To: Nonnye Grant
Subject: MXEnergy

According to their website, MXenergy is a gas marketer which provides natural gas to transportation-only customers of Florida City Gas and Peoples Gas. We do not regulate gas marketers. I suspect that, in an abundance of caution, they simply send such notices to all state commissions in which they provide gas, as some states do regulate marketers. I'd just put it in the 100000 file. I don't see that we need to do anything with it. Thanks

Subject: Audits 10-179-4-4; 10-179-4-1 - FPL Fibernet, LLC
Importance: High

The Clerk's Office has received requests for confidential classification from FPL Fibernet, LLC for Audits filed in the undocketed docket (100000-OT):

Do you want the Clerk's Office to establish two new dockets to be able to rule on these two

requests for Audit Nos. 10-179-4-1 (TX603) and 10-179-4-4(TA053) ?

Also, do you want the Clerk's Office to move the related documents from the undocketed docket to the new dockets ?

for Audit No. 10-179-4-1, DNs 05350-10, 08825-10 and 08826-10 ?
and
for Audit No. 10-179-4-4, DNs 05353-10, 08823-10 and 08824-10 ?:

Clarence,
i am processing what we got in yesterday in the undocketed docket, so the Clerk's Office can start on today's pleadings.
Kim will let you know when the confidential documents are ready to be signed out.
Marguerite.

Subject: RE: Audits 10-179-4-4; 10-179-4-1 - FPL Fibernet, LLC

Marguerite ,

Would you please provide us with a complete copy of what the utilities filed. Just let me know when it is ready and I will come pick it up.

Thank You,

Clarence J. Prestwood

Subject: Audits 10-179-4-4; 10-179-4-1 - FPL Fibernet, LLC
Importance: High

000003

The Clerk's Office has received requests for confidential classification from FPL Fibernet, LLC for Audits filed in the undocketed docket (100000-OT):

Do you want the Clerk's Office to establish two new dockets to be able to rule on these two requests for Audit Nos. 10-179-4-1 (TX603) and 10-179-4-4(TA053) ?

Also, do you want the Clerk's Office to move the related documents from the undocketed docket to the new dockets ?

for Audit No. 10-179-4-1, DNs 05350-10, 08825-10 and 08826-10 ?
and
for Audit No. 10-179-4-4, DNs 05353-10, 08823-10 and 08824-10 ?:

RE: Review of Lifeline confidential information

Staff requests permission to include additional RAD staff to review confidential Lifeline documents to determine any possible duplicates of Lifeline benefits received. The files are titled as follows:

Document No. 03562-10	Verizon Florida
Document No. 03975-10	CenturyLink
Document No. 02896-10	AT&T
Document No. 05245-10	SafeLink

:

The following persons are requested to view this confidential information:

1. Susan Howard
2. Carol Caruth
3. Charlene Hinson

The documents will be handled in accordance with APM 11.04 on confidentiality. Staff will be sure that all copies are monitored and securely locked up when not being reviewed.

Subject: FW: Worldwide Direct - Bankruptcy Case

Ray, pursuant to Marguerite's e-mail below, DNs 08285-10 and 08314-10 are being trashed and reused, so ONLY keep the original one, DN 08228-10 that I sent to you for your records. Thanks, N

From: Marguerite McLean
Sent: Tuesday, October 05, 2010 8:51 AM
To: Ray Kennedy
Cc: Nonnye Grant
Subject: Worldwide Direct - Bankruptcy Case

Ray,

Apparently we have 3 seperate document no's. for a document:

"Worldwide Direct, Inc., et al. (Kortanek) - Copy of final notice regarding termination of estates and liquidating trustee's amended motion for entry of final decree closing Chapter 11 cases, discharging and releasing liquidating trustee and liquidating trust board, authorizing final distribution, and granting related relief as filed in US Bankruptcy Court, for the District of Delaware, Case No. 99-00108 through 99-00127 (MFW), jointly administered, Chapter 11."

DNs 08228-10, 08285-10 and 08314-10.

Please keep DN 08228-10 and *trash DNs 08285-10 and 08314-10.* The Clerk's Office will reuse these last 2 document numbers assigned to this pleading.

Thanks,
Marguerite.

Please provide Lynn Deamer and Hyma Vedula access to all audit working papers for which the utilities have requested confidential classification. Mr. Freeman, Ms. Deamer and Ms. Vedula will be preparing recommendations for the Office of General Counsel in response to the utilities' requests. In order to prepare these recommendations, they will need to review the actual documents to determine the appropriateness of the request.

If you have any questions regarding this request, please let me know.

I:\Undocketed\Tracfone Meeting.09-24-10.ajt.doc

The Undocketed docket does not have it's own list of parties.

On this Undocketed Notice, CLK will need the names, faxes, email, and/or addresses which will have to be individually typed into the parties list in the Undocketed. If the Notice needs to go to a MCD group or Industry that you want it issued to, you need to let us know so it can be entered manually into the parties before it can be issued.

I see that this Meeting is Sept 24, 2010 at 10am. Did you want this to go today? Could it go tomorrow? Some interested persons may have to go by mail. Depending on the size of interested person you want to receive it.

Please advise.

Thank you,
Matilda/CLK

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

IN RE: Docket No. 100000-OT 2010 Annual Lifeline Report Data Request - Due by September 3, 2010

SUBPOENA DUCES TECUM WITHOUT DEPOSITION

THE STATE OF FLORIDA

TO: Greg Follensbee, BellSouth Telecommunications, Inc. d/b/a AT&T Florida d/b/a AT&T Southeast, 150 South Monroe Street, Suite 400, Tallahassee, FL 32301.

YOU ARE COMMANDED to appear at 2540 Shumard Oak Boulevard, Tallahassee, FL 32399, on September 7, 2010, by 5:00 p.m., or at such other time and place as may be mutually agreed upon by counsel, and to have with you at that time and place the following:

The number of access lines with Lifeline resold to other carriers each month. Identify each carrier separately by name or certificate number.

These items will be inspected and may be copied at that time. You will not be required to surrender the original items. You may comply with this subpoena by providing legible copies of the items to the attorney whose name appears on this subpoena on or before the scheduled date of production. You may mail or deliver the copies to the attorney whose name appears on this subpoena and thereby eliminate your appearance at the time and place specified above. You have the right to object to the production pursuant to this subpoena at any time before production by giving written notice to the attorney whose name appears on this subpoena. THIS WILL NOT BE A DEPOSITION. NO TESTIMONY WILL BE TAKEN.

YOU ARE SUBPOENAED by the following attorney to (1) appear as specified, or (2) furnish the records instead of appearing as provided above, and, unless excused from this subpoena by this attorney or the Commission, you shall respond to this subpoena as directed.

DATED September 2, 2010

Ann Cole, Commission Clerk
Office of Commission Clerk
Florida Public Service Commission

(SEAL)

Subject: FW: Docket No. 100150-TL

Good morning, Jim,

We received the attached e-filing on Friday afternoon. They have listed Docket 100150 on the filing, however, I note that T-Mobile isn't a party to that docket. Can you please take a look at the filing and advise if this should be placed in 100150 or if we should set it up as a new docket? Thank you for your help!

Kevin,

Allegiance Telcom FL's CLEC status ended in FL in 2004. They have been "Inactive" in FL from that point. Additionally, XO is licensed in FL and our records indicated at that time XO Communications purchased Allegiance Telcom FL. In talking with Ruben Galvan, from XO Communications, he verified this to be true. jim

Subject: RE: Allegiance Telecom of FL, Inc., PURCHASED BY XO COMMUNICATIONS IN 2004

Dorothy,

I responded back to the group on Tuesday noting that ALLEGIANCE TELCOM FL was purchased by XO Communications in 2004. I was able then to contact XO Communications by phone to Ruben Galvan, and subsequently email Mr. Galvan with the following information on the Past Due Part 4. He responded that he will take care of it. *Allegiance Telcom FL was still listed by the Pooling Administrator instead of XO.*

Hi Ruben,

The June 2010 Reclamation List from the Pooling Administrator shows a Past Due Part 4 for XO Communications as follows:

Status	State Abbr	NPA-NXX-X	Rate Center	OCN	Block Effective Date	Part 4 Due Date	Tracking Number
NEW	FL	813-423-8	TAMPAEST	2889 - XO COMMUNICATIONS/ALLEGIANCE TELCOM FL	11/02/2009	05/02/2010	813-TAMPAEST-FL-320867

Please provide a status report. Thanks jim

Jim, Dorothy responded to you regarding CMS. For MCD, we have both the CLEC certificate and IXC registration listed, both were canceled effective 8-17-04. As to if they are now connected with another company, that is something we would not know, once a Company becomes "inactive" no further information is received nor updates are done in MCD. Should you have any questions, please let me know. Thanks.

Subject: RE: Allegiance Telecom of FL, Inc.

Hi Jim,

I ran an extensive search in CMS for anything with Alliance [misspelled on purpose] and Allegiance, using both the inactive company codes for the CLEC and IXC, and generic search terms such as pooling administrator, numbers, block, nxx, code denial, etc., just in case any information was entered in CMS incorrectly. I found nothing to indicate that Allegiance has been a part of any matter pending before the Commission since Docket 040870 was closed. Please let me know if there is anything else I can do to help.

Dorothy Menasco

Subject: Allegiance Telecom of FL, Inc.

Allegiance Telecom of FL, Inc., are they now part of another Telecom company? I looked in Master Directory- no info. I looked in Case Mgt and this is all I have found

Request for cancellation of CLEC Certificate No. 7143 Docket 040870-TX 2004. Status shows inactive. Has not paid RAF since cancellation. They have a past due Part 4 from the Pooling Administrator that came with the following information today:

Status	State Abbr	NPA-NXX-X	Rate Center	OCN	Block Effective Date	Part 4 Due Date	Tracking Number	Extension/Reclamation Status
NEW	FL	813-423-6	TAMPAEST	2889 - ALLEGIANCE TELCOM FL	11/02/2009	05/02/2010	813-TAMPAEST-FL-320867	

Does anyone have any information to help? Not sure how they were give a block of numbers not being a CLEC any longer.....thanks..jim

This is to notify you that the person or business identified above has a delinquent liability for tax, penalty, and interest owed to the Florida Department of Revenue pursuant to:

- ○ Sections 202.31 and 213.67, Florida Statutes.
- ○ Sections 206.18 and 213.67, Florida Statutes.
- ○ Sections 212.10 and 213.67, Florida Statutes.
- ◉ Section 213.67, Florida Statutes.

Therefore, as of the date you receive this Notice:

- ○ You may not transfer, dispose of, or return any credits, debts, or other personal property owned/controlled by, or owed to, this taxpayer which are in your possession or control or become under your control.
- ◉ You may not transfer, dispose of, or return any credits, debts, or other personal property owned/controlled by, or owed to, this taxpayer which are in your possession or control or become under your control up to the amount of $23,014.08. However you may transfer, dispose of, or return any credits, debts, or other personal property which exceeds the amount indicated above.

This freeze remains in effect until the taxpayer satisfies the delinquent liability; or until 60 consecutive calendar days elapse from the date of receipt of this *Notice of Freeze*, whichever comes first.

Florida law requires you to advise the Department of Revenue of any credits, debts, or other personal property owned by or owed to this taxpayer which are in your possession or control. You must furnish this information to the office listed below within five (5) days after your receipt of this Notice.

Your failure to comply with this Notice may make you liable for the amount owed, up to the value of the credits, debts, or personal property transferred.

Thank you for your cooperation. If you have any questions, please contact the undersigned at the telephone number listed below.

Witness my hand and official seal in this City of TALLAHASSEE, Leon County, Florida this 18th day of May, 2010.

To: Ann Cole
Cc: Dorothy Menasco; Michael Staden
Subject: 10 Year Site Plans

FPSC, CLK - CORRESPONDENCE
✓Administrative__Parties__Consumer
DOCUMENT NO. 00107-10
DISTRIBUTION: _____

Ruth Nettles had me deliver some 10 year site plans to Phillip Ellis in RAD a week ago. He returned them and asked if they could be scanned. I don't mind scanning them but I noticed that some of them don't have a document number attached.

After speaking with Dorothy she gave me a listing of plans that have been filed and I noticed that City of Tallahassee and Seminole Electric have no DNs but they are on the listing.

What I'm going to do is bring those two back to Dorothy so they can have a DN applied and then we can scan them.

Michael Staden

Subject: Undocketed Notice of Commission Workshop

Good Afternoon,

I have a Notice of Commission Workshop for the 2010 Hurricane Season Prep Briefing here to issue to "All interested persons" and for clarifying purposes I need to know to whom you would like to have it issued. The Undocketed docket does not have it's own list of parties, we in the Clk have to add them in to issue anything from the undocketed and then we always take the list back out. Thank you for your time in this matter.

Thanks,
C. Lindsley

To: Andrew Maurey
Cc: Marguerite McLean; Diamond Williams
Subject: Refund Report

Good afternoon, Andrew,

I believe this should be directed to your section, however, if that is incorrect, can you point me in the right direction?

CLK has received a CD from Southern Natural Gas Co. [inactive Company Code GS036]. There is no cover letter, but the CD label indicates:

Southern Natural Gas Co.
Docket No. RP09-427-000
Refund Report

The docket number they reference isn't a PSC docket number, so I'm not sure what to do with this CD. Do we need to include it in CLK's repository for permanent retention, or is this something they should have mailed to ECR directly?

Thank you for your help!

Subject: FW: Question regarding Undocketed Memo to be issued

Hi Gloria,

For clarification, this document just needs to be placed in the docket file, not issued like we do orders and notices, etc. Correct? If so, for future reference, please only send the hard copy to CLK for the docket file. When it is placed in GCOrders, that tells us it needs to be issued like an order, a notice, meeting notices, etc. Give me a call if you have any questions.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

IN RE: Docket No. 100000-OT CPNI for Payphone Operators

SUBPOENA DUCES TECUM WITHOUT DEPOSITION

THE STATE OF FLORIDA

TO: David Christian, Verizon, 106 East College Avenue, Suite 710, Tallahassee, FL 32301

YOU ARE COMMANDED to appear at 2540 Shumard Oak Boulevard, Tallahassee, FL 32399, on April 12, 2010, by 5:00 p.m., or at such other time and place as may be mutually agreed upon by counsel, and to have with you at that time and place the following:

Please provide the following information for the Verizon customer who is billed for **Payphone Number 813-963-6973:**

(1) Company Name/Individual Name of the billed party
(2) Billing Address/Physical Address of the billed party
(3) Telephone Number of the billed party
(4) Any Registered Agent of the billed party
(5) Address/Location of the phone number

These items will be inspected and may be copied at that time. You will not be required to surrender the original items. You may comply with this subpoena by providing legible copies of the items to be produced to the attorney whose name appears on this subpoena on or before the scheduled date of production. You may mail or deliver the copies to the attorney whose name appears on this subpoena and thereby eliminate your appearance at the time and place specified above. You have the right to object to the production pursuant to this subpoena at any time before production by giving written notice to the attorney whose name appears on this subpoena. THIS WILL NOT BE A DEPOSITION. NO TESTIMONY WILL BE TAKEN.

YOU ARE SUBPOENAED by the following attorney to (1) appear as specified, or (2) furnish the records instead of appearing as provided above, and, unless excused from this subpoena by this attorney or the Commission, you shall respond to this subpoena as directed.

DATED March 26, 2010.

THE STATE OF FLORIDA

TO: Sandra Khazraee, CenturyLink (Embarq), 315 S. Calhoun Street, Suite 500, Tallahassee, FL 32301

YOU ARE COMMANDED to appear at 2540 Shumard Oak Boulevard, Tallahassee, FL 32399, on April 12, 2010, by 5:00 p.m., or at such other time and place as may be mutually agreed upon by counsel, and to have with you at that time and place the following:

Please provide the following information for the Embarq/Centurylink customer who is billed for **Payphone Number 352-687-4519**:

(1) Company Name/Individual Name of the billed party
(2) Billing Address/Physical Address of the billed party
(3) Telephone Number of the billed party
(4) Any Registered Agent of the billed party
(5) Address/Location of the phone number

These items will be inspected and may be copied at that time. You will not be required to surrender the original items. You may comply with this subpoena by providing legible copies of the items to be produced to the attorney whose name appears on this subpoena on or before the scheduled date of production. You may mail or deliver the copies to the attorney whose name appears on this subpoena and thereby eliminate your appearance at the time and place specified above. You have the right to object to the production pursuant to this subpoena at any time before production by giving written notice to the attorney whose name appears on this subpoena. THIS WILL NOT BE A DEPOSITION. NO TESTIMONY WILL BE TAKEN.

YOU ARE SUBPOENAED by the following attorney to (1) appear as specified, or (2) furnish the records instead of appearing as provided above, and, unless excused from this subpoena by this attorney or the Commission, you shall respond to this subpoena as directed.

DATED March 26, 2010.

Ann Cole, Commission Clerk

Thank you, Marshall.

Ann,

Normally we don't get these types of agreements. From the string of e-mails below, it was initially e-mailed to Consumer Contact. Then it was passed to Rhonda Hicks, Connie Kummer, and Marshall Willis for advice on handling. I didn't check out both attachments, but in one of them, I noticed that the CLK/Bayo was copied. We never received a hard copy. Marshall says he doesn't know why it would be placed in correspondence or any other file in CLK. Is it acceptable if I place this e-mail and the attachments in a "no further action" folder in my office? Thanks for your help.

Dorothy

Subject: RE: Document Service, Amendment to 1995 Agreement and 2016-2024 Agreement with SECI

No, they are wholesale agreements that we do not regulate. Progress only sends these in for staff to have available if we want them. We file them away in ECR. Not sure why they would be placed in Consumer Correspondence or any other file in the Clerks office.

Hi Marshall,

You mentioned below that these should go in undocketed. Since they weren't correctly e-filed, should they be placed in Consumer Correspondence for the undocketed matters? Otherwise, I need to contact them and tell them how to correctly e-file the document. Thank you for your help.

Dorothy

Honorable Kimberly D. Bose
Secretary
Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, D.C. 20426

Regarding: ***Florida Power Corporation*;**
2016-2024 Agreement with
Seminole Electric Cooperative, Inc.;
Docket No. ER10-____-000

Dear Secretary Bose:

Florida Power Corporation, doing business as Progress Energy Florida, Inc. ("Progress" or "Company"), hereby files, pursuant to Section 205 of the Federal Power Act, the 2016-2024 Agreement for Sale and Purchase of System Combined Cycle Capacity and Energy between Progress and Seminole Electric Cooperative, Inc. ("Seminole" or "Customer") dated December 18, 2009 (the "Agreement"). Progress respectfully requests that the Commission accept the Agreement for filing sixty days after the date of filing, which is May 15, 2010.

I. BACKGROUND

Progress is an investor-owned utility that provides generation, transmission and distribution services to retail customers in the State of Florida. It also is a power supplier for a number of wholesale customers in the State of Florida, including Seminole. Seminole is a Florida corporation and a generation and transmission cooperative.

Seminole has a need for additional system combined cycle capacity and corresponding energy to serve its future load requirements for the period beginning June 1, 2016 through December 31, 2024. In the Agreement, Progress will supply Seminole with a new system combined cycle capacity and energy product based on Progress' system combined cycle capacity from the Hines Energy Center (called

"System Combined Cycle Capacity") for the period beginning June 1, 2016 through December 31, 2024. The Hines Energy Center includes four combined cycle generating units, named Hines 1, 2, 3 and 4, each of which is capable of generating approximately 500 MW. The priority of the System Combined Cycle Capacity and Corresponding Energy that Progress will be providing to Seminole is as firm as Progress' service to its Firm Native Load customers.[1]

Concurrent with the filing of this Agreement with Seminole, Progress has also filed at the Commission an amendment to the October 12, 1995 Agreement for Sale and Purchase of Capacity and Energy between Progress and Seminole, as amended, First Revised Rate Schedule No. 176 (the "Amended 1995 Agreement"). The Amended 1995 Agreement provides for Progress' sale to Seminole of 150 MW of System Combined Cycle Capacity and Corresponding Energy for the period beginning January 1, 2011 through December 31, 2013

II. DESCRIPTION OF THE AGREEMENT

A. SYSTEM COMBINED CYCLE CAPACITY AND CORRESPONDING ENERGY

During the term of the Agreement, Progress agrees to sell to Seminole, and Seminole agrees to purchase from Progress, System Combined Cycle Capacity in the amount of 250 MW during the period from June 1, 2016 through May 31, 2019 ("Period 1"), in the amount of 500 MW during the period from June 1, 2019 through December 31, 2022 ("Period 2"), and in the amount of 200 MW during the period from January 1, 2023 through December 31, 2024 ("Period 3"), and, to the extent properly scheduled for delivery pursuant to the terms of this Agreement, the Corresponding Energy. The capacity MW amounts in Period 1, Period 2 and Period 3 may be reduced and/or increased by the Customer as set forth in Section 2.[2] The "Contract Capacity Amount" is defined for Period 1, Period 2 and Period 3, respectively, as the capacity MW amounts in Period 1, Period 2 and Period 3 as such amounts may be adjusted to reflect any reductions and/or increases in the capacity MW amounts by the Customer consistent with Section 2.

Section 4.3 of Agreement includes a stated Monthly Capacity Charge, a stated Monthly Non-Fuel Energy Charge, a formula Monthly Fuel Charge and a formula Monthly Emissions Charge for System Combined Cycle Capacity and Corresponding Energy.

---

[1] *See* Sections 4.2 and 10.1 Agreement.

[2] For a description of Seminole's right to reduce and/or increase capacity MW amounts, *see* Section II.D of this filing letter.

The Monthly Capacity Charge for System Combined Cycle Capacity will be a monthly capacity price equal to the product of the applicable Contract Capacity Amount and $10.75 per kW-month, which price shall escalate at two percent (2%) per year rounded to two decimal places, beginning in June 2017.[3]

The Monthly Non-fuel Energy Charge is equal to the product of the Corresponding Energy delivered to Customer at the Delivery Point during the Billing Month and $3.15 per MWh, which price shall escalate at two percent (2%) per year rounded to two decimal places, beginning in June 2017.[4]

Section 4.3(c) of the Agreement provides that the Monthly Fuel Charge will be the sum for the Billing Month of the Daily Fuel Price multiplied by the Corresponding Energy that is fueled by Progress and that is delivered to Seminole at the Point of Receipt during the relevant delivery day. The Agreement provides Seminole with the option to supply natural gas for its Corresponding Energy schedule.[5] To the extent that Seminole supplies the requisite natural gas for its Corresponding Energy schedule, the Daily Fuel Price will be zero.[6] To the extent that Progress supplies the natural gas for Corresponding Energy delivered to Seminole, the Daily Fuel Price will be the result of multiplying the heat rate of 7.4 MMBtu/MWh[7] by the Gas Index, the product of which shall be adjusted up to include losses using the OTL Loss Factor.[8] The Gas Index shall be the daily midpoint price of natural gas (expressed in $/MMBtu) for the relevant day of delivery of energy for Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, plus the Florida Gas Transmission ("FGT") fuel loss factor, the FGT average usage charge from the applicable FGT Tariff, and a $0.8941/MMBtu demand charge for gas transportation.

Section 4.3(d) of the Agreement provides that the Monthly Emissions Charge will be the sum for the Billing Month of the Emissions Price multiplied by the Corresponding Energy delivered to Seminole at the Point of Receipt during the relevant delivery day. The Emissions Price is defined as the price (in $/MWh) for emissions costs, emissions

---

3 *See* Section 4.3(a) of the Agreement.

4 *See* Section 4.3(b) of the Agreement.

5 *See* Section 5 of the Agreement.

6 *See* Section 5.2 of the Agreement.

7 The heat rate is the expected heat rate of the Hines generating units.

8 The OTL Loss Factor is the Output to Line loss factor in Progress' Interchange Contracts, as set forth in Exhibit C-1 of Progress' Annual Filing of Cost Factor Updates filed at FERC. *See Florida Power Corp.*, Docket No. ER09-1093-000 (June 22, 2009) (unpublished letter order) (order accepting, among other things, Progress' latest OTL Loss Factor).

allowance costs and taxes allocated to the Hines Energy Center (except as provided otherwise below), such as SO_2 and NO_x allowances and carbon taxes (and any other emissions allowance costs/taxes allowed by FERC). In a Billing Month in which the Corresponding Energy delivered to the Customer under this Agreement is less than or equal to the Company's total energy generated by the Company at the Hines Energy Center during such month, the Customer will pay the Emissions Price applicable to the Hines Energy Center. In a Billing Month in which the Corresponding Energy delivered to the Customer under this Agreement is more than the Company's total energy generated at the Hines Energy Center during such month, the Customer will pay the Emissions Price applicable to the Hines Energy Center for the Corresponding Energy equivalent to the total MWh generated at the Hines Energy Center, with the remaining MWh of Corresponding Energy up to the full Schedule for Energy (the "Deficient Amount") to be billed at the Emissions Price applicable to Bartow Energy Center. *See* 4.3(d)(i). The Bartow Energy Center is another combined cycle facility owned by Progress, and it is the next most economical combined cycle facility on Progress' system after the Hines Energy Center. To the extent that the Deficient Amount cannot be deemed to be supplied from the Bartow Energy Center because of its unavailability, the references in Section 4.3(d)(i) to the Bartow Energy Center shall be replaced with the Company's selection of Company's other combined cycle facilities. In such event, the Emissions Price charged to Customer for all Corresponding Energy shall be capped at a maximum charge based on the Emissions Price for the Bartow Energy Center (or based on the latest available historical data for the Emissions Price for the Bartow Energy Center). The total emissions costs shall be reduced by a pro rata allocation of any emissions credits or allowances allocated to Company. The Emissions Price shall be adjusted up to include losses using the OTL Loss Factor. Costs associated with the Emissions Price will not include any costs (variable, fixed or otherwise) that are already included in the Monthly Capacity Charge, Monthly Non-Fuel Energy Charge or Monthly Fuel Charge. For the avoidance of doubt, in no case will the Emissions Price recover any of Company's capital costs associated with emissions costs. The Monthly Emissions Charge is designed to provide Seminole with some certainty and a cap concerning its emissions costs and to permit Progress to recover emissions costs incurred as a result of its service to Seminole.

B. SCHEDULING PROVISIONS

i. In General

Section 6 of the Agreement includes extensive scheduling provisions that are designed to provide Seminole with flexibility to schedule and modify schedules of energy under this Agreement to reflect its load requirements.

ii. Schedule Changes After the Scheduling Deadline

Section 6.2(c) provides that to the extent any Schedule Change is made after the Scheduling Deadline, the price for the Corresponding Energy delivered to Customer shall be in accordance with the calculation of the Monthly Fuel Charge under Section 4.3(c)(i) plus Company's incremental costs reasonably incurred (and subsequently agreed to by Customer) in accommodating the Schedule Change ("Incremental Costs"). Incremental Costs may include any demonstrable costs to Company solely attributable to the Schedule Change, including, but not limited to, additional gas transportation charges, imbalance charges, cash-out charges and penalties. Company shall make commercially reasonable efforts to minimize Incremental Costs to Customer in response to a Schedule Change, including, but not limited, to the economic dispatch of Company's purchased power and generation resources in accordance with Prudent Electric Utility Practice, and mitigating the nominated gas situation through pipeline imbalance adjustments in subsequent days, pursuant to Company's pipeline operational balancing agreements. To the extent that capacity and Corresponding Energy from the Hines Energy Center is not being used by Company to respond to the Schedule Change made after the Scheduling Deadline and Company provides the capacity and Corresponding Energy under this Agreement from another system combined cycle capacity facility and/or peaking generating facility, then Incremental Costs will be the costs associated with such other combined cycle facility and/or peaking generating facility.

iii. Schedule Changes Due to Customer's Forced Outage or Deration

Section 6.2(d) provides that in the event that Customer has a Schedule for Energy of zero for the delivery day and Customer experiences a forced outage or deration of Customer's generating resource or firm purchase power resource, Customer may submit to Company during the first calendar day of the forced outage or deration a Schedule for Energy that is consistent with the scheduling parameters, requirements and rights in Sections 6.1(b), 6.2(a), 6.2(b), 6.2(c), and 6.3. During the first calendar day of the forced outage or deration, Company shall permit Customer to ramp-out of such Schedule for Energy (i.e., reduce the Schedule for Energy to zero (0) MW for the remainder of the relevant delivery day) irrespective of the limits on the number of intraday changes described in Section 6.2(b); provided, however, that Customer shall make subsequent intraday change(s) within the thirty (30) minute ramp rates for the applicable Contract Capacity Amount.

C. CONDITION PRECEDENT

Although service does not begin under the Agreement until June 1, 2016, Progress is submitting this Agreement to the Commission for its consideration at this time because it is contractually required to do so. Section 3.3 of the Agreement provides that Progress must file this Agreement at FERC by March 15, 2010. Section 3.2 provides that the Agreement must be approved or accepted for filing by FERC by July 1, 2010, without

modification, suspension, investigation or other condition unless such modification, suspension, investigation or other condition is agreed upon by the parties pursuant to Section 3.5 of the Agreement. The intent of this provision is to provide Progress and Seminole with regulatory certainty concerning this important power supply arrangement as soon as reasonably possible.

D. FLEXIBILITY IN THE AMOUNT OF CAPACITY AND ENERGY TO BE SOLD

Section 2 of the Agreement provides Seminole with the flexibility to reduce and/or increase the capacity MW amounts in Periods 1, 2 and 3. During Period 1, Seminole can increase and/or reduce the capacity MW amounts within a band of 100 to 500 MW. During Period 2, Seminole can increase and/or reduce the capacity MW amounts within a band of 200 to 500 MW. During Period 3, Seminole has the right to increase and/or reduce the capacity MW amounts within a band of 200 to 500 MW. Seminole's right to reduce the capacity MW amounts is linked to any Seminole ownership share of Levy Units 1 and 2 upon their commercial operation. Specifically, the Agreement permits Seminole to displace capacity MW amounts under this Agreement corresponding with Seminole's MW ownership share of Levy Units 1 and/or 2. Levy Units 1 and 2 are Progress' proposed nuclear generating units in Levy County, Florida. The Agreement states that the projected commercial operation dates for Levy Units 1 and 2 are May 1, 2018 and May 1, 2019, respectively.

E. CHANGE IN LAW COST RECOVERY SURCHARGE

The Change in Law provision in Section 15 is a critical feature of this Agreement. Given that service will not begin under this Agreement until June 1, 2016, Progress cannot reasonably forecast or estimate its costs at this time to comply with unknown, new legal requirements or changes to existing legal requirements that may occur in the future. Because Progress expects that significant investment may be required to comply with future legal requirements, including environmental requirements, Progress requires a mechanism in this Agreement to recover costs incurred to comply with those future requirements. That mechanism is the opportunity to make a Section 205 filing under a just and reasonable standard of review to recover Increased Generation Costs resulting from a Change in Law through a Change in Law Cost Recovery Surcharge.

Section 15 of the Agreement includes protective features for Seminole related to any filing of a Change in Law Cost Recovery Surcharge. Seminole may not be assessed any additional costs through a Change in Law Cost Recovery Surcharge that will not also be assessed to Progress's retail customers and that does not account for all relevant factors relating to the service being provided under the Agreement, including the term of the Agreement. Also, the Change in Law Cost Recovery Surcharge is limited to recovery of Increased Generation Costs and may not be used to recover any costs already recovered through the Agreement's rates and charges set forth in Sections 4.3 and 5.3.

The Commission has previously accepted language similar to Section 15 of this Agreement with respect to the concept of an Environmental Cost Recovery Surcharge, in three previous power sales agreements filed at the Commission for Progress and Seminole. See *Florida Power Corporation*, Docket No. ER09-909-000, Letter order dated May 8, 2009, *Florida Power Corporation*, Docket No. ER07-692-000, Letter order dated May 2, 2007, and *Florida Power Corporation*, Docket No. ER08-223-000, Letter order dated January 1, 2008.

F. STANDARD OF REVIEW

Section 14 of the Agreement specifies that, except as set forth in Section 15, the parties have agreed to a public interest standard of review for any unilateral changes to this Agreement. Consistent with Commission precedent, Section 14 also provides that the Commission, acting *sua sponte* to protect non-parties or acting in response to a Section 206 complaint by a non-party, shall be subject to the strictest standard of review permissible under applicable law. *Duke Energy Carolinas, LLC*, 123 FERC ¶ 61,201, at 10 & fn.10 (2008).[9]

As set forth above, in accordance with Section 15 of the Agreement, Progress may submit a Section 205 filing, subject to a just and reasonable standard of review, to seek recovery of a monthly surcharge for the recovery of Increased Generation Costs resulting from a Change in Law.

G. MATERIAL ADVERSE EVENT

Section 13 of the Agreement provides that a Material Adverse Event occurs under the Agreement when a Regional Transmission Organization or regional reliability organization (i) prevents, in whole or in part, either party from performing a provision of the Agreement in accordance with its terms and the party claiming the Material Adverse Event is materially adversely impacted thereby or (ii) imposes obligations on a party that materially increases costs that such party incurs under this Agreement (including increased power supply costs or increased transmission costs to obtain or transfer power hereunder). In the event of a Material Adverse Event, either party may provide written notice to the other party of the occurrence of the Material Adverse Event within ninety days after the occurrence of the event. After the written notice is issued, Progress and Seminole agree to negotiate in good faith to amend the Agreement so as to restore the benefits and burdens that the parties originally intended pursuant to the Agreement. If, within six months after the written notice, the parties are unable to reach agreement as to what, if any, amendments to the Agreement are necessary to put each party in effectively the same position as the parties would have been had the Material

---

[9] Progress notes that the U.S. Supreme Court recently issued an opinion concerning the standard of review applied to non-parties and FERC in *NRG Power Marketing, LLC v. Maine Public Utilities Commission*, 130 S.Ct. 693, 2010 WL 98876 (January 13, 2010).

Adverse Event not occurred, then either party has the right to unilaterally terminate the Agreement, subject to complying with any regulatory requirements and subject to the other party's right to dispute whether a Material Adverse Event has occurred.

III. JUST, REASONABLE AND NOT UNDULY PREFERENTIAL RATE

Attachment 2 of this filing includes the cost data and the cost support analysis for the Agreement and the attestation of Mr. William A. Vinhage, who completed the cost support analysis. Mr. Vinhage is a Senior Regulatory Specialist in Progress' Accounting & Regulatory Department. The cost support analysis supports the stated monthly capacity rate and the stated non-fuel energy rate.

Mr. Vinhage utilized the Commission's fixed charge rate methodology. The fixed charge rate methodology is based on Progress' 2008 actual costs from Progress' FERC Form No. 1 report and an 11% rate of return on equity, which is reasonable for a vertically integrated utility with retail and wholesale customers.[10] Attachment 2 provides the support for the fixed charge rate calculations along with Statements BB, BG and BK. The work papers developing the fixed charge rate methodologies utilize a pro forma 50% debt/ 50% equity capital structure and a 6.04% debt cost along with an 11% equity cost to arrive at a total return of 8.52%.

Mr. Vinhage's fixed charge rate methodology reflects the nature and firmness of the product supplied under the Agreement. As previously described, the Agreement provides for the sale of System Combined Cycle Capacity and Corresponding Energy from the combined cycle generating units at the Hines Energy Center. However, this product does not represent a unit sale from the Hines Energy Center. A unit sale is a non-firm sale that is fully interruptible when the generating unit is not available. In contrast, the capacity and energy provided under this Agreement is as firm as Progress' service to its Firm Native Load customers. Accordingly, the pricing in this Agreement appropriately reflects a premium to compensate Progress for the firmness of this product.

To reflect the nature and firmness of this product, the fixed charge rate methodology includes an 81.7% weighting of the costs of the Hines Energy Center[11]

---

[10] The Commission has accepted an 11% ROE in recent filings of cost-based power sales agreements by PEF and its affiliate, Carolina Power & Light Company, doing business as Progress Energy Carolinas, Inc. *See, e.g., Florida Power Corporation*, Docket No. ER09-909-000, Letter Order dated May 8, 2009 (order accepting PEF's cost-based power sales agreement with Seminole), *Carolina Power & Light Company*, Docket No. ER10-225-000, Letter Order dated December 23, 2009 (order accepting revised cost-based power sales agreement with North Carolina Electric Membership Corporation).

[11] The Hines Energy Center is a baseload facility in Progress' fleet of generating resources.

In addition, Progress notes that the cost support analysis applies a 2.5% average inflation rate to the 2008 operations and maintenance expenses and 2008 administrative and general expenses from the FERC Form 1 in order to approximate the actual expenses during the service to Seminole in 2016 through 2024 under this Agreement. This average inflation rate is an average of the Consumer Price Index (CPI) results for the South Region of the United States. Exhibit WAV-13 includes the supporting information for the inflation rate.

Exhibit WAV-1 demonstrates that the revenues generated by the stated monthly capacity rate and the stated non-fuel energy rate are less than Progress' cost to serve Seminole over the life of the Agreement.

The formula rates included in the Agreement satisfy the Commission's specificity requirements for formula rates. The Commission generally requires formula rates to be specific enough for any reasonably knowledgeable party to be able to calculate for itself what charge will be produced by the formula. *Pacific Gas & Electric Co.*, Opinion No. 459, 100 FERC ¶ 61,160, at P 22 (2002); *reh'g denied*, Opinion No. 459-A, 101 FERC ¶ 61,139 (2002). *See also Kern River Gas Transmission Co.*, 97 FERC ¶ 61,145, at 61,631 (2001) (formula rate must be stated "with sufficient clarity that a third party can easily calculate the rate charged") (*citing NorAm Gas Transmission Co.*, 75 FERC ¶ 61,091, at 61,309 (1996) (stating requirements for accepting formula rates in lieu of "actual rates" in negotiated rates under the Natural Gas Act)). As set forth in Parts II.A and II.B of this filing letter, the Agreement includes detailed descriptions as to how the formulas will be calculated.

For these reasons, the Commission should accept these stated and formula rates as just and reasonable under Section 205 of the Federal Power Act.

Furthermore, in accordance with Section 205 of the Federal Power Act, the Commission should accept these rates because they do not provide an undue preference to Seminole. It is well-settled that differences in rates are justified based on factual differences between customers and that these differences may arise from differing costs of service or other factors.[17] The proposed rates, terms and conditions of the Agreement filed herein are based on the factual circumstances concerning the type of service that Seminole requires, Progress' cost to provide those services, and other factual considerations.

