Re: PSC Docket 080862-WU, In re Application for Staff-Assisted Rate Case In Marion County By County Wide Utility Co., Inc.

Dear Chairman Edgar:

It has come to my attention that the above referenced utility has applied for a rate consideration. I further understand that the PSC Staff is reluctant to give the operator any consideration for his capital cost of improving the utility's older infrastructure. While I appreciate your staff's eagerness to look after the public interest I must share my perspective.

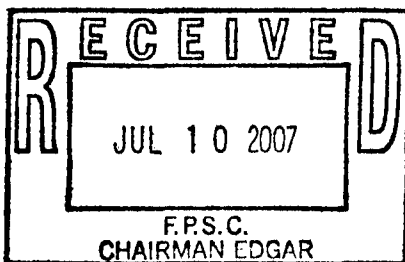

The undersigned is a Marion County Commissioner, serving his second term, and duly elected by those citizens who will benefit by this utility expansion. I can assure you that most of those impacted understand the need for increased fire flow and a dependable source of clean potable water. Furthermore they understand that their cost for water service may change. The ability to protect their homes and community from the threat of fire is small in comparison to their peace of mind.

Other issues that may not be so apparent; over the last four years Marion County has been compelled to purchase three private utilities because the owner, operators have been unable or unwilling to update their infrastructure. These events have been very expensive and disruptive to Marion County Citizens. And in addition our utility budget is strained. We frankly appreciate County-Wide Utility and applaud their efforts to serve the Bahia Oaks community at such an affordable rate. Oh! Did I mention that this is an **Affordable Community** providing workforce and retirement housing for many of Marion County's least affluent citizens? It is undeniable that should this utility be unable to exist financially Marion County's rate structure will be much higher than County-Wide is attempting to negotiate.

Sincerely,

James T Payton, Jr

Subject: Docket Number 050862-WU
County-Wide Utility Company
Bahia Oaks Subdivision

Dear Ms Argenziano:

I am writing to express my opinions regarding the subject Hearing Request for a water rate increase. I attended a local Hearing in Ocala on July 19, 2006 for the same request. At that hearing, conducted by staff from the Commission, I spoke regarding an overly-high charge for monthly water usage. My bill was for approximately three times the average charge that had been made in the previous three years. Although part of the charge was for an incorrect reading of the meter, the proposed increase was, in my opinion, for amounts not related to general cost increases related to cost-of-living and/or costs related to general economic conditions. Rather, the request for the proposed increase was to reimburse the Utility Owner for costs related to providing service to additional areas being developed by him for residential and commercial uses. In addition to my comments at the local Hearing, I wrote to the Commission expressing further comments. I attach a copy of those comments to this letter. I also attach a copy of a handout from staff received at the local Hearing of July 19, 2006.

This letter is to reiterate my comments expressed in my letter of July 21, 2006. I feel that an increase coinciding with the staff recommendations (highlighted by clouding on the copy of the handout) would be acceptable to residents of Bahia Oaks and West Wind Trails subdivisions. As expressed in my earlier correspondence, we current residents should not bear the cost of construction of a development. This is a direct cost of developing the property for use as a residential and commercial venture.

Hon. Nancy Argenziano
July 5, 2007

Subject: Docket Number 050862-WU
County-Wide Utility Company, Inc.

Gentlemen:

Pursuant to a Customer Meeting held on July 19, 2006 in the Marion County Commission Auditorium, this letter is to offer additional comments concerning the subject case. Due to some time constraints during the meeting, on my part, I wish to submit these comments. My comments concern specific items in the Utility's request.

I take exception to the request for "...immediately earn a return on its investment in the interconnection with the City of Ocala...". The interconnection was made to provide increased flow to serve areas west and south of the existing Bahia Oaks development so as to allow for future development of those areas for residential and commercial uses. The interconnection was not needed to serve the existing development. The request for "increased fire flow" did not provide for standard fire hydrant locations in the Bahia Oaks development. There were two fire hydrants installed in Bahia Oaks, Units III and IV. Standards for NFPA locations call for fire hydrants at 500' to 600' intervals, depending on the amount of hose length carried on emergency fire trucks. This is not met for Bahia Oaks Units III and IV.

I am now a semi-retired Professional Engineer. During my 40+ years of practice, I have been involved in design and construction of land development and infrastructure construction. Many projects involved the new construction and expansion development of utilities. As a Vice-President of Operations for a land development corporation headquartered in the Midwest, with many developments in South and Southeast Florida, I was intimately involved in projects requiring interconnection with various utilities and agencies. If our developments required extension and interconnection of water and sewer utilities, we were required to construct such extensions as part of our development cost. Further, if existing utilities serving adjacent areas of our development were required to be updated or improved, such costs were to be paid by our development. If the utility, particularly in the case of an electric utility, constructed the "Off-Site"

July 21, 2006
Director, Div. of Comm. Clerk and Admin. Services
p. 2

improvements, we, the developer, were assessed costs in excess of the beneficial returns computed by the utility for the new construction. However, as stated above, in no case was this cost of "Off-Site" improvements passed to existing customers. Hence, my stated objection to the request for increased rates.

As stated in the meeting by other residents of the service area, and my concurrence, there is no objection to County-Wide Utility Company, Inc. raising rates to offset regular maintenance and operating costs due to inflation in order to maintain a reasonable profit. Also, in my opinion, the utility may be entitled to an increase if it can be shown that the cost of purchasing potable water from the City of Ocala is greater than the cost of supplying water from its existing system. This is based on cost from the City of Ocala for potable water only and excluding sewage water costs, since the Bahia Oaks developments are served by individual septic tank sewage treatment.

I thank you for your attention, and commend your staff for their interest and attention at the meeting on July 19, 2006. I respectfully request that my comments above be considered in your determinations.

Sincerely,

Robert J. Brady, P.E.

RE: PSC Hearing - Bahia Oaks and West Wind Trails Rate Increase

I am VERY much against allowing the rate increase to be passed.

- I. The water system was just fine prior to the connection to Ocala Water System. The connection was made without any notice to the customers until it was fact. **If he needed to improve the system, I feel he could have done this for a lot less that he did, without involving the Ocala Water System.**
- II. Our rates were fair and affordable. We do not need this raise, I for one live alone and do not water the lawn unless of an extreme drought. **My rates have more than doubled**
- III. Mr. Leeward does not care one iota for the people who have bought into his developments. Just the money that comes to him out of it.
- IV. Mr. Leeward **DOES NOT adhere to any of the agreements made to the county planning commissions for other entities that were agreed to in order to develop this land and area.** The homes in Oak Creek and West Wind are proof of this is the areas of drainage. We have proof of this. So why should he now change. **His past history will show that Profit is his only concern.**

***** Last, but not least: I feel Mr. Leeward wants us to pay for his further development of West Wind Trails. He is using his profits from the water rate increase to line his pockets.**

Re: PSC Docket 050862-WU
Application for Staff-Assisted Rate Case in Marion County by County-Wide Utility Co., Inc.

Dear Ms. Cole:

The purpose of this letter is to voice my opinion on the rate case the Commission is considering with regards to the County-Wide Utility Company. I am the newly elected State Senator for Senate District 3 which includes the part of Marion County affected by this decision.

In my investigation into this matter, I have learned that County-Wide has provided excellent service to the citizens of the area for over 30 years. I agree with Representative Larry Cretul in that County-Wide is using foresight in their decision to interconnect to the City of Ocala's water system. With the interconnection to the Ocala water system, County-Wide will not only be able to provide better service but, for the first time, fire hydrants to the residents. Water quality and fire safety are two vital concerns not only locally but statewide.

It is evident to me that County-Wide's decision for the interconnection to the City of Ocala's water system will be beneficial to both the current and future residents of the continually expanding community.

Should the Commission have any questions or if I can be of any further assistance in this matter, please do not hesitate to contact me.

Sincerely,

Senate District 3

Subject: County-Wide Utility Rates in Ocala, Marion County, Florida

I am sending this e-mail as an appeal to all members of the Public Service Commission in hopes that you will reconsider approving rate increases for County-Wide Utility Company. Our rates have doubled and even tripled in the past year and we are under water restrictions to conserve water.

Leeward and various other local developers in conjunction with our local water supplier (County-Wide Utiliy Co.) have decided we should be connected to the City of Ocala water system at an increased cost to us, rather than bear the cost of drilling new wells or even using the well we had in our community, Bahia Oaks. The developers, Leeward, SCI, and other private homebuilders should have to foot the bill for their new projects which generate HUGE PROFITS for them, instead of expecting long-time residents to pay for their monetary gain.

Many residents in our community are senior citizens on fixed incomes. They cannot afford the cost associated with the increased water rates and of necessity must forego even basic landscaping water usage in order to maintain a low monthly bill for basic water needs associated with laundry, personal hygiene and drinking water consumption.

Thank you for your consideration in this matter.

D. Kilyan

Subject: Bahia Oaks/Leeward hearing

Commissioners:

I'm writing to express my concern regarding the County-Wide Utility hearing scheduled for July 10th in Tallahassee.

I am a resident of Bahia Oaks, as is my Mother. She, like most of the people out there, is on a fixed income and to think that a wealthy real estate developer like Leeward expects these people to pay for water lines to be run to one of his new developments is outrageous. They say we should be willing to fund his venture because we now have a few fire hydrants in our community and our insurance rates will be less. That's just simply not true. It's all we can do to find an insurance company to insure our homes and they don't care if we have fire hydrants or not. My insurance rates, like everyone else's, have gone up, not down.

It is inconceivable to me that we could let this happen. It is unjust, it is taking advantage of our senior citizens, it's not right, and it is simply un-American.

Please consider this at your meeting tomorrow.

RE: PSC Hearing - Bahia Oaks and West Wind Trails Rate Increase

I am VERY much against allowing the rate increase to be passed.

- I. The water system was just fine prior to the connection to Ocala Water System. The connection was made without any notice to the customers until it was fact. **If he needed to improve the system, I feel he could have done this for a lot less than he did, without involving the Ocala Water System.**
- II. Our rates were fair and affordable. We do not need this raise, I for one live alone and do not water the lawn unless of an extreme drought. **My rates have more than doubled**
- III. Mr. Leeward does not care one iota for the people who have bought into his developments. Just the money that comes to him out of it.
- IV. Mr. Leeward **DOES NOT adhere to any of the agreements made to the county planning commissions for other entities that were agreed to in order to develop this land and area.** The homes in Oak Creek and West Wind are proof of this is the areas of drainage. We have proof of this. So why should he now change. **His past history will show that Profit is his only concern.**

***** Last, but not least: I feel Mr. Leeward wants us to pay for his further development of West Wind Trails. He is using his profits from the water rate increase to line his pockets.**

Re: PSC Docket 080862-WU, In re Application for Staff-Assisted Rate Case In Marion County By County Wide Utility Co., Inc.

Dear Chairman Edgar:

It has come to my attention that the above referenced utility has applied for a rate consideration. I further understand that the PSC Staff is reluctant to give the operator any consideration for his capital cost of improving the utility's older infrastructure. While I appreciate your staff's eagerness to look after the public interest I must share my perspective.

The undersigned is a Marion County Commissioner, serving his second term, and duly elected by those citizens who will benefit by this utility expansion. I can assure you that most of those impacted understand the need for increased fire flow and a dependable source of clean potable water. Furthermore they understand that their cost for water service may change. The ability to protect their homes and community from the threat of fire is small in comparison to their peace of mind.

Other issues that may not be so apparent; over the last four years Marion County has been compelled to purchase three private utilities because the owner, operators have been unable or unwilling to update their infrastructure. These events have been very expensive and disruptive to Marion County Citizens. And in addition our utility budget is strained. We frankly appreciate County-Wide Utility and applaud their efforts to serve the Bahia Oaks community at such an affordable rate. Oh! Did I mention that this is an **Affordable Community** providing workforce and retirement housing for many of Marion County's least affluent citizens? It is undeniable that should this utility be unable to exist financially Marion County's rate structure will be much higher than County-Wide is attempting to negotiate.

Sincerely,

7/9/2007

James T Payton, Jr
Marion County Commissioner
District II

Subject: Your Assistance and support will be greatly appreciated

Dear Commissioners,

We are residents of Bahia Oaks in Ocala, Florida, and respectfully request your support in lowering our water bills when you address the hearing on July 10, 2007, in Tallahassee. We live in the older section (Manufactured Home Section) of the Leeward property--not the new section. Last year our water bills were raised to triple amounts after being interconnected to the City of Ocala water supply without even a vote or any notification whatsoever. We do not feel we should have to pay for the water in the new Leeward development.

We were quite happy with our water before the connection and truly believe that the increase in rates, plus additional connection fees and a per month fee when we are on vacation is outrageous. We left on vacation on May 4 and had to pay the water bill for the whole month even though we did not use any more water that month. We still have the same water company--County-Wide Utility--and can see no reason for the change or extra charges. An increase in rates occurs periodically and is expected, however, triple rate increases in a single year, plus extra fees when we are not there and a connection fee when we return is not what we expect of our County-Wide Utility company.

PLEASE SUPPORT our interests on July 10 when you address the Hearing in Tallahassee.

