E5. ORDERING OPTIONS FOR ACCESS SERVICES

E5.2 Access Order (Cont'd)

E5.2.4 Cancellation of an Access Order (Cont'd)

5. The provisions of Sections E5.2.4.D.1-4 above shall not apply to cancellations of Access Orders for AT&T Switched Ethernet Service. Cancellation charges for AT&T Switched Ethernet Service are applied based upon the tiered fee schedule outlined below. When an IC cancels an Access Order (or a part of an order) for AT&T Switched Ethernet Service, cancellation charges will apply, even when nonrecurring installation charges would otherwise be waived. Cancellation charges will be calculated based on the number of calendar days between the Company's receipt of the Access Order and the cancellation date. A cancellation charge will apply on a per port connection basis as shown in the table below:

<u>USOC</u>	Cancellation Date – Calendar Days After Receipt of Order	Cancellation Charge (Per Port Connection)
<u>NRFSC</u>	0-10	\$0.00
<u>NRFSD</u>	11-30	\$650.00
<u>NRFSE</u>	31- 60	\$2,000.00
<u>NRFSE</u>	61+	\$3,000.00

- C. When a customer cancels an order service for BellSouth Dedicated Ring or SMARTRing service (a.k.a. BellSouth Dedicated Ring) prior to the beginning of the selected service period, the customer will be liable for all capital expenses incurred by the Telephone Company in provisioning the BellSouth Dedicated Ring or SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring), as of the date the order is canceled by the customer. The charges billed to the customer will not exceed an amount equal to the minimum period for the service as set forth in Section 6.1.3 of Tariff FCC No. 1 and Section E7.4 of this intrastate tariff at the month-to-month rates set forth in Sections E6.8 and E7.5 of this intrastate tariff. Such charges will be billed in addition to and subsequent to the cancellation charges set forth in Section E5.2.4.B.
- D. When an IC or End User cancels an order for the discontinuance of service, no charges apply for the cancellation.
- E. If the company misses a service date by more than 30 days due to circumstances over which it has direct control (excluding e.g., acts of God, government requirements, work stoppages and civil commotions), the IC or End User may cancel the Access Order without incurring cancellation charges.

E5.2.5 Selection of Facilities For Access Orders

- A. When an IC or End User places an Access Order, it may choose to utilize facilities it previously purchased as a facility to a Hub. If the IC has a high capacity interface or has a purchased facility, or has a Dedicated Access Service facility purchased to a Hub, the IC or End User must request that specific channels be used to implement the Access Order. If a facility assignment is not provided by the IC or End User, the Company will provide the service from available inventory as discussed in E5.3 following.
- B. For all other Access Orders, the option to request a specific transmission path or channel is not provided, except as provided for under Special Facilities Routing as set forth in Section E11.

E5.2.6 Minimum Period