---

[17] *See e.g., Cities of Newark v. FERC*, 763 F.2d 533 (3rd Cir. 1985). When one customer has a lower rate under a contract, the utility does not violate Section 205(b) by charging other customers higher rates where factual differences justify the rate disparity. *See City of Frankfurt v. FERC*, 678 F.2d 699 (7th Cir. 1982).

IV. REQUESTED EFFECTIVE DATE

Progress respectfully requests that the Commission accept this Agreement for filing sixty days after the date of filing, which is May 15, 2010. Service under the Agreement commences on June 1, 2016. However, as already noted, the conditions precedent of the Agreement specify that the Agreement be filed at the Commission by March 15, 2010 and approved or accepted by the Commission by July 1, 2010. The intent of this provision is to provide Progress and Seminole with regulatory certainty concerning this important power supply arrangement as soon as reasonably possible. Accordingly, Progress requests that the Commission act on and accept this Agreement for filing within sixty days so that this condition precedent may be satisfied. Seminole has authorized Progress to state that it supports this request.

Progress also respectfully requests waiver of the Commission's requirement that rate schedules be filed no more than 120-days prior to the commencement of service under the rate schedule. Under Section 35.3 of the Commission's regulations, 18 C.F.R. § 35.3, filing utilities may file no more than 120 days in advance of the proposed effective date. However, the Commission may waive this 120-day advance notice requirement to accept filings that are made more than 120 days in advance of the proposed effective date. In fact, the Commission often reviews and acts on proposed rates for transactions that will not take place until months or years later. *See, e.g., Missouri River Energy Services,* 124 FERC ¶ 61,309, at P 43 (2008); *Cincinnati Gas & Electric Co.,* 113 FERC ¶ 61,197, at P 25 (2005); *PSI Energy, Inc.*, 56 FERC ¶ 61,237, at 61,911 (1991); *Dartmouth Power Associates Limited Partnership,* 53 FERC ¶ 61,117, at 61,355 (1990); *Duke Power Co.,* 43 FERC ¶ 61,001, at 61,003 (1988).[18]

Progress submits that there is a reasonable basis for the Commission to waive the 120-day requirement because of Progress' contractual requirement with Seminole to obtain Commission approval or acceptance of the Agreement by June 1, 2010 and because the interests of both Progress and Seminole would be served by obtaining regulatory certainty concerning this important power supply arrangement as soon as reasonably possible. Furthermore, because a public notice has been issued concerning this filing and the filing is publicly-available from the Commission's eLibrary service, no third party would be prejudiced by the Commission's grant of waiver of this requirement.

---

[18] *See also, Florida Power Corporation,* Docket No. ER07-692-000, Letter Order dated May 2, 2007 (accepting and granting an effective date of June 28, 2007 for a power sales agreement between Progress and Seminole that will begin service until January 1, 2014) and *Florida Power Corporation,* Docket No. ER08-223-000, Letter order dated January 1, 2008 (accepting and granting an effective date of February 15, 2008 for a power sales agreement between Progress and Seminole that will begin service until January 1, 2012).

V. CONTENTS OF FILING

The following documents are included in this filing:

(1) A clean copy of the Agreement, which has been designated consistent with Order No. 614 ("Attachment 1");

(2) The cost support and attestation of Mr. William A. Vinhage ("Attachment 2"); and

(3) A List of Recipients ("Attachment 3").

VI. MISCELLANEOUS

To the extent necessary, Progress requests waiver of the cost support requirements under the Commission's regulations in 18 C.F.R. § 35.13 (2008). The cost support provided in Attachment 2 and this filing letter demonstrates that the proposed rates are just and reasonable.

No costs or expenses supporting the charges set forth in the Agreement have been alleged or judged in any administrative or judicial proceeding to be illegal, duplicative, or unnecessary costs that are demonstrably the product of discriminatory practices. This filing does not provide for specifically assigned facilities.

This filing has been mailed to Seminole and the Florida Public Service Commission, as set forth in the Attachment 3 List of Recipients. Progress requests that the Commission place the following individuals on the official service list in this proceeding:

Kendal C. Bowman, Esquire
Associate General Counsel
Progress Energy Service Company
Mail Code PEB 17B2
P.O. Box 1551
Raleigh, NC 27602
Telephone: (919) 546-6794
Facsimile: (919) 546-2920
E-Mail: kendal.bowman@pgnmail.com

and

Antonia A. Frost, Esquire
Bruder, Gentile & Marcoux, L.L.P.
1701 Pennsylvania Avenue, N.W.
Suite 900
Washington, D.C. 20006-5807
Telephone: (202) 296-1500
Facsimile: (202) 296-0627
E-Mail: aafrost@brudergentile.com

VII. CONCLUSION

Progress respectfully requests that the Commission accept the Agreement as just, reasonable and not unduly preferential under Section 205 of the Federal Power Act and that the Commission grant the effective date requested herein. Progress thanks the Commission for its consideration of this filing. Please contact the undersigned if you have any questions.

Very truly yours,

Antonia A. Frost

AGREEMENT FOR SALE AND PURCHASE OF SYSTEM COMBINED CYCLE CAPACITY AND ENERGY

This Agreement ("Agreement") is made and entered into as of this 18th day of December, 2009 (the "Effective Date") by and between Seminole Electric Cooperative, Inc., a Florida corporation ("Customer" or "Seminole"), and Florida Power Corporation, a Florida corporation, doing business as Progress Energy Florida, Inc. ("Company" or "PEF"). The Company and the Customer are sometimes herein referred to individually as a "Party" and collectively as the "Parties."

WHEREAS

1. The Company is a public utility as defined in the Federal Power Act and sells electric capacity and energy to other utilities for resale;
2. The Customer is a generation and transmission cooperative; and
3. The Parties desire that the Company sell to the Customer and the Customer purchase from the Company electric capacity and energy pursuant to the terms and conditions of this executed Agreement.

NOW THEREFORE

In consideration of the mutual covenants and agreements herein contained, the Parties do hereby mutually agree as follows:

SECTION 1 - DEFINITIONS

For the purposes of this Agreement, the terms defined in this section shall have the following meanings. Except where the context otherwise requires, definitions and other terms expressed in the singular shall include the plural and vice versa.

"Acceptable Creditworthiness" shall have the meaning set forth in Section 9.7.

"Agreement" shall have the meaning set forth in the introductory paragraph.

"Assignee" shall have the meaning set forth in Section 18.5.

"Assigning Party" shall have the meaning set forth in Section 18.5.

"Assurance Notice" shall have the meaning set forth in Section 9.9.

"Bankrupt" shall mean with respect to any entity that such entity (i) files a petition or otherwise commences, authorizes or acquiesces in the commencement of a proceeding or cause of action under any bankruptcy, insolvency, reorganization or similar law, or has any such petition filed or commenced against it, (ii) makes an assignment or any general arrangement for the benefit of creditors other than the Company's or Customer's mortgagee, as the case may be, (iii) otherwise becomes bankrupt or

insolvent (however evidenced), (iv) has a liquidator, administrator, receiver, trustee, conservator or similar official appointed with respect to it or any substantial portion of its property or assets, or (v) is generally unable to pay its debts as they fall due.

"Bartow Energy Center" shall mean the Company's combined cycle generating facility located in Pinellas County, Florida.

"Billing Month" shall mean a calendar month billing cycle for invoicing.

"Binding Arbitration Notice" shall have the meaning set forth in Section 18.3.

"Business Day" shall mean any day except Saturdays, Sundays, and Federal Reserve Bank holidays.

"Change in Law" shall have the meaning set forth in Section 15.1.

"Change in Law Cost Recovery Surcharge" shall have the meaning set forth in Section 15.2.

"Claims" shall have the meaning set forth in Section 16.2.

"Commencement Date" shall have the meaning set forth in Section 3.1.

"Company" shall have the meaning set forth in the introductory paragraph.

"Contract Capacity Amount" shall have the meaning set forth in Section 2.1.

"Corresponding Energy" shall mean the energy, expressed in MWh, associated with the System Combined Cycle Capacity.

"Costs" means brokerage fees, commissions and other similar transaction costs and expenses reasonably incurred by such Party either in terminating any agreement which it has entered into to fulfill its obligations hereunder or entering into new agreements which replace this Agreement, and attorneys' fees, if any, incurred in connection with enforcing its rights under this Agreement.

"Cover Costs" shall have the meaning set forth in Section 17.4.

"Customer" shall have the meaning set forth in the introductory paragraph.

"Daily Fuel Price" shall have the meaning set forth in Section 4.3(c).

"Defaulting Party" shall have the meaning set forth in Section 12.3.

"Deficient Amount" shall have the meaning set forth in Section 4.3(d)(i).

"Delivery Day" shall mean the calendar day in which Corresponding Energy is delivered or to be delivered hereunder pursuant to a Schedule for Energy.

"Delivery Point" shall mean (1) the connection point of the high-side of the generator step-up transformer for any Company system generation resource to the Company's transmission system and (2) any point at which a Company power purchase enters the Transmission Provider's transmission system, at which point Customer shall take title to the System Combined Cycle Capacity and Corresponding Energy.

"Dispute" shall have the meaning set forth in Section 18.3.

"Due Date" shall have the meaning set forth in Section 9.1.

"Early Termination Date" shall have the meaning set forth in Section 12.3.

"Effective Date" shall have the meaning set forth in the introductory paragraph.

"Emissions Price" shall have the meaning set forth in Section 4.3(d).

"EPT" means Eastern Prevailing Time.

"Event of Default" shall have the meaning set forth in Section 12.1.

"FERC" or "Commission" shall mean the Federal Energy Regulatory Commission or any successor agency.

"FGT" shall have the meaning set forth in Section 4.3(c).

"Firm Native Load" shall mean the demands of wholesale and retail power customers for which the Company, by statute, franchise, regulatory requirements, or contract, has undertaken the obligation to plan, construct and operate its system to provide reliable power supply services and meet the electric needs of such customers. For purposes of this Agreement, Firm Native Load shall not include loads associated with interruptible, curtailable, and other demand side management programs.

"Force Majeure" shall have the meaning set forth in Section 17.1.

"FPSC" shall mean Florida Public Service Commission or any successor agency.

"Gains" shall mean, an amount equal to the economic benefit determined on a mark-to-market basis (exclusive of Costs), or if mark-to-market is unavailable, from a commercially reasonable equivalent, such as a Party's portfolio model, if any, to the Non-Defaulting Party resulting from the termination of this Agreement.

"Gas Day" shall have the meaning set forth in Section 5.2.

"Gas Index" shall have the meaning set forth in Section 4.3(c).

"Gas Option" shall have the meaning set forth in Section 5.1.

"Gas Option Day" means any calendar day that Customer exercises the Gas Option under Section 5 to supply gas to Company.

"Gas Option Interruption" shall have the meaning set forth in Section 5.3.

"Gas Option Operating Procedures" shall have the meaning set forth in Section 5.6.

"Good Faith Negotiations" shall have the meaning set forth in Section 18.3.

"Governmental Authority" means a federal, state, local or municipal governmental body; any governmental, regulatory or administrative agency, commission, body or other authority exercising or entitled to exercise any administrative, executive, judicial, legislative, policy, regulatory or taxing authority, or jurisdictional power; any court or governmental tribunal.

"Guarantor" means an entity providing a Guaranty that has and maintains a credit rating of at least Baa3 (Moody's) or BBB- (Standard and Poors).

"Guaranty" means an irrevocable guaranty from Guarantor in a form that is reasonably acceptable to the Party receiving the guaranty.

"Hines Energy Center" shall mean the Company's combined cycle generating facility located in Polk County, Florida. The Hines Energy Center has four units, named Hines 1, 2, 3, and 4, each of which is capable of generating approximately 500 MW.

"Increased Generation Costs" shall have the meaning set forth in Section 15.1.

"Incremental Costs" shall have the meaning set forth in Section 6.2(c).

"Indemnified Party" shall have the meaning set forth in Section 16.2.

"Indemnifying Party" shall have the meaning set forth in Section 16.2.

"Interchange Sales" shall mean those opportunity sales made by the Company from time to time (i.e., the sales transactions included on Schedule A-6 of the Company's FPSC-required monthly fuel and purchased power filing as of the Effective Date, or any successor thereto).

"Interest Rate" shall mean the interest rate calculated in accordance with the methodology set forth in FERC's regulations at 18 C.F.R. §35.19a, or any successor thereto.

"kW" shall mean kilowatt or kilowatts, as applicable.

"Letter of Credit" shall mean an irrevocable, non-transferable, standby letter of credit, issued by a major U.S. commercial bank or a U.S. branch office of a major commercial foreign bank, with a credit rating of at least "A-" by S&P or "A3" by Moody's and having at least $10,000,000,000 in total assets and capital surplus of at least $1,000,000,000. For the avoidance of doubt, Letters of Credit issued on behalf of the Customer for the benefit of the Company by either of the National Rural Utilities Cooperative Finance Corporation or CoBank, ACB, shall satisfy the criteria in the

preceding sentence. The form of the Letter of Credit and its issuer shall be reasonably acceptable to the Party in whose favor the Letter of Credit is issued.

"Law" means any statute, law, rule, regulation, procedure, permit, license, order, approval, writ, judgment, decree or other legal or regulatory determination by a court, regulatory agency, Governmental Authority, or administrative agency of competent jurisdiction.

"Levy Unit 1" means a proposed nuclear generating unit in Levy County, Florida, whose projected commercial operation date as of the Effective Date is May 1, 2018.

"Levy Unit 2" means a proposed nuclear generating unit in Levy County, Florida, whose projected commercial operation date as of the Effective Date is May 1, 2019.

"Losses" shall mean an amount equal to the economic loss determined on a mark-to-market basis, or if mark-to-market is unavailable, from a commercially reasonable equivalent, such as a Party's portfolio model (exclusive of Costs), if any, to the Non-Defaulting Party resulting from the termination of this Agreement.

"Material Adverse Event" shall have the meaning set forth in Section 13.1.

"Monthly Capacity Charge" shall have the meaning set forth in Section 4.3(a).

"Monthly Emissions Charge" shall have the meaning set forth in Section 4.3(d).

"Monthly Fuel Charge" shall have the meaning set forth in Sections 4.3(c).

"Monthly Non-Fuel Energy Charge" shall have the meaning set forth in Section 4.3(b).

"MW" shall mean megawatt or megawatts, as applicable.

"MWh" shall mean megawatt-hour or megawatt-hours, as applicable.

"Non-Defaulting Party" shall have the meaning set forth in Section 12.3.

"OATT" shall mean the open access transmission tariff pursuant to which the Company offers open access transmission service over its transmission system, as filed with FERC and as amended or supplemented from time to time, or any successor tariff, including a tariff of a regional transmission operator, independent system operator or independent transmission company.

"OTL Loss Factor" shall have the meaning set forth in Section 4.3(c).

"Party" or "Parties" shall have the meaning set forth in the introductory paragraph.

"PEF" has the meaning set forth in the introductory paragraph.

"Performance Assurance" shall have the meaning set forth in Section 9.8.

"Period 1" shall have the meaning set forth in Section 2.1.

"Period 2" shall have the meaning set forth in Section 2.1.

"Period 3" shall have the meaning set forth in Section 2.1.

"Prudent Electric Utility Practice" shall mean any of the practices, methods, and acts engaged in or approved by a significant portion of the electric industry during the relevant time period, or any of the practices, methods and acts which, in the exercise of reasonable judgment, in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety, and expedition. Prudent Electric Utility Practice is not intended to be limited to the optimum practice, method, or act to the exclusion of all other, but rather includes all acceptable practices, methods, or acts, generally accepted in the region.

"Rejection" shall have the meaning set forth in Section 15.5.

"RTO" means a regional transmission organization as that term is defined by FERC.

"RUS" shall mean the Rural Utilities Service, sometimes referred to as Rural Development, or any successor agency.

"Schedule Change" shall have the meaning set forth in Section 6.2.

"Schedule for Energy" shall have the meaning set forth in Section 6.1.

"Scheduling Deadline" shall have the meaning set forth in Section 6.1.

"Seminole" shall have the meaning set forth in the introductory paragraph.

"System Combined Cycle Capacity" shall mean, for purposes other than availability of capacity and Corresponding Energy hereunder, the Company's capacity from the Hines Energy Center unless otherwise provided herein.

"Term" shall have the meaning set forth in Section 4.1.

"Termination Payment" shall have the meaning set forth in Section 12.3.

"Transmission Provider" shall mean the business unit within the Company or any successor that provides transmission service to the Customer for the delivery of capacity and Corresponding Energy hereunder.

"Unit 1 COD Change Notice" shall have the meaning set forth in Section 2.2.

"Unit 2 COD Change Notice" shall have the meaning set forth in Section 2.2.

SECTION 2 - AMOUNTS OF CAPACITY AND ENERGY TO BE SOLD

2.1 System Combined Cycle Capacity and Corresponding Energy. For the Term, Company agrees to sell to Customer, and Customer agrees to purchase from Company, System Combined Cycle Capacity in the amount of 250 MW during the period from June 1, 2016, through May 31, 2019 ("Period 1"), in the amount of 500 MW during the period from June 1, 2019, through December 31, 2022 ("Period 2"), and in the amount of 200 MW during the period from January 1, 2023 through December 31, 2024 ("Period 3"), and, to the extent properly scheduled for delivery pursuant to the terms of this Agreement, the Corresponding Energy. The capacity MW amounts in Period 1, Period 2 and Period 3 may be reduced and/or increased by the Customer as set forth in Section 2. The "Contract Capacity Amount" shall be defined for Period 1, Period 2 and Period 3, respectively, as the capacity MW amounts in Period 1, Period 2 and Period 3 as such amounts may be adjusted to reflect any reductions and/or increases in the capacity MW amounts by the Customer consistent with Section 2.

2.2 Customer Opportunities To Reduce the Contract Capacity Amount in Period 1 and Period 2.

(a) Levy Unit 1. With written notice to the Company of not less than twenty-four (24) months prior to May 1, 2018 (which is the anticipated commercial operation date for Levy Unit 1 as of the Effective Date), Customer may reduce the Contract Capacity Amount in Period 1 and Period 2 consistent with the terms described below, with such reductions to be effective no earlier than the actual commercial operation date of Levy Unit 1. Customer may only provide such notice to Company one time during the Term unless the above referenced commercial operation date is changed by Company. From the Effective Date and during the Term, Company shall notify Customer in writing of any changes to the anticipated commercial operation date of Levy Unit 1 ("Unit 1 COD Change Notice") in accordance with Section 2.7. Provided that the noticed change by Company for Levy Unit 1 under a Unit 1 COD Change Notice is greater than one hundred eighty (180) days from the prior projected commercial operation date that triggered a reduction notice from Customer, Customer may, with written notice to Company of not less than the later of:

(i) twenty-four (24) months prior to Company's then most current projected commercial operation date of Levy Unit 1; or

(ii) one hundred (100) days after the Unit 1 COD Change Notice,

reduce the Contract Capacity Amount in Period 1 and Period 2, or revise any previous reduction notice, with such notice to become effective no earlier than the actual commercial operation date of Levy Unit 1. All

Customer elected reductions shall be made only in an amount that is in 25 MW increments, the minimum time period of such reduction shall be no less than six months, and the amount of the reduction shall be the same throughout the selected time period. If Customer elects to reduce the Contract Capacity Amount for a period of time that is shorter than the remainder of Period 1 and/or Period 2, as applicable, then, after the conclusion of the reduction period, the Contract Capacity Amount shall return to the higher of 250 MW or the increased Contract Capacity Amount elected under Section 2.3(a) for the remainder of Period 1 and it shall return to 500 MW for the remainder of Period 2, or any reduced amount in accordance with the terms and conditions herein. The elected reduction shall be in an amount up to the lesser of 150 MW or Customer's MW ownership share in Levy Unit 1. As a result of Customer's election under this Section 2.2(a), the Contract Capacity Amount shall be no less than 100 MW in Period 1 and 350 MW in Period 2. If Levy Unit 1 does not begin commercial operation during Period 1, the Contract Capacity Amount shall be no less than 250 MW during Period 1.

(b) Levy Unit 2. With written notice to Company of not less than twenty-four (24) months prior to May 1, 2019 (which is the anticipated commercial operation date for Levy Unit 2 as of the Effective Date), Customer may reduce the Contract Capacity Amount in Period 1 and Period 2 consistent with the terms described below, with such reductions to be effective no earlier than the actual commercial operation date of Levy Unit 2. Customer may only provide such notice to Company one time during the Term unless the above referenced commercial operation date is changed by Company. From the Effective Date and during the Term, Company shall notify Customer in writing of any changes to the anticipated commercial operation date of Levy Unit 2 ("Unit 2 COD Change Notice") in accordance with Section 2.7. If at any time during the Term the Company issues a Unit 2 COD Change Notice, then Customer shall have the right to provide a revised reduction notice to Company within the later of (i) one hundred (100) days after the Unit 2 COD Change Notice or (ii) twenty-four (24) months prior to Company's then most current projected commercial operation date of Levy Unit 2, provided that the noticed change by Company for Levy Unit 2 under the Unit 2 COD Change Notice is greater than one hundred eighty (180) days from the prior projected commercial operation date that triggered the last reduction notice. Such reduction notice shall become effective no earlier than the actual commercial operation date of Levy Unit 2. All Customer elected reductions shall be made only in an amount that is in 25 MW increments, the minimum time period of such reduction shall be no less than six months, and the amount of the reduction shall be the same throughout the selected time period. If Customer elects to reduce the Contract Capacity Amount for a period of time that is shorter than the remainder of Period 2, then, after the conclusion of the reduction period, the Contract Capacity Amount shall return, for the remainder of Period 2, to the Contract

Capacity Amount that was effective prior to the reduction. The elected reduction shall be in an amount up to the lesser of 150 MW or Customer's MW ownership share in Levy Unit 2. As a result of Customer's elections under Sections 2.2(a) and (b), the Contract Capacity Amount shall be no less than 200 MW in Period 2. As a result of Customer's elections under Sections 2.2(a) and (b), Customer may elect to reduce the 500 MW Contract Capacity Amount for Period 2 in two separate capacity reductions with each capacity reduction to become effective coincident with the commercial operation of Levy Units 1 and 2, respectively. For example, if Levy Unit 1 is in commercial operation as of the commencement of Period 2 and Levy Unit 2 is expected to begin commercial operation on June 1, 2020, then the 500 MW Contract Capacity Amount may be reduced, effective as of the commencement of Period 2, by an amount up to the lesser of 150 MW or Customer's MW ownership share in Levy Unit 1, and the revised Contract Capacity Amount may be further reduced, effective as of the commercial operation date of Levy Unit 2, by an amount up to the lesser of 150 MW or Customer's MW ownership share in Levy Unit 2.

2.3 Customer Opportunities To Increase the Contract Capacity Amount in Period 1 and Period 2 Up to a Maximum Total of 500 MW.

(a) Once every calendar year, on or before December 15th, with written notice to Company of not less than twenty-four (24) months, Customer shall have the opportunity to increase the Contract Capacity Amount in Period 1 up to a maximum amount of 500 MW. The elected increase shall be made only in an amount that is in 25 MW increments and effective only as of a particular January 1 during Period 1, and the elected increase shall be applicable to the remaining time period in Period 1. Customer's election under this Section 2.3(a) does not impact the Customer's ability to reduce its purchase under Section 2.2(a). As a result of Customer's cumulative elections under Sections 2.2(a) and/or 2.3(a), the Contract Capacity Amount in Period 1 shall be no less than 100 MW and no more than 500 MW.

(b) In the event Customer has elected under Section 2.2(b) to reduce the 500 MW Contract Capacity Amount in Period 2, then once every calendar year, on or before December 15th, with written notice to Company of not less than twenty-four (24) months, Customer shall have the opportunity to increase the Contract Capacity Amount in Period 2 up to a maximum amount of 500 MW. The elected increase shall be made only in an amount that is in 25 MW increments and effective only as of a particular January 1 during Period 2, and the elected increase shall be applicable to the remaining time period in Period 2. As a result of Customer's cumulative elections under Sections 2.2(b) and/or 2.3(b), the Contract Capacity Amount in Period 2 shall be no less than 200 MW and no more than 500 MW.

2.4 Customer Opportunities To Increase the Contract Capacity Amount in Period 3 Up to a Maximum Total of 500 MW.

(a) Once every calendar year, on or before December 15th, with written notice to Company of not less than twenty-four (24) months, Customer shall have the opportunity to increase the Contract Capacity Amount in Period 3 up to a maximum amount of 500 MW. The elected increase shall be made only in an amount that is in 25 MW increments and effective as of a particular January 1 during Period 3, and the elected increase shall be applicable to the remaining time period in Period 3.

2.5 Customer Opportunities To Reduce the Contract Capacity Amount in Period 3 as a Result of the Commercial Operation of Levy Units 1 and 2 If Customer Previously Elected To Increase the Contract Capacity Amount in Period 3 Under Section 2.4.

(a) If Customer previously elected, under Section 2.4, to increase the Contract Capacity Amount in Period 3 to a MW amount greater than 200 MW, then, once every calendar year, on or before December 15th, with written notice to Company of not less than twenty-four (24) months prior to the commencement of Period 3, Customer shall have the opportunity to reduce the Contract Capacity Amount in Period 3 as a result of the commercial operation of Levy Units 1 and/or 2, effective only as of a particular January 1 during Period 3. If at any time during the Term the Company issues a Unit 1 COD Change Notice or Unit 2 COD Change Notice, then Customer shall have the right to provide a reduction notice to Company within the later of (i) one hundred (100) days after the Customer receives such Unit 1 or Unit 2 COD Change Notice or (ii) twenty-four (24) months prior to Company's then most current projected commercial operation date of Levy Unit 1 or Levy Unit 2, as applicable, provided that the noticed change under the Unit 1 or Unit 2 COD Change Notice is greater than one hundred eighty (180) days from the prior projected commercial operation date that triggered a reduction notice from Customer. Such reduction notice shall become effective no earlier than the actual commercial operation date of Levy Unit 1 or 2, as applicable. All Customer elected reductions shall be made only in an amount that is in 25 MW increments, the minimum time period of such reduction shall be no less than six months, and the capacity reduction may be made in two separate capacity reductions with each capacity reduction to become effective coincident with the commercial operation of Levy Units 1 and 2, respectively. If Customer elects to reduce the Contract Capacity Amount for a period of time that is shorter than the remainder of Period 3, then, after the conclusion of the reduction period, the Contract Capacity Amount shall return to Customer's previously elected amount, under Section 2.4, for the remainder of Period 3. The elected reduction shall be in an amount up to the lesser of 300 MW or Customer's MW ownership shares in Levy Units 1 and 2. As a result of Customer's elections under

Sections 2.4 and/or 2.5, the Contract Capacity Amount in Period 3 shall be no less than 200 MW and no more than 500 MW.

2.6 Mutually Agreeable Increase in Contract Capacity Amount Outside the Required Notice Periods.

(a) Outside the required notice periods set forth in this Section 2, Company and Customer may mutually agree to: (i) reduce the amount of Customer's previously-elected reduction of the Contract Capacity Amount in Period 1 so that Customer purchases more capacity in Period 1; (ii) reduce the amount of Customer's previously-elected reduction of the Contract Capacity Amount in Period 2 so that Customer purchases more capacity in Period 2; and/or (iii) increase the Contract Capacity Amount in Period 3, provided that the Contract Capacity Amount shall be no more than a total of 500 MW in Period 3.

2.7 Notice of Change to the Projected Commercial Operation Date. If Company changes the projected commercial operation date of Levy Unit 1 and/or Levy Unit 2 for any reason, Company shall in good faith communicate same immediately by written communication from the Company's Executive Vice President of Corporate Development to Customer's Executive Vice President and General Manager. Such change notice shall be communicated timely, including but not limited to such times as Company (or an affiliate) (a) notifies any of the co-owners in one or both of Levy Units 1 and 2 of a change in the applicable commercial operation date; (b) makes a public announcement regarding a commercial operation date change of Levy Unit 1 or 2, or (c) modifies the commercial operation date of Levy Unit 1 or 2 in the Company's ten-year site plan submitted to the Florida Public Service Commission.

SECTION 3 - COMMENCEMENT DATE AND CONDITIONS PRECEDENT

3.1 This Agreement shall become effective as of the Effective Date; provided, however, that the obligations of the Parties to purchase and sell the System Combined Cycle Capacity and Corresponding Energy, as described in Section 2, shall commence on June 1, 2016 (the "Commencement Date"), provided that the conditions precedent set forth in Section 3.2 are satisfied pursuant to the terms thereof.

3.2 The following shall be conditions precedent under this Agreement, and at such time that a condition precedent is satisfied, the affected Party shall notify the other Party in writing within five (5) Business Days that such condition has been satisfied:

(a) This Agreement is approved or accepted for filing by the FERC by June 1, 2010, without modification, suspension, investigation, or other condition

unless such modification, suspension, investigation or other condition is agreed upon by the Parties pursuant to Section 3.5; and

(b) This Agreement is approved or accepted by the RUS by July 1, 2010, without modification or condition unless such modification or condition is agreed upon by the Parties pursuant to Section 3.5; and

(c) This Agreement is accepted by the Transmission Provider by June 1, 2010, on terms acceptable to Customer, in its sole discretion, for the Term (including Period 3) as a designated network resource of the Customer. The Parties acknowledge and agree that Company's marketing group does not have any involvement as to the Company's transmission group's determination of whether this Agreement qualifies as a designated network resource.

3.3 Company will file this Agreement, together with supporting documents, with FERC pursuant to the requirements of the Federal Power Act no later than February 15, 2010. Thereafter, Company shall diligently pursue acceptance of this Agreement by FERC. Company shall keep Customer informed of its efforts in such regard. If requested by Company, Customer shall undertake commercially reasonable efforts to cooperate with and assist Company in Company's efforts to pursue acceptance of this Agreement by FERC and request FERC action on this filing and, upon Company's request, shall make a timely submittal at FERC affirmatively supporting the acceptance of this Agreement by FERC without modification, suspension, investigation, or other condition.

3.4 Customer shall take appropriate steps to submit this Agreement, together with supporting documents, to the RUS no later than February 15, 2010. Thereafter, Customer shall diligently pursue approval of this Agreement by the RUS and shall keep Company informed of the progress in such regard. If requested by Customer, Company shall undertake commercially reasonable efforts to cooperate with and assist Customer in Customer's efforts to obtain RUS approval of this Agreement and, upon Customer's request, shall make a timely submittal at RUS affirmatively supporting the approval of this Agreement without modification or condition.

3.5 If either the RUS or FERC conditionally accepts the Agreement subject to modification or other condition prior to the dates in Section 3.2 above, or if the Transmission Provider conditionally accepts the Agreement as a designated network resource prior to June 1, 2010 (for example, it indicates that upgrade costs would be required to accommodate the network designation), then the Parties agree to enter into good faith negotiations in order to determine whether they can reach a mutually satisfactory resolution regarding any such unsatisfied condition(s) precedent. If, after one hundred twenty (120) days of attempting to resolve any remaining unsatisfied condition(s) precedent, a mutually satisfactory resolution has not been reached by the Parties, then this Agreement shall terminate immediately upon either Party providing written notice of termination

to the other Party within ninety (90) days of the end of the aforesaid one hundred twenty (120) day period, and neither Company nor Customer shall have any obligation, duty or liability to the other arising under this Agreement under any claim or theory whatsoever.

3.6 If either the RUS or FERC rejects the Agreement or fails to act by the dates provided in Section 3.2 above, or if the Transmission Provider rejects the Agreement as a designated network resource or fails to act by June 1, 2010, then this Agreement shall terminate immediately upon the affected Party providing written notice of termination to the other Party within ninety (90) days of the aforesaid applicable date, and neither Company nor Customer shall have any obligation, duty or liability to the other arising under this Agreement under any claim or theory whatsoever.

SECTION 4 - SYSTEM COMBINED CYCLE CAPACITY

4.1 Term. For the period June 1, 2016, through December 31, 2024 (the "Term"), Company will sell to Customer the amount of System Combined Cycle Capacity set forth in Section 2 and Corresponding Energy as provided herein.

4.2 Dispatch. System Combined Cycle Capacity and Corresponding Energy will be given a dispatch and commitment priority equivalent to that of Company's Firm Native Load, and the service will be as firm as service to the Company's Firm Native Load. Customer may use said System Combined Cycle Capacity and Corresponding Energy for any purpose, subject only to Customer's scheduling requirements, as defined in Section 6, below.

4.3 Rates and Charges. The charges for System Combined Cycle Capacity and Corresponding Energy shall consist of the following:

(a) Monthly Capacity Charge – For each month during the Term, the Customer shall pay to the Company a Monthly Capacity Charge equal to the product of the applicable Contract Capacity Amount and $10.75 per kW-month, which price shall escalate at two percent (2%) per year rounded to two decimal places, beginning in June 2017.

(b) Monthly Non-Fuel Energy Charge - The Customer shall pay to the Company a Monthly Non-Fuel Energy Charge equal to the product of the Corresponding Energy delivered to Customer at the Delivery Point during the Billing Month and $3.15 per MWh, which price shall escalate at two percent (2%) per year rounded to two decimal places, beginning in June 2017.

(c) Monthly Fuel Charge - The Monthly Fuel Charge will be determined as follows. Customer shall be invoiced for the sum for the Billing Month of the Daily Fuel Price times the Corresponding Energy that is fueled by Company and that is delivered to Customer at the Delivery Point during the relevant delivery day. As set forth below, the Daily Fuel Price shall be

adjusted up to include losses using the Output to Line loss factor as set forth in Exhibit C-1 of PEF's Annual Filing of Cost Factor Updates, as filed with FERC ("OTL Loss Factor"). The Daily Fuel Price will be determined as follows:

(i) The Daily Fuel Price, to the extent that the energy from the System Combined Cycle Capacity is fueled by gas supplied by Company, will be the result of multiplying the a heat rate of 7.4 MMBtu/MWh times the Gas Index, the product of which shall be adjusted up to include losses using the OTL Loss Factor. The "Gas Index" shall be the daily midpoint price of natural gas (expressed in $/MMBtu) for the relevant day of delivery of energy for Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, plus the Florida Gas Transmission ("FGT") fuel loss factor, the FGT average usage charge from the applicable FGT tariff, and a $0.8941/MMBtu demand charge. In the event that no such price is published for the relevant day of delivery of energy, then the following shall be used: (a) the arithmetic average of the daily midpoint price (expressed in $/MMBtu) of the last published price prior to and the next published price after the relevant day of delivery of energy. If McGraw Hill (or its successor) ceases to provide the daily midpoint price for the above-referenced pricing point, Company and Customer will as promptly as possible mutually agree upon a comparable successor pricing point, failing which either Party may take this issue to Dispute Resolution under Section 18.3.

(d) Monthly Emissions Charge – The Monthly Emissions Charge will be the sum for the Billing Month of the Emissions Price times the Corresponding Energy delivered to Customer at the Delivery Point during the relevant delivery day. The Emissions Price will be determined as follows:

(i) "Emissions Price" is defined as the price (in $/MWh) for emissions costs, emissions allowance costs and taxes allocated to the Hines Energy Center (except as provided otherwise below), such as SO_2 and NO_x allowances and carbon taxes (and any other emissions allowance costs/taxes allowed by FERC). In a billing month in which the Corresponding Energy received by Customer under this Agreement is less than or equal to the Company's total energy generated by the Company at the Hines Energy Center during such month, the Customer will pay the Emissions Price applicable to the Hines Energy Center. In a billing month in which the Corresponding Energy received by Customer under this Agreement is more than the Company's total energy generated at the Hines Energy Center during such month, the Customer will pay

the Emissions Price applicable to the Hines Energy Center for the Corresponding Energy equivalent to the total MWh generated at the Hines Energy Center, with the remaining MWh of Corresponding Energy up to the full Schedule for Energy (the "Deficient Amount") to be billed at the Emissions Price applicable to Bartow Energy Center. To the extent that the Deficient Amount cannot be deemed to be supplied from the Bartow Energy Center because of its unavailability, the references in this Section 4.3(d)(i) to the Bartow Energy Center shall be replaced with the Company's selection of Company's other combined cycle facilities. In such event, the Emissions Price charged to Customer for all Corresponding Energy shall be capped at a maximum charge based on the Emissions Price for the Bartow Energy Center (or based on the latest available historical data for the Emissions Price for the Bartow Energy Center). The total emissions costs shall be reduced by a pro rata allocation of any emissions credits or allowances allocated to Company. The Emissions Price shall be adjusted up to include losses using the OTL Loss Factor. Costs associated with the Emissions Price will not include any costs (variable, fixed or otherwise) that are already included in the Monthly Capacity Charge, Monthly Non-fuel Energy Charge or Monthly Fuel Charge. For the avoidance of doubt, in no case will the Emissions Price recover any of Company's capital costs associated with emissions costs.

SECTION 5 – CUSTOMER GAS OPTION

5.1 Description of Gas Option. Subject to the provisions of Section 5.5 below, Customer shall have the option to deliver to Company up to 30,000 Dth/day of natural gas that is required to generate energy up to the amount of Corresponding Energy plus losses using the applicable OTL Loss Factor ("Gas Option"). Customer will have the ability to utilize the Gas Option for a maximum of forty-eight (48) days during a calendar year. For any partial years during the Term, the Customer's Gas Option Days shall be prorated according to the number of months in the year (e.g., in 2016, Customer shall have twenty-eight (28) days). Customer may only use the Gas Option on a day ahead basis (e.g., no intraday or month-ahead notifications will be accepted by Company), and Customer will notify Company of its election to use its Gas Option and the gas quantity to be supplied to Company at the Scheduling Deadline along with its Schedule for Energy, as described in Section 6 below. Additionally, use of the Gas Option by Customer shall be subject to physical pipeline constraints (e.g., Customer may not elect to use the Gas Option if FGT declares a Force Majeure (as defined in the FGT tariff) affecting deliveries to the Hines Energy Center or FGT cannot otherwise accommodate additional gas at the Hines Energy Center gas delivery point).

