EXECUTIVE SUMMARY

Introduction

At the present time, Caller ID Deluxe is provided in the 1AESS, 5ESS, and EWSD central offices; however, only Calling Number has been available in DMS central offices. This filing will bring DMS switch type customers the same functionality as the others.

This feature will only be provided for BellSouth Centrex Service and is not available for ESSX or MultiServ customers even by Special Assembly. BellSouth Centrex Caller ID Deluxe will be a standard DMS feature for BellSouth Centrex Service, to be added to the existing BellSouth Centrex tariff (A12.25.12).

All Centrex DMS customers will be targeted for this feature that has become a de facto standard. Notification will be sent to customers making them aware of the availability of the feature. Customers who have purchased this feature via special assembly will be converted to the tariff at no charge.

Description of Proposed Tariff

BellSouth Centrex Caller ID Deluxe (consisting of both Calling Number and Calling Name functions) will be a standard feature for BellSouth Centrex service in DMS-100 switch types. It will be added to the existing BellSouth Centrex tariff standard features section in A12.25.

Cost Information

BellSouth will cover its cost for this feature with the provision of Centrex service.
