RE: Discontinuance of Broadband Services and Cancellation of Certificate of Broadslate Networks of Florida, Inc.

Dear Mr. Talbott:

This letter is to inform the Florida Public Service Commission that Broadslate Networks of Florida, Inc. will discontinue its provision of broadband data services in Florida. The Company does not provide voice services and provides its data services only to business customers.

The service discontinuation is due to a determination by Broadslate and its Board of Directors that the operations of Broadslate have not achieved their financial goals because of the current economic climate. The Company has been unsuccessful in obtaining the financing necessary to operate its business and its sales operations have been impacted by the consequences of the terrorist acts of September 11, 2001. Several recent attempts to sell the Company or to find investors have now terminated.

Broadslate currently provides broadband data services to approximately 166 customers in Florida and the permanent discontinuance will affect all customers. Broadslate has agreed with DSL.net, Inc. to transition approximately 79 of those customers to DSL.net. The parties intend that those customers would be transferred to DSL.net to ensure that comparable service is provided to the discontinued customers as expeditiously as possible. The remaining customers will be transitioned to other service providers upon such customer's instructions to Broadslate.

The Application for Permanent Discontinuance filed with the Federal Communications Commission on January 31, 2002, is attached hereto as Attachment A. As stated therein, notification letters were mailed to the customers without a transition plan on January 29, 2002 via overnight delivery and to those customers transitioning to DSL.net on January 30, 2002 via overnight delivery. Broadslate intends to discontinue providing broadband services to customers in Florida on March 15, 2002.

There is a substantial risk that one or more of Broadslate's underlying service providers will terminate its services to Broadslate, thereby impacting its ability to provide service to its customers. Broadslate requests that the Commission request that those service providers listed on Attachment B hereto cooperate with Broadslate through March 15, 2002, so that Broadslate

Also, any way to tell how many have asked for a hard copy of it?

It has come to my attention that ATT witness Morrison's Ex. 2 discloses numbers that were filed confidentially in our NRC study. As you know, ATT signed a protective agreement, so this is a violation. Please withdraw all copies of the exhibit immediately. Was it sent out electronically? If so, we'll need to remedy that, as well, though I'm not sure how.
Tracy, if you're not the right person to deal with this, do you know who is?

Beth--I believe Morris' exhibit is on the website. If so, can it be taken down immediately?

I'm at 727-360-3241. Thanks.

Whew!

Okay....we'll have Blanca sign it (actually I will since Blanca is out today) and issue it posthaste.

Thanks.

Ok., now I get it. Jason had set it up right, but somehow it ended up in their office for signature. In that case, yes, I would set it up (issue) as an Order under Blanca's signature.

Yes, he signs in Baez's absence, but normally he signs orders that were prepared for Baez's signature rather than Blanca's!

We'll issue as is.

Well, I guess if that office has o.k.'d him to sign in Comm. Baez's absence, it should be o.k.

(Ignacio actually signed it FOR Baez.)

We can issue it like this...it's just that Ignacio's signature appears on a line with Blanca's typed name below it.

We'll issue it as is if you think we should.

Well, I guess if Baez signed it, you can go ahead and issue it with his signature. He may have signed it because of the timing of the case. That's my guess.

Jason, we received the order granting intervention to KMC in this docket. It was signed for Baez by Ortiz. However, these orders are usually signed by Blanca, and in fact the signature line was prepared for Blanca. Shall we go ahead and prepare and issue this order just as we usually do (have Blanca sign it)?

## PSC Reduces Verizon's Wholesale Rates

TALLAHASSEE — The wholesale rates Verizon can charge competitors to lease portions of its telecommunications network were reduced by the Florida Public Service Commission Monday.

"Our responsibility as a Commission is to arrive at rates that are fair and balanced, and that take into account our state and federal responsibilities to foster competition in Florida," Commission Chairman Lila Jaber said. "I believe our votes today meet those objectives and I think the beneficiaries will be telecommunications consumers."

The discrete components that make up the telecommunications network of an incumbent carrier such as Verizon are referred to unbundled network elements (UNEs). Under the terms of the federal Telecommunications Act of 1996, state commissions must determine what wholesale rates an incumbent may charge a competitive telecommunications company to lease those UNEs. The Act provides general guidelines for how the rates may be set but leaves the ultimate decision on prices to state commissions.