Respectfully,

Loring and Jean Donegan

Subject: july 10th psc hearing

ms. polak edgar

my name is henry bolding and i am a resident of the westwind trails subdivision in ocala, fl. i understand that another hearing is scheduled for july 10th. we are unable to come due to the birth of our youngest daughter's child who is having difficulties in atlanta, ga. my concern though is this:

our water rates are in danger because of nothing short of a flim-flam. we are being forced into a situation of paying for the development by leeward which has nothing to do with our development. county-wide and leeward struck a deal which was to their benefit only and did not think that this community would raise an eyebrow because of the lobbyist and money that they have to force this community into submission. this new venture by leeward to create more revenue will hurt this community of elders and veterans who have given their all for not only this community, but also for this country, our country, the united states of america. outside interest and corporations have been giving away our rights and land without regards to those who made it possible for this all to be. they don't live here in this community, and i ask you would this be happening in their community? of course not, why? because they live there!!

financially this burdensome project will increase revenue in leeward's pockets and stifle the community in the wake of already increasing prices, layoffs, and reduced benefits for the retired and elderly. health insurance is killing most of us seniors, not mention the rise in gasoline, and the steady increases in property taxes or the cost of living.

please do not allow this action to continue, you are our voice and our vote and i am sure that you know that we would not vote for such a thing that would destroy or create chaos in our community or our lives. i am not able to relocate because i put everything i have into this home, my home and i did not receive a single ounce of help from leeward or any of their associates.

don't let your integrity and morals be stolen away with pieces of silver, or gifts, or any sort of gratuities, because we won't!!!

as a combat wounded veteran and retired police officer i defend us and this country's right for the people aswellas many other residents here, and we defended you when you couldn't defend yourself. now it is your turn to do the same!

respectfully,

henry & patricia bolding

Subject: PSC Hearing 7/10/2007 County-Wide Utility

RE: PSC Hearing 7/10/2007 County-Wide Utility

Dear Commissioner,

I was very happy to see your staff's recommendation for our "new" rates. I feel this is fair for everyone involved. The owner of this utility has created many headaches in the neighborhood with his underhandedness over the years. We were happy to see someone with a willingness to step up and keep him at a reasonable rate. This ridiculous "emergency rate" has caused a great hardship with many of our elderly homeowners on a fixed income. I feel that if he needs to supply water to a new development the utility or the homeowners on the new development should foot the bill for it. Our community well was performing just fine for the houses on the system (and the water was much better on the old well!). I don't think anyone would disagree that he was due a slight increase, but I think we all felt taken advantage of for the last few years while this worked it's self out. It's time we get our overpayments back, and slapping with a fine for price gouging may not be such a bad idea.

I sincerely hope you will stay with the recommendation of your staff.

Sincerely,
Scott Kiefer
Property owner of 6 homes affected.

Dear Ms. Polak Edgar:

I reside in the existing development in Bahia Oaks that is serviced by County-Wide Utility Co. My water bill more than doubled when the emergency rates went into effect which put a strain on my monthly budget.

I have reviewed the recommendations from PSC's staff and feel they are fair, but it is not reasonable for the existing residents pay for the water in Mr. Leeward's new developments. The water well was working fine and could have been replaced for a lot less than the cost interconnecting with the City of Ocala.

Thank you for the opportunity to submit my comments.

Sincerely,

Cheryl Tucker

Subject: overcharging in Bahia Oaks for water

I was pleased to hear that the Public Service Commission is reviewing the ridiculous and unprecedented, not to mention unnecessary, increase in the water rates for Bahia Oaks Subdivision in Ocala.

Mr. Leeward saw an opportunity to build a water line through our subdivision to other areas he was developing and offset or eliminate those costs by passing it onto us. I think that our "old" system was in need of repair. However, it appears that the repair of that system was significantly cheaper for us than Mr. Leeward's solution. He pulled out "the big guns"

and rammed that right down our throats and pulled out our wallets so he could increase his own wealth. I am very much a proponent of free enterprise and wealth building. This slick move by Mr. Leeward was far from free enterprise. Free enterprise would have been the residents freely and willingly allowing Mr. Leeward to pursue this course with knowledge of the results. That did not happen. We can not afford these rates.

Please do the right thing and return our money to us and lower our monthly bill to a reasonable level.

I am very displeased with Mr. Leeward's water company. They cut my water off and charged me \$50.00 to turn it on, even though they sent me a bill stating that I had another 10 days grace period. I know I'll never see that money again. This is just one example of how they have no concern for the welfare of the residents and they are solely focused on money!

Thank you.

Dear Sir's

Here I thought the raise in rates was to improve are water lines, I guess not. This way Mr Leeward does not have to borrow money from some bank, just stick it to homeowner who are supplied by County-Wide.

These meeting were suppose to start taking place back in February and they kept being postponed, now I know why. Mr Leeward wants to make sure he does not have to pay back any money to the homeowners or lower the rates.

Tallahassee, FL 32399-0850

Re: PSC Docket 050862-WU; In re Application for Staff-Assisted Rate Case in Marion County by County-Wide Utility Co., Inc.

Dear Ms. Cole:

I am writing the Commission to express my opinion on the rate case the Commission is considering in regard to the County-Wide Utility Company. I am a former Marion County Commissioner, and the current Representative of the 22nd District in the Florida House of Representatives, which includes the part of Marion County affected by this decision. In fact, I am also a former resident of Bahia Oaks.

I am personally familiar with County-Wide and its owner and operators, and I hold them
CMP _____ in high regard for their continued and longtime excellence in providing the residents of the area
COM _____ with a healthy and steady supply of water at a low cost. To my knowledge, County-Wide has
CTR _____ consistently complied with every health and environmental rule, provided excellent service, and
ECR _____ has been responsive to the needs of our expanding community.

Based on my knowledge of the age of the water plant, which was in use for more than 30
GCL _____ years; the ability to provide, for the first time ever, fire hydrants and fire flow capability to a
OPC _____ substantial percentage of the area residents; the economic realities of increased future costs of
RCA _____ eventually providing these same hydrants; and the overall benefits to be received by both the
SCR _____ existing Marion county residents and our future inhabitants, it is apparent to me that County-
SGA _____ Wide's decision to interconnect to the City of Ocala's water system was indeed a prudent one.

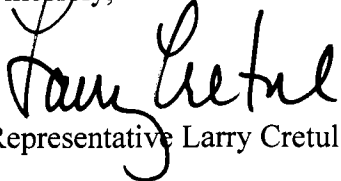

SGA _____
SEC _____
OTH _____

I see the actions of County-Wide as a proactive way to address two very important issues we have statewide in Florida - water quality and fire safety. Instead of waiting for the inevitable demise of the water wells which had been used for more than three decades, County-Wide wisely chose to interconnect the current residents to the City of Ocala's system at the time it was building a line to provide service to a future development area. I believe that the steps taken by County-Wide to include the current residents show not only proper community planning and business sense, but also a concern for the health, safety, and well-being of the area residents. County-Wide's action in interconnecting and running the water lines through the existing subdivisions now, as opposed to waiting for an already outdated well to fail or become contaminated in the future, was a sensible solution to an inevitable problem.

Based on the information I have been provided by County-Wide, I can confidently say that the interconnection to the City of Ocala water system was a prudent and economically sound decision.

I thank the Commission for its attention, and invite any questions or comments in regard to this letter.

Sincerely,

Representative Larry Cretul

RE: Docket No. 050862-WU County Wide Utility

Dear Mr. Edwards,

I am the past president (and one of the original organizers) of the Bahia Oaks Mobile Home Owners Association, Inc. and have lived in Bahia Oaks for over 30 years.

I attended the customer meeting held at the Marion County Commission building in July of 2006. I was asked to speak at that meeting, which I did, but I had been traveling extensively and was ill prepared. I relied mostly on information given to me from a few other residents. Knowing what I know now, I can see I had a very limited knowledge of the situation and didn't have anywhere near all of the facts.

Since that time, I have had time to make my own investigation into a number of the matters regarding this issue, and in addition, I also have been furnished background material from the Utility co. Also, on May 30, 2007, I accompanied Len Tabor, the licensed plant operator for County Wide Utility Co. (who has been taking care of this system for over 15 years) and Jim Leeward on a tour and inspection of the original water plant. I saw first hand the dilapidated condition of the water plant, and actually picked up a handful of sand from inside the inspection hole of the tank. I now know why many residents were getting sand in the supply lines to their homes. Even more disturbing was to see how

CMP _____ close several septic tanks were to the wells.

COM _____

CTR _____ Based on what I observed during this tour, I now understand why the existing, 35 year old water plant

ECR | _____ was abandoned and why the system was interconnected with the City of Ocala. It is also now clear to

GCL | _____ me that the plant could not continue to provide adequate water service to our neighborhood, and I,

OPC _____ along with many of my neighbors, now support the interconnection to the City of Ocala's Regional

RCA _____ Water System. In addition, we support a reasonable rate increase for the current customers in order for

SCR _____ the utility to recover their costs of our share of the interconnection and abandonment of the wells. I

SGA _____ also know that many of my neighbors are thankful to finally have fire protection.

SEC _____

OTH _____ I would like to make an additional comment. I have known the Leeward's (owners of the Utility co.

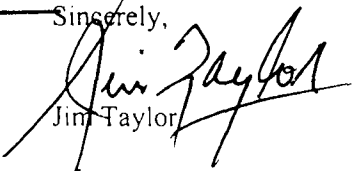

_____ and developer's of Bahia Oaks) since I moved in over 30 years ago and have found them always to be

_____ a friend of Bahia Oaks and its needs. Over the years they have went above and beyond what had to be

_____ done to keep Bahia Oaks a nice place to live. I don't think the comments made about them at the

_____ meeting were deserved or justified.

Sincerely,

Jim Taylor

Re: Docket # 050862-WS

Dear Sir or Ma'am,

My husband and I have been residents of West Wind Trails in Ocala, FL for almost 5 years. Until a few months ago, we paid a very modest water bill. During peak summer usage our bill rarely topped \$20.00. I was shocked and dismayed when I received my bill 2 months ago and saw that it had climbed to \$50.00. That is MORE THAN DOUBLE our typical bill for this time of year.

I later found out that our bill had skyrocketed because of new development near our neighborhood. I would think that the residents of the new development would have to bear the cost of the additional water needs for the area. Evidently County-Wide Utility thought to use this situation to their advantage. We are being grossly and unjustly penalized. I think it is a real shame that a utility company would take advantage of their long standing customers. It is water. We need it. We have no alternatives. We cannot boycott and they know it. I firmly believe that County-Wide Utility is using its customers unfairly and they should be held accountable for their misuse of power.

I hope you will take all of this into consideration when you meet on October 29th.

Thank you for your time,

Heather Martin

COMPLAINT INFORMATION

Complaint: Other Complaint against County-Wide Utility Co., Inc.

Details:

Docket # 050862-ws

I have lived at this address for 6 yrs and until 2 months ago my average bill was \$14.00. Now my bill, for the same usage is \$30.00-35.00 and rising. Last year we were forced to give up 10 feet of our land to increase the easement that was already there so that new, larger pipes could be put in. I had to move my fence at a cost of \$1100.00 to me. I am still paying taxes on that land and the increased water pressure I was promised never happened. So bottom line is I lost 10 feet of land so that the new stores could be accomidated and my water bill is now 3-4 times the original cost. I can understand a small increase, but people on a fixed income cannot pay this. I hope you will reconsider this increase as I feel this is unfair and unrealistic. Thank you

CONSUMER COMMENTS

I moved here from Mich in 2003. then went
back to Mich. got sick I could not take the cold winters
any more. So I came back to Bahia OAKS on april
06. I am 75 years old living on my social security
when I lived in Mich my water bills were
only 71 or 73 dollars every three months. and
now that I am here you want \$68.00^A month
some one is making money somewhere. You
are hurting a lot of old people here in this Park
that cant go anywhere else.

Mrs. Madeline Leon

To whom it may concern:

This is a copy of my water bill
100 gallons of water for \$30.11.
This is absurd!! I could buy
bottled water for less. As you can
probably gather, I must not have
to use much water, imagine if
I was. This company has to give
us an even break on our water
otherwise we will not be able to
pay our water bill or any other
bill. Please consider the fact that
we are on limited incomes.

Y067982

Thank you.

CONSUMER COMMENTS

*I just got back in town & got this notice
in my mailbox. My water bill was high enough
before but this notice for another increase is
absolutely insane. I am a widow living on
my social sec. therefore I can't even think
about watering my lawn & plants.*

*all the people in the neighborhood are very angry
about this situation. I certainly hope you people
rethink this because all of us are upset over this.*

*To think we have to pay dearly because a developer
doesn't want to pay for his own system is B. S.*

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this “upgrade” was “necessary” so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

CONSUMER COMMENTS

26 year old.
We rent this home to our handicapped son
who is on a fixed income. He pays us \$29. a month
& HUD pays the difference. He receives SSI and is
very independent paying for his own rent-water-electric
food-insurance- etc. We are very proud of him. Most
of the world thought he would never make it. He
showed everyone wrong. If his bills get increased it
will greatly affect his monthly budget, \$10. or \$20.
to him is like 100 or 200 to us.
I am aware this has nothing to do w/ the logistics
of this water debate except that sometimes, its not
all about the money & profit. The reason why we
chose Bahri Oaks is because of the minimal expenses
to our son. I don't understand why we as consumers
did not have a right to choose or vote.

CONSUMER COMMENTS

DEAR PSC:

I AM ADAMANTLY OPPOSED TO THE PROPOSED
"EMERGENCY WATER RATE" INCREASE. THIS
SUPPLIER, COUNTY WIDE UTILITY IN CAHOOTS WITH
OTHERS, ARE DEVELOPERS WHO HAVE CREATED
A MONOPOLY FOR WATER SERVICE FOR SEVERAL
DEVELOPMENTS WHICH WERE BEING FED FROM
A WELLS). THIS WAS A MUCH CHEAPER METHOD
FOR THE CONSUMER. NOW, THE COUNTY WIDE
UTILITY WANTS TO SHIRK THE RESPONSIBILITY OF
PROVIDING ADEQUATE WATER AS BEFORE AND INSTEAD
JUST SIT BACK, DO NOTHING, AND GOUGE ~~THE~~
THE RESIDENTS WHOM THEY SERVE. BUSINESSES
NEED TO MAKE A PROFIT TO SURVIVE BUT THIS
IS A BLATANT CASE OF GREED. I URGE YOU
TO REDUCE ANY RATE INCREASE, IF ANY, TO
THE LOWEST POSSIBLE RATE. THANK YOU VERY

CONSUMER COMMENTS

I am writing to complain about the recent
significant Rate increase by County-Wide
Utilities. Our water bill has more than
tripled! And County-Wide gave us no
notice about this increase. I am not
opposed to periodic utility Rate increases,
but this seems to be an unwarranted
and unnecessary increase. If you can help
bring our water bill back down to
reasonable rates, my neighbors and I would
greatly appreciate it.

