ORDER CLOSING DOCKET

BY THE COMMISSION:

On January 24, 1996, we opened this docket to review the dialing patterns associated with the implementation of BellSouth's Extended Calling Service (ECS) routes addressed in Orders Nos. PSC-95-1391-FOF-TL and PSC-96-0123-FOF-TL. In these Orders, we established 7-digit and 10-digit dialing patterns for various ECS routes.

On April 25, 1996, we issued Order No. PSC-96-0558-FOF-TP addressing the specific dialing patterns to be used for each ECS route identified in the previous orders, and we clarified what the dialing patterns should be for the Southeast LATA. The directives from Order No. PSC-96-0558-FOF-TP are listed below:

1. We required BellSouth to implement 1+10-digit dialing on all routes to be converted from toll to ECS.
2. We required BellSouth to retain 7-digit dialing for all routes, except the lone Local Calling Plan (LCP) route in the Southeast LATA, to be converted from an existing 7-digit calling plan to ECS.

3. We identified the specific dialing patterns to be implemented for Local, Extended Area Service (EAS) between 561 and 954, EAS between Hollywood and North Dade, and ECS routes.

We kept this docket open to address any problems that may not have been considered in our original decision to implement the dialing patterns discussed above. Although there may be some dialing changes that will be necessary for compliance with the Telecommunication Act of 1996, we are not aware of any pending problems with the dialing patterns listed above. Therefore, we will close this docket.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that this Docket shall be closed.

By ORDER of the Florida Public Service Commission this 20th day of October, 1997.
