**Subject:** Laughner letter

Keino,

Have you had a chance to look at the letter I left with you from Mr. Laughner about his contract dispute with Duke? Since it doesn't cite and has no involvement with the settlement docket, we're asking for a request from you to the Clerk to move that letter from the 130208 docket to the "00" undocketed file. Three copies of it were forwarded from three commissioners' offices, and included in the consumer correspondence section.

Let me know if you need anything from me. Thanks.

Commissioner Emaneul Brown  
Public Service Commission

Dear, Ms. Emaneul Brown.

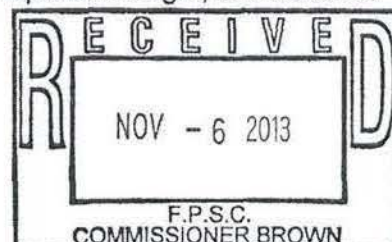

My name is Dale Laughner and I am the owner and President of The Laughner Group, Inc. My firm provides urban planning and real estate development services for clients and attorneys in the area of eminent domain and real estate development. I was hired as an expert witness in urban planning and real estate development by the attorney representing Progress Energy now Duke Energy in eminent domain matters, attorney Bruce Crawford, partner in the firm of Crawford & Owen, P.A. I was hired to act as an expert in the law suit against Mr. Mc Cormick who owns the property that was partially condemned. This case was also referred to by the name: the Mc Cormick Road Project.

I am sending this to you and the other PSC members and the officers of Duke Energy because Mr. Crawford also represents Florida Power Company and I believe that his behavior in my case is a serious matter and may extend to others professionals in the eminent domain profession. As you well know, the PSC regulates Duke Energy and this issue may be pertinent to the PSC's consideration of matters concerning these two power companies.

On August 30, 2012, I was directed by Mr. Crawford to analyze the Mc Cormick Road case, prepare an opinion and prepare an urban planning and real estate development report to identify "damages" to the Mc Cormick property. Although Mr. Crawford directed me not to begin my work until a later date. My first meeting with Mr. Crawford was on August 30, 2012. Mr. Reggie Meisner, engineer and Mr. Nick Clarizio, appraiser were in attendance. I was immediately hired by Mr. Crawford at the beginning of the meeting. This meeting was approximately one and one half hours and focused entirely on the existing information, legal documents, reports, maps, aerial photographs, county plans and maps and detailed instructions as to my work scope. We discussed the fact that I was hired very late and that I would have to work at a very fast pace to meet that deposition deadline, once I was directed to work.

After I was told by Mr. Crawford's assistant to prepare (about six day) my work for a deposition with the opposing attorney in this case, Mr. Christy Wilson I began work. This is the shortest period of time that I have ever been given to prepare my work in twenty three years of practice. The normal time period is a year or more. After our first meeting I gave serious thought about accepting this case in fear that in the short time period I would not be able to prepare my best work.

Days before my deposition on a telephone call, I asked Mr. Crawford if he wanted a comprehensive report or a short report. He said "the shorter the better" so I prepared a short report. It should be noted that The Florida Supreme Court has set guidelines in this matter generally stating that it is not the report that carries the most important weight, in the area of expert witnesses

*Duke Energy's Payment to The Laughner Group's Invoice*

*Page 2*

but the opinion of the "expert witness". So throughout my career in eminent domain cases, I have been directed to prepare comprehensive or short reports. ranging from less than a page to over 50 pages. In a telephone call with the project appraiser (not Mr. Crawford), Mr. Clarizio told me that told me Mr. Crawford did not need me as a witness at trial. This was entirely inappropriate since I was hired by Mr. Crawford. To this day no one has told me why.

I tried to reach Mr. Crawford before the deposition to ask if he wanted to see my report, but he did not respond until the day of the deposition when I was already leaving my office to drive to the deposition. After the deposition, Mr. Crawford made no comment criticizing my role in the deposition. It was very common behavior for Mr. Crawford to ignore my calls or correspondence and this created serious problems for me in preparing my research, opinion, report and trial exhibits. In all I sent Mr. Crawford seventeen emails and he failed to respond to any of them.

It is interesting to note that in only one of two phone calls that I had with Mr. Crawford during the course of my work, I told him that I had been qualified by numerous judges as an "expert witness" in real estate development, including a judge in Federal court. He was exuberant and told me "that with this expertise in real estate development he would use me as an expert witness forever". I told Mr. Crawford that I had also been qualified as an expert witness in well over fifty cases including a Federal Court case, *Konikov v. Orange County*, where the issues were constitutional issues of freedom of religion and privacy. Because of the significance of this suit, the New York Times, on page one, published a long article about the case.

As background, in the past, as a partner in Robert Woolley and Associates, who was the owner of Embassy Suites hotels across the country, I managed the development of hotels and a 950 acre project and a 250 acre project among other development projects. I was then recruited to Disney Development Company as a Senior Project Manager to manage development on the 7,000 acre Celebration project as well as a 2,200 acre project, Magnolia Creek, a Disney sister project.

I did an enormous amount of work on the Mc Cormick case and all of it was approved by Mr. Crawford, albeit by his silence or communications through Mr. Clarizio. As well, I worked extensively with the appraiser Nick Clarizio, assisting him with his research. Mr. Crawford was pleased with the work I was preparing for trial as was Mr. Clarizio since my work and opinion were crucial in order for Mr. Clarizio to prepare his appraisal.

I know this because Mr. Crawford and Mr. Clarizio spoke nearly every day about the case and Mr. Clarizio told me that Mr. Crawford was pleased with my approach to the case and my work progress. Apparently my work was good because the jury agreed with the actions of Progress

Energy. During this time it was very difficult to reach Mr. Crawford as he was not returning calls or responding to my correspondence. After I stopped my work and sent Mr. Crawford a partial invoice and I wrote to him saying that the balance of the invoice was a partial invoice and that the balance of the invoice would be sent. Mr. Crawford promptly reviewed and approved the first invoice that I sent to him and forwarded it to Progress Energy for payment. The amount of the first invoice that was paid was approximately \$500 which is 5% of my total invoice which is \$9,400. It is this amount that was never paid. It's noteworthy that the total of my invoice was very low compared with the invoices of other urban planners which put in numerous hours to prepare similar work preparing for trial. In eminent domain cases, it is customary and expected that the fees for expert witnesses, that work through the deposition to be paid an amount between \$16,000 and \$35,000.

After submitting my second invoice and waiting months, I then wrote to Mr. Crawford asking him if there was a problem with my invoice. After that I forwarded other copies of the invoice to Mr. Crawford asking him to pay the second invoice and submit it to Progress Energy for payment but he chose not to answer any of my emails. I also left several phone messages for Mr. Crawford and he refused to return my calls. I am assuming that this payment was sent to Progress Energy.

Throughout my years as an expert witness in urban planning-23 years, I have never worked with an attorney that flatly refused to pay for valid and professional service and perhaps more importantly to even respond to emails and calls from an expert witness. This process of collection lasted for one year and two months. This a disgrace and reflects poorly on his employer Duke Energy and as well should be a concern for the Public service Commission. I have obviously been very, very patient over a very long period of time. At this time, I have directed my attorney, William Pringle III to prepare a lawsuit against Duke Energy and Mr. Crawford for not paying my invoice including a second motion against Mr. Crawford and Duke Energy for refusing to respond to my requests for payment. I am also in the process of filing a complaint against Mr. Crawford with the Florida Bar Association. In a recent email to Mr. Crawford, I stated that I would file this complaint unless he contacted me and once again he refused to respond to my email or call me. This is all very unfortunate since all Mr. Crawford had to do was pay my accurate and well documented invoice. In plain language Mr. Crawford used my work and refused to pay for it as if Duke Energy supplied me electricity and I then refused to pay for it. Duke Energy has a simple way of forcing payment but I do not and at this time have to resort to a law suit. And I know for a certainty that Mr. Clarizio could not have written his appraisal without my research and opinion. In fact he told Mr. Crawford to hire me, even at this very, very late date because he couldn't complete his appraisal without an urban planning opinion. During this process, I was on the telephone nearly everyday, sometimes twice a day telling Mr. Clarizio what my preliminary opinion was.

Page 4

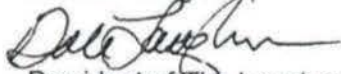

*Duke Energy's Payment of The Laughner Group's Invoice*

It is just obvious that Duke Energy needs to pay this outstanding reasonable invoice. As a publicly traded company and the largest Power Holding Company in America one would expect that Duke Energy would pay it's bills. With the abundance of information and records I have, I'm sure that a jury will not rule in favor of Duke Energy. Should payment of the outstanding invoice not be paid within 30 days, I will begin to proceed with my law suit against Duke Energy and any further actions that my attorney deems necessary. Moreover, the cost of a trial for Duke Energy will far exceed the cost of paying my invoice. And I'm sure that Duke Energy and the Public Service Commission will also be concerned about the publicity of this lawsuit.

A letter similar to this has been mailed to Ms. Good, President and CEO for Duke Energy, Ms. Julie Johnson, Executive Vice President, Chief Legal Officer and Corporate Secretary, for Duke Energy.

Thank you for time and consideration. If you need to contact me, my email address is dalelaughner@gmail and my phone number is 407-579-3750. My office address is 411 West First Avenue, Windermere, Florida, 34786.

I was hired to act as an expert in the law suit against Mr. Mc Cormick who owns the property that was partially condemned. This case was also referred to by the name: the Mc Cormick Road Project.

I am sending this to you and the other PSC members and the officers of Duke Energy because Mr. Crawford also represents Florida Power Company and I believe that his behavior in my case is a serious matter and may extend to others professionals in the eminent domain profession. As you well know, the PSC regulates Duke Energy and this issue may be pertinent to the PSC's consideration of matters concerning these two power companies.

On August 30, 2012, I was directed by Mr. Crawford to analyze the Mc Cormick Road case, prepare an opinion and prepare an urban planning and real estate development report to identify "damages" to the Mc Cormick property. Although Mr. Crawford directed me not to begin my work until a later date. My first meeting with Mr. Crawford was on August 30, 2012. Mr. Reggie Meisner, engineer and Mr. Nick Clarizio, appraiser were in attendance. I was immediately hired by Mr. Crawford at the beginning of the meeting. This meeting was approximately one and one half hours and focused entirely on the existing information, legal documents, reports, maps, aerial photographs, county plans and maps and detailed instructions as to my work scope. We discussed the fact that I was hired very late and that I would have to work at a very fast pace to meet that deposition deadline, once I was directed to work.

After I was told by Mr. Crawford's assistant to prepare (about six day) my work for a deposition with the opposing attorney in this case, Mr. Christy Wilson I began work. This is the shortest period of time that I have ever been given to prepare my work in twenty three years of practice. The normal time period is a year or more. After our first meeting I gave serious thought about accepting this case in fear that in the short time period I would not be able to prepare my best work.

Days before my deposition on a telephone call, I asked Mr. Crawford if he wanted a comprehensive report or a short report. He said "the shorter the better" so I prepared a short report. It should be noted that The Florida Supreme Court has set guidelines in this matter generally stating that it is not the report that carries the most important weight, in the area of expert witnesses

*Duke Energy's Payment to The Laughner Group's Invoice*

*Page 2*

but the opinion of the "expert witness". So throughout my career in eminent domain cases, I have been directed to prepare comprehensive or short reports. ranging from less than a page to over 50 pages. In a telephone call with the project appraiser (not Mr. Crawford), Mr. Clarizio told me that told me Mr. Crawford did not need me as a witness at trial. This was entirely inappropriate since I was hired by Mr. Crawford. To this day no one has told me why.

I tried to reach Mr. Crawford before the deposition to ask if he wanted to see my report, but he did not respond until the day of the deposition when I was already leaving my office to drive to the deposition. After the deposition, Mr. Crawford made no comment criticizing my role in the deposition. It was very common behavior for Mr. Crawford to ignore my calls or correspondence and this created serious problems for me in preparing my research, opinion, report and trial exhibits. In all I sent Mr. Crawford seventeen emails and he failed to respond to any of them.

It is interesting to note that in only one of two phone calls that I had with Mr. Crawford during the course of my work, I told him that I had been qualified by numerous judges as an "expert witness" in real estate development, including a judge in Federal court. He was exuberant and told me "that with this expertise in real estate development he would use me as an expert witness forever". I told Mr. Crawford that I had also been qualified as an expert witness in well over fifty cases including a Federal Court case, *Konikov v. Orange County*, where the issues were constitutional issues of freedom of religion and privacy. Because of the significance of this suit, the New York Times, on page one, published a long article about the case.

As background, in the past, as a partner in Robert Woolley and Associates, who was the owner of Embassy Suites hotels across the country, I managed the development of hotels and a 950 acre project and a 250 acre project among other development projects. I was then recruited to Disney Development Company as a Senior Project Manager to manage development on the 7,000 acre Celebration project as well as a 2,200 acre project, Magnolia Creek, a Disney sister project.

I did an enormous amount of work on the Mc Cormick case and all of it was approved by Mr. Crawford, albeit by his silence or communications through Mr. Clarizio. As well, I worked extensively with the appraiser Nick Clarizio, assisting him with his research. Mr. Crawford was pleased with the work I was preparing for trial as was Mr. Clarizio since my work and opinion were crucial in order for Mr. Clarizio to prepare his appraisal.

I know this because Mr. Crawford and Mr. Clarizio spoke nearly every day about the case and Mr. Clarizio told me that Mr. Crawford was pleased with my approach to the case and my work progress. Apparently my work was good because the jury agreed with the actions of Progress

Page 4

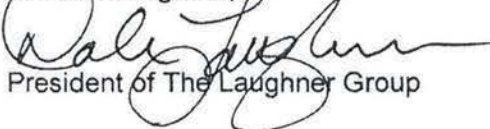

*Duke Energy's Payment of The Laughner Group's Invoice*

It is just obvious that Duke Energy needs to pay this outstanding reasonable invoice. As a publicly traded company and the largest Power Holding Company in America one would expect that Duke Energy would pay it's bills. With the abundance of information and records I have, I'm sure that a jury will not rule in favor of Duke Energy. Should payment of the outstanding invoice not be paid within 30 days, I will begin to proceed with my law suit against Duke Energy and any further actions that my attorney deems necessary. Moreover, the cost of a trial for Duke Energy will far exceed the cost of paying my invoice. And I'm sure that Duke Energy and the Public Service Commission will also be concerned about the publicity of this lawsuit.

A letter similar to this has been mailed to Ms. Good, President and CEO for Duke Energy, Ms. Julie Johnson, Executive Vice President, Chief Legal Officer and Corporate Secretary, for Duke Energy.

Thank you for time and consideration. If you need to contact me, my email address is dalelaughner@gmail and my phone number is 407-579-3750. My office address is 411 West First Avenue, Windermere, Florida, 34786.

**Cc:** Carlotta Stauffer; Hong Wang; Kate Biel; Crystal Card; Ann Cole  
**Subject:** Formal request for a hearing

Mr. Ricca:

Your telephone message has been forwarded to me for response. Please note that your e-filing received on 11/12/13 at 8:00 a.m. was rejected because it did not meet the e-filing requirements in that the document was unsigned. Documents may be signed by typing "s/", "/s" or "/s/" followed by the signatory, i.e., /s/ First M. Last.

However, your formal complaint did not meet the requirements of Rule 25-22.036, FAC. Specifically:

**25-22.036 Initiation of Formal Proceedings.**

(1) Application. An application is appropriate when a person seeks authority from the Commission to engage in an activity subject to Commission jurisdiction.

(2) Complaints. A complaint is appropriate when a person complains of an act or omission by a person subject to Commission jurisdiction which affects the complainant's substantial interests and which is in violation of a statute enforced by the Commission, or of any Commission rule or order.

(3) Form and Content.

(a) Application. An application shall be governed by the statute or rules applicable to applications for authority. In the absence of a specific form and content, the application shall conform to this rule.

(b) Complaint. Each complaint, in addition to the requirements of paragraph (a) above shall also contain:

1. The rule, order, or statute that has been violated;
2. The actions that constitute the violation;
3. The name and address of the person against whom the complaint is lodged;
4. The specific relief requested, including any penalty sought.

*Specific Authority 350.01(7), 350.127(2) FS. Law Implemented 120.569, 120.57, 350.123, 364.035, 364.05, 364.057, 364.058, 364.335, 364.337, 366.04, 366.06, 366.071, 366.076(1), 366.8255, 367.031, 367.045, 367.071, 367.081, 367.0814, 367.0817, 367.082, 367.0822, 367.091, 367.101, 367.171 FS. History--New 12-21-81, Formerly 25-22.36, Amended 5-3-99, 7-17-00.*

A formal complaint may be filed with the Florida Public Service Commission either by U.S. Mail or hand-delivery at:

Florida Public Service Commission  
Carlotta Stauffer, Commission Clerk  
Office of Commission Clerk  
2540 Shumard Oak Blvd.  
Tallahassee, FL 32399-0850

or electronic filing at: [https://secure.floridapsc.com/\(S\(slrak5jyncztjt5554xt1euw\)\)/e-filings/efiling.aspx](https://secure.floridapsc.com/(S(slrak5jyncztjt5554xt1euw))/e-filings/efiling.aspx).

A link to the e-filing requirements is included for your convenience: <http://www.floridapsc.com/dockets/e-filings/instructions2.aspx>.

If you have any questions regarding the rules or statutes, you may contact the Office of General Counsel at 850-413-6199.

*Dorothy Menasco  
Office of Commission Clerk  
Florida Public Service Commission

16 October, 2013

Nexera Energy, Inc.  
PO Box 14000  
700 Universe Blvd.  
Juno Beach, FL 33408

I am a resident of Vero Beach and am concerned because FP&L has been spending over \$100,000 of their rate payers money to fund a candidate in our local city council election, Tracy Carroll, and pay another individual, Glenn Heron as a lobbyist and fund his PACs, Citizen for a Brighter Future and Citizens for a Better Future, when in fact all candidates in the election are for the sale of the Vero Beach Electric Utility to FP&L.(See InsideVero, 16 October, 2013). In fact the sale contract has been approved by the voters of Vero Beach and is out of the hands of the Vero Beach City Council. It is in the hands of the lawyer hired by Vero Beach, FP&L and FMPA and the negotiations are between those parties. The completion of the contract rests on the vote of the members of FMPA. Therefore the moneys being spent by FP&L on this city council election are a complete waste of FP&L's money.

The Public Service Commission should take this should take this waste of FP&L's money into account in any future rate increases requested by FP&L.

Herbert V. Whittall  
Technical Director,  
Electrical Generating Systems Assn.

**Subject:** RE: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tampa

FCC/Duke and FPL/Seminole electric/Commissioner helping with Blind copied attorneys and Leaders/New Leaders and Media outside of Tampa helping/US Congress & Senate/US Utility companies and contractors/THE PEOPLE/City of North Port Staff and Council,

See NEW Public Service Commission complaints and Marion County Utility and others filed on Obama, Tampa leaders with Gilberti Water Company and source that uses Bottling profits from Nestle', Coca Cola, Zephyrhills, Pepsi, and the rest, to pay for National Health Care due to Quality, creating Millions of Jobs and Satisfying National debt, while THE PEOPLE and AMERICA'S WATER line up attorneys, cops, bounty hunters, Commissioners of Tampa Bay Water and Peace River Manasota, Governor Scott and Christ, Morgan & Morgain, and many others, in a growing 10 Years RICO due to apathy, Civil Duty Oaths, and Zionism to destroy Middle Class America with Media controlled Israel and past and present Leaders. Who only care about being on TV, lying to the PEOPLE about this Water supply and taking the Constitution away with little new grad attorneys and public defenders in Tampa!

**Google:** Gilberti Blue Gold, Gilberti Water Company, new PSC complaint 05554-13 by East Florida leaders with Obama Impeachment combined with EPA Clean Water Act to prosecute Tampa leaders and legal system , past 02424-13 and 05400-13. Viral on 500 web search engines, Facebook, Twitter, Manta and much more in other languages to get THE

PEOPLE's water flowing and pay for National Health Care, pay off China and overseas debt with Gilberti Business Plan, and created Millions of Jobs, while ending Blue Gold Water Wars and Florida Water Wars created by attorney Politician, Bankers and government agencies with Mosaic, Coca-Cola, Pepsi and Nestle', with Adam Putnam and the rest on the list.

Assistant to THE PEOPLE for GWC.

**Subject:** RE: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad

Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tamp

FCC/Blind Copied Leaders/PSC/US Leaders and Media watching in confidence,

Dirk Weed was sitting next to William Staubs (Cobra) and was referred to Gilberti by John Catrone, part of the case who spoke to Officer Ronnie Cooper, never issued a summons on April 15, 2013, Terror attack setup with US Marshalls that caused a Warrant 3 weeks after Gilberti FIRED Dirk Weed for having meetings with Sheriff Gee cops hiding under his desk at Dirk Weed's office and helping Scott Freyre and Trafficante's play the water game.

Witnesses for RICO from Hillsborough County will testify that Dirk Weed was busted for cocaine, but never booked and puts people away to keep attorney offices flowing, cop jobs flowing, and court rooms busy for the bad side of town. Mobster leverage with a person that assisted in a MAJOR way to stalling the water for the past 9 months, killing jobs, and contributing to foreclosures, crime, and kids dying each day who cant get this water due to Politics in Tampa playing in courts stalling the project!

Dirk Weed and Judge Dominquez set a trial last April, WITHOUT A JURY, after Jury Trial was set, and may be part of a HUGE coincidence with US Marshalls, and Secret Service notions under oath to Judge Conrad, to hide this Water supply which is the Cleanest in the World for Tampa Bay Water Commissioners, Trafficante's, Freyres, John Catrone, Broward Bailbonds, and a sudden disappearance of Judge Dominquez and Chris Shaw, with District 13.

He knows William Staubs, and was sitting right next to him, with the SAO and laughing and giggling, and noted by Conrad to the SAO for playing courtroom games today, with 3 HUGE warning and slamming on the bench to be professional, just before the Kidnapping attempt was STOPPED by an HONEST Judge Conrad Today!

ALL OF THIS AND ITS RECORDINGS AND VIDEO IS AN EXAMPLE OF WHAT HAPPENED TO JUSTICE AND LAWS IN AMERICA AND ITS CONSTITUTION! GAMES AND ATTORNEYS IN COURTS TORTURING NOT ONLY GILBERTI, HIS FAMILY, BUT MILLIONS WHO COULD HAVE THIS WATER LAST YEAR! BUT THIS CASE STALLED THE PROJECT 18 MONTHS WITH THIS FLORIDA TEAM, AND THAT ADDS UP TO 4,000,000 KIDS THAT DIED AROUND THE WORLD BY BLUE GOLD WATER WARS SOLVED BY GILBERTI AND THIS SOURCE, BEING BLOCKED BY ATTORNEYS AND ATTORNEY POLITICIANS FOR FOLKS LIKE MOSAIC, COCA COCA AND TAMPA!

See Dirk Weed lies below that will be revisited with this email in RICO depositions with Broward Bail bonds, William Staubs, Officer Cooper, John Catrone and more as needed.

FOR THE RECORD – ADD TO RICO AND PSC AND Blue Gold Action!

**Subject:** Re: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tamp

I have no idea about this situation nor had any involvement in this. I only respond again for the umpteenth time to stop harassing emails that have no legitimate content and do not serve any purpose except to annoy. Thank you.

**Subject:** RE: Claim of Lien (REVISED) - file at Sarasota and begin foreclosure and counterclaims with RICO - Ongoing work on 250 Mile Pipeline revised to S.R. 80 vs. alligator alley for North South Water War - World Water Demand pays for National Health Care

Sam/Attorneys in confidence,

File attached lien that Daughtrey has agreed to and being foreclosure and counterclaims to District 12 & 13, SWFWMD, Mark Ober, Governor Scott's staff and office, Adam Putnam, Owen Thornberry and Ross Morton, Brian Dietz, James Oni, P.E. and Commissioners as required and discussed. C1 Bank, Thomas Howze, Wells Fargo (counterfeit money and stealing \$137K with Scott Freyre) and PD 13 attorneys who are setting up Mr. Gilberti, holding him back from permit walks and reviews with the Mitigation Bank submitted to SWFWMD, worth millions, as the Water supply is being pursued by Coca Cola, Mosaic Mining, attorneys thereto, and locals leaders and District Courts with the help of corporations and Politicians and Mrs. Sheila Sanghvi and Julian Holt's office and new grad attorneys.

With all the Government shut down, Mark Ober's office and local Hillsborough Commissioners with past leaders and Mayors of Tampa with their staff and Tampa Bay Water and its staff, along with Port authorities they continue to IGNORE CLEAN WATER and Jobs for all, that with Gilberti's Business plan, generates \$100 Million per day by cutting out bottling company profits and moving it to THE PEOPLE to build the plans submitted to agencies for Closer to the Heart 120 Mile Spring Pipe line. This demand pays for National Health Care with World demand and Blue Gold Water wars and better health with Clean Water.

See REVISED Lien attached. Open RICO and start depositions beginning with North Port Staff, Sarasota Commissioner Barbetta, Christine Robinson, and Jim Bluecher and Defranco of North Port, and of course Ross Morton the Ombudman. West Palm Beach Mayor and Palm Beach County utility director disclosed HOME Rule issues over past years too, as WPB can buy off Palm Beach county who has enough water for them, but SFWMD and staff are playing another reservoir game one county north, to create terrorism, loaf electoral votes by moving dirt.

Tampa is spreading around the State.....time for CHANGE!

JC/GH

**Subject:** RE: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tamp

FCC/Duke and FPL/Seminole electric/Commissioner helping with Blind copied attorneys and Leaders/New Leaders and Media outside of Tampa helping/US Congress & Senate/US Utility companies and contractors/THE PEOPLE/City of North Port Staff and Council,

See NEW Public Service Commission complaints and Marion County Utility and others filed on Obama, Tampa leaders with Gilberti Water Company and source that uses Bottling profits from Nestle', Coca Cola, Zephyrhills, Pepsi, and the rest, to pay for National Health Care due to Quality, creating Millions of Jobs and Satisfying National debt, while THE PEOPLE and AMERICA'S WATER line up attorneys, cops, bounty hunters, Commissioners of Tampa Bay Water and Peace River Manasota, Governor Scott and Christ, Morgan & Morgain, and many others, in a growing 10 Years RICO due to apathy, Civil Duty Oaths, and Zionism to destroy Middle Class America with Media controlled Israel and past and present Leaders. Who only care about being on TV, lying to the PEOPLE about this Water supply and taking the Constitution away with little new grad attorneys and public defenders in Tampa!

