests real-time coordination of a service cut-over that takes one hour or less.

Hot Coordinated Conversion Per Additional Quarter Hour applies, in addition to the Hot Coordinated Conversion First Hour, for every 15-minute segment of real-time coordination of a service cut-over that takes more than one hour.

Design Change Charge applies to EELs & Transport orders for design changes requested by the CLEC.

Re: Bright House Networks Request for Data from Tampa Electric Company

Dear Mr. Thomas:

On behalf of Tampa Electric Company ("TECO"), this responds to your letter of February 17, 2006, on behalf of Bright House Networks ("BHN"). Pursuant to Section 1.1404(j) of the rules of the Federal Communications Commission ("FCC"), you have requested the following information:

- 1. TECO's pole attachment rental rate calculations and source data.
- 2. TECO's continuing property records pertaining to TECO's pole and pole related investments.
- 3. The current number of utility poles in service.
- 4. Records and other material indicating the amounts that TECO has booked to FERC Account 364 that consists of equipment other than poles, anchors and guys for the years 2000, 2001, 2002, 2003, 2004 and 2005.
- 1. Rental Rate Calculations and Source Data

Enclosed are sheets that show the calculation of the cable rate and the telecom rate for the years 2000^1 , 2001^2 , 2002, 2003, 2004 and 2005. Each sheet is annotated with the source of the data. In accordance with Section 1.1404(j) of the FCC's rules, copies of the supporting pages from FERC Form 1 or reports to state agencies, have also been included.

¹ For the year 2000, only the calculation of the cable rate is provided.

² TECO has been unable to locate a final version of the calculation of the 2001 telecom rate. The company was able to locate a non-final draft of the calculation and the draft is included herewith. If the final version of the 2001 calculation is found, it will be promptly provided.

2. Continuing property records pertaining to pole and pole related investments.

We are unable to determine what information this request is seeking beyond that which is being provided. As you know, Section 1.1404(j) of the FCC's rules authorizes BHN to request and requires TECO to provide, in the case of poles, the information described in Section 1.1404(g) of the rules. There are several items of information described in subsection (g), virtually all of which are being provided in response to Request Number 1. This submission complies fully with subsection (g)(2), which states that the data and information should be derived from FERC Form 1 or other reports filed with state or federal agencies. Accordingly, no additional information is being provided in response to Request Number 2.

3. Poles in Service

The current number of poles in service is 305,042³. TECO has maintained meticulous records of its poles in service, including records of the location and attachments on each pole. These records run to thousands of pages, and TECO is willing to permit your inspection and/or copying of these records.

4 Amounts Booked to FERC Account 364

TECO has made a good faith effort to identify and provide the requested information. However, TECO has determined that the information is not available. Section 1.1404(g)(1)(ii) applies to your request for this information. This subsection states that the data and information to be provided in response to your request shall include: "The investment in crossarms and other items which do not reflect the cost of owning and maintaining poles, if available."

In Florida, pursuant to the Florida Administrative Code, Section 25-6.0142, utilities maintain their accounts according to "retirement units." For poles and pole-related expenses, TECO has only three retirement units: 1. poles and fixtures; 2. foundations and pilings; and 3. pole reinforcing. Virtually no distribution poles are built with foundations or pilings. Pole reinforcing includes measures that are taken to extend the life of a pole that would otherwise have to be replaced. In short, there is no breakout of the crossarms and other items that are booked to FERC Account 364.

TECO considered whether this information could be derived from other sources. The company concluded, however, that there simply is no source from which the complete information that you are seeking could be derived.

³ The number of poles in service for prior years is, of course, reflected in the information provided in response to Request Number 1.

Should you wish us to discuss or elaborate on anything contained in this response, please do not hesitate to contact us.

Sincerely,

Robert P. Williams, II

D	Average Number of Attaching Entities	208 (*)	<<< shown in audit provided by Kris A.
E	Total Pole Length (above grade) (feet)	37.5	
F	Space Allocated to Attaching Entity (feet)	1	
G	Usable Space (feet)	13.5	
	(*) assumes no distinction between rural, urbanized &	urban areas	

NEW RATE FORMULA:

{[(F/G) x (G/E)] + [(2/3) x (C/E)/D]} x A x B

1.000

EXAMPLE OF PHASE IN OVER FIVE YEARS ASSUMING NO BASE RATE CHANGE:

	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5

Ed Bassford - Re: Depreciation Rate

From:

Silvia Perez

To:

Ed Bassford

Date:

4/21/2005 10:17 AM

Subject:

Re: Depreciation Rate

4% this year.