Thank you,
Jennifer Hillan

we do not agree with the water rate
 increase, as we were paying about 1/2 what
^{we} ~~were~~ paying now. also I don't think
 developers should be allowed to pass the
 increase on to unsuspecting residence. When
 its the builders responsibility to assume the
 expenses when building a new development.
 Its not the same development its different
 and he should be made to pay Impact fees
 Rather than make us pay for it.

CONSUMER COMMENTS

The water bill just went from 13.33 to ^{\$}33.30
what a jump with no warning. One jump is
hard but now they want to up the bill again
another 10 to 15 dollars a month. Where do they
think us seniors are going to get this extra
money, we don't get a pay raise every year on
our retirement, we get no increase. Yes we
get a S.S. (Social Security) raise in June but they
give us \$10.00 and take twelve (12.00) that's
no bargain. I am asking please, not only
for myself but the rest of the seniors in
Baldwin Oaks too. This keeps ~~up~~ up and
they will be driving us out of our home.
Thanks for your consideration, please turn
this down.

CONSUMER COMMENTS

Public Service Commission:

We feel the rate increase is too much
 too fast. A reasonable increase that is in
 line with cost of living etc. I feel that
 all the different entities that are
 increasing all at once should be considered
 by all companies - Home Insurance has
 increased, water, fire protection, insect
 protection and on and on - The Ocala area
 is still behind on wages and our incomes
 are definitely not keeping up with all these
 increases. We need to be informed so we
 can plan and save and budget. Please
 make your consideration for a fair increase.
 Profits aren't always immediate with businesses
 and they can take several years to pay for this
 improvement. Also why can't the City of Ocala
 absorb some expense as they are profiting
 also? Sincerely, Lisa Hinchman

CONSUMER COMMENTS

This is nothing but a big
rip-off - It was dishonest
from the beginning. Why should
we pay for someone else's
water system. Just because they
installed it so another subdivision
could have water is no reason
we should have to pay it.

Not fair at all.

CONSUMER COMMENTS

We believe that Mr. Leeward had to agree
to make city water available to Walgreens,
so Walgreens would buy his property.

Mr Leeward and Walgreens are millionaires.
The people of West Wind trails should not have
to pay more for their water to benefit
the above entities.

CMP IF I had wanted to pay for city water I
COM would have purchased property with City water
CTR but I previously lived where I had to
ECR 1 pay for City of Ocala water + sewer and power
GCL 1 That is why I built where I did so I
OPC wouldn't incur these expensive
RCA utilities.

CONSUMER COMMENTS

We, the Community of West Wind
Trail are very unhappy and
concerned about the possible increase
of our water bill.

We do not understand why.
The reasons given are not
acceptable.

Please see attached letter.

Thank you for your
consideration to look into
this matter.

CONSUMER COMMENTS

We find this rate increase way out of line! We moved here in '03 & the water rates were around \$13. monthly. We didn't even use that much water. Now you want to quadruple the cost of water for us to pay. Most of us in here are on fixed incomes & cannot afford that ridiculous increase.

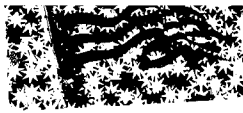

Please have some feelings for the people in this park & do not increase it so drastically.

Thank you!

Last month I paid \$202.⁸⁴ for water - this
 is the highest amount since I been here in this development

I understand the reason for this higher expense
 is because:

① Bahia Oaks plans to expand its commercial
 properties and

② planned real estates properties in the
 \$250,000 ^{or} area.

EMERGENCY WATER RATE INCREASE

"County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this "upgrade" was "necessary" so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for the new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development."

To: PUBLIC SERVICE COMMISSION

I'm appalled that this issue even exists. This is America. We are not supposed to treat people this way. It appears that this very wealthy developer wants the senior citizens of my small community to pay for his profit. My own water bill more than tripled! My Mother lives in the same community; and being on a fixed income, she can't afford this HUGE increase. Someone, please, stand up and help us.

CONSUMER COMMENTS

1) THIS IS AN IMPACT FEE - Should be assessed to new businesses
on SW 200, Fox Ranch building (new homes)

2) Increase is unjustifiable, especially to those who receive no
benefit from Hydrants.

3) MANY HOMEOWNERS ARE SENIORS who brought here 5-10 yrs
ago because they could afford these modest homes & mobile
homes (Bahia Oaks) Gas, Homeowner's & Auto ins, medical
costs, etc have escalated so that they must decide whether
to pay these costs or EAT!

4) My husband & I are retired on Social Security & a small
pension with a total income of a little over \$2000/mo.
That's poverty. Many others are much worse off.

5) The current (interior) rate seems justifiable & we do
not object to a water bill in the 30-35 range.

6) Don't force seniors out of their homes for political
gain.

I object to The increase due to the following:

1) why Should we pay for Mr Leeward's
development and his future Profit?

2) Why should we pay more for our
water than existing Ocala Customers

3) we did not ask for the Change to
Ocala water Although at the time
thought it would not cost us so
dearly.

4) why does This Ocala water have
to go through County-wide, would
that help the cost to cut that out?
(of course his Profit would go down?)

5) As the Past has shown Mr Leeward
does not keep his Agreements with
Authorities. my home is a perfect
example.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

CONSUMER COMMENTS

I live in Bahia Cakes. I can not afford to pay \$45.00 to \$55.00 per month for water. I live alone & rent & pay utilities. I am 71 yrs. old & I am on Social Security and medicoid for my meds. If some one would hire me, I have to go to work to survive. I think it is wrong what Mr. Secward did to us for his new sub-division. I paid \$12.37 a month for water and just hardly make it.

Please can't some one consider helping us in Bahia Cakes. There are mostly elderly people who live here. I expected some increase as it was before but not \$45 to \$55 a month. Thank you for helping us.

Marions for Peace

Ervin Bullock will discuss the Palestinian and Israeli crisis when she addresses Marions for Peace at the group's meeting on Thursday, Aug. 3, from 6 to 8 p.m. at the Marion County Public Library Headquarters, 2720 E. Silver Springs Blvd., in Conference Room B. The public is invited to participate. Bullock returned from the area May 5 after helping lead a travel/study seminar of 100 Presbyterians in the Holy Land.

The Presbyterian position has consistently been to affirm the right of Israel to exist as a sovereign state within secure, internationally recognized borders, as well as the right of the Palestinian people to live peacefully in a neighboring independent, sovereign state.

Marions for Peace rallies each Saturday from 5 to 6 p.m. at State Road 200 and Southwest 27th Avenue. Contact: MarionsforPeace@aol.com or call 873-9970 for information.

OCALA

Cab'bat's Fire dinner

BY LAURA BYRNES

THE LEADER

OCALA

One month ago, Mary Platts stood at the podium before Marion County commissioners, pleading with them to go easy on new assessments for fire service.

That was before Platts discovered she probably couldn't afford to use her own garden hose to put out even the smallest blaze. Since then, her water bill from County-Wide Utility Co. has more than quadrupled, and that has the 80-year-old widow, as well as many of her neighbors in Bahia Oaks, burning mad — especially since they say County-Wide didn't warn them.

The utility's owners, Jim and Dirk Leeward, asked the Florida Public Service Commission to increase rates 135 percent in order to "immediately earn a return" on connecting to the city of Ocala's water and sewer system. County-Wide serves Bahia Oaks, Oak Creek Village and West Wind Trails, as well as some commercial development on State Road 200.

The PSC granted an emergency rate increase in April of \$30 per 3,000 gallons, up from a base rate of \$13.

Platts, who has lived in Bahia Oaks for 30 years, was one of about 50 of County-Wide's 500 customers who met with PSC staff last week as part of the utility's staff-assisted rate case.

"I worked and paid taxes for 60 years, and I have to stand here and beg for help," said Platts, who lost her husband last September and now survives on a \$700-a-month Social Security check.

"I don't have cable or go to the theater or do other things I might enjoy because I can't afford them. I'm a little old lady, and I cut my own grass. About

PLEASE SEE COMMISSION ON 2

Hung out to dry?

Increase in water rates creates hardship in Bahia Oaks

LAURA BYRNES/THE LEADER

Mary Platts, here with Bahia Oaks neighbors, says her water bill from County-Wide Utility Co. has more than quadrupled. "I worked and paid taxes for 60 years, and I have to stand here and beg for help," she said.

-2968 or Andre Marks,

start or stop delivery,
@starbanner.com

online director, at 387-

7-4100.

Commission to consider rate case Aug. 29.

CONTINUED FROM 1

the only thing I do is putz around in my yard. I have flowers and I water them," she said at the July 19 meeting.

But Platts' petunias are dying because she was hit with a \$54 water bill last month.

Under the emergency rate, a typical household using about 7,000 gallons a month pays \$37.49, up from an average bill of \$16.49, but Platts and a dozen of her neighbors report that June charges ranged from \$30.11 to \$97, an average of \$59.

Nancy Castro, who moved to the area about a year ago with her husband and two children, says the choice may come down to "do I pay my electric bill, do I pay for my medications to keep me alive or sane, or do I pay my water bill?"

But while County-Wide and

Bahia Oaks' owner, Jim Leeward, sympathizes with those hit hard by the rate increase, he said there's nothing he can do about it.

"I really feel bad for them. I don't have any way to cut the costs. It's one of those things that can't be controlled, can't be helped," Leeward said. "I really do care for those people, (but) everything goes up — electricity, natural gas, gasoline — and our water hasn't kept up."

Leeward, who attended last week's meeting but did not comment at the time, subsequently told *The Leader* that customers were not formally notified about the rate increase because "I just thought everybody knew it was coming."

Leeward said the expansion has been in the works for years, necessitated by a 1996 change in the Marion County land-development code. At the time,

County-Wide's wells, built in 1971, were at 60 percent capacity. The Florida Department of Environmental Protection requires that utilities plan for expansion when usage reaches 80 percent capacity, which County-Wide did in 2002. He said connecting to the city's system and purchasing bulk water and sewer was his best option.

Troy Rendell, PSC supervisor, said the rate increase would only ensure County-Wide an 8 percent rate of return.

While County-Wide asked for a 135 percent increase, PSC staff has recommended 127 percent; if the case is settled at 127 percent, customers may receive a partial refund.

Staff-recommended rates will be submitted by Aug. 17, with the PSC set to consider the case in Tallahassee on Aug. 29. The commission then has 20 days

to file a proposed agency action that triggers a 21-day protest period.

Retirees aren't the only ones feeling the pinch.

Theresa Citren, a single working mother who lives in West Wind Trails, said she was charged nearly \$60 in June, even though no one was home during much of the month.

"I work as a teacher, so I'm practically on a fixed income, (and) getting an increase from \$14 to \$59 really makes a big change," she said. "My heart goes out to all these older people because at least I work and can get a second job. But if it's hard for me, it's harder for them."

Laura Byrnes covers the State Road 200 Corridor for *The Leader*. She can be reached at 732-7159 or laura.byrnes@starbanner.com.

CONSUMER COMMENTS

We live in The county - It was not appropriate
for The developer To connect us To The city
water at such a high rate of increase in our
~~water~~ water usage. The developer is just
another middle man now, who also needs To
add his profit, He should be dismissed
and let The city handle all The water
& future sanitation, if he is To choose
This Route.

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this “upgrade” was “necessary” so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

Sir,

This request is being sent to you regarding the water
rate increase that is totally out of proportion. We feel
we are paying for the new construction (developments)
that Mr. Seiwald is developing. First let me mention
the water pressure is too great now and this spring 2004
a water line erupted and sprayed water for 2 days all
the way out in the rd. We ask that Mr. Seiwald should

CMP

install new water systems for his new developments,
and place the current ones back as they were before
he connected to the new water system. We are not
against Mr. Seiwald developing new developments, only
this cheap escape from developing new water systems
or supplying water to the new developments. As mentioned
above the water line that erupted was directly hooked
to the house address. Thank you in advance for
your consideration.

Hung out to dry?

Increase in water rates creates hardship in Bahia Oaks

BY LAURA BYRNES
 THE LEADER

Ocala
 ne month ago, Mary Platts stood at the podium before Marion County commissioners, pleading with them to go easy on new assessments for fire service.

That was before Platts discovered she probably couldn't afford to use her own garden hose to put out even the smallest blaze. Since then, her water bill from County-Wide Utility Co. has more than quadrupled, and that has the 80-year-old widow, as well as many of her neighbors in Bahia Oaks, burning mad — especially since they say County-Wide didn't warn them.

The utility's owners, Jim and Dirk Leeward, asked the Florida Public Service Commission to increase rates 135 percent in order to "immediately earn a return" on connecting to the city of Ocala's water and sewer system. County-Wide serves Bahia Oaks, Oak Creek Village and West Wind Trails, as well as some commercial development on State Road 200.

The PSC granted an emergency rate increase in April of \$30 per 3,000 gallons, up from a base rate of \$13.

Platts, who has lived in Bahia Oaks for 30 years, was one of about 50 of County-Wide's 500 customers who met with PSC staff last week as part of the utility's staff-assisted rate case.

"I worked and paid taxes for 60 years, and I have to stand here and beg for help," said Platts, who lost her husband last September and now survives on a \$700-a-month Social Security check.

"I don't have cable or go to the theater or do other things I might enjoy because I can't afford them. I'm a little old lady, and I cut my own grass. About

LAURA BYRNES/THE LEADER

Mary Platts, here with Bahia Oaks neighbors, says her water bill from County-Wide Utility Co. has more than quadrupled. "I worked and paid taxes for 60 years, and I have to stand here and beg for help," she said.

