RE: Coastal Infiltration Investigation -
Ni Florida Wastewater Collection System, PCU06-015.00

Dear Mr. Wallace:

Because we have not heard from you since your May 31, 2013, letter regarding your efforts to control chlorides in your wastewater delivered to Pasco County, we are forwarding the latest results from our sampling efforts. The chlorides leaving your system remain well above the 250 mg/l standard at the four points of connection to the County system. Although your local staff has provided some of your sampling data, which also show elevated chloride levels, we expect regular updates from you regarding the actions Ni Florida is taking to correct the chloride violations. You made a promise in 2008 to correct the problem in a timely manner and now in 2013, the problem remains.

Please update us as to your action plan.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Kennedy", written over a horizontal line.