>>> Ed Bassford 4/21/2005 9:27:42 AM >>>

What is the depreciation rate for the distribution poles in account 364? I think it was .04 or 4% last year.

Thanks,

Ed

17-Mar-2006

30	Maintenance Expense	0.0451	
31	Depreciation	0.0703	
32	Administrative Expense	0.0283	
33	Taxes	0.0704	
34	Cost of Capital	0.1225	
35	Total Carrying Charge	0.3366	

36 Use Ratio = Space Used By Cable Company
Total Useable Space

= 1 Foot
13.5 Feet

37 = 0.0741

38 Old Rate = Net Investment Per Bare Pole x Total Carrying Charge x Use Ratio

NEW FCC RATE METHOD:

A	Bare Pole Cost	\$249.76	
В	Annual Carrying Charge	33.66%	
С	Unusable Space (feet)	24	
D	Average Number of Attaching Entitles	2.051 (*)	<<< shown in audit
E	Total Pole Length (above grade) (feet)	37.5	
F	Space Allocated to Attaching Entity (feet)	1	
G	Usable Space (feet)	13.5	
	(*) assumes no distinction between rural, urbanized & urban areas		

NEW RATE FORMULA:

[[(F/G)x(G/E)]+[(2/3)x(C/E)/D]]xAxB \$19.73

EXAMPLE OF PHASE IN OVER FIVE YEARS ASSUMING NO BASE RATE CHANGE:

	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5
New rate	\$19.73	\$19.73	\$19.73	\$19.73	\$19.73
Old rate	(\$6.23)	(\$6.23)	(\$6.23)	(\$6.23)	(\$6,23)
Differential to be phased in	\$13.50	\$13.50	\$13.50	\$13.50	\$13.50
Annual phase-in percentage	20.00%	40.00%	60.00%	80.00%	100.00%
Amount to be phased in per year	\$2.70	\$5.40	\$8.10	\$10.80	\$13.50
Old Rate	\$6.23	\$6.23	\$6.23	\$6.23	\$6.23
New rate	\$8.93	\$11.63	\$14.33	\$17.03	\$19.73

Subject:

Re: Depreciation rate for poles

Remains the same at .041

>>> Ed Bassford 04/01/03 01:46PM >>>

I am updating all of my 2001 information to 2002 data for the calculation of the joint use rate. What is the 2002 depreciation rate for poles. (It was .0410 )

Thank you in advance for your help.

Ed

NUMBER OF ELECTRIC DEPARTMENT EMPLOYEES						
1. The data on number of employees should be reported for the payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.  2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employes on line 3, and show the number of such special	construction employees in a footnote.  3. The number of employees assignable to the electric department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the electric department from joint functions.

NUMBER OF ELECTR	C DEPARTMENT EMPLOYEES
1. The data on number of employees should be reported for the payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.  2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employes on line 3, and show the number of such special	construction employees in a footnote.  3. The number of employees assignable to the electric department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the electric department from joint functions.
Payroll Period Ended (Date)	12/26/1999
2. Total Regular Full-Time Employees	2,755
3. Total Part-Time and Temporary Employees	95

# EXHIBIT 20

Approval of the Verizon-MCI merger should be conditioned on the government closely monitoring the actions of the post-merger companies and taking steps to place conditions on the merger in order to keep the local voice markets open and competitive.

- c. Has your local competition strategy changed as a result of the merger announcements? If so, please explain how. See (b) above.
- d. How will these mergers (if approved) affect your local competition strategy in Florida?
   See (b) above.

## Miscellaneous

- 9. In 2004, how much money did you invest in your network directly serving Florida's local service customers?
- 10. Are you currently operating under Chapter 7 or Chapter 11 protection? *No.*
- 11. If you filed Form 477 with the FCC to include data as of December 31, 2004, please provide us with a copy. This form only applies to CLECs with a minimum of 10,000 access lines in Florida.

## Comments

12. Have you experienced any significant barriers in entering Florida's local exchange markets? Please list and describe any major obstacles or barriers encountered that you believe may be impeding the growth of local competition in the state, along with any suggestions as to how to remove such obstacles.

See Bright House Network Information Services's complaint against Verizon, Florida docket #041170-TP

13. Please provide any additional general comments or information you believe will assist staff in evaluating and reporting on the development of local exchange competition in Florida.