PLEASE SEE COMMISSION ON 2

Commission to consider rate case Aug. 29.

CONTINUED FROM 1

the only thing I do is putz around in my yard. I have flowers and I water them," she said at the July 19 meeting.

But Platts' petunias are dying because she was hit with a \$54 water bill last month.

Under the emergency rate, a typical household using about 7,000 gallons a month pays \$37.49, up from an average bill of \$16.49, but Platts and a dozen of her neighbors report that June charges ranged from \$30.11 to \$97, an average of \$59.

Nancy Castro, who moved to the area about a year ago with her husband and two children, says the choice may come down to "do I pay my electric bill, do I pay for my medications to keep me alive or sane, or do I pay my water bill?"

But while County-Wide and

Bahia Oaks' owner, Jim Leeward, sympathizes with those hit hard by the rate increase, he said there's nothing he can do about it.

"I really feel bad for them. I don't have any way to cut the costs. It's one of those things that can't be controlled, can't be helped," Leeward said. "I really do care for those people, (but) everything goes up — electricity, natural gas, gasoline — and our water hasn't kept up."

Leeward, who attended last week's meeting but did not comment at the time, subsequently told *The Leader* that customers were not formally notified about the rate increase because "I just thought everybody knew it was coming."

Leeward said the expansion has been in the works for years, necessitated by a 1996 change in the Marion County land-development code. At the time,

County-Wide's wells, built in 1971, were at 60 percent capacity. The Florida Department of Environmental Protection requires that utilities plan for expansion when usage reaches 80 percent capacity, which County-Wide did in 2002. He said connecting to the city's system and purchasing bulk water and sewer was his best option.

Troy Rendell, PSC supervisor, said the rate increase would only ensure County-Wide an an 8 percent rate of return.

While County-Wide asked for a 135 percent increase, PSC staff has recommended 127 percent; if the case is settled at 127 percent, customers may receive a partial refund.

Staff-recommended rates will be submitted by Aug. 17, with the PSC set to consider the case in Tallahassee on Aug. 29. The commission then has 20 days

to file a proposed agency action that triggers a 21-day protest period.

Retirees aren't the only ones feeling the pinch.

Theresa Clifton, a single working mother who lives in West Wind Trails, said she was charged nearly \$60 in June even though no one was home during much of the month.

"I work as a teacher, so I'm practically on a fixed income (and) getting an increase from \$14 to \$59 really makes a big change," she said. "My heart goes out to all these older people because at least I work and can get a second job. But it's hard for me, it's harder for them."

I don't like it, Looks like more + more things
are being pushed at us, Not only here, but ALL OVER
the Country EVERYWHERE. With out Our permission or
say so. "What Happen to WE the people"

Whom AMERICA was based on, "Ask us, do WE
Like it OR NOT? WE want Our Country Back.

WE CAN NOT LET PEOPLE LIKE THIS WALK ALL OVER
US, + do things with out Our say so. it must be
stoped now. Some body up there, NEED'S to pay
ATTENTION to "WE the People."

"PLEASE don't let people like this get away
with this, Not only here, but ALL OVER THE COUNTRY
"PLEASE, bring back the times, when OUR VOICES USED
MEAN something All for ONE, + ONE FOR ALL.

Thank you.

I am very disapointed in
this water charge. First of all my
income hasn't gone up to pay for it.
I have a lot of bills to pay a month
with Ins. & all, & its just to much, and
uncalled for, its an outrageous price to pay
for water.

I've lived in Bahia Oaks for 10 years.
I'm 85 years old and I think this water raise
is unbelievable

our water was perfectly fine, we
didn't need city water.

I live on a fixed income why do I have
to pay for new homes. The Builder that
needed the water change is using us

to pad his pockets & we are the ones
paying the price

I we didn't ask for the new houses, that's
his problem, we don't need it.

from \$3.23 to \$30.11 is quite a sum to
those who can't afford it. I hope something

will be done about this, since the change
we get warm water from The cold Tap

Please help us out

We are a household of 4. My
biggest water bill even w/ watering
my flowers and grass along w/
a dishwasher was NO MORE
than \$55. My June and July
bill ~~was~~ was \$116 and \$165 w/o
any warning. I also had a new
Drain ~~field~~ field put in, In March
of 2005. We cannot afford
over \$100 on a monthly bases
for water. It is unfair especially
since I no longer water my
grass and just my flowers
every other day. I also can
not afford to put up a simple
4 ft pool for my son. The

Fold and tape -- see back for address

Rate increase of 126% is
outrageous and unfair. It would be cheap

I am 80 yrs. young & speak for a number of
widows who, like me, live below the poverty
level in Bahia Oaks. We all have real
problems paying our utility bills. The water
bill is way out-of-bounds! How much are
people living in Ocala (City) paying for water as
we are getting our water from their source too.
Please, help us. We want to pay our bills
like every body else, but we need money for
food etc. Someday your loved-one will
be in our shoes. I pray you have
compassion on us. I work-d for 65 yrs.
paid taxes etc. My income makes me
wonder why us "old timers" that work-d
thru WW II and some of us lost homes during
the depression! Now we struggle again!
And am too old to go to work!!!

This is Elizabeth Neubauer and I am so upset at such a large increase in our water bill. I am 81 years old on a small income. I can't afford such an increase in the water. I have all I could do to pay all the bills as I am a widower. We are not against County-Wide Utility making a profit, but we feel the increase is ridiculous, unfounded and unnecessary. I am requesting that you review this situation and restrict the amount of increase allowed.

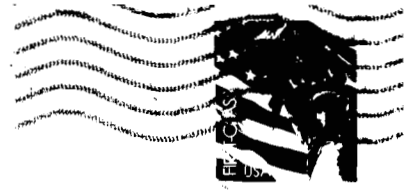

Sincerely,

Elizabeth L. Neubauer

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this "upgrade" was "necessary" so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

CONSUMER COMMENTS

When is it going to give?? We are losing our jobs to foreign countries. We are paying high dollars for foreign oil. We get up in the morning and are paying a high price to brush our teeth (cost of water). If we want nice looking lawns we are paying dear for our own natural resources that is being distributed to make someone Big Bucks.

With the prices we are paying for water a choice has to be made. Water to keep our personal needs in line & to keep our property nice, or to back off water usage, and save our money for food & medicine. We have lot of elderly people in our park trying to live on \$750.00 a month. We are not getting a break overseas, Let's give the elderly a break on our own resources! Please back this increase down to a human value. Help make the "Golden Year" golden, not a hardship. Thank you for your time.

CONSUMER COMMENTS

We do not feel we should have to pay for a change in the water system in order to accommodate a new subdivision. A small increase might not have been so bad but this increase is unjustifiable.

Example of four water bills (June 05 \$27.49, June 06 \$83.36, July 05 \$24.35, July 06 \$96.98)

Aug 05 was \$14.91 March 05 \$13.89 April 05 \$26.38

You can see the wide change in price. We

lived in the city for 25 yrs with 4 children and never paid bills like these. Now there is

just 2 of us and not all the showers

and laundry and the bill has increased

4 times the price. I am disabled now

and we cannot afford this kind of bill.

CONSUMER COMMENTS

In my opinion, the County Wide Utility Company is using the residents of Baker Oaks for their own private gains. They are being manipulative, using political influences and connections for their own profitable gains at the expense of the taxpayers of this community.

Please do not permit them to do this to us

CONSUMER COMMENTS

The new rates for water are unfounded and uncalculated. You are still have city water, but we are not supplying all of Ocala with the system, only Bahia Oaks and another mobile home park.

These rates need to be revised. Most of us that live in this community are on fixed incomes, we cannot afford these additional rates.

Profit is the name of the game, but not to make others suffer for someone else to find a big gain.

Take the city water back & we can go back to the old well and pump and make our expenses lower.

Please help us to make our lives easier and keep our costs down. We need your help!!

Thank you

For profit reasons we are forced to go
on the city water, so the developer can
make an additional profit from us while
saving himself money - for the new
development subdivision in the area
between SR 200 + 60th CR.

For one person my bill was 13.00 now now
its 49.00 now. That is a sizable increase
Thank you for your time

I am 88 years old, 51 yr. Fla. resident, 27 yrs. Ft. Laud. (Broward Cty.)
24 yrs. Ocala Marion Cty. My brick home in Ft. Laud. was condemned to
make way for a Six Lane Highway. Population Explosion both counties.

In Ft. Laud. we had our own water system, new homes in the surrounding
area were built, they DID NOT INFRINGE ON OUR WATER SYSTEM. Water
increases were average, not unreal!

I am a single family home (no children) main income Social Security
a minimal amt. withdrawal from IRA acct.

I sympathize with singles in my situation, we have the same expense as
homes with two incomes. I worked with geriatrics for 27 yrs. in Ft. Laud.
and how difficult every increase is - from Sumter's electric Cost Power
Adj., increases on telephone service, home pickup of yard and waste -
(I pay \$236. ea. yr.) plus taxed heavily on land fill, new increase on
fire protection (same as it was) and no reduction in Homeowners ins.

The proposed water increase is outrageous, usage based on average 5,000
to 8,000 gal. ea. mo. From 12/23/05 to 7/21/06. My 8 mo. period, it
averaged out at 3200 gallons per month.

I am depending on YOU good Florida residents who have to review this
water matter and know the facts behind proposed HARDSHIP and out of
HONEST REASONING of water increase.

THANK YOU for your honest judgement in this matter, the magnificent
gift of my life is in GOD'S HANDS, the water situation before YOU-ALL,
is in yours.

THANK YOU for your sincere consideration and ...HELP...HELP...HELP!!!

We are residents in Bahia Baks
development on SR 200. We feel
this increase in our water rates
is way too much. We are on a
fixed income which does not allow
for an increase of over 100% and
we do protest this increase.

Please consider the elderly who
live solely on Social Security and
have a hard time making ends meet.
Thank you for reconsidering
this increase.

I think Countywide Utility Co.Inc
is out of line with their enormous water rate

increase,

I think the Developer should stand the cost
of the improvement to the water system, which is too
small to provide enough water for the New
Development, West Wind. They should be able to
collect the cost through the new Homes and new
business in the new Development not from old
established customers

In regard to the increase of the price of water, I have become part of the new generation! What's in it for me?? Fire hydrants?? The closest one is 2 blocks away from my home! and is on a main street. In the opposite direction for 5 or 6 blocks there are none!! There have been increases in Taxes, fire dept, electricity and insurance but not by 131%!! These increases have brought about better services and I do not accept the water cost increases when there ~~is~~ is no benefit to me and only to Mr Jim Leewards finances. We are a community of senior citizens who put no drain on Opala, please do not take away our ability to be self sufficient.

I am an 83 yr. old widow my
husband died some 1st. My income
was cut in half. When we moved
here, we thought that when the
time came - one of us would still
be able to live here. This rate
increase is not fair to me and others
like myself. We were not asked if we
wanted to pay for Countywide to
develop more land - He (the developer)
is robbing us. And someone needs to
care enough to help us. He is unethical
We were lied to before and while
he was installing lines. So
please stop this.

Dear Sir / Madam,

I feel that if the developer wants
to develop a new subdivision, he should have
his own independant water supply and
it should not affect the residence of
Bahia Oaks in any way. He is the one
who should have his development connected
to the City Water and leave us on the
community well. since this system has
been so for over the past 25 years and
over,

CONSUMER COMMENTS

Before with 3 adults and one child in the home our water bill was one-third of the current bill, with only 1 person now occupying this residence.

Additionally, due to legal problems between various cable companies and the developer, after numerous changes in cable providers, residents have been forced to go to private cable providers (i.e. DISH network, DirectTV) as the developer would not work with the current cable provider and the matter is now in litigation.

Leeward (the developer) must assume some responsibility and expense to retain air and mineral rights to land we purchased and pay taxes on annually.

The enclosed paper sums up our
feelings about the rate increase, except to
take it one step further, I would like to
add that the fact that it was allowed
in the first place, is a sad commentary
on the P.S.C. and the State of Florida.
It (the rate increase) shows a complete
disregard for the consumers and
no regard for the "Sunshine Law".

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this "upgrade" was "necessary" so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

FACSIMILE COVER PAGE

ORIGINAL

To : PUBLIC SERVICE COMMISSION

From : henry bolding

Sent : 8/1/2006 at 3:24:50 PM

Pages : 1 (including Cover)

Subject : DOCKET NO. 050862 - WS, OBJECTION LETTER

050862-WS

WE LIVE IN THE "WESTWIND TRAILS" SUBDIVISION, AND RESIDE AT 6472 SW 63RD COURT OCALA, FL 34474.

DUE TO OUR PRESENT HEALTH WE ARE UNABLE TO ATTEND THIS MEETING BUT REQUEST THAT YU ACCEPT OUR LETTER OF OBJECTION FOR THE AN INCREASE BY COUNTY-WIDE UTILITY COMPANY, INC.

WE ARE RETIRED AND ON FIXED INCOMES. MY WIFE RETIRED FROM THE US GOVERNMENT AND I RETIRED FROM LAW ENFORCEMENT, IN ADDITION TO BEING A PURPLE HEART RECIPIENT FROM THE US MARINE CORPS.

WE UNDERSTAND THE DEVELOPERS POSITION TO INCREASE HIS PROFIT, BUT AT THE SAME TIME RESTRAINT FROM GOUGING THE SAME RESIDENTS AND CONTROL FROM OVER PRICING IS WHAT WE ALL HAVE FOUGHT FOR AND HAVE DIED FOR. IN THE FACE OF DESTRUCTION, VIOLENCE, CORRUPTION, AND UNFAIR PRACTICES IS EXACTLY WHAT THIS WAR AND EVERY SITUATION OF DEVASTATION ARE ALL ABOUT.

