ORDER CLOSING DOCKET

BY THE COMMISSION:

Before the 1995 Legislative session Section 366.06(3)(a), Florida Statutes, required each public electric utility making more than 1 million megawatt-hours (MWHs) of total sales annually to comply with Commission-established modified minimum filing requirements (MMFRs) every four years from the date of the utility's last full rate case.

On September 13, 1994, Gulf Power Company filed its 1994 Quadrennial Modified Minimum Filing Requirements in compliance with the statute and the Commission's rules. After Gulf made its filing, the Florida Legislature repealed Section 366.06(3)(a). The repeal affected future filings as well as those currently pending before the Commission.

Since MMFRs are no longer required, this docket should be closed. We will continue to monitor the Company's earnings through its earnings surveillance reports and its forecasted earning surveillance reports.

Based on the foregoing, it is, therefore,

ORDERED by the Florida Public Service Commission that this docket shall be closed.