5.2 Effect of Gas Option on Daily Fuel Price. For any such hours in which Customer uses its Gas Option and delivers natural gas to the Hines Energy Center (FGT meter #220764) equal to the amount of Corresponding Energy plus losses using the OTL Loss Factor, the Daily Fuel Price in such hours will be zero, but there shall be no adjustment to the charges set forth in Sections 4.3(a), (b) and (d). For any such hours in which Customer uses its Gas Option and delivers natural gas to the Hines Energy Center in an amount that is less than the Corresponding Energy plus losses using the OTL Loss Factor, Company will supply the natural gas for such deficient amount of Corresponding Energy and Customer will pay for such deficient amount at the Daily Fuel Price multiplied by the deficient amount. The amount of Corresponding Energy that corresponds with Customer's natural gas delivery shall be calculated by dividing the total gas delivered by Customer in a relevant gas day (which is from 10:00 a.m. EPT on day 1 until 10:00 a.m. EPT on day 2)("Gas Day"), expressed in dekatherms, by the applicable heat rate (which is 7.4 MMBtu/MWh).

5.3 Communication of Gas Option. Company and Customer will coordinate their daily activities regarding Customer's use of its Gas Option according to the following provisions:

(a) On or before FGT's timely cycle scheduling deadline for day ahead, Customer will provide Company notification of which natural gas transportation contracts (and their respective quantities) have been used to schedule gas on FGT to be delivered to the Hines Energy Center, which such scheduled quantities for delivery shall not exceed the quantity specified in Section 5.1 above.

(b) Gas Option Interruption. Customer will provide timely notification to Company of any expected cuts to its scheduled deliveries under the Gas Option, and any such day in which such cuts are actualized (a "Gas Option Interruption") will count against the forty eight (48) days of Gas Option flexibility provided to Customer in Section 5.1 above. If Customer is not able to restore its expected deliveries by 10:00 a.m. EPT (i.e., the beginning of the next Gas Day), then Company will quote a price for intraday fuel delivery and Customer will have the option to (i) pay any Incremental Costs reasonably determined by Company to be attributable to meeting Customer's Schedule for Energy or (ii) reduce its Schedule for Energy. If Customer has not reduced its Schedule for Energy in response to any gas cuts, any FGT overage penalties charged to Company as a result of Customer not supplying natural gas under the Gas Option shall be treated as an Incremental Cost and shall be reimbursed by Customer. For the avoidance of doubt, Company's obligation to deliver energy to Customer under this Agreement is not affected if Customer fails to deliver natural gas to Company under the Gas Option.

5.4 Company Balancing Responsibilities. Company will provide a gas balancing function when Customer exercises the Gas Option based on the following provisions:

(a) If Customer changes its Schedule for Energy on a Gas Option Day and Customer's quantity of gas delivered to the Hines Energy Center exceeds the MWh of Corresponding Energy (plus losses), then the excess dekatherms associated with the Schedule Change will be carried by Company as an imbalance during the remainder of the applicable month only for the first five (5) such occurrences in a calendar year. Such volumes of gas will reduce the Daily Fuel Price (in accordance with Section 5.2) on the next available Schedule for Energy assuming there is not a pipeline alert or operational flow order in effect, and shall not be counted as Gas Option Days. If the Customer has not issued sufficient Schedules for Energy to utilize the gas imbalance available for Customer by the end of a given month, then the remaining gas imbalance will be considered an imbalance on the FGT system (or appropriate pipeline system given the Hines Energy Center availability). Company shall then notify Customer of any imbalance for which Customer is responsible and Company will attempt to cause FGT (or appropriate pipeline system given the Hines Energy Center availability) to transfer such imbalance to Customer for elimination in accordance with the applicable provisions of FGT's (or other pipeline's) tariff. In the event FGT (or other applicable pipeline) fails to accommodate the transfer to Customer, Company will cooperate with Customer to facilitate bookout transactions which Customer may negotiate with other shippers on FGT's (or applicable pipeline based on Hines availability) system. In the event the transfer is not accommodated and Customer is unable to bookout the imbalance with third parties, the imbalance will be cashed out between Customer and Company in accordance with the applicable provisions of FGT's tariff for the respective time period. Gas imbalances will not be carried over between months.

(b) If Customer changes its Schedule for Energy on a Gas Option Day on which Customer's quantity of gas delivered to the Hines Energy Center exceeds the Corresponding Energy (plus losses) six (6) or more times in a calendar year, then the excess dekatherms associated with the sixth and succeeding Schedule Changes during the calendar year will be retained by Company, with no reciprocal benefit therefrom to Customer.

5.5 Unavailability of Hines Energy Center. To the extent that there is a Deficient Amount and, consistent with Company's rights in Section 4.3(d)(i), Company provides some or all of the Deficient Amount from the Bartow Energy Center and/or Company's other combined cycle facilities to the extent that the Bartow Energy Center is not available, the references in Section 5 to the Hines Energy Center shall be replaced with the references to the Bartow Energy Center and/or

Company's other combined cycle facilities to the extent the Bartow Energy Center and/or Company's other combined cycle facilities are providing such Deficient Amount. The Customer shall not incur any incremental cost to deliver such natural gas volumes (versus delivery to the Hines Energy Center) to the Company's selected alternate facility. Company's election to provide the Deficient Amount from another of Company's combined cycle facilities shall be consistent with Prudent Electric Utility Practice and shall not in any way affect the performance standard set forth in Section 10.1.

5.6 Operating Procedures. Company and Customer shall develop mutually agreeable operating procedures to implement the requirements of this Section 5 ("Gas Option Operating Procedures"), with the Parties to have an initial meeting related to the establishment of such no later than December 1, 2015, and with such procedures to be finalized no later than March 1, 2016. At a minimum, the Gas Option Operating Procedures will establish the manner in which the Parties will (a) net gas imbalances under the Agreement, (b) communicate Customer deliveries to the Company for the Gas Option, (c) establish relevant gas meter delivery points, and (d) comply with the relevant FERC rules and regulations. The Parties may thereafter mutually agree in writing to further modifications or changes to those procedures.

SECTION 6 - SCHEDULING

6.1 Day Ahead Scheduling Parameters.

(a) On or before 0830 a.m. EPT of the prior Business Day ("Scheduling Deadline"), Customer shall provide Company its schedule for Corresponding Energy for each hour of the applicable Delivery Day, including any intervening non-Business Days ("Schedule for Energy"). For example, on a Friday before a weekend which is followed by a non-Business Day Monday, Customer would provide a schedule for Saturday, Sunday, Monday and Tuesday. All such notifications as described herein shall be provided as follows: if sent to Company, via electronic mail sent to Energy.Trader@pgnmail.com and to Scott.Knewasser@pgnmail.com, in a plain text file format with a defined subject line to be determined by Company and communicated to Customer. Company shall promptly confirm receipt of any such request from Customer via electronic mail to emcc@seminole-electric.com, or by calling 813-739-1263. The Parties may mutually agree in writing to an alternate notification methodology.

(b) Energy may be scheduled at any (30) minute interval at either the top or bottom of the clock hour. For any hour for which Customer issues a Schedule for Energy, the minimum and maximum amounts shall be 50 MW and the then effective Contract Capacity Amount, respectively. The minimum duration for a Schedule for Energy is eight (8) consecutive hours during the months of May through September and six (6) consecutive hours during all other months. All Schedules for Energy shall

be scheduled in 25 MW increments (e.g. 0, 25, 50, 75, 125, as applicable). The minimum duration and scheduling increment requirements shall apply to both day ahead and intraday periods, including any Schedules for Energy that may cross calendar days. For capacity MW amounts from 100 MW through 300 MW, the Schedules for Energy for any thirty (30) minute interval shall not vary more than 75 MW from the previous thirty (30) minute interval unless it is the first hour of a Schedule for Energy that is ramping up from an amount of 0 MW in the previous thirty (30) minute interval, in which situation Customer may schedule 100 MW. For Contract Capacity Amounts from 301 MW through 500 MW, the Schedules for Energy for any thirty (30) minute interval shall not vary more than 125 MW from the previous thirty (30) minute interval unless it is the first hour of a Schedule for Energy that is ramping up from an amount of 0 MW in the previous thirty (30) minute interval, in which situation Customer may schedule 150 MW. The table below shows the scheduling parameters, set forth in this Section 6.1(b) and in Section 6.2(b) below, both of which vary according to the Contract Capacity Amount:

Contract Capacity Amount (MW)	30 Minute Ramp Rate (in MW)	Ramp Rate (only in an hour from 0 MW)	# of Intraday Changes	Max MW increase to Schedule for Energy at Scheduling Deadline
100 – 300	75	100	3	250
301 - 500	125	150	4	400

(c) As of the Scheduling Deadline, the most current schedule sent by the Customer to the Company will become the Schedule for Energy and shall remain as such unless and until modified by Customer pursuant to Section 6.2. In the event Company does not receive a schedule (subject to verification by Company to Customer that the Customer's schedule was not delivered due to technological or other issues beyond the Customer's control) by the Scheduling Deadline, the Schedule for Energy shall be deemed to be zero (0) MW for all hours of the relevant delivery day(s). For the avoidance of doubt, Customer may make Schedule Changes to a Schedule for Energy of zero (0) MW as described in Section 6.2 below.

(d) Customer shall not be subject to any limitations in establishing a Schedule for Energy sent to Company prior to the Scheduling Deadline other than those identified in this Section 6.1.

6.2 Intraday Scheduling Parameters.

(a) Customer may make intraday changes in accordance with this provision, including on any day in which the Schedule for Energy is zero (0) (a

"Schedule Change"). After the Scheduling Deadline, Customer may provide a Schedule Change for any hour(s) of the applicable Delivery Day by providing notice of such change to Company at least two (2) hours prior to the beginning of such hour(s).

(b) The number and substance of intraday Schedule Changes (whether an increase or decrease) that may be made by the Customer to the Schedule for Energy shall be in accordance with this Section 6.2(b), Section 6.1(b), including the table in Section 6.1(b) above, and the applicable Contract Capacity Amount. As set forth in Section 6.1(b) above, the minimum duration and scheduling increment requirements shall apply to intraday periods. For capacity MW amounts from 100 MW through 300 MW, the number of intraday changes (whether an increase or decrease) that may be made by the Customer to the Schedule for Energy shall be limited to three (3) each calendar day. For capacity MW amounts from 301 MW through 500 MW, the number of intraday changes (whether an increase or decrease) that may be made by the Customer to the Schedule for Energy shall be limited to four (4) each calendar day. For Contract Capacity Amounts from 100 MW through 300 MW, intraday Schedule Changes shall not vary from one thirty (30) minute interval to the next by more than 75 MW, unless it is the first hour of a schedule ramping from 0 MW in the previous thirty (30) minute interval, in which situation Customer may schedule 100 MW, and are capped at an increase of no more than 250 MW from the Schedule for Energy at the Scheduling Deadline. For Contract Capacity Amounts from 301 MW through 500 MW, intraday Schedule Changes shall not vary from one thirty (30) minute interval to the next by more than 125 MW, unless it is the first hour of a schedule ramping from 0 MW in the previous thirty (30) minute interval, in which situation Customer may schedule 150 MW, and are capped at an increase of no more than 400 MW from the Schedule for Energy at the Scheduling Deadline. For the avoidance of doubt, for Contract Capacity Amounts from 100 MW through 300 MW, the Customer may not schedule more than 250 MW of System Combined Cycle Capacity via intraday Schedule Changes if a Schedule for Energy of zero was provided prior to the Scheduling Deadline. For the avoidance of doubt, for capacity MW amounts from 301 MW through 500 MW, the Customer may not schedule more than 400 MW of System Combined Cycle Capacity via intraday Schedule Changes if a Schedule for Energy of zero was provided prior to the Scheduling Deadline.

A Schedule Change that is made to a single hour or multiple, consecutive hours (at the same MW level) of a Schedule for Energy when communicated to Company in a single communication and in accordance with Section 6.2(a) above is considered one (1) Schedule Change. Such a Schedule Change with multiple, consecutive hours (at the same MW level) crossing from one calendar day to the next calendar day shall be considered one (1) Schedule Change during the earlier calendar day. No

Schedule Change can cause the Schedule for Energy, as modified, to be in conflict with the minimum scheduling and scheduling increment requirements defined under Section 6.1(b).

(c) To the extent any Schedule Change is made after the Scheduling Deadline, the price for the Corresponding Energy delivered to Customer shall be in accordance with the calculation of the Monthly Fuel Charge under Section 4.3(c)(i) plus Company's incremental costs reasonably incurred (and subsequently agreed to by Customer) in accommodating the Schedule Change ("Incremental Costs"). Incremental Costs may include any demonstrable costs to Company solely attributable to the Schedule Change, including, but not limited to, additional gas transportation charges, imbalance charges, cash-out charges and penalties. Incremental Costs may be expressed by the Company to the Customer in either a $/MWh or $/Dth format. Company shall make commercially reasonable efforts to minimize Incremental Costs to Customer in response to a Schedule Change, including, but not limited, to the economic dispatch of Company's purchased power and generation resources in accordance with Prudent Electric Utility Practice, and mitigating the nominated gas situation through pipeline imbalance adjustments in subsequent days, pursuant to Company's pipeline operational balancing agreements. To the extent that capacity and Corresponding Energy from the Hines Energy Center is not being used by Company to respond to the Schedule Change made after the Scheduling Deadline and Company provides the capacity and Corresponding Energy under this Agreement from another system combined cycle capacity facility and/or peaking generating facility, then Incremental Costs will be the costs associated with such other combined cycle facility and/or peaking generating facility.

(d) In the event that Customer has a Schedule for Energy of zero for the delivery day and Customer experiences a forced outage or deration of Customer's generating resource or firm purchase power resource, Customer may submit to Company during the first calendar day of the forced outage or deration a Schedule for Energy that is consistent with the scheduling parameters, requirements and rights in Sections 6.1(b), 6.2(a), 6.2(b), 6.2(c), and 6.3. During the first calendar day of the forced outage or deration, Company shall permit Customer to ramp-out of such Schedule for Energy (i.e., reduce the Schedule for Energy to zero (0) MW for the remainder of the relevant delivery day) irrespective of the limits on the number of intraday changes described in Section 6.2(b) above; provided, however, that Customer shall make subsequent intraday change(s) within the thirty (30) minute ramp rates for the applicable Contract Capacity Amount. With the exception of the ramp-out of a Schedule for Energy described in this Section 6.2(d), Customer shall be subject to the intraday change requirements in Section 6.2(b).

6.3 Communication of Incremental Costs. In the event that Customer requests a Schedule Change after the Scheduling Deadline, Company will inform Customer of the Incremental Costs, if any (including the basis therefor), which would be payable by Customer in connection with such Schedule Change, and Customer shall immediately exercise one of the following options: (i) not change the existing Schedule for Energy or (ii) proceed with the requested Schedule Change and pay the stated Incremental Costs. The Parties will record such information via written communication or recorded phone line. The Parties have provided examples of how Schedule Changes may result in Incremental Costs as described above and shown in Exhibit 1 to this Agreement. These examples are for illustrative purposes only and are intended to be used to demonstrate the Parties' intent regarding the meaning of Incremental Costs.

6.4 Notification and Tracking. The Company's Hourly Power Trading Desk shall accept all Schedule Changes made in accordance with the provisions of this Agreement, and shall be responsible for all tracking, record keeping, and timely notification to Customer of any issues related to such changes. Customer shall be responsible for all tagging and other scheduling activity necessary for the delivery of capacity and any Corresponding Energy under this Agreement.

6.5 Company Discretion. The Company will accommodate Schedule Changes that do not satisfy the aforementioned conditions if Company, at its sole discretion, determines that it can reasonably accommodate such requested Schedule Changes. All scheduled deliveries of capacity and Corresponding Energy under this Agreement will adhere to Prudent Electric Utility Practices.

SECTION 7 - TRANSMISSION

7.1 Transmission, Ancillary Services. The Customer is responsible for, and shall arrange and pay for, any and all transmission and ancillary services for the delivery of capacity and Corresponding Energy under this Agreement beyond the Delivery Point. There shall be no reduction in the Customer's payment obligation under Section 4.3(a) as a result of curtailments, interruptions, or reductions of transmission service or ancillary services.

SECTION 8 - [RESERVED]

SECTION 9 - BILLING AND PAYMENT

9.1 Payments. Bills under this Agreement shall be rendered on a calendar-month basis. Bills shall be due when rendered and payable within twenty (20) days from the billing date ("Due Date"). All payments shall be made by wire in accordance with terms and wire instructions as set forth in the invoice. If the Due Date falls on a non-Business Day, payment shall not be due until the first succeeding Business Day. If payment is not received within said twenty (20) day period, a late payment charge shall accrue at the Interest Rate.

9.2 Charges. The Company shall deliver to the Customer, within ten (10) days after the first day of each calendar month, a bill identifying and itemizing (i) the respective Monthly Capacity Charge for the System Combined Cycle Capacity for the Billing Month; (ii) the Monthly Non-Fuel Energy Charge for the Corresponding Energy for the Billing Month; (iii) the Monthly Fuel Charge for the Corresponding Energy for the Billing Month; (iv) the Monthly Emissions Charge for the Corresponding Energy for the Billing Month; and (v) Incremental Costs, if applicable. There are no start charges or other charges for System Combined Cycle Capacity or Corresponding Energy provided hereunder aside from those provided for in Section 4.3.

9.3 Disputed Bill. In the event that either Party challenges any portion of a bill rendered under this Agreement, said Party shall, notwithstanding the existence of the Dispute, pay both the disputed and undisputed portions of the bill on or before the Due Date. Upon resolution of any disputed amount, consistent with the terms of this Agreement, Company shall include a true-up amount in a subsequent monthly invoice (either a credit or any additional charge, as appropriate), with interest at the Interest Rate on any credit or additional charge , or if the Dispute is resolved after the termination of this Agreement, any amount owed plus interest at the Interest Rate shall be paid immediately.

9.4 Audit Rights. Each Party shall have the right, at its own expense, to audit and to examine any supporting documentation related to any bill submitted or payment requested under this Agreement for capacity and Corresponding Energy provided by Company to Customer. Any audit hereunder shall be undertaken by the requesting Party, or its representatives, during the hours from 9:00 a.m. to 5:00 p.m. EPT on any Business Day and in conformance with generally accepted auditing standards. The right to initiate an audit shall extend for a period of two (2) years following the end of the calendar year in which the applicable service is rendered. Each Party shall fully cooperate with any audit by the other Party and retain all necessary records or documentation for the entire length of the audit period (and thereafter if an audit is in progress, until such audit is completed). If any audit discloses that an overpayment or underpayment has been made, the amount of such overpayment or underpayment shall promptly be paid by the owing Party, with interest at the Interest Rate from the date on which the payment should have been made to the date on which the payment or repayment is actually made. This provision and the rights of the Parties to audit and resolve audit-related Disputes as set forth in Section 18.3 shall survive the termination of this Agreement.

9.5 Books and Records. Each Party shall keep complete and accurate records and memoranda of its actions taken hereunder and shall maintain such records, memoranda, and data as may be necessary to determine or justify with reasonable accuracy any item relevant to this Agreement.

9.6 Creditworthiness. Both Parties shall at all times maintain Acceptable Creditworthiness. If a Party no longer maintains Acceptable Creditworthiness, it

shall promptly notify the other Party of that fact and it may be required to provide Performance Assurance to the other Party in accordance with Section 9.9.

9.7 Acceptable Creditworthiness. To maintain creditworthiness that is acceptable to the other Party ("Acceptable Creditworthiness"), a Party must not be in default of its obligations as set out in this Agreement and it must meet one of the following criteria:

(a) The Party has a credit rating of at least Baa3 (Moody's) or BBB- (Standard and Poors); or

(b) The Party provides its most recent financial statements to the other Party and is able to demonstrate that the Party meets standards that are at least equivalent to the standards underlying credit ratings of Baa3 (Moody's) or BBB- (Standard and Poors); provided that if the Party is found not to be creditworthy by the other Party based upon an evaluation made in a commercially reasonable manner, the other Party will inform the Party in writing of the reasons for that determination; or

(c) The Customer, which is a borrower from the RUS, has a Times Interest Earned Ratio of 1.05 or better and a Debt Service Coverage Ratio of 1.00 or better in the most recent calendar year, or is maintaining the Times Interest Earned Ratio and Debt Service Coverage Ratio as established in the Customer's RUS mortgage.

9.8 Performance Assurance. "Performance Assurance" shall mean one of the following: (a) as to either Party, an unconditional and irrevocable Letter of Credit or a cash deposit equal to the amount that the Parties estimate that the Customer would owe to the Company for the three months of the calendar year in which the Customer's bills are expected to be the highest; (b) as to either Party, a Guaranty from a qualified Guarantor; or (c) as to the Customer, advance payment for each month's service under this Agreement based on the Company's estimate of the amount that the Customer will owe for that month, paid not less than five (5) days prior to the beginning of the month, and trued up at the time of the second succeeding month's advance payment to reflect the actual amount the Customer owes. The Company shall pay interest at the Interest Rate on any prepayments made pursuant to this Section 9.8.

9.9 Failure To Maintain Acceptable Creditworthiness. If either Party that originally demonstrates Acceptable Creditworthiness subsequently fails to maintain Acceptable Creditworthiness, such Party shall notify the other Party within five (5) Business Days of the date on which it no longer meets the Acceptable Creditworthiness standards described herein. Upon receipt of such notice or upon independently learning that the a Party has failed to maintain Acceptable Creditworthiness, the other Party may give written notice ("Assurance Notice") demanding that the affected Party provide Performance Assurance to the other

Party within thirty (30) Business Days of the date of receipt of the Assurance Notice.

9.10 Failure To Provide Performance Assurance. If the affected Party under Section 9.9 fails to provide Performance Assurance as described herein, the non-affected Party may suspend performance hereunder to the affected Party, provided that the non-affected Party notifies the affected Party in writing of its intent to suspend performance at least five (5) Business Days prior to the date on which performance is to be suspended. The non-affected Party's right to suspend performance hereunder shall be in addition to its right to take action for default pursuant to Section 12 hereof.

SECTION 10 - PERFORMANCE STANDARD

10.1 Performance Standard. The Company shall exercise due care and diligence to supply System Combined Cycle Capacity and Corresponding Energy hereunder free from interruption. The availability of Corresponding Energy is not tied to the availability of the Hines Energy Center or any other PEF generation facilities. The Parties acknowledge and agree that the purpose of this Agreement is for Company to provide service to Customer that is comparable to Company's service to its other Firm Native Load customers. Accordingly, Company represents and warrants to Customer that Company will perform under this Agreement in such a manner that will not be adverse to Customer as compared to Company's other Firm Native Load customers.

SECTION 11 - REPRESENTATIONS AND WARRANTIES

11.1 Representations and Warranties.

(a) As a material inducement to enter into this Agreement, each Party represents and warrants to the other Party that as of the Effective Date, subject to the conditions precedent provided for in Section 3.2:

(i) it is duly organized, validly existing and in good standing under the laws of the jurisdiction of its formation and has all requisite power and authority to enter into this Agreement and consummate the transactions contemplated herein;

(ii) it has all regulatory authorizations necessary for it to legally perform its obligations hereunder or will obtain such authorizations in a timely manner prior to the time that performance by such Party which requires such authorization becomes due;

(iii) the execution, delivery, and performance of this Agreement will not conflict with or violate any rule, statute or regulation of any court, agency, or regulatory body, or any contract, agreement or arrangement to which it is a party or by which it is otherwise bound;

(iv) subject to subsection (ii) above, this Agreement constitutes a legal, valid, and binding obligation of such Party enforceable against it in accordance with its terms, and each Party has all rights such that it can and will perform its obligations to the other Party in conformance with the terms and conditions of this Agreement, subject to bankruptcy, insolvency, reorganization and other laws affecting creditor's rights generally and general principles of equity;

(v) it has negotiated and entered into this Agreement in the ordinary course of its respective business, in good faith, for fair consideration on an arm's-length basis;

(vi) it is not Bankrupt and there are no proceedings pending or being contemplated by it, or to its knowledge, threatened against it which would result in it being or becoming Bankrupt; and

(vii) there are no pending, or to its knowledge, threatened legal proceedings against it that could materially adversely affect its ability to perform its obligations under this Agreement.

11.2 Limitations. EXCEPT AS PROVIDED HEREIN, THE PARTIES MAKE NO OTHER REPRESENTATIONS, WARRANTIES OR GUARANTEES, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, RELATING TO THEIR PERFORMANCE OR OBLIGATIONS UNDER THIS AGREEMENT, AND EACH PARTY DISCLAIMS ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

SECTION 12 – DEFAULT; REMEDIES

12.1 Default. Each of the following shall be an "Event of Default" under this Agreement:

(a) The failure of either Party to make any payment to the other Party that is due and payable pursuant to the terms of this Agreement, provided such failure is not cured within five (5) Business Days after receiving written notice of such failure from the Party to which such payment is due.

(b) An Event of Default has been deemed to have occurred pursuant to Section 17.4(b), 17.4(c), or 17.4(d).

(c) The failure by either Party to perform any obligation to the other Party under this Agreement, other than the obligations described in Sections 12.1(a), (b), (d), (e), and (f) herein; provided that the appropriate notice has been provided and the applicable cure period has expired, each as described in Section 12.2.

(d) A Party becomes Bankrupt.

(e) Any representation or warranty made by the Defaulting Party in the Agreement shall prove to have been false in any material respect when made.

(f) The failure of a Party to provide Performance Assurance as required by Section 9.9.

12.2 Cure Period for Failure To Perform an Obligation Pursuant to Section 12.1(c). If an event described in Section 12.1(c) above occurs, the Party to whom such obligation is owed shall give the Party that owes such obligation written notice of such failure to satisfy the relevant obligation. Such written notice shall specify the precise obligation owed (with reference to relevant Section(s) of this Agreement), and shall specify that the recipient of such notice has thirty (30) days to cure such failure. If such failure shall not have been fully cured within thirty (30) days from the date of receipt of the notice (or if the failure is not capable of being cured within thirty (30) days, then within the period of time that the Party that owes such obligation can reasonably cure such failure with the exercise of due diligence), an Event of Default shall be deemed to have occurred. This Section 12.2 does not apply to the Events of Default set forth in Section 12.1(a), (b), (d), (e), and (f).

12.3 Rights and Remedies.

(a) If an Event of Default has occurred and is continuing with respect to a Party (the "Defaulting Party"), the other Party (the "Non-Defaulting Party") may, for so long as the Event of Default is continuing, subject to the provisions of Section 18.3, take one or more of the following actions: (i) establish a date (which date shall be no earlier than the day such notice is effective and no more than ten (10) Business Days after the Non-Defaulting Party delivers written notice of such date to the Defaulting Party, or in the event the Non-Defaulting Party receives an order denying an action for specific performance it elects to pursue (if any), no more than ten (10) Business Days after such order), on which this Agreement shall terminate (the "Early Termination Date"), and (ii) proceed by appropriate proceedings in accordance with this Agreement at law, in equity or otherwise, to protect and enforce its right to damages (actual or liquidated) or, where the Event of Default is one other than the failure to pay money, pursue equitable relief, including specific performance.

(b) If an Early Termination Date has been established, and the Non-Defaulting Party has not successfully pursued an action for specific performance, the Non-Defaulting Party shall in good faith and in a commercially reasonable manner calculate its Gains, Losses and Costs resulting from the termination of this Agreement, aggregate such Gains, Losses and Costs into a single net amount (the "Termination Payment"),

and then notify the Defaulting Party thereof. The Gains, Losses and Costs shall be determined by comparing the cost under this Agreement of the capacity and energy that would be available under this Agreement for the remainder of the Term had this Agreement not been terminated to the prevailing market price of capacity and energy of equivalent reliability and scheduling flexibility for the remaining Term (had this Agreement not been terminated). To ascertain such market price, the Non-Defaulting Party may consider, among other evidence, offers for replacement capacity and energy or bids to purchase the remaining capacity and energy that was to be sold pursuant to this Agreement, in either case made by bona fide third-parties (including offers received by the Non-Defaulting Party in response to any request for proposals for capacity and energy contracts), all adjusted for the length of the remaining Term (had this Agreement not been terminated), and differences in locational basis (including without limitation costs of transmission investments and transmission service), reliability, scheduling flexibility and any other considerations affecting value. Neither Party shall be required to enter into replacement transactions in order to determine the Termination Payment. If the Non-Defaulting Party's aggregate Losses and Costs exceed its aggregate Gains, the Defaulting Party shall, unless it disagrees with such Termination Payment calculation, within fifteen (15) Business Days of receipt of such notice, pay the net amount to the Non-Defaulting Party, which amount shall bear interest at the Interest Rate from the Early Termination Date until paid. If the Non-Defaulting Party's aggregate Gains exceed its aggregate Losses and Costs, if any, resulting from the termination of this Agreement, the Non-Defaulting Party may retain such Gains. If the Defaulting Party disagrees with the calculation of the Termination Payment, the issue shall be resolved pursuant to the provisions of Section 18.3, and the resulting Termination Payment shall be due and payable within three (3) Business Days after the award.

(c) In the case of an Event of Default, the Parties recognize that any remedy at law may be inadequate because this Agreement is unique and/or because the actual damages of the Non-Defaulting Party may exceed the amount of any guaranty or other collateral available to the Non-Defaulting Party. The Parties agree that in such an event, the Non-Defaulting Party shall be entitled to pursue an action for specific performance and the Defaulting Party waives all of its rights to assert as a defense to such action that the Non-Defaulting Party's remedy at law is adequate. For the avoidance of doubt, the Non-Defaulting Party shall not be entitled to receive both specific performance and a Termination Payment from the Defaulting Party.

12.4 All of the remedies and other provisions of this Section 12 shall be without prejudice and in addition to any right of setoff, recoupment, combination of accounts, lien, or other right to which any Party is at any time otherwise entitled, whether by operation of law or in equity, under contract, or otherwise.

12.5 Notwithstanding any other provision of this Agreement, each Party has a duty to mitigate damages and covenants that it will use commercially reasonable efforts to minimize any damages it may incur as a result of the other Party's performance or non-performance.

12.6 Limitation of Remedies, Liability and Damages. THE PARTIES CONFIRM THAT THE EXPRESS REMEDIES AND MEASURES OF DAMAGES PROVIDED IN THIS AGREEMENT SATISFY THE ESSENTIAL PURPOSES HEREOF FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS PROVIDED, SUCH EXPRESS REMEDY OR MEASURE OF DAMAGES SHALL BE THE SOLE AND EXCLUSIVE REMEDY, THE OBLIGOR'S LIABILITY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION AND ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED. IF NO REMEDY OR MEASURE OF DAMAGES IS EXPRESSLY HEREIN PROVIDED, THE OBLIGOR'S LIABILITY SHALL BE LIMITED TO DIRECT ACTUAL DAMAGES ONLY, SUCH DIRECT ACTUAL DAMAGES SHALL BE THE SOLE AND EXCLUSIVE REMEDY AND ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED. EXCEPT AS PROVIDED IN SECTIONS 16.1 AND 16.2 HEREOF, AND EXCEPT FOR THE PAYMENT OF LIQUIDATED DAMAGES SPECIFIED HEREIN, NEITHER PARTY NOR ITS AFFILIATES SHALL BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, PUNITIVE, EXEMPLARY OR INDIRECT DAMAGES, LOST PROFITS OR OTHER BUSINESS INTERRUPTION DAMAGES, BY STATUTE, IN TORT OR CONTRACT, OR OTHERWISE; PROVIDED, HOWEVER, THAT THIS SENTENCE SHALL NOT APPLY TO LIMIT THE LIABILITY OF A PARTY WHOSE ACTIONS GIVING RISE TO SUCH LIABILITY CONSTITUTE GROSS NEGLIGENCE OR WILLFUL MISCONDUCT. TO THE EXTENT ANY DAMAGES REQUIRED TO BE PAID HEREUNDER ARE LIQUIDATED, THE PARTIES ACKNOWLEDGE THAT THE ACTUAL DAMAGES ARE DIFFICULT OR IMPOSSIBLE TO DETERMINE, OTHERWISE OBTAINING AN ADEQUATE REMEDY IS INCONVENIENT AND THE LIQUIDATED DAMAGES DO NOT CONSTITUTE A PENALTY AND ARE A REASONABLE APPROXIMATION OF THE HARM OR LOSS.

SECTION 13 - MATERIAL ADVERSE EVENT

13.1 Material Adverse Event.

(a) A "Material Adverse Event" occurs when an RTO or regional reliability organization (i) prevents, in whole or in part, either Party from performing a provision of this Agreement in accordance with its terms and the Party claiming a Material Adverse Event is materially adversely impacted thereby or (ii) imposes obligations on a Party that materially increases the costs that such Party incurs under this Agreement (including increased

power supply costs or increased transmission costs to obtain or transfer the power hereunder).

(b) Either Party may provide written notice to the other Party of the occurrence of a Material Adverse Event within ninety (90) days of the occurrence of the event. In the event either Party provides written notice of a Material Adverse Event, the Parties shall negotiate in good faith to amend this Agreement so as to restore to the Parties the benefits and burdens that the Parties originally intended pursuant to this Agreement. If, within six (6) months after written notice of the Material Adverse Event, the Parties are unable to reach agreement as to what, if any, amendments to this Agreement are necessary to put each Party in effectively the same position as the Parties would have been had the Material Adverse Event not occurred, then either Party shall have the right to unilaterally terminate this Agreement, subject to complying with any regulatory requirements applicable to such termination and subject to the other Party's right to dispute whether a Material Adverse Event has occurred.

SECTION 14 - RIGHTS UNDER THE FEDERAL POWER ACT

14.1 Federal Power Act Waiver. Except as set forth in Section 15, each Party irrevocably waives its rights, including any rights under Sections 205 and 206 of Federal Power Act, to unilaterally seek or support a change in the rate(s), charges, classifications, terms or conditions of this Agreement. By this provision, each Party expressly waives its right to seek or support: (a) an order from the FERC finding that the rate(s), charges, classifications, terms or conditions agreed to by the Parties in this Agreement are unjust and unreasonable; or (b) any refund with respect thereto. Each Party agrees not to make such a filing or request, and that these covenants and waivers shall be binding.

14.2 "Mobile-Sierra" Doctrine. Except as set forth in Section 15 and absent the agreement of the Parties to the proposed change, the standard of review for changes to any section of this Agreement proposed by a Party (to the extent that any waiver in Section 14.1(a) above is unenforceable or ineffective as to such Party) shall be the "public interest" standard of review set forth in United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) and by a non-party or FERC acting sua sponte shall be the most strict standard of review permissible under applicable law.

SECTION 15 - CHANGE IN LAW

15.1 Change in Law Defined. The Parties acknowledge that a Change in Law could increase the Company's costs associated with System Combined Cycle Capacity from the Hines Energy Center and/or the Corresponding Energy and therefore increase the cost of providing this capacity and/or the Corresponding Energy ("Increased Generation Costs") to the Customer under this Agreement. A

"Change in Law" means the adoption, imposition, promulgation or modification, or change in interpretation or application of any Law or regulation to which this Agreement, the transactions contemplated hereby or the Company is subject, after the Effective Date; provided however, that a Change in Law does not include any portion of an FPSC action, order or regulation that provides for or has the effect of a reallocation of existing costs (i.e., costs being incurred by Company prior to the date of the Change in Law being asserted by Company) between the Company's wholesale and retail customers. To the extent that System Combined Cycle Capacity and Corresponding Energy from the Hines Energy Center are not available to meet some or all of the Contract Capacity Amount and Corresponding Energy hereunder due to a) a forced outage event that has or is expected to render the units inoperable for a duration of six (6) months or greater or b) a Force Majeure event that has or is expected to render the units inoperable for a duration of six (6) months or greater and, consistent with Company's rights in Section 4.3(d)(i), Company provides the Deficient Amount from the Bartow Energy Center and/or Company's other combined cycle facilities, the references in this Section 15.1 to the Hines Energy Center shall be replaced with the references to the Bartow Energy Center and/or Company's other combined cycle facilities to the extent the Bartow Energy Center and/or Company's other combined cycle facilities are providing the Deficient Amount. For purposes of this Section 15.1 only, Company's other combined cycle facilities may only include combined cycle facilities that the Company has constructed or purchased after the Effective Date.

15.2 Change in Law Cost Recovery Surcharge. Notwithstanding Section 14 of this Agreement, the Customer acknowledges that Company may submit a Section 205 filing at FERC to seek recovery of a monthly surcharge for the recovery of Increased Generation Costs resulting from a Change in Law (the "Change in Law Cost Recovery Surcharge"). When requesting that Customer pay any Change in Law Cost Recovery Surcharge, Company will present Customer with a detailed proposal for Customer to pay its share of the applicable Increased Generation Costs, net of any reduction in generation costs that is due to a Change in Law, which proposal shall include, among other things, an explanation as to the Change in Law, the calculation of the Change in Law Cost Recovery Surcharge, and the basis for concluding that the additional costs are required by the Change in Law, along with all relevant non-privileged internal documents that would assist Customer in assessing such claim. To the extent the Company does not know the actual Increased Generation Costs resulting from a Change in Law, the Change in Law Cost Recovery Surcharge may include a good faith estimate of such costs and the basis therefor, subject to a true-up as set forth in Section 15.4. Such estimate will be provided to Customer with a detailed assessment by the Company explaining its basis for concluding that the proposed Change in Law Cost Recovery Surcharge is reasonable and in accordance with Prudent Electric Utility Practice. The Change in Law Cost Recovery Surcharge may include, but is not limited to, an increase, through a surcharge, to the charges set forth in Section 4.3 and Section 5.3. The Change in Law Cost Recovery Surcharge shall be subject to

the "just and reasonable" standard of review at the FERC. The Customer may not be assessed any costs, or afforded any cost offsets, through the Change in Law Cost Recovery Surcharge unless such costs or cost offsets are also applicable to other natural gas fired combined cycle generation within Florida and the Company's retail customers are being assessed comparable costs and afforded comparable cost offsets. The Change in Law Cost Recovery Surcharge must account for all relevant factors relating to the service being provided hereunder, including the Term. Provided that the conditions set forth in this Section 15.2 are met, the Change in Law Cost Recovery Surcharge will become effective on the date established by the FERC, subject to refund and any other conditions set by the FERC. For the avoidance of doubt, the Company shall not recover a Change in Law Cost Recovery Surcharge unless it is also receiving recovery for comparable such costs for system combined cycle capacity from the retail customer segment of its Firm Native Load. The preceding sentence means that the Company may file at FERC for recovery of a Change in Law Cost Recovery Surcharge from the Customer either before, at the same time, or after the Company makes a filing at the FPSC for recovery of comparable costs for such capacity from the retail customer segment of its Firm Native Load, but the Company shall not charge the Customer the Change in Law Cost Recovery Surcharge unless it is also recovering comparable costs for such capacity from the retail customer segment of its Firm Native Load. This comparability requirement does not preclude Company from showing that comparability has been achieved through the settlement process at the FPSC.