WE AS AMERICANS AND CITIZENS OF MARION COUNTY AND OF FLORIDA NEED PROTECTION AND
SEEK COOPERATION FROM OUR ELECTED OFFICIALS TO SUSTAIN AND MANAGE THE USE OF
POLICY AND PROCEDURES NOT ONLY TO AIDE THE BUSINESSMEN AND BUSINESSWOMEN IN OUR
COMMUNITY, BUT THE COMMUNITY AS WELL. IT IS NOT ENOUGH IN THIS FIGHT OF INFLATION TO
JUST HELP THOSE WHO CAN HELP THEMSELVES, BUT ALSO TO ASSIST THOSE WHO ARE BEING
FORCED INTO NOT BEING ABLE TO HELP THEMSELVES.

IT SHOULD NOT BE A QUESTION OF WHETHER ETHICALLY OR MORALLY THE WEALTH OF ONE
DEVELOPER SHOULD BE CONSIDERED OVER THE DEMISE AND HARDSHIPS OF AN ENTIRE
COMMUNITY. IN OTHER WORDS OUTSIDE OF THE DEVELOPER INCREASING HIS ABILITY TO
INCREASE HIS WEALTH, WHAT DOES THIS ACTION PROMOTE AS FAR AS THE COMMUNITY IS
INVOLVED? OVERCROWDING AND DEPLETION OF OUR STRESSED ROADS, SCHOOLS, UTILITIES,
AND NATURAL RESOURCES. THIS ALSO WILL CONTINUE TO DRIVE OUT THOSE WHO HAVE
SUPPORTED AND BUILT THIS COMMUNITY THAT WE LIVE IN. SHOULD OUR EFFORTS TO HAVE OUR
HOMES AND FAMILIES BE JEOPARDIZED BY SOMEONE WHO LIVES OUTSIDE OF OUR COMMUNITY
AND HAS NO VESTED INTEREST EXCEPT FOR FINANCIAL GAIN. ONCE OUR NEIGHBORHOOD IS
DESTROYED THE DEVELOPER WILL MOVE ON TO ANOTHER LOCATION TO DO THE SAME, PUTTING
THIS SAME STRESS ON OTHER CITIZENS LIVES WITHOUT CONCERN OF THEIR FAMILY DEMISE.

RESPECTFULLY,

HENRY & PATRICIA H. BOLDING

The new rate is CONSUMER COMMENTS totally unfair.
I had no problems with the taste and quality
of the water. However I drink only distilled
water because of my heart problem.
The water pressure has been adequate.
I live by myself and feel that the high
increase will create a hardship forme. I
have St. Augustine grass. I am a widow and
will be 72 yrs. this Nov. I have cut down on the
use of my sprinkling system. I have 5 zones and
they are set at 3 zones 15 min. run time and 2
7 min. each zone. Do not use my dishwasher. I save
my dishwater collect it in a bucket and water my
potted plants. Try not to flush my comode as often and
cut down on washing clothes. However none of this seems
to help. I have always had high water bills here. I do
not wash my car or hose down my driveway. I have my
house pressure washed once a yr and never washed the roof.

I Rod Archibald, have lived in this subdivision
of Bahia Oaks for 13 years now. I haven't been able to
attend the meetings as I am A truck driver and I'm usually
on the road. my water bill at it's highest has only
been about \$17 for one month. This new increase is not
only much to high, but the water pressure is terrible.
I don't feel that the people of Bahia Oaks should have
to pay for the choices that the developers make.

We were not included in this water deal at all
and was not asked about our opinions on the matter,
they just had it done and now want us to pay for it.

CONSUMER COMMENTS

we have lived in Bahia Oaks for about
4 yrs., and agree that an increase was
due, however the way and amount
was very unfair, residents where
having a hard enough time, especially
ones on fixed incomes. You cant service
on 700.00 dollars a month, and water
Bills that are raised 137%, this
is a very unfair increase, especially
none of us were notified of connection
until after the fact we were not given
any options, then were told our
Bills were going to be trippled, some
even more then that. Something needs
to be done, its bad enough, electric, gas
food, ect has all went up, all except our
incomes!! Thank you for your time.

To whom it may concern,
I'm on SSI and get \$649⁰⁰ a month
getting a water bill of nearly \$50⁰⁰
will put a great financial strain on me.
Why should we the customer pay for
a companies expantion. IF we had a choice
it may be different.

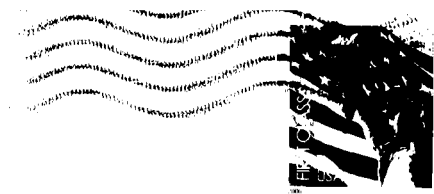

CMP IF the state imposed an impact fee
COM that was substantial and across every
CTR county, it would (1) pay for all the schools
ECR that will be needed for all the addid families.
GCL (2) pay for all the infrastructure needed for
OPC them (3) slow the over building that's going
RCA on all over the state 10's of thousands here
SCR in Ocala alone. (4) pay for additional fire
SGA stations and staff. Our nonvotem taxes should not
SEC pay for future residents. Thank you

CONSUMER COMMENTS

Dear PSC,

The County-wide Utility has disconnected us from our Community Well and Connected us to City water through a meter owned by City-wide. They are then selling the water to us. (We were paying \$12.00 a month now they want \$45-\$55.00 per month.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claim this "upgrade" was "necessary" so that they could develop a new subdivision in the area between SR 200 & 60th Court.

The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that we were forced to go on to city water so the developer could save himself money by not providing a separate water system for this new development.

Fold and tape - see back for address
We are on a fixed income and I feel the developer could afford the increase more than we can. Sincerely,
Please hold us to be able to afford to live here. Mary Ann McWilliams

CONSUMER COMMENTS

We are home owners in West Wind Trails, Ocala FL. Our water bill has more than doubled and this kind of increase cannot be legal. It is outrageous and we were not prepared for the sight of our ever inflated bill.

All the recent development in our area, all the homes being built, the added traffic and our ever crowded schools are of concern to all of us.

We bought our home here because we liked the peaceful atmosphere. Our area is no longer a calm and restful place to call home.

Greedy developers are taxing our city resources and taking advantage of us taxpayers. The increase in our water

CONSUMER COMMENTS

My WATER Bill has more than tripled in ONE MONTH. This is UNFAIR to those who live in this neighborhood as many ARE ON fixed INCOMES. The owner of the water system ALSO OWNED the CABLE system, which he REFUSED to MAINTAIN, thus CAUSING many to HAVE to spend MORE for SATELLITE systems. He OWNS the LARGE AERIAL ANTENNA & REFUSES to MAINTAIN it. The light on top is BURNED OUT & HAS BEEN for MONTHS - MANY guide wires HAVE BROKEN & ARE JUST HANGING. But the light WORRIES me because of the PROXIMITY of the glide PATH to the AIRPORT.

I resent this proposed rate increase (3 times plus) this is blatant highway robbery, the rich getting richer. A rate increase is ok by 10% but 300% NO way.

This crew does "NOT" do anything to improve this subdivision, he screw us on the cablevision, he does not maintain the water tower which is in direct path of the airport, along with the cable tower does not have a light working, dangling cables & quirk wires, & he wants to stick us with this ridiculous rate increase NO way.

I can't understand why we were put
on city water. We were doing just fine the
way we were and never had a problem
with our water. As a result of putting
us on city water, our water bill from
Countywide Utilities rose over 150%. We
find it difficult to understand because
our park is not going to enlarge. So now
we had ample water in the past we should
also have enough in the future. Most
residents here are on a fixed income. This
rate hike will put a strain on an
already tight budget. We would appreciate
any help we may be able to receive. This bill
now is equivalent to 3 deep groceries for retired
seniors. Please help us.

CONSUMER COMMENTS

We moved here to the park in June, 1972. We expected increases in water use rates over the years. However, the increase to an average of \$45-\$55 is unreasonable. Our personal consumption has decreased over the years (we no longer have a swimming pool and our family size has decreased from 4 to 2). We currently consume 2,000 to 3,000 gal. per month. We understand this increase is resulting from County-Wide Utility Co. decision to connect us to city water due to the new development being planned in this area. We also understand the water system Bahia Oaks did have was adequate for the residents. The result of the increase passed on by County Wide Util. has increased our monthly bill from \$12 to \$30. and we understand it may increase more. We think this is unreasonable, especially for those of us on fixed incomes. It's also very unfair to have customers pay for future development!

CONSUMER COMMENTS

*I feel the increase is highly inflated
I have come here from upstate N.Y. and
I was on city water there and it was
only \$9 a month. I'm sure it costs less
to supply water here than up there*

*Sincerely
Charles E. Lukenbill*

To Whom This Concerns,

my concerns are this to you, why does the
~~developer~~ developer of this mobile home park have
the right to force us to his will? first it was
road repair, which we didn't need, then we
charged for it, second of many more lights had
to be put in, which he sold stock in and now
his putting in a sub division between 5K200 +
60th St, the new development could have had
a separate system, but lied to us told us it
would be passing just needed to be run thro this
~~dev~~ development & we wouldn't be hooked to it
now his sold right of way to new developer and
there selling water to us with extremely high
expense, which shouldn't have happened, We
of the community are asking for your help, as we're
at Mr. Leewards mercy and who is buying the rights?

Fold and tape -- see back for address

Please help to make this right. Respectfully
Irene Hiestor

CONSUMER COMMENTS

We live in Bahia Oaks Mobile Home Park.
Lewward supplied our water from his well,
when he wanted to develop more land
he didn't have the capacity to furnish
water to the new development, so he
had to put in a new water main, which
we did not need.

Now he (Lewward) is charging us for
the new water main that he had to put in
for his new development.

This increases our rates from thirteen
(13) dollars a month to thirty dollars plus a
month

We, the people of Bahia Oaks feel this is
unjust & unfair.

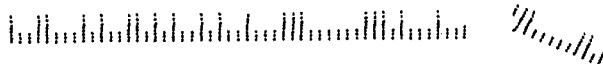

Thank you Sincerely Fred Brewster &
Doreen Brewster

EMERGENCY WATER RATE INCREASE

July 31, 2006

Virginia and Henry Frick
6316 S. W. 61st Court
Ocala, Florida 34474-5509

We are year around residence of the State of Florida, residing at the above address:
Lot 17 Block 13
Oak Creek Village

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this "upgrade" was "necessary" so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We do not object to paying our fair share for the actual use of water, but we do not believe that we should be charged exhorbitant rates for the benefit of a "developer" who apparently has "friends" within the political system.

Please see "Exhibit A" which reflects actual payments for the 20 month period from December 2004 through July 2006.

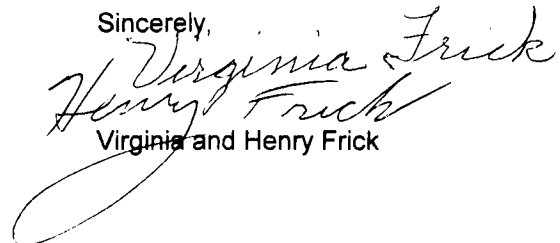

It appears something is wrong with the rating system for months of May, June and July of 2006

We are two Senior Citizens who through-out the 20 months reflected on the exhibit did not experience any water leakage or use of water beyond normal usage for said period.

We subamit that excessive rates are now being used on our billings to the benefit of the Developer of Bahia Oaks, Oak Creek Village and West Wind Trails.

Your consideration of our apparent excessive billings is appreciated.

Sincerely,

Virginia and Henry Frick

LIKE TO THINK THAT HE DOES NOT CONTROL THE
LOCAL POLITICIANS AS WELL? BUT, AS I HAVE
BEEN INFORMED SEVERAL YRS AGO, MEI + HIS SON
ARE VERY POWERFUL IN OCALA / MARION COUNTY.
I HOPE HIS INFLUENCE + MONEY DO NOT
PERMEATE TALLAHASSEE AND SOMEONE WITH A
CONSCIENCE AND STILL BELIEVES THAT "THE
PEOPLE MATTER" WILL HELP US PLEASE!

PS SOME OTHER PROBLEMS WE HAVE ENDURED WITH
JAMES LEEWARD THE DEVELOPER:

WEST WIND TRAILS (BAHIA OAKS #3)

① AS PER LEGAL PLOTTING - NOT DEVELOPED PROPERLY
FOR WATER DRAINAGE - ② RETENTION PONDS DO NOT
FILL WITH RAINFALL, INSTEAD IT STAYS IN FRONT
YARDS + STREETS. ③ STREETS SUB STANDARD PER COUNTY AND
DEVELOPED IN 1970'S - SUBDIVISION DEVELOPED IN 1998.

③ HE OWNS CABLE FOR GALAXY CABLEVISION + NEVER
UPGRADED WIRING - THEREFORE PEOPLE USE SATELLITE.

Fold and tape -- see back for address

④ OLD WATER METERS - I'M NOT SURE HOW THEY ARE
READ AS MOST ARE COVERED UP WITH SAND / DIRT.

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this "upgrade" was "necessary" so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 - 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

COUNTY-WIDE UTILITY CO. HAS THEIR OWN WELLS,
THEREFORE, IT IS NOT NECESSARY FOR THEM TO HOOK
UP TO CITY WATER. WHAT IS THE POINT IN THE
PSC IF NOT TO PROTECT THE CONSUMER. ONE WOULD
THINK WATER RATES IN ARIZONA WOULD BE VERY
HIGH SINCE THEY HAVE LESS THAN 10 INCHES OF
RAINFALL PER YEAR. WE MOVED FROM THERE MAY OF
2005 AND OUR WATER BILL WAS NEVER MORE THAN
20.00 PER MONTH. WE ARE ON SOCIAL SECURITY AND
THIS BIG INCREASE WILL TAKE A LARGE BITE TO
GIVE TO THIS WATER CO. SO THEY CAN REALIZE A
BIG PROFIT AND SO THEY CAN ALSO SERVICE
ANOTHER SUB-DIVISION KNOWN AS WEST WIND.
WE STRONGLY URGE YOU TO TURN DOWN THIS
RATE INCREASE. THANK YOU!