**Google:** Gilberti Blue Gold, Gilberti Water Company, new PSC complaint 05554-13 by East Florida leaders with Obama Impeachment combined with EPA Clean Water Act to prosecute Tampa leaders and legal system , past 02424-13 and 05400-13. Viral on 500 web search engines, Facebook, Twitter, Manta and much more in other languages to get THE PEOPLE's water flowing and pay for National Health Care, pay off China and overseas debt with Gilberti Business Plan, and created Millions of Jobs, while ending Blue Gold Water Wars and Florida Water Wars created by attorney Politician, Bankers and government agencies with Mosaic, Coca-Cola, Pepsi and Nestle', with Adam Putnam and the rest on the list.

Assistant to THE PEOPLE for GWC.

**Subject:** RE: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tamp

FCC/Blind Copied Leaders/PSC/US Leaders and Media watching in confidence,

Dirk Weed was sitting next to William Staubs (Cobra) and was referred to Gilberti by John Catrone, part of the case who spoke to Officer Ronnie Cooper, never issued a summons on April 15, 2013, Terror attack setup with US Marshalls that caused a Warrant 3 weeks after Gilberti FIRED Dirk Weed for having meetings with Sheriff Gee cops hiding under his desk at Dirk Weed's office and helping Scott Freyre and Trafficante's play the water game.

Witnesses for RICO from Hillsborough County will testify that Dirk Weed was busted for cocaine, but never booked and puts people away to keep attorney offices flowing, cop jobs flowing, and court rooms busy for the bad side of town. Mobster leverage with a person that assisted in a MAJOR way to stalling the water for the past 9 months, killing jobs, and contributing to foreclosures, crime, and kids dying each day who cant get this water due to Politics in Tampa playing in courts stalling the project!

Dirk Weed and Judge Dominquez set a trial last April, WITHOUT A JURY, after Jury Trial was set, and may be part of a HUGE coincidence with US Marshalls, and Secret Service notions under oath to Judge Conrad, to hide this Water supply which is the Cleanest in the World for Tampa Bay Water Commissioners, Trafficante's, Freyres, John Catrone, Broward Bailbonds, and a sudden disappearance of Judge Dominquez and Chris Shaw, with District 13.

He knows William Staubs, and was sitting right next to him, with the SAO and laughing and giggling, and noted by Conrad to the SAO for playing courtroom games today, with 3 HUGE warning and slamming on the bench to be professional, just before the Kidnapping attempt was STOPPED by an HONEST Judge Conrad Today!

ALL OF THIS AND ITS RECORDINGS AND VIDEO IS AN EXAMPLE OF WHAT HAPPENED TO JUSTICE AND LAWS IN AMERICA AND ITS CONSTITUTION! GAMES AND ATTORNEYS IN COURTS TORTURING NOT ONLY GILBERTI, HIS FAMILY, BUT MILLIONS WHO COULD HAVE THIS WATER LAST YEAR! BUT THIS CASE STALLED THE PROJECT 18 MONTHS WITH THIS FLORIDA TEAM, AND THAT ADDS UP TO 4,000,000 KIDS THAT DIED AROUND THE WORLD BY BLUE GOLD WATER WARS SOLVED BY GILBERTI AND THIS SOURCE, BEING BLOCKED BY ATTORNEYS AND ATTORNEY POLITICIANS FOR FOLKS LIKE MOSAIC, COCA COCA AND TAMPA!

See Dirk Weed lies below that will be revisited with this email in RICO depositions with Broward Bail bonds, William Staubs, Officer Cooper, John Catrone and more as needed.

FOR THE RECORD – ADD TO RICO AND PSC AND Blue Gold Action!

**Circuit Civil, County Civil, Family Law,**  
**Probate, Guardianship, Mental Health**

**Subject:** Re: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tamp

I have no idea about this situation nor had any involvement in this. I only respond again for the umpteenth time to stop harassing emails that have no legitimate content and do not serve any purpose except to annoy. Thank you.

**Subject:** RE: Claim of Lien (REVISED) - file at Sarasota and begin foreclosure and counterclaims with RICO - Ongoing work on 250 Mile Pipeline revised to S.R. 80 vs. alligator alley for North South Water War - World Water Demand pays for National Health Care

Sam/Attorneys in confidence,

File attached lien that Daughtrey has agreed to and being foreclosure and counterclaims to District 12 & 13, SWFWMD, Mark Ober, Governor Scott's staff and office, Adam Putnam, Owen Thornberry and Ross Morton, Brian Dietz, James Oni, P.E. and Commissioners as required and discussed. C1 Bank, Thomas Howze, Wells Fargo (counterfeit money and stealing \$137K with Scott Freyre) and PD 13 attorneys who are setting up Mr. Gilberti, holding him back from permit walks and reviews with the Mitigation Bank submitted to SWFWMD, worth millions, as the Water supply is being pursued by Coca Cola, Mosaic Mining, attorneys thereto, and locals leaders and District Courts with the help of corporations and Politicians and Mrs. Sheila Sanghvi and Julian Holt's office and new grad attorneys.

With all the Government shut down, Mark Ober's office and local Hillsborough Commissioners with past leaders and Mayors of Tampa with their staff and Tampa Bay Water and its staff, along with Port authorities they continue to IGNORE CLEAN WATER and Jobs for all, that with Gilberti's Business plan, generates \$100 Million per day by cutting out bottling company profits and moving it to THE PEOPLE to build the plans submitted to agencies for Closer to the Heart 120 Mile Spring Pipe line. This demand pays for National Health Care with World demand and Blue Gold Water wars and better health with Clean Water.

See REVISED Lien attached. Open RICO and start depositions beginning with North Port Staff, Sarasota Commissioner Barbetta, Christine Robinson, and Jim Bluecher and Defranco of North Port, and of course Ross Morton the Ombudman. West Palm Beach Mayor and Palm Beach County utility director disclosed HOME Rule issues over past years too, as WPB can buy off Palm Beach county who has enough water for them, but SFWMD and staff are playing another reservoir game one county north, to create terrorism, loaf electoral votes by moving dirt.

Tampa is spreading around the State.....time for CHANGE!

JC/GH

FCC/Duke and FPL/Seminole electric/Commissioner helping with Blind copied attorneys and Leaders/New Leaders and Media outside of Tampa helping/US Congress & Senate/US Utility companies and contractors/THE PEOPLE/City of North Port Staff and Council,

See NEW Public Service Commission complaints and Marion County Utility and others filed on Obama, Tampa leaders with Gilberti Water Company and source that uses Bottling profits from Nestle', Coca Cola, Zephyrhills, Pepsi, and the rest, to pay for National Health Care due to Quality, creating Millions of Jobs and Satisfying National debt, while THE PEOPLE and AMERICA'S WATER line up attorneys, cops, bounty hunters, Commissors of Tampa Bay Water and Peace River Manasota, Governor Scott and Christ, Morgan & Morgain, and many others, in a growing 10 Years RICO due to apathy, Civil Duty Oaths, and Zionism to destroy Middle Class America with Media controlled Israel and past and present Leaders. Who only care about being on TV, lying to the PEOPLE about this Water supply and taking the Constitution away with little new grad attorneys and public defenders in Tampa!

**Google:** Gilberti Blue Gold, Gilberti Water Company, new PSC complaint 05554-13 by East Florida leaders with Obama Impeachment combined with EPA Clean Water Act to prosecute Tampa leaders and legal system , past 02424-13 and 05400-13. Viral on 500 web search engines, Facebook, Twitter, Manta and much more in other languages to get THE PEOPLE's water flowing and pay for National Health Care, pay off China and overseas debt with Gilberti Business Plan, and created Millions of Jobs, while ending Blue Gold Water Wars and Florida Water Wars created by attorney Politician, Bankers and government agencies with Mosaic, Coca-Cola, Pepsi and Nestle', with Adam Putnam and the rest on the list.

Assistant to THE PEOPLE for GWC.

**Subject:** RE: William Staubs (Cobra) with Dirk Weed friends with Simon Barrett try to kidnap Gilberti in Judge Conrad Courtroom - the Terrorist blocking Clean Water, Mr Staubs (Cobra) was escorted out by Order of Judge conrad! Crimes with SAO and Mark Ober in Tamp

FCC/Blind Copied Leaders/PSC/US Leaders and Media watching in confidence,

Dirk Weed was sitting next to William Staubs (Cobra) and was referred to Gilberti by John Catrone, part of the case who spoke to Officer Ronnie Cooper, never issued a summons on April 15, 2013, Terror attack setup with US Marshalls that caused a Warrant 3 weeks after Gilberti FIRED Dirk Weed for having meetings with Sheriff Gee cops hiding under his desk at Dirk Weed's office and helping Scott Freyre and Trafficante's play the water game.

Witnesses for RICO from Hillsborough County will testify that Dirk Weed was busted for cocaine, but never booked and puts people away to keep attorney offices flowing, cop jobs flowing, and court rooms busy for the bad side of town. Mobster leverage with a person that assisted in a MAJOR way to stalling the water for the past 9 months, killing jobs, and contributing to foreclosures, crime, and kids dying each day who cant get this water due to Politics in Tampa playing in courts stalling the project!

Dirk Weed and Judge Dominquez set a trial last April, WITHOUT A JURY, after Jury Trial was set, and may be part of a HUGE coincidence with US Marshalls, and Secret Service notions under oath to Judge Conrad, to hide this Water supply which is the Cleanest in the World for Tampa Bay Water Commissioners, Trafficante's, Freyres, John Catrone, Broward Bailbonds, and a sudden disappearance of Judge Dominquez and Chris Shaw, with District 13.

He knows William Staubs, and was sitting right next to him, with the SAO and laughing and giggling, and noted by Conrad to the SAO for playing courtroom games today, with 3 HUGE warning and slamming on the bench to be professional, just before the Kidnapping attempt was STOPPED by an HONEST Judge Conrad Today!

ALL OF THIS AND ITS RECORDINGS AND VIDEO IS AN EXAMPLE OF WHAT HAPPENED TO JUSTICE AND LAWS IN AMERICA AND ITS CONSTITUTION! GAMES AND ATTORNEYS IN COURTS TORTURING NOT ONLY GILBERTI, HIS FAMILY, BUT MILLIONS WHO COULD HAVE THIS WATER LAST YEAR! BUT THIS CASE STALLED THE PROJECT 18 MONTHS WITH THIS FLORIDA TEAM, AND THAT ADDS UP TO 4,000,000 KIDS THAT DIED AROUND THE WORLD BY BLUE GOLD WATER WARS SOLVED BY GILBERTI AND THIS SOURCE, BEING BLOCKED BY ATTORNEYS AND ATTORNEY POLITICIANS FOR FOLKS LIKE MOSAIC, COCA COCA AND TAMPA!

See Dirk Weed lies below that will be revisited with this email in RICO depositions with Broward Bail bonds, William Staubs, Officer Cooper, John Catrone and more as needed.

FOR THE RECORD – ADD TO RICO AND PSC AND Blue Gold Action!

**Subject:** RE: Claim of Lien (REVISED) - file at Sarasota and begin foreclosure and counterclaims with RICO - Ongoing work on 250 Mile Pipeline revised to S.R. 80 vs. alligator alley for North South Water War - World Water Demand pays for National Health Care

Sam/Attorneys in confidence,

File attached lien that Daughtrey has agreed to and being foreclosure and counterclaims to District 12 & 13, SWFWMD, Mark Ober, Governor Scott's staff and office, Adam Putnam, Owen Thornberry and Ross Morton, Brian Dietz, James Oni, P.E. and Commissioners as required and discussed. C1 Bank, Thomas Howze, Wells Fargo (counterfeit money and stealing \$137K with Scott Freyre) and PD 13 attorneys who are setting up Mr. Gilberti, holding him back from permit walks and reviews with the Mitigation Bank submitted to SWFWMD, worth millions, as the Water supply is being pursued by Coca Cola, Mosaic Mining, attorneys thereto, and locals leaders and District Courts with the help of corporations and Politicians and Mrs. Sheila Sanghvi and Julian Holt's office and new grad attorneys.

With all the Government shut down, Mark Ober's office and local Hillsborough Commissioners with past leaders and Mayors of Tampa with their staff and Tampa Bay Water and its staff, along with Port authorities they continue to IGNORE CLEAN WATER and Jobs for all, that with Gilberti's Business plan, generates \$100 Million per day by cutting out bottling company profits and moving it to THE PEOPLE to build the plans submitted to agencies for Closer to the Heart 120 Mile Spring Pipe line. This demand pays for National Health Care with World demand and Blue Gold Water wars and better health with Clean Water.

See REVISED Lien attached. Open RICO and start depositions beginning with North Port Staff, Sarasota Commissioner Barbetta, Christine Robinson, and Jim Bluecher and Defranco of North Port, and of course Ross Morton the Ombudman. West Palm Beach Mayor and Palm Beach County utility director disclosed HOME Rule issues over past years too, as WPB can buy off Palm Beach county who has enough water for them, but SFWMD and staff are playing another reservoir game one county north, to create terrorism, loaf electoral votes by moving dirt.

Tampa is spreading around the State.....time for CHANGE!

JC/GH

- National Debt Balancing and Florida Job Creation with Utility Permit
- Utility Alignment and Engineering Plan Design

## Appendix A

1. Florida Department of Transportation (FDOT) Utility Permit Applications
2. Florida Department of Protection (FDEP) Utility Permit Applications
3. Florida Department of Health (FDOH) Filtration and Aerobic System
4. Sarasota County Right of Way Utility Application
5. Manatee County Right of Way Utility Application

## Introduction

The Daughtrey Family has owned lands in east Sarasota County since the 1950's when Cecil Daughtrey was a cattle farmer during the post-World War II Florida Development and Agricultural movements began within the more Pristine areas of Florida's habitat. Cecil Daughtrey had one child, Cecil Daughtrey Jr., who everyone knows as Buck. Buck's father dug many wells on his once 5,733 acre ranch located east of Myakka Park off State Road 72 (Clark Road). Many years of Mining and Sarasota County reports for both the Gilberti and the Carlton's (Once Florida Governor early 1900's), were performed in the late 1960' throughout the remaining Century showing an abundance of groundwater for orange grove and agricultural opportunities.

## Gilberti Spring at 2500 Acre Daughtrey Ranch in Sarasota County

In 1968, one particular Well drilled with a 12-inch pipe, by Buck's dad when he was just a Kid, for his son to one day build an Orange Grove on the land their family cherishes due to the beauty and freedom of living naturally, to pass something on for his son. After months of drilling, far past the upper and Intermediate Aquifers of the upper Floridan, drilling through another 600 feet of solid rock already 900 feet below the surface, the driller and Buck's dad struck **Blue Gold** or what we Humans call Water. This well location is described as Well No. 2, per the FDEP (SWFWMD) Water Use Permit 20003845.004, extending deep 1509 feet below an average grade of 40 NGVD. **This Well Driller in 1969, struck a Confined Aquifer producing enormous quantities of Clean Natural Water, naturally cleaner and healthier as a whole, than any Water ever seen on Planet Earth.** Current and Immediate Investigation is including this data to potentially justify the Yucatan Meteor cracked the Florida platforms in west Florida and the Gulf of Mexico over 65 Million years ago, that various geological studies have shown, through many years of oil drilling data collection that has turned up lower layers such as the Boulder formation, and in-turn created this Spring at Daughtrey Ranch and yields this Gilberti Spring at SWFWMD permit record deep Floridan Well No 2, known since 1969, when the Ranch was once 5,733 acres. This Water has NO Metals and a PH and Mineral level never seen on the Planet. Quality that cannot be produced by treated or bottled water without offsetting pH and/or imposing toxins and metals by manmade treatment per EPA Levels of Service, respectively. With this clean virgin water from Earths origins, any treatment per EPA or FDEP standards would only damage the Water Quality, and hence is processing for RAW Transmission with a FDEP Treatment exemption per rule 62-540, 62-555, 62.550, and EPA Clean Water Act Federal rules. This spring is the natural cure of cancer, hence so much governmental activity with large corporations and attorneys attached to major leaders over the past 44 years since it was found. With consumption over longevity that MUST be distributed now with LandTech Permits submitted herewith, and used to replace all Potable water supply from Tampa to South Florida, solving Florida Water Wars and increasing home values with this water antioxidant. Instantly increasing land Real Estate in Florida to No 1 in the World.

Pumping reports over the decades can be found on various local Sarasota and FDEP studies within Public Records of Florida and more, demonstrating no Environmental effects from groundwater withdraw regardless of Quantity extracted once below 1500 feet of depth.

## National Debt Balancing and Florida Job creation from Utility Permit

The Water produced by the spring below Gilberti lands is THE PEOPLES water and has been reserved in the Florida Supreme Court within the guidelines of the Florida Water Resource Act to protect citizens and the natural resources that bring them here. Access to the Aquifer is owned by the Gilberti family that has been working with us to get this Aquifer water to the People for a long time now. Water is FREE and not a Commodity but since 1992 France, and other began bottling and marking up the production or delivery of water through bottling, which has now become a World epidemic and has changed the name of Water to Blue Gold!! We as Honorable Farmers and Engineers realize many have been exposed to this problem and it will take very hard work and integrity to retrain many on the Water Cycle and how plastic is not needed nor makes it any better, but in fact worse. Times have changed and the computer and TV have changed our image of water and its costs to get to you in the cleanest and most convenient way. Engineers build human devices of the World to treat water, this Aquifer is God made and treated from Millions of Years ago, and can be carefully utilized to create Jobs, save lives and ocean life and more.

We simply Joint Venture Gilberti Water Company (GWC) with the United States of America as a Water resource to help end World Water Wars. We use the Global demand for water bottling temporarily by partnering with China and the Middle East together with the United Nations, and issue a World Moratorium on Bottling together to cut the overrides out of folks like Nestle', Cargill, and more, to pay for fixing Rivers and supplying RO plants overseas, while we ship bulk and bottled Water from our Ports in Florida. This water is an Ocean of clean water and cannot affect the environment, nor is this program to ship out, permanent. But it pays for the Utility, which creates Jobs for Florida with housing service areas, as from the Aquifer to the Ports, as shown on LandTech Design's concept, we pipe a large backbone from Tampa to South Florida to solve the Florida North South Water War and the Tampa Conflict Water wars. And soon potentially the Tri-State Water War after this launches.

This Closer to the Heart Business plan can immediately Negotiate National debt down in the Trillions with Asia, from the Gulf wars, and fuel costs with Middle East Countries with Bulk water vs. Crude, replenishing USA with profits off water until we stabilize debt and Water Cycles over the next 5-10 years. Mother Nature will kick in if you use smart engineers with common sense on water quality and water bottling commodity profits to create the jobs. Companies that pay Nestle will pay less from Florida-USA-UN-Asia-Middle East Joint Venture with the Archdiocese co-working with the management and demands for the Kids dying at a rate of 8000/day from lack or no water.

With this and Billions in 'Fix it Right' or Grant Financing with Corporative funding and developers capturing water reservations in between, all Powered with New Energy to invite FPL, TECO and Gas companies to the system down I-75 as well. Therefore, existing overpriced municipal bonds from Peace River and Tampa Bay Water can be reduced; cheaper cleaner water delivered too many within months in early phasing, and restructure of RO to filtration at existing WTP and disconnect off the Intermediate Caution area, will reduce or eliminate sink holes, and allow sites like Seffner to thrive in Tampa.

The financing is there from the Water efficiency based on current market prices for current treated water with much more cost due to INITIAL QUALITY.

## Utility Alignment and Engineering Plan Design

Four proposed transmission main routes were developed, with each route beginning Gilberti Spring through Daughtrey Ranch with an onsite local Filtration-Aerobic Plant and ending at four designated points or Metropolitan future areas from Tampa to South Florida that will have International trading from Ports and railroads to produce water overseas and utilize I-75 and existing Power transmissions and port berths to create housing service areas along the interstate and their future land use programs.

The net profits to THE PEOPLE of the USA, DWC and our debt owed to allies, can fix the water needs and World Water Wars, and pay for all PDE Alignments we choose. The Key is start work immediately, jobs, and get the water flowing from the spring bubbling up through the lower Floridan Aquifer. This spring Aquifer has Trillions of gallons of water to support local and World Bulk water needs with Florida's Water Cycle and lower spring sources found from the Yucatan meteor may have caused most springs in Florida.

Please see plans enclosed herewith for I-75 concept plans and Design development documents for the closer service areas and Ports so we can create Jobs.

We ask that the local agencies provide Buck and LandTech a list of local Engineering, surveying, contractor and consulting companies, as I play to farm out most design work as a sub, and need to obtain qualified FDOT Utility contractors moving now to create the Florida Jobs.

All alignments are within public right-of-way when possible. While there appears to be opportunities for segments of the open-cut alignments to run within existing private utility corridors, the cost of obtaining easements through these corridors could vary substantially based on commercial and political factors outside of the scope of this report in some areas. Additionally, while constructability issues through these roadway corridors may be more favorable than within the public rights-of-way, there would likely be a premium cost for the easements, possibly negating any substantial benefit to this project from construction along the more open rights-of-way. To more confidently arrive at a defensible construction cost for each alignment, private corridors were avoided at this time, but may be considered during preliminary design of the pipelines.

Alignments through the municipal limits of the various municipalities are small in comparison to the FDOT R/W and level of cooperation from these municipalities for the construction of the proposed transmission main.

## Pipe Diameter and Efficiencies

An initial determination of pipe diameters was made by considering hydraulic requirements and overall lifecycle costs. A preliminary lifecycle cost analysis was first completed to determine minimum pipeline diameters based on conceptual alignments of routes and typical transmission main flows. Typical flows are based on the water expected to be conveyed by the system during various operating conditions, rather than the design maximum flow rates. The lifecycle cost analysis allowed for the identification of the lowest overall balance between capital costs associated with pipe and pumps, and operation costs associated with pumping.

All costs were considered as net present worth assuming an interest rate of 3%. Operation costs considered only differences in pumping costs. Capital costs for this analysis were derived Engineering cost curves and are intended to provide a comparison of relative costs, rather than absolute project costs. The cost curves were used for pipeline and pump station costs. Replacement costs for pumps were included as one-third of the original capital cost of the pump station every 25 years. The net present worth for the pipeline capital costs, pump station capital and replacement costs, and operation costs were calculated and normalized. As pipe size increases, pipeline capital cost increases. Also, as pipe size increases, costs associated with pump stations, both capital and operating costs, decreases. Adding the capital and operation costs results in a minimum total lifecycle cost. The overall picture with right of way data collection pending is an 84-inch Raw Water system with multiple Towers and approximately 8-12 Pump Stations, to transmit 250 MGD from Sarasota to Tampa and South Florida, with about a Megawatt per mile to drive the water for THE PEOPLE.

**CLOSER TO THE HEART**  
**Appendix A**

## GILBERTI WATER COMPANY

CLEANEST AND MOST ABUNDANT SPRING IN THE WORLD

### FLORIDA'S FOUNTAIN OF YOUTH

HIDDEN IN SARASOTA FLORIDA FOR 44 YEARS!

#### WHO'S WATER IS IT?

- *THE PEOPLE OF FLORIDA PER THE FLORIDA WATER RESOURCE ACT*
- *HELD IN THE SUPREME COURT OF FLORIDA*
- *ACCESS AND PLANS ARE SUBMITTED TO FDEP, FDOH, AND FDOT*

#### WHAT DOES IT DO?

- *CREATES OVER 1,000,000 FLORIDA CONSTRUCTION AND HOUSING JOBS IN THE NEXT SIX MONTHS*
- *CREATES OVER 10,000,000 USA INDIRECT JOBS WITH SUPPLIES AND SERVICES TO FLORIDA*
- *PAYS FOR NATIONAL HEALTH CARE FROM BULK WATER SHIPPING TO THE WORLD FROM FLORIDA PORTS*
- *HOME VALUES WITH WATER SOUR TO HIGHEST IN THE WORLD*
- *BUSINESSES THRIVE FROM HOUSING BOOM*

#### WHAT IS IT AND HOW DOES IT GET TO YOU?

- *250 MILE SPRING WATER 84-INCH TRANSMISSION PIPE FROM TAMPA TO PORT EVERGLADES DOWN I-75*
- *TRILLIONS OF GALLONS OF ANTIOXIDANT SPRING WATER TO NEW AND EXISTING HOMES*
- *LARGEST CANCER ANTIOXIDANT EVER SEEN ON THE PLANET*
- *PERMITS SUBMITTED OVER A YEAR AGO AND NO GOVERNMENT RESPONSE? CALL THEM NOW!*

#### HEALTH AND ENVIRONMENTAL FACTORS!

- *ELIMINATES SINK HOLES FROM CONNECTING TO TRANSMISSION AND REMOVING SHALLOW WELLS*
- *REDUCES RED TIDE BY LEAVING WATER IN RIVERS FROM CURRENT WATER TREATMENT PLANTS WITHDRAWS*
- *ELIMINATES RESERVOIR WATER SUPPLY OPEN TO THE SKY SUBJECT TO PESTICIDE CONTAMINATION OR POTENTIAL TERROR ATTACK FROM LOW FLYING PLANES OR DRONES*
- *LOWERS COST OF WATER SUPPLY BY REMOVING CHEMICALS AND EXPENSIVE PROCESSING*
- *WATER CONTAINS pH LEVELS ABOVE CANCER CELL MITOSIS OF 7.3 AND HAS NO METALS AND TOXINS*
- *REDUCES HEALTH COSTS FROM ALKALINE BODY AND LOWERS DISEASE*
- *LIVE LONGER AND LIVE HAPPIER WITH GLACIER WATER IN THE SUN AND JOBS ALL OVER!*

### STOP FLORIDA TERRORISM WITH OPEN TO THE SKY RESERVOIRS PAID BY TAXPAYERS!

REAL ESTATE BOOM NEVER SEEN IN HISTORY FROM TAMPA TO SOUTH FLORIDA

CALL YOUR GOVERNOR, SENATORS, CONGRESSMAN AND COMMISSIONER WHO HAS KNOWN FOR YEARS!

