Beth Salak, Director
Telecommunications
Florida Public Service Commission
Attn: Tariff Section
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Dear Mrs. Salak:

AT&T Communications of the Southern States LLC d/b/a AT&T (TA062) hereby files the attached tariff pages revising its Access Tariff.

Access Services Tariff

Section E2	Second Revised Page 20
	First Revised Page 21
	First Revised Page 22
	First Revised Page 23

This tariff modifies treatment of VoIP minutes of use, dedicated facilities, and the associated rates. The tariff is effective on May 12, 2014.

Acknowledgment, date of receipt and authority number of this filing are requested.

Your consideration and approval will be appreciated.

Yours very truly,

Stan Greer

ACCESS SERVICES AND NETWORK INTERCONNECTION SERVICES

ISSUED: MAY 9, 2014

SECTION 2

EFFECTIVE: MAY 12, 2014

2ND REVISED PAGE 20

BY: LINDA GUAY-TARIFF ADMINISTRATOR

CANCELS 1ST REVISED PAGE 20

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.10 Determination of Charges for Mixed Intrastate, Interstate
and/or Local Usage (continued)

Identification and Rating of VoIP-PSTN Traffic (continued)

A. Scope (continued)

1. This section governs the identification of originating and terminating intrastate toll VoIP-PSTN traffic and facilities to which interstate switched access rates apply (unless the parties have agreed otherwise) in accordance with the transitional Intercarrier Compensation framework for VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method that will be used to identify the percentage of the customer's intrastate access traffic, that will be treated as intrastate toll VoIP-PSTN traffic (referred to in this tariff as " Relevant VoIP-PSTN Traffic"),
2. This section applies to originating and terminating intrastate switched access minutes of use ("MOU") and facility rate elements of all Access customers.
3. The customer shall not modify its reported PIU factor to account for the VoIP-PSTN Traffic for MOU and facility rate elements.

B. Rating of VoIP-PSTN Traffic *

The Relevant VoIP-PSTN Traffic exchanged between the customer and the company or other provider and facility rate elements identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed interstate switched access rates as specified in AT&T FCC Tariff No. 2 at <http://serviceguide.att.com/ABS/ext/TariffDetails.cfm> unless the corresponding intrastate rates are lower. If the Florida state access rates are lower, then that rate will be used for billing. Hereafter, these billed rates will be referred to in this tariff as the relevant "VoIP Rates."

(T)

(T)

(T)

* Consistent with FCC regulations (47 CFR 51.913(a)), for the period of July 2012 through June 2014 Intrastate VOIP originating usage and originating dedicated facilities charges are required to be at the Intrastate rate and rate structure. Effective July 1, 2013, the Terminating usage and dedicated facilities are at the Interstate rate structure and the lower of the Interstate or Intrastate rates.

ACCESS SERVICES AND NETWORK INTERCONNECTION SERVICES

ISSUED: MAY 9, 2014

SECTION 2

EFFECTIVE: MAY 12, 2014

1ST REVISED PAGE 21

BY: LINDA GUAY-TARIFF ADMINISTRATOR

CANCELS ORIGINAL PAGE 21

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.10. Determination of Charges for Mixed Intrastate, Interstate
and/or Local Usage (continued)

Identification and Rating of VoIP-PSTN Traffic (continued)

C. Calculation and Application of Percent-VoIP-Usage Factors

The Company will determine the number of Relevant VoIP-PSTN
Traffic originating MOU and the originating facility rate
elements, effective July 1, 2014, to which VOIP rates will be
applied under subsection (B), above, by applying the Percent VoIP
Usage ("PVU") factor to the intrastate access originating MOU
exchanged and the facilities between the Company and the
customer. The PVU factors will be derived and applied as follows:

(C)
(C)
(C)
(C)

1. The customer will calculate and furnish to the Company a factor
(the "PVUC") on an ACNA basis which would aggregate traffic from
all Carrier Identification Code(s) ("CIC") or Operating Company
Numbers ("OCNs") associated with the ACNA. This PVUC represents
the percentage (whole number) of the originating intrastate
access MOU that the customer receives from the Company end users
in the state, which is sent from the Company that is terminated
in IP format at the Customer's end user. This PVUC shall be
based on information such as the number of the customer's retail
VoIP subscriptions in the state (e.g., as reported on FCC Form
477), traffic studies, actual call detail, or other relevant and
verifiable information satisfactory to the Company.