THE ATTACHED ARTICLE TAKEN
FROM THE OCALA STAR BANNER
7-28-06, SAYS IT MUCH BETTER THAN
I COULD.

SOME HOW, SOME WAY IT'S TIME
FOR A CHANGE.

KRUSCHEVE IS BEGINNING TO LOOK
MORE LIKE A PERSON WHO WAS CORRES-
PONDING WITH FACT RATHER THAN A
POLITICIAN RUNNING HIS MOUTH.

National disgrace

I read daily of the atrocities of the Iraq war, mounting pollution, the ongoing destruction of the environment, an inadequate system of medical care (except for the select few), apparent price gouging by the oil industry, an obscenely rising national debt, and on and on.

The almighty dollar rules. Just watch our illustrious government at "work." The platform seems to be ignore the people and to hell with the facts - just follow the party line.

The politicians' handbook must be titled "Government for Idiots: How to screw the American people and get away with it." Their ultimate goal of personal monetary gain is all too prominent within the political agenda. Will this government ever awaken to the voice of the people? I feel nothing but disgust and contempt for these government leeches.

Please just resign before your lack of ethics catches up with you. And by the way, welcome to Earth's largest Third World nation, and the best government money can buy, from the roots to the top of the tree, where the deadwood lies - all bought and paid for with the tax dollars of the American people.

I can only conclude that the greater majority of our politicians are truly a disgrace to this country.

REF: COUNTY-WIDE UTILITY WATER RATE INCREASE

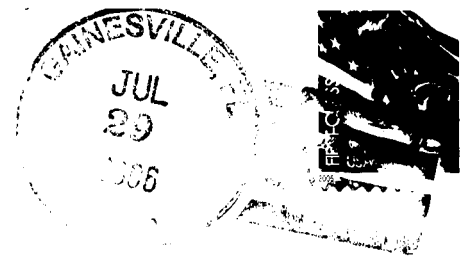

CONSUMER COMMENTS

I would like to protest that developers can
indiscriminately raise water rates. We are newly
arrived at the West Wind Trails community from AZ
where we never saw more than 6 inches of annual
rainfall, yet we never paid more than \$30 a
month. We are on a fixed income and \$45 to \$50
would be down right outrageous. Surely the Public
Service Commission has guidelines to rule
developers from ripping off the public. Such
a rate increase as proposed is down right
ridiculous! If developers are so intent
on developing a new community then they
should make their own provisions in providing
water from their own expense and not
be allowed to rip off existing communities.

THANK YOU!

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this “upgrade” was “necessary” so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

CONSUMER COMMENTS

We are new to the ~~at~~ neighborhood and have
not yet received our first bill, however when inquiring
about different cost before purchasing our home,
we were told the cost of water was about \$13 A
Month. A price increase of some 135% seems
to be about Good. Cost for everything is rising, A
Modest increase seems fair and I can now understand
why most lawns are browning and do not get water
unless it rains.

County-wide utility Co should connect us back
to our community well. If they want to
develop a new subdivision between SR 200 & 60th
Court, the water connection should be a separate
system as it was originally conceived, configured
and built for Bahia Oaks.

Tenants in the new subdivision should be
charged and bear the cost of whatever expenses
are incurred in implementing the improvements.

Obviously the developer is trying to make
profits at our expense, not being Bahia Oaks
a shareholder of the developer.

They should stick to the old saying
used by investors; i.e. "If you want to
make money, you have to invest money" (your
money, not others). Thanks and have a
nice day. J. Boria

DISTRIBUTION CENTER
06 JUL 31 AM 7:26

July 28, 2006

As a former employee of an electric, gas, and water utility in Nevada, (where water is EXTREMELY scarce), I can appreciate the desire to make a profit. HOWEVER, my water bill has quadrupled with no increase in service. The highest water bill I ever had in Nevada, (where lawn irrigation was done three times a week, and I had a bigger house with more inhabitants), was approximately \$75.00, and that was with 60% of that being for the sewer charge. Here, I was hit with a bill over \$134.00 last month, I am on a septic tank, and we STILL have no fire hydrants. It seems unrealistic that my bill should have to quadruple so that they can make even bigger profits with a new subdivision. When we are annexed by the city, will my bill still be this much for water and then will I be adding 60% more for sewer?

In a previous incident, (which I had complained to the PSC about), County-Wide had instituted a boil-water notice. However, they had only placed a small ad in the local paper, which I was not subscribed to. Luckily, my neighbors alerted me to this situation. When I called County-Wide, who went by a different name, there was no response, except for an answering service. This was during normal hours. After several tries, I finally reached someone who was rather indifferent to our health concerns and basically provided no insight as to how long this situation was to continue. Once my complaint reached your office, a totally different response was forthcoming.

Based on my previous dealings with this company, I have serious reservations about their claimed need for ANY increase; in fact, for the service we currently receive, we should be receiving a decrease.

CONSUMER COMMENTS

*I received this docket notice on July 28-06
the meeting was to be held on July 19.*

There was no notice in the local papers.

*As far as I am concerned both the
water company & the commission were
negligent and underhanded about the increase.*

*The increase is nothing less than
obscene, neither the commission or
water Co. is looking out for or
representing the public in this matter*

I don't think its fair to raise our water rates
to 135 per cent. They just came out + started digging
one more. No one said anything.

Why couldn't they ask if we wanted to be connected
to city of Ocala water system

I think Jim Dick Seward should have to pay the
water increase since its was there idea to raise the
rates. Its a shame how the people here got
stuck with everything just pass the buck + let
people pay. It doesn't matter what it is
just let people pay + you don't have choice.

My water bill had been \$200 for the past 2 months June & July 2000.
Prior to this increase I was paying \$100 for the bill (which)
I think for this to be \$200 is a bad thing.
We were not notified in time to do anything in the process
of protest. The water line was installed on 6/20/00. It is
behind Oaks and hooked up before we knew it was
happening - or at least we

Now I have a question. These lines are very old and
have been here about 12 years. In the event of plumbing
problems due to these old lines - is Co-wide responsible
for repair or replacement?
Mr. Seamed also handled a private cable company - service
by outside companies. Since he expects to put in new equipment this
is in litigation of some sort. I don't pay for cable but I don't get service either.
What is with this man?

We are seniors on a fix income and we are really hurting bad about this water bill of ours. We usually pay about \$45.00 and now our bill was \$95.00. This is unfair and unnecessary. We have a small vegetable garden so we can save on food and now the water is so high, we have to think twice about watering. We conserve water and collect rain water so we are not wasting water. We realize that everything has gone up but the has gone up to a ridiculous price and most people cannot afford it. We worked all our lives and now that we are seniors we don't want to go into poverty.

7/28/06

Please reconsider the ridiculous increase in water rates in Oak Creek Village, Bahia Oaks and West Wind Trails. Many of the retirees in these developments are on fixed incomes and have high medical expense. Any increase in Social Security will never cover this water bill increase.

Let us not forget — these elderly retirees are veterans who put their lives on the line to give all Americans the freedom we enjoy. Have a heart!

EMERGENCY WATER RATE INCREASE

County-Wide Utility has disconnected us from our community well and connected us to City Water through a meter owned by County-Wide. They are then selling the water to us.

The developer of Bahia Oaks, Oak Creek Village, and West Wind Trails claims this “upgrade” was “necessary” so that they could develop a new subdivision in the area between SR200 and 60th Court. The water connection for this new development could have had a separate water system other than connecting to ours which was substantial for us, but it appears that purely for profit reasons we were forced to go on to city water so the developer could make an additional profit from us while saving himself money by not having to go through the expense of providing a separate water system for this new development.

We are aware that many of you were unable to attend the Public Service Commission (PSC) meeting on June 19th, 2006. We had a very productive meeting with the PSC representatives. Many items were brought up that they were unaware of. We have made a small difference but we need your help to see this through. Please fill in the attached form with your comments and concerns. Then fold it up, put a stamp on it, and mail it to the PSC in Tallahassee.

With the new water rates the average household can expect a \$45-\$55 water bill per month. This figure includes the 5000 – 8,000 gallons that the average household consumes. We are not against County-Wide Utility making a profit but we feel the increase is ridiculous, unfounded and unnecessary. Please help us fight this by letting the PSC know your opinion.

ALL LETTERS MUST BE RECEIVED IN TALLAHASSEE NO LATER THAN AUGUST 4th, 2006

There will be another meeting held in Tallahassee on August 29th, 2006. If you plan to attend, please contact Scott Kiefer at 352-812-3645 so I can contact you to coordinate our efforts.

MY FIRST QUESTION IS WHY SHOULD I HAVE TO
HELP PAY FOR THE DEVELOPERS WANTING TO
DEVELOP ANOTHER SUBDIVISION? LOOKS TO ME THAT
I WOULD BE HELPING TO PAY FOR THEIR WAY TO
PUT MORE MONEY INTO THEIR OWN POCKETS.
THIS IS RIDICULOUS.

I AM A RETIRED VETERAN LIVING ON A FIXED
INCOME AND THIS INCREASE DIGS INTO MY FOOD & OTHER
NEEDS.

SOMEONE HAS TO PUT A STOP TO ALL OF THE
DEVELOPERS WHO WANT THE PEOPLE TO PAY FOR
THEM, SO THAT THEY CAN LINE THEIR POCKETS WITH
MORE MONEY.

PLEASE PUT A STOP TO THIS MADNESS NOW!!

THANK YOU

CONSUMER COMMENTS

what I would like to know is what gives
this developer the right to take advantage
of loyal home owners that intrusted
their well being by not only purchasing
their home from him but also thinking
that their water supply would be at a
reasonable rate not this 120% increase!!
This increase is completely ridiculous!!!
We think he should be made to put
this new development on the city
water + left our 3 developments alone.
why should we be made to suffer this
increase in water costs. If necessary
I will go to my congressman or better
yet the newspaper with many of our
neighbors to combat this situation.
TV station whatever it takes to make
our voices be heard!! please help us
in our time of need my husband hasn't
worked in 1 1/2 years very ill!! Thank-You!

CONSUMER COMMENTS

~~An increase in charge is understandable however going
up from \$13 a month to \$45 a month as it does in my
case, is a bit extreme. This is added to the
fact that ~~we~~ we seem to be located
in an arid zone. We get 1/3 the rain
water of Ocala, we must water the lawn
to maintain it.~~

CMP — I don't understand the large increase in water bill.
COM — My bill jumped \$35 a month with no increase in
CTR — water quality. This house is located in an arid
ECR 1 Zone. This means that when it is raining in Ocala
GCL 1 most times we don't get that rain. We are forced
OPC — to water the lawn and garden more often. The increase
RCA — is so drastic that it is hard to believe it is not
SCR — price gouging.
SGA —
SEC —

Our water was great. After
the change, our water doesn't
taste the same. Also I feel the
water hike in price is too
high. We don't use that much
water. We were happy with
our water the way it was.
Thank you for your time.

CONSUMER COMMENTS

why this ridiculous high increase?

I understand, only 450 ft. of water line was
all that was actually run - Two miles of
sewer line was run to the Leeward property
so he could sell land for a Walgreen Drug Store.
I understand the Leewards swapped with the
city water district for sewer line - now they
want us to pay for the sewer line - It seems
the Leewards does whatever they want in
this County - must own the politicians - we
now have the highest water rates in Marion
County - If you commissions do not help control
this high increase we are doomed

COMPLAINT INFORMATION

Complaint: Other Complaint against County-Wide Utility Co., Inc.

Details:

Recently County Wide Utility raised our rates to cover there connection of our water system to the city water. This rate increase has increased our bill over 100%. This has caused a significant financial constraint on the elderly population in our area who are on a fixed budget. This connection to the city water was necessary for a new development which County Wide water will benefit from financially. I think it is inappropriate for our area to be footing a bill that will benefit this company in the long run. Thanks for your time in this issue.

CONSUMER COMMENTS

482 Customers doing very well with a 3inch water
Line. Walgreen builds on the corner of ~~SR~~ 200 + 60th Ave
and it was necessary to put a 12inch water line in
Bahia Oaks in order for Walgreen to meet the
requirements necessary to operate their business.

It appears to me 482 County-wide customers are
paying for something Walgreens and future builders
who chose to build on property not yet developed
should have to pay.

Please check into "WHO" is benefiting from the new
water line.

Thank You

CONSUMER COMMENTS

Highly object to what amounts to about a 145% water rate increase.
The owner of the water system, Leeward, is gouging BAHIA OAKS
homeowners. Our base rate was \$13.68 which covered- most everyone's
usage. Now, some bills are above \$100/mo.! The fixed income and
elderly disabled simply cannot afford this much increase.
Leeward, in order to sell his other property holdings nearby, had to
run a water line through Bahia Oaks, across SW 60th(Airport Rd.) to his
other properties. Now, he is expecting Bahia Oaks homeowners to pay
him back in an extremely high water bill. He has us "by the throat"
since water is a necessity. Can't you imagine the hardship many
residents here have? Fixed incomes below poverty level - below \$900/mo Social Security.
We own our lots in Bahia Oaks. Many elderly people will be unable to pay
the water bill, it will be cut off! An increase is expected but not
the huge increase Leeward is imposing. In short, Leeward created an
advantageous business deal for himself and is trying to get his investment
back rapidly. Simply, some residents will have to choose between flushing
the toilet as used or once a day. And, baths...??? It comes down to
basic living needs and the rate is truly UNFAIR, UNJUST and UNCALLED FOR
Somebody didn't do their homework at the County Commission or Water
Commission when this was planned back in 2003. We in Bahia Oaks only
knew of it in July, 2006 when we received the new high water bills!

Fold and tape -- see back for address

Leeward is a cheat and a liar not to mention a thief!
AND, SELL YOUR HOME? Well a sale for \$50,000 singlewide with \$100 mo. water bill won't sell!

