**PRICE LIST FORMAT**

**PAGE NUMBERING** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the Price List. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new page added between pages 1 and 2 would be page 1.1.

**PAGE REVISION NUMBERS** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc., that the Commission follows in their Price List approval process, the most current sheet number on file with the Commission is not always the sheet in effect. Consult the Check Sheet currently in effect.

**CHECK SHEETS** - When a Price List filing is made with the Commission, an updated check sheet accompanies the Price List filing. The check sheet lists the sheets contained in the Price List, with a cross reference to the current revision number.

When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels are indicated on some sheets). The Price List user should refer to the latest check sheet to find if a particular sheet is the most current on file with the Commission.

A. Lingo offers optional discounts for Customers that agree to a term commitment of 12 months and 24 months. Customer is eligible for Price Protection Plan (“PPP”) term pricing only where Customer has a minimum of three Lingo Basic Business Lines within an account. The 24-month commitment also qualifies Customers for an Interexchange Service discount and a separate 12-month discount is also available for Interexchange Services as provided in Lingo’s FL P.S.C. Tariff No. 1.

B. Customers subscribing to the PPP must commit to a written term service agreement in a form designated by Lingo, which shall include, without limitation, Customer’s term selection.

C. The term will commence on the billing date for the first new line or the first billing date after Customer executes a term service agreement if the service is currently being provided to Customer.

D. All rules, regulations, fees, charges, taxes and surcharges normally applicable to Lingo Basic Business Line services shall apply. Any charges in any proposal or quotation are exclusive of taxes and surcharges. Term pricing may not be combined with any other offer.

E. If monthly term rates as specified in Section 4.2.1 decrease during the term period, Customer may elect to obtain the new rates by executing a new term service agreement with the new rates, with a new term commencement date, and an agreement to the same or greater commitment term period.

F. For Customers who establish a term service agreement, monthly Lingo Basic Business Lines rates will not change as a result of a Lingo-initiated increase; however, if a Local Exchange Rate Group Reclassification occurs, as set forth in this Price List, an adjustment for the remaining term of the term service agreement will be made.

## SECTION 4 – SERVICES (CONT'D.)

4.2 General Exchange Services (Cont'd.)4.2.8 Virtual Office Service

Virtual Office Service is a service whereby calls placed to a business customer's telephone number (the Virtual Office number) in one exchange are automatically forwarded to a telephone number (the terminating number) in another exchange. The Virtual Office number does not involve telephone equipment, a physical location, or manual input to initiate the forwarding of calls to the terminating number. When a Virtual Office number is called, it is intercepted at the local central office and automatically routed to whatever terminating number the customer designates. The forwarded calls can be local or toll, depending on the type of service to which the customer subscribes. The Virtual Office customer is responsible for any local usage or toll charges incurred between the customer's Virtual Office number and the terminating number. The Virtual Office number includes one path, which allows for one call to be forwarded at a time. Additional paths can be ordered to allow additional calls to be forwarded simultaneously. Virtual Office Service is available to Lingo business customers only.

Virtual Office Service is available in the following packages:

- Local Virtual Office Service
- Long Distance *Lingoual* Office Service

## A. Local Virtual Office Service

- The Virtual Office number and the terminating number are within the same local calling area.
- Unlimited local calling will be allowed between the Virtual Office number and the terminating number.

Monthly Rate

Local Virtual Office, with one path	\$18.50
Additional Local Path	18.50

## C. Regulations

1. A Virtual Office number cannot terminate on a public or semi-public service (coin telephone).
2. Virtual Office Service does not provide caller identification of the originating number to the terminating number.
3. A Virtual Office number is not suitable for data transmission.
4. The Virtual Office path is not released when the call is forwarded.
5. Virtual Office Service is subject to the availability of facilities.
6. Virtual Office Service cannot be suspended (vacation service).
7. Calls will only be allowed to be forwarded to a business line

**SECTION 4 – SERVICES (CONT'D.)****4.2 General Exchange Services (Cont'd.)****4.2.8 Virtual Office Service (Cont'd.)****D. Directory Listing**

One listing in the directory covering the exchange in which the Virtual Office number is located is provided without additional charge. Additional listings and other Directory Listing products may be purchased for the Virtual Office number.

