RE: **TL727**

Dear Ms. Salak:

Attached for filing, please find the following revisions for the Embarq Florida, Inc. General Exchange Tariff. This filing is submitted with a proposed effective date of June 19, 2006. Tariffs are available on its website at [www.embarq.com/tariffs](http://www.embarq.com/tariffs).

Section A2

Ninth Revised Sheet 61

This filing is submitted to offer a special promotion to business customers. During the period June 19, 2006 through September 16, 2006, existing business customers with five or more lines or trunks (including T1 based voice channel services such as ISDN BRI, Sprint Custom Access Solution, and Digital Trunking Service) who add ISDN BRI, Frame Relay, ATM, Digilink, Translink, Lightlink, OptiPoint or Sprint SONET Ring to their account, will receive a bill credit for the first month's service for each qualified service added to the customer's account. There is no limit to the number of qualified services that a customer can add to their account nor is there a limit to the number of times a customer can qualify for the bill credit during the promotional period. The bill credit for qualified services installed during this promotional period will be reflected on the customer's first bill immediately following the installation of qualified services. The first month's service for which the customer is credited will count as the first month of service where a minimum service period or term commitment period are applicable.

If a customer discontinues service for which credit was issued prior to the end of required service period, credits issued under this promotion will not be rescinded, and the customer is subject only to the applicable minimum service period or termination liability charges that are normally applicable for that service.
