BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Fuel and purchased power cost recovery clause with generating performance incentive factor. DOCKET NO. 030001-EI ORDER NO. PSC-03-0034-CFO-EI ISSUED: January 6, 2003

ORDER GRANTING REQUEST FOR CONFIDENTIAL CLASSIFICATION (DOCUMENT NO. 10531-02)

On October 1, 2002, pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Florida Power Corporation (Florida Power) filed a request for confidential classification of Section IV of its Risk Management Plan, "Fuel Procurement and Wholesale Purchased Power Plans for 2003," filed in this docket (Document No. 10531-02).

Section 366.093(1), Florida Statutes, provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act]." Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3)(d), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to, "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms." Further, Section 366.093(3)(e), Florida Statutes, provides that proprietary confidential business information includes "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

Florida Power contends that the information in Section IV of its Risk Management Plan (page 6, all lines under the headings "Coal," "Oil," "Natural Gas," and "Purchased Power") falls within these categories and thus constitutes proprietary confidential

business information entitled to protection under Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. Florida Power states that this information is intended to be and is treated by Florida Power as private and has not been publicly Florida Power asserts that disclosure of this disclosed. would provide highly sensitive information to information recipients regarding the manner and timing of Florida Power's entry into the fuel and commodities markets. Florida Power further asserts that knowledge of this information would allow the opportunity for market manipulation through transactions made in anticipation of Florida Power's entry into the market. In addition, Florida Power contends that such market manipulations would have the effect of increasing the price of fuel paid by Florida Power's customers and would increase the price paid by Florida Power to hedge the customer's price of fuel. Florida Power concludes that these effects of disclosure would impair its efforts to contract for goods and services on favorable terms for the benefit of its customers.

Upon review, it appears that the information in Section IV of Florida Power's Risk Management Plan satisfies the criteria set forth in Section 366.093(3), Florida Statutes, for classification as proprietary confidential business information and, thus, shall be treated as confidential. Specifically, the information in Section IV constitutes "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, this information is granted confidential classification.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless Florida Power or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

ORDER NO. PSC-03-0034-CFO-EI DOCKET NO. 030001-EI PAGE 3

Based on the foregoing, it is

ORDERED by Commissioner Michael A. Palecki, as Prehearing Officer, that Florida Power Corporation's Request for Confidential Classification of Document No. 10531-02 is granted. It is further