- (1) The Service Charge applies to an order for new Virtual Office Service, to change the Virtual Office number, to change the number to which the number is forwarded, and to add additional paths, whether ordered at the time of conversion of service or on a subsequent order. Only one Service Charge will apply per request, regardless of the number of additions or changes made by the request. The Service Charge will not apply to convert the service and its existing path(s) to Lingo or on outside moves of customer's other service if there is no Virtual Office number or terminating number change.

When Lingo is selected as the customer's long distance carrier for its Virtual Office Service only, the default Lingo long distance rate, as set forth in the Company's Interexchange Tariff, FL P.S.C. No. 2, in Section 4.4.1, will apply to any long distance usage billed.
- (3) All Rules and Regulations found in the Company's Interexchange Tariff, FL P.S.C. No. 2, will apply to long distance services.

  1. Touch dialing
  2. Ability to access 9-1-1 Emergency Service (where available) and “0” operator (“0-minus”) without prior insertion of coins or credit card, to place calls to public safety agencies (i.e., police, fire, rescue) or to access such agencies directly, without prior insertion of coins or credit card.

1. Local and "1+" call blocking provides central office blocking of all local calls (7 digit) and direct dialed toll calls from coinless telephones. However, a uniform access code 950-XXXX assigned to a carrier for its international communications is not blocked but is routed to that carrier. The calls blocked include, but are not limited to, "1+", "10XXX+1", "10XXX+011", "101XXXX+1" and "101XXXX+011" type calls. This service is offered in serving offices where facilities exist.
2. This service is offered in serving offices where facilities exist.

Customers who elect not to subscribe to IDD call blocking shall be responsible for the payment of all charges associated with IDD calls and shall indemnify and hold Lingo harmless from any and all loss and expense occasioned by fraudulent international calls which may be placed from the COPT access line.

## D. Violation of Regulations

- If a COPT customer is in violation of a price list provision, the Company will notify the COPT customer of the violation in writing. Such notice must refer to the specific price list provisions being violated. The notice must state that the COPT customer is subject to disconnection by the Company of the instrument(s) in violation of the price list unless the violation is corrected, and the Company is notified, in writing, within 20 days of receipt of such notice that the violation has been corrected. The Company may disconnect the instrument(s) that are in violation of the price list on or after the 20th day after receipt of the notice by the COPT customer, if the COPT customer did not notify the Company in writing within 20 days of receipt of the notice that the violation was corrected. However, if the COPT customer has filed a complaint with the Commission regarding the disconnection and has the Company with a copy of the complaint that indicates that the complaint has been filed with the Commission's complaint office, within 20 days of receipt of the notice of violation the Company will not disconnect the instrument/s pending resolution of the complaint by the Commission.
- Pursuant to Florida Statute Title XXVII, Section 364.245, should a pay telephone service provider be found to be in violation of Commission Rules, the Company will disconnect the COPT service upon order of the Commission.
- Where a pay telephone is discovered to be connected to the network and is being billed under any price list other than the COPT section of this price list, the Company will back-bill the difference between the COPT rate for 12 months, and the rate the Customer actually paid, unless the Customer can show that the pay telephone instrument was connected at a later date, in which case the back-billing shall run from the date of connection.
- If a customer fails to pay the amount back-billed pursuant to the above-stated provision, the Company may suspend service on the COPT access line and on any other Business service provided by the Company to the COPT customer, until such time as the back-billed amount is paid in full.

SECTION 4 – SERVICES (CONT'D.)

4.2 General Exchange Services (Cont'd.)

4.2.27 Remote Call Forward

1. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (terminating station).

