RULE TITLE:

Natural Gas Utility Modified

RULE NO.:

25-7.041, F.A.C.

Minimum Filing Requirements Report

PURPOSE AND EFFECT: Rule 25-7.041 implements the provisions of section 366.06(3)(a), F.S., which requires the Commission to adopt by rule Modified Minimum Filing Requirements for public natural gas utilities, and prescribes the schedule and procedures for filing the report.

SUMMARY: Proposed Rule 25-7.041 incorporates the Modified Minimum Filing Requirements report form and requires public natural gas utilities with total annual sales exceeding 50 million therms to file the report every four years, or four years from their most recently completed rate case, and smaller public natural gas utilities are required to file every five years. The data requested in the report is similar to but less exhaustive than the information required for Minimum Filing Requirements in existing Rule 25-7.039, F.A.C. It includes information about each utility's rate base, net operating income and cost of capital so the Commission and other interested parties may analyze the utility's earnings and determine whether the rates are reasonable and not unjustly discriminatory. The Commission is authorized to waive a specific requirement of the rule if a

ORDER NO. 24054
DOCKET NO. 900965-GU

is authorized to waive a specific requirement of the rule if a utility shows that it imposes an undue burden upon it, and submits a written request.

The rule provides that based on an audited MMFR report, the Commission may determine that rates and charges should be decreased for several reasons listed in the rule, and provides the action that can be taken by the Commission if it makes that determination.

RULEMAKING AUTHORITY: 350.127(2), 366.05(1), F.S.

LAW IMPLEMENTED: 366.06(3), F.S.

SUMMARY OF THE ESTIMATE OF ECONOMIC IMPACT OF THIS RULE: Rule 25-7.041 is not expected to cause additional expense to the companies affected by it or to the Commission. The filing requirements of the rule are the same as have been required by Commission orders since the Legislature enacted section 366.06(3), F.S., and are the minimum required for compliance with the statute.

WRITTEN COMMENTS OR SUGGESTIONS ON THE PROPOSED RULE MAY BE SUBMITTED TO THE FPSC, DIVISION OF RECORDS AND REPORTING, WITHIN 21 DAYS OF THE OF THE DATE OF THIS NOTICE FOR INCLUSION IN THE RECORD OF THE PROCEEDING. IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE TIME, DATE AND PLACE SHOWN BELOW:

TIME AND DATE: 9:30 A.M., Wednesday, March 27, 1991.

THE FULL TEXT OF THE RULES IS:

25-7.041 Natural Gas Utility Modified Minimum Filing Requirements Report.

(1) Each Public Natural Gas Utility whose gas sales exceed 50 million therms annually, shall file with the Commission's Division of Electric and Gas every 4 years, or 4 years from its most recent completed rate case, a report consisting of, at a minimum, the modified minimum filing requirements report (Modified MFR report). All Public Natural Gas Utilities with sales equal to or less than 50 million therms annually shall file the Modified MFR report every 5 years, or 5 years from its most recent completed rate case. The applicable filing time for the report shall be determined based on the company's annual therm sales in its most recent calendar year.

(2) For the purpose of this rule, the following definitions apply:

(a) "Most recent completed rate case" means the most recent of either:

1. The date of the Commission's final vote on the utility's petition for an increase or decrease in

its rates and charges in which the utility filed minimum filing requirements (MFR) pursuant to Rule 25-7.039; or

2. The date of the Commission's final vote on a Commission initiated investigation which results in a decrease or increase in the utility's rates and charges.

(b) "Modified Minimum Filing Requirements report" means the information required by Commission Form PSC/EAG 42 (/), entitled "Modified Minimum Filing Requirements", which form is incorporated into this rule by reference and may be obtained from the Commission's Division of Electric and Gas.

(c) "Annual Therm Sales" means the total annual volume of gas for which a utility charges a customer a delivery charge, regardless of whether the gas is system sales gas or customer-owned gas.

(3) The Director of the Division of Electric and Gas shall, no later than 6 months prior to the expiration of the applicable 4 or 5 year filing period, notify the utility in writing of the time period to be reported in the Modified MFR Report.

(4) The Modified MFR report shall be filed with the Commission's Division of Electric and Gas within 60 days after the expiration of the applicable 4 or 5 year filing period.

(5) In completing the required schedules, the utility shall

follow the policies, procedures and guidelines for completion of MFR's, as prescribed by Commission rules. These schedules shall be identified by using the word MODIFIED prior to each schedule identification.

(6) Each schedule of the report shall be typed, consecutively numbered, and printed on 8 1/2 x 11 inch paper.

(7) Each schedule shall indicate the name of the person responsible for and knowledgeable about its content.

(8) All schedules involving investment data shall be completed on an average investment basis unless a specific schedule requests otherwise.

(9) Based on an audited Modified MFR report, the Commission may determine that the rates and charges of the utility should be decreased based on the following reasons:

(a) Achieved earnings above the last authorized return on equity;

(b) Excessive return on equity; or

(c) Known or potential changes in plant investment, operating expenses, billing determinants, or other business conditions.

(10) If the Commission determines that the rates and charges of the utility should be decreased, the Commission may:

(a) Initiate a show cause proceeding requiring the utility to show cause why its rates and charges should not be reduced and

why a refund should not be required;

(b) Require the utility to hold monies subject to refund under bond or corporate undertaking; or

(c) Require the utility to file Minimum Filing Requirements pursuant to Rule 25-7.039.

(11) If at the time it is required to file a Modified MFR report, a utility has filed for general rate relief and has met the minimum filing requirements then in effect, the utility may petition the Commission for relief from the requirement to file the Modified MFR report.

(12) The utility shall serve a copy of the Modified MFR report on the Office of the Public Counsel and each party to its most recent completed rate case concurrently with the filing of 20 copies with the Commission.

(13) The Director of the Division of Electric and Gas shall determine whether the utility has met the requirements imposed by this rule. Upon written request of the utility, the Commission may waive a specific requirement of this rule if it is shown that such filing places an undue burden on the utility.
