In re: Nuclear cost recovery clause.

DOCKET NO. 150009-EI
ORDER NO. PSC-15-0544-CFO-EI
ISSUED: November 24, 2015

ORDER GRANTING DUKE ENERGY FLORIDA, LLC'S REQUEST FOR EXTENSION OF
CONFIDENTIAL CLASSIFICATION (DOCUMENT NO. 02827-13 [x ref. DN 02385-13])

On July 29, 2015, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Duke Energy Florida, LLC (DEF) filed its First Request for Extension of Confidential Classification (Request) of portions of certain documents and hearing exhibits filed in Docket No. 130009-EI (Hearing Exhibits) (Document No. 02827-13). This Request was filed in Docket No. 150009-EI.

Request for Confidential Classification

DEF's original request for confidential treatment of information provided in the hearing exhibits was granted by Order No. PSC-14-0065-CFO-EI, issued January 29, 2014. DEF maintains that certain documents identified in its request contains contractual terms and costs related to DEF's nuclear projects, the disclosure of which would harm DEF's competitive business interests and in many cases violate contractual confidentiality clauses. DEF has not disclosed the information to the public, and continues to follow strict procedures to maintain the confidentiality of the information, including restricting access to those persons who need the information to assist DEF.

DEF's Request incorporates by reference and adopts the arguments propounded in its original request. Specifically, DEF asserts that this information contains confidential, proprietary business information regarding equipment, materials, and services for the Levy Nuclear Project and the Crystal River Unit 3 Power Uprate Project. DEF also asserts that these documents include close out strategy and disposition information for the engineering, procurement and construction (EPU) project and pricing arrangements and agreements made with third parties that would adversely impact DEF's competitive interests if disclosed to the public. Therefore, DEF argues, this information is entitled to protection under Section 366.93(d) and (e), F.S. DEF contends that nothing has changed since the issuance of the original order that would render the information stale or public, such that continued confidential treatment would no longer be appropriate.

Ruling

Section 366.093(1), F.S., provides that records that the Florida Public Service Commission (Commission) has found to contain proprietary confidential business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is

treated by DEF as private, in that disclosure of the information would cause harm to DEF's ratepayers or business operations, and that has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides, in pertinent part, that proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for continued classification as proprietary confidential business information. The information described above appears to be information concerning bids or other contractual data, the disclosure of which would impair the efforts of DEF or its affiliates to contract for goods or services on favorable terms and information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information. Thus, the information identified in Document No. 02827-13 shall be granted a continuation of confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless DEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Chairman Art Graham, as Prehearing Officer, that Duke Energy Florida, LLC's Request for Extension of Confidential Classification is granted. It is further

ORDERED that the information contained in Document No. 02827-13, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that this Order will be the only notification by the Commission to the parties concerning the expiration of the confidentiality time period.

By ORDER of Chairman Art Graham, as Prehearing Officer, this 24th day of November, 2015.