CALL OBAMA, MEDIA, HOA'S, SCHOOLS, BUSINESSES AND PROMOTE

GILBERTI WATER COMPANY

**“FOUNTAIN OF YOUTH”**

**GILBERTI WATER COMPANY**

**&**

**REGIONAL POTABLE WATER  
SUPPLY**

# Benefits to “THE PEOPLE”

- Clean Natural Potable Water from Deep below with Life Healing Minerals for Florida Regional Service area. **CREATES OVER ONE MILLION FLORIDA JOBS THROUGH HOUSING SPIKE AND 10,000,000 US JOBS**
- **ELIMINATE A POTENTIAL TERROIST ATTACK FROM LOW FLYING PLANES DROPPING POISON ON WATER SUPPLY AT THE CW BILL YOUNG AND THE RV GRIFFIN RESERVOIRS OF TAMPA BAY WATER AND PEACE RIVER MANASOTA WATER, IN TAMPA REGION CRACKING AND FAILING WHILE TAXING MILLIONS AGAIN.**
- Remove surface withdraw from Peace River WTP to minimize **RED TIDE** and **RESTORE Fish & Wildlife** in 11 Counties and the Florida Everglades.
- **ELIMINATE** Creative Mosaic Loafing in Middle Florida that swings 47% of Electoral Votes in Florida
- Minimize Potential **CANCER** from Peace River **RECORD MINING SPILLS** from Hurricanes and Human Error over 40 years.

WORLD DEMAND FOR ANTIOXIDANT WATER PAYS FOR NATIONAL HEALTHCARE

# CONTACTED INVESTORS

**JOSEPH D. GILBERTI,  
Defendant.**

\_\_\_\_\_ /

**DEFENDANT'S AMENDED MOTION TO DISMISS**

COMES NOW, the Defendant, JOSEPH D. GILBERTI, pursuant to Florida Rule of Criminal Procedure 3.190(b), and hereby moves this court to dismiss the Information in this case. As grounds for this motion, Defendant avers that the underlying conduct he is alleged to have partaken in, is constitutionally protected, and therefore cannot be the subject of criminal prosecution under the laws of Florida.

**STATEMENT OF THE FACTS**

In early July of 2011, Cecil and Patricia Daughtrey retained the law firm of Greenberg Traurig, P.A. to defend them against the foreclosure of their 2,500 acre ranch in Sarasota County, Florida. The Defendant is a close friend of the Daughtreys, and has a property interest in their land by virtue of a lien. With the permission of Cecil and Patricia Daughtrey, the Defendant acted as their agent and advisor, particularly with regard to the above mentioned foreclosure action. The Defendant—a civil engineer by trade with a background in fresh water systems—was drawn to the property when he discovered that the land had a vast underground water aquifer capable of providing clean drinking water to surrounding communities throughout southwest Florida.

David B. Weinstein, Vincent Marchetti, and Don Crawford, were the three

attorneys that worked on behalf of Greenberg Traurig, P.A., in the above mentioned foreclosure action. They are also the alleged victims in the instant case. During the course of the foreclosure action, the Defendant came to believe that these three attorneys were acting contrary to the interest of the Daughtreys. Specifically, the Defendant came to believe that these attorneys were part of a conspiracy aimed at allowing the land to be foreclosed upon, so that the land's water aquifer—a resource capable of revolutionizing the way water is consumed and distributed in surrounding communities—could be suppressed and hidden from the public, in order to preserve the existing status quo among powerful and corrupt politicians and corporations. Thereafter, a disagreement ensued between the Daughtreys (represented by the Defendant), and the three alleged victims in this cause—Crawford, Marchetti, and Weinstein. The relationship between these attorneys and the Daughtreys quickly deteriorated, and thereafter, Marchetti, Crawford, and Weinstein were fired by the Defendant and the Daughtreys.

Armed with his training and experience as a civil engineer, and his knowledge of the above mentioned impropriety, Defendant took it upon himself to expose what he viewed as a corrupt and illegal conspiracy among several local and federal politicians and businesses. He attempted to expose this conspiracy (including the participation of the alleged victims) and open the aquifer's abundant water supply to the public, by contacting several state and government officials to solicit their help. The Defendant also intended to serve as a Whistleblower, by exposing all those who he believed participated in the conspiracy, and may have engaged in illegal and questionable conduct, including the three alleged victims in this case. Defendant attempted to achieve this end by emailing his

message to several recipients, most of which were government officials and others with some tangible interest in the political message. Defendant believed that by sending each email to several recipients, he was attaining transparency, and properly exercising his First Amendment rights.

In the State's Discovery Exhibit (See Attached Exhibit 1) it is alleged that the three above mentioned victims complained to local authorities after receiving a large amount of emails from the Defendant. The police report (See Attached Exhibit 1) cites 27 examples of such emails in short clips, some isolated from their original context. Further, the state disclosed an enormous exhibit of emails ranging from December 2011, to June 2012. These emails will be produced for this court at a hearing regarding this motion.

It is alleged that the Defendant would typically send each individual email to multiple recipients. In fact, some of the emails allegedly sent by the Defendant to the victim's were sent to dozens of recipients. Throughout the discovery exhibit, it does not appear that Defendant ever sent an email to any of the victim's privately. Further, the vast majority of the emails allegedly sent by Defendant, never directly addressed the victims; the victims simply happened to be on the recipient list together with dozens of others. It does not appear (from the discovery) that the alleged victims ever specifically told the defendant not to email them, or to stop communicating with them, other than one email which expresses the view that there is no need for further communication. In the emails disclosed by the State (allegedly sent by Defendant) there are no threats, no sexual innuendos, no excessive foul language, and nothing said that would otherwise put a

reasonable person in fear for their safety. In fact, the emails are simply long, complicated, expressions of what Defendant believes to be an illegal political conspiracy. It is clear from these emails, and the way that they are always sent to several governmental officials, that they are meant to expose wrongdoing, in an attempt to allow the government to enforce its own laws, and to bring wrong doers to justice.

Under these facts, and at the urging of the alleged victims, local authorities and prosecutors determined that the emails were sent for “no legitimate purpose”, and caused “substantial emotional distress” to the victims. Defendant, consequently, stands before this court, accused of three counts of “cyber stalking” in violation of Florida Statute 784.048(2).

#### **ARGUMENT AND MEMORANDUM OF LAW**

**THE DEFENDANT’S CONDUCT—WHICH CAUSED HIM TO BE ARRESTED AND SUBSEQUENTLY CHARGED WITH CYBERSTALKING—WAS CONSTITUTIONALLY PROTECTED ACTIVITY; THEREFORE PROSECUTION OF THE DEFENDANT UNDER THE STATE STALKING LAW IS CONSTITUTIONALLY IMPERMISSIBLE.**

- 1. The emails were sent to multiple recipients—many of which were public officials—with the specific goal of informing these officials of an illegal political conspiracy, and persuading them to enforce laws within their jurisdiction. Therefore, defendant was exercising his constitutional right to petition the government for a redress of grievances.**

Section 784.048(2), Florida Statutes, proscribes the act of misdemeanor stalking.

It reads as follows:

- (2) A person who willfully, maliciously, and repeatedly follows, harasses, or cyberstalks another person commits the offense of stalking, a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.**

§ 784.048(2), Fla. Stat. (2012). Section 784.048(1)(d) defines “cyberstalking” as follows:

(d) “Cyberstalk” means to engage in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of electronic mail or electronic communication, directed at a specific person, causing substantial emotional distress to that person and serving no legitimate purpose.

§ 784.048(1)(d), Fla. Stat. (2012). Further, section 784.048(1)(b) defines “course of conduct” as a pattern of conduct composed of a series of acts over a period of time, however short, which evinces a continuity of purpose. § 784.048(1)(b), Fla. Stat. (2012). It further provides that “the term does not include constitutionally protected activity such as picketing or other organized protests.” *Id.*

The stalking statute, section 784.048, was enacted by Chapter 92-208, Laws of Florida, and was essentially a product of the criminal law concerned with crimes against the person and from domestic and repeat violence legislation. Indeed, the stalking statute was intended to fill gaps in the law by criminalizing conduct that fell short of assault or battery. *Curry v. State*, 811 So.2d 736, at 741 (Fla. 4th DCA 2002).

In the instant case, the behavior found to be objectionable, are the Defendant’s numerous emails to the three alleged victim’s, which were simultaneously sent to several other recipients—many of which were local and federal government officials. A reading of these emails demonstrates that their underlying message (and primary purpose) is to expose a vast illegal political conspiracy, to demonstrate that the alleged victims’ (among several others) participated in the conspiracy, and to persuade local government officials (who were recipients of the emails) to prosecute and remedy the illegal conduct. The fact that Defendant may have sent these emails, cannot amount to a “course of conduct” under

Florida Statute section 784.048, because a report to an arm of government concerning a matter within the purview of the agency's responsibilities, serves a legitimate purpose within the meaning of the Statute.

In Curry v. State, 811 So.2d 736 (Fla. 4th DCA 2002), the defendant was convicted at trial for violating Florida's Aggravated Stalking Statute. In Curry, the Defendant had made at least forty public record requests, and also filed about forty complaints against the victim with various government agencies. Id. These various reports, and complaints compromised the "course of conduct" which amounted to "harassment" under the Stalking Statute. Understandably, the victim testified that being the target of these complaints caused her substantial emotional distress. Id. In reaching its decision, the appellate court reversed the denial of the Defendant's motion for judgment of acquittal ruling that the conduct of the Defendant was constitutionally protected speech, and could not constitute a "course of conduct" within the meaning of the Stalking statute.

In reaching its decision the court ruled as follows:

Another separate basis exists that compels the finding that no criminal violation occurred in this case. Under the stalking statute, Curry's complaints and reports to governmental entities did not constitute a "course of conduct," an aspect of the definition of harassment. See § 784.048(1)(a), Fla. Stat. (2000). Harassing involves engaging in a "course of conduct" directed at a specific person. See § 784.048(1)(a), Fla. Stat. (2000). "Constitutionally protected activity is not included within the meaning of 'course of conduct.'" § 784.048(1)(b), Fla. Stat. (2000) (emphasis supplied). The statute gives "picketing or other organized protests" as examples of constitutionally protected activities. The list is not exclusive. Other constitutionally protected activities are

also excluded from the definition of "course of conduct."

Id. at 742. The Court went on to explain that by filing these complaints with governmental agencies, Curry was effectively exercising his right to petition the government for a redress of grievances. In Curry, the court argued as follows:

The right to petition the government for a redress of grievances is one such constitutionally protected activity, and one of the most precious liberties "safeguarded by the Bill of Rights." United Mine Workers of Am., Dist. 12 v. Illinois State Bar Ass'n, 389 U.S. 217, 222, 19 L. Ed. 2d 426, 88 S. Ct. 353 (1967). The history of the right to petition for the redress of grievances is ancient, stretching back in time to before the Magna Carta, see A.D. Bedell Wholesale Co., Inc. v. Philip Morris Inc., 263 F.3d 239, 252 (3rd Cir. 2001), to a petition by English leaders in 1013 to "Aethelred the Unready." <sup>3</sup> Norman B. Smith, "Shall Make No Law Abridging . . .": An Analysis of the Neglected, but Nearly Absolute, Right of Petition, 54 U. CIN. L. REV. 1153, 1154 (1986). The right to petition has evolved to its current place in both the federal and Florida constitutions, which protect the right of the people to petition the government for redress of grievances. See U.S. Const., amend. I.; Art. I, § 5, Fla. Const.

Id. at 742. The Court went on to rule that Curry had the constitutional right to convince governmental agencies to enforce laws within their jurisdiction. In so doing, it found that Curry's unsavory motivation in contacting law enforcement or administrative agencies did not eviscerate the constitutional protection of his conduct." Id. at 743. The court went on to opine:

Curry's conduct in this case was clearly knowing, willful, and repeated—and it may even be thought by some as weird and obsessive, with more than a tinge of spite to it—but it did not qualify as a violation of the anti-stalking statute. Viewed objectively, Curry's conduct had a "legitimate purpose" under section 784.048(1)(a); also, it did not amount to a "course of conduct," defined by section

784.048(1)(b), because it excludes "constitutionally protected activity.

Id. at 743.

- 2. Defendant's speech was protected by the First Amendment, because it was political speech, addressing a matter of public concern; therefore it cannot constitute a "course of conduct" under Florida Statute 784.048(1)(b).**

The First Amendment to the United States Constitution guarantees freedom of speech, the right to peacefully assemble, and the right to petition the government. Those rights are protected from infringement by state governments by the Due Process Clause of the Fourteenth Amendment to the United States Constitution. Further, under Article 1, Section 4, of the Constitution of the State of Florida, citizens are guaranteed freedom of speech.

The First Amendment protects speech even when its subject or manner of expression is uncomfortable and challenges conventional religious beliefs, political attitudes or standards of good taste. United States v. Stevens, 130 S.Ct. 1577, 1585 (2010). Specifically, First Amendment jurisprudence has time and time again demonstrated that political and religious speech should be afforded special protections. One such case is Cantwell v. Connecticut, 310 U.S. 296, 310 (1940), in which the U.S. Supreme Court overturned the conviction of three individuals for passing out religious leaflets in violation of a Connecticut statute that made it a crime to solicit and breach the peace:

In the realm of religious faith, and that of political belief, sharp differences arise. In both fields the tents of one man may seem the rankest error to his neighbor. To persuade others to his own point of view, the leader, as we know, at

times, resorts to exaggeration, to vilification of men who have been, or are, prominent in church or state, and even to false statement. But the people of this nation have ordained in the light of history, that, in spite of the probability of excesses and abuses, these liberties are, in the long view, essential to enlightened opinion and right conduct on the part of the citizens of a democracy.

The Supreme Court has consistently classified emotionally distressing or outrageous speech as protected, especially when that speech touches on matters of political, religious or public concern. The Supreme Court has said that this is because ‘in public debate our own citizens must tolerate insulting, and even outrageous, speech in order to provide adequate breathing space to the freedoms protected by the First Amendment.’ Boos v. Barry, 485 U.S. 312, 322 (1988). Emotionally distressing speech will be entitled to special protection under the First Amendment, when expressed at a public place on a matter of public concern; such speech cannot be restricted simply because it is upsetting or arouses contempt. Snyder v. Phelps, 131 S.Ct. 1207, 1219 (2011).

Uncomfortable expression touching on political or religious matters sent through email is equally protected under the First Amendment as there is “no basis for qualifying the level of First Amendment scrutiny that should be applied to online speech.” Reno v. Am. Civil Liberties Union, 521 U.S. 844, 870 (1997). Despite the challenges of applying the Constitution to ever-advancing technology, basic principles of freedom of speech and press, like the First Amendment’s command, do not vary when a new and different medium for communication appears.” Brown v. Entm’t Merch. Ass’n, 131 S.Ct. 2729, 2733 (2011).

Despite the Supreme Court's willingness to give special protections to political and religious speech, not all speech is protected. There are certain "well defined and narrowly limited classes of speech" that remain unprotected by the First Amendment. Chaplinsky v. New Hampshire, 315 U.S. 568, 571-572 (1942). These unprotected exceptions are 1) **Obscenity** (See Roth v. United States, 354 U.S. 476 (1957).), 2) **Defamation** (See Beauharnais v. Illinois, 343 U.S. 250 (1952).), 3) **Fraud** (See Virginia Board of Pharmacy v. Virginia Citizens Consumer Council, Inc., 425 U.S. 748, 771 (1976).), 4) **Incitement** (See Brandenburg v. Ohio, 395 U.S. 444, 447-449 (1969).), 5) **True Threats** (See Watts v. United States, 394 U.S. 705 (1969).), 6) **Speech Integral to Criminal Conduct** (See Giboney v. Empire Storage & Ice Co., 336 U.S. 490, 498 (1949).). As a general rule, speech that does not fall into one of these recognized exceptions, remains protected. The Supreme Court expounded on this concept in United States v. Stevens, 130 S.Ct. 177, 1586 (2010), ruling that even "depictions of animal cruelty" remain protected because there is no "freewheeling authority to declare new categories of speech outside the scope of the First Amendment."

In the instant case, it is clear that the government's information is directed at speech not included in the above list of exceptions. As stated above, the Defendant sent all electronic communications via email, and did so with the intent of spreading awareness of an illegal political conspiracy. Further, he do so with the intent to expose wrongdoers (as a whistleblower), and with the intent to persuade government officials to enforce their own laws. Even though the alleged victims may have suffered emotional distress—which remains to be seen—Defendant's speech is nevertheless a protected form

of speech: Political speech regarding a topic of public concern. Since the Defendant's speech is not limited to one of the above narrowly defined exceptions to the First Amendment (Obscenity, Defamation, Fraud, Incitement, True Threats, Speech Integral to Criminal Conduct) it remains a protected form of speech.

As established in the previous section, Florida Statute 784.048(1)(b) specifically excludes "constitutionally protected activity" from its reach. Therefore, since Defendant's political speech on a matter of public concern is protected, it cannot be charged under the statute as written.

**3. Florida Statute 784.048 is unconstitutional as-applied to the Defendant's case because it is a content-based restriction on political speech addressing a matter of public concern and fails to survive either strict or intermediate scrutiny.**

It has been established by U.S. Supreme Court jurisprudence that content-based restrictions on speech must survive strict scrutiny. See United States v. Playboy Entm't Grp., Inc., 529 U.S. 803, 813 (2000). If a regulation is not content-based, or unrelated to the content of the speech (content-neutral) it only need survive an intermediate level of scrutiny, since such regulation poses a less substantial risk of excising certain ideas or viewpoints from public dialogue. Turner Broad. Sys. Inc. v. Fed. Comm'ns Comm., 512 U.S. 622, 642 (1994). It has been said that when deciding whether a law is content neutral, one must determine whether "the government has adopted a regulation of speech because of disagreement with the message it conveys." Ward v. Rock Against Racism, 491 U.S. 781, 791 (1989). Generally, it has been held that a law is content-based if it seeks to limit the effect that the speech will have on an audience. The Supreme Court further expounded on this principle in United States v. Playboy Entm't Grp., Inc.,

529 U.S. 803, 813 (2000), holding that a restriction on speech that focused on the effect that the speech might have on young viewers was content based. In reaching its decision, the court ruled as follows:

The speech in question is defined by its content; and the statute which seeks to restrict it is content based. Section 505 applies only to channels primarily dedicated to "sexually explicit adult programming or other programming that is indecent." The statute is unconcerned with signal bleed from any other channels...The overriding justification for the regulation is concern for the effect of the subject matter on young viewers. Section 505 is not "'justified without reference to the content of the regulated speech.'" Ward v. Rock Against Racism, 491 U. S. 781, 791 (1989) (quoting Clark v. Community for Creative Non-Violence, 468 U. S. 288, 293 (1984)). It "focuses only on the content of the speech and the direct impact that speech has on its listeners." Boos v. Barry, 485 U. S. 312, 812\*812 321 (1988) (opinion of O'Connor, J.). This is the essence of content-based regulation.

Id. at 813.

In the instant case, Florida Statute Section 784.048 attempts to regulate speech based on the effect it will have on the listener. The applicable portion of 784.048 reads as follows:

(d) "Cyberstalk" means to engage in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of electronic mail or electronic communication, directed at a specific person, causing substantial emotional distress to that person and serving no legitimate purpose.

§ 784.048(1)(d), Fla. Stat. (2012). This portion of the statute amounts to a content-based restriction on speech because it seeks to limit speech on the basis of whether the speech is emotionally distressing.

In order to survive strict scrutiny, the government must show that the content-based restriction is necessary to serve a compelling state interest. Bank v. Belotti, 435 U.S. 765 (1978). The government, here, will argue that it has a compelling interest in protecting victims from harassing, and emotionally distressing communication sent through electronic media. However, a similar argument was shot down by the Court in Playboy Entertainment Group, 529 U.S. at 865, which stated as follows:

Where the designed benefit of a content-based speech restriction is to shield the sensibilities of listeners, the general rule is that the right of expression prevails, even where no less restrictive alternative exists. We are expected to protect our own sensibilities simply by averting (our) eyes.

In the instant case, all three of the alleged victims could have protected their own sensibilities simply by averting their eyes from the emails, by not looking at (or ignoring) the emails, or by simply blocking the Defendant's email address—a task easily accomplished by most email providers. For these reasons, the Government's interest in criminalizing speech that inflicts emotion distress is not a compelling one, and therefore, the statute does not survive strict scrutiny.

Finally, it is likely that the government will claim that Florida Statue 784.048 seeks to regulate conduct and not speech, and that any effect or impact upon speech is merely incidental, and therefore the regulation is content neutral. The Supreme Court addressed this scenario in United States v. O'Brien, 391 U.S. 367, 377 (1968), holding that when speech and non-speech elements are combined in the same course of conduct, a government regulation must still pass intermediate scrutiny. And, according to O'Brien, in order to survive intermediate scrutiny, a regulation with an incidental impact on speech

must further an important or substantial governmental interest; if the governmental interest is unrelated to the suppression of free expression; and if the incidental restriction on alleged First Amendment freedoms is no greater than is essential to the furtherance of that interest. Id. at 377.

It can be argued that preventing the use of electronic communications to inflict emotion distress upon victims, serves an important governmental interest. However, at issue here is the third part of O'Brien's analysis: Whether the incidental restriction on alleged First Amendment freedoms is no greater than is essential to the furtherance of that interest. It is again worth noting that the three alleged victims in this case are attorneys that likely represented the Defendant in some capacity (the defendant did have a lien against the property being foreclosed upon). Further, the emails started after the attorneys withdrew, and were sent to several recipients (many of which were governmental officials), for the purpose of drawing attention to what the Defendant perceived to be a vast illegal political conspiracy. And, the Defendant also wanted to notify relevant authorities of the actions taken against him by the alleged victims—which he thought to be unethical and illegal. In other words, Defendant's speech constituted political dialogue, addressing matters of public concern, communicated on a quasi public forum (since the emails were sent to such a large number of recipients). For these reasons, the Statute in controversy covers precisely the type of speech that United States Supreme Court has sought to protect. The fundamental importance of the free flow of ideas and opinions on matters of public concern is the core of the First Amendment protections, even where speech includes vehement caustic and sometimes unpleasantly sharp attacks.

New York Times Co. v. Sullivan, 376 U.S. 254, 271 (1964). Surely, the government's interest in preventing the use of electronic communications to inflict emotional distress would still undoubtedly be furthered even if the statute did not apply to the type of discourse the Defendant engaged in—political speech on matters of public concern, aimed at alerting government officials, and exposing wrongdoers. It is clear that the statute could have been more narrowly drafted to avoid such an application.

WHEREFORE, for all the foregoing reasons, the Defendant respectfully prays that this Court will enter an order dismissing the criminal charges pending against the Defendant in this cause.

**ASSIGNMENT OF NOTE, MORTGAGE AND OTHER LOAN DOCUMENTS**

KNOW ALL MEN BY THESE PRESENTS, THAT BSLF HOLDINGS, LLC, a Florida limited liability company ("Assignor"), of 5900 Imperial Lakes Blvd., Mulberry, Florida 33860, for and in consideration of Ten Dollars (\$10.00) and other good and valuable consideration received from and on behalf of 72 PARTNERS, LLC, a Florida limited liability company ("Assignee"), whose mailing address is 5406 26<sup>th</sup> Street West, Bradenton, Florida 34207, relating to an obligation of CECIL DAUGHTREY, JR. and PATRICIA A. DAUGHTREY, individually and as Husband and Wife, (collectively, the "Borrower"), whose mailing address is 9438 Daughtrey Road, Sidell, Florida 34266. Assignor does hereby assign, convey, sell and transfer to the Assignee all the right, title and interests of the Assignor in and to the following documents (collectively, the "Loan Documents"):

A. That certain Promissory Note dated June 8, 2010 in the principal amount of TWO MILLION THREE HUNDRED SEVENTY-ONE THOUSAND EIGHT HUNDRED FORTY AND NO/100<sup>ths</sup> DOLLARS (\$2,371,840.00) (the "Note"), given by Borrower in favor of the Assignor. The Note evidences a loan from Assignor to Borrower in such amount (the "Loan").

B. That certain Real Estate Mortgage and Security Agreement dated June 8, 2010, executed by Borrower in favor of the Assignor, and recorded on June 14, 2010, as Official Instrument No. 2010072083, of the Public Records of Sarasota County, Florida (the "Mortgage").

C. That certain Assignment of Rents, Leases and Profits executed by Borrower in favor of the Assignor, dated June 8, 2010, and recorded on June 14, 2010, as Official Instrument No. 2010072084, of the Public Records of Sarasota County, Florida (the "Rents Assignment").

D. The Note, Mortgage, Rents Assignment and all other documents and instruments executed and/or delivered in connection with the Loan, including, in particular, that certain Loan Policy of Title Insurance issued by Old Republic National Title Insurance Company, Policy Number MJB-08078151, with an effective date of June 14, 2010, at 10:54 a.m., and endorsements thereto, are hereinafter collectively referred to as the "Loan Documents".

E. All other documents, instruments and agreements executed in favor of or held by the Assignor and related to the Loan evidenced or secured by the foregoing.

F. Assignor desires to sell and assign to Assignee, and Assignee desires to purchase from Assignor, Assignor's interest in and to the Loan Documents.

This Assignment is without recourse to the Assignor or any agent or representative of the Assignor, and is without any representations or warranties of any kind by the Assignor provided, however, the Assignor does hereby represent and warrant to the Assignee as follows:

1. That as of the date set forth below, the Assignor is the owner and holder of the Loan Documents, and the Assignor has not assigned, conveyed, sold or otherwise transferred any of its interest in the Loan Documents, or the Loan represented thereby, to any other person whether by way of assignment, participation, or otherwise.