(C)
(C)
|
(C)

2. The Company will calculate and periodically update a factor
(the "PVUT") representing the percentage (whole number) of the
total intrastate access MOU that the Company exchanges with the
customer's end users in the state, which is received from the
Customer and terminated in IP format at the end user. This PVUT
shall be based on information such as the number of the the
customers retail VoIP subscriptions in the state (e.g., as
reported on FCC Form 477), traffic studies, actual call detail,
or other relevant and verifiable information.

SECTION 2

EFFECTIVE: MAY 12, 2014

1ST REVISED PAGE 22

BY: LINDA GUAY-TARIEFF ADMINISTRATOR

CANCELS ORIGINAL PAGE 22

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.10 Determination of Charges for Mixed Intrastate, Interstate
and/or Local Usage (continued)

Identification and Rating of VoIP-PSTN Traffic (continued)

C. Calculation and Application of Percent-VoIP-Usage Factors
(continued)

3. The Company will develop a Customer Percent VoIP Usage ("PVU")
factors combining the Customer's PVUC factor with the Company's
PVUT factor.

a. The PVU calculation below is applied when the Company does not
bill based on actual call detail records for the intrastate
Company's IP traffic at VOIP rates.

PVU = PVUC + [PVUT x (1-PVUC)] is applied to the Company's end
user's originating intrastate MOU and facility rate elements (C)

Example: The customer reported that their PVUC as 40%. The Company's
PVUT is 10%. This results in the following:

$PVU = 40\% \text{ plus } (10\% \text{ times } (1-40\%)) = 46\%$

This means that 46% of the originating Intrastate MOU exchanged (C)
between the customer and the Company's end users will be rated at (C)
VOIP rates.

ACCESS SERVICES AND NETWORK INTERCONNECTION SERVICES

ISSUED: MAY 9, 2014

SECTION 2

EFFECTIVE: MAY 12, 2014

1ST REVISED PAGE 23

BY: LINDA GUAY-TARIEFF ADMINISTRATOR

CANCELS ORIGINAL PAGE 23

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.10 Determination of Charges for Mixed Intrastate, Interstate
and/or Local Usage (continued)

Identification and Rating of VoIP-PSTN Traffic (continued)

C. Calculation and Application of Percent-VoIP-Usage Factors
(continued)

3. (continued)

- b. The PVU calculation below is applied when the Company bills are based on the actual originating call detail records for the intrastate Company's intrastate IP traffic at VOIP rates. (C)
(C)

The formula for usage will be as follows:

$PVU = PVUC \times (1 - PVUT)$ applied to the Company's TDM end user's total intrastate MOU. (C)

$PVU = PVUC + [PVUT \times (1 - PVUC)]$ applied to the facility rate elements (C)

Example: The Company has identified that there was 10,500 originating Intrastate MOU that were identified exchanged between the Company's IP end users and the customer. The Customer reported their PVUC as 40%. The Company's PVUT is 10%. This results in the following: (C)
(C)

$PVU = 40\% \text{ times } (1 - 10\%) = 36\%$

This means that 36% of the originating Intrastate MOU exchanged between the Customer and the Company's TDM end users will be rated at VOIP rates and the terminating intrastate 10,500 MOU will also be rated at VOIP rates. (C)
(C)
(C)

For the facility rate elements the formula that is applied to the intrastate dedicated facilities is as follows:

$PVU = 40\% \text{ plus } (10\% \text{ times } (1 - 40\%)) = 46\%$

Therefore 46% of the Intrastate facilities will be rated at VOIP rates.

4. If the customer does not furnish the Company with a PVUC pursuant to the preceding paragraph (C) (1), the Company will utilize a customer PVUC of 0%.
