Ms. Beth W. Salak, Director
Division of Telecommunications
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Dear Ms. Salak:

Pursuant to the Federal Communication Commission's Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161, 26 FCC Rcd 17663 (November 18, 2011) ("FCC Order") reforming the intercarrier compensation and universal service systems, Verizon Florida LLC (TL710) hereby files the attached switched access tariff pages to reflect implementation of the FCC's Step 3 (or "Phase" 3) Transitional Intrastate Access Service rate reductions to take effect July 1, 2014.

Canceling Third Revised Page 7
Canceling Twelfth Revised Page 28
Canceling First Revised Page 30.7
Canceling Third Revised Page 35.1.2

These enclosed tariff pages reflect the following changes:

- Terminating switched access minute of use billing is reduced by one-third of the difference between current rates and \$.0007. This is accomplished through the introduction of a new Composite Terminating End Office Charge ("CTEOC").
- Terminating Local Switching and Shared End Office minute-of-use rates have been zero rated.
- A new billing factor has been introduced to only bill the originating portion of the Dedicated End Office Trunk Port.

Letter to Ms. Salak

6. SWITCHED ACCESS

6.2 Description of Switched Access (Continued)6.2.4 Description of End Office Services

End Office Services provide the end user termination functions and end office switching necessary to complete the transmission of Switched Access communications to and from the end users served by the end office. End Office Services Optional Arrangements are available as defined in 6.2.5.

End Office Services are provided in association with Switched Transport when ordered as set forth in Section 5. End Office Services will be provided as one of the following types: Feature Group A (FGA), Feature Group B (FGB), Feature Group C (FGC), Feature Group D (FGD), Basic Serving Arrangement-A (BSA-A), Basic Serving Arrangement-B (BSA-B), Basic Serving Arrangement-C (BSA-C), Basic Serving Arrangement-D (BSA-D) and SAC Access Service.

The number of End Office Service transmission paths and line terminations provided will be determined by the Telephone Company based on standard traffic engineering methods.

The rates are further differentiated based upon the directionality of the traffic carried over the Switched Access Service. (N)

End Office Switching is not provided in conjunction with switched access minutes of use that originate or terminate at a Mobile Telephone Switching Office (MTSO) directly interconnected to a Telephone Company access tandem office.

End Office Switching provides the following:

- The facilities to terminate end user Common Lines in end office switches or Local Channels in WATS Serving Offices.
- The end office switching functions necessary to complete a Switched Access Communication to or from end user Common Lines or Local Channels served by the end office.
- The termination of a call at a Telephone Company intercept operator or recording. The operator or recording tells a caller why a call, as dialed, could not be completed, and if possible, provides the correct number.

End Office Switching is divided into two categories; End Office Switching - Bundled (EOSB) and End Office Switching - Unbundled (EOSU). Application of the charges is in 6.5.2(H)(5) and the rates are in 6.6.3(B), (C) and (D).

6. SWITCHED ACCESS

6.5 Rate and Charge Regulations (Continued)

6.5.1 Rate Elements (Continued)

(A) Continued

- Cross Connect Charge
- End Office Switching
- Composite Terminating End Office Charge
- Dedicated Trunk Port
- Shared Trunk Port
- Transitional Intrastate Access Charge

(N)

FGB, FGC, FGD, BSA-B, BSA-C, BSA-D and SAC Access Service are also subject to the Network Blocking charge per call as set forth in 6.5.2(C).

6.5.2 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Switched Access including SAC Access service.

(A) Types of Rates and Charges

There are two types of rates and charges that apply to Switched Access. These are usage rates and nonrecurring charges. They are described as:

(1) Usage Rates

Usage rates are rates that apply only when a specific rate element is used. These are applied on a per Access Minute basis.

The Composite Terminating End Office Charge will apply to all terminating access minutes of use.

(N)

(2) Flat Rated

Flat rates apply, on a per month basis, regardless of the amount of rate element usage. Flat rates may be either distance-sensitive or nondistance-sensitive.

Direct-Trunked Transport is flat-rated and, with the exception of Voiceband Transport, is both distance and nondistance-sensitive. Voiceband Transport is distance-sensitive only.

The Entrance Facility is flat-rated and is nondistance-sensitive.

Multiplexing and the Cross Connection charge are both flat-rated elements.

Dedicated Multiplexing, the Cross Connect charge, and Dedicated Trunk Port charge are all flat-rated elements.