2. That the Assignor has the full power and authority to enter into and execute this Assignment.

3. That Assignee shall, as of the date hereof ("Closing Date"), assume and thereafter honor and fully and timely pay, perform, and discharge when due, all of the liabilities of Assignor arising in respect of the Loan after the Closing Date. Assignee hereby acknowledges and agrees that, excepting only as is otherwise expressly provided for herein, Assignee is purchasing the Loan on an "AS-IS, WHERE-IS" basis, and without recourse. Assignee has performed such due diligence that it deems necessary and appropriate in connection with the purchase and assignment accomplished hereunder. Assignee has performed its own credit underwriting and represents to Assignor that it understands that enforcement of the Loan may not result in collection of all or any of the sums due thereunder. It is understood that, for collection of the Loan, the Assignee shall look solely at the Borrower and the collateral pledged to secure the Loan. Assignee also assumes all risk associated with any litigation proceedings, arbitration proceedings or governmental investigations/proceedings that may be pending as of the Closing Date with respect to the Loan, the Borrower and the collateral, including, without limitation, any claims that may be asserted by the Borrower in such litigation. In entering into this Agreement, Assignee has not, with the exception of the estoppel letter, issued to it by Assignor setting forth the amounts due from Borrower under the Loan, relied upon any oral or written information of Assignor or any of its respective employees, agents, attorneys or representatives. Assignee acknowledges that no employee, agent, attorney or representative of Assignor has been authorized to make, and that Assignee has not otherwise relied upon, any statements, representations or warranties other than such estoppel letter. Except as otherwise stated herein, Assignee has entered into this Agreement solely upon its own independent investigation and credit analysis and is not relying upon any information supplied by or any representations made by Assignor with respect thereto. Assignee's decision to purchase the Loan is based upon its own comprehensive review and independent expert evaluation of materials deemed relevant by Assignee and its agents. Assignee has made such independent investigation as Assignee deems to be warranted into the nature, title, attachment, perfection, priority, validity, enforceability, collectability, and value of the Loan, the title, condition and value of any collateral securing the Loan, the market conditions and other characteristics of the places where any such collateral is located, and all other facts it deems material to the purchase of the Loan, including the potential claims that may be asserted in any litigation. Both parties to this Agreement, and their respective employees, agents, successors and assigns, will keep this Agreement confidential and will not, without written consent divulge any information pertaining to this transaction, including the purchase price, except to the extent that it is appropriate or required by law for either party to do so in working with legal counsel, auditors, taxing authorities or other governmental agencies.

4. That to the extent additional documents are required to be executed by the Assignor to carry out the purposes or intent of this Assignment, the Assignor agrees to execute such additional documents provided, however, any such additional documents shall be without any representations or warranties whatsoever.

**IN WITNESS WHEREOF**, the Assignor has executed this Assignment of Note, Mortgage and Other Loan Documents as of the 20 day of July, 2011.

RECEIVED-FPSC

Dear Sir or Madam,

I hope that you can help us, or refer this inquiry to someone who may be able to. We are just so confused & frustrated that we do not know where to begin to effectively investigate this issue. I am speaking of our utility provider Marion County Utilities. There just seems to be something wrong regarding their billing of our water & sewer usage.

I know, I know, everyone thinks their personal expenses are too high. But, that is just a portion of our concerns.

I have enclosed several back copies of some of my personal invoices so that you can see the disparages for yourself.

We have been concerned about these costs for some times & have called their office for better explanations, have filled formal inquiries, & have attended counsel meeting at which we were able to speak. What we get in return is that our charges are in line with other communities of our size & location. That may be, but that still doesn't justify these charges.

To have our water usage charge be \$3.45 of a total invoice of \$53.92 is just more than curious. I am referring to our invoice dated 8/27/13 & 9/28/13( these other copies enclosed) Actually during this billing period we were gone for a week & our lawn sprinklers were turned off as they were not needed. So this invoice, although dramatic, is not the norm.

However, the other invoices I've enclosed are also dramatic & reflect our normal usage & normal billing.

Page 2 of 2  
Florida Public Service Commission

Our sewer charges are excessive & hard to believe as well. Also highlighted on the copies enclosed.

Unfortunately we hear of other government billing units that have taken unfair advantage of their clients ( who have no competitive alternative) & it causes us to wonder if this is the case here, as these charges seem to be so excessive & absurd.

Frankly we just don't know where to begin to investigate the validity or fairness of Marion County Utilities billing practices.

I hope that you can help us in some way, with advice, consul or perhaps some investigation.

We really appreciate your thoughtful consideration.

Sincerely,

A handwritten signature in cursive script that reads "Barbara Aitchison".

## YOUR MONTHLY USAGE

13 MONTH HISTORY - WATER

## SPECIAL MESSAGE

Marion County Utilities recently attained the state award for best tasting water and will go on to represent Florida in the "Great American Water Taste Test" national competition next February. Earlier in the year our utility took home a national environmental achievement award for its efforts to reduce pollution of local water bodies. American Express card holders are now able to use your card to pay your utility statement.

This is the only notice you will receive. Failure to receive a bill does not exempt you from a monthly payment. If you have a "Previous Balance" please pay in full before the cut off date to avoid service interruption. You can pay online at [www.marioncountyfl.org](http://www.marioncountyfl.org). Click on Utilities and select online payments. Drop boxes are collected Tuesday and Thursday, prior to office hours. NO LATE PAYMENTS! For drop box locations, you can visit our website. Please use the enclosed envelope to mail payments. Do not staple or clip payments to coupon. Payments must be received by our office before the due date to avoid late charges or service interruption. Meters are the property of the County and shall not be tampered with. Fees will apply.

13 MONTH HISTORY - WATER

**SPECIAL MESSAGE**

**REMINDERS** Here are some things to remember... Our water is tested on a regular basis and must meet Federal Drinking Water Standards, having a water conditioner is not required and is strictly a personal preference. If you are on our sewer system and experience a sewer backup, you should contact our office first, we are available 24/7, call 352-671-8510. If traveling you may want to turn off your house valve to prevent any damage inside your home in case of a leak. Update your contact info.

**Subject:** RE: Gary Hart of Publix Corp not interested in Gilbert Spring Clean Water proven Cleanest in World but Sweetbay investors do - And FDEP Herhall Vinyard below and the day we sent a letter to Publix Governor Scott was in Polk the Next Day - FOR THE RECORD

**Attachments:** Certified mail to FDEP Fort Myers-Coca Cola-Disney-Pepsi-Publix 001.jpg; Pepsi & Coca-Cola Ignore Cleanest Water in World, Jobs and Kids 002.jpg; Pepsi & Coca-Cola Ignore Cleanest Water in World, Jobs and Kids 001.jpg; Warning.txt; GILBERTI WATER COMPANY FLYER-2.pdf; GWC - Bottling letters to Disney-Publix-Pepsi-Coca Cola.pdf; Letter to SAO Discovery demand (Gilberti).pdf; Mosaic Mining sells to Middle East Firm 8-5-2013.pdf; Stampe & Gov Scott.jpg

Gary Hart (Publix Supermarkets),

Pursuant to your phone call yesterday with Gilberti staff, you will not respond and do not care about this clean water to help Kids and Publix revenues for the Cleanest Water in the World, and the fact that Governor Scott visited your Corp headquarters the very day you received this letter attached.

We purposely put Publix, Pepsi, Coca-Cola all on one letter with Disney as we were told by Scott Freyre and Phillip Glassman with Debartolo that Sweet Bay was getting location replaced by Publix with Governor Scott, about 18 months ago. The interesting part for the Secret Service and FBI to consider, is Gilberti emailed this article below with Herhall Vinyard (attorney and head of FDEP) was in this jog fund raiser for Kids, with a PUBLIX banner, which was emailed out 7 Hours before the Boston TERROR ATTACK on April 15<sup>th</sup> 2013! Then a Fertilizer plant (And MOSIAIC is FERTILIZER), blows up in Texas where Bush Family resides the day Gilberti was supposivly running from the US Marshalls per this New Grad prosecutor in Judge Dominquez's court room, Sheila Sangvhi, a Middle East person working with Greenberg Traurig who works with Coca-Cola and is chief council for Mosaic!

Who didn't show up for Trial 3 months ago as they had to go to ISRAEL, who owns Mosaic and just sold to a Saudi Arabian mining firm when we have this OPEN to the Sky Water supply in a SWAMP with low flying mosquito planes and

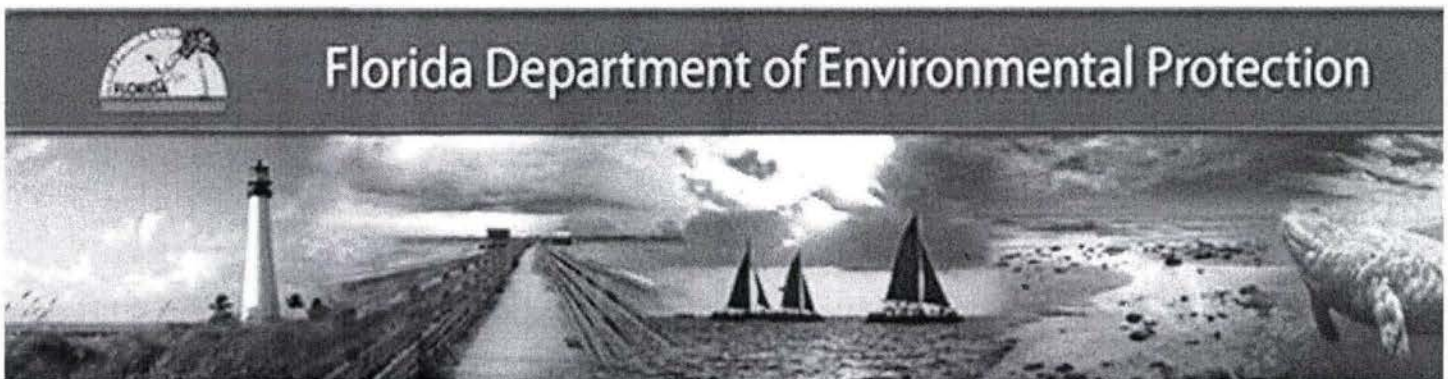

drones attack potential, with Obama turning off Air control towers after a Monsanto seed (used to be Agent Orange!) contract was signed last Easter!

Seem to me, just for finding the Cleanest Water in the World, considering the Cyberstalking charge victims are Greenberg attorneys Gilberti Fired, who directly work with these CEO's of these large corporations, and the Public defender disappeared like Gilberti's Water Treatment plant engineer who did half the plans, Rob Stampe (attached ducking out the day our Oil guys showed up Jim Murray of Amps Well testing), and 10 days prior to the Boston Terror attack. With Dirk Weed stating the Secret Service (Under Oath in front of Judge Conrad who replaced Judge Dominquez, who recused himself after he raised a misdemeanor from \$500 to \$300,000 on April 15<sup>th</sup>!!! Then leaves!), when it seems the Secret Service could have just come over to Gilberti's home!

Why would the Secret Service want Gilberti scheduled in a little misdeameanor Dirk Weed Withdraw hearing as Gilberti Fired Dirk Weed three weeks prior? Who is this Sheriff Gee guy and why does his goons come each week to Gilberti's house, on video for trials, and threaten him, and cuff him in the front yard in front of neighbors, when he is on GPS? After his dad already was KILLED and found dead in Fort Myers! Isn't that enough? How much of a flight risk is Joe Gilberti? And how much of a flight risk are these folks who play with Clean Water at SWFWMD, FDEP, District 12 & 13, Governor Scott, Christ, and many more about 50 USA attorney know bidding on this and being blind copied by others.

Now Chris Shaw the Public defender disappears two day before the 2<sup>nd</sup> rescheduled trial, as Greenberg ran off and hid behind Israel the first time, after 72 days of lockdown with Sheriff Gee, with family members of Gilberti found dead, and nobody knows what happened to him for the first month! His two little kids and wife for 20 years in a panic with his family, without any report to the Armor facility in Miami! So the can cut the Coca-Cola Adam Putnam deal, and now the Mosaic deal, while we all get kids dying from Amoeba's , pay to fix CW Bill Young a terror attack, and Publix in Polk County, with Mosaic coordinate with Governor Scott and Obama the very day our US Certified mail shows up. Obama went to Orlando where Disney is while Scott worked Polk! Millions of Jobs could be on this pipeline with homes and development but instead we got this! Two big corporate closings in Florida for Mosaic and coca-cola with the Zionist fools we have on file.

DON'T YOU THINK OUR TAX PAID PROTECTORS OF THE LAW

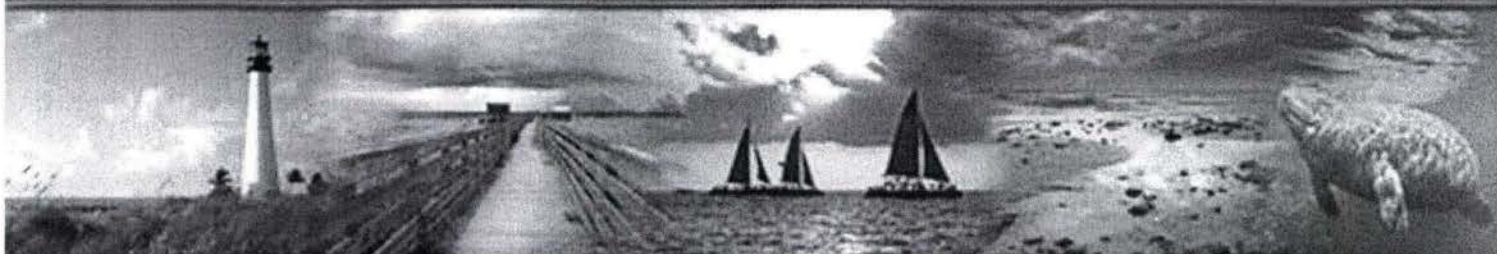

## **SECRETARY VINYARD, PARK STAFF PARTICPATE IN SPECIAL OLYMPICS LAW ENFORCEMENT TORCH RUN**

Florida Department of Environmental Protection sent this bulletin at 04/11/2013 04:10 PM EDT

## Florida Department of Environmental Protection

FOR IMMEDIATE RELEASE: April 11, 2013

CONTACT: DEP Press Office, 850.245.2112, [DEPNews@dep.state.fl.us](mailto:DEPNews@dep.state.fl.us)

### SECRETARY VINYARD, PARK STAFF PARTICIPATE IN SPECIAL OLYMPICS LAW ENFORCEMENT TORCH RUN

~Law Enforcement Torch Run draws 300 in Tallahassee~

Florida Park Service Director Donald Forgione carries the torch running with Governor Scott

**TALLAHASSEE** – Secretary Herschel Vinyard, Florida Park Service Director Donald Forgione and nine Florida Park Service employees participated in the Law Enforcement Torch Run for the Special Olympics today with Governor Rick Scott and Attorney General Pam Bondi.

The Florida Law Enforcement Torch Run is the signature annual event of the criminal justice community's year-round support of Special Olympics. Each year, more than 5,000 officers carry the "Flame of Hope" in a 1,500-mile relay through 66 counties in Florida.

"The Special Olympics is a terrific cause and I am excited to be participating in this event again," said DEP

Secretary Herschel T. Vinyard, Jr. "It is a special treat for me because I am going to get to run with some of the staff of our award-winning state parks lead by Donald Forgione."

During the race, the torch was passed from Governor Rick Scott to various representatives from participating law enforcement agencies as well as Forgione. More than 300 participants ran in the Tallahassee segment of the interstate torch relay, which culminated with a ceremony at the Historic Old Capitol that brought together the Special Olympic athletes and the run participants.

"The Florida Park Service is so proud to be part of this event," said Forgione. "The Florida state parks are for all people, including the heroic and courageous athletes that the Special Olympians are."

Ceremony attendees heard from several local and state officials including Governor Scott, Attorney General Pam Bondi, Tallahassee Mayor John Marks, as well as the President of the Special Olympics Florida Sherry Wheelock, Leon County Sheriff Larry Campbell and Tallahassee Police Department Chief Dennis Jones.

"The Special Olympics is a wonderful organization that brings athletes, families and communities together to celebrate the annual competitive games for children and adults with intellectual disabilities," said Bondi. "I appreciate DEP Secretary Herschel Vinyard and Florida State Park staff for showing their community support by participating in today's Law Enforcement Torch Run."

This event is an example of the community involvement Florida Park Service staff takes part in across the state. Community involvement is a critical component of promoting Florida's award-winning state parks, greenways and trails, which is one of Secretary Vinyard's top priorities.

We thank you for your consideration.

Assistant and Neighbors of Joe Gilberti

**Subject:** RE: Michelle Obama on Tap Water and Health - To Visit Daughtrey Ranch and see the Cleanest Water in the World hidden in Sorrysota - and bringing a Task force for Florida Leaders & Government Staff - CIVIL DUTY AS A LEADER AT THE WHITE HOUSE OR A HUMAN BEI

Pepsi .....all over Tampa and own Tropicana/Gatorade & Coca-Cola with Adam Putnam and Peace River Citrus games both didn't even visit the site or do a diligence and DENIED THE WATER, JOBS AND KIDS FUTURE! CHRIS SHAW ....ADD THIS TO THE FILE FOR RICO CASE AND SEE ARTICLE BELOW TO INSURE THE BACKERS OF THIS WATER CAMPAIGN ARE EXPOSED TO THE PEOPLE! THEY COULD HAVE AT LEAST VISITED THE SITE, DON'T YA THINK?

Public Service Commission/FCC/Senators and Leaders Blind Copied out of Florida/Obama Administration,

Chris Shaw – Public Defender .....Add this email to the Trial documents with the RICO files you added this summer to insure everyone in the Cyber case in District 13, Cops, Judges, Prosecutors, and Politicians is routed to the RICO Case 2011 CA 004029 NC in District 12. Now that Tonya Pitts is removed and Steve Stanley is added? Whom we fired, see prior emails, maybe after he removes it from Docket (added by Politicians to play with that Judge), Greenberg will end up there next?

Below is Michele Obama working toward our Ranch at 9438 Daughtrey Road, Sidell, Florida 32466, at Gilberti Spring on Sec 1, Twp 38, Rng 22 East, Sarasota, Florida.

*Maybe she should visit Florida at Daughtrey Ranch in Sarasota. 9438 Daughtrey Road, Sidell, FL. 32466. Bring her husband that needs help Politically and show America how to Lead with Gilberti Water Company at the Cleanest Water Source in the World! With trillions of gallons for all that will NEVER RUN OUT IN A MILLION YEARS! And do us a favor and*

*bring the US MARSHALL'S, Secret Service, FBI, Homeland Security with any Engineer or Water tester in the World and accomplish something for Obama's Presidency for the First time! A duh!*

## Michelle Obama to visit Wisconsin school to promote water

Associated Press

Students at Watertown High School will welcome first lady Michelle Obama at the launch of a push to get Americans to drink more water.

By Bill Glauber of the Journal Sentinel  
Sept. 12, 2013 5:00 a.m.

The dance team is ready. So is the drum line.

On Thursday afternoon, more than 1,500 students will gather at Watertown High School to welcome first lady Michelle Obama at the launch of a nationwide campaign to get Americans to drink more water.

"Who would not be interested in meeting any first lady of the United States?" said Watertown schools Superintendent Cassandra Schug. "I just think this is a once-in-a-lifetime opportunity for our students."

Obama, through her "Let's Move!" initiative, and the Partnership for a Healthier America are bringing together a coalition from industry, entertainment, media and government to get behind the campaign.

The tagline of the campaign is deceptively simple — Drink Up.

But backers of the campaign are clearly trying to thread a needle by promoting water without casting a negative light on other beverages, including soda and juice drinks.

They're also dealing with a political environment in which boosters of healthy initiatives are sometimes accused of fostering a "nanny state."

A release from Michelle Obama's office said that according to the Centers for Disease Control and Prevention, "More than 40% of Americans drink less than half of the recommended amount of water daily, and approximately one-fourth of children don't drink any water on any given day."

Sam Kass, the executive director of Let's Move!, said: "Our core messages are that drinking more water is the fastest and easiest choice that we can make every day. ...Water is the original energy drink. This is a really exciting, fun and very positive campaign that is really going to inspire people to drink more water."

Kass said the first lady and her team are excited to come to Watertown, using it as a symbol for other towns across the country.

Obama will be joined by actress Eva Longoria.

Lawrence Soler, president and CEO of the Partnership for a Healthier America, listed nearly two dozen water brands that have signed on to the initiative, as well as the American Beverage Association and the International Bottled Water Association. Municipal water services are also on board.

"Every participating company has agreed to only encourage people to drink water, not focus on what people should drink. Not even talk about why they feel their type of water is better than another," Soler said.

The campaign will be rolled out on online and on television, from the morning shows such as the "Today" show and "Good Morning America" to the late night broadcasts including the "The Tonight Show with Jay Leno" and the "Late Show with David Letterman."

Wis-Pak, a manufacturer of Pepsi-Cola and other soft drinks, is also on board. The firm employs 200 people at its Watertown bottling facility.

Barbara Parish, president of Wis-Pak, said the company is pleased that Obama chose Watertown to launch the initiative. Wis-Pak bottles Aquafina and has lines of flavored waters, juices and teas.

"Wis-Pak has been part of the Watertown community for over 40 years and we are proud of the jobs and economic contributions provided to the area over that period of time," she said in a statement.

Even the Rusty Nail, a local bar, was getting into the spirit of the event.

A sign outside the bar read: "Michelle and Eva, 2 for 1 water and Desperate Housewife Reruns. Noon to Close."

The other side of the sign read: "Save Water. Drink Beer."

**Subject:** Link to Boston Terror Attack with Governor Scott and FDEP Herhall Vinyard and our Leaders on Daughtrey Ranch - Add this to RICO in Sarasota 2011 CA 004029 NC - PSC case 02424-13 - and Cyberstalking case Hillborough case 12CM011299A & 13CM008278A

Chris Shaw/US Congress Blind Copied/The PEOPLE,

Add this below to the data needed: Videos of US Marshalls and neighbors and doctors coming in on case and Class actions:

- **Secretary Vinyard (an Attorney appointed by Governor Scott), head of Florida Department of Environmental Protection (Water) who was doing the jog fundraiser, with his local Police to help kids? Joe Gilberti, P.E. copied this link below the morning of April 15, 2013 to all the Government officials that should care about Water and more, on how Publix Headquarters are located in Polk county where Mosaic Fertilizer (largest in the World) has been for the last 100 Years, whose attorneys are the Fired attorneys who tried to steal it, Greenberg Traurig (largest attorneys in the World), attorneys for Coca-Cola and Mosaic.**

**Gilberti copied this link to hundreds of Government officials and the Whitehouse with a mass email addy**

(the Petition of Redress of Grievance) 5 hours prior to the Boston Terror attack! Three days later US Marshall show up surrounding our home, while I was at the Hillsborough Government Building with helicopters flying around, and... a Texas Fertilizer building blew up 74 homes in Texas.

They tried to set me up or this is one Big coincidence with the Cleanest Water in the World hidden in Sorrysota for 44 Years. And remember, the NY Twin towers was hit by pilots that practiced in Venice (Sarasota), just before the hit, while President Bush was teaching a childrens class that day in Sorrysota(Sarasota)!!

**THEY TRIED TO SET ME UP! NOW THE PEOPLE KNOW! GOOGLE: PUBLIC SERVICE COMMISSION 02424-13 AND SEE THE RICO PROOF, AS THEY ARE COMING FOR ALL OF THEM! NOW YOU KNOW WHY THE RECOUNT HAPPENED, NOW YOU KNOW WHY FLORIDA WAS SUCH A SWING STATE! WE ALL HAVE BEEN HAD BY ATTORNEY POLITICIANS! BACK TO CLINTON UNTIL TODAY! WATER AND FOOD CONTROL!**

**CLOSER TO THE HEART.....OF THE PROBLEM AND THE SOLUTION!**

**Subject:** PSC Complaint Open Investigation 02424-13 - FORWARD TO FEDERAL COMMUNICATIONS COMMISSION AND GOVERNMENTAL AFFAIRS BUREAU OF CONSUMER COMPLAINTS - FTF

Federal Communications Commission & Governmental Affairs Bureau of Consumer Complaints/Senators and Congressmen Blind copied outside of Florida/others,

Thank you for your contact.....we look forward to you visiting the Site and questioning many local Politicians and Staff involved to get the Clean Water Flowing and STOP Florida Terrorism with OPEN to the SKY Water supply from Tampa Bay Water and Peace River Manasota. John Kennedy of Tampa Bay Water has known and understands as an Engineer and should be available to show you how many time Mr. Gilberti notified Hillsborough county, PRMSWA, SWFWMD staff, and his Board over the year. And they still continue to build the CW Bill Fix!

See attached and below:

Chair of Public Service Commission/Chris Shaw/USA Leaders/Julian Holt/Governor Scott/Adam Putnam/The People,

Google: 02424-13 and see FPL and Senators involved on Public Service Investigation with Gilberti's Water and 1<sup>st</sup> Amendment with a Petition of Redress of Grievance. Texas involved? Mosaic involved, Power, Food and Energy involved? Water is the KEY! Just go watch a Mosaic Commercial and track their META DATA! See Motion that Judge Dominquez denies last year, screaming at Gilberti for no reason in court, then says under recording audio for RICO case with his prosecutor, "Its not the content of the emails" This is Tampa and Florida run by Zionist Israel companies like Mosaic and working with Coca-Cola and shareholders to Poison and create Terror attacks on Floridians, while hiding the Cleanest Water in the World for 44 Years with SWFWMD and other agencies.

TO HIDE A FARMER, A CASE IN DISTRICT 12 & 13, KILL GILBERTI'S FATHER WHO HAD THE DISKS, AND PLAY IN A SYRIA DESSERT MAKE IT EASY FOR HAGAN, HIGGINBOTHAM, GREENBERG, MOSAIC, COCA-COLA, JUDGES, COPS AND MORE TO HIDE ONE ENGINEER AND THE PEOPLE'S WATER AT DAUGHTREY RANCH.....WITH THE HELP OF C1 BANK AND WELLS FARGO WHO STEALS \$137K WITH SCOTT FREYRE AND HANDS 6 COUNTERFIET BILLS TO GILBERTI'S WIFE! SEE DATA AND PROOF ON PUBLIC SERVICE 1450 PAGE STIMULUS 02424-13 FOR THE RECORD.

