NOTICE OF PROPOSED AGENCY ACTION
ORDER GRANTING CERTIFICATE TO PROVIDE ALTERNATIVE
LOCAL EXCHANGE TELECOMMUNICATIONS SERVICE

BY THE COMMISSION:

NOTICE IS HEREBY GIVEN by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code.

On November 3, 1995, Sprint Metropolitan Networks, Inc. (Sprint) filed an application to provide alternative local exchange telecommunications service pursuant to Section 364.337(1), Florida Statutes. Section 364.337(1), Florida Statutes, requires us to grant a certificate to provide alternative local exchange telecommunications service upon a showing that the applicant has sufficient technical, financial, and managerial capability to provide such service in the geographic area proposed to be served.

Upon review of Sprint's application, we find that Sprint has sufficient technical, financial, and managerial capability to provide alternative local exchange telecommunications service. A review of Sprint's financial records filed in Docket No. 951370-TI showed Sprint has sufficient financial resources to provide the proposed telecommunications service. Since Sprint will not collect deposits or advance payments, no customer-provided funds are at risk.

Therefore, we grant Sprint Certificate No. 4390 to provide alternative local exchange telecommunications service. Sprint should retain this Order as evidence of certification by this Commission.

The authority granted by this certificate is statewide, except as limited by Section 364.337(1), Florida Statutes. Alternative local exchange telecommunications providers (ALECs) may not provide basic local telecommunications services within the territory served by a company subject to Chapter 364.051, Florida Statutes, prior to January 1, 2001, unless the small local exchange telecommunications company elects price regulation.

ALECs may not begin operation until January 1, 1996. Companies are required to comply with Chapter 364, Florida Statutes, Chapters 25-22 and 25-24, Florida Administrative Code, and other Rules and Orders lawfully promulgated by this Commission.

To ensure that Florida end users are allowed high quality access to emergency services, Section 364.337(2), Florida Statutes, provides that each ALEC that provides basic local telecommunications service must provide access to 911 services. We find that the statute requires that ALECs that provide basic local telecommunications services must provide access to 911 services at the same level as access provided by the local exchange company (LEC) serving the same area.

We have no specific rules on what a LEC or an ALEC must provide in terms of 911 service access. This could result in an ALEC offering access to 911 service which is inferior in some way to the 911 service access provided by the LEC in that same area. For example, a LEC might provide both automatic number identification and automatic location information to the public service answering point while the ALEC might only provide the telephone number of the calling party. Inferior 911 access could result in death or serious injury. Although the issue of 911 access may be resolved in other dockets, we believe ALECs should be put on notice that 911 service must be at a level equivalent to that provided by the LEC serving that same area.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that Sprint Metropolitan Networks, Inc. is hereby granted Certificate No. 4390 to operate as an alternative local exchange telecommunications company effective when this order becomes final. It is further