Based on the Commission's vote Monday, for example, a competitive telecommunications company could lease from Verizon a two-wire analog voice grade loop in the most densely populated areas of Verizon's territory for $12 a month. Verizon sought a rate of $22.17 per month. A loop can be thought of as the connection between a consumer's home and a telephone company's central office.

The leasing of UNEs is one of three means of envisioned by the federal Act of spurring the formation of competitive telecommunications networks. A competitor can build its own network, resell the services of an existing local service provider, or lease elements for an incumbent's network.

Wholesale UNE rates were set by the Commission for BellSouth in September. A hearing to set rates for Sprint is being scheduled.

Attached is a copy of a letter sent to me by Governor Jeb Bush after I had written to him about the price your commission has proscribed to be paid by competitors for Verizon facilities. It is below my cost as a shareholder of Verizon and therefore an owner of those facilities.

Also attached is a copy of my letter to Congressman Billy Tauzin and others about the same subject matter.

Englewood, Florida 34223-9245

Dear Mr. Simis:

Thank you for your letter regarding the Public Service Commission (PSC) and Verizon. I appreciate your asking for my help, and I understand your concerns.

As you may know the PSC is part of the legislative branch of government. Although I appoint some of the members, I have no oversight over the decisions the commissioners make; they are established to exercise independent judgment over utility and telecommunication issues. Contacting your state legislators is another option you may wish to consider.

If you would like to contact the PSC you may do so at the address below. Meanwhile, if you have questions, please call the Division of Consumer Affairs at 1-800-342-3552 or write to them at the address below.

If I can assist you with any issue or concern under my jurisdiction, I hope you will let me know.

Sincerely,

Jeb Bush

Congressman Bill Tauzin
U.S. House of Representatives
Washington, DC 20515

RE: Implication of F.C.C. ruling and its subsequent Supreme Court affirmation (Verizon vs. F.C.C. - USA)

Dear Congressman Tauzin:

This decision forces incumbent local telephone exchange companies to provide competitors with facilities at prices which are far below traditionally accepted cost criteria and original cost. Alfred Kahn, noted regulatory economist and former chairman of the Civil Aeronautics Board has referred to the logic behind TELRIC as "regulatory arrogance"...By their meddling, under enormous pressure to produce politically attractive results, regulators have violated the most basic tenets of efficient competition-that it should be conducted on the basis of the respective actual incremental costs of the contending parties; and it is that competition, rather than regulatory dictation, that should determine the results. "Likewise, technology guru George Gilder argued in a Wall Street Journal editorial last August, "Like any price-control scheme, TELRIC choked off supply, taking the profits out of the multibillion-dollar venture of deploying new broadband pipes." That regulatory system, Gilder added, discourages broadband investment by "privatizing the risks and socializing the rewards." Moreover, he said, "No entrepreneurs will invest in risky, technically exacting new infrastructure when they must share it with rivals."

Even more interesting was the dissenting lone voice of Justice Breyer: Sadly, only Justice Stephen Breyer gave those arguments any credence. It should be noted that Justice Breyer was a respected expert on the law and economics of regulation long before he joined the Court and is the author of Regulation and Its Reform, a standard textbook for students of the regulatory process. This expertise shined through in Breyer's scathing dissent to the majority decision in which he raised the important question of whether there was any rational connection between the regulations the FCC promulgated and the Telecom Act's stated goal of deregulating this sector. As Breyer argued: "The problem before us-that a lack of 'rational connection' between the regulations and the statute-grows out of the fact that the 1996 Act is not a typical regulatory statute asking regulators simply to seek low prices, perhaps by trying to replicate those of a hypothetically competitive market. Rather, this statute is a deregulatory statute, and it asks regulators to create prices that will induce appropriate new entry." Breyer goes on to correctly note the FCC's TELRIC pricing rule and UNE requirements, "bring about, not the competitive marketplace

ORIGINAL

that the statute demands, but a highly regulated marketplace characterized by widespread sharing of facilities with innovation and technological change reflecting mandarin decision-making through regulation rather than decentralized decision-making based on the interaction of freely competitive market forces. The majority nonetheless finds the Commission's pricing rules reasonable. As a regulatory theory, that conclusion might be supportable. But under this deregulatory statute, it is not."