You see, District 12 & 13 Work together with Greenberg Traurig and Mosaic with Adam Putnam and Governor Scott to schedule the court cases on the same day, so Gilberti and Daughtrey get robbed, as well as the PEOPLE so C1 Bank, Thomas Howze, Lee Pallardy, Judge Hall relatives, Kenny Harrison, Adam Putnam, Bush, Obama, and Governor Scott with Attorneys and current leaders play with LIVES, Jobs, and WATER!

October 17<sup>th</sup> 2013 was the big schedule so Gilberti cannot defend his deeds in Sarasota nor use phones to call attorneys, computers, or move the Water to the PEOPLE so Kewitt, Tampa Bay Water and Peace River Manasota with a list of developers, staff and more, playing a very dangerous game with OPEN TO THE SKY Reservoirs. We have Steve Stanley and Tonya Pitts, on the case in Sarasota ILLEGALLY by the Docket Clerks in Sarasota, with letters in writing from Tonya Pitts last week. So they just add Steve Stanley? Sarasota Case 2011 CA004029 NC with RICO!

This is a RICO crime from elected Officials from Tampa to Sarasota with their buddy attorneys and Judges, with Julian Holt's office and Mark Ober's office. All for Mosaic's big sell to an Iraq Mining firm! Wow!

**Subject:** RE: ATTORNEY OWENS WITHDRAWS FROM DAUGHTREY AND TONYA PITTS SHOWS UP? NOBODY SAID TONYA CAN COME IN CASE AND SEPT 3RD WAS A MOTION TO WITHDRAW AND AMEND - FOR RECORD ON CLERK AND RICO

Spano was terminated due to billing up \$9,000 dollars for one appearance and one deposition done totally wrong and without any real questions to protect C1 Bank Thomas Howze, and Lee Pallardy III, Tampa's leader with Scott Freyre and Greenberg attorney victims!

Then he plays the docket below by adding Tonya Pitts! She left the case early this year as she said she had no time and returned the money! How can District 12 Civil court keep playing with docket. For example, this was listed as a Commercial foreclosure, then Pratt tried to get a partial summary on leases and more, lost, then docket turns to Home Foreclosure, which case law says you cannot have both on one Claim!

THE GOOD OLE BOYS ARE GOING DOWN! 50 STATES BIDDING THIS DEAL, AND WE WILL BUDGET \$1 MILLION FOR RICO CASE ABOUT TO OPEN TO TAMPA BAY WATER, PEACE RIVER MANASOTA, AND ALL THE COMMISSIONERS AND STAFF IN BETWEEN, AND OUR FRIENDS IN DISTRICT 12 & 13.....FOR THE WORLD AND THE USA TO SEE!

**CONSTITUTION MIXED WITH CLEANEST WATER IN THE WORLD, JOBS, AND GOOD HEALTH FOR OUR KIDS VS. BS ATTORNEYS, COPS, MEDIA AND LEADERS!**

This is the depth of corruption, as we all are watching the momentums on the Wall Street stocks with Disney, Coca-Cola and Mosaic as these hearings go by. They made up their money a long time ago! But they still want to steal it.

Should of done a Survey!.....lol.....Now we come in and counterclaim EVERYONE and this case goes for 10 years!

For the Record!

Assistant for the THE PEOPLE for Clean Water and councils of Gilberti Water Company

Bcc|49 States of leaders

**Subject:** OBAMA AND FLORIDA LEADERS TAKE CONTITUION 1ST AMENDMENT TO HIDE WATER AND JOBS IN USA - JUDGE ORDER

The Tampa Police come to his house and handcuff him each week in front of neighbors. See Order taking 1<sup>st</sup> Amendment rights to hide it while C1 Bank and Wells Fargo try to steal it with Trafficantes and Commissioners of Florida and Governor Scott and Obama! For the Bush family! And the rest of our US Congress and Senate and Media hiding it!

1. Cant see little league sports with his two young sons?
2. Cant take kids to school to insure they are safe at bus stop?
3. Can go to store?
4. Can go out of residence?

All for hiding clean water and for attorneys for Mosaic and Coca-Cola and Votes for Politicians?

THE TAKE THE CONSTITUION FOR POWER OF WATER CONTROL FROM GILBERTI, AND KILL HIS DAD AND SURROUND HIS HOME FOR FLORIDA DEVELOPERS AND LEADERS WHO ARE CHEATING AMERICA!

LENNAR KNOWS? THEY MET HIM AT CRACKER BARREL WITH FILES FOR NORTH PORT 6 MONTHS AGO?

**Subject:** JOE GILBERTI WATER - IN TAMPA YOU ARE GUILTY UNTIL PROVEN INNOCENT ON THE INTERNET WHILE  
JUDGES, COPS AND LEADERS DESTROY JOBS, MANATEES, AND SELL MEDICINE IN THE NAME OF 'WATER MATTERS' AT  
SWFWMD - FOR THE RECORD ROSS MORTON

**THIS IS HOW OUR COUNTRY RUNS NOW UNDER COMMUNISTIC AND MILITARY MEDIA  
WITH CONSTANT BAD NEWS CONTROL AND INPUT!**

**SHERIFF GEE AND MARK OBER OF HILLSBOROUGH COUNTY AND THEIR  
COMMISSIONERS AND STAFF.....PUT A MUG SHOT ON THE WEB THE DAY OF AN ARREST  
WHEN US MARSHALLS PLAYED A GAME WITH FLORIDA LEADERS.....**

**TAMPA'S AMERICA NOW YOUR GUILTY UNTIL PROVEN INNOCENT TO HIDE THE  
CLEANEST WATER IN FLORIDA, WHILE JUDGES, PUBLIC DEFENDORS, COPS, AND  
GOVERNORS, SENATORS, OBAMA AND LOCAL COMMISSIONERS AND LEADERS, PLAY  
DUMB ON TV AND THE TAMPA TIMES OR FOX 13 WHO HAVE ALL THE FILES FOR A YEAR!**

THE INTERNET IS STOPPING JOBS! MILLIONS OF JOBS WITH TAMPA LEADERS AND MEDIA! FOR THE ENTIRE UNITED STATES AND KILLING 20,000 KIDS PER DAY WITH BLUE GOLD WATER WARS.....

ITS ALL ABOUT TO OPEN UP AND THIS SERVICE NEEDS TO BE CHECKED! WE THE PEOPLE ARE INNOCENT UNTIL PROVEN GUILTY.....ATTORNEYS ARE THE PROBLEM .....ESPECIALLY THE LEADERS WHO HAVE BAR LICENSES! THAT'S SHOULD BE OUTLAWED IN AMERICA! NO ATTORNEY POLITICIANS ANYMORE!

FOR THE RECORD ON RICO CASE 2011 CA 004029 NC. THIS ARREST.ORG COMPANY NEEDS TO READ THE CONSTITUTION!

BCC:\49 OTHER STATES OF MEDIA AND COUNCILS!

## Comments

- #1 RED TIDE

**Tampa Police HIDE FRESH water and KILL constituion** The Tampa police officers who did this work for Trafficante mobsters and KILL our constitution! They will be in the RICO Trial with SWFWMD and MOSIAC next month and can visit all their criminals they put away. All friends with Scott and Jason Freyre who are Trafficante family folks cheating on FDOT dirt and Bridges and tried to Steal JOe Gilberti's land with Greenberg and Mosaic to poison fish and People, so they can divorce their wives and go for young strippers at Doll House now! Cubans that make CUBANs look bad!! They want to be from Miami, go there and rag Tampa and come back here and make Porn with Hulk Hogan their family friend with GRECO in Tampa!

11/25/2012 - 23:55

- #2 Billy

It is obvious that the police in this situation did a favor for the Trafficante's. But the question is why??? The Chief of Police better look into this one, or there could be some serious fallout. Why would Mr. Gilberti be arrested for these charges??? What type of validity is there in this case??? Mr. Gilberti has some powerful friends that will be more than happy to create a storm cloud over the Hillsborough County Police Dept. and open it up for some serious investigation regarding the Trafficante's. The story has made its way to the Sun Sentinel and the Miami Herald where Mr. Gilberti has some media connections.

04/16/2013 - 14:59

- #3 Captain Sum Ting Wong

We going down!!!

07/16/2013 - 12:25

- #4 just me

Joe Gilberti is a piece of !@#\$% and I hope that he lands his !@#\$% in prison! He is psychotic and needs to be supervised at all times.

08/29/2013 - 18:41

## GILBERTI WATER COMPANY

CLEANEST AND MOST ABUNDANT SPRING IN THE WORLD

### FLORIDA'S FOUNTAIN OF YOUTH

HIDDEN IN SARASOTA FLORIDA FOR 44 YEARS!

#### WHO'S WATER IS IT?

- *THE PEOPLE OF FLORIDA PER THE FLORIDA WATER RESOURCE ACT*
- *HELD IN THE SUPREME COURT OF FLORIDA*
- *ACCESS AND PLANS ARE SUBMITTED TO FDEP, FDOH, AND FDOT*

#### WHAT DOES IT DO?

- *CREATES OVER 1,000,000 FLORIDA CONSTRUCTION AND HOUSING JOBS IN THE NEXT SIX MONTHS*
- *CREATES OVER 10,000,000 USA INDIRECT JOBS WITH SUPPLIES AND SERVICES TO FLORIDA*
- *PAYS FOR NATIONAL HEALTH CARE FROM BULK WATER SHIPPING TO THE WORLD FROM FLORIDA PORTS*
- *HOME VALUES WITH WATER SOAR TO HIGHEST IN THE WORLD*
- *BUSINESSES THRIVE FROM HOUSING BOOM*

#### WHAT IS IT AND HOW DOES IT GET TO YOU?

- *250 MILE SPRING WATER 84-INCH TRANSMISSION PIPE FROM TAMPA TO PORT EVERGLADES DOWN I-75*
- *TRILLIONS OF GALLONS OF ANTIOXIDANT SPRING WATER TO NEW AND EXISTING HOMES*
- *LARGEST CANCER ANTIOXIDANT EVER SEEN ON THE PLANET*
- *PERMITS SUBMITTED OVER A YEAR AGO AND NO GOVERNMENT RESPONSE? CALL THEM NOW!*

#### HEALTH AND ENVIRONMENTAL FACTORS!

- *ELIMINATES SINK HOLES FROM CONNECTING TO TRANSMISSION AND REMOVING SHALLOW WELLS*
- *REDUCES RED TIDE BY LEAVING WATER IN RIVERS FROM CURRENT WATER TREATMENT PLANTS WITHDRAWS*
- *ELIMINATES RESERVOIR WATER SUPPLY OPEN TO THE SKY SUBJECT TO PESTICIDE CONTAMINATION OR POTENTIAL TERROR ATTACK FROM LOW FLYING PLANES OR DRONES*
- *LOWERS COST OF WATER SUPPLY BY REMOVING CHEMICALS AND EXPENSIVE PROCESSING*
- *WATER CONTAINS pH LEVELS ABOVE CANCER CELL MITOSIS OF 7.3 AND HAS NO METALS AND TOXINS*
- *REDUCES HEALTH COSTS FROM ALKALINE BODY AND LOWERS DISEASE*
- *LIVE LONGER AND LIVE HAPPIER WITH GLACIER WATER IN THE SUN AND JOBS ALL OVER!*

### STOP FLORIDA TERRORISM WITH OPEN TO THE SKY RESERVOIRS PAID BY TAXPAYERS!

REAL ESTATE BOOM NEVER SEEN IN HISTORY FROM TAMPA TO SOUTH FLORIDA

CALL YOUR GOVERNOR, SENATORS, CONGRESSMAN AND COMMISSIONER WHO HAS KNOWN FOR YEARS!

**RE: GILBERTI WATER COMPANY (GWC) – BOTTLING OPPORTUNITY VENTURE  
LARGEST WATER ANTIOXIDANT SPRING IN THE WORLD – OVER 250 MGD  
Gilberti-Daughtrey 2500 Acre Ranch  
Sarasota, Florida**

Dear Walt Disney World, Publix Supermarket, Pepsi Cola-Next-Globe, and Coca-Cola:

Please see the cleanest Spring Water source ever seen on Planet Earth located in Sarasota, Florida. This letter and enclosed disk with water results and higher quality results underway due to mixing aquifers with the spring down deep is an opportunity for your firm to sell the highest quality water or soft drinks

to the World. We are sending the same to every bottling and Grocery Store and Oil Company there is on the Planet, so don't hesitate or you may miss out.

The spring is only a few miles from the recent \$3 Billion dollar citrus deal with Adam Putnam's family and Peace River Citrus (whose President is the ex-Coca-Cola President in South America!), coordinated with Adam Putnam the Agricultural Commissioner for 25,000 acres of Citrus Groves.

The spring water testing results are so incredibly clean and abundant, as a University of Florida native born Floridian, Civil and Mechanical Professional Engineer (PE#56079) have submitted permits and plans for a 250 mile spring water transmission main project that will increase Florida real estate to Number One in the World, and control all major developers in West Florida, while bottling from the Ports of Florida. This spring water source together with a huge Constitutional First Amendment effort to disclose this hidden spring for 44 years by Florida leaders and developers, put me in Jail at Hillsborough County-Tampa for a First Amendment game of Cyberstalking for Greenberg Traurig attorneys I fired in December 2011 for trying to steal it with C1 Bank and Mosaic Mining Fertilizer Company. The three so called victims are high powered manipulative attorneys for said corporations and have been loafing Peace River for years from Tampa with Sierra and ACOE attorneys to create a Terror attack with open to the sky Reservoirs; in Tampa, Manatee and Desoto County, such as but not limited to RV Griffin Reservoir, CW Bill Young Reservoir and Everett Reservoir. I mass copied Lisa Jackson of the EPA, SWFWMD staff, White House and Governor Scott in an attempt to Petition the Government for a Redress of Grievance, as our Four Fathers intended almost 250 years ago. These agencies and staff leaders in Florida and abroad, and all the government authorities that should do something for The PEOPLE, simply set me up the week of the Boston Terror attack, while they try to foreclose on the land in Sarasota to steal the Spring for C1 Bank, Thomas Howze, Lee Pallardy and potentially local Judges in Desoto, to be shown in a 10-Year RICO case.

My poor father another civil engineer who raised me in South Florida, who built bridges like Palmetto expressway and Sunday's Marina, Vizcaya and more in Miami, of 63 years of age, died from stress while I am in Jail, hidden away and with no family communication, from a sudden raised in a misdemeanor bond from \$500 dollars to \$300,000 dollars by Mark Ober's partner in business, Judge Dominquez. This crooked Judge with Greenberg attorneys raised the bond then recuses himself for his Greenberg Traurig friends, and some new grad Prosecutor who is Middle Eastern and claims I was running from the US Marshall's the day of the Boston Terror Attack? I have copied the cops and the White house and her the whole time? What happen to America in Tampa this past election? One Engineer with this spring can beat all these fools that think they can hide and steal a spring with two terror attacks surrounding my lands with open to the sky Water supply with low flying Mosquito planes spraying poisons each night. The reservoir creates the mosquitos! That's how crooked the local engineers are that want our retirees to buy medicine in Sarasota, Charlotte and North Port!

Last March 2013 my Oil drillers showed up from South Florida explaining how this is the cleanest water in the World! That's why a sudden raise of bond came and who knows maybe the Boston Terror attack was a set up too?

I now have a honest Judge, since Dominquez of Tampa ran off, in Judge Conrad who lowered my bond after my dad's death, but Mark Ober, Hillsborough County's State attorney and his new very corrupt new grad prosecutor Sheila Sohgovia (Case #12CM011299A) only let me out 11 hours, to drive down to Fort Myers Beach, to my father's home and funeral on Memorial, with about one hour of quality time, to torture me more, with a GPS! As if I am some kind of flight risk? The Jail and Doctors who tortured me with nurses and prison guards never reported to Armor in Miami, the third party contractors who is supposed to manage lockdown inmates, keeping me in lockdown hidden way, never letting my wife of 25 years and family know what happened to me for weeks. My family, friends and I plan to open up a Civil rights case against these terrorists, with the Water RICO case filed last June 2012 in Sarasota, case number 2011 CA 004029 NC, that will show the entire World the depth of Florida corruption in Tampa.

Florida is a huge desalinization plant as the ocean around the Peninsula dumps rain year round in a sandy filtering swamp. My enclosed business plans, that Duke Energy already has and wants to team up, can satisfy National Debt in one day with amortized antioxidant bulk and bottled water over a 10-20 year span, while paying for National Health care and ending Water wars in Florida and around the World.

See enclosed plans herewith to create over One Million Florida construction and housing jobs and over 10 Million US indirect jobs along I-75 from Tampa to Port Everglades, Broward County. Everyone will move to Florida for work and sunshine with a Cancer antioxidant to their new homes. Homes will increase higher than New York City with this Water. Water affects everything! All you need is the Constitution and an Engineer and Farmer with Honor and a handshake and all the Politicians and attorneys are done. Especially the attorney Politicians we have on our lists that are caught red handed.

Please contact us soon if you wish to participate. More recent reading and pump tests are about to be performed and a show on American Hog Hunters as one co-star is on our land and friends with the Daughtreys helping our cause. It's funny how God finds a way to make the water flow to The PEOPLE. Honor and a handshake from a Farmer and an Engineer from Florida did it. Hope you consider this great opportunity to lead the World in change America back to what it used to be when 1<sup>st</sup> Amendments governed over Cyberstalking games to hide quality people and quality water.

Sincerely,

*Joe Gilberti*

Office of the State Attorney  
Attention Sheila Sanghvi  
419 N. Pierce Street  
Tampa, FL 33602

**RE: JOSEPH GILBERTI; 12-CM-011299**

Ms. Sheila Sanghvi,

I have made multiple requests for the discovery, starting on September 25, 2012. As of today, I have not heard from you or your office. I am particularly concerned with this case because of the voluminous nature of the discovery, and the fact that the current offer entails incarceration. At this point, my client, and myself have no information on the basis for these criminal charges. Further, the next court date is on October 25, 2012 (less than two weeks away).

Please contact me and let me know how and when I can get the discovery. Otherwise, I will have to file a motion to compel. I hope to hear from you soon, and I'm optimistic that this can be worked out without the necessity for litigation on the matter.

Sincerely,

**William B. Wynne, Esq.**

**THE MOSAIC COMPANY ENTERS INTO SHAREHOLDERS' AGREEMENT  
WITH MA'ADEN AND SABIC**

***Companies on track to construct 3.5 million tonne phosphate operation***

**PLYMOUTH, Minn., August 5, 2013** – The Mosaic Company (NYSE: MOS) today announced that it has entered into a Shareholders' Agreement with Saudi Arabian Mining Company (Ma'aden) and Saudi Basic Industries Corporation (SABIC) to participate in integrated phosphate production facilities in the Kingdom of Saudi Arabia. The companies have been working toward the agreement since a Heads of Agreement was signed in March.

Ma'aden, Mosaic and SABIC will own 60, 25 and 15 percent of the joint venture, respectively.

The estimated \$7 billion greenfield project, to be known as Wa'ad Al Shamal, or Northern Promise, Phosphate Project, will be built in the northern region of Saudi Arabia at Wa'ad Al-Shammal Minerals Industrial City, and in Ras Al Khair Minerals Industrial City which is located on the east coast of Saudi Arabia. The highly cost-efficient project is expected to have a production capacity of 3.5 million tonnes of finished phosphate per year. Operations are expected to commence in late 2016.

Under the terms of the agreement, Mosaic will contribute expertise to the design, construction and operations of the new facilities and acquire a 25 percent ownership stake. In connection with its equity share, Mosaic will market approximately 25 percent of the joint venture's product, including phosphate fertilizer and animal feed. Subject to final financing terms, Mosaic's cash investment is expected to be up to \$1 billion, funded over a four-year period beginning in 2013.

"We are pleased with the progress on our joint venture with Ma'aden and SABIC," said Mosaic President and Chief Executive Officer Jim Prokopanko. "This cost-effective project will allow Mosaic to extend our ability to serve key growing agricultural markets. Our growing global reach further enables us to fulfill

Mosaic's mission, to help the world grow the food it needs, while delivering compelling shareholder value."

### **About The Mosaic Company**

The Mosaic Company is one of the world's leading producers and marketers of concentrated phosphate and potash crop nutrients. Mosaic is a single source provider of phosphate and potash fertilizers and feed ingredients for the global agriculture industry. More information on the Company is available at [www.mosaicco.com](http://www.mosaicco.com).

### **About Ma'aden**

Ma'aden, the Saudi Arabian Mining Company, is a leading mining and metals company in the Kingdom of Saudi Arabia, with a diverse portfolio of mineral assets at various stages of development including exploration, development and production. Ma'aden has a broad commodity focus spanning gold, phosphate, aluminium, magnesia, low-grade bauxite and industrial minerals, and is continually assessing opportunities to enter into new commodities that demonstrate strong long-term fundamentals and opportunities for growth. Ma'aden's objective is to become a world class diversified mining and minerals company, and to enhance overall value for its shareholders. Ma'aden's mission is to be a profitable, publicly owned, international mining company, while maintaining the utmost concern for human resources, health, safety, environmental and social issues. For more information please visit [www.maaden.com.sa](http://www.maaden.com.sa).

### **About SABIC**

Ranked among the world's largest petrochemicals manufacturers, SABIC is a public company based in Riyadh, Saudi Arabia. 70% of the Company's shares are owned by the Saudi Arabian government, with the remaining 30% held by private investors in Saudi Arabia and other countries of the Gulf Cooperation Council.

SABIC began in 1976 by Royal decree. Today, the company has operations in over 40 countries with a global workforce of over 40,000 talented individuals.

*This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results. Such statements are based upon the current beliefs and expectations of The Mosaic Company's management and are subject to significant risks and uncertainties. These risks and uncertainties include but are not limited to the predictability and volatility of, and customer expectations about, agriculture, fertilizer, raw material, energy and transportation markets that are subject to competitive and other pressures and economic and credit market*

*conditions; the level of inventories in the distribution channels for crop nutrients; changes in foreign currency and exchange rates; international trade risks; changes in government policy; changes in environmental and other governmental regulation, including greenhouse gas regulation, implementation of numeric water quality standards for the discharge of nutrients into Florida waterways or possible efforts to reduce the flow of excess nutrients into the Mississippi River basin or the Gulf of Mexico; further developments in judicial or administrative proceedings, or complaints that Mosaic's operations are adversely impacting nearby business operations or properties; difficulties or delays in receiving, increased costs of or challenges to necessary governmental permits or approvals or increased financial assurance requirements; resolution of global tax audit activity; the effectiveness of the Company's processes for managing its strategic priorities; the ability of the Wa'ad Al Shamal Phosphate Project to obtain project financing in acceptable amounts and upon acceptable terms, the future success of current plans for the project and any future changes in those plans; adverse weather conditions affecting operations in Central Florida or the Mississippi River basin or the Gulf Coast of the United States, and including potential hurricanes, excess rainfall or drought; actual costs of various items differing from management's current estimates, including, among others, asset retirement, environmental remediation, reclamation or other environmental regulation, or Canadian resources taxes and royalties; brine inflows at Mosaic's Esterhazy, Saskatchewan potash mine or other underground mines; other accidents and disruptions involving Mosaic's operations, including potential mine fires, floods, explosions, seismic events or releases of hazardous or volatile chemicals, as well as other risks and uncertainties reported from time to time in The Mosaic Company's reports filed with the Securities and Exchange Commission. Actual results may differ from those set forth in the forward-looking statements.*

**Subject:** Gary Hart of Publix Corp not interested in Gilbert Spring Clean Water proven Cleanest in World but Sweetbay investors do - And FDEP Hershall Vinyard below and the day we sent a letter to Publix Governor Scott was in Polk the Next Day - FOR THE RECORD

**Attachments:** Certified mail to FDEP Fort Myers-Coca Cola-Disney-Pepsi-Publix 001.jpg; Pepsi & Coca-Cola Ignore Cleanest Water in World, Jobs and Kids 002.jpg; Pepsi & Coca-Cola Ignore Cleanest Water in World, Jobs and Kids 001.jpg; Warning.txt; GILBERTI WATER COMPANY FLYER-2.pdf; GWC - Bottling letters to Disney-Publix-Pepsi-Coca Cola.pdf; Letter to SAO Discovery demand (Gilberti).pdf; Mosaic Mining sells to Middle East Firm 8-5-2013.pdf

Gary Hart (Publix Supermarkets),

Pursuant to you phone call yesterday with Gilberti staff, you will not respond and do not care about this clean water to help Kids and Publix revenues for the Cleanest Water in the World, and the fact that Governor Scott visited your Corp headquarters the very day you received this letter attached.

We purposely put Publix, Pepsi, Coca-Cola all on one letter with Disney as we were told by Scott Freyre and Phillip Glassman with Debartolo that Sweet Bay was getting location replaced by Publix with Governor Scott, about 18 months ago. The interesting part for the Secret Service and FBI to consider, is Gilberti emailed this article below with Hershall Vinyard (attorney and head of FDEP) was in this jog fund raiser for Kids, with a PUBLIX banner, which was emailed out 7 Hours before the Boston TERROR ATTACK on April 15<sup>th</sup> 2013! Then a Fertilzer plant (And MOSIAIC is FERTILIZER), blows up in Texas where Bush Family resides the day Gilberti was supposivly running from the US Marshalls per this New Grad prosecutor in Judge Dominquez's court room, Sheila Sangvhi, a Middle East person working with Greenberg Traurig who works with Coca-Cola and is chief council for Mosaic!

Who didn't show up for Trial 3 months ago as they had to go to ISRAEL, who owns Mosaic and just sold to a Saudi Arabian mining firm when we have this OPEN to the Sky Water supply in a SWAMP with low flying mosquito planes and drones attack potential, with Obama turning off Air control towers after a Monsanto seed (used to be Agent Orange!) contract was signed last Easter!

