ORDER GRANTING MOTION FOR EXTENSION OF TIME

BY THE COMMISSION:

By Order No. PSC-94-0136-PCO-TL, issued February 3, 1994, this Commission directed BellSouth Telecommunications, Inc. d/b/a Southern Bell Telephone and Telegraph Company (Southern Bell) and United Telephone Company of Florida (United) to perform certain traffic studies. The companies were to perform these traffic studies to facilitate further evaluation of Resolution No. 1993-99 filed with this Commission by the Lake County Board of County Commissioners. This resolution requested extended area service (EAS) between the Deland exchange and the Eustis, Mt. Dora, and Umatilla exchanges. The Deland exchange is served by Southern Bell and is located in the Daytona Beach LATA (local access transport area), while the other three exchanges are served by United and are located in the Gainesville LATA. The companies were directed to submit the studies by May 4, 1994.

On April 11, 1994, United filed a Motion for Extension of Time requesting through and including July 1, 1994, to prepare and submit the required traffic studies. As grounds for its request, United states that it is currently undertaking a major upgrade of its message accounting system. As part of this upgrade, United is replacing its toll processing and control system, which rates and edits United toll messages, with a local message processing system. While the system changeover is taking place, United's ability to conduct traffic studies will be impaired. United estimates that it can complete the traffic studies by July 1, 1994. No reply to the Motion for Extension of Time has been filed.

Upon consideration, United's Motion for Extension of Time should be granted. Accordingly, United shall prepare and submit the required traffic studies by the close of business on July 1, 1994.