None.

of the Interconnection, Resale, Unbundling
and Collocation Agreement Between McImetro
Access Transmission Services LLC and
Verizon Florida Inc. by Bright House Networks
Information Services (Florida), LLC

Docket No. Filed: January 5, 2006

PETITION FOR APPROVAL OF SECTION 252(i) ADOPTION WITH MODIFICATIONS OF THE EXISTING TERMS OF THE INTERCONNECTION, RESALE, UNBUNDLING AND COLLOCATION AGREEMENT BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES LLC AND VERIZON FLORIDA INC. BY BRIGHT HOUSE NETWORKS INFORMATION SERVICES (FLORIDA), LLC

Verizon Florida Inc. (Verizon) (formerly GTE Florida Incorporated) files this petition before the Florida Public Service Commission (Commission) seeking approval of Bright House Networks Information Services (Florida), LLC's 252(i) adoption with modifications of the existing terms of the interconnection, resale, unbundling and collocation agreement between Verizon and MCImetro Access Transmission Services LLC. MCImetro's adoption of the existing Verizon/AT&T agreement was approved by the Commission on May 26, 2004 in Docket No. 040163-TP.

Verizon respectfully requests that the Commission approve its petition and that Verizon be granted all other relief proper under the circumstances.

Respectfully submitted on January 5, 2006.

Arthur C. Orduna
Bright House Networks Information Services (Florida), LLC
P.O. Box 4739
East Syracuse, NY 13221

Requested Adoption in Florida Under Section 252(i) of the Communications Act

Dear Mr. Orduna:

Verizon Florida Inc., f/k/a GTE Florida Incorporated ("Verizon"), a Florida corporation, with principal place of business at 201 N Franklin Street, Tampa, FL 33602-5167, has received correspondence from your counsel, Mr. Christopher Savage, stating that Bright House Networks Information Services (Florida), LLC ("BHN"), a Delaware limited liability company, with principal place of business at 301 E. Pine Street, Suite 600, Orlando, FL 32801, wishes, pursuant to Section 252(i) of the Communications Act, to adopt the terms of the Interconnection Agreement between MCImetro Access Transmission Services LLC ("MCIm") and Verizon that was approved by the Florida Public Service Commission (the "Commission") as an effective agreement in the State of Florida, as such agreement exists on the date hereof (including, without limitation, all amendments thereto effective and approved by the Commission as of December 1, 2005, e.g., specifically including the "Amendment to Interconnection Agreements" entered into between Verizon (and its operating telephone

company a ffiliates) and MCIm (and its CLEC affiliates) with an effective date of December 1, 2003) after giving effect to operation of law (the "Terms"). Please note that MCIm itself adopted the terms of the arbitrated interconnection agreement between Verizon and AT&T Communications of the Southern States Inc. that was approved by the Commission on July 18, 1997 in Dockets 960847TP and 001274 (including, without limitation, the Interim Agreement and the First and Second Amendments to the Interim Agreement) (the "AT&T Agreement") and Verizon and MCIm subsequently agreed to amend the AT&T Agreement to reflect the Terms. I understand BHN has a copy of the Terms. Please note the following with respect to BHN's adoption of the Terms.

- 1. By BHN's countersignature on this letter, BHN hereby represents and agrees to the following seven points:
  - A. BHN adopts (and agrees to be bound by) the Terms and, in applying the Terms, agrees that BHN shall be substituted in place of MCImetro Access Transmission Services LLC and MCIm in the Terms wherever appropriate.
  - B. For the avoidance of any doubt, adoption of the Terms does not include adoption of any provision imposing an unbundling obligation on Verizon (i) that no longer applies to Verizon under the Report and Order and Order on Remand (FCC 03-36) released by the Federal Communications Commission ("FCC") on August 21, 2003 in CC Docket Nos. 01-338, 96-98, 98-147 ("Triennial Review Order") or the Order on Remand in WC Docket No. 04-313 and CC Docket No. 01-338, released by the FCC on February 4, 2005 (the "TRO Remand Order"), or (ii) that is otherwise not required by 47 U.S.C. Section 251(c)(3) or by 47 C.F.R. Part 51. Moreover, Verizon, on February 20, 2004, filed a petition at the Commission to arbitrate amendments to interconnection agreements (including the Terms) with respect to the Triennial Review Order ("TRO Arbitration"). If BHN is a party to the TRO Arbitration at the time the Commission issues an effective order approving an amendment with respect to the Triennial Review Order in the TRO Arbitration (an "Approved Amendment"): (i) the terms of such Approved Amendment shall be deemed to amend this adoption effective on the effective date of such Commission order, (ii) BHN agrees to be bound by the terms of such Approved Amendment effective on the effective date of such Commission order, and (iii) Verizon and BHN shall execute an amendment to this adoption to memorialize that this adoption is amended by the terms of such Approved Amendment effective on the effective date of such Commission order; provided, however, failure by either party to do so shall not be cited as a basis for contesting the effectiveness of the provisions in subsections (i) and (ii) above.