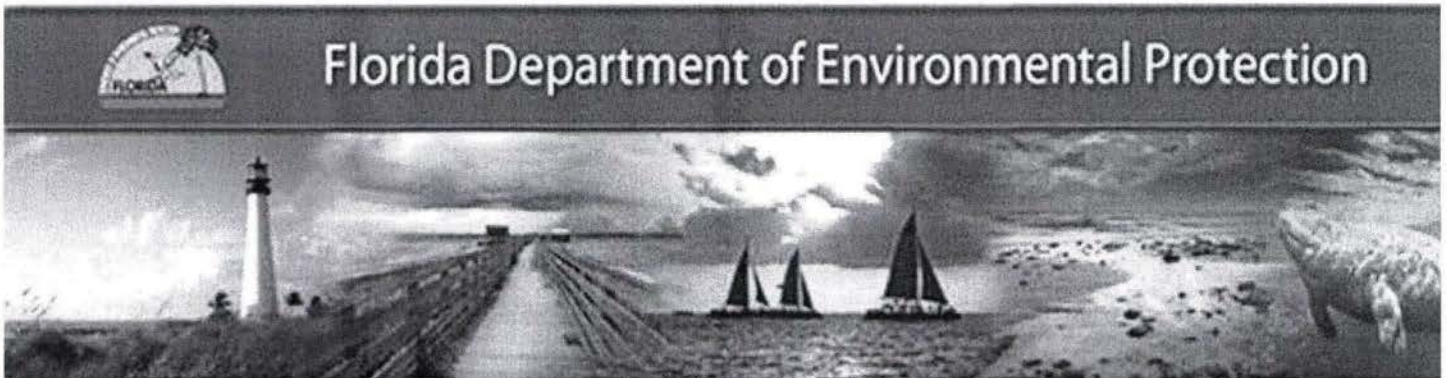

Seem to me, just for finding the Cleanest Water in the World, considering the Cyberstalking charge victims are Greenberg attorneys Gilberti Fired, who directly work with these CEO's of these large corporations, and the Public defender disappeared like Gilberti's Water Treatment plant engineer who did half the plans, Rob Stampe (attached ducking out the day our Oil guys showed up Jim Murray of Amps Well testing), and 10 days prior to the Boston Terror attack. With Dirk Weed stating the Secret Service (Under Oath in front of Judge Conrad who replaced Judge Dominquez, who recused himself after he raised a misdemeanor from \$500 to \$300,000 on April 15<sup>th</sup>!!! Then leaves!), when it seems the Secret Service could have just come over to Gilberti's home!

Why would the Secret Service want Gilberti scheduled in a little misdeameanor Dirk Weed Withdraw hearing as Gilberti Fired Dirk Weed three weeks prior? Who is this Sheriff Gee guy and why does his goons come each week to Gilberti's house, on video for trials, and threaten him, and cuff him in the front yard in front of neighbors, when he is on GPS? After his dad already was KILLED and found dead in Fort Myers! Isn't that enough? How much of a flight risk is Joe Gilberti? And how much of a flight risk are these folks who play with Clean Water at SWFWMD, FDEP, District 12 & 13, Governor Scott, Christ, and many more about 50 USA attorney know bidding on this and being blind copied by others.

Now Chris Shaw the Public defender disappears two day before the 2<sup>nd</sup> rescheduled trial, as Greenberg ran off and hid behind Israel the first time, after 72 days of lockdown with Sheriff Gee, with family members of Gilberti found dead, and nobody knows what happened to him for the first month! His two little kids and wife for 20 years in a panic with his family, without any report to the Armor facility in Miami! So the can cut the Coca-Cola Adam Putnam deal, and now the Mosaic deal, while we all get kids dying from Amoeba's , pay to fix CW Bill Young a terror attack, and Publix in Polk County, with Mosaic coordinate with Governor Scott and Obama the very day our US Certified mail shows up. Obama went to Orlando where Disney is while Scott worked Polk! Millions of Jobs could be on this pipeline with homes and development but instead we got this! Two big corporate closings in Florida for Mosaic and coca-cola with the Zionist fools we have on file.

DON'T YOU THINK OUR TAX PAID PROTECTORS OF THE LAW

## **SECRETARY VINYARD, PARK STAFF PARTICPATE IN SPECIAL OLYMPICS LAW ENFORCEMENT TORCH RUN**

Florida Department of Environmental Protection sent this bulletin at 04/11/2013 04:10 PM EDT

## Florida Department of Environmental Protection

FOR IMMEDIATE RELEASE: April 11, 2013

CONTACT: DEP Press Office, 850.245.2112, [DEPNews@dep.state.fl.us](mailto:DEPNews@dep.state.fl.us)

### SECRETARY VINYARD, PARK STAFF PARTICIPATE IN SPECIAL OLYMPICS LAW ENFORCEMENT TORCH RUN

~Law Enforcement Torch Run draws 300 in Tallahassee~

Florida Park Service Director Donald Forgione carries the torch running with Governor Scott

**TALLAHASSEE** – Secretary Herschel Vinyard, Florida Park Service Director Donald Forgione and nine Florida Park Service employees participated in the Law Enforcement Torch Run for the Special Olympics today with Governor Rick Scott and Attorney General Pam Bondi.

The Florida Law Enforcement Torch Run is the signature annual event of the criminal justice community's year-round support of Special Olympics. Each year, more than 5,000 officers carry the "Flame of Hope" in a 1,500-mile relay through 66 counties in Florida.

"The Special Olympics is a terrific cause and I am excited to be participating in this event," said DEP

Secretary Herschel T. Vinyard, Jr. "It is a special treat for me because I am going to get to run with some of the staff of our award-winning state parks lead by Donald Forgione."

During the race, the torch was passed from Governor Rick Scott to various representatives from participating law enforcement agencies as well as Forgione. More than 300 participants ran in the Tallahassee segment of the interstate torch relay, which culminated with a ceremony at the Historic Old Capitol that brought together the Special Olympic athletes and the run participants.

"The Florida Park Service is so proud to be part of this event," said Forgione. "The Florida state parks are for all people, including the heroic and courageous athletes that the Special Olympians are."

Ceremony attendees heard from several local and state officials including Governor Scott, Attorney General Pam Bondi, Tallahassee Mayor John Marks, as well as the President of the Special Olympics Florida Sherry Wheelock, Leon County Sheriff Larry Campbell and Tallahassee Police Department Chief Dennis Jones.

"The Special Olympics is a wonderful organization that brings athletes, families and communities together to celebrate the *annual competitive games for children and adults with intellectual disabilities*," said Bondi. "I appreciate DEP Secretary Herschel Vinyard and Florida State Park staff for showing their community support by participating in today's Law Enforcement Torch Run."

This event is an example of the community involvement Florida Park Service staff takes part in across the state. Community involvement is a critical component of promoting Florida's award-winning state parks, greenways and trails, which is one of Secretary Vinyard's top priorities.

We thank you for your consideration.

Assistant and Neighbors of Joe Gilberti

**Subject:** RE: Michelle Obama on Tap Water and Health - To Visit Daughtrey Ranch and see the Cleanest Water in the World hidden in Sorrysota - and bringing a Task force for Florida Leaders & Government Staff - CIVIL DUTY AS A LEADER AT THE WHITE HOUSE OR A HUMAN BEI

Pepsi .....all over Tampa and own Tropicana/Gatorade & Coca-Cola with Adam Putnam and Peace River Citrus games both didn't even visit the site or do a diligence and DENIED THE WATER, JOBS AND KIDS FUTURE! CHRIS SHAW ....ADD THIS TO THE FILE FOR RICO CASE AND SEE ARTICLE BELOW TO INSURE THE BACKERS OF THIS WATER CAMPAIGN ARE EXPOSED TO THE PEOPLE! THEY COULD HAVE AT LEAST VISITED THE SITE, DON'T YA THINK?

Public Service Commission/FCC/Senators and Leaders Blind Copied out of Florida/Obama Administration,

Chris Shaw – Public Defender .....Add this email to the Trial documents with the RICO files you added this summer to insure everyone in the Cyber case in District 13, Cops, Judges, Prosecutors, and Politicians is routed to the RICO Case 2011 CA 004029 NC in District 12. Now that Tonya Pitts is removed and Steve Stanley is added? Whom we fired, see prior emails, maybe after he removes it from Docket (added by Politicians to play with that Judge), Greenberg will end up there next?

Below is Michele Obama working toward our Ranch at 9438 Daughtrey Road, Sidell, Florida 32466, at Gilberti Spring on Sec 1, Twp 38, Rng 22 East, Sarasota, Florida.

*Maybe she should visit Florida at Daughtrey Ranch in Sarasota. 9438 Daughtrey Road, Sidell, FL. 32466. Bring her husband that needs help Politically and show America how to Lead with Gilberti Water Company at the Cleanest Water Source in the World! With trillions of gallons for all that will NEVER RUN OUT IN A MILLION YEARS! And do us a favor and*

*bring the US MARSHALL'S, Secret Service, FBI, Homeland Security with any Engineer or Water tester in the World and accomplish something for Obama's Presidency for the First time! A duh!*

## Michelle Obama to visit Wisconsin school to promote water

Associated Press

Students at Watertown High School will welcome first lady Michelle Obama at the launch of a push to get Americans to drink more water.

By Bill Glauber of the Journal Sentinel  
Sept. 12, 2013 5:00 a.m.

Associated Press: Michelle Obama will visit Watertown High School in Wisconsin on Sept. 12 to promote drinking more water. The first lady will be joined by her husband, Barack Obama, and their two daughters, Malia and Sasha. The visit is part of a nationwide campaign to encourage Americans to drink more water.

The dance team is ready. So is the drum line.

On Thursday afternoon, more than 1,500 students will gather at Watertown High School to welcome first lady Michelle Obama at the launch of a nationwide campaign to get Americans to drink more water.

"Who would not be interested in meeting any first lady of the United States?" said Watertown schools Superintendent Cassandra Schug. "I just think this is a once-in-a-lifetime opportunity for our students."

Obama, through her "Let's Move!" initiative, and the Partnership for a Healthier America are bringing together a coalition from industry, entertainment, media and government to get behind the campaign.

The tagline of the campaign is deceptively simple — Drink Up.

But backers of the campaign are clearly trying to thread a needle by promoting water without casting a negative light on other beverages, including soda and juice drinks.

They're also dealing with a political environment in which boosters of healthy initiatives are sometimes accused of fostering a "nanny state."

A release from Michelle Obama's office said that according to the Centers for Disease Control and Prevention, "More than 40% of Americans drink less than half of the recommended amount of water daily, and approximately one-fourth of children don't drink any water on any given day."

Sam Kass, the executive director of Let's Move!, said: "Our core messages are that drinking more water is the fastest and easiest choice that we can make every day. ...Water is the original energy drink. This is a really exciting, fun and very positive campaign that is really going to inspire people to drink more water."

Kass said the first lady and her team are excited to come to Watertown, using it as a symbol for other towns across the country.

Obama will be joined by actress Eva Longoria.

Lawrence Soler, president and CEO of the Partnership for a Healthier America, listed nearly two dozen water brands that have signed on to the initiative, as well as the American Beverage Association and the International Bottled Water Association. Municipal water services are also on board.

"Every participating company has agreed to only encourage people to drink water, not focus on what people should drink. Not even talk about why they feel their type of water is better than another," Soler said.

The campaign will be rolled out on online and on television, from the morning shows such as the "Today" show and "Good Morning America" to the late night broadcasts including the "The Tonight Show with Jay Leno" and the "Late Show with David Letterman."

Wis-Pak, a manufacturer of Pepsi-Cola and other soft drinks, is also on board. The firm employs 200 people at its Watertown bottling facility.

Barbara Parish, president of Wis-Pak, said the company is pleased that Obama chose Watertown to launch the initiative. Wis-Pak bottles Aquafina and has lines of flavored waters, juices and teas.

"Wis-Pak has been part of the Watertown community for over 40 years and we are proud of the jobs and economic contributions provided to the area over that period of time," she said in a statement.

Even the Rusty Nail, a local bar, was getting into the spirit of the event.

A sign outside the bar read: "Michelle and Eva, 2 for 1 water and Desperate Housewife Reruns. Noon to Close."

The other side of the sign read: "Save Water. Drink Beer."

**Subject:** Link to Boston Terror Attack with Governor Scott and FDEP Herhall Vinyard and our Leaders on Daughtrey Ranch - Add this to RICO in Sarasota 2011 CA 004029 NC - PSC case 02424-13 - and Cyberstalking case Hillborough case 12CM011299A & 13CM008278A

Chris Shaw/US Congress Blind Copied/The PEOPLE,

Add this below to the data needed: Videos of US Marshalls and neighbors and doctors coming in on case and Class actions:

- **Secretary Vinyard (an Attorney appointed by Governor Scott), head of Florida Department of Environmental Protection (Water) who was doing the jog fundraiser, with his local Police to help kids? Joe Gilberti, P.E. copied this link below the morning of April 15, 2013 to all the Government officials that should care about Water and more, on how Publix Headquarters are located in Polk county where Mosaic Fertilizer (largest in the World) has been for the last 100 Years, whose attorneys are the Fired attorneys who tried to steal it, Greenberg Traurig (largest attorneys in the World), attorneys for Coca-Cola and Mosaic.**

Gilberti copied this link to hundreds of Government officials and the Whitehouse with a mass email addy

(the Petition of Redress of Grievance) 5 hours prior to the Boston Terror attack! Three days later US Marshall show up surrounding our home, while I was at the Hillsborough Government Building with helicopters flying around, and... a Texas Fertilizer building blew up 74 homes in Texas.

They tried to set me up or this is one Big coincidence with the Cleanest Water in the World hidden in Sorrrysota for 44 Years. And remember, the NY Twin towers was hit by pilots that practiced in Venice (Sarasota), just before the hit, while President Bush was teaching a childrens class that day in Sorrrysota(Sarasota)!!

THEY TRIED TO SET ME UP! NOW THE PEOPLE KNOW! GOOGLE: PUBLIC SERVICE COMMISSION 02424-13 AND SEE THE RICO PROOF, AS THEY ARE COMING FOR ALL OF THEM! NOW YOU KNOW WHY THE RECOUNT HAPPENED, NOW YOU KNOW WHY FLORIDA WAS SUCH A SWING STATE! WE ALL HAVE BEEN HAD BY ATTORNEY POLITICIANS! BACK TO CLINTON UNTIL TODAY! WATER AND FOOD CONTROL!

CLOSER TO THE HEART.....OF THE PROBLEM AND THE SOLUTION!

**Subject:** Caloosahatchee Fort Myers Reservoir breaks ground Today? Another \$576 Million dollar waste of taxes when we should connect to GILBERTI PIPE LINE WITH CLEANEST WATER IN THE WORLD!

EPA/SFWMD/SFWMD/Regional Planning Councils,

Don't you think we should stop Work for the Attached considering CW Bill cracked within 10 Years costing another \$180 Million to move dirt and play with Water and create ANOTHER Terror attack with Open to the Sky Water supply!

The People for Gilberti Water Company

**Subject:** PSC Complaint Open Investigation 02424-13 - FORWARD TO FEDERAL COMMUNICATIONS COMMISSION AND GOVERNMENTAL AFFAIRS BUREAU OF CONSUMER COMPLAINTS - FTF

Federal Communications Commission & Governmental Affairs Bureau of Consumer Complaints/Senators and Congressmen Blind copied outside of Florida/others,

Thank you for your contact.....we look forward to you visiting the Site and questioning many local Politicians and Staff involved to get the Clean Water Flowing and STOP Florida Terrorism with OPEN to the SKY Water supply from Tampa Bay Water and Peace River Manasota. John Kennedy of Tampa Bay Water has known and understands as an Engineer and should be available to show you how many time Mr. Gilberti notified Hillsborough county, PRMSWA, SWFWMD staff, and his Board over the year. And they still continue to build the CW Bill Fix!

See attached and below:

Chair of Public Service Commission/Chris Shaw/USA Leaders/Julian Holt/Governor Scott/Adam Putnam/The People,

Google: 02424-13 and see FPL and Senators involved on Public Service Investigation with Gilberti's Water and 1<sup>st</sup> Amendment with a Petition of Redress of Grievance. Texas involved? Mosaic involved, Power, Food and Energy involved? Water is the KEY! Just go watch a Mosaic Commercial and track their META DATA! See Motion that Judge Dominique denies last year, screaming at Gilberti for no reason in court, then says under recording audio for RICO case with his prosecutor, "Its not the content of the emails" This is Tampa and Florida run by Zionist Israel companies like Mosaic and working with Coca-Cola and shareholders to Poison and create Terror attacks on Floridians, while hiding the Cleanest Water in the World for 44 Years with SWFWMD and other agencies.

TO HIDE A FARMER, A CASE IN DISTRICT 12 & 13, KILL GILBERTI'S FATHER WHO HAD THE DISKS, AND PLAY IN A SYRIA DESSERT MAKE IT EASY FOR HAGAN, HIGGINBOTHAM, GREENBERG, MOSAIC, COCA-COLA, JUDGES, COPS AND MORE TO HIDE ONE ENGINEER AND THE PEOPLE'S WATER AT DAUGHTREY RANCH.....WITH THE HELP OF C1 BANK AND WELLS FARGO WHO STEALS \$137K WITH SCOTT FREYRE AND HANDS 6 COUNTERFIET BILLS TO GILBERTI'S WIFE! SEE DATA AND PROOF ON PUBLIC SERVICE 1450 PAGE STIMULUS 02424-13 FOR THE RECORD.

You see, District 12 & 13 Work together with Greenberg Traurig and Mosaic with Adam Putnam and Governor Scott to schedule the court cases on the same day, so Gilberti and Daughtrey get robbed, as well as the PEOPLE so C1 Bank, Thomas Howze, Lee Pallardy, Judge Hall relatives, Kenny Harrison, Adam Putnam, Bush, Obama, and Governor Scott with Attorneys and current leaders play with LIVES, Jobs, and WATER!

October 17<sup>th</sup> 2013 was the big schedule so Gilberti cannot defend his deeds in Sarasota nor use phones to call attorneys, computers, or move the Water to the PEOPLE so Kewitt, Tampa Bay Water and Peace River Manasota with a list of developers, staff and more, playing a very dangerous game with OPEN TO THE SKY Reservoirs. We have Steve Stanley and Tonya Pitts, on the case in Sarasota ILLEGALLY by the Docket Clerks in Sarasota, with letters in writing from Tonya Pitts last week. So they just add Steve Stanley? Sarasota Case 2011 CA004029 NC with RICO!

This is a RICO crime from elected Officials from Tampa to Sarasota with their buddy attorneys and Judges, with Julian Holt's office and Mark Ober's office. All for Mosaic's big sell to an Iraq Mining firm! Wow!

**Subject:** RE: ATTORNEY OWENS WITHDRAWS FROM DAUGHTREY AND TONYA PITTS SHOWS UP? NOBODY SAID TONYA CAN COME IN CASE AND SEPT 3RD WAS A MOTION TO WITHDRAW AND AMEND - FOR RECORD ON CLERK AND RICO

Spano was terminated due to billing up \$9,000 dollars for one appearance and one deposition done totally wrong and without any real questions to protect C1 Bank Thomas Howze, and Lee Pallardy III, Tampa's leader with Scott Freyre and Greenberg attorney victims!

Then he plays the docket below by adding Tonya Pitts! She left the case early this year as she said she had no time and returned the money! How can District 12 Civil court keep playing with docket. For example, this was listed as a Commercial foreclosure, then Pratt tried to get a partial summary on leases and more, lost, then docket turns to Home Foreclosure, which case law says you cannot have both on one Claim!

THE GOOD OLE BOYS ARE GOING DOWN! 50 STATES BIDDING THIS DEAL, AND WE WILL BUDGET \$1 MILLION FOR RICO CASE ABOUT TO OPEN TO TAMPA BAY WATER, PEACE RIVER MANASOTA, AND ALL THE COMMISSIONERS AND STAFF IN BETWEEN, AND OUR FRIENDS IN DISTRICT 12 & 13.....FOR THE WORLD AND THE USA TO SEE!

**CONSTITUTION MIXED WITH CLEANEST WATER IN THE WORLD, JOBS, AND GOOD HEALTH FOR OUR KIDS VS. BS ATTORNEYS, COPS, MEDIA AND LEADERS!**

This is the depth of corruption, as we all are watching the momentums on the Wall Street stocks with Disney, Coca-Cola and Mosaic as these hearings go by. They made up their money a long time ago! But they still want to steal it.

Should of done a Survey!.....lol.....Now we come in and counterclaim EVERYONE and this case goes for 10 years!

For the Record!

Assistant for the THE PEOPLE for Clean Water and councils of Gilberti Water Company

Bcc|49 States of leaders

**Subject:** OBAMA AND FLORIDA LEADERS TAKE CONTITUION 1ST AMENDMENT TO HIDE WATER AND JOBS IN USA - JUDGE ORDER

The Tampa Police come to his house and handcuff him each week in front of neighbors. See Order taking 1<sup>st</sup> Amendment rights to hide it while C1 Bank and Wells Fargo try to steal it with Trafficantes and Commissioners of Florida and Governor Scott and Obama! For the Bush family! And the rest of our US Congress and Senate and Media hiding it!

1. Cant see little league sports with his two young sons?
2. Cant take kids to school to insure they are safe at bus stop?
3. Can go to store?
4. Can go out of residence?

All for hiding clean water and for attorneys for Mosaic and Coca-Cola and Votes for Politicians?

THE TAKE THE CONSTITUION FOR POWER OF WATER CONTROL FROM GILBERTI, AND KILL HIS DAD AND SURROUND HIS HOME FOR FLORIDA DEVELOPERS AND LEADERS WHO ARE CHEATING AMERICA!

LENNAR KNOWS? THEY MET HIM AT CRACKER BARREL WITH FILES FOR NORTH PORT 6 MONTHS AGO?

**Subject:** JOE GILBERTI WATER - IN TAMPA YOU ARE GUILTY UNTIL PROVEN INNOCENT ON THE INTERNET WHILE  
JUDGES, COPS AND LEADERS DESTROY JOBS, MANATEES, AND SELL MEDICINE IN THE NAME OF 'WATER MATTERS' AT  
SWFWMD - FOR THE RECORD ROSS MORTON

**THIS IS HOW OUR COUNTRY RUNS NOW UNDER COMMUNISTIC AND MILITARY MEDIA  
WITH CONSTANT BAD NEWS CONTROL AND INPUT!**

**SHERIFF GEE AND MARK OBER OF HILLSBOROUGH COUNTY AND THEIR  
COMMISSIONERS AND STAFF.....PUT A MUG SHOT ON THE WEB THE DAY OF AN ARREST  
WHEN US MARSHALLS PLAYED A GAME WITH FLORIDA LEADERS.....**

**TAMPA'S AMERICA NOW YOUR GUILTY UNTIL PROVEN INNOCENT TO HIDE THE  
CLEANEST WATER IN FLORIDA, WHILE JUDGES, PUBLIC DEFENDORS, COPS, AND  
GOVERNORS, SENATORS, OBAMA AND LOCAL COMMISSIONERS AND LEADERS, PLAY  
DUMB ON TV AND THE TAMPA TIMES OR FOX 13 WHO HAVE ALL THE FILES FOR A YEAR!**

THE INTERNET IS STOPPING JOBS! MILLIONS OF JOBS WITH TAMPA LEADERS AND MEDIA! FOR THE ENTIRE UNITED STATES AND KILLING 20,000 KIDS PER DAY WITH BLUE GOLD WATER WARS.....

ITS ALL ABOUT TO OPEN UP AND THIS SERVICE NEEDS TO BE CHECKED! WE THE PEOPLE ARE INNOCENT UNTIL PROVEN GUILTY.....ATTORNEYS ARE THE PROBLEM .....ESPECIALLY THE LEADERS WHO HAVE BAR LICENSES! THAT'S SHOULD BE OUTLAWED IN AMERICA! NO ATTORNEY POLITICIANS ANYMORE!

FOR THE RECORD ON RICO CASE 2011 CA 004029 NC. THIS ARREST.ORG COMPANY NEEDS TO READ THE CONSTITUTION!

BCC:\49 OTHER STATES OF MEDIA AND COUNCILS!

## Comments

- #1 RED TIDE

**Tampa Police HIDE FRESH water and KILL constituion** The Tampa police officers who did this work for Trafficante mobsters and KILL our constitution! They will be in the RICO Trial with SWFWMD and MOSIAC next month and can visit all their criminals they put away. All friends with Scott and Jason Freyre who are Trafficante family folks cheating on FDOT dirt and Bridges and tried to Steal JOe Gilberti's land with Greenberg and Mosaic to poison fish and People, so they can divorce their wives and go for young strippers at Doll House now! Cubans that make CUBANs look bad!! They want to be from Miami, go there and rag Tampa and come back here and make Porn with Hulk Hogan their family friend with GRECO in Tampa!

11/25/2012 - 23:55

- #2 Billy

It is obvious that the police in this situation did a favor for the Trafficante's. But the question is why??? The Chief of Police better look into this one, or there could be some serious fallout. Why would Mr. Gilberti be arrested for these charges??? What type of validity is there in this case??? Mr. Gilberti has some powerful friends that will be more than happy to create a storm cloud over the Hillsborough County Police Dept. and open it up for some serious investigation regarding the Trafficante's. The story has made its way to the Sun Sentinel and the Miami Herald where Mr. Gilberti has some media connections.

04/16/2013 - 14:59

- #3 Captain Sum Ting Wong

We going down!!!

07/16/2013 - 12:25

- #4 just me

Joe Gilberti is a piece of !@#% and I hope that he lands his !@#% in prison! He is psychotic and needs to be supervised at all times.

08/29/2013 - 18:41

Mr. Joseph Gilberti  
President/Owner  
Gilberti Water Company  
3148 Beaver Pond Trail  
Valrico, FL 33596

Dear Joseph:

Thank you for writing us regarding Gilberti Water Company. We appreciate the opportunity to study your proposal of August 7.

Regrettably, we are sorry to inform you that we cannot take advantage of the opportunity that you offer at this time.

We appreciate your interest in our company, and wish you success.

Sincerely,

Trisha Lynch  
On Behalf of  
The Pepsi-Cola Company

## GILBERTI WATER COMPANY

CLEANEST AND MOST ABUNDANT SPRING IN THE WORLD

### FLORIDA'S FOUNTAIN OF YOUTH

HIDDEN IN SARASOTA FLORIDA FOR 44 YEARS!