15.3 Change in Law Cost Recovery Surcharge and Existing Capacity Charges, Non-Fuel Energy Charges and Fuel Clause. As set forth in Section 15.1, the Change in Law Cost Recovery Surcharge is limited to recovery of Increased Generation Costs as a result of a Change in Law, net of any reduction in generation costs that is due to a Change in Law, and therefore may not be used to seek to obtain recovery of costs already recovered through the rates and charges, including those set forth in Section 4.3 and Section 5.3 of this Agreement. Except as set forth in this Section 15, both Parties acknowledge that the existing rates and charges set forth in Section 4.3 and Section 5.3 of this Agreement are subject to the public interest standard of review pursuant to Section 14.

15.4 Billing of Change in Law Cost Recovery Surcharge. The Change in Law Cost Recovery Surcharge, if any, will be billed monthly as a separate line item on the Customer's bill. In the event that the Change in Law Cost Recovery Surcharge is based on an estimate of Company's increased costs, Company shall include a true-up amount in a subsequent monthly invoice to reflect actual costs once they are known. The true-up amount (either a credit to Customer or an additional charge to Customer, as appropriate) will include interest, to be accrued at the Interest Rate.

15.5 Enforceability of Change in Law Cost Recovery Surcharge. In the event that following the Effective Date the concept of the Change in Law Cost Recovery Surcharge mechanism (versus the implementation of the Change in Law Cost

Recovery Surcharge) is found by the FERC or by a court or other administrative agency of competent jurisdiction to be unenforceable or otherwise contrary to law (either determination to be deemed a "Rejection"), the Company may, within thirty (30) days following the negotiating period provided for in this Section 15.5 below, in its sole discretion, terminate this Agreement upon written notice to the Customer, such termination to be effective upon the later of the effective date of the Increased Generation Costs or ninety (90) days from the date of the written notice, without any penalty or further obligation to the Customer related to such termination; provided, however, that the Parties shall engage in good faith negotiations for ninety (90) days following the Rejection prior to the Company's ability to provide the described notice, in an effort to reach a mutually acceptable resolution that maintains the economic bargain originally intended by the Parties.

SECTION 16 - ENVIRONMENTAL INDEMNIFICATION; OTHER INDEMNIFICATION

16.1 Environmental Indemnification. Notwithstanding anything in this Agreement to the contrary, to the extent allowed by Florida Statute, Section 768.28, each Party shall defend, indemnify, and hold the other Party, and its officers, directors, members, affiliates, agents, trustees, employees, contractors, and subcontractors harmless from and against any and all liabilities, including but not limited to fines, penalties, damages, claims, demands, judgments, losses, costs and expenses (including reasonable attorney's fees) under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S. C. §§9601, et seq., the Resource Conservation and Recovery Act of 1976, 42 U.S. C. §§6901, et seq., or any other applicable federal, state, or local environmental laws or regulations, arising out of the performance or non-performance of the obligations of the indemnifying Party, or its officers, directors, members, trustees, affiliates, agents, employees, contractors, or subcontractors, including, without limitations, the discharge, dispersal, release, storage, treatment, generation, disposal or escape of pollutants or other toxic or hazardous substances from such equipment and/or facilities, the contamination of the soil, air, surface water, or groundwater at or around such equipment and/or facilities, or any pollution abatement, replacement, removal or other decontamination or monitoring obligations with respect thereto, except to the extent such damages are caused by the negligence or willful misconduct of, or the failure to perform and/or comply with any material provision of this Agreement (which failure relates to the incident giving rise to the claim, suit or action) by the Party claiming the indemnity. Each indemnifying Party shall also reimburse the other Party for any reasonable expenses and attorney's fees incurred by such Party as a result of the Party's failure to comply with this provision.

16.2 Other Indemnification. In addition to the provisions of Section 16.1, each Party (the "Indemnifying Party") expressly agrees to indemnify, hold harmless and defend the other Party and its Affiliates, trustees, agents, officers, directors, employees, members and permitted assigns ("Indemnified Party") against all claims, liability, fines, costs or expenses imposed by any Governmental Authority

or arising from loss, damage or injury to the person or property of third parties ("Claims") in any manner directly or indirectly related to: (a) acts and omissions in connection with the performance, or failure thereof, of obligations or representations and warranties under this Agreement; (b) activities on the Indemnifying Party's respective side of the Delivery Point; or (c) any other activities to the extent that they involve the negligence or willful misconduct of the Indemnifying Party or its Affiliates, except to the extent such loss, damage or injury is the result of the negligence or willful misconduct of the Indemnified Party. This Section 16.2 shall not be applicable to any Claims arising directly or indirectly from or out of any event, circumstance, act or incident associated with the Transmission Provider's obligations to deliver power and other services under the OATT to the Customer or under any other agreement for transmission-related services between the Transmission Provider and Customer.

16.3 Notice of Proceedings. An Indemnified Party which becomes entitled to indemnification under this Agreement shall promptly notify the other Party of any claim or proceeding in respect of which it is to be indemnified. Such notice shall be given as soon as reasonably practicable after the Indemnified Party obligated to give such notice becomes aware of such claim or proceeding. Failure to give such notice shall not excuse an indemnification obligation except to the extent failure to provide notice adversely affects the Indemnifying Party's interests. The Indemnifying Party shall assume the defense thereof with counsel designated by the Indemnifying Party; provided, however, that if the defendants in any such action include both the Indemnified Party and the Indemnifying Party and the Indemnified Party reasonably concludes that there may be legal defenses available to it that are different from or additional to, or inconsistent with, those available to the Indemnifying Party, the Indemnified Party shall have the right to select and be represented by separate counsel, at the expense of the Indemnifying Party. If the Indemnifying Party fails to assume the defense of a claim, the indemnification of which is required under this Agreement, the Indemnified Party may, at the expense of the Indemnifying Party, contest, settle, or pay such claim; provided, however, that settlement or full payment of any such claim may be made only with the Indemnifying Party's consent or, absent such consent, written opinion of the Indemnified Party's counsel that such claim is meritorious or warrants settlement.

SECTION 17 - FORCE MAJEURE; PERFORMANCE EXCUSED

17.1 Force Majeure Defined. "Force Majeure" shall mean an event, occurrence, or circumstance beyond the reasonable control of, and without the fault or negligence, of the Party claiming Force Majeure, including but not limited to, acts of God, labor disputes (including strikes), acts of public enemies, orders or absence of necessary orders and permits of any kind that affect performance hereunder and which have been properly applied for, from the Government of the United States or from any State or Territory, or any of their departments, agencies or officials, or from any civil or military authority, extraordinary delay in transportation, lightning, epidemics, earthquake, fires, hurricanes, tornadoes,

storms, floods, washouts, drought, war, civil disturbances, explosions, sabotage, injunction, blight, famine, blockade, quarantine; breakage of machinery or equipment; or any other similar cause or event which is beyond the claiming Party's reasonable control and which, wholly or in part, prevents the Party claiming Force Majeure from performing its obligations under this Agreement. Mere economic hardship of a Party does not constitute Force Majeure. Curtailment of electric transmission by the Transmission Provider shall only constitute Force Majeure if (i) such Party has contracted for firm transmission with the Transmission Provider for transmission of the Corresponding Energy to be delivered to or received at the Delivery Point, and (ii) such curtailment is due to "force majeure" or "uncontrollable force" or a similar term as defined under the Transmission Provider's tariff. Notwithstanding the above, the Company may not use this Force Majeure provision to interrupt or curtail service under this Agreement unless (a) Company has already interrupted all of its non-Firm Native Load; and (b) it is at the same time interrupting or curtailing its Firm Native Load, so that the service hereunder is equivalent thereto, as provided for in Section 10 of this Agreement.

17.2 Notice; Mitigation. Each Party shall promptly notify the other Party of any applicable communication equipment failure or signal problem that could potentially lead to or result in an interruption of service hereunder. The Parties shall work together to avoid any interruption of service upon a failure of electronic transmittal of a schedule. A Party suffering an occurrence of Force Majeure shall notify the other Party as soon as reasonably possible thereof and shall remedy with all reasonable dispatch the cause or causes preventing such Party from carrying out its duties and obligations as required in this Agreement; provided, that the settlement of strikes, lockouts, or other industrial disturbances affecting a Party's facilities shall be entirely within the discretion of the Party, and it shall not be required to make settlement of strikes, lockouts, or other industrial disturbances by acceding to the demands of the opposing party or parties when such course is unfavorable in the judgment of such Party.

17.3 Performance Excused. With respect to Company's obligation to deliver capacity and Corresponding Energy and Customer's obligation to receive capacity and Corresponding Energy hereunder, neither Party shall be considered to be in default in performance of such obligations, and neither Party, nor its respective directors, trustees, members, officers, affiliates, or its or their employees, shall be liable to the other Party for any damage or loss resulting from or caused by such failure to perform such obligations to the extent such failure in performance shall be due to any of the following causes:

(a) Force Majeure; and/or

(b) Whenever the integrity of the Company's system or the supply of the electricity is threatened by conditions on its system or on the systems with which it is directly or indirectly interconnected, or whenever it is necessary or desirable to aid in the restoration of service, the Company

may in conformance with Prudent Electric Utility Practice and its obligations under this Agreement and with the application of standards no more interruptive than service to its other Firm Native Load customers, curtail or interrupt electric capacity or energy deliveries hereunder or reduce voltage for such deliveries to some or all of the service to Customer; provided that such curtailment or interruption is not due to the negligence or willful misconduct of the Company; and/or

(c) The making of necessary inspections of, adjustments to, changes in or repairs to a Party's electric generation, distribution, and/or transmission facilities that cannot be scheduled at a later time and by discontinuing service to avoid endangering persons or property.

17.4 Un-excused Non-Delivery; Remedies.

(a) If Company fails to deliver Corresponding Energy for the System Combined Cycle Capacity that has been properly scheduled for delivery pursuant to Section 6 hereof, and such failure is the direct result of Company making an adverse distinction between its obligation to provide Corresponding Energy to the Customer hereunder and Company's Firm Native Load, such non-delivery is not excused pursuant to the terms of Section 17.3 hereof, and such non-delivery continues for a period up to four (4) consecutive hours, then in such case, Customer shall be entitled to the following remedies:

(i) the Monthly Capacity Charge for the relevant Month shall be reduced pro rata for the period of non-delivery; and

(ii) Company shall reimburse Customer for Cover Costs (but only if Cover Costs is a positive number).

"Cover Costs" shall be calculated as follows:

Cover Costs = (CE x Cover Price) - (CE x Contract Price)

Where:

"CE" equals the amount of Corresponding Energy (in MWh) which was properly scheduled pursuant to Section 6 hereof, but was not delivered by Company to Customer.

"Cover Price" equals the price (in $/MWh) which Customer, acting in a commercially reasonable manner, must incur in order to generate or purchase replacement energy for the CE, plus costs reasonably incurred by Customer in generating or purchasing such substitute energy (including additional transmission charges, if any, reasonably incurred by Customer). In the event Customer does not generate or purchase replacement energy for the CE, the Cover Price shall be deemed to be zero dollars ($0).

"Contract Price" equals the price (in $/MWh) that Customer otherwise would have had to pay to Company for the CE pursuant to Section 4.3 and/or Section 5.3 hereof had the CE been delivered to Customer.

(b) If Company fails to deliver pursuant to Section 17.4(a) more than two (2) times in any calendar year, then in such case, Customer shall be entitled to the following remedies:

(i) The remedies set forth in Section 17.4(a)(i) and (ii); and

(ii) Such event shall be deemed an Event of Default and Customer shall be entitled to the remedies set forth in Section 12.3; provided, however, that Customer shall not be allowed to recover any amounts pursuant to Section 12.3 which Customer has already recovered pursuant to Section 17.4(a)(i) and (ii).

(c) If Company fails to deliver Corresponding Energy that has been properly scheduled for delivery pursuant to Section 6 hereof, such failure is the direct result of Company making an adverse distinction between Customer and Company's Firm Native Load, such non-delivery is not excused pursuant to the terms of Section 17.3 hereof, and such non-delivery continues for a period equal to or in excess of four (4) consecutive hours, then in such case, Customer shall be entitled to the following remedies:

(i) The remedies set forth in Section 17.4(a)(i) and (ii); and

(ii) Such event shall be deemed an Event of Default and Customer shall be entitled to the remedies set forth in Section 12.3; provided, however, that Customer shall not be allowed to recover any amounts pursuant to Section 12.3 which Customer has already recovered pursuant to Section 17.4(a)(i) and (ii).

(d) If Company fails to deliver Corresponding Energy that has been properly scheduled for delivery pursuant to Section 6 hereof, such failure is the direct result of Company making an adverse distinction between Customer and Company's Firm Native Load, such non-delivery is not excused pursuant to the terms of Section 17.3 hereof, and irrespective of the duration thereof, such non-delivery causes Customer to curtail energy deliveries to one or more of its member cooperatives (but only if Customer has exercised commercially reasonable efforts to prevent such curtailment by purchasing replacement energy or otherwise), then in such case, Customer shall be entitled to the following remedies:

(i) The remedies set forth in Section 17.4(a)(i) and (ii); and

(ii) Such event shall be deemed an Event of Default and Customer shall be entitled to the remedies set forth in Section 12.3; provided, however, that Customer shall not be allowed to recover any

amounts pursuant to Section 12.3 which Customer has already recovered pursuant to Section 17.4(a)(i) and (ii).

SECTION 18 - MISCELLANEOUS

18.1 [RESERVED]

18.2 Governing Law. This Agreement is made under and shall be governed by, and construed in accordance with, the laws of the State of Florida without giving effect to any principles of conflicts of laws where the giving of effect to any such principles would result in the laws of any other state or jurisdiction being applied to this Agreement.

18.3 Dispute Resolution. Except as provided in Sections 14.1 and 15 and except in the event of a Party seeking equitable relief hereunder, such as injunctive relief or specific performance, where time is of the essence, in which case the affected Party may seek such equitable relief in a court of competent jurisdiction, the dispute resolution procedures set forth in this Section 18.3 shall govern the resolution of any dispute, controversy or claim arising out of, under, or relating to this Agreement (a "Dispute") unless mutually agreed to by the Parties. The Parties agree to first negotiate in good faith to attempt to resolve any Dispute that arises under this Agreement. In the event that the Parties are unsuccessful in resolving a Dispute through such negotiations, the controversy may be submitted to binding arbitration as provided below.

(a) Good-Faith Negotiations. The process of "Good-Faith Negotiations" requires that each Party set out in writing to the other its reason(s) for adopting a specific conclusion or for selecting a particular course of action, together with the sequence of subordinate facts leading to the conclusion or course of action. The Parties shall attempt to agree on a mutually agreeable resolution of the Dispute. Upon request, each Party shall promptly make available to the other such information, including existing studies and raw data, to the extent related to the Dispute. The related information to be made available must include both studies and raw data that support the position advocated and existing studies and raw data that are related to, but do not support, the position advocated. A Party shall not be required as part of these negotiations to provide any information which is confidential or proprietary in nature unless it is satisfied in its discretion that the other Party will maintain the confidentiality of and will not misuse such information or any information subject to attorney-client or other privilege under applicable law regarding discovery and production of documents.

Additionally, where one Party possesses the exclusive capability of collecting additional raw data or making additional studies related to the Dispute, it shall accommodate reasonable requests from the other Party requesting such data or studies, subject to limitations on disclosure of

confidential, proprietary or privileged information. The Party requesting such data shall reimburse the other Party for the cost incurred to provide the data. The negotiation process shall include at least two meetings to discuss any Dispute prior to invoking arbitration rights. Unless otherwise mutually agreed, the first meeting shall take place within ten (10) Business Days after either Party has received notice from the other of the desire to commence formal negotiations concerning the Dispute. Unless otherwise mutually agreed, the second meeting shall take place no more than ten (10) Business Days after the first meeting. In the event a Party refuses to attend a negotiation meeting, either Party may proceed immediately to binding arbitration concerning the Dispute.

(b) Binding Arbitration. Binding arbitration may be initiated at any time by either Party following Good Faith Negotiations (the "Binding Arbitration Notice"). The Binding Arbitration Notice shall specify the issue(s) to be submitted to binding arbitration, including a summary of the complaining Party's position with respect thereto and a proposed resolution. The Party receiving the Binding Arbitration Notice shall have the right to rebut the issue(s) set forth in the Binding Arbitration Notice. The Parties shall by mutual agreement appoint an arbitrator within thirty (30) days after receipt of the Binding Arbitration Notice, giving preferred consideration to former U.S. Circuit Court Judges with training or experience to address the issue in controversy. In the event the Parties are unable to agree upon an arbitrator within such time frame, either Party may request the American Arbitration Association to designate three potential arbitrators, each of whom (1) shall have agreed to arbitrate the Dispute, (2) shall have never been affiliated with either Party or its affiliate(s), (3) shall be qualified by training or experience to address the issue in controversy, and (4) shall be available to fulfill the responsibilities of binding arbitration in a timely manner. Each Party shall be provided relevant information related to each potential arbitrator, including applicable fees; and each shall designate its first, second and third choices among the potential arbitrators, with the designated choice receiving four, three and one point(s), respectively. In the event a Party fails to designate an order of choice, each potential arbitrator shall receive one point. The potential arbitrator receiving the most points shall be the arbitrator. Unless otherwise mutually agreed, binding arbitration shall commence two (2) weeks after the selection of the arbitrator. The arbitration shall proceed in accordance with the rules for commercial arbitration established by the American Arbitration Association absent the contrary agreement of the Parties. The arbitrators shall be empowered to award legal and equitable relief, including injunctive relief and specific performance. Any decision by the arbitrators shall be in writing and binding on the Parties. The fees and expenses of the arbitrators shall be shared equally by the Parties, and each Party shall bear its own costs.

(c) Confidentiality and Non-Admissibility of Statements Made in, and Evidence Specifically Prepared for, Good Faith Negotiations and Binding Arbitration. Each Party hereby agrees that all statements made in the course of Good Faith Negotiations, as contemplated in Section 18.3(a), and in binding arbitration, as contemplated in Section 18.3(b), shall be confidential, and shall not be disclosed to or shared with any third parties (other than the arbitrator, potential arbitrators or any other person whose presence is necessary to facilitate the negotiation and/or binding arbitration process). Furthermore, each Party agrees that any documents or data specifically prepared for use in good faith negotiations and/or binding arbitration shall not be disclosed to any third party, except those parties whose presence is necessary to facilitate the binding arbitration process. Each Party agrees and acknowledges that no statements made in or evidence specifically prepared for Good Faith Negotiations pursuant to Section 18.3(a) (versus data, documents, and other evidence in existence prior to the time of the Good Faith Negotiations), shall be admissible for any purpose in any subsequent binding arbitration.

18.4 No Amendments Without Consent. Except as otherwise provided herein, this Agreement shall not be amended, changed, altered, or modified except by a written instrument duly executed by an authorized representative of each Party.

18.5 Assignment.

(a) Except as provided herein, neither Party shall assign this Agreement or its rights hereunder without the prior written consent of the other Party, which consent may not be unreasonably withheld. Any assignment of this Agreement in violation of this Section 18.5 shall be, at the option of the non-Assigning Party, void.

(b) Either Party (the "Assigning Party") may, without the consent of the other Party:

(i) transfer or assign this Agreement to an affiliate of the Assigning Party which affiliate's creditworthiness is equal to or higher than that of the Assigning Party based either on Standard and Poor's or Moody's ratings or, if the affiliate does not have such a rating, on credit assurances reasonably acceptable to the non-Assigning Party, provided that such affiliate is financially and operationally capable of performing its obligations under this Agreement, including maintaining the same level of reliability and delivering capacity and energy at the same monthly charges as the Customer would have received had the assignment not been made; or

(ii) transfer or assign its rights and obligations under this Agreement to any person or entity (the "Assignee") succeeding to all or substantially all of the Assigning Party's assets, provided that the

Assignee's creditworthiness is equal to or higher than that of the Assigning Party and it is financially and operationally capable of performing its obligations under this Agreement.

(c) An assignment or transfer pursuant to this Section 18.5 may be made only if:

(i) any regulatory approvals that may be required are obtained in connection with such transfer or assignment;

(ii) the Assignee agrees in writing to be bound by the terms and conditions of this Agreement; the Assignee has Acceptable Creditworthiness as defined in Section 9.7 or provides Performance Assurance pursuant to Section 9.8; and the Assignee is financially and operationally capable of performing its obligations under this Agreement; and

(iii) the non-Assigning Party is not obligated to perform its obligations hereunder in favor of the Assignee to the extent the Assignee shall not perform the obligations of the Assigning Party.

(d) If either Party terminates its existence as a corporate entity by merger, acquisition, sale, consolidation or otherwise, or if all or substantially all of such Party's assets are transferred to another person or business entity, without complying with this Section 18.5, the other Party shall have the right, enforceable in a court of competent jurisdiction, to enjoin the first Party's successor from using the property in any manner that interferes with, impedes, or restricts such other Party's ability to carry out its ongoing business operations, rights, and obligations.

(e) Notwithstanding the foregoing, the Customer's interest in this Agreement may be assigned, transferred, mortgaged or pledged by Customer without Company's consent for the purpose of creating a security interest for the benefit of the United States of America, acting through RUS (and thereafter the RUS, without the approval of Company or its Lenders, may cause the RUS's interest in this Agreement to be sold, assigned transferred or otherwise disposed of to a third party).

18.6 Successors. This Agreement shall be binding on and inure to the benefit of the Parties and their respective successors, assigns, and legal representatives, including any entity with which or into which a Party may be merged or which may succeed to the assets or business of a Party.

18.7 Title. Title to and risk of loss related to the energy sold hereunder shall transfer from Company to Customer at the Delivery Point. Company warrants that it will deliver capacity and Corresponding Energy hereunder free and clear of all liens, security interests, claims and encumbrances or any interest therein or thereto by any person arising prior to the Delivery Point.

18.8 Agency. Nothing in this Agreement is intended or shall be deemed to constitute a partnership, agency, or joint venture relationship between the Company and the Customer.

18.9 Headings. Section Headings in this Agreement are included herein for convenience of reference only and shall not constitute a part of this Agreement for any other purpose.

18.10 Contract Construction. For purposes of construing this Agreement, it is agreed and understood that both Parties are equally responsible for drafting same.

18.11 Entire Agreement. The Agreement shall be the final expression of the Parties' agreement and shall be the complete and exclusive statement of the terms thereof. No statements or agreements, oral, or written, made prior to the date hereof, shall vary or modify the written terms set forth herein, and neither Party shall claim any amendment, modification, or release from any provision hereof by reason of a course of action or mutual agreement unless such agreement is in writing, is signed by both Parties, and specifically states it is an amendment to the Agreement.

18.12 No Third Party Beneficiaries. Nothing in this Agreement shall provide any benefits to any third party (including, but not limited to, customers of the other Party) or entitle any third party to any claim, cause of action, remedy or right of any kind, it being the intent of the Parties that this Agreement shall not be construed as a third party beneficiary contract.

18.13 No Waiver. The failure of either Party to enforce at any time any of the provisions of this Agreement or to require at any time performance by the other Party of any of the provisions hereof, shall in no way be construed to be a waiver of such provisions, nor in any way to affect the validity of this Agreement or any part hereof or the right of such Party thereafter to enforce each and every such provision.

18.14 Acknowledgement. Both Parties acknowledge that they have had the opportunity to have this Agreement reviewed by legal counsel of their choice and that they understand the terms and conditions herein. In the event of any ambiguity in the Agreement, such ambiguity shall not be construed against the drafter of the Agreement.

18.15 Counterparts. This Agreement may be executed in several counterparts, each of which shall be an original and all of which constitute one and the same instrument.

18.16 Survival of Provisions. Expiration or termination of the Agreement shall be without prejudice to any rights or claims of either Party against the other Party and shall not relieve either Party of any obligations which by their nature survive the expiration or termination of the Agreement, including, but not limited to, warranty, indemnification, limitation of liability and the obligation to pay

amounts due for service rendered prior to termination. Such obligations shall continue in full force and effect subsequent to and regardless of the expiration or termination of the Agreement and until they are fully satisfied or by their nature expired.

18.17 Notice. Any notice or request made to or by either Party regarding this Agreement shall be made to:

Company:

Progress Energy Florida, Inc.
299 First Avenue North (PEF – 155)
St. Petersburg, Florida 33701
Attention: Director, Renewables and Wholesale Power – PEF

Customer:

Seminole Electric Cooperative, Inc.
16313 North Dale Mabry Highway
Tampa, Florida 33618
Attention: Vice President, Bulk Power and Generation Planning

(The following page is the signature page)

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed by their duly authorized officers, and copies delivered to each Party, as of the day and year first stated above.

Review

EXHIBIT 1 - INCREMENTAL COST EXAMPLES

Incremental Cost examples when Customer is not exercising the Gas Option:

Increase to Customer Schedule for Energy

- Incremental Cost to Customer would be zero if the intraday price for additional delivered gas is relatively the same as the day-ahead gas cost and FGT did not issue an alert.

- Incremental Cost to Customer would be passed on to Customer from Company if the intraday price for additional delivered gas to meet Customer's increase were higher than the day-ahead gas cost and FGT did not issue an alert. Customer would receive up to two prices, if applicable, one for day-ahead and one for intraday.

Decrease to Customer Schedule for Energy

- Incremental Cost to Customer would be zero for mitigating additional volumes created by Customer and FGT did not issue an alert.

Incremental Cost examples when Customer is exercising the Gas Option:

Increase to Customer Schedule for Energy

- Incremental Cost would be passed on to Customer from Company for additional delivered gas provided by Company to meet Customer's increase above Customer's delivered volume, provided that the intraday price for additional delivered gas to meet Customer's increase were higher than the day-ahead gas cost and FGT did not issue an alert. Customer would receive up to two prices, if applicable, one for day-ahead and one for intraday.

Decrease to Customer Schedule for Energy (for any Gas Option days re Section 5.1)

- Company would assume any unused gas volumes delivered by Customer via its Gas Option associated with a decrease to the Schedule for Energy, and Seminole would pay any FGT penalties, if applicable, caused by the reduction in the Schedule for Energy.

PROGRESS ENERGY FLORIDA, INC.

Seminole Electric Power Cooperative Cost Support - FERC Docket No. ER10-____-000

Baseload Generation Additions

Crystal River North Units 4 &5 CAIR Plant Additions – 2009 and 2010

The Crystal River North plant site comprised of Units #4 and #5, is a baseload coal facility totaling 1,460 MW of capacity. As part of its least cost strategy to comply with the Clean Air Interstate Rule (70 Fed Reg. 25,162), PEF is installing flue gas desulphurization (FGD) scrubbers for SO2 control and a combination of low NO x burners (LNB) and selective catalytic reduction (SCR) for NOx control on both units. This work is being coordinated with planned plant outage schedules and in-service date for the equipment at Unit #5 was Fall 2009 and the planned in-service date for Unit #4 is the Spring of 2010. The plant in-service estimate for these projects was documented in PEF Environmental Cost Recovery Clause filing on 4/1/2009 (Docket # 090007-EI) (1). The filing and recovery amount were subsequently approved by the Florida Public Service Commission (Order PSC-09-0758-FOF-EI) (2). The current filed estimate for the final plant in-service amount for these projects is $1,246.8 Million.

Bartow Combined Cycle Repowering Project

Progress Energy recently completed the repowering of its Bartow Power Station with an in-service date of June 2009. The repowering upgraded the prior conventional heavy oil-fired steam units to state of the art natural gas-fired combined cycle technology with distillate oil backup. As a result of this project, Bartow is now classified as a base-load resource and has increased its capacity by 827 MW to a total of 1,279MW. The company has secured recovery of this investment in its recent general rate proceeding in Docket No. 090079-EI. The Florida PSC approved this recovery by vote on Monday January 11, 2009; the written order (PSC-10-0131-FOF-EI) was issued on March 5, 2010 (3) and the Bartow investment was detailed in the B schedule Minimum Filing Requirements (4) for the case as well as the testimony of witness Toomey (5). The total plant in service associated with the Bartow Repowering is $641.1 Million.

Crystal River Unit 3 Nuclear Uprate Project Phase I

Progress Energy Florida is in the process of a multi-stage investment to increase the capacity output of it's Crystal River 3 nuclear plant by 180 MW. Stage I of this project is nearing completion an in-service date of June of 2010. The investment associated with Stage I is $85.1M and will increase the capacity of Crystal River 3 by 40 MW. The Florida Public Service Commission approved recovery of this investment through the company's Capacity Cost Recovery Clause beginning in 2010 (Docket EI-090009) in Order number PSC-09-0783-FOF-EI (6).

Crystal River Unit 3 Nuclear Steam Generator Replacement

Progress Energy Florida is also in process of replacing the Steam Generator at the Crystal River 3 nuclear power plant in tandem with Phase I of the nuclear uprate project described above. This was an opportune time to make this major investment to extend the useful life of the Crystal River 3 plant. The costs associated with this investment were detailed in the Schedule B MFR with the Florida Public Service Commission in Docket EI-0900070 (4) and subsequently approved in order number PSC-10-0131-FOF-EI in the company's most recent base rate proceeding. The expected increase in rate base from this investment scheduled to in service in June 2010 is $334,900,000.

Honorable Kimberly D. Bose
Secretary
Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, D.C. 20426

Regarding: ***Florida Power Corporation*; Amendment to 1995 Agreement with Seminole Electric Cooperative, Inc.; Docket No. ER10-____-000**

Dear Secretary Bose:

Florida Power Corporation, doing business as Progress Energy Florida, Inc. ("Progress" or "Company"), hereby files, pursuant to Section 205 of the Federal Power Act, an amendment to the October 12, 1995 Agreement for Sale and Purchase of Capacity and Energy between Progress and Seminole Electric Cooperative, Inc. ("Seminole" or "Customer"), as amended, First Revised Rate Schedule No. 176 (the "1995 Agreement""). Progress respectfully requests that the Commission accept the amendment to the 1995 Agreement ("Amended 1995 Agreement") for filing sixty days after the date of filing, which is May 15, 2010.

I. BACKGROUND

Progress is an investor-owned utility that provides generation, transmission and distribution services to retail customers in the State of Florida. It also is a power supplier for a number of wholesale customers in the State of Florida, including Seminole. Seminole is a Florida corporation and a generation and transmission cooperative.

Under the 1995 Agreement, Progress currently provides Seminole with three 150 MW blocks of System Intermediate Capacity and Corresponding Energy through December 31, 2013. Pursuant to Section 6.2 of the 1995 Agreement, Seminole converted the 150 MW block of System Peaking Capacity and Corresponding Energy to

150 MW of System Intermediate Capacity and Corresponding Energy (which is referred to as the "2006 Converted System Intermediate Capacity"). The last amendment of the 1995 Agreement, which added System Peaking Capacity and Corresponding Energy to the 1995 Agreement and Seminole's right to convert such capacity to 2006 Converted System Intermediate Capacity, was filed and accepted by the Commission in Letter Order dated November 16, 2006 in Docket No. ER07-15-000.

Seminole has a need for system combined cycle capacity and corresponding energy to serve its future load requirements for the period beginning January 1, 2011 through December 31, 2013. In the Amended 1995 Agreement, Progress and Seminole have agreed to convert the 150 MW of 2006 Converted System Intermediate Capacity and Corresponding Energy to a new system combined cycle capacity and energy product based on Progress' system combined cycle capacity from the Hines Energy Center (called "System Combined Cycle Capacity"). The Hines Energy Center includes four combined cycle generating units, named Hines 1, 2, 3 and 4, each of which is capable of generating approximately 500 MW. The priority of the System Combined Cycle Capacity and Corresponding Energy that Progress will be providing to Seminole is as firm as Progress' service to its Firm Native Load customers.[1]

Concurrent with this filing of the Amended 1995 Agreement, Progress has also filed at the Commission a new power sales agreement providing for the sale of System Combined Cycle Capacity and Corresponding Energy by Progress to Seminole for the period June 1, 2016 through December 31, 2024.

II. DESCRIPTION OF THE AMENDED 1995 AGREEMENT

A. SYSTEM COMBINED CYCLE CAPACITY AND CORRESPONDING ENERGY

Section 7 of the Amended 1995 Agreement includes a stated Monthly Capacity Charge, a stated Monthly Non-Fuel Energy Charge, a formula Monthly Fuel Charge and a formula Monthly Emissions Charge for System Combined Cycle Capacity and Corresponding Energy.

The Monthly Capacity Charge for System Combined Cycle Capacity will be the monthly capacity price of $9.25 per kW-month for calendar year 2011, $9.44 per kW-month for calendar year 2012, and $9.63 per kW-month for calendar year 2013, multiplied by 150,000 kW.[2]

---

[1] *See* Sections 3.2 and 7.11 of the Agreement.

[2] *See* Section 7.2 of the Agreement.

The Monthly Non-fuel Energy Charge will be the variable operations and maintenance price, which will be $3.00/MWh for calendar year 2011, $3.06/MWh for calendar year 2012, and $3.12/MWh for calendar year 2013, multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.[3]

The Monthly Fuel Charge will be the sum for the Billing Month of the Daily Fuel Price multiplied by the Corresponding Energy that is fueled by Progress and that is scheduled to Seminole at the Point of Receipt during the relevant delivery day. The Amended 1995 Agreement provides Seminole with the option to supply natural gas for its Corresponding Energy.[4] To the extent that Seminole supplies the requisite natural gas for its Corresponding Energy schedule, the Daily Fuel Price will be zero.[5] To the extent that Progress supplies the natural gas for Seminole's Corresponding Energy schedule, the Daily Fuel Price will be the result of multiplying the heat rate (7.25 MMBtu/MWh during the months of April-September, and 7.6 MMBtu/MWh during all other months)[6] by the Gas Index, and the Daily Fuel Price shall be adjusted up to include losses using the OTL loss factor.[7] The Gas Index shall be the daily midpoint price of natural gas (expressed in $/MMBtu) for the relevant day of delivery of energy for Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, plus the Florida Gas Transmission ("FGT") fuel loss factor, the FGT average usage charge from the applicable FGT Tariff, and a $0.87/MMBtu demand charge for gas transportation.[8]

The Monthly Emissions Charge will be the sum for the Billing Month of the Emissions Price multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the relevant delivery day. The Emissions Price is defined as the price (in $/MWh) for emissions costs, emissions allowance costs and taxes allocated to the Hines Energy Center, such as SO_2 and NO_x allowances and carbon taxes (and any other emissions allowance costs/taxes allowed by FERC). The total emissions costs

---

3 *See* Section 7.3 of the Agreement.

4 *See* Section 7.7 of the Agreement.

5 *Id.*

6 The heat rate is the expected heat rate of the Hines generating units.

7 The OTL loss factor is the Output to Line loss factor in Progress' Interchange Contracts, as set forth in Exhibit C-1 of Progress' Annual Filing of Cost Factor Updates filed at FERC. *See Florida Power Corp.*, Docket No. ER09-1093-000 (June 22, 2009) (unpublished letter order) (order accepting, among other things, Progress' latest OTL Loss Factor).

8 *See* Section 7.4 of the Agreement.

shall be reduced by a pro rata allocation of any emissions credits or allowances allocated to Progress. The Emissions Price shall be adjusted up to include losses using the OTL Loss Factor.[9] Costs associated with the Emissions Price will not include any costs (variable, fixed or otherwise) that are already included in the Monthly Capacity Charge, Monthly Non-fuel Energy Charge and Monthly Fuel Charge for System Combined Cycle Capacity or Corresponding Energy and, in no case, will the Emissions Price recover any of Progress' capital costs associated with emissions costs, allowances, or taxes.[10]

B. SCHEDULING PROVISIONS

Section 7.12 of the Amended 1995 Agreement includes extensive scheduling provisions that are designed to provide Seminole with flexibility to schedule and modify schedules of energy to reflect its load requirements. It also provides Seminole additional scheduling flexibility in the event that Seminole experiences a System Event or needs operating reserves.

i. Schedule Changes Due to System Events

Seminole may modify its Schedule for Energy (a "Schedule Change") on a MW for MW basis with thirty (30) minutes prior notice to Progress (i) for any forced outage or derating of any Seminole firm capacity resources that are included in Seminole's reserve margin, including firm purchased power resources, up to the MW quantity associated with such forced outage or derating, (ii) for a system emergency, or (iii) for the curtailment of network or firm transmission service procured by Seminole from the Point of Receipt, each a "System Event." In the case of a System Event, Seminole's Schedule Change is limited to the 150 MW amount of System Combined Cycle Capacity. At the conclusion of such System Event and at such time as is reasonably operationally feasible, Seminole shall return to its previous Schedule for Energy at the top of the next available clock hour. In the case of a Schedule Change resulting from a System Event, Seminole's Fuel Charge for the affected hours shall be the Monthly Fuel Charge plus Incremental Costs, if applicable. Incremental Costs are defined to include any demonstrable costs to Progress solely attributable to Seminole's Schedule Change, including, but not limited to, additional gas transportation charges, Imbalance charges, cash-out charges and penalties.[11]

---

[9] *See* footnote 7 herein.

[10] *See* Section 7.5 of the Agreement.