As an R.B.O.C. shareholder I hold these forced giveaways to be confiscatory and I am contemplating a class action suit. A better solution for this particular matter and one that would forestall further such "regulatory arrogance" would be legislation which would prohibit confiscatory mandates of this kind.

Your Tauzin-Dingell bill was on the mark. I urge you to keep it on track.

We know that the Supreme Court has substituted social activism for constitutional law. Now it has added fantasy for economics.

World Com wants its debts forgiven, including those to all of its suppliers and will be able to undercut those to whom it is indebted. Further Telecom innovation and investment would come to a complete halt. Where are we going?

Very truly yours,

Theodore Simis

## PSC SETS WHOLESALE RATES FOR SPRINT

TALLAHASSEE — Rates Sprint may charge competing telecommunications companies to lease parts of its network were approved by the Florida Public Service Commission today, culminating an initiative launched in 1999 to establish wholesale rates for the state's largest incumbent local telephone companies.

"This has been a long, technical process that has required us to balance a number of competing interests," Commission Chairman Lila Jaber said. "Now that rates have been set for Sprint, the ultimate result will be greater opportunities for competition throughout Florida."

The Commission approved unbundled network element (UNE) rates for BellSouth in September and for Verizon in October.

The separate elements that make up the telecommunications network of an incumbent carrier such as Sprint are referred to as UNEs. Under the provisions of the federal Telecommunications Act of 1996, state commissions are required to set the wholesale rates an incumbent may charge a competing carrier to lease those UNEs.

Based on the Commission's decision today, for example, a competitive telecommunications company could lease from Sprint a two-wire analog voice grade loop in the most densely populated areas of Sprint's territory for $10.82 a month. Sprint sought a rate of $18.58 a month. A loop can be thought of as the connection between a consumer's home and a telephone company's central office.

The UNE rates set by the Commission for BellSouth, Sprint and Verizon are default rates, meaning that companies are free to negotiate different rates that suit their mutual interests.

Anne, we're putting the record in 990649B together for an appeal and need some help on Hearing Exhibit 3. It is apparently confidential and is possibly Volumes 2 and 3 of the cost study (if I'm reading the transcript right). Can you tell me which confidential document corresponds to Exhibit 3?

The first page of this rec doesn't indicate whether or not participation is allowed. I see you're recommending grant of OA. Would we be correct to NOT use the asterisks (i.e., no participation allowed) on the agenda page?

**Good morning! I was wondering if y'all could do me a favor. I understand that Order PSC-03-0896 was mailed**

to only the parties (folks with aste..ks by their names in CMS) in this Dock.. I was wondering if it could also be sent out to the interested persons in the Docket? There is a time frame in the Order that will have an impact on CLEC doing business with Verizon, so I would like for as many folks as possible to get notice of it.

NOTICE IS GIVEN that Florida Digital Network, Inc. ("Florida Digital"), pursuant to Rule 9.360, Florida Rules of Appellate Procedure, hereby joins in the appeal filed by Appellant, KMC Telecom III, LLC ("KMC"). The appeal concerns the Florida Public Service Commission ("PSC") Order Nos. PSC-03-0058-FOF-TP and PSC-03-0918-FOF-TP. Copies of the Orders were attached to KMC's Notice of Appeal. *Investigation into Pricing of Unbundled Network Elements*. Those final Orders address prices for purchase unbundled network elements from Sprint-Florida, Inc. The Orders are based on a cost model, inputs and assumptions that result in rates that violate the federal Telecommunications Act of 1996 and its implementing regulations, are the product of a misapplied burden of proof, were arbitrarily and capriciously determined without regard for the evidence before the PSC, and are otherwise contrary to law.

Florida Digital hereby reserves for independent adjudication in federal court all federal questions raised in this appeal. Florida Digital informs the Court of the existence of its complaint containing claims based on federal law filed on September 8, 2003 in the United States District Court for the Northern District of Florida, *Florida Digital Network, Inc. v. Sprint-Florida, Inc., et al.*, Case No. 03-CV-282, in order to permit this Court, to the extent it ultimately retains jurisdiction

over the matter, to resolve Florida Digital's state law claims in light of the pending federal claims.