---

**LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES**

---

**SECTION 4 – SERVICES (CONT'D.)****4.2 General Exchange Services (Cont'd.)****4.2.27 Remote Call Forward (Cont'd.)****2. Limitations**

- (a). Remote Call Forwarding service is offered subject to availability of suitable facilities.
- (b). RCF is not offered where the terminating number is a coin or coinless pay telephone.
- (c). The Company does not guarantee identification of the originating telephone number to the Remote Call Forwarding customer.
- (d). Transmission quality may vary depending on the distance and routing necessary to complete a call. Since RCF service "tandems" two calls into one call, normal transmission quality is not assured for calls forwarded via RCF. Nonetheless, the resulting transmission performance will generally meet the RCF customer's voice-grade needs. Service arrangements which tandem more than two calls into one are more likely to result in unacceptable transmission quality; therefore, the Company will not knowingly forward calls via RCF to another telecommunications service arranged for permanent call forwarding. This policy can be administered only at the time RCF is ordered and applies only in the forwarding direction. The services to which RCF calls are forwarded are provided independent of the RCF service and may not be within the Company's jurisdiction. Further, such services can be changed subsequent to the provision of an RCF service. Consequently, it is impractical to assure that such increased tandem forwarding never occurs. Where the Company is aware of such a service configuration, it reserves the right to modify such arrangements. Modifications may include, but are not limited to, changing the associated forwarded to number or termination of the RCF service. The RCF customer will be responsible for normal tariff charges for such changes.
- (e). Remote Call Forwarding is not suitable for satisfactory transmission of data.
- (f). RCF is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If in the opinion of the Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will, where appropriate, be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities, said customer's RCF service shall be subject to termination.

## SECTION 4 – SERVICES (CONT'D.)

4.2 General Exchange Services (Cont'd.)

## 4.2.27 Remote Call Forward (Cont'd.)

(g). When the Call Forwarding number is to be located in a multi-office exchange, the Company will determine the serving central office.

(h). Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Call Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the exchange serving the terminating station have the identical local calling area within the same county or are within an Extended Area Service arrangement as specified in this Tariff. All other calls will be sent-paid (1+) only.

(i). Where a Business directory listing is provided for the RCF number, calls will not be forwarded to a Company-provided telephone service for which Residential rates apply.

(j). Where calls are to be forwarded to telephone service other than that of the RCF subscriber, it shall be the responsibility of the RCF subscriber to obtain permission for such forwarding from the subscriber to the other service and to determine a mutually acceptable number of access paths. Where the other subscriber contests such forwarding or the number of access paths, the Company reserves the right to modify the RCF service to the extent necessary to eliminate the other subscriber's complaint. The RCF subscriber shall be responsible for the tariffed charges for any resulting rearrangement of the RCF service.

## 3. Minimum Contract Period

The minimum contract period for this service is one month.

## 4. Charges

The following charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used.

## Monthly Rate

(a) Per feature arranged for other than local calling	\$26.05
(b) Per feature arranged for local calling	\$26.05
(c) Per additional access facility	\$26.05

**SECTION 4 – SERVICES (CONT'D.)****4.2 General Exchange Services (Cont'd.)****4.2.27 Remote Call Forward (Cont'd.)****5. Message Charges**

(a) The message charges applicable to remotely forwarded calls shall be comprised of two separate charges: (1) a charge for that portion of the call from the originating station to the call forwarding location, and (2) a charge for that portion of the call from the call forwarding location to the terminating station. The respective charge for each such portion shall be as follows:

- Between the originating station and all forwarding locations. The charge for this portion of a remotely forwarded call shall be the charge specified in this or any other applicable Tariff for the type of call involved.
- Between the call forwarding location and the terminating station. The Remote Call Forwarding customer is responsible for the applicable charges specified in this or any other applicable Tariff for other than seven- or ten-digit local calling. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

No message charges apply for seven- or ten-digit local calling.

**6. Remote Call Forward Additional Path \$26.05/each**

Additional paths may be provided to handle multiple calls to the Remote Call Forwarding number as long as there are at least an equal number of lines at the terminating end.