[11] Exhibit 3 of the Amended 1995 Agreement includes examples of Incremental Cost.

ii. Operating Reserves

If Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement, the amount of System Combined Cycle Capacity required by Seminole to meet its operating reserve requirement shall be made available by Progress to Seminole within ten (10) minutes from the time such notice is provided. Seminole's use of System Combined Cycle Capacity to meet its operating reserve requirement is limited to the 150 MW amount of System Combined Cycle Capacity. At the conclusion of such circumstances and at such time as is reasonably operationally feasible, Seminole shall return to its previous Schedule for Energy at the top of the next available clock hour. In the case where Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement and Progress can obtain gas for the System Combined Cycle Capacity needed to meet Seminole's operating reserve requirement, Seminole's Fuel Charge for the affected hours shall be the Monthly Fuel Charge, set forth above. In the case where Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement and Progress cannot obtain gas for the System Combined Cycle Capacity needed to meet Seminole's operating reserve requirement, Seminole's Fuel Charge for the affected hours shall be Progress' System Average Fuel Rate. Progress' System Average Fuel Rate shall be determined in the following manner:

> The "System Average Fuel Rate" ($/MWh) = Total Fuel Cost divided by Total Energy Generated as adjusted up to include losses using the OTL Loss Factor set forth in Exhibit C-1 of Progress' Annual Filing of Cost Factor Updates, as filed with FERC.[12]

(i) "Total Fuel Cost" ($) is defined as Progress' fuel costs for the relevant Billing Month for all of Progress' System Average Capacity Resources, which are defined as the capacity from Progress' system generating resources and power purchase agreements, excluding Progress' Interchange Sales, company use and stratified sales. The Total Fuel Cost also shall include emissions costs, emissions allowance costs and taxes allocated to Progress' System Average Capacity Resources, such as SO_2 and NO_x allowances and carbon taxes (and any other emissions allowance costs/taxes allowed by FERC). However, the Total Fuel Cost will not include any costs (variable, fixed or otherwise) already included in the Monthly Capacity Charge or Monthly Non-fuel Energy Charge for System Combined Cycle Capacity or Corresponding Energy. For the avoidance of doubt, in no case will the Total Fuel Cost recover any of Progress' capital costs associated with emissions costs,

---

[12] *See* footnote 7 herein concerning the OTL Loss Factor.

allowances, or taxes. "Interchange Sales" shall mean those opportunity sales made by Progress from time to time (i.e., the sales transactions included on Schedule A-6 of Progress' FPSC-required[13] monthly fuel and purchased power filing as of the execution date of the Amended 1995 Agreement, or any successor thereto).

(ii) "Total Energy Generated" (MWh) is defined as the actual net generation of all System Average Capacity Resources for the relevant Billing Month.

C. CHANGES IN NON-RATE TERMS AND CONDITIONS

As part and parcel of the negotiation of the new sale of System Combined Cycle Capacity and Corresponding Energy, Seminole and Progress also negotiated other changes to the terms and conditions of the 1995 Agreement. Specifically, they negotiated changes to the Exhibit 1 list of Intermediate Capacity Resources, on both a historical and going forward basis, to accurately reflect Progress' Intermediate Capacity Resources. Progress waived, for the remaining term of the Amended 1995 Agreement, its right under Section 3.6 of the 1995 Agreement to make a filing at the Commission to seek to change the rates and charges provided for in Section 3.5 of the 1995 Agreement or to further alter the list of Intermediate Capacity Resources provided for in Exhibit 1, as amended. Seminole waived, for the remaining term of the Amended 1995 Agreement, its termination and capacity reduction rights under Sections 3.1(a) and (b) of the 1995 Agreement in relation to the 1999 System Intermediate Capacity and 2006 System Intermediate Capacity, respectively. Progress notes that the original 1995 Agreement was silent as to the standard of review applied to FERC and non-parties. There has been no change made to the 1995 Agreement in this respect.[14]

In addition, the Amended 1995 Agreement includes a new Section 5.11, which provides for dispute resolution procedures in the event that the gas index price, which is used in the Daily Fuel Price calculation for Corresponding Energy produced from System Combined Cycle Capacity, ceases to exist and Seminole and Progress are unable to agree to a successor index pricing point for the Daily Fuel Price calculation.

---

[13] FPSC refers to the Florida Public Service Commission.

[14] Progress notes that the U.S. Supreme Court recently issued an opinion on the subject in *NRG Power Marketing, LLC v. Maine Public Utilities Commission*, 130 S.Ct. 693, 2010 WL 98876 (January 13, 2010).

Also, Section 7.6 provides there will be no start or other charges for System Combined Cycle Capacity and Corresponding Energy aside from those described in Section 7 and that neither Seminole nor Progress may seek to amend the rates for System Combined Cycle Capacity and Corresponding Energy.

III. JUST, REASONABLE AND NOT UNDULY PREFERENTIAL RATE

Attachment 2 of this filing includes the cost data and the cost support analysis for the Amended 1995 Agreement and the attestation of Mr. William A. Vinhage, who completed the cost support analysis. Mr. Vinhage is a Senior Regulatory Specialist in Progress' Accounting & Regulatory Department. The cost support analysis supports the stated Monthly Capacity Charge and the stated Monthly Non-fuel Energy Charge.

Mr. Vinhage utilized the Commission's fixed charge rate methodology. The fixed charge rate methodology is based on Progress' 2008 actual costs from Progress' FERC Form No. 1 report and an 11% rate of return on equity, which is reasonable for a vertically integrated utility with retail and wholesale customers.[15] Attachment 2 provides the support for the fixed charge rate calculations along with Statements BB, BG and BK. The work papers developing the fixed charge rate methodologies utilize a pro forma 50% debt/ 50% equity capital structure and a 6.04% debt cost along with an 11% equity cost to arrive at a total return of 8.52%.

Mr. Vinhage's fixed charge rate methodology reflects the nature and firmness of the product supplied under the Amended 1995 Agreement. As previously described, the Amended 1995 Agreement provides for the sale of System Combined Cycle Capacity and Corresponding Energy from the combined cycle generating units at the Hines Energy Center. However, this product does not represent a unit sale from the Hines Energy Center. A unit sale is a non-firm sale that is fully interruptible when the generating unit is not available. In contrast, the capacity and energy provided under this Amended 1995 Agreement is as firm as Progress' service to its Firm Native Load customers. Accordingly, the pricing in this Amended 1995 Agreement appropriately reflects a premium to compensate Progress for the firmness of this product.

To reflect the nature and firmness of this product, the fixed charge rate

---

[15] The Commission has accepted an 11% ROE in recent filings of cost-based power sales agreements by PEF and its affiliate, Carolina Power & Light Company, doing business as Progress Energy Carolinas, Inc. *See, e.g., Florida Power Corporation*, Docket No. ER09-909-000, Letter Order dated May 8, 2009 (order accepting PEF's cost-based power sales agreement with Seminole), *Carolina Power & Light Company*, Docket No. ER10-225-000, Letter Order dated December 23, 2009 (order accepting revised cost-based power sales agreement with North Carolina Electric Membership Corporation).

methodology includes an 81.7% weighting of the costs of the Hines Energy Center[16] and a 18.3% weighting of the costs of Progress' other baseload facilities.[17] The 81.7% weighting of the costs of the Hines Energy Center is based on the fact that the Hines Energy Center has a 2008 Equivalent Availability Factor of 81.7%, which means that the Hines Energy Center is available to operate 81.7% of the time based on its scheduled and forced outages.[18] When the Hines Energy Center, one of Progress' baseload facilities, is not available to provide capacity and energy, Progress would need to call upon its other baseload facilities to meet the commitment to supply this firm as native load product under the Amended 1995 Agreement. Accordingly, Progress includes a 18.3% weighting of the costs of Progress' other baseload facilities in the fixed charge rate methodology.

However, the 2008 historical FERC Form 1 costs of Progress' other (non-Hines) baseload facilities are not representative of Progress' costs to serve Seminole from 2011 through 2013. The Amended 1995 Agreement's rates were negotiated by the parties bearing in mind that there are certain known and significant generation investments in 2009 and 2010 for Progress' other baseload facilities including: (1) capital improvements for environmental compliance costs for Crystal River North Units #4 and 5, and (2) repowering costs associated with the Bartow Power Station. Exhibit WAV-14 provides supporting information for these known generation investments. Exhibit WAV-14 also identifies Florida Public Service Commission ("FPSC") proceedings in which this cost information has been publicly-filed at the FPSC. The capital improvements for environmental compliance costs for Crystal River North Units #4 and 5 have been approved by the FPSC.[19] The repowering costs associated with the Bartow Power Station have been approved by the FPSC in Progress' general rate proceeding.[20] These known generation investments are included in the fixed charge

---

16 The Hines Energy Center is a baseload facility in Progress' fleet of generating resources.

17 *See* the formula in the "Reference" column of lines 13 and 22 of Exhibit WAV-1.

18 *See* Exhibit WAV-15 for the supporting information concerning the Hines Energy Center's 2008 Equivalent Availability Factor.

19 *See* Exhibit WAV-14 in Attachment 2.

20 *Id.* As set forth in Exhibit WAV-14, as a result of the Bartow repowering in 2009, PEF reclassified Bartow as a baseload generating resource from an intermediate generating resource.

rate methodology, as shown on lines 2-3 of Exhibit WAV-1.[21]

In addition, Progress notes that the cost support analysis applies a 2.5% average inflation rate to the 2008 operations and maintenance expenses and 2008 administrative and general expenses from the FERC Form 1 in order to approximate the actual expenses during the service to Seminole in 2011 through 2013 under this Amended 1995 Agreement. This average inflation rate is an average of the Consumer Price Index (CPI) results for the South Region of the United States. Exhibit WAV-13 includes the supporting information for the inflation rate.

Exhibit WAV-1 demonstrates that the revenues generated by the stated monthly capacity rate and the stated non-fuel energy rate are less than Progress' cost to serve Seminole in each of the three years of this Amended 1995 Agreement.

The formula rates included in the Amended 1995 Agreement satisfy the Commission's specificity requirements for formula rates. The Commission generally requires formula rates to be specific enough for any reasonably knowledgeable party to be able to calculate for itself what charge will be produced by the formula. *Pacific Gas & Electric Co.*, Opinion No. 459, 100 FERC ¶ 61,160, at P 22 (2002); *reh'g denied*, Opinion No. 459-A, 101 FERC ¶ 61,139 (2002). *See also Kern River Gas Transmission Co.*, 97 FERC ¶ 61,145, at 61,631 (2001) (formula rate must be stated "with sufficient clarity that a third party can easily calculate the rate charged") (*citing NorAm Gas Transmission Co.*, 75 FERC ¶ 61,091, at 61,309 (1996) (stating requirements for accepting formula rates in lieu of "actual rates" in negotiated rates under the Natural Gas Act)). As set forth in Parts II.A and II.B of this filing letter, the Amended 1995 Agreement includes detailed descriptions as to how the formulas will be calculated.

For these reasons, the Commission should accept these stated and formula rates as just and reasonable under Section 205 of the Federal Power Act.

Furthermore, in accordance with Section 205 of the Federal Power Act, the Commission should accept these rates because they do not provide an undue preference to Seminole. It is well-settled that differences in rates are justified based on factual differences between customers and that these differences may arise from

---

[21] Progress filed cost support including the same, known generation investments in 2009 and 2010 in Progress' recent filing of a power sales agreement with Reedy Creek Improvement District, Docket No. ER10-616-000. This filing has been accepted by the Commission, subject to a compliance filing to correct a typographical error in the agreement. *Florida Power Corporation*, Docket No. ER10-616-000, Letter Order dated March 11, 2010. In addition, Progress has made and the Commission has accepted several, recent filings that added known generation investment to Progress' historical cost support. *See, e.g., Florida Power Corporation,* Docket No. ER09-909-000, Letter Order dated May 8, 2009.

differing costs of service or other factors.[22] The proposed rates, terms and conditions of the Amended 1995 Agreement filed herein are based on the factual circumstances concerning the type of service that Seminole requires, Progress' cost to provide those services, and other factual considerations.

IV. REQUESTED EFFECTIVE DATE

Progress respectfully requests that the Commission accept this Amended 1995 Agreement for filing sixty days after the date of filing, which is May 15, 2010. Although the new sale of System Combined Cycle Capacity and Corresponding Energy under the Amended 1995 Agreement does not begin until January 1, 2011, Progress and Seminole would like regulatory certainty concerning this important power supply arrangement as soon as reasonably possible. Accordingly, Progress requests that the Commission act on and accept this Amended 1995 Agreement for filing within sixty days after the date of filing. Seminole has authorized Progress to state that it supports this request.

Progress also respectfully requests waiver of the Commission's requirement that rate schedules be filed no more than 120-days prior to the commencement of service under the rate schedule. Under Section 35.3 of the Commission's regulations, 18 C.F.R. § 35.3, filing utilities may file no more than 120 days in advance of the proposed effective date. However, the Commission may waive this 120-day advance notice requirement to accept filings that are made more than 120 days in advance of the proposed effective date. In fact, the Commission often reviews and acts on proposed rates for transactions that will not take place until months or years later. *See, e.g., Missouri River Energy Services,* 124 FERC ¶ 61,309, at P 43 (2008); *Cincinnati Gas & Electric Co.,* 113 FERC ¶ 61,197, at P 25 (2005); *PSI Energy, Inc.*, 56 FERC ¶ 61,237, at 61,911 (1991); *Dartmouth Power Associates Limited Partnership,* 53 FERC ¶ 61,117, at 61,355 (1990); *Duke Power Co.,* 43 FERC ¶ 61,001, at 61,003 (1988).[23]

Progress submits that there is a reasonable basis for the Commission to waive the 120-day requirement because the interests of both Progress and Seminole would be served by obtaining regulatory certainty concerning this important power supply

---

[22] *See e.g., Cities of Newark v. FERC,* 763 F.2d 533 (3rd Cir. 1985). When one customer has a lower rate under a contract, the utility does not violate Section 205(b) by charging other customers higher rates where factual differences justify the rate disparity. *See City of Frankfurt v. FERC,* 678 F.2d 699 (7th Cir. 1982).

[23] *See also, Florida Power Corporation,* Docket No. ER07-692-000, Letter Order dated May 2, 2007 (accepting and granting an effective date of June 28, 2007 for a power sales agreement between Progress and Seminole that will begin service until January 1, 2014) and *Florida Power Corporation,* Docket No. ER08-223-000, Letter order dated January 1, 2008 (accepting and granting an effective date of February 15, 2008 for a power sales agreement between Progress and Seminole that will begin service until January 1, 2012).

arrangement as soon as reasonably possible. Furthermore, because a public notice has been issued concerning this filing and the filing is publicly-available from the Commission's eLibrary service, no third party would be prejudiced by the Commission's grant of waiver of this requirement.

V. CONTENTS OF FILING

The following documents are included in this filing:

(1) A clean and redlined copy of the Amended 1995 Agreement, which has been designated consistent with Order No. 614 ("Attachment 1");

(2) The cost support and attestation of Mr. William A. Vinhage ("Attachment 2"); and

(3) A List of Recipients ("Attachment 3").

VI. MISCELLANEOUS

To the extent necessary, Progress requests waiver of the cost support requirements under the Commission's regulations in 18 C.F.R. § 35.13 (2009). The cost support provided in Attachment 2 and this filing letter demonstrates that the proposed rates are just and reasonable.

No costs or expenses supporting the charges set forth in the Amended 1995 Agreement have been alleged or judged in any administrative or judicial proceeding to be illegal, duplicative, or unnecessary costs that are demonstrably the product of discriminatory practices. This filing does not provide for specifically assigned facilities.

This filing has been mailed to Seminole and the Florida Public Service Commission, as set forth in the Attachment 3 List of Recipients. Progress requests that the Commission place the following individuals on the official service list in this proceeding:

Kendal C. Bowman, Esquire
Associate General Counsel
Progress Energy Service Company
Mail Code PEB 17B2
P.O. Box 1551
Raleigh, NC 27602
Telephone: (919) 546-6794
Facsimile: (919) 546-2920
E-Mail: kendal.bowman@pgnmail.com

And

Antonia A. Frost, Esquire
Bruder, Gentile & Marcoux, L.L.P.
1701 Pennsylvania Avenue, N.W.
Suite 900
Washington, D.C. 20006-5807
Telephone: (202) 296-1500
Facsimile: (202) 296-0627
E-Mail: aafrost@brudergentile.com

VII. CONCLUSION

Progress respectfully requests that the Commission accept the Amended 1995 Agreement as just, reasonable and not unduly preferential under Section 205 of the Federal Power Act and that the Commission grant the effective date requested herein. Progress thanks the Commission for its consideration of this filing. Please contact the undersigned if you have any questions.

Very truly yours,

Antonia A. Frost

Counsel for Florida Power Corporation

AGREEMENT FOR SALE AND PURCHASE OF CAPACITY AND ENERGY

This Agreement is made and entered into by and between Seminole Electric Cooperative, Inc., a Florida corporation ("Seminole"), and Florida Power Corporation, a Florida corporation ("FPC").

WITNESSETH

For and in consideration of the mutual covenants and agreements herein contained and other good and valuable considerations to each of the Parties hereto, the Parties do hereby mutually agree as follows:

SECTION 1 - DEFINITIONS

For the purposes of this Agreement, the terms defined in this section shall have the following meanings. Except where the context otherwise requires, definitions and other terms expressed in the singular shall include the plural and vice versa.

1.1. **"1983 Agreement"** shall mean the Agreement Between Florida Power Corporation and Seminole Electric Cooperative, Inc. for Supplemental Resale Service, Transmission and Distribution Service and Load Following Service dated October 13, 1983, as amended from time to time.

1.2. **"Billing Month"** shall mean a calendar month billing cycle for invoicing.

1.3. **"Control Area"** shall mean a power system or combination of power systems to which a common automatic generation control scheme is applied.

1.4. **"Corresponding Energy"** shall mean the energy (MWh) associated with the System Intermediate Capacity or System Peaking Capacity, as applicable.

1.5. **"Due Date"** shall have the meaning set forth in Section 4.1 hereto.

1.6. **"FERC"** shall mean the Federal Energy Regulatory Commission or any successor agency.

1.7. **"Firm Native Load"** shall mean the demands of customers for which the supplying Party, by statute, franchise, regulatory requirements, or contract, has undertaken the obligation to plan, construct and operate its system to provide reliable power supply services. Firm Native Load shall not include interruptible or curtailable load.

1.8. **"Hines Energy Complex"** shall mean FPC's generating site located at 7700 CR 555, Bartow, Florida 33830.

1.9. "Intermediate Capacity Resources" shall be the generating resources on the FPC system identified in Exhibit 1 hereto.

1.10. "Member" shall mean any entity for which Seminole, by contract, has undertaken the obligation to plan and operate its system to provide reliable power supply services.

1.11. "Operating Reserve Requirement" shall mean Seminole's allocated share of the State's operating reserve for the day, as established pursuant to the procedures of the applicable governing authority (i.e., currently the Florida Regional Coordinating Council).

1.12. "Party" shall mean Seminole or FPC or a permitted transferee, successor or assignee of either.

1.13. "Peaking Capacity Resources" shall be the generating resources on the FPC system identified in Exhibit 2 hereto.

1.14. "Point of Interconnection" shall mean a point at which two Control Areas are electrically tied to one another.

1.15. "Point of Receipt" shall have the meaning set forth in Sections 3.7, 6.8 and 7.1 hereto, as applicable.

1.16. "RUS" shall mean Rural Utilities Service or any successor agency.

1.17. "System Intermediate Capacity" shall mean the capacity purchased by Seminole from the Intermediate Capacity Resources under the terms of Sections 3 and 6.2 hereto.

1.18. "System Peaking Capacity" shall mean the capacity purchased by Seminole from the Peaking Capacity Resources under the terms of Section 6 hereto.

1.19 "2006 Converted System Intermediate Capacity" shall have the meaning set forth in Section 6.2.

SECTION 2 - SEMINOLE'S COMMITTED CAPACITY

2.1. Committed Capacity Specification

Effective January 1, 1999, Seminole's Committed Capacity under the 1983 Agreement will be increased by 150 MW over the then-specified level designated by Seminole for calendar years 1999 through 2004 pursuant to Exhibit A, Schedule 1, Terms and Conditions of Service Specific to Supplemental Resale Service, Article 2 of said Agreement.

2.2. 1983 Agreement

Except as provided in Section 3.1 below, nothing in this Agreement shall be deemed to modify Seminole's right to make further changes to its Committed Capacity pursuant to the 1983 Agreement.

SECTION 3 - SYSTEM INTERMEDIATE CAPACITY

3.0 Capacity Blocks

System Intermediate Capacity will be comprised of two 150 MW blocks. The first block shall be designated as the "1999 System Intermediate Capacity"; the second block as the "2006 System Intermediate Capacity." The phrase "System Intermediate Capacity" shall be used herein to represent one or both of the aforementioned blocks, as the context indicates.

3.1. Duration

(a) Effective January 1, 1999, FPC will commence the sale to Seminole of the 1999 System intermediate Capacity and Corresponding Energy. Such sale shall continue through December 31, 2013, unless terminated by Seminole upon three (3) years' written notice to FPC. Seminole may also reduce the quantity of the 1999 System Intermediate Capacity upon three (3) years' written notice to FPC. Notwithstanding the foregoing, Seminole shall not, under the three (3) year notice provision of this Agreement and in the 1983 Agreement, be permitted in any one year to reduce its purchases of the 1999 System Intermediate Capacity and, through an increase in its Committed Capacity under the 1983 Agreement, reduce its Supplemental Resale Service by a combined total of more than 150 MW; provided, however, the foregoing provision does not otherwise limit Seminole's ability (i) to change its Committed Capacity under the 1983 Agreement by more than 150 MW in any given calendar year through a combination of the three (3) year notice described above and the shorter term notice adjustments allowable thereunder or (ii) in any given year to reduce its purchase of the 1999 System Intermediate Capacity hereunder by up to 150 MW under the three (3) year notice provision and to increase its Committed Capacity under the 1983 Agreement's shorter term notice adjustments allowable thereunder.

(b) Effective June 1, 2006, FPC will commence the sale to Seminole of the 2006 System Intermediate Capacity and Corresponding Energy. Such sale shall continue through December 31, 2013, unless terminated by Seminole upon three (3) years' written notice to FPC. Seminole may reduce the quantity of the 2006 System Intermediate Capacity upon three (3) years' written notice to FPC. Seminole may, through written notification provided to FPC on or before August 1, 2002, change the 2006 System Intermediate Capacity commencement date from June 1, 2006 to December 1, 2005.

3.2. Dispatch

System Intermediate Capacity will be given a dispatch and commitment priority equivalent to that of FPC's Firm Native Load. Seminole may use said System Intermediate Capacity and Corresponding Energy for any purpose. Such purposes shall include, but not be limited to, using said System Intermediate Capacity and Corresponding Energy (i) as an additional resource to be dispatched (economically or otherwise) to serve Member load (without regard to Control Area location of such load), (ii) to meet Seminole's Installed and Operating Reserve Requirement, (iii) to sell emergency and all other interchange services to other utilities, (iv) as alternative dependable capacity in quoting or otherwise seeking to obtain lower priced energy from alternate power supply resources, and (v) to sell capacity and/or energy to other entities.

3.3. Pre-Scheduling

By 10:00 a.m. Eastern Prevailing Time on each day prior to the next delivery day, Seminole shall submit to FPC schedules of its anticipated requirements (MW/hour) for the 1999 System Intermediate Capacity and the 2006 System Intermediate Capacity at the Point of Receipt for each hour of the succeeding calendar day in two separate notifications as specified in Section 5.10. If Seminole does not anticipate using such capacity, it will submit zero (0) for each of the hours for the day-ahead schedule. In the event FPC does not receive a pre-schedule for the System Intermediate Capacity or does not receive the System Intermediate Capacity pre-schedule on time either by normal notification or the back-up notification system, and provided FPC has called Seminole and waited at least one hour from said call for Seminole to resolve the deficient pre-schedule, a schedule of zero (0) MW will be used for all hours of the System Intermediate Capacity pre-scheduled period. Hourly schedules for each of the 1999 System Intermediate Capacity and the 2006 System Intermediate Capacity cannot exceed 150 MW or be less than zero.

3.4. Schedule Changes

(a) For the 1999 System Intermediate Capacity, Seminole may make changes to the hourly pre-schedule provided to FPC under Section 3.3 above subject to the notice provisions below.

(i) Seminole may, on thirty (30) minutes' notice, change the next hour's schedule specification for 1999 System Intermediate Capacity by up to 75 MW more or less than the MW schedule specification for the hour during which such notice is given, provided that such change does not

cause the schedule to go below zero (0) MW or exceed 150 MW.

(ii) Notwithstanding the provisions of Section 3.4(a)(i) above, Seminole may schedule up to the full amount of the 1999 System Intermediate Capacity on thirty (30) minutes' notice in the event of a forced outage or forced de-ration of any Seminole firm capacity resource, including firm purchased power resources that are included in Seminole's installed reserve margin, provided that the MW amount scheduled under this provision may not exceed the MW quantity associated with such forced outage or forced de-ration. At the conclusion of a forced outage or forced de-ration event, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule for the upcoming hour to the level which existed at the time the 1999 System Intermediate Capacity was called upon to respond to such event or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without being subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above. If pursuant to a thirty (30) minute notice at the conclusion of a forced outage or forced de-ration event, Seminole establishes a schedule for the upcoming hour at a level different from the levels referenced in the prior sentence, then such change shall be subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above.

(iii) Notwithstanding the provisions of Section 3.4(a)(i) above, if Seminole requires the 1999 System Intermediate Capacity to meet its Operating Reserve Requirement, the amount of the 1999 System Intermediate Capacity required by Seminole for said purposes shall be made available to Seminole within ten (10) minutes from the time such notice is provided. At the conclusion of Seminole's use of the 1999 System Intermediate Capacity to meet its Operating Reserve Requirements, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule to the level which existed at the time the 1999 System Intermediate Capacity was called upon for said purpose or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without being subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above. If pursuant to a thirty (30) minute notice at the conclusion of said event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall be subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above.

(iv) Notwithstanding the provisions of Section 3.4(a)(i) above, Seminole may make changes to the hourly schedule of the 1999 System Intermediate Capacity with twenty (20) minutes' notice in the event and to the extent that Seminole requires such capacity after having failed to consummate an hourly economy transaction for which Seminole had quoted a 1999 System Intermediate Capacity based quantity and cost.

(v) For any hour during the delivery day in which (a) Seminole's pre-schedule showed no requirement for 1999 System Intermediate Capacity and (b) the scheduling of such capacity for such hour would require FPC to start up a fossil steam unit, the hourly schedule changes provided for in Section 3.4(a)(i) are not applicable, and Seminole must instead provide eight (8) hours' notice of any change to the hourly pre-schedule provided in accordance with Section 3.3 above; provided that this clause shall not be applicable if Sections 3.4(a)(ii), (iii) or (iv) is applicable.

(iv) FPC may waive the aforementioned conditions if FPC in its sole discretion determines that it can reasonably accommodate such schedule changes.

(b) For the 2006 System Intermediate Capacity, Seminole may make changes to the hourly pre-schedule provided to FPC under Section 3.3 above subject to the notice provisions below.

(i) Seminole may, on thirty (30) minutes' notice, change the next hour's schedule specification for the 2006 System Intermediate Capacity by up to 50 MW more or less than the MW specification for the hour during which such notice is given, provided that such change does not cause the schedule to go below zero (0) MW or exceed 150 MW; and provided that throughout the course of the calendar day such scheduling changes do not result in more than six (6) "Change Events." A Change Event occurs when Seminole provides thirty (30) minutes' notice that it is changing the schedule for the next hour to a level different from that specified in the pre-schedule. Notwithstanding the foregoing, if at the time Seminole provides such thirty (30) minute notice for a change in the upcoming hour, it also advises FPC that it intends to retain this new MW schedule for the upcoming hour and for at least two additional consecutive hours following the upcoming hour ("Additional Hours"), then no Change Event will be assigned to said Additional Hours. If at the time of said notice, Seminole also indicates that it will revert back to the pre-scheduled MW level at the conclusion of said Additional Hours, then the change in schedule from the last Additional Hour to the hour reverting to the pre-scheduled MW level will not be considered a Change Event. If, however, Seminole subsequently provides thirty (30) minute notice to change a schedule for an Additional Hour, it may do so, provided however, that a Change Event for each hour so changed shall be recorded unless at the time of such notice, Seminole provides a new schedule of Additional Hours in which case only one Change Event shall be charged (i.e., relating to the first hour changed in the new schedule). For example, if Seminole specifies a pre-schedule of 100 MW for each hour, and Seminole changes said schedule with thirty (30) minutes' notice for hour ending 0800 to 50 MW, and further indicates that it wishes to hold the 50 MW schedule through hour ending 1500, at which time the schedule reverts to the original pre-schedule amount of 100 MW for hour ending 1600, this would count as one Change Event.

If, however, during hour ending 1200 Seminole provides thirty (30) minutes' notice that it intends to revert back to the then-effective pre-schedule amount of 100 MW for hour ending 1300, this would count as one additional Change Event since Seminole reverted to the pre-scheduled MW level prior to the time indicated in the prior (i.e., hour ending 0800) notice. If instead, during hour ending 1200 Seminole provides thirty (30) minutes' notice of a change in schedule for hour ending 1300 to 90 MW and with said notice indicates that it intends to hold this schedule through hour ending 1500 and then reverts back to the pre-scheduled MW level in hour ending 1600, such change would only result in one additional Change Event, since Seminole established Additional Hours at the time of such notice and returned to the pre-scheduled MW level at the same time it had previously indicated it would do so in the prior notice. The Change Event in such circumstance would relate to the change between hour ending 1200 to 1300 (i.e., 50 MW to 90 MW). If instead, during hour ending 1200 Seminole provides thirty (30) minutes' notice of a change in schedule for hour ending 1300 to 90 MW and subsequently changes, with thirty (30) minutes' notices, hour ending 1400 to 80 MW, hour ending 1500 to 90 MW, and hour ending 1600 to 50 MW, all without a schedule of Additional Hours at the time of each respective thirty (30) minute notice, then each of these changes would constitute Change Events.

(ii) Notwithstanding the provisions of Section 3.4(b)(i) above, Seminole may schedule up to the full amount of the 2006 System Intermediate Capacity on thirty (30) minutes' notice in the event of a forced outage or forced de-ration of any Seminole firm capacity resource, including firm purchased power resources that are included in Seminole's installed reserve margin, provided that the MW amount scheduled under this provision may not exceed the MW quantity associated with such forced outage or forced de-ration. At the conclusion of a forced outage or forced de-ration event, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule for the upcoming hour to the level which existed at the time the 2006 System Intermediate Capacity was called upon to respond to such event or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above. If pursuant to a thirty (30) minute notice at the conclusion of a forced outage or forced de-ration event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above.

(iii) Notwithstanding the provisions of Section 3.4(b)(i) above, if Seminole requires the 2006 System Intermediate Capacity to meet its Operating Reserve Requirement, the amount of 2006 System Intermediate Capacity required by Seminole for said purpose shall be made available to Seminole within ten (10) minutes from the time such notice is provided. At the conclusion of Seminole's use of the 2006 System Intermediate Capacity to meet its Operating Reserve Requirements, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule to the level which existed at the time the 2006 System Intermediate Capacity was called upon for said purpose, or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above. If, pursuant to a thirty (30) minute notice at the conclusion of said event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above.

(iv) Notwithstanding the provisions of Section 3.4(b)(i) above, Seminole may, on eight (8) hours' notice, change the pre-schedule for the 2006 System Intermediate Capacity. Changes made with such eight (8) hour notice shall not constitute Change Events, and such most recent revised schedule shall be used for purposes of implementing Section 3.4(b)(i) above.

(v) For any hour in which (a) Seminole's previous day schedule showed no requirement for 2006 System Intermediate Capacity and (b) the scheduling of such capacity for such hour would require FPC to start up a fossil steam unit, the hourly schedule changes provided for in Section 3.4(b)(i) are not applicable, and Seminole must instead provide eight (8) hours' notice of any change to the hourly pre-schedule provided in accordance with Section 3.3 above; provided that this clause shall not be applicable if Sections 3.4(b)(ii), (iii), or (iv) is applicable.

(vi) FPC may waive the aforementioned conditions if FPC in its sole discretion determines that it can reasonably accommodate such schedule changes.

3.5. Rates and Charges

Through December 31, 2010, the charges for System Intermediate Capacity and Corresponding Energy shall be limited to the following:

(a) Monthly Capacity Charge - $6.31/kW/month of System Intermediate Capacity as determined in accordance with Section 3.0 above.

(b) Monthly Non-fuel Energy Charge - $5.62/MWh multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

(c) Monthly Fuel Charge - The Monthly Fuel Charge shall be an amount equal to the average cost, expressed in $/MWh, of the fuel burned at the generating units specified on Exhibit 1 and the fuel and non-fuel energy charges associated with the purchased power resources listed on Exhibit 1 during the Billing Month multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

3.6. Amendments to Rates, Charges and Resources

(a) Except as provided in Section 6.2(a), effective June 1, 2010, FPC or Seminole will be free to seek to amend the rates and charges in Section 3.5 as well as the list of System Intermediate Capacity Resources through an appropriate filing at the FERC, provided that such filing does not seek an effective date prior to January 1, 2011. The Parties have agreed to waive their rights to seek such changes prior to such time. Except as provided in Section 3.1 above, all other provisions contained in this Section 3 are intended to remain fixed through December 31, 2013, unless otherwise mutually agreed to by the Parties.

(i) FPC waives, for the remaining term of this Agreement, its right under Section 3.6(a) of this Agreement to make a filing at the FERC to seek to change the rates and charges provided for in Section 3.5 of this Agreement or to further alter the list of Intermediate Capacity Resources provided for in Exhibit 1, as amended, of this Agreement.

(ii) Seminole waives, for the remaining term of this Agreement, its termination and capacity reduction rights under Sections 3.1(a) and (b) of this Agreement in relation to the 1999 System Intermediate Capacity and 2006 System Intermediate Capacity, respectively.

3.7. Point of Receipt

The Point of Receipt for System Intermediate Capacity and Corresponding Energy shall be at the point such capacity and energy is input into the FPC transmission system.

3.8. Transmission Service

FPC will provide Seminole with the transmission services described below for deliveries of System Intermediate Capacity and Corresponding Energy from the Point of Receipt:

(a) to Member load delivery points within the FPC Control Area:

FPC shall provide transmission service under the 1983 Agreement until such time as transmission service under the 1983 Agreement is

transferred to service under FPC's open access load-following Network Load Service under the Network Transmission Service Schedule in FPC's Transmission Tariff or applicable successor thereto. The treatment of losses associated with the delivery of System Intermediate Capacity and Corresponding Energy to Seminole Member load delivery points within the FPC Control Area will be in accordance with the 1983 Agreement or successor thereto.

(b) to FPC's Points of Interconnection with other utilities, including Seminole:

In circumstances where Seminole desires to transmit the System Intermediate Capacity and Corresponding Energy from the Point of Receipt to FPC's Points of Interconnection with other utilities, including Seminole, FPC shall offer Seminole the option of choosing any service available under FPC's open access transmission tariff at the appropriate cost, including hourly non-firm service. The quantity of System Intermediate Capacity and Corresponding Energy received by Seminole at the Point of Receipt shall be reduced by FPC's average system transmission losses for the most recent calendar year to determine the quantity of such capacity and energy delivered to FPC Points of Interconnection with other utilities, including Seminole. Seminole's multiple Points of Interconnection with FPC will, for purposes of the transmission tariff, be treated as a single point of delivery between Seminole and FPC.

3.9 Total Monthly Billing Constraint

Notwithstanding the rates and charges set forth in Section 3.5, the total monthly billing under this provision shall not exceed the sum of (a) and (b) below:

(a) the product of the System Intermediate Capacity times $7.03/kW; plus

(b) the product of all Corresponding Energy for the Billing Month times 100% of the average cost, expressed in $/MWh, of the fuel burned at the generating units specified on Exhibit 1 and the fuel and non-fuel energy charges associated with the purchased power resources listed on Exhibit 1 during the Billing Month.

(c) this Section 3.9 shall only apply to the 1999 System Intermediate Capacity.

SECTION 4 - BILLING AND PAYMENT

4.1. Payments

Bills under this Agreement shall be rendered on a monthly basis. Bills shall be due and payable within twenty (20) days from the date of receipt ("Due Date"). All payments shall be made by wire in accordance with terms and wire instructions as set

forth in the invoice. If the Due Date falls on a bank holiday, payment shall not be due until the first succeeding non-bank holiday. If payment is not received within said twenty (20) day period, a late payment charge shall accrue at the rate set for refunds under the Federal Power Act pursuant to 18 C.F.R. § 35.19a.

4.2. Estimated Charges

In order to expedite billing, if actual cost information is not available at the time an invoice for the Billing Month is rendered, the Party rendering such invoice shall use reasonable estimates of such costs based on the best available data for purposes of rendering an initial invoice for the Billing Month. Differences between estimated and actual costs will be reconciled and trued-up with interest at the rate identified in Section 4.1 in the first available invoice following the receipt of actual cost data.

4.3. Disputed Bill

In the event that either Party challenges any portion of a bill rendered under this Agreement, said Party shall, notwithstanding the existence of the dispute, pay both the disputed and undisputed portions of the bill on or before the Due Date. All overcharges shall be refunded with interest as set forth in Section 4.1.

4.4. Audits

Each Party shall provide or cause to be provided all information that each may reasonably request to substantiate all billings, adjustments, and other matters pertaining to the performance of the other Party under this Agreement. Each Party shall, upon written notice, have the right to audit, and the other Party shall make or cause to be made available, any and all books and records of the other Party which relate to and are necessary for verification of charges and costs included in invoices or amended invoices rendered under this Agreement, including those books and records for years outside the period subject to audit to the extent they contain information that may affect charges and costs subject to audit. Any audit shall be conducted at the auditing Party's sole expense and may be performed by designated employees, consultants or agents of the auditing Party that the auditing Party determines in its sole discretion are experienced in utility practices. Upon request, a Party will be entitled to review the complete audit report of another Party, including any supporting materials.

4.5. Books and Records

Each Party shall keep compete and accurate records and memoranda of its actions taken hereunder and shall maintain such records, memoranda, and data as may be necessary to determine or justify with reasonable accuracy any item relevant to this Agreement.

4.6. Stranded Investment

FPC agrees that it will not pursue recovery of "stranded investment costs" related to any reduction or termination of System Intermediate Capacity or of System Peaking Capacity made in accordance with this Agreement.

4.7. Ancillary Services

FPC agrees that the Monthly Capacity Charges contained in this Agreement related to purchases of System Intermediate Capacity and System Peaking Capacity have been structured so as to compensate FPC for production-related costs allocated to Ancillary Services provided under FPC's FERC-approved Transmission Tariff, and consequently it is agreed that no such charges will be assigned to Seminole for transmission services described in this Agreement applicable to the aforementioned purchases. Seminole shall be responsible for the costs of Schedule 1, Scheduling, System Control and Dispatch Service and Schedule 4, Energy Imbalance Service. FPC's merchant function shall bear any costs that Seminole actually incurs related to Schedule 2, Reactive Supply and Voltage Control from Generation Sources Service; Schedule 3, Regulation and Frequency Response Service; Schedule 5, Operating Reserve – Spinning Reserve Service; and Schedule 6, Operating Reserve – Supplemental Reserve Service.