7/22/2006 Re: Application for Staff Assisted Rate Case, Marion County

Dear Sirs:

After receiving the Special Service report dated July 2006, vol. 7, I became very much aware of the situation with our increase in our water bill. I would direct your attention to the fact that the community of Oak Creek Village is mainly inhabited by senior citizens on a fixed income and it would therefore be a hardship for most of the people living in this community.

Water and sewer fees usually go together. In this community we do not have a sewer system.

My husband and I are opposed to the high rate increase so that County Wide has an immediate return on its investment of 127.60. We think this is outrageous.

Sincerely,

Ludwig Patow

Fla Public Utilities Comm
Tallahassee Fla
Gentlemen,

I am writing
regarding Docket 050862. County
Wide Utility Co. They raise
our rates about three times
of their former amount.

When the water was taken
across the street it put
a strain on our wells. A
new well system should have
gone over there.

When city water being
being available to West Wind
how to do with raising our
rates?

We have had good water,
good service and a small raise
to have city water would be
fine, not triple the price.

Respectfully,
Malcolm R Boon

CONSUMER COMMENTS

An increase from a minimum of \$13.23 to \$30.11, represents an increase of 230%, how ridiculous does that sound. Most folks being serviced by County Wide Utility Company are on fixed income, some on a S.S. check of \$600. To pay food, medical, rent, etc.

To impose this on American Senior Citizens is ridiculous, we have worked all our lives to survive, & now this.

Any consideration you can provide for this matter would be appreciated, only desire fairness.

CONSUMER COMMENTS

I think it is completely outrageous
to have a water increase of almost
128%. Especially considering the
quality of water is awful. Not
only that but we have had pipes
burst since the change. There are
many elderly people who live in the
park on fixed incomes and they
cannot afford to pay that much
for water. I can understand a slight
increase, but 128% is just too much.
You couldn't pay me enough to
drink the water out of my faucet
or to let my children.

CONSUMER COMMENTS

They have raised our bills over three times what they should be. We are on a fixed income and can not afford these rate increases -
example bill for 4-27-06 used 21100 = 46.02 and 5-31-06 used 21200 = 77.72 and 6-29-06 used 8200 = 49.25. If you look I used less and it's ~~3~~ cost me less on 4/27/06. ~~It~~ doesn't make sense ^{when} we used more. And it is outrageous and should be prevented by the Commission.
The utility company is taking advantage of us + the Florida Public Service Commission should know our disagreement and prevent them from these increases. City of Ocala pays less than we do. If we are hooked to Ocala City water who needs County-wide utility. Thank

CONSUMER COMMENTS

Object to The increase due to the following:

- 1) why should we pay for Mr Leeward's development and his future Profit?
- 2) Why should we pay more for our water than existing Ocala Customers
- 3) we did not ask for the change to Ocala water Although at the time thought it would not cost us so dearly.
- 4) why does This Ocala water have to go through County-wide, would that help the cost to cut that out? (of course his Profit would go down?)
- 5) As the Past has shown Mr Leeward does not keep his Agreements with Authorities. My home is a perfect example.

ADDRESS: 5621 SW 64TH LANE ROAD, OCALA, FL 34474
FAX #: 800-511-0809

We have lived in two different residents in Bahia Oaks Subdivision since 1994. As voiced at the Public Meeting on 07/19/06, you are aware of the shady dealings that were conducted in order for Bahia Oaks residents to be hooked up to the City of Ocala water supply, causing the water rate increase –

I would like to also bring out the point that because of the huge growth in this area, the value of our land has increased dramatically – we know that, and so do the developers. Most of the people in this 34 year old park are lower end incomes – a 127% increase for any monthly bill effects 95% of the residents (which, to me, is a scam) – NO OTHER entity – not even the insurance companies are ALLOWED to levy such an increase. The fact of the matter is that because of these exorbitant water bills, people can no longer afford to water their lawns – which in turn, will turn the park into a “dust-bowl”, which in turn will devalue the homes (NOT THE LAND)—people will sell out cheap and eventually the developer will come in behind us and buy the property for a “song” – and guess what – they have their hands on a huge piece of property that is worth Millions of dollars because of it’s prime location. It’s all a ploy!!!! Somebody needs to look out for these elderly people—we are young enough to say – SEE YA – we can move while the getting is good, but most of the other residents cannot – they are just too old and at least have their homes paid for at this point!!!! Please don’t let Corporate America hurt these poor people. Our water situation was fine, we had no say in who we wanted to provide our water after all these years—something is very very wrong here!

COMMISSION
CLERK

Subject: Docket Number 050862-WU
County-Wide Utility Company, Inc.

Gentlemen:

Pursuant to a Customer Meeting held on July 19, 2006 in the Marion County Commission Auditorium, this letter is to offer additional comments concerning the subject case. Due to some time constraints during the meeting, on my part, I wish to submit these comments. My comments concern specific items in the Utility's request.

I take exception to the request for "...immediately earn a return on its investment in the interconnection with the City of Ocala...". The interconnection was made to provide increased flow to serve areas west and south of the existing Bahia Oaks development so as to allow for future development of those areas for residential and commercial uses. The interconnection was not needed to serve the existing development. The request for "increased fire flow" did not provide for standard fire hydrant locations in the Bahia Oaks development. There wer two fire hydrants installed in Bahia Oaks, Units III and IV. Standards for NFPA locations call for fire hydrants at 500' to 600' intervals, depending on the amount of hose length carried on emergency fire trucks. This is not met for Bahia Oaks Units III and IV.

I am now a semi-retired Professional Engineer. During my 40+ years of practice, I have been involved in design and construction of land development and infrastructure construction. Many projects involved the new construction and expansion development of utilities. As a Vice-President of Operations for a land development corporation headquartered in the Midwest, with many developments in South and Southeast Florida, I was intimately involved in projects requiring interconnection with various utilities and agencies. If our developments required extension and interconnection of water and sewer utilities, we were required to construct such extensions as part of our development cost. Further, if existing utilities serving adjacent areas of our development were required to be updated or improved, such costs were to be paid by our development. If the utility, particularly in the case of an electric utility, constructed the "Off-Site"

p. 2

improvements, we, the developer, were assessed costs in excess of the beneficial returns computed by the utility for the new construction. However, as stated above, in no case was this cost of "Off-Site" improvements passed to existing customers. Hence, my stated objection to the request for increased rates.

As stated in the meeting by other residents of the service area, and my concurrence, there is no objection to County-Wide Utility Company, Inc. raising rates to offset regular maintenance and operating costs due to inflation in order to maintain a reasonable profit. Also, in my opinion, the utility may be entitled to an increase if it can be shown that the cost of purchasing potable water from the City of Ocala is greater than the cost of supplying water from its existing system. This is based on cost from the City of Ocala for potable water only and excluding sewage water costs, since the Bahia Oaks developments are served by individual septic tank sewage treatment.

I thank you for your attention, and commend your staff for their interest and attention at the meeting on July 19, 2006. I respectfully request that my comments above be considered in your determinations.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert J. Brady", is written over a circular stamp that is partially visible on the left.

CONSUMER COMMENTS

I feel the rate increase for the water service is not reasonable. The water provided before the upgrade was fine - a reasonable increase would be fine but a 27.6% increase is wrong. A 10 or 15% increase is reasonable.

The quality of water is poor - it's cloudy and sandy. The expense the homeowners had to occur for the upgrade should

not have been our expense, we should not have to pay so the upgrade could be done then pay for the upgrade itself.

I hope the commission sees fit to overturn this decision and refunds the extra expense and if a increase must be made please be reasonable and not greedy.

Thank you

COMMISSION
CLERK

Re: Docket No. 050862-WU, County-Wide Utility Co., Inc.

I wish to protest the charges that are being considered at this time on my property in Oak Creek Village by COUNTY WIDE UTILITY CO. INC. for the following reasons.

For water customers to have to pay for a water line that was run down the outside street of my subdivision to improve conditions for the owner (County-Wide Utility Co.) of the adjacent property in order to increase the value of this property, and in order to make it more saleable, is not fair to residents of Oak Creek Village. When three additional streets were built up behind OCV, the water line had been installed and we were not deprived of any water pressure or usage. The plan to develop adjacent property to residential and commercial should not be taxed or charged to existing customers. A small increase in rate is acceptable due to rising costs but not for the cost of a new unnecessary water line in order to purchase water from the City of Ocala in order for future development of vacant land.

My water bill has gone from \$14.00 per month to \$44.00 the past two months with the same amount of gallons used. I am not using anymore water than I have in the past 15 years I have lived here.

I respectfully request that your consideration be given in the above matter. The fact that Oak Creek Village is made up of approximately 250 homes with 300 homes in West Wind Trails behind us.

Respectfully submitted,

Betty M. Babcock 7/24/06

We have lived in Bahia Baks for 1 1/2 years, in that time lost our cable TV & had to invest in a dish. Our homeowner insurance & taxes have sky rocketed & our water rate has tripled.

We are 78 & 82 years in age & live on a fixed income. Our health is not good & medication takes a big bite of our income.

We know a majority of the folks in Bahia Baks are in the same position.

We urge the good PSC Commissioners to please roll back the monthly water rate.

Thank you for your consideration

I think Countywide Utility Co. Inc.
is out of line with their enormous rate increase.

I think the developer should stand the cost of the
improvement to the water system, which is too small
to provide enough water to the new proposed
development, Westwind. They can collect their cost
through the new homes in the new development, not
through established customers.

Very Truly Yours

We were shocked at the sudden increase in our water rates.

It's our understanding that the increase is to help recover the cost of connecting to city water. We neither asked for nor wanted city water.

We are senior citizens and live on a fixed income.

With the higher cost of everything else; To have to absorb this sudden increase is a disgrace!

How is the average senior supposed to recover their cost?

We will have to let the flowers +

Grass die

Water Rate increase Protest Petition

COMMISSION
CLERK

Florida Public Service Commission,

As a user of this water system I believe this rate increase from \$13.23 to the proposed amount of \$34.83 per month unfair and unfounded.

We have already suffered great expense due to the loss of our cable and having to get satellite systems because this developer tried to sell the outdated cable TV system. This issue is over a year old and has yet to be resolved!

When this water line was being put in we were told it was by-passing us and would not affect us. Now we have been informed that our **rates will almost TRIPLE**.

We were told that our insurance rates would decrease with the new fire hydrants. After contacting the few companies left insuring mobile homes, we have been informed that there will be no savings on the insurance rates.

We were perfectly happy with the water system we had and see no reason to be hooked to the City of Ocala Water.

As a user of this water system we beg of you to keep our water rates the same. We did not ask for this change and were not informed of it, therefore we feel deceived by the former developer. Many of the residents purchased in this neighborhood because they are on fixed incomes and the homes and utilities are affordable. If this is a change the FORMER developer wants to make without consulting with the homeowners then he should bear the burden of this expense, not the residents.

PLEASE RECONSIDER THIS INCREASE.

Additional Comments This is an outrage and an expense
to the people of this community. The people out here
are mostly retired and on fixed incomes. This is not
the way America should treat her older
generation.

I beg of you to please re-consider.

Water Rate increase Protest Petition

COMMISSION
CLERK

Florida Public Service Commission,

As a user of this water system I believe this rate increase from \$13.23 to the proposed amount of \$34.83 per month unfair and unfounded.

We have already suffered great expense due to the loss of our cable and having to get satellite systems because this developer tried to sell the outdated cable TV system. This issue is over a year old and has yet to be resolved!

When this water line was being put in we were told it was by-passing us and would not affect us. Now we have been informed that our **rates will almost TRIPLE**.

We were told that our insurance rates would decrease with the new fire hydrants. After contacting the few companies left insuring mobile homes, we have been informed that there will be no savings on the insurance rates.

We were perfectly happy with the water system we had and see no reason to be hooked to the City of Ocala Water.

As a user of this water system we beg of you to keep our water rates the same. We did not ask for this change and were not informed of it, therefore we feel deceived by the former developer. Many of the residents purchased in this neighborhood because they are on fixed incomes and the homes and utilities are affordable. If this is a change the FORMER developer wants to make without consulting with the homeowners then he should bear the burden of this expense, not the residents.

PLEASE RECONSIDER THIS INCREASE.

Additional Comments

I do believe the developer should be responsible for this! Most of the time there would be a referendum if so.
There is too much greed! Beside Prescription, Gas, Taxes what does a developer get off by trying to burden the homeowners with something they did not ask for!

Additional Comments I believe the above statements and comments explain the reason for the rage of the home owners of Bahia Oaks, on the increase on water rates here. We were informed after the "deal" was concluded with misinformation and outright lies on a perfectly adequate water system.

Additional Comments I am very upset about the
increase in my water bill.
This is unacceptable for everything goes up but
our income don't go up.
I moved here thinking I could handle the
expenses. I have never had a \$35.00 water bill
in my life.
I hope you will reconsider this raise
it is not fair to raise it almost triple of what
it was. I hope you will reconsider this raise.

I cannot recall if I mailed in the information sent out recently re: correct mailing address, dues to be paid and also a petition. I usually mark my calendar when I mail something out, not there, looked high and low in the house for the papers and cannot find.

If I did mail them in - disregard.

All names mentioned in the voting sheet for BOHA are fine with me, and this is your authorization, for a YES vote for those mentioned if I failed to send it in.

Regarding the WATER PETITION.

If I failed to mail this in, it is your authorization to attach enclosed note on the petition sheet, with regard to my comments pertaining to this matter. WOW - what an increase, we oldies don't have a chance, it seems.

Yes, my dues are paid.

My correct address is:

This is your authorization to attach this note and comments to your petition form as I have mislaid the formal petition sheet.

