> Re: Joint Petition for Approval of a Territorial Agreement in Sumter, Lake, Marion, Levy, and Citrus Counties by Sumter Electric Cooperative and Duke Energy Florida, LLC; Docket No. 20200106-EI

Dear Mr. Teitzman:

Duke Energy Florida, LLC, and Sumter Electric Cooperative are re-filing the above-referenced Petition in two (2) parts as the original filing on March 27, 2020, exceeded the 500 MB size limitation.

Therefore, please find enclosed for electronic filing in the above-referenced Docket, **Part 2 of 2** of the Joint Petition for Approval of a Territorial Agreement in Sumter, Lake, Marion, Levy, and Citrus Counties. This part of the filing includes the continuation of Exhibit A, Exhibit B, Exhibit C, Exhibit D, and Exhibit E.

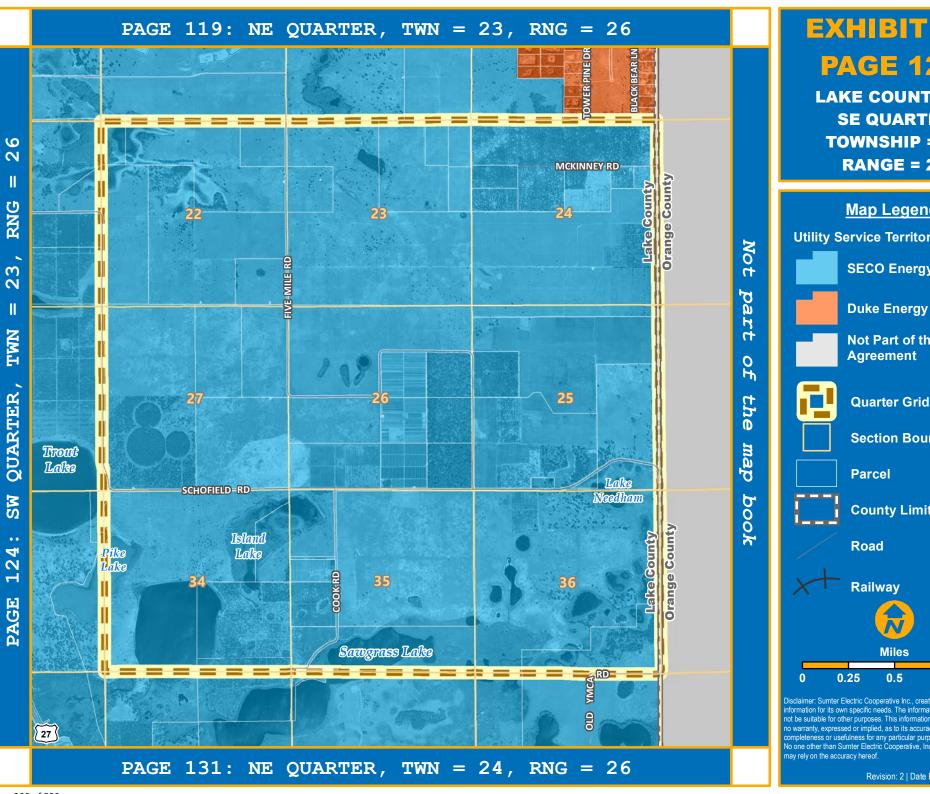

Thank you for your attention to this matter. Please feel free to call me at (850) 521-1428 should you have any questions concerning this filing.

Sincerely,

/s/ Matthew R. Bernier

Notification Letter to Temporary Service Customers Subject to Transfer Prior to Filing the Territorial Agreement

March 1, 2020

Joe Member 123 Street City, FL 33333

Re: account #/service address

Dear Member:

SECO Energy (SECO) and Duke Energy Florida (DEF) routinely enter into territorial agreements to establish the geographical boundaries each utility serves. Territorial agreements ensure that utilities are able to boost service reliability, efficiency and affordability by establishing a sole provider of electric service within the boundary. The proposed territorial agreement between DEF and SECO will help each utility avoid unnecessary duplication of electric facilities that serve customers.

SECO Energy and Duke Energy have amended the territorial agreement that revises portions of each utilities' geographical boundaries. This agreement will be filed with the Florida Public Service Commission (FPSC), and if approved, in the coming months, your electric service provider will transfer from SECO to DEF. No action is required on your part. SECO and DEF will execute your account's transfer arrangements on your behalf. You will be provided with additional information closer to the date of the actual meter exchange.

As part of the transfer, we are required to provide you with current rate information. In January 2020, the SECO Energy residential rate for 1,000 kilowatt-hours (kWh) was \$116.90. Duke Energy's residential rate for 1,000 kWh as of March 2020 is \$126.11. The rates of both utilities are subject to change and may be raised or lowered in the future.

Please contact SECO Energy at (352) 793-3801 if you have questions about the proposed transfer of your service to Duke Energy or for information about contacting the FPSC. We enjoyed serving you as a SECO Energy member but support the logic behind the change of service.

Sincerely,

Kathryn E. Gloria

RE: Account #

Dear Customer:

To ensure that electric utilities in Florida, such as Duke Energy Florida (DEF), are able to provide reliable and economical electric service to their customers, utilities enter into territorial agreements with one another establishing the geographical areas in which each utility is the exclusive provider of electric service.

We will soon enter into a territorial agreement with Sumter Electric Cooperative, Inc. (SECO) that will revise some of the electric service area boundaries between the utilities. The new territorial agreement must be approved by the Florida Public Service Commission (FPSC) before it can become effective and you will have the opportunity prior to that approval to provide your comments to the FPSC. If you wish, we will provide the contact information for the FPSC when the territorial agreement has been filed and docketed.

If the territorial agreement is approved by the FPSC, in the coming months, SECO will become your electric service provider and your electric account would be transferred to SECO. You will not need to do anything to initiate this transfer as DEF and SECO will handle all of the arrangements on your behalf. If you have a deposit with DEF, your deposit will be applied to your last electric bill and any surplus will be refunded directly to you.

To provide you with the most current rate comparison, as of February 2020, the average residential rate for DEF for 1,000 kWh was \$123.99 and the average commercial non-demand rate for 1,500 kWh was \$195.42. For the same month, the average residential rate for SECO for 1,000 kWh was \$119.89 and the average commercial non-demand rate for 1,500 kWh was \$173.69. The rates of both utilities are subject to periodic change and may be raised or lowered in the future.

While we at DEF regret losing the opportunity to serve you in the future, SECO is an excellent utility and we are confident you will find their service to be satisfactory.

Please contact me if you have any questions or concerns about the proposed transfer of your service to SECO, or if you would like information about contacting the FPSC. You can reach me at Duke Energy by phone at 1-888-442-0014. Please leave a message with your name, phone number and Duke Energy account number.

Sincerely,

Duke Energy Florida