6. SWITCHED ACCESS

6.5 Rate and Charge Regulations (Continued)

6.5.2 Rate Regulations (Continued)

(H) Description and Application of Rates (Continued)

(3) Shared Trunk Port Charge

The Shared Trunk Port provides for the termination of a Tandem-Switched Trunk at an end office. The Shared Trunk Port is usage rated and shall be assessed to all access minutes which utilize Tandem-Switched Transport. This includes minutes of use associated with FGA service when traffic is terminated in an end office that is not the dial tone office and on minutes of use provided at a remote office.

The Shared Trunk Port charge will not apply to access minutes that originate or terminate at the end office part of a Class 4/5 switch.

The Shared Trunk Port charge does not apply to switched access minutes of use that originate or terminate at MTSOs directly interconnected to a Telephone Company access tandem.

When the Tandem-Switched Transport is provided by more than one telephone company, the Shared Trunk Port charge shall be billed by the Telephone Company in whose territory the end office is located.

(4) Transitional Intrastate Access Charge

A Transitional Per-Minute Charge will apply from July 1, 2012 through June 30, 2013 to all Transitional Intrastate Access Service end-office switching minutes, as defined in 47 C.F.R. 51.903(j). The charge will be calculated as set forth in 47 C.F.R. §51.907(b)(2)(v). The charge will be eliminated July 1, 2013.

(5) End Office Switching

End Office Switching is available on a bundled or unbundled basis. End Office Switching - Bundled (EOSB) rates apply to Switched Access services provided as Feature Groups. End Office Switching - Unbundled (EOSU) rates apply to Switched Access services provided as Basic Serving Arrangements.

(6) Composite Terminating End Office Charge

The Composite Terminating End Office Charge will apply to all terminating access minutes of use.

(N)
 |
 (N)

(7) (Reserved for Future Use)

(8) NXX Translation Nonrecurring Charge

The NXX Translation Nonrecurring Charge, as set forth in 6.6.1(F), shall apply to each 500 NXX code activated or deactivated in a Telephone Company switch capable of performing the customer identification function for 500 SAC Access Service. The total nonrecurring charge per customer order shall be determined by multiplying the number of switches in which the Telephone Company must activate or deactivate the NXX code within the serving area specified by the customer's order times the appropriate nonrecurring charge. Separate nonrecurring charges apply to the activation or deactivation of the first NXX code contained on the customer's ASR and to the activation or deactivation of each additional NXX code contained on the same ASR. In addition, the Switched Access Ordering Charge, as set forth in 6.6.1(B) will apply per ASR submitted for the activation or deactivation of NXX codes.

6.6 Rates and Charges (Continued)

6.6.3 End Office Services (Continued)

(D) End Office Switching - Unbundled (EOSU) - Circuit Switched Trunk

The unbundled rates for End Office Switching are based on originating and terminating Access Minutes.

	<u>Originating</u>	<u>Terminating</u>	
<u>Unbundled Rates-Circuit Switched Trunk (EOSU)</u> Per Access Minute	.0072795	For rates see FCC 14, Section 4	
(E) <u>Shared Trunk Port</u> Per MOU	For rates see FCC 14, Section 4	For rates see FCC 14, Section 4	
(F) <u>Transitional Intrastate Access Charge</u> ¹	-	.013541	
(G) Composite Terminating End Office Charge - Per Terminating Minute of Use	-	0.003136	(N) (N)
(H) <u>Alternate Traffic Routing - BSE</u> Nonrecurring Charge Per Trunk Group Equipped		\$ 70.92	(T) (CF3AR)
(I) <u>Automatic Number Identification (ANI) - BSE</u> Rate Per ANI Attempt		.00015	(T)
(J) <u>User Transfer - BSE</u> Monthly Rate Per Line Arranged		1.50	(T) (EO3)
(K) <u>Hunt Group Arrangement - BSE</u> Monthly Rate Per Line Equipped		11.02	(T) (CF3HG)
(L) <u>Queuing - BSE</u> Monthly Rate Per Group Equipped		15.00	(T) (CF3QU)
(M) <u>Uniform Call Distribution - BSE</u> Monthly Rate Per Line Equipped		5.28	(T) (CF3UD)

¹ The Transitional Terminating Access Charge is applicable from July 1, 2012 through June 30, 2013. This charge will be eliminated July 1, 2013.