Yes - I AM AGAINST THE PROPOSED WATER INCREASE for Bahia Oaks, after your recent purchase of our long time water company supply. I am a 51 year resident of Florida, probably a resident longer than many of you. Twenty seven (27) years living in Fla., Ft. Lauderdale, and saw the growing pains down there. I thought my house would be the house I would live in for the rest of my life. My house was condemned, lived on a quiet little road, now a six lane highway. At just about retirement age, I was forced to make a change and move Ocala and moved here in 1982. I have been a widow on a fixed income since 1978.

Ocala was great, quiet, countryside (gone) a shuttle plane to take to Orlando airport and Amtrak to get be back to Ft. Lauderdale.

When people all over the USA seem to be living longer, many of us outlive our income do to increased prices on everthing. Much of it bevond necessary.

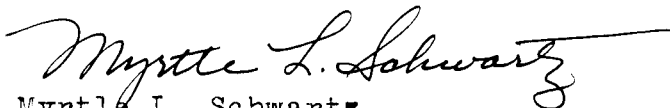

After paying Marion County for black topping and repairing our Marion County roads, I might add, living on 63rd Lane Road, I also had to tolerate your heavy - really heavy equipment and loads via trucks, every twenty minâtesfor weeks on end while putting in your increased population supply system to our water system. Expecting for us residents to pay for this is outrageous.

The population explosion in Ocala and Marion County and suppling the necessary utilitieâs is becoming a hardship and old time residents should not have to "pick up the tab"!

Your heart and your smart common sense should tell you that the proposed rate from our current rate is not fair. You should carefully weigh this exorbitant proposed increase.

Thank you.

Sincerely,

Myrtle L. Schwartz

Water Rate increase Protest Petition

COMMISSION
CLERK

Florida Public Service Commission,

As a user of this water system I believe this rate increase from \$13.23 to the proposed amount of \$34.83 per month unfair and unfounded.

We have already suffered great expense due to the loss of our cable and having to get satellite systems because this developer tried to sell the outdated cable TV system. This issue is over a year old and has yet to be resolved!

When this water line was being put in we were told it was by-passing us and would not affect us. Now we have been informed that our **rates will almost TRIPLE**.

We were told that our insurance rates would decrease with the new fire hydrants. After contacting the few companies left insuring mobile homes, we have been informed that there will be no savings on the insurance rates.

We were perfectly happy with the water system we had and see no reason to be hooked to the City of Ocala Water.

As a user of this water system we beg of you to keep our water rates the same. We did not ask for this change and were not informed of it, therefore we feel deceived by the former developer. Many of the residents purchased in this neighborhood because they are on fixed incomes and the homes and utilities are affordable. If this is a change the FORMER developer wants to make without consulting with the homeowners then he should bear the burden of this expense, not the residents.

We have already suffered great expense due to the loss of our cable and having to get satellite systems because this developer tried to sell the outdated cable TV system. This issue is over a year old and has yet to be resolved!

When this water line was being put in we were told it was by-passing us and would not affect us. Now we have been informed that our **rates will almost TRIPLE**.

We were told that our insurance rates would decrease with the new fire hydrants. After contacting the few companies left insuring mobile homes, we have been informed that there will be no savings on the insurance rates.

We were perfectly happy with the water system we had and see no reason to be hooked to the City of Ocala Water.

As a user of this water system we beg of you to keep our water rates the same. We did not ask for this change and were not informed of it, therefore we feel deceived by the former developer. Many of the residents purchased in this neighborhood because they are on fixed incomes and the homes and utilities are affordable. If this is a change the FORMER developer wants to make without consulting with the homeowners then he should bear the burden of this expense, not the residents.

What is the reason for this large increase?

How can our rate be tripled overnight?

Is this warranted in any way whatsoever??

Additional Comments I can see no reason for increase in water rates either. We were not informed that they were putting water lines. One day they just started digging up front lawn cutting off part of driveway that was just and had just painted. I think its awful that the water is tripling in price

As an owner and or tenant of Bahia Oaks subdivision I believe that the new rate increase that is proposed is grossly unfair and a hardship on my budget. I believe that the developer is unfairly using my monthly water bill to subsidize his business endeavors outside of this development. Our water system has been in operation for 30 plus years with minimal problems. I feel it unfair to do repairs and upgrades to this system that was working efficiently to benefit the developers other developments and build his profits. PLEASE RECONSIDER THIS INCREASE!

Water Rate increase Protest Petition

Florida Public Service Commission,

As a user of this water system I believe this rate increase from \$13.23 to the proposed amount of \$34.83 per month unfair and unfounded.

We have already suffered great expense due to the loss of our cable and having to get satellite systems because this developer tried to sell the outdated cable TV system. This issue is over a year old and has yet to be resolved!

When this water line was being put in we were told it was by-passing us and would not affect us. Now we have been informed that our **rates will almost TRIPLE**.

We were told that our insurance rates would decrease with the new fire hydrants. After contacting the few companies left insuring mobile homes, we have been informed that there will be no savings on the insurance rates.

We were perfectly happy with the water system we had and see no reason to be hooked to the City of Ocala Water.

CMP _____ As a user of this water system we beg of you to keep our water rates the same. We did not ask for this change and were not informed of it, therefore we feel deceived by the
COM _____ former developer. Many of the residents purchased in this neighborhood because they are
CTR _____ on fixed incomes and the homes and utilities are affordable. If this is a change the
ECR 1 _____ FORMER developer wants to make without consulting with the homeowners then he
_____ should bear the burden of this expense, not the residents.

GCL 1 _____ PLEASE RECONSIDER THIS INCREASE.

OPC _____
RCA _____ Additional Comments *Can see going up a few dollars a mo.
SCR _____ But not tripple. I'm also on a fixed income.
SGA _____ the tripple price increase will hurt me. So please
SEC _____ stop this high rate of \$34.83 a mo. Has letter
OTH _____ says, we did not ask for this change. Will hurt
_____ us all.*

Additional Comments THE OWNER OF THE WATER LINES
HASN'T DONE A THING AS FAR MAINTENANCE
OF THE FEED LINES TO BAHIA OAKS INDIVIDUAL
HOUSE AT THE METER. SAME OLD LINES, SAME
OLD METERS & SHUT OFF VALVES. HE STATES THE
INCREASE IN PRESSURE WILL HELP US. HOW? I
WAS GETTING GOOD PRESSURE. HE WANTS US TO PAY
HIS FEES RATHER THEN MONEY COMING OUT OF HIS
BANK ACCOUNT. WELL I AM MAKING ALMOST POVERTY
LEVEL INCOME AS WITH MANY OTHERS. PLEASE REDUCE
THIS BURDEN THAT HE & NOW YOU HAVE PUT ON US.

Additional Comments

Additional Comments I'm 70 years old & went to work to help pay my living expense. I am cleaning houses & it is not easy. Now I have to skimp on food and get no luxuries. It is not right what Mr. Stewart has done to Bahia Oaks. He had to vote on the roads & I had a neighbor who was dead & "his vote was counted" I know my brother never got a paper to vote

Name Constance J. Coyer

Property address 3780 SW 63rd Lane Road

County Wide Utility Account # 595

Signature Constance J. Byer Date 6-7-06

thing to teach
for any more
in this world

(over)

Besides that, when they put the water
in, lots of people in Bahia Oaks didn't
get papers & didn't get notified any
way so lots of us had to buy new hot
water heaters when the power was
out because of their digging & goofing
up the electricity. It ruined some
residents hot water tanks. Take a
survey & you'll find many in Bahia
Oaks who had to get new tanks.
I can give you names. I was one
of them. At Lowe's I met 3 couples
from Bahia Oaks getting tanks because
theirs was ruined. Ed Dyer & Mr. Boones
was ruined also. This all happened
when they were putting this water in.
Before you know it we'll need money
for sewers & to fill our septic tanks
with dirt. Then the city will annex
us and our taxes will go even
higher. Our house insurance went
up and many of us had to get
satellite systems because we had
no cable. God provides for us
but we have to help. Well I am
done with my comments but I do like
the fact we own our land our
house sits on but our neighbor-hood
is going down hill in some areas.
Maybe some people don't have money
to fix their homes or don't care or they
are old and sick and can't keep up.
amen

Additional Comments

We totally agree with above comments. In our twilight years (78 + 82), we're spending life more difficult financially. School taxes + homeowners insurance have greatly increased. The one saving grace was our low water bill. The rate now has almost tripled. This will definitely be a hardship for us.

We ask you to please reconsider this

unfair increase

I AM IN RECEIPT OF A NOTICE FROM ~~CLERK~~
COUNTY WIDE UTILITY CO CONCERNING DOCKET
NO. 050862-WU, ORDER NO. PSC-06-0336-FCO-WU
CONCERNING AN INCREASE IN WATER SERVICE
RATES.

I AM OPPOSED TO THIS INCREASE!! THIS
INCREASE HAS MORE THAN DOUBLED MY
WATER BILL. WHERE I USED TO PAY
"13.23 FOR BASIC WATER, THE PROPOSED
RATE IS NOW "30.11 FOR A FLAT CHARGE
0-22500 GALLONS. (I JUST FOUND OUT THAT
THERE IS AN ERROR ON THIS SHEET. THE
RATE "30.11 FOR 0 TO 3750 GALLONS). I
REALLY DO PROTEST NOW! THIS IS
HIGHWAY ROBBERY! WE SENIORS CANNOT
ABSORB THIS KIND OF INCREASE, AS WELL
AS I KNOW PEOPLE WORKING FOR LOWER
SCALE WAGES AROUND THIS AREA CANNOT
ABSORB THIS INCREASE. I URGE YOU TO
RESCIND THIS RATE INCREASE AND HAVE
COUNTY WIDE REFUND THESE EXORBITANT
CHARGES. THIS IS AN OUTRAGE!
THANK YOU FOR YOUR ATTENTION TO THIS
MATTER.

SINCERELY
Ronald G Pfaff

Dear Sir:

As a homeowner in Bahai Oaks Subdivision
(Mobile Home Section) I am protesting the
close to 200% raise in our monthly water
bills.

We were not notified of this changeover from our
former good water service until after it was
changed to the City of Ocala system.

We've been paying \$13.23 basic cost per month
and now I understand it will be raised to
\$34.83 or thereabouts.

What I do not understand is how this railroading
can occur. When I called the County Wide Utility Co.,
I was told that you are who we should appeal to.
Please do something to bring this atrociously high
rate down. P.S. It has gone up every year before this.
What will it go to now?

Docket #050862-WU

Order #PSC-06-036-P00-WU

Issued: April 24, 2006

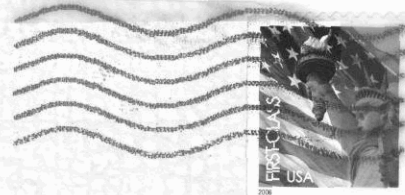

Sincerely,

Jeanne M. Green

06/09/2006 PLEASE HELP US ALL!!!! WATER RATES TO HIGH!!!

DOCKET NO. 050862-WU

As a customer for the past 5 years we have enjoyed the excellent service. How ever with the increase in water service rates this will have a huge impact on our family. I have been out of work for the last year and a half because of lyme disease and my wife works commission sales only. We have been struggling with bills sense I have been out of work and that is understandable. But, we can't afford an increase of such a large amount of an increase. We will have to do without less food or shut off one of our utilities . Or worse sell the house and move. Please reduce the increase to a less impact to all. I can't imagine how the elderly on a fixed income can pay for this huge increase. They must be getting hurt just like our family. I believe an increase is acceptable if in range of small increases but, not an increase of 126 %. Please help everybody and change the water rates to a much smaller increase so we all can survive!

THANK YOU!

I am protesting the rate
increase on our water. An
increase that has doubled
my cost for water does not
seem fair or justified.

I would like the matter
to be reviewed & reconsidered
And resolved in a fair way.

Sincerely

Mrs. Lillian Shepard

Water Rate increase Protest Petition

Florida Public Service Commission,

As a user of this water system I believe this rate increase from \$13.23 to the proposed amount of \$34.83 per month unfair and unfounded.

We have already suffered great expense due to the loss of our cable and having to get satellite systems because this developer tried to sell the outdated cable TV system. This issue is over a year old and has yet to be resolved!

When this water line was being put in we were told it was by-passing us and would not affect us. Now we have been informed that our **rates will almost TRIPLE**.

We were told that our insurance rates would decrease with the new fire hydrants. After contacting the few companies left insuring mobile homes, we have been informed that there will be no savings on the insurance rates.

We were perfectly happy with the water system we had and see no reason to be hooked to the City of Ocala Water.

As a user of this water system we beg of you to keep our water rates the same. We did not ask for this change and were not informed of it, therefore we feel deceived by the former developer. Many of the residents purchased in this neighborhood because they are on fixed incomes and the homes and utilities are affordable. If this is a change the FORMER developer wants to make without consulting with the homeowners then he should bear the burden of this expense, not the residents.

Additional Comments

We are quite satisfied with our connection with some of the projects facilitated with the City of Ocala. Since you have had the City of Ocala send you to any or all of us Residents?

There are many good & decent people living in Bahia Oaks. Why are you now creating another horrible problem for us? We don't deserve it.

REFERRING TO DOCKET # 050862-WU

DEAR COMMISSION,

OF ALL THE IDIOTIC THINGS TO DO...
FORCE A RISE IN WATER RATES TO COUNTY
WIDE UTILITY CUSTOMERS FROM \$13.23 TO
\$30.11 MINIMUM... WE ALL EXPECT A SLIGHT
RATE ADJUSTMENT EACH YEAR, BUT NOT
SUCH A SUBSTANTIAL INCREASE.. MANY
OF THE UTILITIES CUSTOMERS ARE
RETIRES ON FIXED INCOMES.. I HOPE
WHEN THE COMMISSION MEETS ON
AUGUST 17TH TO TAKE FINAL ACTION,
THEY TAKE THIS INTO CONSIDERATION..
AND ROLL BACK THESE HIGH RATES.

SINCERLY,

Euf M. Engler
