This is a standard feature of E911 service. No ANI/ALI data is provided when a call is sent to Default Routing.

- 8 ~~9~~) FIXED CALL EXTENSION - A feature which enables a PSAP attendant to extend incoming E911 calls to secondary PSAPs by use of a single button on the attendant console.
- 9 ~~10~~) FORCED DISCONNECT - A function of the E911 Central Office trunk circuit which enables the PSAP attendant to release a connection even though the calling party has not hung up. This feature prevents the jamming of the E911 exchange lines and is a standard feature of E911 service.