SECTION 5 - MISCELLANEOUS

5.1. Responsibility and Indemnification

Each Party hereto expressly agrees to indemnify and save harmless and defend the other against all claims, demands, costs, or expense for loss, damage or injury to persons or property, in any manner directly connected with or growing out of the generation, transmission, or use of electric capacity and energy on its own side of the Point(s) of Interconnection, unless such claim or demand shall arise out of or result from the negligence or willful misconduct of the other Party, its agents, servants, contractors, or employees; provided, however, that neither Party hereby assumes responsibility for damage or injury to employees of the other Party whenever said other Party's employees are on the first Party's premises.

5.2. Governing Law

This Agreement shall be governed by, and construed in accordance with, the laws of the State of Florida.

5.3. Successors and Assigns

This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties, except that this Agreement may not be assigned by either Party unless consent to the assignment is given in writing by the other Party or such assignment is incident to a merger or consolidation with, or transfer of all or substantially all of the assets of the transferor to, another person or business entity which shall, as part of such succession, assume all the obligations of the transferor under this Agreement. Any assignment made without the consent required shall be void and of no force or effect as against the non-consenting Party. Such consent may not be unreasonably withheld or delayed. Notwithstanding the foregoing, Seminole, without FPC's consent, may assign, transfer, mortgage or pledge the Agreement to create a security interest for the benefit of the United States of America, acting through the RUS. Thereafter, the RUS, without the approval of FPC, may cause the Agreement to be sold, assigned, transferred, or otherwise disposed of to a third party.

5.4. No Amendments Without Consent

This Agreement shall not be amended, changed, altered, or modified except by a written instrument duly executed by an authorized representative of each Party. Each Party agrees not to seek modification of this Agreement under the Federal Power Act to which the other Party has not consented and in which it does not join. Further, each Party agrees that it will not solicit or encourage in any way any third party to seek modification of the Agreement under the Act and, in fact, will use its best efforts to dissuade such party from any such action. The commitments in this Section not to seek modification of the Agreement under the Act are made with the recognition that the commitment constitutes a "practically insurmountable burden" on either Party to obtain

unilateral amendment under the Act. *United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350* U.S. *332 (1956)* and *FPC v. Sierra Pacific Power Co., 350* U.S. 348 (1956). *See also Papago Tribal Utility Authority v. FERC,* 723 F.2d 950, 954. Notwithstanding the above, Seminole shall have the right, under Sections 211 *et seq. of* the Federal Power Act, to seek to modify the transmission arrangements described in Section 3.8 herein.

5.5. Transmission Services

Certain transmission service provisions have been included in Sections 3 and 6, notwithstanding the fact that the Parties do not know at this time what transmission services will be available at the time service commences hereunder. Therefore, the Parties agree and understand that if more efficient and/or economical transmission services exist at the time service is being provided hereunder, Seminole may elect to use such services and FPC will make such services available to Seminole at Seminole's request.

5.6. Notices

Except as otherwise provided herein, notices and other written communications under this Agreement shall be addressed to FPC's Director of Term Marketing South, Regulated Commercial Operations, and to Seminole's Vice President, Strategic Services, in the case of Seminole at their respective corporate headquarters or to such other persons as the Parties may designate in writing from time to time. Notwithstanding the foregoing, any communications regarding operational emergencies or other operational problems may be made orally or in any other manner reasonable under the circumstances and should be directed to the appropriate operational personnel of the Parties.

5.7 RUS Approval

This Agreement is subject to the approval of the Administrator of the RUS.

5.8 Headings

Section Headings in this Agreement are included herein for convenience of reference only and shall not constitute a part of this Agreement for any other purpose.

5.9 Contract Construction

For purposes of construing this Agreement, it is agreed and understood that both Parties are equally responsible for drafting same.

5.10 Notification Format

Normal notifications from Seminole to FPC for Sections 3.3, 3.4, 6.4, and 6.5 shall be via electronic mail sent to [energy.trader@pgnmail.com] in a plain text file format with a defined subject line and all formatting to be determined by FPC at a later date. Electronic mail

addresses may be added, changed or deleted from time to time upon FPC's request. An alternate notification back-up system shall be by facsimile at #919-546-3374. The facsimile number may also be changed from time to time as needed.

Normal notification from FPC to Seminole for Section 6.4 shall be via electronic mail sent to [emcc@seminole-electric.com] in a plain text file format with a defined subject line of "SECI Pre-Schedule." Electronic mail addresses may be added, changed or deleted from time to time upon Seminole's request. An alternate notification back-up system shall be by facsimile at #813-963-2909. The facsimile number may also be changed from time to time as needed.

5.11 Dispute Resolution for Selection of Comparable Successor Pricing Point for Daily Fuel Price Calculation for the Corresponding Energy from System Combined Cycle Capacity

(a) If McGraw Hill (or its successor) ceases to provide the daily midpoint price for the Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, and FPC and Seminole are unable to agree upon a comparable successor pricing point for the Daily Fuel Price Calculation for the Corresponding Energy from System Combined Cycle Capacity, then the Parties agree to the following dispute resolution procedures to resolve a dispute concerning the selection of a comparable successor pricing point. The Parties agree to first engage in Good-Faith Negotiations to attempt to resolve any dispute that arises concerning the selection of a comparable successor pricing point. In the event that the Parties are unsuccessful in resolving a dispute through such negotiations, the controversy may be submitted to binding arbitration as provided below. The outcome of such Good Faith Negotiation or arbitration shall determine the price to be effective as of the date the Gas Index ceases to be published and with any surcharge or repayment to be made hereunder to bear interest at a rate determined to be appropriate by the arbitrator. Binding arbitration shall not be a method of dispute resolution for any other provision of this Agreement.

(i) Good-Faith Negotiations. The process of "Good-Faith Negotiations" requires that each Party set out in writing to the other its reason(s) for its proposed selection of a comparable successor pricing point. The Parties shall then meet to attempt to agree to a comparable successor pricing point. Upon request, each Party shall promptly make available to the other such information, including existing studies and raw data, to the extent related to its proposed selection of a comparable successor pricing point. A Party shall not be required as part of these negotiations to provide any information which is confidential or proprietary in nature unless it is satisfied in its discretion that the other Party will maintain the confidentiality of

and will not misuse such information or any information subject to attorney-client or other privilege under applicable law regarding discovery and production of documents. The negotiation process shall include at least two meetings to discuss the selection of a comparable successor pricing point prior to invoking arbitration rights. Unless otherwise mutually agreed, the first meeting shall take place within ten (10) business days after either Party has received notice from the other of the desire to commence formal negotiations concerning the Dispute. Unless otherwise mutually agreed, the second meeting shall take place no more than ten (10) business days after the first meeting. In the event a Party refuses to attend a negotiation meeting, either Party may proceed immediately to binding arbitration concerning the selection of a comparable successor pricing point.

(ii) Binding Arbitration. Binding arbitration may be initiated at any time by either Party following Good Faith Negotiations (the "Binding Arbitration Notice"). The Binding Arbitration Notice shall include a summary of the complaining Party's position and a proposed resolution. The Party receiving the Binding Arbitration Notice shall have the right to rebut the complaining Party's position and proposed resolution in the Binding Arbitration Notice. The Parties shall by mutual agreement appoint an arbitrator within thirty (30) days after receipt of the Binding Arbitration Notice, giving preferred consideration to former U.S. Circuit Court Judges with training or experience to address the issue in controversy. In the event the Parties are unable to agree upon an arbitrator within such time frame, either Party may request the American Arbitration Association to designate three potential arbitrators, each of whom (1) shall have agreed to arbitrate the dispute, (2) shall have never been affiliated with either Party or its affiliate(s), (3) shall be qualified by training or experience to address this issue, and (4) shall be available to fulfill the responsibilities of binding arbitration in a timely manner. Each Party shall be provided relevant information related to each potential arbitrator, including applicable fees; and each shall designate its first, second and third choices among the potential arbitrators, with the designated choice receiving four, three and one point(s), respectively. In the event a Party fails to designate an order of choice, each potential arbitrator shall receive one point. The potential arbitrator receiving the most points shall be the arbitrator. Unless otherwise mutually agreed, binding arbitration shall commence two (2) weeks after the selection of the arbitrator. The arbitration shall proceed in accordance with the rules for commercial arbitration established by the American

Arbitration Association absent the contrary agreement of the Parties. The arbitrators shall be empowered to select the comparable successor pricing point as of the date the original pricing point ceases to be published and with any surcharge or repayment to be made hereunder to bear interest at a rate determined to be appropriate by the arbitrators. Any decision by the arbitrators shall be in writing and binding on the Parties. The fees and expenses of the arbitrators shall be shared equally by the Parties, and each Party shall bear its own costs.

(iii) Confidentiality and Non-Admissibility of Statements Made in, and Evidence Specifically Prepared for, Good Faith Negotiations and Binding Arbitration. Each Party hereby agrees that all statements made in the course of Good Faith Negotiations, as contemplated in Section 5.11(a), and in binding arbitration, as contemplated in Section 5.11(b), shall be confidential, and shall not be disclosed to or shared with any third parties (other than the arbitrator, potential arbitrators or any other person whose presence is necessary to facilitate the negotiation and/or binding arbitration process). Furthermore, each Party agrees that any documents or data specifically prepared for use in Good Faith Negotiations and/or binding arbitration shall not be disclosed to any third party, except those parties whose presence is necessary to facilitate the binding arbitration process. Each Party agrees and acknowledges that no statements made in or evidence specifically prepared for Good Faith Negotiations pursuant to Section 5.11(a) (versus data, documents, and other evidence in existence prior to the time of the Good Faith Negotiations), shall be admissible for any purpose in any subsequent binding arbitration.

5.12 Regulatory Approvals

This Agreement is subject to the approval of the Administrator of the Rural Utilities Service.

5.13 Execution

This Agreement may be executed in any number of counterparts, each executed counterpart constituting an original but all together only one executed agreement.

SECTION 6 - SYSTEM PEAKING CAPACITY

6.0. **Capacity:** 150 MW of System Peaking Capacity and Corresponding Energy.

6.1 **Duration:** Effective December 1, 2006, FPC will commence the sale to Seminole of System Peaking Capacity and Corresponding Energy. Such sale shall continue through December 31, 2013.

6.2 **Conversion Rights:** Upon 12 months' written notice, Seminole may provide a one-time notice to convert all or a portion (in 50 MW increments) of the said System Peaking Capacity to 2006 System Intermediate Capacity. In such notice, Seminole may provide varying annual amounts of System Peaking Capacity to be converted to 2006 System Intermediate Capacity. The annual amounts shall be denominated 2006 Converted System Intermediate Capacity. For example, in a notice provided 12 months prior to January 2007, Seminole may convert 100 MW in 2007, 50 MW in 2008 and 150 MW in 2009 through 2013 to 2006 Converted System Intermediate Capacity.

(a) In the event Seminole exercises its one-time option with 12 months' written notice to FPC to convert any portion (in 50 MW increments) of the System Peaking Capacity to 2006 Converted System Intermediate Capacity, the terms and conditions of Section 3 shall apply to such converted portion with the following exceptions: (i) Except in the situation provided for in Section 6.2(b) below where there is a successful rate renegotiation, the Parties agree to waive their right under Section 3.6 to seek to amend the Capacity Charge and Monthly Non-fuel Energy Charges set out in Section 3.5; (ii) Seminole may not give three (3) years' written notice to reduce any amount of this 2006 Converted System Intermediate Capacity as allowed in Section 3.1(b); and (iii) Schedule Changes set forth in Section 3.4(b)(i) shall apply with the exception that one (1) hour's notice for schedule changes at the top of the hour will be required for 2006 Converted System Intermediate Capacity.

(b) The following procedure will be used in the event that (I) Seminole converts any portion of the System Peaking Capacity to 2006 Converted System Intermediate Capacity under the terms hereof and (II) the Southern Company purchase contract listed on Exhibit 1 of the Agreement (A) is not extended beyond its initial term ending May 31, 2010; or (B) is extended with an increased monthly capacity charge from the charge that is in effect as of May 2010. If FPC contends that condition (II)(B) is satisfied, it must at the same time provide documentation to Seminole demonstrating that there would be such an increase.

In the event of (I) and (II)(A) above, the Hines Energy Complex, Unit #3 resource (or FPC's next natural gas combined cycle generating unit if Hines Unit #3 is not commercial as of the termination date of the above-referenced Southern Company contract) will be substituted for the Southern Company purchase in Exhibit 1 of the Agreement only as to the 2006 Converted System Intermediate Capacity.

In the event of (I) and (II)(B) above, the Southern Company purchase shall remain as a resource in Exhibit I of the Agreement, and FPC shall have the option of (i) continuing under the existing terms, conditions and rates of the Agreement; or (ii) entering into negotiations with Seminole at least two (2) months prior to providing the termination notice discussed below, which negotiations shall be limited to FPC seeking an increase in the System Intermediate Monthly Capacity Charge for 2006 Converted System Intermediate Capacity relating solely to the aforementioned increase in the Southern Company monthly capacity charge. Provided all conditions are met in (I), (II)(B) and (ii) above and the negotiations provided for in (ii) are not successful, FPC may then provide forty-six (46) months' written notice to Seminole to terminate the sale of 2006 Converted System Intermediate Capacity, such notice to become effective no sooner than June 2010. Any reference to Southern Company in this paragraph shall be deemed to include any successor or affiliate of the Southern Company.

6.3 **Dispatch:** System Peaking Capacity will be given a dispatch and commitment priority equivalent to that of FPC's Firm Native Load. Seminole may use said System Peaking Capacity and Corresponding Energy for any purpose. Such purposes shall include, but not be limited to, using said System Peaking Capacity and Corresponding Energy (i) as an additional resource to be dispatched (economically or otherwise) to serve Member load (without regard to Control Area location of such load), (ii) to meet Seminole's installed and Operating Reserve Requirement, (iii) to sell emergency and all other interchange services to other utilities, (iv) as alternative dependable capacity in quoting or otherwise seeking to obtain lower priced energy from alternate power supply resources, and (v) to sell capacity and/or energy to other entities.

6.4 **Pre-Scheduling:** By 09:30 a.m. Eastern Prevailing Time ("EPT") on each day prior to the next delivery day, Seminole shall submit to FPC a pre-schedule of its anticipated requirements (MW/hour) for the System Peaking Capacity at the Point of Receipt for each hour of the succeeding calendar day in a notification as specified in Section 5.10. In addition, on the day before each weekend or holiday, Seminole shall provide an "extended forecast" of its anticipated requirements covering said period. Seminole may designate the "extended forecast" as its pre-schedule or revise it at Seminole's sole discretion on a day-ahead basis by 09:30 a.m. EPT to satisfy its pre-schedule

requirement. Furthermore, Seminole may also provide FPC an "extended pre-schedule" as specified in Section 5.10 on any business day before 09:30 a.m. EPT for the succeeding calendar day and any period beyond as determined by Seminole. The "extended pre-schedule" may be revised at Seminole's sole discretion on a day-ahead basis by 09:30 a.m. EPT to satisfy its pre-schedule requirement. If Seminole does not anticipate using such capacity, it will submit zero (0) MW for each of the hours for the day-ahead schedule. Hourly schedules for the System Peak Capacity cannot exceed 150 MW or be less than zero (0) MW. Upon receipt of Seminole's pre-schedule, FPC will send an immediate automated response to Seminole to confirm that FPC has received said pre-schedule. In the event FPC does not receive a pre-schedule for the System Peaking Capacity or does not receive the System Peaking Capacity pre-schedule on time either by normal notification or the back-up notification system, and provided FPC has called Seminole and waited at least fifteen (15) minutes from said call for Seminole to resolve the deficient pre-schedule, a schedule of zero (0) MW ("Default Pre-Schedule") will be used for all hours of the period for which pre-scheduled System Peaking Capacity was not provided as required herein.

6.5 **Schedule Changes:** For the System Peaking Capacity, Seminole may make changes to the hourly pre-schedule provided to FPC under Section 6.4 above subject to the notice provisions below.

(a) FPC will track and Seminole may, on one (1) hour's notice, change the next hour's schedule specification, at the top of the hour (an example of one (1) hour's notice is as follows: to change hour ending 1200 EPT, Seminole must provide notice before 10:00 a.m. EPT) for the System Peaking Capacity by up to 50 MW more or less than the MW specification for the hour during which such notice is given, provided that such change does not cause the schedule to go below zero (0) MW or exceed 150 MW; and provided that throughout the course of the calendar day such scheduling changes do not result in more than eight (8) "Change Events." A Change Event occurs when Seminole provides one (1) hour's notice that it is changing the schedule for the next hour to a level different from that specified in the pre-schedule. Notwithstanding the foregoing, if at the time Seminole provides such one (1) hour notice for a change in the upcoming hour, it also advises FPC that it intends to retain this new MW schedule for the upcoming hour and for at least two additional consecutive hours following the upcoming hour ("Additional Hours"), then such change will not be a Change Event. If at the time of said notice, Seminole also indicates that it will revert back to the pre-scheduled MW level at the conclusion of said Additional Hours, then the change in schedule from the last Additional Hour to the hour reverting to the pre-scheduled MW level will not be considered a Change Event. If, however, Seminole subsequently provides one (1) hour notice to change a schedule for an Additional Hour, it may do so, provided that for each hour changed, a Change Event shall be counted unless at the time of such notice,

Seminole provides a new schedule of Additional Hours, in which case only one Change Event shall be counted (i.e., relating to the first hour changed in the new schedule). For example, if Seminole specifies a pre-schedule of 100 MW for each hour, and Seminole provides notice before 6:00 a.m. EPT to change said schedule for hour ending 0800 EPT to 50 MW, and further indicates that it wishes to hold the 50 MW schedule through hour ending 1500, at which time the schedule reverts to the original pre-schedule amount of 100 MW for hour ending 1600, this would count as one Change Event. If, however, before 11:00 a.m. EPT Seminole provides notice that it intends to revert back to the then-effective pre-schedule amount of 100 MW for hour ending 1300, this would count as one additional Change Event since Seminole reverted to the pre-scheduled MW level prior to the time indicated in the first notification before 6:00 a.m. EPT. If instead, before 11:00 a.m. EPT Seminole provides notice of a change in schedule for hour ending 1300 to 90 MW and with said notice indicates that it intends to hold this schedule through hour ending 1500 and then reverts back to the pre-scheduled MW level in hour ending 1600, such change would only result in one additional Change Event, since Seminole established Additional Hours at the time of such notice and returned to the pre-scheduled MW level at the same time it had previously indicated it would do so in the prior notice. The Change Event in such circumstance would relate to the change between hour ending 1200 and hour ending 1300 (i.e., 50 MW to 90 MW). If instead, before 11:00 a.m. EPT Seminole provides notice of a change in schedule for hour ending 1300 to 90 MW and subsequently changes, with one (1) hour's notice, the schedules for hour ending 1400 to 80 MW, hour ending 1500 to 90 MW, and hour ending 1600 to 50 MW, all without a schedule of Additional Hours at the time of each respective notice, then each of these changes would constitute Change Events, totaling four (4) Change Events for hours ending 1300, 1400, 1500, and 1600.

(b) Notwithstanding the provisions of Section 6.5(i) above, Seminole may schedule up to 150 MW of the System Peaking Capacity on thirty (30) minutes' notice in the event of a forced outage or forced de-ration of any Seminole firm capacity resource, including firm purchased power resources that are included in meeting Seminole's installed reserve margin, provided that the MW amount scheduled under this provision may not exceed the MW quantity associated with such forced outage or forced de-ration. At the conclusion of a forced outage or forced de-ration event, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule for the upcoming hour to the level which existed at the time the System Peaking Capacity was called upon to respond to such event or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in

Section 6.5(i) above. If pursuant to a thirty (30) minutes' notice at the conclusion of a forced outage or forced de-ration event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 6.5(i) above.

(c) Notwithstanding the provisions of Section 6.5(i) above, if Seminole requires the System Peaking Capacity to meet its Operating Reserve Requirement, the amount of System Peaking Capacity required by Seminole for said purpose shall be made available to Seminole within the period specified by the Florida Reliability Coordinating Council ("FRCC") or its successor (i.e. currently fifteen (15) minutes); provided that the fifteen minute maximum shall not be changed to less than ten (10) minutes. At the conclusion of Seminole's use of the System Peaking Capacity to meet its Operating Reserve Requirement, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule to the level which existed at the time the System Peaking Capacity was called upon for said purpose, or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in Section 6.5(i) above. If, pursuant to a thirty (30) minute notice at the conclusion of said event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 6.5(i) above.

(d) FPC may waive the aforementioned conditions if FPC in its sole discretion determines that it can reasonably accommodate such schedule changes.

6.6 **Rates and Charges:** From December 1, 2006 through December 31, 2013, the charges for the System Peaking Capacity and Corresponding Energy shall be:

(a) Monthly Capacity Charge - The Monthly Capacity Charge shall be as follows:

Starting	12/01/2006	12/01/2008	12/01/2009	12/01/2010	12/01/2011	12/01/2012
Ending	11/30/2008	11/30/2009	11/30/2010	11/30/2011	11/30/2012	12/31/2013
Charge	$4.75	$4.85	$4.95	$5.05	$5.15	$5.25

(b) Monthly Non-fuel Energy Charge - $2.57/MWh fixed for the term, multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

(c) Monthly Fuel Charge - The Monthly Fuel Charge shall be an amount equal to the average cost, expressed in $/MWh, of the fuel burned at the Peaking Capacity Resources during the Billing Month multiplied by

(d) the Corresponding Energy scheduled to Seminole at the Point of Receipt for said purposes during the Billing Month.

6.7 **Amendments to Rates, Charges and Resources:** All provisions contained in this Section 6 are intended to remain fixed through December 31, 2013, unless otherwise mutually agreed to by the Parties. Except in the situation provided for in Section 6.2(b) above, where there is a successful rate renegotiation, FPC shall not make unilateral application to the Federal Energy Regulatory Commission under Section 205 of the Federal Power Act for a change in rates, terms and conditions contained in this Section 6 that becomes effective prior to January 1, 2014 and Seminole shall not seek any relief under Section 206 of the Federal Power Act concerning the rates, terms and conditions in this Section 6 that becomes effective prior to January 1, 2014. Except as expressly provided by this Agreement, FPC and Seminole further agree that the standard of review for changes to the Agreement proposed by any person, including a non-party or the FERC acting sua sponte shall be the "public interest" standard of review set forth in the United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) (the "Mobile-Sierra" doctrine).

6.8 **Point of Receipt:** The Point of Receipt for System Peaking Capacity and Corresponding Energy shall be at the point such capacity and energy is input into the FPC transmission system.

6.9 **Transmission Service:** Subject to the provisions of Section 5.5, FPC will provide Seminole with the transmission services described below for deliveries of System Peaking Capacity and Corresponding Energy from the Point of Receipt:

(a) to Member load delivery points within the FPC Control Area:
FPC shall provide transmission service for the System Peaking Capacity under the 1983 Agreement, unless or until such time as transmission service under the 1983 Agreement is transferred to service under FPC's Open Access Transmission Tariff or the successor thereto. The treatment of losses associated with the delivery of System Peaking Capacity and Corresponding Energy to Seminole Member load delivery points within the FPC Control Area will be in accordance with the 1983 Agreement or the Open Access Transmission Tariff, as applicable.

(b) to FPC's Points of Interconnection with other utilities, including Seminole:

In circumstances where Seminole desires to transmit the System Peaking Capacity and Corresponding Energy from the Point of Receipt to FPC's Points of Interconnection with other utilities, including Seminole, FPC shall offer Seminole the option of choosing any service available under FPC's Open Access Transmission Tariff, or the successor thereto, including hourly non-firm service, at the appropriate cost. The quantity of System Peaking Capacity and Corresponding Energy received by Seminole at the Point of Receipt shall be reduced by FPC's average system transmission losses for the most recent calendar year to determine the quantity of such capacity and energy delivered to FPC Points of Interconnection with other utilities, including Seminole. Seminole's multiple Points of Interconnection with FPC will, for purposes of the transmission tariff, be treated as a single point of delivery between Seminole and FPC.

SECTION 7 - SYSTEM COMBINED CYCLE CAPACITY

7.1 Duration

(a) Effective January 1, 2011 through the remaining term of this Agreement, the 150 MW of 2006 Converted System Intermediate Capacity, which Seminole began being purchasing under this Agreement as of December 1, 2006, will be deemed converted to 150 MW of System Combined Cycle Capacity under the following terms and conditions in addition to those general terms and conditions set forth in this Agreement (provided that, except as specifically referenced below, the provisions of Sections 3 and 6 of this Agreement do not apply to System Combined Cycle Capacity and Corresponding Energy). For the purposes of this Section 7, the following definitions shall be applied:

(i) **"System Combined Cycle Capacity"** shall mean FPC's capacity from the Hines Energy Center.

(ii) **"Hines Energy Center"** shall mean FPC's combined cycle generating facility located in Polk County, Florida, which has four units, named Hines 1, 2, 3, and 4, each of which is capable of generating approximately 500 MW.

(iii) **"Corresponding Energy"** shall mean the energy, expressed in MWh, associated with System Combined Cycle Capacity, provided, however, that the availability of Corresponding Energy is not contingent upon the availability of the units at the Hines Energy Center, in accordance with Section 7.11 below.

(iv) **"Point of Receipt"** for System Combined Cycle Capacity and Corresponding Energy shall be at the point such capacity and energy is input into the FPC transmission system.

7.2 Monthly Capacity Charge

The Monthly Capacity Charge for System Combined Cycle Capacity will be the monthly capacity price of $9.25 per kW-month for calendar year 2011, $9.44 per kW-month for calendar year 2012, and $9.63 per kW-month for calendar year 2013, times 150,000 kW.

7.3 Monthly Non-fuel Energy Charge

The Monthly Non-fuel Energy Charge will be the variable operations and maintenance price, which will be $3.00/MWh for calendar year 2011, $3.06/MWh for calendar year 2012, and $3.12/MWh for calendar year 2013, times the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

7.4 Monthly Fuel Charge

(a) The Monthly Fuel Charge will be the sum for the Billing Month of the Daily Fuel Price times the Corresponding Energy that is fueled by FPC and that is scheduled to Seminole at the Point of Receipt during the relevant delivery day. As set forth below, the Daily Fuel Price shall be adjusted up to include losses using the Output to Line loss factor as set forth in Exhibit C-1 of FPC's Annual Filing of Cost Factor Updates, as filed with FERC ("OTL Loss Factor"). The Daily Fuel Price will be determined as follows:

(i) Daily Fuel Price Calculation. To the extent that the Corresponding Energy is fueled by gas supplied by FPC, the Daily Fuel Price will be the result of multiplying the heat rate (7.25 MMBtu/MWh during the months of April-September, and 7.6 MMBtu/MWh during all other months) times the Gas Index and the Daily Fuel Price shall be adjusted up to include losses using the OTL Loss Factor. The Gas Index shall be the daily midpoint price of natural gas (expressed in $/MMBtu) for the relevant day of delivery of energy for Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, plus the Florida Gas Transmission ("FGT") fuel loss factor, the FGT average usage charge from the applicable FGT Tariff, and a $0.87/MMBtu demand charge for gas transportation In the event that no such price is published for the relevant gas day of delivery of energy, then the following shall be used: (a) the arithmetic average of the daily midpoint price (expressed in $/MMBtu) of the last published price prior to and the next published price after the relevant day of delivery of energy. If McGraw Hill (or its successor) ceases to provide the daily midpoint price for the above-referenced pricing point, FPC and Seminole will as promptly as possible determine a comparable successor pricing point using the procedures described in Section 5.11 above.

7.5 Monthly Emissions Charge

(a) The Monthly Emissions Charge will be the sum for the Billing Month of the Emissions Price times the Corresponding Energy scheduled to Seminole at the Point of Receipt during the relevant delivery day. The Emissions Price will be determined as follows:

(i) "Emissions Price" is defined as the price (in $/MWh) for emissions costs, emissions allowance costs and taxes allocated to the Hines Energy Center, such as SO_2 and NO_x allowances and carbon taxes

(and any other emissions allowance costs/taxes allowed by FERC). The total emissions costs shall be reduced by a pro rata allocation of any emissions credits or allowances allocated to FPC. The Emission Price shall be adjusted up to include losses using the OTL Loss Factor. Costs associated with the Emissions Price will not include any costs (variable, fixed or otherwise) that are already included in the Monthly Capacity Charge, Monthly Non-fuel Energy Charge and Monthly Fuel Charge for System Combined Cycle Capacity or Corresponding Energy. For the avoidance of doubt, in no case will the Emissions Price recover any of FPC's capital costs associated with emissions costs, allowances, or taxes.

7.6 Other Charges

There will be no start or other charges for System Combined Cycle Capacity and Corresponding Energy aside from those set forth above. Neither Party may, through a filing at the FERC or elsewhere, seek to change the rates or the rate mechanism for System Combined Cycle Capacity described above in this Section 7 through the end of the term of this Agreement.

7.7 Gas Delivery Option

(a) Gas Delivery Option. Seminole shall have the option to deliver up to 18,253 Dth/day of natural gas to FPC that is required to generate energy in an amount up to the Corresponding Energy plus losses using the OTL Loss Factor ("Gas Option"). Seminole will have the ability to utilize the Gas Option for a maximum of forty eight (48) days on a calendar twelve (12) month basis. Seminole may only use the Gas Option on a day ahead basis (e.g., no intraday or month-ahead notifications will be accepted by FPC). Additionally, use of the Gas Option by Seminole shall be subject to physical pipeline constraints (e.g., Seminole may not elect to use the Gas Option if the FGT pipeline declares a Force Majeure (per its tariff) or cannot otherwise accommodate additional gas at the Hines Energy Center delivery point or if the Hines Energy Center is unavailable). For any such hours in which Seminole uses its Gas Option and delivers natural gas to the Hines Energy Center (FGT meter #220764) equal to the amount of Corresponding Energy plus losses using the OTL Loss Factor, the Daily Fuel Price in such hours will be zero, but there shall be no adjustment to the other charges set forth in Sections 7.2, 7.3, and 7.4 above. For any such hours in which Seminole uses its Gas Option and delivers natural gas to the Hines Energy Center (FGT meter #220764) in an amount that is less than the Corresponding Energy plus losses using the OTL Loss Factor, FPC will supply the natural gas for such deficient amount of Corresponding Energy and Seminole will pay for such deficient amount at the Daily Fuel Price multiplied by the deficient amount. The amount of Corresponding Energy (MWh) that corresponds with Seminole's natural gas delivery shall be

calculated by dividing the total gas delivered by Seminole in a relevant Gas Day (10:00 am day 1 – 10:00 am day 2 Eastern Prevailing Time ("EPT")), expressed in dekatherms, by the heat rate for the applicable month (7.25 MMBtu/MWh during the months of April through September and 7.6 MMBtu/MWh during all other months) and further multiplied by one minus the OTL Loss Factor. Seminole will notify FPC of its election to use its Gas Option and the gas quantity to be supplied to FPC at the Scheduling Deadline along with its Schedule for Energy (which can be greater than the Corresponding Energy associated with the gas supplied by Seminole via the Gas Option) as described in Section 7.12 below. FPC will provide the gas balancing function when Seminole exercises the Gas Option. For clarity, if Seminole changes its Schedule for Energy on a day when it is exercising the Gas Option and Seminole's quantity of gas delivered to the Hines Energy Center exceeds the Corresponding Energy plus losses using the OTL Loss Factor, then the excess dekatherms associated with the Schedule Change will be retained by FPC, with no reciprocal benefit to Seminole therefrom.

(i) Gas Scheduling for Gas Option. On or before FGT's timely cycle scheduling deadline for Day Ahead, Seminole will provide FPC notification of which natural gas transportation contracts (and their respective quantities) have been used to schedule gas on FGT to be delivered to the Hines Energy Center, which such scheduled quantities for delivery shall not exceed the quantity limit specified in Section 7.7(a) above.

(ii) Gas Option Interruption. Seminole will provide timely notification to FPC of any expected cuts to its scheduled deliveries under the Gas Option, and any such day in which such cuts are actualized (a "Gas Option Interruption") will count against the 48 days of Gas Option flexibility provided to Seminole in Section 7.7(a) above. If Seminole is not able to restore its expected deliveries by 10:00 am EPT (i.e., the beginning of the gas day), then FPC will quote a price for intraday fuel delivery and Seminole will have the option to (i) pay any Incremental Costs (as defined in Section 7.12 below) reasonably determined by FPC to be attributable to meeting Seminole's Schedule for Energy or (ii) reduce its Schedule for Energy. Seminole will be responsible for any imbalance fees and penalties assessed by FGT caused solely by Seminole's actions or inactions related to its use of the Gas Option hereunder and FPC shall be reimbursed by Seminole for such cost. For the avoidance of doubt, FPC's obligation to deliver energy to Seminole under this Agreement does not change if Seminole fails to deliver natural gas to FPC under the Gas Option.

(iii) The Parties have provided examples in regards to the Gas Option and Incremental Costs (as defined below), if applicable, in Exhibit 3. These examples are for illustrative purposes only and are intended to be used to demonstrate the Parties' intent regarding the calculation of applicable Incremental Costs.

7.8 Daily Gas Scheduling

Except as provided in Section 7.7 above, FPC will provide all gas scheduling, balancing and procurement functions for the delivery of System Combined Cycle Capacity and Corresponding Energy under this Agreement.

7.9 [Reserved]

7.10 Transmission Service

The transmission service for System Combined Cycle Capacity and Corresponding Energy from the Point of Receipt shall be the same as for System Intermediate Capacity and Corresponding Energy as provided for in Section 3.8 of this Agreement.

7.11 Dispatch and Commitment Priority

The dispatch and commitment priority and other provisions of Section 3.2 of this Agreement shall apply equally to the System Combined Cycle Capacity and Corresponding Energy.

7.12 Daily Energy Schedule

(a) On or before 08:30 a.m. (EPT) of the prior Business Day ("Scheduling Deadline"), Seminole shall provide FPC its schedule for Corresponding Energy for each hour of the applicable delivery day, including any intervening non-Business Days ("Schedule for Energy"). If FPC does not receive notification of a schedule request from Seminole prior to the Scheduling Deadline, then Seminole's Schedule for Energy shall be deemed to be zero (0) MW for all hours of the applicable delivery day.

(i) Schedule Changes due to System Events. Seminole may modify its Schedule for Energy (a "Schedule Change") on a MW for MW basis with thirty (30) minutes prior notice to FPC (i) for any forced outage or derating of any Seminole firm capacity resources that are included in Seminole's reserve margin, including firm purchased power resources, up to the MW quantity associated with such forced outage or derating, (ii) for a system emergency, or (iii) for the curtailment of network or firm transmission service procured by Seminole from the Point of Receipt, each a "System Event." In the case of a System Event, Seminole's Schedule Change is limited to the 150 MW amount of System

Combined Cycle Capacity. At the conclusion of such System Event and at such time as is reasonably operationally feasible, Seminole shall return to its previous Schedule for Energy at the top of the next available clock hour. In the case of a Schedule Change resulting from a System Event, Seminole's Fuel Charge for the affected hours shall be the Monthly Fuel Charge, as set forth in Section 7.4 above, plus Incremental Costs, if applicable, as set forth below.

(ii) Operating Reserves. Notwithstanding the provisions above, if Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement, the amount of System Combined Cycle Capacity required by Seminole for said purpose shall be made available to Seminole within ten (10) minutes from the time such notice is provided. Seminole's use of System Combined Cycle Capacity to meet its operating reserve requirement is limited to the 150 MW amount of System Combined Cycle Capacity. At the conclusion of such circumstances and at such time as is reasonably operationally feasible, Seminole shall return to its previous Schedule for Energy at the top of the next available clock hour. In the case where Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement and FPC can obtain gas for the System Combined Cycle Capacity needed to meet Seminole's operating reserve requirement, Seminole's Fuel Charge for the affected hours shall be the Monthly Fuel Charge, as set forth in Section 7.4 above. In the case where Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement and FPC cannot obtain gas for the System Combined Cycle Capacity needed to meet Seminole's operating reserve requirement, Seminole's Fuel Charge for the affected hours shall be the System Average Fuel Rate. FPC's System Average Fuel Rate shall be determined in the following manner:

(1) The "System Average Fuel Rate" ($/MWh) = Total Fuel Cost divided by Total Energy Generated as adjusted up to include losses using the OTL loss factor set forth in Exhibit C-1 of FPC's Annual Filing of Cost Factor Updates, as filed with FERC.

(A) "Total Fuel Cost" ($) is defined as FPC's fuel costs for the relevant Billing Month for all of FPC's System Average Capacity Resources, which are defined as the capacity from FPC's system generating resources and power purchase agreements, excluding FPC's Interchange Sales, company use and stratified sales. The Total Fuel Cost also shall include emissions costs, emissions allowance costs and taxes allocated to FPC's System Average Capacity Resources, such as SO_2 and NO_x allowances and carbon taxes (and any other

emissions allowance costs/taxes allowed by FERC). However, the Total Fuel Cost will not include any costs (variable, fixed or otherwise) already included in the Monthly Capacity Charge, or Monthly Non-fuel Energy Charge for System Combined Cycle Capacity or Corresponding Energy. For the avoidance of doubt, in no case will the Total Fuel Cost recover any of FPC's capital costs associated with emissions costs, allowances, or taxes. "Interchange Sales" shall mean those opportunity sales made by FPC from time to time (i.e., the sales transactions included on Schedule A-6 of the FPC's FPSC-required monthly fuel and purchased power filing as of October 6, 2009 or any successor thereto).

(B) "Total Energy Generated" (MWh) is defined as the actual net generation of all System Average Capacity Resources for the relevant Billing Month.

(iii) Intraday Changes. For the avoidance of doubt, for any day in which Seminole's Schedule for Energy is zero (0) MW, Seminole may nevertheless make intraday Schedule Changes in accordance with this provision. After the Scheduling Deadline, Seminole may provide a Schedule Change for any hour(s) of the applicable Delivery Day by providing notice of such change to FPC at least two (2) hours prior to the beginning of such hour(s); provided, however, that Seminole shall be limited to two (2) occasions each day for requesting a Schedule Change.