#### WHO'S WATER IS IT?

- *THE PEOPLE OF FLORIDA PER THE FLORIDA WATER RESOURCE ACT*
- *HELD IN THE SUPREME COURT OF FLORIDA*
- *ACCESS AND PLANS ARE SUBMITTED TO FDEP, FDOH, AND FDOT*

#### WHAT DOES IT DO?

- *CREATES OVER 1,000,000 FLORIDA CONSTRUCTION AND HOUSING JOBS IN THE NEXT SIX MONTHS*
- *CREATES OVER 10,000,000 USA INDIRECT JOBS WITH SUPPLIES AND SERVICES TO FLORIDA*
- *PAYS FOR NATIONAL HEALTH CARE FROM BULK WATER SHIPPING TO THE WORLD FROM FLORIDA PORTS*
- *HOME VALUES WITH WATER SOAR TO HIGHEST IN THE WORLD*
- *BUSINESSES THRIVE FROM HOUSING BOOM*

#### WHAT IS IT AND HOW DOES IT GET TO YOU?

- *250 MILE SPRING WATER 84-INCH TRANSMISSION PIPE FROM TAMPA TO PORT EVERGLADES DOWN I-75*
- *TRILLIONS OF GALLONS OF ANTIOXIDANT SPRING WATER TO NEW AND EXISTING HOMES*
- *LARGEST CANCER ANTIOXIDANT EVER SEEN ON THE PLANET*
- *PERMITS SUBMITTED OVER A YEAR AGO AND NO GOVERNMENT RESPONSE? CALL THEM NOW!*

#### HEALTH AND ENVIRONMENTAL FACTORS!

- *ELIMINATES SINK HOLES FROM CONNECTING TO TRANSMISSION AND REMOVING SHALLOW WELLS*
- *REDUCES RED TIDE BY LEAVING WATER IN RIVERS FROM CURRENT WATER TREATMENT PLANTS WITHDRAWS*
- *ELIMINATES RESERVOIR WATER SUPPLY OPEN TO THE SKY SUBJECT TO PESTICIDE CONTAMINATION OR POTENTIAL TERROR ATTACK FROM LOW FLYING PLANES OR DRONES*
- *LOWERS COST OF WATER SUPPLY BY REMOVING CHEMICALS AND EXPENSIVE PROCESSING*
- *WATER CONTAINS pH LEVELS ABOVE CANCER CELL MITOSIS OF 7.3 AND HAS NO METALS AND TOXINS*
- *REDUCES HEALTH COSTS FROM ALKALINE BODY AND LOWERS DISEASE*
- *LIVE LONGER AND LIVE HAPPIER WITH GLACIER WATER IN THE SUN AND JOBS ALL OVER!*

### STOP FLORIDA TERRORISM WITH OPEN TO THE SKY RESERVOIRS PAID BY TAXPAYERS!

REAL ESTATE BOOM NEVER SEEN IN HISTORY FROM TAMPA TO SOUTH FLORIDA

CALL YOUR GOVERNOR, SENATORS, CONGRESSMAN AND COMMISSIONER WHO HAS KNOWN FOR YEARS!

**RE: GILBERTI WATER COMPANY (GWC) – BOTTLING OPPORTUNITY VENTURE  
LARGEST WATER ANTIOXIDANT SPRING IN THE WORLD – OVER 250 MGD  
Gilberti-Daughtrey 2500 Acre Ranch  
Sarasota, Florida**

Dear Walt Disney World, Publix Supermarket, Pepsi Cola-Next-Globe, and Coca-Cola:

Please see the cleanest Spring Water source ever seen on Planet Earth located in Sarasota, Florida. This letter and enclosed disk with water results and higher quality results underway due to mixing aquifers with the spring down deep is an opportunity for your firm to sell the highest quality water or soft drinks

to the World. We are sending the same to every bottling and Grocery Store and Oil Company there is on the Planet, so don't hesitate or you may miss out.

The spring is only a few miles from the recent \$3 Billion dollar citrus deal with Adam Putnam's family and Peace River Citrus (whose President is the ex-Coca-Cola President in South America!), coordinated with Adam Putnam the Agricultural Commissioner for 25,000 acres of Citrus Groves.

The spring water testing results are so incredibly clean and abundant, as a University of Florida native born Floridian, Civil and Mechanical Professional Engineer (PE#56079) have submitted permits and plans for a 250 mile spring water transmission main project that will increase Florida real estate to Number One in the World, and control all major developers in West Florida, while bottling from the Ports of Florida. This spring water source together with a huge Constitutional First Amendment effort to disclose this hidden spring for 44 years by Florida leaders and developers, put me in Jail at Hillsborough County-Tampa for a First Amendment game of Cyberstalking for Greenberg Traurig attorneys I fired in December 2011 for trying to steal it with C1 Bank and Mosaic Mining Fertilizer Company. The three so called victims are high powered manipulative attorneys for said corporations and have been loafing Peace River for years from Tampa with Sierra and ACOE attorneys to create a Terror attack with open to the sky Reservoirs; in Tampa, Manatee and Desoto County, such as but not limited to RV Griffin Reservoir, CW Bill Young Reservoir and Everett Reservoir. I mass copied Lisa Jackson of the EPA, SWFWMD staff, White House and Governor Scott in an attempt to Petition the Government for a Redress of Grievance, as our Four Fathers intended almost 250 years ago. These agencies and staff leaders in Florida and abroad, and all the government authorities that should do something for The PEOPLE, simply set me up the week of the Boston Terror attack, while they try to foreclose on the land in Sarasota to steal the Spring for C1 Bank, Thomas Howze, Lee Pallardy and potentially local Judges in Desoto, to be shown in a 10-Year RICO case.

My poor father another civil engineer who raised me in South Florida, who built bridges like Palmetto expressway and Sunday's Marina, Vizcaya and more in Miami, of 63 years of age, died from stress while I am in Jail, hidden away and with no family communication, from a sudden raised in a misdemeanor bond from \$500 dollars to \$300,000 dollars by Mark Ober's partner in business, Judge Dominquez. This crooked Judge with Greenberg attorneys raised the bond then recuses himself for his Greenberg Traurig friends, and some new grad Prosecutor who is Middle Eastern and claims I was running from the US Marshall's the day of the Boston Terror Attack? I have copied the cops and the White house and her the whole time? What happen to America in Tampa this past election? One Engineer with this spring can beat all these fools that think they can hide and steal a spring with two terror attacks surrounding my lands with open to the sky Water supply with low flying Mosquito planes spraying poisons each night. The reservoir creates the mosquitos! That's how crooked the local engineers are that want our retirees to buy medicine in Sarasota, Charlotte and North Port!

Last March 2013 my Oil drillers showed up from South Florida explaining how this is the cleanest water in the World! That's why a sudden raise of bond came and who knows maybe the Boston Terror attack was a set up too?

I now have a honest Judge, since Dominquez of Tampa ran off, in Judge Conrad who lowered my bond after my dad's death, but Mark Ober, Hillsborough County's State attorney and his new very corrupt new grad prosecutor Sheila Sohgovia (Case #12CM011299A) only let me out 11 hours, to drive down to Fort Myers Beach, to my father's home and funeral on Memorial, with about one hour of quality time, to torture me more, with a GPS! As if I am some kind of flight risk? The Jail and Doctors who tortured me with nurses and prison guards never reported to Armor in Miami, the third party contractors who is supposed to manage lockdown inmates, keeping me in lockdown hidden way, never letting my wife of 25 years and family know what happened to me for weeks. My family, friends and I plan to open up a Civil rights case against these terrorists, with the Water RICO case filed last June 2012 in Sarasota, case number 2011 CA 004029 NC, that will show the entire World the depth of Florida corruption in Tampa.

Florida is a huge desalinization plant as the ocean around the Peninsula dumps rain year round in a sandy filtering swamp. My enclosed business plans, that Duke Energy already has and wants to team up, can satisfy National Debt in one day with amortized antioxidant bulk and bottled water over a 10-20 year span, while paying for National Health care and ending Water wars in Florida and around the World.

See enclosed plans herewith to create over One Million Florida construction and housing jobs and over 10 Million US indirect jobs along I-75 from Tampa to Port Everglades, Broward County. Everyone will move to Florida for work and sunshine with a Cancer antioxidant to their new homes. Homes will increase higher than New York City with this Water. Water affects everything! All you need is the Constitution and an Engineer and Farmer with Honor and a handshake and all the Politicians and attorneys are done. Especially the attorney Politicians we have on our lists that are caught red handed.

Please contact us soon if you wish to participate. More recent reading and pump tests are about to be performed and a show on American Hog Hunters as one co-star is on our land and friends with the Daughtreys helping our cause. It's funny how God finds a way to make the water flow to The PEOPLE. Honor and a handshake from a Farmer and an Engineer from Florida did it. Hope you consider this great opportunity to lead the World in change America back to what it used to be when 1<sup>st</sup> Amendments governed over Cyberstalking games to hide quality people and quality water.

Sincerely,

*Joe Gilberti*

Office of the State Attorney  
Attention Sheila Sanghvi  
419 N. Pierce Street  
Tampa, FL 33602

**RE: JOSEPH GILBERTI; 12-CM-011299**

Ms. Sheila Sanghvi,

I have made multiple requests for the discovery, starting on September 25, 2012. As of today, I have not heard from you or your office. I am particularly concerned with this case because of the voluminous nature of the discovery, and the fact that the current offer entails incarceration. At this point, my client, and myself have no information on the basis for these criminal charges. Further, the next court date is on October 25, 2012 (less than two weeks away).

Please contact me and let me know how and when I can get the discovery. Otherwise, I will have to file a motion to compel. I hope to hear from you soon, and I'm optimistic that this can be worked out without the necessity for litigation on the matter.

Sincerely,

**William B. Wynne, Esq.**

**THE MOSAIC COMPANY ENTERS INTO SHAREHOLDERS' AGREEMENT  
WITH MA'ADEN AND SABIC**

***Companies on track to construct 3.5 million tonne phosphate operation***

**PLYMOUTH, Minn., August 5, 2013** – The Mosaic Company (NYSE: MOS) today announced that it has entered into a Shareholders' Agreement with Saudi Arabian Mining Company (Ma'aden) and Saudi Basic Industries Corporation (SABIC) to participate in integrated phosphate production facilities in the Kingdom of Saudi Arabia. The companies have been working toward the agreement since a Heads of Agreement was signed in March.

Ma'aden, Mosaic and SABIC will own 60, 25 and 15 percent of the joint venture, respectively.

The estimated \$7 billion greenfield project, to be known as Wa'ad Al Shamal, or Northern Promise, Phosphate Project, will be built in the northern region of Saudi Arabia at Wa'ad Al-Shammal Minerals Industrial City, and in Ras Al Khair Minerals Industrial City which is located on the east coast of Saudi Arabia. The highly cost-efficient project is expected to have a production capacity of 3.5 million tonnes of finished phosphate per year. Operations are expected to commence in late 2016.

Under the terms of the agreement, Mosaic will contribute expertise to the design, construction and operations of the new facilities and acquire a 25 percent ownership stake. In connection with its equity share, Mosaic will market approximately 25 percent of the joint venture's product, including phosphate fertilizer and animal feed. Subject to final financing terms, Mosaic's cash investment is expected to be up to \$1 billion, funded over a four-year period beginning in 2013.

"We are pleased with the progress on our joint venture with Ma'aden and SABIC," said Mosaic President and Chief Executive Officer Jim Prokopanko. "This cost-effective project will allow Mosaic to extend our ability to serve key growing agricultural markets. Our growing global reach further enables us to fulfill

Mosaic's mission, to help the world grow the food it needs, while delivering compelling shareholder value."

### **About The Mosaic Company**

The Mosaic Company is one of the world's leading producers and marketers of concentrated phosphate and potash crop nutrients. Mosaic is a single source provider of phosphate and potash fertilizers and feed ingredients for the global agriculture industry. More information on the Company is available at [www.mosaicco.com](http://www.mosaicco.com).

### **About Ma'aden**

Ma'aden, the Saudi Arabian Mining Company, is a leading mining and metals company in the Kingdom of Saudi Arabia, with a diverse portfolio of mineral assets at various stages of development including exploration, development and production. Ma'aden has a broad commodity focus spanning gold, phosphate, aluminium, magnesia, low-grade bauxite and industrial minerals, and is continually assessing opportunities to enter into new commodities that demonstrate strong long-term fundamentals and opportunities for growth. Ma'aden's objective is to become a world class diversified mining and minerals company, and to enhance overall value for its shareholders. Ma'aden's mission is to be a profitable, publicly owned, international mining company, while maintaining the utmost concern for human resources, health, safety, environmental and social issues. For more information please visit [www.maaden.com.sa](http://www.maaden.com.sa).

### **About SABIC**

Ranked among the world's largest petrochemicals manufacturers, SABIC is a public company based in Riyadh, Saudi Arabia. 70% of the Company's shares are owned by the Saudi Arabian government, with the remaining 30% held by private investors in Saudi Arabia and other countries of the Gulf Cooperation Council.

SABIC began in 1976 by Royal decree. Today, the company has operations in over 40 countries with a global workforce of over 40,000 talented individuals.

*This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results. Such statements are based upon the current beliefs and expectations of The Mosaic Company's management and are subject to significant risks and uncertainties. These risks and uncertainties include but are not limited to the predictability and volatility of, and customer expectations about, agriculture, fertilizer, raw material, energy and transportation markets that are subject to competitive and other pressures and economic and credit market*

*conditions; the level of inventories in the distribution channels for crop nutrients; changes in foreign currency and exchange rates; international trade risks; changes in government policy; changes in environmental and other governmental regulation, including greenhouse gas regulation, implementation of numeric water quality standards for the discharge of nutrients into Florida waterways or possible efforts to reduce the flow of excess nutrients into the Mississippi River basin or the Gulf of Mexico; further developments in judicial or administrative proceedings, or complaints that Mosaic's operations are adversely impacting nearby business operations or properties; difficulties or delays in receiving, increased costs of or challenges to necessary governmental permits or approvals or increased financial assurance requirements; resolution of global tax audit activity; the effectiveness of the Company's processes for managing its strategic priorities; the ability of the Wa'ad Al Shamal Phosphate Project to obtain project financing in acceptable amounts and upon acceptable terms, the future success of current plans for the project and any future changes in those plans; adverse weather conditions affecting operations in Central Florida or the Mississippi River basin or the Gulf Coast of the United States, and including potential hurricanes, excess rainfall or drought; actual costs of various items differing from management's current estimates, including, among others, asset retirement, environmental remediation, reclamation or other environmental regulation, or Canadian resources taxes and royalties; brine inflows at Mosaic's Esterhazy, Saskatchewan potash mine or other underground mines; other accidents and disruptions involving Mosaic's operations, including potential mine fires, floods, explosions, seismic events or releases of hazardous or volatile chemicals, as well as other risks and uncertainties reported from time to time in The Mosaic Company's reports filed with the Securities and Exchange Commission. Actual results may differ from those set forth in the forward-looking statements.*

Dear Mr. Dixon (City Manager of Bainbridge Georgia)/Georgia and Blind copied US Senators and Congress/Media,

We have clients located in your area off Booster Club Road, that are potentially partnering with us to place a Dual State - Correctional Facility with our other Private Correctional facility client(s) that runs prisons around the USA for many years. As you may know, privatization of prisons are very common and the need for these facilities, are coming in demand.

We provided a Pro-bono plan for a project, about 5 years ago for George Land and Bob Ryals, who worked with Gadsden county and the ACOE just south of the Levy on Florida-Georgia line (see attached Gadsden County Riverwalk at Chattahoochee done by Gilberti PRO-Bono to create jobs in 2008) that is just south of the Georgia line in 2008 for the County Manager and the ACOE folks just south of you in Gadsden County off the River. Interesting enough, we are dealing with Water Wars from Tampa to South Florida and have been inundated with Georgia attorneys for a filed Florida RICO act on Water supply with C1 Bank owners, involving commissioners and FDEP, SWFWMD, SFWMD, and FDEP staff, as Florida leaders with Governor Scott, Governor Christ, past and present USA and Florida leaders; and many locals in Tampa-Sarasota along West Florida who have hidden a Clean Spring that shows to be the Cleanest Water in the USA and potentially the World, with Trillions of Gallons being wasted for the past 44 Years! Just to feed attorneys and

sell medicine in West Florida! On our Retirees and VA folks who fought for us over the past decades! This case involved 1<sup>st</sup>, 2<sup>nd</sup>, 4<sup>th</sup> & 8<sup>th</sup> Amendments combined with the Cleanest spring and Effort ever seen on the Planet in our time.

The pre-app request is for the Prison, local ground water tables and utility diligence to coordinate our funding and demographical demands for Correctional institutions. It also happens to be the closest large project to the upcoming, threat from Governor Scott to sue your State and start up the Tri-State Water Wars for his votes again! Gilberti has critical data on both sides of the ACOE Levy that affects the Tri-State Water War threat and the depositions coming to media hiding in Tampa, Gov. Scott, Adam Putnam, developers in Florida involved and many more.

We copied many individuals that know of this Huge Trillion gallon Spring 1500 feet below at Daughtrey Ranch in Sarasota, Sec 1, Twp 38, Range 22e, so you can report this to your local leaders and Governor. We are sending Certified mail with attorneys to all in Georgia and across the USA. The Florida Public Service commission has a 1450 page COMPLAINT, connected to an FPL and Duke Energy Complaint as we all know Power and Water control development and Florida has a few problems with Three State Water Wars Mr. Gilberti has solved by saving this farmer.

Google: 02424-13 and pull down the Florida Public Service Commission complaint and see not only has US Marshalls, but Secret Service and disappearing Public Defenders, Bush, Obama, and many more are aware, with local Florida Media copied for a years hiding the Cancer Antioxidant Water. Wall Street and many are reviewing the 250 Mile Transmission to solve the Blue Gold World Water Wars, and the Florida North-South Water Wars.

Coincidentally, we are on both sides of the upcoming Florida-Georgia threat from Governor Scott who is shown ducking out with our Engineer Rob Stampe who disappeared the day our Oil guys showed up on April 3, 2013, and explained the Water Quality verification, Jim Murray, Amps drilling, who has drilled Oil for almost 50 years, throughout the US and Florida and whose wife sits on a major Geotechnical boards, and has shown this underground spring may be from the Yucatan Meteor blast.

We have a RICO case about to open to Governor Scott and Governor Christ in Sarasota Case #2011 CA 004029 NC. This is being reviewed by many National, International and Georgia attorneys who also want to represent Georgia.

Please review and contact us for a permit petition in your city for the Prison.

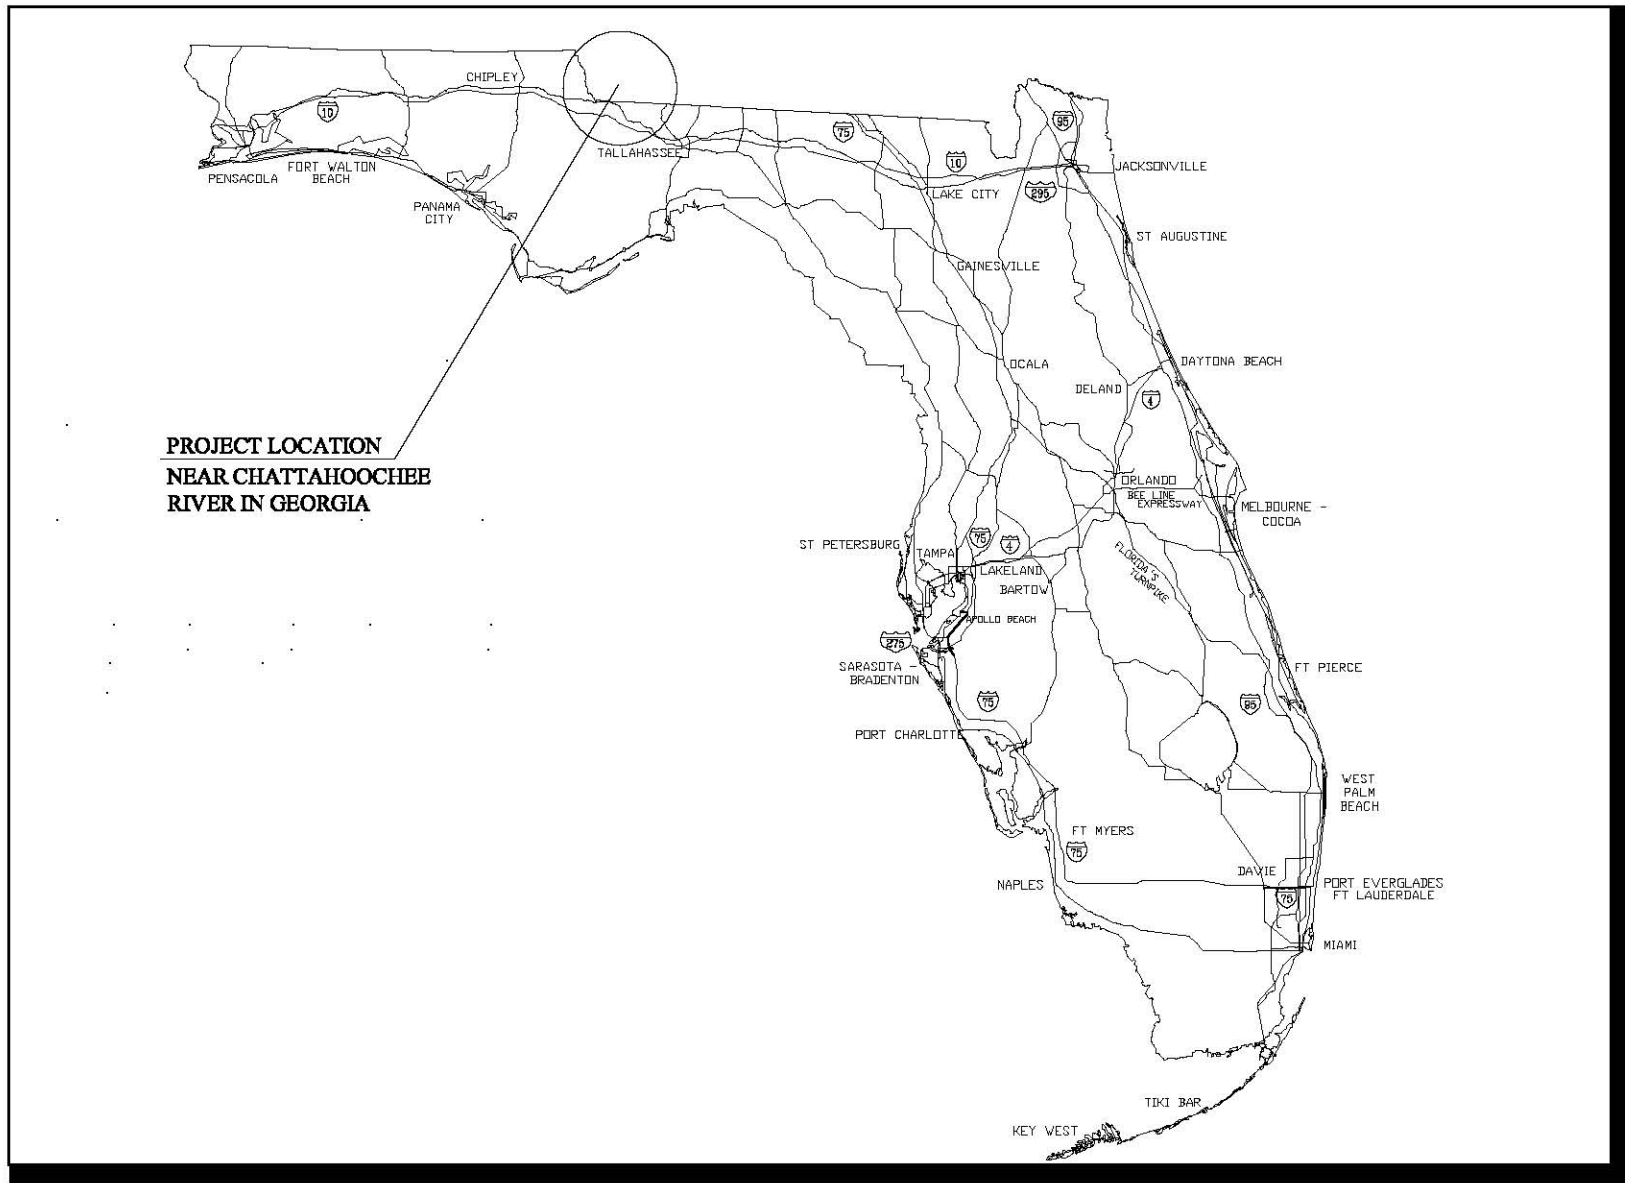

Regards,

Assistant for Joe Gilberti, P.E., Owner

## Introduction

The Daughtrey Family has owned lands in east Sarasota County since the 1950's when Cecil Daughtrey was a cattle farmer during the post-World War II Florida Development and Agricultural movements began within the more Pristine areas of Florida's habitat. Cecil Daughtrey had one child, Cecil Daughtrey Jr., who everyone knows as Buck. Buck's father dug many wells on his once 5,733 acre ranch located east of Myakka Park off State Road 72 (Clark Road). Many years of Mining and Sarasota County reports for both the Gilberti and the Carlton's (Once Florida Governor early 1900's), were performed in the late 1960' throughout the remaining Century showing an abundance of groundwater for orange grove and agricultural opportunities.

