ORDER APPROVING REVISION OF RATE STRUCTURE

BY THE COMMISSION:

On October 5, 1989, the City of Bushnell, through its consultant, R.W. Beck and Associates, filed a request for revision of the city's electric rate structure. Attached thereto were copies of the proposed electric rate tariff sheets for the City of Bushnell.

The city had prepared a cost of service study to test the adequacy of existing rate revenues for the upcoming fiscal years ending September 30, 1989, 1991 and 1992. Based on existing rates, the study revealed the following ratios of revenues to revenue requirements for the various rate classes:

Residential Service	(RS)	91.28%
General Service	(GS)	91.81%
General Service Demand	(GSD)	95.47%
Outside Lighting	(OL)	78.24%

Following the proposed increases, the ratios of revenues to revenue requirements will be:

RS	99.66%
GS	100.00%
GSD	100.079%
OL	89.55%

Rate structure will be improved by the anticipated movement of each class' revenues towards class' costs.

The cost of service study uses acceptable methodologies to estimate each class' revenue requirements and it appears that the City of Bushnell has made a commendable effort to avoid interclass subsidies.

In consideration of the foregoing, it is

ORDERED by the Florida Public Service Commission that the rate structure revisions associated with the City of Bushnell's proposed rate increase are hereby approved. It is further

ORDERED that this docket be closed on January 13, 1990, if no Motion for Reconsideration or Notice of Appeal is timely filed prior to that time.

By ORDER of the Florida Public Service Commission, this 12th day of DECEMBER, 1989.
