DOCKET NO. 090001-EI  
ORDER NO. PSC-09-0486-CFO-EI  
ISSUED: July 6, 2009

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S  
REQUEST FOR CONFIDENTIAL CLASSIFICATION  
(DOCUMENT NO. 00805-08)

On January 31, 2008, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a request for confidential classification of certain information on fuel hedging activities contained in Exhibit 3 to FPL's Petition for Approval of Improved Volatility Mitigation Mechanism (Document No. 00805-08). This request was filed in Docket No. 080001-EI.

Request for Confidential Classification

Section 366.093(1), F.S., provides that "any records received by the Commission which are shown and found by the Commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Paragraphs (a), (d), and (e) of Section 366.093(3), F.S., provide that proprietary confidential business information includes, but is not limited to "[t]rade secrets;" "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

FPL contends that the information contained in Exhibit 3 to its Petition for Approval of Improved Volatility Mitigation Mechanism, as more specifically described in the table in Attachment A, falls within the ambit of Section 366.093(3), F.S., and, thus, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. FPL states that this information is intended to be and is treated by FPL as private and has not been publicly disclosed.

FPL specifically argues that the information in question constitutes "trade secrets," which allow FPL to purchase and sell fuel and electric power on favorable terms for FPL and its customers. FPL maintains that the disclosure of such information would provide other participants in the fuel and electric power markets insight into FPL's marketing and trading practices. FPL insists that this would allow competitors to anticipate FPL's marketing and

trading decisions and/or impair FPL's ability to negotiate, to the detriment of FPL and its customers.

Ruling

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information and, thus, shall be treated as confidential. While it is not clear that this information constitutes "trade secrets" as that term is used in Section 366.093(3)(a), F.S., the information constitutes "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, the information identified in Document No. 00805-08 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Katrina J. McMurrin, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 00805-08 is granted. It is further

ORDERED that the information in Document No. 00805-08 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Katrina J. McMurrian, as Prehearing Officer, this 6th  
day of July, 2009.