C. Notice to BHN and Verizon as may be required or permitted under the Terms shall be provided as follows:

D. BHN represents and warrants that it is a certified provider of local telecommunications service in the State of Florida, and that its adoption of the Terms will cover services in Verizon's service

territory in the State of Florida only, except that BHN and Verizon recognize and agree that the terms of the foregoing "Amendment to Interconnection Agreements", effective as of December 1, 2003 and in effect as of the date hereof, apply not only between BHN and Verizon in Verizon's service territory in Florida but, also, between BHN (and its CLEC affiliates) and Verizon (and its operating telephone company affiliates) in all jurisdictions in which Verizon (or its operating telephone company affiliates) and BHN (or its CLEC affiliates) are (or become) interconnected.

- E. In the event an interconnection agreement between Verizon and BHN is currently in effect in the State of Florida (the "Original ICA"), this adoption shall be an amendment and restatement of the operating terms and conditions of the Original ICA, and shall replace in their entirety the terms of the Original ICA. This adoption is not intended to be, nor shall it be construed to create, a novation or accord and satisfaction with respect to the Original ICA. Any outstanding payment obligations of the parties that were incurred but not fully performed under the Original ICA shall constitute payment obligations of the parties under this adoption.
- F. Verizon's standard pricing schedule for interconnection agreements in the State of Florida (as such schedule may be amended from time to time) (attached as Appendix A hereto) shall apply to BHN's adoption of the Terms, except that, for the avoidance of any doubt, the parties agree that the foregoing "Amendment to Interconnection" Agreements", effective as of December 1, 2003 and in effect as of the date hereof, contains certain provisions for pricing, and that those provisions for pricing shall apply in lieu of any pricing provisions for the same items that might be contained in Appendix A hereto. BHN should note that the aforementioned pricing schedule may contain rates for certain services the terms for which are not included in the Terms or that are otherwise not part of this adoption, and may include phrases or wording not identical to those. utilized in the Terms. In an effort to expedite the adoption process. Verizon has not deleted such rates from the pricing schedule or attempted to customize the wording in the pricing schedule to match the Terms. However, the inclusion of such rates in no way obligates Verizon to provide the subject services and in no way waives Verizon's rights, and the use of different wording or phrasing in the pricing schedule does not alter the obligations and rights set forth in the Terms.
- G. BHN's adoption of the Terms shall become effective on December 1, 2005. Verizon shall file this adoption letter with the Commission promptly upon receipt of an original of this letter countersigned by

BHN as to the points set out in Paragraph One hereof. The term and termination provisions of the Terms shall govern BHN's adoption of the Terms.

- The Terms are being adopted by BHN pursuant to Section 252(i) of the Act. Verizon does not provide the Terms to you as either a voluntary or negotiated agreement. The filing and performance by either Party of the Terms does not in any way constitute a waiver by either Party of any position as to the Terms or a portion thereof, nor does it constitute a waiver by either Party of all rights and remedies it may have to seek review of the Terms, or to seek review in any way of any provisions included in these Terms as a result of BHN's adoption of the Terms.
- 3. Nothing herein shall be construed as or is intended to be a concession or admission by either Party that any provision in the Terms complies with the rights and duties imposed by the Act, the decisions of the FCC and the Commission, the decisions of the courts, or other law, and each Party expressly reserves its full right to assert and pursue claims arising from or related to the Terms.
- 4. Verizon reserves the right to deny BHN's application of the Terms, in whole or in part, to the extent (A) permitted by 47 C.F.R. § 51.809 or (B) Verizon otherwise is not required to make the Terms available to BHN under applicable law.
- 5. Should either Party attempt to apply the Terms in a manner that conflicts with Paragraphs 2 through 4 above, the other Party reserves its rights to seek appropriate legal and/or equitable relief.
- 6. In the event that a voluntary or involuntary petition has been or is in the future filed against a Party under bankruptcy or insolvency laws, or any law relating to the relief of debtors, readjustment of indebtedness, debtor reorganization or composition or extension of debt (any such proceeding, an "Insolvency Proceeding"), then: (A) all rights of the other Party under such laws, including, without limitation, all rights of Verizon under 11 U.S.C. § 366, shall be preserved, and BHN's adoption of the Terms shall in no way impair such rights of either Party; and (B) all rights of a Party resulting from BHN's adoption of the Terms shall be subject to and modified by any Stipulations and Orders entered in the Insolvency Proceeding, including, without limitation, any Stipulation or Order providing adequate assurance of payment to the other Party pursuant to 11 U.S.C. § 366.