(iv) Schedule Changes. A request by Seminole to change the Schedule for Energy during the day for one hour or multiple, consecutive hours (at the same MW level) shall only be deemed to be one occasion for requesting a Schedule Change. System Events shall not be deemed a Schedule Change for the purpose of counting the two (2) occasions for Intraday Changes. Any Schedule Change must be consistent with the Scheduling Parameters provided below. To the extent any Schedule Change is made after the Scheduling Deadline, the price for Corresponding Energy delivered to Seminole shall be in accordance with the calculation of the Monthly Fuel Charge plus all of FPC's incremental costs reasonably incurred (and subsequently agreed to by Seminole) in accommodating Seminole's Schedule Change ("Incremental Costs"). Incremental Costs may include any demonstrable costs to FPC solely attributable to Seminole's Schedule

Change, including, but not limited to, additional gas transportation charges, imbalance charges, cash-out charges and penalties. FPC shall make commercially reasonable efforts to minimize Incremental Costs to Seminole in response to a Schedule Change, including but not limited to mitigating FPC's nominated gas situation through pipeline imbalance adjustments in subsequent days pursuant to FPC's pipeline operational balancing agreements.

(v) Communication of Incremental Costs. In the event that Seminole requests a Schedule Change after the Scheduling Deadline, FPC will inform Seminole of the Incremental Costs, if any, including the basis therefore, which would be payable by Seminole in connection with such Schedule Change, and Seminole shall immediately exercise one of the following options: (i) not change the existing Schedule for Energy or (ii) proceed with the requested Schedule Change and pay the stated Incremental Costs.

(vi) Scheduling Parameters. For any hour for which Seminole schedules Corresponding Energy, the minimum and maximum amounts of scheduled Corresponding Energy shall be 50 MW and 150 MW, respectively. Amounts of scheduled Corresponding Energy between the minimum and maximum amounts for each hour must be submitted in 25 MW increments. Seminole may vary its Schedule for Energy from hour to hour throughout the delivery day with a valid request for Corresponding Energy. The minimum duration for scheduling Corresponding Energy is to be no less than eight (8) consecutive hours during the months of May through September and six (6) consecutive hours during all other months.

7.13 Application of Other Provisions

For the avoidance of doubt, the provisions of Sections 1, 2, 4, and 5 of this Agreement, unless superseded above, apply to System Combined Cycle Capacity and Corresponding Energy without regard to the absence of a specific reference thereto in such sections.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed by their duly authorized officers, and copies delivered to each Party, as of the day and year first stated above.

EXHIBIT 3
INCREMENTAL COST EXAMPLES

Incremental Cost examples when Seminole is not exercising the Gas Option:

Increase to Seminole Schedule for Energy

- Incremental Cost to Seminole would be zero if the intraday price for additional delivered gas is relatively the same as the day-ahead gas cost and FGT did not issue an alert.

- Incremental Cost to Seminole would be passed on to Seminole from PEF if the intraday price for additional delivered gas to meet Seminole's increase were higher than the day-ahead gas cost and FGT did not issue an alert. Seminole would receive up to two prices, if applicable, one for day-ahead and one for intraday.

Decrease to Seminole Schedule for Energy

- Incremental Cost to Seminole would be zero for mitigating additional volumes created by Seminole and FGT did not issue an alert.

Incremental Cost examples when Seminole is exercising the Gas Option:

Increase to Seminole Schedule for Energy

- Incremental Cost would be passed on to Seminole from PEF for additional delivered gas provided by PEF to meet Seminole's increase above Seminole's delivered volume, provided that the intraday price for additional delivered gas to meet Seminole's increase were higher than the day-ahead gas cost and FGT did not issue an alert. Seminole would receive up to two prices, if applicable, one for day-ahead and one for intraday.

Decrease to Seminole Schedule for Energy

- PEF would keep for its own account any unused gas volumes delivered by Seminole via its Gas Option associated with a decrease to the Schedule for Energy, and Seminole would pay any FGT penalties, if applicable, caused by the reduction in the Schedule for Energy.

AGREEMENT FOR SALE AND PURCHASE OF CAPACITY AND ENERGY

This Agreement is made and entered into by and between Seminole Electric Cooperative, Inc., a Florida corporation ("Seminole"), and Florida Power Corporation, a Florida corporation ("FPC").

WITNESSETH

For and in consideration of the mutual covenants and agreements herein contained and other good and valuable considerations to each of the Parties hereto, the Parties do hereby mutually agree as follows:

SECTION 1 - DEFINITIONS

For the purposes of this Agreement, the terms defined in this section shall have the following meanings. Except where the context otherwise requires, definitions and other terms expressed in the singular shall include the plural and vice versa.

1.1. "1983 Agreement" shall mean the Agreement Between Florida Power Corporation and Seminole Electric Cooperative, Inc. for Supplemental Resale Service, Transmission and Distribution Service and Load Following Service dated October 13, 1983, as amended from time to time.

1.2. "Billing Month" shall mean a calendar month billing cycle for invoicing.

1.3. "Control Area" shall mean a power system or combination of power systems to which a common automatic generation control scheme is applied.

1.4. "Corresponding Energy" shall mean the energy (MWh) associated with the System Intermediate Capacity or System Peaking Capacity, as applicable.

1.5. "Due Date" shall have the meaning set forth in Section 4.1 hereto.

1.6. "FERC" shall mean the Federal Energy Regulatory Commission or any successor agency.

1.7. "Firm Native Load" shall mean the demands of customers for which the supplying Party, by statute, franchise, regulatory requirements, or contract, has undertaken the obligation to plan, construct and operate its system to provide reliable power supply services. Firm Native Load shall not include interruptible or curtailable load.

1.8. "Hines Energy Complex" shall mean FPC's generating site located at 7700 CR 555, Bartow, Florida 33830.

1.9. "Intermediate Capacity Resources" shall be the generating resources on the FPC system identified in Exhibit 1 hereto.

1.10. "Member" shall mean any entity for which Seminole, by contract, has undertaken the obligation to plan and operate its system to provide reliable power supply services.

1.11. "Operating Reserve Requirement" shall mean Seminole's allocated share of the State's operating reserve for the day, as established pursuant to the procedures of the applicable governing authority (i.e., currently the Florida Regional Coordinating Council).

1.12. "Party" shall mean Seminole or FPC or a permitted transferee, successor or assignee of either.

1.13. "Peaking Capacity Resources" shall be the generating resources on the FPC system identified in Exhibit 2 hereto.

1.14. "Point of Interconnection" shall mean a point at which two Control Areas are electrically tied to one another.

1.15. "Point of Receipt" shall have the meaning set forth in Sections 3.7, ~~and~~ 6.8 and 7.1 hereto, as applicable.

1.16. "RUS" shall mean Rural Utilities Service or any successor agency.

1.17. "System Intermediate Capacity" shall mean the capacity purchased by Seminole from the Intermediate Capacity Resources under the terms of Sections 3 and 6.2 hereto.

1.18. "System Peaking Capacity" shall mean the capacity purchased by Seminole from the Peaking Capacity Resources under the terms of Section 6 hereto.

1.19 "2006 Converted System Intermediate Capacity" shall have the meaning set forth in Section 6.2.

SECTION 2 - SEMINOLE'S COMMITTED CAPACITY

2.1. Committed Capacity Specification

Effective January 1, 1999, Seminole's Committed Capacity under the 1983 Agreement will be increased by 150 MW over the then-specified level designated by Seminole for calendar years 1999 through 2004 pursuant to Exhibit A, Schedule 1, Terms and Conditions of Service Specific to Supplemental Resale Service, Article 2 of said Agreement.

2.2. 1983 Agreement

Except as provided in Section 3.1 below, nothing in this Agreement shall be deemed to modify Seminole's right to make further changes to its Committed Capacity pursuant to the 1983 Agreement.

SECTION 3 - SYSTEM INTERMEDIATE CAPACITY

3.0 Capacity Blocks

System Intermediate Capacity will be comprised of two 150 MW blocks. The first block shall be designated as the "1999 System Intermediate Capacity"; the second block as the "2006 System Intermediate Capacity." The phrase "System Intermediate Capacity" shall be used herein to represent one or both of the aforementioned blocks, as the context indicates.

3.1. Duration

(a) Effective January 1, 1999, FPC will commence the sale to Seminole of the 1999 System intermediate Capacity and Corresponding Energy. Such sale shall continue through December 31, 2013, unless terminated by Seminole upon three (3) years' written notice to FPC. Seminole may also reduce the quantity of the 1999 System Intermediate Capacity upon three (3) years' written notice to FPC. Notwithstanding the foregoing, Seminole shall not, under the three (3) year notice provision of this Agreement and in the 1983 Agreement, be permitted in any one year to reduce its purchases of the 1999 System Intermediate Capacity and, through an increase in its Committed Capacity under the 1983 Agreement, reduce its Supplemental Resale Service by a combined total of more than 150 MW; provided, however, the foregoing provision does not otherwise limit Seminole's ability (i) to change its Committed Capacity under the 1983 Agreement by more than 150 MW in any given calendar year through a combination of the three (3) year notice described above and the shorter term notice adjustments allowable thereunder or (ii) in any given year to reduce its purchase of the 1999 System Intermediate Capacity hereunder by up to 150 MW under the three (3) year notice provision and to increase its Committed Capacity under the 1983 Agreement's shorter term notice adjustments allowable thereunder.

(b) Effective June 1, 2006, FPC will commence the sale to Seminole of the 2006 System Intermediate Capacity and Corresponding Energy. Such sale shall continue through December 31, 2013, unless terminated by Seminole upon three (3) years' written notice to FPC. Seminole may reduce the quantity of the 2006 System Intermediate Capacity upon three (3) years' written notice to FPC. Seminole may, through written notification provided to FPC on or before August 1, 2002, change the 2006 System Intermediate Capacity commencement date from June 1, 2006 to December 1, 2005.

3.2. Dispatch

System Intermediate Capacity will be given a dispatch and commitment priority equivalent to that of FPC's Firm Native Load. Seminole may use said System Intermediate Capacity and Corresponding Energy for any purpose. Such purposes shall include, but not be limited to, using said System Intermediate Capacity and Corresponding Energy (i) as an additional resource to be dispatched (economically or otherwise) to serve Member load (without regard to Control Area location of such load), (ii) to meet Seminole's installed and Operating Reserve Requirement, (iii) to sell emergency and all other interchange services to other utilities, (iv) as alternative dependable capacity in quoting or otherwise seeking to obtain lower priced energy from alternate power supply resources, and (v) to sell capacity and/or energy to other entities.

3.3. Pre-Scheduling

By 10:00 a.m. Eastern Prevailing Time on each day prior to the next delivery day, Seminole shall submit to FPC schedules of its anticipated requirements (MW/hour) for the 1999 System Intermediate Capacity and the 2006 System Intermediate Capacity at the Point of Receipt for each hour of the succeeding calendar day in two separate notifications as specified in Section 5.10. If Seminole does not anticipate using such capacity, it will submit zero (0) for each of the hours for the day-ahead schedule. In the event FPC does not receive a pre-schedule for the System Intermediate Capacity or does not receive the System Intermediate Capacity pre-schedule on time either by normal notification or the back-up notification system, and provided FPC has called Seminole and waited at least one hour from said call for Seminole to resolve the deficient pre-schedule, a schedule of zero (0) MW will be used for all hours of the System Intermediate Capacity pre-scheduled period. Hourly schedules for each of the 1999 System Intermediate Capacity and the 2006 System Intermediate Capacity cannot exceed 150 MW or be less than zero.

3.4. Schedule Changes

(a) For the 1999 System Intermediate Capacity, Seminole may make changes to the hourly pre-schedule provided to FPC under Section 3.3 above subject to the notice provisions below.

(i) Seminole may, on thirty (30) minutes' notice, change the next hour's schedule specification for 1999 System Intermediate Capacity by up to 75 MW more or less than the MW schedule specification for the hour during which such notice is given, provided that such change does not

cause the schedule to go below zero (0) MW or exceed 150 MW.

(ii) Notwithstanding the provisions of Section 3.4(a)(i) above, Seminole may schedule up to the full amount of the 1999 System Intermediate Capacity on thirty (30) minutes' notice in the event of a forced outage or forced de-ration of any Seminole firm capacity resource, including firm purchased power resources that are included in Seminole's installed reserve margin, provided that the MW amount scheduled under this provision may not exceed the MW quantity associated with such forced outage or forced de-ration. At the conclusion of a forced outage or forced de-ration event, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule for the upcoming hour to the level which existed at the time the 1999 System Intermediate Capacity was called upon to respond to such event or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without being subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above. If pursuant to a thirty (30) minute notice at the conclusion of a forced outage or forced de-ration event, Seminole establishes a schedule for the upcoming hour at a level different from the levels referenced in the prior sentence, then such change shall be subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above.

(iii) Notwithstanding the provisions of Section 3.4(a)(i) above, if Seminole requires the 1999 System Intermediate Capacity to meet its Operating Reserve Requirement, the amount of the 1999 System Intermediate Capacity required by Seminole for said purposes shall be made available to Seminole within ten (10) minutes from the time such notice is provided. At the conclusion of Seminole's use of the 1999 System Intermediate Capacity to meet its Operating Reserve Requirements, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule to the level which existed at the time the 1999 System Intermediate Capacity was called upon for said purpose or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without being subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above. If pursuant to a thirty (30) minute notice at the conclusion of said event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall be subject to the 75 MW per hour change limitation described in Section 3.4(a)(i) above.

(iv) Notwithstanding the provisions of Section 3.4(a)(i) above, Seminole may make changes to the hourly schedule of the 1999 System Intermediate Capacity with twenty (20) minutes' notice in the event and to the extent that Seminole requires such capacity after having failed to consummate an hourly economy transaction for which

Seminole had quoted a 1999 System Intermediate Capacity based quantity and cost.

(v) For any hour during the delivery day in which (a) Seminole's pre-schedule showed no requirement for 1999 System Intermediate Capacity and (b) the scheduling of such capacity for such hour would require FPC to start up a fossil steam unit, the hourly schedule changes provided for in Section 3.4(a)(i) are not applicable, and Seminole must instead provide eight (8) hours' notice of any change to the hourly pre-schedule provided in accordance with Section 3.3 above; provided that this clause shall not be applicable if Sections 3.4(a)(ii), (iii) or (iv) is applicable.

(iv) FPC may waive the aforementioned conditions if FPC in its sole discretion determines that it can reasonably accommodate such schedule changes.

(b) For the 2006 System Intermediate Capacity, Seminole may make changes to the hourly pre-schedule provided to FPC under Section 3.3 above subject to the notice provisions below.

(i) Seminole may, on thirty (30) minutes' notice, change the next hour's schedule specification for the 2006 System Intermediate Capacity by up to 50 MW more or less than the MW specification for the hour during

which such notice is given, provided that such change does not cause the schedule to go below zero (0) MW or exceed 150 MW; and provided that throughout the course of the calendar day such scheduling changes do not result in more than six (6) "Change Events." A Change Event occurs when Seminole provides thirty (30) minutes' notice that it is changing the schedule for the next hour to a level different from that specified in the pre-schedule. Notwithstanding the foregoing, if at the time Seminole provides such thirty (30) minute notice for a change in the upcoming hour, it also advises FPC that it intends to retain this new MW schedule for the upcoming hour and for at least two additional consecutive hours following the upcoming hour ("Additional Hours"), then no Change Event will be assigned to said Additional Hours. If at the time of said notice, Seminole also indicates that it will revert back to the pre-scheduled MW level at the conclusion of said Additional Hours, then the change in schedule from the last Additional Hour to the hour reverting to the pre-scheduled MW level will not be considered a Change Event. If, however, Seminole subsequently provides thirty (30) minute notice to change a schedule for an Additional Hour, it may do so, provided however, that a Change Event for each hour so changed shall be recorded unless at the time of such notice, Seminole provides a new schedule of Additional Hours in which case only one Change Event shall be charged (i.e., relating to the first hour changed in the new schedule). For example, if Seminole specifies a pre-schedule of 100 MW for each hour, and Seminole changes said schedule with thirty (30) minutes'

notice for hour ending 0800 to 50 MW, and further indicates that it wishes to hold the 50 MW schedule through hour ending 1500, at which time the schedule reverts to the original pre-schedule amount of 100 MW for hour ending 1600, this would count as one Change Event. If, however, during hour ending 1200 Seminole provides thirty (30) minutes' notice that it intends to revert back to the then-effective pre-schedule amount of 100 MW for hour ending 1300, this would count as one additional Change Event since Seminole reverted to the pre-scheduled MW level prior to the time indicated in the prior (i.e., hour ending 0800) notice. If instead, during hour ending 1200 Seminole provides thirty (30) minutes' notice of a change in schedule for hour ending 1300 to 90 MW and with said notice indicates that it intends to hold this schedule through hour ending 1500 and then reverts back to the pre-scheduled MW level in hour ending 1600, such change would only result in one additional Change Event, since Seminole established Additional Hours at the time of such notice and returned to the pre-scheduled MW level at the same time it had previously indicated it would do so in the prior notice. The Change Event in such circumstance would relate to the change between hour ending 1200 to 1300 (i.e., 50 MW to 90 MW). If instead, during hour ending 1200 Seminole provides thirty (30) minutes' notice of a change in schedule for hour ending 1300 to 90 MW and subsequently changes, with thirty (30) minutes' notices, hour ending 1400 to 80 MW, hour ending 1500 to 90 MW, and hour ending 1600 to 50 MW, all without a schedule of Additional Hours at the time of each respective thirty (30) minute notice, then each of these changes would constitute Change Events.

(ii) Notwithstanding the provisions of Section 3.4(b)(i) above, Seminole may schedule up to the full amount of the 2006 System Intermediate Capacity on thirty (30) minutes' notice in the event of a forced outage or forced de-ration of any Seminole firm capacity resource, including firm purchased power resources that are included in Seminole's installed reserve margin, provided that the MW amount scheduled under this provision may not exceed the MW quantity associated with such forced outage or forced de-ration. At the conclusion of a forced outage or forced de-ration event, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule for the upcoming hour to the level which existed at the time the 2006 System Intermediate Capacity was called upon to respond to such event or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above. If pursuant to a thirty (30) minute notice at the conclusion of a forced outage or forced de-ration event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above.

(iii) Notwithstanding the provisions of Section 3.4(b)(i) above, if Seminole requires the 2006 System Intermediate Capacity to meet its Operating Reserve Requirement, the amount of 2006 System Intermediate Capacity required by Seminole for said purpose shall be made available to Seminole within ten (10) minutes from the time such notice is provided. At the conclusion of Seminole's use of the 2006 System Intermediate Capacity to meet its Operating Reserve Requirements, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule to the level which existed at the time the 2006 System Intermediate Capacity was called upon for said purpose, or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above. If, pursuant to a thirty (30) minute notice at the conclusion of said event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 3.4(b)(i) above.

(iv) Notwithstanding the provisions of Section 3.4(b)(i) above, Seminole may, on eight (8) hours' notice, change the pre-schedule for the 2006 System Intermediate Capacity. Changes made with such eight (8) hour notice shall not constitute Change Events, and such most recent revised schedule shall be used for purposes of implementing Section 3.4(b)(i) above.

(v) For any hour in which (a) Seminole's previous day schedule showed no requirement for 2006 System Intermediate Capacity and (b) the scheduling of such capacity for such hour would require FPC to start up a fossil steam unit, the hourly schedule changes provided for in Section 3.4(b)(i) are not applicable, and Seminole must instead provide eight (8) hours' notice of any change to the hourly pre-schedule provided in accordance with Section 3.3 above; provided that this clause shall not be applicable if Sections 3.4(b)(ii), (iii), or (iv) is applicable.

(vi) FPC may waive the aforementioned conditions if FPC in its sole discretion determines that it can reasonably accommodate such schedule changes.

3.5. Rates and Charges

Through December 31, 2010, the charges for System Intermediate Capacity and Corresponding Energy shall be limited to the following:

(a) Monthly Capacity Charge - $6.31/kW/month of System Intermediate Capacity as determined in accordance with Section 3.0 above.

~~(b)~~

~~(c)~~(b) Monthly Non-fuel Energy Charge - $5.62/MWh multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

~~(d)~~(c) Monthly Fuel Charge - The Monthly Fuel Charge shall be an amount equal to the average cost, expressed in $/MWh, of the fuel burned at the generating units specified on Exhibit 1 and the fuel and non-fuel energy charges associated with the purchased power resources listed on Exhibit 1 during the Billing Month multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

3.6. Amendments to Rates, Charges and Resources

(a) Except as provided in Section 6.2(a), effective June 1, 2010, FPC or Seminole will be free to seek to amend the rates and charges in Section 3.5 as well as the list of System Intermediate Capacity Resources through an appropriate filing at the FERC, provided that such filing does not seek an effective date prior to January 1, 2011. The Parties have agreed to waive their rights to seek such changes prior to such time. Except as provided in Section 3.1 above, all other provisions contained in this Section 3 are intended to remain fixed through December 31, 2013, unless otherwise mutually agreed to by the Parties.

(i) FPC waives, for the remaining term of this Agreement, its right under Section 3.6(a) of this Agreement to make a filing at the FERC to seek to change the rates and charges provided for in Section 3.5 of this Agreement or to further alter the list of Intermediate Capacity Resources provided for in Exhibit 1, as amended, of this Agreement.

(ii) Seminole waives, for the remaining term of this Agreement, its termination and capacity reduction rights under Sections 3.1(a) and (b) of this Agreement in relation to the 1999 System Intermediate Capacity and 2006 System Intermediate Capacity, respectively.

3.7. Point of Receipt

The Point of Receipt for System Intermediate Capacity and Corresponding Energy shall be at the point such capacity and energy is input into the FPC transmission system.

3.8. Transmission Service

FPC will provide Seminole with the transmission services described below for deliveries of System Intermediate Capacity and Corresponding Energy from the Point of Receipt:

(a) to Member load delivery points within the FPC Control Area:

FPC shall provide transmission service under the 1983 Agreement until such time as transmission service under the 1983 Agreement is transferred to service under FPC's open access load-following Network Load Service under the Network Transmission Service Schedule in FPC's Transmission Tariff or applicable successor thereto. The treatment of losses associated with the delivery of System Intermediate Capacity and Corresponding Energy to Seminole Member load delivery points within the FPC Control Area will be in accordance with the 1983 Agreement or successor thereto.

(b) to FPC's Points of Interconnection with other utilities, including Seminole:

In circumstances where Seminole desires to transmit the System Intermediate Capacity and Corresponding Energy from the Point of Receipt to FPC's Points of Interconnection with other utilities, including Seminole, FPC shall offer Seminole the option of choosing any service available under FPC's open access transmission tariff at the appropriate cost, including hourly non-firm service. The quantity of System Intermediate Capacity and Corresponding Energy received by Seminole at the Point of Receipt shall be reduced by FPC's average system transmission losses for the most recent calendar year to determine the quantity of such capacity and energy delivered to FPC Points of Interconnection with other utilities, including Seminole. Seminole's multiple Points of Interconnection with FPC will, for purposes of the transmission tariff, be treated as a single point of delivery between Seminole and FPC.

3.9 Total Monthly Billing Constraint

Notwithstanding the rates and charges set forth in Section 3.5, the total monthly billing under this provision shall not exceed the sum of (a) and (b) below:

(a) the product of the System Intermediate Capacity times $7.03/kW; plus

(b) the product of all Corresponding Energy for the Billing Month times 100% of the average cost, expressed in $/MWh, of the fuel burned at the generating units specified on Exhibit 1 and the fuel and non-fuel energy charges associated with the purchased power resources listed on Exhibit 1 during the Billing Month.

(c) this Section 3.9 shall only apply to the 1999 System Intermediate Capacity.

SECTION 4 - BILLING AND PAYMENT

4.1. Payments

Bills under this Agreement shall be rendered on a monthly basis. Bills shall be due and payable within twenty (20) days from the date of receipt ("Due Date"). All payments shall be made by wire in accordance with terms and wire instructions as set

forth in the invoice. If the Due Date falls on a bank holiday, payment shall not be due until the first succeeding non-bank holiday. If payment is not received within said twenty (20) day period, a late payment charge shall accrue at the rate set for refunds under the Federal Power Act pursuant to 18 C.F.R. § 35.19a.

4.2. Estimated Charges

In order to expedite billing, if actual cost information is not available at the time an invoice for the Billing Month is rendered, the Party rendering such invoice shall use reasonable estimates of such costs based on the best available data for purposes of rendering an initial invoice for the Billing Month. Differences between estimated and actual costs will be reconciled and trued-up with interest at the rate identified in Section 4.1 in the first available invoice following the receipt of actual cost data.

4.3. Disputed Bill

In the event that either Party challenges any portion of a bill rendered under this Agreement, said Party shall, notwithstanding the existence of the dispute, pay both the disputed and undisputed portions of the bill on or before the Due Date. All overcharges shall be refunded with interest as set forth in Section 4.1.

4.4. Audits

Each Party shall provide or cause to be provided all information that each may reasonably request to substantiate all billings, adjustments, and other matters pertaining to the performance of the other Party under this Agreement. Each Party shall, upon written notice, have the right to audit, and the other Party shall make or cause to be made available, any and all books and records of the other Party which relate to and are necessary for verification of charges and costs included in invoices or amended invoices rendered under this Agreement, including those books and records for years outside the period subject to audit to the extent they contain information that may affect charges and costs subject to audit. Any audit shall be conducted at the auditing Party's sole expense and may be performed by designated employees, consultants or agents of the auditing Party that the auditing Party determines in its sole discretion are experienced in utility practices. Upon request, a Party will be entitled to review the complete audit report of another Party, including any supporting materials.

4.5. Books and Records

Each Party shall keep compete and accurate records and memoranda of its actions taken hereunder and shall maintain such records, memoranda, and data as may be necessary to determine or justify with reasonable accuracy any item relevant to this Agreement.

4.6. Stranded Investment

FPC agrees that it will not pursue recovery of "stranded investment costs" related to any reduction or termination of System Intermediate Capacity or of System Peaking Capacity made in accordance with this Agreement.

4.7. Ancillary Services

FPC agrees that the Monthly Capacity Charges contained in this Agreement related to purchases of System Intermediate Capacity and System Peaking Capacity have been structured so as to compensate FPC for production-related costs allocated to Ancillary Services provided under FPC's FERC-approved Transmission Tariff, and consequently it is agreed that no such charges will be assigned to Seminole for transmission services described in this Agreement applicable to the aforementioned purchases. Seminole shall be responsible for the costs of Schedule 1, Scheduling, System Control and Dispatch Service and Schedule 4, Energy Imbalance Service. FPC's merchant function shall bear any costs that Seminole actually incurs related to Schedule 2, Reactive Supply and Voltage Control from Generation Sources Service; Schedule 3, Regulation and Frequency Response Service; Schedule 5, Operating Reserve – Spinning Reserve Service; and Schedule 6, Operating Reserve – Supplemental Reserve Service.

SECTION 5 - MISCELLANEOUS

5.1. Responsibility and Indemnification

Each Party hereto expressly agrees to indemnify and save harmless and defend the other against all claims, demands, costs, or expense for loss, damage or injury to persons or property, in any manner directly connected with or growing out of the generation, transmission, or use of electric capacity and energy on its own side of the Point(s) of Interconnection, unless such claim or demand shall arise out of or result from the negligence or willful misconduct of the other Party, its agents, servants, contractors, or employees; provided, however, that neither Party hereby assumes responsibility for damage or injury to employees of the other Party whenever said other Party's employees are on the first Party's premises.

5.2. Governing Law

This Agreement shall be governed by, and construed in accordance with, the laws of the State of Florida.

5.3. Successors and Assigns

This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties, except that this Agreement may not be assigned by either Party unless consent to the assignment is given in writing by the other Party or such assignment is incident to a merger or consolidation with, or transfer of all or substantially all of the assets of the transferor to, another person or business entity which shall, as part of such succession, assume all the obligations of the transferor under this Agreement. Any assignment made without the consent required shall be void and of no force or effect as against the non-consenting Party. Such consent may not be unreasonably withheld or delayed. Notwithstanding the foregoing, Seminole, without FPC's consent, may assign, transfer, mortgage or pledge the Agreement to create a security interest for the benefit of the United States of America, acting through the RUS. Thereafter, the RUS, without the approval of FPC, may cause the Agreement to be sold, assigned, transferred, or otherwise disposed of to a third party.

5.4. No Amendments Without Consent

This Agreement shall not be amended, changed, altered, or modified except by a written instrument duly executed by an authorized representative of each Party. Each Party agrees not to seek modification of this Agreement under the Federal Power Act to which the other Party has not consented and in which it does not join. Further, each Party agrees that it will not solicit or encourage in any way any third party to seek modification of the Agreement under the Act and, in fact, will use its best efforts to dissuade such party from any such action. The commitments in this Section not to seek modification of the Agreement under the Act are made with the recognition that the commitment constitutes a "practically insurmountable burden" on either Party to obtain

unilateral amendment under the Act. *United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350* U.S. *332 (1956)* and *FPC v. Sierra Pacific Power Co., 350* U.S. 348 (1956). *See also Papago Tribal Utility Authority v. FERC,* 723 F.2d 950, 954. Notwithstanding the above, Seminole shall have the right, under Sections 211 *et seq. of* the Federal Power Act, to seek to modify the transmission arrangements described in Section 3.8 herein.

5.5. Transmission Services

Certain transmission service provisions have been included in Sections 3 and 6, notwithstanding the fact that the Parties do not know at this time what transmission services will be available at the time service commences hereunder. Therefore, the Parties agree and understand that if more efficient and/or economical transmission services exist at the time service is being provided hereunder, Seminole may elect to use such services and FPC will make such services available to Seminole at Seminole's request.

5.6. Notices

Except as otherwise provided herein, notices and other written communications under this Agreement shall be addressed to FPC's Director of Term Marketing South, Regulated Commercial Operations, and to Seminole's Vice President, Strategic Services, in the case of Seminole at their respective corporate headquarters or to such other persons as the Parties may designate in writing from time to time. Notwithstanding the foregoing, any communications regarding operational emergencies or other operational problems may be made orally or in any other manner reasonable under the circumstances and should be directed to the appropriate operational personnel of the Parties.

5.7 RUS Approval

This Agreement is subject to the approval of the Administrator of the RUS.

5.8 Headings

Section Headings in this Agreement are included herein for convenience of reference only and shall not constitute a part of this Agreement for any other purpose.

5.9 Contract Construction

For purposes of construing this Agreement, it is agreed and understood that both Parties are equally responsible for drafting same.

5.10 Notification Format

Normal notifications from Seminole to FPC for Sections 3.3, 3.4, 6.4, and 6.5 shall be via electronic mail sent to [energy.trader@pgnmail.com] in a plain text file format with a defined subject line and all formatting to be determined by FPC at a later date. Electronic mail

addresses may be added, changed or deleted from time to time upon FPC's request. An alternate notification back-up system shall be by facsimile at #919-546-3374. The facsimile number may also be changed from time to time as needed.

Normal notification from FPC to Seminole for Section 6.4 shall be via electronic mail sent to [emcc@seminole-electric.com] in a plain text file format with a defined subject line of "SECI Pre-Schedule." Electronic mail addresses may be added, changed or deleted from time to time upon Seminole's request. An alternate notification back-up system shall be by facsimile at #813-963-2909. The facsimile number may also be changed from time to time as needed.

5.11 Dispute Resolution for Selection of Comparable Successor Pricing Point for Daily Fuel Price Calculation for the Corresponding Energy from System Combined Cycle Capacity

(a) If McGraw Hill (or its successor) ceases to provide the daily midpoint price for the Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, and FPC and Seminole are unable to agree upon a comparable successor pricing point for the Daily Fuel Price Calculation for the Corresponding Energy from System Combined Cycle Capacity, then the Parties agree to the following dispute resolution procedures to resolve a dispute concerning the selection of a comparable successor pricing point. The Parties agree to first engage in Good-Faith Negotiations to attempt to resolve any dispute that arises concerning the selection of a comparable successor pricing point. In the event that the Parties are unsuccessful in resolving a dispute through such negotiations, the controversy may be submitted to binding arbitration as provided below. The outcome of such Good Faith Negotiation or arbitration shall determine the price to be effective as of the date the Gas Index ceases to be published and with any surcharge or repayment to be made hereunder to bear interest at a rate determined to be appropriate by the arbitrator. Binding arbitration shall not be a method of dispute resolution for any other provision of this Agreement.

(i) Good-Faith Negotiations. The process of "Good-Faith Negotiations" requires that each Party set out in writing to the other its reason(s) for its proposed selection of a comparable successor pricing point. The Parties shall then meet to attempt to agree to a comparable successor pricing point. Upon request, each Party shall promptly make available to the other such information, including existing studies and raw data, to the extent related to its proposed selection of a comparable successor pricing point. A Party shall not be required as part of these negotiations to provide any information which is confidential or proprietary in nature unless it is satisfied in its discretion that the other Party will maintain the confidentiality of

and will not misuse such information or any information subject to attorney-client or other privilege under applicable law regarding discovery and production of documents. The negotiation process shall include at least two meetings to discuss the selection of a comparable successor pricing point prior to invoking arbitration rights. Unless otherwise mutually agreed, the first meeting shall take place within ten (10) business days after either Party has received notice from the other of the desire to commence formal negotiations concerning the Dispute. Unless otherwise mutually agreed, the second meeting shall take place no more than ten (10) business days after the first meeting. In the event a Party refuses to attend a negotiation meeting, either Party may proceed immediately to binding arbitration concerning the selection of a comparable successor pricing point.

(ii) Binding Arbitration. Binding arbitration may be initiated at any time by either Party following Good Faith Negotiations (the "Binding Arbitration Notice"). The Binding Arbitration Notice shall include a summary of the complaining Party's position and a proposed resolution. The Party receiving the Binding Arbitration Notice shall have the right to rebut the complaining Party's position and proposed resolution in the Binding Arbitration Notice. The Parties shall by mutual agreement appoint an arbitrator within thirty (30) days after receipt of the Binding Arbitration Notice, giving preferred consideration to former U.S. Circuit Court Judges with training or experience to address the issue in controversy. In the event the Parties are unable to agree upon an arbitrator within such time frame, either Party may request the American Arbitration Association to designate three potential arbitrators, each of whom (1) shall have agreed to arbitrate the dispute, (2) shall have never been affiliated with either Party or its affiliate(s), (3) shall be qualified by training or experience to address this issue, and (4) shall be available to fulfill the responsibilities of binding arbitration in a timely manner. Each Party shall be provided relevant information related to each potential arbitrator, including applicable fees; and each shall designate its first, second and third choices among the potential arbitrators, with the designated choice receiving four, three and one point(s), respectively. In the event a Party fails to designate an order of choice, each potential arbitrator shall receive one point. The potential arbitrator receiving the most points shall be the arbitrator. Unless otherwise mutually agreed, binding arbitration shall commence two (2) weeks after the selection of the arbitrator. The arbitration shall proceed in accordance with the rules for commercial arbitration established by the American

Arbitration Association absent the contrary agreement of the Parties. The arbitrators shall be empowered to select the comparable successor pricing point as of the date the original pricing point ceases to be published and with any surcharge or

repayment to be made hereunder to bear interest at a rate determined to be appropriate by the arbitrators. Any decision by the arbitrators shall be in writing and binding on the Parties. The fees and expenses of the arbitrators shall be shared equally by the Parties, and each Party shall bear its own costs.

(iii) Confidentiality and Non-Admissibility of Statements Made in, and Evidence Specifically Prepared for, Good Faith Negotiations and Binding Arbitration. Each Party hereby agrees that all statements made in the course of Good Faith Negotiations, as contemplated in Section 5.11(a), and in binding arbitration, as contemplated in Section 5.11(b), shall be confidential, and shall not be disclosed to or shared with any third parties (other than the arbitrator, potential arbitrators or any other person whose presence is necessary to facilitate the negotiation and/or binding arbitration process). Furthermore, each Party agrees that any documents or data specifically prepared for use in Good Faith Negotiations and/or binding arbitration shall not be disclosed to any third party, except those parties whose presence is necessary to facilitate the binding arbitration process. Each Party agrees and acknowledges that no statements made in or evidence specifically prepared for Good Faith Negotiations pursuant to Section 5.11(a) (versus data, documents, and other evidence in existence prior to the time of the Good Faith Negotiations), shall be admissible for any purpose in any subsequent binding arbitration.

5.12 Regulatory Approvals

This Agreement is subject to the approval of the Administrator of the Rural Utilities Service.

5.13 Execution

This Agreement may be executed in any number of counterparts, each executed counterpart constituting an original but all together only one executed agreement.

SECTION 6 - SYSTEM PEAKING CAPACITY

6.0. **Capacity:** 150 MW of System Peaking Capacity and Corresponding Energy.

6.1 **Duration:** Effective December 1, 2006, FPC will commence the sale to Seminole of System Peaking Capacity and Corresponding Energy. Such sale shall continue through December 31, 2013.

6.2 **Conversion Rights:** Upon 12 months' written notice, Seminole may provide a one-time notice to convert all or a portion (in 50 MW increments) of the said System Peaking Capacity to 2006 System Intermediate Capacity. In such notice, Seminole may provide varying annual amounts of System Peaking Capacity to be converted to 2006 System Intermediate Capacity. The annual amounts shall be denominated 2006 Converted System Intermediate Capacity. For example, in a notice provided 12 months prior to January 2007, Seminole may convert 100 MW in 2007, 50 MW in 2008 and 150 MW in 2009 through 2013 to 2006 Converted System Intermediate Capacity.

(a) In the event Seminole exercises its one-time option with 12 months' written notice to FPC to convert any portion (in 50 MW increments) of the System Peaking Capacity to 2006 Converted System Intermediate Capacity, the terms and conditions of Section 3 shall apply to such converted portion with the following exceptions: (i) Except in the situation provided for in Section 6.2(b) below where there is a successful rate renegotiation, the Parties agree to waive their right under Section 3.6 to seek to amend the Capacity Charge and Monthly Non-fuel Energy Charges set out in Section 3.5; (ii) Seminole may not give three (3) years' written notice to reduce any amount of this 2006 Converted System Intermediate Capacity as allowed in Section 3.1(b); and (iii) Schedule Changes set forth in Section 3.4(b)(i) shall apply with the exception that one (1) hour's notice for schedule changes at the top of the hour will be required for 2006 Converted System Intermediate Capacity.

