ORDER GRANTING CERTAIN REQUESTS FOR MODIFICATION OR WAIVER OF MINIMUM FILING REQUIREMENTS

By letter dated April 7, 1992 Tampa Electric Company (TECO) requested approval of a test year. TECO also requested certain modifications and waivers of the company's minimum filing requirements. Rule 25-6.043(3) F.A.C. permits the Commission to waive the minimum filing requirements. Having reviewed the requests, I find that they should be approved or denied as follows:

SCHEDULE

All E Schedules (Cost of Service Study)

TECO has requested to substitute a cost of service study utilizing the 12 CP and 1/13 cost of service methodology for the Equivalent Peaker method. The Equivalent Peaker method was the method approved in its last rate case. TECO has maintained in several forums that it is unduly disadvantaged by being the only investor-owned utility for which the Equivalent Peaker Cost of Service Methodology has been adopted. Whether or not TECO's belief concerning the adoption of its previous cost methodology is substantiated through the hearing process, the fact remains that the MFR's clearly require a utility to file the cost of service study based on the methodology approved in the Company's last rate case.

Denial of the waiver does not in any way prohibit TECO from filing any cost methodology they believe appropriate. It simply assures that the Commission and all interested parties have information which is available in other rate cases, specifically, cost allocations based on the last approved cost methodology. For these reasons, the requested waiver is denied.

Accordingly, it is

ORDERED by Commissioner J. Terry Deason, Prehearing Officer, that the requests for modification or waiver of certain Minimum Filing Requirements are approved or denied as detailed in this Order.

By ORDER of Commissioner J. Terry Deason, Prehearing Officer, this 29th day of April , 1992 .