## Gilberti Spring at 2500 Acre Daughtrey Ranch in Sarasota County

In 1968, one particular Well drilled with a 12-inch pipe, by Buck's dad when he was just a Kid, for his son to one day build an Orange Grove on the land their family cherishes due to the beauty and freedom of living naturally, to pass something on for his son. After months of drilling, far past the upper and Intermediate Aquifers of the upper Floridan, drilling through another 600 feet of solid rock already 900 feet below the surface, the driller and Buck's dad struck **Blue Gold** or what we Humans call Water. This well location is described as Well No. 2, per the FDEP (SWFWMD) Water Use Permit 20003845.004, extending deep 1509 feet below an average grade of 40 NGVD. **This Well Driller in 1969, struck a Confined Aquifer producing enormous quantities of Clean Natural Water, naturally cleaner and healthier as a whole, than any Water ever seen on Planet Earth.** Current and Immediate Investigation is including this data to potentially justify the Yucatan Meteor cracked the Florida platforms in west Florida and the Gulf of Mexico over 65 Million years ago, that various geological studies have shown, through many years of oil drilling data collection that has turned up lower layers such as the Boulder formation, and in-turn created this Spring at Daughtrey Ranch and yields this Gilberti Spring at SWFWMD permit record deep Floridan Well No 2, known since 1969, when the Ranch was once 5,733 acres. This Water has NO Metals and a PH and Mineral level never seen on the Planet. Quality that cannot be produced by treated or bottled water without offsetting pH and/or imposing toxins and metals by manmade treatment per EPA Levels of Service, respectively. With this clean virgin water from Earths origins, any treatment per EPA or FDEP standards would only damage the Water Quality, and hence is processing for RAW Transmission with a FDEP Treatment exemption per rule 62-540, 62-555, 62.550, and EPA Clean Water Act Federal rules. This spring is the natural cure of cancer, hence so much governmental activity with large corporations and attorneys attached to major leaders over the past 44 years since it was found. With consumption over longevity that MUST be distributed now with LandTech Permits submitted herewith, and used to replace all Potable water supply from Tampa to South Florida, solving Florida Water Wars and increasing home values with this water antioxidant. Instantly increasing land Real Estate in Florida to No 1 in the World.

Pumping reports over the decades can be found on various local Sarasota and FDEP studies within Public Records of Florida and more, demonstrating no Environmental effects from groundwater withdraw regardless of Quantity extracted once below 1500 feet of depth.

## National Debt Balancing and Florida Job creation from Utility Permit

The Water produced by the spring below Gilberti lands is THE PEOPLES water and has been reserved in the Florida Supreme Court within the guidelines of the Florida Water Resource Act to protect citizens and the natural resources that bring them here. Access to the Aquifer is owned by the Gilberti family that has been working with us to get this Aquifer water to the People for a long time now. Water is FREE and not a Commodity but since 1992 France, and other began bottling and marking up the production or delivery of water through bottling, which has now become a World epidemic and has changed the name of Water to Blue Gold!! We as Honorable Farmers and Engineers realize many have been exposed to this problem and it will take very hard work and integrity to retrain many on the Water Cycle and how plastic is not needed nor makes it any better, but in fact worse. Times have changed and the computer and TV have changed our image of water and its costs to get to you in the cleanest and most convenient way. Engineers build human devices of the World to treat water, this Aquifer is God made and treated from Millions of Years ago, and can be carefully utilized to create Jobs, save lives and ocean life and more.

We simply Joint Venture Gilberti Water Company (GWC) with the United States of America as a Water resource to help end World Water Wars. We use the Global demand for water bottling temporarily by partnering with China and the Middle East together with the United Nations, and issue a World Moratorium on Bottling together to cut the overrides out of folks like Nestle', Cargill, and more, to pay for fixing Rivers and supplying RO plants overseas, while we ship bulk and bottled Water from our Ports in Florida. This water is an Ocean of clean water and cannot affect the environment, nor is this program to ship out, permanent. But it pays for the Utility, which creates Jobs for Florida with housing service areas, as from the Aquifer to the Ports, as shown on LandTech Design's concept, we pipe a large backbone from Tampa to South Florida to solve the Florida North South Water War and the Tampa Conflict Water wars. And soon potentially the Tri-State Water War after this launches.

This Closer to the Heart Business plan can immediately Negotiate National debt down in the Trillions with Asia, from the Gulf wars, and fuel costs with Middle East Countries with Bulk water vs. Crude, replenishing USA with profits off water until we stabilize debt and Water Cycles over the next 5-10 years. Mother Nature will kick in if you use smart engineers with common sense on water quality and water bottling commodity profits to create the jobs. Companies that pay Nestle will pay less from Florida-USA-UN-Asia-Middle East Joint Venture with the Archdiocese co-working with the management and demands for the Kids dying at a rate of 8000/day from lack or no water.

With this and Billions in 'Fix it Right' or Grant Financing with Corporative funding and developers capturing water reservations in between, all Powered with New Energy to invite FPL, TECO and Gas companies to the system down I-75 as well. Therefore, existing overpriced municipal bonds from Peace River and Tampa Bay Water can be reduced; cheaper cleaner water delivered too many within months in early phasing, and restructure of RO to filtration at existing WTP and disconnect off the Intermediate Caution area, will reduce or eliminate sink holes, and allow sites like Seffner to thrive in Tampa.

The financing is there from the Water efficiency based on current market prices for current treated water with much more cost due to INITIAL QUALITY.

## Utility Alignment and Engineering Plan Design

Four proposed transmission main routes were developed, with each route beginning Gilberti Spring through Daughtrey Ranch with an onsite local Filtration-Aerobic Plant and ending at four designated points or Metropolitan future areas from Tampa to South Florida that will have International trading from Ports and railroads to produce water overseas and utilize I-75 and existing Power transmissions and port berths to create housing service areas along the interstate and their future land use programs.

The net profits to THE PEOPLE of the USA, DWC and our debt owed to allies, can fix the water needs and World Water Wars, and pay for all PDE Alignments we choose. The Key is start work immediately, jobs, and get the water flowing from the spring bubbling up through the lower Floridan Aquifer. This spring Aquifer has Trillions of gallons of water to support local and World Bulk water needs with Florida's Water Cycle and lower spring sources found from the Yucatan meteor may have caused most springs in Florida.

Please see plans enclosed herewith for I-75 concept plans and Design development documents for the closer service areas and Ports so we can create Jobs.

We ask that the local agencies provide Buck and LandTech a list of local Engineering, surveying, contractor and consulting companies, as I play to farm out most design work as a sub, and need to obtain qualified FDOT Utility contractors moving now to create the Florida Jobs.

All alignments are within public right-of-way when possible. While there appears to be opportunities for segments of the open-cut alignments to run within existing private utility corridors, the cost of obtaining easements through these corridors could vary substantially based on commercial and political factors outside of the scope of this report in some areas. Additionally, while constructability issues through these roadway corridors may be more favorable than within the public rights-of-way, there would likely be a premium cost for the easements, possibly negating any substantial benefit to this project from construction along the more open rights-of-way. To more confidently arrive at a defensible construction cost for each alignment, private corridors were avoided at this time, but may be considered during preliminary design of the pipelines.

Alignments through the municipal limits of the various municipalities are small in comparison to the FDOT R/W and level of cooperation from these municipalities for the construction of the proposed transmission main.

## Pipe Diameter and Efficiencies

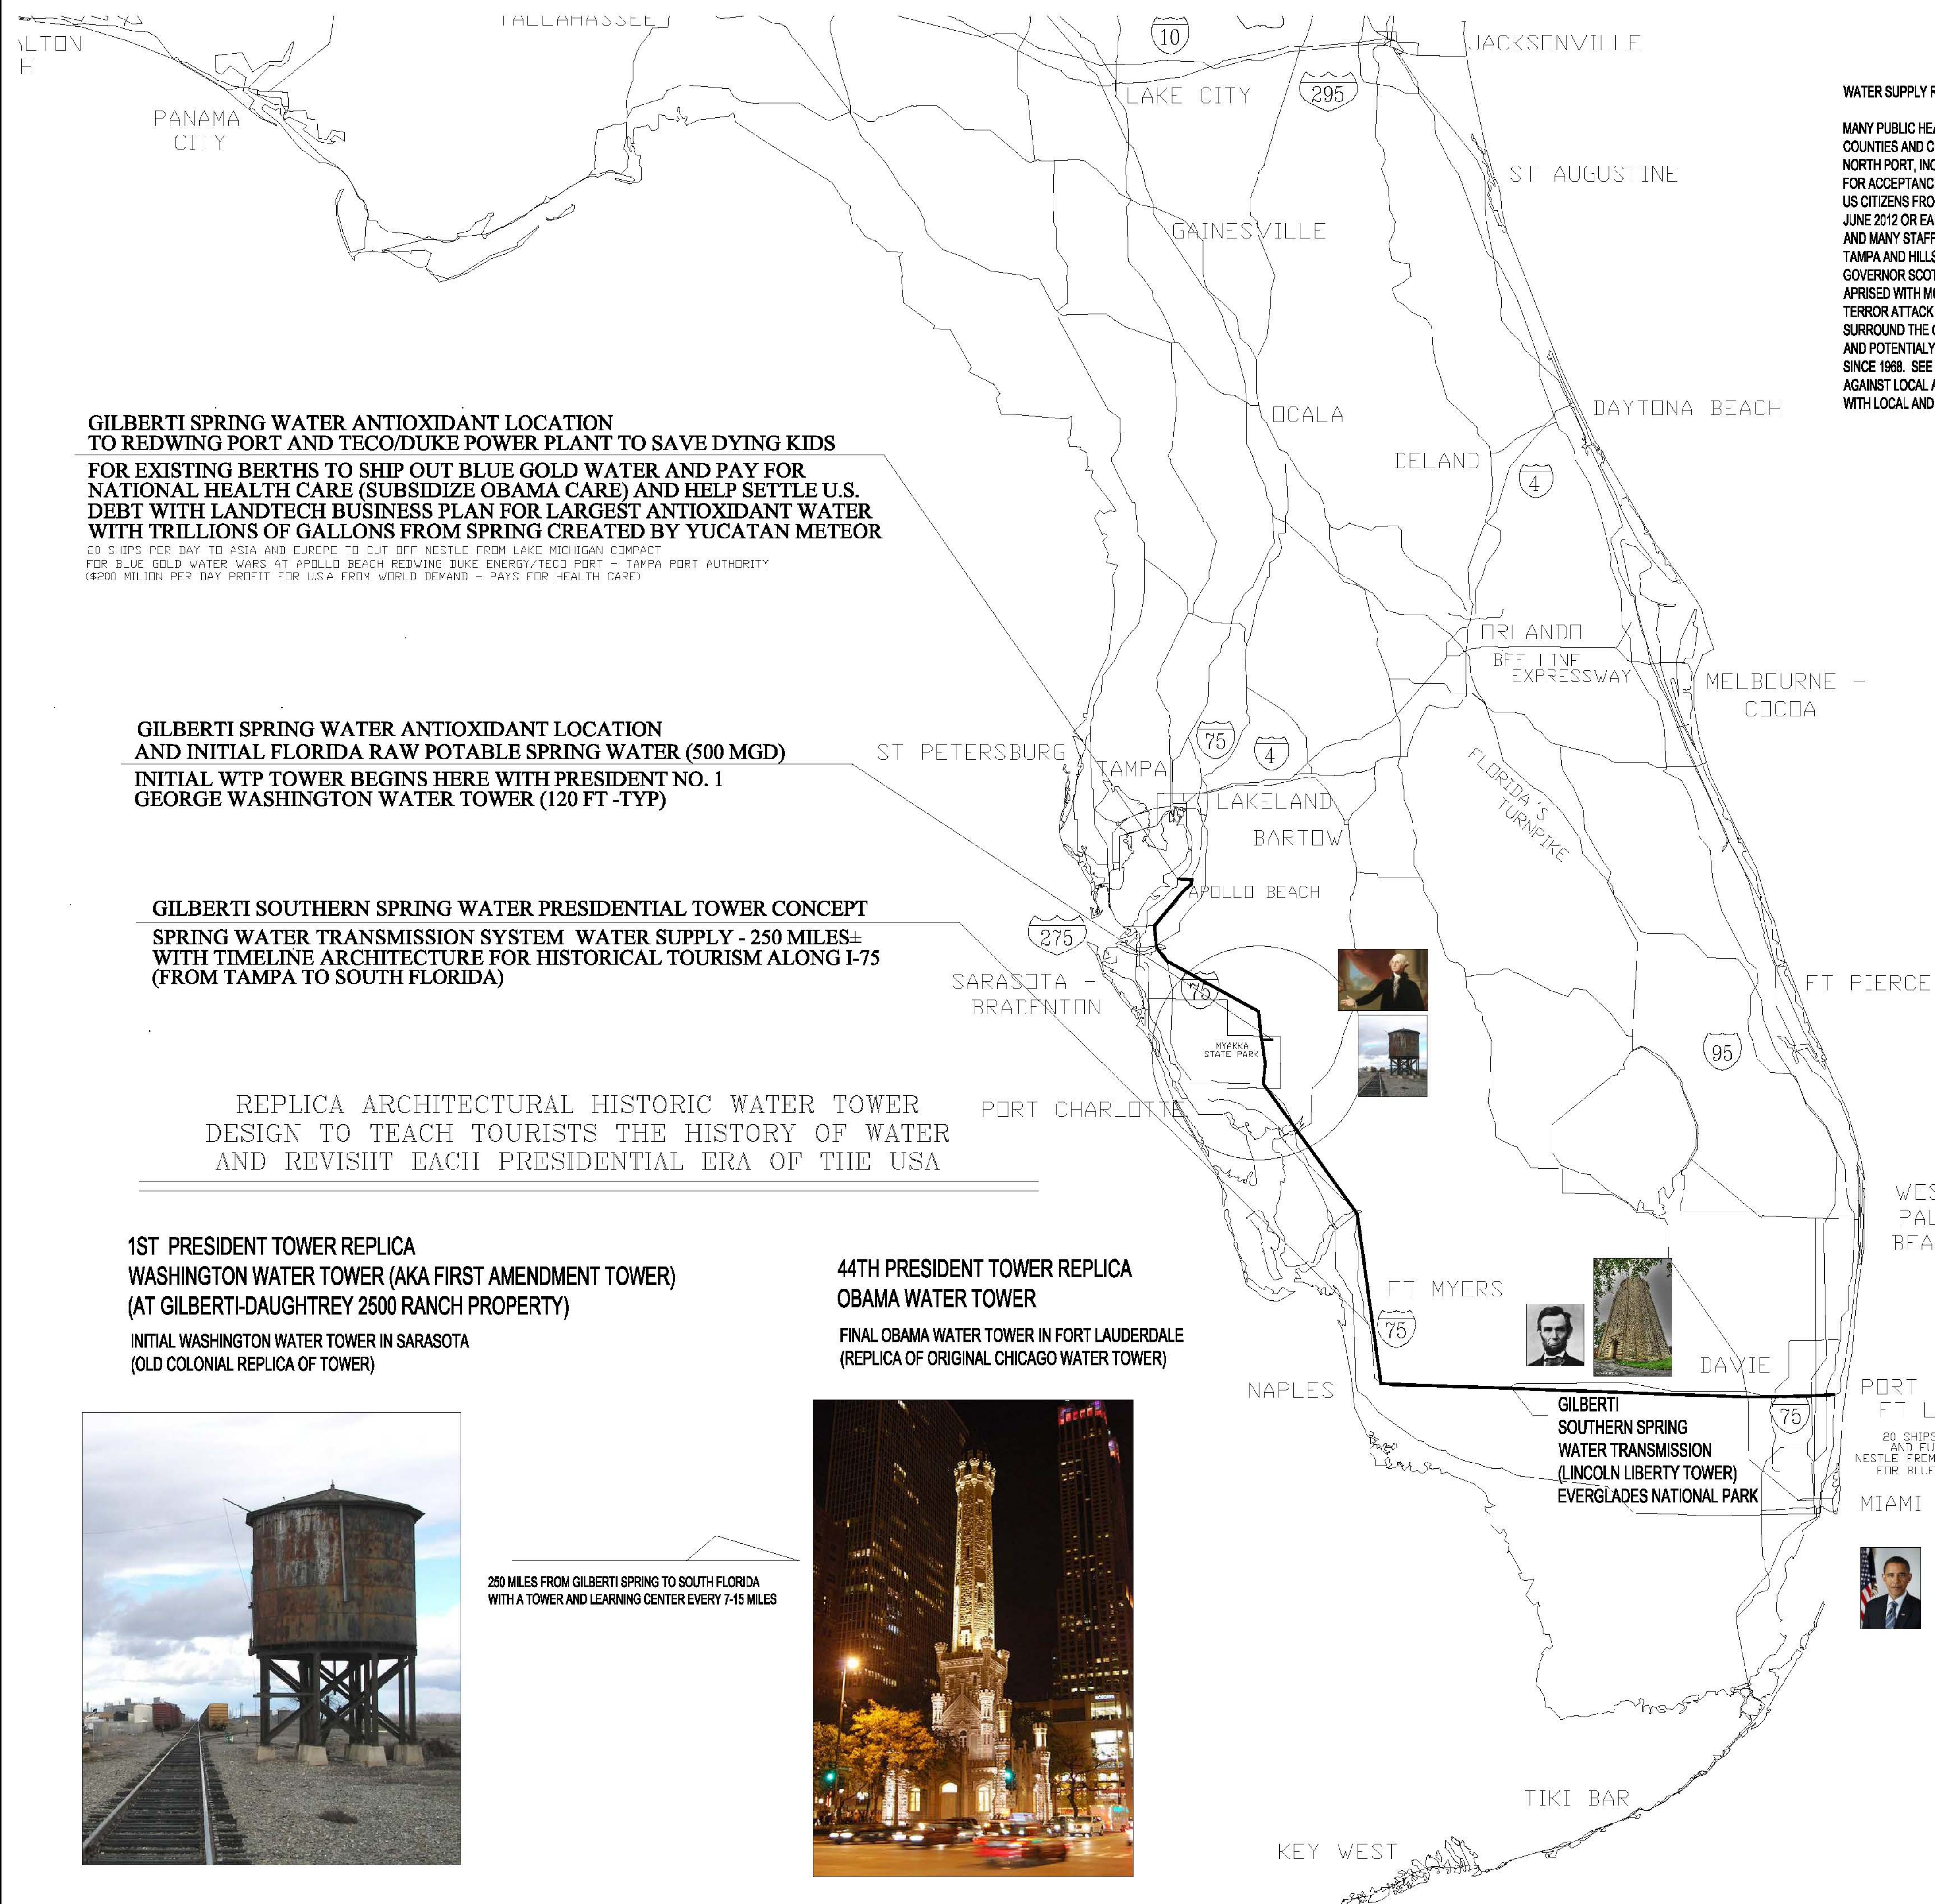

An initial determination of pipe diameters was made by considering hydraulic requirements and overall lifecycle costs. A preliminary lifecycle cost analysis was first completed to determine minimum pipeline diameters based on conceptual alignments of routes and typical transmission main flows. Typical flows are based on the water expected to be conveyed by the system during various operating conditions, rather than the design maximum flow rates. The lifecycle cost analysis allowed for the identification of the lowest overall balance between capital costs associated with pipe and pumps, and operation costs associated with pumping.

All costs were considered as net present worth assuming an interest rate of 3%. Operation costs considered only differences in pumping costs. Capital costs for this analysis were derived Engineering cost curves and are intended to provide a comparison of relative costs, rather than absolute project costs. The cost curves were used for pipeline and pump station costs. Replacement costs for pumps were included as one-third of the original capital cost of the pump station every 25 years. The net present worth for the pipeline capital costs, pump station capital and replacement costs, and operation costs were calculated and normalized. As pipe size increases, pipeline capital cost increases. Also, as pipe size increases, costs associated with pump stations, both capital and operating costs, decreases. Adding the capital and operation costs results in a minimum total lifecycle cost. The overall picture with right of way data collection pending is an 84-inch Raw Water system with multiple Towers and approximately 8-12 Pump Stations, to transmit 250 MGD from Sarasota to Tampa and South Florida, with about a Megawatt per mile to drive the water for THE PEOPLE.

April 2, 2008

**Mr. Norman Pinkard**

Dear Mr. Pinkard:

**Re: Investment Proposal to Purchase Multiple Parcels for River Walk at Chattahoochee**

We are in the process of acquiring approximately 116 acres of land (six parcels from one owner) in Gadsden County in the State of Florida to develop River Walk at Chattahoochee. River Walk at Chattahoochee will be developed as an historical Native Indian tourist attraction, with a Museum, river tours and canoe launching, nature trails, horseback riding, bird watching, 5-Story river view hotel and cabin lodging and more. The development will feature riverfront lodging and a high rise hotel with historical monumental views of the Apalachicola River in an area where no other large commercial development may ever exist due to the natural conservations and legendary historical monuments that rein back in time to the founding days of our great Country's existence.

The site is located in an area that has secured part of one of the largest collections of Native American artifacts in the South and expects more commitments in the near future. There are features that still remain such as an original railroad tracks and railroad river crossings from the 1700's when native Indians still used to hunt and live off the land. The land has almost a mile for river view frontage which can be implemented to serve people around the world who wish to revisit the past and experience what native life felt like while lodging comfortably with a peaceful river view after a day of Native History in America.

Attached with this letter are preliminary conceptual site and architectural plans to help demonstrate the potential for development and tourist attraction to an exclusive one and only Native American Historical area along the largest River in the Southeast that can help educate people on Native American History while getting away from the hustle of work life. If families can educate themselves on the importance of preservation of natural areas while relaxing at a River view Hotel attraction and spending time with their family experiencing nature, canoeing the same river like the Indians once did, horseback riding and shooting bows and arrows, or simply reading a book after spending a day familiarizing yourself with the Native American Heritage at a place that has really existed long ago with real Native Americans Indians, then you have been on a vacation to remember.

We would like to arrange a meeting with you at the earliest opportunity. If you have any questions in the meantime, please feel free to contact the undersigned at 866-621-5935

Yours sincerely,

**ROBERT RYALS REALTY, INC.**

Robert Ryals, CEO

## APPENDIX A

# MARKETING RESEARCH

### Demographics

Florida is now ranked the fourth largest State in the US with a population of 17 million people. By 2030, it is expected that Florida will rank as #3 in terms of population (US Census Bureau). This is consistent with the trends from 1950 to 2000, which saw a population increase of more than 13 million. It is expected that Florida's population will continue to increase by over 2 million between 2006 and 2015. These changes in population size are mainly attributed to migration both domestically and internationally. If

the current trends continue, Florida's population will reach 20.4 million in 2010, 25 million in 2030, and 31 million in 2050, double its population today ([www.npg.org](http://www.npg.org)). The age composition of migrants mainly comprises the 50 – 65 age segments. By 2025, it is expected that the baby boomer segment will number some 50 million, more than any age group. The Management team has identified the need to provide tourism with natural conservation inventory to this segment.

### Market Segment

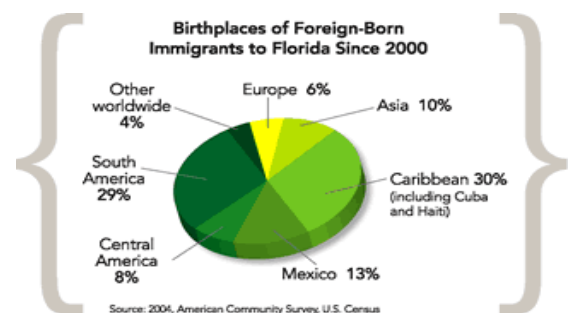

The Company has identified the mature segment of the market (primary segment) as the ideal target to sell the land to. This segment is expected to grow faster than the total population of every state. Many buyers aged 45 – 65 are seeking to retire in the Sunshine Belt. Buyers in this segment are buying land well ahead of their retirement as investments and future homesites. The primary market comprises migrants from New York, Georgia, New Jersey, California, Pennsylvania, Ohio, Massachusetts, Texas, and Illinois.

The secondary segment comprises immigrants from Latin America, the Caribbean, Canada, Europe, Asia, and Russia (currently contributing 26% to growth trends). It is expected that this segment will increase by 15% over the next 10 years.

### Target Customer Profile

Customers identified in the sub-market for the River Walk product include those who have the preferred lifestyle preferences:

- *Native American ambiance:* Horseback riding and Archery
- *Amenities:* Nature Trails/Bird Watching/canoe launching/river tours Museum
- *Lodgings:* River cabins and large Amenity Hotel with swimming pools and play grounds
- *Services:* Close to entertainment and services (within a short-distance drive)
- *Price Range:* \$120/room

## APPENDIX B

# MARKET OVERVIEW

### Summary

River Walk at Chattahoochee is being designed as a unique product that gives tourists several attractive and competitive options.

The geographic location of River Walk will add to the satisfaction of the niche market identified for this project. Residents wishing to “get away” from the crowds of the main hubbub and still be near the action of Florida’s bustling cities, beaches, and arts and entertainment, will be attracted to what River Walk has to offer. It is anticipated that market absorption can be achieved within 1 – 3 years. A robust marketing plan will ensure that the project is advertised out within the planned timeframe. River Walk will be within a 45-minute commute of the Tallahassee International Airport. Nearby towns will be City of Chattahoochee (5 miles), the City of Quincy (10 miles) and Tallahassee (30 miles).

### Target Market

River Walk provides a demand for tourism to help educate people of the Native American Heritage while preserving a historical area of Native America. There is high desirability of people around the world to experience the way Native Americans use to dwell in the natural environment of Florida. In a historical natural environment that features equestrian and River view amenities, such as boating, bird watching, fishing, archery, horseback riding, fitness, artifacts and museum history, etc. The ability to experience Native American Heritage while lodging close to nearby Cities such as the City of Tallahassee, our Florida capital allows tourist to access this remote area within minutes of an international airport. According to the study done for this project, the population increase in Florida is expected in two age groups: 20 – 44 and over 55 (the population will double by 2025).

Domestic migrants from the Northeast, Midwest, and West coast are contributing to major demographic shifts in Florida. Immigrants make up a large portion of the target market. Europeans are investing their strong currencies in Florida land. Latin Americans and Caribbean nationals are also following this trend. This population inflow along with new tourist features such as River Walk will generate a market for this area.

### Product Differentiation

Florida is a hot seller. Snowbirds and foreigners visit its sandy shores looking to escape the frigid temperatures of the North and elsewhere every year. Reports of the Florida market being “overbuilt” have run rampant for the last several months. While sales have slowed in the \$1+ million segment, there is still strong demand in the affordable housing market and investment properties. The product will respond to current market demand for natural tourism and capitalize on market momentum.