(b) The following procedure will be used in the event that (I) Seminole converts any portion of the System Peaking Capacity to 2006 Converted System Intermediate Capacity under the terms hereof and (II) the Southern Company purchase contract listed on Exhibit 1 of the Agreement (A) is not extended beyond its initial term ending May 31, 2010; or (B) is extended with an increased monthly capacity charge from the charge that is in effect as of May 2010. If FPC contends that condition (II)(B) is satisfied, it must at the same time provide documentation to Seminole demonstrating that there would be such an increase.

In the event of (I) and (II)(A) above, the Hines Energy Complex, Unit #3 resource (or FPC's next natural gas combined cycle generating unit if Hines Unit #3 is not commercial as of the termination date of the above-referenced Southern Company contract) will be substituted for the Southern Company purchase in Exhibit 1 of the Agreement only as to the 2006 Converted System Intermediate Capacity.

In the event of (I) and (II)(B) above, the Southern Company purchase shall remain as a resource in Exhibit I of the Agreement, and FPC shall have the option of (i) continuing under the existing terms, conditions and rates of the Agreement; or (ii) entering into negotiations with Seminole at least two (2) months prior to providing the termination notice discussed below, which negotiations shall be limited to FPC seeking an increase in the System Intermediate Monthly Capacity Charge for 2006 Converted System Intermediate Capacity relating solely to the aforementioned increase in the Southern Company monthly capacity charge. Provided all conditions are met in (I), (II)(B) and (ii) above and the negotiations provided for in (ii) are not successful, FPC may then provide forty-six (46) months' written notice to Seminole to terminate the sale of 2006 Converted System Intermediate Capacity, such notice to become effective no sooner than June 2010. Any reference to Southern Company in this paragraph shall be deemed to include any successor or affiliate of the Southern Company.

6.3 **Dispatch:** System Peaking Capacity will be given a dispatch and commitment priority equivalent to that of FPC's Firm Native Load. Seminole may use said System Peaking Capacity and Corresponding Energy for any purpose. Such purposes shall include, but not be limited to, using said System Peaking Capacity and Corresponding Energy (i) as an additional resource to be dispatched (economically or otherwise) to serve Member load (without regard to Control Area location of such load), (ii) to meet Seminole's installed and Operating Reserve Requirement, (iii) to sell emergency and all other interchange services to other utilities, (iv) as alternative dependable capacity in quoting or otherwise seeking to obtain lower priced energy from alternate power supply resources, and (v) to sell capacity and/or energy to other entities.

6.4 **Pre-Scheduling:** By 09:30 a.m. Eastern Prevailing Time ("EPT") on each day prior to the next delivery day, Seminole shall submit to FPC a pre-schedule of its anticipated requirements (MW/hour) for the System Peaking Capacity at the Point of Receipt for each hour of the succeeding calendar day in a notification as specified in Section 5.10. In addition, on the day before each weekend or holiday, Seminole shall provide an "extended forecast" of its anticipated requirements covering said period. Seminole may designate the "extended forecast" as its pre-schedule or revise it at Seminole's sole discretion on a day-ahead basis by 09:30 a.m. EPT to satisfy its pre-schedule

requirement. Furthermore, Seminole may also provide FPC an "extended pre-schedule" as specified in Section 5.10 on any business day before 09:30 a.m. EPT for the succeeding calendar day and any period beyond as determined by Seminole. The "extended pre-schedule" may be revised at Seminole's sole discretion on a day-ahead basis by 09:30 a.m. EPT to satisfy its pre-schedule requirement. If Seminole does not anticipate using such capacity, it will submit zero (0) MW for each of the hours for the day-ahead schedule. Hourly schedules for the System Peak Capacity cannot exceed 150 MW or be less than zero (0) MW. Upon receipt of Seminole's pre-schedule, FPC will send an immediate automated response to Seminole to confirm that FPC has received said pre-schedule. In the event FPC does not receive a pre-schedule for the System Peaking Capacity or does not receive the System Peaking Capacity pre-schedule on time either by normal notification or the back-up notification system, and provided FPC has called Seminole and waited at least fifteen (15) minutes from said call for Seminole to resolve the deficient pre-schedule, a schedule of zero (0) MW ("Default Pre-Schedule") will be used for all hours of the period for which pre-scheduled System Peaking Capacity was not provided as required herein.

6.5 **Schedule Changes:** For the System Peaking Capacity, Seminole may make changes to the hourly pre-schedule provided to FPC under Section 6.4 above subject to the notice provisions below.

(a) FPC will track and Seminole may, on one (1) hour's notice, change the next hour's schedule specification, at the top of the hour (an example of one (1) hour's notice is as follows: to change hour ending 1200 EPT, Seminole must provide notice before 10:00 a.m. EPT) for the System Peaking Capacity by up to 50 MW more or less than the MW specification for the hour during which such notice is given, provided that such change does not cause the schedule to go below zero (0) MW or exceed 150 MW; and provided that throughout the course of the calendar day such scheduling changes do not result in more than eight (8) "Change Events." A Change Event occurs when Seminole provides one (1) hour's notice that it is changing the schedule for the next hour to a level different from that specified in the pre-schedule. Notwithstanding the foregoing, if at the time Seminole provides such one (1) hour notice for a change in the upcoming hour, it also advises FPC that it intends to retain this new MW schedule for the upcoming hour and for at least two additional consecutive hours following the upcoming hour ("Additional Hours"), then such change will not be a Change Event. If at the time of said notice, Seminole also indicates that it will revert back to the pre-scheduled MW level at the conclusion of said Additional Hours, then the change in schedule from the last Additional Hour to the hour reverting to the pre-scheduled MW level will not be considered a Change Event. If, however, Seminole subsequently provides one (1) hour notice to change a schedule for an Additional Hour, it may do so, provided that for each hour changed, a Change Event shall be counted unless at the time of such notice,

Seminole provides a new schedule of Additional Hours, in which case only one Change Event shall be counted (i.e., relating to the first hour changed in the new schedule). For example, if Seminole specifies a pre-schedule of 100 MW for each hour, and Seminole provides notice before 6:00 a.m. EPT to change said schedule for hour ending 0800 EPT to 50 MW, and further indicates that it wishes to hold the 50 MW -schedule through hour ending 1500, at which time the schedule reverts to the original pre-schedule amount of 100 MW for hour ending 1600, this would count as one Change Event. If, however, before 11:00 a.m. EPT Seminole provides notice that it intends to revert back to the then-effective pre-schedule amount of 100 MW for hour ending 1300, this would count as one additional Change Event since Seminole reverted to the pre-scheduled MW level prior to the time indicated in the first notification before 6:00 a.m. EPT. If instead, before 11:00 a.m. EPT Seminole provides notice of a change in schedule for hour ending 1300 to 90 MW and with said notice indicates that it intends to hold this schedule through hour ending 1500 and then reverts back to the pre-scheduled MW level in hour ending 1600, such change would only result in one additional Change Event, since Seminole established Additional Hours at the time of such notice and returned to the pre-scheduled MW level at the same time it had previously indicated it would do so in the prior notice. The Change Event in such circumstance would relate to the change between hour ending 1200 and hour ending 1300 (i.e., 50 MW to 90 MW). If instead, before 11:00 a.m. EPT Seminole provides notice of a change in schedule for hour ending 1300 to 90 MW and subsequently changes, with one (1) hour's notice, the schedules for hour ending 1400 to 80 MW, hour ending 1500 to 90 MW, and hour ending 1600 to 50 MW, all without a schedule of Additional Hours at the time of each respective notice, then each of these changes would constitute Change Events, totaling four (4) Change Events for hours ending 1300, 1400, 1500, and 1600.

(b) Notwithstanding the provisions of Section 6.5(i) above, Seminole may schedule up to 150 MW of the System Peaking Capacity on thirty (30) minutes' notice in the event of a forced outage or forced de-ration of any Seminole firm capacity resource, including firm purchased power resources that are included in meeting Seminole's installed reserve margin, provided that the MW amount scheduled under this provision may not exceed the MW quantity associated with such forced outage or forced de-ration. At the conclusion of a forced outage or forced de-ration event, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule for the upcoming hour to the level which existed at the time the System Peaking Capacity was called upon to respond to such event or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in

Section 6.5(i) above. If pursuant to a thirty (30) minutes' notice at the conclusion of a forced outage or forced de-ration event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 6.5(i) above.

(c) Notwithstanding the provisions of Section 6.5(i) above, if Seminole requires the System Peaking Capacity to meet its Operating Reserve Requirement, the amount of System Peaking Capacity required by Seminole for said purpose shall be made available to Seminole within the period specified by the Florida Reliability Coordinating Council ("FRCC") or its successor (i.e. currently fifteen (15) minutes); provided that the fifteen minute maximum shall not be changed to less than ten (10) minutes. At the conclusion of Seminole's use of the System Peaking Capacity to meet its Operating Reserve Requirement, Seminole shall have the right, on thirty (30) minutes' notice, to either (a) return the MW schedule to the level which existed at the time the System Peaking Capacity was called upon for said purpose, or (b) set the schedule for the upcoming hour at the pre-scheduled MW level for such hour, without incurring a Change Event for such scheduling change and without being subject to the 50 MW per hour change limitation described in Section 6.5(i) above. If, pursuant to a thirty (30) minute notice at the conclusion of said event, Seminole establishes a schedule for the upcoming hour at a level different from the level referenced in the prior sentence, then such change shall constitute a Change Event and such change shall also be subject to the 50 MW per hour change limitation described in Section 6.5(i) above.

(d) FPC may waive the aforementioned conditions if FPC in its sole discretion determines that it can reasonably accommodate such schedule changes.

6.6 **Rates and Charges:** From December 1, 2006 through December 31, 2013, the charges for the System Peaking Capacity and Corresponding Energy shall be:

(a) Monthly Capacity Charge - The Monthly Capacity Charge shall be as follows:

Starting	12/01/2006	12/01/2008	12/01/2009	12/01/2010	12/01/2011	12/01/2012
Ending	11/30/2008	11/30/2009	11/30/2010	11/30/2011	11/30/2012	12/31/2013
Charge	$4.75	$4.85	$4.95	$5.05	$5.15	$5.25

(b) Monthly Non-fuel Energy Charge - $2.57/MWh fixed for the term, multiplied by the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

(c) Monthly Fuel Charge - The Monthly Fuel Charge shall be an amount equal to the average cost, expressed in $/MWh, of the fuel burned at the Peaking Capacity Resources during the Billing Month multiplied by

(d) the Corresponding Energy scheduled to Seminole at the Point of Receipt for said purposes during the Billing Month.

6.7 **Amendments to Rates, Charges and Resources:** All provisions contained in this Section 6 are intended to remain fixed through December 31, 2013, unless otherwise mutually agreed to by the Parties. Except in the situation provided for in Section 6.2(b) above, where there is a successful rate renegotiation, FPC shall not make unilateral application to the Federal Energy Regulatory Commission under Section 205 of the Federal Power Act for a change in rates, terms and conditions contained in this Section 6 that becomes effective prior to January 1, 2014 and Seminole shall not seek any relief under Section 206 of the Federal Power Act concerning the rates, terms and conditions in this Section 6 that becomes effective prior to January 1, 2014. Except as expressly provided by this Agreement, FPC and Seminole further agree that the standard of review for changes to the Agreement proposed by any person, including a non-party or the FERC acting sua sponte shall be the "public interest" standard of review set forth in the United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) (the "Mobile-Sierra" doctrine).

6.8 **Point of Receipt:** The Point of Receipt for System Peaking Capacity and Corresponding Energy shall be at the point such capacity and energy is input into the FPC transmission system.

6.9 **Transmission Service:** Subject to the provisions of Section 5.5, FPC will provide Seminole with the transmission services described below for deliveries of System Peaking Capacity and Corresponding Energy from the Point of Receipt:

(a) to Member load delivery points within the FPC Control Area:
FPC shall provide transmission service for the System Peaking Capacity under the 1983 Agreement, unless or until such time as transmission service under the 1983 Agreement is transferred to service under FPC's Open Access Transmission Tariff or the successor thereto. The treatment of losses associated with the delivery of System Peaking Capacity and Corresponding Energy to Seminole Member load delivery points within the FPC Control Area will be in accordance with the 1983 Agreement or the Open Access Transmission Tariff, as applicable.

(b) to FPC's Points of Interconnection with other utilities, including Seminole:

In circumstances where Seminole desires to transmit the System Peaking Capacity and Corresponding Energy from the Point of Receipt to FPC's Points of Interconnection with other utilities, including Seminole, FPC shall offer Seminole the option of choosing any service available under FPC's Open Access Transmission Tariff, or the successor thereto, including hourly non-firm service, at the appropriate cost. The quantity of System Peaking Capacity and Corresponding Energy received by Seminole at the Point of Receipt shall be reduced by FPC's average system transmission losses for the most recent calendar year to determine the quantity of such capacity and energy delivered to FPC Points of Interconnection with other utilities, including Seminole. Seminole's multiple Points of Interconnection with FPC will, for purposes of the transmission tariff, be treated as a single point of delivery between Seminole and FPC.

SECTION 7 - SYSTEM COMBINED CYCLE CAPACITY

7.1 Duration

(a) Effective January 1, 2011 through the remaining term of this Agreement, the 150 MW of 2006 Converted System Intermediate Capacity, which Seminole began being purchasing under this Agreement as of December 1, 2006, will be deemed converted to 150 MW of System Combined Cycle Capacity under the following terms and conditions in addition to those general terms and conditions set forth in this Agreement (provided that, except as specifically referenced below, the provisions of Sections 3 and 6 of this Agreement do not apply to System Combined Cycle Capacity and Corresponding Energy). For the purposes of this Section 7, the following definitions shall be applied:

(i) **"System Combined Cycle Capacity"** shall mean FPC's capacity from the Hines Energy Center.

(ii) **"Hines Energy Center"** shall mean FPC's combined cycle generating facility located in Polk County, Florida, which has four units, named Hines 1, 2, 3, and 4, each of which is capable of generating approximately 500 MW.

(iii) **"Corresponding Energy"** shall mean the energy, expressed in MWh, associated with System Combined Cycle Capacity, provided, however, that the availability of Corresponding Energy is not contingent upon the availability of the units at the Hines Energy Center, in accordance with Section 7.11 below.

(iv) **"Point of Receipt"** for System Combined Cycle Capacity and Corresponding Energy shall be at the point such capacity and energy is input into the FPC transmission system.

7.2 Monthly Capacity Charge

The Monthly Capacity Charge for System Combined Cycle Capacity will be the monthly capacity price of $9.25 per kW-month for calendar year 2011, $9.44 per kW-month for calendar year 2012, and $9.63 per kW-month for calendar year 2013, times 150,000 kW.

7.3 Monthly Non-fuel Energy Charge

The Monthly Non-fuel Energy Charge will be the variable operations and maintenance price, which will be $3.00/MWh for calendar year 2011, $3.06/MWh for calendar year 2012, and $3.12/MWh for calendar year 2013, times the Corresponding Energy scheduled to Seminole at the Point of Receipt during the Billing Month.

7.4 Monthly Fuel Charge

(a) The Monthly Fuel Charge will be the sum for the Billing Month of the Daily Fuel Price times the Corresponding Energy that is fueled by FPC and that is scheduled to Seminole at the Point of Receipt during the relevant delivery day. As set forth below, the Daily Fuel Price shall be adjusted up to include losses using the Output to Line loss factor as set forth in Exhibit C-1 of FPC's Annual Filing of Cost Factor Updates, as filed with FERC ("OTL Loss Factor"). The Daily Fuel Price will be determined as follows:

(i) Daily Fuel Price Calculation. To the extent that the Corresponding Energy is fueled by gas supplied by FPC, the Daily Fuel Price will be the result of multiplying the heat rate (7.25 MMBtu/MWh during the months of April-September, and 7.6 MMBtu/MWh during all other months) times the Gas Index and the Daily Fuel Price shall be adjusted up to include losses using the OTL Loss Factor. The Gas Index shall be the daily midpoint price of natural gas (expressed in $/MMBtu) for the relevant day of delivery of energy for Louisiana-Onshore South, Florida Gas, Zone 3, as published in Platt's Gas Daily's Price Survey, plus the Florida Gas Transmission ("FGT") fuel loss factor, the FGT average usage charge from the applicable FGT Tariff, and a $0.87/MMBtu demand charge for gas transportation. In the event that no such price is published for the relevant gas day of delivery of energy, then the following shall be used: (a) the arithmetic average of the daily midpoint price (expressed in $/MMBtu) of the last published price prior to and the next published price after the relevant day of delivery of energy. If McGraw Hill (or its successor) ceases to provide the daily midpoint price for the above-referenced pricing point, FPC and Seminole will as promptly as possible determine a comparable successor pricing point using the procedures described in Section 5.11 above.

7.5 Monthly Emissions Charge

(a) The Monthly Emissions Charge will be the sum for the Billing Month of the Emissions Price times the Corresponding Energy scheduled to Seminole at the Point of Receipt during the relevant delivery day. The Emissions Price will be determined as follows:

(i) "Emissions Price" is defined as the price (in $/MWh) for emissions costs, emissions allowance costs and taxes allocated to the Hines Energy Center, such as SO_2 and NO_x allowances and carbon taxes

(and any other emissions allowance costs/taxes allowed by FERC). The total emissions costs shall be reduced by a pro rata allocation of any emissions credits or allowances allocated to FPC. The Emission Price shall be adjusted up to include losses using the OTL Loss Factor. Costs associated with the Emissions Price will not include any costs (variable, fixed or otherwise) that are already included in the Monthly Capacity Charge, Monthly Non-fuel Energy Charge and Monthly Fuel Charge for System Combined Cycle Capacity or Corresponding Energy. For the avoidance of doubt, in no case will the Emissions Price recover any of FPC's capital costs associated with emissions costs, allowances, or taxes.

7.6 Other Charges

There will be no start or other charges for System Combined Cycle Capacity and Corresponding Energy aside from those set forth above. Neither Party may, through a filing at the FERC or elsewhere, seek to change the rates or the rate mechanism for System Combined Cycle Capacity described above in this Section 7 through the end of the term of this Agreement.

7.7 Gas Delivery Option

(a) Gas Delivery Option. Seminole shall have the option to deliver up to 18,253 Dth/day of natural gas to FPC that is required to generate energy in an amount up to the Corresponding Energy plus losses using the OTL Loss Factor ("Gas Option"). Seminole will have the ability to utilize the Gas Option for a maximum of forty eight (48) days on a calendar twelve (12) month basis. Seminole may only use the Gas Option on a day ahead basis (e.g., no intraday or month-ahead notifications will be accepted by FPC). Additionally, use of the Gas Option by Seminole shall be subject to physical pipeline constraints (e.g., Seminole may not elect to use the Gas Option if the FGT pipeline declares a Force Majeure (per its tariff) or cannot otherwise accommodate additional gas at the Hines Energy Center delivery point or if the Hines Energy Center is unavailable). For any such hours in which Seminole uses its Gas Option and delivers natural gas to the Hines Energy Center (FGT meter #220764) equal to the amount of Corresponding Energy plus losses using the OTL Loss Factor, the Daily Fuel Price in such hours will be zero, but there shall be no adjustment to the other charges set forth in Sections 7.2, 7.3, and 7.4 above. For any such hours in which Seminole uses its Gas Option and delivers natural gas to the Hines Energy Center (FGT meter #220764) in an amount that is less than the Corresponding Energy plus losses using the OTL Loss Factor, FPC will supply the natural gas for such deficient amount of Corresponding Energy and Seminole will pay for such deficient amount at the Daily Fuel Price multiplied by the deficient amount. The amount of Corresponding Energy (MWh) that corresponds with Seminole's natural gas delivery shall be

calculated by dividing the total gas delivered by Seminole in a relevant Gas Day (10:00 am day 1 – 10:00 am day 2 Eastern Prevailing Time ("EPT")), expressed in dekatherms, by the heat rate for the applicable month (7.25 MMBtu/MWh during the months of April through September and 7.6 MMBtu/MWh during all other months) and further multiplied by one minus the OTL Loss Factor. Seminole will notify FPC of its election to use its Gas Option and the gas quantity to be supplied to FPC at the Scheduling Deadline along with its Schedule for Energy (which can be greater than the Corresponding Energy associated with the gas supplied by Seminole via the Gas Option) as described in Section 7.12 below. FPC will provide the gas balancing function when Seminole exercises the Gas Option. For clarity, if Seminole changes its Schedule for Energy on a day when it is exercising the Gas Option and Seminole's quantity of gas delivered to the Hines Energy Center exceeds the Corresponding Energy plus losses using the OTL Loss Factor, then the excess dekatherms associated with the Schedule Change will be retained by FPC, with no reciprocal benefit to Seminole therefrom.

(i) Gas Scheduling for Gas Option. On or before FGT's timely cycle scheduling deadline for Day Ahead, Seminole will provide FPC notification of which natural gas transportation contracts (and their respective quantities) have been used to schedule gas on FGT to be delivered to the Hines Energy Center, which such scheduled quantities for delivery shall not exceed the quantity limit specified in Section 7.7(a) above.

(ii) Gas Option Interruption. Seminole will provide timely notification to FPC of any expected cuts to its scheduled deliveries under the Gas Option, and any such day in which such cuts are actualized (a "Gas Option Interruption") will count against the 48 days of Gas Option flexibility provided to Seminole in Section 7.7(a) above. If Seminole is not able to restore its expected deliveries by 10:00 am EPT (i.e., the beginning of the gas day), then FPC will quote a price for intraday fuel delivery and Seminole will have the option to (i) pay any Incremental Costs (as defined in Section 7.12 below) reasonably determined by FPC to be attributable to meeting Seminole's Schedule for Energy or (ii) reduce its Schedule for Energy. Seminole will be responsible for any imbalance fees and penalties assessed by FGT caused solely by Seminole's actions or inactions related to its use of the Gas Option hereunder and FPC shall be reimbursed by Seminole for such cost. For the avoidance of doubt, FPC's obligation to deliver energy to Seminole under this Agreement does not change if Seminole fails to deliver natural gas to FPC under the Gas Option.

(iii) The Parties have provided examples in regards to the Gas Option and Incremental Costs (as defined below), if applicable, in Exhibit 3. These examples are for illustrative purposes only and are intended to be used to demonstrate the Parties' intent regarding the calculation of applicable Incremental Costs.

7.8 Daily Gas Scheduling

Except as provided in Section 7.7 above, FPC will provide all gas scheduling, balancing and procurement functions for the delivery of System Combined Cycle Capacity and Corresponding Energy under this Agreement.

7.9 [Reserved]

7.10 Transmission Service

The transmission service for System Combined Cycle Capacity and Corresponding Energy from the Point of Receipt shall be the same as for System Intermediate Capacity and Corresponding Energy as provided for in Section 3.8 of this Agreement.

7.11 Dispatch and Commitment Priority

The dispatch and commitment priority and other provisions of Section 3.2 of this Agreement shall apply equally to the System Combined Cycle Capacity and Corresponding Energy.

7.12 Daily Energy Schedule

(a) On or before 08:30 a.m. (EPT) of the prior Business Day ("Scheduling Deadline"), Seminole shall provide FPC its schedule for Corresponding Energy for each hour of the applicable delivery day, including any intervening non-Business Days ("Schedule for Energy"). If FPC does not receive notification of a schedule request from Seminole prior to the Scheduling Deadline, then Seminole's Schedule for Energy shall be deemed to be zero (0) MW for all hours of the applicable delivery day.

(i) Schedule Changes due to System Events. Seminole may modify its Schedule for Energy (a "Schedule Change") on a MW for MW basis with thirty (30) minutes prior notice to FPC (i) for any forced outage or derating of any Seminole firm capacity resources that are included in Seminole's reserve margin, including firm purchased power resources, up to the MW quantity associated with such forced outage or derating, (ii) for a system emergency, or (iii) for the curtailment of network or firm transmission service procured by Seminole from the Point of Receipt, each a "System Event." In the case of a System Event, Seminole's Schedule Change is limited to the 150 MW amount of System

Combined Cycle Capacity. At the conclusion of such System Event and at such time as is reasonably operationally feasible, Seminole shall return to its previous Schedule for Energy at the top of the next available clock hour. In the case of a Schedule Change resulting from a System Event, Seminole's Fuel Charge for the affected hours shall be the Monthly Fuel Charge, as set forth in Section 7.4 above, plus Incremental Costs, if applicable, as set forth below.

(ii) Operating Reserves. Notwithstanding the provisions above, if Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement, the amount of System Combined Cycle Capacity required by Seminole for said purpose shall be made available to Seminole within ten (10) minutes from the time such notice is provided. Seminole's use of System Combined Cycle Capacity to meet its operating reserve requirement is limited to the 150 MW amount of System Combined Cycle Capacity. At the conclusion of such circumstances and at such time as is reasonably operationally feasible, Seminole shall return to its previous Schedule for Energy at the top of the next available clock hour. In the case where Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement and FPC can obtain gas for the System Combined Cycle Capacity needed to meet Seminole's operating reserve requirement, Seminole's Fuel Charge for the affected hours shall be the Monthly Fuel Charge, as set forth in Section 7.4 above. In the case where Seminole requires System Combined Cycle Capacity to meet its operating reserve requirement and FPC cannot obtain gas for the System Combined Cycle Capacity needed to meet Seminole's operating reserve requirement, Seminole's Fuel Charge for the affected hours shall be the System Average Fuel Rate. FPC's System Average Fuel Rate shall be determined in the following manner:

(1) The "System Average Fuel Rate" ($/MWh) = Total Fuel Cost divided by Total Energy Generated as adjusted up to include losses using the OTL loss factor set forth in Exhibit C-1 of FPC's Annual Filing of Cost Factor Updates, as filed with FERC.

~~(i)~~ (A) "Total Fuel Cost" ($) is defined as FPC's fuel costs for the relevant Billing Month for all of FPC's System Average Capacity Resources, which are defined as the capacity from FPC's system generating resources and power purchase agreements, excluding FPC's Interchange Sales, company use and stratified sales. The Total Fuel Cost also shall include emissions costs, emissions allowance costs and taxes allocated to FPC's System Average Capacity Resources, such as SO_2 and NO_x allowances and carbon taxes (and any other

emissions allowance costs/taxes allowed by FERC). However, the Total Fuel Cost will not include any costs (variable, fixed or otherwise) already included in the Monthly Capacity Charge, or Monthly Non-fuel Energy Charge for System Combined Cycle Capacity or Corresponding Energy. For the avoidance of doubt, in no case will the Total Fuel Cost recover any of FPC's capital costs associated with emissions costs, allowances, or taxes. "Interchange Sales" shall mean those opportunity sales made by FPC from time to time (i.e., the sales transactions included on Schedule A-6 of the FPC's FPSC-required monthly fuel and purchased power filing as of October 6, 2009 or any successor thereto).

(B) "Total Energy Generated" (MWh) is defined as the actual net generation of all System Average Capacity Resources for the relevant Billing Month.

(iii) Intraday Changes. For the avoidance of doubt, for any day in which Seminole's Schedule for Energy is zero (0) MW, Seminole may nevertheless make intraday Schedule Changes in accordance with this provision. After the Scheduling Deadline, Seminole may provide a Schedule Change for any hour(s) of the applicable Delivery Day by providing notice of such change to FPC at least two (2) hours prior to the beginning of such hour(s); provided, however, that Seminole shall be limited to two (2) occasions each day for requesting a Schedule Change.

(iv) Schedule Changes. A request by Seminole to change the Schedule for Energy during the day for one hour or multiple, consecutive hours (at the same MW level) shall only be deemed to be one occasion for requesting a Schedule Change. System Events shall not be deemed a Schedule Change for the purpose of counting the two (2) occasions for Intraday Changes. Any Schedule Change must be consistent with the Scheduling Parameters provided below. To the extent any Schedule Change is made after the Scheduling Deadline, the price for Corresponding Energy delivered to Seminole shall be in accordance with the calculation of the Monthly Fuel Charge plus all of FPC's incremental costs reasonably incurred (and subsequently agreed to by Seminole) in accommodating Seminole's Schedule Change ("Incremental Costs"). Incremental Costs may include any demonstrable costs to FPC solely attributable to Seminole's Schedule

Change, including, but not limited to, additional gas transportation charges, imbalance charges, cash-out charges and penalties. FPC shall make commercially reasonable efforts to minimize Incremental Costs to Seminole in response to a Schedule Change, including but not limited to mitigating FPC's nominated gas situation through pipeline imbalance adjustments in subsequent days pursuant to FPC's pipeline operational balancing agreements.

(v) Communication of Incremental Costs. In the event that Seminole requests a Schedule Change after the Scheduling Deadline, FPC will inform Seminole of the Incremental Costs, if any, including the basis therefore, which would be payable by Seminole in connection with such Schedule Change, and Seminole shall immediately exercise one of the following options: (i) not change the existing Schedule for Energy or (ii) proceed with the requested Schedule Change and pay the stated Incremental Costs.

(vi) Scheduling Parameters. For any hour for which Seminole schedules Corresponding Energy, the minimum and maximum amounts of scheduled Corresponding Energy shall be 50 MW and 150 MW, respectively. Amounts of scheduled Corresponding Energy between the minimum and maximum amounts for each hour must be submitted in 25 MW increments. Seminole may vary its Schedule for Energy from hour to hour throughout the delivery day with a valid request for Corresponding Energy. The minimum duration for scheduling Corresponding Energy is to be no less than eight (8) consecutive hours during the months of May through September and six (6) consecutive hours during all other months.

7.13 Application of Other Provisions

For the avoidance of doubt, the provisions of Sections 1, 2, 4, and 5 of this Agreement, unless superseded above, apply to System Combined Cycle Capacity and Corresponding Energy without regard to the absence of a specific reference thereto in such sections.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed by their duly authorized officers, and copies delivered to each Party, as of the day and year first stated above.

EXHIBIT 3
INCREMENTAL COST EXAMPLES

Incremental Cost examples when Seminole is not exercising the Gas Option:

Increase to Seminole Schedule for Energy

- Incremental Cost to Seminole would be zero if the intraday price for additional delivered gas is relatively the same as the day-ahead gas cost and FGT did not issue an alert.

- Incremental Cost to Seminole would be passed on to Seminole from PEF if the intraday price for additional delivered gas to meet Seminole's increase were higher than the day-ahead gas cost and FGT did not issue an alert. Seminole would receive up to two prices, if applicable, one for day-ahead and one for intraday.

Decrease to Seminole Schedule for Energy

- Incremental Cost to Seminole would be zero for mitigating additional volumes created by Seminole and FGT did not issue an alert.

Incremental Cost examples when Seminole is exercising the Gas Option:

Increase to Seminole Schedule for Energy

- Incremental Cost would be passed on to Seminole from PEF for additional delivered gas provided by PEF to meet Seminole's increase above Seminole's delivered volume, provided that the intraday price for additional delivered gas to meet Seminole's increase were higher than the day-ahead gas cost and FGT did not issue an alert. Seminole would receive up to two prices, if applicable, one for day-ahead and one for intraday.

Decrease to Seminole Schedule for Energy

- PEF would keep for its own account any unused gas volumes delivered by Seminole via its Gas Option associated with a decrease to the Schedule for Energy, and Seminole would pay any FGT penalties, if applicable, caused by the reduction in the Schedule for Energy.

PROGRESS ENERGY FLORIDA, INC.

Seminole Electric Power Cooperative Cost Support - FERC Docket No. ER10-____-000

Baseload Generation Additions

Crystal River North Units 4 &5 CAIR Plant Additions – 2009 and 2010

The Crystal River North plant site comprised of Units #4 and #5, is a baseload coal facility totaling 1,460 MW of capacity. As part of its least cost strategy to comply with the Clean Air Interstate Rule (70 Fed Reg. 25,162), PEF is installing flue gas desulphurization (FGD) scrubbers for SO2 control and a combination of low NOx burners (LNB) and selective catalytic reduction (SCR) for NOx control on both units. This work is being coordinated with planned plant outage schedules and in-service date for the equipment at Unit #5 was Fall 2009 and the planned in-service date for Unit #4 is the Spring of 2010. The plant in-service estimate for these projects was documented in PEF Environmental Cost Recovery Clause filing on 4/1/2009 (Docket # 090007-EI) (1). The filing and recovery amount were subsequently approved by the Florida Public Service Commission (Order PSC-09-0758-FOF-EI) (2). The current filed estimate for the final plant in-service amount for these projects is $1,246.8 Million.

Bartow Combined Cycle Repowering Project

Progress Energy recently completed the repowering of its Bartow Power Station with an in-service date of June 2009. The repowering upgraded the prior conventional heavy oil-fired steam units to state of the art natural gas-fired combined cycle technology with distillate oil backup. As a result of this project, Bartow is now classified as a base-load resource and has increased its capacity by 827 MW to a total of 1,279MW. The company has secured recovery of this investment in its recent general rate proceeding in Docket No. 090079-EI. The Florida PSC approved this recovery by vote on Monday January 11, 2009; the written order (PSC-10-0131-FOF-EI) was issued on March 5, 2010 (3) and the Bartow investment was detailed in the B schedule Minimum Filing Requirements (4) for the case as well as the testimony of witness Toomey (5). The total plant in service associated with the Bartow Repowering is $641.1 Million.

Crystal River Unit 3 Nuclear Uprate Project Phase I

Progress Energy Florida is in the process of a multi-stage investment to increase the capacity output of it's Crystal River 3 nuclear plant by 180 MW. Stage I of this project is nearing completion an in-service date of June of 2010. The investment associated with Stage I is $85.1M and will increase the capacity of Crystal River 3 by 40 MW. The Florida Public Service Commission approved recovery of this investment through the company's Capacity Cost Recovery Clause beginning in 2010 (Docket EI-090009) in Order number PSC-09-0783-FOF-EI (6).

Crystal River Unit 3 Nuclear Steam Generator Replacement

Progress Energy Florida is also in process of replacing the Steam Generator at the Crystal River 3 nuclear power plant in tandem with Phase I of the nuclear uprate project described above. This was an opportune time to make this major investment to extend the useful life of the Crystal River 3 plant. The costs associated with this investment were detailed in the Schedule B MFR with the Florida Public Service Commission in Docket EI-0900070 (4) and subsequently approved in order number PSC-10-0131-FOF-EI in the company's most recent base rate proceeding. The expected increase in rate base from this investment scheduled to in service in June 2010 is $334,900,000.

FLORIDA PUBLIC SERVICE COMMISSION

REVISED

COMMISSION CONFERENCE AGENDA

CONFERENCE DATE AND TIME: Tuesday, March 2, 2010, 9:30 a.m.

LOCATION: Betty Easley Conference Center, Joseph P. Cresse Hearing Room 148

DATE ISSUED: February 23, 2010

NOTICE

Persons affected by Commission action on certain items on this agenda may be allowed to address the Commission, either informally or by oral argument, when those items are taken up for discussion at this conference. These items are designated by double asterisks (**) next to the agenda item number.

To participate informally, affected persons need only appear at the agenda conference and request the opportunity to address the Commission on an item listed on agenda. Informal participation is not permitted: (1) on dispositive motions and motions for reconsideration; (2) when a recommended order is taken up by the Commission; (3) in a rulemaking proceeding after the record has been closed; or (4) when the Commission considers a post-hearing recommendation on the merits of a case after the close of the record. The Commission allows informal participation at its discretion in certain types of cases (such as declaratory statements and interim rate orders) in which an order is issued based on a given set of facts without hearing.

See Rule 25-22.0021, F.A.C., concerning Agenda Conference participation and Rule 25-22.0022, F.A.C., concerning oral argument.

To obtain a copy of staff's recommendation for any item on this agenda, contact the Office of Commission Clerk at (850) 413-6770. There may be a charge for the copy. The agenda and recommendations are also accessible on the PSC Website, at http://www.floridapsc.com, at no charge.

Any person requiring some accommodation at this conference because of a physical impairment should call the Office of Commission Clerk at (850) 413-6770 at least 48 hours before the conference. Any person who is hearing or speech impaired should contact the Commission by using the Florida Relay Service, which can be reached at 1-800-955-8771 (TDD). Assistive Listening Devices are available in the Office of Commission Clerk, Betty Easley Conference Center, Room 110.

Video and audio versions of the conference are available and can be accessed live on the PSC Website on the day of the Conference. The audio version is available through archive storage for up to three months after the conference.

RE: Request to Review Confidential Information

TracFone Wireless d/b/a SafeLink Wireless has agreed to file certain customer information with the Commission on a quarterly basis. Pursuant to Chapter 11.04, section C.6a(3), Administrative Procedures Manual (APM), I request that Bob Casey, Jim Polk, Catherine Beard, and Curtis Williams be allowed to check out and review the confidential documents related to SafeLink customer information filed with this Commission. All confidential information reviewed will be treated in accordance with the procedures set forth in Chapter 11.04, APM.

RE: Request to Review Confidential Information

Per an FCC Order, SBC Internet Services d/b/a AT&T Internet Services (SBC) is required to provide notice to this Commission before obtaining numbering resources from the North American Numbering Plan Administrator and/or the Pooling Administrator. Pursuant to Chapter 11.04, Section C.6a(3), Administrative Procedures Manual (APM), I request that Catherine Beard and Bob Casey be allowed to check out and review the confidential documents related to the SBC notices filed with this Commission. All confidential information reviewed will be treated in accordance with the procedures set forth in Chapter 11.04, APM.

RE:	Request to Review Confidential Information

Pursuant to Chapter 11.04, Section C.6a(3), Administrative Procedures Manual (APM), I request that Catherine Beard and Bob Casey be allowed to check out and review the confidential document number 00164-10. This document is not part of a docket, rather it is advising of the intent to request numbering resources for rate centers listed in the documents. This notification is per an FCC Order that requires SBC to provide this Commission with notice before obtaining numbering resources from the North American Numbering Plan Administrator and/or the Pooling Administrator. All confidential information reviewed will be treated in accordance with the procedures set forth in Chapter 11.04, APM.

RE: Request to View Certain Confidential Materials

Pursuant to the Administrative Procedures Manual, Section 11.04, I request that Thomas J. (Jeff) Bates, Research Associate, Division of Regulatory Analysis, be granted access to Local Exchange Carrier's (LEC's) confidential proprietary unit and revenue information associated with tariff filings implementing rate increases to basic and nonbasic service offerings.

The use of these documents will be to determine the appropriateness of rate increases, as required by Section 364.051(3), Florida Statutes, and Section 364.051(5), Florida Statutes. Any confidential information reviewed will be treated in accordance with the Administrative Procedures Manual, section 11.04.C.

Please contact me if you have any questions.
